## **Introduction**

Lear Corporation ( Lear or the Company ) is a leading Tier 1 supplier to the global automotive industry. Our business spans all major automotive markets, and we supply seating and electrical distribution systems and related components to virtually every major automotive manufacturer in the world. As of December 31, 2013, we have manufacturing, engineering and administrative capabilities in 36 countries with 226 locations and are continuing to grow our business in all automotive producing regions of the world.

Lear is a recognized global leader in complete automotive seat systems and certain key individual component parts. Our seating business consists of the design, engineering, just-in-time assembly and delivery of complete seat systems, as well as the manufacture of all major seat components, including seat structures and mechanisms, seat covers, seat foam and headrests. Our electrical business consists of the design, engineering and manufacturing of complete electrical distribution systems that route electrical signals and manage electrical power within a vehicle for both traditional powertrain vehicles, as well as high-power for hybrid and electric vehicles. Key components of our electrical business include wiring harnesses, terminals and connectors, junction boxes, electronic control modules and wireless control devices.
