**UNITED STATES**  
**SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

**FORM 10-Q**

x **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE  
ACT OF 1934**

For the Quarterly Period Ended: March 31, 2012

OR

.. **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE  
ACT OF 1934**

For the Transition Period From            to            .

Commission File Number: 001-33603

**The Dolan Company**

(Exact name of registrant as specified in its charter)

Edgar Filing: Dolan Co. - Form 10-Q

**Delaware**  
(State or other jurisdiction of  
incorporation or organization)

**43-2004527**  
(I.R.S. Employer  
Identification No.)

**222 South Ninth Street, Suite 2300,  
Minneapolis, Minnesota 55402**

(Address, including zip code, of registrant's principal executive offices)

**(612) 317-9420**

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input checked="" type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

On May 2, 2012, there were 30,574,995 shares of the registrant's common stock outstanding.

## **Table of Contents**

### **Notes to Unaudited Condensed Consolidated Interim Financial Statements**

#### **Note 1. Basis of Presentation**

**Basis of Presentation:** The condensed consolidated balance sheet as of December 31, 2011, which has been derived from audited financial statements, and the unaudited condensed consolidated interim financial statements of The Dolan Company (the "Company") have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and the instructions to the quarterly report on Form 10-Q and Rule 10-01 of Regulation S-X. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to these rules and regulations. Accordingly, these unaudited condensed consolidated interim financial statements should be read in conjunction with the Company's audited consolidated financial statements and related notes for the year ended December 31, 2011, included in the Company's annual report on Form 10-K filed on March 9, 2012, with the Securities and Exchange Commission.

In the opinion of management, these unaudited condensed consolidated interim financial statements reflect all adjustments necessary for a fair presentation of the Company's interim financial results. All such adjustments are of a normal and recurring nature. The results of operations for any interim period are not necessarily indicative of results for the full calendar year.

The accompanying unaudited condensed consolidated interim financial statements include the accounts of the Company, its wholly-owned subsidiaries and its majority ownership interests in American Processing Company, LLC d/b/a NDeX ("NDeX"), DiscoverReady LLC ("DiscoverReady") and Legislative Information Services of America ("LISA"). The Company accounts for the percentage interests in NDeX, DiscoverReady and LISA that it does not own as noncontrolling interest.

All significant intercompany accounts and transactions have been eliminated in consolidation.

When the Company refers to "Albertelli sellers" in these notes, it means James E. Albertelli, P.A., The Albertelli Firm, P.C., Albertelli Title, Inc. and James E. Albertelli, as a group.

In 2011, the Company committed to a plan of action to sell two of its stand-alone businesses within the Business Information segment. Accordingly the Company has removed from its operating results for the three months ended March 31, 2012 and 2011, the results of these businesses and presented them within discontinued operations. The assets of these operations, net of related liabilities, are included in assets held for sale. See Note 8 for further information on businesses held for sale.

**New Accounting Pronouncements:** In June 2011, the Federal Accounting Standards Board ("FASB") amended its accounting guidance to increase the prominence of items reported in other comprehensive income ("OCI"). The guidance requires the presentation of the components of net income, the components of OCI and total OCI either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The guidance is effective for the Company beginning with its March 31, 2012, financial statements. The Company has elected presentation of two separate but consecutive statements.

#### **Note 2. Basic and Diluted Income Per Share**

Basic per share amounts are computed, generally, by dividing net income attributable to The Dolan Company by the weighted-average number of common shares outstanding. The Company has employed the two-class method to calculate earnings per share, as it relates to the redeemable noncontrolling interest in NDeX, based on net income attributable to its common stockholders. At March 31, 2012, and December 31, 2011, there were no shares of preferred stock issued and outstanding. Diluted per share amounts assume the conversion, exercise, or issuance of all potential common stock instruments (see Note 14 for information on stock options and restricted stock) unless their effect is anti-dilutive, thereby reducing the loss per share or increasing the income per share.

**Table of Contents**

The following table computes basic and diluted net income attributable to The Dolan Company common stockholders per share (in thousands except for per share amounts):

	<b>Three Months Ended March 31,</b>	
	<b>2012</b>	<b>2011</b>
Net income attributable to The Dolan Company	\$ 169	\$ 3,475
Decrease in redeemable noncontrolling interest in NDeX, net of tax		964
Net income attributable to The Dolan Company common stockholders	\$ 169	\$ 4,439
Basic:		
Weighted average common shares outstanding	30,576	30,455
Weighted average common shares of unvested restricted stock	(401)	(326)
Shares used in the computation of basic net income per share	30,175	30,129
Net income attributable to The Dolan Company common stockholders per share basic	\$ 0.01	\$ 0.15
Diluted:		
Shares used in the computation of basic net income per share	30,175	30,129
Stock options and restricted stock	97	236
Shares used in the computation of dilutive net income per share	30,272	30,365
Net income attributable to The Dolan Company common stockholders per share diluted	\$ 0.01	\$ 0.14

For the three months ended March 31, 2012 and 2011, options to purchase 2.2 million and 1.1 million weighted shares of common stock, respectively, were excluded from the computation because their effect would have been anti-dilutive.

**Note 3. Business Combinations**

Management is responsible for determining the fair value of the assets acquired and liabilities assumed at the acquisition date. The fair values of the assets acquired and liabilities assumed represent management's estimate of fair values. Management determines valuations through a combination of methods, which include discounted cash flow models, outside valuations and appraisals and market conditions. The results of the business combinations are included in the accompanying consolidated statement of operations from the respective transaction dates forward.

On July 25, 2011, the Company, through DiscoverReady, completed the acquisition of substantially all of the assets of ACT Litigation Services, Inc. (ACT), and as such, the results of ACT's operations are included in the Company's financial statements from that date forward. The acquisition included certain earnout payments, which management estimates at each reporting date. At March 31, 2012, the Company estimated the total earnout liabilities payable to the sellers of ACT to be \$26.7 million, in the aggregate, of which \$14.7 million was paid in April 2012. Additionally, the majority of the remaining balance of the earnout payable will be converted in the second quarter of 2012 to a note payable, due in March 2013, and is subject to further adjustment based on certain revenue targets for 2012. The Company has determined that the earnout liability is a Level 3 fair value measurement within the FASB's fair value hierarchy, and such liability is adjusted to fair value at each reporting date, with the adjustment reflected in fair value adjustments on earnout liabilities. See Note 5 for information pertaining to changes in the fair value of this liability during the three months ended March 31, 2012.

**Table of Contents**

**Pro Forma Information:** Actual results of operations reflecting the equity interests and assets acquired in 2011 are included in the unaudited condensed consolidated interim financial statements from the dates of the applicable business combination. The unaudited pro forma condensed consolidated statement of operations of the Company, set forth below, gives effect to the Company's 2011 acquisitions of ACT and noncontrolling interest in DiscoverReady, using the purchase method as if they occurred on January 1, 2011. These amounts are not necessarily indicative of the consolidated results of operations for future years or actual results that would have been realized had the business combinations occurred as of the beginning of each such year (in thousands, except per share data):

	<b>Pro Forma</b>
	<b>Three Months Ended</b>
	<b>March 31, 2011</b>
Total revenues	\$ 80,941
Net income attributable to The Dolan Company	4,507
Net income attributable to The Dolan Company per share - basic and diluted	\$ 0.15
Weighted average shares outstanding:	
Basic	30,129
Diluted	30,365

**Note 4. Derivative Instruments**

The Company has entered into two interest rate swap agreements to manage the risk associated with a portion of its floating-rate long-term debt. The Company does not utilize derivative instruments for speculative purposes. Both interest rate swaps involve the exchange of fixed-rate and variable-rate payments without the exchange of the underlying notional amount on which the interest payments are calculated. The notional amount of the first interest rate swap agreement is \$50 million through December 30, 2012, \$35 million from December 31, 2012 through December 30, 2013, and \$25 million from December 31, 2013 through June 30, 2014. The notional amount of the second interest rate swap agreement is \$25 million through December 31, 2014. The Company has designated both swaps as cash flow hedges and has determined that they qualify for hedge accounting treatment. Changes in fair value of the cash flow hedge are recorded in other comprehensive loss (net of tax) until income or loss from the cash flows of the hedged item is realized. In addition to these swaps, the Company held a swap agreement with a notional amount of \$25 million, which matured on March 31, 2011. This swap was not designated for hedge accounting treatment and therefore any changes in the fair value were recorded through the statement of operations.

At both March 31, 2012, and December 31, 2011, the Company had \$1.3 million in other accumulated comprehensive loss related to unrealized losses (net of tax) on the cash flow hedges. Unrealized gains and losses are reflected in net income attributable to The Dolan Company when the related cash flows or hedged transactions occur and offset the related performance of the hedged item.

The cash flow hedges were highly effective for the three months ended March 31, 2012. The Company does not expect to reclassify any amounts from other comprehensive income to net income attributable to The Dolan Company during 2012. The occurrence of these related cash flows and hedged transactions remains probable.

The Company had liabilities of \$2.0 million and \$2.1 million resulting from interest rate swaps at March 31, 2012, and December 31, 2011, respectively, which are included in other liabilities on the balance sheet. Total floating-rate borrowings not offset by the swap agreements at March 31, 2012, totaled \$93.8 million.

By their nature, derivative instruments are subject to market risk. Derivative instruments are also subject to credit risk associated with counterparties to the derivative contracts. Credit risk associated with derivatives is measured based on the replacement cost should the counterparty with a contract in a gain position to the Company fail to perform under the terms of the contract. The Company does not anticipate nonperformance by the counterparty.

**Table of Contents****Note 5. Fair Value of Financial Instruments**

The Company's financial assets and liabilities are measured at fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The Company classifies the inputs used to measure fair value into the following hierarchy:

- Level 1 Quoted prices in active markets for identical assets or liabilities.
- Level 2 Quoted prices in active markets for similar assets or liabilities, or quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable or can be corroborated by observable market data for the asset or liability.
- Level 3 Unobservable inputs for the asset or liability that are supported by little or no market activity. These fair values are determined using pricing models for which the assumptions utilize management's estimates or market participant assumptions.

**Assets and Liabilities Measured at Fair Value on a Recurring Basis.** The fair value hierarchy requires the use of observable market data when available. In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

The fair value of interest rate swaps are determined by the counterparty based on interest rate changes. Interest rate swaps are valued based on observable interest rate yield curves for similar instruments. The fair value of the earnout liability recorded in connection with the NDeX Florida operations acquired from the Albertelli sellers, the earnout liability recorded in connection with the DataStream acquisition and the earnout liability recorded in connection with the ACT acquisition are determined by management based on projected financial performance and an estimated discount rate. The fair value of the redeemable noncontrolling interest in DiscoverReady is determined by management using a market approach.

The following table summarizes the balances of liabilities measured at fair value on a recurring basis as of March 31, 2012 (in thousands):

	Level 1	Level 2	Level 3	Total
Interest rate swaps	\$	\$ 2,036	\$	\$ 2,036
Earnout liability recorded in connection with the NDeX Florida operations acquired from the Albertelli sellers			2,727	2,727
Earnout liability recorded in connection with the DataStream acquisition			100	100
Earnout liabilities recorded in connection with the ACT acquisition			26,736	26,736
Redeemable noncontrolling interest in DiscoverReady			9,625	9,625
Total	\$	\$ 2,036	\$ 39,188	\$ 41,224

The following table summarizes the balances of liabilities measured at fair value on a recurring basis as of December 31, 2011 (in thousands):

	Level 1	Level 2	Level 3	Total
Interest rate swaps	\$	\$ 2,093	\$	\$ 2,093
Earnout liability recorded in connection with the NDeX Florida operations acquired from the Albertelli sellers			2,727	2,727
Earnout liability recorded in connection with the DataStream acquisition			250	250
Earnout liabilities recorded in connection with the ACT acquisition			26,655	26,655
Redeemable noncontrolling interest in DiscoverReady			12,685	12,685

Total	\$	\$ 2,093	\$ 42,317	\$ 44,410
-------	----	----------	-----------	-----------

**Table of Contents**

The following table summarizes the changes in fair value for all Level 3 liabilities measured at fair value on a recurring basis using significant unobservable inputs for the three months ended March 31, 2012 (in thousands):

	Earnout liabilities recorded in connection with acquisitions			Redeemable NCI in DiscoverReady	Total
	NDeX Florida	DataStream	ACT		
Balance at December 31, 2011	\$ 2,727	\$ 250	\$ 26,655	\$ 12,685	\$ 42,317
Fair Value Adjustment Included in Net Income					
Attributable to The Dolan Company		(150)	81		(69)
Minority Partner's Share of Loss				(204)	(204)
Fair Value Adjustment Included in Additional Paid-in Capital and Deferred Taxes				(2,856)	(2,856)
Balance at March 31, 2012	\$ 2,727	\$ 100	\$ 26,736	\$ 9,625	\$ 39,188

**Non-Financial Assets and Liabilities Measured at Fair Value on a Non-Recurring Basis.** Certain assets and liabilities are measured at fair value on a nonrecurring basis and are subject to fair value adjustments in certain circumstances (e.g., when there is evidence of impairment). No such fair value adjustments were required during the current quarter.

**Fair Value of Financial Instruments:** The carrying value of cash equivalents, accounts receivable, accounts payable and accrued expenses approximate fair value because of the short-term nature of these instruments. The carrying value of the Company's debt is the remaining amount due to its debtors under borrowing arrangements. To estimate the fair value of its variable-rate debt issues that are not quoted on an exchange, the Company estimates an interest rate it would be required to pay if it had to refinance its debt. At March 31, 2012, the carrying value of variable-rate debt under the Company's senior credit facility of \$168.8 million approximates its estimated fair value.

**Note 6. Investments**

Investments consisted of the following at March 31, 2012, and December 31, 2011 (in thousands):

	Accounting Method	Percent Ownership	March 31, 2012	December 31, 2011
The Detroit Legal News Publishing, LLC	Equity	35.0	\$ 11,077	\$ 11,334
Other	Equity	19.5	549	567
Total			\$ 11,626	\$ 11,901

**Table of Contents**

For the three months ended March 31, 2012 and 2011, the equity (loss) in earnings of affiliates is as follows (in thousands):

	Three Months Ended March 31,	
	2012	2011
The Detroit Legal News Publishing, LLC	\$ 443	\$ 757
Other	(18)	(9)
<b>Total</b>	<b>\$ 425</b>	<b>\$ 748</b>

**The Detroit Legal News Publishing, LLC:** The Company owns a 35% membership interest in The Detroit Legal News Publishing, LLC ( DLNP ). DLNP publishes ten legal newspapers, along with one quarterly magazine, all located in southern Michigan. The Company accounts for this investment using the equity method. Under DLNP's membership operating agreement, the Company receives quarterly distributions based on its ownership percentage.

The difference between the Company's carrying value and its 35% share of the members' equity of DLNP relates principally to an underlying customer list at DLNP that is being amortized over its estimated economic life through 2015.

The following tables summarize certain key information relating to the Company's investment in DLNP as of March 31, 2012, and December 31, 2011, and for the three months ended March 31, 2012 and 2011 (in thousands):

	As of March 31, 2012	As of December 31, 2011
Carrying value of investment	\$ 11,077	\$ 11,334
Underlying finite-lived customer list, net of amortization	5,529	5,906

	Three Months Ended March 31,	
	2012	2011
Equity in earnings of DLNP, net of amortization of customer list	\$ 443	\$ 757
Distributions received	700	1,400
Amortization expense	377	377

**Note 7. Intangible Assets**

**Indefinite-Lived Intangible Assets:** Indefinite-lived intangible assets consist of trade names and goodwill. The Company has determined that these assets have an indefinite life and therefore will not be amortized. The Company reviews indefinite-lived intangible assets for impairment annually in the fourth quarter or whenever an indicator is identified which suggests an impairment may be present.

**Finite-Lived Intangible Assets:** Total amortization expense for finite-lived intangible assets for the three months ended March 31, 2012 and 2011, was \$5.0 million and \$4.5 million, respectively.

**Note 8. Assets Held for Sale**

During the fourth quarter of 2011, the Company committed to sell two of its smallest-market stand-alone businesses within the Business Information segment, The Mississippi Business Journal and The Colorado Springs Business Journal. The businesses' operations and cash flows will be eliminated from ongoing operations as a result of the anticipated sales and the Company will not have significant continuing involvement in the operations after the sales. The Company has classified the net assets and liabilities of these operations as assets held for sale and reported the results of the businesses in discontinued operations.

**Table of Contents****Note 9. Long-Term Debt, Capital Lease Obligation**

A summary of long-term debt is as follows (in thousands):

	March 31, 2012	December 31, 2011
Senior secured debt (see below):		
Senior variable-rate term note	\$ 43,750	\$ 45,000
Senior variable-rate revolving note	125,000	128,700
Total senior secured debt	168,750	173,700
Unsecured notes payable	1,849	2,470
Capital lease obligations	543	221
	171,142	176,391
Less current portion	7,097	7,667
Long-term debt, less current portion	\$ 164,045	\$ 168,724

**Senior Secured Debt:** As of March 31, 2012, the Company and its consolidated subsidiaries have a credit agreement with a syndicate of banks for a \$215.0 million senior secured credit facility comprised of a term loan facility in an initial aggregate amount of \$50.0 million due and payable in quarterly installments with a final maturity date of December 6, 2015, and a revolving credit facility in an aggregate amount of up to \$165.0 million, which may be increased pursuant to an accordion feature to up to \$200.0 million, with a final maturity date of December 6, 2015. In the first quarter of 2012, the Company entered into a second amendment to the credit agreement for the Company's senior secured credit facility that increased the maximum aggregate amount of the revolving credit facility from \$155.0 million to \$165.0 million and amended certain of the credit agreement's definitions and covenants. The Company paid fees of approximately \$0.3 million in connection with this amendment.

At March 31, 2012, the Company had net unused available capacity of \$40.0 million on its revolving credit facility, after taking into account the senior leverage ratio requirements under the credit facility. The Company expects to use the remaining availability under this credit facility, if needed, for working capital, potential acquisitions, stock buy-backs and other general corporate purposes.

**Note 10. Common Stock**

The Company's stock buy-back plan permits the Company to repurchase up to 2 million shares of issued and outstanding common stock at prevailing market prices or negotiated prices at any time through December 31, 2013. The number of shares and the timing of the purchases will be determined at the discretion of management. No shares were repurchased during the three months ended March 31, 2012. During the three months ended March 31, 2011, the Company repurchased 137,500 shares under this plan at an average price of \$12.27 per share, for a total of \$1.7 million.

**Note 11. Income Taxes**

The provision for income taxes for the three months ended March 31, 2012, reflected a tax benefit of \$71,000 compared to \$2.4 million of expense for the three months ended March 31, 2011. The company is projecting a 2012 annual effective tax rate of 40.6%, before the impact of discrete items, compared to 37.4% for the same period last year. The increase in tax rate is primarily due to state tax expense increasing as a proportion of earnings and a smaller impact from noncontrolling interest adjustments. The provision for income taxes during interim quarterly reporting periods is based on our estimates of the effective tax rates for the respective full fiscal year.

**Table of Contents****Note 12. Major Customers and Related Parties**

NDeX has eight law firm customers and, of those customers, Trott & Trott, the Barrett law firm (both related parties) and Albertelli Law together comprised 36.7% of the Company's total revenues for the three months ended March 31, 2012.

NDeX has entered into long-term services agreements with its law firm customers, including Trott & Trott and the Barrett law firm, that provide for the exclusive referral of mortgage default and other files for processing. These services agreements also contemplate the review and possible revision of the fees, on an annual basis, for the services NDeX provides.

**Note 13. Reportable Segments**

The Company has two operating divisions: Professional Services and Business Information and three reportable segments: (1) Mortgage Default Processing Services; (2) Litigation Support Services; and (3) Business Information. The Mortgage Default Processing Services and Litigation Support Services segments are part of the Professional Services Division as these segments provide professional services supporting, primarily, attorneys and/or their clients. The Business Information segment is part of the Business Information Division. The Mortgage Default Processing Services segment generates revenue from NDeX, which provides mortgage default processing and related services to its customers. The Litigation Support Services segment generates revenue by providing discovery management and document review services through DiscoverReady LLC and appellate services through Counsel Press, LLC. Both of these operating segments generate revenues through fee-based arrangements. The Business Information segment provides products, data and certain services through subscription-based products and a variety of media, including court and commercial newspapers, weekly business journals and the Internet. The Business Information segment generates revenues primarily from display and classified advertising (which includes events), public notices, and subscriptions and other. The Company determined its reportable segments based on the types of products sold and services performed.

The tables below reflect summarized financial information concerning the Company's reportable segments for the three months ended March 31, 2012 and 2011 (in thousands):

	<b>Professional Services</b>				
	<b>Mortgage</b>				
	<b>Default</b>	<b>Litigation</b>	<b>Business</b>	<b>Corporate</b>	<b>Total</b>
	<b>Processing</b>	<b>Support</b>	<b>Information</b>		
<b>Three Months Ended March 31, 2012</b>					
<b>Income (expense)</b>					
Revenues	\$ 29,502	\$ 18,403	\$ 18,817	\$	\$ 66,722
Direct operating expenses	(15,143)	(8,274)	(7,168)		(30,585)
Selling, general and administrative expenses	(9,759)	(7,627)	(8,419)	(1,838)	(27,643)
Amortization and depreciation	(3,317)	(2,164)	(1,422)	(169)	(7,072)
Fair value adjustment on earnout liabilities		(81)	150		69
Equity in earnings of affiliates			425		425
Operating income (loss)	\$ 1,283	\$ 257	\$ 2,383	\$ (2,007)	\$ 1,916
<b>Three Months Ended March 31, 2011</b>					
<b>Income (expense)</b>					
Revenues	\$ 37,856	\$ 14,101	\$ 19,796	\$	\$ 71,753
Direct operating expenses	(17,676)	(5,826)	(7,809)		(31,311)
Selling, general and administrative expenses	(10,142)	(4,997)	(9,575)	(2,106)	(26,820)
Amortization and depreciation	(3,543)	(944)	(1,746)	(172)	(6,405)
Fair value adjustment on earnout liabilities	(189)		(141)		(330)
Equity in earnings of affiliates			748		748
Operating income (loss)	\$ 6,306	\$ 2,334	\$ 1,273	\$ (2,278)	\$ 7,635

## **Table of Contents**

### **Note 14. Share-Based Compensation**

The Company has reserved 4.8 million shares of its common stock for issuance under its incentive compensative plan, of which there were 1.8 million shares available for issuance as of March 31, 2012. Total share-based compensation expense for the three months ended March 31, 2012 and 2011, was \$0.8 million for both periods.

**Stock Options:** Share-based compensation expense related to stock options for the three months ended March 31, 2012 and 2011, was \$0.4 million and \$0.5 million, respectively.

At March 31, 2012, the aggregate intrinsic value of both options outstanding and options exercisable was \$0.5 million. At March 31, 2012, there was \$3.0 million of unrecognized compensation cost related to outstanding options, which is expected to be recognized over a weighted-average period of 2.4 years.

**Restricted Stock Grants:** Share-based compensation expense related to grants of restricted stock for the three months ended March 31, 2012 and 2011, was \$0.4 million and \$0.3 million, respectively.

Total unrecognized compensation expense for unvested restricted shares of common stock as of March 31, 2012, was \$2.9 million, which is expected to be recognized over a weighted-average period of 2.5 years.

### **Note 15. Contingencies and Commitments**

**Litigation:** From time to time, the Company is subject to certain claims and lawsuits that have arisen in the ordinary course of its business. Although the outcome of such existing matters cannot presently be determined, it is management's opinion that the ultimate resolution of such existing matters will not have a material adverse effect on the Company's results of operations or financial position.

---

### **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

We recommend that you read the following discussion and analysis in conjunction with our unaudited condensed consolidated interim financial statements and the related notes included in this report.

In this quarterly report on Form 10-Q, unless the context requires otherwise, the terms *we*, *us*, and *our* refer to The Dolan Company and its consolidated subsidiaries. When we refer to *National Default Exchange* or *NDeX* in this report, we mean all of our mortgage default processing operations in Michigan, Indiana and Minnesota and at Barrett-NDeX, as well as the Florida mortgage default and related title operations acquired from the Albertelli sellers in October 2009. When we refer to *Barrett-NDeX* in this report, it means the entities that constitute the mortgage default processing operations serving the Texas, California and Georgia markets that NDeX acquired on September 2, 2008. The term *Barrett law firm* refers to Barrett Daffin Frappier Turner & Engel, LLP and its two law firm affiliates. When we refer to the *Albertelli sellers* in this report, it means James E. Albertelli, P.A., The Albertelli Firm, P.C., Albertelli Title, Inc. and James E. Albertelli, as a group. We also refer to James E. Albertelli, P.A. and The Albertelli Firm, P.C., together, as the *Albertelli law firm*.

### **Forward-Looking Statements**

This discussion and analysis contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 and Section 27A of the Securities Act of 1933. Forward-looking statements are statements such as those contained in projections, plans, objectives, estimates, statements of future performance, and assumptions relating to any of the foregoing and can often be identified by the use of words such as *may*, *will*, *expect*, *anticipate*, *believe*, *intend*, *estimate*, *goal*, *continue*, and similar words or expressions. By their nature, statements are based on information currently available to us and are subject to risks, uncertainties and other factors that could cause our actual results, performance, prospects or opportunities to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and other factors include:

our businesses operate in highly competitive markets and depend on the economies and demographics of the legal, financial and real estate markets we serve, and changes in those sectors could have an adverse effect on our revenues, cash flows, and profitability;

if the number of case files referred to us by our mortgage default processing service law firm customers (or loan servicers and mortgage lenders we serve directly for mortgage default files in California) decreases or fails to increase, or if one or more of our law firm customers fails to pay us for our mortgage default processing services, our operating results and ability to execute our growth strategy could be adversely affected;

bills introduced and laws enacted to mitigate foreclosures, voluntary relief programs and voluntary halts by servicers or lenders, governmental investigations, enforcement actions, litigation, court orders, settlements, and any resulting additional procedures and longer processing times may have an adverse impact on our mortgage default processing business, including its margins, and on our public notice business;

our efforts to grow our business may place a strain on our management and internal systems, processes and controls, may result in operating inefficiencies, and may negatively impact our operating margins;

we intend to continue to pursue acquisition opportunities, which we may not do successfully and which may subject us to considerable business and financial risk or require us to raise additional capital or incur additional indebtedness;

a failure to comply with covenants under our debt instruments could result in acceleration of debt or an inability to access availability under our credit facility if we were unable to successfully negotiate mutually acceptable amendments or waivers;

## Edgar Filing: Dolan Co. - Form 10-Q

we depend on our senior management team and other key leaders of our business segments, and the operation and growth of our business may be negatively impacted if we lose any of their services;

revenues of our subsidiary NDeX and our subsidiary DiscoverReady have been very concentrated among a few customers, thus the loss of business from these customers and a failure to attract new customers could adversely affect our operating results; and

certain key personnel of our subsidiary NDeX, who are also shareholders and principal attorneys of our law firm customers, may under certain circumstances have interests that differ from or conflict with our interests.

## **Table of Contents**

See **Risk Factors** in Item 1A of our annual report on Form 10-K for the year ended December 31, 2011, filed on March 9, 2012, with the Securities and Exchange Commission ( SEC ) for a description of these and other risks, uncertainties and factors that could cause our actual results, performance, prospects or opportunities to differ materially from those expressed in, or implied by, any forward-looking statements. You should not place undue reliance on any forward-looking statements. Except as otherwise required by federal securities laws, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changed circumstances or any other reason after the date of this report.

## **Overview**

We are a leading provider of necessary professional services and business information to legal, financial and real estate sectors in the United States. We serve our customers through two complementary operating divisions: our Professional Services Division and our Business Information Division. Our Professional Services Division comprises two reporting segments: mortgage default processing services and litigation support services. Through our subsidiary, NDeX, we provide mortgage default processing services to eight law firm customers located in California, Florida, Georgia, Indiana, Michigan, Minnesota, and Texas, as well as directly to mortgage lenders and loan servicers on residential real estate located in California. Our subsidiaries DiscoverReady and Counsel Press comprise our litigation support services reporting segment. DiscoverReady provides outsourced discovery management and document review services to major United States and global companies and their counsel. Counsel Press provides appellate services to law firms and attorneys nationwide. Our Business Information Division publishes business journals, court and commercial media and other highly focused information products and services, operates web sites and produces events for targeted professional audiences in about 20 geographic markets across the United States. Our information is delivered through a variety of methods, including more than 60 print publications and more than 80 web sites. Through subscription-based offerings, our Business Information Division also offers transcription services and access to our legislative databases which provide federal and state legislative and regulatory information.

Our total revenues decreased \$5.0 million, or 7.0%, from \$71.8 million for the three months ended March 31, 2011, to \$66.7 million for the three months ended March 31, 2012, primarily as a result of an \$8.4 million decrease in our mortgage default processing services revenues and a \$1.0 million decrease in our Business Information Division revenues, partially offset by a \$4.3 million increase in our litigation support services revenues largely as a result of DiscoverReady's acquisition of ACT Litigation Services ( ACT ) in July 2011. The decrease in mortgage default processing services revenues was driven primarily by a decrease in the number of foreclosure files received for processing, as discussed below. Income from continuing operations changed from \$3.9 million for the three months ended March 31, 2011, to break-even for the current quarter.

## **Recent Developments**

### *Discontinued Operations / Assets Held for Sale*

In the fourth quarter of 2011, management committed to a plan of action to dispose of two of our smallest-market operating units within the Business Information Division. As explained in **Business Information Division Results** below, we expect the sale of these assets to occur in 2012, and as such, have classified the results of these operations (net of tax benefit), as discontinued operations. The assets of these operations, net of related liabilities, are included in assets held for sale.

## **Table of Contents**

### *Regulatory Environment*

Beginning in 2008, federal, state and local governmental entities and leaders have increasingly focused attention on foreclosures and have proposed and enacted legislation or taken other action that may have, and some of which has had, an adverse impact on the number of mortgage default case files NDeX is asked to process, the length of time and amount of work it takes to process such files, the time over which we recognize revenue associated with the processing of those files, our margins on our processing work, and the number of foreclosure public notices placed in our Business Information products and DLNP (our equity method investment) for publication. There also have been voluntary foreclosure relief programs developed by lenders, loan servicers and the Hope Now Alliance (a consortium that includes loan servicers). We have described these programs in our annual and quarterly reports in the past few years.

During the past 18 months, the mortgage foreclosure industry has experienced heightened scrutiny by various government agencies and individuals, leading to voluntary slowing of foreclosure referrals by servicers and lenders as they reviewed systems and provided information requested by the government, many audits of our processes, and newly mandated procedures.

In the federal sector, 14 major mortgage servicers signed consent orders with the Board of Governors of The Federal Reserve System and the Office of the Comptroller of the Currency ( OCC ) in April 2011, agreeing to submit action plans detailing how they will comply with new requirements for servicing defaulted loans. The OCC consent agreements required improvements to certain internal processes and enhanced controls related to third-party vendors that provide services related to residential default or foreclosure, including the law firm customers of NDeX. In June 2011, the OCC issued guidance clarifying that, in addition to these 14 major mortgage servicers, all mortgage servicers under OCC supervision must ensure compliance with foreclosure laws, conduct foreclosures in a safe and sound manner, and establish responsible business practices that provide accountability and appropriate treatment of borrowers. This OCC bulletin provided additional expectations regarding governance of foreclosure process to include adequate staffing and training, dual-track processing, management of affidavit and notary practices, documentation, oversight of third-party service providers, and adherence to all laws and regulations related to mortgage foreclosure. The OCC required servicers to complete revisions in foreclosure processing to the satisfaction of the Federal Reserve and the OCC and to reorganize their related foreclosure operations to follow the amended procedures. In addition, all national banks were required by the end of September 2011 to conduct a self-assessment of foreclosure management practices and to correct any weaknesses identified. The OCC continues to review the plans and information the banks submitted. The OCC indicated that it may require changes to the plans provided and that it is working with the United States Department of Justice and other federal and state authorities to finalize and synchronize the plans into a consistent set of servicing requirements.

The Consumer Financial Protection Bureau ( CFPB ) outlined its approach in July 2011 to supervising large depository institutions to ensure compliance with federal consumer protection laws. This supervisory process applies to the 111 depository institutions with total assets of more than \$10 billion. The CFPB then issued Supervision and Examination guidance for all lenders. This guidance covers how the CFPB will examine lenders and servicers processes going forward. We do not see a direct impact of this process upon our operations except that it further complicates operations of the mortgage servicers, making them more concerned about compliance issues and potentially extending their current slowdown in foreclosure referrals. In October 2011, the CFPB outlined its initial approach to supervising mortgage servicers to ensure they comply with federal consumer financial protection laws. It said it will focus initially on loans in default where consumers are struggling to make payments. CFPB examiners are looking to ensure that information provided to consumers about loan modifications and foreclosures is timely and transparent.

At the state level, in April 2012, the U.S. District Court for the District of Columbia approved the settlement among the attorneys general of 49 states and the District of Columbia and the nation's five largest mortgage lenders. That settlement applies to privately held mortgages issued between 2008 and 2011, not those held by government-controlled Fannie Mae or Freddie Mac. Under the settlement, the lenders committed \$17 billion toward reducing the principal that certain homeowners owe on their mortgages. The lenders also committed another \$3.7 billion toward refinancing mortgages for borrowers who are current on their payments, and the lenders will pay an additional \$5 billion in fines to the states and federal government. The lone attorney general not a part of this nationwide settlement was from Oklahoma, and he reached a \$18.6 million settlement with the five lenders in February 2012.

## **Table of Contents**

Given the OCC deadlines for reports and compliance, the CFPB's requirements, the attorneys general efforts and recent settlement, and the generally heightened scrutiny that residential mortgage foreclosure servicers experienced in the past 18 months, servicers have continued to react to this scrutiny by reviewing and verifying their policies and procedures, applying more steps, checks, and reviews to pending foreclosures, and releasing into foreclosure only those cases that have been carefully reviewed. Many servicers also reacted to this environment of increased scrutiny by requesting additional information and process verification from law firms and other third-party vendors. These servicer actions continued to reduce the number of mortgage defaults being referred to begin foreclosure. We believe that servicers will continue to exercise an abundance of caution, examining each default referral in extreme detail, effectively continuing the slow pace of referrals. Until any new foreclosure procedures are made uniform and final, such new procedures cannot become automated as part of our proprietary workflow process management systems. We believe that the reduced level of foreclosure referrals is likely to continue until final procedures are in place, and that once final procedures are in place that different lenders will refer remaining foreclosures out with varying rates and timing, but that a large number of defaulted loans in pre-foreclosure status and pending foreclosures remain to be undertaken and completed.

For additional information about legislation and regulatory activity impacting or potentially impacting our business, please see Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations Recent Developments Regulatory Environment in our annual report on Form 10-K for the year ended December 31, 2011, filed with the SEC on March 9, 2012, as well as the Regulatory Environment discussions in our prior reports filed with the SEC on Form 10-Q and Form 10-K.

## **Recent Acquisitions**

We have grown significantly since our predecessor company commenced operations in 1992, in large part due to acquisitions, such as the ACT acquisition in 2011:

### *Acquisition of ACT Litigation Services, Inc.*

On July 25, 2011, we, through DiscoverReady, completed the acquisition of substantially all of the assets of ACT for (i) an upfront payment of approximately \$60.0 million in cash that was paid in full at closing, plus (ii) up to \$5.0 million in potential additional purchase price that will be held back for a period of 20 months (subject to partial early release) to secure certain obligations of ACT and its shareholders, plus (iii) an earnout payment based primarily upon the extent to which an agreed-upon multiple of ACT's pro forma EBITDA for the year ended December 31, 2011, exceeds the base purchase price of \$65.0 million, plus (iv) two additional earnout payments of up to a maximum of \$15.0 million in the aggregate that are contingent upon reaching certain revenue milestones for the years ended December 31, 2012, and 2013. All of the earnout payments are subject to certain set-off rights under the purchase agreement. Management has estimated the fair value of the earnouts to be paid, in the aggregate, to be \$26.7 million as of March 31, 2012, of which \$14.7 million was paid in April 2012. Additionally, the majority of the balance due on the earnouts will be converted in the second quarter of 2012 to a note payable, which will be due in March 2013, and is subject to further adjustment based on certain revenue targets for 2012.

ACT specializes in providing technology and process solutions to clients with electronic discovery needs. It also provides hosting and review services. The acquired operations of ACT are part of our Litigation Support Services segment within our Professional Services Division.

## **Revenues**

We derive revenues from two operating divisions, our Professional Services Division and our Business Information Division, operating as three reportable segments: (1) mortgage default processing services; (2) litigation support services; and (3) business information. For the three months ended March 31, 2012 and 2011, our total revenues were \$66.7 million and \$71.8 million, respectively, and the percentage of our total revenues attributed to each of our divisions and segments was as follows:

72% for both periods from our Professional Services Division (44% and 53%, respectively, from mortgage default processing services and 28% and 20%, respectively, from litigation support services); and

28% for both periods from our Business Information Division.

## **Table of Contents**

*Professional Services.* Our Professional Services Division generates revenues primarily by providing mortgage default processing, outsourced discovery management and document review, and appellate services through fee-based arrangements. We further break down our Professional Services Division into two reportable segments, mortgage default processing services and litigation support services.

*Mortgage Default Processing Services.* Through NDeX, we assist eight law firms in processing foreclosure, bankruptcy, eviction and, to a lesser extent, other mortgage default case files for residential mortgages that are in default. We also provide foreclosure processing services directly to mortgage lenders and loan servicers for properties located in California. In addition, NDeX provides loss mitigation support on mortgage default files to its customers and related real estate title work primarily to the Barrett and Albertelli law firms. We refer to revenues that NDeX derives from these sources collectively as mortgage default processing service revenues. Shareholders and/or principal attorneys of our law firm customers, including David A. Trott, chairman and chief executive officer of NDeX, are executive management employees of NDeX.

For the three months ended March 31, 2012 and 2011, we received for processing approximately 66,200 and 92,300 mortgage default case files, respectively. Our mortgage default processing service revenues accounted for 44% and 53%, respectively, of our total revenues and 62% and 73%, respectively, of our Professional Services Division revenues during the three months ended March 31, 2012 and 2011. For the three months ended March 31, 2012, each of the Barrett law firm, Trott & Trott and Albertelli law firm accounted for more than 10% of our mortgage default processing services revenues, and together accounted for more than three-quarters of these revenues. We recognize mortgage default processing service revenues on a proportional basis over the period during which the services are provided, the calculation of which requires management to make estimates. For more information regarding how we recognize revenue, please see Critical Accounting Policies and Estimates Revenue Recognition in Item 7 *Management's Discussion and Analysis of Financial Condition and Results of Operations* in our annual report on Form 10-K for the year ended December 31, 2011, filed with the SEC on March 9, 2012.

NDeX's revenues are primarily driven by the number of residential mortgage defaults in each of the states in which we do business, as well as the type of files we process (e.g., foreclosures, evictions, bankruptcies or litigation) because each has a different pricing structure. Although the services agreements with our law firm customers contemplate the review and possible revision of the fees for the services we provide, price increases have not historically affected our mortgage default processing revenues materially. In some cases, our services agreements adjust the fee paid to us for the files we process on an annual basis pursuant to an agreed-upon consumer price index. In other cases, our services agreements require us to agree with our law firm customer regarding the terms and amount of any fee increase. If we are unable to negotiate fixed fee increases under these agreements that at least take into account the increases in costs associated with providing mortgage default processing services, our operating and net margins could be adversely affected. You should refer to *Management's Discussion and Analysis of Financial Condition and Results of Operations Revenues* in our annual report on Form 10-K for the year ended December 31, 2011, filed with the SEC on March 9, 2012, for more information about the conditions under which the fixed fee per file we charge our law firm customers may change.

Deferred revenue includes mortgage default processing services billed in advance that we expect to recognize in future periods due to the extended period of time it takes to process certain files. At March 31, 2012, we had such deferred revenue on our balance sheet in the amount of \$12.3 million.

*Litigation Support Services.* Our litigation support services segment generates revenues by providing discovery management and document review services through DiscoverReady and appellate services through Counsel Press. For the three months ended March 31, 2012 and 2011, our litigation support services revenues accounted for 28% and 20%, respectively, of our total revenues and 38% and 27%, respectively, of our Professional Services Division revenues.

DiscoverReady provides its services to major United States and global companies and their counsel and assists them in document reviews and helping them manage the discovery process. Discovery is the process by which parties use the legal system to obtain relevant information, primarily in litigation and regulatory matters. This process can be expensive and time-consuming for companies depending upon the volume of emails, electronic files and paper documents a company must review to respond to a document request. DiscoverReady also provides related technology management services. DiscoverReady bills its customers primarily based upon the number of documents reviewed and the amount of data or other information it processes in connection with those reviews. Accordingly, our discovery management and document review services revenues are largely determined by the volume of data we process, host and review.

## **Table of Contents**

Counsel Press assists law firms and attorneys throughout the United States in organizing, preparing and filing appellate briefs, records and appendices, in paper and electronic formats that comply with the applicable rules of the U.S. Supreme Court, any of the 13 federal courts of appeals and any state appellate court or appellate division. Counsel Press charges its customers primarily on a per-page basis based on the final appellate product that is filed with the court clerk. Accordingly, our appellate service revenues are largely determined by the volume of appellate cases we handle and the number of pages in the appellate cases we file.

We recognize litigation support services revenues during the month in which the services are provided. In the case of Counsel Press, this is when our final appellate product is filed with the court. In most cases, DiscoverReady bills its customers each month for the services provided. DiscoverReady's services consist of multiple element deliverables, and as such, revenue is assigned to each deliverable service and recognized as those services are performed. In situations where we bill our customers in advance of services performed, revenue is deferred until the month it is earned. At March 31, 2012, we recorded an aggregate \$1.8 million as deferred revenues related to litigation support services on our balance sheet. You should refer to *Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies and Estimates Revenue Recognition* in our annual report on Form 10-K for the year ended December 31, 2011, filed with the SEC on March 9, 2012, for more information about how we recognize revenue on DiscoverReady's multiple element arrangements.

**Business Information.** Our Business Information Division generates revenues primarily from display and classified advertising, public notice and subscriptions. We sell commercial advertising consisting of display and classified advertising in all of our print products and on most of our web sites. We include within our display and classified advertising revenue those revenues generated by sponsorships, advertising and ticket sales generated by our local events. Our display and classified advertising revenues accounted for 8% and 7%, respectively, of our total revenues and 27% and 26%, respectively, of our Business Information Division revenues for the three months ended March 31, 2012 and 2011. We recognize display and classified advertising revenues upon publication of an advertisement in one of our publications or on one of our web sites. Advertising revenues are driven primarily by the volume, price and mix of advertisements published as well as how many local events are held.

We publish more than 300 different types of public notices in our court and commercial newspapers, including foreclosure notices, probate notices, notices of fictitious business names, limited liability company and other business entity notices, unclaimed property notices, notices of governmental hearings and trustee sale notices. For the three months ended March 31, 2012 and 2011, our public notice revenues accounted for 13% and 12%, respectively, of our total revenues and 45% and 44%, respectively, of our Business Information Division revenues. We recognize public notice revenues upon placement of a public notice in one of our court and commercial newspapers. Public notice revenues are driven by the volume and mix of public notices published, which can be affected by the number of residential mortgage foreclosures in the markets where we are qualified to publish public notices and the rules governing publication of public notices in such states. In many of the states in which we publish public notices, the price for public notices is statutorily regulated, with market forces determining the pricing for the remaining states.

We sell our business information products primarily through subscriptions, including our DataStream and Federal News products, which are both part of our public affairs intelligence group. For the three months ended March 31, 2012 and 2011, our subscription and other revenues, which consist primarily of subscriptions, single-copy sales, transcriptions and access to state and federal legislative information, accounted for 8% of our total revenues for both periods and 28% and 30%, respectively, of our Business Information Division revenues. We recognize subscription revenues ratably over the subscription periods, which range from three months to multiple years, with the average subscription period being twelve months. Deferred revenue includes payment for subscriptions collected in advance that we expect to recognize in future periods. At March 31, 2012, we had such deferred revenue on our balance sheet in the amount of \$8.2 million. Subscription and other revenues are driven primarily by the number of copies sold and the subscription rates charged to customers.

---

## **Table of Contents**

### **Operating Expenses**

Our operating expenses consist of the following:

Direct operating expenses, which consist primarily of the cost of compensation and employee benefits for the operational staff at NDeX, DiscoverReady, and Counsel Press and our editorial personnel in our Business Information Division, production and distribution expenses, such as compensation (including stock-based compensation expense) and employee benefits for personnel involved in the production and distribution of our business information products, the cost of newsprint and delivery of our business information products, and packaging and data service fees in connection with our California foreclosure files;

Selling, general and administrative expenses, which consist primarily of the cost of compensation (including stock-based compensation expense) and employee benefits for our sales, human resources, accounting and information technology personnel, publishers and other members of management, rent, other sales and marketing related expenses and other office-related payments;

Amortization expense, which represents the cost of finite-lived intangibles acquired through business combinations allocated over the estimated useful lives of these intangibles, with such useful lives ranging from two to thirty years;

Depreciation expense, which represents the cost of fixed assets and software allocated over the estimated useful lives of these assets, with such useful lives ranging from one to thirty years; and

Fair value adjustments on earnout liabilities, which consists of non-cash adjustments to estimates of earnouts to be paid to sellers of businesses we acquire, based on management's estimated fair value of the earnout liability at each reporting date.

Total operating expenses as a percentage of revenues depends upon our mix of business from Professional Services, which is our higher margin revenue, and Business Information. This mix may continue to shift between fiscal periods.

### **Equity in Earnings of Affiliates**

We own 35.0% of the membership interests in DLNP, the publisher of The Detroit Legal News and 10 other publications. We account for our investment in DLNP using the equity method. For the three months ended March 31, 2012 and 2011, our share of DLNP's earnings was \$0.4 million and \$0.8 million, respectively. This is net of amortization of \$0.4 million for each period. NDeX handles all public notices required to be published in connection with files it services for Trott & Trott pursuant to our services agreement with Trott & Trott and places a significant amount of these notices in The Detroit Legal News. Trott & Trott pays DLNP for these public notices. See Liquidity and Capital Resources Cash Flow Provided by Operating Activities below for information regarding distributions paid to us by DLNP.

### **Noncontrolling Interest**

Noncontrolling interest (NCI) at March 31, 2012, consisted of a 6.2% redeemable interest in NDeX held by the sellers of Barrett-NDeX or their transferees (as a group), a 10.0% redeemable interest in DiscoverReady held by DR Holdco LLC and a 24.0% interest in Legislative Services of America (LISA) held by Telran, Inc.

Under the terms of the NDeX operating agreement, each month we are required to distribute the excess of NDeX's earnings before interest, depreciation and amortization less debt service with respect to any interest-bearing indebtedness of NDeX, capital expenditures and working capital reserves to NDeX's members on the basis of common equity interest owned. No such distributions were paid during the three months ended March 31, 2012. During the three months ended March 31, 2011, we paid distributions of \$36,000.

## **Table of Contents**

There is no similar distribution obligation under the DiscoverReady limited liability company agreement; however, we are obligated to make quarterly distributions to pay tax liabilities to DR Holdco, the minority member of DiscoverReady. No such distributions were made during the three months ended March 31, 2012 or 2011.

The sellers of Barrett-NDeX, each as members of NDeX, have the right, for a period of six months following September 2, 2012, to require NDeX to repurchase all or any portion of their respective membership interest in NDeX. To the extent any minority member of NDeX timely exercises this right, the purchase price of such membership interest will be based on 6.25 times NDeX's trailing twelve month earnings before interest, taxes, depreciation and amortization, less the aggregate amount of any interest bearing indebtedness outstanding for NDeX as of the date the repurchase occurs. The aggregate purchase price would be payable by NDeX in the form of a three-year unsecured note bearing interest at a rate equal to prime plus 2.0%.

Under the terms of DiscoverReady's amended limited liability company agreement, DR Holdco has the right, for a period of 90 days following November 2, 2012, to require DiscoverReady to repurchase approximately 50% of DR Holdco's equity interest in DiscoverReady, and for a period of 90 days following November 2, 2013, to require DiscoverReady to purchase DR Holdco's remaining equity interest in DiscoverReady. In addition, for a period of 90 days following November 2, 2013, DiscoverReady also has the right to require DR Holdco to sell its entire equity interest in DiscoverReady. In each case, if either party timely exercises its right, we would pay DR Holdco an amount based on the fair market value of the equity interest. These rights may be exercised earlier under certain circumstances. The purchase price for any equity interests repurchased or sold pursuant to these rights, if exercised, will be paid in cash to the extent allowed by the terms of our then-existing credit agreement, or pursuant to a three year unsecured promissory note, bearing interest at a rate equal to prime plus 1.0%.

The NDeX NCI is adjusted to the estimated redemption amount at each reporting period based on the formula as discussed above if the result of the formula is greater than its carrying value. The DiscoverReady NCI is adjusted to fair value at each period using a market approach if the fair value is greater than its carrying value. During the three months ended March 31, 2012, we recorded an increase to the NCI for NDeX of \$4.1 million (\$2.5 million net of tax), and a decrease to the NCI for DiscoverReady of \$2.9 million (\$1.8 million net of tax). Please see our unaudited condensed consolidated statements of stockholders' equity and comprehensive income, as well as Note 5 to our unaudited condensed consolidated interim financial statements, included in this report on Form 10-Q for further information regarding accounting for noncontrolling interests and its implications to our financial statements.

## **Critical Accounting Policies and Estimates**

Please see Note 1 to our unaudited condensed consolidated interim financial statements included in this report on Form 10-Q as well as Note 1 of the Notes to Consolidated Financial Statements included in our annual report on Form 10-K for the year ended December 31, 2011, filed with the SEC on March 9, 2012. Further, we discuss our critical accounting estimates in Item 7, *Management's Discussion and Analysis of Financial Condition and Results of Operations*, in our annual report on Form 10-K for the year ended December 31, 2011. There has been no significant change in our critical accounting policies or critical accounting estimates since the end of 2011.

**Table of Contents****RESULTS OF OPERATIONS**

The following table sets forth selected operating results, including as a percentage of total revenues, for the periods indicated below (in thousands, except per share data):

	Three Months Ended March 31,			
	2012	% of Revenues	2011	% of Revenues
Revenues:				
Professional Services	\$ 47,905	71.8%	\$ 51,957	72.4%
Business Information	18,817	28.2%	19,796	27.6%
Total revenues	66,722	100.0%	71,753	100.0%
Operating expenses:				
Professional Services	46,284	69.4%	43,128	60.1%
Business Information	17,009	25.5%	19,130	26.7%
Unallocated corporate operating expenses	2,007	3.0%	2,278	3.2%
Fair value adjustments on earnout liabilities	(69)	(0.1)%	330	0.5%
Total operating expenses	65,231	97.8%	64,866	90.4%
Equity in earnings of affiliates	425	0.6%	748	1.0%
Operating income	1,916	2.9%	7,635	10.6%
Interest expense, net	(2,004)	(3.0)%	(1,608)	(2.2)%
Non-cash interest income related to interest rate swaps		%	286	0.4%
(Loss) income from continuing operations before income taxes	(88)	(0.1)%	6,313	8.8%
Income tax benefit (expense)	71	0.1%	(2,369)	(3.3)%
(Loss) income from continuing operations	(17)	(0.0)%	3,944	5.5%
Discontinued operations, net of tax benefit	(160)	(0.2)%	(250)	(0.3)%
Net (loss) income	(177)	(0.3)%	3,694	5.1%
Less: Net loss (income) attributable to redeemable noncontrolling interests	346	0.5%	(219)	(0.3)%
Net income attributable to The Dolan Company	\$ 169	0.3%	\$ 3,475	4.8%
Income from continuing operations attributable to The Dolan Company per share:				
Basic	\$ 0.01		\$ 0.13	
Diluted	0.01		0.12	
Weighted average shares outstanding:				
Basic	30,175		30,129	
Diluted	30,272		30,365	

**Table of Contents****Three Months Ended March 31, 2012****Compared to Three Months Ended March 31, 2011****Revenues**

	Three Months Ended March 31,		Change	
	2012	2011		
	(in millions)			
Total revenues	\$ 66.7	\$ 71.8	\$ (5.0)	(7.0)%

Our total revenues declined primarily as a result of an \$8.4 million decrease in our mortgage default processing services revenues, partially offset by a \$4.3 million increase in our litigation support services revenues, primarily as a result of the revenues generated from DiscoverReady's ACT operations acquired in July 2011. The decrease in mortgage default processing services revenues was driven largely by a decrease in the number of new foreclosure files received for processing. Our business information revenues were down \$1.0 million for the three months ended March 31, 2012. You should refer to the more detailed discussions in Professional Services Division Results and Business Information Division Results below for more information regarding the causes of these changes.

We derived 71.8% and 72.4% of our total revenues from our Professional Services Division and 28.2% and 27.6% of our total revenues from our Business Information Division for the three months ended March 31, 2012 and 2011, respectively. In our Professional Services Division, revenues from our mortgage default processing services segment accounted for 44.2% and 52.8% of our total revenues for the three months ended March 31, 2012 and 2011, respectively. Revenues from our litigation support services segment (also part of our Professional Services Division) accounted for 27.6% and 19.7% of our total revenues for the three months ended March 31, 2012 and 2011, respectively. We continue to expect litigation support services to be a larger percentage of total revenues as a result of the ACT acquisition in July 2011.

**Operating Expenses**

	Three Months Ended March 31,		Change	
	2012	2011		
	(in millions)			
Total operating expenses	\$ 65.2	\$ 64.9	\$ 0.4	0.6%
Direct operating expenses	30.6	31.3	(0.7)	(2.3)%
Selling, general and administrative expenses	27.6	26.8	0.8	3.1%
Amortization expense	5.0	4.5	0.5	10.7%
Depreciation expense	2.1	1.9	0.2	9.7%
Fair value adjustments on earnout liabilities	(0.1)	0.3	(0.4)	(120.9)%

Total operating expenses as a percentage of total revenues increased from 90.4% for the three months ended March 31, 2011, to 97.8% for the three months ended March 31, 2012, largely as a result of decreased revenues in our mortgage default processing services business.

**Direct Operating Expenses.** The change in our direct operating expenses consisted of a \$0.1 million decrease in our Professional Services Division and a \$0.6 million decrease in our Business Information Division. You should refer to the more detailed discussions in Professional Services Division Results and Business Information Division Results below for more information regarding the causes of these changes. Direct operating expenses as a percentage of total revenues increased to 45.8% for the first quarter of 2012, from 43.6% for the same period in 2011.

## Table of Contents

**Selling, General and Administrative Expenses.** The change in our selling, general and administrative expenses consisted primarily of a \$2.2 million increase in our Professional Services Division, partially offset by a \$1.2 million decrease in our Business Information Division. Additionally, costs from our corporate operations decreased by \$0.3 million. You should refer to the more detailed discussions in Professional Services Division Results and Business Information Division Results below for more information regarding the causes of changes in our selling, general and administrative expenses. Selling, general and administrative expense as a percentage of revenue increased to 41.4% for the three months ended March 31, 2012, from 37.4% for the same period in 2011.

**Fair Value Adjustments on Earnout Liabilities.** Fair value adjustments on earnout liabilities consisted of \$0.1 million for the Professional Services Division and \$(0.2) million for the Business Information Division. You should refer to the more detailed discussions in Professional Services Division Results and Business Information Division Results below for more information regarding these items.

**Amortization and Depreciation Expense.** Our total amortization and depreciation expense increased primarily as a result of the depreciation and amortization of the assets acquired as part of the ACT acquisition.

### Interest Expense, Net

	Three Months Ended March 31,		Change	
	2012	2011		
	(in millions)			
Total interest expense, net	\$ 2.0	\$ 1.6	\$ 0.4	24.6%
Interest on bank credit facility	1.6	0.9	0.7	80.2%
Cash interest expense on interest rate swaps	0.3	0.6	(0.3)	(48.5)%
Amortization of deferred financing fees	0.1	0.1		13.5%

Interest expense related to our bank credit facility increased as a result of the increased borrowings to fund, primarily, the ACT acquisition in July 2011. Our average outstanding debt was \$178.0 million for the three months ended March 31, 2012, compared to \$130.6 million for the same period one year ago. At the same time, the average interest rate on our credit facility was 4.0% at March 31, 2012, compared to 2.6% one year ago. Cash interest incurred on our interest rate swaps decreased primarily as a result of a decrease in the notional amount of our swaps, due to the maturity on March 31, 2011, of a swap agreement with a notional amount of \$25 million.

### Equity in Earnings of Affiliates

	Three Months Ended March 31,		Change	
	2012	2011		
	(in millions)			
Equity in earnings of affiliates	\$ 0.4	\$ 0.7	\$ (0.3)	(43.2)%

Equity in earnings of affiliates decreased primarily as a result of a reduction in earnings recorded from our 35% interest in DLNP. The reduced earnings are the result of a reduction in public notice placements in their newspapers due to decreased foreclosure and workout volumes in the markets it serves.

### Income Tax (Benefit) Expense

	Three Months Ended March 31,		Change	
	2012	2011		
	(in millions)			
Income tax (benefit) expense	\$ (0.1)	\$ 2.4	\$ (2.4)	(103.0)%
Effective tax rate	81.1%	37.4%		

The provision for income taxes during interim quarterly reporting periods is based on our estimates of the effective tax rates for the respective full fiscal year. The tax rate in any quarter can be affected positively or negatively by adjustments that are required to be reported in the specific quarter of resolution. The tax benefit for the quarter ended March 31, 2012, reflects a projected annual effective tax rate of 40.6% and an additional \$35,000 of tax benefits recorded as discrete items in the period.

**Table of Contents****Professional Services Division Results****Revenues**

	Three Months Ended March 31,		Change	
	2012	2011		
	(in millions)			
Total revenues	\$ 47.9	\$ 52.0	\$ (4.1)	(7.8)%
Mortgage default processing services	29.5	37.9	(8.4)	(22.1)%
Litigation support services revenues	18.4	14.1	4.3	30.5%

Mortgage default processing services revenues decreased primarily due to decreased file volumes in many of the markets we serve, which is a continuation of trends we experienced throughout 2011. Our total files received for processing for the three months ended March 31, 2012, were down 28.3%, from 92,300 mortgage default case files for the three months ended March 31, 2011, to 66,200 mortgage default case files for the three months ended March 31, 2012. In the current quarter, foreclosure files received for processing were down about 20% compared to the first quarter of 2011, while lower revenue files, such as foreclosure restarts, mediations and transfer files saw larger decreases from the first quarter of last year. Given current market conditions, we expect file volumes to improve in the second half of 2012 over the current quarter.

The Barrett law firm, Albertelli law firm and Trott & Trott each accounted for more than 10%, and together accounted for approximately 83% of our mortgage default processing services segment and 51% of our Professional Services Division revenues during the three months ended March 31, 2012. In the three months ended March 31, 2011, The Barrett law firm, Albertelli law firm and Trott & Trott each accounted for more than 10%, and together accounted for approximately 83% of our mortgage default processing services segment and 60% of our Professional Services Division revenues.

The increase in litigation support services revenues is primarily a result of the added revenues from DiscoverReady's ACT operations acquired in July 2011. DiscoverReady's top two customers in the first quarter of 2012 accounted for 37% of segment revenues, only one of which was in excess of 10%. In the first quarter of 2011, DiscoverReady's top two customers accounted for nearly 50% of segment revenues, both of which were in excess of 10%.

**Operating Expenses Mortgage Default Processing Services**

	Three Months Ended March 31,		Change	
	2012	2011		
	(in millions)			
Total operating expenses	\$ 28.2	\$ 31.6	\$ (3.3)	(10.6)%
Direct operating expenses	15.1	17.7	(2.5)	(14.3)%
Selling, general and administrative expenses	9.8	10.1	(0.4)	(3.8)%
Amortization expense	2.5	2.5		(0.7)%
Depreciation expense	0.8	1.0	(0.2)	(20.3)%
Fair value adjustment on earnout liabilities		0.2	(0.2)	(100.0)%

Direct operating expenses decreased as a result of file volume decreases as discussed above and steps taken to reduce our costs at NDeX. Selling, general and administrative expenses also decreased as a result of cost control efforts in place in the quarter. In the current quarter, as a result of management's estimates of earnout probabilities, we did not make any adjustments to the fair value of the earnout liability related to NDeX's Florida operations, but we did adjust it in the first quarter of 2011.

**Table of Contents**

Total operating expenses attributable to our mortgage default processing services segment as a percentage of segment revenues increased to 95.7% for the three months ended March 31, 2012, from 82.8% for the three months ended March 31, 2011. This increase was primarily a result of a reduction in revenues.

**Operating Expenses Litigation Support Services**

	Three Months Ended March 31,			
	2012	2011	(in millions)	Change
Total operating expenses	\$ 18.1	\$ 11.8	\$ 6.4	54.2%
Direct operating expenses	8.3	5.8	2.4	42.0%
Selling, general and administrative expenses	7.6	5.0	2.6	52.6%
Amortization expense	1.5	0.7	0.8	108.0%
Depreciation expense	0.7	0.2	0.5	194.8%
Fair value adjustment on earnout liabilities	0.1		0.1	not meaningful

The increases in operating expenses are due primarily to the increased costs associated with operating DiscoverReady's ACT business acquired in July 2011. The fair value adjustment of \$0.1 million was related to the earnout liabilities recorded on DiscoverReady's ACT acquisition.

Total operating expenses attributable to our litigation support services segment as a percentage of segment revenues increased to 98.2% for the three months ended March 31, 2012, from 83.4% for the same period in 2011. This increase is primarily due to negative operating leverage at DiscoverReady due to investments made by DiscoverReady to grow its business, along with the additional costs of operating DiscoverReady's ACT operations.

**Business Information Division Results****Revenues**

	Three Months Ended March 31,			
	2012	2011	(in millions)	Change
Total Business Information Revenues	\$ 18.8	\$ 19.8	\$ (1.0)	(4.9)%
Display and classified advertising revenues	5.1	5.1		(0.2)%
Public notice revenues	8.4	8.7	(0.4)	(4.3)%
Subscription-based and other revenues	5.3	5.9	(0.6)	(10.0)%

The softness of public notice revenues that began in 2010 has continued into the first quarter of 2012, resulting in the variance in these revenues from the first quarter of 2011. However, public notice revenues have remained relatively consistent with the previous three quarters. The decrease in other revenues is due in large part to a single sale of historical data in the first quarter of 2011 within our public affairs intelligence group.

**Operating Expenses**

	Three Months Ended March 31,			
	2012	2011	(in millions)	Change
Total operating expenses	\$ 16.9	\$ 19.3	\$ (2.4)	(12.5)%
Direct operating expenses	7.2	7.8	(0.6)	(8.2)%
Selling, general and administrative expenses	8.4	9.6	(1.2)	(12.1)%
Amortization expense	1.0	1.3	(0.3)	(21.4)%
Depreciation expense	0.4	0.5	(0.1)	(11.0)%
Fair value adjustments on earnout liabilities	(0.2)	0.1	(0.3)	(206.4)%

**Table of Contents**

Operating expenses decreased primarily as a result of the consolidation of certain business functions among our publishing group units and other cost control efforts put in place to control discretionary spending and employee costs, as well lower direct costs due to lower revenues.

Total operating expenses attributable to our Business Information Division as a percentage of Business Information Division revenue decreased to 90.4% for the three months ended March 31, 2012, from 96.6% for the three months ended March 31, 2011, due to the cost control efforts put in place to reduce our operating expenses in this division.

**Discontinued Operations**

	Three Months Ended March 31,			
	2012	2011		Change
	(in millions)			
Discontinued operations, net of tax benefit	\$ (0.2)	\$ (0.3)	\$ 0.1	36.0 %

During the fourth quarter of 2011, management committed to sell two of our smallest-market stand-alone businesses within the Business Information Division. We are currently negotiating with prospective buyers of our Mississippi Business Journal and Colorado Springs Business Journal and related assets. We expect the sale of these assets to occur in 2012 and have classified the net assets and liabilities of these operations as assets held for sale and reported the results of the businesses in discontinued operations.

**Off Balance Sheet Arrangements**

We have not entered into any off balance sheet arrangements.

**Liquidity and Capital Resources**

Our primary sources of liquidity are cash flows from operations, available capacity under our credit facility, distributions received from DLNP, and available cash reserves. The following table summarizes our cash and cash equivalents, working capital and long-term debt, less current portion as of March 31, 2012, and December 31, 2011, as well as cash flows for the three months ended March 31, 2012, and 2011 (in thousands):

	March 31, 2012	December 31, 2011
Cash and cash equivalents	\$ 1,485	\$ 752
Working capital deficit	(15,744)	(4,375)
Long-term debt, less current portion	164,045	168,724

	Three Months Ended March 31, 2012	2011
Cash flows from operating activities	\$ 8,244	\$ 7,578
Cash flows from investing activities:		
Acquisitions and investments		(85)
Capital expenditures	(1,522)	(2,242)
Cash flows from financing activities	(5,982)	(7,384)

**Cash Flows Provided by Operating Activities**

The most significant inflows of cash are cash receipts from our customers. Operating cash outflows include payments to employees, payments to vendors for services and supplies and payments of interest and income taxes.

**Table of Contents**

Net cash provided by operating activities for the three months ended March 31, 2012, increased \$0.7 million, or 8.8%, to \$8.2 million from \$7.6 million for the three months ended March 31, 2011. While income from continuing operations was lower in the first quarter by \$3.9 million compared to the same period as last year, through disciplined management of working capital, we were able to increase our net cash provided by operating activities over the same period last year.

Working capital deficit changed from \$4.4 million at December 31, 2011, to \$15.7 million at March 31, 2012. This resulted primarily from the reclassification of earnouts payable from long-term to short-term in connection with the ACT acquisition.

Our allowance for doubtful accounts, allowance for doubtful accounts as a percentage of gross receivables, and days sales outstanding (DSO), as of March 31, 2012, December 31, 2011, and March 31, 2011, are set forth in the table below:

	March 31, 2012	December 31, 2011	March 31, 2011
Allowance for doubtful accounts (in thousands)	\$ 1,508	\$ 1,416	\$ 1,415
Allowance for doubtful accounts as a percentage of gross accounts receivable	2.0%	1.9%	2.1%
Days sales outstanding	106.4	99.1	84.2

Our allowance for doubtful accounts as a percentage of gross accounts receivable remained relatively constant for each period shown.

We calculate DSO by dividing net receivables by average daily revenue excluding circulation. Average daily revenue is computed by dividing total revenue for the quarter by the total number of days in the quarter. Our DSO increased from year-end primarily as a result of increased DSO at DiscoverReady due to reduced revenues. We did have strong collections in the quarter, but lower revenues contributed to the increase in the DSO. Our DSO increased from the first quarter of last year primarily as a result of carrying larger receivable balances in some of our NDeX operating units as a result of an increase in the length of time it takes to process foreclosures, most notably in Florida as this is a judicial state with longer foreclosure processing cycles. Please refer to *Recent Developments – Regulatory Environment* above for an explanation of some of the current factors that are contributing to the increase in time it is taking to process foreclosures.

At March 31, 2012, we had a significant concentration of credit risk relating to amounts due from NDeX's eight law firm customers. Of our total consolidated net receivable balance, \$41.8 million, or 57.6%, is related to amounts due from these customers, and includes both billed and unbilled amounts. Billed amounts represent \$34.0 million, or 47.0%, of our total consolidated net receivable balance. Partially offsetting our total accounts receivable exposure for these law firm customers is deferred revenue, for amounts billed but not yet earned, in the amount of \$12.3 million, which represents 29.5% of the total balances due. We do not carry an allowance for doubtful accounts as it relates to these law firm customers as we have not experienced any write-offs with these customers in the past.

We own 35.0% of the membership interests in The Detroit Legal Publishing, LLC, or DLNP, the publisher of The Detroit Legal News, and received distributions of \$0.7 million and \$1.4 million in the three months ended March 31, 2012 and 2011, respectively. This decrease in distributions received was due to decreased earnings generated by DLNP as a result of a reduction in public notice placements in their newspapers as discussed above. The operating agreement for DLNP provides for us to receive quarterly distribution payments based on our ownership percentage, which are a significant source of operating cash flow.

**Cash Flows Used in Investing Activities**

Net cash used in investing activities decreased \$0.8 million to \$1.5 million during the three months ended March 31, 2012, from \$2.3 million during the three months ended March 31, 2011. This decrease was primarily a result of reduced spending on capital projects in the current quarter. We expect the costs for capital expenditures to be in the range of 2–3% of our total revenues, on an aggregated basis, for the full year 2012.

## **Table of Contents**

### ***Cash Flows Used in Financing Activities***

Cash provided by financing activities primarily includes borrowings under our revolving credit agreement and the issuance of long-term debt. Cash used in financing activities generally includes the repayment of borrowings under the revolving credit agreement and long-term debt, payments on unsecured notes, payments to repurchase our common stock and the payment of fees associated with the issuance of long-term debt.

Net cash used in financing activities for the three months ended March 31, 2012, totaled \$6.0 million, compared to \$7.4 million during the three months ended March 31, 2011. Cash used in financing activities for both periods included similar amounts paid on our credit facility, but in the first quarter of 2011, we also repurchased common stock for \$1.7 million. Long-term debt, less current portion, decreased \$4.7 million, or 2.8%, to \$164.0 million as of March 31, 2012, from \$168.7 million as of December 31, 2011.

**Credit Agreement.** On December 6, 2010, we entered into a third amended and restated credit agreement, effective December 6, 2010, with a syndicate of bank lenders for a \$205.0 million senior secured credit facility comprised of a term loan facility in an initial aggregate amount of \$50.0 million due and payable in quarterly installments with a final maturity date of December 6, 2015, and a revolving credit facility in an initial aggregate amount of up to \$155.0 million, which may be increased pursuant to an accordion feature to up to \$200.0 million, with a final maturity date of December 6, 2015. The credit agreement was amended on March 6, 2012, to increase the maximum aggregate amount of the revolving credit facility from \$155.0 million to \$165.0 million and to amend certain of the credit agreement's definitions and covenants. In light of our recent and currently anticipated performance, we may need to negotiate additional amendments to certain of the credit agreement's definitions and covenants during the remainder of 2012 to maintain compliance with the terms of the credit agreement. Additionally under the credit agreement, if at any time after December 6, 2012, the outstanding principal balance of revolving loans under the revolving credit facility of the credit agreement exceeds \$50.0 million, \$50.0 million of such revolving loans shall convert to an amortizing term loan due and payable in quarterly installments with a final maturity date of December 6, 2015.

At March 31, 2012, we had \$43.8 million outstanding under our term loan, and \$125.0 million outstanding under our revolving line of credit and available capacity of approximately \$40.0 million, after taking into account the senior leverage ratio requirements under the credit agreement. We expect to use the remaining availability under our credit agreement, if at all, for working capital and other general corporate purposes, including the financing of acquisitions.

At March 31, 2012, the weighted average interest rate on our credit facility was 4.0%. If we elect to have interest accrue (1) based on the prime rate, then such interest is due and payable on the last day of each month and (2) based on LIBOR, then such interest is due and payable at the end of the applicable interest period that we elect, provided that if the applicable interest period is longer than three months interest will be due and payable in three month intervals. At March 31, 2012, of the total debt on our credit facility, \$74.0 million was at prime rate, and \$94.8 million was based on LIBOR.

### **Future Needs**

We expect that cash flow from operations, supplemented by short and long-term financing and the proceeds from our credit facility, as necessary, will be adequate to fund day-to-day operations and capital expenditure requirements, along with the holdback and/or earnouts due to the sellers of businesses we have acquired, including Datastream, NDeX Florida (acquired from the Albertelli Sellers), and ACT Litigation Services, and our payment obligations in connection with our 2009 and 2010 purchases of ownership interests in NDeX from minority partners. However, our ability to generate sufficient cash flow in the future could be adversely impacted by regulatory, lender and other responses to the mortgage foreclosure crisis, including new and proposed legislation and lenders' voluntary and required loss mitigation efforts and moratoria, including those described in *Recent Developments Regulatory Environment* earlier in this quarterly report.

## **Table of Contents**

A decision to repurchase shares of our common stock as permitted under our stock repurchase program may impact our cash needs in the future. This program was approved by our board of directors in December 2010, permitting us to repurchase up to 2 million shares of our common stock at any time through December 31, 2013. We did not repurchase any shares under this program in the first three months of 2012. See Recent Developments Stock Buy-Back Plan earlier in this quarterly report on Form 10-Q for a discussion of this plan.

We plan to continue to develop and evaluate potential acquisitions to expand our product and service offerings and customer base and enter new geographic markets. We intend to fund these acquisitions over the next twelve months with funds generated from operations and borrowings under our credit facility. We may also need to raise money to fund these acquisitions, as we did for the acquisition of Barrett-NDEx in 2008, through the sale of our equity securities or additional debt financing, including takedowns under our \$200 million shelf registration statement declared effective by the SEC on January 27, 2010.

Our ability to secure short-term and long-term financing in the future will depend on several factors, including our future profitability and cash flow from operations, the quality of our short and long-term assets, our relative levels of debt and equity, the financial condition and operations of acquisition targets (in the case of acquisition financing) and the overall condition of the credit markets.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk**

We are exposed to market risks related to interest rates. Other types of market risk, such as foreign currency risk, do not arise in the normal course of our business activities. Our exposure to changes in interest rates is limited to borrowings under our credit facility. However, as of March 31, 2012, we had swap arrangements that convert \$75 million of our variable rate term loan into a fixed rate obligation. The aggregate notional amount of our two swap agreements will mature on various dates through December 31, 2014. In addition to this swap, we held a swap agreement with a notional amount of \$25 million, which matured on March 31, 2011. We enter into derivative financial instrument transactions, such as swaps, in order to manage or reduce our exposure to risk from changes in interest rates. We do not enter into derivatives or other financial instrument transactions for speculative purposes.

We recognize all of our derivative instruments as either assets or liabilities in the consolidated balance sheet at fair value. We record the fair value of our swap agreements in accrued liabilities or other liabilities on our balance sheet, depending on the timing of the expiration of the swap agreement. The accounting for changes in the fair value of a derivative instrument, like our interest rate swap agreements, depends on whether it has been designated and qualifies for hedge accounting. As of March 31, 2012, we have designated our two interest rate swap agreements for hedge accounting treatment. Accordingly, we record changes in the fair value of this swap agreement in other comprehensive income or loss (net of tax) on our balance sheet for the period then ended. Conversely, we treated the fair value of the swap agreement that terminated on March 31, 2011, and did not qualify for hedge accounting treatment, as a component of interest income (expense) in our statement of operations for the period then ended.

During the first quarter of 2011, we recognized interest income of \$0.3 million related to the fair value of the interest rate swap agreement that did not qualify for hedge accounting and terminated on March 31, 2011. We did not hold any interest rate swap agreements that did not qualify for hedge accounting during the three months ended March 31, 2012. At both March 31, 2012 and 2011, we have \$1.3 million (net of tax) included in other accumulated comprehensive loss related to the fair value of our interest rate swap agreements. At March 31, 2012, and December 31, 2011, the estimated fair value of our fixed interest rate swaps was a liability of \$2.0 million and \$2.1 million, respectively.

If the future interest yield curve decreases, the fair value of our interest rate swap agreements will decrease and interest expense will increase. If the future interest yield curve increases, the fair value of our interest rate swap agreements will increase and interest expense will decrease.

Based on the variable-rate debt included in our debt portfolio, a 75 basis point increase in interest rates would have resulted in additional interest expense of \$0.2 million (pre-tax) for the three months ended March 31, 2012.

---

**Item 4. Controls and Procedures**

**Evaluation of Disclosure Controls and Procedures**

We carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based on such evaluation, our chief executive officer and chief financial officer have concluded that, as of the end of such period, our disclosure controls and procedures were effective and provided reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported accurately and within the time frames specified in the SEC's rules and forms and accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

**Changes in Internal Control over Financial Reporting**

There were no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the three months ended March 31, 2012, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II OTHER INFORMATION**

**Item 1. Legal Proceedings**

We are from time to time involved in ordinary, routine litigation incidental to our normal course of business, and we do not believe that any such existing litigation is material to our financial condition or results of operations.

**Item 1A. Risk Factors**

There have been no material changes from the risk factors we previously disclosed in Part I Item 1A. Risk Factors in our annual report on Form 10-K for the year ended December 31, 2011, filed with the SEC on March 9, 2012.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

In December 2010, our Board of Directors approved a common stock repurchase program that allows us to purchase up to 2 million shares of our common stock at market prices at the discretion of management at any time through December 31, 2013. At March 31, 2012, 1,862,500 shares remained available under the program. No repurchases were made during the first quarter of 2012.

**Item 3. Defaults Upon Senior Securities**

None.

**Item 4. Mine Safety Disclosures**
