The Company announces its unaudited revenue for May 2011

Date of events: 2011/06/10

Contents:

1. Date of occurrence of the event: 2011/06/10

2. Company name: Chunghwa Telecom Co., Ltd.

3. Relationship to the Company (please enter head office or affiliate company): Head office

4. Reciprocal shareholding ratios: N/A

5. Cause of occurrence: Chunghwa Telecom today announced a 2.3% year-over-year increase in total revenue to NT\$15.58 billion in May 2011. Operating income decreased by 3.3% year-over-year to NT\$4.50 billion, net income increased by 12.6% year-over-year to NT\$4.32 billion, and EPS rose by 40.0% to NT\$0.56. The revenue increase was primarily attributable to the rise in local fixed line revenue resulting from the shift of the pricing right of a fixed-to-mobile call from mobile operators to fixed network operators, as well as to the growth in mobile value added services and broadband access service, which offset the impact of the new wave price reduction starting from April 2011 and the pricing right shift on mobile revenue. The decrease in operating income was primarily due to the rise in interconnection and transition fees resulting from the pricing right shift, as well as the higher maintenance fee for promoting mobile internet service and migrating broadband customers to higher speed services. The increase in net income was primarily due to the completion of the land development project by subsidiary Light Era and the accompanying recognition of a proportion of sales as revenue, which resulted in a rise in long-term equity investments under the equity method and a net gain on disposal of property. The reduction in the corporate income tax rate effective in June 2010 from 20% to 17% also contributed to the rise in net income. The increase in EPS was mainly due to the rise in net income and the capital reduction in January 2011, which decreased the number of weighted average outstanding shares.
