Annual Report

This report provides management's discussion of fund performance for AllianceBernstein National Municipal Income Fund (the Fund) for the annual reporting period ended October 31, 2007. The Fund is a closed-end fund that trades under the New York Stock Exchange symbol AFB. Effective May 18, 2007, Alliance National Municipal Income Fund changed its name to AllianceBernstein National Municipal Income Fund. The Board of Directors approved the name change at the recommendation of AllianceBernstein L.P., the Fund's investment adviser, to brand the Fund with the same AllianceBernstein name used for other funds in the AllianceBernstein family of funds. As of the close of business on May 18, 2007, the Fund acquired all of the net assets and assumed the liabilities of ACM Municipal Securities Income Fund, pursuant to a plan of reorganization approved by the shareholders of ACM Municipal Securities Income Fund.

Investment Objective and Policies

This closed-end fund seeks to provide high current income exempt from regular federal income tax by investing substantially all of its net assets in municipal securities that pay interest that is exempt from federal income tax. The Fund will normally invest at least 80% of its net assets in municipal securities paying interest that is exempt from regular federal income tax. The Fund also normally will invest at least 75% of its assets in investment-grade municipal securities or unrated municipal securities considered to be

of comparable quality. The Fund may invest up to 25% of its net assets in municipal bonds rated below investment grade and unrated municipal bonds considered to be of comparable quality as determined by the Fund's investment adviser. The Fund intends to invest primarily in municipal securities that pay interest that is not subject to the federal Alternative Minimum Tax (AMT), but may invest without limit in municipal securities paying interest that is subject to the federal AMT. For more information regarding the Fund's risks, please see "A Word About Risk" on page 4 and "Note H - Risks Involved in Investing in the Fund" of the Notes to Financial Statements on page 34.

Investment Results

The table on page 5 provides performance data for the Fund and its benchmark, the Lehman Brothers (LB) Municipal Index, for the six- and 12-month periods ended October 31, 2007.

The Fund underperformed its benchmark for both the six- and 12-month periods ended October 31, 2007.

The Fund's relative underperformance during the 12-month period under review was due to security selection in the insured, hospital and special tax sectors. Security selection in the industrial revenue bond sector benefited performance. Though the Fund's leveraged structure increased income, it generally detracted from the Fund's total return since it also served to increase exposure to long-term rates, which rose during the period.

Market Review and Investment Strategy

For the six- and 12-month periods ended October 31, 2007, yields for short-maturity bonds were little changed or declined, and yields for longer maturity bonds rose significantly. In the six-month period ended October 31, 2007, a broad liquidity crunch stemming from the U.S. subprime mortgage crisis led to widening credit spreads across fixed-income markets. Accordingly, high-grade municipals outperformed riskier debt. The top-performing municipal sectors were those of the highest credit quality, particularly general obligation (GO) and pre-refunded bonds. Speculative-grade securities, which had very strong returns in previous quarters, significantly underperformed as credit spreads widened.

Although problems in the housing market increased uncertainty concerning the future health of the U.S. economy, the Adviser's Municipal Bond Investment Team (the Team) believes that most municipal issuers entered this period of uncertainty in relatively good financial shape. For example, state reserves were among the largest in history as a percent of expenditures and have been accumulating since at least 2005, when tax revenues began to pour into state coffers. Furthermore, state governors and legislators generally have taken a cautious approach in revenue projections in their new budgets, remembering the fiscal difficulties in 2003 when overly optimistic projections led to serious budget shortfalls. As a result, the spread widening experienced in most areas of the municipal market was modest rela-

tive to the dislocations observed in the taxable bond markets.

The overarching theme in the Fund for the 12-month period was that of risk reduction. By historical standards, investors were being paid very little to either assume credit risk or extend maturity. For example, as of October 31, 2007, the extra income for buying a 10-year BBB-rated bond over a 10-year AAA-rated bond was only 0.47%; as of October 31, 2003, the same spread was 0.93%. In response to these market conditions, the Team has been focusing new purchases on high credit quality bonds, and bonds with maturities within 10-15 years rather than lower credit quality bonds, or bonds with longer maturities. The Team's strategy of risk reduction has helped the Fund's relative performance. The Fund's concentration in high credit quality bonds added to performance as credit spreads ultimately widened. Also, maturity selection contributed to the Fund's relative performance as longer-term bonds underperformed.

The Fund may purchase municipal securities that are insured under policies issued by certain insurance companies. Insured municipal securities typically receive a higher credit rating which means that the issuer of the securities pays a lower interest rate. In purchasing such insured securities, the Adviser gives consideration to both the insurer and the credit quality of the underlying issuer. The insurance reduces the credit risk for a particular municipal security by supplementing the creditworthiness of the underlying bond and provides additional security for payment of the principal and inter-

est of a municipal security. Certain of the insurance companies that provide insurance for municipal securities provide insurance for other types of securities, including some involving subprime mortgages. The value of subprime mortgage securities has declined recently and some may default increasing a bond insurer's risk of having to make payments to holders of subprime mortgage securities. Because of this risk, the ratings of some insurance companies have been, or may be, downgraded and it is possible that an insurance company may become insolvent. If an insurance company's rating is downgraded or the company becomes insolvent, the prices of municipal securities insured by the insurance company may decline. As of October 31, 2007, the

Fund held 60% of total investments in insured bonds (of this amount 26% represents the Fund's holding in pre-refunded bonds).

The Adviser believes that downgrades in insurance company ratings or insurance company insolvencies present limited risk to the Fund. A large proportion of the Fund's insured municipal securities are insured by insurance companies rated AAA. The Fund is well diversified by bond insurer, minimizing the exposure to any single insurer. In addition, the generally investment grade underlying credit quality of the insured municipal securities reduces the risk of a significant reduction in the value of the insured municipal security.

HISTORICAL PERFORMANCE

An Important Note About the Value of Historical Performance

The performance on the following page represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance information shown. All fees and expenses related to the operation of the Fund have been deducted. Performance assumes reinvestment of distributions and does not account for taxes.

AllianceBernstein National Municipal Income Fund Shareholder Information

The Fund's NYSE trading symbol is AFB. Weekly comparative net asset value (NAV) and market price information about the Fund is published each Monday in *The Wall Street Journal*, each Sunday in *The New York Times* and each Saturday in *Barron's* and other newspapers in a table called "Closed-End Bond Funds." For additional shareholder information regarding this Fund, please see page 51.

Benchmark Disclosure

The unmanaged Lehman Brothers (LB) Municipal Index does not reflect fees and expenses associated with the active management of a fund portfolio.

The Index is a total return performance benchmark for the long-term, investment grade, tax-exempt bond market. An investor cannot invest directly in an index, and its results are not indicative of the performance for any specific investment, including the Fund.

A Word About Risk

Among the risks of investing in the Fund are changes in the general level of interest rates or changes in bond credit quality ratings. Changes in interest rates have a greater effect on bonds with longer maturities than on those with shorter maturities. Please note, as interest rates rise, existing bond prices fall and can cause the value of your investment in the Fund to decline. While the Fund invests principally in bonds and other fixed-income securities, in order to achieve its investment objectives, the Fund may at times use certain types of investment derivatives, such as options, futures, forwards and swaps. These instruments involve risks different from, and in certain cases, greater than, the risks presented by more traditional investments. At the discretion of the Fund's Adviser, the Fund may invest up to 25% of its net assets in municipal bonds that are rated below investment grade (i.e., "junk bonds"). These securities involve greater volatility and risk than higher-quality fixed-income securities.

Leverage Risk The Fund may use certain investment techniques that have increased risks. For example, the issuance of the Fund's preferred stock results in leveraging of the Common Stock, an investment technique usually considered speculative. The Fund utilizes leveraging to seek to enhance the yield and net asset value of its Common Stock. However, these objectives cannot be achieved in all interest rate environments. Leverage creates certain risks for holders of Common Stock, including higher volatility of both the net asset value and market value of the Common Stock, and fluctuations in the dividend rates on the Preferred Stock will affect the return to holders of Common Stock. To leverage, the Fund issues Preferred Stock, which pays dividends at prevailing short-term interest rates, and invests the proceeds in long-term municipal bonds. If the Fund were fully invested in longer-term securities and if short-term interest rates were to increase, then the amount of dividends paid on the preferred shares would increase and both net investment income available for distribution to the holders of Common Stock and the net asset value of the Common Stock would decline. At the same time, the market value of the Fund's Common Stock (that is, its price as listed on the New York Stock Exchange) may, as a result, decline. Furthermore, if long-term interest rates rise, the Common Stock's net asset value will reflect the full decline in the price of the portfolio's investments, since the value of the Fund's Preferred Stock does not fluctuate. In addition to the decline in net asset value, the market value of the Fund's Common Stock may also decline.

* Variable interest rate based on the Securities Industry & Financial Markets Association, formerly the Bond Market Association (BMA).

(a) Position, or a portion thereof, has been pledged to collateralize interest rate swaps.

(b) Variable rate coupon, rate shown as of October 31, 2007.

(c) Indicates a security that has a zero coupon that remains in effect until a predetermined date at which time the stated coupon rate becomes effective until final maturity.

(d) When-Issued security.

(e) Inverse Floater Security Security with variable or floating interest rate that moves in the opposite direction of short-term interest rates.

(f) Position, or a portion thereof, has been segregated to collateralize when issued security.

(g) Portfolio percentages are calculated based on net assets applicable to common shareholders. As of October 31, 2007, the Fund held 60% of total investments in insured bonds (of this amount 26% represents the Fund's holding in pre-refunded bonds).

NOTES TO FINANCIAL STATEMENTS

October 31, 2007

NOTE A

Significant Accounting Policies

AllianceBernstein National Municipal Income Fund, Inc., (formerly, Alliance National Municipal Income Fund, Inc.) (the Fund) was incorporated in the State of Maryland on November 9, 2001 and is registered under the Investment Company Act of 1940 as a diversified, closed-end management investment company. The financial statements have been prepared in conformity with U.S. generally accepted accounting principles which requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and amounts of income and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund.

1. Security Valuation

Portfolio securities are valued at their current market value determined on the basis of market quotations or, if market quotations are not readily available or are deemed unreliable, at fair value as determined in accordance with procedures established by and under the general supervision of the Fund's Board of Directors.

In general, the market value of securities which are readily available and deemed reliable are determined as follows. Securities listed on a national securities exchange (other than securities listed on the NASDAQ Stock Market, Inc. (NASDAQ)) or on a foreign securities exchange are valued at the last sale price at the close of the exchange or foreign securities exchange. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices on such day. Securities listed on more than one exchange are valued by reference to the principal exchange on which the securities are traded; securities listed only on NASDAQ are valued in accordance with the NASDAQ Official Closing Price; listed put or call options are valued at the last sale price. If there has been no sale on that day, such securities will be valued at the closing bid prices on that day; open futures contracts and options thereon are valued using the closing settlement price or, in the absence of such a price, the most recent quoted bid price. If there are no quotations available for the day of valuation, the last available closing settlement price is used; securities traded in the over-the-counter market, (OTC) are valued at the mean of the current bid and asked prices as reported by the National Quotation Bureau or other comparable sources; U.S. government securities and other debt instruments having 60 days or less remaining until maturity are valued at amortized cost if their original maturity was 60 days or less; or by amortizing their fair value as of the 61st day prior to maturity if their original term to maturity exceeded 60 days; fixed-income securities, including mortgage backed and asset backed securities, may be valued on the basis of prices provided by a pricing service or at a price obtained from one or more of the major broker/dealers. In cases where broker/dealer quotes are obtained, AllianceBernstein L.P. (the Adviser) may establish

ALLIANCEBERNSTEIN NATIONAL MUNICIPAL INCOME FUND 29

Notes to Financial Statements

procedures whereby changes in market yields or spreads are used to adjust, on a daily basis, a recently obtained quoted price on a security; and OTC and other derivatives are valued on the basis of a quoted bid price or spread from a major broker/dealer in such security.

Securities for which market quotations are not readily available (including restricted securities) or are deemed unreliable are valued at fair value. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, analysis of the issuer's financial statements or other available documents. In addition, the Fund may use fair value pricing for securities primarily traded in non-U.S. markets because most foreign markets close well before the Fund values its securities at 4:00 p.m., Eastern Time. The earlier close of these foreign markets gives rise to the possibility that significant events, including broad market moves, may have occurred in the interim and may materially affect the value of those securities.

2. Taxes

It is the Fund's policy to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its investment company taxable income and net realized gains, if any, to shareholders. Therefore, no provisions for federal income or excise taxes are required.

3. Investment Income and Investment Transactions

Interest income is accrued daily. Investment transactions are accounted for on the date the securities are purchased or sold. Investment gains or losses are determined on the identified cost basis. The Fund amortizes premiums and accretes original issue discounts and market discounts as adjustments to interest income.

4. Dividends and Distributions

Dividends and distributions to shareholders, if any, are recorded on the ex-dividend date. Income dividends and capital gains distributions are determined in accordance with federal tax regulations and may differ from those determined in accordance with U.S. generally accepted accounting principles. To the extent these differences are permanent, such amounts are reclassified within the capital accounts based on their federal tax basis treatment; temporary differences do not require such reclassification.

NOTE B

Advisory, Administrative Fees and Other Transactions With Affiliates

Under the terms of an investment advisory agreement, prior to February 12, 2007, the Fund paid the Adviser an advisory fee at an annual rate of .65 of 1% of the Fund's average daily net assets applicable to common and preferred shareholders. As of February 12, 2007, the Fund pays the Adviser an advisory fee at an annual rate of .55% of the Fund's average daily net assets applicable to common and preferred stockholders. Such fee is accrued daily and paid monthly.

The Adviser has voluntarily agreed to waive a portion of its fees or reimburse the Fund for expenses in the amount of .25% of the Fund's average daily net assets applicable to common and preferred shareholders for the first 5 full years of the Fund's operations, .20% for the period January 28, 2007 until February 12, 2007, .10% for year 6 (such waiver commencing February 12 of year 6) and .05% for year 7. For the year ended October 31, 2007, which is year 6 of operations, the amount of such fees waived was \$811,450.

Under the terms of the Shareholder Inquiry Agency Agreement with AllianceBernstein Investor Services, Inc. (ABIS), a wholly-owned subsidiary of the Adviser, the Fund reimburses ABIS for costs relating to servicing phone inquiries on behalf of the Fund. During the year ended October 31, 2007, there was no reimbursement paid to ABIS.

NOTE C

Investment Transactions

Purchases and sales of investment securities (excluding short-term investments) for the year ended October 31, 2007 were as follows:

	Purchases	Sales
Investment securities (excluding U.S. government securities)	\$ 52,059,356	\$ 50,324,910
U.S. government securities	0	0

The cost of investments for federal income tax purposes, gross unrealized appreciation and unrealized depreciation (excluding swap transactions) are as follows:

Cost	\$ 688,726,810
Gross unrealized appreciation	\$ 27,117,193
Gross unrealized depreciation	(2,953,605)
Net unrealized appreciation	\$ 24,163,588

1. Swap Agreements

The Fund may enter into swaps to hedge its exposure to interest rates and credit risk or for investment purposes. A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset. The payment flows are usually netted against each other, with the difference being paid by one party to the other.

Risks may arise as a result of the failure of the counterparty to the swap contract to comply with the terms of the swap contract. The loss incurred by the failure of a counterparty is generally limited to the net interim payment to be received by the Fund, and/or the termination value at the end of the contract. Therefore, the Fund considers the creditworthiness of each counterparty to a swap contract in evaluating potential credit risk. Additionally, risks may arise from unanticipated movements in interest rates or in the value of the underlying securities.

As of November 1, 2003, the Fund has adopted the method of accounting for interim payments on swap contracts in accordance with Financial Accounting Standards Board Statement No. 133. The Fund accrues for the interim payments on swap contracts on a daily basis, with the net amount recorded within unrealized appreciation/depreciation of swap contracts on the statement of assets and liabilities. Once the interim payments are settled in cash, the net amount is recorded as realized gain/loss on swaps, in addition to realized gain/loss recorded upon termination of swap contracts on the statement of operations. Prior to November 1, 2003, these interim payments were reflected within interest income/expense in the statement of operations. Fluctuations in the value of swap contracts are recorded as a component of net change in unrealized appreciation/depreciation of investments.

2. Financial Futures Contracts

The Fund may buy or sell financial futures contracts for the purpose of hedging its portfolio against adverse effects of anticipated movements in the market. The Fund bears the market risk that arises from changes in the value of these financial instruments and the imperfect correlation between movements in the price of the futures contracts and movements in the price of the securities hedged or used for cover.

At the time the Fund enters into a futures contract, the Fund deposits and maintains as collateral an initial margin with the broker, as required by the exchange on which the transaction is effected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized gains or losses. Risks may arise from the potential inability of a counterparty to meet the terms of the contract. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the time it was closed.

NOTE D

Common Stock

There are 28,656,080 shares of common stock outstanding at October 31, 2007. During the year ended October 31, 2007, the Fund issued 8,737 shares in connection with the Fund's dividend reinvestment plan. During the year ended October 31, 2006, the Fund issued 43,134 shares in connection with the Fund's dividend reinvestment plan.

NOTE E

Preferred Stock

The Fund has authorized, issued and outstanding 11,400 shares of Auction Preferred Stock, consisting of 3,150 shares each of Series M, Series W and Series TH, and 1,950 shares of Series T. The preferred shares have a liquidation value of \$25,000 per share plus accumulated, unpaid dividends. The dividend rate on

the Auction Preferred Stock may change generally every 7 days as set by the auction agent for Series M, T, W and TH. The dividend rate on the Series M is 3.70% effective through November 5, 2007. The dividend rate on the Series T is 3.50% effective through November 6, 2007. The dividend rate on the Series W is 3.65% effective through November 7, 2007. The dividend rate on the Series TH is 3.60% effective through November 1, 2007.

At certain times, the Preferred Shares are redeemable by the Fund, in whole or in part, at \$25,000 per share plus accumulated, unpaid dividends.

Although the Fund will not ordinarily redeem the Preferred Shares, it may be required to redeem shares if, for example, the Fund does not meet an asset coverage ratio required by law or to correct a failure to meet a rating agency guideline in a timely manner. The Fund voluntarily may redeem the Preferred Shares in certain circumstances.

The Preferred Shareholders, voting as a separate class, have the right to elect at least two Directors at all times and to elect a majority of the Directors in the event two years' dividends on the Preferred Shares are unpaid. In each case, the remaining Directors will be elected by the Common Shareholders and Preferred Shareholders voting together as a single class. The Preferred Shareholders will vote as a separate class on certain other matters as required under the Fund's Charter, the Investment Company Act of 1940 and Maryland law.

NOTE F

Acquisition of ACM Municipal Securities Income Fund by AllianceBernstein National Municipal Income Fund (the Fund)

On May 18, 2007, the AllianceBernstein National Municipal Income Fund (the Fund) acquired all of the net assets of the ACM Municipal Securities Income Fund, pursuant to a plan of reorganization approved by the shareholders of ACM Municipal Securities Income Fund. On May 18, 2007, the acquisition was accomplished by a tax-free exchange of 8,132,542 common shares and 3,600 shares of Auction Preferred stock of the Fund for 11,145,261 common shares and 3,600 shares of Auction Preferred stock of ACM Municipal Securities Income Fund, respectively. The aggregate net assets applicable to common shareholders of the Fund and ACM Municipal Securities Income Fund immediately before the acquisition were \$313,569,265 and \$124,260,444 (including \$6,907,265 of net unrealized appreciation of investments). Immediately after the acquisition, the combined net assets applicable to common and preferred shareholders of the Fund amounted to \$722,829,709.

ALLIANCEBERNSTEIN NATIONAL MUNICIPAL INCOME FUND 33

Notes to Financial Statements

NOTE G**Distributions to Common Shareholders**

The tax character of distributions paid during the fiscal years ended October 31, 2007 and October 31, 2006 were as follows:

	2007	2006
Distributions paid from:		
Ordinary income	\$ 653,378	\$ 33,460
Tax-exempt income	18,281,658	20,374,316
Total distributions paid	\$ 18,935,036	\$ 20,407,776

As of October 31, 2007, the components of accumulated earnings/(deficit) on a tax basis were as follows:

Accumulated capital and other losses	\$ (7,551,220) ^(a)
Unrealized appreciation/(depreciation)	23,668,727 ^(b)
Total accumulated earnings/(deficit)	\$ 16,117,507^(c)

(a) On October 31, 2007, the Fund had a net capital loss carryforward of \$7,551,220 (of which approximately \$7,060,361 was attributable to the merger with ACM Municipal Securities Income Fund) of which \$1,971,343 expires in the year 2010, \$5,569,671 expires in the year 2011, and \$10,206 expires in the year 2012. To the extent future capital gains are offset by capital loss carryforwards, such gains will not be distributed. The Fund utilized \$1,148,060 of capital loss carryforward for the fiscal year ended October 31, 2007. The Fund had \$9,772,815 of capital loss carryforwards expire in the fiscal year. As a result of the merger with ACM Municipal Securities Income Fund, various limitations regarding the utilization of capital loss carryforwards were applied, based on certain provisions in the Internal Revenue Code.

(b) The differences between book-basis and tax-basis unrealized appreciation/(depreciation) are attributed primarily to the difference between the book and tax treatment of swap income and to wash sales.

(c) The difference between book-basis and tax-basis components accumulated earnings/(deficit) is attributable primarily to dividends payable.

During the current fiscal year, permanent differences primarily due to the tax treatment of swap income, merger related reclassifications, capital loss carryforward expirations, and taxable overdistributions resulted in a net decrease in distributions in excess of net investment income, a net increase in accumulated net realized loss on investment transactions, and a corresponding net increase to additional paid in capital. This reclassification had no effect on net assets.

NOTE H**Risks Involved in Investing in the Fund**

Interest Rate Risk and Credit Risk Interest rate risk is the risk that changes in interest rates will affect the value of the Fund's investments in fixed-income debt securities such as bonds or notes. Increases in interest rates may cause the value of the Fund's investments to decline. Credit risk is the risk that the issuer or guarantor of a debt security, or the counterparty to a derivative contract, will be

unable or unwilling to make timely principal and/or interest payments, or to otherwise honor its obligations. The degree of risk for a particular security may be reflected in its credit risk rating. Credit risk is greater for medium quality and lower-rated securities. Lower-rated debt securities and similar unrated securities (commonly known as junk bonds) have speculative elements or are predominantly speculative risks.

The Fund may purchase municipal securities that are insured under policies issued by certain insurance companies. Insured municipal securities typically receive a higher credit rating which means that the issuer of the securities pays a lower interest rate. In purchasing such insured securities, the Adviser gives consideration to both the insurer and the credit quality of the underlying issuer. The insurance reduces the credit risk for a particular municipal security by supplementing the creditworthiness of the underlying bond and provides additional security for payment of the principal and interest of a municipal security. Certain of the insurance companies that provide insurance for municipal securities provide insurance for other types of securities, including some involving subprime mortgages. The value of subprime mortgage securities has declined recently and some may default increasing a bond insurer's risk of having to make payments to holders of subprime mortgage securities. Because of this risk, the ratings of some insurance companies have been, or may be, downgraded and it is possible that an insurance company may become insolvent. If an insurance company's rating is downgraded or the company becomes insolvent, the prices of municipal securities insured by the insurance company may decline.

The Adviser believes that downgrades in insurance company ratings or insurance company insolvencies present limited risk to the Fund. A large proportion of the Fund's insured municipal securities are insured by insurance companies rated AAA. The Fund is well diversified by bond insurer, minimizing the exposure to any single insurer. In addition, the generally investment grade underlying credit quality of the insured municipal securities reduces the risk of a significant reduction in the value of the insured municipal security.

Leverage Risk The Fund may use certain investment techniques that have increased risks. For example, the issuance of the Fund's preferred stock results in leveraging of the Common Stock, an investment technique usually considered speculative. The Fund utilizes leveraging to seek to enhance the yield and net asset value of its Common Stock. However, these objectives cannot be achieved in all interest rate environments. Leverage creates certain risks for holders of Common Stock, including higher volatility of both the net asset value and market value of the Common Stock, and fluctuations in the dividend rates on the Preferred Stock will affect the return to holders of Common Stock. To leverage, the Fund issues Preferred Stock, which pays dividends at prevailing short-term interest rates, and invests the proceeds in long-term municipal bonds. If the

ALLIANCEBERNSTEIN NATIONAL MUNICIPAL INCOME FUND 35

Notes to Financial Statements

Fund were fully invested in longer-term securities and if short-term interest rates were to increase, then the amount of dividends paid on the preferred shares would increase and both net investment income available for distribution to the holders of Common Stock and the net asset value of the Common Stock would decline. At the same time, the market value of the Fund's Common Stock (that is, its price as listed on the New York Stock Exchange) may, as a result, decline. Furthermore, if long-term interest rates rise, the Common Stock's net asset value will reflect the full decline in the price of the portfolio's investments, since the value of the Fund's Preferred Stock does not fluctuate. In addition to the decline in net asset value, the market value of the Fund's Common Stock may also decline.

Indemnification Risk In the ordinary course of business, the Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these indemnification provisions and expects the risk of loss thereunder to be remote.

NOTE I

Legal Proceedings

As has been previously reported, the staff of the U.S. Securities and Exchange Commission (SEC) and the Office of the New York Attorney General (NYAG) have been investigating practices in the mutual fund industry identified as market timing and late trading of mutual fund shares. Certain other regulatory authorities have also been conducting investigations into these practices within the industry and have requested that the Adviser provide information to them. The Adviser has been cooperating and will continue to cooperate with all of these authorities. The shares of the Fund are not redeemable by the Fund, but are traded on an exchange at prices established by the market. Accordingly, the Fund and its shareholders are not subject to the market timing and late trading practices that are the subject of the investigations mentioned above or the lawsuits described below.

Numerous lawsuits have been filed against the Adviser and certain other defendants in which plaintiffs make claims purportedly based on or related to the same practices that are the subject of the SEC and NYAG investigations referred to above. Some of these lawsuits name the Fund as a party. The lawsuits are now pending in the United States District Court for the District of Maryland pursuant to a ruling by the Judicial Panel on Multidistrict Litigation transferring and centralizing all of the mutual funds involving market and late trading in the District of Maryland.

The Adviser believes that these matters are not likely to have a material adverse effect on the Fund or the Adviser's ability to perform advisory services relating to the Fund.

NOTE J

Recent Accounting Pronouncements

On July 13, 2006, the Financial Accounting Standards Board (FASB) released FASB Interpretation No. 48 Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing a fund's tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded in the current period. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. On December 22, 2006, the Securities and Exchange Commission notified the industry that the implementation of FIN 48 by registered investment companies could be delayed until the last business day of the first required financial statement reporting period for fiscal years beginning after December 15, 2006. At this time, management is evaluating the implications of FIN 48 and its impact on the financial statements has not yet been determined.

On September 20, 2006, the FASB released Statement of Financial Accounting Standards No. 157 Fair Value Measurements (FAS 157). FAS 157 establishes an authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair-value measurements. The application of FAS 157 is required for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. At this time, management is evaluating the implications of FAS 157 and its impact on the financial statements has not yet been determined.

See footnote summary on page 39.

(a) *As of November 1, 2003, the Fund has adopted the method of accounting for interim payments on swap contracts in accordance with Financial Accounting Standards Board Statement No. 133. These interim payments are reflected within net realized and unrealized gain (loss) on swap contracts, however, prior to November 1, 2003, these interim payments were reflected within interest income/expense on the statement of operations. For the year ended October 31, 2004, the effect of this change to the net investment income and the net realized and unrealized gain (loss) on investment transactions was less than \$0.01 per share and the ratio of net investment income to average net assets was .00%.*

(b) *Based on average shares outstanding.*

(c) *Net of fees waived by the Adviser.*

(d) *Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of the period reported. Dividends and distributions, if any, are assumed for purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of the period. Total investment return calculated for a period of less than one year is not annualized.*

(e) *These expense and net investment income ratios do not reflect the effect of dividend payments to preferred shareholders.*

(f) *The ratio includes expenses attributable to costs of proxy solicitation.*

ALLIANCEBERNSTEIN NATIONAL MUNICIPAL INCOME FUND 39

Financial Highlights

REPORT OF INDEPENDENT REGISTERED

PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of AllianceBernstein National Municipal Income Fund, Inc.

We have audited the accompanying statement of assets and liabilities of AllianceBernstein National Municipal Income Fund, Inc. (the Fund), including the portfolio of investments, as of October 31, 2007, and the related statement of operations for the year then ended, the statements of changes in net assets applicable to common shareholders for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2007 by correspondence with the custodian and others, or by other appropriate auditing procedures where replies from others were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of AllianceBernstein National Municipal Income Fund, Inc. at October 31, 2007, the results of its operations for the year then ended, the changes in its net assets applicable to common shareholders for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

New York, New York

Report of Independent Registered Public Accounting Firm

FEDERAL TAX INFORMATION (unaudited)

In accordance with Federal tax law, the Fund's designation of exempt interest dividends paid during the fiscal year ended October 31, 2007 was \$26,731,199.

ALLIANCEBERNSTEIN NATIONAL MUNICIPAL INCOME FUND 41

Federal Tax Information

ADDITIONAL INFORMATION

(unaudited)

Shareholders whose shares are registered in their own names can elect to participate in the Dividend Reinvestment Plan (the Plan), pursuant to which dividends and capital gain distributions to shareholders will be paid in or reinvested in additional shares of the Fund (the Dividend Shares). Computershare Trust Company NA, (the Agent) will act as agent for participants under the Plan. Shareholders whose shares are held in the name of broker or nominee should contact such broker or nominee to determine whether or how they may participate in the Plan.

If the Board declares an income distribution or determines to make a capital gain distribution payable either in shares or in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in shares of Common Stock of the Fund valued as follows:

- (i) If the shares of Common Stock are trading at net asset value or at a premium above net asset value at the time of valuation, the Fund will issue new shares at the greater of net asset value or 95% of the then current market price.
- (ii) If the shares of Common Stock are trading at a discount from net asset value at the time of valuation, the Plan Agent will receive the dividend or distribution in cash and apply it to the purchase of the Fund's shares of Common Stock in the open market on the New York Stock Exchange or elsewhere, for the participants' accounts. Such purchases will be made on or shortly after the payment date for such dividend or distribution and in no event more than 30 days after such date except where temporary curtailment or suspension of purchase is necessary to comply with Federal securities laws. If, before the Plan agent has completed its purchases, the market price exceeds the net asset value of a share of Common Stock, the average purchase price per share paid by the Plan agent may exceed the net asset value of the Fund's shares of Common Stock, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund.

The Agent will maintain all shareholders' accounts in the Plan and furnish written confirmation of all transactions in the account, including information needed by shareholders for tax records. Shares in the account of each Plan participant will be held by the Agent in non-certificate form in the name of the participant, and each shareholder's proxy will include those shares purchased or received pursuant to the Plan.

There will be no charges with respect to shares issued directly by the Fund to satisfy the dividend reinvestment requirements. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Agent's open market purchases of shares.

The automatic reinvestment of dividends and distributions will not relieve participants of any income taxes that may be payable (or required to be withheld) on dividends and distributions.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan as applied to any voluntary cash payments made and any dividend or distribution paid subsequent to written notice of the change sent to participants in the Plan at least 90 days before the record date for such dividend or distribution. The Plan may also be amended or terminated by the Agent on at least 90 days' written notice to participants in the Plan. All correspondence concerning the Plan should be directed to the Agent at Equiserve Trust Company N.A. c/o AllianceBernstein National Municipal Income fund, P.O. Box 43011, Providence, RI 02940-3011.

Since the filing of the most recent amendment to the Fund's registration statement with the Securities and Exchange Commission, there have been (i) no material changes in the Fund's investment objectives or policies, (ii) no changes to the Fund's charter or by-laws that would delay or prevent a change of control of the Fund, and (iii) no material changes in the principal risk factors associated with investment in the Fund.

Privacy Notice

AllianceBernstein L.P., the AllianceBernstein Family of Funds and AllianceBernstein Investments, Inc. (collectively, AllianceBernstein or we) understand the importance of maintaining the confidentiality of our clients' nonpublic personal information. Nonpublic personal information is personally identifiable financial information about our clients who are natural persons. To provide financial products and services to our clients, we may collect information about clients from sources, including: (1) account documentation, including applications or other forms, which may contain information such as a client's name, address, phone number, social security number, assets, income, and other household information, (2) clients' transactions with us and others, such as account balances and transactions history, and (3) information from visitors to our websites provided through online forms, site visitorship data, and online information collecting devices known as cookies.

It is our policy not to disclose nonpublic personal information about our clients (or former clients) except to our affiliates, or to others as permitted or required by law. From time to time, AllianceBernstein may disclose nonpublic personal information that we collect about our clients (or former clients), as described above, to non-affiliated third parties, including those that perform processing or servicing functions and those that provide marketing services for us or on our behalf under a joint marketing agreement that requires the third party provider to adhere to AllianceBernstein's privacy policy. We have policies and procedures to safeguard nonpublic personal information about our clients (and former clients) that include restricting access to such nonpublic personal information and maintaining physical, electronic and procedural safeguards, that comply with applicable standards, to safeguard such nonpublic personal information.

ANMIF-0151-1007

ITEM 2. CODE OF ETHICS.

(a) The registrant has adopted a code of ethics that applies to its principal executive officer, principal financial officer and principal accounting officer. A copy of the registrant's code of ethics is filed herewith as Exhibit 12(a)(1).

(b) During the period covered by this report, no material amendments were made to the provisions of the code of ethics adopted in 2(a) above.

(c) During the period covered by this report, no implicit or explicit waivers to the provisions of the code of ethics adopted in 2(a) above were granted.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors has determined that independent directors David H. Dievler and William H. Foulk, Jr. qualify as audit committee financial experts.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

(a) - (c) The following table sets forth the aggregate fees billed by the independent registered public accounting firm Ernst & Young LLP, for the Fund's last two fiscal years for professional services rendered for: (i) the audit of the Fund's annual financial statements included in the Fund's annual report to stockholders; (ii) assurance and related services that are reasonably related to the performance of the audit of the Fund's financial statements and are not reported under (i), which include advice and education related to accounting and auditing issues and quarterly press release review (for those Funds that issue quarterly press releases), and preferred stock maintenance testing (for those Funds that issue preferred stock); and (iii) tax compliance, tax advice and tax return preparation.

	Audit-Related		
	2006	2007	2008
AB National Municipal Income	\$ 50,000	\$ 15,750	\$ 12,825
	\$ 50,000	\$ 14,959	\$ 12,875

(d) Not applicable.

(e) (1) Beginning with audit and non-audit service contracts entered into on or after May 6, 2003, the Fund's Audit Committee policies and procedures require the pre-approval of all audit and non-audit services provided to the Fund by the Fund's independent registered public accounting firm. The Fund's Audit Committee policies and procedures also require pre-approval of all audit and non-audit services provided to the Adviser and Service Affiliates to the extent that these services are directly related to the operations or financial reporting of the Fund.

(e) (2) All of the amounts for Audit Fees, Audit-Related Fees and Tax Fees in the table under Item 4 (a) - (c) are for services pre-approved by the Fund's Audit Committee.

(f) Not applicable.

(g) The following table sets forth the aggregate non-audit services provided to the Fund, the Fund's Adviser and entities that control, are controlled by or under common control with the Adviser that provide ongoing services to the Fund, which include conducting an annual internal control report pursuant to Statement on Auditing Standards No. 70 (Service Affiliates):

		All Fees for Non-Audit Services Provided to the Portfolio, the Adviser and Service Affiliates	Pre-approved by the Audit Committee (Portion Comprised of Audit Related Fees) (Portion Comprised of Tax Fees)
AB National Municipal Income	2006	\$ 1,040,619	\$ 162,246
			\$ (149,421)
			\$ (12,825)
	2007	\$ 920,400	\$ 149,165
			\$ (136,290)
			\$ (12,875)

(h) The Audit Committee of the Fund has considered whether the provision of any non-audit services not pre-approved by the Audit Committee provided by the Fund's independent registered public accounting firm to the Adviser and Service Affiliates is compatible with maintaining the auditor's independence.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant has a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The audit committee members are as follows:

David H. Dievler
John H. Dobkin

William H. Foulk, Jr
D. James Guzy

Michael J. Downey

Nancy P. Jacklin

Marshall C. Turner, Jr.

ITEM 6. SCHEDULE OF INVESTMENTS.

Please see Schedule of Investments contained in the Report to Shareholders included under Item 1 of this Form N-CSR.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Statement of Policies and Procedures for

Proxy Voting

October 2006

1. Introduction

As a registered investment adviser, AllianceBernstein L.P. (AllianceBernstein , we or us) has a fiduciary duty to act solely in the best interests of our clients. We recognize that this duty requires us to vote client securities in a timely manner and make voting decisions that are in the best interests of our clients. Consistent with these obligations, we will disclose our clients' voting records only to them and as required by mutual fund vote disclosure regulations. In addition, the proxy committees may, after careful consideration, choose to respond to surveys regarding past votes.

This statement is intended to comply with Rule 206(4)-6 of the Investment Advisers Act of 1940. It sets forth our policies and procedures for voting proxies for our discretionary investment advisory clients, including investment companies registered under the Investment Company Act of 1940. This statement applies to AllianceBernstein's growth, value and blend investment groups investing on behalf of clients in both US and non-US securities.

2. Proxy Policies

This statement is designed to be responsive to the wide range of proxy voting subjects that can have a significant effect on the investment value of the securities held in our clients' accounts. These policies are not exhaustive due to the variety of proxy voting issues that we may be required to consider. AllianceBernstein reserves the right to depart from these guidelines in order to avoid voting decisions that we believe may be contrary to our clients' best interests. In reviewing proxy issues, we will apply the following general policies:

2.1 Corporate Governance

AllianceBernstein's proxy voting policies recognize the importance of good corporate governance in ensuring that management and the board of directors fulfill their obligations to the shareholders. We favor proposals promoting transparency and accountability within a company. We will vote for proposals providing for equal access to the proxy materials so that shareholders can express their views on various proxy issues. We also support the appointment of a majority of independent directors on key committees and separating the positions of chairman and chief executive officer. Finally, because we believe that good corporate governance requires shareholders to have a meaningful voice in the affairs of the company, we will support shareholder proposals that request that companies amend their by-laws to provide that director nominees be elected by an affirmative vote of a majority of the votes cast.

2.2 Elections of Directors

Unless there is a proxy fight for seats on the Board or we determine that there are other compelling reasons for withholding votes for directors, we will vote in favor of the management proposed slate of directors. That said, we believe that directors have a duty to respond to shareholder actions that have received significant shareholder support. We may withhold votes for directors (or vote against in non-US markets) that fail to act on key issues such as failure to implement proposals to declassify boards, failure to implement a majority vote requirement, failure to submit a rights plan to a shareholder vote or failure to act on tender offers where a majority of shareholders have tendered their shares. In addition, we will withhold votes for directors who fail to attend at least seventy-five percent of board meetings within a given year without a reasonable excuse. Finally, we may abstain or vote against directors of non-U.S. issuers where there is insufficient information about the nominees disclosed in the proxy statement.

2.3 Appointment of Auditors

AllianceBernstein believes that the company remains in the best position to choose the auditors and will generally support management's recommendation. However, we recognize that there may be inherent conflicts when a company's independent auditor performs substantial non-audit related services for the company. The Sarbanes-Oxley Act of 2002 prohibited certain categories of services by auditors to US issuers, making this issue less prevalent in the US. Nevertheless, in reviewing a proposed auditor, we will consider the fees paid for non-audit services relative to total fees as well as if there are other reasons to question the independence of the auditors.

2.4 Changes in Legal and Capital Structure

Changes in a company's charter, articles of incorporation or by-laws are often technical and administrative in nature. Absent a compelling reason to the contrary, AllianceBernstein will cast its votes in accordance with the company's management on such proposals. However, we will review and analyze on a case-by-case basis any non-routine proposals that are likely to affect the structure and operation of the company or have a material economic effect on the company. For example, we will generally support proposals to increase authorized common stock when it is necessary to implement a stock split, aid in a restructuring or acquisition or provide a sufficient number of shares for an employee savings plan, stock option or executive compensation plan. However, a satisfactory explanation of a company's intentions must be disclosed in the proxy statement for proposals requesting an increase of greater than one hundred percent of the shares outstanding. We will oppose increases in authorized common stock where there is evidence that the shares will be used to implement a poison pill or another form of anti-takeover device. We will support shareholder proposals that seek to eliminate dual class voting structures.

2.5 Corporate Restructurings, Mergers and Acquisitions

AllianceBernstein believes proxy votes dealing with corporate reorganizations are an extension of the investment decision. Accordingly, we will analyze such proposals on a case-by-case basis, weighing heavily the views of our research analysts that cover the company and our investment professionals managing the portfolios in which the stock is held.

2.6 Proposals Affecting Shareholder Rights

AllianceBernstein believes that certain fundamental rights of shareholders must be protected. We will generally vote in favor of proposals that give shareholders a greater voice in the affairs of the company and oppose any measure that seeks to limit those rights. However, when analyzing such proposals we will weigh the financial impact of the proposal against the impairment of shareholder rights.

2.7 Anti-Takeover Measures

AllianceBernstein believes that measures that impede corporate transactions such as takeovers or entrench management not only infringe on the rights of shareholders but may also have a detrimental effect on the value of the company. We will generally oppose proposals, regardless of whether they are advanced by management or shareholders, the purpose or effect of which is to entrench management or excessively or inappropriately dilute shareholder ownership. Conversely, we support proposals that would restrict or otherwise eliminate anti-takeover or anti-shareholder measures that have already been adopted by corporate issuers. For example, we will support shareholder proposals that seek to require the company to submit a shareholder rights plan to a shareholder vote. We will evaluate, on a case-by-case basis, proposals to completely redeem or eliminate such plans. Furthermore, we will generally oppose proposals put forward by management (including the authorization of blank check preferred stock, classified boards and supermajority vote requirements) that appear to be anti-shareholder or intended as management entrenchment mechanisms.

2.8 Executive Compensation

AllianceBernstein believes that company management and the compensation committee of the board of directors should, within reason, be given latitude to determine the types and mix of compensation and benefit awards offered to company employees. Whether proposed by a shareholder or management, we will review proposals relating to executive compensation plans on a case-by-case basis to ensure that the long-term interests of management and shareholders are properly aligned. In general, we will analyze the proposed plan to ensure that

shareholder equity will not be excessively diluted taking into account shares available for grant under the proposed plan as well as other existing plans. We generally will oppose plans that have below market value grant or exercise prices on the date of issuance or permit repricing of underwater stock options without shareholder approval. Other factors such as the company's performance and industry practice will generally be factored into our analysis. We generally will support shareholder proposals seeking additional disclosure of executive and director compensation. This policy includes proposals that seek to specify the measurement of performance based compensation. In addition, we will support proposals requiring managements to submit severance packages that exceed 2.99 times the sum of an executive officer's base salary plus bonus that are triggered by a change in control to a shareholder vote. Finally, we will support shareholder proposals requiring companies to expense stock options because we view them as a large corporate expense that should be appropriately accounted for.

2.9 Social and Corporate Responsibility

AllianceBernstein will review and analyze on a case-by-case basis proposals relating to social, political and environmental issues to determine whether they will have a financial impact on shareholder value. We will vote against proposals that are unduly burdensome or result in unnecessary and excessive costs to the company. We may abstain from voting on social proposals that do not have a readily determinable financial impact on shareholder value.

3. Proxy Voting Procedures

3.1 Proxy Voting Committees

Our growth and value investment groups have formed separate proxy voting committees to establish general proxy policies for AllianceBernstein and consider specific proxy voting matters as necessary. These committees periodically review these policies and new types of corporate governance issues, and decide how we should vote on proposals not covered by these policies. When a proxy vote cannot be clearly decided by an application of our stated policy, the proxy committee will evaluate the proposal. In addition, the committees, in conjunction with the analyst that covers the company, may contact corporate management and interested shareholder groups and others as necessary to discuss proxy issues. Members of the committee include senior investment personnel and representatives of the Legal and Compliance Department. The committees may also evaluate proxies where we face a potential conflict of interest (as discussed below). Finally, the committees monitor adherence to these policies.

3.2 Conflicts of Interest

AllianceBernstein recognizes that there may be a potential conflict of interest when we vote a proxy solicited by an issuer whose retirement plan we manage, or

we administer, who distributes AllianceBernstein sponsored mutual funds, or with whom we or an employee has another business or personal relationship that may affect how we vote on the issuer's proxy. Similarly, AllianceBernstein may have a potential material conflict of interest when deciding how to vote on a proposal sponsored or supported by a shareholder group that is a client. We believe that centralized management of proxy voting, oversight by the proxy voting committees and adherence to these policies ensures that proxies are voted with only our clients best interests in mind. Additionally, we have implemented procedures to ensure that our votes are not the product of a material conflict of interests, including: (i) on an annual basis, the proxy committees will take reasonable steps to evaluate the nature of AllianceBernstein's and our employees' material business and personal relationships (and those of our affiliates) with any company whose equity securities are held in client accounts and any client that has sponsored or has material interest in a proposal upon which we will be eligible to vote; (ii) requiring anyone involved in the decision making process to disclose to the chairman of the appropriate proxy committee any potential conflict that they are aware of (including personal relationships) and any contact that they have had with any interested party regarding a proxy vote; (iii) prohibiting employees involved in the decision making process or vote administration from revealing how we intend to vote on a proposal in order to reduce any attempted influence from interested parties; and (iv) where a material conflict of interests exists, reviewing our proposed vote by applying a series of objective tests and, where necessary, considering the views of third party research services to ensure that our voting decision is consistent with our clients' best interests. Because under certain circumstances AllianceBernstein considers the recommendation of third party research services, the proxy committees will take reasonable steps to verify that any third party research service is in fact independent based on all of the relevant facts and circumstances. This includes reviewing the third party research service's conflict management procedures and ascertaining, among other things, whether the third party research service (i) has the capacity and competency to adequately analyze proxy issues; and (ii) can make such recommendations in an impartial manner and in the best interests of our clients.

3.3 Proxies of Certain Non-US Issuers

Proxy voting in certain countries requires share blocking. Shareholders wishing to vote their proxies must deposit their shares shortly before the date of the meeting with a designated depository. During this blocking period, shares that will be voted at the meeting cannot be sold until the meeting has taken place and the shares are returned to the clients' custodian banks. Absent compelling reasons to the contrary, AllianceBernstein believes that the benefit to the client of exercising the vote does not outweigh the cost of voting (i.e. not being able to sell the shares during this period). Accordingly, if share blocking is required we generally abstain from voting those shares.

In addition, voting proxies of issuers in non-US markets may give rise to a number of administrative issues that may prevent AllianceBernstein from voting such proxies. For example, AllianceBernstein may receive meeting notices without enough time to fully consider the proxy or after the cut-off date for voting. Other markets require AllianceBernstein to provide local agents with power of attorney prior to implementing AllianceBernstein's voting instructions. Although it is AllianceBernstein's policy to seek to vote all proxies for securities held in client accounts for which we have proxy voting authority, in the case of non-US issuers, we vote proxies on a best efforts basis.

3.4 Loaned Securities

Many clients of AllianceBernstein have entered into securities lending arrangements with agent lenders to generate additional revenue. AllianceBernstein will not be able to vote securities that are on loan under these types of arrangements. However, under rare circumstances, for voting issues that may have a significant impact on the investment, we may request that clients recall securities that are on loan if we determine that the benefit of voting outweighs the costs and lost revenue to the client or fund and the administrative burden of retrieving the securities.

3.5 Proxy Voting Records

You may obtain information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30, without charge. Simply visit AllianceBernstein's web site at www.alliancebernstein.com, go to the Securities and Exchange Commission's web site at www.sec.gov or call AllianceBernstein at (800) 227-4618.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The day-to-day management of, and investment decisions for, the Fund's portfolio are made by the Municipal Bond Investment Team (the Team). While all members of the Team work jointly to determine the majority of the investment strategy including security selection for the Fund, Messrs. Michael Brooks, Fred S. Cohen, R. B. Davidson III and Terrence T. Hults, members of the Team, are primarily responsible for the day-to-day management of the Fund's portfolio.

The following table sets forth when each person became involved in the management of the Fund, and each person's principal occupation during the past five years:

Employee; Year; Title	Principal Occupation During the Past Five (5) Years
Michael Brooks; since 2002- Senior Vice President	Senior Vice President of the Adviser with which he has been associated in a substantially similar capacity since prior to 2002.
Fred S. Cohen; since 2002- Senior Vice President	Senior Vice President of the Adviser, with which he has has been associated in a substantially similar capacity since prior to 2002.
R. B. Davidson II; since 2002- Senior Vice President	Senior Vice President of the Adviser, with which he has been associated in a substantially similar capacity since prior to 2002.
Terrence T. Hults; since 2002- Senior Vice President	Senior Vice President of the Adviser, with which he has been associated in a substantially similar capacity since prior to 2002.

(a) (2) The following tables provide information regarding registered investment companies other than the Fund, other pooled investment vehicles and other accounts over which the Fund's portfolio managers also have day-to-day management responsibilities. The tables provide the numbers of such accounts, the total assets in such accounts and the number of accounts and total assets whose fees are based on performance. The information is provided as of the Fund's fiscal year ended October 31, 2007.

Investment Professional Conflict of Interest Disclosure

As an investment adviser and fiduciary, Alliance owes its clients and shareholders an undivided duty of loyalty. We recognize that conflicts of interest are inherent in our business and accordingly have developed policies and procedures (including oversight monitoring) reasonably designed to detect, manage and mitigate the effects of actual or potential conflicts of interest in the area of employee personal trading, managing multiple accounts for multiple clients, including AllianceBernstein Mutual Funds, and allocating investment opportunities. Investment professionals, including portfolio managers and research analysts, are subject to the above-mentioned policies and oversight monitoring to ensure that all clients are treated equitably. We place the interests of our clients first and expect all of our employees to meet their fiduciary duties.

Employee Personal Trading. Alliance has adopted a Code of Business Conduct and Ethics that is designed to detect and prevent conflicts of interest when investment professionals and other personnel of Alliance own, buy or sell securities which may be owned by, or bought or sold for, clients. Personal securities transactions by an employee may raise a potential conflict of interest when an employee owns or trades in a security that is owned or considered for purchase or sale by a client, or recommended for purchase or sale by an employee to a client. Subject to the reporting requirements and other limitations of its Code of Business Conduct and Ethics, Alliance permits its employees to engage in personal securities transactions, and also allows them to acquire investments in the AllianceBernstein Mutual Funds through direct purchase, 401K/profit sharing plan investment and/or notionally in connection with deferred incentive compensation awards. Alliance's Code of Ethics and Business Conduct requires disclosure of all personal accounts and maintenance of brokerage accounts with designated broker-dealers approved by Alliance. The Code also requires preclearance of all securities transactions and imposes a one-year holding period for securities purchased by employees to discourage short-term trading.

Managing Multiple Accounts for Multiple Clients. Alliance has compliance policies and oversight monitoring in place to address conflicts of interest relating to the management of multiple accounts for multiple clients. Conflicts of interest may arise when an investment professional has responsibilities for the investments of more than one account because the investment professional may be unable to devote equal time and attention to each account. The investment professional or investment professional teams for each client may have responsibilities for managing all or a portion of the investments of multiple accounts with a common investment strategy, including other registered investment companies, unregistered investment vehicles, such as hedge funds, pension plans, separate accounts, collective trusts and charitable foundations. Among other things, Alliance's policies and procedures provide for the prompt dissemination to investment professionals of initial or changed investment recommendations by analysts so that investment professionals are better able to develop investment strategies for all accounts they manage. In addition, investment decisions by investment professionals are reviewed for the purpose of maintaining uniformity among similar accounts and ensuring that accounts are treated equitably. No investment professional that manages client accounts carrying performance fees is compensated

directly or specifically for the performance of those accounts. Investment professional compensation reflects a broad contribution in multiple dimensions to long-term investment success for our clients and is not tied specifically to the performance of any particular client's account, nor is it directly tied to the level or change in level of assets under management.

Allocating Investment Opportunities. Alliance has policies and procedures intended to address conflicts of interest relating to the allocation of investment opportunities. These policies and procedures are designed to ensure that information relevant to investment decisions is disseminated promptly within its portfolio management teams and investment opportunities are allocated equitably among different clients. The investment professionals at Alliance routinely are required to select and allocate investment opportunities among accounts. Portfolio holdings, position sizes, and industry and sector exposures tend to be similar across similar accounts, which minimizes the potential for conflicts of interest relating to the allocation of investment opportunities. Nevertheless, investment opportunities may be allocated differently among accounts due to the particular characteristics of an account, such as size of the account, cash position, tax status, risk tolerance and investment restrictions or for other reasons.

Alliance's procedures are also designed to prevent potential conflicts of interest that may arise when Alliance has a particular financial incentive, such as a performance-based management fee, relating to an account. An investment professional may perceive that he or she has an incentive to devote more time to developing and analyzing investment strategies and opportunities or allocating securities preferentially to accounts for which Alliance could share in investment gains.

To address these conflicts of interest, Alliance's policies and procedures require, among other things, the prompt dissemination to investment professionals of any initial or changed investment recommendations by analysts; the aggregation of orders to facilitate best execution for all accounts; price averaging for all aggregated orders; objective allocation for limited investment opportunities (e.g., on a rotational basis) to ensure fair and equitable allocation among accounts; and limitations on short sales of securities. These procedures also require documentation and review of justifications for any decisions to make investments only for select accounts or in a manner disproportionate to the size of the account.

(a) (3) Portfolio Manager Compensation

Alliance's compensation program for investment professionals is designed to be competitive and effective in order to attract and retain the highest caliber employees. The compensation program for investment professionals is designed to reflect their ability to generate long-term investment success for our clients, including shareholders of the AllianceBernstein Mutual Funds. Investment professionals do not receive any direct compensation based upon the investment returns of any individual client account, nor is compensation tied directly to the level or change in level of assets under management. Investment professionals' annual compensation is comprised of the following:

(i) Fixed base salary: This is generally the smallest portion of compensation. The base salary is a relatively low, fixed salary within a similar range for all investment professionals. The base salary is determined at the outset of employment based on level of experience, does not change significantly from year-to-year and hence, is not particularly sensitive to performance.

(ii) Discretionary incentive compensation in the form of an annual cash bonus: Alliance's overall profitability determines the total amount of incentive compensation available to investment professionals. This portion of compensation is determined subjectively based on qualitative and quantitative factors. In evaluating this component of an investment professional's compensation, Alliance considers the contribution to his/her team or discipline as it relates to that team's overall contribution to the long-term investment success, business results and strategy of Alliance. Quantitative factors considered include, among other things, relative investment performance (e.g., by comparison to competitor or peer group funds or similar styles of investments, and appropriate, broad-based or specific market indices), and consistency of performance. There are no specific formulas used to determine this part of an investment professional's compensation and the compensation is not tied to any pre-determined or specified level of performance. Alliance also considers qualitative factors such as the complexity and risk of investment strategies involved in the style or type of assets managed by the investment professional; success of marketing/business development efforts and client servicing; seniority/length of service with the firm; management and supervisory responsibilities; and fulfillment of Alliance's leadership criteria.

(iii) Discretionary incentive compensation in the form of awards under Alliance's Partners Compensation Plan (deferred awards): Alliance's overall profitability determines the total amount of deferred awards available to investment professionals. The deferred awards are allocated among investment professionals based on criteria similar to those used to determine the annual cash bonus. There is no fixed formula for determining these amounts. Deferred awards, for which there are various investment options, vest over a four-year period and are generally forfeited if the employee resigns or Alliance terminates his/her employment. Investment options under the deferred awards plan include many of the same AllianceBernstein Mutual Funds offered to mutual fund investors, thereby creating a close alignment between the financial interests of the investment professionals and those of Alliance's clients and mutual fund shareholders with respect to the performance of those mutual funds. Alliance also permits deferred award recipients to allocate up to 50% of their award to investments in Alliance's publicly traded equity securities.¹

(iv) Contributions under Alliance's Profit Sharing/401(k) Plan: The contributions are based on Alliance's overall profitability. The amount and allocation of the contributions are determined at the sole discretion of Alliance.

¹ Prior to 2002, investment professional compensation also included discretionary long-term incentive in the form of restricted grants of Alliance Capital's Master Limited Partnership Units.

(a) (4) The dollar range of the Fund's equity securities owned directly or beneficially by the Fund's portfolio managers as of the Fund's fiscal year ended October 31, 2007 is set forth below:

	DOLLAR RANGE OF EQUITY SECURITIES IN THE FUND
Michael Brooks	None
Fred S. Cohen	None
R. B. Davidson III	None
Terrence T. Hults	None

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

There have been no purchases of equity securities by the Fund or by affiliated parties for the reporting period.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the Fund's Board of Directors since the Fund last provided disclosure in response to this item.

ITEM 11. CONTROLS AND PROCEDURES.

(a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-2(c) under the Investment Company Act of 1940, as amended) are effective at the reasonable assurance level based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this document.

(b) There were no changes in the registrant's internal controls over financial reporting that occurred during the second fiscal quarter of the period that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

The following exhibits are attached to this Form N-CSR:

EXHIBIT NO.	DESCRIPTION OF EXHIBIT
12 (a) (1)	Code of Ethics that is subject to the disclosure of Item 2 hereof
12 (b) (1)	Certification of Principal Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
12 (b) (2)	Certification of Principal Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
12 (c)	Certification of Principal Executive Officer and Principal Financial Officer Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
