The Board of Directors has determined that all of the members of the Audit Committee are independent within the meaning of the AMEX listed company rules and the enhanced independence requirements for audit committee members contained in Rule 10A-3 under the Securities Exchange Act of 1934, as amended. Our Board of Directors also has determined that each of Messrs. Danna and Throop meets the definition of "audit committee financial expert" adopted by the Securities and Exchange Commission (the "SEC"). The Audit Committee has a written charter that specifies its responsibilities, which include oversight of the financial reporting process and system of internal accounting controls of the Company, and appointment and oversight of the independent registered public accounting firm engaged to audit the Company's financial statements. Interested stockholders can obtain a copy of that Charter at our Internet website at www.coastdistribution.com. To ensure independence, the Audit Committee meets separately with our outside auditors and members of management, respectively.

Code of Business Conduct

We have adopted a Code of Business Conduct for our officers and employees. The Code also sets forth specific ethical policies and principles that apply to our Chief Executive Officer, Chief Financial Officer and other key accounting and financial personnel. A copy of our Code of Business and Ethical Conduct is posted on our Internet website at www.coastdistribution.com. Our directors and executive officers and greater than ten percent stockholders are required by SEC regulations to furnish us with copies of all forms that each has filed pursuant to Section 16(a) of the Exchange Act.

To the best of our knowledge, based solely on a review of the copies of such reports furnished to us during 2007 or written representation that no other reports were required, all officers, directors, and greater than 10% stockholders complied with all Section 16(a) filing requirements, except that one Report of a Change in Beneficial Ownership, on Form 4, reporting an acquisition of shares by John Casey was inadvertently filed two days late and one Report of a Change in Beneficial Ownership, on Form 4, reporting a purchase of shares by Jim Musbach was inadvertently filed two days late.

ITEM 11. EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

Compensation Philosophy

We believe that attracting and retaining superior management employees is one of the key determining factors to the success of our business and to the creation of long-term stockholder value. Therefore, in determining the salaries, incentive compensation and benefits to be paid to our executives, the Compensation Committee's primary objectives are to enable us to retain our existing officers and other key management employees, to attract additional officers and other key management personnel when the need to do so arises, and to create incentives for and reward performance that increases stockholder value. We try to accomplish these objectives by:

Offering meaningful and competitive salaries and benefits to our Chief Executive Officers and our four other executive officers (our NEOs);

Creating incentive compensation plans or programs that provide our NEOs with the opportunity to earn additional compensation based on the Company's achievement of annual financial goals established by the Compensation Committee or exceptional individual performance which the Compensation Committee believes has meaningfully contributed either to the current financial success of the Company or to positioning the Company for future growth and future financial success;

Aligning the financial interests of our NEOs with those of our stockholders, primarily through the grant of stock options and other forms of equity-based compensation that reward our NEOs for performance that results in improvements in the market price of our Common Stock.

It is the Compensation Committee's policy, as well, (i) to submit all equity incentive plans for approval by our stockholders, (ii) to place limits on the number of shares for which options or stock purchase rights may be granted under those plans, and (iii) generally to provide for stock-based compensation awards to become exercisable (i.e., vest) in installments over multi-year periods as a means of creating incentives for NEOs to focus on achieving longer term corporate objectives and to remain in our employ.

The market for talented and experienced individuals is competitive nationally, and particularly in the San Francisco Bay Area where the Company is headquartered. While we consider peer groups, no single factor is determinative in setting compensation structure or allocating among elements of compensation. To ensure that we are appropriately compensating our NEOs and that we have appropriate human resources to execute on our business plans, our Compensation Committee considers all available information and uses its judgment in making compensation decisions. The Compensation Committee performs annual reviews of our executive compensation programs to evaluate their competitiveness and consistency with our overall management compensation philosophy and objectives.

Elements of NEO Compensation

We generally provide three major categories of compensation: (i) base salary; (ii) annual non-equity incentive compensation awards in the form of cash bonuses the payment and amount of which depend on the Company's financial performance; and (iii) equity compensation awards, which have historically been in the form of stock option grants. We believe that the combination of these three elements enhances the Company's ability to retain existing and attract new management employees in the competitive local and national market and to balance their motivation to execute on immediate goals while remaining conscious of our strategic objectives and longer term goals.

The allocation of the individual components of compensation is based on a number of factors, including competitive market conditions and the positions of the management employees within our organization in terms of their ability to influence our financial performance. Generally, the percentage of compensation at risk, either in the form of non-equity incentives or equity compensation, increases for more senior executives. As a result, among management employees, our NEOs have a higher percentage of their total compensation at risk and the higher percentage of total compensation allocated to equity compensation. We believe that this is appropriate, because our NEOs have more influence over whether or not we achieve our strategic imperatives and long-term goals.

Table of Contents

Salaries and Employee Benefits

In order to retain our NEOs and other key management employees, and to be able to attract additional well-qualified executives when the need arises, we strive to offer salaries and health care and other employee benefits to our NEOs and other key management employees which are competitive with those offered by comparable businesses. In establishing salaries for our NEOs, the Compensation Committee reviews (i) their historical performance; and (ii) available information regarding prevailing salaries offered by comparable businesses. Another factor which is considered in establishing salaries of our executive offers are the costs of living in the San Francisco Bay Area where the Company is headquartered, as such costs generally are higher than in other parts of the country.

Non-Equity Incentive Compensation

The Compensation Committee believes that, as a general rule, annual non-equity compensation, in excess of base salaries, should be made dependent primarily on the Company's financial performance. Accordingly, the Committee has followed the practice of establishing, early in each fiscal year, an annual non-equity incentive compensation plan for our NEOs and other key management personnel. For 2007, the plan established a threshold pre-tax earnings goal and provided that if that goal was achieved, a bonus pool would be established from which incentive compensation awards would be made to our NEOs and other participants in the plan. Moreover, the plan provided for increases in the bonus pool, and in the amounts of the incentive compensation awards that would become payable therefrom, if and to the extent that the threshold pre-tax earnings goal was exceeded.

The earnings goal for each year's annual non-equity incentive compensation plan has been established on the basis of the annual operating plan for that year, which is initially developed by management and then is submitted to the Board of Directors for its review, possible modification and approval. The annual operating plan is designed to maximize the profitability of the Company within the constraints of prevailing economic and market conditions. In establishing the annual operating plan, the Board reviews prevailing economic and market conditions and trends and other factors which, based on historical experience, can be expected to affect the Company's revenues and profitability, including, for example, consumer confidence, the availability and prices of gasoline and interest rates, all of which affect the demand for our products and, hence, our sales and profitability. Other factors considered in the development of the annual operating plan include historical operating costs, as adjusted for anticipated increases in costs resulting from pricing changes by vendors or changes in economic conditions, cost savings that management or the Board believe can be realized during the fiscal year, and competitive conditions in the Company's markets. The Compensation Committee believes that, by taking all of these factors into account, the earnings goals for the non-equity incentive compensation plan can be established at what are believed to be realistic levels so as to make the incentives under the plan relevant and meaningful to the NEOs and other plan participants and to avoid unduly penalizing them for conditions outside of their control.

At the time or shortly after the Committee establishes the earnings goal under the annual non-equity incentive compensation plan, it also develops, and provides to each NEO, a schedule of the potential plan awards that the NEO can earn on the basis of the Company's earnings for the fiscal year for which the plan is adopted. The amount of the potential plan awards are based on each plan participant's position and responsibilities with the Company and the Committee's assessment of their likely contributions to the achievement of the annual earnings goal. As a result, as a general rule, the amounts of the non-equity incentive compensation awards that can be earned by the Company's NEOs are greater than for other participants in the plan and generally will represent a higher proportion of each NEO's total cash compensation than for other participants, assuming the earnings goals under the plan are achieved.

On occasion, bonuses are awarded on the basis of the achievement by an NEO of specific objectives within his or her area of responsibility. For example, an NEO may receive a bonus award for his or her efforts in achieving greater than anticipated cost savings, or establishing new or expanding existing markets for the Company's products. Typically, the maximum bonus that may be awarded for achievements of specific objectives is established early in the year by the Compensation Committee to provide the requisite incentive for such performance.

Table of Contents

As a result of these performance-based incentive compensation plans, the cash compensation earned by NEOs increases in those years in which the Company's profitability increases. On the other hand, in years in which the Company experiences less than the anticipated profit growth, the NEOs' non-equity incentive compensation and total compensation tend to be lower.

Specific Terms of 2007 Non-Equity Incentive Compensation Plan

The 2007 Non-Equity Incentive Compensation Plan (the "2007 Plan") provided that if the Company generated pre-tax earnings (before any accrual for incentive compensation that might be awarded under the Plan) of at least \$1.8 million in 2007 (the "Earnings Threshold"), a bonus pool would be established for NEOs under the Plan in an amount of approximately 6% of such pre-tax earnings, and each NEO would have received an incentive compensation award in an amount approximately equal to 10% of his or her annual base salary for 2007. The Plan further provided that, if 2007 pre-tax earnings were to exceed the Earnings Threshold, then the bonus pool would have been increased to an amount approximately equal to 7% of the pre-tax earnings for the year and the amounts of the incentive compensation awards to be granted to each NEO from that pool would have been correspondingly increased, subject to a maximum non-equity incentive compensation award in the amount of approximately 65% of each NEO's 2007 annual base salary.

However, the Earnings Threshold was not achieved in 2007 and, accordingly, none of the NEOs was granted an non-equity incentive compensation award under the 2007 Plan. See "Summary Compensation Table" below.

Stock Option and Equity-Based Compensation Plans

In order to align the financial interests of our NEOs with those of our stockholders, the Committee has granted stock options to the NEOs on a periodic basis. In the view of the Compensation Committee, stock option grants, in particular, reward senior executives and other key management employees for performance that results in increases in the market price of our Common Stock, which directly benefits all stockholders. Moreover, options generally are granted on terms which provide that they will become exercisable in cumulative annual installments over a three-to-five year period. The Compensation Committee believes that these features of the option grants not only provide an incentives for NEOs and other key management employees to remain in the employ of the Company, but also make the Company's earnings performance and longer term growth in the share prices important for the executives who receive stock option grants.

Timing of Option Grants

It is the Compensation Committee's policy to grant options only at regularly scheduled meetings of the Committee and all of the option grants to our NEOs and other key management employees in 2007, 2006 and 2005 were made at the first regularly scheduled meeting of the Committee held in the first quarter of those years.

Perquisites and Other Compensation

During 2007, Messrs. McGuire and Musbach received automobile allowances of approximately \$6,000 and \$2,200, respectively, to compensate them for the use of their personal automobiles on Company business. No other perquisites, or "perks" were provided to our NEOs in 2007.

Compensation of Chief Executive Officer

In July 2006, Mr. McGuire's annual base salary was increased to \$360,000 in order to bring his annual salary up to prevailing salaries being paid to chief executive officers at comparable companies. As a result, his salary for 2006 totaled \$312,500. In 2007, he received his annual base salary of \$360,000 for the entire year. As discussed above, he did not receive any non-equity incentive or bonus compensation for 2007, because the Company failed to achieve the Earnings Threshold established under the 2007 Non-Equity Incentive Compensation Plan. As a result, even though, in 2007, Mr. McGuire received a full year of annual base salary at \$360,000, as compared to only six months at that salary in 2006, his total cash compensation for 2007 was approximately 8% lower than his aggregate cash compensation in 2006, which included a non-equity incentive compensation award of \$85,000 because the Company's 2006 pre-tax earnings exceeded the Earnings Threshold established under the Company's 2006 Non-Equity Incentive Compensation Plan.

Table of Contents

At its first regularly scheduled meeting in 2007, the Compensation Committee granted Mr. McGuire options to purchase 15,000 shares of our common stock (i) at an exercise price of \$8.33 per share, which was equal to the closing per share price of our common stock on the American Stock Exchange on the date of that grant and (ii) on terms that provided that the options would vest in four equal annual cumulative installments of 25% of the shares covered by that option, commencing on the first anniversary of the date of grant.

NEO Compensation Review and Determination Process

Early in the first quarter of each fiscal year, our CEO prepares recommendations for each member of our executive team, excluding himself, with respect to annual base salary for the year, the threshold, target and maximum earnings goals for the new annual non-equity incentive compensation plan and whether stock option grants should be made to them, and submits those recommendations to the Compensation Committee for its consideration and approval. The recommendations take into account a variety of interrelated factors including achievement of our financial and operating performance goals, individual performance and contribution to Company success, market competitive pressures, business conditions, the status of previously granted equity incentive awards with regard to vesting and retention value, and the potential financial impact on the Company of those compensation recommendations.

Determinations with respect to the CEO's compensation follow the same methodology as that of other NEOs; however, his performance is evaluated and any changes in his compensation are independently determined and voted on by the Compensation Committee, without his participation.

Our Compensation Committee is composed of three independent directors and operates pursuant to a written charter that further outlines its duties and responsibilities. The charter is accessible on our website at www.coastdistribution.com.

Employment, Severance and Change of Control Agreements

We currently do not have any employment agreements, severance agreements or change of control agreements with our NEOs.

Accounting and Tax Considerations

Tax and accounting implications are taken into consideration in the design and implementation of our management compensation programs. We recognize a charge to earnings for financial reporting purposes when stock options are granted, in accordance with SFAS 123 R. We also consider the fact that our 401(K) Plan, in which all of our full-time employees are eligible to participate on a non-discriminatory basis, provides tax-advantaged retirement planning vehicles for our employees generally, which include our NEOs and other management employees.

In addition, Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), provides that a company cannot deduct, for federal income tax purposes, compensation in excess of \$1,000,000 paid to the Company's Chief Executive Officer and the next three highest paid executive officers. This deduction limitation does not apply, however, to compensation which constitutes qualified performance-based compensation within the meaning of Section 162(m) of the Code under compensation plans or programs that have been approved by shareholders, such as such as grants of stock options or other equity incentives under the Company's existing stock incentive plans. We consider the limitations on deductions imposed by Section 162(m) of the Code and it is our intention that substantially all executive compensation be designed to constitute qualified performance-based compensation and, therefore, tax deductible under Section 162(m), for so long as doing so is consistent with our overall compensation objectives. All 2007 executive compensation expense was deductible (other than stock option grants, the taxability, and hence the deductibility, of which is deferred under the tax laws at least until the options are exercised). However, to maintain flexibility in compensating our executive officers in a manner designed to promote our compensation goals and objectives, our policy does not require that all executive compensation be deductible for income tax purposes.

- (1) The amounts in this column represent the compensation expense recognized, in accordance with SFAS No. 123R, during 2007 and 2006 attributable to equity-based compensation awards made in each of those years and the vesting in each of those years of equity awards granted in previous years. Pursuant to applicable SEC rules, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions. Information regarding the assumptions on which such expense was determined is contained in Note E to the Company's Consolidated Financial Statements contained in Item 8 of this Report.
- (2) No non-equity incentive compensation was awarded to any of the NEOs for 2007, as the Company failed to achieve the Earnings Threshold established under the 2007 Non-Equity Incentive Compensation Plan that was adopted by the Compensation Committee. Information regarding the Committee's determinations under that Plan is contained in the Compensation Discussion and Analysis set forth above. The Company's 2006 earnings exceeded the Earnings Threshold established under the 2006 Non-Equity Incentive Compensation Plan and, as a result, the NEOs received the respective non-equity incentive compensation awards shown in above table for 2006.
- (3) The other compensation received by Messrs. McGuire and Musbach in 2007 consisted of automobile allowances to reimburse them for the use of their personal automobile on Company business. The other compensation received by the NEOs in 2006 consisted of contributions by the Company to the 401(K) profit sharing plan for the respective accounts of the NEOs. All full time employees are eligible to participate in that profit sharing plan on a non-discriminatory basis. No contributions to that plan were made by the Company for 2007.
- (4) Mr. Musbach joined the Company in mid-September 2006 as its President and Chief Operating Officer. As a result, he received approximately 3 1/2 months of his annual base salary (which was paid at a rate of \$250,000 per year) for 2006 and he was not eligible to participate in the 2006 Non-Equity Incentive Compensation Plan.

(2) Each option grant was made at an exercise price equal to the closing per share price of our Common Stock on the date of the grant as reported by the American Stock Exchange (AMEX).

(3) Each of these options becomes exercisable in four annual cumulative installments of 25% of the respective number of shares subject to those options, commencing one year after their respective dates of grant, and will expire on the 5th anniversary of the respective dates of grant, unless sooner exercised or terminated.

Table of Contents**Option Exercises in 2007**

Ms. Knell and Messrs. Castagnola and Berger were the only NEOs to exercise options during 2007. The following table provides information with respect to those stock option exercises.

Name of Officer	Option Awards	
	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise (\$) ⁽¹⁾
Sandra A. Knell	50,000	\$ 130,625
Dennis A. Castagnola	20,000	\$ 52,450
David A. Berger	20,000	\$ 84,490

- (1) The value realized equals the difference between the option exercise price and the closing per share price of the Company's shares on the date of exercise as reported by AMEX, multiplied by the number of shares for which the option was exercised. For purposes of this calculation, any applicable withholding taxes and broker commissions paid by the NEOs have been excluded.

Pension Benefits

We do not provide pension arrangements or post-retirement health coverage for our NEOs or other employees. Our NEOs, as well as all other full time employees, are eligible to participate in our 401(K) defined contribution plan on a non-discriminatory basis.

Nonqualified Deferred Compensation Plans

We do not offer any nonqualified deferred compensation programs to our NEOs or any other employees.

Potential Payments on Termination or Change of Control

We currently do not have employment agreements, severance agreements, change of control agreements or any other form of agreement with our NEOs which provide for the payment of compensation or non-equity awards or the provision of benefits on a termination of employment or as a result of a change of control transaction. Our stock incentive plans provide that all unvested options, whether held by the NEOs or other employees, will become vested on a change of control of the Company unless the party acquiring control of the Company agrees to assume or substitute comparable equity incentives for those outstanding options on terms approved by the Compensation Committee.

Table of Contents**Directors Compensation**

Only non-employee directors receive compensation for service on the Board of Directors and Committees of the Board. In 2007, non-employee directors were paid a retainer of \$8,000 per year and a fee of \$2,000 for (i) attendance at each Board of Directors meeting, and (ii) each Committee meeting that was held on a date other than a date on which a Board meeting was held. Non-employee directors were reimbursed for their out-of-pocket expenses incurred in attending those meetings.

Pursuant to the Company's Employee Stock Option Plans, each year each non-employee director is automatically granted an option to purchase 2,000 shares of Common Stock at an exercise price that is equal to the fair market value of the Company's shares on the date of grant, as reported by AMEX. These options become fully exercisable six months after the date of grant. Upon joining the Board, each new non-employee director receives an option to purchase 2,000 shares, which becomes exercisable in full one year after the date of grant.

The following table sets forth, for each non-employee director, information regarding the cash compensation paid and the stock-based compensation cost of stock options granted for service on the Board and its Committees during 2007.

Name	Fees Earned or Paid in Cash(\$)⁽¹⁾	Option Awards (\$)⁽²⁾	All Other Compensation (\$)	Total
John W. Casey	\$ 24,000	\$ 4,900		\$ 28,900

Ben A. Frydman	\$ 22,000	\$ 4,900		\$ 26,900
Robert S. Throop	\$ 24,000	\$ 4,900		\$ 28,900

(1) This column reports the amount of cash compensation earned in 2007 for Board and Committee service.

(2) Amounts shown reflect the compensation cost recognized in 2007 with respect to stock option awards granted during 2007 and previous years, as determined in accordance with FASB No. 123R (except that estimated forfeitures have been disregarded for this purpose). The assumptions used to determine these amounts are discussed in Note E to our Consolidated Financial Statements contained in Item 8 of this Report. There were no forfeitures of stock options by our directors during 2007.

The number of shares subject to outstanding stock options held by each director at December 31, 2007 were: Mr. Casey 20,000; Mr. Danna 10,000; Mr. Frydman 18,000; and Mr. Throop 10,000.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

On March 27, 2007, the Company purchased from David Berger, its Executive Vice President - Operations, a total of 12,000 shares of the Company's Common Stock, pursuant to the Company's stock buyback program. The Company's paid an aggregate cash purchase price for those shares of \$95,520, based on a per share price of \$7.96, which was the closing price of the Company's shares on the American Stock Exchange on the date of that purchase.

On September 24, 2007 Company purchased, from Sandra A. Knell, the Company's Executive Vice President and Chief Financial Officer, an option to purchase 50,000 shares of the Company's Common Stock which had been granted to her under the Company's 1993 Stock Option Plan. Ms. Knell had informed us that she had decided to exercise the option and sell the underlying shares and the Board determined it would be preferable to have the Company repurchase the option rather than have the shares sold in an open market transaction. The purchase price paid by the Company for that option was \$2.6125 per option share, which was the difference between the per share closing price of the Company's shares on the American Stock Exchange on the date of purchase, which was \$5.80, and \$3.1875, which was the per share exercise price of that option, resulting in an aggregate purchase price of \$130,625.

Except as described above, during 2007 there was no transactions or any series of similar transactions engaged in by the Company in which any NEO, Director or holder of more than 10% of our Common Stock, or any member of the immediate family of any of the foregoing persons, had any direct or indirect material interest, nor are there any such transactions currently contemplated by the Company.

Table of Contents

Director Independence

To be considered independent, the Board must affirmatively determine that a director does not have any direct or indirect material relationship with Coast that, in the opinion of the Board, would interfere with the exercise of that director's independent judgment in carrying out his responsibilities as a director. Pursuant to Coast's corporate governance guidelines, which incorporate the definition of director independence from the rules of the American Stock Exchange, a director will not be independent if:

Within the preceding three years:

The director was employed by Coast;

An immediate family member of the director was employed as an executive officer of Coast;

The director was employed by or affiliated with, or an immediate family member of the director was employed in a professional capacity by or affiliated with, Coast's independent registered public accounting firm;

A present Coast executive officer was on the compensation committee of the board of directors of a company that concurrently employed the Coast director, or that concurrently employed an immediate family member of the director as an executive officer.

The director received, or an immediate family member of the director received, more than \$60,000 in direct compensation from Coast during any 12 month period within the preceding three years, other than director and committee fees and any deferred compensation for prior service (provided such compensation is not contingent in any way on continued service with the Company); or

The director, or an immediate family member of the director, is a partner, executive officer, or controlling stockholder of another company or professional entity (including any law firm or investment banking firm) to which Coast made, or from which Coast received, payments for property or services in the current or any of the past three fiscal years that exceeded 5% of consolidated gross revenues of that company or professional entity for that year, or \$200,000, whichever was more.

On the basis of the above criteria, the Board has determined that, with the exception of Mr. McGuire, who is Coast's Executive Chairman, and Mr. Musbach, who is the President and CEO of Coast, all of the directors are independent, including Ben A. Frydman. In determining that Mr. Frydman is independent, the other independent directors considered the fact that Mr. Frydman is a stockholder in the law firm of Stradling Yocca Carlson & Rauth, which provided legal services to Coast during the past three years and is providing legal services to Coast in 2008. However, on the basis of the criteria set forth above, the definition of independence contained in the rules of the American Stock Exchange, and their evaluation of Mr. Frydman's past performance as a director, the other independent directors determined that his relationship with Stradling Yocca Carlson & Rauth did not interfere with the exercise of his independent judgment in carrying out his responsibilities as an independent director of Coast Distribution.
