(1) **General.** OptimumBank Holdings, Inc. (the Holding Company) is a one-bank holding company and owns 100% of OptimumBank (the Bank), a state (Florida)-chartered commercial bank (collectively, the Company). The Holding Company's only business is the operation of the Bank. The Bank's deposits are insured by the Federal Deposit Insurance Corporation. The Bank offers a variety of community banking services to individual and corporate customers through its three banking offices located in Broward County, Florida.

In the opinion of the management, the accompanying condensed consolidated financial statements of the Company contain all adjustments (consisting principally of normal recurring accruals) necessary to present fairly the financial position at June 30, 2008, and the results of operations for the three- and six-month periods ended June 30, 2008 and 2007, and cash flows for the six-months periods ended June 30, 2008 and 2007. The results of operations for the three and six months ended June 30, 2008, are not necessarily indicative of the results to be expected for the full year.

(2) **Loan Impairment and Credit Losses.** The activity in the allowance for loan losses was as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
Balance at beginning of period	\$ 794	\$ 1,113	\$ 692	\$ 974

At June 30, 2008 and 2007, the Company had no loans over ninety days past due still accruing interest. Nonaccrual loans were as follows (in thousands):

	At June 30,	
	2008	2007
Nonaccrual loans	\$ 276	\$ 115

- (3) **Regulatory Capital.** The Bank is required to maintain certain minimum regulatory capital requirements. The following is a summary at June 30, 2008 of the regulatory capital requirements and the Bank's capital on a percentage basis:

	Bank	Regulatory Requirement
Tier I capital to total average assets	11.04%	4.00%
Tier I capital to risk-weighted assets	18.14%	4.00%
Total capital to risk-weighted assets	18.59%	8.00%

- (4) **Earnings Per Share.** Basic earnings per share has been computed on the basis of the weighted-average number of shares of common stock outstanding during the period. Diluted earnings per share were computed based on the weighted-average number of shares outstanding plus the effect of outstanding stock options, computed using the treasury stock method. All amounts reflect the 5% stock dividends declared in May, 2008 and 2007. Earnings per common share have been computed based on the following:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
Weighted-average number of common shares outstanding used to calculate basic earnings per common share	3,120,992	3,109,227	3,120,992	3,109,227
Effect of dilutive stock options	61,649	77,351	62,534	81,838
Weighted-average number of common shares outstanding used to calculate diluted earnings per common share	3,182,641	3,186,578	3,183,526	3,191,065

The following options were excluded from the calculation of earnings per share due to the exercise price being above the average market price:

	Number Outstanding	Exercise Price	Expire
For the three and six months ended June 30, 2008-			
Options	267,411	\$ 9.52-11.90	2014-2015
For the three and six months ended June 30, 2007-			
Options	271,464	\$ 9.52-11.90	2014-2015

- (5) **Stock-Based Compensation.** The Company follows the fair value recognition provisions of Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment* (SFAS 123(R)), using the modified-prospective-transition method. Under that transition method, compensation cost to be recognized includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value calculated in accordance with the original provisions of SFAS 123, and (b) compensation cost for all share-based payments granted subsequent to December 31, 2005, based on the grant-date fair value estimated in accordance with the provisions of SFAS 123(R). As of December 31, 2006, all stock options were fully vested and no options were granted in 2007 or 2008; therefore, no stock-based compensation has been recognized in 2007 or 2008.

- (5) **Stock-Based Compensation, Continued.** The Company established an Incentive Stock Option Plan (the Plan) for officers, directors and employees of the Company and reserved 600,686 (amended) shares of common stock for the plan. Both incentive stock options and nonqualified stock options may be granted under the plan. The exercise price of the stock options is determined by the board of directors at the time of grant, but cannot be less than the fair market value of the common stock on the date of grant. The options vest over three and five years. The options must be exercised within ten years from the date of grant. At June 30, 2008, 14,239 options were available for grant.

A summary of the activity in the Company's stock option plan is as follows. All amounts reflect the 5% stock dividend declared on May 29, 2008 (dollars in thousands, except per share amounts):

	Number of Options	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding and exercisable at December 31, 2007 and June 30, 2008	503,587	\$ 7.68	5.1 years	\$ 601

- (6) **Common Stock Dividend.** On May 29, 2008, the Company's board of directors declared a 5% stock dividend to shareholders of record on June 12, 2008 and paid on July 14, 2008.

- (7) **Fair Value Measurements.** On January 1, 2008, the Company adopted SFAS 157, Fair Value Measurements. SFAS 157, among other things, defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measurements required under other accounting pronouncements, but does not change existing guidance as to whether or not an instrument is carried at fair value. The adoption of this statement had no effect on the Company's financial statements.

The following disclosures, which include certain disclosures that are generally not required in interim period financial statements, are included herein as a result of the adoption of SFAS 157.

The Company uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. Currently, the Company has securities available for sale that are recorded at fair value on a recurring basis. Also from time to time the Company may be required to record at fair value other assets or liabilities on a non-recurring basis, such as impaired loans and foreclosed assets. These non-recurring fair value adjustments involve the application of lower-of-cost-or-market, accounting or write-downs of individual assets.

(7) ***Fair Value Measurements, Continued.*** In accordance with SFAS 157, the Company groups its assets and liabilities at fair value in three levels, based on the markets in which the assets are traded and the reliability of the assumptions used to determine fair value. These levels are:

Level 1 Valuation is based upon quoted prices for identical instruments in active markets.

Level 2 Valuation is based upon quoted prices for similar instruments traded in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3 Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect the Company's estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include the use of option pricing models, discounted cash flow models and similar techniques. The results cannot be determined with precision and may not be realized in an actual sale or immediate settlement of the asset or liability. The Company bases its fair value on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. SFAS 157 requires the Company to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

The following describes valuation methodologies used for assets measured at fair value on a recurring and non-recurring basis.

Securities Available for Sale. These securities are valued based upon open-market quotes obtained from reputable third-party brokers which is considered a Level I fair value measurement. Level I fair value measurements are quoted prices in active markets. For identical assets market pricing is based upon CUSIP identification for each individual security. Changes in fair value are recorded in other comprehensive income.

Impaired Loans. A loan is considered impaired when, based upon current information and events, it is probable that we will be unable to collect all amounts due, including principal and interest, according to the contractual terms of the loan agreement. The Company's impaired loans are normally collateral dependent and, as such, are carried at the lower of the Company's net recorded investment in the loan or the estimated fair value of the collateral less estimated selling costs. Adjustments to the recorded investment are made through specific valuation allowances that are recorded as part of the overall allowances for loan losses. Estimates of fair value is determined based on a variety of information, including the use of available appraisals, estimates of market value by licensed appraisers or local real estate brokers and the knowledge and experience of the Company's officers related to values of properties in the Company's market areas. These officers take into consideration the type, location and occupancy of the property as well as current economic conditions in the area the property is located in assessing estimates of fair value. Accordingly, fair value estimates for impaired loans is classified as Level 3.

Foreclosed Assets. Foreclosed assets represents real estate acquired by the Company as a result of foreclosure or by deed in lieu of foreclosure and is carried, net of any allowance for losses if any, at the lower of cost or estimated fair value less estimated selling costs. Fair value is estimated in the same manner as impaired loans and, as such, is also classified as Level 3. As these properties are actively marketed, estimated fair value may be periodically adjusted through an allowance for losses to reflect decreases resulting from changing market conditions.

The following table provides the level of valuation assumptions used to determine the carrying value of our assets measured at fair value on a recurring and non-recurring basis at June 30, 2008 (in thousands).

	Net carrying value at June 30, 2008				Total Losses ⁽¹⁾	
	Total	Level 1	Level 2	Level 3	Three-Months	Six-Months
					Ended	Ended
				June 30, 2008	June 30, 2008	
Securities available for sale	\$ 240	240			5	4
Impaired loans	4,277			4,277		
Foreclosed assets ⁽²⁾	2,406			2,406		93

⁽¹⁾ For securities available for sale, unrealized losses are recorded in accumulated other comprehensive loss.

⁽²⁾ In August 2008, the Bank sold a foreclosed asset with a net carrying value of \$2,300,000, realizing an additional loss of \$293,000.

- (7) ***Fair Value Measurements, Continued.*** Also effective January 1, 2008, the Company adopted SFAS 159, *The Fair Value Option for Financial Assets and Financial Liabilities-Including an amendment of FASB Statement No. 115* (SFAS 159). SFAS 159 provides companies with an option to report selected financial assets and liabilities at fair value. Most of the provisions of this statement apply only to entities that elect the fair value option. However, the amendment to SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, applies to all entities with available-for-sale and trading securities. SFAS 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. Management determined that this Statement had no material effect on the Company's consolidated financial statements.

Report of Independent Registered Public Accounting Firm

OptimumBank Holdings, Inc.

Fort Lauderdale, Florida:

We have reviewed the accompanying condensed consolidated balance sheet of OptimumBank Holdings, Inc. and Subsidiary (the Company) as of June 30, 2008, and the condensed consolidated statements of earnings for the three- and six-month periods ended June 30, 2008 and 2007 and the related condensed consolidated statements of stockholders' equity and cash flows for the six-month periods ended June 30, 2008 and 2007. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying interim condensed consolidated financial statements for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board, the consolidated balance sheet as of December 31, 2007, and the related consolidated statements of earnings, stockholders' equity and cash flows for the year then ended (not presented herein); and in our report dated March 21, 2008, we expressed an unqualified opinion on those financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2007, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

The Company's primary sources of cash during the six months ended June 30, 2008 were from an increase in other borrowings of approximately \$13.0 million, an increase in Federal Home Loan Bank advances of approximately \$12.4 million, principal repayments of securities held to maturity of approximately \$5.6 million, net loan repayments of approximately \$9.2 million and cash provided from operating activities of approximately \$1.5 million. Cash was used primarily for purchases of securities of approximately \$25.5 million and to fund deposit withdrawals of approximately \$16.0 million. At June 30, 2008, the Company had time deposits of approximately \$57.2 million that mature in one year or less. At June 30, 2008, the Company exceeded its regulatory liquidity requirements. Management believes that, if so desired, it can adjust the rates on time deposits to retain or attract deposits in a changing interest-rate environment.

The following table shows selected information for the periods ended or at the dates indicated:

Item 2. Management's Discussion and Analysis

of Financial Condition and Results of Operations, Continued

Off-Balance Sheet Arrangements

The Company is a party to financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and undisbursed loans in process. These instruments involve, to varying degrees, elements of credit and interest-rate risk in excess of the amounts recognized in the condensed consolidated balance sheet. The contract or notional amounts of those instruments reflect the extent of the Company's involvement in particular classes of financial instruments.

The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and undisbursed loans in process is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments as it does for on-balance-sheet instruments.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total committed amounts do not necessarily represent future cash requirements. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if it is deemed necessary by the Company upon extension of credit, is based on management's credit evaluation of the counter party.

A summary of the amounts of the Company's financial instruments, with off-balance sheet risk at June 30, 2008, follows (in thousands):

	Contract Amount
Commitments to extend credit	\$ 10,950
Undisbursed loans in process	\$ 9

Management believes that the Company has adequate resources to fund all of its commitments and that substantially all its existing commitments will be funded in the next twelve months.

OPTIMUMBANK HOLDINGS, INC. AND SUBSIDIARY

Comparison of the Three-Month Periods Ended June 30, 2008 and 2007

General. Net earnings for the three months ended June 30, 2008, were \$388,000 or \$.12 per basic and diluted share compared to net earnings of \$387,000 or \$.12 per basic and diluted share for the period ended June 30, 2007.

Interest Income. Interest income on loans decreased to \$2.9 million due primarily to a decrease in the average loan portfolio balance and a decrease in the average yield earned from 7.25% for the three months ended June 30, 2007 to 7.11% for the three months ended June 30, 2008. Interest on securities increased to \$1.1 due primarily to an increase in the average balance of the securities portfolio in 2008, partially offset by a decrease in the average yield earned from 5.45% for the three months ended June 30, 2007, to 5.34% for the three months ended June 30, 2008.

Interest Expense. Interest expense on deposits decreased to \$1.1 million for the three months ended June 30, 2008, from \$1.4 million for the three months ended June 30, 2007. Interest expense decreased primarily because of a decrease in the average balance of deposits and rates paid on deposits during 2008. Interest expense on borrowings increased to \$1.2 million for the three months ended June 30, 2008 from \$986,000 for the three months ended June 30, 2007 due to an increase in the average balance of borrowings.

(Credit) Provision for Loan Losses. Management's periodic evaluation of the adequacy of the allowance is based upon historical experience, the volume and type of lending conducted by us, adverse situations that may affect the borrower's ability to repay, estimated value of the underlying collateral, loans identified as impaired, general economic conditions, particularly as they relate to our market areas, and other factors related to the estimated collectibility of our loan portfolio. The allowance for loan losses totaled \$694,000 or .43% of loans outstanding at June 30, 2008, compared to \$736,000, or .43% of loans outstanding at June 30, 2007. Management believes the balance in the allowance for loan losses at June 30, 2008 is adequate. The (credit) provision for the three months ended June 30, 2008, was \$(7,000) compared to \$209,000 for the same period in 2007. In 2008 the credit is due to the decrease in the loan portfolio balance. In 2007, the provision was primarily to reflect the impairment in value of a collateral dependent single-family residential construction loan, which was paid off in June 2007, through the sale of the underlying property. The provision for loan losses is charged to earnings as losses are estimated to have occurred in order to bring the total allowance to a level deemed appropriate by management.

Noninterest Income. Total noninterest income decreased to \$38,000 for the three months ended June 30, 2008, from \$159,000 for the three months ended June 30, 2007, primarily due to a decrease in loan prepayment fees in 2008.

Noninterest Expenses. Total noninterest expenses increased to \$1.1 million for the three months ended June 30, 2008 from \$905,000 for the three months ended June 30, 2007, primarily due to the continued growth of the Company.

Income Taxes. Income taxes for the three months ended June 30, 2008, were \$235,000 (an effective rate of 37.7%) compared to income taxes of \$233,000 (an effective rate of 37.6%) for the three months ended June 30, 2007.

Comparison of the Six-Month Periods Ended June 30, 2008 and 2007

General. Net earnings for the six months ended June 30, 2008, were \$818,000 or \$.26 per basic and diluted share compared to net earnings of \$802,000 or \$.26 per basic and \$.25 per diluted share for the period ended June 30, 2007.

Interest Income. Interest income increased to \$8.0 million for the six months ended June 30, 2008 from \$7.8 million for the six months ended June 30, 2007. Interest income on loans decreased to \$6.0 million due primarily to a decrease in the average loan portfolio balance and a decrease in the average yield earned from 7.32% for the six months ended June 30, 2007 to 7.28% for the six months ended June 30, 2008. Interest on securities increased to \$1.9 million due primarily to an increase in the average balance of the securities portfolio in 2008 and an increase in the average yield earned.

Interest Expense. Interest expense on deposits decreased to \$2.5 million for the six months ended June 30, 2008, from \$2.9 million for the six months ended June 30, 2007. Interest expense decreased primarily due to a decrease in the average balance of deposits and rates paid on deposits during 2008. Interest expense on borrowings increased to \$2.2 million for the six months ended June 30, 2008 from \$1.8 million for the six months ended June 30, 2007 due to an increase in the average balance of borrowings during 2007.

Provision for Loan Losses. The provision for the six months ended June 30, 2008, was \$114,000 compared to \$520,000 for the same period in 2007. In 2007, the provision was primarily to reflect the impairment in value of a collateral dependent single-family residential construction loan, which was paid off in June 2007, through the sale of the underlying property. The provision for loan losses is charged to earnings as losses are estimated to have occurred in order to bring the total allowance for loan losses to a level deemed appropriate by management. Management's periodic evaluation of the adequacy of the allowance is based upon historical experience, the volume and type of lending conducted by us, adverse situations that may affect the borrower's ability to repay, estimated value of the underlying collateral, loans identified as impaired, general economic conditions, particularly as they relate to our market areas, and other factors related to the estimated collectibility of our loan portfolio. The allowance for loan losses totaled \$694,000 or .43% of loans outstanding at June 30, 2008, compared to \$736,000, or .43% of loans outstanding at June 30, 2007. Management believes the balance in the allowance for loan losses at June 30, 2008 is adequate.

Noninterest Income. Total noninterest income decreased to \$80,000 for the six months ended June 30, 2008, from \$393,000 for the six months ended June 30, 2007, primarily due to a decrease in loan prepayment fees in 2008 and a litigation settlement in 2007.

Noninterest Expenses. Total noninterest expenses was \$2.0 million for the six months ended June 30, 2008 and \$1.8 million for the six months ended June 30, 2007. The increase was due to the overall growth of the Company.

Income Taxes. Income taxes for the six months ended June 30, 2008, were \$493,000 (an effective rate of 37.6%) compared to income taxes of \$435,000 (an effective rate of 35.2%) for the six months ended June 30, 2007.
