As of July 30, 2010, Con Edison had outstanding 282,632,105 Common Shares (\$.10 par value). All of the outstanding common equity of CECONY is held by Con Edison.

#### **Filing Format**

This Quarterly Report on Form 10-Q is a combined report being filed separately by two different registrants: Consolidated Edison, Inc. (Con Edison) and Consolidated Edison Company of New York, Inc. (CECONY). CECONY is a subsidiary of Con Edison and, as such, the information in this report about CECONY also applies to Con Edison. As used in this report, the term the Companies refers to Con Edison and CECONY. However, CECONY makes no representation as to the information contained in this report relating to Con Edison or the subsidiaries of Con Edison other than itself.

### **Forward-Looking Statements**

This report includes forward-looking statements intended to qualify for the safe-harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements are statements of future expectation and not facts. Words such as expects, estimates, anticipates, intends, believes, plans, will and similar expressions identify forward-looking statements. Forward-looking statements are based on information available at the time the statements are made, and accordingly speak only as of that time. Actual results or developments might differ materially from those included in the forward-looking statements because of various factors such as those discussed under Risk Factors in Item 1A of the Form 10-K.

## Notes to the Financial Statements (Unaudited)

#### General

These combined notes accompany and form an integral part of the separate consolidated financial statements of each of the two separate registrants: Consolidated Edison, Inc. and its subsidiaries (Con Edison) and Consolidated Edison Company of New York, Inc. and its subsidiaries (CECONY). CECONY is a subsidiary of Con Edison and as such its financial condition and results of operations and cash flows, which are presented separately in the CECONY consolidated financial statements, are also consolidated, along with those of Con Edison s other utility subsidiary, Orange and Rockland Utilities, Inc. (O&R), and Con Edison s competitive energy businesses (discussed below) in Con Edison s consolidated financial statements. The term Utilities is used in these notes to refer to CECONY and O&R.

As used in these notes, the term Companies refers to Con Edison and CECONY and, except as otherwise noted, the information in these combined notes relates to each of the Companies. However, CECONY makes no representation as to information relating to Con Edison or the subsidiaries of Con Edison other than itself.

The separate interim consolidated financial statements of each of the Companies are unaudited but, in the opinion of their respective managements, reflect all adjustments (which include only normally recurring adjustments) necessary for a fair presentation of the results for the interim periods presented. The Companies separate interim consolidated financial statements should be read together with their separate audited financial statements (including the combined notes thereto) included in Item 8 of their combined Annual Report on Form 10-K for the year ended December 31, 2009 (the Form 10-K) and their separate unaudited financial statements (including the combined Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2010 (the First Quarter Form 10-Q). Information in the notes to the consolidated financial statements in the Form 10-K and the First Quarter Form 10-Q referred to in these notes is incorporated by reference herein. The use of terms such as see or refer to shall be deemed to incorporate by reference into these notes the information to which reference is made.

Certain prior year amounts have been reclassified to conform with the current year presentation. Consistent with current industry practice, the Companies are presenting income tax expense as one item on their consolidated income statements (instead of separate items in the operating income and other income sections of the consolidated income statements).

Con Edison has two regulated utility subsidiaries: CECONY and O&R. CECONY provides electric service and gas service in New York City and Westchester County. The company also provides steam service in parts of Manhattan. O&R, along with its regulated utility subsidiaries, provides electric service in southeastern New York and adjacent areas of northern New Jersey and eastern Pennsylvania and gas service in southeastern New York and adjacent areas of eastern Pennsylvania. Con Edison has the following competitive energy businesses: Consolidated Edison Solutions, Inc. (Con Edison Solutions), a retail energy services company that sells electricity and also offers energy-related services; Consolidated Edison Energy, Inc. (Con Edison Energy), a wholesale energy supply and services company; and Consolidated Edison Development, Inc. (Con Edison Development), a company that develops and participates in infrastructure projects.

Note A Summary of Significant Accounting Policies

#### **Earnings Per Common Share**

Reference is made to Earnings Per Common Share in Note A to the financial statements included in Item 8 of the Form 10-K. For the three and six months ended June 30, 2010 and 2009, Con Edison s basic and diluted EPS are calculated as follows:

	For the Three Months Ended June 30,		s For the Six M Ended June	
(Millions of Dollars, except per share amounts/Shares in Millions)	2010	2009	2010	2009
Net income for common stock	\$ 183	\$ 150	\$ 409	\$ 330
Weighted average common shares outstanding Basic	282.0	274.5	281.7	274.2
Add: Incremental shares attributable to effect of potentially dilutive securities	1.5	0.8	1.5	0.8
Adjusted weighted average common shares outstanding Diluted	283.5	275.3	283.2	275.0
Net income for common stock per common share basic	\$ 0.65	\$ 0.55	\$ 1.45	\$ 1.20
Net income for common stock per common share diluted	\$ 0.64	\$ 0.55	\$ 1.44	\$ 1.20

#### Note B Regulatory Matters

Reference is made to Accounting Policies in Note A and Rate Agreements in Note B to the financial statements included in Item 8 of the Form 10-K and Note B to the financial statements in Part I, Item 1 of the First Quarter Form 10-Q.

#### **Rate Agreements**

#### **O&R** Electric

In July 2010, O&R filed a request with the New York State Public Service Commission (NYSPSC) for an increase in the rates it charges for electric service rendered in New York, effective July 2011, of \$61.7 million. The filing reflects a return on common equity of 11 percent and a common equity ratio of 49.9 percent. Among other things, the filing proposes continuation of the current provisions with respect to recovery from customers of the cost of purchased power and with respect to the deferral of differences between actual expenses allocable to the electric business for pensions and other postretirement benefits, environmental, research and developmental cost to the amounts for such costs reflected in electric rates. The filing also includes an alternative proposal for a three-year electric rate plan with annual rate increases of \$47.1 million effective July 2011, and \$33.2 million effective July 2012 and 2013. The multi-year filing reflects a return on common equity of 11.55 percent.

In May 2010, Rockland Electric Company (a regulated utility subsidiary of O&R) (RECO), the Division of Rate Counsel, Staff of the New Jersey Board of Public Utilities (NJBPU) and certain other parties entered into a stipulation of settlement with respect to the company's August 2009 request to increase the rates that it can charge its customers for electric delivery service. The stipulation, which was approved by the Board of the NJBPU, provides for an electric rate increase, effective May 17, 2010, of \$9.8 million. The stipulation reflects a return on common equity of 10.3 percent and a common equity ratio of approximately 50 percent. The stipulation continues current provisions with respect to recovery from customers of the cost of purchased power and does not provide for reconciliation of actual expenses to amounts reflected in electric rates for pension and other postretirement benefit costs.

#### CECONY Gas

In May 2010, CECONY, the staff of the NYSPSC and other parties entered into a Joint Proposal, with respect to the company s rates for gas delivery service.

The Joint Proposal, which is subject to NYSPSC approval, covers the three-year period October 2010 through September 2013 and provides for gas base rate increases of \$47.1 million, \$47.9 million and \$46.7 million, effective October 2010, 2011 and 2012, respectively. The Joint Proposal reflects the following major items:

A weighted average cost of capital of 7.46 percent, reflecting:

return on common equity of 9.6 percent, assuming achievement by the company of cost avoidance for productivity and austerity . The unspecified austerity measures assume reductions in costs of \$6 million, \$4 million and \$2 million in the rate years ending September 2011, 2012 and 2013, respectively;

cost of long-term debt of 5.57 percent;

common equity ratio of 48 percent; and

average rate base of \$3,027 million, \$3,245 million and \$3,434 million for the rate years ending September 2011, 2012 and 2013, respectively.

Deferral as a regulatory liability of the revenue requirement impact (i.e., return on investment, depreciation and income taxes) of the amount, if any, by which actual average net plant balances allocable to the company s gas business are less than the amounts reflected in rates: \$2,934 million, \$3,148 million and \$3,346 million for the rate years ending September 2011, 2012 and 2013, respectively.

Sharing with gas customers of any actual earnings, excluding the effects of any penalties and certain other items, above specified percentage returns on equity (based on actual average common equity ratio, subject to a 50 percent maximum), on a cumulative basis over the term of the Joint Proposal, calculated as follows:

for the rate year ending September 2011, the company will allocate to customers the revenue requirement equivalent of 60 percent of earnings above 10.35 percent up to and including 11.59 percent, 75 percent of earnings equal to or in excess of 11.6 percent up to and including 12.59 percent and 90 percent of earnings equal to or in excess of 12.6 percent;

for the rate years ending September 2012 and 2013, the company will allocate to customers the revenue requirement equivalent of 60 percent of the earnings in excess of 10.1 percent up to and including 11.59 percent, 75 percent of such earnings equal to or in excess of 11.6 percent up to and including 12.59 percent and 90 percent of such earnings equal to or in excess of 12.6 percent;

the customers share of any such earnings and 50 percent of the company s share, appropriately adjusted for taxes, would be applied to reduce regulatory assets for pensions and other post-retirement benefits and other costs; and

in the event the company does not file for a rate increase to take effect in October 2013, the earnings sharing levels for the rate year ending September 2013 will continue in effect, implemented on an annual basis, until base rates are reset by the NYSPSC.

Deferral as a regulatory asset or liability, as the case may be, of differences between the actual level of certain expenses, including, among others, expenses for pension and other postretirement benefits, environmental remediation, property taxes and long-term debt, and amounts for those expenses reflected in rates (with deferral for the difference in property taxes limited to 80 percent of the difference, subject to annual maximum for the remaining 20 percent of the difference of not more than the equivalent in revenue requirement of a 10 basis point impact on return on common equity).

Continuation of provisions pursuant to which the company will retain net revenues from non-firm customer transactions. In each year of the rate plan, the company will retain up to \$58 million of any such revenues and 25 percent of any such revenues above \$58 million. If such revenues are below \$58 million in a rate year, the company will accrue a regulatory asset equal to (A) the amount by which such revenues are less than \$33 million plus (B) 80 percent of the difference between \$58 million and the level of such revenues at or above \$33 million.

## Edgar Filing: CONSOLIDATED EDISON CO OF NEW YORK INC - Form 10-Q

Continuation of the provisions pursuant to which the effects of weather on gas delivery revenues during each billing cycle are reflected in customer bills for that billing cycle, and a revenue decoupling mechanism under which the company s actual gas delivery revenues, inclusive of any such 19

weather adjustment, would be compared, on a periodic basis, with the delivery revenues reflected in rates, with the difference accrued as a regulatory liability (for refund to gas customers) or a regulatory asset (for recovery from gas customers), as the case may be.

Continuation of the rate provisions pursuant to which the company recovers its costs of purchased gas from gas customers.

Continuation of provisions for potential penalties (up to \$12.6 million annually) if certain gas customer service and system performance targets are not met.

Continued collection from gas customers of \$32 million on an annual basis subject to potential refund (see Other Regulatory Matters below and Investigation of Contractor Payments in Note H. CECONY Steam

In May 2010, CECONY, the NYSPSC staff and other parties entered into a Joint Proposal, with respect to the company s rates for steam service. The Joint Proposal, which is subject to NYSPSC approval, covers the three-year period October 2010 through September 2013 and provides for rate increases of \$49.5 million, effective October 2010 and 2011, and \$17.8 million, effective October 2012, with an additional \$31.7 million to be collected through a surcharge in the rate year ending September 2013. The Joint Proposal reflects the following major items:

The same weighted average cost of capital, return on common equity (assuming, for the steam business, achievement of unspecified reductions in costs of \$4.5 million, \$3 million and \$1.5 million in the rate years ending September 2011, 2012 and 2013, respectively), cost of long-term debt and common equity ratio as discussed above with respect to CECONY s gas business and average steam rate base of \$1,589 million, \$1,603 million and \$1,613 million for the rate years ending September 2011, 2012 and 2013, respectively.

Deferral as a regulatory liability of the revenue requirement impact of the amount, if any, by which actual average net plant balances allocable to the company s steam business are less than the amounts reflected in rates for the respective category for each rate year. The amounts reflected in rates are:

#### **Rate Year Ending**

		September 3	30,
(Millions of Dollars)	2011	2012	2013
Steam production	\$ 415	\$ 426	\$ 433
Steam distribution	521	534	543

Earnings sharing, expense deferral and potential refund (\$6 million annually for steam) provisions as discussed above with respect to CECONY s gas business.

Continuation of the rate provisions pursuant to which the company recovers its cost of fuel and purchased steam from its steam customers.

Continuation of provisions for potential penalties (up to approximately \$1 million annually) if certain steam customer service and system performance targets are not met.

#### **Other Regulatory Matters**

In February 2009, the NYSPSC commenced a proceeding to examine the prudence of certain CECONY expenditures (see Investigation of Contractor Payments in Note H). Pursuant to NYSPSC orders, a portion of the company s revenues (effective April 2010, \$249 million, \$32

### Table of Contents

## Edgar Filing: CONSOLIDATED EDISON CO OF NEW YORK INC - Form 10-Q

million and \$6 million on an annual basis for electric, gas and steam service, respectively) is being collected subject to potential refund to customers. At June 30, 2010, the company had collected an estimated \$394 million from customers subject to potential refund in connection with this proceeding. The company is unable to estimate the amount, if any, of any such refund and, accordingly, has not established a regulatory liability for a refund.

### **Regulatory Assets and Liabilities**

Regulatory assets and liabilities at June 30, 2010 and December 31, 2009 were comprised of the following items:

Regulatory assets   \$ 4,128   \$ 4,472   \$ 3,939   \$ 4,259     Unrecognized pension and other postretirement costs   \$ 1,300   1,316   1,316   1,316   1,249     Environmental remediation costs   417   388   327   329     Net electric deferals   177   82   177   82     Surcharge for New York State Assessment   156   138   145   126     Deferred derivative losses   Ing   106   93   75     Revenue taxes   129   106   93   75     Revenue taxes   135   101   80   49     Property tax reconciliation   43   85   39   85     Ock R transition bond charges   50   55   57   50     Workers   7,026   7,103   6,491   6,590   56     Other   152   158   142   142   142   142   144   164   104   104   104   104   104   104   104   104   104   104   104   104   104   104   104   104 </th <th></th> <th>Con</th> <th>Edison</th> <th>CEC</th> <th>ONY</th>		Con	Edison	CEC	ONY

Net electric deferrals in June 2010 represent the remaining unamortized balance of certain regulatory assets and liabilities of CECONY that were combined effective April 1, 2010 and are being amortized to income, in accordance with CECONY s April 2010 rate plan. At December 2009, net electric deferrals represented the remaining unamortized balance of certain regulatory assets and liabilities of CECONY that were combined effective April 1, 2005 and were amortized to income in accordance with CECONY s April 2009 rate plan through March 2010.

#### Note C Long-Term Debt

Reference is made to Note C to the financial statements in Item 8 of the Form 10-K and Note C to the financial statements in Part I, Item 1 of the First Quarter Form 10-Q.

In June 2010, CECONY issued \$350 million aggregate principal amount of 4.45 percent debentures, Series 2010 A, due 2020 and \$350 million aggregate principal amount of 5.70 percent debentures, Series 2010 B, due 2040.

In July 2010, O&R issued a notice to change the method used to determine the interest it is required to pay on its \$55 million Series 1994 A tax-exempt debt. The debt (which currently bears a variable rate, determined weekly) is subject to mandatory tender for purchase in August 2010. O&R expects to fund the payment of the purchase price for the debt either from the proceeds of the reoffering of the debt (with a fixed interest rate) or, if O&R determines to have the debt cancelled, the sale of other debt securities.

#### Note D Short-Term Borrowing

Reference is made to Note D to the financial statements in Item 8 of the Form 10-K and Note D to the financial statements in Part I, Item 1 of the First Quarter Form 10-Q.

At June 30, 2010, Con Edison had \$153 million of commercial paper outstanding, \$66 million of which was outstanding under CECONY s program. The weighted average interest rate was 0.4 percent for each of Con Edison and CECONY. At December 31, 2009, Con Edison and CECONY had no commercial paper outstanding. At June 30, 2010 and December 31, 2009, no loans were outstanding under the Companies Credit Agreement and \$248 million (including \$162 million for CECONY) and \$193 million (including \$135 million for CECONY) of letters of credit were outstanding under the Credit Agreement, respectively.

#### Note E Pension Benefits

Reference is made to Note E to the financial statements in Item 8 of the Form 10-K and Note E to the financial statement in Part I, Item 1 of the First Quarter Form 10-Q.

#### Net Periodic Benefit Cost

#### **Expected Contributions**

Based on estimates as of December 31, 2009, the Companies are not required under funding regulations and laws to make any contributions to the pension plan during 2010. The Companies policy is to fund their accounting cost to the extent tax deductible, therefore, Con Edison expects to make discretionary contributions in 2010 of \$434 million, including \$397 million for CECONY (of which CECONY contributed \$279 million in the first six months of 2010). During the first six months of 2009, CECONY contributed \$184 million to the pension plan. During the second quarter of 2010, the Companies funded \$25 million for the non-qualified supplemental pension plans. The Companies are continuing to monitor changes to funding and tax laws that may impact future pension plan funding requirements.

#### Note F Other Postretirement Benefits

Reference is made to Note F to the financial statements in Item 8 of the Form 10-K and Note F to the financial statements in Part I, Item 1 of the First Quarter Form 10-Q.

#### Net Periodic Benefit Cost

The components of the Companies net periodic postretirement benefit costs for the three and six months ended June 30, 2010 and 2009 were as follows:

	For t	For the Three Months Ended June 30,			
	Con	Con Edison		ONY	
(Millions of Dollars)	2010	2009	2010	2009

#### **Health Care Reform**

In March 2010, the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 became law. The Companies are assessing the impact of these laws. In the first half of 2010, the Companies reduced their deferred tax asset to reflect the laws

## Table of Contents

## Edgar Filing: CONSOLIDATED EDISON CO OF NEW YORK INC - Form 10-Q

repeal, effective 2013, of the deduction for federal income tax purposes of the portion of the cost of an employer s retiree prescription drug coverage for which the employer received a benefit under the Medicare Prescription Drug Improvement and Modernization Act of 2003

(see Note F to the financial statements in Item 8 of the Form 10-K). For CECONY, the reductions in its deferred tax asset of \$33 million had no effect on net income because a regulatory asset in a like amount on a pre-tax basis was established to reflect future recovery from customers of the increased cost of its retiree prescription drug coverage resulting from the loss of the tax deduction. For O&R s New York electric and gas services the reductions in their deferred tax assets of \$3 million had no effect on net income because a regulatory asset in a like amount on a pre-tax basis was established to reflect future recovery from customers of the increased cost of their retiree prescription drug coverage resulting from the loss of the tax deduction. For O&R s New York electric and gas pre-tax basis was established to reflect future recovery from customers of the increased cost of their retiree prescription drug coverage resulting from the loss of the tax deduction. For RECO and Pike County Light & Power Company (Pike), the reduction in their deferred tax assets of \$1 million was taken as a charge to net income. The impact on Con Edison s deferred tax assets for its other businesses was not material to its results of operations.

#### Note G Environmental Matters

#### **Superfund Sites**

Hazardous substances, such as asbestos, polychlorinated biphenyls (PCBs) and coal tar, have been used or generated in the course of operations of the Utilities and their predecessors and are present at sites and in facilities and equipment they currently or previously owned, including sites at which gas was manufactured or stored.

The Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 and similar state statutes (Superfund) impose joint and several liability, regardless of fault, upon generators of hazardous substances for investigation and remediation costs (which include costs of demolition, removal, disposal, storage, replacement, containment, and monitoring) and natural resource damages. Liability under these laws can be material and may be imposed for contamination from past acts, even though such past acts may have been lawful at the time they occurred. The sites at which the Utilities have been asserted to have liability under these laws, including their manufactured gas plant sites and any neighboring areas to which contamination may have migrated, are referred to herein as Superfund Sites.

For Superfund Sites where there are other potentially responsible parties and the Utilities are not managing the site investigation and remediation, the accrued liability represents an estimate of the amount the Utilities will need to pay to discharge their related obligations. For Superfund Sites (including the manufactured gas plant sites) for which one of the Utilities is managing the investigation and remediation, the accrued liability represents an estimate of the company s share of undiscounted cost to investigate the sites and, for sites that have been investigated in whole or in part, the cost to remediate the sites, if remediation is necessary and if a reasonable estimate of such cost can be made. Remediation costs are estimated in light of the information available, applicable remediation standards, and experience with similar sites.

The accrued liabilities and regulatory assets related to Superfund Sites at June 30, 2010 and December 31, 2009 were as follows:

	Con E	dison	CECONY			
(Millions of Dollars)	2010	2009	2010	2009		
Accrued Liabilities:						
Manufactured gas plant sites	\$ 190	\$ 164	\$ 105	\$ 112		
Other Superfund Sites	46	48	46	47		
Total	\$ 236	\$ 212	\$ 151	\$ 159		
Regulatory assets	\$ 417	\$ 388	\$ 327	\$ 329		

Most of the accrued Superfund Site liability relates to sites that have been investigated, in whole or in part. However, for many of the sites, the extent and associated cost of the required remediation has not yet been determined. As investigations progress and information pertaining to the required remediation becomes available, the Utilities expect that additional liability will be accrued, the amount of which is not presently determinable but may be material. Under their current rate agreements, the Utilities are permitted to recover or defer as regulatory assets (for subsequent recovery through rates) certain site investigation and remediation costs.

Insurance recoveries related to Superfund Sites for the three and six months ended June 30, 2010 were immaterial. There were no insurance recoveries received related to Superfund Sites for the three and six

months ended June 30, 2009. Environmental remediation costs incurred related to Superfund Sites during the three months ended June 30, 2010 and 2009 were as follows:

		For the Three Months Ended June 30,					
	Con	Con Edison					
(Millions of Dollars)	2010	2009	2010	2009			
Remediation costs incurred	\$ 14	\$ 24	\$ 13	\$ 23			

		For the Six Months Ended June 30,				
	Cor	n Edison	CECONY			
(Millions of Dollars)	2010	2009	2010	2009		
Remediation costs incurred	\$ 23	\$ 40	\$ 21	\$ 39		

In 2006, CECONY estimated that for its manufactured gas plant sites, its aggregate undiscounted potential liability for the investigation and remediation of coal tar and/or other manufactured gas plant-related environmental contaminants could range up to \$1.1 billion. In 2007, O&R estimated that for its manufactured gas plant sites, each of which has been investigated, the aggregate undiscounted potential liability for the remediation of such contaminants could range up to \$115 million. These estimates were based on the assumption that there is contamination at the sites that have not yet been investigated and additional assumptions about these and the other sites regarding the extent of contamination and the type and extent of remediation that may be required. Actual experience may be materially different.

#### **Asbestos Proceedings**

Suits have been brought in New York State and federal courts against the Utilities and many other defendants, wherein a large number of plaintiffs sought large amounts of compensatory and punitive damages for deaths and injuries allegedly caused by exposure to asbestos at various premises of the Utilities. The suits that have been resolved, which are many, have been resolved without any payment by the Utilities, or for amounts that were not, in the aggregate, material to them. The amounts specified in all the remaining thousands of suits total billions of dollars; however, the Utilities believe that these amounts are greatly exaggerated, based on the disposition of previous claims. In 2008, CECONY estimated that its aggregate undiscounted potential liability for these suits and additional suits that may be brought over the next 15 years is \$9 million. The estimate was based upon a combination of modeling, historical data analysis and risk factor assessment. Actual experience may be materially different. In addition, certain current and former employees have claimed or are claiming workers compensation benefits based on alleged disability from exposure to asbestos. Under its current rate agreements, CECONY is permitted to defer as regulatory assets (for subsequent recovery through rates) costs incurred for its asbestos lawsuits and workers compensation claims. The accrued liability for asbestos suits and workers compensation proceedings (including those related to asbestos exposure) and the amounts deferred as regulatory assets for the Companies at June 30, 2010 and December 31, 2009 were as follows:

	Con E	dison	CECONY		
(Millions of Dollars)	2010	2009	2010	2009	
Accrued liability asbestos suits	\$ 10	\$ 10	\$ 9	\$ 9	
Regulatory assets asbestos suits	\$ 10	\$ 10	\$9	\$ 9	
Accrued liability workers compensation	\$ 110	\$ 113	\$ 105	\$ 108	
Regulatory assets workers compensation	\$ 35	\$ 37	\$ 35	\$ 37	
Note H Other Material Contingencies					

#### Manhattan Steam Main Rupture

In July 2007, a CECONY steam main located in midtown Manhattan ruptured. It has been reported that one person died and others were injured as a result of the incident. Several buildings in the area were damaged. Debris from the incident included dirt and mud containing asbestos. The response to the incident required the closing of several buildings and streets for various periods. Approximately 100 suits are pending against the company seeking generally unspecified compensatory and, in some cases, punitive damages, for personal injury, property damage and business interruption. The company has not accrued a liability for the suits. The company has notified its insurers of the incident and believes that the policies in force at the time of the incident will cover most of the company s costs, which the company is unable to estimate, but which could be substantial, to satisfy its liability to others in connection with the incident.

#### **Investigation of Contractor Payments**

In January 2009, CECONY commenced an internal investigation relating to the arrests of certain employees and retired employees (all of whom have since pleaded guilty) for accepting kickbacks from contractors that performed construction work for the company. The company has retained a law firm, which has retained an accounting firm, to assist in the company s investigation. The company is providing information to governmental authorities, which consider the company to be a victim of unlawful conduct, in connection with their investigation of the arrested employees and contractors. The company has terminated its employment of the arrested employees and its contracts with the contractors (one of which is suing the company for substantial damages claiming wrongful termination). In February 2009, the NYSPSC commenced a proceeding that, among other things, will examine the prudence of certain of the company's expenditures relating to the arrests and consider whether additional expenditures should also be examined (see Other Regulatory Matters in Note B). The company, based upon its evaluation of its internal controls for 2009 and previous years, believes that the controls were effective to provide reasonable assurance that its financial statements have been fairly presented, in all material respects, in conformity with generally accepted accounting principles. Because the company s investigation is ongoing, the company is unable to predict the impact of any of the employees unlawful conduct on the company s internal controls, business, results of operations or financial position.

#### Permit Non-Compliance and Pollution Discharges

In March 2009, the New York State Department of Environmental Conservation (NYSDEC) issued a proposed administrative Order on Consent to CECONY with respect to non-compliance with certain laws, regulations and permit conditions and discharges of pollutants at the company s steam generating facilities. The proposed order effectively instituted a civil enforcement proceeding against the company. In the proposed order, the NYSDEC is seeking, among other things, the company s agreement to pay a penalty in an amount the NYSDEC did not specify, retain an independent consultant to conduct a comprehensive audit of the company s generating facilities to determine compliance with federal and New York State environmental laws and regulations and recommend best practices, remove all equipment containing polychlorinated biphenyls from the company s steam and electric facilities, remediate polychlorinated biphenyl contamination, install certain wastewater treatment facilities, and comply with additional sampling, monitoring, and training requirements. In March 2010, the NYSDEC issued a revised proposed consent order specifying the amount of penalty the NYSDEC is seeking at \$10.8 million. The company will seek to resolve this matter through negotiations with the NYSDEC. It is unable to predict the impact of this matter on the company s operations or the additional costs, which could be substantial, to comply with the requirements resulting from this matter.

In January 2010, the NYSDEC issued a proposed administrative Order on Consent to CECONY relating to discharges of pollutants, reported by the company to the NYSDEC from 2002 through 2009, into the storm sewer system at a property the company owns in the Astoria section of New York on which the company is permitted by the NYSDEC to operate a hazardous waste storage facility. In April 2010, the NYSDEC issued an order, to which CECONY consented, pursuant to which CECONY paid a \$1.1 million penalty and undertake a corrective action plan that will require the company to incur an estimated \$12 million of capital expenditures.

In June 2010, the NYSDEC issued a proposed consent order relating to the release of oil into the Bronx River resulting from a November 2009 transformer fire at the company's Dunwoodie electric substation. In July 2010, the NYSDEC issued an order, to which CECONY consented, pursuant to which CECONY will pay a penalty and other amounts totaling \$0.7 million.

### Lease In/Lease Out Transactions

In each of 1997 and 1999, Con Edison Development entered into a transaction in which it leased property and then immediately subleased it back to the lessor (termed Lease In/Lease Out, or LILO transactions).

The transactions respectively involve electric generating and gas distribution facilities in the Netherlands, with a total investment of \$259 million. The transactions were financed with \$93 million of equity and \$166 million of non-recourse, long-term debt secured by the underlying assets. In accordance with the accounting rules for leases, Con Edison is accounting for the two LILO transactions as leveraged leases. Accordingly, the company s investment in these leases, net of non-recourse debt, is carried as a single amount in Con Edison s consolidated balance sheet and income is recognized pursuant to a method that incorporates a level rate of return for those years when net investment in these leases is positive, based upon the after-tax cash flows projected at the inception of the leveraged leases. The company s investment in these leveraged leases was \$(33) million at June 30, 2010 and \$(24) million at December 31, 2009 and is comprised of a \$235 million gross investment less \$268 million deferred tax liabilities at June 30, 2010 and \$235 million gross investment less \$259 million of deferred tax liabilities at June 30, 2010 and \$235 million gross investment less \$259 million of deferred tax liabilities at June 30, 2010 and \$235 million gross investment less \$259 million of deferred tax liabilities at June 30, 2010 and \$235 million gross investment less \$259 million of deferred tax liabilities at June 30, 2010 and \$235 million gross investment less \$259 million of deferred tax liabilities at June 30, 2010 and \$235 million gross investment less \$259 million of deferred tax liabilities at June 30, 2010 and \$235 million gross investment less \$259 million of deferred tax liabilities at June 30, 2010 and \$235 million gross investment less \$259 million of deferred tax liabilities at June 30, 2010 and \$235 million gross investment less \$259 million of deferred tax liabilities at June 30, 2010 and \$235 million gross investment less \$259 million gross investment less \$259 million of deferred tax liabilities at June

On audit of Con Edison s tax return for 1997, the IRS disallowed the tax losses in connection with the 1997 LILO transaction. In December 2005, Con Edison paid a \$0.3 million income tax deficiency asserted by the IRS for the tax year 1997 with respect to the 1997 LILO transaction. In April 2006, the company paid interest of \$0.2 million associated with the deficiency and commenced an action in the United States Court of Federal Claims, entitled Consolidated Edison Company of New York, Inc. v. United States, to obtain a refund of this tax payment and interest. A trial was completed in November 2007. In October 2009, the court issued a decision in favor of the company concluding that the 1997 LILO transaction was, in substance, a true lease that possessed economic substance, the loans relating to the lease constituted bona fide indebtedness, and the deductions for the 1997 LILO transactions claimed by the company in its 1997 federal income tax return are allowable. The IRS is entitled to appeal the decision.

In connection with its audit of Con Edison s federal income tax returns for 1998 through 2007, the IRS disallowed \$416 million of net tax deductions taken with respect to both of the LILO transactions for the tax years. Con Edison is pursuing administrative appeals of these audit level disallowances. In connection with its audit of Con Edison s federal income tax return for 2008, the IRS has disallowed \$42 million of net tax deductions taken with respect to both of the LILO transactions. When this audit level disallowance becomes appealable, Con Edison intends to file an appeal of the disallowance.

Con Edison believes that its LILO transactions have been correctly reported, and has not recorded any reserve with respect to the disallowance of tax losses, or related interest, in connection with its LILO transactions. Con Edison s estimated tax savings, reflected in its financial statements, from the two LILO transactions through June 30, 2010, in the aggregate, was \$213 million. If Con Edison were required to repay all or a portion of these amounts, it would also be required to pay interest of up to \$71 million net of tax at June 30, 2010.

Pursuant to the accounting rules for leveraged lease transactions, the expected timing of income tax cash flows generated by Con Edison s LILO transactions are required to be reviewed at least annually. If the expected timing of the cash flows is revised, the rate of return and the allocation of income would be recalculated from the inception of the LILO transactions, and the company would be required to recalculate the accounting effect of the LILO transactions, which would result in a charge to earnings that could have a material adverse effect on the company s results of operations.

#### Guarantees

Con Edison and its subsidiaries enter into various agreements providing financial or performance assurance primarily to third parties on behalf of their subsidiaries. Maximum amounts guaranteed by Con Edison totaled \$880 million and \$929 million at June 30, 2010 and December 31, 2009, respectively.

A summary, by type (described in Note H to the financial statements in Item 8 of the Form 10-K) and term, of Con Edison s total guarantees at June 30, 2010 is as follows:

Guarantee Type	0 3 years	4	10 years ( <i>Millions o</i>	) years urs)	Total

## Note J Derivative Instruments and Hedging Activities

Under the accounting rules for derivatives and hedging, derivatives are recognized on the balance sheet at fair value, unless an exception is available under the accounting rules. Certain qualifying derivative contracts have been designated as normal purchases or normal sales contracts. These contracts are not reported at fair value under the accounting rules.

## **Energy Price Hedging**

Con Edison s subsidiaries hedge market price fluctuations associated with physical purchases and sales of electricity, natural gas, and steam by using derivative instruments including futures, forwards, basis swaps, options, transmission congestion contracts and financial transmission rights contracts. The fair values of these hedges at June 30, 2010 and December 31, 2009 were as follows:

		Con Edison		CECONY			
(Millions of Dollars)		2010	2009	2010	2009		
Fair value of net derivative assets/(liabilities)	gross	\$ (363)	\$ (266)	\$ (223)	\$ (137)		
Impact of netting of cash collateral	-	194	162	113	87		
Fair value of net derivative assets/(liabilities)	net	\$ (169)	\$ (104)	\$ (110)	\$ (50)		

#### **Credit Exposure**

The Companies are exposed to credit risk related to transactions entered into primarily for the various energy supply and hedging activities by the Utilities and the competitive energy businesses. The Companies use credit policies to manage this risk, including an established credit approval process, monitoring of counterparty limits, netting provisions within agreements, collateral or prepayment arrangements, credit insurance and credit default swaps.

At June 30, 2010, Con Edison and CECONY had \$173 million and \$19 million of credit exposure in connection with energy supply and hedging activities, net of collateral, respectively. Con Edison s net credit exposure consisted of \$116 million with investment-grade counterparties, and \$57 million primarily with commodity exchange brokers or independent system operators. CECONY s entire net credit exposure was with commodity exchange brokers.

#### **Economic Hedges**

The Companies enter into certain derivative instruments that do not qualify or are not designated as hedges under the accounting rules for derivatives and hedging. However, management believes these instruments represent economic hedges that mitigate exposure to fluctuations in commodity prices.

The fair values of the Companies commodity derivatives at June 30, 2010 were:

#### Fair Value of Commodity Derivatives(a)

(a) Qualifying derivative contracts, which have been designated as normal purchases or normal sales contracts, are not reported at fair value under the accounting rules for derivatives and hedging and, therefore, are excluded from the table.

The Utilities generally recover all of their prudently incurred fuel, purchased power and gas costs, including hedging gains and losses, in accordance with rate provisions approved by the applicable state utility commissions. See Recoverable Energy Costs in Note A to the financial statements in Item 8 of the Form 10-K. In accordance with the accounting rules for regulated operations, the Utilities record a regulatory asset or liability to defer recognition of unrealized gains and losses on their electric and gas derivatives. As gains and losses are realized in future periods, they will be recognized as purchased power, gas and fuel costs in the Companies consolidated income statements. Con Edison s competitive energy businesses record realized and unrealized gains and losses on their derivative contracts in earnings in the reporting period in which they occur.

The following table presents the changes in the fair values of commodity derivatives that have been deferred or recognized in earnings for the three and six months ended June 30, 2010:

#### Realized and Unrealized Gains/(Losses) on Commodity Derivatives(a)

Deferred or Reco	gnized in Income for the Three Months Ended June 30	, 2010

	Purchased power expense	\$	(255)	\$	
	Gas purchased for resale		2		
	Non-utility revenue		215(b)		
Total pre-tax gain/(loss) recognized in income	-	\$	(38)	\$	

(a) Qualifying derivative contracts, which have been designated as normal purchases or normal sales contracts, are not reported at fair value under the accounting rules for derivatives and hedging and, therefore, are excluded from the table.

(b) For the six months ended June 30, 2009, Con Edison recorded in non-utility operating revenues an unrealized pre-tax loss of \$26 million.

As of June 30, 2010, Con Edison had 1,422 contracts, including 677 CECONY contracts, which were considered to be derivatives under the accounting rules for derivatives and hedging (excluding qualifying derivative contracts, which have been designated as normal purchases or normal sales contracts). The following table presents the number of contracts by commodity type:

		Electric Derivatives								
	Number of Number of Energy Capacity			Number of		Number Of				
	Contracts(a)	MWhs(b)	Contracts(a)	MWs(b)	Contracts(a)	Dths(b)	Contracts(a)			
Con Edison	692	17,552,057	45	8,013	685	112,842,500	1,422			
CECONY	123	3,703,750			554	105,250,000	677			

(a) Qualifying derivative contracts, which have been designated as normal purchases or normal sales contracts, are not reported at fair value under the accounting rules for derivatives and hedging and, therefore, are excluded from the table.

(b) Volumes are reported net of long and short positions.

The Companies also enter into electric congestion and gas basis swap contracts to hedge the congestion and transportation charges which are associated with electric and gas contracts and hedged volumes.

The collateral requirements associated with, and settlement of, derivative transactions are included in net cash flows from operating activities in the Companies consolidated statement of cash flows. Most derivative instrument contracts contain provisions that may require the Companies to provide collateral on derivative instruments in net liability positions. The amount of collateral to be provided will depend on the fair value of the derivative instruments and the Companies credit ratings.

32

The aggregate fair value of all derivative instruments with credit-risk-related contingent features that are in a net liability position and collateral posted at June 30, 2010, and the additional collateral that would have been required to be posted had the lowest applicable credit rating been reduced one level and to below investment grade were:

(Millions of Dollars)	Con E	dison(a)	CECC	DNY(a)
Aggregate fair value net liabilities	\$	374	\$	149
Collateral posted	\$	212	\$	73(b)
Additional collateral(c) (downgrade one level from current ratings(d))	\$	33	\$	27
Additional collateral(c) (downgrade to below investment grade from current ratings(d))	\$	301(e)	\$	89

- (a) Non-derivative transactions for the purchase and sale of electricity and gas and qualifying derivative instruments, which have been designated as normal purchases or normal sales, are excluded from the table. These transactions primarily include purchases of electricity from independent system operators. In the event the Utilities and Con Edison s competitive energy businesses were no longer extended unsecured credit for such purchases, the Companies would be required to post collateral, which at June 30, 2010, would have amounted to an estimated \$194 million for Con Edison, including \$121 million for CECONY. For certain other such non-derivative transactions, the Companies could be required to post collateral under certain circumstances, including in the event counterparties had reasonable grounds for insecurity.
- (b) Across the Utilities energy derivative positions, credit limits for the same counterparties are generally integrated. At June 30, 2010, the Utilities posted combined collateral of \$117 million, including an estimated \$44 million attributable to O&R.
- (c) The Companies measure the collateral requirements by taking into consideration the fair value amounts of derivative instruments that contain credit-risk-related contingent features that are in a net liabilities position plus amounts owed to counterparties for settled transactions and amounts required by counterparties for minimum financial security. The fair value amounts represent unrealized losses, net of any unrealized gains where the Companies have a legally enforceable right of setoff.
- (d) The current ratings are Moody s, S&P and Fitch long-term credit rating of, as applicable, Con Edison (Baa1/BBB+/BBB+), CECONY (A3/A-/A-) or O&R (Baa1/A-/A). Credit ratings assigned by rating agencies are expressions of opinions that are subject to revision or withdrawal at any time by the assigning rating agency.
- (e) Derivative instruments that are net assets have been excluded from the table. At June 30, 2010, if Con Edison had been downgraded to below investment grade, it would have been required to post additional collateral for such derivative instruments of not more than \$20 million.

#### **Interest Rate Swaps**

O&R has an interest rate swap related to its Series 1994A Debt. See Note C to the financial statement in Item 8 of the Form 10-K. O&R pays a fixed-rate of 6.09 percent and receives a LIBOR-based variable rate. The fair value of this interest rate swap at June 30, 2010 was an unrealized loss of \$12 million, which has been included in Con Edison s consolidated balance sheet as a noncurrent liability/fair value of derivative liabilities and a regulatory asset. There was no material change in the fair value of the swap for the three and six months ended June 30, 2010. In the event O&R s credit rating was downgraded to BBB- or lower by Standard & Poor s Rating Services or Baa3 or lower by Moody s Investors Service, the swap counterparty could elect to terminate the agreement and, if it did so, the parties would then be required to settle the transaction.

#### Note K Fair Value Measurements

Effective January 1, 2010, the Companies adopted Accounting Standards Update (ASU) No. 2010-06, Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements, except as discussed in the following paragraph. This update requires the Companies to disclose significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers. The guidance also clarifies level of disaggregation and disclosure requirements about inputs and valuation techniques used to measure fair value for both recurring and nonrecurring fair value measurements and the meaning of a class of assets and liabilities. In addition, the update requires the Companies to present information about purchases, sales, issuances, and settlements on a gross basis in the reconciliation for fair value measurements using significant unobservable inputs (Level 3). This disclosure is effective for fiscal years beginning after December 15, 2010 and for interim periods within those fiscal years.

The accounting rules for fair value measurements and disclosures established a fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value in three broad levels. The rules require that assets and liabilities be classified in their entirety based on the level of input that is significant to the fair value measurement. Assessing the significance of a particular input may require judgment considering factors specific to the asset or liability, and may affect the valuation of the asset or liability and their placement within the fair value hierarchy. See Note P to the financial statements in Item 8 of the Form 10-K for how the Companies classify fair value balances based on the fair value hierarchy.

The valuation technique used by the Companies with regard to commodity derivatives and other assets that fall into either Level 2 or Level 3 is the market approach, which uses prices and other relevant information generated by market transactions involving identical or comparable assets and liabilities. The valuation technique used by the Companies with regard to the interest rate contract that falls into Level 3 is the income approach which uses valuation techniques to convert future income stream amounts to a single amount in present value terms.

Assets and liabilities measured at fair value on a recurring basis as of June 30, 2010 are summarized below.

							Netting

(1) A significant portion of the commodity derivative contracts categorized in Level 3 is valued using either an industry acceptable model or an internally developed model with observable inputs. The models also include some less readily observable inputs resulting in the classification of the entire contract as Level 3. See Note J.

(2) See Note J.

(3) Other assets are comprised of assets such as life insurance contracts within the Deferred Income Plan and Supplemental Retirement Income Plans, held in rabbi trusts.

(4) Amounts represent the impact of legally-enforceable master netting agreements that allow the Companies to net gain and loss positions and cash collateral held or placed with the same counterparties.

(5) The Companies policy is to recognize transfers into and transfers out of the levels at the end of the reporting period.

(6) Transferred from Level 2 to Level 3 because of reassessment of the levels in the fair value hierarchy within which certain inputs fall.

(7) Transferred from Level 3 to Level 2 because of availability of observable market data due to decrease in the terms of certain contracts from beyond one year as of March 31, 2010 to less than one year as of June 30, 2010.

Assets and liabilities measured at fair value on a recurring basis as of December 31, 2009 are summarized below.

For the Utilities, realized gains and losses on Level 3 commodity derivative assets and liabilities are reported as part of purchased power, gas and fuel costs. The Utilities generally recover these costs in accordance with rate provisions approved by the applicable state public utilities commissions. See Note A to the financial statements in Item 8 of the Form 10-K. Unrealized gains and losses for commodity derivatives are generally deferred on the consolidated balance sheet in accordance with the accounting rules for regulated operations.

For the competitive energy businesses, realized and unrealized gains and losses on Level 3 commodity derivative assets and liabilities are reported in non-utility revenues (\$27 million loss and \$39 million loss) and purchased power costs (\$49 million gain and \$1 million loss) on the consolidated income statement for the three months ended June 30, 2010 and 2009, respectively. Realized and unrealized gains and losses on Level 3 commodity derivative assets and liabilities are reported in non-utility revenues (\$33 million gain and \$53 million loss) and purchased power costs (\$40 million loss and \$1 million loss) on the consolidated income statement for the six months ended June 30, 2010 and 2009, respectively. The change in fair value relating to Level 3 commodity derivative assets and liabilities held at June 30, 2010 is included in

Fnding

non-utility revenues (\$45 million loss) and purchased power costs (\$64 million gain) on the consolidated income statement for the three months ended June 30, 2010. For the three months ended June 30, 2009, the change in fair value relating to Level 3 commodity derivative assets and liabilities included in non-utility revenues was an \$11 million gain and was immaterial in purchased power costs. The change in fair value relating to Level 3 commodity derivative assets and liabilities held at June 30, 2010 is included in non-utility revenues (\$1 million gain) and purchased power costs (\$7 million loss) on the consolidated income statement for the six months ended June 30, 2010. For the six months ended June 30, 2009, the change in fair value relating to Level 3 commodity derivative assets and liabilities included in non-utility revenues was a \$1 million loss and was immaterial in purchased power costs.

For the Utilities, realized and unrealized gains and losses on Level 3 other assets and liabilities were immaterial for the three months ended June 30, 2010 and a \$5 million gain, which is reported in investment and other income on the consolidated income statement, for the three months ended June 30, 2009. Realized and unrealized gains and losses on Level 3 other assets and liabilities were immaterial for the six months ended June 30, 2010 and a \$3 million gain, which is reported in investment and other income on the consolidated income statement for the six months ended June 30, 2010 and a \$3 million gain, which is reported in investment and other income on the consolidated income statement for the six months ended June 30 2009.

# Note L Variable Interest Entities

Reference is made to Notes Q and T to the financial statements in Item 8 of the Form 10-K and Note L to the financial statements in Part I, Item 1 of the First Quarter Form 10-Q.

Effective January 1, 2010, the Companies adopted ASU No. 2009-17, Consolidations (Topic 810): Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities. The Companies have not identified any interests they have in any variable interest entity (VIE) that would require the Companies to include the accounts of the VIE in the Companies consolidated financial statements. In the second quarter of 2010, CECONY again requested from five potential VIEs (Sithe/Independence Power Partners, LP, Cogen Technologies Linden Venture, LP, Selkirk Cogen Partners, LP, Brooklyn Navy Yard Cogeneration Partners, LP, and Indeck Energy Services of Corinth, Inc.), with which CECONY has long-term electricity purchase agreements, the information necessary to determine whether the entity is a VIE and whether CECONY is its primary beneficiary. The information was not made available. CECONY also has a long-term electricity purchase agreement with Astoria Energy, LLC (Astoria Energy). CECONY has determined that Astoria Energy is a VIE, and that CECONY is not its primary beneficiary since CECONY does not have the power to direct the activities that CECONY believes most significantly impact the economic performance of Astoria Energy. In particular, CECONY has not invested in, or guaranteed the indebtedness of, Astoria Energy and CECONY does not operate or maintain Astoria Energy s generating facilities. CECONY s significant involvement with the entities with which it entered into long-term electricity purchase agreements is CECONY s purchase of energy and capacity under the agreements, as to which CECONY s maximum exposure to the entities is limited pursuant to the agreements. For information about the agreements, see Note I to the financial statements in Item 8 of the Form 10-K.

# Note M New Financial Accounting Standards

Reference is made to Note T to the financial statements in Item 8 of the Form 10-K and Note M to the financial statements in Part I, Item 1 of the First Quarter Form 10-Q.

# Item 2: Management s Discussion and Analysis of Financial Condition and Results of Operations

This combined management s discussion and analysis of financial condition and results of operations (MD&A) relates to the consolidated financial statements (the Second Quarter Financial Statements) included in this report of two separate registrants: Consolidated Edison, Inc. (Con Edison) and Consolidated Edison Company of New York, Inc. (CECONY) and should be read in conjunction with the financial statements and the notes thereto. As used in this report, the term the Companies refers to Con Edison and CECONY. CECONY is a subsidiary of Con Edison and, as such, information in this MD&A about CECONY applies to Con Edison.

This MD&A should be read in conjunction with the Second Quarter Financial Statements and the notes thereto, the MD&A in Item 7 of the Companies combined Annual Report on Form 10-K for the year ended December 31, 2009 (File Nos. 1-14514 and 1-1217, the Form 10-K) and the MD&A in Part 1, Item 2 of the Companies combined Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2010 (File Nos. 1-14514 and 1-1217, the First Quarter Form 10-Q).

Information in any item of this report referred to in this discussion and analysis is incorporated by reference herein. The use of terms such as see or refer to shall be deemed to incorporate by reference into this discussion and analysis the information to which reference is made.

## Overview

Consolidated Edison, Inc. (Con Edison), incorporated in New York State in 1997, is a holding company which owns all of the outstanding common stock of Consolidated Edison Company of New York, Inc. (CECONY), Orange and Rockland Utilities, Inc. (O&R) and its competitive energy businesses. As used in this report, the term the Utilities refers to CECONY and O&R.

CECONY s principal business operations are its regulated electric, gas and steam delivery businesses. O&R s principal business operations are its regulated electric and gas delivery businesses. The competitive energy businesses sell electricity to wholesale and retail customers, provide certain energy-related services and participate in energy infrastructure projects. Con Edison is evaluating additional opportunities to invest in electric and gas-related businesses.

Con Edison s strategy is to provide reliable energy services, maintain public and employee safety, promote energy efficiency and develop cost-effective ways of performing its business. Con Edison seeks to be a responsible steward of the environment and enhance its relationships with customers, regulators and members of the communities it serves.

38

# CECONY

## Electric

CECONY provides electric service to approximately 3.3 million customers in all of New York City (except part of Queens) and most of Westchester County, an approximately 660 square mile service area with a population of more than nine million.

#### Gas

CECONY delivers gas to approximately 1.1 million customers in Manhattan, the Bronx and parts of Queens and Westchester County.

#### Steam

CECONY operates the largest steam distribution system in the United States by producing, purchasing and delivering more than 23,000 MMlbs of steam annually to approximately 1,760 customers in parts of Manhattan.

#### **Orange and Rockland**

#### Electric

O&R and its utility subsidiaries, Rockland Electric Company (RECO) and Pike County Power & Light Company (Pike) (together referred to herein as O&R) provide electric service to approximately 0.3 million customers in southeastern New York and in adjacent areas of northern New Jersey and northeastern Pennsylvania, an approximately 1,350 square mile service area.

## Gas

O&R delivers gas to over 0.1 million customers in southeastern New York and adjacent areas of northeastern Pennsylvania.

## **Competitive Energy Businesses**

Con Edison pursues competitive energy opportunities through three wholly-owned subsidiaries: Con Edison Solutions, Con Edison Energy and Con Edison Development. These businesses include the sales and related hedging of electricity to wholesale and retail customers, sales of certain energy-related products and services and participation in energy infrastructure projects. At June 30, 2010, Con Edison s equity investment in its competitive energy businesses was \$295 million and their assets amounted to \$836 million.

Certain financial data of Con Edison s businesses is presented below:

	Tì	ree Montl	hs Ended		:	Six Months	Ended			
		June 30,	2010			June 30,	2010		At June 2010	/
			Net Inc for				Net Inc for			
	Operati	0	Com		Operat	0	Comn			
(Millions of Dollars)	Revenu	ies	Stoc	ek 🛛	Reven	ues	Stoc	ek 🛛	Asset	
Con Edison of New York	\$ 2,432	81%	\$ 135	74%	\$ 5,150	80%	\$ 378	93%	\$ 30,971	90%
O&R	188	6%	4	2%	439	7%	18	4%	2,193	6%
Total Utilities	2,620	87%	139	76%	5,589	87%	396	97%	33,164	96%

Other(b)	(11)	(1)%	(4)	(2)%	(21)	(1)%	(6)	(1)%	389	1%
Total Con Edison	\$ 3,017	100%	\$ 183	100%	\$ 6,478	100%	\$ 409	100%	\$ 34,389	100%

- (a) Net income from the competitive energy businesses for the three months ended June 30, 2010 includes \$39 million of net after-tax mark-to-market gains (Con Edison Solutions, \$39 million). Net income from the competitive energy businesses for the six months ended June 30, 2010 includes \$1 million of net after-tax mark-to-market gains (Con Edison Energy, \$11 million and Con Edison Solutions, \$(10) million).
- (b) Represents inter-company and parent company accounting. See Results of Operations, below.

Con Edison s net income for common stock for the three months ended June 30, 2010 was \$183 million or \$0.65 a share compared with earnings of \$150 million or \$0.55 a share for the three months ended June 30, 2009. Con Edison s net income for common stock for the six months ended June 30, 2010 was \$409 million or \$1.45 a share compared with earnings of \$330 million or \$1.20 a share for the six months ended June 30, 2009. See Results of Operations Summary, below.

**Results of Operations** Summary

Net income for common stock for the three and six months ended June 30, 2010 and 2009 was as follows:

		Three Months Ended June 30,				
(Millions of Dollars)	2010	20	009	2010	2	2009
Con Edison of New York	\$ 135	\$	136	\$ 378	\$	333
O&R	4		2	18		14
Competitive energy businesses(a)	48		15	19		(10)
Other(b)	(4)		(3)	(6)		(7)
CON EDISON	\$ 183	\$	150	\$ 409	\$	330

(a) Includes \$39 million and \$19 million of net after-tax mark-to-market gains for the three months ended June 30, 2010 and 2009, respectively. Includes \$1 million and \$(16) million of net after-tax mark-to-market gains/(losses) for the six months ended June 30, 2010 and 2009, respectively.

(b) Represents inter-company and parent company accounting. See Results of Operations, below.

The results of operations for the three and six months ended June 30, 2010, compared with the 2009 period, reflect changes in the Utilities rate plans. These rate plans include an increase in the allowed electric return on common equity for CECONY. The rate plans provide for additional revenues to cover expected increases, discussed below, in certain operations and maintenance expenses, depreciation, property taxes and interest charges. The results of operations include the operating results of the competitive energy businesses, including net mark-to-market effects.

The increases in operations and maintenance expenses reflect higher costs for pension and other post-retirement benefits, demand side management programs and regulatory assessments in the 2010 period, offset in part by savings in certain operating expenses through cost control efforts. Depreciation and property taxes were higher in the 2010 period reflecting primarily the impact from higher utility plant balances. Interest charges were higher for the six months ended June 30, 2010 period reflecting increased outstanding long-term debt.

The following table presents the estimated effect on earnings per share and net income for common stock for the 2010 period compared with the 2009 period, resulting from these and other major factors:

	Three Months Ended Variation			Six Months Ended Variation		
	20	2010 vs. 2009			)10 vs. 2009 Net Inc	come for
	Earnings	Commo	ome for on Stock ation	Earnings		on Stock iation
	per Share Variation	(Millions	of Dollars)	per Share Variation	(Millions	of Dollars)
CECONY(a)						
Rate plans, primarily to recover increases in certain costs	\$ 0.20	\$	55	\$ 0.73	\$	199
Operations and maintenance expense	(0.12)		(33)	(0.35)		(97)
Depreciation and property taxes	(0.09)		(26)	(0.25)		(70)
Net interest expense	0.02		5	(0.01)		(3)
Other (includes dilutive effect of new stock issuances)	(0.02)		(2)	0.01		16

Total CECONY	(0.01)	(1)	0.13	45
O&R		2	0.01	4
Competitive energy businesses				
Earnings excluding net mark-to-market effects	0.04	13	0.05	13
Net mark-to-market effects(b)	0.07	20	0.06	16
Total competitive energy businesses	0.11	33	0.11	29
Other, including parent company expenses		(1)		1
Total variation	\$ 0.10	\$ 33	\$ 0.25	\$ 79

(a) Under the revenue decoupling mechanisms in CECONY s electric and gas rate plans and the weather-normalization clause applicable to the gas business, revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved. Under CECONY s rate plans, pension and other postretirement costs and certain other costs are reconciled to amounts reflected in rates for such costs.

(b) For the three months ended June 30th, these variations reflect after-tax net mark-to-market gains of \$39 million or \$0.14 a share in 2010 and after-tax net mark-to-market gains of \$19 million or \$0.07 a share in 2009. For the six months ended June 30th, the variations reflect after-tax net mark-to-market gains of \$1 million in 2010, and after-tax net mark-to-market losses of \$16 million or \$0.06 a share in 2009.

40

See Results of Operations below for further discussion and analysis of results of operations.

#### **Risk Factors**

The Companies businesses are influenced by many factors that are difficult to predict, and that involve uncertainties that may materially affect actual operating results, cash flows and financial condition. The factors include those described under Risk Factors in Item 1A of the Form 10-K.

## **Application of Critical Accounting Policies**

The Companies financial statements reflect the application of their accounting policies, which conform to accounting principles generally accepted in the United States of America. The Companies critical accounting policies include industry-specific accounting applicable to regulated public utilities and accounting for pensions and other postretirement benefits, contingencies, long-lived assets, derivative instruments, goodwill and leases. See Application of Critical Accounting Policies in Item 7 of the Form 10-K.

#### Liquidity and Capital Resources

The Companies liquidity reflects cash flows from operating, investing and financing activities, as shown on their respective consolidated statement of cash flows and as discussed below. See Liquidity and Capital Resources in Item 7 of the Form 10-K. Changes in the Companies cash and temporary cash investments resulting from operating, investing and financing activities for the six months ended June 30, 2010 and 2009 are summarized as follows:

		Con Edison			CECONY	
(Millions of Dollars)	2010	2009	Variance	2010	2009	Variance
Operating activities	\$ 795	\$ 1,443	\$ (648)	\$ 737	\$ 1,327	\$ (590)
Investing activities	(1,007)	(1,119)	112	(952)	(959)	7
Financing activities	130	(87)	217	119	(115)	234
Net change	(82)	237	(319)	(96)	253	(349)
Balance at beginning of period	260	74	186	131	37	94
Balance at end of period	\$ 178	\$ 311	\$ (133)	\$ 35	\$ 290	\$ (255)

# **Cash Flows from Operating Activities**

The Utilities cash flows from operating activities reflect principally their energy sales and deliveries and cost of operations. The volume of energy sales and deliveries is dependent primarily on factors external to the Utilities, such as growth of customer demand, weather, market prices for energy, and economic conditions. Under the revenue decoupling mechanisms in the Utilities electric and gas rate plans in New York, changes in delivery volumes from levels assumed when rates were approved may affect the timing of cash flows but not net income. See Note B to the financial statements in Item 8 of the Form 10-K. The prices at which the Utilities provide energy to their customers are determined in accordance with their rate agreements. In general, changes in the Utilities cost of purchased power, fuel and gas may affect the timing of cash flows but not net income because the costs are recovered in accordance with rate agreements. See Recoverable Energy Costs in Note A to the financial statements in Item 8 of the Form 10-K.

Net income is the result of cash and non-cash (or accrual) transactions. Only cash transactions affect the Companies cash flows from operating activities. Principal non-cash charges include depreciation, deferred income tax expense, and net derivative losses. Principal non-cash credits include amortizations of certain net regulatory liabilities and net derivative gains. Non-cash charges or credits may also be accrued under the revenue decoupling and cost reconciliation mechanisms in the Utilities electric and gas rate plans in New York. See Rate Agreements in Note B to the financial statements in Item 8 of the Form 10-K.

Net cash flows from operating activities for the six months ended June 30, 2010 for Con Edison and CECONY were \$648 million and \$590 million lower, respectively, than in the 2009 period. The decreases in

net cash flows reflect the January 2010 semi-annual payment of CECONY s New York City property taxes, without a comparable semi-annual payment in January 2009. The Company achieved a 1.5 percent reduction in its New York City property taxes for the fiscal year ending June 30, 2009 by prepaying the annual tax amount in July 2008.

The change in net cash flows also reflects the timing of payments for and recovery of energy costs. This timing issue is reflected within changes to accounts receivable customers, recoverable energy costs and accounts payable balances.

## **Cash Flows Used in Investing Activities**

Net cash flows used in investing activities for the six months ended June 30, 2010 for Con Edison and CECONY were \$112 million and \$7 million lower, respectively, than in the 2009 period. The decrease reflects primarily decreased construction expenditures in 2010. The lower net cash flows used in investing activities for CECONY were offset in part by the repayment of loans by O&R to CECONY in the 2009 period. See Note S to the financial statements in Item 8 of the Form 10-K.

## **Cash Flows from Financing Activities**

Net cash flows from financing activities for the six months ended June 30, 2010 for Con Edison and CECONY were \$217 million and \$234 million higher, respectively, than in the 2009 period.

Net cash flows from financing activities during the six months ended June 30, 2010 and 2009 reflect the following CECONY transactions:

2010

Issued \$350 million 4.45 percent 10-year debentures and \$350 million 5.70 percent 30-year debentures: and

Redeemed at maturity \$325 million 8.125 percent 10-year debentures. 2009

Issued \$275 million 5.55 percent 5-year debentures and \$475 million 6.65 percent 10-year debentures; and

Redeemed at maturity \$275 million 4.70 percent 5-year debentures. Con Edison s net cash flows from financing activities for the six months ended June 30, 2010 also reflect the following O&R transactions:

Redeemed in advance of maturity \$45 million 7.00 percent 30-year debentures that were due in 2029; and

Redeemed at maturity \$55 million 7.50 percent 10-year debentures.

Cash flows from financing activities of the Companies also reflect commercial paper issuance (included on the consolidated balance sheets as Notes payable ). The commercial paper amounts outstanding at June 30, 2010 and June 30, 2009 and the average daily balances for six months ended June 30, 2010 and 2009 for Con Edison and CECONY were as follows:

(Millions of Dollars, except	2010			9
Weighted Average Yield)	Outstanding at June 30	YTD average	Outstanding at June 30	YTD average
Con Edison	\$ 153	\$ 360	\$ 100	\$ 246
CECONY	\$ 66	\$ 349	\$	\$ 112
Weighted average yield	0.4%	0.3%	0.4%	0.5%

Cash flows from financing activities for the six months ended June 30, 2010 and 2009 also reflect the issuance of Con Edison common shares through its dividend reinvestment and employee stock plans (2010: 1,203,695 shares for \$25 million, 2009: 1,117,449 shares for \$15 million). In addition, as a result of the stock plan issuances, cash used to pay common stock dividends was reduced by \$24 million in both periods.

42

Common stock issuances and external borrowings are sources of liquidity that could be affected by changes in credit ratings, financial performance and capital market conditions. For information about the Companies credit ratings and certain financial ratios, see Capital Requirements and Resources Capital Resources in Item 1 of the Form 10-K.

## Other Changes in Assets and Liabilities

The following table shows changes in certain assets and liabilities at June 30, 2010, compared with December 31, 2009.

	Con Edison 2010 vs. 2009	CECONY 2010 vs. 2009
( <i>Millions of Dollars</i> ) Assets	Variance	Variance
Regulatory asset unrecognized pension and other post-retirement benefit deferrals	(344)	(320)
Liabilities		
Pension and retiree benefits	(351)	(346)

# Regulatory Asset for Unrecognized Pension and Other Post-Retirement Benefit Costs and Non-Current Liability for Pension and Retiree Benefits

The decreases in the regulatory asset for unrecognized pension and other post-retirement benefit costs and the non-current liability for pension and retiree benefits reflects the final actuarial valuation of the underfunding of the pension and other retiree benefit plans as measured at December 31, 2009 in accordance with the accounting rules for pensions and the year-to-date amortization of accounting costs. The decrease in the non-current liability for pension and retiree benefits also reflects the contributions to the pension plan made by CECONY in the first half of the year. See Notes B, E and F to the financial statements in Item 8 of the Form 10-K and Note E to the Second Quarter Financial Statements.

#### **Capital Requirements and Resources**

At June 30, 2010, there was no material change in the Companies capital requirements and resources compared to those disclosed under Capital Requirements and Resources Capital Requirements and Capital Requirement and Resources Capital Resources in Item 1 of the Form 10-K, other than as described below and in Note C to the Second Quarter Financial Statements.

CECONY is in the process of reviewing its capital requirements and expects to defer certain projects which had estimated construction expenditures of \$75 million and \$200 million in 2011 and 2012, respectively. CECONY expects that its construction expenditures for 2011 and 2012 will decrease from the amounts estimated under Capital Requirements in Item 1 of the Form 10-K.

For each of the Companies, the ratio of earnings to fixed charges (Securities and Exchange Commission basis) for the six months ended June 30, 2010 and 2009 and the 12 months ended December 31, 2009 was:

		Earnings to Fixed Charges (Times)	
	For the Six Months	For the Six Months	For the Twelve Months
	Ended June 30, 2010	Ended June 30, 2009	Ended December 31, 2009
Con Edison	2.9	2.5	3.0

CECONY

For each of the Companies, the common equity ratio at June 30, 2010 and December 31, 2009 was:

#### **Common Equity Ratio**

	(Percent of to	tal capitalization)
	June 30,	December 31,
	2010	2009
Con Edison	49.1	50.5
CECONY	48.6	50.3
Contractual Obligations		

At June 30, 2010, there were no material changes in the Companies aggregate obligation to make payments pursuant to contracts compared to those discussed under Capital Requirements and Resources Contractual Obligations in Item 1 of the Form 10-K.

#### **Electric Power Requirements**

At June 30, 2010, there were no material changes in the Companies electric power requirements compared to those disclosed under Electric Operations Electric Supply in Item 1 of the Form 10-K.

#### **Regulatory Matters**

At June 30, 2010, there were no material changes in the Companies regulatory matters compared to those disclosed under Utility Regulation in Item 1 of the Form 10-K and Rate Agreements in Note B to the financial statements in Item 8 of the Form 10-K, other than as described in Note B to the Second Quarter Financial Statements.

#### **Financial and Commodity Market Risks**

The Companies are subject to various risks and uncertainties associated with financial and commodity markets. The most significant market risks include interest rate risk, commodity price risk, credit risk and investment risk. At June 30, 2010, there were no material changes in the Companies financial and commodity market risks compared to those discussed under Financial and Commodity Market Risks in Item 7 of the Form 10-K, other than as described below and in Note J to the Second Quarter Financial Statements.

#### **Commodity Price Risk**

Con Edison s commodity price risk relates primarily to the purchase and sale of electricity, gas and related derivative instruments. The Utilities and Con Edison s competitive energy businesses have risk management strategies to mitigate their related exposures. See Note J to the Second Quarter Financial Statements.

Con Edison estimates that, as of June 30, 2010, a 10 percent decline in market prices would result in a decline in fair value of \$93 million for the derivative instruments used by the Utilities to hedge purchases of electricity and gas, of which \$73 million is for CECONY and \$20 million is for O&R. Con Edison expects that any such change in fair value would be largely offset by directionally opposite changes in the cost of the electricity and gas purchased. In accordance with provisions approved by state regulators, the Utilities generally recover from customers the costs they incur for energy purchased for their customers, including gains and losses on certain derivative instruments used to hedge energy purchased and related costs. See Recoverable Energy Costs in Note A to the financial statements in Item 8 of the Form 10-K.

Con Edison s competitive energy businesses use a value-at-risk (VaR) model to assess the market risk of their electricity and gas commodity fixed-price purchase and sales commitments, physical forward contracts and commodity derivative instruments. VaR represents the potential change in fair value of instruments or the portfolio due to changes in market factors, for a specified time period and confidence level. These businesses estimate VaR across their electricity and natural gas commodity businesses using a delta-normal variance/covariance model with a 95 percent confidence level. Since the VaR calculation involves complex methodologies and estimates and assumptions that are based on past experience, it is not necessarily indicative of future results. VaR for transactions associated with hedges on commodity contracts, assuming a one-day holding period, for the six months ended June 30, 2010 and the year ended December 31, 2009, was as follows:

	June 30, 2010 (Millions of J	December 31, 2009
95% Confidence Level, One-Day Holding Period	(1)20005 072	Donai S)
Average for the period	1	1
High	1	2
Low		
44		

Table of Contents

## **Credit Risk**

The Companies are exposed to credit risk related to transactions entered into primarily for the various energy supply and hedging activities by the Utilities and the competitive energy businesses. Credit risk relates to the loss that may result from a counterparty s nonperformance. The Companies use credit policies to manage this risk, including an established credit approval process, monitoring of counterparty limits, netting provisions within agreements and collateral or prepayment arrangements, credit insurance and credit default swaps. The Companies measure credit risk exposure as the replacement cost for open energy commodity and derivative positions plus amounts owed from counterparties for settled transactions. The replacement cost of open positions represents unrealized gains, net of any unrealized losses where the Companies have a legally enforceable right of setoff. See Credit Exposure in Note J to the Second Quarter Financial Statements.

#### **Environmental Matters**

For information concerning climate change, environmental sustainability, potential liabilities arising from laws and regulations protecting the environment and other environmental matters, see Environmental Matters in Item 1 of the Form 10-K and Notes G and H to the Second Quarter Financial Statements.

#### **Impact of Inflation**

The Companies are affected by the decline in the purchasing power of the dollar caused by inflation. Regulation permits the Utilities to recover through depreciation only the historical cost of their plant assets even though in an inflationary economy the cost to replace the assets upon their retirement will substantially exceed historical costs. The impact is, however, partially offset by the repayment of the Companies long-term debt in dollars of lesser value than the dollars originally borrowed.

#### **Material Contingencies**

For information concerning potential liabilities arising from the Companies material contingencies, see Application of Critical Accounting Policies Accounting for Contingencies, in Item 7 of the Form 10-K and Notes B, G and H to the Second Quarter Financial Statements.

#### **Results of Operations**

Results of operations reflect, among other things, the Companies accounting policies (see Application of Critical Accounting Policies in Item 7 of the Form 10-K) and rate plans that cover the rates the Utilities can charge their customers (see Utility Regulation in Item 1 of the Form 10-K). Under the revenue decoupling mechanisms currently applicable to the Utilities electric and gas businesses in New York, revenues will generally not be affected by changes in delivery volumes from levels assumed when rates were approved. Revenues for CECONY s steam business and O&R s other utility businesses are affected by changes in delivery volumes resulting from weather, economic conditions and other factors. See Note B to the Second Quarter Financial Statements.

The results of operations for the three and six months ended June 30, 2010, as compared with the 2009 period, reflect changes in the Utilities rate plans. These rate plans include an increase in the allowed electric return on common equity for CECONY. The rate plans provide for additional revenues to cover expected increases, discussed below, in certain operations and maintenance expenses, depreciation, property taxes and interest charges. The results of operations include the operating results of the competitive energy businesses, including net mark-to-market effects.

The increases in operations and maintenance expenses reflect higher costs for pension and other post-retirement benefits, demand side management programs and regulatory assessments in the 2010 period, offset in part by savings in certain operating expenses through cost control efforts. Depreciation and property taxes were higher in the 2010 period reflecting primarily the impact from higher utility plant balances. Interest charges were higher for the six months ended June 30, 2010 period reflecting increased outstanding long-term debt. For additional information about major factors affecting earnings, see Results of Operations Summary, above.

In general, the Utilities recover on a current basis the fuel, gas purchased for resale and purchased power costs they incur in supplying energy to their full-service customers (see Recoverable Energy Costs in Note A and Regulatory Matters in Note B to the financial statements in Item 8 of the Form 10-K). Accordingly,

such costs do not generally affect the Companies results of operations. Management uses the term net revenues (operating revenues less such costs) to identify changes in operating revenues that may affect the Companies results of operations. Management believes that, although net revenues may not be a measure determined in accordance with accounting principles generally accepted in the United States of America, the measure facilitates the analysis by management and investors of the Companies results of operations.

Con Edison s principal business segments are CECONY s regulated electric, gas and steam utility activities, O&R s regulated electric and gas utility activities and Con Edison s competitive energy businesses. CECONY s principal business segments are its regulated electric, gas and steam utility activities. A discussion of the results of operations by principal business segment for the three and six months ended June 30, 2010 and 2009 follows. For additional business segment financial information, see Note I to the Second Quarter Financial Statements.

## Three Months Ended June 30, 2010 Compared with Three Months Ended June 30, 2009

The Companies results of operations (which were discussed above under Results of Operations Summary ) in 2010 compared with 2009 were:

## Electric

CECONY s results of electric operations for the three months ended June 30, 2010 compared with the 2009 period are as follows:

	Three Mo	Three Months Ended		
	June 30,	June 30,		
(Millions of Dollars)	2010	2009	Vari	iation
Operating revenues	\$ 2,104	\$ 1,812	\$	292
Purchased power	777	595		182
Fuel	58	42		16
Net revenues	1,269	1,175		94
Operations and maintenance	469	427		42
Depreciation and amortization	156	146		10
Taxes, other than income taxes	325	290		35
Electric operating income	\$ 319	\$ 312	\$	7

CECONY s electric sales and deliveries, excluding off-system sales, for the three months ended June 30, 2010 compared with the 2009 period were:

	Three Mon		Whs Delivered					
Description	June 30, 2010	June 30, 2009	Variation	Percent Variation	June 30, 2010	June 30, 2009	Variation	Percent Variation
Residential/Religious*	2,492	2,365	127	5.4%	\$ 681	\$ 550	\$ 131	23.8%
Commercial/Industrial	2,816	2,915	(99)	(3.4)	642	551	91	16.5
Retail access customers	5,326	5,059	267	5.3	500	414	86	20.8
NYPA, Municipal Agency and other								
sales	2,654	2,623	31	1.2	124	98	26	26.5
Other operating revenues					157	199	(42)	(21.1)
Total	13,288	12,962	326	2.5%	\$ 2,104	\$ 1,812	\$ 292	16.1%

\* Residential/Religious generally includes single-family dwellings, individual apartments in multi-family dwellings, religious organizations and certain other not-for-profit organizations.

CECONY s electric operating revenues increased \$292 million for the three months ended June 30, 2010 compared with the 2009 period due primarily to increased purchased power (\$182 million), fuel (\$16 million) and CECONY s electric rate plans (\$155 million), offset in part by the revenue decoupling mechanism (reduction of \$37 million of revenues in the 2010 period compared with increased revenues of \$30 million in the 2009 period). CECONY s revenues from electric sales are subject to a revenue decoupling mechanism, as a result of which delivery revenues generally are not affected by changes in delivery volumes from levels assumed when rates were approved. Other electric operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the revenue decoupling mechanism and other provisions of the company s rate plans.

Electric delivery volumes in CECONY s service area increased 2.5 percent for the three months ended June 30, 2010 compared with the 2009 period. After adjusting for variations, principally weather and billing days, electric delivery volumes in CECONY s service area increased 1.2 percent for the three months ended June 30, 2010 compared with the 2009 period.

CECONY s electric purchased power costs increased \$182 million for the three months ended June 30, 2010 compared with the 2009 period due to an increase in unit costs (\$171 million) and purchased volumes (\$11 million). Electric fuel costs increased \$16 million for the three months ended June 30, 2010 compared with the 2009 period due to higher send out volumes from the company s generating facilities (\$28 million), offset by lower unit costs (\$12 million).

CECONY s electric operating income increased \$7 million for the three months ended June 30, 2010 compared with the 2009 period. The increase reflects primarily higher net revenues (\$94 million) due

primarily to the electric rate plans, including the collection of a surcharge for a New York State assessment and the recovery of higher demand side management expenses. The higher net revenues were offset by higher operations and maintenance costs (\$42 million, due primarily to the surcharge for a New York State assessment (\$16 million) and higher demand side management expenses (\$26 million)), taxes other than income taxes (\$35 million, principally property taxes) and depreciation and amortization (\$10 million).

## Gas

CECONY s results of gas operations for the three months ended June 30, 2010 compared with the 2009 period are as follows:

	Three Mor		
	June 30,	June 30,	
(Millions of Dollars)	2010	2009	Variation
Operating revenues	\$ 239	\$ 295	\$ (56)
Gas purchased for resale	51	114	(63)
Net revenues	188	181	7
Operations and maintenance	74	66	8
Depreciation and amortization	25	24	1
Taxes, other than income taxes	45	45	
Gas operating income	\$ 44	\$ 46	\$ (2)

CECONY s gas sales and deliveries, excluding off-system sales, for the three months ended June 30, 2010 compared with the 2009 period were:

		Thousands o	f dths Delivered	Revenues in Millions Three Months					
	Three Mor	ths Ended				nded			
	June 30,	June 30,		Percent	June 30,	June 30,		Percent	
Description	2010	2009	Variation	Variation	2010	2009	Variation	Variation	
Residential	5,877	7,232	(1,355)	(18.7)%	\$ 130	\$ 147	\$ (17)	(11.6)%	
General	4,677	5,748	(1,071)	(18.6)	72	84	(12)	(14.3)	
Firm transportation	9,352	9,609	(257)	(2.7)	65	51	14	27.5	
Total firm sales and transportation	19,906	22,589	(2,683)	(11.9)	267	282	(15)	(5.3)	
Interruptible sales	1,655	2,121	(466)	(22.0)	5	16	(11)	(68.8)	
NYPA	6,080	8,886	(2,806)	(31.6)	1	1			
Generation plants	19,950	16,284	3,666	22.5	9	9			
Other	3,923	4,737	(814)	(17.2)	8	8			
Other operating revenues					(51)	(21)	(30)	Large	
Total	51,514	54,617	(3,103)	(5.7)%	\$ 239	\$ 295	\$ (56)	(19.0)%	

CECONY s gas operating revenues decreased \$56 million for the three months ended June 30, 2010 compared with the 2009 period due primarily to a decrease in gas purchased for resale costs (\$63 million), offset in part by the 2009 gas rate plan (\$5 million). CECONY s revenues from gas sales are subject to a weather normalization clause and a revenue decoupling mechanism, as a result of which, delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved. Other gas operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company s rate plans.

CECONY s sales and transportation volumes for firm customers decreased 11.9 percent for the three months ended June 30, 2010 compared with the 2009 period. After adjusting for variations, principally weather and billing days, firm gas sales and transportation volumes in the company s service area increased 0.4 percent for the three months ended June 30, 2010 compared with the 2009 period.

CECONY s purchased gas cost decreased by \$63 million for the three months ended June 30, 2010 compared with the 2009 period due to lower unit costs (\$51 million) and lower send out volumes (\$12 million).

48

CECONY s gas operating income decreased \$2 million for the three months ended June 30, 2010 compared with the 2009 period. The decrease reflects primarily higher operations and maintenance expenses (\$8 million) due primarily to a surcharge for a New York State assessment (\$8 million) and the recovery of higher demand side management expenses (\$5 million), offset in part by reduced operating expenses due to cost control efforts. The higher operations and maintenance expenses were offset in part by higher net revenues (\$7 million).

#### Steam

CECONY s results of steam operations for the three months ended June 30, 2010 compared with the 2009 period are as follows:

	Three Mor	Three Months Ended					
	June 30,	June 30,					
(Millions of Dollars)	2010	2009	Variation				
Operating revenues	\$ 89	\$ 113	\$ (24)				
Purchased power	10	14	(4)				
Fuel	29	44	(15)				
Net revenues	50	55	(5)				
Operations and maintenance	45	39	6				
Depreciation and amortization	15	15					
Taxes, other than income taxes	19	19					
Steam operating income	\$ (29)	\$ (18)	\$ (11)				

CECONY s steam sales and deliveries for the three months ended June 30, 2010 compared with the 2009 period were:

	Three Mo	Millions of P	ounds Delivered		Three Fr	s		
Description	June 30, 2010	June 30, 2009	Variation	Ended Percent June 30, June 30, Variation 2010 2009 Va		Variation	Percent Variation	
General	51	42	9	21.4%	\$ 3	\$ 2	\$ 1	50.0%
Apartment house	956	1,048	(92)	(8.8)	23	29	(6)	(20.7)
Annual power	2,680	2,827	(147)	(5.2)	61	78	(17)	(21.8)
Other operating revenues					2	4	(2)	(50.0)
Total	3,687	3,917	(230)	(5.9)%	\$ 89	\$ 113	\$ (24)	(21.2)%

CECONY s steam operating revenues decreased \$24 million for the three months ended June 30, 2010 compared with the 2009 period due primarily to lower fuel costs (\$15 million), lower purchased power costs (\$4 million) and lower sales and deliveries (\$6 million, due primarily to weather). Other steam operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company s rate plans.

Steam sales and delivery volumes decreased 5.9 percent for the three months ended June 30, 2010 compared with the 2009 period. After adjusting for variations, principally weather and billing days, steam sales and deliveries decreased 1.5 percent for the three months ended June 30, 2010 compared with the 2009 period, reflecting primarily lower average normalized use per customer.

CECONY s steam purchased power costs decreased \$4 million for the three months ended June 30, 2010 compared with the 2009 period due to lower purchased volumes (\$8 million), offset by an increase in unit costs (\$4 million). Steam fuel costs decreased \$15 million for the three months ended June 30, 2010 compared with the 2009 period due to lower unit costs (\$19 million), offset by higher sendout volumes (\$4 million).

## Table of Contents

## Edgar Filing: CONSOLIDATED EDISON CO OF NEW YORK INC - Form 10-Q

Steam operating income decreased \$11 million for the three months ended June 30, 2010 compared with the 2009 period. The decrease reflects primarily higher operations and maintenance expense (\$6 million, due primarily to a surcharge for a New York State assessment (\$2 million) and the recovery of higher pension expenses (\$5 million)) and lower net revenues (\$5 million).

#### Net Interest Expense

Net interest expense decreased \$4 million for the three months ended June 30, 2010 compared with the 2009 period reflecting primarily the redemption of outstanding long-term debt in the fourth quarter of 2009.

Other operating revenues					(1)	2	(3)	Large
Total	1,358	1,276	82	6.4%	\$ 153	\$ 144	<b>\$</b> 9	6.3%

\* Residential/Religious generally includes single-family dwellings, individual apartments in multi-family dwellings, religious organizations and certain other not-for-profit organizations.

O&R s electric operating revenues increased \$9 million for the three months ended June 30, 2010 compared with the 2009 period due primarily to the electric rate plan (\$9 million). O&R s New York electric delivery revenues are subject to a revenue decoupling mechanism, as a result of which, delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved. O&R s electric sales in New Jersey and Pennsylvania are not subject to a decoupling mechanism, and as a result, changes in such volumes do impact revenues. Other electric operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company s electric rate plan.

Electric delivery volumes in O&R s service area increased 6.4 percent for the three months ended June 30, 2010 compared with the 2009 period. After adjusting for weather variations, electric delivery volumes in O&R s service area increased 0.4 percent for the three months ended June 30, 2010 compared with the 2009 period.

Electric operating income increased \$5 million for the three months ended June 30, 2010 compared with the 2009 period. The increase reflects primarily higher net revenues (\$9 million), offset in part by higher operations and maintenance expense (\$3 million), due primarily to a surcharge for a New York State assessment (\$3 million). See Regulatory Assets and Liabilities in Note B to the Second Quarter Financial Statements.

#### Gas

O&R s results of gas operations for the three months ended June 30, 2010 compared with the 2009 period are as follows:

	Three M	Ionths Ei	ıded		
	June 30,	Jun	ie 30,		
(Millions of Dollars)	2010	20	)09	Vari	iation
Operating revenues	\$ 35	\$	39	\$	(4)

Operations and maintenance	15		13		2
Depreciation and amortization	3		3		
Taxes, other than income taxes	3		3		
Gas operating income	\$ (1)	\$		\$	(1)

O&R s gas sales and deliveries, excluding off-system sales, for the three months ended June 30, 2010 compared with the 2009 period were:

	Three Mor	Thousands o hths Ended		IS					
Description	June 30, 2010	June 30, 2009	Variation	Percent Variation	June 30, 2010	-	e 30, )09	Variation	Percent Variation
Residential	835	1,010	(175)	(17.3)%	\$ 15	\$	19	\$ (4)	(21.1)%
General	155	217	(62)	(28.6)	3		4	(1)	(25.0)
Firm transportation	1,379	1,561	(182)	(11.7)	12		8	4	50.0
Total firm sales and transportation	2,369	2,788	(419)	(14.9)	30		31	(1)	(3.2)
Interruptible sales	1,057	1,069	(12)	(1.1)	1		5	(4)	(80.0)
Generation plants	263	227	36	15.9			1	(1)	Large
Other	107	124	(17)	(13.7)					-
Other gas revenues					4		2	2	Large
Total	3,796	4,208	(412)	(9.8)%	\$ 35	\$	39	\$ (4)	(10.3)%
									51

O&R s gas operating revenues decreased \$4 million for the three months ended June 30, 2010 compared with the 2009 period due primarily to the decrease in gas purchased for resale in 2010 (\$5 million). O&R s New York gas delivery revenues are subject to a revenue decoupling mechanism, as a result of which, delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved.

Sales and transportation volumes for firm customers decreased 14.9 percent for the three months ended June 30, 2010 compared with the 2009 period. After adjusting for weather and other variations, total firm sales and transportation volumes increased 0.7 percent for the three months ended June 30, 2010 compared with the 2009 period. O&R s New York revenues from gas sales are subject to a weather normalization clause that moderates, but does not eliminate, the effect of weather-related changes on net income.

Gas operating income decreased \$1 million for the three months ended June 30, 2010 compared with the 2009 period.

#### **Competitive Energy Businesses**

The competitive energy businesses earnings increased \$33 million for the three months ended June 30, 2010 compared with the 2009 period due primarily to higher net mark-to-market gains and higher electric retail margins in the 2010 period compared with the 2009 period.

Operating revenues decreased \$48 million for the three months ended June 30, 2010 compared with the 2009 period due primarily to changes in the net mark-to-market effects and decreased electric wholesale revenues, offset in part by increased retail revenues. Electric wholesale revenues decreased \$32 million for the three months ended June 30, 2010 compared with the 2009 period due to lower sales volumes (\$15 million) and unit prices (\$17 million). Electric retail revenues increased \$64 million due to higher sales volume (\$80 million), offset by lower per unit prices (\$16 million). Gross margins on electric retail revenues increased significantly due primarily to the sale of higher margin contracts, lower costs and higher volumes. Net mark-to-market gains increased \$34 million for the three months ended June 30, 2010 compared with the 2009 period, of which \$76 million in losses are reflected in revenues and \$110 million in gains are reflected in purchased power costs. Other revenues decreased \$4 million for the three months ended June 30, 2010 compared with the 2009 period due primarily to lower sales of energy efficiency services.

Operating expenses decreased \$105 million for the three months ended June 30, 2010 compared with the 2009 period due primarily to decreased purchased power costs (\$104 million) and other operating costs (\$1 million).

#### Six Months Ended June 30, 2010 Compared with Six Months Ended June 30, 2009

The Companies results of operations (which were discussed above under Results of Operations Summary ) in 2010 compared with 2009 were:

Other operating revenues					109	186	(77)	(41.4)		
Total	27,235	27,139	96	0.4%	\$ 3,832	\$ 3,469	\$ 363	10.5%		

\* Residential/Religious generally includes single-family dwellings, individual apartments in multi-family dwellings, religious organizations and certain other not-for-profit organizations.

CECONY s electric operating revenues increased \$363 million for the six months ended June 30, 2010 compared with the 2009 period due primarily to CECONY s electric rate plans (\$325 million, which among other things, reflected a 10.15 percent return on common equity, effective April 2010, a 10.0 percent return, effective April 2009 and a 9.1 percent return, effective April 2008), and higher purchased power costs (\$85 million), offset in part by the revenue decoupling mechanism (a reduction of \$31 million of revenues in the 2010 period compared with increased revenues of \$24 million in the 2009 period) and lower fuel costs (\$12 million). CECONY s revenues from electric sales are subject to a revenue decoupling mechanism, as a result of which delivery revenues generally are not affected by changes in delivery volumes from levels assumed when rates were approved. Other electric operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the revenue decoupling mechanism and other provisions of the company s rate plans.

Electric delivery volumes in CECONY s service area increased 0.4 percent for the six months ended June 30, 2010 compared with the 2009 period. After adjusting for variations, principally weather and billing days, electric delivery volumes in CECONY s service area increased 0.4 percent for the six months ended June 30, 2010 compared with the 2009 period, reflecting the impact of lower average normalized use per customer.

CECONY s electric purchased power costs increased \$85 million for the six months ended June 30, 2010 compared with the 2009 period due to higher unit costs (\$135 million), offset by lower purchased volumes (\$50 million). Electric fuel costs decreased \$12 million for the six months ended June 30, 2010 compared with the 2009 period due to lower unit costs (\$44 million), offset by higher send out volumes from the company s generating facilities (\$32 million).

CECONY s electric operating income increased \$56 million for the six months ended June 30, 2010 compared with the 2009 period. The increase reflects primarily higher net revenues (\$290 million, due primarily to the electric rate plan, including the collection of a surcharge for a New York State assessment and the recovery of higher pension expense). The higher net revenues were offset by higher operations and maintenance costs (\$116 million, due primarily to the surcharge for a New York State assessment (\$57 million) and the recovery of higher demand side management expenses (\$45 million), offset in part by reduced operating expenses due to cost control efforts), taxes other than income taxes (\$99 million, principally property taxes) and depreciation and amortization (\$19 million). The increased operating expenses in the first quarter of 2010 resulting from two severe winter storms were deferred as a regulatory asset and did not affect electric operating income. See Regulatory Assets and Liabilities in Note B to the Second Quarter Financial Statements.

Regulatory Assets and Liabilities in Note B to

#### Gas

CECONY s results of gas operations for the six months ended June 30, 2010 compared with the 2009 period are as follows:

	Six Mon	Six Months Ended				
	June 30,	June 30,				
(Millions of Dollars)	2010	2009	Var	iation		
Operating revenues	\$ 922	\$ 1,077	\$	(155)

Firm transportation	32,287	29,887	2,400	8.0	218	151	67	44.4		
Total firm sales and transportation	73,675	75,917	(2,242)	(3.0)	923	980	(57)	(5.8)		
Interruptible sales	4,572	5,339	(767)	(14.4)	34	61	(27)	(44.3)		
NYPA	12,122	16,623	(4,501)	(27.1)	1	2	(1)	(50.0)		
Generation plants	32,215	29,512	2,703	9.2	17	18	(1)	(5.6)		
Other	11,985	10,412	1,573	15.1	33	20	13	65.0		
Other operating revenues					(86)	(4)	(82)	Large		
Total	134,569	137,803	(3,234)	(2.3)%	\$ 922	\$ 1,077	\$ (155)	(14.4)%		

CECONY s gas operating revenues decreased \$155 million for the six months ended June 30, 2010 compared with the 2009 period due primarily to a decrease in gas purchased for resale costs (\$197 million), offset in part by the 2009 gas rate plan (\$41 million). CECONY s revenues from gas sales are subject to a weather normalization clause and a revenue decoupling mechanism, as a result of which, delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved. Other gas operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company s rate plans.

CECONY s sales and transportation volumes for firm customers decreased 3.0 percent for the six months ended June 30, 2010 compared with the 2009 period. After adjusting for variations, principally weather and billing days, firm gas sales and transportation volumes in the company s service area increased 3.2 percent in the six months ended June 30, 2010 compared with the 2009 period, reflecting primarily new business and transfers of interruptible customers to firm service.

CECONY s purchased gas cost decreased by \$197 million for the six months ended June 30, 2010 compared with the 2009 period due to lower unit costs (\$168 million) and lower send out volumes (\$29 million).

CECONY s gas operating income increased \$7 million for the six months ended June 30, 2010 compared with the 2009 period. The increase reflects primarily higher net revenues (\$42 million), offset by higher operations and maintenance expense (\$29 million, due primarily to a surcharge for a New York State assessment (\$29 million)), and taxes other than income taxes (\$4 million).

#### Steam

CECONY s results of steam operations for the six months ended June 30, 2010 compared with the 2009 period are as follows:

	Six Mon	Six Months Ended			
	June 30,	June 30,			
(Millions of Dollars)	2010	2009	Var	riation	
Operating revenues	\$ 396	\$ 444	\$	(48)	
Purchased power	32	34		(2)	
Fuel	120	192		(72)	
Net revenues	244	218		26	
Operations and maintenance	96	79		17	
Depreciation and amortization	31	30		1	
Taxes, other than income taxes	44	44			
Steam operating income	\$ 73	\$ 65	\$	8	

CECONY s steam sales and deliveries for the six months ended June 30, 2010 compared with the 2009 period were:

	Six Mont	Millions of Pounds Delivered Six Months Ended			Revenues in Millions Six Months Ended				
Description	June 30, 2010	June 30, 2009	Variation	Percent Variation	June 30, 2010	June 30, 2009	Variation	Percent Variation	
General	112	390	(278)	(71.3)%	\$ 13	\$ 17	\$ (4)	(23.5)%	
Apartment house	3,587	3,821	(234)	(6.1)	102	117	(15)	(12.8)	
Annual power	9,203	9,411	(208)	(2.2)	279	301	(22)	(7.3)	
Other operating revenues					2	9	(7)	(77.8)	
Total	12,902	13,622	(720)	(5.3)%	\$ 396	\$ 444	\$ (48)	(10.8)%	

CECONY s steam operating revenues decreased \$48 million for the six months ended June 30, 2010 compared with the 2009 period due primarily to lower fuel costs (\$72 million), offset in part by the steam rate plan (\$21 million). Other steam operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company s rate plans.

Steam sales and delivery volumes decreased 5.3 percent for the six months ended June 30, 2010 compared with the 2009 period. After adjusting for variations, principally weather and billing days, steam sales and deliveries decreased 0.4 percent in the six months ended June 30, 2010 compared with the 2009 period.

CECONY s steam purchased power costs decreased \$2 million for the six months ended June 30, 2010 compared with the 2009 period due to lower purchased volumes (\$8 million), offset by higher unit costs (\$6 million). Steam fuel costs decreased \$72 million for the six months ended June 30, 2010 compared with the 2009 period due to lower unit costs (\$70 million) and lower sendout volumes (\$2 million).

Steam operating income increased \$8 million for the six months ended June 30, 2010 compared with the 2009 period. The increase reflects primarily higher net revenues (\$26 million), offset in part by higher operations and maintenance expense (\$17 million, due primarily to a surcharge for a New York State assessment (\$7 million) and the recovery of higher pension expenses (\$11 million)).

Public authorities	54	53	1	1.9	6	5	1	20.0
Other operating revenues					(3)	2	(5)	Large
Total	2,722	2,671	51	1.9%	\$ 314	\$ 289	\$ 25	8.7%

\* Residential/Religious generally includes single-family dwellings, individual apartments in multi-family dwellings, religious organizations and certain other not-for-profit organizations.

O&R s electric operating revenues increased \$25 million for the six months ended June 30, 2010 compared with the 2009 period due primarily to the electric rate plan (\$17 million) and increased recoverable purchased power costs (\$8 million). O&R s New York electric delivery revenues are subject to a revenue decoupling mechanism, as a result of which, delivery revenues are generally not affected by changes in delivery

## Edgar Filing: CONSOLIDATED EDISON CO OF NEW YORK INC - Form 10-Q

volumes from levels assumed when rates were approved. O&R s electric sales in New Jersey and Pennsylvania are not subject to a decoupling mechanism, and as a result, changes in such volumes do impact revenues. Other electric operating revenues generally reflect changes in regulatory assets and liabilities in accordance with the company s electric rate plan.

Electric delivery volumes in O&R s service area increased 1.9 percent for the six months ended June 30, 2010 compared with the 2009 period. After adjusting for weather variations, electric delivery volumes in O&R s service area decreased 0.2 percent for the six months ended June 30, 2010 compared with the 2009 period.

Electric operating income increased \$4 million for the six months ended June 30, 2010 compared with the 2009 period. The increase reflects primarily higher net revenues (\$17 million), offset in part by higher operations and maintenance expenses (\$10 million, reflecting primarily the collection of a surcharge for a New York State assessment (\$5 million) and the recovery of higher demand side management expenses (\$2 million)). The increased operating expenses in the first quarter of 2010 resulting from two severe winter storms were deferred as a regulatory asset and did not affect electric operating income. See Regulatory Assets and Liabilities in Note B to the Second Quarter Financial Statements.

#### Gas

O&R s results of gas operations for the six months ended June 30, 2010 compared with the 2009 period are as follows:

	Six Mon	Six Months Ended		
	June 30,	June 30,		
(Millions of Dollars)	2010	2009	Var	iation
Operating revenues	\$ 125	\$ 145	\$	(20)
Gas purchased for resale	58	85		(27)
Net revenues	67	60		7
Operations and maintenance	33	27		6
Depreciation and amortization	6	6		
Taxes, other than income taxes	7	7		
Gas operating income	\$ 21	<b>\$ 20</b>	\$	1

O&R s gas sales and deliveries, excluding off-system sales, for the six months ended June 30, 2010 compared with the 2009 period were:

	Thousands of dths Delivered			Revenues in Millions Six Months					
	Six Mont	hs Ended			En	ided			
	June 30,	June 30,		Percent	June 30,	June 30,		Percent	
Description	2010	2009	Variation	Variation	2010	2009	Variation	Variation	
Residential	4,357	4,922	(565)	(11.5)%	\$ 65	\$ 84	\$ (19)	(22.6)%	
General	864	1,085	(221)	(20.4)	12	18	(6)	(33.3)	
Firm transportation	6,052	6,512	(460)	(7.1)	37	28	9	32.1	
Total firm sales and transportation	11,273	12,519	(1,246)	(10.0)	114	130	(16)	(12.3)	
Interruptible sales	2,467	2,460	7	0.3	7	11	(4)	(36.4)	
Generation plants	402	265	137	51.7		1	(1)	Large	
Other	476	591	(115)	(19.5)				-	
Other gas revenues					4	3	1	33.3	
Total	14,618	15,835	(1,217)	(7.7)%	\$ 125	\$ 145	\$ (20)	(13.8)%	

O&R s gas operating revenues decreased \$20 million for the six months ended June 30, 2010 compared with the 2009 period due primarily to the decrease in gas purchased for resale in 2010 (\$27 million), offset in part by the 2009 gas rate plan (\$7 million). O&R s New York gas delivery revenues are subject to a revenue decoupling mechanism, as a result of which, delivery revenues are generally not affected by changes in delivery volumes from levels assumed when rates were approved.

Sales and transportation volumes for firm customers decreased 10.0 percent for the six months ended June 30, 2010 compared with the 2009 period. After adjusting for weather and other variations, total firm

sales and transportation volumes decreased 0.3 percent for the six months ended June 30, 2010 compared with the 2009 period. O&R s New York revenues from gas sales are subject to a weather normalization clause that moderates, but does not eliminate, the effect of weather-related changes on net income.

Gas operating income increased \$1 million for the six months ended June 30, 2010 compared with the 2009 period. The increase reflects primarily higher net revenues (\$7 million), offset by higher operations and maintenance costs (\$6 million, due primarily to the collection of a surcharge for a New York State assessment (\$5 million)).

### **Competitive Energy Businesses**

The competitive energy businesses earnings increased \$30 million for the six months ended June 30, 2010 compared with the 2009 period due primarily to higher net mark-to-market gains and higher electric retail margins in the 2010 period compared with the 2009 period.

Operating revenues increased \$39 million for the six months ended June 30, 2010 compared with the 2009 period due primarily to increased electric retail revenues and changes in the net mark-to-market effects, offset in part by decreased electric wholesale revenues. Electric retail revenues increased \$113 million due to higher sales volume (\$158 million), offset by lower per unit prices (\$45 million). Gross margins on electric retail revenues increased significantly due primarily to the sale of higher margin contracts, lower costs and higher volumes. Net mark-to-market gains increased \$27 million for the six months ended June 30, 2010 compared with the 2009 period, of which \$27 million in gains are reflected in revenues. Electric wholesale revenues decreased \$93 million for the six months ended June 30, 2010 compared with the 2009 period, due to lower sales volumes (\$65 million) and unit prices (\$28 million). Other revenues decreased \$9 million for the six months ended June 30, 2010 compared with the 2009 period due to lower sales volumes (\$65 million) and unit prices (\$28 million). Other revenues decreased \$9 million for the six months ended June 30, 2010 compared with the 2009 period due primarily to lower sales of energy efficiency services.

Operating expenses decreased \$12 million for the six months ended June 30, 2010 compared with the 2009 period due primarily to decreased purchased power costs (\$15 million), partially offset by higher taxes other than income tax (\$3 million).

#### Item 3: Quantitative and Qualitative Disclosures about Market Risk

For information about the Companies primary market risks associated with activities in derivative financial instruments, other financial instruments and derivative commodity instruments, see Financial and Commodity Market Risks, in Part 1, Item 2 of this report, which information is incorporated herein by reference. Also, see Item 7A of the Form 10-K.

### **Item 4: Controls and Procedures**

The Companies maintain disclosure controls and procedures designed to provide reasonable assurance that the information required to be disclosed in the reports that they submit to the Securities and Exchange Commission (SEC) is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to the issuer s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. For each of the Companies, its management, with the participation of its principal executive officer and principal financial officer, has evaluated its disclosure controls and procedures as of the end of the period covered by this report and, based on such evaluation, has concluded that the controls and procedures are effective to provide such reasonable assurance. Reasonable assurance is not absolute assurance, however, and there can be no assurance that any design of controls or procedures would be effective under all potential future conditions, regardless of how remote.

There was no change in the Companies internal control over financial reporting that occurred during the Companies most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Companies internal control over financial reporting.

## **Part II Other Information**

### **Item 1: Legal Proceedings**

CECONY

#### Superfund

For information about CECONY s Superfund sites,, see Environmental Matters CECONY Superfund in Item 1 of the Form 10-K and in Part II, Item 1 of the First Quarter Form 10-Q and Note G to the financial statements in Part I, Item 1 of this report (which information is incorporated herein by reference).

### Permit Non-Compliance and Pollution Discharges

In July 2010, CECONY entered into a consent order in connection with discharges at the company s Dunwoodie electric substation. For additional information about the company s permit non-compliance and pollution discharges, see Permit Non-Compliance and Pollution Discharges in Part II, Item 1 of the First Quarter Form 10-Q and in Note H to the financial statements in Item 8 of the Form 10-K and Note H to the financial statements in Part I, Item 1 of this report (which information is incorporated herein by reference).

#### Item 1A: Risk Factors

There were no material changes in the Companies risk factors compared to those disclosed in Item 1A of the Form 10-K.
