Compensation Committee

The Compensation Committee (the Compensation Committee) of our Board of Directors has overall responsibility for the approval, evaluation and oversight of our compensation plans, policies and programs. The primary purpose of the Compensation Committee is to assist the Board of Directors in fulfilling its responsibilities relating to the compensation of our named executive officers and directors. The primary responsibilities of the Compensation Committee include, (i) annually reviewing our general compensation policies with respect to named executive officers and directors, (ii) annually reviewing and approving the corporate goals and objectives relevant to the compensation of our executive officers, evaluating our officers' performance in light of these goals, and approving or recommending to the Board compensation levels based on these evaluations, and (iii) producing a committee report on executive compensation as required by the SEC to be included or incorporated by reference in our proxy statement or other applicable SEC filings, and (iv) recommending the compensation program applicable to our outside directors.

Table of Contents

Our Board appoints our Compensation Committee members and Chairman annually, and these appointees continue to be members until their successors are elected and qualified or until their earlier resignation or removal. Any member of our Compensation Committee may be removed, with or without cause, by our Board. Our Board of Directors appoints members to the Compensation Committee considering criteria such as experience in compensation matters, familiarity with our management and other key personnel, understanding of public company compensation issues, time availability necessary to fulfill committee responsibilities and independence and other regulatory requirements. No member of our Compensation Committee participates in any of our employee compensation programs, and our Board has determined that none of our Compensation Committee members has any material business relationship with us. Currently, the members of the Compensation Committee are Richard O. Wilson, who serves as Chairman, Kenneth T. Hern and John S. Reiland.

Each member of the Compensation Committee is considered to be (1) independent under the currently applicable listing standards of the NYSE; (2) a non-employee director with the meaning of Rule 16b-3 under the Securities and Exchange Act of 1934, as amended; and (3) an outside director within the meaning of Section 162(m) of the Internal Revenue Code of 1986, as amended.

The Compensation Committee on occasion meets with our Interim President and other executives to obtain recommendations with respect to our compensation programs, practices and packages for executives, other employees and directors. Although management makes recommendations to the Compensation Committee on executive compensation, the Compensation Committee is not bound by and does not always accept management's recommendations. The Compensation Committee has historically sought input from an independent compensation consultant prior to making any final determinations. Our Interim President attends some of the Compensation Committee meetings, but the Compensation Committee also regularly holds executive sessions not attended by members of management or non-independent directors.

The Compensation Committee's function is more fully described in its charter. The Compensation Committee will continue to review and assess the adequacy of the charter and recommend any proposed changes to the Board for approval on an annual basis. The Compensation Committee works with our Interim President to establish an agenda for each meeting of the Compensation Committee and to prepare meeting materials. Our Interim President, outside corporate counsel, and other members of our management and outside advisors may be invited to attend all or a portion of a Compensation Committee meeting depending on the nature of the matters to be discussed. Only members of the Compensation Committee vote on items before the Compensation Committee; however, the Compensation Committee and Board often solicit the advice of our Interim President on compensation matters, the compensation of other senior management and the other named executive officers.

On at least an annual basis, the Compensation Committee or our full Board approves all compensation and equity awards to our named executive officers, the managers of our business segments and the Board. Further, the Compensation Committee approves grants for other employees of the Company from time to time.

Our Compensation Committee may retain, at our expense, independent compensation consultants in the consideration of executive compensation matters. The Compensation Committee meets with the compensation consultants, both in and outside of the presence of our management, to review findings and recommendations regarding executive compensation and considers those findings and recommendations in determining and making adjustments to our executive compensation program. For the year ended December 31, 2008, the Compensation Committee retained BDO Seidman LLP (referred to herein as the Compensation Consultant) to assist it in fulfilling its responsibilities as assigned by the Chairman of the Compensation Committee. Under the direction of the Chairman of the Compensation Committee, the Compensation Consultant provided information regarding compensation trends in the energy services industry, relative compensation for similarly-situated executive officers in the industry, the structure of our cash and equity incentive awards and the structure of the compensation program for outside directors. At the Compensation Committee's request, the Compensation Consultant worked with management to prepare materials for review by the Compensation Committee and made recommendations regarding the Compensation Committee's calendar.

Table of Contents

In 2009 the aggregate fees billed by Compensation Consultant for compensation consulting services were \$23,325. In a separate one-time engagement, Compensation Consultant provided risk advisory services for which the Company paid \$150,000.

Compensation Philosophy

We operate in a very competitive environment. Our principal competitors are more established providers of services in our industry and, because of their size, generally have more significant resources than we do. In order to successfully compete in this environment, we must be able to attract and retain highly skilled employees with well-developed management, operational and marketing skills. The Company has been successful in developing and retaining a highly-qualified management team by offering compensation that is equitable, reasonably competitive with what we believe they might earn elsewhere based on our understanding of market practices, and closely tied to performance through our annual salary review process, our annual cash bonus plan, and grants of stock options and restricted stock from our Equity Incentive Plan or EIP .

In general, our executive compensation programs are designed to achieve the following objectives:

Attract and retain talented and experienced executives with the skills necessary to run and grow our existing business segments;

Attract and retain talented and experienced executives who can grow our Company through acquisitions and the successful integration of those acquisitions;

Align the interests of our executive officers with those of stockholders to increase the value of our enterprise;

Motivate and reward executives whose knowledge, skills and performance are critical to our success;

Demonstrate fairness among the executive management team by recognizing the contributions each executive makes to our success;

Provide accountability for the executives' performance to the Board;

Encourage a shared commitment among executives by coordinating Company and individual business unit targets and objectives; and

Encourage executives to meet non-financial goals that the Board believes are necessary for the success of the Company.

As we endeavor to evaluate the adequacy of our overall executive compensation program, our Compensation Committee works with the Compensation Consultant to evaluate and compare certain elements of total compensation against a group of similar publicly traded energy services companies (the Compensation Peer Group). We benchmark each element of compensation (base salary, cash bonus incentive compensation and equity compensation), and decisions are made in the benchmarking against total compensation. The Compensation Consultant's benchmark information is used to establish ranges for total compensation and the Company endeavors to establish each executive officer's total compensation package at a level below the 75th percentile of the Compensation Peer Group.

We would prefer to define the market for our executive talent using a sizeable group of companies that are comparable in both size and line of business to us. However, there are not sufficient companies compare to us in size and line of business to comprise such a peer group. Therefore, as we evaluate the adequacy of our compensation programs, the Compensation Committee considers data in regard to our Compensation Peer Group and data from published survey sources as well as information from our directors, management and our Compensation Consultant based on their collective understanding of industry practices. The companies that comprised our Compensation Peer Group in 2009 included the following:

Allis-Chalmers Energy, Inc.

Basic Energy Services, Inc.

7

Table of Contents

Bolt Technology Corporation

Carbo Ceramics, Inc.

CE Franklin, LTD.

Lufkin Industries, Inc.

Matrix Service Company

Natco Group, Inc.

Newpark Resources, Inc.

T-3 Energy Services, Inc.

Tesco Corporation

The Compensation Committee intends to continually monitor the composition of the Compensation Peer Group to assure that it continues to provide a useful representation of the market for leadership talent in which the Company competes.

Executive Officer Compensation

Principal Elements of Compensation of Our Named Executive Officers

Historically, the principal elements of the compensation package offered to our executive officers have consisted of:

Base salary;

Cash bonus incentive compensation under the terms of the Company's annual incentive plan; and

Equity compensation generally in the form of stock option or restricted stock grants under the terms of our 2005 and 2007 Long Term Incentive Plans.

Some, but not all of our named executive officers participate in certain perquisite programs as described later in this discussion and all of our named executive officers participate in group insurance programs and our 401(k) Plan on the same basis as all other employees of the company.

Allocation of Compensation among the Principal Components

The Committee has not established formulas for allocating compensation between compensation elements. Rather the Compensation Committee reviews compensation structures at companies in our Compensation Peer Group, historical compensation for the participant, the participant's responsibilities, the participant's performance on both financial metrics and individual goals and objectives provided by the Committee, and the

Edgar Filing: FLOTEK INDUSTRIES INC/CN/ - Form 10-K/A

individual circumstances of its senior executives when determining the mix of base salary, cash bonus percentages, and annual equity awards to be paid or awarded to our senior executive officers. As a result, the Committee applies a different mix of base salary, cash bonus incentive compensation and equity compensation to different executive officer positions. However our historical practice has been to make executives overall compensation opportunity significantly contingent on operational performance.

Base Salary

We review base salaries for our Interim President and other executives annually to determine if a change is appropriate. In reviewing base salaries, we consider several factors including a comparison to base salaries paid for comparable positions in our Compensation Peer Group, the relationship among base salaries paid with our Company and individual experience and performance. Our intent is to fix base salaries at levels that we believe

Table of Contents

are consistent with our program design objectives, including the ability to attract, motivate and retain highly talented individuals in a competitive environment. Compensation for base salaries is generally set at the 50th percentile range of our Compensation Peer Group. For fiscal 2009, each executive officer received a base salary that was at or below the 50th percentile.

Interim President

Mr. Chisholm was appointed Interim President in August 2009. Mr. Chisholm is compensated under a Services Agreement that pays two entities controlled by Mr. Chisholm (the Chisholm Companies) as an independent contractor a total of \$32,000 monthly as compensation for his services. In April 2010, we amended the Services Agreement, effective December 1, 2009, to increase these monthly payments to \$42,000 as compensation for his services.

Former President and Chief Executive Officer

Mr. Dumas resigned as President and Chief Executive Officer in August 2009. Mr. Dumas had served as Chairman and Chief Executive Officer since 1998. No changes were made to Mr. Dumas' compensation in 2009 prior to his resignation. Primarily based on market practice information provided by the Compensation Consultant, the Compensation Committee determined in August 2008 that Mr. Dumas' annual salary was in line with the salaries being paid to chief executive officers in our Compensation Peer Group. Mr. Dumas' annual salary for 2008, therefore, remained \$450,000, as previously established by the Committee in July 2007. Mr. Dumas' salary was increased to \$450,000 in July 2007 from \$360,000 as a result of increasing operational responsibilities stemming from multiple acquisitions, increasing shareholder relations obligations, the growth in market capitalization and a more competitive employment environment.

Executive Vice President, Business Development and Special Projects

Mr. Reeves was appointed Executive Vice President of Business Development and Special Projects on October 29, 2009. Mr. Reeves had served as Executive Vice President and Chief Operating Officer from May 2008 until his new appointment on October 29, 2009. No changes were made to Mr. Reeves' compensation in 2009. The Compensation Committee increased Mr. Reeves' salary in May 2008 from \$200,000 to \$275,000 in connection with his promotion to Executive Vice President and Chief Operating Officer. In setting the new base annual salary for Mr. Reeves, the Committee considered Mr. Reeves' new position and responsibilities, information regarding compensation practices among companies in the Compensation Peer Group and the salaries of other key employees of the Company along with an informal evaluation of Mr. Reeves' past performance and future potential.

Executive Vice President, Finance and Strategic Planning

Mr. Neyman was appointed Executive Vice President of Finance and Strategic Planning on October 29, 2009. Mr. Neyman had served as Senior Vice President and Chief Financial Officer from October 2008 until his new appointment on October 29, 2009, at which time his salary was increased to \$250,000. The amount of the increase was based on Mr. Neyman's new position and responsibilities, the Compensation Committee's understanding of market practices in regard to compensation of similar positions among companies of our size, Mr. Neyman's experience, his performance in previous roles with the Company and his key role in overseeing the Company's financial operations.

Former Executive Vice President, Accounting and Reporting

Mr. Stanton served briefly in the role of Executive Vice President, Accounting and Reporting, and as principal accounting officer and principal financial officer of the Company. His salary was set at \$225,000 upon his appointment as Chief Accounting Officer in May 2009 and was not subsequently adjusted.

2010 Base Salaries

In regard to 2010 salaries of the named executive officers, the Compensation Committee has reviewed the current status of the salary amounts in regard to overall market competitiveness, internal equity, personal performance and the current operating environment. Based on this review, the Compensation Committee has decided to defer any decisions regarding adjustments to salaries for named executive officers.

Annual Bonus Compensation

Under the terms of the 2009 Management Incentive Plan (MIP), named executive officers and other leadership employees had the opportunity to earn annual cash incentives based on the achievement of Company performance objectives, operating unit performance objectives (applicable to Mr. Reeves and other leadership employees assigned to operating units) and individual objectives. For executive officers, 75% of MIP compensation was to be earned by the Company's performance on Company objectives including 2009 budget revenue, 2009 budget EBITDA, and 2009 budget fully diluted earnings per share (each equally weighted), and 25% was to be based on individual performance objectives.

For each goal, a threshold, target and challenge amount was defined. Performance below threshold on any measure resulted in no bonus amount contingent on that measure being paid. Performance at threshold resulted in 50% of the contingent amount being paid, while 100% and 120% of the contingent amounts were to be paid at target and challenge levels, respectively. Failure to achieve threshold on any one measure did not disqualify participants from earning bonuses based on performance on other measures.

The Company objectives were selected because, in the opinion of the Compensation Committee, success on these measures is vital to the ability of the Company to emerge successfully from one of the most difficult operating environments experienced in the energy services sector in decades. Because the operating environment in 2009 was expected to be so difficult, the Committee believed that the objectives would be difficult to achieve and considered target performance to be an extraordinary achievement.

The MIP provides that if the company's performance exceeds the challenge level or if performance does not meet threshold levels, the Interim President may recommend for Compensation Committee approval of discretionary awards to those executives and other employees whose efforts contributed to positive results or mitigated negative results.

Performance objectives were not met in fiscal 2009 and as a result, no bonus payments were made to executive officers in 2009 under the 2009 MIP.

Interim President

Mr. Chisholm was scheduled to receive total compensation of \$543,225 in 2009, comprised of equity compensation of \$282,475, payments for his services of \$174,200 pursuant to his services agreement with the Company and director fees received prior to his appointment as Interim President of the Company. Because the Company did not meet certain performance objectives in 2009, Mr. Chisholm did not receive a bonus.

Former President and Chief Executive Officer

Mr. Dumas was scheduled to receive total compensation of \$1,193,366 in 2009, comprised of a base salary of \$467,907, a targeted bonus and equity compensation. As described above, the targeted bonus is based on certain financial targets, including pre-tax income, achievement of the Company's performance objectives and individual objectives. The Company did not meet its performance objectives in 2009 and as a result, Mr. Dumas did not receive a bonus. A 2008 discretionary bonus was approved by the Compensation Committee in December 2008. Mr. Dumas received Common Stock valued at \$100,000 in December 2009 related to this 2008 discretionary bonus.

A 2008 discretionary bonus was approved by the Compensation Committee in December 2008. Mr. Neyman received Common Stock valued at \$20,000 in December 2009 related to this 2008 discretionary bonus.

Mr. Stanton received a \$20,000 relocation allowance when he became an officer of the Company in 2009 and, as a result of his resignation from the Company at the end of 2009, he received no other amounts as bonus payments for 2009.

2010 Annual Bonus Compensation

In regard to 2010 bonuses for the named executive officers, the Compensation Committee has decided to defer any decisions regarding bonus payments or performance targets for named executive officers.

Equity Compensation

The historical practice of the Compensation Committee has been to grant restricted stock and/or options to attract, retain, motivate and reward employees and executive officers, and to encourage ownership in the Company. The grant value of awards is determined by the Compensation Committee based on its understanding of competitive practices, internal equity considerations, performance, and the potential of the employee. The Compensation Committee considers it important that the value inherent in the grant is sufficient to create a long-term incentive for the employee to remain with the Company and to focus on the strategic objectives that must be achieved in order to deliver an attractive return to stockholders.

Through 2009, such grants have consisted of incentive stock options, non-qualified stock options and restricted stock. Generally, the Compensation Committee has granted awards of stock options to our executive officers upon their appointment as executive officers or in annual grants made at the end of a fiscal year or shortly thereafter. The equity grants typically have vested over three or four years. Grants made to executive officers are shown in the 2009 Grants of Plan-Based Awards table.

One-half of the value of the equity grants awarded in 2009 took the form of restricted stock and one-half of the award values were comprised of non-qualified stock options. The value attributed to restricted shares is based on the closing price of Flotek shares on the date of grant, while the value attributed to stock options is based on the Black-Scholes value of the options on the date of grant.

Table of Contents

In a departure from past practice, the Committee decided that for 2009 shares would vest over four years but no performance conditions would be attached to the 2009 restricted stock grants. This decision was made because, in the Compensation Committee's opinion, the equity positions of named executive officers attained through prior awards have diminished in value to such a degree in the current operating environment that they do not currently represent a meaningful wealth accumulation opportunity and, thus, are of limited value in motivating performance on strategic goals or in retaining our named executive officers. Further, given the current operating environment, the Compensation Committee believes that it is difficult to set goals for a three-to-five year period.

The option portion of the 2009 equity grant also vests evenly over four years. Grants to Messrs. Dumas, Reeves and Neyman provide for accelerated vesting in the event of the recipient's death or a change in control of the Company as defined under potential payments upon Termination of Employment or Change in Control. Grants to all other employees provide for accelerated vesting in the event of the recipient's death.

On February 16, 2009, the Compensation Committee approved equity grants to named executive officers as follows: Mr. Dumas received 107,575 shares of restricted stock and options to purchase 200,000 shares of Common Stock at \$2.51 per share; Mr. Reeves received 43,828 shares of restricted stock and options to purchase 81,484 shares of Common Stock at \$2.51 per share; and Mr. Neyman received 31,876 shares of restricted stock and options to purchase 59,260 shares of Common Stock at \$2.51 per share. The equity compensation element of total compensation is established as a percentage of revenue, consistent with the 50% benchmark or below of the Compensation Peer Group. Retention was a key consideration for the February 16, 2009 equity grants and individual performance objectives were not considered in connection with such grants.

On April 27, 2009, the Compensation Committee approved the equity grant to Mr. Stanton of 5,556 shares of restricted stock and options to purchase 25,424 shares of Common Stock at \$2.16 per share.

On August 11, 2009, in connection to Mr. Neyman's employment contact (described below), Mr. Neyman received an equity grant of options to purchase 150,000 shares of Common Stock at \$2.30 per share.

On December 22, 2009, the Compensation Committee approved the equity grant to Mr. Chisholm of options to purchase 400,000 shares of Common Stock at \$1.02 per share.

All stock-based payments awarded by the Compensation Committee have been reflected in our consolidated financial statements based on the applicable accounting guidance in Accounting Standards Codification (ASC) Topic 718, *Compensation Stock Compensation*. Our long-term incentive plans permit equity grants in the form of stock options, restricted stock and certain other incentive awards. To date, we have only awarded stock options and restricted stock under our long-term incentive plans. Costs resulting from all stock-based payment transactions are recognized in the financial statements based on a fair value measurement method. We use the Black-Scholes option-pricing model to estimate the award's grant-date fair value, and recognize compensation expense on a straight-line basis over the vesting period.

Other Benefits

We believe that establishing competitive benefit packages for our employees is an important factor in attracting and retaining highly qualified personnel. Executive officers are eligible to participate in all of our employee benefit plans, including medical, dental & vision care programs, Company-paid accidental death, dismemberment & life insurance, and Flotek's 401(k) plan, on the same basis as other employees. During the first quarter of 2009, we provided a matching contribution on employee contributions of up to 4% of eligible compensation subject to by statutory limits. Effective in April 2009 we suspended such matching contributions. Other than the 401(k) plan we do not offer pension or retirement benefits. Our international employees may have slightly different employee benefit plans than those we offer domestically, typically as a result of legal requirements of any specific country.

Perquisites

The perquisites received by each senior executive are determined by past practices. The specific perquisites available to some of our named executives include:

Messrs. Dumas and Reeves have the use of a Company-owned vehicle.

A country club membership in Mr. Dumas' name that is primarily used for marketing purposes by our operating units.

Tax and Accounting Implications

Deductibility of Executive Compensation

The Compensation Committee is aware of the provisions of Section 162(m) of the Internal Revenue Code which provides that the Company may not deduct for federal income tax purposes annual compensation in excess of \$1 million paid to certain employees. Performance-based compensation paid pursuant to shareholder-approved plans such as our 2007 Long-Term Incentive Plan is not subject to the deduction limit as long as such compensation is approved by outside directors within the meaning of Section 162(m) of the Code.

The Compensation Committee makes every reasonable effort to structure and administer executive compensation opportunities so that compensation will not be subject to the Section 162 (m) deduction limit. However, the Compensation Committee may from time to time approve payments that cannot be deducted in order to maintain flexibility in structuring appropriate compensation opportunities in the interest of shareholders.

Accounting for Stock-Based Compensation

Flotek Industries accounts for stock-based payments in accordance with the requirements of Accounting Standards Codification (ASC) Topic 718. Under this accounting pronouncement, Flotek Industries is required to value unvested stock options granted under the fair value method and expense those amounts in the income statement over the stock options' remaining vesting period. Flotek Industries considers the expenses associated with the grant of options and other long-term incentive awards in granting such awards.

Section 409A

To the extent we permit executives to defer compensation or we commit to deliver compensation at a later date than when earned and vested, we make every attempt to meet the requirements of Section 409A of the Internal Revenue Code. Failure to satisfy the Section 409A requirements could subject the executives receiving deferred compensation to a 20% excise tax.

(ii) During any period of one (1) year, individuals who at the beginning of such period constitute the Board (and any new Director whose election by the Corporation's stockholders was approved by a vote of at least two-thirds (2/3) of the Directors then still in office who either were Directors at the beginning of the period or whose election or nomination for election was so approved) cease for any reason to constitute a majority thereof;

(iii) (A) The sale or disposition of all or substantially all the Company's assets, or (B) a merger, consolidation, or reorganization of the Company with or involving any other entity, other than a merger, consolidation, or reorganization that would result in the voting securities of the Company outstanding immediately prior thereto continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity) at least fifty percent (50%) of the combined voting power of the securities of the Company (or such surviving entity) outstanding immediately after such merger, consolidation, or reorganization.

For purposes of awards under our long-term incentive plans, "Cause" means the termination of an employee for any of the following reasons, as determined by the Compensation Committee:

(i) An employee willfully fails to substantially perform the employee's duties (other than any such failure resulting from the employee's total and permanent disability) after a written demand for substantial performance has been delivered by the Company to the employee that specifically identifies the manner in which the Corporation believes that the employee has not substantially performed the employee's duties, and the employee fails to remedy such failure within ten (10) calendar days after receiving such notice;

(ii) An employee is convicted (by trial, plea of guilty or plea of nolo contendere) for committing an act of fraud, embezzlement, theft, or other act constituting a felony;

(iii) An employee willfully engages in gross misconduct or willfully violates a Company or a subsidiary policy which is materially and demonstrably injurious to the Company and/or a subsidiary after a written demand to cease such misconduct or violation has been delivered by the Company to the employee that specifically identifies the manner in which the Company believes that the employee has violated this Paragraph (iv), and the employee fails to cease such misconduct or violation and remedy any injury suffered by the Company or the subsidiary as a result thereof within thirty (30) calendar days after receiving such notice. However, no act or failure to act, on the employee's part shall be considered "willful" unless done, or omitted to be done, by the employee not in good faith and without reasonable belief that the employee's action or omission was in the best interest of the Company or the subsidiary; or

(iv) An employee commits a material breach of any noncompetition, confidentiality or similar agreement with the Company or a subsidiary, as determined under such agreement.

COMPENSATION RISK

The role of the Compensation Committee in risk oversight includes review of risks arising from our compensation policies, practices and programs as well as the mitigating controls, to determine whether any such risks are material to us. The Compensation Committee plans to review these matters during 2010 to ensure that the Company's compensation programs that management and the Board have implemented appropriately balance risk and the achievement of long-term and short-term goals, and that they are not reasonably likely to have a material adverse effect on our business.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

Certain Relationships and Related Party Transactions

The Company recognizes that related person transactions can present potential or actual conflicts of interest and it is the Company's preference that related person transactions are avoided as a general matter. However, the Company also recognizes that there are situations, including certain transactions negotiated on an arm's length basis, where related person transactions may be in, or may not be inconsistent with, the best interests of the Company and its stockholders. Therefore, the Corporate Governance and Nominating Committee of the Board will review, ratify or approve, as necessary, any related person transaction prior to the transaction being entered into, or ratify any related person transaction that has not been previously approved, in which a director, executive officer, five percent owner or immediate family member of any such person has a material interest.

During 2009, the Company did not participate in any transactions in which any of the director nominees, executive officers, nor any of their immediate family members, had a direct or indirect material interest.

Director Independence

The Board has determined that each of the current directors except for Mr. Dumas and Mr. Chisholm is independent as that term is defined by rules of the New York Stock Exchange and, in the case of the Audit Committee, the SEC. Mr. Dumas is not an independent director because he was an officer of the Company until August 2009, and will continue to be an employee of the Company until June 30, 2010 pursuant to his retirement agreement. Mr. Chisholm is not an independent director while he is the Interim President. Additionally, each of James R. Massey, Kevin G. McMahon, Gary M. Pittman, Barry E. Stewart and William R. Ziegler served on the Company's Board during the last completed fiscal year. Each such individual was independent as defined by rules of the New York Stock Exchange and, in the case of the Audit Committee, the SEC.

Also, none of the non-employee directors has any relationship with the Company other than being a director and stockholder, or any transaction or arrangement that interferes with each director's independence.
