PROXY STATEMENT
FOR
THE ANNUAL MEETING OF SHAREHOLDERS
OF
FIRST INTERSTATE BANCSYSTEM, INC.

Solicitation Information

This proxy statement, the accompanying proxy card and the annual report on Form 10-K are being made available to our shareholders on the Internet at www.amstock.com/ProxyServices/ViewMaterial.asp?CoNumber=40016 on or about April 2, 2013. Our board of directors, or the Board, is soliciting your proxy to vote your shares at the annual meeting of shareholders to be held on May 22, 2013. The Board is soliciting your proxy to give all shareholders the opportunity to vote on matters that will be presented at the annual meeting. This proxy statement provides you with information on these matters to assist you in voting your shares.

We are pleased to take advantage of the Securities and Exchange Commission, or SEC, e-proxy rules that allow companies to post their proxy materials on the internet. We will be able to provide our shareholders with the information they need while lowering the cost of the delivery of materials and reducing the environmental impact of printing and mailing hard copies. As permitted by the SEC rules, we are sending a Notice of Internet Availability of Proxy Materials, or the Notice, to our shareholders on or about April 2, 2013. All shareholders will have the ability to access the proxy materials on the website referred to above and in the Notice. Shareholders will also have the ability to request a printed set of the proxy materials. Instructions on how to access the proxy materials on the internet or to request a printed copy may be found in the Notice. Instructions on how to vote your shares and how to download a proxy card for voting at the annual meeting will also be contained in the Notice.

When we refer to the Company, we, our, and us in this proxy statement, we mean First Interstate BancSystem, Inc. and our consolidated subsidiaries, unless the context indicates that we refer only to the parent company, First Interstate BancSystem, Inc. When we refer to the Bank in this proxy statement, we mean First Interstate Bank, our bank subsidiary.

What is a proxy?

A proxy is your legal designation of another person to vote on your behalf. By completing and returning the proxy card, you are giving the persons designated in the proxy the authority to vote your shares in the manner you indicate on the proxy card.

Why did I receive more than one proxy card?

While we have attempted to consolidate your holdings onto one proxy card, you may receive multiple proxy cards if you hold your shares in different ways (e.g., joint tenancy, trusts, custodial accounts) or in multiple accounts. In addition, if your shares are held by a broker or trustee, you will receive your proxy card or other voting information from your broker or trustee. You should vote on and sign each proxy card you receive.

Who pays the cost of this proxy solicitation?

We pay the costs of soliciting proxies. Upon request, we will reimburse brokers, banks, trusts and other nominees for reasonable expenses incurred by them in forwarding proxy materials to beneficial owners of our common stock.

Is this proxy statement the only way that proxies are being solicited?

In addition to these proxy materials, certain of our directors, officers and employees may solicit proxies by telephone, facsimile, e-mail or personal contact. They will not be specifically compensated for doing so.

Voting Information

Who is qualified to vote?

Edgar Filing: FIRST INTERSTATE BANCSYSTEM INC - Form DEF 14A

You are qualified to receive notice of and to vote at the annual meeting if you owned shares of our Class A or Class B common stock as of the close of business on our record date of March 15, 2013.

How many shares of common stock may vote at the annual meeting?

As of the record date, there were 18,196,200 shares of Class A common stock outstanding and entitled to vote and 25,377,049 shares of Class B common stock outstanding and entitled to vote at our annual meeting. Our Class A common stock and our Class B common stock are referred to collectively as our common stock.

How are votes counted?

The proxies appointed by the Board will vote your shares as you instruct on your proxy. Each share of Class A common stock is entitled to one vote and each share of Class B common stock is entitled to five votes in all matters submitted to a vote of shareholders. Holders of Class A common stock and Class B common stock vote together as a single class on all matters (including the election of directors) submitted to a vote of shareholders, unless otherwise required by law.

Is there a quorum requirement?

For the annual meeting to be valid, there must be a quorum present. A quorum requires that more than 50% of the voting power of our issued and outstanding common stock be represented at the meeting, whether in person or by proxy.

What is the difference between a shareholder of record and other beneficial holders?

These terms describe how your shares are held. If your shares are registered directly in your name, you are a shareholder of record. If your shares are held in the name of a broker, bank, trust or other nominee as a custodian, you are a beneficial holder.

How do I vote my shares?

If you are a shareholder of record, you can vote your proxy:

via internet at www.proxyvote.com;

via telephone by calling 1-800-PROXIES in the United States or 1-718-921-8500 in foreign countries;

by mailing in the proxy card that will be sent to you by mail or that you may download from the website referred to in the Notice; or

by designating another person to vote your shares with your own form of proxy.

Please refer to the specific instructions set forth on the proxy card. We encourage you to vote electronically or by telephone. If you are a beneficial holder, your broker, bank, trust or other nominee will provide you with materials and instructions for voting your shares.

Can I vote my shares in person at the annual meeting?

If you are a shareholder of record, you may vote your shares in person at the annual meeting. If you are a beneficial holder, you must obtain a proxy from your broker, bank, trust or other nominee giving you the right to vote the shares at the annual meeting.

What is the Board's recommendation on how I should vote my shares?

Proposal One the Board recommends that you vote your shares FOR the election of each of the five director nominees.

Proposal Two the Board recommends you vote your shares FOR ratification of the appointment of McGladrey LLP as our independent registered public accounting firm for the year ending December 31, 2013.

Edgar Filing: FIRST INTERSTATE BANCSYSTEM INC - Form DEF 14A

Proposal Three the Board recommends that you vote your shares FOR the approval, on an advisory basis, of executive compensation as disclosed in this proxy statement.

Proposal Four the Board recommends that you vote your shares FOR an increase in the number of shares authorized for issuance under our 2006 Equity Compensation Plan.

How will my shares be voted if I do not specify how they should be voted?

If you sign and return your proxy card without indicating how you want your shares to be voted, the proxies appointed by the Board will vote your shares FOR the election of all five director nominees, FOR the ratification of the appointment of McGladrey LLP as our independent registered public accounting firm for the year ending December 31, 2013, FOR the approval, on an advisory basis, of executive compensation as disclosed in this proxy statement and FOR the approval of an amendment to increase the number of shares authorized for issuance under our 2006 Equity Compensation Plan.

Can my broker vote my shares for the proposal regarding the election of directors?

A broker or other entity holding shares for an owner in street name may vote for routine proposals without receiving voting instructions from the owner under certain circumstances. A broker or other entity may vote on non-routine proposals only if the owner has provided voting instructions. A broker non-vote occurs when the broker or other entity is unable to vote on a proposal because the proposal is non-routine and the owner does not provide any voting instructions. The only routine matter in this proxy statement is Proposal Two to ratify the appointment of our independent registered public accounting firm. Proposal One to elect the director nominees, Proposal Three to conduct an advisory vote on executive compensation and Proposal Four to increase the number of shares authorized for issuance under our 2006 Equity Compensation Plan are non-routine matters. Therefore, if we receive a proxy card with a broker non-vote, your proxy will be voted for Proposal Two and it will not be included in determining the number of votes cast with regard to Proposals One, Three or Four. It is important that you instruct your broker as to how you wish to have your shares voted on each proposal, even if you wish to vote as recommended by the Board.

How are votes withheld, abstentions and broker non-votes treated?

Votes withheld and abstentions are deemed as present at the annual meeting, are counted for quorum purposes, and except for voting on directors, will have the same effect as a vote against a matter. Broker non-votes, if any, while counted for general quorum purposes, are not deemed to be present with respect to any matter for which a broker does not have authority to vote.

How do I change or revoke my proxy?

After voting you may change your vote one or more times, or you may revoke your proxy, at any time before the vote is taken at the annual meeting. You may revoke your proxy by doing one of the following:

sending a written notice of revocation to our corporate secretary that is received prior to the annual meeting, stating that you revoke your proxy;

signing a later-dated proxy card and submitting it so that it is received prior to the annual meeting in accordance with the instructions included in the proxy card(s);

voting again via the internet or by telephone using the instructions described in the Notice; or

attending the annual meeting and voting your shares in person.

What vote is required?

With respect to Proposal One to elect the director nominees, a majority of votes are needed to elect a director. This means that the five nominees for director must each respectively receive affirmative votes of 50% or more of the votes cast to be elected. Neither a vote to abstain nor a broker non-vote will count as a vote cast FOR or AGAINST a director nominee. A vote to abstain or a broker non-vote will have no direct effect on the outcome of the election of directors.

With respect to Proposal Two to ratify the appointment of McGladrey LLP as our independent registered public accounting firm for the year ending December 31, 2013, ratification will be approved by the shareholders if the votes cast in favor of the matter exceed the votes cast in opposition. Abstentions will be treated as a vote cast and will have the same effect as a vote AGAINST this proposal.

With respect to Proposal Three to conduct an advisory vote on executive compensation, advisory approval will be obtained if the votes cast in favor of the matter exceed the votes cast in opposition. Broker non-votes will not count as a vote cast FOR or AGAINST this proposal, and will have no direct effect on the outcome of this proposal. Abstentions will be treated as a vote cast and will have the same effect as a vote AGAINST this proposal.

With respect to Proposal Four to increase the number of shares authorized for issuance under our 2006 Equity Compensation Plan, approval will be obtained by the shareholders if the votes cast in favor of the matter exceed the votes cast in opposition. Broker non-votes will not count as a vote cast FOR or AGAINST this proposal, and will have no direct effect on the outcome of this proposal. Abstentions will be treated as a vote cast and will have the same effect as a vote AGAINST this proposal.

Edgar Filing: FIRST INTERSTATE BANCSYSTEM INC - Form DEF 14A

With respect to all other business which may properly come before the annual meeting, unless a greater number of votes are required by law or by our articles of incorporation, the business will be approved by the shareholders if the votes cast in favor of the matter exceed the votes cast in opposition.

Who will count the votes?

Representatives from American Stock Transfer & Trust Company, LLC will count the votes and serve as our inspectors of election. The inspectors of election will be present at the annual meeting.

What if I have further questions?

If you have any further questions about voting your shares or attending the annual meeting, please contact our corporate secretary, Carol Stephens Donaldson, at (406) 255-5378, or e-mail: carol.donaldson@fib.com.

PROPOSAL ONE

ELECTION OF DIRECTORS

In accordance with our second amended and restated bylaws, the number of our directors must be at least five and not more than eighteen. We currently have seventeen directors. The Board is divided into three groups with staggered three-year terms. Terry W. Payne and Sandra A. Scott Suzor's terms end May 22, 2013. Terry W. Payne and Sandra A. Scott Suzor are not nominees for re-election.

A total of five directors will be elected at the annual meeting to serve three-year terms, or until their respective successors have been elected and appointed. The Board has nominated for election as directors:

David H. Crum

Jonathan R. Scott

Theodore H. Williams

All of the director nominees, except for Jonathan R. Scott and Theodore H. Williams, are current members of the Board. Jonathan R. Scott previously served as a director of ours from 2006 to 2011.

Unless authority to vote is withheld, the persons named in the enclosed proxy will vote the shares represented by such proxy for the election of the nominees named above. If, at the time of the annual meeting, any nominee becomes unavailable for any reason for election as a director, the persons entitled to vote the proxy will vote for the election of such substitute(s) as the Board may recommend. At this time, the Board knows of no reason why any nominee might be unavailable to serve.

The following tables set forth certain information regarding the nominees for election at the annual meeting and the directors continuing in office after the annual meeting.

PROPOSAL TWO**RATIFICATION OF APPOINTMENT OF****INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

McGladrey LLP was appointed by the audit committee of the Board as our independent registered public accounting firm for the year ending December 31, 2013. The audit committee recommended that the Board ratify this appointment.

The Board ratified the appointment of McGladrey LLP as our independent registered public accounting firm for the year ending December 31, 2013 and is submitting the appointment to our shareholders for ratification at the annual meeting. Representatives of McGladrey LLP are not expected to be present at the annual meeting.

Proxies solicited hereby will be voted for the proposal unless a vote against the proposal or abstention is specifically indicated. A majority of the shares entitled to vote and present in person or represented by proxy are needed to ratify the appointment of the independent registered public accounting firm. This means that the appointment of McGladrey LLP as independent registered public accounting firm for the Company will be ratified if the votes cast by shareholders in favor of ratification exceed those votes cast in opposition of ratification.

**The Board recommends a vote FOR ratifying the appointment of McGladrey LLP as
our independent registered public accounting firm.**

PROPOSAL THREE

ADVISORY VOTE ON EXECUTIVE COMPENSATION

Recent amendments to Section 14A of the Securities Exchange Act of 1934, as amended, or the Exchange Act, pursuant to the enactment of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, or the Dodd-Frank Act, require us to provide our shareholders an opportunity to cast an advisory vote to approve the compensation of the executive officers named in this proxy statement.

Our general compensation philosophy is that executive compensation should align with shareholders' interests without encouraging excessive or unnecessary risk. Our executive compensation programs are designed to attract and retain qualified executive officers and establish an appropriate relationship between executive pay and the Company's annual financial performance and long-term growth objectives. Long-term executive compensation, through the award of stock options, time restricted stock and performance restricted stock, encourages growth in executive stock ownership and helps drive performance that rewards both our executives and our shareholders.

We are asking for shareholder approval of the compensation of our named executive officers as disclosed in this proxy statement under the subheadings Compensation Discussion and Analysis and Compensation of Executive Officers and Directors. This vote is intended to address the overall compensation of our named executive officers and the policies and practices described in this proxy statement.

This vote is advisory and therefore not binding on us, the Compensation Committee or the Board. The Board and Compensation Committee value the opinions of shareholders and will take into account the outcome of the vote when considering future executive compensation arrangements.

A majority of the shares entitled to vote and present in person or represented by proxy are needed to approve, on an advisory basis, the compensation of our executive officers. This means that our executive compensation will be approved, on an advisory basis, if the votes cast by shareholders in favor of advisory approval exceed those votes cast in opposition of advisory approval.

**The Board recommends a vote FOR advisory approval of our compensation
of executive officers named in this proxy statement.**

PROPOSAL FOUR

**TO INCREASE THE NUMBER OF SHARES AUTHORIZED FOR ISSUANCE UNDER THE
FIRST INTERSTATE BANCSYSTEM, INC. 2006 EQUITY COMPENSATION PLAN**

On March 21, 2013, the Board approved an amendment to our 2006 Equity Compensation Plan, or the Plan, to increase the number of shares authorized for issuance under the Plan by an additional 1,500,000 shares of common stock, subject to approval of shareholders. In increasing the number of shares authorized for issuance under the Plan, we intend to provide sufficient capacity for the continued administration of the Plan, based on current practices, over the next six years.

The following summary of the material terms of the Plan, as amended, is qualified in its entirety by reference to the complete text of the previously filed Plan, as amended.

Overview. The purpose of the Plan is to advance the interests of our shareholders by enhancing our ability to attract, retain and motivate employees and directors who are expected to make important contributions to us by providing them with both equity ownership opportunities and performance-based incentives intended to align their interests with those of our shareholders. The Plan is designed to provide us with flexibility to select from among various equity-based compensation vehicles and to be able to address changing accounting requirements, tax rules and corporate governance practices by optimally utilizing stock options and shares of our common stock.

Administration. The Board is authorized to interpret the Plan, amend the Plan, take action on behalf of or pursuant to the Plan, adopt policies and procedures for the implementation of the Plan, determine which, if any, benefits shall be made available and awarded under the Plan, establish the terms and conditions of benefits awarded under the Plan, make all determinations necessary for the administration of the Plan to the extent such determinations are not contrary to express provisions of the Plan. The Board may delegate all or any portion of the administration of the Plan to a committee of two or more non-employee directors within the meaning of Rule 16b-3 under the Securities Exchange Act of 1934, as amended, or the Exchange Act, and outside directors within the meaning of Section 162(m) of the Internal Revenue Code of 1986, as amended, or the Code. The Board may also delegate all or any portion of the administration of the Plan to our Chief Executive Officer, but only with respect to benefits to participants who are neither subject to Section 16 of the Exchange Act nor covered employees within the meaning of Section 162(m) of the Code.

The Board may amend, suspend or terminate the Plan at any time, subject to any requirement of shareholder approval required by any applicable law, regulation or rule.

Terms and Conditions of Stock Option Awards. Stock options issued pursuant to the Plan shall be nonqualified stock options, or NSOs. The Board has complete discretion in determining the timing, number and terms of stock options granted under the Plan provided, however, that the maximum number of shares of common stock subject to options granted to an individual may not exceed 350,000 in a calendar year and that all options expire no later than ten years from the date of grant. The terms of each option grant shall be evidenced by a stock option agreement stating the stock option price, the duration of the stock option, the number of shares of common stock to which the stock option pertains, the vesting schedule of the stock option and such other terms and conditions as may be determined from time to time by the Board.

The purchase price for any shares purchased pursuant to exercise of a stock option granted under the Plan must be paid in full upon exercise of the stock option either in cash, or, in the discretion of the Board and upon such terms and conditions as it may approve, the exercise price may be paid by (a) transferring to us option shares at their fair market value on the date of delivery, (b) by a combination of these methods, or (c) in such other manner as the Board may determine. The foregoing alternatives are, however, subject to any applicable limitations on loans to officers and to applicable insiders and other trading rules and regulations of the Securities and Exchange Commission, or SEC.

No stock option shall be exercisable during the lifetime of an optionee by any other person. The Board has the power to set the time(s) within which each stock option shall be exercisable and to accelerate the time(s) of exercise.

In the event of a dissolution or change in control of the Company, every stock option outstanding under the Plan shall terminate. Each optionee shall have the right, within ten calendar days immediately prior to the effective date of dissolution or change in control, to exercise any unexercised stock options whether or not then exercisable or vested, subject to the provisions of the Plan. Notwithstanding the foregoing, all stock options shall not become immediately exercisable or vested where the surviving corporation in a change in control agrees to issue to each optionee a stock option to purchase the surviving corporation's shares on terms and conditions both as to number of shares and otherwise which will substantially preserve each optionee's rights and benefits of the stock options outstanding under the Plan. In that circumstance, all optionees shall be obligated to accept the new options in place of the stock options outstanding under the Plan.

Terms and Conditions of Restricted Stock Awards. Restricted shares awarded under the Plan consist of shares of common stock issued to Plan participants without payment. Restricted shares shall be awarded in such amounts and subject to such terms and conditions as the Board, in its sole discretion, establishes from time to time, including without limitation restrictions on the sale or other disposition of the common stock, restrictions requiring forfeiture of the common stock upon termination of employment or service prior to satisfying any prescribed vesting schedule or conditions requiring the participants earn the common stock in whole or in part upon achievement of performance goals established by the Board over a specified period of time. The value of a restricted stock benefit that may be granted to a participant under the Plan in any calendar year shall not exceed a fair market value of \$1,000,000.

If the Company is dissolved or in the event of a change in control, then every restricted stock benefit outstanding hereunder which has not vested shall vest immediately on the effective date of the dissolution or change in control.

U.S. Federal Income Tax Consequences. The federal income tax consequences to us and to our eligible employees or directors of various awards under the Plan are complex and subject to change. The following discussion is only a summary of some of the general rules applicable to the Plan, based on federal income tax laws in effect on the date of this Proxy Statement. This summary is not intended to be exhaustive and does not address all matters that may be relevant to a particular participant based upon his or her specific circumstances. The summary expressly does not discuss the income tax laws of any state, municipality or non-U.S. taxing jurisdiction, or the gift, estate, excise (including the rules applicable to deferred compensation under Code § 409(A)), or other tax laws other than federal income tax law.

The following is not intended or written to be used, and cannot be used, for the purposes of avoiding taxpayer penalties. Because individual circumstances may vary, we strongly advise all participants to consult with their tax advisors concerning the tax implications and treatment of awards granted under the 2006 Plan.

Code Section 162(m) generally denies a tax deduction to any publicly held corporation for compensation that exceeds \$1,000,000 paid to certain senior executives in a taxable year, subject to an exception for performance based compensation as defined in the Code and subject to certain transition provisions. The Plan and stock option grants to officers that may be subject to Section 162(m) are structured in a manner that is intended to satisfy the performance-based compensation exception. However, we reserve the authority to award non-deductible compensation as it deems appropriate. In addition, notwithstanding our efforts, ambiguities and uncertainties regarding the application and interpretation of Section 162(m) make it impossible to provide assurance that performance-based compensation will, in fact, satisfy the requirements for deductibility under Section 162(m). Thus, Section 162(m) could limit the deductibility of compensation related to the exercise of options granted under the 2006 Plan.

NSOs. An optionee does not recognize taxable income upon the grant of an NSO. Upon the exercise of such a stock option, the optionee recognizes ordinary income to the extent the fair market value of the shares received upon exercise of the NSO on the date of exercise exceeds the exercise price. We receive an income tax deduction in an amount equal to the ordinary income that the optionee recognizes upon the exercise of the stock option.

Restricted Shares. A participant who receives an award of restricted stock does not generally recognize taxable income at the time of the award. Instead, the participant recognizes ordinary income in the first taxable year in which his or her interest in the shares becomes either: (a) freely transferable; or (b) no longer subject to substantial risk of forfeiture. The amount of taxable income is equal to the fair market value of the shares less the cash, if any, paid for the shares.

A participant may elect to recognize income at the time he or she received restricted stock in an amount equal to the fair market value of the restricted stock (less any cash paid for the shares) on the date of the award.

We receive a compensation expense deduction in an amount equal to the ordinary income recognized by the participant in the taxable year in which restrictions lapse (or in the taxable year of the award if, at that time, the participant had filed a timely election to accelerate recognition of income).

In the case of an award of performance shares, the participant will generally recognize ordinary income in an amount equal to any cash received and the fair market value of any shares received on the date of payment or delivery. In that taxable year, we will receive a federal income tax deduction in an amount equal to the ordinary income which the participant has recognized.

Future Plan Benefits. The awards that will be granted to eligible persons under the Plan are subject to the discretion of the Board and, therefore, are not determinable at this time.

**The Board recommends that you vote your shares FOR an increase in the number of shares
authorized for issuance under our 2006 Equity Compensation Plan.**

We have determined beneficial ownership in accordance with the rules of the SEC. Except as indicated by the footnotes below, we believe, based on the information furnished to us, that the persons and entities named in the table below have sole voting and investment power with respect to all shares of common stock that they beneficially own, subject to applicable community property laws.

Percentage of class beneficially owned as of March 15, 2013 is based on 18,196,200 shares of Class A common stock and 25,377,049 shares of Class B common stock outstanding. In computing the number of shares of common stock beneficially owned by a person and the percentage ownership of that person, we deemed outstanding shares of each class of common stock subject to options held by that person that were exercisable on or within 60 days of March 15, 2013. We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other person. In computing the number of shares of Class A common stock beneficially owned by a person and the percentage of Class A common stock ownership of that person, we assumed the conversion of any Class B common stock beneficially owned by such person into Class A common stock on a share-for-share basis.

Certain of our directors and greater than 5% shareholders, who own collectively and in the aggregate more than 50% of our outstanding common stock, are members of a group, as that term is defined in Section 13(d)(3) of the Securities Exchange Act of 1934, as amended, or Exchange Act. This group is comprised of the following individuals and certain entities controlled by these individuals: James R. Scott, Randall I. Scott, Thomas W. Scott, John M. Heyneman, Jr., Homer A. Scott, Jr. and Dan S. Scott.

Unless otherwise noted below, the address for each director, director nominee, named executive officer and beneficial owner of more than 5% of a class of our common stock listed in the table below is: c/o First Interstate BancSystem, Inc., 401 North 31st Street, Billings, Montana 59116.

Board and Committee Matters

Members of the Scott family control in excess of 80% of the voting power of our outstanding common stock. The Scott family members have entered into a shareholder agreement giving family members a right of first refusal to purchase shares of Class B common stock that is intended to be sold or transferred, subject to certain exceptions, by other family members. This agreement may have the effect of continuing ownership of the Class B common stock and control of our Company within the Scott family.

Due to the ownership and control of our Company by members of the Scott family, we are a controlled company as that term is used under the NASDAQ Marketplace Rules. As a controlled company, we may rely on exemptions from certain NASDAQ corporate governance requirements, including those regarding independent director requirements for the Board and committees of the Board.

Regardless of whether a company is a controlled company, however, the NASDAQ Marketplace Rules require that a company have an audit committee of at least three members, each of whom must:

be independent as defined under the NASDAQ Marketplace Rules;

meet the criteria for independence set forth in the applicable SEC rules (subject to applicable exemptions);

not have participated in the preparation of the financial statements of the Company or any current subsidiary of the Company at any time during the past three years; and

be able to read and understand financial statements, including a balance sheet, income statement and cash flow statement.

During 2012, the Board met seven times with each serving director attending at least 75% of the meetings. The Board is accountable to our shareholders to build long-term financial performance and value and to assure that we operate consistently with shareholder values and strategic vision. ensuring that full and fair disclosure is provided to shareholders, regulators and other constituents;

overseeing risk management;

exercising all powers reserved to us by organizational documents of limited liability companies and partnerships in which we are a member or shareholder; and

Applicable SEC rules require that we make certain disclosures regarding the independence of our directors pursuant to the NASDAQ Marketplace Rules governing independent board members. The Board has determined that the following directors are independent in accordance with such standards:

Steven J. Corning

David H. Crum

William B. Ebzery

James W. Haugh

David L. Jahnke

In its determination of independence, the Board considered that the Company (1) conducts banking and credit transactions in the ordinary course of business with certain independent directors, (2) purchases insurance through an agency in which Mr. Payne has a controlling ownership interest, (3) receives payments from Mr. Payne pursuant to an interest guaranty agreement, (4) liquidated collateral pledged by Mr. Payne on the loans of an unrelated third party borrower, (5) sold real property to Mr. Payne, (5) retained Mr. Corning as project manager of a soon-to-be constructed bank branch, and, (6) made payments to Dr. Hart under a deferred compensatory agreement. The Board's Leadership Structure

Currently, the offices of chairman of the board and chief executive officer are separate. Our chairman is Thomas W. Scott, and our president and chief executive officer is Ed Garding. The chairman of the board is responsible for presiding at meetings of the Board and exercising such other powers and duties as set forth in our second amended and restated bylaws and as may from time to time be assigned to him by the Board. The chief executive officer is responsible for general supervision, direction, and control of our business affairs, and ensuring that all orders and resolutions of the Board are carried into effect. In addition, Michael J. Sullivan acts as our lead independent director. The lead independent director acts as a liaison between the chairman and independent directors, presides over semi-annual meetings of the independent directors and, if requested by major shareholders, is available for consultation and direct communication. The Board believes that our existing corporate governance structure best serves the current needs of our company and our shareholders.

The Board's Role in Risk Oversight

It is the responsibility of the chief executive officer to fulfill the Board's expectation of a strong risk management culture throughout the organization. It is the responsibility of the chief risk officer to ensure an appropriate risk management framework is implemented to identify, assess, and manage our exposure to risk. The Board and its committees play an important role in overseeing executive management's performance of their responsibilities relating to risk management. In general, this oversight includes working with executive management to determine an appropriate risk management culture, monitoring the amounts and types of risk taken in executing our business strategy and evaluating the effectiveness of risk management processes against the policies and procedures established to control those risks. We have adopted a risk management oversight structure designed to ensure that all significant risks are actively monitored by the entire Board or one of its committees. Furthermore, given the importance of the Bank's operations to us, additional risk management oversight is provided by the Bank's board of directors, members of which include certain of our directors.

In most cases, our respective Board committees are responsible for the oversight of specific risks as outlined in each of their respective charters. For example, the credit committee's risk oversight responsibilities include oversight of the annual credit plan, lending policies, credit trends, the allowance for loan loss policy, and high risk portfolios and concentrations. In addition to its oversight of all aspects of our annual independent audit and the preparation of our financial statements, the audit committee has been delegated responsibility for oversight of risks associated with our internal controls, compliance with applicable laws and regulations, monitoring the implementation of codes of conduct and overseeing responses to reports of examination. The compensation committee has been delegated responsibility for oversight of our compensation programs, including evaluating whether any of these programs contain features that promote excessive risk-taking by management and other employees, either individually or as a group. The executive committee oversees our capital positions and capital management activities to ensure compliance with applicable regulatory requirements and to ensure that our capital levels are a source of financial strength. The governance & nominating committee has been delegated responsibility for establishing and reviewing the adequacy of our codes of conduct and ethics, reviewing and approving related party transactions, developing criteria and qualifications for board membership, considering, recommending, and recruiting candidates to fill new or vacant positions on the Board, and ensuring an effective and efficient system of governance is in place for the Company. The technology committee has been delegated responsibility for ensuring adequate processes are in place to protect the Company's data.

In addition to oversight of risk management by the Board and its committees, the Bank's board of directors and its committees have been delegated the responsibility for overseeing management of the Bank's lending activities, liquidity and capital position, asset quality, interest rate risk and investment strategies. The chairman of the Bank's board communicates relevant information with respect to these activities to the full Board.

The Board's committees carry out their responsibilities by requesting and obtaining reports and other information from management with respect to relevant risk areas. In addition to our committee structure, our entire Board periodically receives reports and information about key risks and enterprise risk management from the chief risk officer.

Board Diversity

The Board does not have a formal written policy with regard to the consideration of diversity in identifying director nominees. Our governance standards, however, require the Board's governance & nominating committee to review the qualifications of candidates to the Board, of which diversity is one of the criteria. This assessment includes the consideration of personal and professional ethics and integrity, including a candidate's reputation for integrity in the business community; diversity among the existing Board members, including racial and ethnic background and gender; specific business experience and competence, including an assessment of whether the candidate has experience in, and possesses an understanding of, business issues applicable to the success of the banking industry and whether the candidate has served in policy-making roles in business, government, education or other areas that are relevant to the Company's regional activities; financial acumen, including whether the candidate, through education or experience, has an understanding of financial matters and the preparation and analysis of financial statements; professional and personal accomplishments, including involvement in civic and charitable activities; educational background; and whether the candidate has expressed a willingness to devote sufficient time to carrying out his or her duties and responsibilities effectively and is committed to service on the Board.

Although pre-approval is not required for these services, the audit committee has adopted a policy of approving such services either in advance or after the fact. The audit committee has adopted a policy that requires advance approval of all non-audit or audit-related services performed by our independent registered public accounting firm when fees are expected to exceed \$15,000. These policies are consistent with the audit committee charter. The audit committee has delegated to the audit committee chairman, Ross E. Leckie, or any two other members of the audit committee, authority to approve services, subject to ratification by the audit committee at its next committee meeting.

Report of the Audit Committee of the Board of Directors

March 20, 2013

To the Board of Directors of First Interstate BancSystem, Inc.:

The audit committee (Committee) operates under a charter approved by the Board of Directors (Board) that specifies the scope of the Committee's responsibilities and how they are carried out. The Board has determined that all members of the Committee are independent based upon the standards adopted by the Board, which standards incorporate the independence requirements under applicable laws and regulations.

Management is responsible for the Company's systems of internal controls and the financial reporting process. McGladrey, LLP, the Company's independent registered public accounting firm (independent auditors), is responsible for the integrated audit of the consolidated financial statements and internal controls over financial reporting. The Company's internal auditors are responsible for preparing an annual audit plan and conducting internal audits under the control of the General Auditor, who is accountable to the Committee.

The Committee's responsibility is to monitor and oversee these processes and procedures.

The Committee relies, without independent verification, on the information provided to it and on the representations made by management regarding the effectiveness of internal control over financial reporting, and that such financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America. The Committee also relies on the opinions of the independent auditors on the consolidated financial statements and on the effectiveness of internal control over financial reporting. The Committee's oversight does not provide assurance that management's and the auditor's opinion and representations are correct.

The Committee reviewed and discussed the financial statements as of and for the year ended December 31, 2012 with management, the internal auditors and the independent auditors.

The Committee also discussed with the independent auditors all communications required by the standards of the Public Company Accounting Oversight Board (United States). The Committee has received the written disclosures required by PCAOB Rule 3526 Communication with Audit Committees Concerning Independence. The Committee discussed with the independent auditors any relationships that might have an impact on their objectivity and independence and reviewed and approved the amount of fees paid for audit and audit related services.

Based on the above-mentioned reviews and discussions, and subject to the limitations on its role and responsibilities described above and in the Committee charter, on February 26, 2013, the Committee recommended to the Board that the audited financial statements referred to above be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 for filing with the SEC.

Shareholder Communications with the Board

We have not, to date, developed a formal process for shareholder communications with the Board. We believe our current informal process, in which any communication sent to the Board either generally or in care of the chief executive officer, corporate secretary or other corporate officer or director is forwarded to all members of the Board, has adequately served the Board's and the shareholders' needs.

Financial Code of Ethics

Our chief executive officer, chief financial officer and principal accounting officers or other persons performing similar functions are required to comply with our code of ethics for chief executive officer and senior finance officers.

The purposes of the code of ethics are as follows:

to deter wrongdoing and to promote, among other things, honest and ethical conduct;

to promote full, fair, accurate, timely and understandable disclosure in SEC and public filings;

to promote compliance with applicable governmental laws, rules and regulations;

to facilitate prompt internal reporting of violations of the financial code of ethics; and

to oversee adherence to such code.

Employees may submit concerns or complaints regarding ethical issues on a confidential basis by means of a toll-free telephone hotline or the use of an internet-based reporting system. All concerns and complaints are reported to our security officer and audit committee chairman in a summary format for investigation. A current copy of our financial code of ethics is maintained on our website at www.FIBK.com.

COMPENSATION DISCUSSION AND ANALYSIS

Role of Compensation Committee

The Compensation Committee's overall responsibility is to review and approve our compensation structure, policy and programs in order to assess whether the compensation structure establishes appropriate incentives for management and employees. The Compensation Committee oversees the administration of our equity and incentive compensation plans and is responsible for oversight of executive officer succession planning. The Committee charter, which is posted on our website at www.fibk.com, sets forth the various responsibilities and duties of the Compensation Committee. In the annual review of the charter, the Committee determined the charter was appropriate with regard to the responsibilities and duties specified therein.

The Compensation Committee is comprised of both outside members and non-outside members. Outside members are those who meet both the definition of (1) a non-employee director, as that term is defined for purposes of Rule 16b-3 under the Securities Exchange Act of 1934, as amended, and (2) an outside director, as that term is defined for purposes of Section 162(m) of the Internal Revenue Code of 1986, as amended.

Outside members annually review and determine the salary, bonus and equity compensation awarded to our CEO. They also approve equity awards for all of our elected officers, taking into consideration non-binding recommendations from the non-outside members. In addition, the outside members approve all executive officers' compensation, taking into consideration non-binding recommendations from both our CEO and non-outside members.

Executive Compensation Philosophy

Our executive compensation philosophy is designed to establish an appropriate relationship between executive pay and our annual performance, long-term growth objectives, individual performance of the executive officer and our ability to attract and retain qualified executive officers. The Compensation Committee seeks to achieve these goals by integrating competitive annual base salaries with bonuses based on corporate performance and on the achievement of specified performance objectives, along with long-term incentives of stock option and restricted stock awards through our equity compensation plan.

The Compensation Committee believes that cash compensation in the form of salary and bonus provides our executives with short-term rewards for individual performance and success in operations. Long-term compensation, through awards of stock options and restricted stock, assists in employee retention and encourages management stock ownership. In turn, management ownership leads to increased commitment to our long-term performance and success.

Relation of Compensation Policies and Programs to Risk Management

Edgar Filing: FIRST INTERSTATE BANCSYSTEM INC - Form DEF 14A

After reviewing our executive compensation policy and programs, the Compensation Committee concluded that our incentive programs do not encourage or promote unnecessary or excessive risk-taking behavior by executive officers or other employees that could threaten the value of our Company or would be reasonably likely to have a material adverse effect on us. The Company discourages undue risk taking by reserving the right to use discretion in the payout of all incentives.

On November 17, 2011, based on the Compensation Committee's recommendation, the Board of Directors approved a clawback policy for all Section 16 reporting officers, including the named executive officers or NEOs. The clawback policy authorizes the Board to recoup all performance-based compensation paid during the years affected by a financial restatement or executive misconduct. Based upon the facts and circumstances surrounding the restatement, the Board may also direct the Company to cancel any equity-based awards granted to the executives during the applicable time period and recoup any gains realized during the time period with respect to equity-based awards.

Role of Executive Officers

The individuals who served as our chief executive officer, or CEO, and chief financial officer, or CFO, during 2012, as well as the other individuals included in the summary compensation table, are collectively referred to as the named executive officers, or NEOs.

The CEO annually reviews the performance of the executive officers and makes non-binding recommendations to the Compensation Committee for salary adjustments, annual bonuses, and equity-based compensation. The Compensation Committee may exercise its discretion to accept, reject or modify any recommended salary adjustments, bonuses or awards to executives.

Role of Compensation Consultants/Peer Group

The Compensation Committee made a comprehensive review of our executive compensation in 2012 utilizing the Equilar subscription service to obtain proxy data based on a custom peer group. The peer group was composed of the following banks:

1 st Source Corporation	Old National Bancorp
BancFirst Corporation	Park National Corporation
Banner Corporation	Prosperity Bancshares Inc.
Chemical Financial Corporation	Sterling Financial Corporation
Columbia Banking System Inc.	Trustmark Corporation
First Financial Bancorp	UMB Financial Corporation
First Midwest Bancorp, Inc.	Umpqua Holdings Corporation
Glacier Bancorp, Inc.	United Community Banks Inc.
Heartland Financial USA, Inc.	WesBanco Inc.
International Bancshares Corporation	

Changes to the peer group from the previous year include the removal of Cullen Frost Bankers Inc. and First Busey Corporation, who were no longer deemed compatible based on their asset size.

The Compensation Committee targets market competitive (50th percentile) base pay, incentives and total cash compensation within the peer group. The Compensation Committee took into consideration data from salary surveys conducted by Mercer, the American Bankers Association, and The Delves Group. During 2011, the Compensation Committee engaged the services of Pearl Meyer & Partners, a leading compensation consulting firm, to assist with its executive compensation review and to provide competitive market data. It was considered unnecessary to repeat this research in 2012.

Say on Frequency/Say on Pay

In 2011, the shareholders approved a biennial say on pay vote. The Compensation Committee reviewed the say-on-pay voting results and noted that the advisory vote on executive compensation was approved by shareholders as follows:

Votes for	105,995,219
Votes against	97,965
Abstentions	6,921
Broker non-votes	3,220,455

We believe our compensation policies and programs are based on a pay-for-performance culture and align with the long-term interests of our shareholders. Beginning in 2011, Section 14A of the Exchange Act (as enacted by the Dodd-Frank Wall Street Reform and Consumer Protection Act) requires us to provide our shareholders a Say-on-Pay vote. This vote gives our shareholders the opportunity to endorse or not endorse the compensation of our NEOs. The shareholder vote is advisory and is not binding on the Compensation Committee; however, the Committee will take into account the outcome of the vote. The Compensation Committee is recommending that shareholders vote for the compensation of the Company's NEOs on the 2013 say-on-pay ballot.

2012 Company Performance Relationship to Executive Pay

2012 Financial Performance. In considering executive compensation, the Compensation Committee takes into account various metrics of our financial performance. We have consistently reported net income to shareholders for the last 25 years and have had over 18 years of consecutive quarterly dividends. In December 2012, dividends increased from \$.12 to \$.13 per common share.

During 2012, levels of non-performing assets, criticized loans, and classified loans declined significantly. Non-interest income increased mainly due to a 98% increase in revenue from the origination and sale of residential real estate loans.

Other financial metrics are as follows:

Base Salaries. In determining the salary increase matrix for all employees for 2012 and 2013, the Compensation Committee took into consideration the following:

Continued pressure on net interest margin;

Increasing regulatory expenses;

Projected loan demand; and

The ratio of current salaries to market survey data.

In 2012, the merit increase table reflected an approximate 2% midpoint increase for an employee who performed satisfactorily and whose salary was currently at market value. For 2013, the midpoint increase was 2.8%. In 2013, increases for NEOs ranged from 2.8% to 3%.

The outside members of the Compensation Committee approved the 2012 base salary of Mr. Knight, the former CEO, and Mr. Garding, the current CEO. They also approved the 2012 compensation of other executive officers, including the NEOs, as recommended by the CEO. In approving the base salary of each executive officer, the Compensation Committee utilized the above mentioned salary increase matrix along with data from the executive compensation peer review discussed previously.

Bonuses. The Compensation Committee awards executive bonuses based upon earnings and the achievement of specified performance objectives. Bonuses for executive officers in 2012 were slightly higher than in 2011 due to improved earnings. Target bonuses for 2012 for the NEOs ranged from 25% of base salary to 50% of base salary for the CEO. The varying percentages reflect the Compensation Committee's belief that, as an executive officer's duties and responsibilities increase, the officer should be increasingly rewarded for his performance. Although earnings improved in 2012, they were not sufficient for the Committee to consider paying out the full amount of targeted bonuses. Actual payouts ranged from 18% of base salary to 44% of base salary for the CEO.

Our former CEO, Mr. Knight, retired April 2, 2012. Based on his performance during the first quarter, which was evaluated not only on financial performance but also on providing a smooth transition to the new CEO, the Committee awarded him a bonus equivalent to 30% of his annual base salary.

Long Term Incentive. Long-term equity incentive compensation encourages employees to focus on our long-term performance. It also provides an opportunity for executive officers and certain designated key employees to increase their stake in our company through stock option grants and restricted stock awards, further aligning their interests with those of our shareholders.

In 2012, the outside members of the Compensation Committee awarded a targeted percentage of salary in a mix of long-term incentives to the NEOs as follows:

The actual number of options was determined using the Black-Scholes option pricing model with expected volatility based on peer group volatility and a 10 year life. Both the stock options and the time vested stock have a 3-year graded vesting.

The performance restrictions for the performance vested stock are based on the three-year return on assets (ROA) and the three-year return on equity (ROE) average of our company compared to the SNL Financial index of bank holding companies with total assets between \$4.0 billion and \$12.0 billion. The measurement date is September 30, 2014, using the previous 12 quarters. Vesting is as follows:

Percentile of Peers	Vesting Percentage
<51 st	0%
51 st to <61 st	50%
61 st to <71 st	75%
71 st to <81 st	100%
81 st to <91 st	115%
91 st and higher	125%

The value of the long-term incentive granted under our equity compensation plan to our NEOs, as well as to certain other officers, was based primarily on the individual's ability to influence our long-term growth and profitability. The Compensation Committee believes a mix of long-term incentive vehicles affords a desirable compensation method because it:

enhances the link between the creation of shareholder value and long-term executive incentive compensation;

provides an opportunity for increased equity ownership by executives; and

maintains competitive levels of total compensation.

All awards under our equity compensation plan are made at an exercise price equal to the closing price of the underlying common stock as quoted on NASDAQ for the last market trading day prior to the date of the award. Dollar values of the annual awards of long term incentives to executives have historically been approved at the Compensation Committee's regularly scheduled meeting in January with the date of the awards specified at that time. Performance stock awards for 2013, as approved in January 2013, added the component of Total Shareholder Return (TSR) to the above noted ROA and ROE components. For each measurement period, TSR is defined as the stock price appreciation plus the reinvestment of dividends with dividends assumed to be reinvested at the closing price of the security on the dividend record date. The vesting tiers were revised as follows:

Percentile of Peers	Vesting Percentage
<41 st	0%
41 st to <45 th	25%
45 th to <51 st	38%
51 st to <61 st	50%
61 st to <71 st	75%
71 st to <81 st	100%
81 st to <91 st	115%
91 st and higher	125%

Other Compensation. We provide our NEOs with other compensation that the Compensation Committee believes is reasonable and consistent with the overall compensation program to better enable us to attract and retain superior employees for key positions. The Compensation Committee annually reviews the levels of other compensation provided to NEOs.

The NEOs participate in the following plans and programs along with health and group life and disability insurance. Additional benefits offered to the NEOs may include some or all of the following:

Edgar Filing: FIRST INTERSTATE BANCSYSTEM INC - Form DEF 14A

Individual life insurance, as described below under Endorsement Split Dollar Benefit ;

Payment of social club dues;

Dividends on unvested restricted stock; and

Use of a company automobile.

Company paid individual long term disability policies were discontinued in July 2010.

Retirement and Related Plan. We maintain a profit sharing plan for all non-temporary employees. Contributions are made as authorized by the Board. Participants vest after three years of service. In addition, employees are permitted to defer a portion of their compensation into our profit sharing plan under a 401(k) feature, and we make limited matching contributions with respect to such deferrals.

CEO Total Compensation. The outside members of the Compensation Committee reviewed all components of Mr. Knight's and Mr. Garding's total compensation packages. The compensation was determined to be reasonable based on the review of our peers' CEO total compensation data. Mr. Knight's and Mr. Garding's compensation packages were larger than those granted to our other executives in recognition of their responsibilities and performance.

As part of its role, the Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code, which provides that we may not deduct compensation of more than \$1,000,000 that is paid to certain individuals unless certain conditions are met. We believe that compensation paid under the management incentive plans is generally fully deductible for federal income tax purposes.

Endorsement Split Dollar Benefit

We obtained life insurance policies covering three of the NEOs. Under these policies, we receive all benefits payable upon death of the insured. An endorsement split dollar agreement has been executed with each of the selected executive officers whereby a portion of the policy death benefit is payable to his designated beneficiary. The endorsement split dollar agreement will provide post-retirement coverage for those selected key officers meeting specified retirement qualifications. We have entered into this type of endorsement split dollar agreement with the following NEOs: Mr. Knight, Mr. Garding and Mr. Moore.

We obtained an additional life insurance policy covering selected officers of First Interstate Bank. Under this policy, we receive all benefits payable upon death of the insured. An endorsement split dollar agreement has been executed with each of the insured officers whereby \$100,000 of the policy death benefit is payable to designated beneficiaries if the participant is employed by us at the time of death. Upon termination of employment, the policy remains in place and 100% of the policy death benefit is payable to the Company. We have entered into this type of endorsement split dollar agreement with the following NEOs: Mr. Knight, Mr. Garding, and Mr. Moore.

Employment Contracts

We do not currently have employment agreements with any of our executive officers.

Stock Ownership Guidelines

In order to further align the interests of the employees with the interests of the Company, on September 23, 2010, the Board of Directors approved a Stock Ownership Guideline Policy based on the Compensation Committee's recommendation. The Policy recommends the following holdings for Directors, the CEO and NEOs and allows them five years to achieve the recommended level of holding:

Directors five times their annual cash retainer

CEO five times base salary

NEOs three times base salary

Holdings are measured at the end of each year using the year's closing stock price. While the directors, the CEO and NEOs are not required to meet the recommended level of holding until September 23, 2015, all directors, the CEO and the NEOs, with the exception of two recently elected directors and three recently appointed NEOs, currently meet the minimum level of ownership.

Equity Compensation Plans

Stock options awarded prior to March 23, 2010 that are currently outstanding under our equity compensation plans are exercisable for shares of our Class B common stock. Awards of stock options, restricted stock and other securities issued under our equity compensation plans on or after March 23, 2010 are exercisable for shares of our Class A common stock.

2006 Equity Compensation Plan. Our 2006 equity compensation plan is an omnibus equity compensation plan pursuant to which we may grant equity awards to our directors, officers and other employees. The 2006 plan provides additional benefits as contained in the plan and consolidates into one plan the benefits available under the following equity compensation plans previously adopted:

The 2001 stock option plan;

The 2004 restricted stock award plan;

The director stock compensation plan; and

The officer stock benefit plan.

The 2006 plan does not increase the number of shares of common stock that were available for awards under the prior plans. The prior plans continue with respect to awards made previously under such plans. The 2006 Plan contains the following important features:

The initial number of shares of common stock reserved under the 2006 plan was 3,000,000, which was approximately 9.2% of our previously-existing common stock outstanding at the time of shareholder approval.

Awards under the 2006 plan are subject to broad discretion by the Compensation Committee administering the plan.

Stock options must be granted at an exercise price that is not less than the fair market value of the common stock on the date of grant. Fair market value is the closing price as quoted on NASDAQ for the last market trading day prior to the date of grant. Stock options granted under the 2006 plan are nonqualified stock options that have terms of not more than ten years.

There is no fixed term for the 2006 plan and the 2006 plan continues in effect until terminated by the Board.

The purpose of the 2006 plan is to advance the interests of our shareholders by enhancing our ability to attract, retain and motivate employees and directors who are expected to make important contributions to us by providing them with both equity ownership opportunities and performance-based incentives intended to align their interests with those of our shareholders. The 2006 plan is designed to provide us with flexibility to select from among various equity-based compensation vehicles and to be able to address changing accounting requirements, tax rules and corporate governance practices by optimally utilizing stock options and shares of our common stock.

The 2006 plan permits awards of stock options, restricted stock and other stock awards. All awards made under the 2006 plan after March 23, 2010 are in shares of Class A common stock. Participants include any person who is designated by the Board to receive one or more benefits under the 2006 plan. Awards are generally made to executive officers in the first quarter of each year.

It appears that the 2006 plan will not have enough remaining shares to award the historical number of long-term incentives beginning in 2014. The Compensation Committee and the Board is seeking shareholder approval for an additional 1,500,000 shares to be reserved for the purpose of awarding future long-term incentives to officers and directors.

Deferred Compensation Plans

In 2006, we restated our principal deferred compensation plan that was established for the benefit of a select group of management and highly compensated employees. The purpose of the restatement was (1) to amend the plan to comply with Section 409A of the Internal Revenue Code and related guidance issued before the adoption of the restatement and (2) to merge into the plan another previously administered nonqualified deferred compensation plan known as the executive nonqualified deferred compensation plan. The restated plan allows eligible employees, as determined by our Board or Compensation Committee, and eligible directors to defer a portion of base salary, bonus or director fees subject to certain maximums as set forth by the plan administrator.

Edgar Filing: FIRST INTERSTATE BANCSYSTEM INC - Form DEF 14A

Additionally, we make discretionary contributions on behalf of the executive officer participants for 401(k) plan matching contributions and profit sharing contributions in excess of Internal Revenue Code limitations. Other contributions on behalf of a participant may be made at the discretion of the Board.

The deferral account of each participant is adjusted by investment earnings or losses based upon the performance of the underlying investments selected by the participant from among alternatives selected by the plan administrator. Deferral accounts are distributed based on each participant's election. The distribution elections are all made in accordance with Section 409A and may be lump sums or annual installments over a period of years.

Report of the Compensation Committee of the Board of Directors

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this proxy statement.

COMPENSATION OF EXECUTIVE OFFICERS AND DIRECTORS
Summary Compensation Table

The table below summarizes the total compensation paid or earned by each of the NEOs for the fiscal years ended December 31, 2012, 2011, and 2010. When approving total compensation for each of the NEOs, the Compensation Committee considers compensation paid to similarly situated executives within a defined peer group of financial institutions, along with other industry compensation data and expectations specific to our Company.

⁽¹⁾ The amounts reflect the aggregate grant date fair value computed in accordance with FASB ASC Topic 718. Stock awards are a combination of time and performance restricted stock awards. In addition, in 2012, shares subject to immediate vesting were awarded in relation to additional duties performed as a member of the Strategic Design Team (SDT), a group responsible for developing the Company's long-term strategies.

Shares have been awarded to the NEOs as follows:

	Time Shares	Performance Shares	SDT Shares
Mr. Garding			
2012	3,594	4,790	200
2011	3,168	4,224	
2010	2,604	3,464

2012	933		
2011	957		
2010	444		

The value included in the above table for the performance shares is based on 100% vesting of the performance shares as stated above. In order for this level of vesting to occur, the Company must achieve an average ROA at the 71st to 80th percentile of the SNL index (defined earlier) for the 2010 awards; and an average ROA and ROE performance at this percentile for the 2011 and 2012 awards.

Based on the Company's financial performance for 2010 through 2012, on December 31, 2012 it was determined none of the 2010 performance shares would vest, it was unlikely that any of the 2011 performance shares would vest and a 50% vesting of the 2012 performance shares would be most likely to occur.

The maximum vesting for the performance awards is 125% of the shares awarded if the Company's average ROA performance is at or above the 91st percentile of the SNL index (defined earlier) for the 2010 awards and an average ROA and ROE performance at this percentile for the 2011 and 2012 awards.

The 2010 equity-based awards were valued at \$15 per share as of the grant date; the 2011 equity-based awards were valued at \$14.20 per share as of the grant date; and the 2012 performance and time vested shares were valued at \$14.37 per share as of the grant date. The shares awarded for the SDT members were valued at \$14.33 per share as of the grant date.

- (2) The amounts reflect the aggregate grant date fair value for the periods presented as computed in accordance with FASB ASC Topic 718. For information and assumptions related to the calculation of these amounts, see Notes to the Consolidated Financial Statements – Summary of Significant Accounting Policies and Stock-Based Compensation included in our Annual Report filed on Form 10-K for the fiscal year ended December 31, 2012.
- (3) The amounts shown reflect for each named executive officer: contributions by us to our qualified profit sharing and employee savings plans, under Section 401(k) of the Internal Revenue Code of 1986, as amended; contributions by us to our nonqualified deferred compensation plan; imputed income from our split dollar life insurance plans; gross up amounts to cover taxes on the imputed income from the split dollar life insurance plans and premiums paid by us for individual long term care plans; and dividends on unvested restricted stock. The amounts do not reflect premiums paid by us for group health, life and disability insurance policies that apply generally to all salaried employees on a nondiscriminatory basis.
- (4) A target incentive of 100% of salary was set for Mr. Knight by the Compensation Committee in January 2011 with payout to be based primarily on the successful transition of his duties to his successor CEO. Other considerations included financial performance, investor relations, strategic planning implementation, and regulatory compliance. Based on Mr. Knight's 2011 performance, it was determined in January 2012 that his incentive payout should be 120% of the targeted payout. Along with the performance indicators previously mentioned, the Committee also took into consideration Mr. Knight's dedication to the company as evidenced by his willingness to work one extra year past his previously announced retirement to assist with the transition to our new public company status and to provide his capable assistance in the transition to new leadership.

Nonqualified Deferred Compensation

Pursuant to our nonqualified deferred compensation plan described above under -Deferred Compensation Plans, certain executives, including the NEOs, may defer a portion of base salary and bonus. Deferral elections are made by eligible executives during the last quarter of each year for

amounts to be earned in the following year.

Earnings depend on the performance of the underlying investments selected by the participants. Benefits under the plan are generally not paid until the beginning of the year following retirement or termination. Benefits can be received either as a lump sum payment or in annual installments based on the executive's election made at least one year prior to retirement.

(1) This amount is included as salary and/or bonus for each of the NEOs in the Summary Compensation Table in the year the contribution was earned.

(2) This is included as other compensation for each of the NEOs in the Summary Compensation Table in the year the contribution was earned.

Potential Payments upon Termination or Change of Control

The amount of compensation payable to the NEOs upon voluntary termination, retirement, involuntary not-for-cause termination, termination following a change of control and in the event of disability or death of the executives is explained below. The amounts shown assume that such termination was effective as of December 31, 2012 and thus includes amounts earned through such time and are estimates of the amounts which would be paid out to the NEOs upon their termination. The actual amounts to be paid out can only be determined at the time of separation.

Payments Made Upon Termination. Regardless of the manner in which a NEO's employment is terminated, he is entitled to receive amounts earned during his term of employment. Such amounts include:

salary;

grants and awards received under our equity plans, subject to the vesting and other terms applicable to such grants and awards;

amounts contributed and vested under our profit sharing plan and deferred compensation plan; and

unused paid time off.

In its discretion, the Board may authorize payment of a bonus on a pro rata or other basis, if at all. The Board may also accelerate the vesting of any unexercisable stock options or restricted stock awards outstanding at the time of termination. The amounts regarding applicable salaries, stock options, restricted stock awards, bonuses and deferred compensation for the most recent fiscal year ended December 31, 2012 are contained in the various tables included above.

Severance Payments. Except for the benefits listed under the heading **Payments Made Upon Termination** above, the NEOs are not entitled to any other severance benefits.

Payments Made Upon Retirement. In the event of retirement, the NEOs would be entitled to the benefits listed under the heading **Payments Made Upon Termination** above.

Edgar Filing: FIRST INTERSTATE BANCSYSTEM INC - Form DEF 14A

Payments Made Upon Death. In the event of death, in addition to the benefits listed under the heading *Payments Made Upon Termination* above, the estates or other beneficiaries of the NEOs are entitled to receive benefits under our group life insurance plan equal to the lesser of (1) 2.5 times their respective base salary or (2) \$300,000. For all NEOs, the applicable amount would be \$300,000.

Benefits are also available under our endorsement split-dollar plan pursuant to which the estates or other beneficiaries of Messrs. Knight, Garding and Moore would also be entitled to receive benefits equal to the lower of the net insurance amount or three times their respective base salary as follows: Mr. Knight, \$1,637,000; Mr. Garding, \$884,000; and Mr. Moore, \$816,900.

An additional \$100,000 of the policy death benefit under the life insurance policy covering selected officers of First Interstate Bank is available to the beneficiaries of Mr. Garding and Mr. Moore should death occur while they are employed by the Company.

Payments Made Upon Disability. In the event of disability, in addition to the benefits listed under the heading *Payments Made Upon Termination* above, the NEOs are entitled to receive benefits under our group disability plan which generally provides for 60% of pre-disability earnings up to a maximum of \$13,000 per month. For each of the NEOs other than Mr. Knight, who is now terminated, the applicable amount would be \$13,000 per month.

Payments Made Upon a Change of Control. The NEOs are not entitled to any payment resulting from a change in control.

Director Compensation

We use a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve on the Board. In setting director compensation, we consider the significant amount of time that directors expend in fulfilling their duties as well as the skill level required by us with respect to members of the Board.

During 2012, each director, other than Lyle R. Knight, Ed Garding, Thomas W. Scott, and James R. Scott, received an annual retainer valued at \$41,750 with at least \$21,750 of that being paid in the form of equity. The Directors may elect to receive the other \$20,000 in the form of cash, common stock or stock options. The target used to establish the number of options granted was the Black-Scholes option pricing model with expected volatility based on peer group volatility and a 10 year life.

Each director, other than Lyle R. Knight, Ed Garding, Thomas W. Scott, and James R. Scott, received fees of \$1,000 per board meeting attended and \$750 per Committee meeting attended. Committee chairpersons also received an additional annual retainer, in cash or equity, of \$7,500.

Thomas W. Scott received an annual retainer of \$315,000 (decreased from \$340,000 in May 2012), paid bi-weekly, for his services as Chairman of the Board. James R. Scott received an annual retainer of \$330,000 (increased from \$305,000 in May 2012), paid bi-weekly, for services as Executive Vice Chairman of the Board. These retainers were in lieu of all director fees and other retainers described above. The retainer paid to Mr. Thomas Scott recognizes his work on executive succession planning, assistance provided to Company management in monitoring problem loans and non-performing assets and travel to branch banking offices to meet with and communicate expectations to our advisory boards. The retainer paid to Mr. James Scott recognizes his work in providing an interface between the Board and our management, oversight of strategic planning, leadership of the Board in capital planning, deployment and the creation of shareholder value, work on Board and executive succession planning and community visibility.

Directors are reimbursed for ordinary expenses incurred in connection with attending board and committee meetings. Directors are also eligible for the group medical insurance coverage at the director's option. Under our deferred compensation plan, directors may elect to defer any portion of director's fees until an elective distribution date or the director's retirement, disability or death.

During 2012, we received payments from the related entity of \$47,000 for hanger use, pilot fees and reimbursement of certain third party operating expenses related to Mr. Scott's personal use of the aircraft.

Thomas W. Scott, chairman of our Board, James R. Scott, vice-chairman of our Board, four of our directors, John M. Heyneman, Charles M. Heyneman, Randall I. Scott, Sandra A. Scott Suzor, and two greater than 5% shareholders, Dan S. Scott and Homer A. Scott, Jr., each has a 2.5% interest in Scott Family Services, Inc., or SFS, which provides professional services that benefit us and the Scott Family. In addition, Randall I. Scott is the chairman of the board of directors of SFS. Services provided for our benefit include shareholder education and communication, strategic enterprise planning and corporate governance consultation. During 2012, we paid \$243,000 for these services. SFS reimburses us for all salaries, wages and employee benefits expenses incurred by us on its behalf for personnel.

During 2012, the Company entered into a contract with an entity wholly-owned by Steven J. Corning, a director of ours, to provide construction management and advisory services related to the construction of a bank office building. We paid the entity \$60,000 during 2012.

In conjunction with an acquisition, we assumed certain existing deferred compensatory agreements. Under the terms of one such agreement, the Company is required to make cash payments to Dr. Charles E. Hart, a director of ours, for the promotion of growth and development of new business through December 31, 2011. The total amount due under the agreement was fixed prior to the acquisition date at \$577,000, with a portion to be paid over 4 years and the remaining balance of \$424,000 due in January 2012. Pursuant to this agreement, we paid Dr. Hart \$424,000 during 2012.

Terry W. Payne is party to an agreement to guarantee the payment of interest on loans between our bank subsidiary and an unrelated third party borrower through December 31, 2012. Under the terms of the interest guaranty agreement, Mr. Payne made interest payments to our bank subsidiary on behalf of the borrower of \$815,000 in 2012.

Conflict of Interest Policy

On an annual basis, each director and executive officer is obligated to complete a director and officer questionnaire that requires disclosure of any transactions with our company in which the director or executive officer, or any member of his or her immediate family, have a direct or indirect material interest. Under our code of personal conduct, all employees, including executive officers, are expected to avoid conflicts of interest. Pursuant to our code of ethics for the chief executive officer and senior finance officers, such officers are prohibited from engaging in activities that are or may appear to be a conflict of interest unless a specific, case-by-case exception has first been reviewed and approved by the Board. All of our directors are subject to the Board's governance standards that include a code of ethics and conduct guide requiring the directors to avoid conflicts of interest.

On January 28, 2010, the Board adopted a related person transaction policy that is applicable to our executive officers, directors and certain entities and individuals related to such persons. The policy, as amended, generally provides that we will not enter into any transaction or series of transactions in excess of \$120,000 with related parties unless such transaction(s) are (1) reviewed after disclosure of the relevant facts and circumstances, including any benefits to the Company and the terms of any comparable products or services provided by unrelated third parties, and (2) determined to be in the best interests of the Company and our shareholders, as approved by the independent directors of our governance & nominating committee. The policy also provides that the chairman of such committee, who is an independent director, has delegated authority to approve such transaction(s) in certain circumstances, subject to ratification by the independent directors. The policy does not apply to loan and credit transactions to directors and executive officers that are covered by Regulation O adopted by the Federal Reserve.

Subsequent to adoption of the related person transaction policy, all of the ongoing related party transactions described above were reviewed and approved by the independent directors of the governance & nominating committee in accordance with the policy.

SHAREHOLDER PROPOSALS

The rules of the SEC permit shareholders of a company, after timely notice to the company, to present proposals for shareholder action in the company's proxy statement where such proposals are consistent with applicable law, pertain to matters appropriate for shareholder action and are not properly omitted by company action in accordance with the SEC's proxy rules. Our 2014 annual meeting of shareholders is expected to be held on or about May 22, 2014, and proxy materials in connection with that meeting are expected to be mailed on or about April 9, 2014. The deadline for submission of shareholder proposals pursuant to Rule 14a-8 under the Exchange Act for inclusion in our proxy statement for our 2014 annual meeting of shareholders is December 9, 2013, which is 120 days prior to the anniversary of the mailing date for our proxy materials. Additionally, under the terms of our amended and restated bylaws, shareholders who wish to present an item of business at the 2014 annual meeting must provide notice to the corporate secretary at our principal executive offices not later than the close of business on the 90th day, nor earlier than the close of business on the 120th day, prior to May 22, 2014, which will be the one-year anniversary of our 2013 annual meeting. If we do not receive notice of a shareholder proposal in advance of such date, such proposal will be considered untimely pursuant to Rules 14a-4 and 14a-5(e) and the persons named in proxies solicited by the Board for our 2014 annual meeting of shareholders may exercise discretionary voting power with respect to such proposal.

We know of no matters other than as contained in the Notice of Annual Meeting of Shareholders to be brought before the meeting. The enclosed proxy, however, gives discretionary authority in the event that any additional matters should be duly presented.
