ANNOUNCEMENT OF FINANCIAL RESULTS

PANASONIC REPORTS THIRD-QUARTER AND NINE-MONTH RESULTS

- Favorable sales led by double-digit growth in emerging countries -

Osaka, Japan, February 2, 2011 Panasonic Corporation (Panasonic [NYSE: PC]) today reported its consolidated financial results for the third quarter and nine months ended December 31, 2010, of the current fiscal year ending March 31, 2011 (fiscal 2011).

Consolidated Third-quarter Results

Compared to the same period a year ago, consolidated group sales for the third quarter increased 21% to 2,285.5 billion yen, from 1,886.6 billion yen. Of the consolidated group total, domestic sales amounted to 1,200.6 billion yen, up 19% from 1,004.9 billion yen and overseas sales increased to 1,084.9 billion yen, up 23% from 881.7 billion yen.

During the third quarter, although the bleak employment scenario continued to plague developed countries, the global economy has recovered gradually, due mainly to economic stimulus plans in several countries and the sustained high-growth in emerging countries.

In such business conditions, Panasonic group launched a new midterm management plan called Green Transformation 2012 (GT12) in the beginning of fiscal 2011. In GT12, Panasonic aims to integrate environmental protection and business growth, and to become Panasonic Group filled with significant growth potential in fiscal 2013.

Panasonic resolved at the Board of Directors meeting held in July 2010, to pursue a plan to make Panasonic Electric Works Co., Ltd. (PEW) and SANYO Electric Co., Ltd. (SANYO) wholly-owned subsidiaries. After completing the tender offer for the shares of common stock of both companies, share exchange agreements were executed between Panasonic and PEW, and between Panasonic and SANYO, in December 2010. The acquisitions are scheduled to be completed through share exchange in April 2011, subject to approval of the share exchange agreements at extraordinary general meetings of PEW and SANYO in March 2011. The company is in the process of finalizing its growth strategies and reorganizing business structure in order to maximize synergy for the entire Panasonic Group. Panasonic will accelerate this process in order to achieve its GT12 targets.

Regarding earnings, compared to the same period a year ago, operating profit¹ for the third quarter was 95.3 billion yen, down from 101.0 billion yen. This result was due mainly to price decline in products. The pre-tax income was 82.7 billion yen, up from 81.1 billion yen. Accordingly, net income attributable to Panasonic Corporation totaled 40.0 billion yen, up from 32.3 billion yen.

Consolidated Nine-month Results

Consolidated group sales for nine months ended December 31, 2010 increased 27% to 6,653.4 billion yen, compared with 5,219.9 billion yen a year ago. Domestic sales amounted to 3,390.1 billion yen, up 22% from 2,780.9 billion yen a year ago, while overseas sales increased 34% to 3,263.3 billion yen, up from 2,439.0 billion yen a year ago.

The operating profit, pre-tax income and net income attributable to Panasonic Corporation improved significantly due mainly to strong sales, and streamlining of material costs and other general expenses, offsetting severe price competition, appreciation of the yen and rising material costs. The company's operating profit for the nine months increased to 264.3 billion yen, from 129.9 billion yen a year ago. Pre-tax income increased to 227.3 billion yen, from 54.6 billion yen and net income attributable to Panasonic Corporation turned to an income of 114.7 billion yen, up from a loss of 14.6 billion yen.

Consolidated Nine-month Sales Breakdown by Business Segment

The company's nine-month consolidated sales and operating profit by business segment, compared with the amounts a year ago, are summarized as follows:

Digital AVC Networks

Sales in this segment increased to 2,585.4 billion yen, up 0.3% from 2,578.2 billion yen a year ago. Despite a decline in sales of mobile phones and digital cameras, this result was due mainly to favorable sales of Blu-ray Disc recorders and flat-panel TVs. Operating profit increased 91% to 101.2 billion yen, from 52.9 billion yen, mainly as a result of fixed cost reduction and comprehensive streamlining efforts, offsetting the impact of the yen appreciation.

Home Appliances²

Sales in this segment increased 8% to 974.2 billion yen, compared with 900.5 billion yen a year ago, due mainly to favorable sales of air conditioners, refrigerators and compressors. Operating profit increased 41% to 81.9 billion yen, from 58.0 billion yen, due mainly to strong sales and fixed cost reduction.

PEW and PanaHome

Sales in this segment increased 8% to 1,280.5 billion yen, from 1,184.4 billion yen a year ago. Regarding Panasonic Electric Works Co., Ltd. and its subsidiaries, in addition to improved sales mainly in home appliances and devices such as electronic materials and automation controls, sales recovery in housing/building related business such as electrical construction materials also contributed to overall sales increase. For PanaHome Corporation and its subsidiaries, the recovery in Japanese housing market conditions and stable sales of housing construction such as detached housing and rental apartment housing led to the increase in overall sales. Operating profit for this segment improved 149% to 54.0 billion yen, from 21.6 billion yen, as strong sales covered the impact of rising material costs.

² The company restructured the motor business on April 1, 2010. Accordingly, segment information for Home Appliances, and Components and Devices in fiscal 2010 are reclassified to conform to the presentation for fiscal 2011.

Table of Contents

- 4 -

Components and Devices²

Sales in this segment increased to 713.8 billion yen, up 1% from 703.7 billion yen a year ago, due mainly to steady sales in general electronic components, despite a decline in sales of batteries and semiconductors. Operating profit improved 28% to 29.1 billion yen, from 22.9 billion yen a year ago. This was due mainly to fixed cost reduction and comprehensive streamlining efforts.

SANYO

Sales in this segment totaled 1,223.0 billion yen. The sales of solar cells, car-related equipment and general electronic components were favorable, while the sales of digital cameras and rechargeable batteries were sluggish due to weak demand. Operating profit resulted in 0.4 billion yen, after incurring the expenses such as the amortization of intangible assets recorded at acquisition.

Other

Sales in this segment significantly increased 21% to 822.9 billion yen, from 677.7 billion yen a year ago, due mainly to robust sales in factory automation equipment. Operating profit also improved 326% to 35.2 billion yen, from 8.3 billion yen due to increased sales.

Consolidated Financial Condition

Net cash provided by operating activities for nine months ended December 31, 2010 amounted to 374.3 billion yen. This was attributable primarily to net income before elimination of depreciation expense. Net cash used in investing activities amounted to 140.4 billion yen. This was due mainly to capital expenditures on manufacturing facilities such as flat-panel TVs and batteries, which are the company's priority business areas, offsetting proceeds from disposition of investments and advances, and proceeds from disposals of property, plant and equipment. Though there were short-term bonds issued by the company and an overseas subsidiary, net cash used in financing activities was 155.2 billion yen, due mainly to expenditures related to purchasing of noncontrolling interests of the company's subsidiaries, including the tender offer for PEW and SANYO. Taking into consideration the exchange rate fluctuations, cash and cash equivalents totaled 1,126.0 billion yen as of December 31, 2010, an increase of 16.0 billion yen, compared with the end of the last fiscal year (March 31, 2010).

Table of Contents

- 5 -

The company's consolidated total assets as of December 31, 2010 decreased 219.7 billion yen to 8,138.4 billion yen, from the end of fiscal 2010. This was due mainly to appreciation of the yen and decrease in investments and advances. Panasonic Corporation shareholders' equity decreased 151.5 billion yen, compared with the end of fiscal 2010, to 2,640.9 billion yen as of December 31, 2010. This was mainly due to deterioration in accumulated other comprehensive income (loss) influenced by appreciation of the yen and decrease in capital surplus owing to acquisition of noncontrolling interests of the company's subsidiaries. Noncontrolling interests decreased 501.3 billion yen, from the end of fiscal 2010, to 386.0 billion yen due mainly to the tender offer.

Outlook for Fiscal 2011
