Form 10-Q

(Mark One)

QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2012

..

For the transition period from to

Commission file number 001-32172

XPO Logistics, Inc.

(Exact name of registrant as specified in its charter)

Edgar Filing: XPO Logistics, Inc. - Form 10-Q

Delaware
(State or other jurisdiction of
incorporation or organization)

03-0450326
(I.R.S. Employer
Identification No.)

Five Greenwich Office Park
Greenwich, CT 06831

(Address of principal executive offices)

(855) 976-4636

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of November 6, 2012, there were 17,921,794 shares of the registrant's common stock, par value \$0.001 per share, outstanding.

XPO Logistics, Inc.

Notes to Condensed Consolidated Financial Statements

Three and Nine Months Ended September 30, 2012 and 2011

(Unaudited)

1. Organization

Nature of Business

XPO Logistics, Inc. (the Company) provides premium transportation and logistics services to thousands of customers through its three business units:

Freight Brokerage provides truckload brokerage transportation services throughout the United States through our wholly-owned subsidiaries Bounce Logistics, Inc. (Bounce), XPO Logistics Canada Inc. and XPO Logistics, LLC.

Expedited Transportation provides time-critical expedited transportation through our wholly-owned subsidiary Express-1, Inc. (Express-1). This typically involves dedicating one truck and driver to a load which has a specified time delivery requirement. Most of the services provided are completed through a fleet of exclusive use vehicles that are owned and operated by independent contract drivers, whom we refer to as owner operators. The use of non-owned resources to provide services minimizes the amount of capital investment required and is often described with the terms non-asset or asset-light.

Freight Forwarding provides freight forwarding services through our wholly-owned subsidiary Concert Group Logistics, Inc. (CGL). Freight forwarding transportation services are sold and arranged for under the authority of CGL through independently-owned stations and seven company-owned branches located throughout the United States.

For specific financial information relating to the above business units, refer to **Note 12 Operating Segments**.

2. Basis of Presentation and Significant Accounting Policies

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) and in accordance with the instructions to Form 10-Q. Certain information and note disclosures normally included in annual financial statements have been condensed or omitted pursuant to those rules and regulations. However, we believe that the disclosures contained herein are adequate to make the information presented not misleading.

These unaudited condensed consolidated financial statements reflect, in our opinion, all material adjustments (which include only normal recurring adjustments) necessary to fairly present our financial position as of September 30, 2012 and December 31, 2011, and results of operations for the three- and nine-month periods ended September 30, 2012 and 2011. The preparation of the condensed consolidated financial statements requires management to make estimates and judgments that affect the reported amounts of assets and liabilities and the disclosure of contingencies at the date of the financial statements as well as the reported amounts of revenue and expense during the reporting period. Estimates have been prepared on the basis of the most current and best available information and actual results could differ materially from those estimates.

These unaudited condensed consolidated financial statements and notes thereto should be read in conjunction with the audited consolidated financial statements and notes thereto for the fiscal year ended December 31, 2011 in our Annual Report on Form 10-K and available on the SEC 's website (www.sec.gov). Results of operations for interim periods are not necessarily indicative of results to be expected for a full year.

Use of Estimates

The Company prepares its unaudited condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America. These principles require management to make estimates and assumptions that impact the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenue and expense during the

reporting period. The Company reviews its estimates on a regular basis and makes adjustments based on historical experience and existing and expected future conditions. Estimates are made with respect to, among other matters, accrued revenue, purchased transportation, recoverability of long-lived assets, accrual of acquisition earn-outs, estimated legal accruals, valuation allowances for deferred taxes, reserve for uncertain tax positions, and allowance for doubtful accounts. These evaluations are performed and adjustments are made as information is available. Management believes that these estimates, which have been discussed with the audit committee of the Company's board of directors, are reasonable; however, actual results could differ from these estimates.

Significant Accounting Policies

Revenue Recognition

The Company recognizes revenue at the point in time when delivery is completed on the freight shipments it handles, with related costs of delivery being accrued as incurred and expensed within the same period in which the associated revenue is recognized. The Company uses the following supporting criteria to determine that revenue has been earned and should be recognized:

Persuasive evidence of an arrangement exists;

Services have been rendered;

The sales price is fixed and determinable; and

Collectability is reasonably assured.

The Company reports revenue on a gross basis in accordance with the Financial Accounting Standards Board's (FASB) Accounting Standard Codification (ASC) Topic 605, *Reporting Revenue Gross as Principal Versus Net as an Agent*. The Company believes presentation on a gross basis is appropriate under ASC Topic 605 in light of the following factors:

The Company is the primary obligor and is responsible for providing the service desired by the customer.

The customer holds the Company responsible for fulfillment, including the acceptability of the service (requirements may include, for example, on-time delivery, handling freight loss and damage claims, establishing pick-up and delivery times, and tracing shipments in transit).

For Expedited Transportation and Freight Brokerage, the Company has complete discretion to select its drivers, contractors or other transportation providers (collectively, service providers). For Freight Forwarding, the Company enters into agreements with significant service providers that specify the cost of services, among other things, and has ultimate authority in providing approval for all service providers that can be used by Freight Forwarding's independently-owned stations. Independently-owned stations may further negotiate the cost of services with Freight Forwarding-approved service providers for individual customer shipments.

Expedited Transportation and Freight Brokerage have complete discretion to establish sales prices. Independently-owned stations within Freight Forwarding have the discretion to establish sales prices.

The Company bears credit risk for all receivables. In the case of Freight Forwarding the independently-owned stations reimburse Freight Forwarding for a portion (typically 70-80%) of credit losses. Freight Forwarding retains the risk that the independent station owners will not meet this obligation.

Cash and cash equivalents

Edgar Filing: XPO Logistics, Inc. - Form 10-Q

We consider all highly liquid investments with an original maturity of three months or less as of the date of purchase to be cash equivalents unless the investments are legally or contractually restricted for more than three months.

Income Taxes

Taxes on income are provided in accordance with ASC Topic 740, *Income Taxes*. Deferred income tax assets and liabilities are recognized for the expected future tax consequences of events that have been reflected in the unaudited condensed consolidated financial statements. Deferred tax assets and liabilities are determined based on the differences between the book values and the tax basis of particular assets and liabilities, and the tax effects of net operating loss and capital loss carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in the tax rate is recognized as income or expense in the period that included the enactment date. A valuation allowance is provided to offset the net deferred tax assets if, based upon the available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. Management periodically assesses the likelihood that the company will utilize its existing deferred tax assets and records a valuation allowance for deferred tax assets when it is more likely than not that such deferred tax assets will not be realized.

Accounting for uncertainty in income taxes is determined based on ASC Topic 740, which clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements and provides guidance on the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. ASC Topic 740 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosures and transition. For additional information refer to **Note 10 Income Taxes**.

Goodwill and Intangible Assets with Indefinite Lives

Goodwill consists of the excess of cost over the fair value of net assets acquired in business combinations. Intangible assets with indefinite lives consist principally of the Express-1 and CGL trade names. The Company follows the provisions of ASC Topic 350, *Intangibles Goodwill and Other*, which requires an annual impairment test for goodwill and intangible assets with indefinite lives. If the carrying value of intangibles with indefinite lives exceeds their fair value, an impairment loss is recognized in an amount equal to that excess. Goodwill is evaluated using a two-step impairment test at the reporting unit level. The first step compares the book value of a reporting unit, including goodwill, with its fair value. If the book value of a reporting unit exceeds its fair value, the Company completes the second step in order to determine the amount of goodwill impairment loss that should be recorded. In the second step, the Company determines an implied fair value of the reporting unit's goodwill by allocating the fair value of the reporting unit to all of the assets and liabilities other than goodwill. The amount of impairment is equal to the excess of the book value of goodwill over the implied fair value of that goodwill. The Company performs the annual impairment testing during the third quarter unless events or circumstances indicate impairment of the goodwill may have occurred before that time. For the periods presented, the Company did not recognize any goodwill impairment as the estimated fair value of its reporting units with goodwill exceeded the book value of these reporting units. For additional information refer to **Note 6 Goodwill**.

Identifiable Intangible Assets

The Company follows the provisions of ASC Topic 360, *Property, Plant and Equipment*, which establishes accounting standards for the impairment of long-lived assets such as property, plant and equipment and intangible assets subject to amortization. The Company reviews long-lived assets to be held-and-used for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. If the sum of the undiscounted expected future cash flows over the remaining useful life of a long-lived asset group is less than its carrying amount, the asset is considered to be impaired. Impairment losses are measured as the amount by which the carrying amount of the asset group exceeds the fair value of the asset. The Company estimates fair value using the expected future cash flows discounted at a rate commensurate with the risks associated with the recovery of the asset. During the nine-month periods ended September 30, 2012 and 2011, there was no impairment of the identified intangible assets.

The Company's intangible assets subject to amortization consist of non-compete agreements, customer relationships and other intangibles that are amortized on a straight-line basis over the estimated useful lives of the related intangible asset. The estimated useful lives of the respective intangible assets range from four months to 12 years.

The following table sets forth the Company's identifiable intangible assets as of September 30, 2012 and December 31, 2011 (in thousands):

	September 30, 2012	December 31, 2011
Indefinite Lived Intangibles		
Trade names	\$ 6,420	\$ 6,420
Definite Lived Intangibles:		
Trade names	521	220
Non-compete agreements	1,250	763
Customer lists and relationships	4,131	1,974
Other intangible assets	2,067	1,996
	7,969	4,953
Less: accumulated amortization	(3,902)	(3,320)
Intangible assets, net	\$ 4,067	\$ 1,633
Total Identifiable Intangibles	\$ 10,487	\$ 8,053

Other Long-Term Assets

Other long-term assets consist primarily of balances representing various deposits, and notes receivable from various CGL independent station owners. Also included within this account classification are incentive payments to independent station owners within the CGL network. These payments are made by CGL to certain station owners as an incentive to establish an independently-owned station. These amounts are amortized over the life of each independent station contract and the unamortized portion generally is recoverable in the event of default under the terms of the agreements.

Foreign Currency Translation

Exchange gains or losses incurred on transactions conducted by our business units in a currency other than the business units' functional currency are normally reflected in cost of sales in our Consolidated Statement of Income. Assets and liabilities of Kelron, which has the U.S. dollar as its functional currency (but which maintains its accounting records in Canadian currency), have their values remeasured into U.S. dollars at year-end exchange rates, except for non-monetary items for which historical rates are used. Exchange gains or losses are not material to the condensed consolidated statement of operations for the periods presented.

Foreign Currency Hedging and Derivative Financial Instruments

We enter into derivative contracts, primarily foreign currency forward contracts, to protect against fluctuations in exchange rates. These contracts are for expected future cash flows and not for speculative purposes. The Company reflects changes in fair value of these contracts in the condensed consolidated statement of operation.

Fair Value Measurements

FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and classifies the inputs used to measure fair value into the following hierarchy:

Level 1 Quoted prices for identical instruments in active markets;

Edgar Filing: XPO Logistics, Inc. - Form 10-Q

Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are observable in active markets; and

Level 3 Valuations based on inputs that are unobservable, generally utilizing pricing models or other valuation techniques that reflect management's judgment and estimates.

The following table sets forth the Company's financial assets and liabilities that were accounted for at fair value on a recurring basis as of September 30, 2012 and December 31, 2011 (in thousands):

	Fair Value Measurements as of September 30, 2012			
	Total	Level 1	Level 2	Level 3
Assets:				
Money market funds	\$ 290,989	\$ 290,989	\$	\$
Foreign currency forward contracts	\$ 23	\$ 23	\$	\$
Liabilities:				
Contingent consideration obligations	\$ 323	\$	\$	\$ 323

	Fair Value Measurements as of December 31, 2011			
	Total	Level 1	Level 2	Level 3
Assets:				
Money market funds	\$	\$	\$	\$
Foreign currency forward contracts	\$	\$	\$	\$
Liabilities:				
Contingent consideration obligations	\$ 450	\$	\$	\$ 450

Estimated Fair Value of Financial Instruments

The aggregate net fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management. The respective carrying value of certain financial instruments approximated their fair values as of the periods ended September 30, 2012 and 2011. These financial instruments include cash, accounts receivable, notes receivable, accounts payable, accrued expense, notes payable and short-term borrowings. Fair values approximate carrying values for these financial instruments since they are short-term in nature and they are receivable or payable on demand. The fair value of the Freight Forwarding notes receivable from the owners of the independently-owned stations approximated their respective carrying values based on the interest rates associated with these instruments.

The Company has convertible senior notes for which we are obligated to repay the face value, unless the holder agrees to a lesser amount or elects to convert all or a portion of such notes into the Company's common stock. The aggregate principal amount of these convertible notes at issuance were \$125.0 million with a fair value of \$122.6 million. The convertible notes were allocated to long-term debt and equity in the amounts of \$92.8 million and \$27.5 million, respectively. These amounts are net of debt issuance costs of \$3.6 million for debt and \$1.1 million for equity. The convertible notes contain an optional redemption right in favor of the Company, although it is our present intent not to exercise such redemption right. Accordingly, the fair value of the bifurcated coupon make-whole premium that would be payable to holders in the event of a redemption has been valued at \$0.0 million. For additional information refer to **Note 5 Debt** and **Note 13 Subsequent Events**.

Stock-Based Compensation

The Company accounts for share-based compensation based on the equity instrument's grant date fair value in accordance with ASC Topic 718, *Compensation - Stock Compensation*. The fair value of each share-based payment award is established on the date of grant. For grants of restricted stock units, including those subject to service-based vesting conditions and those subject to service and performance-based vesting conditions, the fair value is established based on the market price on the date of the grant. For grants of options, the Company uses the Black-Scholes option pricing model to estimate the fair value of share-based payment awards. The determination of the fair value of share-based awards is affected by the Company's stock price and a number of assumptions, including expected volatility, expected life, risk-free interest rate and expected dividends.

The weighted-average fair value of each stock option recorded in expense for the nine-month period ended September 30, 2012 was estimated on the date of grant using the Black-Scholes option pricing model and is amortized over the requisite service period of the option. The Company has used one grouping for the assumptions, as its option grants have similar characteristics. The expected term of options granted has been derived based upon the Company's history of actual exercise behavior and represents the period of time that options granted are expected to be outstanding. Historical data was also used to estimate option exercises and employee terminations. Estimated volatility is based upon the Company's historical market price at consistent points in a period equal to the expected life of the options. The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant and the expected dividend yield is zero. For additional information refer to **Note 8 Stock-Based Compensation**.

Earnings per Share

Earnings per common share are computed in accordance with ASC Topic 260, *Earnings per Share*, which requires companies to present basic earnings per share and diluted earnings per share. For additional information refer to **Note 9 Earnings per Share**.

Internal Use Software

The Company has adopted the provisions of ASC Topic 350, *Intangibles Goodwill and Other*. Accordingly, certain costs incurred in the planning and evaluation stage of internal use computer software are expensed as incurred. Costs incurred during the application development stage are capitalized and included in property and equipment. Capitalized internal use software totaled \$0.1 million and \$0.0 million as of September 30, 2012 and December 31, 2012, respectively. Capitalized internal use software costs are amortized over the expected economic life of three years using the straight-line method.

Please also refer to Note 1 of the *Notes to Consolidated Financial Statements* in the audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2011 for a more complete discussion of the Company's significant accounting policies.

3. Acquisitions

Kelron Logistics, Inc.

On August 3, 2012, the Company purchased all of the outstanding capital stock of Kelron Corporate Services Inc. and certain related entities (collectively, *Kelron*), a non-asset, third-party logistics business based in Canada. Founded in 1992, Kelron serves more than 750 customers through locations in Toronto, Ontario; Vancouver, British Columbia; Montreal, Quebec; and Cleveland, Ohio. The purchase price was \$8.0 million, including \$2.6 million of consideration for the outstanding stock and \$5.4 million of assumed debt and liabilities. The working capital adjustments in connection with this acquisition are being finalized, although the Company does not expect there to be a material change in the purchase price as a result.

The Kelron acquisition was accounted for as a purchase business combination in accordance with ASC 805 *Business Combinations*. Assets acquired and liabilities assumed were recorded in the accompanying condensed consolidated balance sheet at their estimated fair values as of August 3, 2012, with the remaining unallocated purchase price recorded as goodwill. The following table outlines the Company's consideration transferred and the identifiable net assets acquired at their estimated fair value as of August 3, 2012 (in thousands).

Consideration	\$ 2,646
Net Assets Acquired	(2,426)
Intangibles acquired:	
Fair value of Trademarks/Trade names	251
Fair value of Technology	75
Fair value of Non Compete Agreement	377
Fair value of Customer Relationships	1,207
Net deferred tax liability on fair value adjustments	(276)
Goodwill	\$ 3,438

As of September 30, 2012, the purchase price allocation was not finalized. The Company is still evaluating the fair value of accounts receivable, intangible assets and deferred taxes. All goodwill recorded related to the acquisition relates to the Freight Brokerage segment and is not deductible for Canadian income tax purposes.

In conjunction with the acquisition, the Company issued notes payable to the sellers totaling \$1.0 million. The notes do not bear any interest. The notes were treated as consideration transferred as part of the acquisition and are payable in equal quarterly installments on November 3, February 3, May 3 and August 3 of each year with the final installment to be due and payable on August 3, 2015. We used an imputed interest rate of 4.53% to determine the appropriate discount to apply to the notes. The carrying value of the notes payable at September 30, 2012 was \$0.9 million.

In conjunction with the acquisition of Kelron on August 3, 2012, the Company assumed Kelron's credit agreements with Royal Bank of Canada (RBC) dated April 21, 2011 and amended May 8, 2012 (the Agreements), which provide for a \$5.0 million revolving demand facility (the Revolving Demand Facility) subject to certain borrowing limits. Borrowings under the Revolving Demand Facility can be made either as Royal Bank Prime based loans in Canadian currency at the interest rate equal to the Royal Bank Prime (as defined in the Agreements) rate plus 2.00 percent or as Royal Bank US Base Rate loans in U.S. currency at the interest rate equal to the Royal Bank US Base Rate (as defined in the Agreements) plus 2.00 percent. Borrowings under the Revolving Demand Facility are payable upon demand by RBC. The Revolving Demand Facility is guaranteed by a first ranking security interest in all personal property of Kelron. The Agreements contain customary representations, warranties and general covenants, with which the Company was in compliance at September 30, 2012.

The following unaudited pro forma consolidated results of operations for the nine-month periods ended September 30, 2012 and 2011 present consolidated information of the Company as if the Kelron acquisition had occurred as of January 1, 2011 (in thousands):

	Pro Forma Nine Months Ended September 30, 2012	Pro Forma Nine Months Ended September 30, 2011
Revenue	\$ 229,134	\$ 208,470
Operating Income (Loss)	\$ (17,614)	\$ 3,300
Net Income (Loss)	\$ (20,140)	\$ (43,247)
Earnings per common share		
Basic	\$ (1.35)	\$ (5.26)
Diluted	\$ (1.35)	\$ (5.26)

The unaudited pro forma consolidated results for the nine-month periods were prepared using the acquisition method of accounting and are based on the historical financial information of Kelron and the Company. The historical financial information has been adjusted to give effect to the pro forma adjustments that are: (i) directly attributable to the acquisition, (ii) factually supportable and (iii) expected to have a continuing impact on the combined results. The unaudited pro forma consolidated results are not necessarily indicative of what our consolidated results of

operations actually would have been had we completed the acquisition on January 1, 2011.

Continental Freight Services, Inc.

On May 8, 2012, the Company purchased all of the outstanding capital stock of Continental Freight Services, Inc. (Continental) and all of the membership interests in G & W Tanks, LLC. Founded in 1980, Continental is headquartered in Columbia, S.C., with branches and agent locations in Texas, North Carolina, and South Carolina. The Continental acquisition was accounted for as a purchase business combination in accordance with ASC Topic 805 *Business Combinations* . Assets acquired and liabilities assumed were recorded in the accompanying consolidated balance sheet at their estimated fair values as of May 8, 2012 with the remaining unallocated purchase price recorded as goodwill.

The cash purchase price was \$3.5 million, excluding any working capital adjustments and a potential earn-out of up to \$0.3 million. The Company also accrued \$0.3 million in the opening balance sheet related to a pre-existing employment agreement with an employee that required a payment related to the sale of Continental which was subsequently paid in the period ended June 30, 2012. As a result of the acquisition, the Company recorded goodwill of \$2.1 million and intangible assets of \$1.1 million.

The acquisition of Continental includes a contingent consideration arrangement that requires additional consideration to be paid by the Company to Continental s former owners based on the adjusted gross profit of Continental during the twelve month period commencing June 1, 2012. The range of the undiscounted amounts the Company could pay under the contingent consideration agreement is between \$0.0 million and \$0.3 million. The fair value of the contingent consideration recognized on the acquisition date of \$0.3 million was estimated by applying the income approach.

4. Commitments and Contingencies

Lease Commitments

As of September 30, 2012, the company had approximately \$14.5 million in future minimum payments required under operating leases for various real estate, transportation and office equipment leases that have an initial or remaining non-cancelable lease term. Remaining future minimum payments related to these operating leases amount to approximately \$0.3 million, \$2.2 million, \$1.8 million, \$1.5 million, and \$6.7 million for the periods ending December 31, 2012, 2013, 2014, 2015, and 2016 and thereafter, respectively.

Rent expense was approximately \$0.5 million and \$0.1 million for the three month periods ended September 30, 2012 and 2011, respectively, and \$1.1 million and \$0.3 million for the nine month periods ended September 30, 2012 and 2011, respectively.

Litigation

The Company recently became involved in litigation in the Fourth Judicial District Court, County of Hennepin, State of Minnesota, relating to our hiring of former employees of C.H. Robinson Worldwide, Inc. (C.H. Robinson). In the litigation, C.H. Robinson alleges the following against the Company: (1) tortious interference with contractual employment-related relationships; (2) misappropriation of trade secrets; and (3) inducing, aiding and abetting breaches of contract. C.H. Robinson is seeking temporary, preliminary and permanent injunctions, direct and consequential damages, and attorney s fees. On August 23, 2012, the Court denied C.H. Robinson s motion for a temporary injunction to prevent us from communicating with C.H. Robinson employees, among other things, but granted C.H. Robinson s motion for expedited discovery in connection with the litigation and enjoined two individual defendant employees of the Company. The legal discovery process is underway on this matter and the preliminary injunction hearing is scheduled for November 20, 2012. We believe that we have strong legal defenses to the asserted claims and we are evaluating the counterclaims available to us. However, we cannot assure you that an adverse outcome would not significantly impact our ability to execute certain of our growth initiatives.

The Company is a party to a variety of other legal actions, both as a plaintiff and as a defendant that arose in the ordinary course of business, and may in the future become involved in other legal actions. The Company does not currently expect any of these matters or these matters in the aggregate to have a material adverse effect on the Company s results of operations, financial condition or cash flows. However, the results of these matters cannot be predicted with certainty, and an unfavorable resolution of one or more of these matters could have a material adverse effect on the Company s financial condition, results of operations or cash flows.

The Company carries liability and excess umbrella insurance policies that it deems sufficient to cover potential legal claims arising in the normal course of conducting its operations as a transportation company. In the event the Company is required to satisfy a legal claim in excess of the coverage provided by this insurance, the Company's financial condition, results of operations or cash flows could be negatively impacted.

5. Debt

Long-Term Debt and Capital Leases

The Company uses financing for acquisitions and business start-ups, among other things. The Company also enters into long-term debt and capital leases with various third parties from time to time to finance certain operational equipment and other assets used in its business operations. Generally, these loans and capital leases bear interest at market rates, and are collateralized with accounts receivable, equipment and certain other assets of the Company.

On September 26, 2012 XPO Logistics, Inc. completed the registered underwritten public offering of 4.50% convertible senior notes due October 1, 2017, in an aggregate principal amount of \$125.0 million. The convertible notes were allocated to long-term debt and equity in the amounts of \$92.8 million and \$27.5 million, respectively. These amounts are net of debt issuance costs of \$3.6 million for debt and \$1.1 million for equity. Interest is payable on the notes on April 1 and October 1 of each year, beginning on April 1, 2013.

Under certain circumstances at the election of the holder, the convertible notes may be converted until the close of business on the business day immediately preceding April 1, 2017, into cash, shares of the Company's common stock, or a combination of cash and shares of common stock, at the Company's election, at the initial conversion rate of approximately 60.85 shares of common stock per \$1,000 in principal amount, which is equivalent to an initial conversion price of approximately \$16.43 per share. In addition, following certain corporate events that occur prior to the maturity date, the Company will increase the conversion rate for a holder who elects to convert its convertible notes in connection with such corporate event in certain circumstances. On or after April 1, 2017, until the close of business on the business day immediately preceding the maturity date, holders may convert their convertible notes at any time. The convertible notes may be redeemed by the Company on or after October 1, 2015 if the last reported sale price of the Company's common stock has been at least 130% of the conversion price then in effect for at least 20 trading days (whether or not consecutive), including the trading day immediately preceding the date on which the Company provides notice of redemption, during any 30 consecutive trading day period ending on, and including, the trading day immediately preceding the date on which the Company provides notice of redemption. The Company may redeem the convertible notes in whole but not in part, at a redemption price in cash equal to 100% of the principal amount to be redeemed, plus accrued and unpaid interest, but excluding, the redemption date, plus a make-whole premium payment. The make whole premium payment or delivery will be made, as the case may be, in cash, shares of the Company's common stock or a combination of cash and shares of the Company's common stock, at the Company's election, equal to the present values of the remaining scheduled payments of interest on the convertible notes to be redeemed through October 1, 2017 (excluding interest accrued to, but excluding, the redemption date), computed using a discount rate equal to 4.5%. The make-whole premium is paid to holders whether or not they convert the convertible notes following the Company's issuance of a redemption notice.

For accounting purposes, the redemption feature in the convertible notes is an embedded derivative that is not clearly and closely related to the convertible notes. Consequently, it was initially bifurcated from the indenture and separately recorded at its fair value as a liability with subsequent changes in fair value to be recorded through earnings. As of September 30, 2012, the fair value of the embedded redemption feature was \$0.0 million as management has determined it is not our intent to exercise the conversion feature.

Edgar Filing: XPO Logistics, Inc. - Form 10-Q

The following table outlines the Company's debt obligations (in thousands) as of September 30, 2012 and December 31, 2011:

	Interest rates	Term (months)	As of September 30, 2012	As of December 31, 2011
Capital leases for equipment	11.98%	55	\$ 126	\$ 45
Notes payable	N/A	N/A	952	2,084
Line of credit	5.0%	N/A	15	
Convertible senior notes	4.50%	60	92,757	
Total debt and capital leases			93,850	2,129
Less: current maturities of notes payable and capital leases			359	1,675
Non-current maturities of debt and capital leases			\$ 93,491	\$ 454

6. Goodwill

The following table is a roll-forward of goodwill from December 31, 2011 to September 30, 2012. The current period additions are the result of the goodwill recognized as excess purchase price in the acquisitions of Kelron and Continental (in thousands):

	Expedited Transportation	Freight Forwarding	Freight Brokerage	Corporate	Total
Goodwill at December 31, 2011	\$ 7,737	\$ 9,222			\$ 16,959
Acquisitions and other adjustments			5,562		5,562
Goodwill at September 30, 2012	\$ 7,737	\$ 9,222	\$ 5,562	\$	\$ 22,521

7. Stockholder's Equity

On each of July 9, April 5, and January 9, 2012, the Company's board of directors approved the declaration of a dividend payable to holders of the Company's Series A Convertible Perpetual Preferred Stock (the Preferred Stock). Each declared dividend equaled \$10 per share of Preferred Stock as specified in the Certificate of Designation of the Preferred Stock. The quarterly declared dividends were each \$0.8 million and were paid on July 16, April 16 and January 17, 2012.

On March 20, 2012, the Company closed a registered underwritten public offering of 9,200,000 shares of common stock (the Offering), including 1,200,000 shares issued and sold as a result of the full exercise of the underwriters' over-allotment option, at a price of \$15.75 per share. The Company received \$137.0 million in net proceeds from the Offering after underwriting discounts and estimated expenses. The Company intends to use the proceeds for general corporate purposes, which may include potential acquisitions.

On September 2, 2011, pursuant to the Investment Agreement, dated as of June 13, 2011 (the Investment Agreement), by and among Jacobs Private Equity, LLC (JPE), the other investors party thereto (collectively with JPE, the Investors) and the Company, the Company issued to the Investors, for \$75.0 million in cash: (i) an aggregate of 75,000 shares of the Preferred Stock which are initially convertible into an aggregate of 10,714,286 shares of common stock, and (ii) warrants initially exercisable for an aggregate of 10,714,286 shares of common stock at an initial exercise price of \$7.00 per common share (the Warrants). The Company's stockholders approved the issuance of the Preferred Stock and the Warrants at the special meeting of the Company's stockholders on September 1, 2011.

8. Stock-Based Compensation

The following table summarizes the Company's equity awards outstanding and exercisable as of December 31, 2011 and September 30, 2012:

Edgar Filing: XPO Logistics, Inc. - Form 10-Q

	Options			Weighted Average Remaining Term	Restricted Stock Units	
	Options	Weighted Average Exercise Price	Exercise Price Range		Restricted Stock Units	Weighted Average Grant Date Fair Value
Outstanding at December 31, 2011	1,381,958	8.53	2.28 - 18.07	9.00	695,000	10.33
Granted	193,000	14.38	11.46 - 18.07		405,691	12.63
Expired						
Exercised	123,473	4.79	2.96 - 10.56		231,875	11.04
Forfeited	79,964	13.63	3.48 - 16.92			
Outstanding at September 30, 2012	1,371,521	\$ 9.39	2.28 - 18.07	8.28	868,816	\$ 11.21

The stock-based compensation expense for outstanding restricted stock units (RSUs) was \$0.9 million and \$2.6 million for the three-month and nine-month periods ended September 30, 2012, respectively. Of the 868,816 outstanding RSUs, 558,816 vest subject to service conditions and 310,000 vest subject to service and performance-based conditions. Based on the Company's financial performance in 2012, all performance-based conditions relating to outstanding RSUs vesting have been satisfied.

As of September 30, 2012, the Company had approximately \$9.5 million of unrecognized compensation cost related to non-vested RSU compensation that is anticipated to be recognized over a weighted-average period of approximately 3.28 years. Remaining estimated compensation expense related to outstanding restricted stock-based grants is \$0.6 million, \$2.5 million, \$2.5 million, \$2.4 million and \$1.5 million for the years ending December 31, 2012, 2013, 2014, 2015 and 2016, respectively.

As of September 30, 2012, the Company had 573,196 options vested and exercisable and \$3.9 million of unrecognized compensation cost related to stock options. The remaining estimated compensation expense related to the existing stock options is \$0.3 million, \$1.0 million, \$1.0 million, \$1.0 million and \$0.6 million for the years ended December 31, 2012, 2013, 2014, 2015 and 2016, respectively.

9. Earnings per Share

Basic earnings per common share are computed by dividing net income available to common shareholders by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per common share are computed by dividing net income available to common shareholders by the combined weighted average number of shares of common stock outstanding and the potential dilution of stock options, Warrants, RSUs, convertible notes and Preferred Stock outstanding during the period, if dilutive. For the three-month and nine-month periods ended September 30, 2012 and 2011, the weighted average of potentially dilutive securities excluded from the computation of diluted earnings per share is shown per the table below.

	Three Months Ended		Nine Months Ended	
	September 30, 2012	September 30, 2011	September 30, 2012	September 30, 2011
Basic common stock outstanding	17,663,403	8,252,891	14,952,059	8,227,375
Potentially Dilutive Securities:				
Shares underlying the conversion of preferred stock to common stock	10,714,286	3,260,870	10,714,286	1,098,901
Shares underlying the conversion of the convertible senior notes	330,784		111,066	
Shares underlying warrants to purchase common stock	5,516,551	4,564,224	5,770,577	3,634,139
Shares underlying stock options to purchase common stock	507,425	402,819	549,084	361,707
Shares underlying restricted stock units	138,921	682	158,308	
	17,207,967	8,228,595	17,303,321	5,094,747
Diluted weighted shares outstanding	34,871,370	16,481,486	32,255,380	13,322,122

The impact of this dilution was not reflected in the earnings per share calculations in the Unaudited Condensed Consolidated Statements of Operations because the impact was anti-dilutive. The treasury method was used to determine the shares underlying the Warrants with an average market price of \$14.43 per share and \$15.17 per share for the three-month and nine-month periods ended September 30, 2012, respectively.

10. Income Taxes

The Company has determined its interim tax provision projecting an estimated annual effective tax rate. For the three months ended September 30, 2012, the Company recorded an income tax benefit of \$6.5 million yielding an effective tax rate of (67.2)%. For the nine months ended September 30, 2012, the Company recorded an income tax benefit of \$6.2 million yielding an effective tax rate of (36.0)%. The effective tax rate differs from the U.S. statutory rate of 35% in the periods ended September 30, 2012, primarily due to the impact of the release of the valuation allowance previously recorded during the three months ended June 30, 2012.

During the three months ended September 30, 2012, the Company reassessed its U.S. valuation allowance requirements taking into consideration deferred tax liabilities created through the issuance of the convertible notes during the quarter. The Company evaluated all available evidence in

Edgar Filing: XPO Logistics, Inc. - Form 10-Q

its analysis, including reversal of the deferred tax liabilities, carrybacks available and historical and projected pre-tax profits generated by the Company's U.S. operations. The Company also considered tax planning strategies that are prudent and can be reasonably implemented. As a result, the Company recorded a

\$2.8 million tax benefit related to the reversal of a significant portion of the valuation allowance established on U.S. deferred tax assets. The Company has a valuation allowance of \$0.2 million as of September 30, 2012 on the deferred tax assets in the state jurisdictions where it is not more likely than not that the deferred tax assets will be utilized, while at December 31, 2011, the Company had no valuation allowance on its deferred tax assets.

The Company accrued \$0.9 million and \$0.2 million for uncertain tax positions related to certain potential income taxes at September 30, 2012 and December 31, 2011, respectively, of which \$0.7 million and \$0.0 million related to uncertain tax positions from tax filings of the Company's non-U.S. subsidiaries. The Company is currently under audit by the Internal Revenue Service of the United States related to its 2010 fiscal year tax filing.

In general, it is the practice and intention of the Company to reinvest the earnings of its non-U.S. subsidiaries in those operations. As of September 30, 2012, the Company has not made a provision for U.S. or additional foreign withholding taxes for financial reporting over the tax basis of investments in foreign subsidiaries that are essentially permanent in duration. Generally, such amounts become subject to U.S. taxation upon the remittance of dividends and under certain other circumstances. It is not practicable to estimate the amount of deferred tax liability related to investments in these foreign subsidiaries.

To the extent the Company reports income in future periods, the Company intends to use its net operating loss carryforwards to the extent available to offset taxable income and reduce cash outflows for income taxes. Although currently not anticipated, the Company's ability to use its federal and state net operating loss carryforwards may become subject to restrictions attributable to equity transactions in the future resulting from changes in ownership as defined under Internal Revenue Code Section 382.

11. Related Party Transactions

There were no related party transactions that occurred during the three- and nine-month periods ended September 30, 2012 and 2011.

12. Operating Segments

The Company has three reportable segments as described in Note 1 of the unaudited condensed consolidated financial statements.

The costs of the Company's board of directors, executive team and certain corporate costs associated with operating as a public company are referred to as corporate charges.

The accounting policies of the reportable segments are the same as those described in the summary of significant accounting policies. The Company evaluates performance based on operating income of the respective business segments.

Edgar Filing: XPO Logistics, Inc. - Form 10-Q

The following schedule identifies select financial data for each of the Company's operating segments for the three-month and nine month periods ended September 30, 2012 and 2011, respectively (in thousands):

13. Subsequent Events

On October 8, 2012, the Company's board of directors approved the declaration of a dividend payable to holders of the Preferred Stock. The declared dividend equaled \$10 per share of Preferred Stock as specified in the Certificate of Designation of the Preferred Stock. The total declared dividend equaled \$0.8 million and was paid on October 15, 2012.

On October 17, 2012, as part of the underwritten registered public offering on September 26, 2012 of the 4.50% convertible notes due October 1, 2017, the underwriters exercised the overallotment option to purchase \$18.8 million additional principal amount of the convertible notes. The Company received approximately \$18.1 million in net proceeds after underwriting discounts, commissions and expenses were paid.

On October 24, 2012, the Company and its wholly-owned subsidiary, XPO Logistics, LLC, entered into a definitive asset purchase agreement (the Agreement) with Turbo Logistics, Inc. (Turbo Logistics), Turbo Dedicated, Inc. (Turbo Dedicated), and together with Turbo Logistics,

Turbo), Ozburn-Hessey Logistics, LLC, and OHH Acquisition Corporation.

Turbo primarily operates a non-asset-based, third party logistics business in Gainesville, Ga.; Reno, Nev.; Chicago, Ill.; and Dallas, Texas. Pursuant to the Agreement, on October 24, 2012 the Company purchased substantially all of the assets of Turbo for total cash consideration of \$50.0 million, excluding any working capital adjustments, with no assumption of debt. The assets acquired pursuant to the Agreement included rights under certain contracts, intellectual property, equipment, accounts receivable, and other related assets.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Cautionary Statement Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q and other written reports and oral statements we make from time to time contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical fact are, or may be deemed to be, forward-looking statements. In some cases, forward-looking statements can be identified by the use of forward-looking terms such as anticipate, estimate, believe, continue, could, intend, may, plan, potential, predict, should, will, expect, objective, projection, forecast, goal, guidance, outlook, effort, target or the negative of these terms or other comparable terms. However, the absence of these words does not mean that the statements are not forward-looking. These forward-looking statements are based on certain assumptions and analyses made by us in light of our experience and perception of historical trends, current conditions and expected future developments, as well as other factors we believe are appropriate in the circumstances. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions that may cause actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. Factors that might cause or contribute to a material difference include, but are not limited to, those discussed elsewhere in this Quarterly Report, the risks discussed in our other filings with the SEC and the following: economic conditions generally; competition; our ability to find suitable acquisition candidates and execute our acquisition strategy; our ability to raise capital; our ability to attract and retain key employees to execute our growth strategy; our ability to develop and implement a suitable information technology system; our ability to maintain positive relationships with our network of third-party transportation providers; litigation; and governmental regulation. All forward-looking statements set forth in this Quarterly Report are qualified by these cautionary statements and there can be no assurance that the actual results or developments anticipated by us will be realized or, even if substantially realized, that they will have the expected consequence to or effects on us or our business or operations. Forward-looking statements set forth in this Quarterly Report speak only as of the date hereof and we do not undertake any obligation to update forward-looking statements to reflect subsequent events or circumstances, changes in expectations or the occurrence of unanticipated events.

The following discussion should be read in conjunction with our Unaudited Condensed Consolidated Financial Statements and related Notes thereto included elsewhere in this Quarterly Report. In addition, reference should be made to our Audited Consolidated Financial Statements and Notes thereto and related Management's Discussion and Analysis of Financial Condition and Results of Operations included in our most recent Annual Report on Form 10-K.

Critical Accounting Policies

The preparation of condensed consolidated financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions. In certain circumstances, those estimates and assumptions can affect amounts reported in the accompanying unaudited condensed consolidated financial statements. We have made our best estimates and judgments of certain amounts included in the financial statements, giving due consideration to materiality. We do not believe there is a great likelihood that materially different amounts will be reported related to the accounting policies described below. However, application of these accounting policies involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ materially from these estimates. Note 1 of the Notes to Consolidated Financial Statements in the audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2011 includes a summary of the significant accounting policies and methods used in the preparation of our consolidated financial statements. Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2011 includes a summary of our critical accounting policies. For the period ended September 30, 2012, there were no significant changes to our critical accounting policies.

New Pronouncements

On September 15, 2011, the FASB approved ASU No. 2011-08, *Intangibles Goodwill and Other (Topic 350): Testing Goodwill for Impairment*. This ASU permits an entity to first assess qualitative factors to determine whether it is more likely than not (a likelihood of more than 50 percent) that the fair value of a reporting unit is less than its carrying amount. After assessing qualitative factors, if an entity determines that it is not more likely than not that the fair value of the reporting unit is less than its carrying amount, no further testing is necessary. If an entity determines that it is more likely than not that the fair value of the reporting unit is less than its carrying value, then the traditional two-step goodwill impairment test must be performed. This ASU is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011.

Executive Summary

XPO Logistics, Inc., a Delaware corporation (the *Company*, *we*, *our* or *us*), is a non-asset based transportation services provider. We do not own trucks, airplanes or ships. We act as a middleman between shippers and carriers who outsource their transportation logistics to us as a third-party broker.

Our services are offered through three distinct business segments: Freight Brokerage (XPO Brokerage and Bounce Logistics), which places shippers' freight with qualified carriers; Expedited Transportation (Express-1), which provides urgent freight transportation via independent contractors; and Freight Forwarding (Concert Group Logistics or CGL), which arranges domestic and international shipments using ground, air and ocean transport through a network of agent-owned and Company-owned locations.

In September 2011, following the equity investment in the Company led by Jacobs Private Equity, LLC (the *Equity Investment*), we began to implement a three-pronged strategy to leverage our strengths including management expertise, operational scale and substantial capital resources in pursuit of significant growth and value creation:

Targeted acquisitions We intend to make selective acquisitions of non-asset based freight brokerage businesses that would benefit from our greater scale and potential access to capital. We may also make acquisitions of freight forwarding, expedited and intermodal service businesses, among others, that complement our current service offerings.

Cold-starts We plan to establish new freight brokerage and freight forwarding offices in locations across North America, and we are actively recruiting managers with a proven track record of building successful brokerage operations. We expect the new brokerage offices to grow revenue by developing customer and carrier relationships in new territories.

Optimized operations We intend to optimize our existing operations, acquired companies and greenfield locations by investing in an expanded sales and service workforce, implementing an advanced information technology infrastructure, incorporating industry best practices, and leveraging scale to share capacity more efficiently and increase buying power.

The backbone of our customer service organization in all three of our business segments is our information technology. We are developing a scalable platform across the Company, with sales, service, carrier and track-and-trace capabilities, as well as benchmarking and analysis.

Other Reporting Disclosures

The expedited transportation industry commonly negotiates both fuel surcharges charged to its customers as well as fuel surcharges paid to its carriers. Our fuel surcharges are determined on a negotiated customer-by-customer basis and are primarily based on a fuel matrix based on the Department of Energy fuel price index. Fuel surcharge revenue is charged to our customers to provide for variable costs associated with changing fuel prices. Independent contractors and brokered carriers are responsible for the cost of fuel, and therefore are paid a fuel surcharge by us to offset their variable cost of fuel. The fuel surcharge payment is expensed as incurred and included in our cost of transportation. Fuel surcharge payments are consistently applied based on the Department of Energy fuel price index and the type of truck utilized. Because fuel surcharge revenue varies based on negotiated customer rates and the overall mix of business, and because our fuel surcharge expense is applied on a consistent basis, gross margin and our gross margin percentage attributable to fuel surcharges will vary from period to period. The impact of fuel surcharge revenue and expense is discussed within management's discussion and analysis of our Expedited Transportation business unit.

Within our other two business units, Freight Forwarding and Freight Brokerage, fuel charges to our customers are not commonly negotiated and identified separately from total revenue and the associated cost of transportation. Although fuel costs are factored into overall pricing of these services, they are not typically separately identified by carriers and therefore we have not included an analysis of fuel surcharges for these two operating segments. We believe this is a common practice within the freight forwarding and freight brokerage business sectors.

This discussion and analysis refers from time to time to Expedited Transportation's international operations. These operations involve the transportation of freight shipments that originate in or are delivered to either Canada or Mexico. These freight shipments either originate in or are delivered to the United States, and therefore only a portion of the freight movement actually takes place in Canada or Mexico. This service is provided to domestic customers who pay primarily in U.S. dollars. We discuss this freight separately because our Expedited Transportation business unit has developed an expertise in cross-docking freight at the border through the utilization of Canadian and Mexican carriers, and this portion of our business has seen significant growth.

This discussion and analysis also refers from time to time to our Freight Forwarding international operations. These freight movements also originate in or are delivered to the United States and are primarily paid for in U.S. dollars. We discuss this freight separately because of Freight Forwarding's more recent focus on international freight movements through its purchase of LRG International, Inc. (now known as CGL International).

This discussion and analysis also refers time to time to our Freight Brokerage international operations. These brokered shipments may originate in either the United States or Canada and are largely attributable to our recent acquisition of Kelron. These services are provided to both U.S. and Canadian customers who primarily pay in their home currency.

We often refer to the costs of our board of directors, our executive team and certain operating costs associated with operating as a public company as corporate charges. In addition to these costs, certain other charges are reported on a consolidated basis within the corporate line items of the following tables.

The following table is consolidated, not segmented.

XPO Logistics, Inc.

Consolidated Results

Three Months Ended September 30, 2012 Compared to Three Months Ended September 30, 2011

In total, our consolidated revenue for the third quarter of 2012 increased 49.8% to \$71.0 million from \$47.4 million in the same period of 2011. This increase was driven largely by the acquisitions of Kelron and Continental Freight Services, Inc. (Continental), and increased revenues in Freight Brokerage attributable to our new cold-start locations.

Direct expense represents cost attributable to freight transportation. Our asset-light operating model provides transportation capacity through variable cost third-party transportation arrangements, therefore enabling us to manage the largest component of our operating costs as our volumes fluctuate. Our primary means of providing capacity are through our fleet of independent owner operators in Expedited Transportation and our network of independent ground, ocean and air carriers in Freight Forwarding and Freight Brokerage. We view this operating model as a strategic advantage, particularly in uncertain economic conditions.

Total gross margin for the third quarter of 2012 increased 20.7% to \$9.9 million from \$8.2 million in the same period of 2011. As a percentage of revenue, gross margin was 14.0% in the third quarter of 2012 as compared to 17.3% in the same quarter of 2011. The decrease in gross margin as a percentage of revenue was due to two factors: lower margins in our Expedited Transportation segment; and increased revenues in our Freight Brokerage segment, which typically experiences lower margins than our other operations. Freight Brokerage's gross margins also have been negatively impacted by lower margin sales during the start-up phases of our cold-start sales offices.

Selling, general and administrative (SG&A) expense as a percentage of revenue was 27.1% in the third quarter of 2012, as compared to 16.4% in the same quarter of 2011. Overall, SG&A expense increased by \$11.5 million in the third quarter of 2012 compared to the same quarter of 2011, primarily due to an increase in Corporate SG&A as discussed further in the XPO Corporate operating segment, and costs associated with our new Freight Brokerage offices including our new North American Operations Center in Charlotte, North Carolina (Operations Center).

Our effective income tax rate for the three months ended September 30, 2012 and 2011 was (67.2%) and 54.9%, respectively. The significant difference between the tax rates is due to the reversal of the valuation allowance of \$2.8 million previously recorded during the three months ended June 30, 2012 as a result of our convertible notes issuance during the three months ended September 30, 2012. The convertible notes issuance during the three months ended September 30, 2012 created a deferred tax liability which allowed the Company to remove the valuation allowance and recognize a significant portion of the deferred tax assets.

We experienced a net loss of \$3.1 million for the third quarter of 2012 compared to \$0.2 million of net income for the same quarter in 2011. The reduction in net income was due primarily to the costs incurred at Corporate and Freight Brokerage in growing the business through acquisitions and new cold-start sales offices, net of the income tax benefit for the period.

Nine Months Ended September 30, 2012 Compared to Nine Months Ended September 30, 2011

In total, our consolidated revenue for the first nine months of 2012 increased 27.9% to \$170.1 million from \$133.0 million in the same period of 2011. This increase was driven largely due to the acquisitions of Kelron and Continental, strong volume growth in Freight Brokerage attributable to our new cold-start locations, as well as by increased revenue per load in Expedited Transportation.

Total gross margin for the first nine months of 2012 increased 11.3% to \$25.2 million from \$22.6 million in the same period of 2011. As a percentage of revenue, gross margin was 14.8% as compared to 17.0% in 2011. The decrease in gross margin as a percentage of revenue is attributable primarily to increased revenues in our Freight Brokerage segment, which typically experiences lower margins than our other operations. Freight Brokerage's gross margins also have been negatively impacted by lower margin sales during the start-up phases of our cold-start sales offices.

SG&A expense as a percentage of revenue was 24.7% in the first nine months of 2012, as compared to 13.9% in the same period of 2011. Overall, SG&A expense increased by \$23.6 million for the first nine months of 2012 compared to the same period of 2011, primarily due to an increase in Corporate SG&A as discussed further in the XPO Corporate operating segment and costs associated with our new Freight Brokerage offices and our Operations Center.

Our effective income tax rate for the nine months ended September 30, 2012 and 2011 was (36.0)% and 43.1%, respectively. The significant difference between the tax rates is due to the recognition of a tax benefit for the nine months ended September 30, 2012 due to the net operating losses incurred.

We experienced a net loss of \$11.0 million for the first nine months of 2012 compared to \$2.2 million of net income for the same period in 2011. The reduction in net income was due primarily to the costs incurred at Corporate and Freight Brokerage in growing the business through acquisitions and new cold-start sales offices, net of the income tax benefit.

Freight Brokerage

Three Months Ended September 30, 2012 Compared to Three Months Ended September 30, 2011

Revenue in our Freight Brokerage segment increased by 290.1% to \$32.2 million in the third quarter of 2012 compared to \$8.2 million for the same period of 2011. Revenue growth was primarily due to the acquisitions of Kelron and Continental, as well as the opening of our eight cold-start sales offices, including the opening of Chicago, Illinois, Jacksonville, Florida, Montgomery, Alabama and Morris County, New Jersey sales offices during the three months ended September 30, 2012.

Freight Brokerage's gross margin increased 198.3% to \$4.1 million in the third quarter of 2012 from \$1.4 million in the same period of 2011. As a percentage of revenue, Freight Brokerage's gross margin was 12.6% in the third quarter of 2012, compared to 16.5% in the same quarter of 2011. The decrease in gross margin as a percentage of revenue was due primarily to the impact of lower margin sales during the start-up phases of our cold-start sales offices.

Edgar Filing: XPO Logistics, Inc. - Form 10-Q

SG&A expense increased 645.3% to \$6.4 million in the third quarter of 2012 from \$0.9 million in the same quarter of 2011. The increase in SG&A expense was associated with investment in our cold-start sales offices, and new Operations Center in Charlotte as well as integration costs incurred at Kelron and Continental.

Our Freight Brokerage operations generated an operating loss of \$2.4 million for the third quarter of 2012 compared to operating income of \$0.5 million for the same quarter in 2011. The reduction in operating income was due to the increase in SG&A expense, offset in part by increased gross margin, as described above.

Nine Months Ended September 30, 2012 Compared to Nine Months Ended September 30, 2011

Revenue in our Freight Brokerage segment increased by 158.1% to \$54.0 million in the first nine months of 2012 compared to \$20.9 million for the same period of 2011. Revenue growth was primarily due to the acquisitions of Kelron and Continental as well as the opening of our cold-start sales offices.

Freight Brokerage's gross margin increased 99.6% to \$6.6 million in the first nine months of 2012 from \$3.3 million in the same period of 2011. As a percentage of revenue, Freight Brokerage gross margin was 12.2% in the first nine months of 2012, compared to 15.8% in the same period of 2011. The decrease in gross margin as a percentage of revenue was due primarily to the impact of lower margin sales during the start-up phases of our cold-start sales offices.

SG&A expense increased 303.3% to \$10.1 million in the first nine months of 2012 from \$2.5 million in the same period of 2011. The increase in SG&A expense was associated with the investments in our cold-start sales offices and new Operations Center in Charlotte as well as integration costs incurred at Kelron and Continental.

Our Freight Brokerage operations generated an operating loss of \$3.5 million for the first nine months of 2012 compared to operating income of \$0.8 million for the same period in 2011. The reduction in operating income was due to the increase in SG&A expense, offset in part by increased gross margin, as described above.

In connection with the integration of the recent Kelron acquisition, the Company is conducting a review of Kelron's existing business and profit performance. The Company expects that some low-margin or negative-margin business will not be continued in the future. Accordingly, the Company expects the revenue contributed by the Kelron branches to decrease in the near term, although it is not possible to quantify any decrease at this time.

Management's growth strategy for Freight Brokerage is based on:

Selective acquisitions of non-asset based freight brokerage firms that would benefit from our scale and potential access to capital;

The opening of new freight brokerage sales offices in the U.S.;

Investments in our Operations Center in Charlotte, North Carolina focused on our carrier procurement and freight tracking functions;

Investment in an expanded sales and service workforce;

Technology investments to improve efficiency in sales and carrier procurement; and

The integration of industry best practices, with specific focus on better leveraging our scale and lowering administrative overhead.

Note: Total depreciation and amortization for the Expedited Transportation operating segment included in both direct expense and SG&A was \$127 and \$144 for the three-month periods, respectively, and \$393 and \$465 for the nine-month periods, respectively, ended September 30, 2012 and 2011.

Expedited Transportation

Three Months Ended September 30, 2012 Compared to Three Months Ended September 30, 2011

Revenue in our Expedited Transportation segment increased 1.4% to \$23.8 million in the third quarter of 2012 from \$23.4 million in the same period of 2011. This growth was largely driven by an increase in our temperature control business.

During the third quarter of 2012 fuel surcharge revenue represented 10.0% of total Expedited Transportation revenue, compared to 10.5% in the same period of 2011.

Expedited Transportation gross margin decreased 21.2% to \$3.9 million in the third quarter of 2012 from \$5.0 million in the same period of 2011. As a percentage of revenue, Expedited Transportation gross margin was 16.6% in the third quarter of 2012, compared to 21.4% in the same quarter of 2011. The decrease in gross margin as a percentage of revenue was due largely to an increase in rates paid to our independent contract drivers which went into effect on March 1, 2012, and an increase in fleet recruiting initiatives.

SG&A expense increased 6.7% to \$2.7 million in the third quarter of 2012 from \$2.6 million in the same period of 2011. As a percentage of revenue, SG&A expense was 11.5% in the third quarter of 2012, compared to 10.9% in the same quarter of 2011. The increase in SG&A expense as a percent of revenue was due to an increase in driver recruiting incentives and costs incurred in the opening of our new Birmingham, Alabama facility.

Operating income decreased to \$1.2 million in the third quarter of 2012 compared to \$2.5 million in the same quarter of 2011. The decrease in operating income was primarily related to the decrease in gross margin as a percent of revenue and an increase in SG&A costs as described above.

Nine Months Ended September 30, 2012 Compared to Nine Months Ended September 30, 2011

Revenue in our Expedited Transportation segment increased 7.0% to \$71.9 million in the first nine months of 2012 from \$67.2 million in the same period of 2011. This growth was driven by an increase in temperature control and international revenue as well as an increase in air charter revenue related to a customer project completed in the first quarter.

Expedited Transportation gross margin decreased 5.8% to \$13.2 million in the first nine months of 2012 from \$14.0 million in the same period of 2011. As a percentage of revenue, Expedited Transportation gross margin was 18.4% in the first nine months of 2012, compared to 20.9% in the same period of 2011. The decrease in gross margin as a percentage of revenue was due to an increase in revenue from international and air charter business, which historically have higher revenue per shipment and lower gross margins than other shipments, as well as an increase in rates paid to our independent contract drivers that went into effect on March 1, 2012.

SG&A expense increased 5.0% to \$8.1 million in the first nine months of 2012 from \$7.7 million in the same period of 2011. As a percentage of revenue, SG&A expense was 11.2% in the first nine months of 2012, compared to 11.4% in the same period of 2011. The increase in other SG&A is primarily due to a change in our shared service corporate allocation methodology, which does not have a net impact on consolidated SG&A, and an increase in driver recruiting incentives. The decrease in SG&A as a percentage of revenue in the first nine months of 2012 as compared to the same period of 2011 was due to improved operating leverage as revenues increased.

Operating income decreased to \$5.2 million in the first nine months of 2012 compared to \$6.4 million in the same period of 2011. The decrease in operating income was primarily related to the decrease in gross margin and increase in SG&A, as described above.

Management's growth strategy for our Expedited Transportation unit is based on:

Targeted investments to expand the sales and service workforce, in order to capture key opportunities in new territories and specialized areas (e.g., temperature control, international and defense);

Improved utilization of the existing carrier fleet as well as increased focus on carrier recruitment and retention;

Technology upgrades to improve efficiency in sales and carrier procurement; and

Selective acquisitions of non-asset based expedited businesses that would benefit from our scale and potential access to capital.

Freight Forwarding**Three Months Ended September 30, 2012 Compared to Three Months Ended September 30, 2011**

Revenue in our Freight Forwarding segment increased 2.3% to \$17.3 million in the third quarter of 2012 from \$16.9 million in the same period of 2011. This increase is primarily related to an increase in revenues at our Company-owned branches partially offset by a decrease in revenues at our independently-owned stations.

Direct expense consists primarily of payments for purchased transportation and commissions paid to Freight Forwarding's independently-owned stations. Freight Forwarding's gross margin increased 4.0% to \$1.9 million in the third quarter of 2012 from \$1.8 million in the same period in 2011. As a percentage of revenue, Freight Forwarding gross margin was relatively flat at 11.1% in the third quarter of 2012, compared to 11.0% in the same quarter of 2011.

SG&A expense increased 50.8% to \$1.8 million in the third quarter of 2012 from \$1.2 million in the same quarter of 2011. As a percentage of revenue, SG&A expense increased to 10.6% in the third quarter of 2012 as compared to 7.2% in the same quarter of 2011. The increase in SG&A expense is mainly due to the investment associated with our new Company-owned branches in Charlotte, North Carolina, Atlanta, Georgia, Los Angeles, California, and Houston, Texas.

As of September 30, 2012, Freight Forwarding had 28 locations, including 21 independently-owned stations and seven Company-owned branches. This compared to 25 locations as of September 30, 2011, including 23 independently-owned stations and two Company-owned branches.

Edgar Filing: XPO Logistics, Inc. - Form 10-Q

Operating income decreased to \$0.1 million for the quarter ended September 30, 2012 compared to \$0.6 million for the same period in 2011. The reduction in operating income was primarily related to the increase in SG&A expense, as described above.

Nine Months Ended September 30, 2012 Compared to Nine Months Ended September 30, 2011

Revenue in our Freight Forwarding segment increased 1.8% to \$49.2 million in the first nine months of 2012 from \$48.4 million in the same period of 2011. The increase was the result of higher revenues at our Company-owned branches partially offset by a decrease in revenues at our independently-owned stations.

Direct expense consists primarily of payments for purchased transportation and commissions paid to Freight Forwarding's independently-owned stations. Freight Forwarding gross margin was relatively flat compared to the same period in 2011. As a percentage of revenue, Freight Forwarding gross margin was 10.8% in the first nine months of 2012, compared to 10.9% in the same period of 2011.

SG&A expense increased 31.9% to \$4.9 million in the first nine months of 2012 from \$3.7 million in the same period of 2011. As a percentage of revenue, SG&A expense was 10.0% in the first nine months of 2012 as compared to 7.7% in the same period of 2011. The increase in SG&A expense is mainly due to the investment associated with our new Company-owned branches in Charlotte, North Carolina, Atlanta, Georgia, Los Angeles, California, and Houston, Texas.

Operating income decreased to \$0.4 million for the first nine months of 2012 compared to \$1.5 million for the same period in 2011. The reduction in operating income was primarily related to the increase in SG&A expense, as described above.

Management's growth strategy for Freight Forwarding is based on:

Plans to open new offices in key U.S. markets, which will consist of both Company-owned branches and independently-owned stations;

Growth of international shipments, with a focus on Asia and Latin America;

Technology upgrades to improve efficiency in sales and carrier procurement; and

Selective acquisitions of complementary, non-asset based freight forwarding businesses.

Corporate

Three Months Ended September 30, 2012 Compared to Three Months Ended September 30, 2011

Corporate SG&A expense in the third quarter of 2012 increased by \$5.1 million compared to the same period of 2011. As a percentage of consolidated revenue, Corporate SG&A expense was 11.6% in the third quarter of 2012, compared with 6.6% in the same period of 2011. Following the Equity Investment, we assembled a new senior management team. The \$2.0 million increase in salaries and benefits expense relates to the executive team appointments and headcount additions of certain corporate shared services in our Operations Center in Charlotte. Purchased services increased in the third quarter of 2012 due to \$1.4 million of legal fees incurred in connection with pending litigation with C.H. Robinson Worldwide, Inc. (the Robinson Litigation) and \$1.1 million of acquisition diligence costs. Other SG&A increased primarily due to \$1.0 million of additional stock compensation expense in the third quarter 2012 as well as increased travel costs associated with our acquisitions program.

Nine Months Ended September 30, 2012 Compared to Nine Months Ended September 30, 2011

Edgar Filing: XPO Logistics, Inc. - Form 10-Q

Corporate SG&A expense for the first nine months of 2012 increased by \$14.4 million, compared to the same period of 2011. As a percentage of total consolidated revenue, Corporate SG&A expense was 11.1% in the first nine months of 2012, compared with 3.4% in the same period of 2011. The increase of \$5.6 million in salaries and benefits expense relates to the executive team appointments and headcount additions related to expansion of corporate shared services. Purchased services increased in the first nine months of 2012 due to an increase in professional service fees incurred for audit and consulting services, acquisition diligence costs and \$1.4 million in legal fees incurred in connection with the Robinson Litigation and \$0.5 million for consulting fees in connection with securing a tax incentive agreement with the state of North Carolina. Subject to our satisfaction of certain employment targets at our Operations Center, we expect to receive up to \$3.2 million of tax incentives from the state of North Carolina during the term of the agreement. Other SG&A increased primarily due to \$3.3 million of stock compensation expense in the first nine months of 2012 and increased travel costs associated with our acquisitions program and the transition of certain corporate shared services to our Operations Center in Charlotte.

Liquidity and Capital Resources

General

As of September 30, 2012, we had \$317.5 million of working capital, including cash of \$296.5 million, compared to working capital of \$83.1 million, including cash of \$74.0 million, as of December 31, 2011. This increase of \$234.4 million in working capital during the nine-month period was due to the receipt of \$137.0 million of net proceeds from the Offering, which closed on March 20, 2012, and \$120.3 million from the convertible senior notes issued on September 26, 2012, offset by the cost of acquiring Kelron and Continental, as well as the cash used in operations. As of September 30, 2012, our cash balances were held in cash depository and money market accounts at four financial institutions.

During the first nine months of 2012, we funded operations, capital expenditures and preferred stock dividends through cash on hand. We continually evaluate our liquidity requirements, capital needs and availability of capital resources based on our operating needs and our planned growth initiatives. In addition to our existing cash balances and net cash provided by operating activities, in certain circumstances we may also use debt financings and issuances of equity or equity-related securities to fund our operating needs and growth initiatives. We are currently evaluating opportunities to enter into an asset-based revolving credit facility that would be supported by our accounts receivable balances. The final terms of this contemplated facility have not been determined.

We believe that our existing cash balances will be sufficient for the next twelve months to finance our existing operations and growth initiatives.

Cash Flow

During the nine months ended September 30, 2012, \$16.9 million was used in cash from operations compared to the generation of \$3.3 million for the comparable period in 2011. The primary use of cash for the period was payment of transportation services and various SG&A expenses.

Cash generated from revenue equaled \$162.0 million for the first nine months of 2012 as compared to \$131.0 million for the same period in 2011 and correlates directly with the revenue increase between the two periods. Cash flow increases are related primarily to volume increases between the periods ended September 30, 2012 and 2011.

Cash used for payment of transportation services for the nine-month period of 2012 equaled \$140.8 million as compared to \$111.2 million for the same period in 2011. The increase in cash outflows between the two periods also directly correlates to the increase in revenues between the two periods. Our average days outstanding in accounts payable and accrued expenses increased by seventeen days between the periods ended September 30, 2012 and 2011.

Other operating uses of cash included SG&A items, which equaled \$37.9 million and \$16.0 million for the nine-month periods ended September 30, 2012 and 2011, respectively. Significant SG&A items include payroll and purchased services. For the nine-month period ended September 30, 2012, payroll expense equaled \$18.1 million as compared to \$9.7 million for the same period in 2011. Included in the \$18.1 million in payroll expense is \$0.8 million of management bonuses accrued during the period, which will be paid in future periods.

Investing activities used approximately \$11.4 million during the first nine months of 2012 compared to a use of \$0.9 million from these activities during the same period in 2011. During the current period, \$7.0 million was used in acquisitions, \$4.0 million was used to purchase fixed assets and \$0.5 million was used to make the final earn-out payment to the former owners of LRG International. During the same period in 2011, we used \$0.5 million to make an earn-out payment and \$0.4 million to purchase fixed assets.

Financing activities generated approximately \$250.9 million for the first nine months of 2012, compared to \$68.5 million for the same period in 2011. Our main source of cash from financing activities during the third quarter of 2012 came from \$120.3 million of net proceeds from the convertible notes and \$137.0 million of net proceeds from the Offering. The primary use of cash in financing activities during the third quarter of 2012 was the payoff of our revolving credit facility and term loan for \$2.1 million and the dividends paid to preferred stockholders of \$2.3 million. During the same period in

2011, sources of cash from financing activities included \$71.6 million of net proceeds from the issuance of the Preferred Stock and the Warrants, and \$0.7 million in proceeds from employee and director stock options. The primary uses of cash for the same period in 2011 were payments on our line of credit of \$2.7 million and payments on our term loan of \$1.2 million.

Long-Term Debt and Line of Credit

During the quarter ended March 31, 2012, we repaid our revolving credit facility and term loan and terminated all related agreements.

In conjunction with the acquisition of Kelron on August 3, 2012, the Company assumed Kelron's credit agreements with Royal Bank of Canada (RBC) dated April 21, 2011 and amended May 8, 2012 (the Agreements), which provided for a \$5.0 million revolving demand facility (the Revolving Demand Facility) subject to certain borrowing limits. Borrowings under the Revolving Demand Facility can be made either as Royal Bank Prime based loans in Canadian currency at the interest rate equal to the Royal Bank Prime (as defined in the Agreements) rate plus 2.00 percent or as Royal Bank US Base Rate loans in U.S. currency at the interest rate equal to the Royal Bank US Base Rate (as defined in the Agreements) plus 2.00 percent. Borrowings under the Revolving Demand Facility are payable upon demand by RBC. The Revolving Demand Facility is guaranteed by a first ranking security interest in all personal property of Kelron. The Agreements contain customary representations, warranties and general covenants, with which the Company was in compliance at September 30, 2012.

Contractual Obligations

The following table reflects our contractual obligations as of September 30, 2012 (in thousands):

Contractual Obligations	Total	Payments Due by Period			
		Less than 1 Year	1 to 3 Years	3 to 5 Years	More than 5 Years
Capital leases payable	\$ 134	\$ 30	\$ 64	\$ 29	\$ 11
Operating/real estate leases	14,479	2,233	4,103	1,702	6,441
Employment contracts	14,351	3,826	7,359	3,166	
Convertible Notes	28,125	5,234	11,250	11,250	391
Total contractual cash obligations	\$ 57,089	\$ 11,323	\$ 22,776	\$ 16,147	\$ 6,843

We do not have any material commitments that have not been disclosed elsewhere.

Off-Balance Sheet Arrangements

We had no off-balance sheet arrangements as of September 30, 2012.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

The following discussion about our market risk disclosures involves forward-looking statements. Actual results could differ materially from those projected in the forward-looking statements. We are exposed to market risk related to changes in interest rates and foreign currency exchange rates.

Interest Rate Risk. As of September 30, 2012, we held \$296.5 million of cash in cash depository and money market funds held in depository accounts at four financial institutions. The primary market risk associated with these investments is liquidity risk. A hypothetical 100-basis-point change in the interest rate would not have a material effect on our earnings. We do not use derivative financial instruments to manage interest rate risk or to speculate on future changes in interest rates.

Foreign Currency Exchange Risk. As a result of our acquisition of the freight brokerage operations of Kelron on August 3, 2012, our Canadian-based business and results of operations are exposed to movements in the U.S. dollar to Canadian dollar foreign currency exchange rate. As a result of our presence in Canada, a portion of our revenue is denominated in Canadian dollars. If the U.S. dollar strengthens against the Canadian dollar, our revenues reported in U.S. dollars would decline. Movements in the U.S. dollar to Canadian dollar foreign currency exchange rate did not have a material effect on our revenue during the nine months ended September 30, 2012.

With regard to operating expense, our primary exposure to foreign currency exchange risk relates to operating expense incurred in Canadian dollars. If the Canadian dollar strengthens, costs reported in U.S. dollars will increase. Movements in the U.S. dollar to Canadian dollar foreign currency exchange rate did not have a material effect on our operating expense during the nine months ended September 30, 2012.

From time to time, we use foreign currency forward contracts to reduce part of the variability in certain forecasted Canadian dollar denominated cash flows. Generally, these instruments are for maturities of six months or less. We consider several factors when evaluating hedges of our forecasted foreign currency exposures, such as significance of the exposure, offsetting economic exposures and potential costs of hedging. We do not enter into derivative transactions for purposes other than hedging economic exposures. During fiscal 2012, we entered into forward contracts to reduce the variability in our Canadian dollar denominated revenues and operating expenses which relate to the operations of Kelron.

Convertible Debt Outstanding. The fair market value of our outstanding issue of convertible notes is subject to interest rate and market price risk due to the convertible feature of the notes and other factors. Generally the fair market value of fixed interest rate debt will increase as interest rates fall and decrease as interest rates rise. The fair market value of the notes may also increase as the market price of our stock rises and decrease as the market price of our stock falls. Interest rate and market value changes affect the fair market value of the convertible notes, and may affect the prices at which we would be able to repurchase such convertible notes were we to do so. These changes do not impact our financial position, cash flows or results of operations. For additional information on the fair value of our outstanding convertible notes, see Note 2 to our condensed consolidated financial statements.

Item 4. Controls and Procedures.

Evaluation of disclosure controls and procedures. Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of the design and operations of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this report. Based on their evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of such time such that the material information required to be included in our SEC reports is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms relating to the Company, including our consolidated subsidiaries, and was made known to them by others within those entities, particularly during the period when this report was being prepared.

Changes in internal controls. Except as described below, there have not been any changes in the Company's internal control over financial reporting during the quarter ended September 30, 2012 that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting. On August 3, 2012, the Company completed its acquisition of the freight brokerage operations of Kelron and is in the process of integrating the acquired business into the Company's overall internal controls over financial reporting process. For additional information on the Kelron acquisition, see Note 3 to our condensed consolidated financial statements.

Part II Other Information

Item 1. Legal Proceedings.

We recently became involved in litigation in the Fourth Judicial District Court, County of Hennepin, State of Minnesota, relating to our hiring of former employees of C.H. Robinson Worldwide, Inc. ("C.H. Robinson"). In the litigation, C.H. Robinson alleges the following against us: (1) tortious interference with contractual employment-related relationships; (2) misappropriation of trade secrets; and (3) inducing, aiding and abetting breaches of contract. C.H. Robinson is seeking temporary, preliminary and permanent injunctions, direct and consequential damages, and attorney's fees. On August 23, 2012, the Court denied C.H. Robinson's motion for a temporary injunction to prevent us from communicating with C.H. Robinson employees, among other things, but granted C.H. Robinson's motion for expedited discovery in connection with the litigation and enjoined two individual defendant employees of the Company. The legal discovery process is underway on this matter and the preliminary injunction hearing is scheduled for November 20, 2012. We believe that we have strong legal defenses to the asserted claims and we are evaluating the counterclaims available to us. However, we cannot assure you that an adverse outcome would not significantly impact our ability to execute certain of our growth initiatives.

We are a party to a variety of other legal actions, both as a plaintiff and as a defendant, that arose in the ordinary course of business, and may in the future become involved in other legal actions. We do not currently expect any of these matters or these matters in the aggregate to have a material adverse effect on our results of operations, financial condition or cash flows. However, the results of these matters cannot be predicted with certainty, and an unfavorable resolution of one or more of these matters could have a material adverse effect on our financial condition, results of operations or cash flows.

We carry liability and excess umbrella insurance policies that we deem sufficient to cover potential legal claims arising in the normal course of conducting our operations as a transportation company. In the event we are required to satisfy a legal claim in excess of the coverage provided by this insurance, our financial condition, results of operations and cash flows could be negatively impacted.

Item 1A. Risk Factors.

In addition to the information set forth in this Form 10-Q, you should carefully consider the risk factors discussed in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2011, which could materially affect our business, financial condition or future results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

- (a) None.
- (b) Not applicable.

Item 6. Exhibits.
