1. CONSOLIDATED RESULTS OF OPERATIONS AND FINANCIAL CONDITIONS

(Please refer to Summary of Financial Results for Fiscal 2011 for more information.)

(1) Analysis of Results of Operations

Reviewing the economic environment over the fiscal year ended March 31, 2012, despite the continuing overall gradual recovery of the global economy, the recovery remains weak due to destabilization of the international financial and capital markets caused by the fiscal problems in Europe and the decline in exports to Europe impacting the real economies of newly developing countries.

In the United States, gradual recovery in the economy continues on the basis of positive trends in consumer spending due to an improvement in employment conditions among other things. However, the risk remains of a slackening in the economy with rising oil prices, considering there is still pressure to squeeze debt on a household level. In addition, there is uncertainty as to a sustained economic recovery with the government pressed to implement a tight fiscal policy due to the constraints imposed by the debt ceiling. In Europe, the economy has entered a slowdown phase, with the fiscal problems experienced by certain countries impacting the real economy. Although the intense concern has been eased since the beginning of 2012 due to the restructuring of the debts of Greece and the provision of long-term funding by the European Central Bank (ECB), the future of the European economy holds little prospect of a drastic speedy fix for the Euro-area's debt problems, and it is difficult to predict the effects on the global economy. In Asia, although the region continues to maintain relatively strong economic growth, its economy is slowing as a whole from the impact of, among others, the decline in exports associated with the economic stagnation in Europe.

In Japan, the recovery from the impact of the Great Eastern Japan Earthquake continues. Despite the temporary standstill in exports and production due to the impact of the floods in Thailand in early fall 2011, there are visible signs of recovery. As for the future direction of the economy, while there are boosting factors such as the growing demand in relation to reconstruction efforts and a pause in the excessive appreciation of the value of the yen against other currencies, there are also several causes for concern, such as rising oil prices, the downturn in overseas economies and electricity shortages, posing a risk that these factors will act as a drag on economic growth.

Under the foregoing business environment, we recorded Net Income of ¥484.5 billion for fiscal 2011.

As for earnings estimates for fiscal 2012, we estimate Ordinary Profits of ¥735.0 billion and Net Income of ¥500.0 billion on a consolidated basis.

(2) Analysis of Financial Conditions

Consolidated total assets as of March 31, 2012 amounted to ¥165,360.5 billion, increasing by ¥4,548.4 billion from the end of the previous fiscal year, mainly due to increases in Securities.

Securities were ¥51,392.8 billion, increasing by ¥6,610.8 billion from the end of the previous fiscal year.

The balance of Loans and Bills Discounted amounted to ¥63,800.5 billion, increasing by ¥1,022.7 billion from the end of the previous fiscal year.

Deposits amounted to ¥78,811.9 billion, decreasing by ¥422.0 billion from the end of the previous fiscal year.

Net Assets amounted to ¥6,869.2 billion, increasing by ¥245.2 billion from the end of the previous fiscal year. Shareholders' Equity was ¥4,762.7 billion, Accumulated Other Comprehensive Income was ¥146.6 billion and Minority Interests was ¥1,957.6 billion.

Net Cash Provided by Operating Activities was ¥4,163.0 billion mainly due to increased Guarantee Deposits Received under Securities Lending Transactions. Net Cash Provided by (Used in) Investing Activities was ¥(6,175.6) billion mainly due to acquisition of securities, and Net Cash Provided in Financing Activities was ¥(680.6) billion mainly due to redemption of subordinated bonds.

As a result, Cash and Cash Equivalents as of March 31, 2012 was ¥6,483.1 billion.

The Consolidated Capital Adequacy Ratio (Basel II BIS Standard) was 15.49% (preliminary).

Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value at the consolidated balance sheet date (cost of securities sold is calculated primarily by the moving average method). Other Securities, the fair values of which are extremely difficult to determine, are stated at acquisition cost or amortized cost and determined by the moving average method.

4. Derivative Transactions

Derivative transactions (other than transactions for trading purposes) are valued at fair value.

7. Reserves for Possible Losses on Loans

Reserves for Possible Losses on Loans of major domestic consolidated subsidiaries are maintained in accordance with internally established standards for write-offs and reserve provisions.

For claims extended to obligors that are legally bankrupt under the Bankruptcy Law, Special Liquidation under the Company Law or other similar laws (Bankrupt Obligors), and to obligors that are effectively in similar conditions (Substantially Bankrupt Obligors), reserves are maintained at the amounts of claims net of direct write-offs described below and expected amounts recoverable from the disposition of collateral and the amounts recoverable under guarantees. For claims extended to obligors that are not yet legally or formally bankrupt but are likely to be bankrupt (Intensive Control Obligors), reserves are maintained at the amounts deemed necessary based on overall solvency analyses of the amounts of claims net of expected amounts recoverable from the disposition of collateral and the amounts recoverable under guarantees.

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

For claims extended to Intensive Control Obligors and Obligors with Restructured Loans and others, if the exposure to an obligor exceeds a certain specific amount, reserves are provided as follows: (i) if future cash flows of the principal and interest can be reasonably estimated, the discounted cash flow method is applied, under which the reserve is determined as the difference between the book value of the loan and its present value of future cash flows discounted using the contractual interest rate before the loan was classified as a Restructured Loan, and (ii) if future cash flows of the principal and interest cannot be reasonably estimated, reserves are provided for the losses estimated for each individual loan. For claims extended to other obligors, reserves are maintained at rates derived from historical credit loss experience and other factors. Reserve for Possible Losses on Loans to Restructuring Countries is maintained in order to cover possible losses based on analyses of the political and economic climates of the countries.

All claims are assessed by each claim origination department in accordance with the internally established Self-assessment Standard, and the results of the assessments are verified and examined by the independent examination departments. Reserves for Possible Losses on Loans are provided for on the basis of such verified assessments.

In the case of claims to Bankrupt Obligors and Substantially Bankrupt Obligors, which are collateralized or guaranteed by a third party, the amounts deemed uncollectible (calculated by deducting the anticipated proceeds from the sale of collateral pledged against the claims and amounts that are expected to be recovered from guarantors of the claims) are written off against the respective claims balances. The total directly written-off amount was ¥327,650 million.

Other consolidated subsidiaries provide the amount necessary to cover the loan losses based upon past experience and other factors for general claims and the assessment for each individual loan for other claims.

8. Reserve for Possible Losses on Investments

Reserve for Possible Losses on Investments is maintained to provide against possible losses on investments in securities, after taking into consideration the financial condition and other factors concerning the investee company.

Assets and Liabilities denominated in foreign currencies of the consolidated subsidiaries, except for the transactions mentioned above, are translated into Japanese yen primarily at the exchange rates in effect at the respective balance sheet dates.

18. Hedge Accounting

(1) Interest Rate Risk

The deferred method, the fair-value hedge method or the exceptional accrual method for interest rate swaps are applied as hedge accounting methods.

The portfolio hedge transaction for a large volume of small-value monetary claims and liabilities of domestic consolidated banking subsidiaries and domestic consolidated trust banking subsidiaries is accounted for in accordance with the method stipulated in the Accounting and Auditing Treatment relating to Adoption of Accounting Standards for Financial Instruments for Banks (JICPA Industry Audit Committee Report No.24).

The effectiveness of hedging activities for the portfolio hedge transaction for a large volume of small-value monetary claims and liabilities is assessed as follows:

(i) as for hedging activities to offset market fluctuation risks, the effectiveness is assessed by bracketing both the hedged instruments, such as deposits and loans, and the hedging instruments, such as interest-rate swaps, in the same maturity bucket.

(ii) as for hedging activities to fix the cash flows, the effectiveness is assessed based on the correlation between a base interest rate index of the hedged instrument and that of the hedging instrument.

The effectiveness of the individual hedge is assessed based on the comparison of the fluctuation in the market or of cash flows of the hedged instruments with that of the hedging instruments.

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

Among Deferred Gains or Losses on Hedges recorded on the consolidated balance sheet, those deferred hedge losses are included that resulted from the application of the macro-hedge method based on the Tentative Accounting and Auditing Treatment relating to Adoption of Accounting Standards for Financial Instruments for Banks (JICPA Industry Audit Committee Report No.15), under which the overall interest rate risks inherent in loans, deposits and others are controlled on a macro-basis using derivatives transactions. The deferred hedge gains/losses are amortized as interest income or interest expenses over the remaining maturity and average remaining maturity of the respective hedging instruments. The unamortized amounts of gross deferred hedge losses and gross deferred hedge gains on the macro-hedges, before net of applicable income taxes were ¥7,813 million and ¥5,732 million, respectively.

1-26

(2) Foreign Exchange Risk

Domestic consolidated banking subsidiaries and some of domestic consolidated trust banking subsidiaries apply the deferred method of hedge accounting to hedge foreign exchange risks associated with various financial assets and liabilities denominated in foreign currencies as stipulated in the Accounting and Auditing Treatment relating to Adoption of Accounting Standards for Foreign Currency Transactions for Banks (JICPA Industry Audit Committee Report No.25). The effectiveness of the hedge is assessed by confirming that the amount of the foreign currency position of the hedged monetary claims and liabilities is equal to or larger than that of currency-swap transactions, exchange swap transactions, and similar transactions designated as the hedging instruments of the foreign exchange risk.

In addition to the above methods, these subsidiaries apply the deferred method or the fair-value hedge method to portfolio hedges of the foreign exchange risks associated with investments in subsidiaries and affiliates in foreign currency and Other Securities in foreign currency (except for bonds) identified as hedged items in advance, as long as the amount of foreign currency payables of spot and forward foreign exchange contracts exceeds the amount of acquisition cost of the hedged foreign securities in foreign currency.

(3) Inter-company Transactions

Inter-company interest rate swaps, currency swaps and similar derivatives among consolidated companies or between trading accounts and other accounts, which are designated as hedges, are not eliminated and related gains and losses are recognized in the statement of income or deferred under hedge accounting, because these inter-company derivatives are executed according to the criteria for appropriate outside third-party cover operations which are treated as hedge transactions objectively in accordance with JICPA Industry Audit Committee Reports No. 24 and 25.

Mizuho Financial Group is scheduled to apply this accounting standard from the beginning of the fiscal year starting on April 1, 2013.

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

On adoption of this accounting standard, those special purpose entities that had not previously been treated as subsidiaries, where the transferor of the assets to the special purpose entity is not a domestic bank subsidiary, will be newly included within the scope of consolidation.

The impact of the application of this accounting standard and others issued but not yet adopted is currently under consideration.

(8) CHANGE IN PRESENTATION OF FINANCIAL STATEMENTS

Certain items in expenses regarding stock transfer agency business and pension management business, which had been recorded as General and Administrative Expenses in some domestic consolidated trust bank subsidiary until the previous fiscal year, have been recorded as Fee and Commission Expenses beginning with this fiscal year, from the standpoint that we should disclose our financial information which reflects economic conditions more clearly in a manner that actively responds to our profits, after turning the relevant trust bank subsidiary into a wholly-owned subsidiary of MHFG.

(TAX EFFECT ACCOUNTING)

Act on Partial Amendment to the Income Tax Act, etc. in order to Create a Tax System Responding to Structural Changes of Economy and Society (Act No. 114, 2011) and Act on Special Measures Concerning Securing Financial Resources Necessary for the Implementation of Measures to recover from the Great East Japan Earthquake (Act No. 117, 2011) were promulgated on December 2, 2011, and accordingly, the corporate income tax rate has been lowered and the special corporation tax for restoration has been imposed from the consolidated fiscal year beginning on or after April 1, 2012.

Due to these changes, the effective statutory tax rate used by MHFG for the calculation of deferred tax assets and deferred tax liabilities has been revised from the previous rate of 40.69%. The rate of 38.01% has been applied to the temporary differences, expected to be either deductible, taxable or expired from the fiscal year beginning on April 1, 2012 through the fiscal year beginning on April 1, 2014, while the rate of 35.64% has been applied to the temporary differences, expected to be either deductible, taxable or expired on or after the fiscal year beginning April 1, 2015. In addition, due to the revision of the carry-forward system of the net operating losses, the amount of net operating losses that can be deducted has been limited to the equivalent of 80% of taxable income before such deductions from the consolidated fiscal year beginning on April 1, 2012.

As a result of the changes in tax rates and the carry-forward system of the losses, Deferred Tax Assets decreased by ¥22,705 million, Net Unrealized Gains on Other Securities increased by ¥6,960 million, Deferred Gains or Losses on Hedges increased by ¥5,020 million, and Deferred Income Taxes increased by ¥34,686 million. Deferred Tax Liabilities for Revaluation Reserve for Land decreased by ¥11,821 million and Revaluation Reserve for Land increased by the same amount.

SUMMARY OF FINANCIAL RESULTS

For Fiscal 2011

<Under Japanese GAAP>

Mizuho Financial Group, Inc.

Summary Results for Fiscal 2011

I. Summary of Income Analysis

Ø Consolidated Net Business Profits

Consolidated Gross Profits for fiscal 2011 decreased by JPY 22.2 billion on a year-on-year basis to JPY 2,003.0 billion.

Gross Profits of the 3 Banks decreased by JPY 3.6 billion on a year-on-year basis. This was mainly due to a decrease of JPY 5.5 billion in income from Customer Groups including domestic business, despite an increase in that from overseas business, particularly from Asia. Income from Trading & Others exceeded that for the previous fiscal year through flexible and timely operations interpreting market trends properly.

G&A Expenses of the 3 Banks increased by JPY 10.5 billion on a year-on-year basis mainly due to an increase in expenses associated with employee retirement benefits, partly offset by our continued efforts in overall cost reduction.

Aggregated Consolidated Gross Profits (Net Operating Revenues) of our two securities subsidiaries (Mizuho Securities and Mizuho Investors Securities) decreased by JPY 31.9 billion on a year-on-year basis.

As a result, Consolidated Net Business Profits amounted to JPY 719.1 billion, a year-on-year decrease of JPY 22.6 billion.

Ø Consolidated Net Income

Consolidated Net Income of Mizuho Securities decreased by JPY 66.3 billion, turning into a loss of JPY 95.6 billion on a year-on-year basis, due to a decrease in Net Operating Revenues amid a severe market environment as well as the recording of special retirement benefits, a reversal of deferred tax assets, and others.

Credit-related Costs of the 3 Banks amounted to a net reversal of JPY 24.7 billion, primarily due to improved obligor classifications achieved through our business revitalization support to corporate customers, and other factors. Consolidated Credit-related Costs also amounted to a net reversal of JPY 27.7 billion, a year-on-year improvement of JPY 44.3 billion.

Net Losses related to Stocks of the 3 Banks amounted to JPY 50.3 billion, mainly due to recording impairment losses for certain stocks reflecting a decline in stock prices.

Due to factors such as those mentioned above, the JPY 77.4 billion impact of turning the three listed subsidiaries into wholly-owned subsidiaries, the JPY -34.6 billion impact of the tax rate amendment following corporate tax reform and the JPY -20.8 billion impact from Jusen (housing loan companies), Consolidated Net Income amounted to JPY 484.5 billion. This exceeded our fiscal 2011 plan of JPY 460.0 billion by JPY 24.5 billion, and the achievement ratio against the plan was approximately 105%.

Ø **Net Interest Income**

The average loan balance for the second half of fiscal 2011 increased by JPY 3.0 trillion compared with that for the first half of fiscal 2011. The period end loan balance as of March 31, 2012 increased by JPY 2.2 trillion compared with that as of September 30, 2011.

This resulted primarily from an increase in overseas loans, particularly in Asia, loans to large corporate customers and those to the Japanese Government.

The domestic loan-and-deposit rate margin for the fourth quarter of fiscal 2011 (three-month period from January to March 2012) was 1.30%, remaining flat from that for the third quarter (three-month period from October to December 2011).

Ø **Non-interest Income**

Non-interest Income from Customer Groups of the 3 Banks (on a managerial accounting basis) for fiscal 2011 increased by JPY 12.8 billion from that for fiscal 2010.

This was mainly due to an increase in non-interest income from overseas business, income associated with investment trusts and individual annuities from individual customers, solution-related income from corporate customers, and income from foreign exchange business.

Unrealized Gains (Losses) on Other Securities (Consolidated) improved by JPY 90.5 billion on a year-on-year basis, mainly due to the impact of a decline in interest rates.

III. Disciplined Capital Management

We have been implementing disciplined capital management by pursuing the optimal balance between strengthening of stable capital base and steady returns to shareholders.

Regarding the new capital regulations, we aim to increase our Common Equity Capital Ratio* as of the end of fiscal 2012, when the new capital regulations are scheduled to be implemented, to the mid-8% level, and to accumulate a sufficient level of Common Equity Capital, giving due regard to the timeline of the phase-in implementation through the end of fiscal 2018.

Specifically, we will strive to accumulate our capital steadily and to strengthen our financial base further, mainly by accumulating retained earnings and improving asset efficiency through our various initiatives, such as the steady implementation of Mizuho's Transformation Program and the realization in advance of the synergy effects of the integrated group-wide business operations including the transformation into one bank.

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

Accordingly, we believe we will be able to sufficiently meet the new capital regulations including the framework to identify G-SIFIs.

* Our calculation of our Common Equity Capital Ratio includes the outstanding balance of the Eleventh Series Class XI Preferred Stock that will be mandatorily convertible into common stock in July 2016. Our Common Equity Capital Ratio is the estimated figure that Mizuho Financial Group calculates based on the publicly-available materials that have been issued to date.

(Note) The outstanding balance of the Eleventh Series Class XI Preferred Stock as of March 31, 2012 (excluding treasury stock) was JPY 373.6 billion (60.4% of the initial amount issued of JPY 943.7 billion had already been converted into common stock as of such date).

Earnings Plan for Fiscal 2012

(Figures below are on a consolidated basis)

Fiscal 2012 is the final year of Mizuho's Transformation Program that we announced in May 2010.

Accordingly, we plan Consolidated Net Income for fiscal 2012 to be JPY 500.0 billion as was set forth in the Program.

Ø We plan Consolidated Net Business Profits for fiscal 2012 to be JPY 830.0 billion, a year-on-year increase of JPY 110.8 billion. Net Business Profits of the 3 Banks for fiscal 2012 are planned to increase from the previous fiscal year, mainly because we plan income from Customer Groups to increase and continue our overall cost reduction efforts to achieve the target level set in Mizuho's Transformation Program, although income from trading segment, which showed a solid performance in the previous fiscal year, is conservatively estimated. We will endeavor to further strengthen profitability, primarily by promoting group collaboration thoroughly among the banking, trust and securities functions in light of turning the three listed group companies into wholly-owned subsidiaries as well as by realizing in advance the synergy effects of the transformation of Mizuho Bank and Mizuho Corporate Bank into one bank.

As for consolidated subsidiaries, we estimate Mizuho Securities to improve its financial performance mainly through the steady implementation of the Business Foundation Strengthening Program that was announced in April 2012.

Ø Credit-related Costs on a consolidated basis are planned to be a loss of JPY 110.0 billion, given the continued uncertainty over the global economy, although we continue our detailed business revitalization support to corporate customers.

Ø We estimate Net Gains (Losses) related to Stocks to be JPY 0 (zero), despite our ongoing efforts to reduce our stock portfolio.

Ø We plan to make cash dividend payments of JPY 6 per share of common stock as annual dividend payments for the fiscal year ending March 31, 2013, unchanged from that in the previous fiscal year, in consideration of the balance between strengthening of stable capital base and steady returns to shareholders. We also plan to make cash dividend payments on preferred stock as prescribed. Pertaining to the above, we continue to plan to make interim cash dividend payments in order to provide returns to shareholders at a more appropriate timing.

* In addition to Securities on the consolidated balance sheets, NCDs in Cash and Due from Banks, certain items in Other Debt Purchased and certain items in Other Assets are also included.

* Fair value of Japanese stocks with a quoted market price is determined based on the average quoted market price over the month preceding the consolidated balance sheet date.

Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value at the consolidated balance sheet date.

* The book values of Other Securities which have readily determinable fair value are stated at fair value, so Unrealized Gains/Losses indicate the difference between book values on the consolidated balance sheets and the acquisition costs.

* Unrealized Gains/Losses include ¥(7,343) million, ¥(12,484) million and ¥(1,242) million, which were recognized in the statement of income for March 31, 2012, September 30, 2011 and March 31, 2011, respectively, by applying the fair-value hedge method and others.

As a result, the base amounts to be recorded directly to Net Assets after tax and consolidation adjustments as of March 31, 2012, September 30, 2011 and March 31, 2011 are ¥91,209 million, ¥(145,225) million and ¥609 million, respectively.

* Unrealized Gains (Losses) on Other Securities, net of Taxes (recorded directly to Net Assets after tax and consolidation adjustments, excluding the amount recognized in the statement of income by applying the fair-value hedge method and others, including translation differences regarding securities, the fair values of which are extremely difficult to determine) as of March 31, 2012, September 30, 2011 and March 31, 2011 are ¥37,857 million, ¥(152,381) million and ¥(21,648) million, respectively.

Assessment of Recoverability of Deferred Tax Assets is based on the provisory clause of 5. (1) of Audit Guideline for Considering Recoverability of Deferred Tax Assets (JICPA Audit Committee Report No. 66). Period for future taxable income considered in the assessment is five years.

Future taxable income was estimated using assumptions used in the Business Plan, etc. Details of the respective estimated five-year totals are as follows:

Net Business Profits (before Reversal of (Provision for) General Reserve for Possible Losses on Loans): ¥1,413.5 billion [1]

Income before Income Taxes: ¥963.5 billion [2]

Taxable Income before Current Deductible Temporary Differences: ¥1,382.9 billion [4].

On the other hand, Deferred Tax Assets which are tax deductible in the future, such as Reserves for Possible Losses on Loans amount to ¥599.9 billion [14]. However, after considering temporary differences which are not expected to be reversed in the next five years, Valuation Allowance of ¥250.4 billion [15] was provided, therefore after offsetting Deferred Tax Liabilities of ¥126.6 billion [21], ¥222.7 billion [22] of Net Deferred Tax Assets was recorded on the balance sheet.
