1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Description of Business

Monster Worldwide, Inc. (together with its consolidated subsidiaries, the Company, Monster, Monster Worldwide, we, our, or us) has op that consist of three reportable segments: Careers-North America, Careers-International and Internet Advertising & Fees. Revenue in the Company s Careers segments is primarily earned from the placement of job advertisements on the websites within the Monster network, access to the Monster network of online resume databases, recruitment media services and other career-related services. Revenue in the Company s Internet Advertising & Fees segment is primarily earned from the display of advertisements on the Monster network of websites, click-throughs on text based links and leads provided to advertisers. The Company s Careers segments provide online services to customers in a variety of industries throughout North America, Europe, and the Asia-Pacific region, while Internet Advertising & Fees delivers online services primarily in North America.

Basis of Presentation

The consolidated interim financial statements included herein are unaudited and have been prepared by the Company pursuant to the rules and regulations of the United States Securities and Exchange Commission (the SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP) have been omitted pursuant to such rules and regulations; however, the Company believes that the disclosures are adequate to make the information presented not misleading. The consolidated interim financial statements include the accounts of the Company and all of its wholly-owned and majority-owned subsidiaries. All inter-company accounts and transactions have been eliminated in consolidation.

These statements reflect all normal recurring adjustments that, in the opinion of management, are necessary for fair presentation of the information contained herein. These consolidated interim financial statements should be read in conjunction with the financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the year ended December 31, 2012. The Company adheres to the same accounting policies in preparing interim financial statements. As permitted under U.S. GAAP, interim accounting for certain expenses, including income taxes, are based on full year assumptions. Such amounts are expensed in full in the year incurred. For interim financial reporting purposes, income taxes are recorded based upon estimated annual income tax rates.

We have reclassified certain amounts previously reported in our financial statements to conform to the current presentation, including amounts related to discontinued operations. Unless noted otherwise, discussions in these notes pertain to our continuing operations.

2. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

New accounting pronouncements are issued by the Financial Accounting Standards Board (FASB) or other standards setting bodies that we adopt according to the various timetables the FASB specifies. The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company s results of operations, financial position or cash flow.

In February 2013, the FASB issued Accounting Standards Update (ASU) No. 2013-02, which amends the guidance in Accounting Standard Codification (ASC) 220 on Comprehensive Income. Under the revised guidance, companies are required to provide information about the amounts reclassified out of accumulated other comprehensive income (AOCI) by component. In addition, companies are required to present, either on the face of the statement where net income is presented or in the notes, the effects on the line items of net income of significant amounts reclassified out of AOCI but only if the amount reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. This amended guidance is to be applied prospectively and is effective for reporting periods (interim and annual) beginning after December 15, 2012 for public companies, with early adoption permitted. The Company adopted the revised guidance January 1, 2013, and reported significant items reclassified out of AOCI in the Notes to Consolidated Financial Statements.

Edgar Filing: MONSTER WORLDWIDE, INC. - Form 10-Q

In March 2013, the FASB issued ASU No. 2013-05, which amends the guidance in ASC 830, Foreign Currency Matters . ASU No. 2013-05 addresses the accounting for the cumulative translation adjustment (CTA) when a parent either sells a part or all of its investment in a foreign entity or no longer holds a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business within a foreign entity. This amended guidance is to be applied prospectively and is effective for the Company beginning on January 1, 2014. The implementation of the amended accounting guidance is not expected to have a material impact on our consolidated financial position or results of operations.

3. EARNINGS PER SHARE

Basic earnings per share is calculated using the Company s weighted-average outstanding common shares. When the effects are dilutive, diluted earnings per share is calculated using the weighted-average outstanding common shares, participating securities and the dilutive effect of all other stock-based compensation awards as determined under the treasury stock method. Certain stock options and stock issuable under employee compensation plans were excluded from the computation of earnings per share due to their anti-dilutive effect.

A reconciliation of shares used in calculating basic and diluted earnings per share is as follows (shares in thousands):

	Three months er 2013	nded June 30, 2012	Six months en 2013	ded June 30, 2012
Basic weighted average shares outstanding	110,932	112,937	111,166	114,568

Weighted average anti-dilutive common stock equivalents	4,956	5,675	6,008	5,608

Share Repurchase Plan

On October 25, 2011, the Board of Directors of the Company authorized a share repurchase program of up to \$250,000 which expired on April 25, 2013. During the life of this share repurchase program, the Company repurchased 13,986,349 shares at an average price of \$7.67 per share.

On April 30, 2013, the Board of Directors of the Company authorized a share repurchase program of up to \$200,000. Under the share repurchase program, shares of common stock will be purchased on the open market or through privately negotiated transactions from time-to-time through April 30, 2015. The timing and amount of purchases will be based on market conditions, corporate and legal requirements and other factors. The share repurchase program does not obligate the Company to acquire any specific number of shares in any period, and may be modified, suspended, extended or discontinued at any time without prior notice. From the date of the inception of this repurchase program through June 30, 2013, the Company repurchased 4,353,742 shares for a total of \$23,291, excluding commissions, at an average price of \$5.35 per share.

4. STOCK-BASED COMPENSATION

Stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense ratably over the requisite service period, which is generally the vesting period, net of estimated forfeitures.

The Company awards non-vested stock to employees, directors and executive officers in the form of Restricted Stock Awards (RSAs) and Restricted Stock Units (RSUs), market-based RSAs and RSUs, stock options and performance-based RSAs and RSUs. The Compensation Committee of the Company s Board of Directors approves stock-based compensation awards for all employees and executive officers of the Company. The Corporate Governance and Nominating Committee of the Company s Board of Directors approves stock-based compensation awards for all non-employee directors of the Company. The Company uses the fair-market value of the Company s common stock on the date the award is approved to measure fair value for service-based awards, a Monte Carlo simulation model to determine both the fair value and requisite service period of market-based awards and the Black-Scholes option-pricing model to determine the fair value of stock option awards. The Company presents as a financing activity in the consolidated statement of cash flows the benefits of tax deductions in excess of the tax-effected compensation of the related stock-based awards for the options exercised and RSAs and RSUs vested.

The Company recognized pre-tax compensation expense recorded in salaries and related in the consolidated statements of operations as follows:

		ended June 30,	Six months en	
	2013	2012	2013	2012
Non-Vested stock, included in salaries and related	\$ 5,471	\$ 7,429	\$ 12,264	\$ 15,702
Stock options, included in salaries and related				51
Total	\$ 5,471	\$ 7,429	\$ 12,264	\$ 15,753

During the first six months of 2013, the Company granted an aggregate of 1,164,848 RSAs and 266,500 RSUs to approximately 51 employees, executive officers and directors of the Company. The RSAs and RSUs vest in various increments on the anniversaries of the individual grant dates, through June 5, 2017, subject to the recipient s continued employment or service through each applicable vesting date.

The Company s non-vested stock activity is as follows (shares in thousands):

	Six months ended June 30,

Non-vested at end of period	5,926	\$	8.43	8,758	\$	10.03	

As of June 30, 2013, the unrecognized compensation expense related to non-vested stock was \$32,230 which is being amortized over the requisite service period on a straight-line basis. The remaining weighted average term over which the unamortized compensation expense will be recognized is 1.5 years.

In connection with the Company s corporate restructuring programs, the Company accelerated the vesting of 418,333 RSA s and RSU s to two former executives in the second quarter of 2013, the expense of which is recorded in restructuring and discontinued operations.

The Company s stock option activity is as follows (shares in thousands):

Aggregate intrinsic value is calculated as the difference between the closing market price of the Company s common stock as of each exercise date and the exercise price of the underlying options. As of June 30, 2013, all stock options granted have been fully expensed.

5. FAIR VALUE MEASUREMENT

The Company values its assets and liabilities using the methods of fair value as described in ASC 820, *Fair Value Measurements and Disclosures*. ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The three levels of fair value hierarchy are described below:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Inputs that are generally unobservable and typically reflect management s estimates of assumptions that market participants would use in pricing the asset or liability.

In determining fair value, the Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, and considers counterparty credit risk in its assessment of fair value. Observable or market inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company s assumptions based on the best information available. There have been no transfers of assets or liabilities between the fair value measurement classifications for the three months ended June 30, 2013.

The Company has certain assets and liabilities that are required to be recorded at fair value on a recurring basis in accordance with accounting principles generally accepted in the United States. The following table summarizes those assets and liabilities measured at fair value on a recurring basis as of June 30, 2013:

	Level 1	Level 2	Level 3	Total
Assets:				
Bank time deposits	\$	\$ 34,130	\$	\$ 34,130
U.S. and foreign government obligations		950		950

Total Liabilities	\$	\$ 151	\$ 15,817	\$ 15,968

The following table summarizes those assets and liabilities measured at fair value on a recurring basis as of December 31, 2012:

	Level 1	Level 2	Level 3	Total
Assets:				
Bank time deposits	\$	\$ 79,078	\$	\$ 79,078

Total Assets	\$ \$ 108,594	\$	\$ 108,594
Liabilities:			
Foreign exchange contracts	70		70
Lease exit liabilities		14,233	14,233
Total Liabilities	\$ \$ 70	\$ 14,233	\$ 14,303

We recognize a liability for costs to terminate an operating lease obligation before the end of its term when we no longer derive economic benefit from the lease. The lease exit liabilities within the Level 3 tier relate to vacated facilities associated with previously discontinued operations and restructuring activities of the Company and are recorded in accrued expenses and other current liabilities in the consolidated balance sheet. The liability is recognized and measured based on a discounted cash flow model when the cease use date has occurred. The fair value of the liability is determined based on the remaining lease rentals due, reduced by estimated sublease rental income that could be reasonably obtained for the property. The Company reviews the assumptions within the discounted cash flow model and determines whether any changes to the previously recorded amounts require a change in estimate. During the three months ended June 30, 2013, the Company determined that there were no material changes to the underlying assumptions within the discounted cash flow model.

The changes in the fair value of the Level 3 liabilities are as follows:

	Lease Exit	Liability
	Six months ended	1 June 30, 2013

7. INVESTMENTS

Equity Investments

The Company accounts for investments through which a non-controlling interest is held using the equity method of accounting, recording its owned percentage of the investment s net results of operations in loss in equity interests, net, in the Company s consolidated statement of operations. Such losses reduce the carrying value of the Company s investment and gains increase the carrying value of the Company s investment. Dividends paid by the equity investee reduce the carrying amount of the Company s investment.

The Company has a 25% equity investment in a company located in Finland related to a business combination completed in 2001. The Company typically receives a dividend once a year from this investment. The Company received a dividend of \$658 in the first quarter of 2013 and a dividend of \$728 in the second quarter of 2012. The carrying value of the investment was \$87 and \$533 as of June 30, 2013 and December 31, 2012, respectively, and was recorded on the consolidated balance sheet as a component of other assets.

In 2008, the Company acquired a 50% equity interest in a company located in Australia. For the six months ended June 30, 2013 and 2012, the Company expended an additional \$1,519 and \$779, respectively, for additional working capital requirements relating to the Australian investment. The carrying value of the investment was \$142 and \$29 as of June 30, 2013 and December 31, 2012, respectively, and was recorded on the consolidated balance sheet as a component of other assets.

Income and loss in equity interests are as follows by equity investment:

8. RESTRUCTURING AND OTHER SPECIAL CHARGES

January 2012 Restructuring

On January 24, 2012, the Company committed to a plan to take a series of strategic restructuring actions. The Company s decision to adopt the strategic restructuring actions resulted from the Company s desire to provide the Company with more flexibility to invest in marketing and sales activities in order to improve its long-term growth prospects and profitability. Through December 31, 2012, the Company notified approximately 325 associates and approximately 60 associates have voluntarily left the Company, reducing the Company s workforce by approximately 385 associates. The restructuring actions also included the consolidation of certain office facilities and the impairment of certain fixed assets. The Company will not incur any new charges in the future relating to this program.

The following table displays a roll forward of the January 2012 Restructuring and other special charges and related liability balances:

November 2012 Restructuring

On November 8, 2012, the Company announced actions designed to concentrate resources on core businesses within North America and key European and Asian markets with increased spending in marketing and sales. The actions subsequently included (i) the sale of the Careers-China business which was completed on February 5, 2013, (ii) the exiting of the business operations in Latin America and Turkey and (iii) a strategic restructuring inclusive of a reduction in force, office consolidations and impairment of certain assets. Please see Note 9 *Discontinued Operations*, for more information relating to the sale of the Careers-China business and the exiting of our businesses in Latin America and Turkey.

Through June 30, 2013, the Company has notified approximately 400 associates in North America and Europe (excluding discontinued operations). The Company does not expect to incur significant additional charges in future periods relating to this program. The following table displays a roll forward of the November 2012 Restructuring and other special charges and related liability balances:

9. DISCONTINUED OPERATIONS

During the fourth quarter of 2012, the Company made the strategic decision to discontinue operations in Latin America and Turkey. All of the Latin America and Turkey business operations were discontinued on or before December 31, 2012. The Company incurred approximately \$8,000 of costs associated with the shutdown of these businesses in the fourth quarter of 2012. For the three and six months ended June 30, 2013, the Company recorded additional costs of \$120 and \$2,218, respectively, which was primarily relating to severance costs associated with terminated employees of our operations in Latin America and Turkey. Additionally, the Company recorded a tax benefit of \$0 and \$541 related to discontinued operations in Latin America and Turkey for the three months and six months ended June 30, 2013, respectively. Accordingly, the Company recorded a net loss from discontinued operations, net of tax, of \$120 and \$1,677 for the three and six months ended June 30, 2013, respectively. The Company does not expect to incur significant additional charges in future periods relating to Latin America or Turkey.

During the third quarter of 2012, as part of the Company s review of strategic alternatives, the Company made the decision to sell its Careers-China business. The sale of the Careers-China business to Saongroup, Ltd. (Saongroup) was completed on February 5, 2013. The Company received a 10% minority interest in the combined China business of Saongroup (as Saongroup has a Chinese operation as well). The Company s 10% minority interest does not provide the Company with representation on the board of directors, the Company is not entitled to any dividend or other forms of cash returns and the Company is not required to make any capital contributions in the future. The Company will carry the 10% interest as a cost basis investment with an estimated fair value of zero which is based on available information.

Prior to the close of the sale of Careers-China, the Company incurred charges relating to severance benefits associated with terminated employees, retention benefits for employees who will remain with the combined operations and certain lease obligation costs. At February 5, 2013, there was \$23,109 of accumulated unrealized currency translation gain related to the net assets of Careers-China. With the sale of Careers-China on February 5, 2013, the Company recorded the foreign currency translation adjustment as a reduction of the loss on disposition of discontinued operations. Additionally the Company recorded a tax benefit of \$4,041 related to Careers-China in the first quarter of 2013. Accordingly, the Company recorded a loss from discontinued operations, net of tax, of \$639 and \$5,216 in the three and six months ended June 30, 2013, respectively. The Company does not expect to incur significant additional charges in future periods relating to Careers-China.

12. FINANCING AGREEMENTS

In December 2007, the Company entered into a senior unsecured revolving credit facility that provided for maximum borrowings of \$250,000, including up to a \$50,000 sublimit for letters of credit. On August 31, 2009, with the objective of availing itself of the benefits of an improved credit market in an ongoing unstable macroeconomic environment, the Company amended certain terms and increased its borrowing capability under its existing credit agreement (the First Amended Credit Agreement). The First Amended Credit Agreement maintained the Company s existing \$250,000 revolving credit facility and provided for a new \$50,000 term loan facility, for a total of \$300,000 in credit available to the Company. On March 22, 2012, the First Amended Credit Agreement was further amended and restated in its entirety (the Second Amended Credit Agreement). The Second Amended Credit Agreement provides the Company with a \$225,000 revolving credit facility and a \$100,000 term loan facility, providing for a total of \$325,000 in credit available to the Company. The borrowings under the Second Amended Credit Agreement were used to satisfy the obligations under the First Amended Credit Agreement of \$172,500 for the revolving credit facility and \$40,000 for the term loan. The revolving credit facility and the term loan facility each mature on March 22, 2015. The Second Amended Credit Agreement does not qualify as a debt extinguishment in accordance with ASC 470 *Debt*, and all financing fees incurred will be deferred and

Edgar Filing: MONSTER WORLDWIDE, INC. - Form 10-Q

amortized through March 2015.

14

The Company is required to make quarterly amortization payments on the outstanding principal amount of the term loan with \$1,875 payable on each of September 30, 2013, December 31, 2013, and March 31, 2014, \$2,500 payable on each of June 30, 2014, September 30, 2014, and December 31, 2014 and the remaining balance of the term loan due at maturity.

Borrowings under the Second Amended Credit Agreement will bear interest at a rate equal to either (i) the British Bankers Association LIBOR (BBA LIBOR) Rate plus a margin ranging from 250 basis points to 325 basis points depending on the Company's consolidated leverage ratio or (ii) the sum of (A) the highest of (1) the agent's prime rate, (2) the sum of 0.50% plus the overnight federal funds rate on such day or (3) the BBA LIBOR plus 1.0%, and (B) a margin ranging from 150 basis points to 225 basis points depending on the Company's consolidated leverage ratio. In addition, the Company will be required to pay the following fees: (i) a fee on all outstanding amounts of letters of credit at a rate per annum ranging from 250 basis points to 325 basis points (depending on the consolidated leverage ratio); and (ii) a commitment fee on the unused portion of the revolving credit facility at a rate per annum ranging from 35 basis points to 50 basis (depending on the consolidated leverage ratio). The Company may repay outstanding borrowings at any time during the term of the credit facility without any prepayment penalty.

The Second Amended Credit Agreement contains financial covenants requiring the Company to maintain: (i) a consolidated leverage ratio of no more than 3.00 to 1.00; and (ii) an interest charge coverage ratio of at least 3.00 to 1.00. The Second Amended Credit Agreement also contains various other negative covenants, including restrictions on incurring indebtedness, creating liens, mergers, dispositions of property, dividends and stock repurchases, acquisitions and other investments and entering into new lines of business. The Second Amended Credit Agreement also contains various affirmative covenants, including covenants relating to the delivery of financial statements and other financial information, maintenance of property, maintenance of insurance, maintenance of books and records, and compliance with environmental laws. As of June 30, 2013, the Company was in full compliance with its covenants.

At June 30, 2013, the utilized portion of this credit facility was \$93,125 in borrowings on the term loan facility, \$45,700 of borrowings on the revolving credit facility, and \$994 in outstanding letters of credit. The portion of the term loan that is due within one year is \$8,125 and is classified as short-term in the consolidated balance sheet. The remaining amount outstanding on the term loan and the utilized portion of the revolving credit facility is classified as long-term in the consolidated balance sheet. As of June 30, 2013, based on the calculation of the maximum consolidated leverage ratio, \$178,306 of the Company s revolving credit facility was available. At June 30, 2013, the one month BBA LIBOR rate, the agent s prime rate, and the overnight federal funds rate were 0.19%, 3.25% and 0.07%, respectively. As of June 30, 2013, the Company used the one month BBA LIBOR rate for the interest rate on these borrowings with an interest rate of 2.94%.

In 2011 and 2012, the Company s former subsidiaries in China entered into two short term unsecured revolving credit facilities whereby the Company provided a repayment guarantee in support of the first credit facility and the Company provided for a standby letter of credit in support of the second credit facility. These credit facilities provided for maximum borrowings of the Renminbi equivalent of \$7,574 and \$5,049, respectively. On February 5, 2013, the Company sold our interest in our subsidiaries in China including the entity that is the primary obligor on the credit facilities. As part of the sale transaction, the Company agreed to liquidate these outstanding loans to the lender and on June 13, 2013, these loans were liquidated in full.

13. INCOME TAXES

The provision for income taxes consists of provisions for federal, state, and foreign income taxes. The Company operates globally with operations in various tax jurisdictions outside of the United States. Accordingly, the effective income tax rate is a composite rate reflecting the geographic mix of earnings in various tax jurisdictions and the applicable rates. Our interim provision for income taxes is measured using an estimated annual effective tax rate, adjusted for discrete items that occur within the periods presented. Our future effective tax rates could be adversely affected by earnings being lower than anticipated in countries with lower statutory rates, greater losses than anticipated in countries with lower statutory tax rates, increases in recorded valuation allowances of tax assets, or changes in tax laws or interpretations thereof.

Our effective tax rate differs from the Federal United States statutory tax rate of 35% due to accrual of state taxes, non-deductible expenses, foreign earnings taxed at different rates, accrual of interest on tax liabilities, accrual of United States residual tax on earnings that are not permanently reinvested and the effect of valuation allowances. The tax benefit during the six months ended June 30, 2013 was increased by approximately \$12,707 of discrete items, consisting primarily of a tax benefit of \$12,869 due to reversals of uncertain tax positions and accrued interest. As a result of settlements of tax examinations and lapses of statutes of limitations during the six months ended June 30, 2013 the Company recognized previously unrecognized tax positions of \$11,846 which on a net of tax basis impacted the effective rate by \$11,655. The Company also reversed accrued interest on unrecognized tax positions of \$2,006, which impacted the effective tax rate by \$1,214. The tax matters reversed relate primarily to characterization of certain intercompany loans for tax purposes. These reversals occurred in the quarter ended March 31, 2013.

Included in the loss from discontinued operations in the six months ended June 30, 2013 and June 30, 2012 is an income tax benefit of \$4,582 and \$2,588, respectively.

The tax benefit for the six months ended June 30, 2012 was increased by \$12,400 of discrete items, consisting primarily of \$15,000 of a tax benefit related to certain tax losses arising from the Company s restructuring. This benefit was partially offset by the effect of valuation allowances and accruals of interest on tax liabilities. In addition, as a result of settlements and adjustments to estimated tax liabilities in the three months ended June 30, 2012 the company recognized \$1,015 of previously unrecognized tax benefits which on a net of tax basis impacted the effective tax rate by \$660. The Company also reversed accrued interest related to unrecognized tax benefits of \$966 which on a net of tax basis impacted the effective tax rate by \$584. The total benefit reflected in the second quarter of 2012 income tax provision due to reversals of tax and interest was \$1,244.

The Company is currently under examination by several domestic and international tax authorities. Presently, no material adjustments have been proposed. Significant judgment is required in evaluating our uncertain tax positions and determining our provision for income taxes. The gross recorded liability for uncertain tax positions (inclusive of estimated interest and penalties thereon) as of June 30, 2013 and December 31, 2012 is recorded on the Company s consolidated balance sheet as long-term income taxes payable of \$52,590 and \$63,465 respectively. Interest and penalties related to underpayment of income taxes are classified as a component of income tax expense in the consolidated statements of operations and comprehensive loss. The Company estimates that it is reasonably possible that unrecorded tax benefits may be reduced by as much as \$15,000 in the next twelve months due to expirations of statutes of limitations or settlement of tax examinations. The tax matters concerned relate to the allocation of income among jurisdictions, and the amount of prior year tax loss carryovers.

14. SEGMENT AND GEOGRAPHIC DATA

The Company conducts business in three reportable segments: Careers-North America; Careers-International; and Internet Advertising & Fees. Corporate operating expenses are not allocated to the Company s reportable segments. The operating results for the Careers-China business and the exited business operations which have previously been included in the Careers-International segment in the Company s consolidated financial statements have now been reclassified as discontinued operations for all periods presented. Please see Note 9 *Discontinued Operations*.

15. COMMITMENTS AND CONTINGENCIES

Legal Proceedings

The Company is involved in various legal proceedings that are incidental to the conduct of its business. Aside from the matters discussed below, the Company is not involved in any pending or threatened legal proceedings that it believes could reasonably be expected to have a material adverse effect on its financial condition or results of operations.

In June 2013, Lumen View Technology, LLC filed suit against the Company for allegedly infringing a patent relating to a system and method for facilitating multilateral decision making. The lawsuit, entitled Lumen View Technology LLC v. Monster Worldwide, Inc. (Civil Action No. 13-cv-1043), was brought in the United States District Court for the District of Delaware. The Plaintiff seeks injunctive relief, monetary damages, pre and post judgment interest, and other costs. The Company intends to vigorously defend this matter and is currently unable to estimate any potential losses.

Leases

The Company leases its facilities and a portion of its capital equipment under operating leases that expire at various dates. Some of the operating leases provide for increasing rents over the terms of the leases and total rent expense under these leases is recognized ratably over the initial renewal period of each lease. The following table presents future minimum lease commitments under non-cancelable operating leases and minimum rentals to be received under non-cancelable subleases at June 30, 2013:

	Operating Leases	Estimated Sublease Income

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Stockholders

Monster Worldwide, Inc.

New York, New York

We have reviewed the consolidated balance sheet of Monster Worldwide, Inc. (the Company) as of June 30, 2013, and the related consolidated statements of operations and comprehensive loss for the three and six months ended June 30, 2013 and 2012, and cash flows for the six-month periods ended June 30, 2013 and 2012 included in the accompanying Securities and Exchange Commission Form 10-Q for the period ended June 30, 2013. These interim financial statements are the responsibility of the Company s management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the consolidated financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board, the consolidated balance sheet of Monster Worldwide, Inc. as of December 31, 2012, and the related consolidated statements of operations, stockholders equity, and cash flows for the year then ended (not presented herein); and in our report dated February 13, 2013, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2012 is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

ITEM 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Monster Worldwide, Inc. (together with its consolidated subsidiaries, the Company, Monster , Monster Worldwide, we, our or us) makes forward-looking statements in this report and in other reports and proxy statements that we file with the SEC. Except for historical information contained herein, the statements made in this report constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). Such forward-looking statements involve certain risks and uncertainties, including statements regarding our strategic direction, prospects and future results. Certain factors, including factors outside of our control, may cause actual results to differ materially from those contained in the forward-looking statements. These factors include, among other things, the global economic and financial market environment; risks associated with cuts in government spending; risks relating to our foreign operations; risks relating to the European debt crisis and market perceptions concerning the instability of the euro; our ability to maintain and enhance the value of our brands, particularly Monster; competition; fluctuations in our quarterly operating results; our ability to adapt to rapid developments in technology; our ability to continue to develop and enhance our information technology systems; concerns related to our privacy policies and our compliance with applicable data protection laws and regulations; intrusions on our systems; interruptions, delays or failures in the provision of our services; our vulnerability to intellectual property infringement claims brought against us by others; our ability to protect our proprietary rights and maintain our rights to use key technologies of third parties; the risk that acquisitions or partnerships may not achieve the expected benefits to us; our ability to attract and retain talented employees, including senior management; potential write-downs if our goodwill or amortizable intangible assets become impaired; adverse determinations by domestic and/or international taxation authorities related to our estimated tax liabilities; effects of anti-takeover provisions in our organizational documents that could inhibit the acquisition of Monster Worldwide by others; volatility in our stock price; risks associated with government regulation; the outcome of litigation we may become involved in from time to time; and other risks and uncertainties set forth from time to time in our reports and other filings made with the SEC, including under Part I, Item 1A. Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2012.

Overview

Monster Worldwide is the global leader in successfully connecting job opportunities and people. Monster uses the world s most advanced technology to help people *Find Better*, matching job seekers to opportunities via digital, social and mobile solutions including monster.com our flagship website, and employers to the best talent using a vast array of products and services. As an Internet pioneer, more than 200 million people have registered on the Monster Worldwide network. Today, with a local presence in more than 40 countries, we provide the broadest, most sophisticated job seeking, career management, recruitment and talent management capabilities globally, with the widest range of job opportunities across the employment spectrum as well as the most diverse talent to fill those positions. We offer our unique 6Sense search technology to allow job seekers and employers to quickly find a precise match. Increasingly important, our Career Ad Network which is a recruitment-focused online advertising network, reaches, on average, 107 million internet users globally each month.

We have built on Monster s brand and created worldwide awareness by offering online recruiting solutions that we believe are redefining the way employers and job seekers connect. For employers, our goal is to provide the most effective solutions and easiest to use technology to simplify the hiring process and cost effectively deliver access to our community of job seekers. For job seekers, our purpose is to help improve their careers by providing work-related content, services and advice. Our services and solutions include: searchable job advertisements; resume database access; professional networking; recruitment media solutions through our advertising network and partnerships; and other career-related content. Job seekers can search our job advertisements and post their resumes for free on each of our career websites and mobile applications. Employers pay to: advertise available jobs and recruitment related services; search our resume database; and access other career-related services.

Demand for our services is sensitive to changes in the level of economic activity. The global economic environment and challenging job market continues to have a negative impact on Monster s business. We find that clients have been, and are continuing to be, very conservative in making new investments as a result of the global economic uncertainty. To more effectively face these headwinds, in 2012 we began executing on a multifaceted plan to concentrate our resources in our largest markets in North America, Europe and Asia where we generate the majority of our revenue and profit, and where we are experiencing increased customer traction with our advanced technologies. In conjunction with this plan, in 2012 we implemented cost reduction initiatives and evaluated options for developing markets where we had been incurring significant losses. We completed the sale of Careers-China to Saongroup, Ltd. (Saongroup) under which Monster has taken a 10% minority stake in the combined China business of Saongroup. We have also exited operations in Brazil, Mexico and Turkey.

20

We operate in an industry and markets that are continually evolving including the entrance of new competitors and the changing needs of seekers and employers. The Company adjusts its product offerings and makes new investments in its technology platform in order to meet the challenges presented by the market evolution. We believe that our strategy to grow our business both organically and through strategic acquisitions and alliances has allowed us to continue delivering innovative products and services on a global basis.

In 2008, we acquired Trovix Inc., a business that provides career-related products and services that utilize advanced search technology, focusing on key attributes such as skills, work history and education. Our patented 6Sense semantic search and matching technology, which is based upon Trovix technology, is the backbone of a growing family of products for both job seekers and employers. Our innovative and proprietary semantic resume search product, Power Resume Search ® (PRS) is available to customers in North America, Germany, the United Kingdom, France and the Netherlands. Our 6Sense technology transforms traditional keyword-based processes by assisting our customers in matching candidates to their required job specifications. For seekers, our 6Sense powered job search has changed how seekers explore, find and apply for jobs. We introduced our cloud based search product SeeMore ® in the third quarter of 2011, which allows our customers to utilize our patented semantic search technology on their own talent databases. In 2012, SeeMore was named one of the top products of the year by Human Resource Executive magazine.

Our Career Ad Network (CAN) is a recruitment-focused online advertising network. Globally CAN reaches, on average, 107 million internet users each month. Monster offers this product to customers in North America, major markets in Europe, and in Australia. CAN distributes our customers job advertisements across a broad array of targeted websites and is an effective way of expanding our customers pool of active and passive seekers. The value proposition to our customers is to find better quality candidates at a cost-effective price. We continue to improve our efficiency in acquiring audiences that our customers seek to reach. We expect to increase customer adoption in the core markets we currently serve.

On a global basis, nearly 20% of Monster s business is derived from our advanced and proprietary product offerings, including PRS, SeeMore and CAN, which continue to outperform our more traditional offerings.

To further expand our business in the North American online recruitment market, on August 24, 2010, the Company completed the acquisition of the Yahoo! HotJobs Assets from Yahoo!, Inc. (Yahoo!). Concurrent with the closing of the acquisition, Monster and Yahoo! entered into a commercial traffic agreement whereby Monster became Yahoo! s exclusive provider of career and job content on the Yahoo! homepage in the United States and Canada. This traffic agreement has increased our reach in North America.

We recognize that some job seekers prefer social media as their primary way of interacting with the professional world. In order to provide these customers with an enhanced social media method for job seeking, in June 2011, we launched BeKnown [®], a professional networking application available on the Facebook platform to extend our global reach and leverage the world s most popular global social network. Today, Monster users build their network through other users on Monster and connections on Facebook.

We operate a government solutions business, Monster Government Solutions (MGS), which sells online solutions to federal, state and local governments and educational institutions within the United States. In 2012, we expanded our MGS business to Europe and signed the largest international transaction in the Company s history with the United Kingdom Government for over \$20.0 million. MGS provides recruitment solutions that engage seekers and employers online, enable MGS customers to attract qualified candidates, expedite time to hire and create online communities using innovative technologies and services. These services primarily include customized career sites hosted by MGS utilizing a Software as a Service (SaaS) model. Additionally, we offer our customers applicant tracking services, diversity offerings and other ancillary services either directly or through alliances to meet the changing needs of our customers.

Our Internet Advertising & Fees business operates a network of websites that connect companies to highly targeted audiences at critical stages in their lives. Our goal is to offer compelling online services for the users of such websites through personalization, community features and enhanced content. We monetize this web traffic through display advertising and lead generation. We believe that these properties appeal to advertisers and other third parties as they deliver certain discrete demographics entirely online.

We continue to actively and aggressively support the Monster brand in our core markets through strategic investments in both online and offline advertising and promotion. Our advertising and promotion activities are designed to drive quality visitors to monster.com and our affiliated online properties. We have centralized our media purchases and changed the timing of our media buying to receive beneficial rates, resulting in greater efficiencies for our marketing expenditures. According to comScore Media Metrix, Monster held the leading traffic position in the United States in the Career Services and Development category throughout the majority of 2012 and this continued into the first half of 2013. More importantly, the conversion of that traffic into quality job applies has increased significantly.

21

The Company announced the exploration of strategic alternatives in March 2012. The review was designed to consider a number of internal options as well as the potential sale of the Company in order to enhance shareholder value. As part of that review, the Company has consummated the sale of Careers-China, exited unprofitable businesses in Brazil, Mexico and Turkey and substantially completed a restructuring to reduce operating expenses. The strategic alternatives review also included a comprehensive analysis of the Company s competitive position and concluded that the product portfolio powered by semantic search offers a compelling value proposition. As a result, the Company is developing a number of key initiatives that are expected to be introduced in the coming months. Active discussions regarding the potential sale of the Company were concluded during the second quarter. The Company s Board of Directors continues to evaluate all opportunities to maximize value for shareholders, including the present focus on the execution of Monster s strategy.

Restructuring Programs and Discontinued Operations

Throughout 2012, we undertook a series of restructuring actions in order to improve the Company s long-term growth prospects and profitability in its core markets.

January 2012 Restructuring

On January 24, 2012, the Company committed to a plan to take a series of strategic restructuring actions. The Company s decision to adopt the strategic restructuring actions resulted from the Company s desire to provide the Company with more flexibility to invest in marketing and sales activities in order to improve its long-term growth prospects and profitability. In connection with this program, the Company notified approximately 325 associates and approximately 60 associates voluntarily left the Company, reducing the Company s workforce by approximately 385 associates. The restructuring actions also included the consolidation of certain office facilities and the impairment of certain fixed assets.

The Company incurred \$26.2 million of expenses associated with this restructuring since the program s inception. We completed all of the initiatives associated with this restructuring in the first quarter of 2013, and the Company will not incur any new charges in the future relating to this program.

November 2012 Restructuring

On November 8, 2012, the Company announced actions designed to concentrate resources on core businesses within North America and key European and Asian markets with increased spending in marketing and sales. The actions subsequently included (i) the sale of the Careers-China business, (ii) the exiting of the business operations in Latin America and Turkey and (iii) a strategic restructuring inclusive of a reduction in force, office consolidations and impairment of certain assets. Please see *Discontinued Operations* below.

Through June 30, 2013, the Company has notified approximately 400 associates in North America and Europe (excluding discontinued operations) and has incurred \$34.7 million of charges, \$14.7 million of which was recorded in the fourth quarter of 2012. The Company does not expect to incur significant additional charges in future periods relating to this program.

Discontinued Operations

During the fourth quarter of 2012, the Company made the strategic decision to discontinue operations in Latin America and Turkey. All of the Latin America and Turkey business operations were discontinued on or before December 31, 2012. The Company incurred approximately \$8.0 million of costs associated with the shutdown of these businesses in the fourth quarter of 2012. For the three and six months ended June 30, 2013, the Company recorded additional costs of \$0.1 million and \$2.2 million, respectively, which was primarily relating to severance costs associated with terminated employees of our operations in Latin America and Turkey. Additionally, the Company recorded a tax benefit of \$0 and \$0.5 million related to discontinued operations in Latin America and Turkey for the three months and six months ended June 30, 2013, respectively. Accordingly, the Company recorded a net loss from discontinued operations, net of tax, of \$0.1 million and \$1.7 million for the three and six months ended June 30, 2013, respectively. The Company does not expect to incur significant additional charges in future periods relating to Latin America or Turkey.

During the third quarter of 2012, as part of the Company s review of strategic alternatives, the Company made the decision to sell its Careers-China business. The sale of the Careers-China business to Saongroup, Ltd. (Saongroup) was completed on February 5, 2013. The Company received a 10% minority interest in the combined China business of Saongroup (as Saongroup has a Chinese operation as well). The Company s 10% minority interest does not provide the Company with representation on the board of directors, the Company is not entitled to any dividend or other forms of cash returns and the Company is not required to make any capital contributions in the future. The Company will carry the 10% interest as a cost basis investment with an estimated fair value of zero which is based on available information.

Prior to the close of the sale of Careers-China, the Company incurred charges relating to severance benefits associated with terminated employees, retention benefits for employees who will remain with the combined operations and certain lease obligation costs. At February 5, 2013, there was \$23.1 million of accumulated unrealized currency translation gain related to the net assets of Careers-China. With the sale of Careers-China on February 5, 2013, the Company recorded the foreign currency translation adjustment as a reduction of the loss on disposition of discontinued operations. Additionally the Company recorded a tax benefit of \$4.0 million related to Careers-China in the first quarter of 2013. Accordingly, the Company recorded a loss from discontinued operations, net of tax, of \$0.6 million and \$5.2 million in the three and six months ended June 30, 2013, respectively. The Company does not expect to incur significant additional charges in future periods relating to Careers-China.

Operating results for Careers-China, Latin America and Turkey, which had previously been included in the Careers-International segment in the Company's Consolidated Statement of Operations, have now been reclassified as discontinued operations for all periods presented. Please see Note 9 *Discontinued Operations* in Notes to the Consolidated Financial Statements in Part I of this Form 10-Q.

Constant Currency Presentation

Revenue from our international operations has historically represented, and we expect will continue to represent, a significant portion of our business. As a result, our revenue growth has been impacted, and we expect will continue to be impacted, by fluctuations in foreign currency exchange rates. For this report we have elected not to use a constant currency presentation because for the current period comparisons, foreign currency fluctuations were not material to the comparability of our results of operations. In the past, in order to provide a framework for assessing how our consolidated and Careers-International operating results performed excluding the impact of foreign currency fluctuations, we additionally presented the year-over-year percentage change in revenue performance on a constant currency basis, which would assume no changes in the exchange rate from the prior-year period.

Consolidated Revenue, Operating Expenses and Operating Income

Consolidated revenue, operating expenses and operating income are as follows (excluding discontinued operations) (dollars in thousands):

	Three months ended June 30,					
	2013	% of	2012	% of	Increase (Degrade)	% Increase
Revenue	\$ 200,058	Revenue 100.0%	\$ 224,577	Revenue 100.0%	(Decrease) \$ (24,519)	(Decrease) (10.9%)

Office and general	52,262	26.1%	57,945	25.8%	(5,683)	(9.8%)
Marketing and promotion	43,394	21.7%	51,426	22.9%	(8,032)	(15.6%)
Restructuring and other special charges	6,828	3.4%	1,015	0.5%	5,813	572.7%
Total operating expenses	191,951	95.9%	210,198	93.6%	(18,247)	(8.7%)
Operating income	\$ 8,107	4.1%	\$ 14,379	6.4%	\$ (6,272)	(43.6%)

Our consolidated revenue decreased by \$24.5 million (10.9%) in the second quarter of 2013 compared to the same period of 2012. Our Careers-International segment decreased \$16.7 million, or 18.8%, primarily due to significant weakness in Europe. Our Careers-North America segment experienced a \$6.5 million or 5.6% decrease mainly due to decreased revenue from our field sales customers, partially offset by increased business activity from our government and ecommerce sectors. These decreases in our consolidated Careers segments were primarily due to continuing global economic uncertainty as our customers hiring requirements have been reduced and therefore they continue to be extremely conservative in controlling their recruiting budgets. However, we are seeing customer demand stabilizing in certain geographies, particularly the United States, Germany and the United Kingdom.

Further, the Company s recent restructuring will allow the Company to concentrate its resources on our largest and most profitable core markets and continue strengthening its traffic position. According to comScore Media Metrix, Monster held the leading traffic position in the United States in the Career Services and Development category throughout the majority of 2012 and this continued into the first half of 2013.

Salaries and related expenses decreased \$10.3 million (10.4%) in the second quarter of 2013 compared to the same period of 2012. This decrease in salaries and related expenses resulted primarily from decreased regular salary costs as a result of our restructuring programs and decreased variable compensation costs for the Company sales force.

Office and general expenses decreased \$5.7 million (9.8%) in the second quarter of 2013 compared to the same period of 2012. This decrease in office and general expenses resulted primarily from decreased travel expenses, legal fees and consulting fees associated with the review of strategic alternatives.

Marketing and promotion expenses decreased \$8.0 million (15.6%) in the second quarter of 2013 compared to the same period of 2012. Beginning in 2012, the Company evolved its marketing approach to drive improved site traffic which resulted in Monster emerging as the leader in U.S. traffic in the Career Services and Development category for the majority of 2012 and the first six months of 2013. The Company believes that these investments and marketing initiatives have resulted in a build-up of relevant traffic to Monster.com and our affiliate sites.

For the three months ended June 30, 2013, we incurred \$6.8 million of restructuring and other special charges, comprised mainly of severance costs, facility charges, and impairment of certain assets as a result of our restructuring program which was announced in November 2012.

Careers-China, Latin America and Turkey, which had previously been included in the Company s Consolidated Statement of Operations, have now been reclassified as discontinued operations for all periods presented. Please see Note 9 *Discontinued Operations* in Notes to the Consolidated Financial Statements in Item I of this Form 10-Q.

Our consolidated operating income, excluding discontinued operations, was \$8.1 million in the second quarter of 2013, compared to an operating income of \$14.4 million in the second quarter of 2012, as a result of the factors discussed above.

Careers-North America

The operating results of our Careers-North America segment are as follows (dollars in thousands):

	Three months ended June 30,					
		% of		% of	Increase	% Increase
	2013	Revenue	2012	Revenue	(Decrease)	(Decrease)
Revenue	\$ 109,717	100.0%	\$ 116,189	100.0%	\$ (6,472)	(5.6%)

Marketing and promotion	22,756	20.7%	29,910	25.7%	(7,154)	(23.9%)
Restructuring and other special charges	1,546	1.4%	159	0.1%	1,387	872.3%
Total operating expenses	90,445	82.4%	101,278	87.2%	(10,833)	(10.7%)
Operating income	\$ 19,272	17.6%	\$ 14,911	12.8%	\$ 4,361	29.2%

Our Careers North America segment revenue experienced a \$6.5 million (5.6%) decrease due to a reduction of revenue from our field sales customers, partially offset by increased business activity from our ecommerce and government sectors. The employment market in the United States continues to be challenging as the economic and political environment remains mixed and uncertain, however we are seeing stabilization and our growth in the ecommerce sector is encouraging as this channel is often an early indicator of future activity.

Salaries and related expenses decreased \$3.0 million, or 6.7%, in the second quarter of 2013 compared to the same period of 2012. This decrease in salaries and related expenses resulted primarily from \$2.2 million of decreased regular salary costs as a result of our restructuring programs and \$1.1 million of decreased variable compensation costs for the Company s sales force.

Office and general expenses decreased \$2.0 million, or 7.7%, in the second quarter of 2013 compared to the same period of 2012. This decrease in office and general expenses resulted primarily from decreased travel expenses of \$0.8 million and decreased occupancy costs of \$0.8 million resulting from our restructuring programs.

Marketing and promotion expenses decreased \$7.2 million, or 23.9%, in the second quarter of 2013 compared to the same period of 2012. This decrease in marketing and promotion expenses resulted primarily from a focused and efficient spending program and concentration on effective and productive investments in the second quarter of 2013. This efficient spending is supported by Monster emerging as the leader in U.S. traffic in the Career Services and Development category for the majority of 2012 and into the first six months of 2013.

The Company incurred \$1.5 million of restructuring and other special charges in the second quarter of 2013, comprised primarily of asset write downs.

Our Careers North America operating income was \$19.3 million in the second quarter of 2013, compared to operating income of \$14.9 million in the second quarter of 2012, as a result of the factors described above.

Careers International

The operating results of our Careers International segment are as follows (excluding discontinued operations) (dollars in thousands):

Operating (loss) income	\$ (6,054)	-8.4%	\$ 6,336	7.1%	\$ (12,390)	(195.5%)

Our Careers-International segment revenue decreased \$16.7 million, or 18.8%, in the second quarter of 2013 compared to the same period of 2012. The reduction in our Careers-International segment was primarily driven by decreases within Europe which decreased 22.3% compared to 2012, primarily in Germany, France, UK, Netherlands and Sweden. Our key Asian markets, Korea and India, also continue to be impacted by the global economic uncertainty with revenue declines of 8.4% compared to the second quarter of 2012.

Salaries and related expenses decreased \$4.5 million, or 11.0%, in the second quarter of 2013 compared to the same period of 2012. This decrease in salaries and related expenses resulted primarily from \$2.8 million in regular salary and other headcount related costs due to our restructuring program and \$0.8 million of decreased variable compensation costs for the Company s sales force.

Office and general expenses decreased \$1.6 million, or 7.2%, in the second quarter of 2013 compared to the same period of 2012. This decrease in office and general expenses resulted primarily from decreased travel expenses of \$1.3 million.

Marketing and promotion expenses decreased \$0.5 million, or 2.7%, in the second quarter of 2013 compared to the same period of 2012. The Company continues to focus on targeted investments in key markets in Europe and Asia to drive site traffic and improve brand awareness.

In the second quarter of 2013, we incurred \$2.8 million of restructuring and other special charges comprised mainly of severance and asset write downs.

Our Careers-International operating loss was \$6.1 million in the second quarter of 2013, compared to operating income of \$6.3 million in the second quarter of 2012, as a result of the factors discussed above.

Revenue in our Internet Advertising & Fees segment decreased \$1.3 million, or 6.7%, in the second quarter of 2013 compared to the same period of 2012. This decrease resulted primarily from the Company focusing on higher margin lead generation and display advertising business activities as demonstrated by our operating margins in the second quarter of 2013.

Salaries and related expenses decreased \$1.8 million, or 22.9%, in the second quarter of 2013 compared to the same period of 2012. This decrease in salaries and related expenses resulted primarily from \$1.4 million in regular salary costs due to our restructuring program.

Office and general expenses decreased \$0.8 million, or 19.2%, in the second quarter of 2013 compared to the same period in 2012. This decrease in office and general expenses resulted primarily from across the board expense reduction associated with our restructuring programs.

Our Internet Advertising & Fees operating income was \$6.3 million in the second quarter of 2013, compared to operating income of \$5.3 million in the second quarter of 2012, as a result of the factors discussed above.

Interest and Other, net

Interest and other, net, for the three months ended June 30, 2013 and 2012 resulted in an expense of \$1.4 million and \$1.2 million, respectively. Interest and other, net, primarily relates to interest expense on the Company s outstanding debt, interest income associated with the Company s various investments and foreign currency gains or losses.

Income Taxes

Income taxes are as follows (excluding discontinued operations) (dollars in thousands):

		Three months ended June 30,						
	2013	2012	Change in Dollars	Percentage Change				
Income before income taxes	\$ 6,750	\$ 13,190	\$ (6,440)	(48.8%)				
Income taxes	\$ 2,366	\$ 3,930	\$ (1,564)	(39.8%)				
Effective tax rate	35.1%	29.8%						

The provision for income taxes consists of provisions for federal, state and foreign income taxes. The Company operates globally with operations in various tax jurisdictions outside of the United States. Accordingly, the effective income tax rate is a composite rate reflecting the geographic mix of earnings in various tax jurisdictions and the applicable rates. Our future effective tax rates could be adversely affected by earnings being lower than anticipated in countries where we have lower statutory rates, greater losses than anticipated in countries with lower tax rates, increases in recorded valuation allowances on our deferred tax assets, or changes in tax laws or interpretations thereof.

Our effective tax rate differs from the Federal United States statutory tax rate of 35% due to accrual of state taxes, non-deductible expenses, foreign earnings taxed at different rates, accrual of interest on tax liabilities, accrual of United States residual tax on earnings that are not permanently reinvested and the effect of valuation allowances.

As a result of settlements and adjustments to estimated tax liabilities in the three months ended June 30, 2012, the Company recognized \$1.0 million of previously unrecognized tax benefits, which on a net of tax basis impacted the effective tax rate by \$0.7 million. The Company also reversed accrued interest related to unrecognized tax benefits of \$1.0 million which on a net of tax basis impacted the effective tax rate by \$0.6 million. The total benefit reflected in the second quarter of 2012 income tax provision due to reversals of tax and interest was \$1.2 million.

Included in the loss from discontinued operations in the three months ended June 30, 2013 and June 30, 2012 is an income tax benefit of \$0 and \$1.3 million, respectively.

The Company is currently under examination by several domestic and international tax authorities. Presently, no material adjustments have been proposed. Significant judgment is required in evaluating our uncertain tax positions and determining our provision for income taxes. The gross recorded liability for uncertain tax positions (inclusive of estimated interest and penalties thereon) at June 30, 2013 and December 31, 2012 is recorded on the Company s consolidated balance sheet as long-term income taxes payable of \$52.6 million and \$63.5 million, respectively. Interest and penalties related to underpayment of income taxes are classified as a component of income tax expense in the consolidated statements of operations and comprehensive loss. The Company estimates that it is reasonably possible that unrecorded tax benefits may be reduced by as much as zero to \$15.0 million in the next twelve months due to expirations of statutes of limitations or settlement of tax examinations. The tax matters concerned relate to the allocation of income among jurisdictions and the amount of prior year tax loss carryovers.

Loss in Equity Interests, Net

Loss in equity interests, net, for the three months ended June 30, 2013 and 2012 was \$0.2 million and \$0.3 million, respectively. The Company s equity investments consist of a 50% equity interest in a company located in Australia and a 25% equity interest in a company located in Finland.

Loss from discontinued operations, net of tax

For the three months ended June 30, 2013 and 2012, the Company reported a loss from discontinued operations, net of tax, of \$0.8 million and \$4.2 million respectively. Included in the results from discontinued operations are the results of our operations for Careers-China, Latin America and Turkey.

Operating results for Careers-China, Latin America and Turkey, which had previously been included in the Company s Consolidated Statement of Operations, have now been reclassified as discontinued operations for all periods presented.

Net Income

Our consolidated net income was \$3.4 million in the second quarter of 2013, compared to net income of \$4.8 million in the second quarter of 2012, as a result of the factors discussed above.

Diluted Income Per Share

Diluted income per share in the second quarter of 2013 was \$0.03 compared to diluted income per share of \$0.04 in the second quarter of 2012. Diluted weighted average shares outstanding for the three months ended June 30, 2013 and 2012 was 111.9 million shares and 114.0 million shares, respectively. During the three months ended June 30, 2013, the Company repurchased 4.4 million shares as part of its previously announced share repurchase program.

Our consolidated revenue decreased by \$46.3 million (10.1%) in the first six months of 2013 compared to the same period of 2012. Our Careers-International segment decreased \$33.6 million, or 18.3%, primarily due to significant weakness in Europe. Our Careers-North America segment experienced a \$10.3 million or 4.4% decrease mainly due to decreased revenue from our field sales customers, partially offset by increased business activity from our government and ecommerce sectors.

Salaries and related expenses decreased \$25.1 million (11.8%) in the first six months of 2013 compared to the same period of 2012. This decrease in salaries and related expenses resulted primarily from decreased regular salary costs as a result of our restructuring programs and decreased variable compensation costs for the Company s sales force.

Office and general expenses decreased \$7.1 million (6.4%) in the first six months of 2013 compared to the same period of 2012. This decrease in office and general expenses resulted primarily from decreased travel expenses, legal fees, and occupancy costs as a result of our restructuring programs.

28

Marketing and promotion expenses decreased \$8.1 million (8.0%) in the first six months of 2013 compared to the same period of 2012. Beginning in 2012, the Company evolved its marketing approach to drive improved site traffic which resulted in Monster emerging as the leader in U.S. traffic in the Career Services and Development category for the majority of 2012 and the first six months of 2013. The Company believes that these investments and marketing initiatives have resulted in a build-up of relevant traffic to Monster.com and our affiliate sites.

For the six months ended June 30, 2013, we incurred \$20.0 million of restructuring and other special charges, comprised mainly of severance costs, facility charges, and impairment of certain assets as a result of our restructuring program which was announced in November 2012.

In the first quarter of 2012, the Company recorded \$5.4 million from the United States Department of Justice (DOJ) for partial restitution of damages caused to the Company in connection with the Company s historical stock option granting practices of which the Company s former Chief Operating Officer had been convicted of securities fraud in May 2009. This amount had been previously remitted to the DOJ by the Company s former Chief Operating Officer as a civil forfeiture to the United States Federal Government.

Careers-China, Latin America and Turkey, which had previously been included in the Company s Consolidated Statement of Operations, have now been reclassified as discontinued operations for all periods presented. Please see Note 9 *Discontinued Operations* in Notes to the Consolidated Financial Statements in Item I of this Form 10-O.

Our consolidated operating income, excluding discontinued operations, was \$9.0 million in the first six months of 2013, compared to an operating income of \$15.1 million in the first six months of 2012, as a result of the factors discussed above.

Careers North America

The operating results of our Careers North America segment are as follows (dollars in thousands):

	Six months ended June 30,

Operating income	\$ 31,695	14.0%	\$ 18,110	7.7%	\$ 13,585	75.0%

Our Careers North America segment revenue experienced a \$10.3 million (4.4%) decrease due to a reduction of revenue from our field sales customers, partially offset by increased business activity from our ecommerce and government sectors. The employment market in the United States continues to be challenging as the economic and political environment remains mixed and uncertain.

Salaries and related expenses decreased \$8.9 million, or 9.3%, in the first six months of 2013 compared to the same period of 2012. This decrease in salaries and related expenses resulted primarily from \$6.6 million of decreased regular salary costs and other headcount related costs as a result of our restructuring programs and \$4.1 million of variable compensation costs for the Company s sales force.

Office and general expenses decreased \$3.3 million, or 6.3%, in the first six months of 2013 compared to the same period of 2012. This decrease in office and general expenses resulted primarily from decreased travel expenses of \$1.7 million and decreased occupancy costs of \$1.3 million resulting from our restructuring programs.

Marketing and promotion expenses decreased \$7.0 million (12.4%) in the first six months of 2013 compared to the same period of 2012. Beginning in 2012, the Company evolved its marketing approach to drive improved site traffic which resulted in Monster emerging as the leader in U.S. traffic in the Career Services and Development category for the majority of 2012 and the first six months of 2013. The Company

believes that these investments and marketing initiatives have resulted in a build-up of relevant traffic to Monster.com and our affiliate sites.

29

The Company incurred \$9.5 million of restructuring and other special charges in the first six months of 2013, comprised primarily of costs associated with severance, exiting office facilities and other asset write downs.

Our Careers North America operating income was \$31.7 million in the first six months of 2013, compared to operating income of \$18.1 million in the first six months of 2012, as a result of the factors described above.

Careers International

The operating results of our Careers International segment for the six months ended June 30, 2013 and 2012 are as follows:

	Six months ended June 30,

Our Careers-International segment revenue decreased \$33.6 million, or 18.3%, in the first six months of 2013 compared to the same period of 2012. The reduction in our Careers-International segment was primarily driven by decreases within Europe which decreased 21.2% compared to 2012, primarily in Germany, France, UK, Netherlands and Sweden. Our key Asian markets, Korea and India, also continue to be impacted by the global economic uncertainty with revenue declines of 9.4% compared to the first six months of 2012.

Salaries and related expenses decreased \$8.5 million, or 10.1%, in the first six months of 2013 compared to the same period of 2012. This decrease in salaries and related expenses resulted primarily from \$5.5 million in regular salary costs due to our restructuring program and \$1.7 million of decreased variable compensation costs for the Company s sales force.

Office and general expenses were relatively flat in the first six months of 2013 compared to the same period of 2012.

Marketing and promotion was relatively flat in the first six months of 2013 compared to the same period of 2012. The Company continues to focus on targeted investments in key markets in Europe and Asia to drive site traffic and improve brand awareness.

In the first six months of 2013, we incurred \$7.9 million of restructuring and other special charges comprised mainly of severance costs as a result of our restructuring program announced in November 2012.

Our Careers-International operating loss was \$15.0 million in the first six months of 2013, compared to operating income of \$9.2 million in the same period of 2012, as a result of the factors discussed above.

Internet Advertising & Fees

The operating results of our Internet Advertising & Fees segment for the six months ended June 30, 2013 and 2012 are as follows:

Revenue in our Internet Advertising & Fees segment decreased \$2.4 million, or 6.0%, in the first six months of 2013 compared to the same period of 2012. This decrease resulted primarily from the Company focusing on higher margin lead generation and display advertising business activities as demonstrated by our operating margins in the first six months of 2013.

Salaries and related expenses decreased \$3.6 million, or 21.4%, in the first six months of 2013 compared to the same period of 2012. This decrease in salaries and related expenses resulted primarily from \$2.8 million in regular salary costs and variable compensation costs due to our restructuring programs.

Office and general expenses decreased \$1.9 million, or 21.5%, in the first six months of 2013 compared to the same period in 2012. This decrease in office and general expenses resulted primarily from across the board expense reduction associated with our restructuring programs.

Our Internet Advertising & Fees operating income was \$12.6 million in the first six months of 2013, compared to operating income of \$8.6 million in the same period of 2012, as a result of the factors discussed above.

Interest and Other, net

Interest and other, net, for the six months ended June 30, 2013 and 2012 resulted in an expense of \$2.6 million and \$2.7 million, respectively. Interest and other, net, primarily relates to interest expense on the Company s outstanding debt, interest income associated with the Company s various investments and foreign currency gains or losses.

Income Taxes

Income taxes are as follows (excluding discontinued operations) (dollars in thousands):

		Six months ended June 30,						
	2013	2012	Change in Dollars	Percentage Change				
Income before income taxes	\$ 6,327	\$ 12,441	\$ (6,114)	(49.1%)				
Benefit from Income taxes	\$ (9,633)	\$ (10,374)	\$ 741	(7.1%)				
Effective tax rate	na	na						

The provision for income taxes consists of provisions for federal, state and foreign income taxes. The Company operates globally with operations in various tax jurisdictions outside of the United States. Accordingly, the effective income tax rate is a composite rate reflecting the geographic mix of earnings in various tax jurisdictions and the applicable rates. Our future effective tax rates could be adversely affected by earnings being lower than anticipated in countries where we have lower statutory rates, increases in recorded valuation allowances on our deferred tax assets, or changes in tax laws or interpretations thereof.

Our effective tax rate differs from the Federal United States statutory tax rate of 35% due to accrual of state taxes, non-deductible expenses, foreign earnings taxed at different rates, accrual of interest on tax liabilities, accrual of United States residual tax on earnings that are not permanently reinvested and the effect of valuation allowances. The tax benefit for the six months ended June 30, 2013 was increased by \$12.7 million of discrete items, consisting primarily of \$12.9 million due to reversals of uncertain tax positions and accrued interest in the first quarter of 2013. Other discrete items affecting the recorded tax provision include accruals of interest on uncertain tax positions and valuation allowances on tax losses in certain tax jurisdictions.

The tax benefit for the six months ended June 30, 2012 was increased by \$12.4 million of discrete items, consisting primarily of \$15.0 million of a tax benefit related to certain tax losses arising from the Company's restructuring. This benefit was partially offset by the effect of valuation allowances and accruals of interest on tax liabilities. In addition, as a result of settlements and adjustments to estimated tax liabilities in the six months ended June 30, 2012, the Company recognized \$1.0 million of previously unrecognized tax benefits, which on a net of tax basis impacted the effective tax rate by \$0.7 million. The Company also reversed accrued interest related to unrecognized tax benefits of \$1.0 million, which on a net of tax basis impacted the effective tax rate by \$0.6 million. The total benefit reflected in the first six months of 2012 income tax provision due to reversals of tax and interest was \$1.2 million.

Included in the loss from discontinued operations in the six months ended June 30, 2013 and June 30, 2012 is an income tax benefit of \$4.6 million and \$2.6 million, respectively.

The Company is currently under examination by several domestic and international tax authorities, including the United States Internal Revenue Service. Presently, no material adjustments have been proposed. Significant judgment is required in evaluating our uncertain tax positions and determining our provision for income taxes. The gross recorded liability for uncertain tax positions (inclusive of estimated interest and penalties thereon) as of June 30, 2013 and December 31, 2012 is recorded on the Company s consolidated balance sheet as long-term income taxes payable of \$52.6 million and \$63.5 million, respectively. Interest and penalties related to underpayment of income taxes are classified as a component of income tax expense in the consolidated statements of operations and comprehensive loss. The Company estimates that it is reasonably possible that unrecorded tax benefits may be reduced by as much as zero to \$15.0 million in the next twelve months due to expirations of statutes of limitations or settlement of tax examinations. The tax matters concerned relate to the allocation of income among jurisdictions, the characterization of certain intercompany loans, and the amount of prior year tax loss carryovers.

Loss in Equity Interests, Net

Loss in equity interests, net, for the six months ended June 30, 2013 and 2012 was \$0.7 million and \$0.5 million, respectively. The Company s equity investments consist of a 50% equity interest in a company located in Australia and a 25% equity interest in a company located in Finland.

Loss from discontinued operations, net of tax

For the six months ended June 30, 2013 and 2012, the Company reported a loss from discontinued operations, net of tax, of \$6.9 million and \$13.8 million respectively. Included in the results from discontinued operations are the results of our operations for Careers-China, Latin America and Turkey.

Operating results for Careers-China, Latin America and Turkey, which had previously been included in the Company s Consolidated Statement of Operations, have now been reclassified as discontinued operations for all periods presented.

Net Income

Our consolidated net income was \$8.4 million in the first six months of 2013, compared to net income of \$8.5 million in the first six months of 2012, as a result of the factors discussed above.

Diluted Income Per Share

Diluted income per share in the first six months of 2013 was \$0.07 compared to diluted income per share of \$0.07 in the first six months of 2012. Diluted weighted average shares outstanding for the six months ended June 30, 2013 and 2012 was 112.4 million shares and 115.8 million shares, respectively. During the six months ended June 30, 2013, the Company repurchased 4.4 million shares as part of its previously announced share repurchase program.

FINANCIAL CONDITION

The following tables detail our cash and cash equivalents:

	June 30,	June 30, December 31,		Change in		
	2013	2012	Dollars	Percentage		
Cash and cash equivalents	\$ 79,333	\$ 148,185	\$ (68,852)	46.5%		
		0.00				
Percentage of total assets	5.2%	8.8%				

As of June 30, 2013, we had cash and cash equivalents of \$79.3 million, compared to \$148.2 million as of December 31, 2012. Our decrease in cash and cash equivalents of \$68.9 million in the first six months of 2013 primarily resulted from \$18.2 million of cash used for investing activities, \$51.7 million of cash used for financing activities, partially offset by \$6.8 million of cash provided by operating activities.

Cash Flows

Consolidated cash flows for the six months ended June 30, 2013 and 2012 are as follows:

	Six months ended June 30,		Change in	
	2013	2012	Dollars	Percentage
Net cash provided by operating activities	\$ 6,766	\$ 28,116	\$ (21,350)	(75.9%)
Net cash used for investing activities	\$ (18,249)	\$ (33,302)	\$ 15,053	(45.2%)
Net cash used for financing actitivies	\$ (51,745)	\$ (84,339)	\$ 32,594	(38.6%)
Effects of exchange rates on cash	\$ (5,624)	\$ (3,332)	\$ (2,292)	68.8%

Cash provided by operating activities was \$6.8 million for the six months ended June 30, 2013, a decrease of \$21.4 million from the \$28.1 million of cash provided by operating activities for the six months ended June 30, 2012. This decrease resulted primarily from operating costs associated with our restructuring programs and discontinued operations.

Cash used for investing activities was \$18.2 million for the six months ended June 30, 2013, a decrease of \$15.1 million from cash used for investing activities of \$33.3 million for the six months ended June 30, 2012. This decrease resulted primarily from \$14.9 million of decreased capital expenditures.

Cash used for financing activities was \$51.7 million for the six months ended June 30, 2013, a decrease of \$32.6 million from cash used for financing activities of \$84.3 million for the six months ended June 30, 2012. This decrease resulted primarily from the

32

repurchase of \$35.5 million less of the Company s common stock compared to the six months ended June 30, 2012, offset by \$6.0 million more in net repayments on borrowings on our term loan and credit facilities.

Liquidity and Capital Resources

Our principal capital requirements have been to fund (i) working capital; (ii) marketing and development of our Monster network; (iii) acquisitions, (iv) capital expenditures; and (v) share repurchases.

Historically, we have relied on funds provided by operating activities, equity offerings, short and long-term borrowings and seller-financed notes to meet our liquidity needs. We invest our excess cash predominantly in bank time deposits and commercial paper that matures within three months of its origination date. Due to the turmoil in the financial markets, we have redeployed our excess cash during 2010, 2011 and the first six months of 2012 in conservative investment vehicles such as money market funds that invest solely in U.S. treasuries, top foreign sovereign regional, national and supra-national bank debt obligations and bank deposits at prime money center banks. We actively monitor the third-party depository institutions that hold our cash and cash equivalents. Our emphasis is primarily on safety of principal while secondarily on maximizing yield on those funds. We can provide no assurances that access to our invested cash and cash equivalents will not be impacted by adverse conditions in the financial markets.

At any point in time we have funds in our operating accounts and customer accounts that are with third party financial institutions. These balances in the United States may exceed the Federal Deposit Insurance Corporation insurance limits. While we monitor the cash balances in our operating accounts and adjust the cash balances as appropriate, these cash balances could be impacted if the underlying financial institutions fail or could be subject to other adverse conditions in the financial markets.

We believe that our current cash and cash equivalents, revolving credit facilities and cash we anticipate generating from operating activities will provide us with sufficient liquidity to satisfy our working capital needs, capital expenditures and meet our investment requirements and commitments through at least the next twelve months. Our cash generated from operating activities is subject to fluctuations in the global economy and overall hiring demand.

Credit Facilities

In December 2007, the Company entered into a senior unsecured revolving credit facility that provided for maximum borrowings of \$250.0 million, including up to a \$50.0 million sublimit for letters of credit. On August 31, 2009, with the objective of availing itself of the benefits of an improved credit market in an ongoing unstable macroeconomic environment, the Company amended certain terms and increased its borrowing capability under its existing credit agreement (the First Amended Credit Agreement). The First Amended Credit Agreement maintained the Company s existing \$250.0 million revolving credit facility and provided for a new \$50.0 million term loan facility, for a total of \$300.0 million in credit available to the Company. On March 22, 2012, the First Amended Credit Agreement was further amended and restated in its entirety (the Second Amended Credit Agreement). The Second Amended Credit Agreement provides the Company with a \$225.0 million revolving credit facility and a \$100.0 million term loan facility, providing for a total of \$325.0 million in credit available to the Company. The borrowings under the Second Amended Credit Agreement were used to satisfy the obligations under the First Amended Credit Agreement of \$172.5 million for the revolving credit facility and \$40.0 million for the term loan. The revolving credit facility and the term loan facility each mature on March 22, 2015. The Second Amended Credit Agreement does not qualify as a debt extinguishment in accordance with ASC 470 Debt, and all financing fees incurred will be deferred and amortized through March 2015. The Company is required to make quarterly amortization payments on the outstanding principal amount of the term loans, with \$1.9 million payable on each of September 30, 2014, and December 31, 2014, and the remaining balance of the term loan due at maturity.

Borrowings under the Second Amended Credit Agreement will bear interest at a rate equal to either (i) the British Bankers Association LIBOR (BBA LIBOR) Rate plus a margin ranging from 250 basis points to 325 basis points depending on the Company's consolidated leverage ratio or (ii) the sum of (A) the highest of (1) the Agent's prime rate, (2) the sum of 0.50% plus the overnight federal funds rate on such day or (3) the BBA LIBOR plus 1.0%, and (B) a margin ranging from 150 basis points to 225 basis points depending on the Company's consolidated leverage ratio. In addition, the Company will be required to pay the following fees: (i) a fee on all outstanding amounts of letters of credit at a rate per annum ranging from 250 basis points to 325 basis points (depending on the consolidated leverage ratio); and (ii) a commitment fee on the unused portion of the revolving credit facility at a rate per annum ranging from 35 basis points to 50 basis (depending on the consolidated leverage ratio). The Company may repay outstanding borrowings at any time during the term of the credit facility without any prepayment penalty.

The Second Amended Credit Agreement contains financial covenants requiring the Company to maintain: (i) a consolidated leverage ratio of no more than 3.00 to 1.00; and (ii) an interest charge coverage ratio of at least 3.00 to 1.00. The Credit Agreement also contains various other negative covenants, including restrictions on incurring indebtedness, creating liens, mergers, dispositions of property, dividends and stock repurchases, acquisitions and other investments and entering into new lines of business. The Credit Agreement also contains various affirmative covenants, including covenants relating to the delivery of financial statements and other financial information, maintenance of property, maintenance of insurance, maintenance of books and records and compliance with environmental laws. As of June 30, 2013, the Company was in full compliance with its covenants.

33

At June 30, 2013, the utilized portion of this credit facility was \$93.1 million in borrowings on the term loan facility, \$45.7 million of borrowings on the revolving credit facility, and \$1.0 million in outstanding letters of credit. The portion of the term loan that is due within one year is \$8.1 million and is classified as short-term in the consolidated balance sheet. The remaining amount outstanding on the term loan and the utilized portion of the revolving credit facility is classified as long-term in the consolidated balance sheet. As of June 30, 2013, based on the calculation of the maximum consolidated leverage ratio, \$178.3 million of the Company s revolving credit facility was available. At June 30, 2013, the one month BBA LIBOR rate, the agent s prime rate, and the overnight federal funds rate were 0.19%, 3.25% and 0.07%, respectively. As of June 30, 2013, the Company used the one month BBA LIBOR rate for the interest rate on these borrowings with an interest rate of 2.94%.

In 2011 and 2012, the Company s former subsidiaries in China entered into two short term unsecured revolving credit facilities whereby the Company provided a repayment guarantee in support of the first credit facility and the Company provided for a standby letter of credit in support of the second credit facility. These credit facilities provided for maximum borrowings of the Renminbi equivalent of \$7.6 million and \$5.0 million respectively. On February 5, 2013, the Company sold our interest in our subsidiaries in China including the entity that is the primary obligor of the credit facilities. As part of the sale transaction, the Company agreed to liquidate these outstanding loans to the lender and as of June 13, 2013 these loans have been fully liquidated.

Income Taxes

The Company has earned a significant portion of its income outside the United States, which the Company has asserted to be permanently reinvested in foreign operations. The Company evaluates its permanent reinvestment assertions each reporting period. In the fourth quarter of 2011, the Company changed its permanent reinvestment assertion with respect to its subsidiary in South Korea. United States residual taxes have been provided on unremitted earnings through June 30, 2013. In April 2013 a distribution of approximately \$12.0 million was made from South Korea to the U.S.

The amount of cash in subsidiaries offshore for which the Company maintains the permanent reinvestment assertion at June 30, 2013 was approximately \$67.0 million. While we have not determined the total United States and foreign tax liabilities on such repatriation, generally, if this cash were repatriated, a United States tax liability would be incurred for the excess of United States tax over local taxes paid, if any, on the portion characterized as a taxable dividend for United States tax purposes. The Company reviewed its liquidity needs in the United States and does not presently intend to repatriate these funds. In addition to cash expected from domestic operations, the Company can borrow from its credit facility in the United States should additional liquidity needs arise. We have borrowed funds domestically and continue to have the ability to borrow funds domestically at reasonable interest rates.

Thus far in 2013, the Company has paid \$3.2 million of taxes on domestic and international income. We expect to utilize our tax loss carryovers to offset most domestic cash tax liability in 2013. We expect to have taxable income in certain domestic states and foreign tax jurisdictions in which we pay taxes on a quarterly basis.

Restructuring Activities

Throughout 2012, we undertook a series of restructuring actions in order to improve the Company s long-term growth prospects and profitability in its core markets. The Company does not expect to incur significant additional charges in future periods relating to restructuring programs.

Operating Lease Obligations

We have recorded significant charges and accruals relating to terminating certain operating lease obligations before the end of their terms once the Company no longer derives economic benefit from the lease. The liability is recognized and measured at its fair value when we determine that the cease use date has occurred and the fair value of the liability is determined based on the remaining lease rentals due, reduced by estimated sublease rental income that could be reasonably obtained for the property. The estimate of subsequent sublease rental income may change and require future changes to the fair value of the liabilities for the lease obligations.

Share Repurchase Plan

On October 25, 2011, the Board of Directors of the Company authorized a share repurchase program of up to \$250.0 million which expired on April 25, 2013. The Company repurchased 14.0 million shares for a total repurchase price of \$107.3 million at an average price of \$7.67 per share in connection with this program.

34

On April 30, 2013, the Board of Directors of the Company authorized a share repurchase program of up to \$200.0 million. Under the share repurchase program, shares of common stock will be purchased on the open market or through privately negotiated transactions from time-to-time through April 30, 2015. The timing and amount of purchases will be based on market conditions, corporate and legal requirements, and other factors. The share repurchase program does not obligate the Company to acquire any specific number of shares in any period, and may be modified, suspended, extended, or discontinued at any time without prior notice. Through June 30, 2013, the Company has repurchased 4.4 million shares for a total of \$23.3 million, excluding commissions, at an average price of \$5.35 per share.

Fair Value Measurement

The Company values its assets and liabilities using the methods of fair value as described in Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures. ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The three levels of fair value hierarchy are described below:

- Level 1 Quoted prices in active markets for identical assets or liabilities.
- Level 2 Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 Inputs that are generally unobservable and typically reflect management s estimates of assumptions that market participants would use in pricing the asset or liability.

In determining fair value, the Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, and considers counter-party credit risk in its assessment of fair value. Observable or market inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company s assumptions based on the best information available. There have been no transfers of assets or liabilities between the fair value measurement classifications for the three months ended June 30, 2013. The Company has certain assets and liabilities that are required to be recorded at fair value on a recurring basis in accordance with accounting principles generally accepted in the United States (U.S. GAAP).

The following table summarizes those assets and liabilities measured at fair value on a recurring basis as of June 30, 2013 (in thousands):

	Level 1	Level 2	Level 3	Total
Assets:				
Bank time deposits	\$	\$ 34,130	\$	\$ 34,130
U.S. and foreign government obligations		950		950
Bankers acceptances		8,172		8,172
Foreign exchange contracts		14		14
Total Assets	\$	\$ 43,266	\$	\$ 43,266
Liabilities:				
Foreign exchange contracts	\$	\$ 151	\$	\$ 151
Lease exit liabilities			15,817	15,817
Total Liabilities	\$	\$ 151	\$ 15,817	\$ 15,968

35

The following table summarizes those assets and liabilities measured at fair value on a recurring basis as of December 31, 2012 (in thousands):

	Level 1	Level 2	Level 3	Total
Assets:				
Bank time deposits	\$	\$ 79,078	\$	\$ 79,078
U.S. and foreign government obligations		22,143		22,143
Bankers acceptances		7,337		7,337
Foreign exchange contracts		36		36
Total Assets	\$	\$ 108,594	\$	\$ 108,594
Liabilities:				
Foreign exchange contracts		70		70
Lease exit liabilities			14,233	14,233
Total Liabilities	\$	\$ 70	\$ 14,233	\$ 14,303

The lease exit liabilities relate to vacated facilities associated with previously discontinued operations and restructuring activities of the Company and are recorded in accrued expenses and other current liabilities in the consolidated balance sheet. The fair value of the Company s lease exit liabilities within the Level 3 classification is based on a discounted cash flow model applied over the remaining term of the leased property, inclusive of certain sublet assumptions.

The changes in the fair value of the Level 3 liabilities are as follows (in thousands):

	Lease Ex	it Liability
	Six months end	led June 30, 2013
Balance, Beginning of Period	\$	14,233
Expense		5,955
Cash Payments and changes in fair value		(4,371)
Balance, End of Period	\$	15,817

The carrying value for cash and cash equivalents, accounts receivable, accounts payable, certain accrued expenses and other current liabilities approximate fair value because of the immediate or short-term maturity of these financial instruments. The Company s debt relates to borrowings under its revolving credit facilities and term loan (Please see Note 12 *Financing Agreements* to the Company s financial statements included in Item 1 of this Quarterly Report on Form 10-Q), which approximates fair value due to the debt bearing fluctuating market interest rates.

CRITICAL ACCOUNTING ESTIMATES

Our consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP). In connection with the preparation of our financial statements, we are required to make assumptions and estimates about future events, and apply judgments that affect the reported amounts of assets, liabilities, revenue, expenses and the related disclosures. We base our assumptions, estimates and judgments on historical experience, current trends and other factors that management believes to be relevant at the time our consolidated financial statements are prepared. On a regular basis, management reviews the accounting policies, assumptions, estimates and judgments to ensure that our financial statements are presented fairly and in accordance with U.S. GAAP. However, because future events and their effects cannot be determined with certainty, actual results could differ from our assumptions and estimates, and such differences could be material.

Our significant accounting policies are discussed in Note 1, *Basis of Presentation and Significant Accounting Policies*, of the Notes to Consolidated Financial Statements, included in *Item 8, Financial Statements and Supplementary Data* of our Annual Report on Form 10-K for the year ended December 31, 2012. Management believes that the following accounting policies are the most critical to aid in fully

understanding and evaluating our reported financial results, and they require management s most difficult, subjective or complex judgments, resulting from the need to make estimates about the effect of matters that are inherently uncertain. Management has reviewed these critical accounting estimates and related disclosures with the Audit Committee of our Board of Directors.

Revenue Recognition and Accounts Receivable

The Company recognizes revenue on agreements in accordance with ASC 605, Revenue Recognition.

36

Careers-North America and Careers-International. Our Careers-North America and Careers-International segments primarily earn revenue from the placement of job postings on the websites within the Monster network, access to the Monster network s online resume database, recruitment media services, applicant tracking services, online career related solutions provided through a Software as a Service (SaaS) offering and other career-related services.

Where appropriate, we recognize revenue in accordance with Accounting Standards Update (ASU) No. 2009-13, *Multiple-Deliverable Revenue Arrangements*, which was effective January 1, 2011. The Company s revenue associated with multiple element contracts is based on the selling price hierarchy, which utilizes vendor-specific objective evidence or (VSOE) when available, third-party evidence (TPE) if VSOE is not available, and if neither is available then the best estimate of selling price is used. The Company utilizes VSOE in the majority of its multiple deliverable transactions. Under this new accounting guidance, to treat elements in a multi-element arrangement as separate units of accounting, each element must have standalone value upon delivery. If the element has standalone value, the Company accounts for each element separately. In determining whether elements have standalone value, the Company considers the availability of the elements from other vendors, the nature of the elements, the timing of execution of contracts for customers and the contractual dependence of the element related to a customer s acceptance.

We recognize revenue at the time that job postings and related accessories are displayed on the Monster network websites, based upon customer usage patterns. Revenue earned from subscriptions to the Monster network s resume database, applicant tracking services and other career-related services are recognized over the length of the underlying subscriptions, typically from two weeks to twelve months. The Company accounts for SaaS contracts as the services are being performed.

Unearned revenues are reported on the balance sheet as deferred revenue. We review accounts receivable for those that may potentially be uncollectible and any accounts receivable balances that are determined to be uncollectible are included in our allowance for doubtful accounts. After all attempts to collect a receivable have failed, the receivable is written off against the allowance.

Internet Advertising & Fees. Our Internet Advertising & Fees segment primarily earns revenue from the display of advertisements on the Monster network of websites, click-throughs on text based links, leads provided to advertisers and subscriptions to premium services. We recognize revenue for online advertising as impressions are delivered. An impression is delivered when an advertisement appears in pages viewed by our users. We recognize revenue from the display of click-throughs on text based links as click-throughs occur. A click-through occurs when a user clicks on an advertiser s listing. Revenue from lead generation is recognized as leads are delivered to advertisers

Fair Value Measurements

The carrying amounts reported in the consolidated balance sheets for cash and cash equivalents, accounts receivable, accounts payable, certain accrued expenses and other current liabilities approximate fair value because of the immediate or short-term maturity of these financial instruments. Our debt consists of borrowings under our credit facilities, which approximates fair value due to the debt bearing fluctuating market interest rates.

Asset Impairment

Business Combinations, Goodwill and Intangible Assets. We account for business combinations in accordance with ASC 805, Business Combinations. The acquisition method of accounting requires that assets acquired and liabilities assumed be recorded at their fair values on the date of a business acquisition. Our consolidated financial statements and results of operations reflect an acquired business on the completion date of an acquisition.

The Company tests the recorded amount of goodwill for recovery on an annual basis in the fourth quarter of each fiscal year. Goodwill is tested more frequently if indicators of impairment exist. The goodwill impairment test is performed at the reporting unit level. The Company has three reporting units which are the equivalent to our three operating segments: Careers-North America, Careers-International, and Internet Advertising & Fees. In determining if goodwill is impaired, we estimate the fair value of the reporting unit and compare it to the carrying value of the assets and liabilities of that reporting unit. The Company determines the fair value of its reporting units using a weighting of fair values derived from the income approach and the market approach. Under the income approach, the Company calculates the fair value of a reporting unit based on the present value of estimated future cash flows. Cash flow projections are based on management—s estimates of revenue growth rates and operating margins, taking into consideration industry and market conditions. The discount rate used is based on the weighted-average cost of capital adjusted for the relevant risk associated with business-specific characteristics and the uncertainty related to the business—s ability to execute on the projected cash flows. Under the market approach, the Company estimates the fair value based on market multiples of cash flow and earnings derived from comparable publicly-traded companies with similar operating and investment characteristics as the reporting unit and considering a reasonable control premium. The weighting of the fair value derived from the market approach differs for each reporting unit

depending on the level of comparability of these publicly-traded companies to the reporting unit. Due to the inherent uncertainty involved in making these estimates, actual results could differ from those estimates.

For the annual goodwill impairment test performed in the fourth quarter of 2012, each of the Careers-International and the Internet Advertising and Fees reporting units had fair value that substantially exceeded its carrying value.

For the Careers-North America reporting unit, the Company calculated, using a discount rate of 15% and a terminal growth rate of 4%, that the estimated fair value would have to be at least 25% less than the computed amount to result in any goodwill impairment charges. The recorded amount of goodwill for the Careers-North America reporting unit was \$594.1 million as of December 31, 2012. The Company believes the inputs and assumptions used in determining the fair value of the Careers-North America reporting unit are reasonable. The Company updated the fair value analysis for the Careers-North America reporting unit as of June 30, 2013 and the estimated fair value would have to be at least 10% less than the computed amount to result in any goodwill impairment charge.

As a corroborative source of information, the Company reconciles the estimated fair values of its reporting units to within a reasonable range of its market capitalization, which includes an assumed control premium (an adjustment reflecting an estimated fair value on a control basis) to verify the reasonableness of the fair value of its reporting units obtained through the aforementioned methods. The control premium is estimated based upon control premiums observed in comparable market transactions. As none of our reporting units are publicly-traded, individual reporting unit fair value determinations do not directly correlate to the Company s stock price. Although the Company believes it is reasonable to conclude that market capitalization could be an indicator of fair value over time, we believe that our current market capitalization undervalues the aggregate fair values of our individual reporting units.

The Company recognizes that during certain periods our market capitalization has been below our book value. Accordingly, we monitor changes in our share price between annual impairment tests to ensure that our reconciled market capitalization continues to exceed or is not significantly below the carrying value of our net assets. In the event that our reconciled market capitalization does decline below its book value, we consider the length and severity of the decline and the reason for the decline when assessing whether potential goodwill impairment exists. Further, if a reporting unit does not appear to be achieving the projected growth plan used in determining its fair value, we will reevaluate the reporting unit for potential goodwill impairment based on revised projections, as available.

Long-lived assets. We review long-lived assets for impairment whenever events or changes in circumstances indicate that the related carrying amounts may not be recoverable. Determining whether an impairment has occurred typically requires various estimates and assumptions, including determining which cash flows are directly related to the potentially impaired asset, the useful life over which cash flows will occur, their amount and the asset s residual value, if any. In turn, measurement of an impairment loss requires a determination of fair value, which is based on the best information available. We use internal discounted cash flows estimates, quoted market prices when available and independent appraisals, as appropriate, to determine fair value. We derive the required cash flow estimates from our historical experience and our internal business plans and apply an appropriate discount rate.

Income Taxes

We utilize the liability method of accounting for income taxes as set forth in ASC 740, *Income Taxes*. Under the liability method, deferred taxes are determined based on the temporary differences between the financial statement and tax basis of assets and liabilities using tax rates expected to be in effect during the years in which the basis differences reverse. A valuation allowance is recorded when it is more likely than not that some of the deferred tax assets will not be realized. In evaluating our ability to recover our deferred tax assets within the jurisdictions from which they arise, we consider all available positive and negative evidence, including scheduled reversals of taxable temporary items, projected future taxable income, tax planning strategies and recent financial operations.

Assumptions used in making this evaluation require significant judgment and are consistent with the plans and estimates we are using to manage the underlying business. When we determine that we are not able to realize our recorded deferred tax assets, an increase in the valuation allowance is recorded, decreasing earnings in the period in which such determination is made.

Our interim provisions for income taxes are measured using an estimated annual effective tax rate, adjusted for discrete items that occur within the periods presented.

We assess our income tax positions and record tax benefits for all years subject to examination based upon our evaluation of the facts, circumstances and information available at the reporting date. For those tax positions where there is a greater than 50% likelihood that a tax benefit will be sustained, we have recorded the largest amount of tax benefit that may potentially be realized upon ultimate settlement with a taxing authority that has full knowledge of all relevant information. For those income tax positions where there is a 50% or less likelihood that a tax benefit will be sustained, no tax benefit has been recognized in the financial statements.

38

Stock-Based Compensation

We account for stock-based compensation in accordance with ASC 718, *Stock Compensation*. Under the fair value recognition provisions of ASC 718, stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense ratably over the requisite service period, net of estimated forfeitures. We use the Black-Scholes option-pricing model to determine the fair value of stock option awards and measure non-vested stock awards using the fair market value of our common stock on the date the award is approved. For certain 2008 awards, which were market-based grants, we estimated the fair value of the award utilizing a Monte Carlo simulation model. We award stock options, non-vested stock, market-based non-vested stock and performance-based non-vested stock to employees, directors and executive officers.

Restructuring and Other Operating Lease Obligations

We recognize a liability for costs to terminate an operating lease obligation before the end of its term when we no longer derive economic benefit from the lease. The liability is recognized and measured at its fair value when we determine that the cease use date has occurred and the fair value of the liability is determined based on the remaining lease rentals due, reduced by estimated sublease rental income that could be reasonably obtained for the property. The estimate of subsequent sublease rental income may change and require future changes to the fair value of the liabilities for the lease obligations.

Equity Investments

Gains and losses in equity interest for the six months ended June 30, 2013, resulting from our equity method investments in businesses in Finland and Australia, are based on unaudited financial information of those businesses. Although we do not anticipate material differences, audited results may differ.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

New accounting pronouncements are issued by the Financial Accounting Standards Board (FASB) or other standards setting bodies that we adopt according to the various timetables the FASB specifies. The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company s results of operations, financial position or cash flow.

39

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The information in this section should be read in connection with the information on financial market risk related to non-U.S. currency exchange rates, changes in interest rates and other financial market risks in Part II, Item 7A, *Quantitative and Qualitative Disclosures About Market Risk*, in our Annual Report on Form 10-K for the year ended December 31, 2012.

Foreign Exchange Risk

During the three months ended June 30, 2013, revenue from our international operations accounted for 38% of our consolidated revenue. Revenue and related expenses generated from our international websites are generally denominated in the functional currencies of the local countries. Our primary foreign currencies are Euros, British Pounds, Korean Won, and Swedish Krona. The functional currency of our subsidiaries that either operate or support these websites is the same as the corresponding local currency. The results of operations of, and certain of our intercompany balances associated with, our internationally-focused websites are exposed to foreign exchange rate fluctuations. Upon consolidation, as exchange rates vary, revenue and other operating results may differ materially from expectations, and we may record significant gains or losses on the remeasurement of intercompany balances. The effect of changes in foreign exchange rates on our operations for the three months ended June 30, 2013 was not material compared to the three months ended June 30, 2012.

We have foreign exchange risk related to foreign-denominated cash and cash equivalents (foreign funds). Based on the balance of foreign funds at June 30, 2013 of \$76.3 million, an assumed 5%, 10% and 20% negative currency movement would result in fair value declines of \$3.8 million, \$7.6 million and \$15.3 million, respectively.

We use forward foreign exchange contracts as cash flow hedges to offset risks related to certain foreign currency transactions. These transactions primarily relate to non-functional currency denominated inter-company funding loans, non-functional currency denominated accounts receivable and non-functional currency denominated accounts payable. We do not enter into derivative financial instruments for trading purposes.

The financial statements of our non-U.S. subsidiaries are translated into U.S. dollars using current rates of exchange, with gains or losses included in the cumulative translation adjustment account, a component of stockholders equity. During the three months ended June 30, 2013, our cumulative translation adjustment account decreased by \$9.1 million, attributable to favorable net foreign currency movements, primarily of changes in the U.S. dollar against the Swedish Krona and Indian Rupee.

Interest Rate Risk

Credit Facilities

As of June 30, 2013, our debt was comprised primarily of borrowings under our senior secured revolving credit facility and our term loan facility. The credit facilities—interest rates may be reset due to fluctuation in a market-based index, such as the federal funds rate or the British Bankers Association LIBOR (BBA LIBOR). Assuming the amount of borrowings provided for under our credit facilities were fully drawn during the second quarter of 2013, we would have had \$318.1 million outstanding under such facilities, and a hypothetical 1.00% (100 basis-point) change in the interest rate of our credit facilities would have changed our quarterly pre-tax earnings by approximately \$0.8 million for the three months ended June 30, 2013. Assuming the amount of borrowings under our credit facilities was equal to the amount of outstanding borrowings on June 30, 2013, we would have had \$139.8 million of total usage and a hypothetical 1.00% (100 basis-point) change in the interest rate of our credit facility would have changed our pre-tax earnings by approximately \$0.3 million for the three months ended June 30, 2013. We do not manage the interest rate risk on our debt through the use of derivative instruments.

Investment Portfolio

Our investment portfolio is comprised primarily of cash and cash equivalents and short-term investments in a variety of debt instruments of high quality issuers, bank time deposits, bankers—acceptances and government bonds that mature within six months of their origination date. A hypothetical 1.00% (100 basis-point) change in interest rates applicable to our investment portfolio would have changed our quarterly pretax earnings by approximately \$0.2 million for the three months ended June 30, 2013.

ITEM 4. CONTROLS AND PROCEDURES

Monster maintains disclosure controls and procedures, as such term is defined in Rule 13a-15(e) of Securities Exchange Act of 1934 (the Exchange Act), that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, Monster s management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and Monster s management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Monster has carried out an evaluation, as of the end of the period covered by this report, under the supervision and with the participation of Monster s management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of Monster s disclosure controls and procedures. Based upon their evaluation and subject to the foregoing, the Chief Executive Officer and Chief Financial Officer concluded that Monster s disclosure controls and procedures were effective.

There have been no significant changes in Monster s internal controls over financial reporting that occurred during the fiscal quarter ended June 30, 2013 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II-OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is involved in various legal proceedings that are incidental to the conduct of its business. Aside from the matters discussed below, the Company is not involved in any pending or threatened legal proceedings that it believes could reasonably be expected to have a material adverse effect on its financial condition or results of operations.

In June 2013, Lumen View Technology, LLC filed suit against the Company for allegedly infringing a patent relating to a system and method for facilitating multilateral decision making. The lawsuit, entitled Lumen View Technology LLC v. Monster Worldwide, Inc. (Civil Action No. 13-cv-1043), was brought in the United States District Court for the District of Delaware. The Plaintiff seeks injunctive relief, monetary damages, pre and post judgment interest, and other costs. The Company intends to vigorously defend this matter and is currently unable to estimate any potential losses.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2012, which could materially affect our business, financial position and results of operations. There are no material changes from the risk factors set forth in Part I, Item 1A. Risk Factors in the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2012.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS Issuer Purchases of Equity Securities

A summary of the Company s repurchase activity for the three months ended June 30, 2013 is as follows:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs*
