NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT PER SHARE AMOUNTS)

1. Basis of Presentation

The accompanying consolidated financial statements include the accounts of Weight Watchers International, Inc., and its wholly-owned subsidiaries. The term the Company as used throughout this document is used to indicate Weight Watchers International, Inc. and its wholly-owned subsidiaries. The term WWI as used throughout this document is used to indicate Weight Watchers International, Inc. and its wholly-owned subsidiaries other than WeightWatchers.com, Inc. and its subsidiaries, or collectively WW.com.

The consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America and include amounts that are based on management's best estimates and judgments. While all available information has been considered, actual amounts could differ from those estimates. The consolidated financial statements are unaudited but, in the opinion of management, reflect all adjustments of a normal recurring nature necessary for a fair statement of the interim results presented.

These statements should be read in conjunction with the Company's Annual Report on Form 10-K for the fiscal year ended December 30, 2006, which includes additional information about the Company, its results of operations, its financial position and its cash flows.

2. Summary of Significant Accounting Policies

For a discussion of the Company's significant accounting policies, see Summary of Significant Accounting Policies in the Notes to Consolidated Financial Statements of the Company's Annual Report on Form 10-K for the fiscal year ended December 30, 2006.

3. Acquisitions

The acquisitions of certain franchisees have been accounted for under the purchase method of accounting and, accordingly, earnings have been included in the consolidated operating results of the Company since their dates of acquisition. Details of these franchise acquisitions are outlined below.

On July 27, 2006, the Company acquired substantially all of the assets of its Indiana franchisee, Weight Watchers of Greater Indiana, Inc., for a net purchase price of approximately \$24,575, plus assumed liabilities and transaction costs of \$479. The total purchase price has been allocated to franchise rights acquired (\$24,852), inventory (\$102) and fixed assets (\$100).

On August 17, 2006, the Company acquired substantially all of the assets of its eastern Canadian franchisee, Walmar (Eastern Canada) Limited (Walmar), and of Vale Printing Limited (Vale), and collectively with Walmar, Eastern Canada), for a net purchase price of approximately \$49,781, plus assumed liabilities and transaction costs of \$1,405. The total purchase price has been allocated to franchise rights acquired (\$49,386), inventory (\$885), fixed assets (\$779) and prepaid expenses and other current assets (\$136).

On November 2, 2006, the Company acquired substantially all of the assets of its Suffolk County, New York franchisee, Weight Watchers of Suffolk, Inc., for a net purchase price of approximately \$24,170, plus assumed liabilities of \$330. The total purchase price has been allocated to franchise rights acquired (\$23,225), fixed assets (\$1,133), inventory (\$140) and other current assets (\$2).

On December 11, 2006, the Company acquired substantially all of the assets of its western Michigan franchisee, Weight Watchers of Western Michigan, Inc., for a net purchase price of \$36,935, plus assumed liabilities of \$330. The total purchase price has been preliminarily allocated to franchise rights acquired (\$36,034), fixed assets (\$784), inventory (\$445) and other current assets (\$2).

On December 11, 2006, the Company reacquired its franchise rights in Greece and Italy for an aggregate amount of \$4,375.

On June 3, 2007, the Company acquired substantially all of the assets of its British Columbia franchisee, Weight Watchers of British Columbia Inc., for a net purchase price of \$15,282, plus assumed liabilities and transaction costs of \$452. The total purchase price has been preliminarily allocated to franchise rights acquired (\$15,638), inventory (\$88), fixed assets (\$7) and other current assets (\$1).

The effects of these franchise acquisitions, individually or in the aggregate, were not material to the Company's consolidated financial position, results of operations, or operating cash flows in any of the periods presented.

4. Goodwill and Intangible Assets

In accordance with SFAS No. 142, Goodwill and Other Intangible Assets, the Company no longer amortizes goodwill or other indefinite lived intangible assets. The Company performed its annual impairment review as of December 30, 2006 and determined that no impairment existed. Unamortized goodwill is due mainly to the acquisition of the Company by the H.J. Heinz Company in 1978 and the acquisition of WW.com in 2005. Franchise rights acquired are due mainly to acquisitions of the Company's franchised territories. For the six months ended June 30, 2007, the changes in goodwill and franchise rights acquired are due to the British Columbia acquisition as well as foreign currency fluctuations.

In accordance with SFAS No. 142, aggregate amortization expense for finite lived intangible assets was recorded in the amounts of \$1,668 and \$3,447 for the three and six months ended June 30, 2007, respectively. Aggregate amortization expense was \$1,099 and \$2,584 for the three and six months ended July 1, 2006, respectively.

The carrying amount of the amortized intangible assets as of June 30, 2007 and December 30, 2006 was as follows:

	June 30, 2007		December 30, 2006	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization

5. Long-Term Debt*WWI Credit Facility*

WWI's Credit Agreement, dated as of January 16, 2001, and amended and restated as of January 21, 2004, as supplemented on October 19, 2004 and as amended on June 24, 2005, May 8, 2006 and amended and supplemented on January 26, 2007, consists of a term loan facility consisting of two tranche A facilities, or Term Loan A and Additional Term Loan A, and a tranche B facility, or Term Loan B, in an aggregate amount of \$1,550,000 and a revolving credit facility, or the Revolver, in the amount of up to \$500,000. We refer to the term loan facilities and the Revolver collectively as the WWI Credit Facility.

On May 8, 2006, WWI entered into a refinancing to reduce its effective interest rate while increasing its borrowing capacity and extending the maturities of borrowings under the WWI Credit Facility. In connection with the refinancing, WWI's then existing tranche B facilities in the aggregate amount of \$294,375 were repaid and replaced with a new Term Loan A in the amount of \$350,000. The additional funds of \$55,625 were used to pay down the then existing revolving line of credit. Also, in connection with this refinancing, WWI's then existing revolving line of credit was repaid and replaced with a new revolving line of credit, the Revolver, that increased borrowing capacity from \$350,000 to \$500,000. The Term Loan A and the Revolver have a maturity date of June 2011. In connection with the early extinguishment of debt resulting from this refinancing, the Company recorded a charge of \$1,321 in the second quarter of 2006 relating to the write-off of a portion of the deferred financing costs associated with its old debt.

On January 26, 2007, in connection with the Tender Offer (as defined in *Note 6*) and the share repurchase from Artal Holdings Sp. z.o.o., an indirect subsidiary of Artal Group, S.A., the Company increased its debt capacity by adding an Additional Term Loan A in the amount of \$700,000 and a new Term Loan B in the amount of \$500,000 (*see Note 6*). We refer to Artal Group, S.A. together with its parent and subsidiaries as Artal. The Company utilized (a) \$185,784 of these proceeds to pay off the WW.com Credit Facilities, consisting of (i) a five year, senior secured first lien term loan facility in an aggregate principal amount of \$170,000 and (ii) a five and one-half year, senior secured second lien term loan facility in an aggregate principal amount of \$45,000, (b) \$461,593 to repurchase 8,548 of its shares in the Tender Offer and (c) \$567,617 to repurchase 10,511 of its shares from Artal. In connection with the early extinguishment of the WW.com Credit Facilities, the Company recorded a charge of \$3,021 in the first quarter of 2007 relating to the write-off of the deferred financing costs associated with the WW.com Credit Facilities. The Additional Term Loan A and Term Loan B mature in January 2013 and January 2014, respectively. At June 30, 2007, the Company had \$277,531 of availability under the Revolver.

The Term Loan A, Additional Term Loan A and the Revolver bear interest at an initial rate equal to LIBOR plus 1.25% per annum or, at the Company's option, the alternate base rate (as defined in the WWI Credit Agreement). The Term Loan B bears interest at an initial rate equal to LIBOR plus 1.5% per annum or, at the Company's option, the alternate base rate (as defined in the WWI Credit Facility). In addition to paying interest on outstanding principal under the WWI Credit Facility, the Company is required to pay a commitment fee to the lenders under the Revolver with respect to the unused commitments at an initial rate equal to 0.25% per annum.

The WWI Credit Facility contains customary covenants including covenants that, in certain circumstances, restrict the Company's ability to incur additional indebtedness, pay dividends on and redeem capital stock, make other payments, including investments, sell its assets and enter into consolidations, mergers and transfers of all or substantially all of its assets. The WWI Credit Facility also requires the Company to maintain specified financial ratios and satisfy certain financial condition tests. At June 30, 2007, the Company was in compliance with all of the required financial ratios and also met all of the financial condition tests and is expected to continue to do so for the foreseeable future. The WWI Credit Facility contains customary events of default. Upon the occurrence of an event of default under the WWI Credit Facility, the lenders thereunder may cease making loans and declare amounts outstanding to be immediately due and payable. The WWI Credit Facility is guaranteed by certain of the Company's existing and future subsidiaries. Substantially all the assets of the Company collateralize the WWI Credit Facility.

On June 7, 2007, Standard & Poor's raised its rating on the Company's Term Loan A, Additional Term Loan A, Term Loan B and Revolver from BB to BB+. On January 4, 2007, Moody's affirmed its Ba1 rating for the Company's Term Loan A and Revolver and assigned a Ba1 rating to the Company's Additional Term Loan A and Term Loan B.

WW.com Credit Facilities

On December 16, 2005, WW.com borrowed \$215,000 pursuant to the WW.com Credit Facilities. The WW.com Credit Facilities were governed by two credit agreements among WW.com, Credit Suisse, as administrative agent and collateral agent, and the lenders party thereto. As discussed above, the WW.com Credit Facilities were repaid in full in January 2007.

6. Treasury Stock

On October 9, 2003, the Company, at the direction of WWI's Board of Directors, authorized a program to repurchase up to \$250,000 of the Company's outstanding common stock. On each of June 13, 2005 and May 25, 2006, the Company, at the direction of WWI's Board of Directors, authorized adding an additional \$250,000 to this program. The repurchase program allows for shares to be purchased from time to time in the open market or through privately negotiated transactions. No shares will be purchased from Artal under the program.

During the six months ended July 1, 2006, the Company purchased 2,838 shares of its common stock in the open market at a total cost of \$120,060. Other than shares repurchased in connection with the Tender Offer and the share repurchase from Artal referred to below, the Company purchased no additional shares of its common stock during the six months ended June 30, 2007.

On December 18, 2006, the Company commenced a tender offer in which it sought to acquire up to 8,300 shares of its common stock at a price between \$47.00 and \$54.00 per share, which we refer to as the Tender Offer. Prior to the Tender Offer, the Company entered into an agreement with Artal, whereby Artal agreed to sell to the Company, at the same price determined in the Tender Offer, the number of its shares necessary to keep its percentage ownership in the Company at substantially the same level after the Tender Offer. Artal also agreed not to participate in the Tender Offer so that it would not affect the determination of the price in the Tender Offer.

The Tender Offer expired at midnight on January 18, 2007, and on January 26, 2007 approximately 8,548 shares were repurchased at a price of \$54.00 per share. The 8,548 shares repurchased are comprised of the 8,300 shares the Company offered to purchase and 248 shares purchased pursuant to the Company's right to purchase up to an additional 2% of the outstanding shares as of November 30, 2006. On February 2, 2007, the Company repurchased 10,511 of its shares from Artal at a purchase price of \$54.00 per share pursuant to its prior agreement with Artal. In January 2007, the Company amended and supplemented the WWI Credit Facility to finance these repurchases. *See Note 5.*

7. Earnings Per Share

Basic earnings per share, or EPS, computations are calculated utilizing the weighted average number of common shares outstanding during the periods presented. Diluted EPS is calculated utilizing the weighted average number of common shares outstanding adjusted for the effect of dilutive common stock equivalents.

The following table sets forth the computation of basic and diluted EPS:

	Three Months Ended		Six Months Ended	
	June 30,	July 1,	June 30,	July 1,
	2007	2006	2007	2006
Numerator:				
Net income	\$ 58,023	\$ 57,917	\$ 111,849	\$ 114,914
Denominator:				
Weighted-average shares of common stock outstanding	78,731	99,493	81,899	100,016
Effect of dilutive common stock equivalents	620	708	629	759
Weighted-average diluted common shares outstanding	79,351	100,201	82,528	100,775
EPS:				
Basic	\$ 0.74	\$ 0.58	\$ 1.37	\$ 1.15
Diluted	\$ 0.73	\$ 0.58	\$ 1.36	\$ 1.14

The number of anti-dilutive common stock equivalents excluded from the calculation of weighted average shares for diluted EPS was 1,256 and 1,364 for the three months ended June 30, 2007 and July 1, 2006, respectively, and 1,114 and 1,069 for the six months ended June 30, 2007 and July 1, 2006, respectively.

8. Stock Plans

On May 12, 2004 and December 16, 1999, respectively, the Company's shareholders approved the 2004 Stock Incentive Plan, or the 2004 Plan, and the 1999 Stock Purchase and Option Plan, or the 1999 Plan. We refer to the 1999 Plan and the 2004 Plan collectively as the Stock Plans. These plans are designed to promote the long-term financial interests and growth of the Company by attracting and retaining management with the ability to contribute to the success of the business. The Board of Directors or a committee thereof administers the Stock Plans.

Under the 2004 Plan, grants may take the following forms at the Board of Directors' or a committee's sole discretion: non-qualified stock options, incentive stock options, stock appreciation rights, restricted stock units, or RSUs, and other share-based awards. The maximum number of shares available for grant under the 2004 Plan is 2,500 shares of authorized common stock.

Under the 1999 Plan, grants may take the following forms at the Board of Directors' or a committee's sole discretion: non-qualified stock options, incentive stock options, stock appreciation rights, restricted stock, purchase stock, dividend equivalent rights, performance units, performance shares and other share-based grants. The maximum number of shares available for grant under this plan is 7,058 shares of authorized common stock.

On March 12, 2007, the Company granted 326 options and 41 RSUs to certain members of management. The options and RSUs will vest over three years and the options will expire 10 years from the date of grant. The options and RSUs had an aggregate estimated grant date fair value of \$4,253 and \$1,790, respectively.

9. Income Taxes

The effective tax rate for both the three and six months ended June 30, 2007 was 38.5%. The effective tax rate for the three and six months ended July 1, 2006 was 37.9% and 38.3%, respectively. For the three and six months ended June 30, 2007, the primary differences between the U.S. federal statutory tax rate and the Company's effective tax rate were state income taxes and increases in valuation allowances, offset by lower statutory rates in certain foreign jurisdictions. For the three and six months ended July 1, 2006, the primary differences between the U.S. federal statutory tax rate and the Company's effective tax rate were state income taxes and increases in valuation allowances, offset by lower statutory tax rates in certain foreign jurisdictions and net operating loss carryforwards utilized by WW.com.

The Company adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, or FIN 48, on December 31, 2006, the first day of its 2007 fiscal year. As a result of the adoption of this standard, the Company recognized a \$1,907 increase in the liability for unrecognized tax benefits, which was accounted for as a reduction to the opening balance of retained earnings for fiscal year 2007. Upon adoption of FIN 48 on December 31, 2006, the Company had \$8,232 of unrecognized tax benefits, of which \$4,232 would affect its effective tax rate, if recognized. As of December 31, 2006, given the nature of the Company's uncertain tax positions, it is reasonably possible that there will not be a significant change in the Company's uncertain tax benefits within the next twelve months.

In addition, the Company recognizes interest and penalties related to unrecognized tax benefits in income tax expense. As of December 31, 2006, the Company had \$708 of accrued interest and penalties.

The Company or one of its subsidiaries files income tax returns in the U.S. federal jurisdiction, and various states and foreign jurisdictions. At December 31, 2006, with few exceptions, the Company was no longer subject to U.S. federal, state or local income tax examinations by tax authorities for years prior to 2002, or non-U.S. income tax examinations by tax authorities for years prior to 2001. The Internal Revenue Service, or IRS, commenced an examination of the Company's U.S. federal income tax returns for the years 2002 through 2003. The IRS has proposed and management has agreed to certain adjustments that will not have a material impact on the Company's financial position or results of operations.

10. Legal

In March 2006, the Company agreed to settle a litigation filed on behalf of a purported class of employees under the California Labor Code and the Federal Fair Labor Standards Act for \$2,300. This settlement was accrued for in fiscal 2005 and the funds were distributed in June 2007 following final approval by the court.

On July 7, 2006, the Company filed an amended notice of appeal with the U.K. VAT and Duties Tribunal, or the Tribunal, appealing a ruling by Her Majesty's Revenue and Customs, or HMRC, that from April 1, 2005 Weight Watchers meetings fees in the U.K. should be fully subject to 17.5% standard rated value added tax, or VAT. For over a decade prior to April 1, 2005, HMRC had determined that Weight Watchers meetings fees in the U.K. were only partially subject to 17.5% VAT. It is the Company's view that this prior determination by HMRC should remain in effect and this view was further supported on March 8, 2007 when the Tribunal ruled that Weight Watchers meetings in the U.K. should only be partially subject to 17.5% VAT. On May 3, 2007, HMRC appealed the Tribunal's ruling in favor of the Company and a hearing is scheduled for November 2007. The Company intends to vigorously defend the Tribunal's ruling. If such appeal by HMRC is ultimately successful or if it is determined by HMRC that a lesser proportion of Weight Watchers meetings fees as compared to HMRC's prior rulings is not subject to 17.5% VAT, the Company may incur monetary liability in excess of reserves previously recorded and its U.K. results of operations may be adversely affected in the future. However, it is the opinion of management that the ultimate disposition of this matter, to the extent not previously provided for, will not have a material impact on the financial position, results of operations or ongoing cash flows of the Company.

On July 27, 2007, HMRC issued the Company notices of determination and decisions that for the period April 2001 to April 2007 the Company's leaders and certain other service providers should have been classified as employees for tax purposes and, as such, the Company should have withheld tax from the leaders and certain other service providers pursuant to the Pay as You Earn, or PAYE, and National Insurance Contributions, or NIC, collection rules and remitted such amounts to the HMRC. The current assessment associated with the notices of determination and decisions is approximately \$27,000. It is the Company's view that the U.K. leaders and other service providers identified by HMRC in its notices and decisions are self-employed and no withholding by the Company was required. The Company intends to vigorously appeal HMRC's notices and decisions as to these classifications and against any amount of PAYE and NIC liability claimed to be owed by the Company. Although there can be no assurances, the Company believes it will ultimately prevail in its appeal. If such appeal is unsuccessful, it is possible that the Company's cash flows and results of operations in a particular quarter may be adversely affected by this matter. However, it is the opinion of management that the disposition of this matter will not have a material impact on the financial position, results of operations or ongoing cash flows of the Company.

Due to the nature of its activities, the Company is also, at times, subject to pending and threatened legal actions that arise out of the normal course of business. The Company has had and continues to have disputes with certain of its franchisees. In the opinion of management, based in part upon advice of legal counsel, the disposition of all such matters is not expected to have a material effect on the Company's results of operations, financial condition or cash flows.

11. Derivative Instruments and Hedging

The Company enters into interest rate swaps to hedge a substantial portion of its variable rate debt. As of June 30, 2007 and July 1, 2006, the Company held contracts for interest rate swaps with notional amounts totaling \$1,050,000 and \$257,500, respectively. The Company is hedging forecasted transactions for periods not exceeding the next five years. At June 30, 2007, given the current configuration of its debt, the Company estimates that no derivative gains or losses reported in accumulated other comprehensive income will be reclassified to the statement of operations within the next twelve months.

As of June 30, 2007 and July 1, 2006, cumulative gains for qualifying hedges were reported as a component of accumulated other comprehensive income in the amounts of \$8,937 (\$14,651 before taxes) and \$2,195 (\$3,458 before taxes), respectively. For the three and six months ended June 30, 2007 and July 1, 2006, there were no fair value adjustments recorded in the statement of operations since all hedges are considered qualifying.

12. Comprehensive Income

Comprehensive income for the Company includes net income, the effects of foreign currency translation and changes in the fair value of derivative instruments. Comprehensive income is as follows:

	Three Months Ended		Six Months Ended	
	June 30, 2007	July 1, 2006	June 30, 2007	July 1, 2006
Net income	\$ 58,023	\$ 57,917	\$ 111,849	\$ 114,914

13. Segment Data

The Company has two operating segments, each of which is a reportable segment: WWI and WW.com. These are two separate and distinct businesses for which discrete financial information is available. This discrete financial information is maintained and managed separately and is reviewed regularly by the chief operating decision maker. All intercompany activity is eliminated in consolidation.

Information about the Company's reportable operating segments is as follows:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In this Quarterly Report on Form 10-Q, unless the context indicates otherwise: the Company, we, us, and our refers to Weight Watchers International, Inc. and all subsidiaries consolidated for purposes of its financial statements, including WeightWatchers.com, Inc. and its subsidiaries; Weight Watchers International or WWI refers to Weight Watchers International, Inc. and all of its subsidiaries other than WeightWatchers.com, Inc. and subsidiaries of WeightWatchers.com, Inc.; WeightWatchers.com or WW.com refers to WeightWatchers.com, Inc. and its subsidiaries; and NACO refers to our North American Company-owned operations.

You should read the following discussion in conjunction with our Annual Report on Form 10-K for the fiscal year ended December 30, 2006 that includes additional information about us, our results of operations, our financial position and our cash flows, and with our unaudited consolidated financial statements and related notes included in Item 1 of this Quarterly Report on Form 10-Q, or the Consolidated Financial Statements. Except for historical information contained herein, this Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, including, in particular, the statements about our plans, strategies and prospects under the heading Management's Discussion and Analysis of Financial Condition and Results of Operations. We have used the words may, will, expect, anticipate, believe, estimate, intend, and similar expressions in this Quarterly Report on Form 10-Q and the documents incorporated by reference in this Quarterly Report on Form 10-Q to identify forward-looking statements. We have based these forward-looking statements on our current views with respect to future events and financial performance. Actual results could differ materially from those projected in the forward-looking statements. These forward-looking statements are subject to risks, uncertainties and assumptions, including, among other things:

competition, including price competition and competition with self-help, pharmaceutical, surgical, dietary supplements and meal replacement products, and other weight-management brands, diets, programs and products;

risks associated with the relative success of our marketing and advertising;

risks associated with the continued attractiveness of our plans;

risks associated with general economic conditions and consumer confidence; and

the other factors discussed under Item 1A. Risk Factors of our Annual Report on Form 10-K for the fiscal year ended December 30, 2006.

You should not put undue reliance on any forward-looking statements. You should understand that many important factors, including those discussed herein could cause our results to differ materially from those expressed or suggested in any forward-looking statements. Except as required by law, we do not undertake any obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances that occur after the date of this Quarterly Report on Form 10-Q or to reflect the occurrence of unanticipated events.

CRITICAL ACCOUNTING POLICIES

For a discussion of the critical accounting policies affecting us, see Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Policies of our Annual Report on Form 10-K for the fiscal year ended December 30, 2006. These critical accounting policies have not changed since December 30, 2006.

Table of Contents**RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED JUNE 30, 2007**

Net revenues were \$386.3 million for the three months ended June 30, 2007, an increase of \$65.2 million or 20.3%, from \$321.1 million for the three months ended July 1, 2006. The primary driver of revenue growth was a \$45.5 million increase in meeting fees, a result of attendance growth compounded by an increase in the average meeting fee per attendee. Product sales rose \$11.5 million in the quarter as we continue to experience strong sell through of our in-meeting product offerings. The remaining components of significance contributing to the \$65.2 million increase in revenues were a \$4.8 million increase in internet revenues and a \$4.0 million increase in licensing revenues partially offset by a \$0.6 million decrease in other revenues. Net revenues were positively impacted by foreign currency exchange rates in the amount of \$9.6 million, or 3.0%.

For the three months ended June 30, 2007, total global meeting fees were \$232.8 million versus \$187.3 million for the same period in the prior year, representing growth of \$45.5 million or 24.3% including the favorable impact of foreign currency translation. This growth in meeting fees resulted from global attendance growth of 7.1% compounded by a 13.4% increase in the average meeting fee per attendee on a constant currency basis.

Total worldwide attendance was 17.0 million in the quarter, up 1.1 million or 7.1% from the prior year level of 15.9 million. NACO, and to a much lesser extent the U.K., grew attendance volumes in the quarter compared to the prior year quarter, while declines in Continental Europe attendance partially offset the gains. In addition to the attendance volume metric, we now furnish the paid weeks metric for meetings to provide a greater degree of transparency by capturing total Weight Watchers paid membership, be it *pay as you go* meeting attendance, or our broader commitment plan relationship encompassing both meeting attendance and eTools, our internet product for meeting members. In the meeting business, the increase in global paid weeks in the quarter, up 26.7% from the same period last year, to 22.4 million, was the key driver of the 13.4% increase in the global average meeting fee per attendee excluding the favorable impact of foreign currency exchange.

In NACO, meeting fees for the three months ended June 30, 2007 grew 33.3% or \$40.2 million from \$120.7 million for the three months ended July 1, 2006 to \$160.9 million. Attendances were 10.4 million in the quarter, including 1.1 million attendances from acquisitions made after the second quarter of 2006. NACO's attendances in the quarter grew 14.3% versus the prior year quarter while paid weeks rose 43%, displaying the success of NACO's Monthly Pass commitment plan. Monthly Pass, first introduced in our 2006 fall diet season, is a recurring billing model whereby the member authorizes us to charge her credit card on a monthly basis, at a discounted rate. The impact of Monthly Pass on NACO's revenues was to raise the average meeting fee per attendee, which grew by 16.6% (18.5% excluding the impact of acquisitions). Monthly Pass has an accretive impact on the average fee despite its discounted price because not all members who purchase it attend all of the meetings for which they have paid.

International Company-owned meeting fees were \$71.9 million for the three months ended June 30, 2007, an increase of \$5.3 million or 8.0%, from \$66.6 million for the three months ended July 1, 2006. On a local currency basis, total international meeting fee revenues were on par with the comparable prior year quarter, declining 0.1%. U.K. attendance rose 2.2% in the quarter, however total international attendance declined by 2.6% as a result of a 7.5% decrease in Continental Europe. The negative volume impact on revenue was largely mitigated by price increases taken in a few of our European countries.

Worldwide product sales for the three months ended June 30, 2007 were \$89.5 million, up \$11.5 million or 14.7%, from \$78.0 million for the three months ended July 1, 2006. Product sales growth was pervasive across our geographies in the second quarter 2007. Domestically, product sales posted strong increases, up 12.0% or \$5.3 million to \$49.6 million, while international product sales increased 18.4%, or \$6.2 million, to \$39.9 million. On a local currency basis, international product sales rose 9.5%. Increased penetration of existing products, as well as the successful launch of several new consumable products, drove global in-meeting product sales per attendee growth of 5.3% on a constant currency basis.

Table of Contents

Internet revenues, which include subscription revenue from sales of Weight Watchers Online and Weight Watchers eTools, as well as internet advertising revenue, grew \$4.8 million or 14.3%, to \$38.4 million for the three months ended June 30, 2007 from \$33.6 million for the three months ended July 1, 2006. End-of-period active Weight Watchers Online subscribers increased 22.4%, from approximately 501,000 in the second quarter of 2006 to approximately 613,000 in the second quarter of 2007, driven by the success of WW.com's second national television advertising campaign, which aired in Spring 2007 and was even more successful in driving sign-ups than the Winter 2007 campaign. The revenue impact of growth in end-of-period Online subscribers was partially offset by a reduction in paid eTools subscribers in the quarter as compared to last year. eTools is now provided free as part of the Monthly Pass commitment plan. While internet revenues are lower as a result, the revenue gains in NACO from Monthly Pass have far surpassed the impact of lower paid eTool subscriptions.

Other revenue, comprised primarily of licensing revenues and our publications, was \$21.1 million for the three months ended June 30, 2007, an increase of \$4.4 million or 26.3%, from \$16.7 million for the three months ended July 1, 2006. Global licensing revenues increased 36% or \$4.0 million over last year's second quarter with NACO and the U.K. especially strong in both existing and new licenses.

Franchise royalties were \$3.2 million domestically and \$1.3 million internationally for the three months ended June 30, 2007. As a result of our recent acquisition of five franchises, total franchise royalties were down 18.2% to \$4.5 million, from \$5.5 million in the prior year quarter. On a comparable basis, excluding lost royalties from recent acquisitions, franchise royalties rose 14.8%.

Cost of revenues was \$166.7 million for the three months ended June 30, 2007, an increase of \$26.1 million or 18.6%, from \$140.6 million for the three months ended July 1, 2006. Gross profit margin of 56.9% of sales for the three months ended June 30, 2007 increased 70 basis points from 56.2% of sales in the prior year. The margin expansion is derived primarily from higher meeting fees per attendee, a result of the Monthly Pass commitment plan in NACO and price increases in a few European markets, and from growth in our licensing business.

Marketing expenses for the three months ended June 30, 2007 increased \$12.7 million or 31.1%, to \$53.6 million, from \$40.9 million for the three months ended July 1, 2006. WW.com and NACO accounted for most of the increase. Higher marketing expense at WW.com was primarily the result of its national television campaign. NACO increased its spending level in several areas, including for celebrity spokespeople, television production, print ads and research. As a percentage of net revenues, marketing expenses were 13.9% for the three months ended June 30, 2007, as compared to 12.7% in the same period last year.

Selling, general and administrative expenses were \$42.7 million for the three months ended June 30, 2007, as compared to \$34.2 million for the three months ended July 1, 2006, an increase of \$8.5 million. As a percentage of revenues, selling, general and administrative expenses were 11.1% for the three months ended June 30, 2007, as compared to 10.6% in the same period last year. The increase is due in part to our ongoing investment in technology to upgrade our office and meeting room systems and the associated depreciation, coupled with higher employment related expenses, in particular to build our Continental Europe and marketing infrastructures.

Operating income was \$123.3 million for the three months ended June 30, 2007, an increase of \$17.9 million or 17.0%, from \$105.4 million for the three months ended July 1, 2006. The operating income margin for the three months ended June 30, 2007 was 31.9% as compared to 32.8% for the comparable period last year.

Table of Contents

Interest expense increased \$17.5 million to \$29.0 million for the three months ended June 30, 2007, as compared to \$11.5 million for the three months ended July 1, 2006, while the average effective interest rate declined slightly. The increase in interest expense was primarily the result of higher debt outstanding. We raised our debt level in the first quarter of 2007 to finance the repurchase of 19.1 million of our shares (as further explained in *Liquidity and Capital Resources - Stock Transactions*).

In connection with the refinancing of the WWI Credit Facility (as further explained in *Note 5* to the Consolidated Financial Statements), we recorded a charge of \$1.3 million in the second quarter of 2006 for early extinguishment of debt. This charge represented the write-off of a portion of deferred financing costs associated with our old debt.

Our effective tax rate for the three months ended June 30, 2007 was 38.5%, as compared to 37.9% for the three months ended July 1, 2006.

RESULTS OF OPERATIONS FOR THE SIX MONTHS ENDED JUNE 30, 2007

Net revenues were \$785.7 million for the six months ended June 30, 2007, an increase of \$122.6 million or 18.5%, from \$663.1 million for the six months ended July 1, 2006. This \$122.6 million increase was driven primarily by an \$81.8 million increase in meeting fees and a \$27.3 million increase in product sales, both a result of attendance growth and higher average sales per attendee. Internet and licensing revenues grew \$9.2 million and \$6.0 million respectively, with the growth partially offset by a \$1.7 million decrease in other revenues resulting from lower franchise royalties. Net revenues were positively impacted by foreign currency exchange rates in the amount of \$22.2 million or 3.4%.

For the six months ended June 30, 2007, total global meeting fees were \$467.6 million versus \$385.8 million for the same period in the prior year, an increase of \$81.8 million or 21.2% including the favorable impact of foreign currency translation. Globally, attendance volume reached 35.8 million for the first half of 2007, up 5.7% from 33.8 million in the first half of 2006. NACO and the U.K. grew attendance volumes in the period versus prior year, while Continental Europe declined. In the first six months of 2007, there were 45.1 million paid weeks in the global meeting business, a 21.5% increase from the prior year level. The excess of paid weeks growth over attendance growth was the key driver of the 11.7% increase in the average meeting fee per attendee on a constant currency basis. The paid weeks metric for meetings, which we began to furnish earlier this year in order to provide greater transparency, captures total Weight Watchers paid membership by adding *pay as you go* attendance to paid commitment plan weeks.

In NACO, meeting fees for the six months ended June 30, 2007 were \$315.9 million, up \$67.1 million or 27.0%, from \$248.8 million for the six months ended July 1, 2006. Attendances were 21.5 million including 2.1 million from acquisitions made after the first half of 2006. NACO's attendance in total grew 10.6% in the six months versus the prior year period, but was slightly behind last year excluding acquisitions, declining 0.2%. Paid weeks rose 34.3% as a result of the success of NACO's commitment plan, Monthly Pass, outpacing attendance and thereby driving the 14.8% increase in the average meeting fee. The increase in the average meeting fee arises because not all members who purchase Monthly Pass attend all the meetings for which they have paid.

International Company-owned meeting fees were \$151.7 million for the six months ended June 30, 2007, an increase of \$14.7 million or 10.7%, from \$137.0 million for the six months ended July 1, 2006. On a local currency basis, total international meeting fee revenues rose 1.7% from the comparable prior year period as a result of price increases in a few European countries. Despite U.K. attendance growth of 6.1% in the first half of 2007, total international attendance declined 1.0% in the period to 14.3 million as a result of softness in Continental Europe, down 7.0%.

Table of Contents

Worldwide product sales for the six months ended June 30, 2007 were \$194.8 million, up \$27.3 million, or 16.3%, from \$167.5 million for the six months ended July 1, 2006. Increased product sales penetration in the meeting room was driven by the launch and strong sell through of several new consumables products, and by the strong appeal of our newly designed enrollment products to both new and returning members. Domestically, product sales grew 13.3% or \$12.5 million to \$106.5 million in the first half of 2007. International product sales increased 20.1% or \$14.8 million, to \$88.3 million. On a local currency basis, international product sales rose 10.4%.

Internet revenues, which include subscription revenue from sales of Weight Watchers Online and Weight Watchers eTools, as well as internet advertising revenue, grew \$9.2 million or 14.2%, to \$74.1 million for the six months ended June 30, 2007 from \$64.9 million for six months ended July 1, 2006. End-of-period active Weight Watchers Online subscribers increased 22.4%, from approximately 501,000 at June 2006 to approximately 613,000 at June of 2007. This growth was driven by building awareness resulting from the success of WW.com's first two national television advertising campaigns, which aired in the beginning of 2007 and again in the Spring. The revenue impact of the growth in end-of-period online subscribers was partially offset by a reduction in paid eTools subscribers in the six months as compared to last year. eTools is now provided free as part of the Monthly Pass commitment plan. While internet revenues are lower as a result, the revenue gains in NACO from Monthly Pass have far surpassed the impact of lower paid eTool subscriptions.

Other revenue, comprised primarily of licensing revenues and our publications, was \$39.5 million for the six months ended June 30, 2007, an increase of \$6.3 million or 19.0%, from \$33.2 million for the six months ended July 1, 2006. Global licensing revenues increased 25.5% or \$6.0 million.

Franchise royalties were \$6.8 million domestically and \$2.9 million internationally for the six months ended June 30, 2007. As a result of our recent acquisition of five franchises, total franchise royalties were down 17.1% to \$9.7 million from \$11.7 million in the prior year. On a comparable basis, excluding lost royalties from recent acquisitions, franchise royalties rose 12.5%.

Cost of revenues was \$340.0 million for the six months ended June 30, 2007, an increase of \$49.9 million or 17.2%, from \$290.1 million for the six months ended July 1, 2006. Gross profit margin of 56.7% of sales for the six months increased 40 basis points from 56.3% of sales in the comparable prior year period. The margin expansion was derived primarily from higher meeting fees per attendee, a result of the Monthly Pass commitment plan in NACO and price increases in a few European markets, and from growth in the licensing business.

Marketing expenses for the six months ended June 30, 2007 increased \$29.6 million or 31.2%, to \$124.4 million, from \$94.8 million for the six months ended July 1, 2006. A significant portion of the increase resulted from additional television advertising. In the U.S., WW.com began advertising on television for the first time this year, with its national television advertising campaigns. For NACO, Continental Europe and the U.K., we increased our level of television advertising and experienced higher production costs as a result. We also invested more heavily in other non-TV media and direct mail in the NACO business and online advertising in the WW.com business this period as compared to the prior year period. As a percentage of net revenues, marketing expenses were 15.8% for the six months ended June 30, 2007, as compared to 14.3% in the same period last year.

Selling, general and administrative expenses were \$82.3 million for the six months ended June 30, 2007 as compared to \$68.7 million for the six months ended July 1, 2006, an increase of \$13.6 million. As a percentage of revenues, selling, general and administrative expenses were close to the prior year level, at 10.5% for the six months ended June 30, 2007, as compared to 10.4% in the same period last year. This year's selling, general and administrative expense is and will continue to be impacted by our ongoing technology investment in upgrading our systems, both office and meeting room, by employment related expenses, in particular for building our Continental Europe and marketing infrastructures, and to a lesser extent for costs associated with our franchise acquisitions.

Table of Contents

Operating income was \$239.0 million for the six months ended June 30, 2007, an increase of \$29.5 million or 14.1%, from \$209.5 million for the six months ended July 1, 2006. The operating income margin for the six months ended June 30, 2007 was 30.4%, a decrease of 120 basis points from 31.6% for the comparable period last year, primarily as a result of our higher marketing expense.

Interest expense increased \$31.5 million to \$54.3 million for the six months ended June 30, 2007, as compared to \$22.8 million for the six months ended July 1, 2006, while the average effective interest rate declined slightly. The increase in interest expense was primarily the result of higher debt outstanding. We raised our debt level in the first quarter of 2007 to finance the repurchase of 19.1 million of our shares (as further explained in *Liquidity and Capital Resources - Stock Transactions*).

In connection with the refinancing of the WW.com Credit Facility and the WWI Credit Facility (as further explained in *Note 5* to the Consolidated Financial Statements), we recorded a charge of \$3.0 million in the first quarter of 2007 relating to the write-off of the deferred financing costs associated with the WW.com and of \$1.3 million in the second quarter of 2006 for early extinguishment of debt relating to WWI. These charges represented the write-off of a portion of deferred financing costs associated with this old debt.

Our effective tax rate for the six months ended June 30, 2007 was 38.5%, as compared to 38.3% for the six months ended July 1, 2006.

LIQUIDITY AND CAPITAL RESOURCES

Sources and Uses of Cash

For the six months ended June 30, 2007, cash and cash equivalents were \$61.4 million, an increase of \$23.9 million from December 30, 2006. Cash flows provided by operating activities were \$196.4 million. The cash provided by operations exceeded our net income of \$111.8 million, with the excess arising from changes in our working capital, in particular a significant increase in deferred revenues, and differences between book and cash taxes. Funds used for investing and financing activities combined totaled \$173.9 million. Investing activities utilized \$29.7 million, primarily for acquisitions of \$15.7 million, capital expenditures of \$7.0 million, software expenditures of \$4.5 million and website development expenditures of \$2.7 million. Cash used for financing activities totaled \$144.2 million. This included the repurchase of 19.1 million shares of our common stock for \$1,033.6 million in connection with our Tender Offer and share repurchase from Artal (as further explained in *Liquidity and Capital Resources - Stock Transactions*) and dividend payments of \$30.8 million, financed primarily by net proceeds from borrowings of \$915.2 million.

For the six months ended July 1, 2006, cash and cash equivalents were \$54.7 million, an increase of \$23.3 million from December 31, 2005. Cash flows provided by operating activities in the six months of 2006 were \$168.7 million, including \$22.8 million provided by WW.com's operating activities. The cash provided by operations was driven by our net income of \$114.9 million, changes in our working capital and permanent differences between book and cash taxes. Funds used for investing and financing activities combined totaled \$146.2 million. Investing activities utilized \$14.2 million, primarily for capital expenditures of \$8.3 million, software expenditures of \$3.7 million and website development fees of \$2.3 million. Cash used for financing activities totaled \$132.0 million. This included the repurchase of 2.8 million shares of our common stock for \$120.1 million, consistent with our stock repurchase program (as further explained in *Liquidity and Capital Resources - Stock Transactions*), and a dividend payment of \$17.6 million.

Table of Contents*Balance Sheet*

Comparing the balance sheet at June 30, 2007 with that at December 30, 2006, our cash balance has increased by \$23.9 million to \$61.4 million, as noted above. Our working capital deficit at June 30, 2007 was \$84.9 million, including \$61.4 million of cash, as compared to \$81.8 million, including \$37.5 million of cash, at December 30, 2006. Excluding the change in cash, the working capital deficit increased by \$27.0 million from December 30, 2006 to June 30, 2007.

Of the \$27.0 million increase in negative working capital, approximately \$49.1 million relates to operational items and \$3.6 million reflects an increase in the current portion of our long-term debt. These are partially offset by a decrease in negative working capital of \$25.7 million arising from higher deferred taxes. The \$49.1 million of operational items is largely the result of a \$28.9 million increase in deferred revenue for member prepayments associated with our new commitment plans and a \$17.7 million increase in accrued interest. The remaining \$2.5 million is comprised of net payables and accrued expenses increasing \$14.5 million, inventories declining by \$4.9 million, a \$3.8 million higher receivables balance and a \$13.1 million increase in our derivative receivable due to changes in the interest rate yield curve.

Long-Term Debt

As of June 30, 2007, the WWI Credit Facility consisted of a term loan facility in an aggregate amount of \$1,550.0 million consisting of Term Loan A, Additional Term Loan A and Term Loan B, and the Revolver in the amount of up to \$500.0 million. At June 30, 2007, we had debt of \$1,764.4 million and had additional availability under our \$500.0 million Revolver of \$277.5 million.

At June 30, 2007 and December 30, 2006, our debt consisted entirely of variable-rate instruments. The average interest rate on our debt was approximately 6.7% and 6.8% per annum at June 30, 2007 and December 30, 2006, respectively.

The following schedule sets forth our long-term debt obligations and interest rates at June 30, 2007:

Long-Term Debt**At June 30, 2007**

	Balance (in millions)	Interest Rate
Revolver due 2011	\$ 220.0	6.63%
Term Loan A due 2011	345.6	6.64%
Additional Term Loan A due 2013	700.0	6.63%
Term Loan B due 2014	498.8	6.88%
Total Debt	1,764.4	
Less Current Portion	22.5	
Total Long-Term Debt	\$ 1,741.9	

The Term Loan A, Additional Term Loan A and the Revolver bear interest at an initial rate equal to LIBOR plus 1.25% per annum or, at our option, the alternate base rate (as defined in the WWI Credit Facility). The Term Loan B bears interest at an initial rate equal to LIBOR plus 1.5% per annum or, at our option, the alternate base rate (as defined in the WWI Credit Facility). In addition to paying interest on outstanding principal under the WWI Credit Facility, we are required to pay a commitment fee to the lenders under the Revolver with respect to the unused commitments at an initial rate equal to 0.25% per year.

Table of Contents

The WWI Credit Facility contains customary covenants, including covenants that, in certain circumstances, restrict our ability to incur additional indebtedness, pay dividends on and redeem capital stock, make other payments, including investments, sell our assets and enter into consolidations, mergers and transfers of all or substantially all of our assets. The WWI Credit Facility also requires us to maintain specified financial ratios and satisfy certain financial condition tests. At June 30, 2007, we were in compliance with all of the required financial ratios and also met all of the financial condition tests and we are expected to continue to do so for the foreseeable future. The WWI Credit Facility contains customary events of default. Upon the occurrence of an event of default under the WWI Credit Facility, the lenders thereunder may cease making loans and declare amounts outstanding to be immediately due and payable. The WWI Credit Facility is guaranteed by certain of our existing and future subsidiaries. Substantially all of our assets collateralize the WWI Credit Facility.

On June 7, 2007, Standard & Poor's raised its rating on our Term Loan A, Additional Term Loan A, Term Loan B and Revolver from BB to BB+. On January 4, 2007, Moody's affirmed its Ba1 rating for our Term Loan A and Revolver and assigned a Ba1 rating to our Additional Term Loan A and Term Loan B.

The following schedule sets forth our year-by-year debt obligations:

Total Debt Obligation	
(Including Current Portion)	
As of June 30, 2007	
(in millions)	
Remainder of 2007	\$ 11.3
2008	45.6
2009	162.5
2010	215.0
2011	575.0
Thereafter	755.0
Total	\$ 1,764.4

Debt obligations due to be repaid in the next 12 months are expected to be satisfied with operating cash flows. We believe that cash flows from operating activities, together with borrowings available under our Revolver, will be sufficient for the next 12 months to fund currently anticipated capital expenditure requirements, debt service requirements and working capital requirements.

Dividends

On March 12, 2007, our Board of Directors declared a quarterly dividend of \$0.175 per share for the first quarter of fiscal 2007 to be paid on April 13, 2007 to shareholders of record as of March 30, 2007. On June 14, 2007, our Board of Directors declared a dividend for the second quarter of fiscal 2007 payable on July 13, 2007 to shareholders of record as of June 29, 2007.

The WWI Credit Facility provides that we are permitted to pay dividends and extraordinary dividends so long as we are not in default under our credit agreement. However, payment of extraordinary dividends shall not exceed \$150 million in any fiscal year if net debt to EBITDA (earnings before interest, taxes, depreciation and amortization) is greater than 2.5:1 and investment grade rating date (as defined in our credit agreement) has not occurred. We do not expect this restriction to impair our ability to pay dividends, but it could do so.

Table of Contents

Acquisitions

On June 3, 2007, we acquired substantially all of the assets of our British Columbia franchisee for a net purchase price of approximately \$15.3 million.

Stock Transactions

On December 18, 2006, we commenced a tender offer in which we sought to acquire up to 8.3 million shares of our common stock at a price between \$47.00 and \$54.00 per share, which we refer to as the Tender Offer. Prior to the Tender Offer, we entered into an agreement with Artal whereby Artal agreed to sell to us at the same price as is determined in the Tender Offer the number of our shares necessary to keep its percentage ownership in us at substantially the same level after the Tender Offer. Artal also agreed not to participate in the Tender Offer so that it would not affect the determination of the price in the Tender Offer. The Tender Offer expired at midnight on January 18, 2007, and on January 26, 2007 we repurchased approximately 8.5 million shares at a price of \$54.00 per share. The 8.5 million shares repurchased are comprised of the 8.3 million shares we offered to purchase and 0.2 million shares purchased pursuant to our right to purchase up to an additional 2% of the outstanding shares as of November 30, 2006. On February 2, 2007, we repurchased 10.5 million of our shares from Artal at a purchase price of \$54.00 per share pursuant to our prior agreement with Artal.

On October 9, 2003, our Board of Directors authorized a program to repurchase up to \$250.0 million of our outstanding common stock. On each of June 13, 2005 and May 25, 2006, our Board of Directors authorized adding an additional \$250.0 million to this plan. The repurchase program allows for shares to be purchased from time to time in the open market or through privately negotiated transactions. No shares will be purchased from Artal under the program. Other than the aforementioned Tender Offer and share repurchase from Artal, we purchased no additional shares of our common stock during the six months ended June 30, 2007.

Factors Affecting Future Liquidity

Any future acquisitions, joint ventures or other similar transactions could require additional capital and we cannot be certain that any additional capital will be available on acceptable terms or at all. Our ability to fund our capital expenditure requirements, interest, principal and dividend payment obligations and working capital requirements and to comply with all of the financial covenants under our debt agreements depends on our future operations, performance and cash flow. These are subject to prevailing economic conditions and to financial, business and other factors, some of which are beyond our control.

OFF-BALANCE SHEET TRANSACTIONS

As part of our ongoing business, we do not participate in transactions that generate relationships with unconsolidated entities or financial partnerships established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes, such as entities often referred to as structured finance or special purpose entities.

RELATED PARTY TRANSACTIONS

For a discussion of related party transactions affecting us, see Item 13. Certain Relationships and Related Transactions of our Annual Report on Form 10-K for the fiscal year ended December 30, 2006. Other than during the normal course of business, the related party transactions affecting us have not changed since December 30, 2006.

Table of Contents

SEASONALITY

Our business is seasonal, with revenues generally decreasing at year end and during the summer months. Our advertising schedule supports the three key enrollment-generating seasons of the year: winter, spring and fall, with winter having the highest concentration of advertising spending. The timing of certain holidays, particularly Easter, which precedes the spring diet season and occurs between March 22 and April 25, may affect our results of operations and the year-to-year comparability of our results. For example, in 2007, Easter fell on April 8, which means that the pre-summer diet season began earlier than it did in 2006. Our operating income for the first half of the year is generally the strongest. While WW.com experiences similar seasonality in terms of new subscriber signups, its revenue tends to be less seasonal because it amortizes subscription revenue over the related subscription period.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Since 100% of our debt is variable rate-based, any changes in market interest rates will cause an equal change in our interest expense associated with our debt. Accordingly we have entered into interest rate swaps to hedge a substantial portion of our variable rate debt, which mitigates a substantial portion of the associated market risk.

For a more detailed discussion of our quantitative and qualitative disclosures about market risks that affect us, see Item 7A Quantitative and Qualitative Disclosure About Market Risk of our Annual Report on Form 10-K for the fiscal year ended December 30, 2006. Our exposure to market risks has not changed materially since December 30, 2006.

ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based upon that evaluation and subject to the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that the design and operation of our disclosure controls were effective at the reasonable assurance level.

In addition, there was no change in our internal control over financial reporting that occurred during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. However, in fiscal year 2007, we are in the process of upgrading some of our information systems, which will result in the automation of certain key processes. As we migrate to this new environment, our management takes appropriate actions to ensure the continuity of key controls, and the transitions are reviewed as part of our testing of internal controls as they relate to the reliability of financial reporting and the preparation and fair presentation of our consolidated financial statements.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

On July 7, 2006, the Company filed an amended notice of appeal with the Tribunal appealing a ruling by HMRC that from April 1, 2005 Weight Watchers meetings fees in the U.K. should be fully subject to 17.5% standard rated value added tax, or VAT. For over a decade prior to April 1, 2005, HMRC had determined that Weight Watchers meetings fees in the U.K. were only partially subject to 17.5% VAT. It is the Company's view that this prior determination by HMRC should remain in effect and this view was further supported on March 8, 2007 when the Tribunal ruled that Weight Watchers meetings in the U.K. should only be partially subject to 17.5% VAT. On May 3, 2007, HMRC appealed the Tribunal's ruling in favor of the Company and a hearing is scheduled for November 2007. The Company intends to vigorously defend the Tribunal's ruling. If such appeal by HMRC is ultimately successful or if it is determined by HMRC that a lesser proportion of Weight Watchers meetings fees as compared to HMRC's prior rulings is not subject to 17.5% VAT, the Company may incur monetary liability in excess of reserves previously recorded and its U.K. results of operations may be adversely affected in the future. However, it is the opinion of management that the ultimate disposition of this matter, to the extent not previously provided for, will not have a material impact on the financial position, results of operations or ongoing cash flows of the Company.

On July 27, 2007, HMRC issued the Company notices of determination and decisions that for the period April 2001 to April 2007 the Company's leaders and certain other service providers should have been classified as employees for tax purposes and, as such, the Company should have withheld tax from the leaders and certain other service providers pursuant to the PAYE and NIC collection rules and remitted such amounts to the HMRC. The current assessment associated with the notices of determination and decisions is approximately \$27 million. It is the Company's view that the U.K. leaders and other service providers identified by HMRC in its notices and decisions are self-employed and no withholding by the Company was required. The Company intends to vigorously appeal HMRC's notices and decisions as to these classifications and against any amount of PAYE and NIC liability claimed to be owed by the Company. Although there can be no assurances, the Company believes it will ultimately prevail in its appeal. If such appeal is unsuccessful, it is possible that the Company's cash flows and results of operations in a particular quarter may be adversely affected by this matter. However, it is the opinion of management that the disposition of this matter will not have a material impact on the financial position, results of operations or ongoing cash flows of the Company.

Due to the nature of its activities, the Company is also, at times, subject to pending and threatened legal actions that arise out of the normal course of business. The Company has had and continues to have disputes with certain of its franchisees. In the opinion of management, based in part upon advice of legal counsel, the disposition of all such matters is not expected to have a material effect on the Company's results of operations, financial condition or cash flows.

ITEM 1A. RISK FACTORS

There have been no material changes in the risk factors at June 30, 2007 from those detailed in the Company's Annual Report on Form 10-K for the fiscal year ended December 30, 2006.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

We made no stock repurchases during the quarter ended June 30, 2007.
