NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for fiscal year end financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. For further information, refer to the financial statements and related footnotes included in our Form 10-K (Commission File No. 1-11084) filed with the Securities and Exchange Commission.

Due to the seasonality of our business, results for any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year. In addition, quarterly results of operations depend significantly upon the timing and amount of sales and costs associated with the opening of new stores.

We operate as a single business unit.

2. Debt

Long-term debt consists of the following:

Maturing	Weighted Average Effective Rate	July 31, 2010	January 30, 2010	August 1, 2009
(Dollars in Millions)				
Non-callable and unsecured senior debt:				
March 2011	6.32%	\$ 300	\$300	\$ 300
October 2011	7.41%	100	100	100
2017	6.31%	650	650	650
2029	7.36%	200	200	200
2033	6.05%	300	300	300
2037	6.89%	350	350	350
Total senior debt	6.55%	1,900	1,900	1,900
Capital lease obligations		191	174	176
Unamortized debt discount		(6)	(6)	(7)
Less current portion		(319)	(16)	(16)
Long-term debt and capital leases		\$ 1,766	\$ 2,052	\$ 2,053

Based on quoted market prices (Level 1 per ASC No. 820, Fair Value Measurements and Disclosures), the estimated fair value of our senior debt was approximately \$2.1 billion at July 31, 2010.

KOHL S CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

3. Share-Based Compensation

We grant share-based compensation, including options to purchase shares of our common stock and nonvested stock, pursuant to various plans. Annual grants of stock options and nonvested stock are generally made to eligible employees in the first quarter of the fiscal year. Grants to newly-hired and promoted employees and other discretionary grants are made periodically throughout the remainder of the year.

In conjunction with the March 2010 annual grant, we implemented various changes to our share-based compensation practices. Share-based compensation is no longer granted to employees below our management board. All employees who remain eligible for share-based compensation may now elect to receive their annual equity awards in the form of stock options, nonvested stock awards, or a blend of stock options and nonvested stock awards. Finally, annual grants are now based on a fixed dollar value tied to the employee's performance rating, which is intended to eliminate the expense volatility caused by changes in our stock price.

The Black-Scholes option valuation model was used to estimate the fair value of each option award during the first six months of the respective fiscal year based on the following assumptions:

	2010	2009
Volatility	33.5%	42.8%
Risk-free interest rate	2.5%	1.8%
Expected life in years	5.5	5.4
Dividend yield	0%	0%
Weighted-average fair value at grant date	\$19.41	\$17.12

The following table summarizes our stock option activity for the first six months of 2010 and 2009:

	2010		2009	
	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price
	(Shares in Thousands)			
Balance at beginning of year	19,848	\$ 52.10	19,134	\$ 53.01
Granted	546	54.97	2,785	41.65
Exercised	(969)	37.20	(92)	38.15
Forfeited/expired	(334)	55.57	(521)	56.49
Balance at end of quarter	19,091	\$ 52.88	21,306	\$ 51.50

KOHL S CORPORATION**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)**

The following table summarizes our nonvested stock activity for the first six months of 2010 and 2009:

	2010		2009	
	Shares	Weighted Average Grant Date Fair Value	Shares	Weighted Average Grant Date Fair Value
	(Shares in Thousands)			
Balance at beginning of year	883	\$ 45.44	276	\$ 54.39
Granted	462	55.45	661	41.63
Vested	(195)	47.38	(60)	60.64
Forfeited	(20)	46.47	-	-
Balance at end of quarter	1,130	\$ 49.17	877	\$ 44.35

Total share-based compensation expense was \$17 million for the three months ended July 31, 2010 and \$16 million for the three months ended August 1, 2009. Total share-based compensation expense was \$32 million for the six months ended July 31, 2010 and \$27 million for the six months ended August 1, 2009.

Total unrecognized share-based compensation expense for all share-based payment plans was \$118 million at July 31, 2010, of which approximately \$31 million is expected to be recognized in the remainder of 2010, \$37 million in 2011, \$22 million in 2012, \$18 million in 2013, \$9 million in 2014 and \$1 million in 2015. Future compensation expense may be impacted by future grants, changes in forfeiture estimates and/or actual forfeitures which differ from estimated forfeitures.

4. Long-Term Investments

As of July 31, 2010, the par value of our long-term investments was \$360 million and the estimated fair value was \$298 million. Our long-term investments consist primarily of investments in auction rate securities (ARS), which are long-term debt instruments with interest rates which originally reset through periodic short-term auctions. Since February 2008, these auctions have been unsuccessful and, therefore, the interest rate is determined by the terms of the debt security and current short-term market interest rates. Our ARS portfolio consists entirely of insured student loan backed securities. Substantially all of the principal and interest is insured by the federal government and the remainder is insured by highly-rated insurance companies. As of July 31, 2010, \$158 million of our ARS (at fair value) were rated AAA by Moody's, Standard & Poor's and/or Fitch Ratings.

We intend to hold our ARS until their fair value once again equals their par value and believe we have the ability to do so based on other sources of liquidity. Therefore, impairment charges are considered temporary and have been included in Accumulated Other Comprehensive Loss within our Condensed Consolidated Balance Sheets. In certain cases, holding the investments until recovery may mean until maturity, which ranges from 2015 to 2056. The

weighted-average maturity date is 2036.

KOHL S CORPORATION**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(Unaudited)**

The fair value for our ARS is based on third-party pricing models and is classified as a Level 3 pricing category. The Level 3 pricing category includes financial instruments that are not actively traded on a market exchange and includes situations where there is little, if any, market activity for the financial instrument. Level 3 prices are determined using significant unobservable inputs or valuation techniques.

We utilized a discounted cash flow model to estimate the current fair market value for each of the securities we owned as there was no recent activity in the secondary markets in these types of securities. This model used unique inputs for each security including discount rate, interest rate currently being paid and maturity. The discount rate was calculated using the closest match available for other insured asset backed securities. A market failure scenario was employed as recent successful auctions of these securities were very limited.

The following table presents a rollforward of our ARS, all of which are measured at fair value on a recurring basis using unobservable inputs (Level 3 per ASC No. 820, Fair Value Measurements and Disclosures):

	2010	2009
	(In Millions)	
Balance at beginning of year	\$ 320	\$ 332
Sales	(20)	(8)
Unrealized gains (losses)	(3)	1
Balance at end of quarter	\$ 297	\$ 325

5. Contingencies

We are involved in various legal matters arising in the normal course of business. In the opinion of management, the outcome of such proceedings and litigation will not have a material adverse impact on our consolidated financial statements.

6. Net Income Per Share

The calculations of the numerator and denominator for basic and diluted net income per share are summarized as follows:

	Three Months Ended		Six Months Ended	
	July 31, 2010	August 1, 2009	July 31, 2010	August 1, 2009
	(In Millions)			
Numerator - Net income	\$ 260	\$ 229	\$ 459	\$ 368

Edgar Filing: KOHLS CORPORATION - Form 10-Q

Denominator - Weighted average shares:

Basic	307	305	307	305
Impact of dilutive employee stock options (a)	1	1	1	1
Diluted	308	306	308	306

- (a) Excludes 12 million options for the three months ended July 31, 2010, 11 million options for the six months ended July 31, 2010, 18 million options for the three months ended August 1, 2009 and 19 million options for the six months ended August 1, 2009 as the impact of such options was antidilutive.

KOHL S CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

7. Subsequent Events

On August 11, 2010, we entered into a strategic alliance with Capital One, National Association (Capital One) related to our private label credit card operations. As part of this alliance, we entered into a Private Label Credit Card Program Agreement (the Program Agreement) with Capital One.

Pursuant to the Program Agreement, Capital One will offer private label credit cards to new and existing customers of Kohl s (the Program). We will continue to handle all customer service functions and will continue to be responsible for all advertising and marketing related to our credit card customers. The Program will operate in the same manner as it currently operates under our existing program agreement with Chase Bank USA, National Association (Chase). The effects of the transaction will be largely transparent to Kohl s customers.

Kohl s and Capital One will share in the net risk-adjusted revenue of the portfolio as defined by the sum of finance charges, late fees and other revenue less write-offs of uncollectible accounts. Changes in funding costs related to interest rate fluctuations will be shared similar to the revenue. Management believes that increases in funding costs will be largely offset by increases in finance charge revenues.

The initial term of the Program Agreement is seven years, which becomes effective and commences upon Capital One s acquisition from Chase of all right, title and interest in approximately 20 million proprietary Kohl s credit card accounts and the outstanding balances associated with these accounts. We or our nominee will have the option to purchase the credit card accounts and all other Program assets from Capital One upon the expiration or earlier termination of the Program Agreement.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

For purposes of the following discussion, all references to the quarter are for the 13-week fiscal periods ended July 31, 2010 and August 1, 2009 and all references to year to date are for the 26-week fiscal periods ended July 31, 2010 and August 1, 2009.

The following discussion should be read in conjunction with our Condensed Consolidated Financial Statements and the related notes included elsewhere in this report, as well as the financial and other information included in our 2009 Annual Report on Form 10-K. The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could materially differ from those discussed in these forward-looking statements. Factors that could cause or contribute to those differences include, but are not limited to, those discussed elsewhere in this report and in our 2009 Annual Report on Form 10-K (particularly in Risk Factors).

Executive Summary

We believe that consumers were slightly more confident in their spending during the second quarter of 2010, but remain focused on value and ways to make their dollars go farther. We intend to continue to be flexible in our sales and inventory planning and in our expense management in order to react to changes in consumer demand.

Total sales increased 7.7% for the quarter and 9.3% for the six months ended July 31, 2010. Comparable store sales increased 4.6% for the quarter and 5.9% year to date. An increase in the number of transactions was the primary driver of the increase in comparable store sales in both periods. E-Commerce sales increased approximately 50% and contributed approximately 100 basis points to our comparable store sales in both the quarter and year-to-date period.

Gross margin as a percent of net sales increased 31 basis points in the quarter and 38 basis points year to date. Strong inventory management, as well as successful private and exclusive brand strategies, contributed to the margin strength.

Selling, general and administrative expenses increased eight percent compared to the prior year quarter and year-to-date period due in part to investments in technology and infrastructure in our E-Commerce business.

Net income increased 13% for the quarter to \$260 million, or \$0.84 per diluted share, compared to net income of \$229 million and diluted earnings per share of \$0.75 in the second quarter of last year. Year to date, net income increased 25% to \$459 million or \$1.48 per diluted share, compared to net income of \$368 million and diluted earnings per share of \$1.20 last year.

In June, we announced the signing of a multi-year service agreement and partnership with Aldo, International, who will design and produce exclusive footwear products to be sold at Kohl's and Kohls.com under select private and exclusive brands. As part of the agreement, Aldo will be responsible for the design and production and will have a dedicated design team on the business. Kohl's will collaborate on the design process. The line is expected to launch in spring 2011.

Our strategic committees continue to focus on opportunities to drive our overall profitability. The mission of the Regional Assortment Committee is to accelerate sales growth by varying merchandise assortment, marketing and store presentation by region to reflect the lifestyle preferences and climate needs of our customers. Our focus on regional relevance resulted in year-to-date increases in both transactions per store and comparable store sales in our hot and mild markets in the Southeast and West, where we have the strongest opportunity to gain market share. The mission of the In-Store Experience Committee is to consistently deliver an improved store experience that generates loyalty and grows market share. Our overall internal customer service scores continue to increase year over year and were up 4% for the first six months of 2010.

As of July 31, 2010, we operated 1,067 stores in 49 states, compared to 1,022 stores as of August 1, 2009. Selling square footage totaled 79 million square feet at July 31, 2010 and 76 million square feet at August 1, 2009. We currently expect to open 21 additional stores in the second half of fiscal 2010. We also plan to re-open a store in Virginia which has been closed for a complete re-build since January 2010.

We completed 85 remodels this year; approximately two-thirds more than last year's remodel total of 51. Remodels remain a critical part of our long-term strategy and we believe it is extremely important to maintain our existing store base, even in this difficult environment.

During 2010, we are making significant capital investments to support our growth:

In the second quarter, we opened a second E-fulfillment center in southern California to support the significant growth in our E-Commerce business. We expect this center to be fully operational in time for the 2010 Holiday season.

We also opened a third customer operations center in July 2010. This center, which is located in Texas, will serve Kohl's charge and Kohls.com customers.

The in-store kiosk was effectively rolled-out to all stores in August. The kiosks allow customers to order items which were not available in the store and have them shipped to their home at no cost.

This Fall, we expect to test new electronic signs in up to 100 of our stores. Although it will be a significant capital investment, we expect a good return on this investment through elimination of ad set payroll hours, signage errors and paper signs, which supports our desire to be a leader in Green initiatives. Assuming a successful pilot, we would expect to continue the roll-out of electronic signs to all stores in 2011.

Our current expectations for the third and fourth quarters of fiscal 2010 compared to the comparable prior year quarters are as follows:

		Third Quarter	Fourth Quarter
Total sales	Increase	4.5% - 6.5%	4.5% - 6.5%
Comparable store sales	Increase	2% - 4%	2% - 4%
Gross margin as a percent of sales	Increase	20 - 40 bp	20 - 40 bp
SG&A	Increase	10% - 11%	3% - 4%
Earnings per diluted share		\$0.57 - \$0.63	\$1.51 - \$1.59

Edgar Filing: KOHLS CORPORATION - Form 10-Q

Based on these assumptions, we expect diluted earnings per share of \$3.57 to \$3.70 for fiscal 2010. This guidance does not reflect any additional share repurchases in fiscal 2010.

Results of Operations**Net Sales**

	2010	2009	Increase	
	(Dollars in Millions)			
	\$	\$	\$	%
Quarter	\$ 4,100	\$ 3,806	\$ 294	7.7 %
Year to date	8,135	7,445	690	9.3

New stores contributed \$119 million in net sales over the prior year quarter and \$255 million over the prior year-to-date period. Comparable store sales for the quarter, which are sales from stores (including E-Commerce sales and relocated or expanded stores) open throughout the full current and prior fiscal year periods, increased \$175 million, or 4.6%, compared to the second quarter of last year and \$435 million, or 5.9%, compared to the six months ended August 1, 2009.

Drivers of the changes in comparable stores sales were as follows:

	Quarter	Year to Date
Selling price per unit	(1.7) %	(1.7) %
Units per transaction	(2.0)	(0.9)
Average transaction value	(3.7)	(2.6)
Number of transactions	8.3	8.5
Comparable store sales	4.6 %	5.9 %
Stores	3.6 %	4.9 %
E-Commerce	49.4	49.8
Total Kohl's	4.6 %	5.9 %

From a line of business perspective, Footwear reported the strongest comparable store sales for both the quarter and year-to-date periods with low double-digit comparable store sales increases. Men's also outperformed the company average in both periods with strength in casual sportswear and basics. Home, Women's and Accessories all reported low to mid single-digit comparable store sales increases in both the quarter and year to date. The Children's business underperformed the company, posting a negative low single-digit comparable store sales decrease for the quarter and a low single-digit comparable store sales increase year to date.

The Southeast region continued its first quarter trends and, again, reported the strongest comparable store sales for the second quarter. The Northeast also outperformed the company for the quarter. The Midwest, South Central, MidAtlantic and West regions posted positive comparable store sales for the quarter, but underperformed the company average. Year to date, the Southeast region was the strongest performer with high single-digit comparable store sales increases. All other regions posted mid single-digit comparable store sales increases.

Private and exclusive brands as a percentage of total sales increased approximately 300 basis points for the quarter to 49.1% of sales. Our three largest private brands - Apt. 9, Croft & Barrow and Sonoma - combined for a 20% increase in sales. Jumping Beans sales increased almost twice this amount. Strong exclusive brand performers for the quarter included ELLE, FILA Sport, Food Network, and Simply Vera Vera Wang, which all achieved sales increases of 30

percent or more.

E-Commerce sales increased approximately 50% in both periods to \$126 million for the quarter and \$253 million year to date. The sales growth is primarily the result of increased customer traffic to the web site, increased style and size selections offered on-line compared with our in-store selection, and the expansion of product categories not available in our stores.

Gross Margin

	2010	2009	Increase	
			\$	%
	(Dollars in Millions)			
Quarter	\$ 1,651	\$ 1,520	\$ 131	9 %
Year to date	3,187	2,889	298	10
Gross margin as a percent of sales				
Quarter	40.3 %	40.0 %		
Year to date	39.2	38.8		

Gross margin includes the total cost of products sold, including product development costs, net of vendor payments other than reimbursement of specific, incremental and identifiable costs; inventory shrink; markdowns; freight expenses associated with moving merchandise from our vendors to our distribution centers; shipping and handling expenses of E-Commerce sales; and terms cash discount. Our gross margin may not be comparable with that of other retailers because we include distribution center costs in selling, general and administrative expenses while other retailers may include these expenses in cost of merchandise sold.

Gross margin as a percent of net sales was 40.3% for the second quarter of 2010, an increase of 31 basis points compared to 40.0% for the second quarter of 2009. For the year-to-date period, gross margin as a percent of sales was 39.2% in 2010 compared to 38.8% in 2009. Strong inventory management as well as increased penetration of private and exclusive brands contributed to the margin strength. Total inventory increased eight percent compared to the prior year, but inventory per store increased three percent, less than our comparable store sales increase. At the end of the second quarter, clearance inventory was slightly higher than last year, but constitutes less than five percent of our total units on hand. Sales of private and exclusive brands reached 49.1% of net sales for the quarter, an increase of more than 300 basis points over the prior year quarter. Year to date, private and exclusive brand sales were 48.2% of net sales, an increase of 284 basis points over last year. Additionally, our ongoing markdown and size optimization initiatives continue to develop and have favorable impacts on our gross margin percentage.

Operating Expenses

	2010	2009	Increase	
			\$	%
(Dollars in Millions)				
SG&A				
Quarter	\$ 1,047	\$ 966	\$ 81	8 %
Year to date	2,077	1,927	150	8
S,G&A as a percent of net sales				
Quarter	25.5 %	25.4 %		
Year to date	25.5	25.9		

Selling, general and administrative expenses (SG&A) include compensation and benefit costs (including stores, headquarters, buying and merchandising and distribution centers); occupancy and operating costs of our retail, distribution and corporate facilities; freight expenses associated with moving merchandise from our distribution centers to our retail stores and among distribution and retail facilities; advertising expenses, offset by vendor payments for reimbursement of specific, incremental and identifiable costs; net revenues from our Kohl's credit card operations; and other administrative costs. We do not include depreciation and amortization and preopening expenses in SG&A. The classification of these expenses varies across the retail industry.

SG&A increased eight percent in both the quarter and year-to-date periods. SG&A as a percentage of net sales increased, or deleveraged for the quarter, primarily due to investments in technology and infrastructure related to our E-Commerce business, but decreased, or leveraged, year to date. Store payroll and advertising expenses leveraged in both the quarter and year to date. Credit expenses did not leverage in either period due to reductions in late fee revenue. Costs associated with legislative changes effective in the first quarter of 2010 also had a negative impact on credit expenses for the year-to-date period.

	2010	2009	Increase	
			\$	%
(Dollars in Millions)				
Depreciation and amortization				
Quarter	\$ 153	\$ 144	\$ 9	6 %
Year to date	304	285	19	7

The increases in depreciation and amortization are primarily attributable to the addition of new stores and remodels.

	2010	2009	Decrease	
			\$	%
(Dollars in Millions)				
Preopening				
Quarter	\$ 2	\$ 11	\$ (9)	(82) %
Year to date	6	26	(20)	(77)

Preopening expenses decreased due to fewer new store openings during the six months ended July 31, 2010 as compared to August 1, 2009. We plan to open 30 new stores in fiscal 2010, compared to 56 in fiscal 2009. Additionally, most of the stores opened in September 2009 were ground leased stores which had higher rental expenses.

Operating Income

	2010	2009	Increase	
	(Dollars in Millions)			
	\$	\$	\$	%
Quarter	449	399	50	13 %
Year to date	800	651	149	23

Operating income as a percent of sales

Quarter	10.9 %	10.5 %
Year to date	9.8	8.7

As a result of the above factors, operating income as a percent of net sales increased 44 basis points to 10.9% of net sales for the three months ended July 31, 2010, compared to 10.5% of net sales for the three months ended August 1, 2009. For the year-to-date period, operating income as a percent of net sales increased 116 basis points to 9.8% of net sales for 2010 compared to 8.7% of net sales for 2009.

Interest Expense, Net

	2010	2009	Change	
	(Dollars in Millions)			
	\$	\$	\$	%
Quarter	31	31	-	- %
Year to date	62	62	-	-

Net interest expense in both the quarter and year-to-date periods was comparable to the prior year periods as interest income from higher average investments was more than offset by lower interest rates.

Provision for Income Taxes

	2010	2009	Increase	
	(Dollars in Millions)			
	\$	\$	\$	%
Quarter	158	139	19	14 %
Year to date	279	221	58	26

Our effective tax rate was 37.9% for both the three and six months ended July 31, 2010 compared to 37.6% for both the three and six months ended August 1, 2009.

Seasonality & Inflation

Our business, like that of most retailers, is subject to seasonal influences, with the major portion of sales and income typically realized during the second half of each fiscal year, which includes the back-to-school and holiday seasons. Approximately 15% of annual sales typically occur during the back-to-school season and 30% during the holiday season. Because of the seasonality of our business, results for any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year. In addition, quarterly results of operations depend significantly upon the timing and amount of sales and costs associated with the opening of new stores.

Although we expect that our operations will be influenced by general economic conditions, including rising food, fuel and energy prices, we do not believe that inflation has had a material effect on our results of operations. However, there can be no assurance that our business will not be affected by such factors in the future.

We are, however, beginning to experience inflation in our merchandise and transportation costs. We do not expect such costs to be significant in the third and fourth quarters of 2010, but we do expect to see low to mid single-digit increases in the first six months of 2011. In our private and exclusive brands, where we have more control over the production and manufacture of the merchandise, we have historically been able to minimize inflationary pressures through measures such as committing earlier for fabric and shifting production to lower cost markets. Our third-party brand vendors are also facing the same inflationary pressures. We will continue to work with these vendors, as possible, to minimize the impact of inflation on our merchandise costs and our selling prices.

Financial Condition and Liquidity

Our primary ongoing cash requirements are for capital expenditures in connection with our expansion and remodeling programs and seasonal and new store inventory purchases. Our primary source of funds for our business activities are cash flow from operations, short-term trade credit and our lines of credit.

As of July 31, 2010, we had cash and cash equivalents of \$2.5 billion. As discussed in Footnote 7, Subsequent Events, on August 11, 2010, we entered into a strategic alliance with Capital One, National Association (Capital One) related to our proprietary credit card accounts. Once the receivables from our credit card accounts are transitioned to Capital One, we will consider various capital planning options, which could include the resumption of share repurchases, the initiation of a dividend, or both.

	2010	2009	Increase (Decrease) in Cash	
			\$	%
	(Dollars in Millions)			
Net cash provided by (used in):				
Operating activities	\$ 628	\$ 1,001	\$ (373)	(37) %
Investing activities	(399)	(329)	(70)	(21)
Financing activities	22	(5)	27	100+

Operating Activities. Despite the increase in net income, cash provided by operations in 2010 was \$628 million, 37% lower than the prior year. The decrease is primarily a result of higher incentive compensation payments in the first quarter of 2010, inventory reductions in 2009 and slower accounts payable growth in 2010.

Merchandise inventories per store were \$2.75 million at July 31, 2010 and \$2.67 million at August 1, 2009. This three percent increase in inventories per store reflects continued inventory management, including conservative sales and receipts planning.

Accounts payable as a percent of inventory was 45.9% at July 31, 2010, compared to 42.3% at August 1, 2009. The increase is primarily due to vendor finance initiatives. We have rolled out a receivable financing program whereby a financial institution provides our vendors with financing, at a rate which is below what the vendors could normally obtain on their own. We offer this program to vendors in exchange for extended payment terms. We do not incur any costs or expenses or forfeit any portion of our receivables in connection with this program.

Investing Activities. Net cash used in investing activities increased \$70 million, primarily due to higher capital spending as a result of increased remodels and the opening of a second fulfillment center to support our E-Commerce business. These increases were partially offset by reductions in capital spending for new stores.

As of July 31, 2010, we had investments in auction rate securities (ARS) with a par value of \$359 million and an estimated fair value of \$297 million. To date, substantially all ARS sales and calls have been at par and we have collected all interest payable on outstanding ARS when due and expect to continue to do so in the future. At this time, we have no reason to believe that any of the underlying issuers of our ARS or their insurers are presently at risk or that the underlying credit quality of the assets backing our ARS has been impacted by the reduced liquidity of these investments. While the auction failures, which began in February 2008, limit our ability to liquidate these investments, we do not believe that these failures will have any significant impact on our ability to fund ongoing operations and growth initiatives.

Financing Activities. Financing activities generated cash of \$22 million in 2010 and used cash of \$5 million 2009. The increase is primarily due to increased stock option exercises in 2010.

We have various facilities upon which we may draw funds, including a \$900 million senior unsecured revolving facility and two demand notes with aggregate availability of \$50 million. The \$900 million revolving facility expires in October 2011. The co-leads of this facility, The Bank of New York Mellon and Bank of America, have each committed \$100 million. The remaining 12 lenders have each committed between \$30 and \$130 million. There were no draws on these facilities during 2010 or 2009.

We have no debt maturing until 2011. We expect to use cash and cash equivalents on hand and funds from operations to repay both the \$300 million of long-term debt which is due in March 2011 and the \$100 million of long-term debt which is due in October 2011. Alternatively, if economic conditions and financing terms are favorable, we may choose to refinance the \$400 million in 2011.

Key Financial Ratios. Key financial ratios that provide certain measures of our liquidity are as follows:

	July 31, 2010	January 30, 2010	August 1, 2009
Working capital (In Millions)	\$ 3,077	\$ 3,095	\$ 2,179
Current ratio	2.14:1	2.29:1	2.02:1
Debt/capitalization	19.9%	20.8%	22.5%

The increase in working capital and the current ratio as of July 31, 2010 compared to August 1, 2009 was primarily due to higher cash and cash equivalents, partially offset by the reclassification of \$300 million of long-term debt due in March 2011 to current liabilities. The decrease in the debt/capitalization ratio reflects higher capitalization, primarily due to earnings.

Debt Covenant Compliance. As of July 31, 2010, we were in compliance with all debt covenants and expect to remain in compliance during fiscal 2010.

	(Dollars in Millions)
Total Debt per Balance Sheet	\$ 2,085
Other Debt	-
Subtotal	2,085
Rent x 8	4,074
A Included Indebtedness	\$6,159
Net Worth	\$ 8,377
Investments (accounted for under equity method)	-
Subtotal	8,377
Included Indebtedness	6,159
B Capitalization	\$14,536
Leverage Ratio (A/B)	0.42
Maximum permitted Leverage Ratio	0.70

Free Cash Flow. We generated free cash flow of \$207 million in 2010 compared to \$665 million in 2009. The decrease in free cash flow is primarily a result of higher incentive compensation payments in the first quarter of 2010; inventory reductions in 2009; slower accounts payable growth in 2010; and increased capital expenditures. Free cash flow is a non-GAAP financial measure which we define as net cash provided by operating activities less capital expenditures. Free cash flow should be evaluated in addition to, and not considered a substitute for, other financial measures such as net income and cash flow provided by operations. We believe that free cash flow represents our ability to generate additional cash flow from our business operations.

The following table reconciles net cash provided by operating activities, a GAAP measure, to free cash flow, a non-GAAP measure.

	2010	2009
	(In Millions)	
Net cash provided by operating activities	\$ 628	\$ 1,001
Acquisition of property and equipment and favorable lease rights	(421)	(336)
Free cash flow	\$ 207	\$ 665

Contractual Obligations

There have been no significant changes in the contractual obligations disclosed in our Annual Report on Form 10-K for the year ended January 30, 2010.

Off-Balance Sheet Arrangements

We have not provided any financial guarantees as of July 31, 2010. We have not created, and are not party to, any special-purpose or off-balance sheet entities for the purpose of raising capital, incurring debt or operating our business. We do not have any arrangements or relationships with entities that are not consolidated into our financial statements that are reasonably likely to materially affect our liquidity or the availability of capital resources.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions that affect reported amounts. Management has discussed the development, selection and disclosure of its estimates and assumptions with the Audit Committee of our Board of Directors. There have been no significant changes in the critical accounting policies and estimates discussed in our Annual Report on Form 10-K for the year ended January 30, 2010.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no significant changes in the market risks described in our Annual Report on Form 10-K for the year ended January 30, 2010.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (the Evaluation) at a reasonable assurance level as of the last day of the period covered by this Report.

Based upon the Evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective at the reasonable assurance level. Disclosure controls and procedures are defined by Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the Exchange Act) as controls and other procedures that are designed to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified by the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures.

It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving our stated goals under all potential future conditions, regardless of how remote.

(b) *Changes in Internal Control Over Financial Reporting*

During the last fiscal quarter, there were no changes in our internal control over financial reporting that have materially affected or are reasonably likely to materially affect such controls, including any corrective actions with regard to significant deficiencies and material weaknesses.

PART II. OTHER INFORMATION

Item 1A. Risk Factors

In March 2010, the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 were signed into law in the U.S. This legislation expands health care coverage to many uninsured individuals and expands coverage to those already insured. The changes required by this legislation could cause us to incur additional health care and other costs, but we do not expect any material short-term impact on our financial results as a result of the legislation and are currently assessing the extent of any long-term impact.

There have been no other significant changes in our risk factors from those described in our Annual Report on Form 10-K for the year ended January 30, 2010.

Forward-looking Statements

This report contains statements that may constitute forward-looking statements within the meaning of the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Those statements relate to developments, results, conditions or other events we expect or anticipate will occur in the future. Words such as believes, anticipates, plans, expects and similar expressions are intended to identify forward-looking statements. Without limiting the foregoing, these statements may relate to future outlook, revenues, earnings, store openings, planned capital expenditures, market conditions, new strategies and the competitive environment. Forward-looking statements are based on our management's then current views and assumptions and, as a result, are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected. Any such forward-looking statements are qualified by the important risk factors, described in Item 1A of our Annual Report on Form 10-K filed with the SEC on March 19, 2010, that could cause actual results to differ materially from those predicted by the forward-looking statements. Forward-looking statements relate to the date initially made, and we undertake no obligation to update them. An investment in our common stock or other securities carries certain risks. Investors should carefully consider the risks as stated in our Form 10-K and other risks which may be disclosed from time to time in our filings with the SEC before investing in our securities.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

We did not sell any securities during the quarter ended July 31, 2010, which were not registered under the Securities Act.

In September 2007, our board of Directors authorized a \$2.5 billion share repurchase program which is intended to return excess capital to our shareholders. As a result of the current economic environment, we have not purchased any shares pursuant to this program since July 2008. The program does not have a specified termination date.

The following table contains information for shares acquired from employees in lieu of amounts required to satisfy minimum tax withholding requirements upon the vesting of the employees' restricted stock during the three fiscal months ended July 31, 2010:

Period		Total Number of Shares Purchased During Period	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
Period		Period	Share	Programs	or Programs
					(In millions)
