NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

Basis of Presentation The accompanying Unaudited Condensed Consolidated Financial Statements of Sonic Automotive, Inc. and its wholly-owned subsidiaries (Sonic, the Company, we, us and our) for the second quarter six-month periods ended June 30, 2014 and 2013, have been prepared in accordance with United States generally accepted accounting principles (U.S. GAAP) for interim financial information and applicable rules and regulations of the Securities and Exchange Commission (SEC). These Unaudited Condensed Consolidated Financial Statements reflect, in the opinion of management, all material normal recurring adjustments necessary to fairly state the financial position, results of operations and cash flows for the periods presented. The results for interim periods are not necessarily indicative of the results to be expected for the entire fiscal year or future interim periods, because the first quarter normally contributes less operating profit than the second, third and fourth quarters. These interim financial statements should be read in conjunction with the audited Consolidated Financial Statements included in Sonic 's Annual Report on Form 10-K for the year ended December 31, 2013.

Recent Accounting Pronouncements In April 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) 2014-08, which amended the definition of and the reporting requirements for discontinued operations. The amendments in this ASU require that a disposal represents a strategic shift that has (or will have) a major effect on an entity 's operations and financial position in order to qualify as a discontinued operation. The ASU also requires new disclosures of both discontinued operations and certain other disposals that do not meet the definition of a discontinued operation. This ASU is effective for interim and annual filings beginning with the quarter ending March 31, 2015. Early adoption is permitted, and Sonic elected to adopt and apply the guidance beginning with its Form 10-Q for the period ended June 30, 2014. The adoption of this ASU will impact the presentation of certain items in Sonic 's consolidated financial position, results of operations and other disclosures.

In May 2014, the FASB issued ASU 2014-09 related to revenue recognition. This ASU provides a five-step analysis to use in determining the timing and method of revenue recognition. The amendments in this ASU are effective for fiscal years, and interim periods within those years, beginning after December 15, 2016 (early adoption is not permitted). Sonic does not expect this ASU to have a significant impact on its consolidated financial position, results of operations or cash flows.

Principles of Consolidation All of Sonic 's dealership and non-dealership subsidiaries are wholly owned and consolidated in the accompanying Unaudited Condensed Consolidated Financial Statements, except for one fifty-percent owned dealership that is accounted for under the equity method. All material intercompany balances and transactions have been eliminated in the accompanying Unaudited Condensed Consolidated Financial Statements.

Lease Exit Accruals Lease exit accruals relate to facilities Sonic has ceased using in its operations. The accruals represent the present value of the lease payments, net of estimated or actual sublease proceeds, for the remaining life of the operating leases and other accruals necessary to satisfy the lease commitment to the landlord. These situations could include the relocation of an existing facility or the sale of a dealership whereby the buyer will not be subleasing the property for either the remaining term of the lease or for an amount of rent equal to Sonic 's obligation under the lease. Please see Note 12, Commitments and Contingencies, of the Notes to Consolidated Financial Statements in Sonic 's Annual Report on Form 10-K for the year ended December 31, 2013 for further discussion.

Table of Contents**SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

A summary of the activity of these operating lease exit accruals consists of the following:

	(In thousands)
Balance, December 31, 2013	\$ 27,234
Lease exit expense (1)	624
Payments (2)	(3,874)
Lease buyout (3)	(1,556)
Balance, June 30, 2014	\$ 22,428

- (1) Expense of approximately \$0.1 million is recorded in interest expense, other, net, approximately \$0.1 million is recorded in selling, general and administrative expenses, and approximately \$0.4 million is recorded in income (loss) from operations and the sale of dealerships in the accompanying Unaudited Condensed Consolidated Statements of Income.
- (2) Amount is recorded as an offset to rent expense in selling, general and administrative expenses, with approximately \$0.5 million in continuing operations and \$3.4 million in income (loss) from operations and the sale of dealerships in the accompanying Unaudited Condensed Consolidated Statements of Income.
- (3) Amount represents write-off of accrual related to an early lease buyout agreement which was completed and paid, relieving Sonic of any future lease obligation.

Income Tax Expense The overall effective tax rate from continuing operations was 39.7% and 39.0% for the second quarter and six-month periods ended June 30, 2014, respectively, and was 39.0% for both the second quarter and six-month periods ended June 30, 2013. Sonic expects the effective tax rate for continuing operations in future periods to fall within a range of 38.0% to 40.0%.

2. Business Acquisitions and Dispositions

Acquisitions Sonic acquired one luxury franchise during the six-month period ended June 30, 2014 for an aggregate purchase price of approximately \$2.6 million. The balance sheet as of June 30, 2014 includes preliminary allocations of the purchase price of the acquired assets and liabilities based on their estimated fair market values at the date of acquisition and are subject to final adjustment.

Dispositions As discussed in Note 1, Summary of Significant Accounting Policies, the FASB issued ASU 2014-08 which amended the definition of and reporting requirements for discontinued operations. Sonic elected to adopt and apply this guidance beginning with this Form 10-Q for the period ended June 30, 2014. The results of operations for those dealerships that were classified as discontinued operations as of March 31, 2014 are included in the accompanying Unaudited Condensed Consolidated Statements of Income and will continue to be reported within discontinued operations in the future. There were no unsold dealerships classified in discontinued operations at March 31, 2014. Revenues and other activities associated with dealerships classified as discontinued operations were

as follows:

	Second Quarter Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
	(In thousands)			
Income (loss) from operations	\$ (181)	\$ 1,400	\$ (770)	\$ 1,366
Gain (loss) on disposal	97	(341)	53	(378)
Lease exit accrual adjustments and charges	(43)	(698)	(375)	(1,365)
Pre-tax income (loss)	\$ (127)	\$ 361	\$ (1,092)	\$ (377)
Total revenues	\$	\$	\$	\$

Beginning with disposals occurring during the second quarter ended June 30, 2014, only the operating results of disposals that represent a strategic shift that has (or will have) a major impact on Sonic's results of operations and financial position will be included in the income (loss) from discontinued operations in the accompanying Unaudited Condensed Consolidated Statements of Income. Sonic disposed of two franchises during the quarter ended June 30, 2014 and disposed of three franchises during the six-month period ended June 30, 2014. These disposals generated net cash from disposition of approximately \$13.3 million and \$15.2 million, respectively.

Table of Contents**SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

Revenues and other activities associated with disposed dealerships that remain in continuing operations were as follows:

	Second Quarter Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
	(In thousands)			
Income (loss) from operations	\$ (61)	\$ (467)	\$ (507)	\$ (1,175)
Gain (loss) on disposal	7,260		7,624	
Pre-tax income (loss)	\$ 7,199	\$ (467)	\$ 7,117	\$ (1,175)
Total revenues	\$ 21,870	\$ 23,628	\$ 42,485	\$ 49,612

In the ordinary course of business, Sonic evaluates its dealership franchises for possible disposition based on various performance criteria, and the disposals during the six-month period ended June 30, 2014 represent dealerships identified based on their unprofitable operations and other operational considerations. As of June 30, 2014, Sonic had two dealerships classified as held for sale. Sonic anticipates disposal of these dealerships to occur within the next twelve months and deems it unlikely that significant changes to the plan to sell these stores will be made. In the future, Sonic may also sell other franchises that are not currently held for sale.

The major classes of assets and liabilities classified as held for sale for all periods presented in the statement of financial position are as follows:

	June 30, 2014	December 31, 2013

(1) Net of accumulated impairment losses of \$796,725.

At December 31, 2013, Sonic had approximately \$8.3 million of definite life intangibles related to favorable lease agreements. After the effect of amortization of the definite life intangibles, the balance recorded at June 30, 2014 was approximately \$7.6 million and is included in other intangible assets, net, in the accompanying Unaudited Condensed Consolidated Balance Sheets. Additions through current year acquisition are preliminary allocations subject to change upon the finalization of purchase accounting.

2011 Credit Facilities

Sonic has a syndicated revolving credit agreement (the 2011 Revolving Credit Facility) and syndicated new and used vehicle floor plan credit facilities (the 2011 Floor Plan Facilities and, together with the 2011 Revolving Credit Facility, the 2011 Credit Facilities), which were scheduled to mature on August 15, 2016. On July 23, 2014, Sonic entered into an amendment to the 2011 Credit Facilities, which among other things, extended the maturity to August 15, 2019. See Note 11, Subsequent Events, to the accompanying Unaudited Condensed Consolidated Financial Statements for additional information. The following discussion is based on the terms of the 2011 Credit

Facilities in effect as of June 30, 2014, prior to the amendment.

Availability under the 2011 Revolving Credit Facility is calculated as the lesser of \$175.0 million or a borrowing base calculated based on certain eligible assets, less the aggregate face amount of any outstanding letters of credit under the 2011 Revolving Credit Facility (the 2011 Revolving Borrowing Base). The 2011 Revolving Credit Facility may be increased at Sonic's option up to \$225.0 million upon satisfaction of certain conditions.

Based on balances as of June 30, 2014, the 2011 Revolving Borrowing Base was approximately \$146.5 million. Sonic had no outstanding borrowings as of June 30, 2014 and \$29.2 million in outstanding letters of credit under the 2011 Revolving Credit Facility, resulting in total borrowing availability of \$117.3 million under the 2011 Revolving Credit Facility.

The 2011 Floor Plan Facilities are comprised of a new vehicle revolving floor plan facility (the 2011 New Vehicle Floor Plan Facility) and a used vehicle revolving floor plan facility (the 2011 Used Vehicle Floor Plan Facility), subject to a borrowing base, in a combined amount up to \$605.0 million. Sonic may, under certain conditions, request an increase in the 2011 Floor Plan Facilities of up to \$175.0 million, which shall be allocated between the 2011 New Vehicle Floor Plan Facility and the 2011 Used Vehicle Floor Plan Facility as Sonic requests, with no more than 15% of the aggregate commitments allocated to the commitments under the 2011 Used Vehicle Floor Plan Facility. Outstanding obligations under the 2011 Floor Plan Facilities are guaranteed by Sonic and certain of its subsidiaries and are secured by a pledge of substantially all of the assets of Sonic and its subsidiaries. The amounts outstanding under the 2011 Credit Facilities bear interest at variable rates based on specified percentages above LIBOR.

Table of Contents**SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS*****7.0% Senior Subordinated Notes***

On July 2, 2012, Sonic issued \$200.0 million in aggregate principal amount of unsecured senior subordinated 7.0% Notes which mature on July 15, 2022. The 7.0% Notes were issued at a price of 99.11% of the principal amount thereof, resulting in a yield to maturity of 7.125%. Interest is payable semi-annually in arrears on January 15 and July 15 of each year. Sonic may redeem the 7.0% Notes in whole or in part at any time after July 15, 2017 at the following redemption prices, which are expressed as percentages of the principal amount:

	Redemption Price
Beginning on July 15, 2017	103.500%
Beginning on July 15, 2018	102.333%
Beginning on July 15, 2019	101.167%
Beginning on July 15, 2020 and thereafter	100.000%

In addition, on or before July 15, 2015, Sonic may redeem up to 35% of the aggregate principal amount of the 7.0% Notes at 107% of the par value of the 7.0% Notes plus accrued and unpaid interest with proceeds from certain equity offerings. The indenture also provides that holders of the 7.0% Notes may require Sonic to repurchase the 7.0% Notes at 101% of the par value of the 7.0% Notes, plus accrued and unpaid interest, if Sonic undergoes a Change of Control (as defined in the indenture).

The indenture governing the 7.0% Notes contains certain specified restrictive covenants. Sonic has agreed not to pledge any assets to any third party lender of senior subordinated debt except under certain limited circumstances. Sonic also has agreed to certain other limitations or prohibitions concerning the incurrence of other indebtedness, guarantees, liens, certain types of investments, certain transactions with affiliates, mergers, consolidations, issuance of preferred stock, cash dividends to stockholders, distributions, redemptions and the sale, assignment, lease, conveyance or disposal of certain assets. Specifically, the indenture governing Sonic's 7.0% Notes limits Sonic's ability to pay quarterly cash dividends on Sonic's Class A and B Common Stock in excess of \$0.10 per share. Sonic may only pay quarterly cash dividends on Sonic's Class A and B Common Stock if Sonic complies with the terms of the indenture governing the 7.0% Notes. Sonic was in compliance with all restrictive covenants as of June 30, 2014.

Balances outstanding under Sonic's 7.0% Notes are guaranteed by all of Sonic's operating domestic subsidiaries. These guarantees are full and unconditional and joint and several. The parent company has no independent assets or operations. The non-domestic and non-operating subsidiaries that are not guarantors are considered to be minor.

Sonic's obligations under the 7.0% Notes may be accelerated by the holders of 25% of the outstanding principal amount of the 7.0% Notes then outstanding if certain events of default occur, including: (1) defaults in the payment of principal or interest when due; (2) defaults in the performance, or breach, of Sonic's covenants under the 7.0% Notes; and (3) certain defaults under other agreements under which Sonic or its subsidiaries have outstanding indebtedness in excess of \$35.0 million.

5.0% Senior Subordinated Notes

On May 9, 2013, Sonic issued \$300.0 million in aggregate principal amount of unsecured senior subordinated 5.0% Notes which mature on May 15, 2023. The 5.0% Notes were issued at 100.0% of the principal amount thereof. Interest is payable semi-annually in arrears on May 15 and November 15 of each year. Sonic may redeem the 5.0% Notes in whole or in part at any time after May 15, 2018 at the following redemption prices, which are expressed as percentages of the principal amount:

In addition, on or before May 15, 2016, Sonic may redeem up to 35% of the aggregate principal amount of the 5.0% Notes at 105% of the par value of the 5.0% Notes plus accrued and unpaid interest with proceeds from certain equity offerings. On or before May 15, 2018, Sonic may redeem all or a part of the aggregate principal amount of the 5.0% Notes at a redemption price equal to 100% of the principal amount of the 5.0% Notes redeemed plus an applicable premium (as defined in the Indenture) and any accrued and unpaid interest as of the redemption date. The indenture also provides that holders of the 5.0% Notes may require Sonic to repurchase the 5.0% Notes at 101% of the par value of the 5.0% Notes, plus accrued and unpaid interest, if Sonic undergoes a Change of Control, as defined in the indenture.

The indenture governing the 5.0% Notes contains certain specified restrictive covenants. Notes Payable to a Finance Company

Three notes payable (due October 2015 and August 2016) were assumed in connection with an acquisition in 2004 (the Assumed Notes). Sonic recorded the Assumed Notes at fair value using an interest rate of 5.35%. The interest rate used to calculate the fair value was based on a quoted market price for notes with similar terms as of the date of assumption. As a result of calculating the fair value, a premium of \$7.3 million was recorded that will be amortized over the lives of the Assumed Notes. At June 30, 2014, the outstanding principal balance on the Assumed Notes was

approximately \$6.0 million with a remaining unamortized premium balance of approximately \$0.2 million.

Mortgage Notes

At June 30, 2014, Sonic had mortgage financing totaling approximately \$271.6 million, related to 29 of its dealership properties. These mortgage notes require monthly payments of principal and interest through their respective maturities and are secured by the underlying properties. Maturity dates range between 2014 and 2033. The weighted average interest rate was 3.78% at June 30, 2014.

Sonic was in compliance with the covenants under the 2011 Credit Facilities as of June 30, 2014. Financial covenants include required specified ratios (as each is defined in the 2011 Credit Facilities) of:

	Minimum Consolidated Liquidity Ratio	Covenant Minimum Consolidated Fixed Charge Coverage Ratio	Maximum Consolidated Total Lease Adjusted Leverage Ratio
Required ratio	1.05	1.20	5.50
June 30, 2014 actual	1.21	1.82	4.14

The 2011 Credit Facilities contain events of default, including cross-defaults to other material indebtedness, change of control events and events of default customary for syndicated commercial credit facilities. Upon the future occurrence of an event of default, Sonic could be required to immediately repay all outstanding amounts under the 2011 Credit Facilities.

In addition, many of Sonic's facility leases are governed by a guarantee agreement between the landlord and Sonic that contains financial and operating covenants. The financial covenants are identical to those under the 2011 Credit Facilities with the exception of one financial covenant related to the ratio of EBTDAR to Rent (as defined in the lease agreements) with a required ratio of no less than 1.50 to 1.00. As of June 30, 2014, the ratio was 3.51 to 1.00.

Derivative Instruments and Hedging Activities

Sonic has interest rate cash flow swap agreements to effectively convert a portion of its LIBOR-based variable rate debt to a fixed rate. The fair value of these swap positions at June 30, 2014 was a net liability of approximately \$14.9 million, with \$10.5 million included in other accrued liabilities and \$5.9 million included in other long-term liabilities, offset partially by an asset of approximately \$1.5 million included in other assets in the accompanying Unaudited Condensed Consolidated Balance Sheets. The fair value of these swap positions at December 31, 2013 was a net liability of approximately \$16.3 million, with \$11.6 million included in other accrued liabilities and \$8.4 million included in other long-term liabilities, offset partially by an asset of approximately \$3.7 million included in other assets in the accompanying Unaudited Condensed Consolidated Balance Sheets.

(1) The one-month LIBOR rate was 0.152% at June 30, 2014.

(2) Changes in fair value are recorded through earnings.

(3) The effective date of these forward-starting swaps is July 1, 2015.

(4) The effective date of these forward-starting swaps is July 1, 2016.

(5) The effective date of these forward-starting swaps is July 3, 2017.

During the second quarter ended June 30, 2014, Sonic entered into two forward-starting interest rate cash flow swap agreements with notional amounts of \$25.0 million and \$100.0 million. These swap agreements become effective in July 2016 and July 2015, respectively, and terminate in July 2017. These interest rate swaps have been designated and qualify as cash flow hedges and, as a result, changes in the fair value of these swaps are recorded in other comprehensive income (loss) before taxes in the accompanying Unaudited Condensed Consolidated Statements of Comprehensive Income.

For the interest rate swaps not designated as cash flow hedges (changes in the fair value of these swaps are recognized through earnings) and amortization of amounts in accumulated other comprehensive income (loss) related to terminated cash flow swaps, certain benefits and charges were included in interest expense, other, net, in the

accompanying Unaudited Condensed Consolidated Statements of Income. For the second quarter and six-month periods ended June 30, 2014, these items were a benefit of approximately \$0.1 million and \$0.2 million, respectively, and for the second quarter and six-month periods ended June 30, 2013, these items were a benefit of approximately \$0.4 million and \$0.6 million, respectively.

For the cash flow swaps that qualify as cash flow hedges, the changes in the fair value of these swaps have been recorded in other comprehensive income (loss), net of related income taxes, in the accompanying Unaudited Condensed Consolidated Statements of Comprehensive Income and are disclosed in the supplemental schedule of non-cash financing activities in the accompanying Unaudited Condensed Consolidated Statements of Cash Flows. The incremental interest expense (the difference between interest paid and interest received) related to these cash flow swaps was approximately \$3.0 million and \$5.9 million in the second quarter and six-month periods ended June 30, 2014, respectively, and \$2.9 million and \$5.8 million in the second quarter and six-month periods ended June 30, 2013, respectively, and is included in interest expense, other, net, in the accompanying Unaudited Condensed Consolidated Statements of Income and the interest paid amount disclosed in the supplemental disclosures of cash flow information in the accompanying Unaudited Condensed Consolidated Statements of Cash Flows. The estimated net expense expected to be reclassified out of accumulated other comprehensive income (loss) into results of operations during the next twelve months is approximately \$6.5 million.

7. Per Share Data and Stockholders Equity

The calculation of diluted earnings per share considers the potential dilutive effect of options and shares under Sonic's stock compensation plans. Certain of Sonic's non-vested restricted stock and restricted stock units contain rights to receive non-forfeitable dividends and, as a result, are considered participating securities and are included in the two-class method of computing earnings per share. The following table illustrates the dilutive effect of such items on earnings per share for the second quarter and six-month periods ended June 30, 2014 and 2013:

8. Contingencies*Legal and Other Proceedings*

Sonic is involved, and expects to continue to be involved, in numerous legal and administrative proceedings arising out of the conduct of its business, including regulatory investigations and private civil actions brought by plaintiffs purporting to represent a potential class or for which a class has been certified. Although Sonic vigorously defends itself in all legal and administrative proceedings, the outcomes of pending and future proceedings arising out of the conduct of Sonic's business, including litigation with customers, employment related lawsuits, contractual disputes, class actions, purported class actions and actions brought by governmental authorities, cannot be predicted with certainty. An unfavorable resolution of one or more of these matters could have a material adverse effect on Sonic's business, financial condition, results of operations, cash flows or prospects.

Included in other accrued liabilities and other long-term liabilities was approximately \$1.3 million and \$0.3 million, respectively, at June 30, 2014, and approximately \$0.3 million and \$0.9 million, respectively, at December 31, 2013, in reserves that Sonic was holding for pending proceedings. Except as reflected in such reserves, Sonic is currently unable to estimate a range of reasonably possible loss, or a range of reasonably possible loss in excess of the amount accrued, for pending proceedings.

Guarantees and Indemnification Obligations

In accordance with the terms of Sonic's operating lease agreements, Sonic's dealership subsidiaries, acting as lessees, generally agree to indemnify the lessor from certain exposure arising as a result of the use of the leased premises, including environmental exposure and repairs to leased property upon termination of the lease. In addition, Sonic has generally agreed to indemnify the lessor in the event of a breach of the lease by the lessee.

In connection with dealership dispositions, certain of Sonic's dealership subsidiaries have assigned or sublet to the buyer their interests in real property leases associated with such dealerships. In general, the subsidiaries retain responsibility for the performance of certain obligations under such leases, including rent payments, and repairs to leased property upon termination of the lease, to the extent that the assignee or sub-lessee does not perform. In the event the sub-lessees do not perform under their obligations Sonic remains liable for the lease payments. Please see Note 12, Commitments and Contingencies, of the Notes to Consolidated Financial Statements in Sonic's Annual Report on Form 10-K for the year ended December 31, 2013 for further discussion.

Table of Contents**SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

In accordance with the terms of agreements entered into for the sale of Sonic's franchises, Sonic generally agrees to indemnify the buyer from certain exposure and costs arising subsequent to the date of sale, including environmental exposure and exposure resulting from the breach of representations or warranties made in accordance with the agreement. While Sonic's exposure with respect to environmental remediation and repairs is difficult to quantify, Sonic's maximum exposure associated with these general indemnifications was approximately \$16.8 million and \$14.0 million at June 30, 2014 and December 31, 2013, respectively. These indemnifications expire within a period of one to two years following the date of sale. The estimated fair value of these indemnifications was not material and the amount recorded for this contingency was not significant at June 30, 2014. Sonic also guarantees the floor plan commitments of its 50% owned joint venture, the amount of which was approximately \$2.8 million at both June 30, 2014 and December 31, 2013, respectively.

9. Fair Value Measurements

In determining fair value, Sonic uses various valuation approaches including market, income and/or cost approaches.

Fair Value Measurements and Disclosures in the Accounting Standards Codification (ASC) establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of Sonic. Unobservable inputs are inputs that reflect Sonic's assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the reliability of inputs as follows:

Level 1 Valuations based on quoted prices in active markets for identical assets or liabilities that Sonic has the ability to access. Assets utilizing Level 1 inputs include marketable securities that are actively traded.

Level 2 Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly. Assets and liabilities utilizing Level 2 inputs include cash flow swap instruments and deferred compensation plan balances.

Level 3 Valuations based on inputs that are unobservable and significant to the overall fair value measurement. Asset and liability measurements utilizing Level 3 inputs include those used in estimating fair value of non-financial assets and non-financial liabilities in purchase acquisitions, those used in assessing impairment of property, plant and equipment and other intangibles and those used in the reporting unit valuation in the annual goodwill impairment evaluation.

The availability of observable inputs can vary and is affected by a wide variety of factors. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment required by Sonic in determining fair value is greatest for assets and liabilities categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement is disclosed is determined based on the lowest level input (Level 3 being the lowest level) that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant who holds the asset or owes the liability rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, Sonic's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. Sonic uses inputs that are current as of the measurement date, including during periods when the market may be abnormally high or abnormally low. Accordingly, fair value measurements can be volatile based on various factors that may or may not be within Sonic's control.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of the results of operations and financial condition should be read in conjunction with the Sonic Automotive, Inc. and Subsidiaries Unaudited Condensed Consolidated Financial Statements and related notes thereto appearing elsewhere in this report, as well as the audited financial statements and related notes, Risk Factors and Management's Discussion and Analysis of Financial Condition and Results of Operations appearing in our Annual Report on Form 10-K for the year ended December 31, 2013.

Overview

We are one of the largest automotive retailers in the United States. As of June 30, 2014, we operated 121 franchises in 14 states (representing 25 different brands of cars and light trucks) and 19 collision repair centers. For management and operational reporting purposes, we group certain franchises together that share management and inventory (principally used vehicles) into stores. As of June 30, 2014, we operated 102 stores. As a result of the way we manage our business, we have a single operating segment for purposes of reporting financial condition and results of operations. Our dealerships provide comprehensive services including (1) sales of both new and used cars and light trucks; (2) sales of replacement parts, performance of vehicle maintenance, manufacturer warranty repairs, paint and collision repair services (collectively, Fixed Operations); and (3) arrangement of extended warranties, service contracts, financing, insurance and other aftermarket products (collectively, F&I) for our customers.

As we announced during the fourth quarter of 2013, we plan to augment our manufacturer-franchised dealership operations with stand-alone pre-owned specialty retail sales locations. This pre-owned business will operate independently from the existing new and used dealership sales operations and introduce customers to an exciting shopping and buying experience. The first target market is planned for Denver, Colorado, and we expect operations there to begin in late 2014.

In the fourth quarter of 2013, we also announced our customer experience initiative known as One Sonic-One Experience. This initiative includes several new processes and proprietary technologies from inventory management and pricing tools to a fully developed customer-centric Customer Relationship Management (CRM) tool. The development of these processes and tools will allow us to better serve our customers across our entire platform of stores. Our goal is to allow our guests to control the buying process and move at their pace so that once the vehicle has been selected our team can use these processes and technologies to get our guests on the road in their new vehicle in less than an hour.

Results of Operations

Unless otherwise noted, all discussion of increases or decreases for the second quarter or six-month periods ended June 30, 2014 are compared to the second quarter or six-month periods ended June 30, 2013, as applicable. The following discussion of new vehicles, used vehicles, wholesale vehicles, Fixed Operations and F&I are on a same store basis, except where otherwise noted. All currently operating continuing operations stores are included within the same store group in the first full month following the first anniversary of the store's opening or acquisition. During the second quarter of 2014, we adopted the provisions of ASU 2014-08. See Note 1, Summary of Significant Accounting Policies, to the accompanying Unaudited Condensed Consolidated Financial Statements for a discussion of the effects of our adoption of this ASU.

The automobile retail industry uses the Seasonally Adjusted Annual Rate (SAAR) to measure the annual amount of expected new vehicle unit sales activity within the United States market. The SAAR averages below reflect a blended average of all brands marketed or sold in the United States market. The SAAR includes brands we do not sell and markets in which we do not operate, therefore, our new vehicle sales may not trend directly with the SAAR.

New vehicle revenues include the sale of new vehicles to retail customers, as well as the sale of fleet vehicles. New vehicle revenues can be influenced by manufacturer incentives for consumers, which vary from cash-back incentives to low interest rate financing. New vehicle revenues are also dependent on manufacturers providing adequate vehicle allocations to our dealerships to meet customer demands and the availability of consumer credit.

During the second quarter and six-month periods ended June 30, 2014, we continued to test our new car pricing model with True Price®. As we move toward our One Sonic-One Experience launch (our new customer experience initiative), we believe we will become more aggressive in pricing as well as gain market share as customers benefit from the entire complement of our new shopping experience.

The increases in new vehicle revenue during the second quarter and six-month periods ended June 30, 2014, were primarily driven by new vehicle price per unit increases of 3.5% and 3.2%, respectively, partially offset by new unit sales volume decreases of 1.3% and 2.5%, respectively. Excluding fleet sales, our retail new revenue increased 5.0% and 2.4% for the second quarter and six-month periods ended June 30, 2014, respectively, and retail new unit sales volume increased 2.1% and remained flat during second quarter and six-month periods ended June 30, 2014, respectively. Our Audi, BMW and Honda dealerships led our new retail unit sales volume growth with increases of 22.9%, 10.8% and 3.0%, respectively, in the second quarter ended June 30, 2014.

Total new vehicle gross profit dollars increased \$4.9 million, or 7.3%, during the second quarter ended June 30, 2014 and increased \$4.0 million, or 3.0%, in the six-month period ended June 30, 2014. Our gross profit per new unit

increase of \$166 per unit in the second quarter ended June 30, 2014 was driven primarily by our BMW, Audi, Land Rover and Honda dealerships, and the increase of \$112 per unit in the six-month period ended June 30, 2014 was driven primarily by our Audi, Land Rover, Mercedes and Honda dealerships.

Our luxury dealerships (which include Cadillac) experienced new vehicle revenue increases of 10.0% and 7.2% in the second quarter and six-month periods ended June 30, 2014, respectively, primarily due to new unit sales volume increases of 7.4% and 5.3% in the second quarter and six-month periods ended June 30, 2014, respectively. Luxury dealership new vehicle gross profit increased 12.1% and 8.1% during the second quarter and six-month periods ended June 30, 2014, respectively, primarily due to new unit sales volume increases at our Audi, Lexus and Land Rover dealerships and gross profit per new unit increases of 4.4% and 2.7% during the second quarter and six-month periods ended June 30, 2014, respectively, driven primarily by our Land Rover, Audi and Porsche dealerships.

Our mid-line import dealerships experienced a new vehicle revenue decrease of 1.0% in the second quarter ended June 30, 2014, primarily due to a 1.0% decrease in price per unit during the same period. Our mid-line import dealerships experienced a new vehicle revenue decrease of 2.5% in the six-month period ended June 30, 2014, primarily due to a 2.1%

Table of Contents**SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES****MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

decrease in new unit volume. The new vehicle revenue decrease was driven primarily by lower unit sales at our Volkswagen and Hyundai dealerships, which experienced a 28.0% and a 9.5% decrease in new vehicle unit sales, respectively, in the six-month period ended June 30, 2014. Mid-line import gross profit increased 4.4% and decreased 1.4% in the second quarter and six-month periods ended June 30, 2014, respectively, driven primarily by volume and gross profit per new unit decreases at our Hyundai dealerships.

Including fleet sales, our domestic dealerships experienced new vehicle revenue decreases of 15.9% and 13.4% in the second quarter and six-month periods ended June 30, 2014, respectively, driven by new unit sales volume decreases of 22.8% and 19.3% in the second quarter and six-month periods ended June 30, 2014, respectively. These unit sales volume decreases were partially offset by price per unit increases of 8.9% and 7.3% in the second quarter and six-month periods ended June 30, 2014, respectively. Domestic fleet unit sales volume decreased 67.5% and 48.3% in the second quarter and six-month periods ended June 30, 2014, respectively, driving a fleet revenue decrease of 67.2% and 44.2% in the second quarter and six-month periods ended June 30, 2014, respectively. The decreases in fleet revenue and unit sales are due to a reduced focus on fleet sales as a result of our operational decision to move away from the low margin fleet business.

Excluding fleet sales, our domestic dealerships experienced a new retail vehicle revenue increase of 2.0% in the second quarter ended June 30, 2014, driven by an increase in price per unit of 4.3% during the same period, and a new retail vehicle revenue decrease of 2.6% in the six-month period ended June 30, 2014, driven by a new retail unit sales volume decrease of 6.6% during the same period, partially offset by an increase in price per unit of 4.3%. Our domestic dealerships experienced a decrease in new retail vehicle gross profit of 2.8% and 7.1% for the second quarter and six-month periods ended June 30, 2014, respectively. Our Ford dealerships experienced decreases of 3.4% and 4.9% in new retail unit sales volume during the second quarter and six-month periods ended June 30, 2014, respectively, contributing to decreases of 12.4% and 12.9% in new retail vehicle gross profit during the second quarter and six-month periods ended June 30, 2014, respectively. New retail vehicle gross profit per unit at our General Motors dealerships (excluding Cadillac) increased 11.1% during the second quarter ended June 30, 2014, driving a new vehicle gross profit increase of 10.3% during the second quarter ended June 30, 2014. New retail vehicle gross profit was flat for our General Motors dealerships during the six-month period ended June 30, 2014.

Used Vehicles

Used vehicle revenues are directly affected by a number of factors including the level of manufacturer incentives on new vehicles, the number and quality of trade-ins and lease turn-ins, the availability and pricing of used vehicles acquired at auction and the availability of consumer credit.

In the second quarter and six-month periods ended June 30, 2014, our used vehicle unit volume increased 9.8% and 7.2%, respectively. In the second quarter ended June 30, 2014, we sold an all-time quarterly record 28,514 pre-owned vehicles at our continuing operations stores. Gross profit per used unit decreased 7.6% and 1.8% in the second quarter and six-month periods ended June 30, 2014, respectively. As we move toward our One Sonic-One Experience launch and continue to test our used car pricing model with True Price[®], we believe we will continue to experience gains in

our used vehicle unit volume and used vehicle revenue levels and associated gross profit.

Wholesale vehicle revenue and unit sales volume fluctuations are typically a result of new and used retail vehicle unit volumes that generate additional trade-in vehicle volume that we are not always able to sell as retail used vehicles and choose to sell at auction. Wholesale vehicle revenue and unit sales volume increased in the second quarter ended June 30, 2014 as a result of the increased volume and quality of trade in vehicles driven by the retail vehicle sales volume in the second quarter ended June 30, 2014. The decrease in wholesale vehicle revenue and unit sales volume in the six-month period ended June 30, 2014 was due to our focus on acquiring the right used inventory at our dealerships, pricing the vehicles effectively and turning our used inventory quickly.

Parts, Service and Collision Repair (Fixed Operations)

Parts and service revenue consists of customer requested parts and service orders (customer pay), warranty repairs, wholesale parts and collision repairs. Parts and service revenue is driven by the mix of warranty repairs versus customer pay repairs, available service capacity, vehicle quality, customer loyalty and manufacturer warranty programs.

Fixed Operations gross profit grew at a lower rate than the revenue increase as a result of changes in the mix of revenue between categories for the second quarter and six-month periods ended June 30, 2014. Revenue growth in the lower-margin wholesale parts and internal, sublet and other categories outpaced that of the higher-margin customer pay and warranty categories for both the second quarter and six-month periods ended June 30, 2014. From a rate and volume perspective, for the second quarter ended June 30, 2014, the increase in gross profit of approximately \$4.2 million resulted from a \$6.3 million increase as a result of higher sales volume, offset partially by a \$2.1 million decrease as a result of a 70 basis point decline in the gross margin rate. For the six-month period ended June 30, 2014, the increase in gross profit of approximately \$7.5 million resulted from a \$12.7 million increase as a result of higher sales volume, offset partially by a \$5.2 million decrease as a result of an 80 basis point decline in the gross margin rate.

During the second quarter ended June 30, 2014, our overall Fixed Operations customer pay revenue increased 2.8%. During the six-month period ended June 30, 2014, our overall Fixed Operations customer pay revenue increased 2.4%, in spite of lost days at our Texas, Southeast, and Mid-Atlantic stores due to winter storms during the first

quarter ended March 31, 2014. Our warranty revenue decreased during the second quarter and six-month periods ended June 30, 2014, by 2.9% and 0.9%, respectively, driven primarily by decreases at our BMW stores. Our wholesale parts revenue increased 12.0% and 13.4% during the second quarter and six-month periods ended June 30, 2014, respectively, driven primarily by an increase in bulk wholesale parts sales at some of our large luxury stores in California. Internal, sublet and other revenue increased 6.9% and 6.3% for the second quarter and six-month periods ended June 30, 2014, respectively, due in part to increased trade-in activity as a result of higher levels of retail unit sales volume.

Finance, insurance and other revenues include commissions for arranging vehicle financing and insurance, sales of third-party extended warranties and service contracts for vehicles and other aftermarket products. In connection with vehicle financing, extended warranties, service contracts, other aftermarket products and insurance contracts, we receive commissions from the providers for originating contracts.

F&I revenues and F&I gross profit per unit increased during the second quarter and six-month periods ended June 30, 2014, primarily due to improved penetration rates on service contracts and aftermarket products as a result of increased visibility into performance drivers provided by our proprietary internal software applications. In addition, F&I revenues improved due to increases in total new and used retail (excluding fleet) unit volume of 3.5% and 1.8% for the second quarter and six-month periods ended June 30, 2014, respectively.

Finance contract revenue increased 6.5% and 3.7% for the second quarter and six-month periods ended June 30, 2014, respectively, compared to the prior year period, primarily due to increases in contract volume of 2.8% and 3.2%, respectively. The increase in finance contract revenue in the second quarter ended June 30, 2014 was further driven by an increase in gross profit per contract of 3.6%. Finance contract revenue may experience compression if manufacturers offer attractive financing rates from their captive finance affiliates because we tend to earn lower commissions under these programs.

Table of Contents**SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES****MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Service contract revenue increased 11.2% and 10.7% in the second quarter and six-month periods ended June 30, 2014, respectively. Total service contract volume increased 6.5% and 5.3% for the second quarter and six-month periods ended June 30, 2014, respectively, driven by a service contract penetration rate increase of 90 basis points and 110 basis points for the second quarter and six-month periods ended June 30, 2014, respectively. Gross profit per service contract increased 4.4% and 5.1% for the second quarter and six-month periods ended June 30, 2014, respectively, also driving the increase in service contract revenue.

Other aftermarket contract revenue increased 15.7% and 12.1% in the second quarter and six-month periods ended June 30, 2014, respectively. Other aftermarket contract volume increased 13.0% and 10.8% for second quarter and six-month periods ended June 30, 2014, respectively, driven by other aftermarket contract penetration rate increases of 1,100 basis points for both the second quarter and six-month periods ended June 30, 2014.

Selling, General and Administrative (SG&A) Expenses

SG&A expenses are comprised of four major groups: compensation expense, advertising expense, rent expense and other expense. Compensation expense primarily relates to dealership personnel who are paid a commission or a modest salary plus commission and support personnel who are paid a fixed salary. Commissions paid to dealership personnel typically vary depending on gross profits realized. Due to the salary component for certain dealership and corporate personnel, gross profits and compensation expense do not change in direct proportion to one another. Advertising expense and other expense vary based on the level of actual or anticipated business activity and number of dealerships owned. Rent expense typically varies with the number of dealerships owned, investments made for facility improvements and interest rates. Although not completely correlated, we believe the best way to measure SG&A expenses are as a percentage of gross profit.

Following is information related to our reported SG&A expenses:

Overall SG&A expenses increased in the second quarter and six-month periods ended June 30, 2014, primarily due to increases in unit sales volume driving higher variable compensation costs and the other SG&A expenses discussed below. Overall SG&A expenses as a percentage of gross profit increased 90 and 120 basis points in the second quarter and six-month periods ended June 30, 2014, respectively.

Compensation costs as a percentage of gross profit increased 80 and 60 basis points in the second quarter and six-month periods ended June 30, 2014, respectively, primarily due to variable compensation costs and increased headcount related to demand from higher Fixed Operations activity levels and our stand-alone pre-owned initiative.

Total advertising expense in the second quarter and six-month periods ended June 30, 2014 increased in dollar amount to support higher sales volumes but decreased as a percentage of gross profit primarily as a result of actively managing this expense category and higher levels of gross profit.

Rent expense as a percentage of gross profit decreased 30 and 40 basis points in the second quarter and six-month periods ended June 30, 2014, primarily due to higher gross profit levels and our trend of owning more of our properties.

Other SG&A expenses increased in dollar amount and as a percentage of gross profit during the second quarter and six-month periods ended June 30, 2014, primarily due to increased customer related costs as a result of the higher level of sales activity, IT spending, travel, increased services by outside contractors and training related to our stand-alone pre-owned and customer experience initiatives. Other SG&A expenses were favorably affected by a gain recorded on the disposal of dealerships totaling approximately \$7.3 million, and unfavorably impacted by charges of approximately \$1.4 million related to hail damage and legal settlement expenses.

Included in total SG&A expenses are certain costs related to our recently announced stand-alone pre-owned initiative, which increased SG&A expenses by 90 basis points and 70 basis points as a percentage of gross profit in the second quarter and six-month periods ended June 30, 2014, respectively. Total SG&A expenses were also affected by costs related to the implementation of One Sonic-One Experience which increased expenses by 50 basis points as a percentage of gross profit in both the second quarter and six-month periods ended June 30, 2014.

Depreciation and Amortization

Depreciation and amortization expense increased approximately \$1.3 million, or 9.8%, and \$3.5 million, or 14.0%, during the second quarter and six-month periods ended June 30, 2014, respectively. The increase is primarily related to completed construction projects that were placed in service subsequent to June 30, 2013 and the purchase of dealership properties that were previously leased.

Table of Contents**SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES****MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS*****Interest Expense, Floor Plan***

Interest expense, floor plan for new vehicles incurred by continuing operations increased approximately \$0.6 million, or 10.8%, and \$0.9 million, or 9.0%, in the second quarter and six month periods ended June 30, 2014, respectively. The average new vehicle floor plan notes payable balance for continuing operations increased approximately \$84.0 million and \$90.1 million in the second quarter and six-month periods ended June 30, 2014, respectively, resulting in an increase in new vehicle floor plan interest expense of approximately \$0.4 million and \$0.9 million for the same periods. The average new vehicle floor plan interest rate incurred by continuing dealerships was 1.60% in both the second quarter and six-month periods ended June 30, 2014, compared to 1.93% and 1.91% in the second quarter and six-month periods ended June 30, 2013, respectively, which resulted in a decrease in interest expense of approximately \$1.0 million and \$1.8 million during the second quarter and six-month periods ended June 30, 2014, respectively, offsetting the increases due to higher average floor plan notes payable balances discussed above.

Interest expense, floor plan for used vehicles incurred by continuing operations decreased approximately \$0.2 million, or 39.9%, and \$0.4 million, or 39.7%, in the second quarter and six-month periods ended June 30, 2014, respectively. The average used vehicle floor plan notes payable balance for continuing operations decreased approximately \$14.2 million and \$12.6 million in the second quarter and six-month periods ended June 30, 2014, respectively, resulting in a decrease in used vehicle floor plan interest expense of approximately \$0.1 million and \$0.2 million for the same periods. The average used vehicle floor plan interest rate incurred by continuing dealerships was 1.84% in the second quarter ended June 30, 2014, compared to 2.50% in the second quarter ended June 30, 2013, which resulted in a decrease in interest expense of approximately \$0.1 million, further contributing to the decrease due to the lower average floor plan notes payable balance discussed above. The average used vehicle floor plan interest rate incurred by continuing dealerships was 1.90% in the six-month period ended June 30, 2014, compared 2.62% in the six-month period ended June 30, 2013, which resulted in a decrease in interest expense of approximately \$0.2 million during the six-month period ended June 30, 2014.

Interest expense, other, net, decreased approximately \$0.5 million and \$1.1 million during the second quarter and six-month periods ended June 30, 2014, respectively, primarily due to a decrease in coupon interest related to the net impact of the issuance of the 5.0% Notes and the extinguishment of the 9.0% Senior Subordinated Notes due 2018 (the 9.0% Notes) in May 2013, offset partially by increases in cash flow swap interest and lower amounts of capitalized interest. Included in stated/coupon interest in the second quarter and six-month periods ended June 30, 2013 is approximately \$0.8 million of double-carry interest while both the 5.0% Notes and 9.0% Notes were outstanding in May 2013.

Other Income (Expense), Net

Other income expense, net, decreased approximately \$28.3 million during the second quarter and six-month periods ended June 30, 2014, respectively, primarily due to a charge of approximately \$28.2 million related to the extinguishment of the 9.0% Notes in the second quarter ended June 30, 2013.

Income Taxes

The overall effective tax rate from continuing operations was 39.7% and 39.0% for the second quarter and six-month periods ended June 30, 2014, respectively, and was 39.0% for both the second quarter and six-month periods ended June 30, 2013. We expect the effective tax rate for continuing operations in future quarterly periods to fall within a range of 38.0% to 40.0%.

Discontinued Operations

Significant components of results from discontinued operations were as follows:

	Second Quarter Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
	(In thousands)			
Income (loss) from operations	\$ (181)	\$ 1,400	\$ (770)	\$ 1,366
Gain (loss) on disposal	97	(341)	53	(378)
Lease exit accrual adjustments and charges	(43)	(698)	(375)	(1,365)
Pre-tax income (loss)	\$ (127)	\$ 361	\$ (1,092)	\$ (377)
Total revenues	\$	\$	\$	\$

We recognized a \$1.4 million gain during the second quarter and six-month periods ended June 30, 2013 from business interruption insurance proceeds related to a dealership that was sold in 2012. See the discussion of our adoption of ASU 2014-08 in Note 1, Summary of Significant Accounting Policies, to the accompanying Unaudited Condensed Consolidated Financial Statements. We do not expect significant activity classified as discontinued

operations in the future due to the change in the definition of a discontinued operation. The results of operations for those dealerships and franchises that were classified as discontinued operations as of March 31, 2014 will continue to be reported within discontinued operations in the future. There were no unsold dealerships classified in discontinued operations at March 31, 2014.

Liquidity and Capital Resources

We require cash to fund debt service, operating lease obligations, working capital requirements, facility improvements and other capital improvements, dividends on our Common Stock and to finance acquisitions and otherwise invest in our business. We rely on cash flows from operations, borrowings under our revolving credit and floor plan borrowing arrangements, real estate mortgage financing, asset sales and offerings of debt and equity securities to meet these requirements. We closely monitor our available liquidity and projected future operating results in order to remain in compliance with restrictive covenants under our 2011 Credit Facilities and other debt obligations and lease arrangements. However, our liquidity could be negatively affected if we fail to comply with the financial covenants in our existing debt or lease arrangements. Cash flows provided by our dealerships are derived from various sources. The primary sources include individual consumers, automobile manufacturers, automobile manufacturers' captive finance subsidiaries and finance companies. Disruptions in these cash flows can have a material and adverse impact on our operations and overall liquidity.

Table of Contents**SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES****MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Because the majority of our consolidated assets are held by our dealership subsidiaries, the majority of our cash flows from operations are generated by these subsidiaries. As a result, our cash flows and ability to service our obligations depends to a substantial degree on the cash generated from the operations of these dealership subsidiaries.

We had the following liquidity resources available as of June 30, 2014 and December 31, 2013:

	June 30, 2014	December 31, 2013
	(In thousands)	
Cash and cash equivalents	\$ 2,999	\$ 3,016
Availability under our revolving credit facility	117,348	125,959
Availability under our used floor plan facilities	60,588	27,127
Floor plan deposit balance	95,000	65,000
Total available liquidity resources	\$ 275,935	\$ 221,102

We participate in a program with one of our manufacturer-affiliated finance companies (the floor plan deposit balance in the table above) wherein we maintain a deposit balance with the lender that earns interest based on the lowest interest rate charged on new vehicle floor plan balances held with the lender. This deposit balance is not designated as a pre-payment of notes payable floor plan, nor is it our intent to use this amount to offset principal amounts owed under notes payable floor plan in the future, although we have the right and ability to do so. The deposit balance of \$95.0 million and \$65.0 million as of June 30, 2014 and December 31, 2013, respectively, is classified in other current assets in the accompanying Unaudited Condensed Consolidated Balance Sheets. Changes in this deposit balance are classified as changes in other assets in the cash flows from operating activities section of the accompanying Unaudited Condensed Consolidated Statements of Cash Flows. The interest rebate as a result of this deposit balance is classified as a reduction of interest expense, floor plan, in the accompanying Unaudited Condensed Consolidated Statements of Income. In the second quarter and six-month periods ended June 30, 2014, the reduction in interest expense, floor plan, was approximately \$0.5 million and \$0.9 million, respectively. In the second quarter and six-month periods ended June 30, 2013, the reduction in interest expense, floor plan, was approximately \$0.3 million and \$0.5 million, respectively.

Floor Plan Facilities

We finance our new and certain of our used vehicle inventory through standardized floor plan facilities with manufacturer captive finance companies and a syndicate of manufacturer-affiliated finance companies and commercial banks. These floor plan facilities are due on demand and bear interest at variable rates based on either LIBOR or the prime rate. The weighted average interest rate for our new and used floor plan facilities for continuing operations was 1.61% and 1.62% in the second quarter and six-month periods ended June 30, 2014, and 1.97% and 1.96% in the second quarter and six-month periods ended June 30, 2013, respectively.

We receive floor plan assistance from certain manufacturers. Floor plan assistance received is capitalized in inventory and charged against cost of sales when the associated inventory is sold. We received approximately \$10.0 million and \$19.0 million of floor plan assistance in the second quarter and six-month periods ended June 30, 2014, respectively, and \$10.3 million and \$17.7 million in the second quarter and six-month periods ended June 30, 2013, respectively. We recognized manufacturer floor plan assistance in cost of sales for continuing operations of approximately \$9.6 million and \$18.4 million in the second quarter and six-month periods ended June 30, 2014, respectively, and \$9.7 million and \$17.8 million in the second quarter and six-month periods ended June 30, 2013, respectively. Interest payments under each of our floor plan facilities are due monthly and we are not required to make principal repayments prior to the sale of the vehicles.

Long-Term Debt and Credit Facilities

See Note 6, Long-Term Debt, to the accompanying Unaudited Condensed Consolidated Financial Statements for discussion of our long-term debt and credit facilities and compliance with debt covenants.

On July 23, 2014, we entered into an amendment to the 2011 Credit Facilities, which among other changes (i) extended the maturity to August 15, 2019 from a previous maturity date of August 15, 2016, (ii) increased by \$50.0 million the availability under the 2011 Revolving Credit Facility to \$225.0 million, and (iii) increased by \$195.0 million the availability under the 2011 Floor Plan Facilities to \$800.0 million, resulting in an aggregate increase of availability under the 2011 Credit Facilities of \$245.0 million.

Dealership Acquisitions and Dispositions

We acquired one luxury franchise during the six-month period ended June 30, 2014 for an aggregate purchase price of approximately \$2.6 million and disposed of three luxury franchises which generated net cash from disposition of approximately \$15.2 million.

Capital Expenditures

Our capital expenditures include the purchase of land and buildings, construction of new dealerships and collision repair centers, building improvements and equipment purchased for use in our dealerships. We selectively construct or improve new dealership facilities to maintain compliance with manufacturers' image requirements. We typically finance these projects through new mortgages, or, alternatively, through our credit facilities. We also fund these improvements through cash flows from operations.

Capital expenditures in the second quarter and six-month periods ended June 30, 2014 were approximately \$27.0 million and \$48.6 million, respectively. Of this amount, approximately \$11.3 million and \$18.5 million was related to facility construction projects in the second quarter and six-month periods ended June 30, 2014, respectively. Real estate acquisitions accounted for approximately \$6.4 million and \$9.7 million of capital expenditures in the projects in the second quarter and six-month periods ended June 30, 2014, and fixed assets utilized in our dealership operations accounted for the remaining \$9.3 million and \$20.4 million for the second quarter and six-month periods ended June 30, 2014, respectively.

All of the capital expenditures in the second quarter and six-month periods ended June 30, 2014, were funded through cash from operations and use of our credit facilities. In the six-month period ended June 30, 2014, we issued mortgages totaling approximately \$40.4 million on real estate purchased in prior periods. As of June 30, 2014, commitments for facilities construction projects totaled approximately \$43.2 million. We expect investments related to capital expenditures to be partly dependent upon our overall liquidity position and the availability of mortgage financing to fund significant capital projects.

Stock Repurchase Program

Our Board of Directors has authorized us to repurchase shares of our Class A Common Stock. Historically, we have used our share repurchase authorization to offset dilution caused by the exercise of stock options or the vesting of equity compensation awards and to maintain our desired capital structure. During the second quarter and six-month periods ended June 30, 2014, we repurchased approximately 0.1 million shares and 0.5 million shares, respectively, of our Class A Common Stock for approximately \$2.8 million and \$11.2 million, respectively, in open-market transactions and in connection with tax withholdings on the vesting of equity compensation awards. During the second quarter and six-month periods ended June 30, 2013, we repurchased approximately 0.2 million shares and 0.6 million shares, respectively, of our Class A Common Stock, for approximately \$5.0 million and \$14.2 million, respectively, in open-market transactions and in connection with tax withholdings on the vesting of equity compensation awards. As of June 30, 2014, our total remaining repurchase authorization was approximately \$121.4 million. Under our 2011

Credit Facilities, share repurchases are permitted to the extent that no event of default exists and we have the pro forma liquidity amount required by the repurchase test (as defined in the 2011 Credit Facilities) and the result of such test has been accepted by the administrative agent.

Our share repurchase activity is subject to the business judgment of our Board of Directors and management, taking into consideration our historical and projected results of operations, financial condition, cash flows, capital requirements, covenant compliance and economic and other factors considered relevant. These factors are considered each quarter and will be scrutinized as our Board of Directors and management determine our share repurchase policy in the future.

Dividends

During the second quarter ended June 30, 2014, our Board of Directors approved a cash dividend of \$0.025 per share on all outstanding shares of Class A and Class B Common Stock as of June 13, 2014 to be paid on July 15, 2014. Subsequent to June 30, 2014, our Board of Directors approved a cash dividend on all outstanding shares of Class A and Class B Common Stock of \$0.025 per share for stockholders of record on September 15, 2014 to be paid on October 15, 2014. Under our 2011 Credit Facilities, dividends are permitted to the extent that no event of default exists and we are in compliance with the financial covenants, including pro forma liquidity requirements, contained therein. The indentures governing our outstanding 5.0% Notes and 7.0% Notes contain restrictions on our ability to pay dividends. There is no guarantee that additional dividends will be declared and paid at any time in the future. See Note 6, Long-Term Debt, to the accompanying Unaudited Condensed Consolidated Financial Statements for a description of restrictions on the payment of dividends.

Cash Flows

In the six-month period ended June 30, 2014, net cash provided by operating activities was approximately \$53.6 million. This provision of cash was comprised primarily of cash inflows related to operating profits, decreases in receivables and increases in notes payable floor plan trade, offset partially by increases in inventories and other assets. In the six-month period ended June 30, 2013, net cash provided by operating activities was approximately \$30.3 million. This provision of cash was comprised primarily of cash inflows related to operating profits, decreases in receivables and increases in notes payable floor plan trade, offset partially by increases in inventories.

Net cash used in investing activities in the six-month period ended June 30, 2014 was approximately \$19.6 million. This use of cash was primarily comprised of purchases of land, property and equipment, offset partially by proceeds from sales of dealerships. Net cash used in investing activities in the six-month period ended June 30, 2013 was approximately \$88.4 million. This use of cash was primarily comprised of purchases of land, property and equipment, including the purchase of dealership facilities that were previously leased.

Net cash used in financing activities in the six-month period ended June 30, 2014 was approximately \$34.1 million. This use of cash was primarily related to a decrease in notes payable floor plan non-trade and purchases of treasury stock, offset partially by proceeds from issuance of mortgage-related long-term debt. Net cash provided by financing activities in the six-month period ended June 30, 2013 was approximately \$57.9 million. This provision of cash was primarily related to proceeds from issuance of long-term debt, offset partially by repurchase of debt securities and purchases of treasury stock.

We arrange our inventory floor plan financing through both manufacturer captive finance companies and a syndicate of manufacturer captive finance companies and commercial banks. Our floor plan financed with manufacturer captives is recorded as trade floor plan liabilities (with the resulting change being reflected as operating cash flows). Our dealerships that obtain floor plan financing from a syndicate of manufacturer captives and commercial banks record their obligation as non-trade floor plan liabilities (with the resulting change being reflected as financing cash flows).

Due to the presentation differences for changes in trade floor plan and non-trade floor plan in the Unaudited Condensed Consolidated Statements of Cash Flows, decisions made by us to move dealership floor plan financing arrangements from one finance source to another may cause significant variations in operating and financing cash flows without affecting our overall liquidity, working capital or cash flow. Net cash used in combined trade and non-trade floor plan financing was approximately \$32.5 million in the six-month period ended June 30, 2014 and net cash provided was approximately \$9.6 million in the six-month period ended June 30, 2013. Accordingly, if all changes in floor plan notes payable were classified as an operating activity, the result would have been net cash used in operating activities of approximately \$2.0 million in the six-month period ended June 30, 2014 and net cash provided of approximately \$27.8 million in the six-month period ended June 30, 2013.

Guarantees and Indemnification Obligations

In connection with the operation and disposition of dealership franchises, we have entered into various guarantees and indemnification obligations. See Note 8, Contingencies, to the accompanying Unaudited Condensed Consolidated Financial Statements. See also Management's Discussion and Analysis of Financial Condition and Results of Operations and Note 12, Commitments and Contingencies, of the Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2013.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Future Liquidity Outlook

We believe our best source of liquidity for operations and debt service remains cash flows generated from operations combined with our availability of borrowings under the 2011 Credit Facilities (or any replacements thereof), real estate mortgage financing, selected dealership and other asset sales and our ability to raise funds in the capital markets through offerings of debt or equity securities. Because the majority of our consolidated assets are held by our dealership subsidiaries, the majority of our cash flows from operations are generated by these subsidiaries. As a result, our cash flows and ability to service debt depends to a substantial degree on the results of operations of these subsidiaries and their ability to provide us with cash. We expect to generate sufficient cash flow to fund our debt service, working capital requirements and operating requirements for the next twelve months and for the foreseeable future.

Off-Balance Sheet Arrangements

See Management's Discussion and Analysis of Financial Condition and Results of Operations – Off-Balance Sheet Arrangements in our Annual Report on Form 10-K for the year ended December 31, 2013.

Seasonality

Our operations are subject to seasonal variations. The first quarter normally contributes less operating profit than the second, third and fourth quarters. Weather conditions, the timing of manufacturer incentive programs and model changeovers cause seasonality and may adversely affect vehicle demand, and consequently, our profitability. Comparatively, parts and service demand remains stable throughout the year.

Table of Contents**SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES****Item 3: Quantitative and Qualitative Disclosures About Market Risk.*****Interest Rate Risk***

Our variable rate floor plan facilities, 2011 Revolving Credit Facility borrowings and other variable rate notes expose us to risks caused by fluctuations in the applicable interest rates. The total outstanding balance of such variable instruments after considering the effect of our interest rate swaps (see below) was approximately \$910.9 million at June 30, 2014. A change of 100 basis points in the underlying interest rate would have caused a change in interest expense of approximately \$4.6 million in the six-month period ended June 30, 2014. Of the total change in interest expense, approximately \$4.3 million would have resulted from the floor plan facilities.

In addition to our variable rate debt, certain of our dealership lease facilities have monthly lease payments that fluctuate based on LIBOR interest rates. An increase in interest rates of 100 basis points would not have had a significant impact on rent expense in the second quarter and six-month periods ended June 30, 2014 due to the leases containing LIBOR floors which were above the LIBOR rate during the second quarter and six-month periods ended June 30, 2014.

We also have various cash flow swaps to effectively convert a portion of our LIBOR-based variable rate debt to a fixed rate. Under the terms of these cash flow swaps, interest rates reset monthly. The fair value of these swap positions at June 30, 2014 was a net liability of approximately \$14.9 million, with \$10.5 million included in other accrued liabilities and \$5.9 million included in other long-term liabilities, offset partially by an asset of approximately \$1.5 million included in other assets in the accompanying Unaudited Condensed Consolidated Balance Sheets. Under the terms of these cash flow swaps, Sonic will receive and pay interest based on the following:

Notional				
Amount	Pay Rate	Receive Rate (1)	Maturing Date	
(In millions)				
\$ 2.9	7.100%	one-month LIBOR + 1.50%	July 10, 2017

- (1) The one-month LIBOR rate was 0.152% at June 30, 2014.
- (2) Changes in fair value are recorded through earnings.
- (3) The effective date of these forward-starting swaps is July 1, 2015.

- (5) The effective date of these forward-starting swaps is July 3, 2017.

Foreign Currency Risk

We purchase certain of our new vehicle and parts inventories from foreign manufacturers. Although we purchase our inventories in U.S. Dollars, our business is subject to foreign exchange rate risk that may influence automobile manufacturers' ability to provide their products at competitive prices in the United States. To the extent that we cannot recapture this volatility in prices charged to customers or if this volatility negatively impacts consumer demand for our products, this volatility could adversely affect our future operating results.

Item 4: Controls and Procedures.

Disclosure Controls and Procedures Under the supervision and with the participation of our management, including our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), we evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of June 30, 2014. Based upon that evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of June 30, 2014.

Changes in Internal Control over Financial Reporting There has been no change in our internal control over financial reporting during the second quarter ended June 30, 2014, that has materially affected, or is reasonably likely to materially affect our internal control over financial reporting.

Because of its inherent limitations, internal control over financial reporting can provide only reasonable assurance that the objectives of the control system are met and may not prevent or detect misstatements. In addition, any evaluation of the effectiveness of internal controls over financial reporting in future periods is subject to risk that those internal controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Forward-looking Statements

This Quarterly Report on Form 10-Q contains, and written or oral statements made from time to time by us or by our authorized officers may contain, forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements address our future objectives, plans and goals, as well as our intent, beliefs and current expectations regarding future operating performance, results and events, and can generally be identified by words such as may, will, should, believe, expect, anticipate, intend, plan, foresee and other similar words or phrases.

These forward-looking statements are based on our current estimates and assumptions and involve various risks and uncertainties. As a result, you are cautioned that these forward-looking statements are not guarantees of future performance, and that actual results could differ materially from those projected in these forward-looking statements. Factors which may cause actual results to differ materially from our projections include those risks described in Item 1A of Part I of our Annual Report on Form 10-K for the year ended December 31, 2013 and elsewhere in this report, as well as:

the number of new and used cars sold in the United States as compared to our expectations and the expectations of the market;

our ability to generate sufficient cash flows or obtain additional financing to fund capital expenditures, our share repurchase program, dividends on our Common Stock, acquisitions and general operating activities;

our business and growth strategies, including references to our stand-alone pre-owned store initiative and One Sonic-One Experience initiative;

the reputation and financial condition of vehicle manufacturers whose brands we represent, the financial incentives vehicle manufacturers offer and their ability to design, manufacture, deliver and market their vehicles successfully;

our relationships with manufacturers, which may affect our ability to obtain desirable new vehicle models in inventory or complete additional acquisitions;

adverse resolutions of one or more significant legal proceedings against us or our dealerships;

changes in laws and regulations governing the operation of automobile franchises, accounting standards, taxation requirements and environmental laws;

general economic conditions in the markets in which we operate, including fluctuations in interest rates, employment levels, the level of consumer spending and consumer credit availability;

high competition in the automotive retailing industry, which not only creates pricing pressures on the products and services we offer, but also on businesses we may seek to acquire;

our ability to successfully integrate potential future acquisitions; and

the rate and timing of overall economic recovery or decline.

These forward-looking statements speak only as of the date of this report or when made, and we undertake no obligation to revise or update these statements to reflect subsequent events or circumstances.
