ITEM 11. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis discusses the compensation paid to our named executive officers. Based on 2013 total compensation, our named executive officers are:

Ron Zwanziger, President and Chief Executive Officer, or our CEO;

Dave Teitel, Chief Financial Officer, Vice President and Treasurer, or our CFO;

Namal Nawana, Chief Operating Officer, or our COO;

David Scott, Ph.D., Chief Scientific Officer; and

Jerry McAleer, Ph.D., Senior Vice President, Research and Development.

For purposes of this Compensation Discussion and Analysis, we refer to Mr. Zwanziger, Dr. Scott and Dr. McAleer as our founding executives.

Philosophy and Objectives

The objective of our executive compensation program for 2013 was to attract, retain and motivate the talented and dedicated executives who were critical to our goals of continued growth, innovation, increasing profitability and, ultimately, maximizing stockholder value. Specifically, we sought to attract and reward executives who displayed certain fundamental

Table of Contents

leadership characteristics that we had identified as consistent with our corporate goals and culture. For our founding executives, we focused on stock-based awards designed to reward performance against long-term strategic objectives, combined with competitive base cash compensation and a broad-based benefits program. We provided our other named executive officers, as well as a broad group of executives whom we believe to be critical to achievement of our strategic goals, with what we believed to be a competitive total compensation package, consisting primarily of base cash compensation, performance-based incentive compensation packages, including both equity and cash components, and a broad-based benefits program.

Our 2013 compensation program was designed to reward each executive's individual performance by considering generally their past and potential contributions to our achievement of key strategic goals, such as revenue generation, organic growth, margin improvement and the establishment and maintenance of key strategic relationships. These factors were considered, along with other factors, in assessing base cash compensation and, for executives other than the founding executives, to determine whether the performance-based incentive compensation awards would be granted to each executive. Our 2013 executive compensation program aimed to provide a risk-balanced compensation package which was competitive in our market sector and, more importantly, relevant to the individual executive. In addition, in accordance with the Dodd-Frank Wall Street Reform and Consumer Protection Act, at our 2013 annual meeting of stockholders, we submitted a non-binding, advisory proposal to our stockholders to approve the compensation paid to our named executive officers. Ninety-eight percent of our stockholders who cast votes with respect to that proposal supported our executive compensation practices, as set forth in our 2013 proxy statement. Our Compensation Committee interpreted the results of this advisory vote as a strong affirmation of our executive compensation practices. Given that our Compensation Committee implemented our executive compensation program for 2013 before the date of our 2013 annual meeting of stockholders, the Compensation Committee could not have considered the results of this advisory vote in establishing our executive compensation program for 2013. However, the Compensation Committee was aware of the results of the advisory vote at the time it assessed achievement of the performance goals established as part of our 2013 executive compensation program, which are described in more detail below.

Our policy for allocating between base cash compensation and incentive compensation for 2013 was to ensure adequate base compensation to attract and retain personnel, while providing incentives to maximize value for our Company and our stockholders. For 2013, we provided (i) base cash compensation to meet competitive cash compensation norms and (ii) with respect to our founding executives, stockholder approved, stock-based awards designed to reward performance against long-term strategic objectives, and with respect to our other executives, performance-based compensation that included the potential to earn cash-based and stock-based awards to reward the executives for superior performance against annual strategic targets and long-term stock price appreciation. Our Compensation Committee believed that this compensation structure would appropriately focus our executives attention on achievement of our stated corporate objectives and long-term stock price appreciation.

Executive Compensation Process

The compensation of our named executive officers, as well as our other executive officers, has been reviewed by our Compensation Committee at least annually for consistency with our compensation philosophy and objectives. Our management, including our CEO, has participated in this review by making its own recommendations as to the base cash compensation and performance-based compensation of our executive officers to the Compensation Committee. The Compensation Committee has considered the recommendations of management in assessing executive compensation, but from time to time it has also gathered and relied on other data and resources, and from time to time has utilized the services of a compensation consultant in reviewing and determining executive compensation.

In reviewing executive compensation during 2013, the Compensation Committee and management considered the practices of companies of similar size, geographic location and market focus. For this purpose, management and the Compensation Committee utilized the 2012 Radford Global Life Sciences Survey, or the 2012 Radford Survey, which provided comprehensive baseline compensation data on positions at the executive, management and professional levels, including base cash compensation, total cash compensation, options and other equity compensation, for almost 700 multinational life sciences companies. While benchmarking may not always be appropriate as a stand-alone tool for setting compensation due to the aspects of our business and objectives that may be unique to us, we generally believe that gathering this compensation information is an important part of our compensation-related decision-making process.

During 2013, the Compensation Committee also engaged a compensation consultant, Radford, an Aon Hewitt company, to assist the committee in assessing total compensation of our founding executives and Mr. Nawana. As part of its engagement, Radford assisted the Compensation Committee in reviewing the compensation paid by the peer group of

Table of Contents

companies used by our Compensation Committee in assessing the competitiveness of the compensation of our founding executives. The peer group selected by the Compensation Committee for purposes of evaluating compensation of the founding executives and Mr. Nawana consisted of eighteen publicly-traded companies in a similar industry and with similar revenues and market capitalizations. Two companies that were included in our peer group for 2012, Beckman Coulter, Inc. and RehabCare Group, Inc., were not included in our peer group for 2013 because they were no longer publicly-traded. Of the peer group companies, 22% were health management companies and 78% were diagnostics/medical equipment companies.

Specifically, the peer group consisted of the following companies:

Becton Dickinson and Company

Bio-Rad Laboratories, Inc.

Catalyst Health Solutions, Inc.

C.R. Bard, Inc.

Edwards Lifesciences LLC

Gen-Probe Incorporated

Healthways, Inc.

Hologic, Inc.

Hospira, Inc.

IDEXX Laboratories, Inc.

Laboratory Corporation of America Holdings

Life Technologies Corporation

Lincare Holdings, Inc.

Myriad Genetics, Inc.

PerkinElmer, Inc.

ResMed Inc.

St. Jude Medical, Inc.

Varian Medical Systems, Inc.

In 2013, we continued our Annual Executive Incentive Compensation Process, or the Annual Incentive Process, pursuant to which we offered annual performance-based incentive compensation packages under which a broad group of executives and managers worldwide, other than our founding executives, were eligible to receive stock-based awards, consisting of performance options, and cash awards based on the achievement of stated performance conditions. Mr. Nawana and Mr. Teitel participated in the Annual Incentive Process during 2013. The performance options granted as part of the 2013 Annual Incentive Process have an exercise price of \$25.68 per share representing the closing price for the Company's common stock on the date of grant, April 30, 2013. The performance options will vest over four years in equal annual installments commencing one year from the grant date, subject to satisfaction of a number of corporate and, in some cases, business-level performance criteria applicable to calendar year 2013 performance. The performance criteria for the performance options were consistent with the definition of performance criteria set forth in our 2010 Stock Option and Incentive Plan and included an earnings per share target, an organic growth target and, in the case of certain executive officers, a return on invested capital target, as well as other performance criteria which vary from individual to individual. In the case of performance options for which some, but not all, of the performance criteria were satisfied, the Compensation Committee retained the discretion to permit a reduced number of the options to vest. The performance options have a term of ten years from the date of grant. The Compensation Committee also granted a contingent, performance-based cash award, or a Cash Award, to each executive and manager who received a performance option. Each Cash Award entitles the recipient to receive a cash payment equal to the appreciation, if any, of our stock price during 2013 multiplied by the number of shares subject to the performance options granted to that person for which the 2013 performance criteria were achieved and are payable in two equal annual installments commencing one year from the grant date.

Our Annual Incentive Process is not intended to preclude the Compensation Committee from making equity or other awards outside of this process in appropriate circumstances, and the process is expected to evolve from year to year. In particular, the Compensation Committee expects to continue to make grants under our stockholder-approved stock option and incentive plans, or our Option Plans, outside of the Annual Incentive Process in connection with changes in responsibility, significant accomplishments, new hires and in other appropriate circumstances.

Table of Contents

In determining each component of an executive's compensation under our processes, numerous factors particular to the executive were considered, including:

The executive's particular background, including prior relevant work experience;

The demand for individuals with the executive's specific expertise and experience;

The executive's role with us and the compensation paid to similar persons determined through benchmark studies;

The executive's performance and contribution to our achievement of corporate goals and objectives; and

Comparison to our other executives.

Elements of Compensation

For 2013, executive compensation consisted of the following elements:

Base Cash Compensation. Base cash compensation was established based on the factors discussed above. We sought to ensure that the base cash compensation of our executives would be competitive by targeting annual base salary for a particular individual near the average of the range of annual cash compensation (base cash compensation plus annual non-equity incentive compensation) for executives in similar positions with similar responsibilities at comparable companies. Other elements of compensation, including past and present grants of stock-based awards, were also considered. The Compensation Committee believed that competitive base cash compensation was necessary to attract and retain a management team with the requisite skills to lead the Company. In 2013, based on its analysis of our salary objectives, the various factors discussed above, the 2012 Radford Survey and updated Radford benchmarking and other analysis and input from Radford, and considering the total compensation of our named executive officers, the annual base salary paid to Mr. Zwanziger, Dr. Scott, Dr. McAleer and Mr. Teitel was increased from \$900,000, £351,750, £326,625 (or approximately \$550,232 and \$510,930, based on the average exchange rate for 2013) and \$400,000, respectively, to \$975,000, £381,065, £353,846 (or approximately \$596,089 and \$553,511, based on the average exchange rate for 2013) and \$412,000, respectively. In approving the base salary increases for each of these named executive officers, the Compensation Committee considered an analysis of total compensation for comparable executives. In comparing total cash compensation of our founding executives to total cash compensation of comparable executives, the Compensation Committee considered the fact that, unlike most comparable executives, the founding executives receive no cash bonus or other non-equity incentive compensation. The Compensation Committee also considered each individual's background, expertise and experience, and individual performance and past contributions to our overall goals and objectives. While many of these factors are subjective measures, and are not based on any stated quantified objectives, they played an important role in the Compensation Committee's decision-making process. These subjective factors were considered in the aggregate and, accordingly, no specific factor played a greater role in determining the base salary increases.

Stock Options and Stock-based Awards. For 2013, our Compensation Committee believed that the use of stock options and other stock-based awards would continue to offer the best approach to achieving our long-term compensation

goals. Consistent with this belief, our Option Plans were established to provide certain of our employees, including our executive officers, with incentives to help align their interests with the interests of stockholders and with our long-term success. While our Option Plans allow our Compensation Committee to grant different types of stock-based awards, we have relied exclusively on stock options to provide equity incentive compensation to our executive officers, other than one restricted stock grant made to Mr. Zwanziger in 2001 and one restricted stock grant made to Mr. Nawana at the time of his hiring in December 2012. Stock options granted to our executive officers have historically had an exercise price equal to the fair market value of our common stock on the grant date, except for certain grants of options to our founding executives in July 2008, February 2010, July 2012 and August 2013 that had exercise prices above the fair market value of our common stock on the grant date. Our stock options have typically vested 25% per annum based upon continued employment over a four-year period, and generally have had terms expiring ten years after the date of grant. Stock option grants to our executive officers have been made in connection with the commencement of employment, in conjunction with an annual review of total compensation and, occasionally, following a significant change in job responsibilities or to meet other special retention or performance objectives. While our Compensation Committee expects to continue to grant stock options on an ad hoc basis as circumstances warrant (consistent with the granting policy described below), in the future we expect that stock option awards will primarily be granted to our named executive officers, other than our founding executives, as part of the Annual Incentive Process. Proposals to grant stock options to our executive officers in 2013, including those made in connection with the Annual Incentive Process, were made by our CEO to the Compensation Committee. With respect to proposals for grants made to our executive officers in 2013, the Compensation Committee reviewed consultant reports, as discussed above, individual performance, the executive's existing compensation and other retention considerations. The Compensation Committee considered the estimated Black-Scholes valuation of each proposed stock option grant for each founding executive in determining the number of options subject to each grant in 2013. Generally, 2013 stock option grants for each named executive officer were based on the factors discussed above and were intended to

Table of Contents

be valued near the average of the range of the value of long-term incentive awards for executives in similar positions with similar responsibilities at comparable companies, although other elements of compensation, including salary, were also considered.

Generally, stock option grants to executive officers have been made in conjunction with meetings of our Board of Directors. In 2013, other than grants made to the founding executives which were approved by our shareholders, grants were made by our Board in accordance with its previously adopted stock option granting policy, which includes the following elements:

Options to purchase shares of our common stock shall be granted effective as of the last calendar day of the following months: February, April, June, August, October and December (each such date, a Grant Date).

For each employee (or prospective employee) that is not (or, upon hire, will not be) subject to Section 16 of the Exchange Act, the CEO shall have the authority to grant, in his sole discretion, an option or options to purchase up to an aggregate of 5,000 shares of common stock (on an annual basis); provided, however, that the total number of shares of common stock underlying such option grants shall not exceed 150,000 per calendar year.

Grants of options to existing employees, shall be effective as of, and the grant date thereof shall for all purposes be deemed to be, the Grant Date following the date of approval (except that any grants subject to stockholder approval shall be effective as of the date of stockholder approval).

Options approved for new hires, including those hired through acquisitions, shall be effective as of, and the grant date thereof shall for all purposes be deemed to be, the Grant Date following the later of (i) the date of such approval or (ii) the date on which the new hire's employment commences.

For 2013, Mr. Teitel participated in the Annual Incentive Process and was awarded a performance-based compensation package based upon 12,500 shares of our common stock, consisting of stock options and a Cash Award. There were numerous performance conditions applicable to the awards to Mr. Teitel, all of which had to be satisfied in order for the awards to vest in full. These performance conditions included corporate goals consisting of a threshold and target for earnings per share in 2013 of \$2.30 and \$2.40, respectively, a threshold and target for organic growth in 2013 of 3.5% and 4.5%, respectively, and a threshold and target for return on invested capital in 2013 of 11.0% and 11.8%, respectively, and individual goals, which included \$10 million of savings related to consolidation, as well as the Compensation Committee's subjective evaluation of Mr. Teitel's performance during 2013. The Compensation Committee determined that the corporate performance goals were met at the 93% level and that Mr. Teitel's individual performance goals were met at the 80% level. As a result, Mr. Teitel's performance-based option earned was the equivalent of 11,288 shares of our common stock, and the Cash Award granted to Mr. Teitel became payable in an aggregate amount equal to \$196,772 which, subject to Mr. Teitel's continued employment with us, will be paid in two equal annual installments beginning in May 2014.

For 2013, Mr. Nawana participated in the Annual Incentive Process and was awarded a performance-based compensation package based upon 25,000 shares of our common stock, consisting of stock options and a Cash Award. There were numerous performance conditions applicable to the awards to Mr. Nawana, all of which had to be satisfied in order for the awards to vest in full. These performance conditions included corporate goals consisting of a threshold

and target for earnings per share in 2013 of \$2.30 and \$2.40, respectively, a threshold and target for organic growth in 2013 of 3.5% and 4.5%, respectively, and a threshold and target for return on invested capital in 2013 of 11.0% and 11.8%, respectively, and individual goals, which included \$10 million of savings related to consolidation, as well as the Compensation Committee's subjective evaluation of Mr. Nawana's performance during 2013. The Compensation Committee determined that the corporate performance goals were met at the 93% level and that Mr. Nawana's individual performance goals were met at the 90% level. As a result, Mr. Nawana's performance-based option earned was the equivalent of 23,077 shares of our common stock, and the Cash Award granted to Mr. Nawana became payable in an aggregate amount equal to \$402,278 which, subject to Mr. Nawana's continued employment with us, will be paid in two equal annual installments beginning in May 2014.

For 2013, our Compensation Committee decided that our founding executives should receive stock options only if the grant of those options were specifically approved by our stockholders. At our annual meeting of stockholders in August 2013, our stockholders approved the grant to Mr. Zwanziger, Dr. Scott and Dr. McAleer of options to purchase 490,000, 175,000 and 150,000 shares, respectively. While the closing price of our common stock on the date of grant was \$33.00, these options were granted with a premium exercise price of \$50.00. Due to the premium exercise price and the

Table of Contents

fact that the price of our common stock would need to increase more than 50% in order for these option grants to be in the money, the Board and Compensation Committee considered these grants to be stronger incentives for the generation and maintenance of long-term appreciation of our stock price than standard options grants and in the best interest of our stockholders. More than 95% of our stockholders who cast votes with respect to this proposal in 2013 supported these option grants.

Bonuses. Our founding executives, including our CEO, are not eligible for cash bonuses and other non-equity incentive compensation. With respect to our founding executives, our Compensation Committee has focused on stock-based awards designed to reward performance against long term strategic objectives. Our Annual Incentive Process does provide for cash awards, vesting over two years, if performance targets were met during the target year. The primary purpose of the Cash Awards is to further incent executives to achieve shorter-term results based upon the price appreciation of our common stock during the performance period.

As discussed above, Mr. Teitel participated in the Annual Incentive Process and was awarded a performance-based compensation package based upon 12,500 shares of our common stock, consisting of stock options and a Cash Award. As a result of the Compensation Committee's determination that the corporate performance goals were met at the 93% level and Mr. Teitel's individual performance goals were met at the 80% level and the \$17.70 per share increase in our stock price during 2013, Mr. Teitel's Cash Award became payable in the aggregate amount of \$196,772, which, subject to continued employment, will be paid in two equal annual installments beginning in May 2014.

As discussed above, Mr. Nawana participated in the Annual Incentive Process and was awarded a performance-based compensation package based upon 25,000 shares of our common stock, consisting of stock options and a Cash Award. As a result of the Compensation Committee's determination that the corporate performance goals were met at the 93% level and Mr. Nawana's individual performance goals were met at the 90% level and the \$17.70 per share increase in our stock price during 2013, Mr. Nawana's Cash Award became payable in the aggregate amount of \$402,278, which, subject to continued employment, will be paid in two equal annual installments beginning in May 2014. In connection with his appointment as our Chief Operating Officer in December 2012, we agreed to pay Mr. Nawana a sign-on bonus of \$275,000, which was paid in February 2013. The Compensation Committee considered this bonus to be an appropriate incentive to entice Mr. Nawana to leave his prior employment and accept our offer to serve as our Chief Operating Officer.

Other Compensation. None of our named executive officers is entitled to receive any payment upon a change in control of our Company or a termination of his employment with us, except with respect to 110,000 restricted stock units, or RSUs, granted to Mr. Nawana in connection with his appointment as our Chief Operating Officer in December 2012. If Mr. Nawana's employment is involuntarily terminated without cause within three years of his hiring, his RSUs will accelerate and fully vest. The RSUs will also accelerate and fully vest if Mr. Nawana terminates his employment voluntarily after his first year of employment, other than in the presence of facts or circumstances which would constitute cause for termination by us. Our named executive officers' service with our Company is at will. The named executive officers were not eligible to participate in, and did not have any accrued benefits under, any company-sponsored defined benefit pension plan in 2013. They were eligible to, and in some cases did, participate in defined contributions plans, such as a 401(k) plan, on the same terms as other employees. The terms of these defined contribution plans varied depending on the jurisdiction of employment of the executive. In addition, consistent with our compensation philosophy, the Compensation Committee maintained in 2013 generally the same benefits and perquisites for our executive officers as in prior years, which consisted of certain matching contributions under our defined benefit plans and payment of life insurance premiums. The Compensation Committee believes that the benefits and perquisites provided to our executive officers in 2013 were similar to median competitive levels for comparable companies. Finally, all of our executives were eligible to participate in our other employee benefit plans, including medical, dental, life and disability insurance.

Tax Implications

Section 162(m) of the Internal Revenue Code of 1986, as amended, limits the deductibility on our tax return of compensation over \$1,000,000 to certain of the named executive officers unless, in general, the compensation is paid pursuant to a plan which is performance-related, non-discretionary and has been approved by our stockholders. We have periodically reviewed the potential consequences of Section 162(m) and on occasion have sought to structure the performance-based portion of our executive compensation to comply with the exemptions available under Section 162(m). We believe that options granted in 2013 under our Option Plans generally qualify as performance-based compensation under Section 162(m). However, we reserve the right to use our judgment to authorize compensation payments that do not

Table of Contents

comply with these exemptions when we believe that such payments are appropriate and in the best interest of the stockholders, after taking into consideration changing business conditions or the applicable officer's performance. For example, we do not believe that the RSUs granted to Mr. Nawana in 2012 will qualify as performance-based compensation and, accordingly, we may be unable to deduct some or all of the compensation expense associated with any RSUs that vest.

Executive Stock Ownership Guidelines. The Compensation Committee believes that significant stock ownership by certain executive officers is important to align the interests of our executives with those of our stockholders. Accordingly, the Compensation Committee has established stock ownership guidelines for our Chief Executive Officer, Chief Financial Officer, Chief Operating Officer, Chief Scientific Officer and Senior Vice President, Research & Development, whom we refer to as the Covered Executives. Under these guidelines, the Covered Executives must beneficially own a number of shares of our common stock with an aggregate value, measured as of the later of December 11, 2013 and the date on which the executive first becomes subject to the stock ownership guidelines, equal to or in excess of a specified multiple of the individual's base salary within five years of adoption of the policy or the Covered Executive's election or appointment for the first time, whichever is later, as follows:

for our CEO, five times base salary; and

the remaining Covered Executives, one times base salary.

These multiples were determined in part based upon the practices of our peer group companies and the Compensation Committee's understanding of competitive market practices.

Shares of common stock underlying stock options, shares of restricted stock and unvested stock units will not count toward satisfaction of the ownership requirements under the guidelines. As of the date of this proxy statement, each of Mr. Zwanziger, Dr. Scott and Dr. McAleer meets the ownership requirements.

Compensation Committee Report

We, the Compensation Committee, have reviewed and discussed the Compensation Discussion and Analysis beginning on page 7 of this annual report with management.

Based on this review and discussion, we recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this annual report.

- (3) The value attributable to the restricted stock units equals the closing price of our common stock as reported by the New York Stock Exchange on December 31, 2013, which was \$36.20, multiplied by the number of unvested units underlying the award.
- (4) The vesting of these awards is subject to satisfaction of performance conditions; options for which the performance conditions are satisfied will become exercisable in four equal annual installments beginning on the first anniversary date of grant, subject to the executive's continued employment on the date of vesting. On February 27, 2014, the Compensation Committee certified the degree to which the performance conditions had been satisfied and determined that the stock option awards for Messrs. The vesting of the RSU is as follows: 5,000 RSUs vested one year after the grant date on December 30, 2013, 5,000 RSUs will vest two years after the grant date, and 100,000 RSUs will vest three years after the grant date. If Mr. Nawana's employment is involuntarily terminated without cause within three years of his hiring, his RSUs will accelerate and fully vest. The RSUs will also accelerate and fully vest if Mr. Nawana terminates his employment voluntarily after his first year of employment, other than in the presence of facts or circumstances which would constitute cause for termination by us.

Pension Benefits. During 2013, our named executive officers did not participate in any plan that provides for specified retirement benefits, or payments and benefits that will be provided primarily following retirement, other than defined contribution plans, such as our 401(k) savings plan.

Employment Agreement and Potential Payments upon Termination or Change-in-Control. Effective December 30, 2012, we entered into a Restricted Stock Unit Agreement with Mr. Nawana in connection with his appointment as our Chief Operating Officer, pursuant to which we granted to Mr. Nawana 110,000 RSUs, which vest over a period of three years. Under the terms of the Restricted Stock Unit Agreement, if Mr. Nawana's employment is involuntarily terminated, without cause, within three years of the date of grant, or if Mr. Nawana terminates his employment voluntarily after one year, other than in the presence of facts or circumstances which would constitute cause for termination by us, his RSUs will accelerate and fully vest. The Restricted Stock Unit Agreement further provides that all of the RSUs will immediately vest upon a change of control of the Company, as that term is defined in the Restricted Stock Unit Agreement. Our named executive officers are employees-at-will and do not have employment or severance contracts with us. Other than provisions in our Option Plans that provide for all stock options to automatically become fully exercisable, RSUs to become fully vested and any stock awards to become vested and non-forfeitable in the event of a change of control as defined in the plans, there are no other contracts, agreements, plans or arrangements that provide for payments to our named executive officers at, following, or in connection with any termination of employment, change in control of the Company or a change in a named executive officer's responsibilities. All of the outstanding stock options held by our named executive officers reported above under Outstanding Equity Awards at Fiscal Year-End were issued under our Option Plans and are subject to accelerated exercisability upon a change of control. The table below sets forth the value attributable to such an acceleration of exercisability of options and an acceleration of vesting of RSUs under the Restricted Stock Unit Agreement.

Name	Value Attributable to Acceleration of Exercisability of Stock Options and Vesting of RSUs Upon a Change of Control(1)	
Ron Zwanziger	\$	
David Teitel	\$	185,226
Namal Nawana	\$	6,719,000
David Scott, Ph.D.	\$	
Jerry McAleer, Ph.D.	\$	

- (1) Assumes the occurrence of a change of control of the Company on December 31, 2013. The value attributable to the acceleration of in-the-money stock options equals the difference between the applicable option exercise prices and the closing sale price of our common stock as reported by the New York Stock Exchange on December 31, 2013, which was \$36.20, multiplied by the number of shares underlying the options. The value attributable to the acceleration of vesting of RSUs equals the closing sale price of our common stock as reported by the New York Stock Exchange on December 31, 2013, which was \$36.20, multiplied by the number of units underlying the award.

Risk Related to Compensation Policies

Our compensation policies and practices for our employees, including our executive compensation program described in our Compensation Discussion and Analysis, aim to provide a risk-balanced compensation package which is

competitive in our market sectors and relevant to the individual executive. Pursuant to the Annual Incentive Process, we expect to continue to award to certain executives and managers, upon satisfaction of applicable performance conditions and subject to future approval and grant by the Compensation Committee, option and cash awards. Because both the option and cash awards contemplated under this process would vest over several years, we believe that the process discourages short-term risk taking and aligns the interest of our executives and managers with those of our stockholders. We do not believe that risks arising from these practices, or our compensation policies and practices considered as a whole, are reasonably likely to have a material adverse effect on us.
