Table of Contents**MATTERSIGHT CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)****Note One General**

In the opinion of management, the accompanying unaudited condensed consolidated financial statements of Mattersight Corporation (we, Mattersight, or the Company) include all normal and recurring adjustments necessary for a fair presentation of our condensed consolidated financial position as of March 31, 2013 and December 31, 2012, the condensed consolidated results of our operations for the three months ended March 31, 2013 and March 31, 2012, the condensed consolidated statements of our comprehensive loss for the three months ended March 31, 2013 and March 31, 2012, and our condensed consolidated cash flows for the three months ended March 31, 2013 and March 31, 2012, and are in accordance with United States generally accepted accounting principles (GAAP) and in conformity with Securities and Exchange Commission (SEC) Rule 10-01 of Regulation S-X; provided, that certain information and disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted.

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the notes thereto in Mattersight 's Annual Report on Form 10-K for the fiscal year ended December 31, 2012 filed with the SEC on March 14, 2013. The results of operations for the three months ended March 31, 2013 are not necessarily indicative of the results to be expected for the full year.

The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Note Two Summary of Significant Accounting Policies

For a description of the Company 's Summary of Significant Accounting Policies, see Note Two Summary of Significant Accounting Policies of the Notes to Consolidated Financial Statements included in our Annual Report filed on Form 10-K for the year ended December 31, 2012.

Note Three Discontinued Operations

The Company sold its Integrated Contact Solutions (ICS) Business Unit and eLoyalty registered trademark / trade name to Magellan Acquisition Sub, LLC, a Colorado limited liability company and wholly-owned subsidiary of TeleTech Holdings, Inc., a Delaware corporation, on May 28, 2011, and the Company changed its name from eLoyalty Corporation to Mattersight Corporation effective May 31, 2011. Therefore, the results of operations of the ICS Business Unit are reported as discontinued operations for all periods presented. Additionally, certain corporate and general costs that had historically been allocated to the ICS Business Unit were reallocated to the Company and are reflected in all periods presented.

The following table summarizes the components included within loss from discontinued operations, net of tax, within the Company 's Condensed Consolidated Statements of Operations for the periods indicated.

(In millions)	For the Three Months Ended	
	March 31,	
	2013	2012
Net sales	\$	\$
Total expenses		(0.1)
Loss from discontinued operations	\$	\$ (0.1)

Intraperiod tax allocation requires that the provision for income taxes be allocated between continuing operations and other categories of earnings (such as discontinued operations or other comprehensive loss) for each tax jurisdiction. In periods in which there is a year-to-date

Edgar Filing: Mattersight Corp - Form 10-Q

pre-tax loss from continuing operations and pre-tax income in other categories of earnings, the tax provision is first allocated to the other categories of earnings. A related tax benefit is then recorded in continuing operations. While intraperiod tax allocation in general does not change the overall tax provision, it may result in a gross-up of the individual components, thereby changing the amount of tax provision included in each category. For the period ended March 31, 2013, the intraperiod allocation was not applicable because we no longer have any discontinued operations activity. For the period ended March 31, 2012, the intraperiod allocation was not applicable because we had a pretax loss in both continuing and discontinued operations. The Company no longer anticipates any impact on income from discontinued operations due to the sale of the ICS Business Unit.

Table of Contents**Note Four Revenue Recognition****Behavioral Analytics Revenue**

Behavioral Analytics revenue consists of Managed services revenue and Consulting services revenue derived from the performance of the Behavioral Analytics Service and related services (collectively, Behavioral Analytics).

Managed services revenue consists of planning, deployment, training, and subscription fees derived from Behavioral Analytics contracts. Planning, deployment, and training fees, which are considered to be installation fees related to Behavioral Analytics subscription contracts, are deferred until the installation is complete and are then recognized over the subscription period of the applicable subscription contract. The subscription periods of these contracts generally range from three to five years after the go-live date or, in cases where the Company contracts with a client for a short-term pilot of Behavioral Analytics prior to committing to a longer subscription period, if any, the subscription or pilot periods generally range from three to twelve months after the go-live date. Installation costs incurred are deferred up to an amount not to exceed the amount of deferred installation revenue and additional amounts that are recoverable based on the contractual arrangement. These costs are included in Prepaid expenses and Other long-term assets. Such costs are amortized over the subscription period of the contract. Costs in excess of the foregoing revenue amount are expensed in the period incurred.

The amount of revenue generated from subscription fees is based on a number of factors, such as the number of users to whom the Behavioral Analytics Service is provided, the type and number of Behavioral Analytics offerings deployed to the client, and in some cases, the number of hours of calls analyzed during the relevant month of the subscription period. This revenue is recognized as the service is performed for the client.

Consulting services revenue primarily consists of fees charged to the Company's clients to provide post-deployment follow-on consulting services, which include custom data analysis, the implementation of enhancements, and training. These follow-on consulting services are generally performed for the Company's clients on a fixed-fee basis. Revenue is recognized as the services are performed, with performance generally assessed on the ratio of actual hours incurred to-date compared to the total estimated hours over the entire term of the contract.

Other Revenue

Other revenue consists of Marketing Managed Services revenue and CRM Services revenue.

Marketing Managed Services revenue is derived from marketing application hosting. This revenue is generally in the form of fixed monthly fees received from the Company's clients and is recognized as the services are performed for the client. Any related setup fee would be recognized over the term of the hosting contract.

CRM Services revenue consists of fees generated from the Company's operational consulting services, which are provided to the Company's clients on a time-and-materials or fixed-fee basis. The Company recognizes revenue as the services are performed for time-and-materials projects. For fixed-fee projects, revenue is recognized based on the ratio of hours incurred to-date compared to the total estimated hours over the entire term of the contract.

Note Five Stock-Based Compensation

The Company has two stock-based compensation plans, the Mattersight Corporation 1999 Stock Incentive Plan (the 1999 Plan) and the Mattersight Corporation Employee Stock Purchase Plan (the ESPP), each as described more fully in Note Thirteen in the Company's Annual Report filed on Form 10-K for the year ended December 31, 2012.

	For the Three Months Ended	
	March 31,	
	2013	2012
Stock-based compensation expense from continuing operations (in millions)	\$ 1.4	\$ 1.1

Table of Contents

The Company recognizes stock-based compensation expense on a straight-line basis over the vesting period. The Company has established its forfeiture rate based on historical experience.

As of March 31, 2013, there were a total of 1,587,731 shares of the Company's common stock, par value \$0.01 per share (Common Stock), available for future grants under the 1999 Plan and from treasury stock. The Common Stock is traded on the NASDAQ Global Market under the symbol MATR.

Restricted Stock

The Company recognized compensation expense related to restricted stock awards of \$0.6 million and \$0.7 million for the three months ended March 31, 2013 and 2012, respectively.

Restricted and installment stock award activity was as follows for the three months ended March 31, 2013:

	Shares	Weighted Average Price
Nonvested balance at December 31, 2012	821,363	\$ 6.81
Granted	151,161	\$ 4.63
Vested	(116,308)	\$ 5.75
Forfeited	(101,468)	\$ 6.67
Nonvested balance at March 31, 2013	754,748	\$ 6.56

	For the Three Months Ended March 31,	
	2013	2012
Total fair value of restricted and installment stock awards vested (in millions)	\$ 0.5	\$ 1.6

As of March 31, 2013, there remained \$4.1 million of unrecognized compensation expense related to restricted and installment stock awards within continuing operations. These costs are expected to be recognized over a weighted average period of 1.6 years.

Stock Options

During the three months ended March 31, 2013, options to purchase a total of 347,500 shares of Common Stock were granted. On March 15, 2013, the Company's executive officers received options to purchase a total of 342,500 shares of Common Stock. The exercise price per share is \$4.69, the closing price for shares of Common Stock on the grant date. The options will vest 6.25% on May 31, 2013, and the balance will vest ratably over the following 15 quarters, with a maximum exercise term of 10 years. On February 13, 2013, one employee received options to purchase a total of 5,000 shares of Common Stock. The exercise price per share is \$4.48, the closing price for shares of Common Stock on the grant date. The options will vest 25% on February 28, 2014, and the balance will vest ratably over the following 12 quarters, with a maximum exercise term of 10 years.

	For the Three Months Ended March 31,	
	2013	2012
Compensation expense related to option awards (in millions)	\$ 0.3	\$ 0.3

Table of Contents

Option activity was as follows for the three months ended March 31, 2013:

	Options	Weighted Average Exercise Price
Outstanding as of December 31, 2012	1,766,236	\$ 9.03
Granted	347,500	\$ 4.69
Exercised		\$
Forfeited		\$
Outstanding as of March 31, 2013	2,113,736	\$ 8.32
Exercisable as of March 31, 2013	1,062,320	\$ 10.81
Outstanding intrinsic value at March 31, 2013 (in millions)	\$	
Exercisable intrinsic value at March 31, 2013 (in millions)	\$	

(In millions)	For the Three Months Ended March 31,	
	2013	2012
Total fair value of stock options vested	\$ 0.2	\$ 0.2
Intrinsic value of stock options exercised		0.1
Proceeds received from option exercises		0.1

As of March 31, 2013, there remained \$3.4 million of unrecognized compensation expense related to stock options. These costs are expected to be recognized over a weighted average period of 2.0 years.

The fair value for options granted for the three months ended March 31, 2013 and March 31, 2012 was estimated on the date of grant using a Black-Scholes option-pricing model. The following assumptions represent the year-to-date weighted average for all option grants issued.

	For the Three Months Ended March 31,	
	2013	2012
Risk-free interest rates	0.62%	0.56%
Expected dividend yield		
Expected volatility	67%	67%
Expected lives	6 years	6 years

Historical Company information is the primary basis for the selection of expected life, expected volatility, and expected dividend yield assumptions. The risk-free interest rate is selected based on the yields from U.S. Treasury Strips with a remaining term equal to the expected term of the options being valued.

Other Stock Compensation**Employee Stock Purchase Plan**

Edgar Filing: Mattersight Corp - Form 10-Q

The Employee Stock Purchase Plan (ESPP) is intended to qualify as an ESPP under section 423 of the Internal Revenue Code. Under the ESPP, eligible employees are permitted to purchase shares of Common Stock at below-market prices. The purchase period opens on the first day and ends on the last business day of each calendar quarter. The shares of Common Stock issued under the ESPP during the fiscal year were as follows:

	For the Three Months Ended	
	March 31,	
	2013	2012
Shares of Common Stock issued	9,590	8,480
Expense related to ESPP (in thousands)	\$ 9	\$ 13

Table of Contents

The fair value for ESPP purchases for the three months ended March 31, 2013 and March 31, 2012 was estimated using a Black-Scholes pricing model. The Company used the following year-to-date weighted average assumptions:

	For the Three Months Ended March 31,	
	2013	2012
Risk-free interest rates	0.07%	0.02%
Expected dividend yield		
Expected volatility	28%	43%
Expected lives	0.24 years	0.24 years

Note Six Severance and Related Costs

Severance costs are comprised primarily of contractual salary and related fringe benefits over the severance payment period. Facility costs include losses on contractual lease commitments, net of estimated sublease recoveries, and impairment of leasehold improvements and certain office assets.

Continuing Operations

For the three months ended March 31, 2013, there was no expense for continuing operations related to severance and related costs. For the three months ended March 31, 2012, the Company recorded \$0.7 million of expense for continuing operations related to severance and related costs for the elimination of one position.

For the three months ended March 31, 2013, the Company made no cash payments related to cost-reduction actions and facility operating expense for continuing operations. During the three months ended March 31, 2012, the Company made cash payments of \$0.1 million related to cost-reduction actions and facility operating expense for continuing operations.

As of March 31, 2013, there was no amount reserved for continuing operations relating to severance and related costs.

The severance and related costs and their utilization for the three months ended March 31, 2012 was as follows:

(In millions)	Employee Severance	Facilities	Total
Balance, December 31, 2011	\$	\$	\$
Charges	0.7		0.7
Adjustments charged to severance and related costs			
Charged to severance and related costs	0.7		0.7
Payments	(0.1)		(0.1)
Other			
Balance, March 31, 2012	\$ 0.6	\$	\$ 0.6

As of March 31, 2012, \$0.6 million remained reserved for continuing operations relating to severance and related costs. The \$0.6 million balance was in Accrued Compensation and Related Costs .

Discontinued Operations

For the three months ended March 31, 2013, there were no cost-reduction actions undertaken in discontinued operations.

Edgar Filing: Mattersight Corp - Form 10-Q

For the three months ended March 31, 2012, the Company had no accrual and made no cash payments related to cost-reduction actions for discontinued operations.

Table of Contents**Note Seven Current Prepaid Expenses**

Current prepaid expenses primarily consist of deferred costs and prepaid commissions related to Behavioral Analytics contracts. These costs are recognized over the subscription periods of the respective contracts, generally three to five years after the go-live date or, in cases where the Company contracts with a client for a short-term pilot of the Behavioral Analytics Service prior to committing to a longer subscription period, if any, the subscription or pilot periods generally range from three to twelve months after the go-live date. Costs included in current prepaid expenses will be recognized within the next twelve months. Current prepaid expenses consisted of the following:

(In millions)	March 31, 2013	As of December 31, 2012
Deferred costs	\$ 1.4	\$ 1.8
Prepaid commissions	1.5	1.7
Other	1.5	0.9
Total	\$ 4.4	\$ 4.4

Note Eight Intangible Assets, net

Intangible assets reflect costs related to patent and trademark applications, Marketing Managed Services customer relationships acquired in 2004, and the 2003 purchase of a license for certain intellectual property. Patent and trademark applications are amortized over 120 months. The other intangible assets are fully amortized. Amortization expense of intangible assets for the three months ended March 31, 2013 was \$40 thousand and will be \$52 thousand annually thereafter. Amortization expense of intangible assets for the three months ended March 31, 2012 was \$17 thousand. There was no impairment charge for the three months ended March 31, 2013. There was an impairment charge of \$2 thousand for the three months ended March 31, 2012.

(In millions)	March 31, 2013	As of December 31, 2012
Gross intangible assets	\$ 2.9	\$ 2.9
Accumulated amortization of intangible assets	(2.7)	(2.7)
Total	\$ 0.2	\$ 0.2

Note Nine Other Long-Term Assets

Other long-term assets primarily consist of deferred costs and prepaid commissions related to Behavioral Analytics. These costs are recognized over the terms of the respective contracts, generally three to five years. Costs included in long-term assets will be recognized over the remaining term of the contracts beyond the first twelve months. Other long-term assets consisted of the following:

(In millions)	March 31, 2013	As of December 31, 2012
Deferred costs	\$ 1.9	\$ 1.8
Prepaid commissions	1.5	1.7

Edgar Filing: Mattersight Corp - Form 10-Q

Other	0.3	0.3
Total	\$ 3.7	\$ 3.8

Note Ten Short-Term Debt

On June 29, 2012, the Company, together with its wholly-owned subsidiaries Mattersight Europe Holding Corporation and Mattersight International Holding, Inc., as co-borrowers, entered into a Loan and Security Agreement with Silicon Valley Bank (the Credit Facility). The Credit Facility provides for a \$10.0 million revolving line of credit maturing in 2014 and is secured by a security interest in the Company's accounts receivable, equipment, inventory, cash, deposit accounts, securities, and all other investment property, supporting obligations, financial assets, and other personal property, with the exception of the Company's intellectual property rights. On June 29, 2012, the Company used approximately \$3.7 million of the line of credit under the Credit Facility to repay in full the principal balance of \$3.6 million and accrued and unpaid interest outstanding of \$0.1 million under the promissory notes issued by the Company to various affiliates of Technology Crossover Ventures to settle previously disclosed arbitration. The \$3.7 million principal amount outstanding under the Credit Facility will accrue interest at a floating annual rate equal to three quarters of one percentage point (0.75%) above the United States prime rate, payable monthly. Upon execution of the Credit Facility, the Company paid a commitment fee, and in addition, the Company is obligated to pay a fee equal to one-eighth of one percent (0.125%) per annum of the average unused portion of the Credit Facility, payable quarterly in arrears. Short-term debt was \$3.7 million as of March 31, 2013 and interest for the three months ended was \$37 thousand. The current interest rate for the quarter ended March 31, 2013 was 4%. The Company was in compliance with all its debt covenants under the Credit Facility as of March 31, 2013.

Table of Contents**Note Eleven Loss Per Share**

The following table sets forth the computation of the loss and shares used in the calculation of basic and diluted loss per share:

(In millions)	For the Three Months Ended March 31,	
	2013	2012
Loss from continuing operations	\$ (3.7)	\$ (3.3)
Dividends related to Series B Stock ⁽¹⁾	(0.1)	(0.1)
Loss from continuing operations available to Common Stock holders	(3.8)	(3.4)
Loss from discontinued operations		(0.1)
Net loss available to Common Stock holders	\$ (3.8)	\$ (3.5)
Per common share:		
Basic/diluted loss from continuing operations	\$ (0.23)	\$ (0.22)
Basic/diluted loss from discontinued operations	\$	\$ (0.01)
Basic/diluted net loss available to Common Stock holders	\$ (0.23)	\$ (0.22)
(In thousands)		
Weighted average shares of Common Stock outstanding	16,320	15,750
Currently antidilutive Common Stock equivalents ⁽²⁾	1,655	2,041

(1) The Board of Directors resolved to suspend the dividend payment on the 7% Series B Convertible Preferred Stock, par value \$0.01 per share (the Series B Stock), which was accrued, for the dividend period July 1, 2012 through December 31, 2012 (the amount of this semi-annual dividend was approximately \$0.3 million). The Board of Directors declared a cash dividend of \$0.1785 per share on the Series B Stock for the dividend period July 1, 2011 through December 31, 2011; the dividend payment of \$0.3 million for such period was paid on January 3, 2012.

(2) In periods in which there was a loss, the effect of Common Stock equivalents, which is primarily related to the Series B Stock, was not included in the diluted loss per share calculation as it was antidilutive.

Note Twelve Leases**Capital Leases**

The Company acquired \$0.8 million and \$0.7 million of computer equipment and leasehold improvements using capital leases during the first three months of 2013 and 2012, respectively. These assets were related primarily to investments in the Company's Behavioral Analytics Service. There was \$0.6 million and \$0.5 million of depreciation on capital leases in the first three months of 2013 and 2012, respectively. All capital leases are for terms of either thirty or thirty-six months. The liabilities for these capital leases are included in Other current liabilities and Other long-term liabilities on the balance sheet.

Table of Contents

The following is a schedule, by year, of future minimum lease payments under capital leases, together with the present value of the net minimum lease payments as of March 31, 2013:

(In millions)		Amount
Year		
2013		\$ 1.3
2014		1.0
2015		0.5
2016		
Total minimum lease payments		\$ 2.8
Less: estimated executory costs		(0.1)
Net minimum lease payments		\$ 2.7
Less: amount representing interest		(0.2)
Present value of minimum lease payments		\$ 2.5

Capital leases consisted of the following:

(In millions)	March 31, 2013	As of December 31, 2012
Other current liabilities	\$ 1.5	\$ 1.6
Other long-term liabilities	1.0	0.7
Total	\$ 2.5	\$ 2.3

Note Thirteen Segment Information

The Company operates in a single business segment, focused primarily on Behavioral Analytics. The Company operated in two business segments, the Behavioral Analytics Service Business Unit and the ICS Business Unit, until May 28, 2011, the date of the close of the sale of the ICS Business Unit, at which point the Company began operating in a single business segment.

Note Fourteen Fair Value Measurements

The Company reports certain assets and liabilities at fair value. Fair value is an exit price and establishes a three-tier valuation hierarchy for ranking the quality and reliability of the information used to determine fair values. The first tier, Level 1, uses quoted market prices in active markets for identical assets or liabilities. Level 2 uses inputs, other than quoted market prices for identical assets or liabilities in active markets, which are observable either directly or indirectly. Level 3 uses unobservable inputs in which there are little or no market data, and requires the entity to develop its own assumptions. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

The following table provides the assets and liabilities carried at fair value measured on a recurring basis:

Total carrying at March 31,	Fair Value Measurements at March 31, 2013 Using		
	Quoted Prices in Active Markets	Other Observable	Significant Unobservable

Edgar Filing: Mattersight Corp - Form 10-Q

(In millions)	2013	(Level 1)	(Level 2)	(Level 3)
Money market fund	\$ 12.1	\$ 12.1	\$	\$

Table of Contents

(In millions)	Fair Value Measurements at December 31, 2012 Using			
	Total carrying at December 31, 2012	Quoted Prices in Active Markets (Level 1)	Other Observable (Level 2)	Significant Unobservable (Level 3)
Money market fund	\$ 13.4	\$ 13.4	\$	\$

Note Fifteen Fair Value of Financial Instruments

The carrying values of cash and cash equivalents, accounts receivable, accounts payable, and short-term debt approximated their fair values as of March 31, 2013 and December 31, 2012 due to the short-term nature of these instruments.

Note Sixteen Recent Accounting Pronouncements

In July 2012, the Financial Accounting Standards Board (FASB) issued ASU No. 2012-02, Intangibles – Goodwill and Other (Topic 350) – Testing Indefinite-Lived Intangible Assets for Impairment. ASU 2012-02 permits an entity to first assess qualitative factors to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired as a basis for determining whether it is necessary to perform the quantitative impairment test in accordance with Subtopic 350-30. If an entity concludes that it is not more likely than not that the indefinite-lived intangible asset is impaired, then no further action is required. If an entity concludes otherwise, then it is required to determine the fair value of the indefinite-lived intangible asset and perform the quantitative impairment test. ASU 2012-02 is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012, with early adoption permitted. The adoption of this ASU did not have a material impact on the Company's condensed consolidated financial statements.

Note Seventeen Litigation and Other Contingencies

The Company is a party to various agreements, including all client contracts, under which it may be obligated to indemnify the other party with respect to certain matters, including, but not limited to, indemnification against third-party claims of infringement of intellectual property rights with respect to software and other deliverables provided by the Company in the course of providing services to its clients. These obligations may be subject to various limitations on the remedies available to the other party, including, without limitation, limits on the amounts recoverable and the time during which claims may be made, and may be supported by indemnities given to the Company by applicable third parties. Payment by the Company under these indemnification clauses is generally subject to the other party making a claim that is subject to challenge by the Company and dispute resolution procedures specified in the particular agreement. Historically, the Company has not been obligated to pay any claim for indemnification under its agreements, and management is not aware of future indemnification payments that it would be obligated to make.

Under its By-Laws, subject to certain exceptions, the Company has agreed to indemnify its officers and directors for certain events or occurrences while the officer or director is, or was, serving at its request in such capacity or in certain related capacities. The Company has separate indemnification agreements with each of its directors and officers that requires it, subject to certain exceptions, to indemnify them to the fullest extent authorized or permitted by its By-Laws and the Delaware General Corporation Law. The maximum potential amount of future payments the Company could be required to make under these indemnification agreements is unlimited; however, the Company has a director and officer liability insurance policy that limits its exposure and enables it to recover a portion of any future amounts paid. As a result of its insurance policy coverage, the Company believes the estimated fair value of these indemnification agreements is minimal. The Company had no liabilities recorded for these agreements as of March 31, 2013.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**Background**

Mattersight Corporation (together with its subsidiaries and predecessors, Mattersight, we, us, or the Company) is a leader in enterprise analytics focused on customer and employee interactions and behaviors. Mattersight's Behavioral Analytics Service captures and analyzes customer and employee interactions, employee desktop data, and other contextual information to improve operational performance and predict future customer and employee outcomes. Mattersight's analytics are based on millions of proprietary algorithms and the application of unique behavioral models. The Company's SaaS+ delivery model combines analytics in the cloud with deep customer partnerships to drive significant business value. Mattersight's applications are used by leading companies in the healthcare, insurance, financial services, telecommunications, cable, utilities, education, hospitality, and government industries.

Table of Contents

Through the performance of Behavioral Analytics, the Company generates two types of revenue:

- (1) Managed services revenue, which is recurring, annuity revenue from long-term (generally three- to five-year) contracts and pilots, which are shorter term (generally three to twelve months) and includes subscription and amortized deployment revenue; and
- (2) Consulting services revenue, which is generally project-based and sold on a time-and-materials or fixed-fee basis and includes follow-on consulting services revenue.

Set forth below is a more detailed description of the capabilities that the Company currently offers.

Behavioral Analytics

The Company's multi-channel technology captures the unstructured data of voice interactions (conversations), related customer and employee data, and employee desktop activity, and applies millions of proprietary algorithms against those interactions. Each interaction contains hundreds of attributes that get scored and ultimately detect patterns of behavior or business process that provide the transparency and predictability necessary to enhance revenue, improve the customer experience, improve efficiency, and predict and navigate outcomes. Adaptive across industries, programs, and industry-specific processes, the Company's Behavioral Analytics offerings enable its clients to drive measurable economic benefit through the improvement of contact center performance, customer satisfaction and retention, fraud reduction, and streamlined back office operations. Specifically, through its Behavioral Analytics offerings, Mattersight helps its clients:

Automatically measure customer satisfaction and agent performance on every analyzed call;

Identify and understand customer personality;

Identify optimal customer/employee behavioral pairing for call routing;

Improve rapport between agent and customer;

Reduce call handle times while improving customer satisfaction;

Identify opportunities to improve self-service applications;

Improve cross-sell and up-sell success rates;

Improve the efficiency and effectiveness of collection efforts;

Measure and improve supervisor effectiveness and coaching;

Improve agent effectiveness by analyzing key attributes of desktop usage;

Edgar Filing: Mattersight Corp - Form 10-Q

Predict likelihood of customer attrition;

Predict customer satisfaction and Net Promoter Scores® without customer surveys;

Predict likelihood of debt repayment;

Predict likelihood of a sale or cross-sell; and

Identify fraud callers and improve authentication processes.

The Company has designed a highly-scalable, flexible, and adaptive application platform to enable the Company to implement and operate its Behavioral Analytics offerings for its clients. These offerings are primarily delivered through a SaaS+ model, as a managed subscription service from which Mattersight derives Managed services revenue and Consulting services revenue. Managed services revenue consists of revenue from deployment and subscription services and Consulting services revenue consists of revenue from post-deployment follow-on services, including coaching, training, and custom data analysis.

In addition to our Behavioral Analytics offerings, Mattersight also generates revenue from the following services:

- (1) Marketing Managed Services, which consist of marketing application hosting services, from which the Company derives Managed services revenue; and
- (2) CRM Services, which consist of operational consulting services that enhance business performance through improved process efficiencies and redesign of workflows, from which the Company derives Consulting services revenue.

Table of Contents

Types of Revenue

Managed Services Revenue

Growth in Managed services revenue is primarily driven by the execution of new Behavioral Analytics contracts, under which we deploy and provide ongoing managed services related to our proprietary Behavioral Analytics System and provide related Business Monitoring services. Based on each client's business requirements, the Behavioral Analytics System is configured and integrated into the client's environment and then deployed in either a remote-hosted or, in one case, an on-premise hosted environment. Thereafter, the client's selection of our Behavioral Analytics offerings is provided, on a subscription basis, for a period that is generally three to five years after the go-live date or, in the cases where the Company contracts with a client for a short-term pilot of the Behavioral Analytics Service prior to committing to a longer subscription period, if any, the subscription or pilot periods generally range from three to twelve months after the go-live date. The fees and costs related to the initial deployment are deferred and amortized over the term of the contract.

We also generate Managed services revenue from Marketing Managed Services, specifically, from hosted customer and campaign data management. This source of Managed services revenue will continue to diminish over time as we focus on growth through Behavioral Analytics.

Consulting Services Revenue

In addition to the Consulting services revenue generated by our Behavioral Analytics contracts, we derive a portion of this type of revenue from CRM Services for long-standing accounts. We expect Consulting services revenue from CRM Services to diminish over time as demand for these services continues to decline and we focus on growth through Behavioral Analytics. We bill for Consulting services on a time-and-materials or fixed-fee basis.

Business Outlook

Based upon Mattersight's business development efforts and third-party market research, we believe there has been a fundamental shift in the way large enterprises view data. The trends suggest that large enterprises today appreciate that there is value in data that can be derived from their front and back offices, but they have not yet established efficient and effective methods to capture, analyze, and create value from this data. We seek to help large enterprises capitalize on this data with our Behavioral Analytics solutions and, as a leader in this rapidly growing market, we believe we are uniquely positioned to capitalize on this opportunity. We estimate the market potential in the U.S. for all of our current analytics offerings at over \$10 billion per year. The market for enterprise analytics is very new and we currently estimate it to be less than 5% penetrated.

Our business strategy to increase revenue, profitability, and capture market share includes the following elements:

Increase up-sell and cross-sell ratios by deepening and broadening our relationships with existing clients;

Win business with new clients, focusing on analyzing customer interactions, predictive behavioral routing, and back office activities in targeted industries;

Continue to invest in innovative proprietary technology, new applications, and delivery methods;

Continue bookings growth and improve operating leverage;

Expand our sales and marketing efforts with seasoned enterprise sales agents and strategic marketing professionals; and

Develop partnerships and strategic alliances to expand sales leverage, improve brand awareness, and reach new industries while providing value to our mutual clients.

Edgar Filing: Mattersight Corp - Form 10-Q

Resulting from our delivery of measurable economic benefit to our clients, we have seen increasing penetration within existing accounts, due to an increase in adoption of our base Behavioral Analytics offerings across separate and distinct business units, as well as the adoption of new applications within existing business units. For this reason, we will continue to focus on further penetrating what we estimate to be a large existing base market with a less expensive cost of acquisition. In addition, our strategy to further invest in sales and marketing, coinciding with the fundamental shift in enterprise data utilization described above, has led to an increasing number of discussions with potential new clients and strategic partners.

Table of Contents

Managed Services Backlog

As a result of the strategic and long-term nature of Managed services revenue, we believe it is appropriate to monitor the level of backlog associated with our Managed services contracts. The Behavioral Analytics Managed services backlog was \$79.5 million as of March 31, 2013 and \$89.1 million as of December 31, 2012. The decrease in backlog is due to fewer than anticipated contract bookings in the first quarter of 2013 and an adjustment for the impact of the termination of a portion of an existing Behavioral Analytics contract.

Mattersight uses the term *backlog* to reflect the estimated future amount of Managed services revenue related to its Managed services contracts. The value of these contracts is based on anticipated usage volumes over the anticipated contract term. The anticipated contract term is based on the fixed term of the contract, plus contractually agreed upon, but optional, extension or renewal periods. Actual volumes may be greater or less than anticipated. In addition, these contracts typically are cancellable without cause based on the customer making a substantial early termination payment or forfeiture of prepaid contract amounts.

Critical Accounting Policies and Estimates

Our management's discussion and analysis of financial condition and results of operations is based upon our condensed consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue, and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to the costs and timing of completion of client projects, our ability to collect accounts receivable, the timing and amounts of expected payments associated with cost reduction activities, and the ability to realize our net deferred tax assets, contingencies, and litigation. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions.

We believe the following critical accounting policies affect the more significant judgments and estimates used in the preparation of our condensed consolidated financial statements.

Discontinued Operations

ICS Business Unit Transaction

The sale by the Company of the ICS Business Unit and *eLoyalty* registered trademark / trade name to Magellan Acquisition Sub, LLC, a Colorado limited liability company and wholly-owned subsidiary of TeleTech Holdings, Inc., a Delaware corporation, closed on May 28, 2011, and the Company changed its name from *eLoyalty* Corporation to Mattersight Corporation effective May 31, 2011. Therefore, the results of operations of the ICS Business Unit are reported as discontinued operations for all periods presented. Additionally, certain corporate and general costs that had historically been allocated to the ICS Business Unit were reallocated to the Company and are reflected in all periods presented.

Revenue Recognition

Behavioral Analytics Revenue

Behavioral Analytics revenue consists of Managed services revenue and Consulting services revenue derived from the performance of Behavioral Analytics.

Managed services revenue consists of planning, deployment, training, and subscription fees derived from Behavioral Analytics contracts. Planning, deployment, and training fees, which are considered to be installation fees related to Behavioral Analytics subscription contracts, are deferred until the installation is complete and are then recognized over the subscription period of the applicable subscription contract. The subscription periods of these contracts generally range from three to five years after the go-live date or, in cases where the Company contracts with a client for a short-term pilot of Behavioral Analytics prior to committing to a longer subscription period, if any, the subscription or pilot periods generally range from three to twelve months after the go-live date. Installation costs incurred are deferred up to an amount not to exceed the amount of deferred installation revenue and additional amounts that are recoverable based on the contractual arrangement. These costs are included in Prepaid expenses and Other long-term assets. Such costs are amortized over the subscription period of the contract. Costs in excess of the foregoing revenue amount are expensed in the period incurred.

Table of Contents

The amount of revenue generated from subscription fees is based on a number of factors, such as the number of users to whom the Behavioral Analytics Service is provided, the type and number of Behavioral Analytics offerings deployed to the client, and in some cases, the number of hours of calls analyzed during the relevant month of the subscription period. This revenue is recognized as the service is performed for the client.

Consulting services revenue primarily consists of fees charged to the Company's clients to provide post-deployment follow-on consulting services, which include custom data analysis, the implementation of enhancements, and training. These follow-on consulting services are generally performed for the Company's clients on a fixed-fee basis. Revenue is recognized as the services are performed, with performance generally assessed on the ratio of actual hours incurred to-date compared to the total estimated hours over the entire term of the contract.

Other Revenue

Other revenue consists of Marketing Managed Services revenue and CRM Services revenue.

Marketing Managed Services revenue is derived from marketing application hosting. This revenue is generally in the form of fixed monthly fees received from the Company's clients and is recognized as the services are performed for the client. Any related setup fee would be recognized over the term of the hosting contract.

CRM Services revenue consists of fees generated from the Company's operational consulting services, which are provided to the Company's clients on a time-and-materials or fixed-fee basis. The Company recognizes revenue as the services are performed for time-and-materials projects. For fixed-fee projects, revenue is recognized based on the ratio of hours incurred to-date compared to the total estimated hours over the entire term of the contract.

Reimbursed Expenses

Reimbursed expenses revenue includes billable costs related to travel and other out-of-pocket expenses incurred while performing services for the Company's clients. The cost of third-party product and support may be included within this category if the transaction does not satisfy the requirements for gross reporting. An equivalent amount of reimbursable expenses is included in Cost of revenue.

Unearned Revenue

Payments received for Managed services contracts in excess of the amount of revenue recognized for these contracts are recorded as unearned revenue until revenue recognition criteria are met.

Allowance for Doubtful Accounts

The Company maintains allowances for doubtful accounts for estimated losses resulting from clients not paying for unpaid or disputed invoices for contractual services provided. Additional allowances may be required if the financial condition of our clients deteriorates.

Stock-Based Compensation

Stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense over the vesting period. Determining fair value of stock-based awards at the grant date requires certain assumptions. The Company uses historical information as the basis for the selection of expected life, expected volatility, expected dividend yield assumptions, and anticipated forfeiture rates. The risk-free interest rate is selected based on the yields from U.S. Treasury Strips with a remaining term equal to the expected term of the options being valued.

Severance and Related Costs

Severance and related costs includes cost-reduction actions, principally consisting of personnel reductions and an office consolidation. The portion of the accruals that related to employee severance represents contractual severance for identified employees and generally is not subject to a significant revision. The portion of the accruals that related to office space reductions, office closures, and associated contractual lease obligations are based in part on assumptions and estimates of the timing and amount of sublease rentals, which may be affected by overall economic and local market conditions. To the extent estimates of the success of our sublease efforts changed, adjustments increasing or decreasing the related accruals have been recognized.

Table of Contents

Income Taxes

We have recorded income tax valuation allowances on our net deferred tax assets to account for the unpredictability surrounding the timing of realization of our U.S. and non-U.S. net deferred tax assets due to uncertain economic conditions. The valuation allowances may be reversed at a point in time when management determines realization of these tax assets has become more likely than not, based on a return to predictable levels of profitability.

The Company uses an asset and liability approach for financial accounting and reporting of income taxes. Deferred income taxes are provided when tax laws and financial accounting standards differ with respect to the amount of income for the year, the basis of assets and liabilities and for tax loss carryforwards. The Company does not provide U.S. deferred income taxes on earnings of U.S. or foreign subsidiaries, which are expected to be indefinitely reinvested.

The Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Significant judgment is used to determine the likelihood of the benefit. There is additional guidance on derecognition, classification, interest and penalties on income taxes, accounting in interim periods, and disclosure requirements.

Intraperiod tax allocation requires that the provision for income taxes be allocated between continuing operations and other categories of earnings (such as discontinued operations or other comprehensive loss) for each tax jurisdiction. In periods in which there is a year-to-date pre-tax loss from continuing operations and pre-tax income in other categories of earnings, the tax provision is first allocated to the other categories of earnings. A related tax benefit is then recorded in continuing operations. While intraperiod tax allocation in general does not change the overall tax provision, it does affect the amount of tax provision included in each category. For the period ended March 31, 2013, the intraperiod allocation was not applicable because we no longer have any discontinued operations activity. For the period ended March 31, 2012, the intraperiod allocation was not applicable because we had a pretax loss in both continuing and discontinued operations.

Other Significant Accounting Policies

For a description of the Company's other significant accounting policies, see Note Two Summary of Significant Accounting Policies of the Notes to Consolidated Financial Statements included in our Annual Report filed on Form 10-K for the year ended December 31, 2012.

Forward-Looking Statements

Statements in this Form 10-Q that are not historical facts are forward-looking statements and are made pursuant to the safe harbor provisions of Section 27A of the Securities Act of 1933, as amended (the Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). These forward-looking statements, which may be identified by use of words such as plan, may, might, believe, expect, intend, could, would, should, and other words and terms of similar meaning, in connection with any discussion of our prospects, financial statements, business, financial condition, revenues, results of operations, or liquidity, involve risks and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. In addition to other factors and matters contained or incorporated in this document, important factors that could cause actual results or events to differ materially from those indicated by such forward-looking statements include, without limitation, those noted under Risk Factors included in Part I Item 1A of our Form 10-K for the year ended December 31, 2012, as well as the following:

Uncertainties associated with the attraction of, and the ability to execute contracts with, new clients, the continuation of existing, and execution of new, engagements with existing clients, and the timing of related client commitments;

Reliance on a relatively small number of clients for a significant percentage of our revenue;

Risks involving the variability and predictability of the number, size, scope, cost, and duration of, and revenue from, client engagements;

Edgar Filing: Mattersight Corp - Form 10-Q

Management of the other risks associated with increasingly complex client projects and new service offerings, including execution risk; and

Management of growth and development of, and introduction of, new service offerings.

We cannot guarantee any future results, levels of activity, performance, or achievements. The statements made in this Form 10-Q represent our views as of the date of this Form 10-Q, and it should not be assumed that the statements made in this Form 10-Q remain accurate as of any future date. Moreover, we assume no obligation to update forward-looking statements, except as may be required by law.

Table of Contents

First Quarter of 2013 Compared with First Quarter of 2012

Services revenue is total revenue excluding reimbursable expenses that are billed to our clients. Our services revenue decreased \$0.4 million, or 4%, to \$8.5 million in the first quarter of 2013, from \$8.9 million in the first quarter of 2012.

Behavioral Analytics revenue was \$8.2 million in the first quarter of 2013 and was \$8.6 million in the first quarter of 2012. The \$0.4 million, or 4%, decrease in Behavioral Analytics revenue in the first quarter of 2013 was primarily due to the anticipated completion of existing consulting projects and completion of revenue recognition for several deployment projects.

Other revenue remained constant at \$0.3 million in the first quarters of 2013 and 2012.

The Company's top five clients accounted for 64% of total revenue in the first quarter of 2013 and 66% of total revenue in the first quarter of 2012. The top 10 clients accounted for 90% of total revenue in the first quarter of 2013 and 91% of total revenue in the first quarter of 2012. In the first quarter of 2013 and 2012, there were four clients that accounted for 10% or more of total revenue. In the first quarter of 2013, Vangent, Inc., Allstate Insurance Company, Progressive Casualty Insurance Company, and United HealthCare Services, Inc., accounted for 18%, 14%, 13%, and 10% of total revenue, respectively. In the first quarter of 2012, Vangent, Inc., Allstate Insurance Company, Progressive Casualty Insurance Co., and Health Care Service Corporation accounted for 18%, 17%, 13%, and 10% of total revenue, respectively. Higher concentration of revenue with a single client or a limited group of clients creates increased revenue risk if one of these clients significantly reduces its demand for our services.

Cost of Revenue Before Reimbursed Expenses, Exclusive of Depreciation and Amortization

Cost of Services

Cost of services primarily consists of labor costs, including salaries, fringe benefits, and incentive compensation, royalties, and other client-related third-party outside services. Cost of services excludes depreciation and amortization.

Cost of Behavioral Analytics revenue was \$2.7 million, or 33% of Behavioral Analytics revenue in the first quarter of 2013, compared to \$3.2 million, or 37% of Behavioral Analytics revenue, in the first quarter of 2012. The favorable decrease in cost and percentage was primarily due to lower Behavioral Analytics revenue, improved productivity in our Delivery organization resulting in lower compensation costs and better leverage of our cost structure supporting our subscription clients.

Cost of other revenue was \$0.2 million, or 48% of Other revenue in the first quarter of 2013, compared to \$0.2 million, or 59% of Other revenue, in the first quarter of 2012. The favorable percentage decrease was largely due to lower compensation expense.

Sales, Marketing and Development

Sales, marketing and development expenses consist primarily of salaries, incentive compensation, commissions, and employee benefits for business development, account management, marketing, and product development personnel. The personnel costs included in this item are net of any labor costs directly related to the generation of revenue, which are represented in Cost of services.

Sales, marketing and development expenses increased \$1.0 million, or 20%, to \$6.2 million in the first quarter of 2013 from \$5.2 million in the first quarter of 2012. This increase is due to higher compensation combined with decreased cost transfer to Cost of services due to lower cost deferrals and improved margins.

General and Administrative

General and administrative expenses consist primarily of salaries, incentive compensation, and employee benefits for administrative personnel, as well as facilities costs, a provision for uncollectible amounts, and costs for our corporate technology infrastructure and applications.

General and administrative expenses increased \$0.3 million, or 16%, to \$2.3 million in the first quarter of 2013 from \$2.0 million in the first quarter of 2012. This increase is due to higher compensation expense associated with increased headcount.

Table of Contents

Severance and Related Costs

Severance and related costs includes cost-reduction actions, principally consisting of personnel reductions and an office consolidation. The cost-reduction actions taken during fiscal year 2012 resulted in annual cash savings of \$0.3 million. Costs related to office space reductions and office closures were paid pursuant to contractual lease terms through January 2012.

There were no severance and related costs in the first quarter of 2013. In the first quarter of 2012, the \$0.7 million of expense for continuing operations was related to severance and related costs for the elimination of one position.

Depreciation and Amortization

Depreciation increased \$0.1 million, to \$1.0 million in the first quarter of 2013 compared to \$0.9 million in the first quarter of 2012.

Operating Loss

Primarily as a result of the factors described above, we experienced an operating loss of \$3.8 million for the first quarter of 2013, compared to an operating loss of \$3.2 million for the first quarter of 2012.

Interest and Other Expense, Net

Non-operating interest and other expense was \$0.1 million of expense in the first quarters of 2013 and 2012. In the first quarters of 2013 and 2012, the \$0.1 million of expense was primarily related to interest expense on our short-term debt and capital lease obligation.

Income Tax Benefit (Provision)

The income tax benefit was \$0.2 million in the first quarter of 2013 and the tax provision was less than \$0.1 million in the first quarter of 2012. The income tax benefit was due to a favorable tax ruling on a previously accrued income tax liability. As of March 31, 2013, total net deferred tax assets of \$65.1 million were fully offset by a valuation allowance. The level of uncertainty in predicting when we will achieve profitability, sufficient to utilize our net U.S. and non-U.S. operating losses and realize our remaining deferred tax assets, requires that an income tax valuation allowance be recognized in the financial statements.

Loss from Discontinued Operations

There was no loss from discontinued operations in the first quarter of 2013. The loss from discontinued operations of \$0.1 million in the first quarter of 2012 was due to settlement costs relating to a former employee of the ICS Business Unit.

Net Loss Available to Common Stockholders

We reported net loss available to common stockholders of \$3.8 million in the first quarter of 2013 compared to net loss available to common stockholders of \$3.5 million in the first quarter of 2012. Accrued dividends to holders of our Series B Stock were \$0.1 million in the first quarters of 2013 and 2012. In the first quarter of 2013, there was net loss of \$0.23 per share on a basic and diluted basis, compared to net loss of \$0.22 per share on a basic and diluted basis in the first quarter of 2012.

Liquidity and Capital Resources

Introduction

Our principal capital requirements are to fund working capital needs, capital expenditures for Behavioral Analytics and infrastructure requirements, and other revenue generation and growth investments. As of March 31, 2013, our principal capital resources consisted of our cash and cash equivalents balance of \$12.5 million, which includes \$0.3 million in foreign bank accounts.

The decrease in cash during the first three months of 2013 was primarily the result of the net loss before non-cash items, capital lease principal payments, capital expenditures, and the acquisition of treasury stock. Prior to June 30, 2012, restricted cash was primarily used as collateral for letters of credit issued in support of future capital lease obligations. See [Credit Facility](#) description below.

Table of Contents

The decrease in cash during the first three months of 2012 was primarily the result of the net loss before non-cash items, a decrease in unearned revenue reflecting the recognition of previously deferred revenue, capital expenditures, cash dividend payments on Series B Stock, acquisition of treasury stock, and capital lease principal payments, partially offset by accounts receivable collections and an increase in accrued compensation and related costs.

Cash Flows from Operating Activities

Net cash used in operating activities of continuing operations during the first three months of 2013 and 2012 was \$0.9 million and \$1.8 million, respectively. During the first three months of 2013, cash outflows of \$0.9 million from operating activities consisted primarily of the net loss before non-cash items of \$1.3 million and a \$0.6 million increase in receivables reflecting an increase in Days Sales Outstanding (DSO), offset by an increase of \$1.0 million in net customer prepayments.

During the first three months of 2012, cash outflows of \$1.8 million from operating activities consisted primarily of the net loss before non-cash items of \$1.1 million, a \$1.3 million decrease in unearned revenue reflecting the recognition of previously deferred revenue partially offset by accounts receivable collections of \$0.5 million and an increase in accrued compensation and related costs of \$0.3 million.

There was no net cash used in operating activities of discontinued operations during the first three months of 2013. Net cash used in operating activities of discontinued operations during the first three months of 2012 was \$31 thousand.

DSO for continuing operations was 33 days at March 31, 2013 compared to 26 days at December 31, 2012, an increase of seven days. Because a high percentage of our revenue is dependent on a relatively small number of clients, delayed payments by a few of our larger clients could result in a reduction of our available cash, which in turn may cause fluctuation in our DSO. We do not expect any significant collection issues with our clients; see [Accounts Receivable Customer Concentration](#) for additional information on cash collections.

As of March 31, 2013, there were no outstanding liabilities for severance and related costs for continuing operations. See Note Six [Severance and Related Costs](#) of the [Notes to Condensed Consolidated Financial Statements](#) .

Cash Flows from Investing Activities

The Company used \$0.3 million of cash in continuing investing activities during the first three months of 2013 compared to \$0.2 million of cash in continuing investing activities during the first three months of 2012.

Capital expenditures were primarily used to purchase computer hardware and software during the first three months of 2013 and 2012, respectively. We currently expect to incur new capital investments of between \$4.0 million and \$5.0 million for fiscal year 2013 and plan on funding approximately \$3.0 million to \$3.8 million of these purchases with capital leases.

There was no net cash used in discontinued investing activities during the first three months of 2013 and 2012.

Cash Flows from Financing Activities

The Company used \$0.8 million and \$1.3 million of cash in continuing financing activities during the first three months of 2013 and 2012, respectively.

Net cash outflows of \$0.8 million during the first three months of 2013 were primarily attributable to \$0.6 million of principal payments under our capital lease obligations and \$0.2 million of cash used to acquire treasury stock.

Net cash outflows of \$1.3 million during the first three months of 2012 were primarily attributable to: (i) \$0.5 million of principal payments under our capital lease obligations; (ii) \$0.5 million of cash used to acquire treasury stock; and (iii) \$0.3 million for cash dividend payments on Series B Stock. The treasury stock acquired in each year reflects shares that were obtained to meet employee tax obligations associated with stock award vestings.

There was no net cash used in discontinued financing activities during the first three months of 2013 and 2012.

Table of Contents

Historically, we have not paid cash dividends on our Common Stock, and we do not expect to do so in the future. The Board of Directors resolved to suspend the dividend payment on Series B Stock, which accrued for the dividend period July 1, 2012 through December 31, 2012 (the amount of this semi-annual dividend was approximately \$0.3 million). A cash dividend on the Series B Stock of \$0.3 million was paid on January 3, 2012 for the dividend period July 1, 2011 through December 31, 2011 and a cash dividend of \$0.3 million, for the period January 1, 2012 through June 30, 2012, was paid on July 2, 2012. Under the terms of the Certificate of Designations for the Series B Stock, unpaid dividends are cumulative and accrue at the rate of 7% per annum, payable semi-annually in January and July. The amount of each dividend accrual will be decreased by any conversions of the Series B Stock into Common Stock, as such conversions require the Company to pay accrued but unpaid dividends at the time of conversion. Conversions of Series B Stock became permissible at the option of the holder after June 19, 2002.

In the first quarter of 2012, the Company announced its intention to commence a tender offer to purchase up to 111,605 shares of Series B Stock at a cash purchase price of \$8.60 per share, plus accrued and unpaid dividends. In accordance with the terms and conditions of the tender offer, Mattersight purchased 19,758 shares of Series B Stock, at a price of \$8.71 per share (representing \$8.60 per share plus accrued and unpaid dividends), for an aggregate cost of approximately \$172,092, excluding fees and expenses related to the tender offer. These shares represented approximately 1.2% of the Series B Stock outstanding as of April 13, 2012.

The Company expects to acquire between \$0.1 million and \$0.2 million of treasury stock during the second quarter of 2013 to meet employee tax obligations associated with the Company's stock-based compensation programs.

Liquidity

Our near-term capital resources consist of our current cash balance, together with anticipated future cash flows, financing from capital leases, and our revolving line of credit (See *Credit Facility* below). Our balance of cash and cash equivalents was \$12.5 million as of March 31, 2013.

We anticipate that our current unrestricted cash resources, together with operating revenue and capital lease financing, should be sufficient to satisfy our short-term working capital and capital expenditure needs for the next twelve months. Management will continue to assess opportunities to maximize cash resources by actively managing our cost structure and closely monitoring the collection of our accounts receivable. If, however, our operating activities, capital expenditure requirements, or net cash needs differ materially from current expectations due to uncertainties surrounding the current capital market, credit and general economic conditions, competition, or the termination of a large client contract, then there is no assurance that we would have access to additional external capital resources on acceptable terms.

Credit Facility

On June 29, 2012, the Company, together with its wholly-owned subsidiaries Mattersight Europe Holding Corporation and Mattersight International Holding, Inc., as co-borrowers, entered into a Loan and Security Agreement with Silicon Valley Bank (the *Credit Facility*). The *Credit Facility* provides for a \$10.0 million revolving line of credit maturing in 2014 and is secured by a security interest in the Company's accounts receivable, equipment, inventory, cash, deposit accounts, securities, and all other investment property, supporting obligations, financial assets, and other personal property, with the exception of the Company's intellectual property rights. The Company and its subsidiaries, subject to certain limits and restrictions, may from time to time request the issuance of letters of credit under the *Credit Facility*.

On June 29, 2012, the Company used the *Credit Facility* to repay in full the principal balance and accrued and unpaid interest outstanding under the promissory notes issued by the Company to various affiliates of Technology Crossover Ventures to settle previously disclosed arbitration, in an amount equal to approximately \$3.7 million. The principal amount outstanding under the *Credit Facility* will accrue interest at a floating annual rate equal to three quarters of one percentage point (0.75%) above the United States prime rate, payable monthly. Upon execution of the *Credit Facility*, the Company paid a commitment fee, and in addition, the Company is obligated to pay a fee equal to one-eighth of one percent (0.125%) per annum of the average unused portion of the *Credit Facility*, payable quarterly in arrears.

The *Credit Facility* imposes various restrictions on the Company, including usual and customary limitations on the ability of the Company or any of its subsidiaries to incur debt and to grant liens upon their assets, and prohibits certain consolidations, mergers, and sales and transfers of assets by the Company and its subsidiaries. The *Credit Facility* includes usual and customary events of default for facilities of this nature (with customary grace periods, as applicable) and provides that, upon the occurrence of an event of default, payment of all amounts payable under the *Credit Facility* may be accelerated and/or the lenders' commitments may be terminated. In addition, upon the occurrence of certain insolvency or bankruptcy related events of default, all amounts payable under the *Credit Facility* will automatically become immediately due and payable, and the lenders' commitments will automatically terminate.

Table of Contents

Upon the effectiveness of the Credit Facility, the Company terminated its loan agreement with Bank of America, N.A., dated December 24, 2010, as amended, which was scheduled to expire by its terms on December 31, 2012.

See Note Ten Short-Term Debt of the Notes to Condensed Consolidated Financial Statements for further discussion.

Accounts Receivable Customer Concentration

As of March 31, 2013, five clients, United HealthCare Services, Inc., Vangent, Inc., Allstate Insurance Company, CVS Pharmacy, Inc., and DeVry, Inc., accounted for 19%, 16%, 13%, 12%, and 11% of total gross accounts receivable, respectively. Of these amounts, we have collected 79% from United HealthCare Services, Inc., 100% from Vangent, Inc., 71% from Allstate Insurance Company, 96% from CVS Pharmacy, Inc., and 3% from DeVry, Inc. through May 9, 2013. Of the total March 31, 2013 gross accounts receivable, we have collected 69% as of May 9, 2013. Because we have a high percentage of our revenue dependent on a relatively small number of clients, delayed payments by a few of our larger clients could result in a reduction of our available cash.

Capital Lease Obligations

Capital lease obligations as of March 31, 2013 and December 31, 2012 were \$2.5 million and \$2.3 million, respectively. We are a party to a capital lease agreement with a leasing company to lease hardware and software. We expect to incur new capital lease obligations of between \$3.0 million to \$3.8 million for fiscal year 2013 as we continue to expand our investment in the infrastructure for Behavioral Analytics.

Contractual Obligations

Cash will also be required for operating leases and non-cancellable purchase obligations, as well as various commitments reflected as liabilities on our balance sheet as of March 31, 2013. These commitments are as follows:

Continuing Operations

(In millions)

	Total	Less Than 1 Year	1 3 Years	3 5 Years	More Than 5 Years
Contractual Obligations					
Letters of credit	\$ 1.2	\$ 1.2	\$	\$	\$
Operating leases	2.9	1.0	1.6	0.3	
Capital leases	2.8	1.7	1.1		
Purchase obligations	2.7	2.7			
Total	\$ 9.6	\$ 6.6	\$ 2.7	\$ 0.3	\$

Letters of Credit

The amounts set forth in the chart above reflect standby letters of credit issued as collateral for capital leases. Specifically, these amounts reflect the face amount of these letters of credit that expire in each period presented.

Leases

The amounts set forth in the chart above reflect future principal, interest, and executory costs of the leases entered into by the Company for technology and office equipment, as well as office and data center space. Liabilities for the principal portion of the capital lease obligations are reflected on our balance sheet as of March 31, 2013 and December 31, 2012.

Purchase Obligations

Purchase obligations include \$1.5 million of commitments reflected as liabilities on our balance sheet as of March 31, 2013, as well as \$1.2 million of non-cancellable obligations to purchase goods or services in the future. As of December 31, 2012, purchase obligations include \$0.9

Edgar Filing: Mattersight Corp - Form 10-Q

million of commitments reflected as liabilities on our balance sheet, as well as \$0.9 million of non-cancellable obligations to purchase goods or services in the future.

Recent Accounting Pronouncements

In July 2012, the FASB issued ASU No. 2012-02, Intangibles – Goodwill and Other (Topic 350) – Testing Indefinite-Lived Intangible Assets for Impairment. ASU 2012-02 permits an entity to first assess qualitative factors to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired as a basis for determining whether it is necessary to perform the quantitative impairment test in accordance with Subtopic 350-30. If an entity concludes that it is not more likely than not that the indefinite-lived intangible asset is impaired, then no further action is required. If an entity concludes otherwise, then it is required to determine the fair value of the indefinite-lived intangible asset and perform the quantitative impairment test. ASU 2012-02 is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012, with early adoption permitted. The adoption of this ASU did not have a material impact on the Company's condensed consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There have been no material changes in market risk as of March 31, 2013 from that described in the Company's Annual Report filed on Form 10-K for the year ended December 31, 2012.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Mattersight maintains disclosure controls and procedures that have been designed to ensure that information required to be disclosed by the Company in the reports it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the rules and forms of the SEC and such information is accumulated and communicated to Company management, including its principal executive officers, to allow timely decisions regarding required disclosure. The Company's Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this report, as required by Rule 13a-15 of the Securities Exchange Act of 1934. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

During the first quarter of 2013, we completed the implementation of a new accounting and management information system. There have been no other changes in Mattersight's internal control over financial reporting that occurred during the first quarter of 2013 that has materially affected, or is reasonably likely to affect materially, the Company's internal control over financial reporting.

Part II. Other Information

Item 1. Legal Proceedings

See discussion under Note Seventeen – Litigation and Other Contingencies to the Notes to the Condensed Consolidated Financial Statements included in Item 1 of Part I of this Quarterly Report on Form 10-Q, which is incorporated herein by reference.

Item 1A. Risk Factors

There have been no material changes with respect to the factors disclosed in our Annual Report filed on Form 10-K for the year ended December 31, 2012.

Table of Contents**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds*****Repurchase of Equity Securities***

The following table provides information relating to the Company's purchase of shares of its Common Stock in the first quarter of 2013. These purchases reflect shares withheld upon vesting of restricted stock or installment stock to satisfy tax-withholding obligations. The Company has not adopted a Common Stock repurchase plan or program.

Period	Total Number of Shares Purchased	Average Price Paid Per Share
January 1, 2013 – January 31, 2013		\$
February 1, 2013 – February 28, 2013	41,460	\$ 4.56
March 1, 2013 – March 31, 2013	1,276	\$ 4.69
Total	42,736	\$ 4.56
