- “ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Section 1 Registrant's Business and Operations

Item 1.01. Entry into a Material Definitive Agreement.

Effective April 12, 2010, PECO Energy Company (PECO) has entered into a Financial Assistance Agreement with the Department of Energy (DOE) for Smart Grid Investment Grant (SGIG) funds under the American Recovery and Reinvestment Act. Under the SGIG, PECO has been awarded \$200 million, the maximum allowable grant under the program, for its SGIG project Smart Future Greater Philadelphia. The SGIG project has a budget of approximately \$436 million and includes demonstration projects by two sub-recipients, Drexel University and Liberty Property Trust.

Under Pennsylvania Act 129 of 2008, PECO is obligated to deploy smart meter technology to its entire service territory within fifteen years of Pennsylvania Public Utility Commission (PA PUC) approval of its smart meter technology procurement and installation plan. As a result of SGIG funding, and upon PA PUC approval, PECO has committed to the initial deployment of 600,000 meters over the next three years and to accelerate universal meter deployment to all of PECO's 1.6 million electric service customers within the next ten years. In addition to investments in smart meter technology, PECO will accelerate smart grid investments over the next three years from approximately \$55 million to approximately \$100 million.

Prior to executing the Financial Assistance Agreement with DOE, on March 30, 2010, PECO received approval from DOE to encumber project property and equipment that is subject to PECO's existing mortgage, with DOE assuming a subordinate interest to the mortgage. Also prior to executing the Financial Assistance Agreement, the U.S. Department of the Treasury announced a revenue procedure which created a safe-harbor from taxation for corporations receiving SGIG funds and treating those funds as nonshareholder contribution to capital.

In total, over the next 10 years PECO is planning to spend up to a total of \$650 million on smart grid and smart meter infrastructure. The \$200 million SGIG from DOE will be used to significantly reduce the impact of those investments on PECO ratepayers, in addition to increasing grid reliability, efficiency, functionality and interoperability.

Section 9 Financial Statements and Exhibits

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits.
