DIEBOLD, INCORPORATED AND SUBSIDIARIES

FORM 10-Q as of September 30, 2011

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(dollars in thousands, except per share amounts)

NOTE 1: CONSOLIDATED FINANCIAL STATEMENTS

The accompanying unaudited condensed consolidated financial statements of Diebold, Incorporated and its subsidiaries (collectively, the Company) have been prepared in accordance with the instructions to Form 10-Q and therefore do not include all information and footnotes necessary for a fair presentation of financial position, results of operations and cash flows in conformity with U.S. generally accepted accounting principles (GAAP); however, such information reflects all adjustments (consisting solely of normal recurring adjustments) which are, in the opinion of management, necessary for a fair statement of the results for the interim periods.

The condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes contained in the Company's annual report on Form 10-K for the year ended December 31, 2010. In addition, some of the Company's statements in this quarterly report on Form 10-Q may involve risks and uncertainties that could significantly impact expected future results. The results of operations for the three and nine months ended September 30, 2011 are not necessarily indicative of results to be expected for the full year.

The Company has reclassified the presentation of certain prior-year information to conform to the current presentation.

During the third quarter of 2010, the Company recorded an out-of-period adjustment to defer revenue previously recognized that was not in accordance with GAAP. The immaterial out-of-period adjustment was recorded within the Company's operations in China, included in the Diebold International (DI) reporting segment. The adjustment decreased revenue related to multiple-deliverable contracts that included revenue which was contingent upon the installation of the equipment. The out-of-period adjustment for the three and nine months ended September 30, 2010 represents a decrease in revenue of \$18,688 and \$19,822, respectively and a decrease to operating profit of \$5,270 and \$5,753, respectively.

RECENTLY ISSUED ACCOUNTING GUIDANCE

In September 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-08 (ASU 2011-08), *Testing Goodwill for Impairment*, to allow entities to use a qualitative approach to test goodwill for impairment. ASU 2011-08 permits an entity to first perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying value. If it is concluded that this is the case, it is necessary to perform the currently prescribed two-step goodwill impairment test. Otherwise, the two-step goodwill impairment test is not required. ASU 2011-08 is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. Early adoption is permitted. The Company expects to early adopt ASU 2011-08 in the fourth quarter of 2011 and does not anticipate the adoption to have a material impact on its financial statements.

In June 2011, the FASB issued ASU 2011-05 (ASU 2011-05), *Presentation of Comprehensive Income*, that eliminates the option to present components of other comprehensive income (OCI) as part of the statement of changes in stockholders' equity. The amendments in this standard require that all non-owner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. Under either method, adjustments must be displayed for items that are reclassified from OCI to net income, in both net income and OCI. The standard does not change the current option for presenting components of OCI gross or net of the effect of income taxes, provided that such tax effects are presented in the statement in which OCI is presented or disclosed in the notes to the financial statements. Additionally, the standard does not affect the calculation or reporting of earnings per share. ASU 2011-05 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011 and is to be applied retrospectively, with early adoption permitted. The adoption of this update will not have a material impact on the financial statements of the Company. The Company is in the process of determining its method of presentation.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRSs). Some of

Edgar Filing: DIEBOLD INC - Form 10-Q

the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The Company is currently evaluating the effect that the provisions of ASU 2011-04 will have on the disclosures within the financial statements of the Company.

NOTE 2: EARNINGS PER SHARE

Basic earnings per share is based on the weighted-average number of common shares outstanding. Diluted earnings per share is based on the weighted-average number of common shares outstanding and all potential dilutive common shares. Under the two-class method of computing earnings per share, non-vested share-based payment awards that contain rights to receive non-forfeitable dividends are considered participating securities. The Company's participating securities include restricted stock units (RSUs), deferred shares and shares that were vested, but deferred by the employee. The Company calculated basic and diluted earnings per share under both the treasury stock method and the two-class method. For the three and nine months ended September 30, 2011 and 2010, there was no impact in the per share amounts calculated under the two methods; therefore, the treasury stock method is disclosed.

The following represents amounts used in computing earnings per share and the effect on the weighted-average number of shares of dilutive common stock:

The Company's share-based compensation payments to employees are recognized in the statement of income based on their grant-date fair values during the period in which the employee is required to provide services in exchange for the award. Share-based compensation is recognized as a component of selling and administrative expense. Total share-based compensation expense for the three and nine months ended September 30, 2011 was \$3,889 and \$10,506, respectively. Total share-based compensation expense for the three and nine months ended September 30, 2010

was \$3,155 and \$9,520, respectively.

The effective tax rate on continuing operations for the three months ended September 30, 2011 was 20.8 percent compared to 25.0 percent for the same period of 2010. The 4.2 percentage point decrease was mainly due to various discrete items in the periods, including adjustments from an IRS exam effectively settled in September 2011.

The effective tax rate on continuing operations for the nine months ended September 30, 2011 was 25.8 percent compared to 27.4 percent for the same period of 2010. The 1.6 percentage point decrease was mainly due to various discrete items in the periods, partially offset by operating losses in certain Europe, Middle East and Africa (EMEA) jurisdictions for which no tax benefit was recognized.

At December 31, 2010, the Company had a valuation allowance of \$105,175. The Company continues to evaluate positive and negative evidence in order to ascertain the realizability of deferred tax assets.

NOTE 6: INVESTMENTS

The Company's investments, primarily in Brazil, consist of certificates of deposit and U.S. dollar indexed bond funds, which are classified as available-for-sale and stated at fair value based upon quoted market prices and net asset values, respectively. Unrealized gains and losses are recorded in OCI. Realized gains and losses are recognized in investment income and are determined using the specific identification method. Realized (losses) gains, net from the sale of securities were \$(872) and \$0 for the three months ended September 30, 2011 and 2010, respectively. Realized (losses) gains, net from the sale of securities were \$(2,340) and \$33 for the nine months ended September 30, 2011 and 2010, respectively. Proceeds from the sale of available-for-sale securities were \$43,182 and \$35,624 during the nine months ended September 30, 2011 and 2010, respectively.

The Company has deferred compensation plans that enable certain employees to defer receipt of a portion of their cash or share-based compensation and non-employee directors to defer receipt of director fees at the participants' discretion. For deferred cash-based compensation, the Company established a rabbi trust that is recorded at the fair value of the underlying securities within securities and other investments. The related deferred compensation liability is recorded at fair value within other long-term liabilities. Realized and unrealized gains and losses on marketable securities in the rabbi trust are recognized in investment income.

The Company's investments, excluding cash surrender value of insurance contracts of \$65,840 and \$67,975 as of September 30, 2011 and December 31, 2010, respectively, consist of the following:

	Cost Basis	Unrealized Gain (Loss)	Fair Value

NOTE 7: ALLOWANCE FOR CREDIT LOSSES

Trade Receivables The Company evaluates the collectability of trade receivables based on (1) a percentage of sales related to historical loss experience and current trends and (2) periodic adjustments for known events such as specific customer circumstances and changes in the aging of accounts receivable balances. After all efforts at collection have been unsuccessful, the account is deemed uncollectible and is written off.

Financing Receivables The Company evaluates the collectability of notes and finance lease receivables (collectively, financing receivables) on a customer-by-customer basis and evaluates specific customer circumstances, aging of invoices, credit risk changes and payment patterns and historical loss experience. When the collectability is determined to be at risk based on the above criteria, the Company records the allowance for credit losses which represents the Company's current exposure less estimated reimbursement from insurance claims. After all efforts at collection have been unsuccessful, the account is deemed uncollectible and is written off.

The following table summarizes the Company's allowance for credit losses and recorded investment in financing receivables:

	Finance Leases	Notes Receivable	Total

The Company records interest income and any fees or costs related to financing receivables using the effective interest method over the term of the lease or loan. The Company reviews the aging of its financing receivables to determine past due and delinquent accounts. Credit quality is reviewed at inception and is re-evaluated as needed based on customer specific circumstances. Receivable balances greater than 60 days past due are reviewed and may be placed on nonaccrual status based on customer-specific circumstances. Upon receipt of payment on nonaccrual financing receivables, interest income is recognized and accrual of interest is resumed once the account has been made current or the specific circumstances have been resolved.

As of September 30, 2011 and December 31, 2010, the recorded investment in past-due finance lease receivables on nonaccrual status was \$971 and \$531, respectively. The recorded investment in finance lease receivables past due 90 days or more and still accruing interest was \$1,491 and \$560 as of September 30, 2011 and December 31, 2010, respectively. The recorded investment in impaired notes receivable was \$1,840 and was fully reserved as of September 30, 2011. The recorded investment in impaired notes receivable and the related allowance was \$7,513 and \$470, respectively, as of December 31, 2010. The net investment in impaired notes receivable is expected to be recovered from insurance claims. The following table summarizes the Company's aging of past-due notes receivable balances as of September 30, 2011:

Included in other assets are net capitalized software development costs of \$53,949 and \$55,575 as of September 30, 2011 and December 31, 2010, respectively. Amortization expense on capitalized software of \$4,663 and \$4,562 was included in product cost of sales for the three months ended September 30, 2011 and 2010, respectively, and \$14,071 and \$12,536 for the nine months ended September 30, 2011 and 2010, respectively. Other long-term assets also consist of patents, trademarks and other intangible assets. Where applicable, other assets are stated at cost and, if applicable, are amortized ratably over the relevant contract period or the estimated life of the assets. Fees to renew or extend the term of the Company's intangible assets are expensed when incurred. Impairment of long-lived assets is recognized when events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. If the expected future undiscounted cash flows are less than the carrying amount of the asset group, an impairment loss may be recognized at that time to reduce the asset to the lower of its fair value or its net book value.

The Company recorded \$2,962 and \$7,096 of asset impairment charges within Diebold North America (DNA) continuing operations during the nine months ended September 30, 2011 and 2010, respectively. The 2011 impairment related to a software intangible and the 2010 impairment related to customer contract intangible assets and an other than temporary impairment related to a cost method investment.

Investment in Affiliate Investment in the Company's non-consolidated affiliate is accounted for under the equity method and consists of a 50 percent ownership in Shanghai Diebold King Safe Company, Ltd. The balance of this investment as of September 30, 2011 and December 31, 2010 was \$13,566 and \$12,118, respectively, and fluctuated based on equity earnings and dividends. Equity earnings from the non-consolidated affiliate are included in miscellaneous, net in the condensed consolidated statements of income and were \$589 and \$680 for the three months ended September 30, 2011 and 2010, respectively, and \$1,448 and \$2,106 for the nine months ended September 30, 2011 and 2010, respectively. The non-consolidated affiliate declared dividends of \$2,172 for both the three and nine months ended September 31, 2010.

Edgar Filing: DIEBOLD INC - Form 10-Q

As of September 30, 2011, the Company had various international short-term uncommitted lines of credit with borrowing limits of \$100,372. The weighted-average interest rate on outstanding borrowings on the short-term uncommitted lines of credit as of September 30, 2011 and December 31, 2010 was 2.70 and 3.01 percent, respectively. Short-term uncommitted lines mature in less than one year. The amount available under the short-term uncommitted lines at September 30, 2011 was \$63,261.

In June 2011, the Company entered into a new five-year credit facility, which replaced its previous credit facility. The Company used borrowings of approximately \$330,000 under the new credit facility to repay all amounts outstanding under (and terminated) the previous credit facility. As of September 30, 2011, the Company had borrowing limits under the new credit facility totaling \$500,000. Under the terms of the credit facility agreement, the Company has the ability, subject to various approvals, to increase the borrowing limits by \$250,000. Up to \$50,000 of the revolving credit facility is available under a swing line subfacility. The weighted-average interest rate on outstanding credit facility borrowings as of September 30, 2011 and December 31, 2010 was 1.32 and 2.71 percent, respectively, which is variable based on the London Interbank Offered Rate (LIBOR). The amount available under the new credit facility as of September 30, 2011 was \$148,000. The Company incurred \$1,864 of fees to its creditors in conjunction with the new credit facility, which will be amortized as a component of interest expense over the term of the facility.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(dollars in thousands, except per share amounts)

In March 2006, the Company issued senior notes in an aggregate principal amount of \$300,000 with a weighted-average fixed interest rate of 5.50 percent. The maturity dates of the senior notes are staggered, with \$75,000, \$175,000 and \$50,000 becoming due in 2013, 2016 and 2018, respectively. Additionally, the Company entered into a derivative transaction to hedge interest rate risk on \$200,000 of the senior notes, which was treated as a cash flow hedge. This reduced the effective interest rate by 14 basis points from 5.50 to 5.36 percent.

In 1997, industrial development revenue bonds were issued on behalf of the Company. The proceeds from the bond issuances were used to construct new manufacturing facilities in the United States. The Company guaranteed the payments of principal and interest on the bonds by obtaining letters of credit. The bonds were issued with a 20-year original term and are scheduled to mature in 2017. Each industrial development revenue bond carries a variable interest rate, which is reset weekly by the remarketing agents. The weighted-average interest rate on the bonds was 0.66 and 0.57 percent as of September 30, 2011 and December 31, 2010, respectively.

The Company's debt agreements contain various restrictive financial covenants, including net debt to capitalization and net interest coverage ratios. As of September 30, 2011, the Company was in compliance with the financial covenants in its debt agreements.

NOTE 11: BENEFIT PLANS

The Company has pension plans covering certain U.S. employees. Plans that cover certain salaried employees provide pension benefits based on the employee's compensation during the ten years before retirement. The Company's funding policy for salaried plans is to contribute annually based on actuarial projections and applicable regulations. Plans covering certain hourly employees and union members generally provide benefits of stated amounts for each year of service. The Company's funding policy for hourly plans is to make at least the minimum annual contributions required by applicable regulations. Employees of the Company's operations in countries outside of the United States participate to varying degrees in local pension plans, which in the aggregate are not significant.

In addition to providing pension benefits, the Company provides healthcare and life insurance benefits (referred to as other benefits) for certain retired employees. Eligible employees may be entitled to these benefits based upon years of service with the Company, age at retirement and collective bargaining agreements. Currently, the Company has made no commitments to increase these benefits for existing retirees or for employees who may become eligible for these benefits in the future. There are no plan assets and the Company funds the benefits as the claims are paid.

The following table sets forth the net periodic benefit cost for the Company's defined benefit pension plans and other benefits:

There have been no significant changes to the 2011 plan year contribution amounts previously disclosed. For the nine months ended September 30, 2011 and 2010, contributions of \$22,503 and \$14,673, respectively, were made to the qualified and non-qualified pension plans.

NOTE 12: GUARANTEES AND PRODUCT WARRANTIES

In 1997, industrial development revenue bonds were issued on behalf of the Company. The Company guaranteed the payments of principal and interest on the bonds (refer to note 10) by obtaining letters of credit. The carrying value of the bonds was \$11,900 as of September 30, 2011 and December 31, 2010.

The Company provides its global operations guarantees and standby letters of credit through various financial institutions to suppliers, customers, regulatory agencies and insurance providers. If the Company is not able to make payment or fulfill contractual obligations, the suppliers, customers, regulatory agencies and insurance providers may draw on the pertinent bank. At September 30, 2011, the maximum future payment obligations related to these various guarantees totaled \$72,956, of which \$22,735 represented standby letters of credit to insurance providers, and no associated liability was recorded. At December 31, 2010, the maximum future payment obligations relative to these various guarantees totaled \$74,629, of which \$23,202 represented standby letters of credit to insurance providers, and no associated liability was recorded.

The Company provides its customers a manufacturer's warranty and records, at the time of the sale, a corresponding estimated liability for potential warranty costs. Estimated future obligations due to warranty claims are based upon historical factors such as labor rates, average repair time, travel time, number of service calls per machine and cost of replacement parts.

Changes in the Company's warranty liability balance are illustrated in the following table:

	2011	2010
Balance at January 1	\$ 78,313	\$ 62,673
Current period accruals (a)	34,894	50,409

NOTE 13: COMMITMENTS AND CONTINGENCIES

At September 30, 2011, the Company was a party to several lawsuits that were incurred in the normal course of business, none of which individually or in the aggregate are considered material by management in relation to the Company's financial position or results of operations. In management's opinion, the condensed consolidated financial statements would not be materially affected by the outcome of these legal proceedings, commitments or asserted claims. In addition to these routine legal proceedings, the Company was a party to 401(k) and securities class actions, labor and wage actions, and election systems actions, which are described in note 15 of the consolidated financial statements contained in the Company's annual report on Form 10-K for the year ended December 31, 2010.

Edgar Filing: DIEBOLD INC - Form 10-Q

The Company's global Foreign Corrupt Practices Act (FCPA) review remains on schedule with no material developments during the three months ended September 30, 2011:

During the second quarter of 2010, while conducting due diligence in connection with a potential acquisition in Russia, the Company identified certain transactions and payments by its subsidiary in Russia (primarily during 2005 to 2008) that potentially implicate the FCPA, particularly the books and records provisions of the FCPA. As a result, the Company is conducting an internal review and collecting information related to its global FCPA compliance.

In the fourth quarter of 2010, the Company identified certain transactions within its Asia Pacific operation over the past several years which may also potentially implicate the FCPA. The Company's current assessment indicates that the transactions and payments in question to date do not materially impact or alter the Company's consolidated financial statements in any year or in the aggregate. The Company's internal review is ongoing, and accordingly, there can be no assurance that this review will not find evidence of additional transactions that potentially implicate the FCPA.

The Company has voluntarily self-reported its findings to the SEC and the DOJ and is cooperating with these agencies in their review. The Company was previously informed that the SEC's inquiry has been converted to a formal, non-public

investigation. The Company also received a subpoena for documents from the SEC and a voluntary request for documents from the DOJ in connection with the investigation. The Company expects to complete its internal review of these matters by the end of 2011. Once the Company completes its internal review, it will begin discussions with the SEC and the DOJ to resolve this matter. At this time, the Company cannot predict the results of the government investigations and therefore cannot estimate the potential loss or range of loss it may incur with respect to these investigations or their potential impact on the consolidated financial statements. Future resolution of these matters with the DOJ and SEC could result in a material impact to the Company's consolidated financial statements.

NOTE 14: DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Company uses derivatives to mitigate the economic consequences associated with fluctuations in currencies and interest rates.

FOREIGN EXCHANGE

Net Investment Hedges The Company has international subsidiaries with net balance sheet positions that generate cumulative translation adjustments within OCI. During 2011, the Company used derivatives to manage potential changes in value of its net investments in Brazil. The Company uses the forward-to-forward method for its quarterly retrospective and prospective assessments of hedge effectiveness. No ineffectiveness results if the notional amount of the derivative matches the portion of the net investment designated as being hedged because the Company uses derivative instruments with underlying exchange rates consistent with its functional currency and the functional currency of the hedged net investment. Changes in value that are deemed effective are accumulated in OCI where they will remain until they are reclassified to income together with the gain or loss on the entire investment upon substantial liquidation of the subsidiary. The fair value of the Company's net investment hedge contracts was \$1,780 as of September 30, 2011.

The gain recognized in OCI on net investment hedge derivative instruments was \$1,780 in both the three and nine months ended September 30, 2011.

Non-Designated Hedges A substantial portion of the Company's operations and revenues are international. As a result, changes in foreign exchange rates can create substantial foreign exchange gains and losses from the revaluation of non-functional currency monetary assets and liabilities. The Company's policy allows the use of foreign exchange forward contracts with maturities of up to 24 months to mitigate the impact of currency fluctuations on those foreign currency asset and liability balances. The Company elected not to apply hedge accounting to its foreign exchange forward contracts. Thus, spot-based gains/losses offset revaluation gains/losses within foreign exchange loss, net and forward-based gains/losses represent interest expense. The fair value of the Company's non-designated foreign exchange forward contracts was \$3,552 and \$(3,135) as of September 30, 2011 and December 31, 2010, respectively.

The following table summarizes the (loss) gain recognized on non-designated foreign-exchange derivative instruments:

Income Statement Location	Three Months Ended		Nine Months Ended	
	September 30, 2011	September 30, 2010	September 30, 2011	September 30, 2010
Interest expense	\$ (1,920)	\$ (1,805)	\$ (5,796)	\$ (4,864)
Foreign exchange (loss) gain, net	12,139	(12,285)	10,401	9,870
	\$ 10,219	\$ (14,090)	\$ 4,605	\$ 5,006

INTEREST RATE

Cash Flow Hedges The Company has variable rate debt and is subject to fluctuations in interest related cash flows due to changes in market interest rates. The Company's policy allows derivative instruments designated as cash flow hedges that fix a portion of future variable-rate interest expense. As of September 30, 2011, the Company has a pay-fixed receive-variable interest rate swap, with a total notional amount of \$25,000, to hedge against changes in the LIBOR benchmark interest rate on a portion of the Company's LIBOR-based borrowings. Changes in value that are deemed effective are accumulated in OCI and reclassified to interest expense when the hedged interest is accrued. To the extent that it becomes probable that the Company's variable rate borrowings will not occur, the gains or losses on the related cash flow hedges will be reclassified from OCI to interest expense.

In December 2005 and January 2006, the Company executed cash flow hedges by entering into receive-variable and pay-fixed interest rate swaps, with a total notional amount of \$200,000, related to the senior notes issuance in March 2006. Amounts previously recorded in OCI related to the pre-issuance cash flow hedges will continue to be reclassified on a straight-line basis through February 2016.

The fair value of the Company's interest rate contracts was \$(4,012) and \$(3,371) as of September 30, 2011 and December 31, 2010, respectively.

The gain (loss) recognized on designated derivative instruments for the three and nine months ended September 30, 2011 and 2010 was not material. Gains and losses related to interest rate contracts that are reclassified from accumulated OCI are recorded in interest expense on the statement of income. The Company anticipates reclassifying \$752 from OCI to interest expense within the next 12 months.

NOTE 15: RESTRUCTURING AND OTHER CHARGES

The following table summarizes the impact of the Company's restructuring charges (benefits) on the condensed consolidated statements of income:

Restructuring (benefit) charges of \$(278) and \$14,754 for the three and nine months ended September 30, 2011 related to the Company's plan for the EMEA reorganization, which realigns resources and further leverages the existing shared services center. As of September 30, 2011, the

Edgar Filing: DIEBOLD INC - Form 10-Q

Company anticipates additional restructuring costs in the range of \$10,000 to \$13,000 to be incurred into 2012 related to its EMEA restructuring plan. As management concludes on certain aspects of the EMEA restructuring plan, the anticipated future costs related to this plan are subject to change.

Restructuring charges related to reductions in the Company's global workforce were \$767 and \$424 for the three months ended September 30, 2011 and 2010, respectively, and \$1,046 and \$2,354 for the nine months ended September 30, 2011 and 2010, respectively. Restructuring charges in 2011 and 2010 included realignment of the organization and resources to better support opportunities in emerging growth markets, as well as consolidation of certain international facilities in efforts to optimize overall operational performance. The Company does not expect any material remaining costs related to this workforce reduction.

Restructuring charges related to the Company's strategic global manufacturing realignment plans were \$224 and \$52 for the three months ended September 30, 2011 and 2010, respectively and \$568 and \$408 for the nine months ended September 30, 2011 and 2010, respectively.

Other restructuring charges were \$724 and \$1,355 for the three and nine months ended September 30, 2011. These charges related primarily to realignment in North America.

Other Charges and Expense Reimbursements

Other charges and expense reimbursements consist of items that the Company determines are non-routine in nature. Net non-routine expense of \$2,585 and \$2,592 impacted the three months ended September 30, 2011 and 2010, respectively. Net non-routine expense of \$13,064 impacted the nine months ended September 30, 2011 compared to net non-routine income of \$481 in the same period of 2010. Net non-routine expenses for 2011 consisted primarily of legal and compliance costs related to the FCPA investigation and were recorded in selling and administrative expense. Net non-routine income for 2010 consisted primarily of reimbursements from the Company's director and officer (D&O) insurance carriers and was recorded in selling and administrative expense, partially offset by costs related to the FCPA investigation.

NOTE 16: FAIR VALUE OF ASSETS AND LIABILITIES

The Company measures its financial assets and liabilities using one or more of the following three valuation techniques:

Market approach Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

Cost approach Amount that would be required to replace the service capacity of an asset (replacement cost).

Income approach Techniques to convert future amounts to a single present amount based upon market expectations.

The hierarchy that prioritizes the inputs to valuation techniques used to measure fair value is divided into three levels:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities.

Edgar Filing: DIEBOLD INC - Form 10-Q

Level 2 Unadjusted quoted prices in active markets for similar assets or liabilities, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active or inputs, other than quoted prices in active markets, that are observable either directly or indirectly.

Level 3 Unobservable inputs for which there is little or no market data.

Total	\$ 11,719	\$ 6,800	\$ 4,919	\$	\$ 15,594	\$ 8,163	\$ 7,431	\$

Short-Term Investments The Company has investments in certificates of deposit that are recorded at cost, which approximates fair value. Additionally, the Company has investments in U.S. dollar indexed bond funds that are classified as available-for-sale and stated at fair value. U.S. dollar indexed bond funds are reported at net asset value, which is the practical expedient for fair value as determined by banks where funds are held.

Assets Held in a Rabbi Trust / Deferred Compensation The fair value of the assets held in a rabbi trust (refer to note 6) is derived from investments in a mix of money market, fixed income and equity funds managed by Vanguard. The related deferred compensation liability is recorded at fair value.

Foreign Exchange Forward Contracts A substantial portion of the Company's operations and revenues are international. As a result, changes in foreign exchange rates can create substantial foreign exchange gains and losses from the revaluation of non-functional currency monetary assets and liabilities. The foreign exchange contracts are valued using the market approach based on observable market transactions of forward rates.

Interest Rate Swaps The Company has variable rate debt and is subject to fluctuations in interest-related cash flows due to changes in market interest rates. The Company's policy allows it to periodically enter into derivative instruments designated as cash flow hedges to fix some portion of future variable rate based interest expense. The Company has a pay-fixed receive-variable interest rate swap to hedge against changes in the LIBOR benchmark interest rate on a portion of the Company's LIBOR-based borrowings. The fair value of the swap is determined using the

Edgar Filing: DIEBOLD INC - Form 10-Q

income approach and is calculated based on LIBOR rates at the reporting date.

Contingent Consideration on Sale of Business The Company's sale of its U.S. elections systems business included contingent consideration related to 70 percent of cash collected on the accounts receivable balance of the sold business as of August 31, 2009. The fair value of the contingent consideration was determined based on collections on the accounts receivable as well as the probability of future anticipated collections (level 3 inputs) and was recorded at the net present value of the future anticipated cash flows. The following table summarized the changes in fair value of the Company's level 3 assets:

Balance as of January 1	\$ 2,030
Cash collections	(2,520)
Fair value adjustments	490
Balance as of September 30	\$

The fair value of the Company's cash and cash equivalents, trade receivables and accounts payable, approximates the carrying value due to the relative short maturity of these instruments. The fair value and carrying value of the Company's debt instruments are summarized as follows:

	September 30, 2011		December 31, 2010	
	Fair Value	Carrying Value	Fair Value	Carrying Value
Notes payable - current	\$ 37,266	\$ 37,266	\$ 15,038	\$ 15,038

Total debt instruments	\$ 707,601	\$ 703,559	\$ 580,537	\$ 565,406

The fair value of the Company's industrial development revenue bonds are measured using unadjusted quoted prices in active markets for identical assets categorized as level 1 inputs. The fair value of the Company's current notes payable and credit facility debt instruments approximates the carrying value due to the relative short maturity of the revolving borrowings under these instruments. The fair values of the Company's long-term senior notes was estimated using market observable inputs for the Company's comparable peers with public debt, including quoted prices in active markets, market indices and interest rate measurements, considered level 2 inputs.

NOTE 17: SEGMENT INFORMATION

The Company's segments are comprised of two sales channels: DNA and DI. The DNA segment sells and services financial and retail systems in the United States and Canada. The DI segment sells and services financial and retail systems over the remainder of the globe as well as voting and lottery solutions in Brazil. Each segment buys the goods it sells from the Company's manufacturing plants or through external suppliers. Intercompany sales between legal entities are eliminated in consolidation. Each year, intercompany pricing is agreed upon which drives operating profit contribution.

The reconciliation between segment information and the condensed consolidated financial statements is disclosed. Revenue summaries by geographic area and product and service solutions are also disclosed. Certain information not routinely used in the management of the DNA and DI segments, information not allocated back to the segments or information that is impractical to report is not shown. Items not allocated are as follows: investment income; interest expense; equity in the net income of investees accounted for by the equity method; income tax expense or benefit; foreign exchange gains and losses; miscellaneous, net; and discontinued operations.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS OVERVIEW

Management's discussion and analysis should be read in conjunction with the condensed consolidated financial statements and accompanying notes that appear elsewhere in this quarterly report.

Introduction

The Company delivered sound performance in the third quarter of 2011, showing significant year-over-year improvement in profit margins, particularly in the services business. The Company continues to focus on more profitable business opportunities globally, while effectively driving improvements in its operations and reducing its cost structure. North America continues to perform very well, with high demand for financial self-service (FSS) solutions including deposit automation and new technology needed to meet pending regulatory and industry compliance standards. While the Company saw substantial revenue growth in Asia Pacific during the quarter, overall revenue was negatively impacted by a significant decrease in the cyclical Brazil voting business as well as declines in the overall security business. With so many financial institutions facing a changing economic and regulatory environment, the Company remains confident in its ability to provide leading-edge technology, software and expanded services that customers require to help measurably improve their business.

During the third quarter of 2011, total global product and services orders decreased three percent compared with the prior-year period. Excluding Brazil election and lottery systems, total global orders were essentially flat. North America orders benefitted from strong financial self-service growth, led by significant growth in the U.S. regional bank space where FSS product orders increased in excess of 100 percent compared to the same period of 2010. Asia Pacific orders decreased nine percent, compared to the same period of 2010, due to timing of orders in China. Orders decreased within Europe, Middle East and Africa (EMEA) by 31 percent, primarily the result of a large order in Turkey in the prior year period, which created a difficult comparison. Excluding Brazil election and lottery systems, Latin America orders were essentially flat.

Income from continuing operations attributable to Diebold, Incorporated, net of tax, for the three months ended September 30, 2011 was \$41,755 or \$0.65 per share, a decrease of \$2,307 and \$0.01 per share, respectively, from the same period in 2010. Total revenue for the three months ended September 30, 2011 was \$709,322, a decrease of 5.2 percent from the same period in 2010.

Income from continuing operations attributable to Diebold, Incorporated, net of tax, for the nine months ended September 30, 2011 was \$64,542 or \$0.99 per share, a decrease of \$34,828 and \$0.50 per share, respectively, from the same period in 2010. Total revenue for the nine months ended September 30, 2011 was \$1,985,861, a decrease of 2.3 percent from the same period in 2010.

Vision and strategy

The Company's vision is *to be recognized as the essential partner in creating and implementing ideas that optimize convenience, efficiency and security*. This vision is the guiding principle behind the Company's transformation to becoming a more software-led services company. Services comprise more than 50 percent of the Company's revenue. The Company expects that this percentage will continue to grow over time as the Company continues to build on its strong base of maintenance and advanced services to deliver world-class integrated services.

Through the third quarter of 2011, the Company signed new integrated services contracts valued at more than \$200,000. By comparison, in all of 2010, the Company signed about \$150,000 in integrated services contracts. During the quarter, the Company announced it is providing a variety of products and technological upgrades through integrated services to Desert Schools Federal Credit Union. The Company will replace 21 ATMs and upgrade another 67 terminals, adding advanced deposit automation technology and personalized marketing capabilities as well as providing

Edgar Filing: DIEBOLD INC - Form 10-Q

multiple solutions from its integrated services portfolio to manage, monitor and secure the credit union's fleet. In addition, the Company is helping Community Trust Bank better manage, monitor and secure its ATM fleet by providing multiple integrated services solutions.

Another area of focus within the FSS business is broadening the Company's deposit automation solutions set, including check imaging, envelope-free currency acceptance, teller automation, and payment and document imaging solutions. The Company's ImageWay® check-imaging solution fulfills an industry-wide demand for cutting-edge technologies that enhance efficiencies and greatly reduce operating costs for customers. For example, in North America, the Company is experiencing increasing demand from regional and community financial institutions for deposit automation terminals to maintain their competitive position and reduce their operating costs.

Within the security business, the Company's solution set is comprehensive, including high-end enterprise security solutions. The Company's goal is to better leverage its enterprise security expertise in the financial market. Historically, the Company's focus in this market was on the branch side with an emphasis on product sales. As new branch growth is expected to be stagnant the next several years, the Company is shifting its focus to enterprise solutions which are more oriented toward services. As security systems have become increasingly complex, financial institutions are showing more interest in outsourcing this area of their operations, particularly in the area of monitoring, services and software. The Company intends to continue to leverage its experience to capitalize on the opportunities in this space, particularly as it wins major projects such as the new World Trade Center Transportation Hub in New York City. The Company's integrated system will include the installation of video surveillance, access control and alarm devices throughout the hub. In addition, the Company recently announced it is managing the integration of a complex security software system for the new World Trade Center site. The Company's integration efforts will connect an array of systems to the World Trade Center security command center via a single interface, giving operators unified control and views of the entire site.

Moving forward, the Company intends to create shareholder value by leveraging its growing advantage in services, continuing to restructure its operations in EMEA, taking advantage of key market opportunities around the world and leveraging opportunities in the security business. The focus for the remainder of 2011 is to continue striking an appropriate balance between reducing costs and investing in future growth. Many opportunities lie ahead, and the Company will continue to invest in developing new software solutions, services and security solutions, particularly in emerging markets, to achieve the Company's stated goal of 15 percent return on capital employed.

Cost savings initiatives, restructuring and other charges

Over the past several years, the Company's SmartBusiness (SB) initiatives have led to rationalization of product development, streamlined procurement, realignment of the Company's manufacturing footprint and improved logistics. Building on that success, the Company launched SB 300, which shifts the focus from cost of sales to operating expenses and is targeted to achieve an additional \$100,000 in efficiencies during the next three years. The Company is well on target to reduce its cost structure by \$30,000 in 2011.

During the nine months ended September 30, 2011 and 2010, the Company incurred pre-tax net restructuring charges of \$17,723 and \$2,793, respectively. Restructuring charges in 2011 primarily related to the Company's plan for the EMEA reorganization, which realigns resources and further leverages the existing shared services center. Restructuring charges in 2010 primarily related to reductions in the Company's global workforce within the Canton, Ohio area facilities.

Other charges and expense reimbursements consist of items that the Company determines are non-routine in nature. Net non-routine expense of \$2,585 and \$2,592 impacted the three months ended September 30, 2011 and 2010, respectively. Net non-routine expense of \$13,064 impacted the nine months ended September 30, 2011 compared to net non-routine income of \$481 in the same period of 2010. Net non-routine expenses for 2011 consisted primarily of legal and compliance costs related to the Foreign Corrupt Practices Act (FCPA) investigation and were recorded in selling and administrative expense. Net non-routine income for 2010 consisted primarily of reimbursements from the Company's director and officer (D&O) insurance carriers and was recorded in selling and administrative expense, partially offset by costs related to the FCPA investigation.

Business Drivers

The business drivers of the Company's future performance include, but are not limited to:

Edgar Filing: DIEBOLD INC - Form 10-Q

demand for new service offerings, including integrated services and outsourcing;

demand for security products and services for the financial, enterprise, retail and government sectors;
timing of a self-service upgrade and/or replacement cycle, including deposit automation in mature markets such as the United States; and

high levels of deployment growth for new self-service products in emerging markets, such as Asia Pacific.

Net sales	\$ 709,322	\$ 748,620	\$(39,298)	(5.2)

FSS sales in the third quarter of 2011 increased by \$13,036 or 2.6 percent compared to the same period of 2010. The increase in FSS sales included a net favorable currency impact of \$18,868, of which approximately 50 percent related to the Brazilian real.

The following division highlights include the impact of foreign currency: Diebold North America (DNA) increased \$26,159 or 12.4 percent due to continued growth within the U.S. regional business. Diebold International (DI) sales decreased by \$13,123 or 4.4 percent related to the following: Asia Pacific increased \$32,168 or 52.1 percent, EMEA decreased \$8,425 or 10.3 percent, and Latin America, including Brazil, decreased \$36,866 or 23.7 percent. The increase in Asia Pacific resulted from additional volume in several countries, most notably China, India, and Indonesia. Additionally, the third quarter of 2010 included an out-of-period adjustment which decreased net sales by \$18,688. The decrease in EMEA was influenced by lower volumes in the Middle East, partially offset by growth in Africa and Western Europe. The decrease in Latin

America, including Brazil, was driven mainly from lower volumes in Brazil.

Security solutions sales in the third quarter of 2011 decreased by \$9,709 or 6.3 percent compared to the same period of 2010. DNA decreased \$11,688 or 8.5 percent, while DI increased by \$1,979 or 13.1 percent. The reduction in DNA was due to lower volumes in the U.S. national, government, and regional business. The DI increase was due to improvements in Latin America and Asia Pacific.

The Brazilian-based lottery and election systems sales decreased \$42,625 or 50.3 percent in the third quarter of 2011 compared to the same period of 2010. This decrease was driven by a \$36,378 reduction in election sales as well as a \$6,247 decrease in lottery sales compared to the third quarter 2010. Election sales decreased due to cyclical purchasing decisions within the country. There were minimal lottery sales in the third quarter of 2011.

Gross margin services	28.6%	27.1%	1.5	
Total gross margin	27.4%	25.9%	1.5	

The increase in product gross margin was due to higher volume and favorable customer mix within DNA, mostly a result of the U.S. regional business. International margins decreased primarily due to lower volumes and product mix in Brazil, partially offset by improvement in EMEA. Additionally, product gross margin in the three months ended September 30, 2011 and 2010 included restructuring charges of \$630 and \$305, respectively.

The increase in service gross margin was driven by cost efficiencies in Brazil along with improvement in DNA and EMEA. The margin improvement in DNA was driven primarily through cost reductions in the service operations. Service gross margin for the three months ended September 30, 2011 included a net restructuring benefit of \$1,331, primarily associated with restructuring efforts in EMEA.

Operating Expenses

The following table represents information regarding our operating expenses for the three months ended September 30:

	2011	2010	\$ Change	% Change
Selling and administrative expense	\$ 121,508	\$ 119,425	\$ 2,083	1.7

Impairment of assets		3,000	(3,000)	N/A
Total operating expenses	\$ 139,974	\$ 141,515	\$ (1,541)	(1.1)

Selling and administrative expense increased in the third quarter of 2011 compared to the same period of 2010, primarily due to \$3,226 of unfavorable currency impact as well as higher restructuring expenses, partially offset by cost reductions. Selling and administrative expense in the third quarter of 2011 and 2010 included non-routine expense of \$2,584 and \$2,593, respectively, which pertained to legal, consultative and audit costs related to the previously disclosed FCPA investigation. In addition, selling and administrative expense included \$2,131 and \$100 of

Edgar Filing: DIEBOLD INC - Form 10-Q

restructuring charges in the third quarter of 2011 and 2010, respectively. The third quarter 2011 restructuring charges were primarily associated with restructuring efforts in EMEA.

Research, development and engineering expense as a percent of net sales was 2.6 percent both in third quarter of 2011 and 2010.

The impairment charge in the third quarter of 2010 resulted from an other than temporary impairment related to a cost method investment.

Operating profit margin	7.7%	7.0%	0.7	

The increase in operating profit in the third quarter of 2011 compared to the same period of 2010 resulted from higher product and service gross margins and lower operating expenses, partially offset by unfavorable currency impacts and higher restructuring charges.

Other Income (Expense)

The following table represents information regarding our other income (expense) for the three months ended September 30:

	2011	2010	\$ Change	% Change
Investment income	\$ 8,538	\$ 10,487	\$ (1,949)	(18.6)

Miscellaneous, net	(447)	1,915	(2,362)	N/M
Other income (expense)	\$ (368)	\$ 8,199	\$ (8,567)	N/M

The decrease in investment income was primarily due to interest received in the third quarter of 2010 on a legal settlement related to overdue receivables in Brazil that did not recur in the same period of 2011. In contrast, interest expense was favorable compared to the same period of 2010 due to favorable interest rates and lower fees. The decrease in foreign exchange (loss) gain, net was due to favorability in the third quarter 2010 that did not recur in the same period of 2011.

Income from Continuing Operations

The following table represents information regarding our income from continuing operations for the three months ended September 30:

	2011	2010	\$ Change/ % Point Change	% Change

Edgar Filing: DIEBOLD INC - Form 10-Q

Effective tax rate	20.8%	25.0%	(4.2)
---------------------------	--------------	-------	-------

The decrease in net income from continuing operations in the third quarter of 2011 compared to the same period of 2010 resulted from an unfavorable variance in other income (expense), partially offset by lower taxes on income, a net operating expense reduction, and higher product and service margins. The 4.2 percentage point decrease in the effective tax rate was mainly due to various discrete items in the periods, including adjustments from an IRS exam effectively settled in September 2011.

Income from Discontinued Operations

The following table represents information regarding our income from discontinued operations for the three months ended September 30:

	2011	2010	\$ Change	% Change
Income from discontinued operations, net of tax	\$	\$ 2,043	\$ (2,043)	N/A

Income from discontinued operations, net of tax, for the third quarter of 2010, included costs primarily related to the sale of the U.S. elections systems business. The Company finalized and filed its 2009 consolidated U.S. federal tax return during the third quarter of 2010 and recorded an additional tax benefit of \$2,147.

Segment Analysis and Operating Profit Summary

The following table represents information regarding our revenue by reporting segment for the three months ended September 30:

	2011	2010	\$ Change	% Change
DNA	\$ 364,144	\$ 349,673	\$ 14,471	4.1
DI	345,178	398,947	(53,769)	(13.5)
Total net sales	\$ 709,322	\$ 748,620	\$ (39,298)	(5.2)

The increase in DNA net sales was due to higher FSS product volume in the U.S. regional business, partially offset by lower volumes in FSS and security in the U.S. national business and declines in U.S. regional security volume.

The decrease in DI net sales included a net favorable currency impact of \$25,595, of which approximately 62 percent related to Brazil. The decrease in DI was mostly a result of lower FSS and election sales within Brazil, as well as a reduction in FSS product volume in EMEA. Partially offsetting these declines, Asia Pacific reported higher FSS product sales compared to the same period of 2010.

The following table represents information regarding our operating profit by reporting segment for the three months ended September 30:

	2011	2010	\$ Change	% Change
DNA	\$ 43,726	\$ 34,270	\$ 9,456	27.6
DI	10,686	18,109	(7,423)	(41.0)
Total operating profit	\$ 54,412	\$ 52,379	\$ 2,033	3.9

Edgar Filing: DIEBOLD INC - Form 10-Q

DNA operating profit for the third quarter 2011 increased by \$9,456 or 27.6 percent compared to the third quarter 2010. Operating profit was favorable due to higher FSS volume within the U.S. regional business, partially offset by a decline in U.S. national FSS and security.

DI operating profit for the third quarter 2011 decreased by \$7,423 or 41.0 percent compared to the third quarter 2010. The decrease was driven primarily from the reduction in Brazil FSS and Brazilian election and lottery system sales. These decreases were partially offset by improvements in Asia Pacific and EMEA primarily due to higher volumes combined with a net operating expense reduction across DI.

Nine Months Ended September 30, 2011 Comparisons to Nine Months Ended September 30, 2010

Net Sales

The following table represents information regarding our net sales for the nine months ended September 30:

	2011	2010	\$ Change	% Change
Net sales	\$ 1,985,861	\$ 2,032,799	\$ (46,938)	(2.3)

FSS sales in the first nine months of 2011 increased by \$45,849 or 3.2 percent compared to the same period of 2010. The increase in FSS sales included a net favorable currency impact of \$57,669, of which approximately 50 percent related to the Brazilian real.

The following division highlights include the impact of foreign currency: DNA increased \$50,872 or 9.0 percent due to growth within the U.S. regional business. DI sales decreased by \$5,023 or 0.6 percent related to the following: Asia Pacific increased \$29,658 or 12.6 percent, EMEA increased \$16,118 or 6.9 percent and Latin America, including Brazil, decreased by \$50,800 or 12.2 percent. The

increase in Asia Pacific was driven mostly by Indonesia, India and China. Additionally, the third quarter of 2010 included an out-of-period adjustment which decreased net sales by \$19,822. The increase in EMEA was influenced by growth in Africa compared to the same period of 2010. The decrease in Latin America, including Brazil, was primarily a result of lower volumes in Brazil, partially offset by an increase in the rest of Latin America.

Security solutions sales in the first nine months of 2011 decreased by \$13,013 or 2.9 percent compared to the same period of 2010. The variance was driven by a decrease of \$11,280 or 2.8 percent within DNA, resulting primarily from a decrease in the U.S. regional and national businesses. DI decreased \$1,773 or 3.7 percent due to a reduction in Asia Pacific, partially offset by improvement in Latin America compared to the first nine months of 2010.

The Brazilian-based lottery and election systems sales decreased \$79,774 or 59.7 percent in the first nine months of 2011 compared to the same period of 2010. This decrease was driven by a reduction of \$82,584 in election sales due to cyclical purchasing decisions within the country. The improvement in lottery was related to higher sales volume in the first nine months of 2011 compared to the same period of 2010.

Gross Profit

The following table represents information regarding our gross profit for the nine months ended September 30:

	2011	2010	\$ Change/ % Point Change	% Change
Gross profit products	\$ 212,540	\$ 234,464	\$ (21,924)	(9.4)

Total gross profit	\$ 513,280	\$ 530,048	\$ (16,768)	(3.2)
Gross margin products	25.2%	25.3%	(0.1)	
Gross margin services	26.3%	26.8%	(0.5)	
Total gross margin	25.8%	26.1%	(0.3)	

The decrease in product gross margin was driven by DI, partially offset by higher volumes and favorable customer mix in DNA, mainly from the U.S. regional business, as well as U.S. manufacturing favorability. The reduction in DI was mostly the result of lower volumes in Brazil as well as lower margins across the other geographies. Additionally, product gross margin in the nine months ended September 30, 2011 and 2010 included restructuring charges of \$1,004 and of \$787, respectively.

The decrease in service gross margin resulted from lower margins in EMEA due primarily from higher restructuring charges in 2011 related to the EMEA reorganization as well as lower margins in DNA. Partially offsetting these declines, Brazil realized higher margins related to operational cost efficiencies. Service gross margin for the nine months ended September 30, 2011 included \$7,298 of restructuring charges compared to a net restructuring benefit of \$175 in the same period of 2010.

Operating Expenses

The following table represents information regarding our operating expenses for the nine months ended September 30:

Edgar Filing: DIEBOLD INC - Form 10-Q

	2011	2010	\$ Change	% Change

Total operating expenses	\$ 424,897	\$ 390,229	\$ 34,668	8.9

Selling and administrative expense increased in the first nine months of 2011 compared to the same period of 2010 due to higher non-routine and restructuring expenses, unfavorable currency impacts, increased benefit costs and lower non-routine income. Selling and administrative expense in the first nine months of 2011 and 2010 included non-routine expense of \$12,514 and \$3,667, respectively, which pertained to legal, consultative and audit costs related to the FCPA investigation. Non-routine income of \$4,148 in the first nine months of 2010 consisted primarily of reimbursements from the Company's D&O insurance carriers. In addition, selling and administrative expense included \$9,402 and \$2,336 of restructuring charges in the first nine months of 2011 and 2010, respectively. The 2011 restructuring charges related primarily to the EMEA reorganization. The 2010 restructuring charges related primarily to the global workforce reductions.

Table of Contents**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION****AND RESULTS OF OPERATIONS as of September 30, 2011****DIEBOLD, INCORPORATED AND SUBSIDIARIES****(unaudited)****(dollars in thousands, except per share amounts)**

Research, development and engineering expense as a percent of net sales in the first nine months of 2011 and 2010 was 2.9 percent and 2.7 percent, respectively. The increase as a percent of net sales was due to higher project volume.

The impairment charges in the first nine months of 2011 related to a software intangible asset and the impairment charges in the first nine months of 2010 related to customer contract intangible assets and an other than temporary impairment related to a cost method investment.

Operating Profit

The following table represents information regarding our operating profit for the nine months ended September 30:

	2011	2010	\$ Change/ % Point Change	% Change
Operating profit	\$ 88,383	\$ 139,819	\$ (51,436)	(36.8)
Operating profit margin	4.5%	6.9%	(2.4)	

The decrease in operating profit in the first nine months of 2011 compared to the same period of 2010 resulted from higher operating expenses due to higher non-routine expenses, unfavorable currency impacts, higher restructuring charges, increased benefit costs and lower non-routine income. Operating profit also decreased due to lower product and service gross margins.

Other Income (Expense)

The following table represents information regarding our other income (expense) for the nine months ended September 30:

	2011	2010	\$ Change	% Change
Investment income	\$ 29,105	\$ 23,976	\$ 5,129	21.4

Miscellaneous, net	1,010	4,016	(3,006)	(74.9)
Other income (expense)	\$ 3,914	\$ 239	\$ 3,675	N/M

Investment income in the first nine months of 2011 was favorable compared to the same period of 2010, driven primarily by Brazil, with a combination of increased investment and favorable currency impact. Interest expense was favorable compared to the same period of 2010 due to favorable interest rates and lower fees.

Income from Continuing Operations

The following table represents information regarding our income from continuing operations for the nine months ended September 30:

Percent of net sales	3.5%	5.0%	(1.5)	
Effective tax rate	25.8%	27.4%	(1.6)	

The decrease in net income from continuing operations in the first nine months of 2011 compared to the same period of 2010 resulted from higher operating expense and lower gross profit, partially offset by a reduction in tax rate as well as favorable other income (expense). The 1.6 percentage point decrease was mainly due to various discrete items in the periods, including adjustments from an IRS exam effectively settled in September 2011, partially offset by operating losses in certain EMEA jurisdictions for which no tax benefit was recognized.

Total net sales	\$ 1,985,861	\$ 2,032,799	\$ (46,938)	(2.3)

The increase in DNA net sales was due to a higher FSS product volume in the U.S. regional business, partially offset by a reduction in the U.S. national business in both FSS and security products.

The decrease in DI net sales was due primarily to lower election systems and FSS product volumes in Brazil, partially offset by a net favorable currency impact of \$71,109 of which approximately 59 percent related to Brazil. These decreases were also partially offset by service revenue growth in Asia Pacific.

The following table represents information regarding our operating profit by reporting segment for the nine months ended September 30:

Edgar Filing: DIEBOLD INC - Form 10-Q

	2011	2010	\$ Change	% Change

Total operating profit	\$ 88,383	\$ 139,819	\$ (51,436)	(36.8)

DNA operating profit for the first nine months of 2011 increased by \$18,513 or 27.6 percent compared to the first nine months of 2010. The increase was driven primarily by higher FSS product volume in the U.S. regional business as well as U.S. manufacturing favorability. These increases were partially offset by an increase in operating expense related to higher non-routine expenses and lower non-routine income.

DI operating profit for the first nine months of 2011 decreased by \$69,949 or 96.2 percent compared to the first nine months of 2010. The decrease was driven by lower FSS and election systems sales in Brazil as well as lower product and service margins in EMEA. In addition, operating profit was negatively impacted by higher restructuring and non-routine expenses as well as increases in operating expenses.

Refer to note 17 to the condensed consolidated financial statements for further details of segment revenue and operating profit.

Capital resources are obtained from income retained in the business, borrowings under the Company's senior notes, committed and uncommitted credit facilities, long-term industrial revenue bonds, and operating and capital leasing arrangements. Management expects that the Company's capital resources will be sufficient to finance planned working capital needs, research and development activities, investments in facilities or equipment, pension contributions, dividends and any purchase of the Company's common shares for at least the next 12 months. As of September 30, 2011, approximately \$463,589 or 98 percent of the Company's cash and cash equivalents and short-term investments reside in international tax jurisdictions. Repatriation of these funds could be negatively impacted by potential foreign and domestic taxes. Part of the Company's growth strategy is to pursue strategic acquisitions. The Company has made acquisitions in the past and intends to make acquisitions in the future. The Company intends to finance any future acquisitions with either cash and short-term investments, cash provided from operations, borrowings under available credit facilities, proceeds from debt or equity offerings and/or the issuance of common shares.

The following table summarizes the results of our condensed consolidated statement of cash flows for the nine months ended September 30:

	2011	2010
Net cash flow (used in) provided by:		
Operating activities	\$ (54,664)	\$ 51,073
Investing activities	4,346	(85,531)
Financing activities	(23,575)	(51,569)
Effect of exchange rate changes on cash and cash equivalents	2,049	(2,576)
 Net decrease in cash and cash equivalents	 \$ (71,844)	 \$ (88,603)

Net cash used in operating activities was \$54,664 for the nine months ended September 30, 2011, a change of \$105,737 from cash provided by operating activities of \$51,073 for the same period in 2010. Cash flows from operating activities are generated primarily from operating income and managing the components of working capital. Cash flows from operating activities during the nine months ended September 30, 2011 compared to the same period of 2010 were negatively affected by a \$33,041 decrease in net income, an \$81,833 change in refundable income taxes, as well as unfavorable changes in inventories, prepaid expenses, other current assets and accounts payable. These changes were partially offset by favorable changes in trade receivables, deferred revenue and certain other assets and liabilities.

Net cash provided by investing activities was \$4,346 for the nine months ended September 30, 2011, a change of \$89,877 from cash used in investing activities of \$85,531 for the same period in 2010. The change was primarily due to \$18,939 of net purchases of finance receivables in 2010 compared to \$17,826 of net collections on purchased finance receivables in 2011, as well as a \$53,353 change in net investment activity.

Net cash used in financing activities was \$23,575 for the nine months ended September 30, 2011, a decrease of \$27,994 from \$51,569 for the same period of 2010. The change was primarily due to a \$112,361 increase in net borrowings partially offset by an increase of \$80,066 in cash used to repurchase common shares.

The effect of exchange rate changes on cash and cash equivalents for the nine months included September 30, 2010 included \$5,700 of devaluation related to Venezuela.

Edgar Filing: DIEBOLD INC - Form 10-Q

Under the Company's share repurchase program, 669,977 common shares remained available as of September 30, 2011 for additional share repurchases.

As of September 30, 2011, the Company had various international short-term uncommitted lines of credit with borrowing limits of \$100,372. The amount available under the short-term uncommitted lines at September 30, 2011 was \$63,261.

In June 2011, the Company entered into a new five-year credit facility, which replaced its previous credit facility. The Company used borrowings of approximately \$330,000 under the new credit facility to repay all amounts outstanding under (and terminated) the previous credit facility. As of September 30, 2011, the Company had borrowing limits under the new credit facility totaling \$500,000. Under the terms of the credit facility agreement, the Company has the ability, subject to various approvals, to increase the borrowing limits by \$250,000. Up to \$50,000 of the revolving credit facility is available under a swing line subfacility. The weighted-average interest rate on outstanding credit facility borrowings as of September 30, 2011 and December 31, 2010 was 1.32 and 2.71 percent, respectively, which is variable based on the London Interbank Offered Rate (LIBOR). The amount available under the new credit

facility as of September 30, 2011 was \$148,000. The Company incurred \$1,864 of fees to its creditors in conjunction with the new credit facility, which will be amortized as a component of interest expense over the term of the facility.

In March 2006, the Company issued senior notes in an aggregate principal amount of \$300,000 with a weighted-average fixed interest rate of 5.50 percent. The maturity dates of the senior notes are staggered, with \$75,000, \$175,000 and \$50,000 becoming due in 2013, 2016 and 2018, respectively. Additionally, the Company entered into a derivative transaction to hedge interest rate risk on \$200,000 of the senior notes, which was treated as a cash flow hedge. This reduced the effective interest rate by 14 basis points from 5.50 to 5.36 percent.

The Company's financing agreements contain various restrictive financial covenants, including net debt to capitalization and net interest coverage ratios. As of September 30, 2011, the Company was in compliance with the financial covenants in its debt agreements.

Dividends The Company paid dividends of \$55,146 and \$53,989 in the nine months ended September 30, 2011 and 2010, respectively. Quarterly dividends were \$0.28 and \$0.27 per share for 2011 and 2010, respectively.

Contractual Obligations In the first nine months of 2011, the Company entered into direct purchasing agreements for materials through a contract manufacturing agreement for a total negotiated price of \$6,881. The following table summarizes the Company's approximate commitment to make future payments related to these agreements.

	Total	2011	2012
Direct purchasing agreements	\$ 2,349	\$ 1,872	\$ 477

Except for the direct purchasing agreement noted above, all contractual cash obligations with initial and remaining terms in excess of one year and contingent liabilities remained generally unchanged at September 30, 2011 compared to December 31, 2010.

Off-Balance Sheet Arrangements The Company does not participate in transactions that facilitate off-balance sheet arrangements.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Management's discussion and analysis of the Company's financial condition and results of operations are based upon the Company's condensed consolidated financial statements. The preparation of these financial statements requires management to make estimates and assumptions about future events. These estimates and the underlying assumptions affect the amounts of assets and liabilities reported, disclosures about contingent assets and liabilities and reported amounts of revenues and expenses. Such estimates include the value of purchase consideration, valuation of trade receivables, inventories, goodwill, intangible assets, other long-lived assets, legal contingencies, guarantee obligations, indemnifications and assumptions used in the calculation of income taxes, pension and postretirement benefits and customer incentives, among others. These estimates and assumptions are based on management's best estimates and judgment. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the economic difficulties in the U.S. credit markets and the global markets. Management monitors the economic conditions and other factors and will adjust such estimates and assumptions when facts and circumstances dictate. As future events and their effects cannot be determined with precision, actual results could differ significantly from these estimates. Changes in those estimates resulting from continuing changes in the economic environment will be reflected in the financial statements in future periods.

Edgar Filing: DIEBOLD INC - Form 10-Q

Management believes there have been no significant changes during the nine months ended September 30, 2011 to the items that the Company disclosed as its critical accounting policies and estimates in Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's annual report on Form 10-K for the year ended December 31, 2010.

FORWARD-LOOKING STATEMENT DISCLOSURE

In this quarterly report on Form 10-Q, statements that are not reported financial results or other historical information are forward-looking statements. Forward-looking statements give current expectations or forecasts of future events and are not guarantees of future performance. These forward-looking statements relate to, among other things, the Company's future operating performance, the Company's share of new and existing markets, the Company's short- and long-term revenue and earnings growth rates, the Company's implementation of cost-reduction initiatives and measures to improve pricing, including the optimization of the Company's manufacturing capacity. The use of the words "will," "believes," "anticipates," "expects," "intends" and similar expressions is intended to identify forward-looking statements that have been made and may in the future be made by or on behalf of the Company.

Although the Company believes that these forward-looking statements are based upon reasonable assumptions regarding, among other things, the economy, its knowledge of its business, and on key performance indicators that impact the Company, these forward-looking statements involve risks, uncertainties and other factors that may cause actual results to differ materially from those expressed in or implied by the forward-looking statements. The Company is not obligated to update forward-looking statements, whether as a result of new information, future events or otherwise.

Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Some of the risks, uncertainties and other factors that could cause actual results to differ materially from those expressed in or implied by the forward-looking statements include, but are not limited to:

competitive pressures, including pricing pressures and technological developments;

changes in the Company's relationships with customers, suppliers, distributors and/or partners in its business ventures;

changes in political, economic or other factors such as currency exchange rates, inflation rates, recessionary or expansive trends, taxes and regulations and laws affecting the worldwide business in each of the Company's operations, including Brazil, where a significant portion of the Company's revenue is derived;

the amount of cash and non-cash charges in connection with the restructuring of the Company's EMEA operations;

the continuing effects of the economic downturn and the disruptions in the financial markets, including the bankruptcies, restructurings or consolidations of financial institutions, which could reduce our customer base and/or adversely affect our customers' ability to make capital expenditures, as well as adversely impact the availability and cost of credit;

Edgar Filing: DIEBOLD INC - Form 10-Q

acceptance of the Company's product and technology introductions in the marketplace;

the Company's ability to maintain effective internal controls;

changes in the Company's intention to repatriate cash and cash equivalents and short-term investments residing in international tax jurisdictions could negatively impact foreign and domestic taxes;

unanticipated litigation, claims or assessments, as well as the impact of any current or pending lawsuits;

variations in consumer demand for financial self-service technologies, products and services;

potential security violations to the Company's information technology systems;

the investment performance of the Company's pension plan assets, which could require the Company to increase its pension contributions, and significant changes in health care costs, including those that may result from government action such as the recently enacted U.S. health care legislation;

the amount and timing of repurchases of the Company's common shares, if any;

the outcome of the Company's global FCPA review and any actions taken by government agencies in connection with the Company's self disclosure, including the pending SEC investigation; and

the Company's ability to achieve benefits from its cost-reduction initiatives and other strategic changes.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Refer to the Company's annual report on Form 10-K for the year ended December 31, 2010. There has been no material change in this information since December 31, 2010.

ITEM 4: CONTROLS AND PROCEDURES

This quarterly report includes the certifications of our chief executive officer (CEO) and chief financial officer (CFO) required by Rule 13a-14 of the Exchange Act. See Exhibits 31.1 and 31.2. This Item 4 includes information concerning the controls and control evaluations referred to in those certifications.

Based on the performance of procedures by management, designed to ensure the reliability of financial reporting, management believes that the unaudited condensed consolidated financial statements fairly present, in all material respects, the Company's financial position, results of operations and cash flows as of the dates, and for the periods presented. Refer to Note 1 in the notes to condensed consolidated financial statements.

DISCLOSURE CONTROLS AND PROCEDURES

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Exchange Act) are designed to ensure that information required to be disclosed in the reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to management, including the CEO and CFO as appropriate, to allow timely decisions regarding required disclosures.

In connection with the preparation of this quarterly report, management, under the supervision and with the participation of the CEO and CFO, conducted an evaluation of disclosure controls and procedures. Based on this evaluation, the CEO and CFO have concluded that the Company's disclosure controls and procedures were effective as of September 30, 2011.

No change was made to the Company's internal control over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1: LEGAL PROCEEDINGS

(dollars in thousands)

At September 30, 2011, the Company was a party to several lawsuits that were incurred in the normal course of business, none of which individually or in the aggregate is considered material by management in relation to the Company's financial position or results of operations. In management's opinion, the Company's consolidated financial statements would not be materially affected by the outcome of those legal proceedings, commitments, or asserted claims.

In addition to the routine legal proceedings noted above the Company was a party to the lawsuits described below at September 30, 2011:

Securities Class Actions

On June 30, 2010, a shareholder filed a putative class action complaint in the United States District Court for the Northern District of Ohio alleging violations of the federal securities laws against the Company, certain current and former officers, and the Company's independent

Edgar Filing: DIEBOLD INC - Form 10-Q

auditors (*Louisiana Municipal Police Employees Retirement System v. KPMG et al.*, No. 10-CV-1461). The complaint seeks unspecified compensatory damages on behalf of a class of persons who purchased the Company's stock between June 30, 2005 and January 15, 2008 and fees and expenses related to the lawsuit. The complaint generally relates to the matters set forth in the court documents filed by the SEC in June 2010 finalizing the settlement of civil charges stemming from the investigation of the Company conducted by the Division of Enforcement of the SEC (SEC Settlement).

On October 19, 2010, an alleged shareholder of the Company filed a shareholder derivative lawsuit in the Stark County, Ohio, Court of Common Pleas, alleging claims on behalf of the Company against certain current and former officers and directors of the Company for breach of fiduciary duty, unjust enrichment and corporate waste (*Levine v. Geswein et al.*, Case No. 2010-CV-3848). The complaint generally relates to the matters set forth in the court documents filed by the SEC in June 2010 in connection with the SEC Settlement, and asserts that the defendants are liable to the Company for alleged damages associated with the SEC investigation, settlement, and related litigation. It also asserts that alleged misstatements in the Company's publicly issued financial statements caused the Company's common stock to trade at artificially inflated prices between 2004 and 2006, and that defendants harmed the Company by causing it to repurchase its common stock in the open market at inflated prices during that period. The complaint seeks an award of money damages against the defendants and in favor of the Company in an unspecified amount, as well as unspecified equitable and injunctive relief and attorneys' fees and expenses.

Management believes any possible loss or range of loss associated with the putative federal securities class action and the shareholder derivative lawsuit cannot be estimated.

Labor and Wage Actions

On May 7, 2010, a purported collective action under the Fair Labor Standards Act was filed in the United States District Court for the Northern District of Florida alleging that field service employees of the Company nationwide were not paid for the time spent logging into the Company's computer network in the morning, for travel to their first jobs and for meal periods that were supposedly automatically deducted from the employees' pay but, allegedly, not taken (*Nichols v. Diebold, Incorporated*, Case No. 3:10cv150/RV/MD). The lawsuit seeks unpaid overtime, liquidated damages equal to the amount of unpaid overtime and attorneys' fees. In December 2010, the plaintiff voluntarily dismissed the lawsuit, which resulted in a tentative settlement in the amount of \$9,500 subject to agreement on final settlement terms and court approval. This tentative settlement was recorded in selling and administrative expense in the fourth quarter of 2010. In July 2011, the parties agreed upon the final terms of the settlement, which remains subject to court approval.

Election Business Related Actions

The Company, including certain of its subsidiaries, filed a lawsuit on May 30, 2008 (Premier Election Solutions, Inc., et al. v. Board of Elections of Cuyahoga County, et al., Case No. 08-CV-05-7841 (Franklin Cty. Ct Common Pleas)) against Cuyahoga County, the Board of Elections of Cuyahoga County, Ohio, the Board of County Commissioners of Cuyahoga County, Ohio (collectively, Cuyahoga County), and Ohio Secretary of State Jennifer Brunner (Secretary) regarding several Ohio contracts under which certain of the Company's subsidiaries provided voting equipment and related services to the State of Ohio and a number of its counties. The lawsuit was precipitated by Cuyahoga County's threats to sue the Company for unspecified damages. The complaint sought a declaration that the Company met its contractual obligations.

In response, Cuyahoga County and the Secretary filed several claims against the Company and its former subsidiaries alleging that the voting system was defective and seeking declaratory relief and unspecified damages under several theories of recovery. In addition, Cuyahoga County and the Secretary sought to pierce the Company's corporate veil and hold Diebold, Incorporated directly liable for acts and omissions alleged to have been committed by its subsidiaries (even though Diebold, Incorporated is not a party to the contracts). In connection with the Company's subsequent sale of those subsidiaries, the Company agreed to indemnify the former subsidiaries and their purchaser from any and all liabilities arising out of the lawsuit. The Secretary also added or sought to add to the case all of the Ohio counties using the former subsidiaries' voting equipment. While many of the Ohio counties opposed the Secretary's actions, the Butler County Board of Elections joined the Secretary's claims.

In March 2010, the Company and Cuyahoga County agreed to settle their claims for \$7,500, which was paid out of the Company's insurance policies, and the court dismissed that portion of the lawsuit.

Since then, the Company had also reached settlement agreements with the Secretary and all of the Ohio counties using the former subsidiaries' voting equipment, except Butler County. The settlements are for immaterial amounts, which were paid out of the Company's insurance policies, and free or discounted products and services to be provided by the Company's former subsidiaries or third parties. On November 1, 2010, all of the claims in the lawsuit, except those of Butler County, were dismissed. For procedural purposes, simultaneously with the dismissal entry on November 1, 2010, the Company and its former subsidiaries filed a claim against Butler County seeking a declaration that it is not entitled to relief on its claims. In September 2011, the Company reached a settlement agreement with Butler County. The settlement is for free or discounted products and services, to be provided by one of the Company's former subsidiaries or a third party. On October 11, 2011, the claims involving Butler County were dismissed. No other claims are pending.

Global FCPA Review

During the second quarter of 2010, while conducting due diligence in connection with a potential acquisition in Russia, the Company identified certain transactions and payments by its subsidiary in Russia (primarily during 2005 to 2008) that potentially implicate the FCPA, particularly the books and records provisions of the FCPA. As a result, the Company is conducting an internal review and collecting information related to its global FCPA compliance.

Edgar Filing: DIEBOLD INC - Form 10-Q

In the fourth quarter of 2010, the Company identified certain transactions within its Asia Pacific operation over the past several years which may also potentially implicate the FCPA. The Company's current assessment indicates that the transactions and payments in question to date do not materially impact or alter the Company's consolidated financial statements in any year or in the aggregate. The Company's internal review is ongoing, and accordingly, there can be no assurance that this review will not find evidence of additional transactions that potentially implicate the FCPA.

Table of Contents**DIEBOLD, INCORPORATED AND SUBSIDIARIES****FORM 10-Q as of September 30, 2011**

The Company has voluntarily self-reported its findings to the SEC and the DOJ and is cooperating with these agencies in their review. The Company was previously informed that the SEC's inquiry has been converted to a formal, non-public investigation. The Company also received a subpoena for documents from the SEC and a voluntary request for documents from the DOJ in connection with the investigation. The Company expects to complete its internal review of these matters by the end of 2011. Once the Company completes its internal review, it will begin discussions with the SEC and the DOJ to resolve this matter. At this time, the Company cannot predict the results of the government investigations and therefore cannot estimate the potential loss or range of loss it may incur with respect to these investigations or their potential impact on the consolidated financial statements. Future resolution of these matters with the DOJ and SEC could result in a material impact to the Company's consolidated financial statements.
