- (1) Reflects the amounts set forth on Radian's consolidated balance sheet. The outstanding principal amounts as of December 31, 2012 are approximately \$79.4 million of 5.625% senior notes due in February 2013, \$250 million of 5.375% senior notes due in June 2015 and \$450 million of 3.00% convertible senior notes due 2017.
- (2) On January 4, 2013, in reliance upon exemptions from the registration requirements of the U.S. Securities Act of 1933, as amended, provided by Section 4(a)(2) or Regulation S thereunder, Radian exchanged \$195.2 million aggregate principal amount of 5.375% senior notes due in June 2015 for the same aggregate principal amount of 9.000% senior notes due in June 2017 and additional cash consideration of \$4.9 million. Pursuant to a registration statement on Form S-4, Radian has offered to exchange up to \$195.2 million aggregate principal amount of its 9.000% senior notes due in June 2017 for a like aggregate principal amount of registered 9.000% senior notes due in June 2017. Radian may repurchase, redeem or offer to exchange additional amounts of its 5.375% senior notes due in June 2015 in the future. Additionally, on February 15, 2013, Radian paid in full the entire remaining amount outstanding under its 5.625% senior notes due in February 2013, which consisted of approximately \$79.4 million aggregate principal amount plus accrued and unpaid interest. As such, as of the date of this issuer free writing prospectus, Radian had outstanding approximately \$55 million principal amount of 5.375% senior notes due in June 2015, \$195 million principal amount of 9.000% senior notes due in June 2017 and \$450 million principal amount of 3.00% convertible senior notes due in November 2017.
- (3) Long-term obligations are presented at carrying value. Excludes debt of variable interest entities that is guaranteed by certain of Radian's subsidiaries and consolidated on its balance sheet as required under accounting standards.
- (4) In accordance with ASC 470-20, convertible debt that may be wholly or partially settled in cash is required to be separated into a liability and an equity component, such that interest expense reflects the issuer's nonconvertible debt interest rate. Upon issuance, a debt discount is recognized as a decrease in debt and an increase in equity. The debt component will accrete up to the principal amount (\$350 million for the notes being concurrently offered, and \$450 million for the 3.00% convertible senior notes due November 2017) over the expected term of the debt. ASC 470-20 does not affect the actual amount that Radian is required to repay, and the amounts shown in the table above for the convertible notes and the existing convertible notes, respectively, reflect the approximate liability component net of the discount recognized in equity, excluding any tax effect.
- (5) The determination of the fair values of the debt and equity components of the Notes currently being offered has been estimated and is subject to change based upon the completion of Radian's analysis of non-convertible debt interest rates. Radian currently estimates that the fair value of the feature to convert the debt into common stock which will be reported as unamortized discount on the Notes being offered is equal to approximately \$69.2 million on a pre-tax basis; this amount will be reported, on an after-tax basis, as an increase to additional paid-in capital on an adjusted basis. Currently, Radian expects that any deferred tax liability generated by this increase to additional paid-in

- capital will be offset by a corresponding decrease to Radian's valuation allowance.
- (6) Outstanding shares of common stock as of December 31, 2012 excludes: (a) 4,402,344 shares issuable upon the exercise of stock options that are outstanding as of such date at a weighted exercise price of \$15.82 per share; (b) 1,427,524 shares issuable upon the conversion or settlement of other equity compensation awards outstanding as of such date; (c) 1,329,689 shares of common stock reserved for future issuance under Radian's equity compensation plans; (d) 1,452,947 shares of common stock available for sale under Radian's employee stock purchase plan; (e) 1,979,919 shares of common stock available for issuance under Radian's savings and incentive plan; (f) 51,020,370 shares of common stock reserved for issuance upon conversion of Radian's 3.00% convertible senior notes due November 2017; and (g) 50,000,000 shares of common stock reserved for issuance upon conversion of the Notes offered in the Notes Offering.
