**Item 8.01 Other Events**

On March 22, 2013, the Company's board of directors unanimously approved a proposal to amend the Company's articles of incorporation to implement a reverse stock split (the Reverse Stock Split), pursuant to which every four outstanding shares of the Company's common stock would be combined into one outstanding share of the Company's common stock on a record date to be established by the Company's Board of Directors following the 2013 annual meeting.

On April 30, 2013, the shareholders of the Company approved the Reverse Stock Split.

On May 17, 2013, the Company's board of directors established a record date of May 31, 2013 for the Reverse Stock Split.

The amendment will not change the number of authorized shares of common stock or preferred stock, or the relative voting power of the Company's shareholders. Because the number of authorized shares will not be reduced, the number of authorized but unissued shares of the Company's common stock will materially increase and will be available for reissuance by the Company. The Reverse Stock Split will affect all of the holders of the Company's common stock uniformly.

No fractional shares will be issued in connection with the Reverse Stock Split. Instead, any fractional share resulting from the Reverse Stock Split will be rounded up to the next largest whole share.

Following the Reverse Stock Split, the number of the Company's outstanding shares of common stock will be reduced from 31,511,201 shares to 7,877,800 shares. The Reverse Stock Split will also affect the Company's outstanding stock options and shares of common stock issued under the Company's Equity Incentive Plan. Under this plan, the number of shares of common stock deliverable upon exercise or grant must be appropriately adjusted and appropriate adjustments must be made to the purchase price per share to reflect the Reverse Stock Split.
