PROXY STATEMENT

2010 Annual Meeting of Stockholders

To Be Held on May 25, 2010

We are furnishing this Proxy Statement in connection with the solicitation of proxies by our Board of Directors for use at our 2010 Annual Meeting of Stockholders on Tuesday, May 25, 2010, 11:00 a.m., Chicago time, at the Hilton Garden Inn, 26225 North Riverwoods Boulevard, Mettawa, Illinois 60045. We are mailing this Proxy Statement and the accompanying materials to our stockholders beginning on or about April 15, 2010.

In this Proxy Statement, we, us, our or the Company refers to Stericycle, Inc.

GENERAL

Stock

Our authorized capital stock consists of common stock, par value \$0.01 per share (common stock), and preferred stock, par value \$0.01 per share (preferred stock). As of March 26, 2010, the record date for the Annual Meeting, we had 84,847,191 shares of common stock outstanding. We did not have any shares of preferred stock outstanding.

Stockholders Entitled To Vote

Only holders of our common stock who were stockholders of record at the close of business on the record date of March 26, 2010 are entitled to notice of and to vote their shares of record at the Annual Meeting. Each outstanding share of common stock is entitled to one vote.

Quorum

Holders of a majority of the outstanding shares of common stock entitled to vote at the Annual Meeting who are present in person or represented by proxy will constitute a quorum to conduct business at the meeting. The inspectors of election appointed at the meeting will determine the existence of a quorum and tabulate the votes cast at the meeting.

Voting

The nine directors to be elected at the Annual Meeting (**Item 1**) will be elected by a plurality of the votes cast by stockholders present in person or represented by proxy, entitled to vote and voting. The proposal to ratify the appointment of Ernst & Young LLP as our independent public accountants for the fiscal year ended December 31, 2010 (**Item 2**) and each other matter to be voted on at the Annual Meeting will require for approval the affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote.

A stockholder may withhold authority to vote for one or more nominees for director and may abstain from voting on one or more of the other matters to be voted on at the Annual Meeting. Shares for which authority is

Table of Contents

withheld or that a stockholder abstains from voting will be counted for purposes of determining whether a quorum is present. Shares for which authority is withheld or that a stockholder abstains from voting will have no effect on the voting for the election of directors (because, as noted, directors are elected on the basis of a plurality of the votes cast). Shares that a stockholder abstains from voting on other matters will be included in the total of votes cast and will have the effect of votes against the matter in question.

If a broker or nominee indicates on a proxy card that it does not have discretionary authority to vote on a particular matter, the shares will be taken into account in determining whether a quorum is present (if the shares are voted on any other matter) but will not be included in the total of votes cast and thus will have no effect on the outcome of voting on the matter. A broker or nominee may not vote shares for the election of directors without instructions from the stockholder.

Telephone and Internet Voting

Stockholders whose shares are registered in their names directly with our stock registrar and transfer agent, Wells Fargo Shareowner Services, may vote their shares telephonically, by calling (800) 560-1965, or via the internet, by going to www.eproxy.com/src1. Stockholders whose shares are registered in the name of a broker, bank or other nominee may be able to vote their shares telephonically or via the internet. You should check the information provided by your broker, bank or other nominee to see what options are available to you.

Proxies

If a stockholder properly completes and returns the accompanying proxy card, the shares of stock represented by the proxy will be voted as the stockholder directs. **If no directions are given, the persons appointed as proxy holders will vote the shares in accordance with the recommendations of our Board of Directors**, i.e., they will vote the shares **for** the election of the nominees for director described in this proxy statement (Item 1) and **for** ratification of the appointment of Ernst & Young LLP as our independent public accountants for the fiscal year ended December 31, 2010 (Item 2).

A stockholder may revoke a proxy at any time before it is voted by filing a signed notice of revocation with the Secretary of the Company or by returning a properly completed proxy card bearing a later date. In addition, a stockholder may revoke a proxy by attending the Annual Meeting in person and requesting to vote. Attendance at the meeting in person will not, by itself, revoke the proxy.

Committees of the Board

Our Board of Directors has standing Compensation, Audit and Nominating and Governance Committees. All of the members of each committee are outside directors who are independent under the applicable listing standards of the NASDAQ Global Select Market.

Compensation Committee

The Compensation Committee makes recommendations to the full Board of Directors concerning the base salaries and cash bonuses of our executive officers and reviews our employee compensation policies generally. The Committee also administers our stock option plans as they apply to our executive officers. In addition, the Committee periodically reviews our compensation practices to evaluate whether they pose enterprise or other risks to us.

Audit Committee

The Audit Committee assists the Board of Directors in fulfilling its oversight responsibilities relating to the integrity of our financial statements, the qualifications and experience of our independent accountants, the performance of our internal audit function and our independent accountants, and our compliance with legal and regulatory requirements.

The Audit Committee reviews our risk management policies and practices and reports any significant issues to the full Board. Matters of risk management are brought to the Committee's attention by our Executive Vice President and Chief Financial Officer, who fills the functional role of our chief risk officer, or by our chief regulatory compliance officer or our principal internal auditor, who focuses on potential weaknesses that could result in a failure of an internal control process. Our management reviews and reports on potential areas of risk at the Committee's request or at the request of other members of the Board.

Nominating and Governance Committee

The Nominating and Governance Committee identifies and evaluates possible nominees for election to the Board of Directors and recommends to the full Board a slate of nominees for election at the annual meeting of stockholders. The Committee also recommends to the full Board

Edgar Filing: STERICYCLE INC - Form DEF 14A

director assignments to the Board's committees. In addition, the Committee develops, recommends to the full Board and oversees the implementation of our corporate governance policies and practices.

The Committee considers a variety of factors in evaluating a candidate for selection as a nominee for election as a director. These factors include the candidate's personal qualities, including, in particular, the candidate's probity, independence of judgment and analytical skills, and the candidate's professional experience, educational background, knowledge of our business and health care services generally, and experience serving on the boards of other public companies. While we do not currently have a formal diversity policy in connection with the selection of candidates as nominees for election as directors, the Board seeks directors who bring to the Board a mix of backgrounds and experiences that will enhance the quality of the Board's deliberations and decisions. The Committee has not established any minimum qualifications that a candidate must possess. In determining whether to recommend an incumbent director for re-election, the Committee also considers the

Table of Contents

director's preparation for and participation in meetings of the Board of Directors and the committee or committees of the Board on which he serves.

In identifying potential candidates for selection in the future as nominees for election as directors, the Committee will rely on suggestions and recommendations from the full Board, management, stockholders and others and, when appropriate, may retain a search firm for assistance. The Committee will consider candidates proposed by stockholders and will evaluate any candidate proposed by a stockholder on the same basis that it evaluates any other candidate. Any stockholder who wants to propose a candidate should submit a written recommendation to the Committee indicating the candidate's qualifications and other relevant biographical information and providing preliminary confirmation that the candidate would be willing to serve as a director. See Communications with the Board.

Committee Charters

The charters of the Compensation, Audit and Nominating and Governance Committees are available on our website, www.stericycle.com.

Lead Director

We amended our bylaws in August 2008 to require the Board of Directors to appoint one of our outside directors as the lead director if and when our president and chief executive, or any other officer or employee, is serving as the Chairman of the Board. The lead director is required to be independent under the listing standards of the NASDAQ Global Select Market, and serves at the Board's pleasure until the next election of directors by the stockholders.

Working with the Chairman of the Board, the lead director is responsible for coordinating the scheduling and agenda of board meetings and the preparation and distribution of agenda materials. The lead director presides when the Board meets in executive session or in the absence of the Chairman of the Board and may call special meetings of the Board when he considers appropriate. In general, the lead director oversees the scope, quality and timeliness of the flow of information from our management to the board and serves as an independent point of contact for stockholders wishing to communicate with the Board other through the Chairman of the Board.

In August 2008, our Chairman of the Board, Jack W. Schuler, resigned as Chairman after serving for more than 18 years, and our Board appointed him as our lead director and appointed our President and Chief Executive Officer, Mark C. Miller, who had served in these positions for more than 16 years, to the additional position of Chairman of the Board. The Board made these changes to give formal recognition to Mr. Miller and to acknowledge the way in which the roles played by Messrs. Schuler and Miller had evolved over time.

Corporate Governance

Executive Sessions of the Board

Our Board of Directors excuses Mr. Miller, our Chairman of the Board, President and Chief Executive Officer, as well as any of our other executive officers who may be present by invitation, from a portion of each meeting of the Board in order to allow the Board, with our lead director presiding, to review Mr. Miller's performance as President and Chief Executive Officer and to enable each director to raise any matter of interest or concern without the presence of management.

Board Evaluation

Our directors annually review the performance of the Board of Directors and its committees and the performance of their fellow directors by completing confidential evaluation forms that are returned to Mr. Schuler as the Chairman of the Nominating and Governance Committee. At a subsequent meeting of the Board, Mr. Schuler leads a discussion with the full Board of any issues and suggestions for improvement identified in his review of these evaluation forms.

Policy on Related Party Transactions

Edgar Filing: STERICYCLE INC - Form DEF 14A

The Board of Directors has adopted a written policy requiring certain transactions with related parties to be approved in advance by the Audit Committee. For purposes of this policy, a related party includes any director or executive officer or an immediate family member of any director or executive officer. The transactions subject to review include any transaction, arrangement or relationship (or any series of similar transactions, arrangements and relationships.) in which (i) we or one of our subsidiaries will be a participant, (ii) the aggregate amount involved exceeds \$100,000 and (iii) a related party will have a direct or indirect interest. In reviewing proposed transactions with related parties, the Audit Committee will consider the benefits to us of the proposed transaction, the potential effect of the proposed transaction on the director's independence (if the related party is a director), and the terms of the proposed transaction and whether those terms are comparable to the terms available to an unrelated third party or to employees generally. There were no transactions during 2009 that required the Audit Committee's approval.

Succession Planning

The Board of Directors annually reviews and approves our succession planning for our President and Chief Executive Officer, our other executive officers and a number of other officers.

Required Resignation on Change in Job Responsibilities

By informal agreement, the Board of Directors has adopted a policy that a director must tender his resignation if the director's principal occupation or business association changes substantially from the position that he held when originally elected to the Board. The Nominating and Governance Committee will then review the circumstances of the director's new position or retirement and recommend to the full Board whether to accept or reject the director's resignation in light of the contribution that he can be expected to continue to make to the Board.

Communications with the Board

Stockholders who would like to communicate with the Board may do so by writing to the Board of Directors, Stericycle, Inc., 28161 North Keith Drive, Lake Forest, Illinois 60045. Communications relating to matters within the scope of the Board's responsibilities will be forwarded to the Chairman of the Board and at his direction to the other directors, and communications relating to ordinary day-to-day business matters that are not within the scope of the Board's responsibilities will be forwarded to the appropriate officer or executive. Communications addressed to the lead director will be forwarded to him and at his direction to the other directors, and communications addressed to a particular committee of the Board will be forwarded to the chairman of that committee and at his direction to the other members of the committee.

AUDIT COMMITTEE REPORT

Under the Audit Committee's charter, the Audit Committee of the Board of Directors assists the Board in fulfilling its oversight responsibilities relating to the integrity of the Company's financial statements, the qualifications and experience of Company's independent accountants, the performance of the Company's internal audit function and independent accountants, and the Company's compliance with applicable legal and regulatory requirements. The Committee's charter is available on the Company's website, www.stericycle.com. The current members of the Committee, who served during 2009, are Messrs. Dammeyer (Chairman), Brown, Patience and Schuler.

In regard to our role, we note that it is the responsibility of the Company's management to prepare financial statements in accordance with accounting principles generally accepted in the United States, and that it is the responsibility of the Company's independent public accountants to audit those financial statements. The Committee's responsibility is one of oversight, and we do not provide expert or other special assurance regarding the Company's financial statements or the quality of the audits performed by the Company's independent public accountants.

In carrying out our oversight responsibility, we review and discuss with both management and the Company's independent public accountants all quarterly and annual financial statements prior to their issuance. We reviewed and discussed with both management and Ernst & Young LLP the quarterly and annual financial statements for the fiscal year ended December 31, 2009. Our reviews and discussions with Ernst & Young LLP included executive sessions without the presence of the Company's management. They also included discussions of the matters required to be discussed pursuant to Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as amended (AICPA, *Professional Standards*, vol. 1 AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T, including the quality of the Company's accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the Company's financial statements. We also discussed with Ernst & Young LLP matters relating to their independence, including a review of their audit and non-audit fees and the letter and written disclosures that the Committee received from Ernst & Young LLP pursuant to Rule 3526 of the Public Company Accounting Oversight Board, *Communications with Audit Committees Concerning Independence*.

In addition, we continued to monitor the scope and adequacy of the Company's internal controls, including staffing levels and requirements, and we reviewed programs and initiatives to strengthen the effectiveness of the Company's internal controls and steps taken to implement recommended improvements.

On the basis of these reviews and discussions, we recommended to the Board of Directors that the Board approve the inclusion of the Company's audited financial statements in the Company's annual report on Form 10-K for the year ended December 31, 2009 for filing with the U.S. Securities and Exchange Commission.

COMPENSATION DISCUSSION AND ANALYSIS

Our executive compensation policies have three objectives:

to attract, motivate and retain highly qualified executive officers

to make a substantial portion of their compensation dependent on the Company's attainment of a measurable performance target

to structure a substantial portion of their compensation so that they benefit only if all of our stockholders benefit

Our compensation program for executive officers consists of cash compensation and long-term incentive compensation. Cash compensation is paid in the form of a base salary and a performance incentive bonus (PIB), and long-term incentive compensation is paid in the form of stock options.

We favor cash PIBs and stock options as the principal components of our executive officers' compensation because they provide incentives to improve our operating performance and thereby create value for all of our stockholders.

Compensation Decisions

Decisions relating to the compensation of our executive officers are made by the Compensation Committee of our Board of Directors. Decisions of the Committee relating to executive officers' base salaries and PIBs are subject to the review and approval of the full Board; decisions of the Committee relating to executive officers' stock options are reviewed by the full Board but are not subject to the Board's approval.

Compensation decisions are made with a view to reaching an overall result that, in the Compensation Committee's subjective judgment, is appropriate and fair to the particular executive officer, both in absolute terms and relative to the compensation of the other executive officers, and fair as well to us and to our stockholders. The Committee does not reach this result in a mechanical fashion but, rather, considers each executive officer's role and contribution to our performance, the officer's compensation history and the compensation practices at other companies with which members of the Committee are familiar.

In this regard, at the Committee's regular meeting in February 2010, the Committee reviewed, among other material, (i) each executive officer's cash compensation for 2008-2009, (ii) an analysis of the total rewards for 2009 of our chief executive officer, chief operating officer and chief financial officer and (iii) a comparison of these total rewards with the total rewards of similar officers at roughly comparable companies on the basis of an informal survey prepared by our human resources department. The Committee did not use this survey to adjust the components of our executive officers' compensation to any particular percentiles but simply as background to see where the compensation of our executive officers fell.

Edgar Filing: STERICYCLE INC - Form DEF 14A

We do not have a fixed allocation among the three components of our executive officers' compensation. The relative amounts of our executive officers' salaries, PIBs and stock options vary to some extent from year to year. Base salaries and PIBs are considered together in order to assure that the cash component of our executive officers' compensation falls within an acceptable range, and the cash component is taken into account in determining stock option grants in order to assure that the total potential rewards to our executive officers also fall within an acceptable range.

Compensation decisions are made annually at the regular meeting of the Compensation Committee during the first quarter of year, typically in February, when the results of our prior year's performance are available internally and can be taken into account by the Committee in determining the executive officers' PIBs for the prior year and their base salaries and bonus percentages for the current year. The Committee believes that incentives are likely to have a greater effect on performance the sooner they are communicated and accordingly determines bonus percentages and annual option grants as early in the year as practicable. The Committee's decisions are made without regard to our anticipated earnings or other announcements.

Table of Contents

Our Chairman, President and Chief Executive Officer makes recommendations to the Committee regarding the compensation of the other executive officers, but management does not otherwise participate in the Committee's decisions.

Base Salaries

Base salaries are intended to provide a regular source of income to our executive officers. The Compensation Committee reviews officers' base salaries each year. The base salaries of our executive officers were unchanged in 2009. In February 2010, the Committee left Mr. Miller's base salary unchanged and increased the base salaries of Messrs. ten Brink and Kogler to \$270,000 and increased the base salaries of Messrs. Collins and Foss to \$240,000.

Performance Incentive Bonuses

We maintain a performance incentive bonus program for our executive officers that is intended to provide them with a short-term cash incentive and reward for improvements in our operating performance as measured by our adjusted earnings.

Under our PIB program, our executive officers are eligible each year for a cash bonus equal to a specified percentage of their base salaries. For 2009, the percentages for our named executive officers were 125% for Mr. Miller, 75% for Messrs. ten Brink and Kogler and 70% for Messrs. Collins and Foss. For 2010, the Compensation Committee increased the bonus percentages for Messrs. ten Brink and Kogler to 85% and left the bonus percentages for Messrs. Miller, Collins and Foss unchanged.

PIBs are payable to our executive officers if we attain our target EBITDA for payment of PIBs at the 100% level. For purposes of our PIB program, EBITDA (earnings before interest, taxes depreciation and amortization) is measured by the sum of income from operations plus depreciation and amortization, subject to any adjustments that the Compensation Committee considers appropriate to refine EBITDA as an internal measure of our operating performance. Based on the EBITDA shown in our final operating plan and budget for the year as approved by our Board of Directors during the first quarter of the year, the Compensation Committee sets target levels for EBITDA. These target levels provide for PIBs ranging from 100% to 150% of the PIBs for which our executive officers are eligible, increasing linearly from the 100% level of EBITDA to the 150% level. PIBs are paid during the first quarter of the following year after a meeting of the Compensation Committee to make its decisions once our final results for the prior year are known.

If we fail to attain our target EBITDA for payment of PIBs at the 100% level, our executive officers are not assured of any bonuses. In these circumstances, the Compensation Committee may decide in its discretion either that no PIBs are warranted or that it would be appropriate to award on the basis of individual merit cash bonuses of some order of magnitude smaller than the PIBs that would have been paid if we had attained our target EBITDA for payment of PIBs at the 100% level.

For 2009, our target EBITDA for payment of PIBs at the 100% level was \$357.8 million, and our target EBITDA for payment of PIBs at the maximum 150% level was \$365.8 million. Our actual EBITDA for the year for purposes of the PIB program was \$364.1 million (the sum of income from operations of \$315.2 million plus \$40.0 million of depreciation and amortization plus \$8.9 million of acquisition-related expenses and restructuring costs that the Compensation Committee did not consider part of our day-to-day operations). Accordingly, our executive officers received PIBs equal to 140% of the PIBs for which they were eligible at the 100% level.

Bonus Conversion Program

We maintain a bonus conversion program for our executive officers and other management employees allowing them to convert all or a portion of their bonuses into stock options. The program is intended to enable

Table of Contents

our executive officers and other participants to trade current compensation for the possibility of greater rewards in the future if our stock continues to perform well.

Under this program, a participant may irrevocably elect in advance of any bonus award to forego some portion or all of any bonus otherwise payable to him or her and receive instead an immediately vested nonstatutory stock option at an exercise price per share equal to the closing price of a share of our common stock on the bonus award date. The number of shares for which an option is granted is determined by dividing (i) a specified multiple of the amount of the cash bonus that the participant elected to forego by (ii) the average closing price of our common stock during the year for which the bonus is payable. Our Board of Directors fixed the multiple at four for 2009 and 2010.

All of our named executive officers participated in this program in respect of their PIBs for 2009 payable in February 2010. Mr. Miller elected to forego his entire PIB of \$533,759 and received instead an option for 42,253 shares, Mr. ten Brink elected to forego \$59,604 of his PIB of \$238,416 and received instead an option for 4,718 shares, Mr. Kogler similarly elected to forego \$59,604 of his PIB of \$238,416 and received instead an option for 4,718 shares, Mr. Collins elected to forego \$43,947 of his PIB of \$219,736 and received instead an option for 3,479 shares and Mr. Foss elected to forego his entire PIB of \$199,761 and received instead an option for 15,813 shares. These options have an exercise price per share of \$51.55, which was the closing price of our stock on the option grant date (February 9, 2010).

Stock Options

We use stock options as a major component of the compensation of our executive officers because of the incentives that stock options provide. Our stock options are always granted at the closing price of our stock on the date of the grant, and thus the value to our executive officers of their stock options depends entirely on the subsequent growth in value of our stock. The executive officers' stock options accordingly provide an incentive to high levels of performance that contribute to our overall success as reflected in the market price of our stock, to the benefit not just of our executive officers but all of our stockholders.

The Compensation Committee determines the number of shares for which stock options are granted to our executive officers, taking into account (i) our operating performance, (ii) prior grants to our executive officers, (iii) stock option grants and compensation practices at other companies with which members of the Committee are familiar and (iv) the goal of limiting stock option grants to executive officers and employees generally to no more than 10% of our fully-diluted shares over a trailing five-year period (thus averaging dilution of no more than 2% a year).

The exercise price per share of an option granted under one of our stock option plans may not be less than the closing price of a share of our common stock on the date of the option grant. The maximum term of an option may not exceed 10 years, and an option may be exercised only when it is vested and only while the executive officer or other employee remains an employee of ours and for a limited period following the termination of his or her employment.

Options granted to executive officers and employees generally vest over five years at the rate of one-fifth of the option shares on each of the first five anniversaries of the option grant date. (As noted, options granted under our bonus conversion program are immediately vested.) Options also become exercisable upon the option holder's death or upon a change in control.

We have two stock option plans under which new stock options may be granted: (i) the 2008 Incentive Stock Plan, which our stockholders approved in May 2008, and (ii) the 2005 Incentive Stock Plan, which our stockholders approved in April 2005. There are also stock options

Edgar Filing: STERICYCLE INC - Form DEF 14A

outstanding under our 2000 Nonstatutory Stock Option Plan, which expired in February 2010, our 1997 Stock Option Plan, which expired in January 2007, and our 1995 Incentive Compensation Plan, which expired in July 2005.

Table of Contents

As of December 31, 2009, 3,500,000 shares were available for future option grants under the 2008 plan, 24,893 shares were available for future option grants under the 2005 plan and 414,317 shares were available for future option grants under the 2000 plan.

Employee Stock Purchase Plan

We maintain an employee stock purchase plan (the ESPP), which our stockholders approved in May 2001. The ESPP authorizes 600,000 shares of our common stock to be purchased by qualifying employees at a 15% discount from the market price of the stock through payroll deductions during two six-month offerings each year. A qualifying employee who elects to participate in an offering is granted an option on the first day of the offering for a number of shares equal to the employee's payroll deductions under the ESPP during the offering period (which may not exceed \$5,000) divided by the option price per share. The option price per share is the lower of 85% of the closing price of a share of our common stock on the first trading day of the offering period or 85% of the closing price on the last trading day of the offering period. Every employee of Stericycle, Inc. or a U.S. subsidiary of ours who has completed six months' employment as of the first day of an offering and who is a full-time employee, or a part-time employee who customarily works at least 20 hours per week, is eligible to participate in the offering.

During 2009, Messrs. Miller, Collins and Foss each purchased 229 shares under the ESPP, and Mr. ten Brink purchased 167 shares.

401(k) Plan

We maintain a 401(k) plan in which employees who have completed 90 days' employment are eligible to participate. We have discretion under the plan to make matching contributions of a percentage of the participants' own contributions to the plan as the Board of Directors determines each year. For 2009, we made a matching contribution of 50% of each participant's contributions to the plan, up to a maximum matching contribution of \$1,750. We made the maximum matching contribution for each of Messrs. Miller, Kogler, Collins and Foss and a matching contribution of \$1,508 for Mr. ten Brink.

Retirement Plans and Deferred Compensation Arrangements

We do not maintain any other qualified plans (for example, a qualified defined benefit or a money purchase pension plan), and we have not adopted any nonqualified retirement or deferred compensation plan or arrangement.

Retiree Medical Benefits

In February 2009, we adopted a supplement to our self-insured medical plan to allow eligible employees to continue to participate in the plan following retirement, with the same coverage and benefits as active employees, at an actuarially determined cost to the retired employee equivalent to the cost of coverage of an active employee for the type of coverage selected. Eligible employees are management employees at the vice president level or higher (thus including our executive officers), who are age 50 or older, who have worked for us for at least 10 years, and the sum of whose age plus his or her years of service is 65 or more.

Perquisites and Personal Benefits

We do not provide any perquisites or personal benefits to our executive officers.

Employment Agreements

We have not entered into written employment agreements with any of our executive officers. All of our executive officers have entered into confidentiality, nonsolicitation and noncompetition agreements with us.

Table of Contents

Termination and Change-in-Control Payments

We have not entered into salary continuation, severance or similar agreements or arrangements with any of our executive officers providing for payments upon or in connection with a termination of employment or a change in control.

Stock Ownership Requirements

All of our executive officers are required to hold a minimum position in our stock. An executive officer with less than five years service as an executive officer must have a position equal to three times his base salary, and an executive officer with five or more years of service must have a position equal to five times his base salary.

An executive officer's stock ownership position is measured by the value of our common stock that he owns directly and indirectly and the in-the-money value of the vested and unvested stock options that he holds. An executive officer who does not satisfy the applicable minimum stock ownership requirement may not sell any shares of our stock, with the exception that the officer may engage in a cashless exercise of an option and sell a number of shares sufficient to pay the exercise price of the option shares and the related withholding taxes. An executive officer who satisfies the applicable minimum stock ownership requirement may not sell any shares if, as a result, he would then violate the applicable minimum stock ownership requirement.

Messrs. Miller, ten Brink, Kogler, Collins and Foss all satisfy the applicable minimum stock ownership requirement.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with the Company's management. Based on this review and discussion, the Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement.

- (1) The information in this column is provided on an aggregate basis, and includes (i) option shares canceled in a net exercise of the option (in which option shares with a value equal to the exercise price and related withholding taxes are canceled in satisfaction of those amounts) and (ii) option shares acquired and concurrently sold to pay the exercise price and related withholding taxes in a cashless exercise of the option through a broker.
- (2) The information in this column is provided on an aggregate basis. The value realized on the exercise of an option was determined by multiplying the number of shares for which the option was exercised by the difference between (i) either (A) the closing price of our common stock on the date of exercise, in the case of payment of the exercise price in cash or by delivery of shares of our common stock for cancellation or by a net exercise of the option, or (B) the sales price, in the case of a cashless exercise of the option, and (ii) the exercise price per share of the option.

Table of Contents

As of December 31, 2009, our outside directors held vested and unvested options for the following number of shares of our common stock: Mr. Schuler, 32,310 shares; Mr. Brown, 33,348 shares; Mr. Dammeyer, 65,225 shares; Mr. Hall, 55,080 shares; Dr. Lord, 66,448 shares; Mr. Patience, 116,038 shares; Mr. Reid-Anderson, 19,244 shares; and Mr. Spaeth, 28,348 shares.

- (2) Mr. Miller is our President and Chief Executive Officer and receives no additional compensation for his services as our Chairman of the Board or a director.

- (3) Mr. Reid-Anderson was elected a director in November 2009.

Compensation in 2009

We did not pay any fees or other cash compensation to our directors who served during 2009 or provide them with any perquisites or other personal benefits. Pursuant to our Outside Directors Compensation Plan, we granted an option under our 2005 stock option plan for 7,033 shares to each of our outside directors elected at the annual meeting of stockholders in May 2009. The number of option shares was determined by dividing \$375,000 by the average closing price of a share of our common stock during the 12-month period ending on the last trading day prior to the annual meeting (\$53.32). The exercise price per share was the closing price of our common stock on the day of the annual meeting (\$49.76), and the option vests on the first anniversary of the meeting (May 28, 2010). Mr. Dammeyer and Dr. Lord received options for an additional 563 and 282 shares for their services as chairs of the Audit and Compensation Committees, respectively. Mr. Reid-Anderson received options for 19,244 shares in November 2009 as a newly-elected director.

Outside Directors Compensation Plan

Under our Outside Directors Compensation Plan, which our Board of Directors adopted in August 2006 and amended in November 2006, each director's annual compensation for his services is \$125,000. The Board may review and update this amount from time to time based on informal surveys of outside directors' compensation. Subject to the election by an eligible director to receive up to 50% of his annual compensation in cash, the normal form of payment of an outside director's annual compensation is a stock option reflecting a conversion of the cash compensation. This option is granted upon a director's reelection as a director at the annual meeting of stockholders each year.

The option is for a number of shares equal to the quotient obtained by dividing (i) four times the amount of cash compensation to be converted into an option by (ii) the average closing price of our stock during the period from the prior year's annual meeting through the last trading day before the current annual meeting. The exercise price of the option is the closing price on the day of the annual meeting, and the option vests on the first anniversary of the annual meeting. Any portion of a director's annual compensation that he elects to receive in cash is paid in arrears at the same time that the portion converted into an option vests (i.e., on the first anniversary of the annual meeting).

Stock Ownership Requirements

Under our Outside Directors Compensation Plan, all directors are required to hold a minimum position in our stock. For a director with less than five years' service, he must have a position equal to three times his current annual compensation, or \$375,000. For a director with five or more years of service, he must have a position equal to five times his current annual compensation, or \$625,000. A director's ownership position is measured by the value of our common stock that he owns directly and indirectly and the in-the-money value of the vested and unvested stock

options that he holds.

A director who satisfies the minimum ownership requirement may elect to receive up to 50% of his annual compensation in cash. A director who does not satisfy the minimum ownership requirement must receive his annual compensation in the normal form of payment as a stock option. A director who does not satisfy the

Table of Contents

applicable minimum ownership requirement may not sell any shares of our stock, with the exception that the director may engage in a cashless exercise of an option and sell a number of shares sufficient to pay the exercise price of the option shares and the related withholding taxes.

All of our directors currently satisfy the applicable minimum stock ownership requirement with the exception of Messrs. Brown and Spaeth, who were elected directors in May 2008, and Mr. Reid-Anderson, who was elected a director in November 2009, and are in the process of satisfying the minimum ownership requirement.

Meeting and Other Fees

Under our Outside Directors Compensation Plan, directors are not paid separate fees for attending meetings of the Board of Directors or its committees. No fees or compensation is paid to the Chairman of the Board for his service as chairman. The chairman of the Audit Committee is paid a fee of \$10,000 per year for his service as chairman, and the chairman of the Compensation Committee is paid a fee of \$5,000 per year for his service as chairman.

The fees to the chairmen of the Audit and Compensation Committees are paid by adding each chairman's fee to and treating it as a part of his annual compensation as a director, with the effect of making 50% of each chairman's fee eligible to be received in cash (if the chairman satisfies the applicable minimum ownership requirement) and converting the balance of the fee (or the entire fee, if the chairman does not satisfy the minimum ownership requirement) into an option.

Option Grants to New Directors

Our Outside Directors Compensation Plan provides that a new director will receive two stock options upon joining the Board. The first option, for joining the Board, is for a number of shares equal to the quotient obtained by dividing (i) eight times the amount of the director's current cash compensation by (ii) the average closing price of our common stock during the 12-month period ending on the last trading day before the director's election to the Board. The exercise price of the option is the closing price on the day of the director's election, and one-fifth of the option shares vest on each of the first five anniversaries of the director's election.

The new director will also receive an option reflecting his annual compensation as a director. If the new director is elected at an annual meeting, the option is the same as the options that the other directors elected at the annual meeting receive. If the new director is elected by the Board to fill a vacancy, the option is for a number of shares equal to a pro rata portion of the quotient obtained by dividing (i) four times the amount of the director's current cash compensation by (ii) the average closing price of our common stock during the 12-month period ending on the last trading day before the director's election to the Board. The exercise price of the option is the closing price on the day of the director's election, and the option vests on the first anniversary of the prior annual meeting.
