FORM 6-K

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Report of Foreign Private Issuer

Business Report the fiscal year ended March 31, 2007

Pursuant to Rule 13a-16 or 15d-16

of the Securities Exchange Act of 1934

For the month of June 6, 2007

Commission File Number 09929

Mitsui & Co., Ltd.

(Translation of registrant's name into English)

2-1, Ohtemachi 1-chome Chiyoda-ku, Tokyo 100-0004 Japan

(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F:

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submitted to furnish a report or other document that the registrant foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated,

Edgar Filing: MITSUI & CO LTD - Form 6-K

domiciled or legally organized (the registrant's home country), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and, if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes _____ No X

If Yes is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82-

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Date: June 6, 2007

MITSUI & CO., LTD.

By: /s/ Kazuya Imai
Name: Kazuya Imai
Title: Executive Director
Executive Vice President

Chief Financial Officer

From the President

We are pleased to bring you the Business Report for our 88th fiscal year, which ended on March 31, 2007.

The economic environment was strong during the year, and we achieved consolidated net income of ¥301.5 billion and non-consolidated net income of ¥118.6 billion. Both these results are considerably higher than in the previous year.

An interim dividend of ¥17 per share has already been paid during the year, and we propose paying a year-end dividend of a further ¥17 per share. This represents a total dividend of ¥34 per share for the year ended March 2007, ¥10 per share higher than for the previous year.

In May 2006 we announced Medium-Term Management Outlook, our corporate vision for the next three to five years. Based on the ideas outlined in this document, we will continue to pursue the sustainable development of Mitsui and make every effort to increase corporate value.

We look forward to your continued support.

Shoei Utsuda

President and Chief Executive Officer

May 2007

BUSINESS REPORT

(April 1, 2006 to March 31, 2007)

PART I: BUSINESS REVIEW

OPERATING ENVIRONMENT

(1) Operating environment

During the year ended March 31, 2007, the global economy continued its broad-based expansion. In the United States, corporate profits remained robust and consumer spending continued to increase due to favorable employment and wage conditions, and despite an easing in housing investment, which had been overheating, the economy performed steadily overall. Asian economies continued to sustain high growth driven by further increases in capital investments and exports, particularly in China. In Europe, the economy demonstrated a clear recovery trend, as illustrated by the growth of exports in Germany.

This broad-based expansion of the global economy underpinned strong international commodities markets. Prices of crude oil, non-ferrous metals and other commodities reached record-high levels in the summer, and despite falling thereafter, remain at high levels.

The global trend towards moderately higher interest rates continued. In the United States, the Federal Reserve Board, which once continued to raise interest rates progressively since June 2004, kept the rate constant since June 2006. In Europe, the European Central Bank continued to raise interest rates, a move which started in 2005.

The Japanese economy continued its solid recovery. Exports continued to increase, bolstered by global economic expansion and the weakening yen. Strong corporate sector results led to high growth in capital investment, while improvements in employment and wages led to firmer consumer spending. The Bank of Japan decided to terminate its zero interest rate policy in July 2006, and raised the policy interest rate in February this year, based on the robust recovery of the economy and consumer prices turning positive. In foreign exchange rates, the yen weakened, particularly against the Euro, towards its lowest ever level.

GROUP BUSINESS PROGRESS AND RESULTS

1. PROGRESS ON MEDIUM-TERM MANAGEMENT OUTLOOK

1 MEDIUM-TERM MANAGEMENT OUTLOOK

We have finalized our Medium-Term Management Outlook, announced in May 2006, based on a company-wide consideration of the kind of business models that we should seek to develop over the next three to five years. The key elements of the approach outlined in this plan are:

- 1 Building a business portfolio that meets the needs of customers and society
- 1 Leveraging business engineering capabilities across Mitsui Group Companies and optimizing resource allocation
- 1 Prioritizing the development of human resources. In this respect we intend to build on our existing values of *challenge and opportunity* and *freedom and open-mindedness* with additional emphasis on *fairness, humbleness* and *compliance*. We intend to form and foster a diverse pool of capable personnel

(1) Quantitative image 3-5 years ahead in the Medium-Term Management Outlook

Looking ahead three to five years, risks in the operating environment include political, economic and environmental factors. Notwithstanding these risks, we believe that the currently favorable operating environment with simultaneous growth in different regions of the world, and strong upstream markets for mineral resources, energy and materials is likely to continue. Based on this assumption, we envisage achieving the parameters over the next three to five years as illustrated in the chart on the right.

(2) Four key strategies of the Medium-Term Management Outlook

(i) Development of Strategic Business Portfolio

1 We have developed key policies based on dividing up the Group's business into four areas, as outlined below.

Mineral Resources & Energy	<p>(1) Complete the development of large-scale projects such as Sakhalin II and the Enfield Oil Field. Expand existing projects such as the LNG project in Western Australia and iron ore and coal production in Australia</p> <p>(2) Ensure the liquidity of our equity production interests and carry out recycling</p> <p>(3) Invest selectively in emerging regions and new business domains</p>
Global Marketing Networks	<p>(1) Actively invest in our operating base with the objective of strengthening our various logistics and IT capabilities and focus allocation of human resources to growth fields</p>
(particularly steel products, machinery and chemical products)	<p>(2) Strengthen partnerships with quality customers and evolve our SCM capabilities</p> <p>(3) Strengthen initiatives in growth region Asia and the automotive, IT and energy business fields</p>
Consumer Services	<p>(1) Pursue initiatives in media and information, healthcare and medical, and senior living industries</p> <p>(2) Develop new consumer-oriented businesses and strengthen related logistics business</p>
Infrastructure	<p>(1) Develop business portfolio positioning power generation, water supply, energy and transportation as strategic industrial fields</p> <p>(2) Pursue synergies with other business areas</p>

1 Under the coordination of the Portfolio Management Committee that we established in April 2006, we will further refine our investment evaluation criteria, and seek to recycle existing investments, by reviewing their viability and taking into account the need to generate cash flow for new investments. Furthermore, accompanying a review of our business portfolio, we will allocate and shift human resources from a group-wide perspective in a more dynamic fashion.

Through this company-wide portfolio strategy, we expect to make new investments totaling approximately ¥800 billion in the first two years of the Medium-Term Management Outlook, and divest assets totaling approximately ¥100-200 billion.

(ii) **Evolution of business models leveraging business engineering capabilities**

We will focus on consumer-oriented services in Japan that show the greatest potential for growth. We will pursue business development in new fields, such as the development of environment businesses such as emission rights trading and recycling, and new energy businesses such as biomass ethanol. We will seek to leverage across the Group our strengths in logistics, finance and IT, and actively promote joint operations among business units.

(iii) Implementation of global strategies

We will develop a broad, cross-border product strategy based on the regional business units we have created for the Americas, Europe and Asia. We will employ and foster the development of a diverse group of personnel at overseas trading and other subsidiaries and associated companies around the world.

(iv) Reinforcing the management framework to support growth

Under our revised corporate staff organization we are pursuing an efficient risk management approach. We are strengthening our corporate governance system, such as by increasing the number of external directors and external corporate auditors, and bolstering our internal control system, such as through working to ensure compliance with Section 404 of the U.S. Sarbanes-Oxley Act (SOX-404), which became applicable to us for the year ended March 31, 2007.

We are developing evolving as a business that meets the needs of customers and society, while engaging in CSR-oriented management worthy of Mitsui, such as through engaging in environmental issues and contributing to society.

2 PROGRESS ON MEDIUM-TERM MANAGEMENT OUTLOOK AND BUSINESS PLAN FOR THE YEAR ENDED MARCH 31, 2007

1. PROGRESS ON KEY INITIATIVES

(i) Development of strategic business portfolio

1 Progress on investment plans and key policies in each business area

In the year ended March 31, 2007, we made the following progress in each of our four business areas. During the period we made major investments of approximately ¥460 billion.

1. MINERAL RESOURCES AND ENERGY BUSINESS

We continued to make progress on large-scale projects already under development, along with carefully selecting new investment projects, and actively engaging in the sale of existing assets through further portfolio review.

The Enfield oil development in Australia, a project that we joined in May 2004, began production in July 2006. Our total investment in the Sakhalin II project was ¥415.5 billion as of the end of March 2007, an increase of ¥110.0 billion from the end of March 2006 (Including the impact of exchange rate changes). For an update on the progress of the Sakhalin II project please also see Key Issues to Address on page 20.

The Sakhalin II Project

During the year we invested a total of ¥57.8 billion in Australian iron ore and coal mining business, as part of our plan to increase production capacity.

During the year we invested ¥53.8 billion to acquire oil and gas interests in the offshore Gulf of Mexico, through Pogo Producing Company of the United States. We also increased our shareholding in Mitsui Oil Exploration Co., Ltd. (MOECO), to 50.3% of the voting rights, thereby changing its status from associated company to subsidiary. Furthermore, in April 2007, in the scrap metal business, we decided to acquire shares with voting rights of 19.9% of the Australian company Sims Group.

The iron ore and coal
business in Australia

In April 2007, we sold our shares of Sesa Goa Ltd. of India for US\$981 million, after careful consideration of our global portfolio in the iron ore business.

2. GLOBAL MARKETING NETWORKS BUSINESS, SUCH AS IRON AND STEEL PRODUCTS, AUTOMOBILES AND CHEMICALS

We took further steps to strengthen our multi-functional global operating network in raw materials procurement and product sales, acquiring key businesses to support our goal of creating new value.

In February 2007 we reached agreement with the management of a major U.S. steel processing service center, Steel Technologies, Inc. to acquire its business.*

The Onslow Salt Field in Australia

In June 2006, we invested ¥7.2 billion to acquire the Onslow salt field in Australia, in response to rising demand in Asia for salt for use as a raw material in the chlor-alkali industry. Furthermore, in September 2006, we launched an initiative in the automobile parts business, acquiring newly issued shares in automobile parts manufacturer Asahi Tec Corporation, which was implementing a capital increase.

In this business area, we are focusing on the strategic domains of automobiles, household appliances, IT and energy, and are seeking to strengthen our relationships with domestic and overseas manufacturers and customers, primarily in the growth region of Asia. At each level of the logistics process, from raw material procurement through the sale of end products, we seek to develop and maintain high added value supply chains in ways that reflect changes to markets and technology. In each business unit, we are prioritizing the allocation of human resources and capital to the most promising operations, while integrating or re-engineering our business portfolio.

* The acquisition price is US \$530 million, and the acquisition itself is subject to final approval at an extraordinary meeting of shareholders of Steel Technologies, Inc. to be held by the end of June 2007.

3. CONSUMER PRODUCTS AND SERVICES BUSINESS

We are continuing to focus our operations on new business domains.

We invested ¥27.0 billion to acquire 5% of the voting rights in Recruit Co., Ltd (Recruit), a leading Japanese human resources and information services company. We already collaborate with Recruit in medical/health-care businesses, and have agreed to jointly explore broad cooperation in areas such as senior care and media-related operations.

Brightstar Corp. in the United States

We completed a ¥9.4 billion acquisition of shares of major U.S. mobile handset distributor Brightstar Corp. along with those of its local subsidiary in Singapore, with the aim of expanding our mobile phone business in the Asia-Pacific region.

In the Foods & Retail segment, we engaged in measures to improve the performance of MITSUI FOODS CO., LTD. as part of a comprehensive operational alliance with KOKUBU & CO., LTD.

4. INFRASTRUCTURE PROJECTS BUSINESS

Our efforts were directed at selectively investing in superior project opportunities while seeking to develop synergies with other sectors.

In the overseas power generation business, we further strengthened our alliance with International Power Plc during the year, and in March 2007 signed an approximately ¥20.0 billion agreement to consolidate a number of power generating assets in the U.K., resulting in an increase of 260MW of generating capacity owned by Mitsui on an equity basis. In other energy-related operations, we invested ¥27.5 billion for the acquisition of a Brazilian gas distribution business under our alliance with Brazilian company Petrobras.

We also invested ¥10.3 billion to acquire newly-issued shares of Toyo Engineering Corporation Ltd., consistent with our policy of engaging in partnerships in the infrastructure projects business, which is growing in all regions.

1 Continuous review of business portfolio based on Mitsui's business strategy

Centered on the activities of the Portfolio Management Committee, which was established in April 2006, we are rigorously examining subsidiaries and associated companies, along with other matters such as our investment securities and our standards for business investment and withdrawal. Accordingly, the committee has examined the portfolio strategy of each business unit, along with progress on asset recycling. Reflecting these activities, in the year under review we implemented a sale of shares of listed companies including Toho Titanium Co., Ltd. and other existing investments. We are continuing to focus on development and reorganization of the business portfolio throughout Mitsui with emphasis on the following points:

Stronger monitoring of the role companies have in generating additional functional and cash flow value for Mitsui

Company-wide allocation of human resources to reflect new investments and reorganization of existing operations

(ii) Evolution of our new business models leveraging business engineering capabilities

We have been pursuing initiatives to commercialize new business models, including cross-organizational activities involving all levels of business units.

As part of measures to develop businesses in new areas, we have pursued a cooperative agreement with Recruit as noted above, and formed alliances with companies such as Tokyo Broadcasting System, Inc. (TBS) and Shochiku Co., Ltd. to foster media content businesses in mobile phones, the internet, and a range of IT environments. We have also continued preparations for the introduction of BS digital broadcasting, scheduled to commence in December 2007.

In the biomass and energy-related fields, we are researching opportunities to commercialize the production and sale of Brazilian bioethanol and related products in collaboration with Petroleo Brasileiro S.A. of Brazil, and proceeding with company-wide, cross-divisional efforts with regard to possibilities in areas such as the distribution and trading of biodiesel and bioethanol in Europe and investment in manufacturing operations in the United States. Further, in November 2006 we acquired SunWize Technologies, LLC, a U.S. solar technology company that specializes in the design and distribution of solar power systems.

In December 2006, we established Business Operating Area Strategic Committees covering five areas—media & communications, medical & healthcare, tramp market, automobiles and agriculture-related business—marking the start of an initiative to increase our operating capabilities and identify areas for strategic growth through joint activities across multiple business units.

(iii) Implementation of global strategy

To strengthen our product strategy in the broad economic regions of the Americas, Europe and Asia, we established the Regional Business Unit system in April 2006. In April 2007 we refined this system by expanding Europe to include the Middle East and Africa, while expanding Asia to include Oceania. We also adopted systems in each regional headquarters to hire and foster talented employees and increase the diversity of our human resources. We will continue to review our company-wide HR policy in this direction.

(iv) **Enhancing management systems to support growth**

In the Annual Meeting of Shareholders held in June 2006, we increased the number of external directors and external auditors by one each, as part of our initiatives to strengthen our corporate governance system. Meanwhile, Section 404 of the U.S. Sarbanes-Oxley Act has become applicable to Mitsui for the fiscal year ended March 31, 2007. Mitsui and its subsidiaries have adopted necessary systems covering all companies, and have also completed self-evaluation of the effectiveness of internal control systems relating to accounting, results reporting, IT and operational processes. We are also continuing external audits relating to the effectiveness of internal systems for financial reports. In CSR-oriented management, we are focusing on awareness-raising activities, such as through holding company-workshops for all employees to reflect upon "What constitutes good work?" We are also supporting and promoting activities for the resolution of global environmental problems, through the aid activities of the Mitsui Environmental Fund and other initiatives.

Tree-planting by volunteers supporting the activities of the Mitsui Environmental Fund

2. PROGRESS ON QUANTITATIVE TARGETS

For the year ended March 31, 2007, we recorded net income of ¥301.5 billion. For a detailed breakdown, please see pages 10 to 17 of the Business Report, "2. Outline of Operating Results and Financial Condition." A quantitative range of net income for the next three to five years in the Medium-Term Management Outlook was ¥300-400 billion, approximately 50% of which was expected to be attributable to the Mineral Resources & Energy area. For the year ended March 31, 2007, Mineral Resources & Energy contributed approximately 60% of total net income.

As a result of increases in new investments and trade receivables in the Mineral Resources & Energy and Infrastructure Projects field, total assets as of March 31, 2007 were ¥9.8 trillion, an increase of ¥1.2 trillion from March 31, 2006. Furthermore, as a result of increased net income in the fiscal year under review, shareholders' equity as of March 31, 2007 was ¥2.1 trillion, with ROE* for the period at 15.9%.

* ROE = Net income/Shareholders' equity

2. OUTLINE OF OPERATING RESULTS AND FINANCIAL POSITION

1 OPERATING RESULTS OF THE GROUP

In the fiscal year under review, the global economy expanded steadily, with a continued increase in trade and rising prices of commodities.

- 1 **Total Trading Transactions** increased by ¥0.5 trillion over the previous comparable period to ¥15.4 trillion, and **gross profit** increased by ¥85.4 billion to ¥903.7 billion. Approximately one-half of the increase in profits was attributable to higher profits in mineral resource and energy related businesses. Oil and gas producing subsidiaries in the Middle East and Australia, and iron ore subsidiaries in Australia increased profits substantially, driven by higher prices and increased production volumes. Furthermore, machinery such as automobiles, chemicals and iron and steel products generated increased profits throughout the world, against a backdrop of strong demand.

- 1 **Operating income*** increased by ¥40.7 billion over the previous year to ¥308.9 billion. While gross profit increased significantly, as mentioned above, selling, general and administrative expenses increased ¥31.4 billion, and the provision for doubtful receivables increased by ¥13.3 billion.

* Operating income = gross profit - selling, general and administrative expenses - provision for doubtful receivables

- 1 **Income from continuing operations before income taxes, minority interests and equity in earnings** increased by ¥51.8 billion to ¥330.1 billion. In addition to the increase in operating income, the major factors were as follows:

Dividend income increased ¥19.4 billion, with a major contribution from the LNG Projects in the Middle East. However, interest expenses increased ¥20.7 billion in line with increased interest bearing debt for investments for mineral resources and energy development, such as for the Sakhalin II project, and as a result of the rise in U.S. dollar interest rates.

In securities and fixed assets gains and losses, gains on the sales of securities increased ¥21.0 billion from the previous fiscal year, as a result of active sale particularly of listed securities. However, we recorded impairment losses of ¥16.5 billion on goodwill and ¥12.1 billion on intangible assets at Mitsui Norin Co., Ltd. (Japan) in the Foods & Retail Business Unit.

In the previous fiscal year, compensation and other charges related to the DPF incident came to ¥9.0 billion, but in the year under review we recorded a gain of ¥3.9 billion from the reversal of accrued costs in preceding years.

- 1 **Equity in earnings of associated companies** increased ¥58.8 billion to ¥153.1 billion. Compania Minera Dona Ines de Collahuasi SCM (Chile), Japan Australia LNG (MIMI) Pty. Ltd. (Australia), which conducts LNG business, and Valepar S.A. (Brazil) recorded substantial increases in profits, in line with rising prices of crude oil, iron ore and copper and increased production volumes.

As a result of these developments, for the fiscal year ended March 31, 2007, the Group recorded **net income** of ¥301.5 billion, ¥99.1 billion higher than the ¥202.4 billion recorded in the previous year.

2 RESULTS BY OPERATING SEGMENT

- 1 **Iron & Steel Products:** Net income for fiscal year ended March 31, 2007 was ¥20.6 billion, an increase of ¥1.2 billion. Reflecting a continued tight international supply and demand balance and strong economic performance in Japan, steel materials markets performed robustly, and gross profit in the segment increased, with a strong contribution from trading of high-end products such as steel tubular products, line steel pipes, and steel plates for shipbuilding and automobiles. Furthermore, gains from sales of securities, particularly of listed securities in Japan, increased.

- 1 **Iron & Steel Raw Materials and Non-Ferrous Metals:** Net income for the fiscal year under review was ¥103.8 billion, a major increase of ¥49.1 billion. Gross profit increased by ¥11.5 billion, as iron ore prices increased compared to the previous fiscal year. Equity in earnings of associated companies increased by ¥31.7 billion. Valepar S.A. (Brazil), supported by across-the-board rises in mineral resource prices, and Compania Minera Dona Ines de Collahuasi SCM (Chile), which engages in copper business and benefited from rising copper prices, recorded increases in earnings. In addition, gains on sales of securities, particularly of securities listed in Japan, increased. Aluminum smelting subsidiary Mitalco Inc. (United States) recorded an impairment loss on fixed assets in the previous fiscal year.

- 1 **Machinery & Infrastructure Projects:** Net income for the fiscal year under review was ¥33.6 billion, an increase of ¥3.0 billion. Profits increased across the board at overseas automobile and construction machinery subsidiaries and associated companies. In the infrastructure business, successful operations at overseas power producing businesses such as IPM Eagle LLP (United Kingdom) and P.T. Paiton Energy (Indonesia) led to increased earnings, and there was also a new contribution from a gas distribution business in Brazil.
- 1 **Chemical:** Net income for the fiscal year under review was ¥19.3 billion, an increase of ¥7.2 billion. Basic petrochemical raw materials and mid-stream petrochemical intermediate products both continued to record high levels compared to the previous year, and IT-related parts business, plastics, resources for sulfur, salt and others, and inorganic raw materials performed well, driven by strong demand, particularly in Asia. The impact from compensation and other charges related to the DPF incident is as explained earlier.
- 1 **Energy:** Net income for the fiscal year was ¥70.2 billion, an increase of ¥29.3 billion. Gross profit increased by ¥27.9 billion, due to contributions from the start of production at the Enfield Oil Field in Australia, and the consolidation of MOECO, formerly an associated company, as well as rising oil prices, which more than offset the loss recorded on naphtha trading at Mitsui Oil (Asia) Pte. Ltd. (Singapore). Equity in earnings of associated companies also increased ¥10.5 billion. This was attributable to increases at associated companies engaged in crude oil and natural gas exploration, development and marketing (such as Japan Australia LNG (MIMI) Pty. Ltd. (Australia)). Dividend income from LNG Projects in the Middle East largely increased, but higher interest expenses due to increased investments were recorded for the Sakhalin II project.
- 1 **Foods & Retail:** Net loss for the fiscal year under review was ¥12.3 billion, compared to net loss of ¥3.2 billion recorded in the previous fiscal year. Mitsui Norin Co., Ltd. (Japan) recorded impairment losses on goodwill and intangible fixed assets and established a valuation allowance for deferred tax assets, in line with a worsening of its operating performance. Furthermore, MITSUI FOODS CO., LTD. (Japan) recorded expenses resulting from business reorganization.

- 1 **Lifestyle, Consumer Service and Information, Electronics & Telecommunication:** Net income for the fiscal year under review was ¥16.6 billion, a decrease of ¥0.9 billion. Textiles performed poorly, which was mainly attributable to the brand business, whereas there were positive contributions in consumer services related business from the overseas real estate business and television shopping service company QVC JAPAN, INC. (Japan), and in Information, Electronics and Telecommunication from mobile phone sales company Brightstar Logistics Pty. (Australia).
- 1 **Logistics & Financial Markets:** Net income for the fiscal year under review was ¥14.6 billion, an increase of ¥1.2 billion. Trading was strong, particularly in derivative commodities.
- 1 **Americas:** Net income for the fiscal year under review for the Americas was ¥16.9 billion, an increase of ¥4.2 billion. Income from petroleum trading increased at the subsidiary Westport Petroleum Inc. (United States), and a logistics subsidiary and a chemicals subsidiary recorded gains on sale of fixed assets.
- 1 **Europe, Asia and Other Overseas:** Net income for the fiscal year under review for Europe was ¥3.9 billion, a decline of ¥0.3 billion. Net income for Asia was ¥7.9 billion, a decrease of ¥1.4 billion. Both declines were due to factors such as increased costs. Net income in Other Overseas was ¥14.4 billion, an increase of ¥0.1 billion.

For total trading transactions, gross profit, operating income, equity in earnings or losses of associated companies, and net income (loss) by operating segment, please refer to pages 49-50 of this document, Operating Segment Information .

On a non-consolidated basis, sales for the fiscal year ended March 31, 2007 were ¥11.4 trillion. Gross profit was ¥213.1 billion, and net income was ¥118.6 billion. For details, please refer to pages 51 - 56 of this document, Balance Sheets and Statements of Income .

3 FINANCIAL CONDITION OF THE GROUP

Total assets as of March 31, 2007 were ¥9,813.3 billion, an increase of ¥1,239.7 billion from ¥8,573.6 billion as of March 31, 2006.

1 Current assets as of March 31, 2007 were ¥5,073.8 billion, an increase of ¥327.0 billion from ¥4,746.8 billion as of March 31, 2006. This was mainly attributable to increases in trade receivables at segments such as Iron & Steel Raw Materials and Non-Ferrous Metals; Machinery and Infrastructure Projects; and Iron & Steel Products, reflecting increased business transactions. Current liabilities as of March 31, 2007 was ¥3,810.2 billion, an increase of ¥299.3 billion from ¥3,510.9 billion as of March 31, 2006. The increase was primarily attributable to increases in trade payables corresponding to the increases in current assets, and increases in short-term debt by ¥118.0 billion at Mitsui and overseas financing subsidiaries.

1 Aside from current assets, the sum of total investments and non-current receivables, property and equipment at cost, and other assets as of March 31, 2007 totaled ¥4,739.5 billion, an increase of ¥912.8 billion from ¥3,826.7 billion as of March 31, 2006. Within total investments and non-current receivables, investments in and advances to associated companies as of March 31, 2007 was ¥1,587.6 billion, a ¥287.0 billion increase from ¥1,300.6 billion as of March 31, 2006. The major components were: the Sakhalin II project for ¥110.0 billion; the acquisition of gas distribution operations in Brazil; and the acquisition of shares in Asahi Tec Corporation (Japan), Moshi Moshi Hotline Inc. (Japan), and Toyo Engineering Corporation (Japan).

Other investments totaled ¥1,238.9 billion, an increase of ¥303.2 billion from ¥935.7 billion as of March 31, 2006. The main components were: the acquisition of shares in Recruit Co., Ltd. (Japan); investment in the partnership that owns Skylark Co., Ltd. Other than these, shares in INPEX Holdings Inc. for ¥180.3 billion held by MOECO were recorded as a result of the acquisition of MOECO.

Property leased to others at cost, less accumulated depreciation was ¥259.2 billion, a ¥40.6 billion increase from ¥218.6 billion as of March 31, 2006.

Property and equipment at cost as of March 31, 2007 was ¥988.3 billion, an increase of ¥242.1 billion from ¥746.2 billion as of March 31, 2006. Major components were as follows: investment in oil and gas projects (offshore Gulf of Mexico in America, Enfield and Vincent oil fields in Australia, Tui oil field in New Zealand, the oil and gas project in Oman), and in iron ore and coal mining projects in Australia; acquisition of the Onslow Salt Field in Australia; and others.

- 1 Long-term debt, less current maturities as of March 31, 2007 was ¥2,887.5 billion, an increase of ¥228.8 billion from ¥2,658.7 billion as of March 31, 2006. The main components were: an increase in borrowings from financial institutions associated with funding for various investments at Mitsui, Mitsui & Co. (U.S.A.), Inc. and subsidiaries which are engaged in the ocean vessels business and leasing businesses.
- 1 Shareholders' equity as of March 31, 2007 was ¥2,110.3 billion, an increase of ¥432.4 billion from ¥1,677.9 billion as of March 31, 2006. This was primarily due to: a ¥54.8 billion increase due to conversion of bonds etc.; an increase in retained earnings by ¥248.1 billion; net improvement in foreign currency translation adjustments by ¥73.9 billion due to a stronger Australian dollar, U.S. dollar and Euro against the Japanese yen; and net improvement in unrealized holding gains on available-for-sale securities of ¥42.8 billion.

3. OUTLINE OF FINANCING AND CAPITAL EXPENDITURE

1 FINANCING

- 1 Mitsui borrowed a total of ¥328.7 billion in long-term loans from sources such as life insurance companies and banks, and issued domestic ordinary bonds of ¥90.0 billion (maturing from August 18, 2016 to March 20, 2019) by five occasions. Foreign trading subsidiaries and Foreign and Domestic financing subsidiaries utilize short-term and long-term borrowing, commercial paper, and the issuance of medium-term notes, and other consolidated subsidiaries obtained financing through short-term and long-term borrowing.

2 CAPITAL EXPENDITURE

- 1 Capital expenditure during the consolidated fiscal year under review included ¥57.8 billion in the Iron & Steel Raw Materials and Non-Ferrous Metals segment in expanding coal and iron ore operations in Australia, ¥53.8 billion in the Energy segment for acquisition of oil and gas rights in the Gulf of Mexico in the United States, and ¥36.8 billion investment in facilities in operations such as Enfield and Vincent in Australia, Tui in New Zealand and oil and gas operations in Oman.

TRENDS IN VALUE OF GROUP ASSETS AND PROFITABILITY**1 TRENDS IN VALUE OF ASSETS AND PROFITABILITY (CONSOLIDATED)**

(Millions of Yen, Except Net Income per Share)

	85 th Fiscal Year	86 th Fiscal Year	87 th Fiscal Year	88 th (Current) Fiscal Year
Total Trading Transactions	¥ 12,270,379	¥ 13,583,908	¥ 14,885,772	¥ 15,357,656
Gross Profit	611,297	708,240	818,290	903,678
Net Income	68,387	121,136	202,409	301,502
Net Income per Share (Yen)	43.25	76.55	126.26	174.26
Net Assets	963,278	1,122,828	1,677,907	2,110,279
Total Assets	6,716,028	7,593,387	8,573,578	9,813,312

Notes:

- The figures shown in this table have been prepared on the basis of accounting principles generally accepted in the United States of America (U.S. GAAP). Total Trading Transactions is a voluntary disclosure and represents the gross transaction volume of the nominal aggregate value of the sales contracts in which Mitsui & Co., Ltd. and its subsidiaries (collectively the companies) act as principal and transactions in which the companies serve as agent. Total Trading Transactions is not meant to represent sales or revenues in accordance with US GAAP. The companies have included the information concerning Total Trading Transactions because it is used by similar Japanese trading companies as an industry benchmark, and the companies believe it is a useful supplement to results of operations data as a measure of the companies performance compared to other similar Japanese trading companies.
- In accordance with Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, the prior year figures relating to discontinued operations have been reclassified.
- Figures less than ¥1 million and figures less than ¥1/100 (in the case of Net Income per Share) are rounded.

2 TRENDS IN VALUE OF COMPANY ASSETS AND PROFITABILITY (NON-CONSOLIDATED)

(Millions of Yen, Except Net Income per Share)

	85 th Fiscal Year	86 th Fiscal Year	87 th Fiscal Year	88 th (Current) Fiscal Year
Sales	¥ 9,936,896	¥ 10,415,768	¥ 11,378,886	¥ 11,407,301
Net Income	11,753	36,260	74,484	118,588
Net Income per Share (Yen)	7.38	22.91	46.31	68.53
Net Assets	702,674	742,741	1,091,007	1,233,398
Total Assets	4,223,061	4,529,139	4,962,510	5,369,989

Notes:

- Net Income per Share was computed based on the average number of shares outstanding during the fiscal year.

Edgar Filing: MITSUI & CO LTD - Form 6-K

2. Beginning with the 85th fiscal year, the Company has adopted Accounting Standards for Impairment of Fixed Assets.
3. In the year ended March 31, 2006 (8th fiscal year), the Company changed accounting for retirement benefits and accounting for precious metals forward contracts.
4. Beginning with the current fiscal year, the Company has applied Accounting Standards for Bonuses to Directors , Accounting Standards Presentation of shareholders equity , Accounting Standards Relating to Business Combinations and Accounting Standards Relating to Business Separation . Please see page 60, Changes to Accounting Policies, for details.
5. Figures less than ¥1 million and figures less than ¥1/100 (in the case of Net Income per Share) are truncated.

KEY ISSUES TO ADDRESS**1 MANAGEMENT PLAN THROUGH MARCH 2008**

For the year ending March 2008, we are optimizing our strategic business portfolio and pursuing other measures under the four main policies outlined in our Medium-Term Management Outlook. Forecast net income and other items for the year ending March 2008 is as follows.

(Billions of yen)

	Forecast for FY ending March 31, 2008	FY ended March 31, 2007	Change
Gross profit	940.0	903.7	36.3
Operating income	330.0	308.9	21.1
Equity in earnings of affiliates	140.0	153.1	(13.1)
Net income	370.0	301.5	68.5

In the mineral resources and energy segments*, the sale of our entire stake in Indian iron ore mining company, Sesa Goa Ltd; part of Mitsui's stake in Sakhalin II; and assets held in Wandoo Petroleum Pty Limited in Australia are reflected in higher estimated earnings for the year. Although benchmark grade iron ore contract prices for the year have increased 9.5%, oil prices have been forecast at US \$58 per barrel, US \$6 lower than in the previous year. Other operating segments, such as Machinery & Infrastructure Projects and Chemical, are also forecast to perform well in a favorable business environment. In the Foods & Retail segment, net income is expected to recover after the negative impact of impairment losses on goodwill and fixed assets recorded for Mitsui Norin Co., Ltd. (Japan) in the previous year.

* In April 2007, some business units within Mitsui were reorganized. These changes included the shift of new energy operations such as coal business and carbon credit trading business from Iron & Steel Raw Materials and Non-Ferrous Metals to the Energy segment, with the remaining operations renamed as Mineral & Metal Resources.

2 SAKHALIN II

On April 18, 2007, the shareholders of Sakhalin Energy Investment Company Ltd. (Sakhalin Energy), operator of the Sakhalin II project, signed a sale and purchase agreement with OAO Gazprom (Gazprom) for the transfer of shares in Sakhalin Energy. The shareholders of Sakhalin Energy Investment Company Ltd. are Royal Dutch Shell plc (Shell), Mitsui & Co., Ltd. and Mitsubishi Corporation. As a result of the agreement, Gazprom now holds 50% plus one share, Shell 27.5% minus one share, Mitsui 12.5% and Mitsubishi Corporation 10%. The total transaction amount was US \$7.45 billion, of which Mitsui's proceeds were US \$1.8625 billion.

In addition, the Ministry of Natural Resources of the Russian Federation announced its approval of the revised Environmental Action Plan on April 16, 2007. This plan was prepared by Sakhalin Energy with input from all its shareholders, including Gazprom, and it covers environmental points with regard to fish stock and rare flora and fauna species.

The four shareholders will now move ahead as rapidly as possible to commence the first shipments of LNG on schedule to customers already contracted in Japan, Korea and the West Coast of the United States, and are making every effort to complete construction of the Sakhalin II project.

3 NAPHTHA TRADING LOSS AT MITSUI OIL (ASIA) PTE. LTD (Singapore)

In November 2006 it was discovered that a trader at Mitsui Oil (Asia) Pte. Ltd had concealed unrealized losses on naphtha trading positions that resulted in a loss of ¥9.6 billion when unwound. The Singapore police force, after receiving Mitsui Oil (Asia) Pte. Ltd.'s report of the situation, commenced investigations into the matter. We have since implemented a review of our centralized control of market risk exposure and revision of our loss limit system, and have continued to strengthen our trading administration systems of Mitsui Group companies.

PART II: CORPORATE OUTLINE

PRINCIPAL GROUP BUSINESS (AS OF MARCH 31, 2007)

The Group operates in the following segments: Iron & Steel Products; Iron & Steel Raw Materials and Non-Ferrous Metals; Machinery & Infrastructure Projects; Chemicals; Energy; Foods & Retail; and Lifestyle, Consumer Service and Information, Electronics & Telecommunication. 3. Remuneration of Directors and Corporate Auditors

The remuneration of the Company's Directors and Corporate Auditors was as follows:

	Number of recipients	Total remuneration paid relating to the year ended March 31, 2007
Directors	11	¥ 884 million
Corporate Auditors	6	¥ 127 million
External Directors and Corporate Auditors (included in the above amounts)	7	¥ 61 million
Total	17	¥ 1,011 million

Notes:

- As of March 31, 2007 there were 10 directors and 6 corporate auditors.
- Limits on remuneration of Directors and Corporate Auditors have been determined by General Meeting of Shareholders resolutions as follows: for Directors, there is a total limit of ¥60 million per month (by resolution of June 27, 2002); for Corporate Auditors, there is a total limit of ¥12 million per month (by resolution of June 24, 2004).
- The above amounts include ¥271 million in bonuses for Directors (excluding external Directors), which is subject to approval at the 88th General Meeting of Shareholders on June 22, 2007.
- In addition to the above amounts, the company paid pensions and retirement compensation (including payments that were determined for payment before abolition of the pension system) of ¥628 million to Directors, and ¥67 million to Corporate Auditors.

4. External Directors and external Corporate Auditors

(1) External Directors

Name	Concurrent appointments as External officers or executive directors of other companies	
Akishige Okada	Sony Corporation	External Director
	Daicel Chemical Industries, Ltd.	External Director
	Hotel Okura Co., Ltd.	External Corporate Auditor
	Toyota Motor Corporation	External Corporate Auditor
	Mitsui Fudosan Co., Ltd.	External Corporate Auditor
Akira Chihaya	Nippon Steel Corporation	Representative Director and Chairman of Board of Directors
	Tekko Kaikan Co., Ltd	Representative Director and President
	Hitachi, Ltd.	External Director

Note 1: The Company has recurring transactions for the supply of steel raw materials to, and the purchase of steel products from, Nippon Steel Corporation, in which Director Akira Chihaya held the positions of Representative Director and Chairman of Board of Directors. There is no significant commercial relationship between the Company and Tekko Kaikan Co., Ltd. in which Akira Chihaya held the positions of Representative Director and President.

The Company has entered into agreements with its respective external Directors pursuant to Article 427(1) of the Corporate Law of Japan to limit their liability to the extent possible by law.

(2) External Corporate Auditors

Name	Concurrent appointments as external officers or executive directors of other organizations	
Ko Matsukata	Mitsui Life Insurance Company Limited	External Corporate Auditor
Yasutaka Okamura	Toyota Motor Corporation	External Corporate Auditor
Hideharu Kadowaki	Sagami Railway Co., Ltd	External Corporate Auditor
Naoto Nakamura	Eisai Co., Ltd.	External Director
	Asahi Breweries, Ltd.	External Corporate Auditor

1. The Company has entered into agreements with its respective external Corporate Auditors pursuant to Article 427(1) of the Corporate Law of Japan to limit their liability to the extent possible by law.

(3) Major activities of external Directors and external Corporate Auditors

Name	Position	Major activities
Akishige Okada	External Director	Director, Akishige Okada (Director, Mitsui & Co., Ltd., since June 2003) participated in 13 of the 14 Board of Directors meetings held during the fiscal year under review. He made statements mainly from the perspective of his high degree of knowledge and varied experience of the banking business.
Akira Chihaya	External Director	Director, Akira Chihaya (Director, Mitsui & Co., Ltd., since June 2004) participated in 8 of the 10 Board of Directors meetings held during the fiscal year under review until his passing and retirement as a director on 22 January 2007. He made statements mainly from the perspective of his high degree of knowledge and varied experience of the manufacturing business.
Nobuko Matsubara	External Director	Director, Nobuko Matsubara (Director, Mitsui & Co., Ltd., since June 2006) participated in all 11 Board of Directors meetings held during the fiscal year under review since her appointment in June 2006. She made statements mainly from the perspective of her high degree of knowledge and varied experience of labor disputes while working as a Japanese public servant.

(Netherlands), and Mitsui Iron Ore Development Pty Ltd and Mitsui Coal Holdings Pty Ltd are audited by Deloitte Touche Tohmatsu (Australia).

NECESSARY SYSTEMS TO ENSURE APPROPRIATE OPERATIONS

Mitsui's Board of Directors, ahead of the introduction of the Corporate Law of Japan in May 2006, approved at the Board of Directors meeting held on 29 March 2006, certain necessary systems to ensure appropriate operations (pursuant to Article 362(4)(6) of the Corporate Law of Japan), and these were published in outline in the Business Report for the fiscal year ending 31 March 2006 and in full text on Mitsui's webpage. Mitsui is working as hard as possible to appropriately operate these necessary systems to ensure appropriate operations, and while there appears to be no particular problem of content, these systems have been partially revised for further improvement, which revisions were approved by the Board of Directors meeting held on 28 March 2007. An outline of the revised systems follows (with the revisions in italics). Further detail can be found via the following link on Mitsui's webpage (<http://www.mitsui.co.jp/en/company/governance/02/index.html>).

1 SYSTEMS TO ENSURE THAT PERFORMANCE OF DUTIES BY DIRECTORS AND EMPLOYEES COMPLIES WITH LAWS AND REGULATIONS AND THE ARTICLES OF INCORPORATION

- (a) Mitsui recognises that compliance does not end with the observance of laws and regulations, but also includes a wider sense of ethics, and has made compliance by officers and employees in the course of carrying out their duties one of its most important priorities. Based upon this recognition, Mitsui has established **BUSINESS CONDUCT GUIDELINES FOR EMPLOYEES AND OFFICERS OF MITSUI & CO., LTD.**
- (b) Mitsui has established a Compliance Committee, headed by Chief Compliance Officer (CCO), with the objective of maintaining a compliance system. Moreover, Mitsui carries out compliance training and other measures to improve awareness of compliance issues, and has set up several avenues, both internal and external, for its employees to report, and consult, on compliance matters. Mitsui also conducts daily monitoring and periodical auditing to ensure its compliance regime is observed, and takes disciplinary actions on violations.
- (c) *Mitsui's Corporate Auditors, in their independent role and with a mandate from shareholders, monitor the observance of laws and regulations, and the Articles of Incorporation, amongst other things, by Directors and employees in the performance of their duties.*
- (d) *In order to strengthen the supervisory function of the Board of Directors, as well as appointing an appropriate number of external Directors and Corporate Auditors, Mitsui has established various advisory committees which include external Directors and Corporate Auditors as committee members, whereby Mitsui ensures transparency and objectivity of management.*

2 SYSTEMS TO STORE AND CONTROL INFORMATION RELATED TO DUTIES PERFORMED BY DIRECTORS COMPLIES WITH LAWS AND REGULATIONS AND THE ARTICLES OF INCORPORATION

Mitsui has placed its Director responsible for its Corporate Staff Divisions in charge of its information storage and control systems. Mitsui stores and controls material information related to duties performed by Directors, including minutes of General Meetings of Shareholders and the Board of Directors, in hard-copy or electronic format, in accordance with its Documentation Management Regulations and its Information Systems Regulations and relevant manuals.

3 REGULATIONS AND SYSTEMS RELATED TO MANAGEMENT OF RISK OF LOSS COMPLIES WITH LAWS AND REGULATIONS AND THE ARTICLES OF INCORPORATION

- a) By aligning business units to products and services, and regions (regional headquarters are located in: (i) the Americas; (ii) Europe, the Middle East and Africa; and (iii) Asia and the Pacific), the heads of Mitsui's business units and overseas operations manage these businesses within the scope of authority granted to them either under Mitsui's Rules on Delegation of Authority or as authorized through Mitsui's internal authorization system, and manage risks of losses (Risks) that arise from businesses within the scope of their authority.
- b) Mitsui's Corporate Staff Divisions, including the Corporate Planning and Strategy Division, the Investment Administration Division and the Credit Risk Management Division, have established and oversee an integrated risk management system to manage holistically the various Risks which Mitsui faces in its businesses. This risk management system is centered around the Internal Controls Committee and the Portfolio Management Committee, with each of the Corporate Staff Divisions cooperating with each other, to manage respective Risks for which they are primarily responsible for oversight.
- c) Mitsui has established systems in order to respond to Risks which occur both in ordinary times and in times of crisis, with the establishment of a Crisis Management Headquarters, headed by Mitsui's President, to respond to crises in accordance with the Crisis Management Headquarters Regulations *and the Business Continuity Management Regulations*.

4 SYSTEMS TO ENSURE EFFECTIVE AND EFFICIENT EXECUTION OF DIRECTORS' DUTIES

- a) Mitsui limits the number of its Directors to the maximum number which allows for effective discussion. The Board of Directors oversees each Director in the performance of his/her duties to check effective and appropriate management.
- b) In order to increase the efficiency with which the Directors perform their management duties, Mitsui has adopted an Executive Officer System. The Board of Directors appoints, and delegates authority and tasks to, Executive Officers.

- c) Mitsui has introduced systems where matters are discussed at a level appropriate to their materiality and importance. In line with this, Mitsui has established various committees, such as the Corporate Management Committee and the Portfolio Management Committee, to enhance efficient and appropriate management decisions.
- d) Mitsui has adopted business units aligned to its products and services, and regions, making it possible for each Chief Operating Officer to implement timely management decisions by delegating certain authority to them in accordance with Mitsui's rules of authority. Mitsui has implemented an internal authorization system for matters which are beyond the delegated authority of each Chief Operating Officer. Within such system, Mitsui's representative Director(s) makes a final decision in the best interests of the Company, following deliberations by the relevant Corporate Staff Divisions.
- e) *Mitsui has systems for the efficient conduction of business, whereby Medium-Term Management Outlook and annual business plans are created, and various management initiatives are implemented in accordance with those plans and forecasts, with the Board of Directors regularly checking upon progress.*

5 SYSTEMS TO ENSURE PROPER OPERATIONS IN THE GROUP

- a) Mitsui has implemented Rules for Supervising Officers of Subsidiaries and Associated Companies which, based on the general principle of the autonomy of its subsidiaries and associated companies, ensure that Mitsui's subsidiaries and associated companies report their operating results and financial conditions, enable Mitsui to establish and maintain appropriate group-wide management frameworks and provide for Mitsui's participation in the management and/or governance of its subsidiaries and associated companies as appropriate to its equity investor status. Supervising officers in charge of respective subsidiaries and associated companies are appointed to monitor these companies appropriately.
- b) Mitsui requires its major subsidiaries and associated companies to carry out regular auditing to check their compliance with laws and regulations as well as their internal rules and policies. Additionally, Mitsui reviews and analyses such results to promote improvement.
- c) *If Mitsui's subsidiaries or associated companies discover compliance breaches by Mitsui's officers or employees, or are requested to act in ways which may possibly constitute a compliance breach, there are avenues by which these matters can be reported to Mitsui's Compliance Committee both internally and externally.*

6 SYSTEMS RELATING TO EMPLOYEES ASSIGNED TO ASSIST CORPORATE AUDITORS, AND THE INDEPENDENCE OF SUCH EMPLOYEES FROM DIRECTORS

- a) The Corporate Auditor Division is resourced to assist Mitsui's Corporate Auditors, with three or more full time employees who are under the sole direction of Mitsui's Corporate Auditors.
- b) In order to ensure the independence of the Corporate Auditor Division from Mitsui's Directors, the organization and assignment of employees to the Corporate Auditor Division is determined by Mitsui's Representative Director with the approval of the Corporate Auditors.

7 SYSTEMS FOR DIRECTORS AND EMPLOYEES TO REPORT TO CORPORATE AUDITORS

- a) Corporate Auditors may attend Corporate Management Committee and other material meetings, may request copies of principal internal authorization and other material documents, may have regular meetings with the Chairman, the President, other Directors, the Executive Officers or other management staff, and may request reports from all management levels from time to time.
- b) *If Directors discover circumstances which carry the risk of serious loss or consequence to Mitsui, they promptly report the same to the Board of Corporate Auditors. Employees may also, as necessary, report or discuss compliance matters to or with Corporate Auditors.*
- c) Mitsui's Corporate Auditors visit its major subsidiaries and associated companies to conduct audits, and collaborate with the corporate auditors of those companies.

8 OTHER SYSTEMS TO ENSURE EFFECTIVE AUDITING BY CORPORATE AUDITORS

- a) The Directors familiarize themselves with the Auditing Standards for Corporate Auditors, recognize the importance and usefulness of auditing by Corporate Auditors and maintain an appropriate environment for auditing.
- b) The Corporate Auditors may request cooperation from the Internal Auditing Division, the Legal Division and the Accounting Division, as well as other divisions with regard to their auditing.
- c) The Corporate Auditors maintain close contact with Mitsui's independent auditors.
- d) The Corporate Auditors may request the assistance of full-time corporate legal counsel and other external expert professional advisors.

Notes to Consolidated Financial Statements (Year ended March 31, 2007)

Notes to Basic Significant Matters Regarding Preparation of Consolidated Financial Statements

1. Subsidiaries and Associated Companies

(1) Subsidiaries 315 companies
Mitsui & Co. (U.S.A.), Inc., Mitsui Iron Ore Development Pty. Ltd.,

Mitsui E&P Middle East B.V., Mitsui Coal Holdings Pty. Ltd.,

Mitsui Oil Exploration Co., Ltd., and others

(2) Associated companies accounted for under the equity method 176 companies
Japan Australia LNG (MIMI) Pty. Ltd., Valepar S.A.,

Sakhalin Energy Investment Company Ltd., and others

The number of companies listed above excludes affiliated companies which are consolidated or accounted for under the equity method by subsidiaries (other than overseas trading subsidiaries) and companies which are managed by overseas trading subsidiaries. Those excluded companies are totaled 375 as of March 31, 2007.

2. Summary of Significant Accounting Policies

(1) Basis of consolidated financial statements

The consolidated financial statements have been prepared on the basis of accounting principles generally accepted in the United States of America (U.S. GAAP), as provided for under the first clause of Article 148 of the accounting regulation of the Corporate Law of Japan. In accordance with the provision of the clause, certain disclosures required by U.S. GAAP have been omitted.

(2) Inventories

Stated at the lower of cost, principally on the specific-identification basis, or market.

(3) Debt and marketable equity securities

Statement of Financial Accounting Standards (SFAS) No. 115, Accounting for Certain Investments in Debt and Equity Securities, has been adopted.

Trading securities:	Carried at fair value. Unrealized holding gains and losses are included in earnings.
Held-to-maturity securities:	Measured at amortized cost. Premiums and discounts amortized in the period are included in interest income.
Available-for-sale securities:	Carried at fair value with related unrealized holding gains and losses reported in accumulated other comprehensive

Edgar Filing: MITSUI & CO LTD - Form 6-K

income in shareholders' equity on a net-of-tax basis. The cost of available-for-sale securities sold is determined based on the moving-average cost method.

(4) Depreciation of property and equipment

Principally the declining-balance method is used for assets located in Japan.

Principally the straight-line method is used for assets located outside Japan.

Either the straight-line method or the unit-of-production method is used for mineral rights.

(5) Allowances and Reserves

Allowance for doubtful receivables:

An impairment loss for a specific loan deemed to be impaired is measured in accordance with SFAS No. 114, *Accounting by Creditors for Impairment of a Loan*—an amendment of FASB Statements No. 5 and 15.

An allowance for doubtful receivables is recognized for all receivables not subject to the accounting requirement of SFAS No. 114 based primarily upon credit loss experiences of Mitsui & Co., Ltd. and subsidiaries (collectively, the *companies*) and an evaluation of potential losses in the receivables.

Pension costs and severance indemnities:

In accordance with SFAS No. 87, *Employers' Accounting for Pensions*, and SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*—an amendment of FASB Statements No. 87, 88, 106, and 132(R), accrued pension costs and the liability for severance indemnities for the employees' retirement benefits are accrued based on the projected benefit obligations and the fair value of plan assets as of March 31, 2007. In previous years, when accrued pension costs and the liability for severance indemnities are less than the difference between the accumulated benefit obligation, which differs from the projected benefit obligation in that it includes no assumption about future compensation levels, and the fair value of plan assets, an additional minimum liability is recognized.

The unrecognized prior service cost is amortized over the average remaining service period of employees.

The amount of the unrecognized net actuarial loss as of the beginning of the year, which exceeds 10 percent of the greater of the projected benefit obligation or the fair value of plan assets is amortized over 7 years for the contributory Corporate Pension Fund of Mitsui & Co., Ltd. (the *Company*) and over the average remaining service period for other defined benefit pension plans.

(6) All transactions are accounted for net of national and/or regional consumption taxes.

(7) Goodwill and other intangible assets

In accordance with SFAS No. 142, Goodwill and Other Intangible Assets, goodwill and identifiable intangible assets determined to have an indefinite useful life are not amortized but tested for impairment annually or more frequently if impairment indicators arise.

Identifiable intangible assets with a finite useful life are amortized over their respective estimated useful lives using the straight-line method.

(8) Total trading transactions

Total trading transactions, as presented in the accompanying Statements of Consolidated Income, are a voluntary disclosure as permitted by Financial Accounting Standards Board Emerging Issues Task Force Issue (EITF) No. 99-19, Reporting Revenue Gross as a Principal versus Net as an Agent, and represent the gross transaction volume or the aggregate nominal value of the sales contracts in which the companies act as principal and transactions in which the companies serve as agent. Total trading transactions should not be construed as equivalent to, or a substitute or a proxy for, revenues, or as an indicator of the companies' operating performance, liquidity or cash flows generated by operating, investing or financing activities. The companies have included the gross transaction volume information because similar Japanese trading companies have generally used it as an industry benchmark. As such, management believes that total trading transactions are a useful supplement to the results of operations information for users of the consolidated financial statements.

(9) Discontinued operations

In accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, the companies present the results of discontinued operations, including operations of a subsidiary that either has been disposed of or is classified as held for sale, as a separate line item in the Statements of Consolidated Income under income (loss) from discontinued operations net (after income tax effect). The figures of the Statements of Consolidated Income for the prior year related to the discontinued operations have been reclassified to conform to the current year presentation.

3. Summary of a Change in Significant Accounting Policies

Accounting for Pension Costs and severance indemnities

On March 31, 2007, the companies adopted the recognition provisions of SFAS No. 158

SFAS No. 158 requires the recognition of the overfunded or underfunded status of a defined benefit plan as an asset or liability in the statement of financial position and the recognition of changes in that funded status in comprehensive income in the year in which the changes occur.

Upon adoption of SFAS No. 158, Other Assets increased by ¥11,138 million and Total accumulated other comprehensive income increased by ¥6,646 million as of March 31, 2007.

Notes to Consolidated Balance Sheets

1. Assets pledged and related liabilities

(1) Assets pledged as security ¥429,965 million

The following assets were pledged as collateral:

Trade receivables (current and non-current)	¥138,503 million
Inventories	¥61,016 million
Investments	¥108,918 million
Property leased to others	¥52,343 million

Edgar Filing: MITSUI & CO LTD - Form 6-K

(net book value)	
Property and equipment	¥57,162 million
(net book value)	
Other	¥14,023 million

(2) Related liabilities ¥225,155 million

In addition to the above, bank borrowings under certain provisions of loan agreements which require the Company, upon the request of the bank, to provide collateral, which is not specified in the loan agreements, were ¥86,662 million.

2. Contingent liabilities

(1) Guarantees

Financial guarantees	¥166,658 million
Performance guarantees	¥24,997 million
Market value guarantees	¥58,234 million
Derivative instruments	¥40,543 million

Market value guarantees include obligations to repurchase bills of exchange of ¥51,533 million.

The figure for derivative instruments is the aggregation of notional amounts computed based on the strike prices and quantities of written put options. Written put options of the companies meet the accounting definition of guarantees when it is probable that the counterparties of the derivative contracts have underlying assets or liabilities. The companies disclose written put options that meet the definition of guarantees, with consideration of the business relationship with counterparties.

Most of these derivative instruments are used as a part of trading transactions in the commodity markets, and the companies monitor the positions of derivative instruments which are subject to certain position and loss limits. In addition to the above, the companies are members of major commodity exchanges in Japan and overseas. In connection with these memberships, the companies provide guarantees to the exchanges. Under the membership agreements, if a member becomes unable to satisfy its obligations to the exchange, the other members would be required to meet such shortfalls. The outstanding balance of guarantees related to these joint obligations is not quantifiable and the probability of being required to make any payments under these obligations is remote.

(2) Other

The Company was audited by the Tokyo Regional Taxation Bureau with regard to transfer price taxation in connection with the LNG Project in Western Australia for the period of six fiscal years from the year ended March 31, 2000 to the year ended March 31, 2005. On June 30, 2006, the Company received a notice of tax assessment from the Tokyo Regional Taxation Bureau for the one year ended March 31, 2000. Based on the notice of assessment, the taxable income was corrected by ¥4,863 million and the additional tax liabilities for income taxes were ¥2,375 million. The Company has paid the additional taxes and recorded the amount as Income Taxes Current. The Company disagrees with the assessment and registered its protest in August 2006, and in addition, lodged an application in November 2006 for the mutual agreement procedure pursuant to a provision in the tax treaty between Japan and Australia in order to settle the double taxation.

The Company considers that it is probable that the double taxation will be excluded by the mutual agreement procedure, and the amount of the correction for the year ended March 31, 2000 and the final correction and tax liabilities for the period from the year ended March 31, 2001 to the year ended March 31, 2005, if any, will be affected by the result of the mutual agreement procedure. Because the mutual agreement procedure has not been agreed yet, it is not possible at this time to reasonably estimate the amount of potential impact on the Company's financial position and results of operations. Accordingly, except for payment based on the received assessment the amount of potential loss and the related allowance are not reflected in the consolidated financial statements for the year ended March 31, 2007.

Notes to Statements of Consolidated Shareholders Equity

1. Number of common stock issued as of March 31, 2007 1,787,538,428 shares

2. Dividends from capital surplus and/or retained earnings

OPERATING SEGMENT INFORMATION**(Supplementary information) (Unaudited)**

The companies allocate their resources and review their performance by operating segments comprised of the business units of the Head Office, overseas branches and overseas trading subsidiaries. The companies' operating segments have been aggregated based on the nature of the products and other criteria into eight product-focused reportable operating segments and four region-focused reportable operating segments.

Year ended March 31, 2007 (from April 1, 2006 to March 31, 2007)

Notes:

1. In accordance with SFAS No.144, the figures of Consolidated Total for the year ended March 31, 2006 have been reclassified. The reclassifications to Income (Loss) from Discontinued Operations Net (After Income Tax Effect) are included in Adjustments and Eliminations.
2. All Other includes business activities which primarily provide services, such as financing service and operation services to external customers and/or to the companies and associated companies. Total assets of All Other at March 31, 2007 and 2006 consisted primarily of cash and cash equivalents and time deposits related to financing activities, and assets of certain subsidiaries related to the above services.

Edgar Filing: MITSUI & CO LTD - Form 6-K

3. Net loss of Adjustments and Eliminations includes income and expense items that are not allocated to specific reportable operating segments, such as certain expenses of the corporate departments, and eliminations of intersegment transactions.
4. Transfers between operating segments are made at cost plus a markup.
5. Operating Income (Loss) reflects the companies a) Gross Profit, b) Selling, general and administrative expenses, and c) Provision for doubtful receivables.
6. Starting from the year ended March 31, 2007, Mitsui & Co., Financial Services (Europe) which was formerly included in Europe, is transferred to All Other, in order to centralize the operation of financing services to the companies and associated companies. The operating segment information for the year ended March 31, 2006 has been restated to conform to the current year presentation.

Notes to Non-Consolidated Financial Statements (Year ended March 31, 2007)

Significant Accounting Policies

- (1) Securities are classified and accounted for as follows: Trading securities are stated at market value, whose costs of sales are determined by the moving average method. Held-to-maturity debt securities, which are expected to be held to maturity, are stated at amortized cost, determined by the straight-line method.

Investment in subsidiaries and associated companies are stated at cost determined by the moving-average method.

Marketable available-for-sale securities, whose costs of sales are determined by the moving average method, are reported at market value at year-end, with unrealized gains and losses reported in a separate component of equity.

Non-marketable available-for-sale securities are stated at cost, determined by the moving-average method.

Except for trading securities, those securities, whose market value or equity in net assets is materially lower than the carrying value on and around the balance sheet date; are devaluated after determining whether the value could be recoverable.

- (2) Derivatives are stated at fair value. Cash in trusts for trading purposes are also stated at fair value

- (3) Inventories are stated at the lower of cost or market, whichever is lower. Cost is determined principally by the specific identification method and, for certain items, by the moving-average method or the first-in, first-out method.

- (4) Depreciation of tangible fixed assets is computed using the declining-balance method. Depreciation of buildings (excluding equipment and fixtures) acquired on or after April 1, 1998, is computed using the straight-line method. The estimated useful lives for the majority of tangible fixed assets are as follows: Leased-out Property: 10-50 years; Buildings: 8-50 years; Furniture and Fixtures: 2-15 years. Depreciation of intangible fixed assets is computed using the straight-line method. Software for the Company's own use is amortized based on the straight-line method over the period it can be used (five years in principle).

- (5) Specific costs, which may be capitalized as deferred charges under the Commercial Code of Japan, are principally charged to costs when incurred.

- (6) To provide for possible losses on collection, the allowance for doubtful receivables that is set aside for receivables in general is computed using the actual ratio of bad debts. For certain receivables, the amount deemed unrecoverable is set aside in the allowance on an individual basis.

To provide for bonuses to directors, an amount is set aside as deemed necessary on the balance sheet date.

The liability for retirement benefits is recorded based on projected benefit obligations and plan assets at the balance sheet date with the Corporate Pension Fund plan and other retirement benefit plans.

Unrecognized prior service cost is amortized over seven years from the date of the revision of the pension plan, which is within the average remaining service period of employees. The unrecognized actuarial gain or loss that arose in the current year is amortized over seven years starting with the following fiscal year, which is within the average remaining service period of employees.

To provide for contingent losses on the obligation for guarantees and commitments to subsidiaries, etc an amount is set aside as deemed necessary, considering the financial position of the indemnities.

- (7) Receivables and Payables denominated in foreign currencies are translated into Japanese yen at year-end exchange rates on the balance sheet date. The foreign exchange gains and losses from translation are recognized in the income statement.

- (8) Finance leases, except those where the ownership of the property transfers to the lessee, are accounted for as operating leases.

- (9) For derivatives which meet hedge accounting criteria, except for available-for-sale securities, gains or losses on derivatives are deferred until realization of the hedged items.

For derivatives, which meet hedge accounting criteria for available-for-sale securities, fair value hedge accounting is applied.

The interest rate swaps which qualify for hedge accounting and meet specific matching criteria are not re-measured at market value, but the differential paid or received under the swap agreements is recognized on an accrual basis and included in interest expense or income. Foreign currency forward exchange contracts to hedge monetary assets and liabilities denominated in foreign currencies are stated at fair value accounted for under the principle method of the Accounting Standards for Financial Instruments.

The Company enters into derivative financial instruments transaction to hedge foreign exchange risk associated with monetary assets and liabilities denominated in foreign currencies and forward contract of trade, etc and interest risk in the course of business activities and market risk of commodities and trading contracts

Apart from trading transaction risks, market volatility risks related to foreign currency exchange rates, interest rates and commodity prices in the ordinary course of business are hedged using derivative financial instruments, considering the specific risk characteristics based on internal risk control policies.

The effectiveness between the hedging instruments and the hedged items is evaluated considering individual transactions characteristics.

- (10) All transactions are accounted for net of consumption taxes.

Changes in Accounting Policies

- (1) Accounting Standards for Bonuses to directors

From this fiscal year the Company adopted Accounting Standards for Bonuses to directors and corporate auditors (Corporate Accounting Standards Article 4.) As a result of this change, operating income, ordinary income and income before income taxes decreased by ¥270 million respectively.

- (2) Accounting standards for presentation of shareholders equity

From this fiscal year the Company adopted Accounting standards for presentation of shareholders equity, (Corporate Accounting Standards Article 5.) and Application Guidelines Relating to Presentation of shareholders equity (Application Guidelines for Corporate Accounting Standards Article 8.) The amount equivalent to shareholders equity in the previous fiscal year is ¥1,235,041 million.

- (3) Accounting standards for business combination and business separation

From this fiscal year the Company adopted Accounting Standards for Business Combinations (Business Accounting Deliberation Council) Accounting Standards for Business Separation (Corporate Accounting Standards Article 7,) and Application Guidelines Related to Business Combinations and Business Separation (Application Guidelines for Corporate Accounting Standards Article 10.)

Notes to the Balance Sheet

- (1) Assets pledged as security and related liabilities (Unit: Millions of Yen)

Type	Assets pledged as security		Details	
	Book Value at	For Long-Term	As Security for	
End of Period	Borrowings (See Note 1)	Trading Contracts	For Guarantees	
Deposits	189		189	

Edgar Filing: MITSUI & CO LTD - Form 6-K

Accounts Receivable	9,278	9,278		
Land, Timberland and Timber	552	552		
Investments in Securities, Investment in Subsidiaries and Associated Companies	63,771	4,710	57,590	1,470
Long-Term Loans Receivable	7,995	7,995		
Total	81,786	22,536	57,779	1,470

Note 1: Those correspond to the long-term borrowing secured of ¥23,889 million.

Note 2: In addition to the above, bank borrowings under certain provisions of loan agreements which require the Company, upon the request of the bank, immediately to provide collateral, which is not specified in the loan agreements, were ¥86,662 million

(2) Monetary assets held as security from others, for which the Company has free disposal rights: ¥11,992 million

(3) Accumulated depreciation of tangible assets: ¥88,117 million

(4) Contingent liabilities

(1) Guarantee

(Unit: Million of Yen)

The guaranteed	Amount of guarantee (Note 1)
1. Guarantees related to trading partner bank borrowings, trade payable and other	
Mitsui Sakhalin Holdings B.V.	136,453
Mitsui Oil (ASIA) Hong Kong Ltd.	69,305
Mitsui & Co. Financial Services (Europe) B.V.	63,344
Mitsui & Co. Precious Metals Inc.	57,762
Mitsui & Co. Financial Services (Asia) Ltd.	40,599
Mitsui Coal Holdings Pty. Ltd.	40,497
Mitsui power Ventures Ltd.	37,802
P.T. BUSSAN AUTO FINANCE	35,565
Paiton Power Financing B.V.	34,248
Mitsui & Co. Energy Risk Management Ltd.	32,576
Other-240 companies	601,628
Sub-total (See Note 2)	1,149,782
2. Guarantees related to bank borrowings of overseas trading subsidiaries	
MITSUI & CO. (U.S.A.), INC.	176,142
Other-7 overseas trading subsidiaries	70,337
Sub-total (See Note 3)	246,479
Grand total	1,396,262

Note 1: For joint guarantee agreements with two or more guarantors or guarantee agreements with re-guarantees by other companies, the amounts presented above only include the portion which the Company bears under such agreements.

Note 2: Commitments and other letters similar to guarantees amounting to ¥2,194 million are included.

Note 3: Commitments and other letters similar to guarantees amounting to ¥93,714 million are included

Note 4: Presented above are subsidiaries and associated companies whose guarantee fee amounts and their payment conditions have been determined individually considering their business substance.

(2) Notes receivable discounted amount to ¥51,533 million.

Export bills of exchange under letters of credit, discounted at intermediary banks but not yet paid by the banks extending the letters of credit, of ¥42,263 million, are included in notes receivable discounted.

(3) Other:

The Company was audited by the Tokyo Regional Taxation Bureau with regard to a transfer price taxation in connection with the LNG Project in Western Australia for the period of six fiscal years from the year ended March 31, 2000 to the year ended March 31, 2005. On June 30, 2006, the Company received a notice of tax assessment from the Tokyo Regional Taxation Bureau for the one year ended March 31, 2000. Based on the notice of assessment, the taxable income was corrected by ¥4,863 million and the additional tax liabilities for income taxes were ¥2,375 million. The company has paid the additional taxes and recorded the amount as Income Taxes Assessed for previous fiscal year. The Company disagrees with the assessment and registered its protest in August 2006, and in addition, lodged an application in November, 2006 for the mutual agreement procedure pursuant to a provision in the tax treaty between Japan and Australia in order to settle the double taxation. The Company considers that it is probable that the double taxation will be excluded by the mutual agreement procedure, and the amount of the correction for the year ended March 31, 2000 and the final correction and tax liabilities for the period from the year ended March 31, 2001 to the year ended March 31, 2005, if any, will be affected by the result of the mutual agreement procedure. Because the mutual agreement procedure has not been agreed yet, it is not possible at this time to reasonably estimate the amount of potential impact on the Company's financial position and results of operations. Accordingly, except for payment based on the received assessment, the amount of potential loss and the related allowance are not reflected in the financial statements for the year ended March 31, 2007.

- (5) Receivables from and payables to subsidiaries and associated companies:

Short-term receivables: ¥695,079 million	Long-term receivables: ¥176,622 million
Short-term payables: ¥323,173 million	Long-term payables: ¥7,500 million

- (6) Accounting for notes receivable and payable whose maturity is at fiscal year-end.

The settlement of the notes receivable and payables are to be recorded not on maturity dates but on a physical settlement dates thereof.

As the fiscal year-end happened to be a bank holiday, the following amounts of notes receivable and payable whose maturity dates are at fiscal year-end are still carried in the balance sheet.

Notes receivable, trade	¥ 27,581 million
Notes payable, trade	¥ 9,705 million

Notes to the Statement of Income

- (1) Transactions with subsidiaries and associated companies:

Sales:	¥ 2,364,102 million
Purchases:	¥ 3,486,579 million
Other non-operating transactions:	¥ 33,069 million

- (2) Gain on Reversal of accrued Compensation and Other Charges Related to DPF incident

The Company recognized a Gain on the Reversal of accrued Compensation and Other Charges Related to DPF Incident estimated in the previous fiscal period, as a result of having recalled all equipment subject to compensation.

- (3) Impairment losses

Certain leased-out property, land held for development and other assets in 8 locations (mainly in and around, Kyushu and Kinki) have suffered continuous declines in rents and land prices. The Company has recorded an Impairment Loss of Fixed Assets as an extraordinary item, as the carrying value of the assets exceeds its recoverable value. Recoverable values are mainly calculated according to net salable value based on similar market transactions.

- (4) Provisions for the obligation for guarantees and commitments

Includes ¥13,204 million related to subsidiaries and associated companies.

- (5) Other

The amount of Loss on Sales of Investments in securities and subsidiaries and associated companies include loss on a share-for-share deal amounting to ¥265 million, where the Company obtained available-for-sale securities for securities of subsidiaries and associated companies under a business combination

Notes to the Statement of Changes in Equity

Edgar Filing: MITSUI & CO LTD - Form 6-K

Numbers of treasury stock as of the ended of fiscal year end

Common stock	2,693,031 shares
--------------	------------------

Tax-Effect Accounting

The principal items, which comprise of deferred tax assets and deferred tax liabilities, were as follows:

(Millions of Yen)

Deferred tax assets:	
Allowance for doubtful receivables	¥ 20,365
Investments in securities, subsidiaries and associated companies	46,580
Other	36,452
Deferred tax assets	103,397
Valuation allowance	(37,773)

Per Share Information

Equity per Share	¥ 691.3
Basic Net Income per Share	¥ 68.53
Diluted Net Income per Share	¥ 65.16

Significant Subsequent Events

1. On April 1, 2007 the Company made a contribution in-kind of its Singapore branch's assets amounting to ¥130,897 million and the liabilities amounting to ¥127,163 million to Mitsui & Co.(ASIA PACIFIC) PTE LTD., a wholly owned subsidiary of the Company, which had already been established in Singapore. As well, the Company transferred all of its businesses and personnel thereto. The Company plans to close its Singapore branch following the completion of the required procedures.

2. Earlyguard Ltd., a wholly owned subsidiary of the Company, passed a resolution with cash dividends April 23, 2007, whose main source is its gain on the Sales of Investment in Securities of Finsider International Company Ltd. in UK, which holds the shares in Sesa Goa Ltd, the Indian iron ore company. The company received the cash dividends amounting to ¥109,594 million April 24, 2007.

Notes to Business Combinations

The following business combinations have occurred, which were accounted for as under common control.

1. In order to promote more efficient management and strengthen sales capabilities at the non-ferrous metal sales business in our Group, on February 1, 2007, Mitsui Bussan Metals Sales Co., Ltd., and Mitsui & Co. Metals Ltd., both wholly owned subsidiaries of the Company, are merged into Mitsui Bussan Metals Sales Co., Ltd. as the surviving entity.
2. In order to reinforce financial structure by establishing stable earning base and achieve higher growth through providing a wide variety of IT services in response to diversifying customer needs, on April 1, 2007, NextCom K.K., which is listed on the 2nd. Section of the Tokyo Stock Exchange, and in which the Company holds 49.002% of voting shares, was merged with Mitsui Knowledge Industry. Co. Ltd. also listed on the 2nd. Section of the Tokyo Stock Exchange, and in which the Company holds 67.373% of voting shares, as a result of Mitsui Knowledge Industry. Co. Ltd. as the surviving entity.

(Figures presented in the balance sheet, the statement of income, statement of changes in equity, and notes are displayed following rounding down to the nearest million yen.)

Certified Public Accountant:

Keiji Nakae

Pursuant to first item, second clause of Article 436 of the Corporate Law, we have audited the financial statements, namely, the balance sheet as of March 31, 2007 of Mitsui & Co., Ltd.(the Company), and the related statements of income and changes in equity and the related notes, for the 88th fiscal year from April 1, 2006 to March 31, 2007, and the accompanying supplemental schedules. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and the accompanying supplementary schedules are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and the accompanying supplemental schedules. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement and the accompanying supplementary schedules presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements and the accompanying supplemental schedules referred to above present fairly, in all material respects, the financial position of the Company as of March 31,2007, and the results of its operations for year then ended in conformity with accounting principles generally accepted in Japan.

Additional Information:

1. As discussed in Notes to the balance sheet Section 4. Contingent liabilities (3) Other, the Company was audited by the Tokyo Regional Taxation Bureau with regard to a transfer price taxation for the six fiscal years from the year ended March 31,2000 to the year ended March 31,2005, and received a notice of tax assessment from the Tokyo Regional Taxation Bureau for the year ended March 31, 2000. The Company disagrees with the assessments and registered its protest, and lodged an application for mutual agreement procedure pursuant to a provision in the tax treaty between Japan and Australia. The amount of potential loss and related allowance except for payment based on the received assessment are not reflected in the Company's financial statements.

2. As discussed in Notes to Significant Subsequent Events 1. on April 1 2007, the Company makes a contribution in-kind of its Singapore branch's assets and liabilities to Mitsui Co., (ASIA PACIFIC) PTE Ltd. along with the transfer of personnel and business.

3. As discussed in Notes to Significant Subsequent Events 2. on April 24, 2007, the Company received cash dividend from Earlyguard Ltd., its wholly owned subsidiary whose main source is gain on the sales of Investment in the company in the UK which holds shares in Sesa Goa Ltd.

Our firm and the engagement partners do not have any financial interest in the Company for which disclosure is required under the provisions of the Certified Public Accountants Law. Our firm continues to provide non-audit services to the Company, which are permitted to be provided simultaneously with audit services under the second clause of Article 2 of the Certified Public Accountants Law.

The above represents a translation, for convenience only, of the original report issued in the Japanese language, and the accompanying supplement schedules referred to in this report are not included in attached financial documents.

Pursuant to the forth clause of Article 444 of the Corporate Law, we have audited the financial statements, namely, the consolidated balance sheet as of March 31, 2007 of Mitsui & Co., Ltd. and subsidiaries (the Company), related statements of consolidated income and consolidated shareholders' equity and the notes to the consolidated financial statements for the fiscal year from April 1, 2006 to March 31, 2007. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Mitsui & Co., Ltd. and subsidiaries as of March 31, 2007, and the results of their operations for year then ended in conformity with the recognition and measurement criteria of accounting principles generally accepted in the United States of America, as modified by the first clause of Article 148 of the accounting regulation of the Corporate Law of Japan. (Refer to Notes to Consolidated Financial Statements, Notes to Basic Significant Matters Regarding Preparation of Consolidated Financial Statements, 2. Summary of Significant Accounting Policies, (1) Basis of consolidated financial statements).

Additional Information:

1. As discussed in Notes to Consolidated Financial Statements, Note to Consolidated Balance Sheets, 2. Contingent liabilities, (2) Other, the Company was audited by the Tokyo Regional Taxation Bureau with regard to a transfer price taxation for six fiscal years from the year ended March 31, 2000 to the year ended March 31, 2005, and received a notice of tax assessment from the Tokyo Regional Taxation Bureau for the year ended March 31, 2000. The Company disagrees with the assessment and registered its protest, and lodged an application for the mutual agreement procedure pursuant to a provision in the tax treaty between Japan and Australia. The amount of potential loss and the related allowance except for payment based on the received assessment are not reflected in the consolidated financial statements.

2. As discussed in Notes to Consolidated Financial Statements, Subsequent Event, on April 23, 2007, Earlyguard Ltd., a subsidiary of Mitsui & Co., Ltd., sold all of its shares of Finsider International Company Ltd., a holding company located in the United Kingdom, which held 51% of the issued shares of an Indian iron ore mining company, Sesa Goa Ltd.

Our firm and the engagement partners do not have any financial interest in the Company for which disclosure is required under the provisions of the Certified Public Accountants Law. Our firm continues to provide non-audit services to the Company, which are permitted to be provided simultaneously with audit services under the second clause of Article 2 of the Certified Public Accountants Law.

The above represents a translation, for convenience only, of the original report issued in the Japanese language.

CORPORATE AUDITORS REPORT

(translations)

Having examined the Directors' performance of their duties during the 88th fiscal year from April 1, 2006, to March 31, 2007, we, the Board of Corporate Auditors, make this report as follows, based upon discussion on the basis of the auditors' reports submitted by the respective Corporate Auditors:

1. METHODS AND SUBSTANCE OF AUDIT BY CORPORATE AUDITORS AND BOARD OF CORPORATE AUDITORS

The Board of Corporate Auditors decided upon auditing policies, allocation of work duties, etc., received a report on the auditing work performed and its results from each Corporate Auditor, and received a report on their status of work executed from the Directors and the Independent Auditors and requested their explanations as necessary.

While conforming to the auditing standards as decided by the Board of Corporate Auditors, the auditing policies, the allocation of duties, etc., each Corporate Auditor endeavored to facilitate mutual understanding with the Directors, the internal auditing division and other employees, endeavored to collect information and to improve the auditing environment, attended the meetings of the Board of Directors and other important meetings, received a report on their status of work executed from the Directors and the employees and requested their explanations as necessary, inspected material internal decision-making documents, etc., and investigated the status of operations and assets of the headquarters and major business sites. In addition, audit was conducted of the substance of decisions made by the Board of Directors with regard to Necessary systems to ensure appropriate operations (pursuant to Article 362(4) (6) of the Corporate Law of Japan) and of the status of the systems actually developed on the basis of the said decisions (the internal control systems). With regard to subsidiaries, we endeavored to facilitate mutual understanding and exchanging of information with their directors, corporate auditors, etc., and collected reports on their business as necessary. Based on the above methods, the business report and its supplementary schedules for the relevant fiscal year were examined.

In addition, we examined whether the independence of the Independent Auditors was maintained and whether appropriate audit was being undertaken, received reports from the Independent Auditors on the status of operations, and requested explanations as necessary. We also received reports from the Independent Auditors that Necessary systems to ensure appropriate execution of operations (pursuant to Article 159 of the Corporate Accounting Regulations of Japan) was duly developed in line with Quality control standards for auditing (issued by the Japan Corporate Accounting Council on October 28, 2005), and requested explanations as necessary. based on the above methods, we examined the financial statements for the relevant fiscal year (the balance sheet, the statements of income, the changes in shareholders' equity and the notes to non-consolidated financial statements) and their supplementary schedules and then the consolidated financial statements for the relevant fiscal year (the consolidated balance sheet, the statements of consolidated income, the statements of consolidated shareholders' equity and the notes to consolidated financial statements).

2. RESULTS OF AUDIT

(1) Results of examination of the business report, etc.

In our opinion, the business report and its supplementary schedules are in conformity with the applicable laws and regulations of Japan and the Articles of Incorporation of the Company and fairly present the state of the Company's affairs.

We have found no misconduct or no material fact constituting a violation of any applicable laws and regulations of Japan or the Articles of Incorporation in connection with the Directors' performance of their duties

In our opinion, the substance of the decisions made by the Board of Directors with regard to the internal control systems is appropriate. Further, we find no matters that require noting with regard to the Directors' performance of their duties in connection with the internal control systems. As recorded in the business report, it was discovered that a trader at one of subsidiaries of the Company in Singapore had concealed unrealized losses on naphtha trading positions that resulted in a large loss. Since then the Company reviewed its centralized control of market risk exposure and its loss limit systems and continues to strengthen the trading administration systems of the entire group of the Company.

Edgar Filing: MITSUI & CO LTD - Form 6-K

(2) Results of examination of the financial statements and their supplementary schedules

In our opinion, the auditing methods used and the conclusions reached by the Independent Auditors, Deloitte Touche Tohmatsu, are appropriate.

(3) Results of examination of the consolidated financial statements

In our opinion, the auditing methods used and the conclusions reached by the Independent Auditors , Deloitte Touche Tohmatsu, are appropriate.

Management Philosophy (MVV)

Mission

We will contribute to the creation of a future where the dreams of the inhabitants of our irreplaceable Earth can be fulfilled.

Vision

We aim to become a global business enabler that can meet the needs of our customers throughout the world.

Values

Making it a principle to be fair and humble, we, with sincerity and in good faith, will strive to be worthy of the trust society places in us.

With lofty aspirations and from an honest perspective, we will pursue business that benefits society.

Always taking on the challenge of new fields, we will dynamically create business that can lead the times.

Making the most of our corporate culture that fosters Freedom and Open-mindedness, we will fully demonstrate our abilities as a corporation as well as individuals.

In order to nurture human resources full of creativity and a superior sense of balance, we will provide our people with a workplace for self-development as well as self-realization.
