UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549
FORM 10-Q

x **Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934**
For the quarterly period ended September 30, 2014

Commission File No. 001-14817

PACCAR Inc

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

91-0351110
(I.R.S. Employer Identification No.)

777 - 106th Ave. N.E., Bellevue, WA
(Address of principal executive offices)

98004
(Zip Code)

(425) 468-7400

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Edgar Filing: PACCAR INC - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Common Stock, \$1 par value 354,104,279 shares as of October 31, 2014

NOTE A - Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014. For further information, refer to the consolidated financial statements and footnotes included in PACCAR Inc's (PACCAR or the Company) Annual Report on Form 10-K for the year ended December 31, 2013.

Earnings per Share: Basic earnings per common share are computed by dividing earnings by the weighted average number of common shares outstanding, plus the effect of any participating securities. Diluted earnings per common share are computed assuming that all potentially dilutive securities are converted into common shares under the treasury stock method. The dilutive and antidilutive options are shown separately in the table below.

	Three Months Ended		Nine Months Ended	
	September 30		September 30	
	2014	2013	2014	2013
Additional shares	1,112,000	994,000	1,124,000	907,000
Antidilutive options	655,000	783,000	664,000	873,000

New Accounting Pronouncements: In June 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-12, *Compensation - Stock Compensation (Topic 718): Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved After the Requisite Service Period*. The amendment in this ASU requires that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. As such, the performance target should not be reflected in estimating the grant-date fair value of the award. Compensation costs should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the period(s) for which the requisite service has been rendered. This ASU is effective for annual periods and interim periods beginning after December 15, 2015 and early adoption is permitted. This amendment may be applied (a) prospectively to all awards granted or modified after the effective date or (b) retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter. The Company does not expect the adoption of the ASU to have a material impact on its consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers*. This ASU amends the existing accounting standards for revenue recognition. Under the new revenue recognition model, a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The ASU is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that

reporting period. Early adoption is not permitted. The amendment may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of initial application. The Company is currently evaluating the transition alternatives and impact on the Company's consolidated financial statements.

In July 2013, the FASB issued ASU 2013-11, *Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists*. This ASU requires an unrecognized tax benefit, or a portion of an unrecognized tax benefit, to be presented in the consolidated financial statements as a reduction to a deferred tax asset for a net

Table of Contents

PACCAR Inc Form 10-Q

Notes to Consolidated Financial Statements (Unaudited)

(Millions, Except Share Amounts)

operating loss carryforward, a similar tax loss, or a tax credit carryforward if available under the applicable tax jurisdiction. The ASU was effective for annual periods beginning after December 15, 2013 and interim periods within those annual periods. The Company adopted ASU 2013-11 in the first quarter of 2014; the implementation of this amendment did not have a material impact on the Company's consolidated financial statements.

NOTE B - Investments in Marketable Debt Securities

The Company's investments in marketable debt securities are classified as available-for-sale. These investments are stated at fair value with any unrealized gains or losses, net of tax, included as a component of accumulated other comprehensive (loss) income (AOCI).

The Company utilizes third-party pricing services for all of its marketable debt security valuations. The Company reviews the pricing methodology used by the third-party pricing services including the manner employed to collect market information. On a quarterly basis, the Company also performs review and validation procedures on the pricing information received from the third-party providers. These procedures help ensure that the fair value information used by the Company is determined in accordance with applicable accounting guidance.

The Company evaluates its investment in marketable debt securities at the end of each reporting period to determine if a decline in fair value is other than temporary. Realized losses are recognized upon management's determination that a decline in fair value is other than temporary. The determination of other-than-temporary impairment is a subjective process, requiring the use of judgments and assumptions regarding the amount and timing of recovery. The Company reviews and evaluates its investments at least quarterly to identify investments that have indications of other-than-temporary impairments. It is reasonably possible that a change in estimate could occur in the near term relating to other-than-temporary impairment. Accordingly, the Company considers several factors when evaluating debt securities for other-than-temporary impairment, including whether the decline in fair value of the security is due to increased default risk for the specific issuer or market interest rate risk.

In assessing default risk, the Company considers the collectability of principal and interest payments by monitoring changes to issuers' credit ratings, specific credit events associated with individual issuers as well as the credit ratings of any financial guarantor, and the extent and duration to which amortized cost exceeds fair value.

In assessing market interest rate risk, including benchmark interest rates and credit spreads, the Company considers its intent for selling the securities and whether it is more likely than not the Company will be able to hold these securities until the recovery of any unrealized losses.

Table of Contents**PACCAR Inc Form 10-Q****Notes to Consolidated Financial Statements (Unaudited)**

(Millions, Except Share Amounts)

Marketable debt securities at September 30, 2014 and December 31, 2013 consisted of the following:

	Amortized Cost	Unrealized Gains	Unrealized Losses	Fair Value
At September 30, 2014				
U.S. tax-exempt securities	\$ 359.0	\$ 1.3	\$.1	\$ 360.2
U.S. corporate securities	61.1	.3		61.4
U.S. government and agency securities	5.4			5.4
Non-U.S. corporate securities	589.2	4.1		593.3
Non-U.S. government securities	186.0	1.7	.2	187.5
Other debt securities	112.6	.2		112.8
	\$ 1,313.3	\$ 7.6	\$.3	\$ 1,320.6

	Amortized Cost	Unrealized Gains	Unrealized Losses	Fair Value
At December 31, 2013				
U.S. tax-exempt securities	\$ 214.9	\$ 1.2		\$ 216.1
U.S. corporate securities	78.2	.1	\$.1	78.2
U.S. government and agency securities	5.5			5.5
Non-U.S. corporate securities	608.5	1.2	.4	609.3
Non-U.S. government securities	217.3	.7	.5	217.5
Other debt securities	140.5	.4		140.9
	\$ 1,264.9	\$ 3.6	\$ 1.0	\$ 1,267.5

The cost of marketable debt securities is adjusted for amortization of premiums and accretion of discounts to maturity. Amortization, accretion, interest and dividend income and realized gains and losses are included in investment income. The cost of securities sold is based on the specific identification method. Gross realized gains were \$.9 and \$1.7 for the nine months ended September 30, 2014 and 2013, respectively, and gross realized losses were \$.1 and \$.5 for the nine months ended September 30, 2014 and 2013, respectively.

Marketable debt securities with continuous unrealized losses and their related fair values were as follows:

September 30, 2014		December 31, 2013	
Less than Twelve Months	Twelve Months or Greater	Less than Twelve Months	Twelve Months or Greater

Edgar Filing: PACCAR INC - Form 10-Q

Fair value	\$ 163.2	\$ 26.8	\$ 388.3	\$ 28.4
Unrealized losses	.1	.2	.9	.1

For the investment securities in gross unrealized loss positions identified above, the Company does not intend to sell the investment securities. It is more likely than not that the Company will not be required to sell the investment securities before recovery of the unrealized losses, and the Company expects that the contractual principal and interest will be received on the investment securities. As a result, the Company recognized no other-than-temporary impairments during the periods presented.

Table of Contents**PACCAR Inc Form 10-Q****Notes to Consolidated Financial Statements (Unaudited)**

(Millions, Except Share Amounts)

Contractual maturities on marketable debt securities at September 30, 2014 were as follows:

	Amortized Cost	Fair Value
Maturities:		
Within one year	\$ 474.2	\$ 474.8
One to five years	839.0	845.7
More than ten years	.1	.1
	\$ 1,313.3	\$ 1,320.6

NOTE C - Inventories

Inventories are stated at the lower of cost or market. Cost of inventories in the U.S. is determined principally by the last-in, first-out (LIFO) method. Cost of all other inventories is determined principally by the first-in, first-out (FIFO) method.

Inventories include the following:

	September 30 2014	December 31 2013
Finished products	\$ 589.0	\$ 440.6
Work in process and raw materials	572.4	545.2
	1,161.4	985.8
Less LIFO reserve	(173.3)	(172.2)
	\$ 988.1	\$ 813.6

Under the LIFO method of accounting (used for approximately 42% of September 30, 2014 inventories), an actual valuation can be made only at the end of each year based on year-end inventory levels and costs. Accordingly, interim valuations are based on management's estimates of those year-end amounts.

NOTE D - Finance and Other Receivables

Finance and other receivables include the following:

	September 30	December 31
	2014	2013
Loans	\$ 3,944.1	\$ 3,977.4
Direct financing leases	2,762.5	2,680.8
Sales-type finance leases	905.2	921.1
Dealer wholesale financing	1,643.0	1,616.5
Operating lease and other trade receivables	103.3	121.3
Unearned interest: Finance leases	(377.6)	(375.7)
	\$ 8,980.5	\$ 8,941.4
Less allowance for losses:		
Loans and leases	(109.8)	(110.9)
Dealer wholesale financing	(10.1)	(10.4)
Operating lease and other trade receivables	(8.0)	(8.0)
	\$ 8,852.6	\$ 8,812.1

Table of Contents**PACCAR Inc Form 10-Q****Notes to Consolidated Financial Statements (Unaudited)**

(Millions, Except Share Amounts)

Recognition of interest income and rental revenue is suspended (put on non-accrual status) when the receivable becomes more than 90 days past the contractual due date or earlier if some other event causes the Company to determine that collection is not probable. Accordingly, no finance receivables more than 90 days past due were accruing interest at September 30, 2014 or December 31, 2013. Recognition is resumed if the receivable becomes current by the payment of all amounts due under the terms of the existing contract and collection of remaining amounts is considered probable (if not contractually modified) or if the customer makes scheduled payments for three months and collection of remaining amounts is considered probable (if contractually modified). Payments received while the finance receivable is on non-accrual status are applied to interest and principal in accordance with the contractual terms.

Allowance for Credit Losses

The Company continuously monitors the payment performance of its finance receivables. For large retail finance customers and dealers with wholesale financing, the Company regularly reviews their financial statements and makes site visits and phone contact as appropriate. If the Company becomes aware of circumstances that could cause those customers or dealers to face financial difficulty, whether or not they are past due, the customers are placed on a watch list.

The Company modifies loans and finance leases as a normal part of its Financial Services operations. The Company may modify loans and finance leases for commercial reasons or for credit reasons. Modifications for commercial reasons are changes to contract terms for customers that are not considered to be in financial difficulty. Modifications for credit reasons are changes to contract terms for customers considered to be in financial difficulty. The Company's modifications typically result in granting more time to pay the contractual amounts owed and charging a fee and interest for the term of the modification.

On average, modifications extended contractual terms by approximately four months in 2014 and six months in 2013 and did not have a significant effect on the weighted average term or interest rate of the total portfolio at September 30, 2014 and December 31, 2013.

When considering whether to modify customer accounts for credit reasons, the Company evaluates the creditworthiness of the customers and modifies those accounts that the Company considers likely to perform under the modified terms. When the Company modifies loans and finance leases for credit reasons and grants a concession, the modifications are classified as troubled debt restructurings (TDRs). The Company does not typically grant credit modifications for customers that do not meet minimum underwriting standards since the Company normally repossesses the financed equipment in these circumstances. When such modifications do occur, they are considered TDRs.

The Company has developed a systematic methodology for determining the allowance for credit losses for its two portfolio segments, retail and wholesale. The retail segment consists of retail loans and direct and sales-type finance leases, net of unearned interest. The wholesale segment consists of truck inventory financing loans to dealers that are collateralized by trucks and other collateral. The wholesale segment generally has less risk than the retail segment.

Wholesale receivables generally are shorter in duration than retail receivables, and the Company requires monthly reporting of the wholesale dealer's financial condition, conducts periodic audits of the trucks being financed and in many cases, obtains personal guarantees or other security such as dealership assets. In determining the allowance for credit losses, retail loans and finance leases are evaluated together since they relate to a similar customer base, their contractual terms require regular payment of principal and interest generally over 36 to 60 months and they are secured by the same type of collateral. The allowance for credit losses consists of both specific and general reserves.

The Company individually evaluates certain finance receivables for impairment. Finance receivables that are evaluated individually for impairment consist of all wholesale accounts and certain large retail accounts with past due balances or otherwise determined to be at a higher risk of loss. A finance receivable is impaired if it is considered probable the Company will be unable to collect all contractual interest and principal payments as scheduled. In addition, all retail loans and leases which have been classified as TDRs

Table of Contents**PACCAR Inc Form 10-Q****Notes to Consolidated Financial Statements (Unaudited)**

(Millions, Except Share Amounts)

and all customer accounts over 90 days past due are considered impaired. Generally, impaired accounts are on non-accrual status. Impaired accounts classified as TDRs which have been performing for 90 consecutive days are placed on accrual status if it is deemed probable that the Company will collect all principal and interest payments.

Impaired receivables are generally considered collateral dependent. Large balance retail and all wholesale impaired receivables are individually evaluated to determine the appropriate reserve for losses. The determination of reserves for large balance impaired receivables considers the fair value of the associated collateral. When the underlying collateral fair value exceeds the Company's recorded investment, no reserve is recorded. Small balance impaired receivables with similar risk characteristics are evaluated as a separate pool to determine the appropriate reserve for losses using the historical loss information discussed below.

For finance receivables that are not individually impaired, the Company collectively evaluates and determines the general allowance for credit losses for both retail and wholesale receivables based on historical loss information, using past due account data and current market conditions. Information used includes assumptions regarding the likelihood of collecting current and past due accounts, repossession rates, the recovery rate on the underlying collateral based on used truck values and other pledged collateral or recourse. The Company has developed a range of loss estimates for each of its country portfolios based on historical experience, taking into account loss frequency and severity in both strong and weak truck market conditions. A projection is made of the range of estimated credit losses inherent in the portfolio from which an amount is determined as probable based on current market conditions and other factors impacting the creditworthiness of the Company's borrowers and their ability to repay. After determining the appropriate level of the allowance for credit losses, a provision for losses on finance receivables is charged to income as necessary to reflect management's estimate of incurred credit losses, net of recoveries, inherent in the portfolio.

In determining the fair value of the collateral, the Company uses a pricing matrix and categorizes the fair value as Level 2 in the hierarchy of fair value measurement. The pricing matrix is reviewed quarterly and updated as appropriate. The pricing matrix considers the make, model and year of the equipment as well as recent sales prices of comparable equipment through wholesale channels to the Company's dealers (principal market). The fair value of the collateral also considers the overall condition of the equipment.

Accounts are charged-off against the allowance for credit losses when, in the judgment of management, they are considered uncollectible (generally upon repossession of the collateral). Typically the timing between the repossession and charge-off is not significant. In cases where repossession is delayed (e.g., for legal proceedings), the Company records partial charge-offs. The charge-off is determined by comparing the fair value of the collateral, less cost to sell, to the recorded investment.

For the following credit quality disclosures, finance receivables are classified as dealer wholesale, dealer retail and customer retail segments. The dealer wholesale segment consists of truck inventory financing to PACCAR dealers. The dealer retail segment consists of loans and leases to participating dealers and franchises that use the proceeds to fund customers' acquisition of commercial vehicles and related equipment. The customer retail segment consists of loans and leases directly to customers for the acquisition of commercial vehicles and related equipment. Customer retail receivables are further segregated between fleet and owner/operator classes. The fleet class consists of customer

retail accounts operating more than five trucks. All other customer retail accounts are considered owner/operator. Each individual class has similar measurement attributes, risk characteristics and common methods to monitor and assess credit risk.

Customer retail - owner/operator	.1		.3	.4
	\$.4	\$.5	\$ 1.3	\$ 2.3

Credit Quality

The Company's customers are principally concentrated in the transportation industry in North America, Europe and Australia. The Company's portfolio is diversified over a large number of customers and dealers with no single customer or dealer balances representing over 5% of the total portfolio. The Company retains as collateral a security interest in the related equipment.

At the inception of each contract, the Company considers the credit risk based on a variety of credit quality factors including prior payment experience, customer financial information, credit-rating agency ratings, loan-to-value ratios and other internal metrics. On an ongoing basis, the Company monitors credit quality based on past due status and collection experience as there is a meaningful correlation between the past due status of customers and the risk of loss.

The Company has three credit quality indicators: performing, watch and at-risk. Performing accounts pay in accordance with the contractual terms and are not considered high-risk. Watch accounts include accounts 31 to 90 days past due and large accounts that are performing but are considered to be high-risk. Watch accounts are not impaired. At-risk accounts are accounts that are impaired, including TDRs, accounts over 90 days past due and other accounts on non-accrual status. The tables below summarize the Company's finance receivables by credit quality indicator and portfolio class.

	Dealer		Customer Retail		Total
	Wholesale	Retail	Fleet	Owner/ Operator	
At September 30, 2014					
Performing	\$ 1,611.0	\$ 1,511.3	\$ 4,480.4	\$ 1,158.9	\$ 8,761.6
Watch	16.0	1.5	14.4	8.2	40.1

At-risk	16.0	48.6	10.9	75.5
	\$ 1,643.0	\$ 1,512.8	\$ 4,543.4	\$ 1,178.0
				\$ 8,877.2

At-risk	8.5		33.3	8.8	50.6
	\$ 1,616.5	\$ 1,525.6	\$ 4,442.5	\$ 1,235.5	\$ 8,820.1

- 15 -

Table of Contents**PACCAR Inc Form 10-Q****Notes to Consolidated Financial Statements (Unaudited)**

(Millions, Except Share Amounts)

The tables below summarize the Company's finance receivables by aging category. In determining past due status, the Company considers the entire contractual account balance past due when any installment is over 30 days past due. Substantially all customer accounts that were greater than 30 days past due prior to credit modification became current upon modification for aging purposes.

	Dealer		Customer Retail		Total
	Wholesale	Retail	Fleet	Owner/ Operator	
At September 30, 2014					
Current and up to 30 days past due	\$ 1,631.8	\$ 1,512.8	\$ 4,516.1	\$ 1,161.7	\$ 8,822.4
31 - 60 days past due	6.2		16.4	7.7	30.3
Greater than 60 days past due	5.0		10.9	8.6	24.5
	\$ 1,643.0	\$ 1,512.8	\$ 4,543.4	\$ 1,178.0	\$ 8,877.2

	Dealer		Customer Retail		Total
	Wholesale	Retail	Fleet	Owner/ Operator	
At December 31, 2013					
Current and up to 30 days past due	\$ 1,611.7	\$ 1,525.6	\$ 4,417.5	\$ 1,221.4	\$ 8,776.2
31 - 60 days past due	1.7		9.2	6.3	17.2
Greater than 60 days past due	3.1		15.8	7.8	26.7
	\$ 1,616.5	\$ 1,525.6	\$ 4,442.5	\$ 1,235.5	\$ 8,820.1

Troubled Debt Restructurings

The balance of TDRs was \$41.4 and \$27.6 at September 30, 2014 and December 31, 2013, respectively. At modification date, the pre-modification and post-modification recorded investment balances for finance receivables modified during the period by portfolio class are as follows:

	Three Months Ended September 30, 2014 Recorded Investment		Nine Months Ended September 30, 2014 Recorded Investment	
	Pre-Modification	Post-Modification	Pre-Modification	Post-Modification
Fleet	\$ 18.7	\$ 18.5	\$ 24.1	\$ 23.9
Owner/operator	.4	.4	1.7	1.7

	\$ 19.1		\$ 18.9		\$ 25.8		\$ 25.6	
	Three Months Ended September 30, 2013 Recorded Investment				Nine Months Ended September 30, 2013 Recorded Investment			
	Pre-Modification		Post-Modification		Pre-Modification		Post-Modification	
Fleet	\$	1.5	\$	1.3	\$	9.2	\$	8.9
Owner/operator		.7		.7		1.4		1.4
	\$	2.2	\$	2.0	\$	10.6	\$	10.3

The effect on the allowance for credit losses from such modifications was not significant at September 30, 2014 and 2013.

Table of Contents**PACCAR Inc Form 10-Q****Notes to Consolidated Financial Statements (Unaudited)**

(Millions, Except Share Amounts)

TDRs modified during the previous twelve months that subsequently defaulted (i.e., became more than 30 days past due) during the period by portfolio class are as follows:

Nine Months Ended September 30,	2014	2013
Fleet	\$ 1.6	\$ 2.5
Owner/operator	.9	.2
	\$ 2.5	\$ 2.7

The TDRs that subsequently defaulted did not significantly impact the Company's allowance for credit losses at September 30, 2014 and 2013.

Repossessions

When the Company determines a customer is not likely to meet its contractual commitments, the Company repossesses the vehicles which serve as collateral for the loans, finance leases and equipment under operating lease. The Company records the vehicles as used truck inventory included in Financial Services other assets on the Consolidated Balance Sheets. The balance of repossessed inventory at September 30, 2014 and December 31, 2013 was \$18.4 and \$13.7, respectively. Proceeds from the sales of repossessed assets were \$44.3 and \$44.5 for the nine months ended September 30, 2014 and 2013, respectively. These amounts are included in proceeds from asset disposals in the Condensed Consolidated Statements of Cash Flows. Write-downs of repossessed equipment on operating leases are recorded as impairments and included in Financial Services depreciation and other expense on the Consolidated Statements of Comprehensive Income.

NOTE E - Product Support Liabilities

Product support liabilities are estimated future payments related to product warranties, optional extended warranties and repair and maintenance (R&M) contracts. The Company generally offers one year warranties covering most of its vehicles and related aftermarket parts. For vehicles equipped with engines manufactured by PACCAR, the Company generally offers two year warranties on the engine. Specific terms and conditions vary depending on the product and the country of sale. Optional extended warranty and R&M contracts can be purchased for periods which generally range up to five years. Warranty expenses and reserves are estimated and recorded at the time products or contracts are sold based on historical data regarding the source, frequency and cost of claims, net of any recoveries. The Company periodically assesses the adequacy of its recorded liabilities and adjusts them as appropriate to reflect actual experience. Revenue from extended warranty and R&M contracts is deferred and recognized to income generally on a straight-line basis over the contract period. Warranty and R&M costs on these contracts are recognized as incurred.

Changes in product support liabilities are summarized as follows:

	2014	2013
Balance at January 1	\$ 630.5	\$ 540.7
Cost accruals and revenue deferrals	490.0	343.3
Payments and revenue recognized	(335.0)	(300.7)
Currency translation	(27.2)	4.6
Balance at September 30	\$ 758.3	\$ 587.9

- 17 -

Table of Contents**PACCAR Inc Form 10-Q****Notes to Consolidated Financial Statements (Unaudited)**

(Millions, Except Share Amounts)

In prior periods, cost accruals and revenue deferrals for the R&M contracts were netted against payments and revenue recognized instead of showing these amounts gross. The netting of these amounts affected only the disclosure in Note E; there was no effect on the Consolidated Statements of Comprehensive Income, the Consolidated Balance Sheets or the Condensed Consolidated Statements of Cash Flows. The table below presents Cost accruals and revenue deferrals and Payments and revenue recognized as previously reported in Note E and as revised:

	Nine Months Ended September 30, 2013	
	Previously Reported	Revised
Cost accruals and revenue deferrals	\$ 238.0	\$ 343.3
Payments and revenue recognized	(195.4)	(300.7)

Stock Compensation Plans

Stock-based compensation expense was \$2.5 and \$12.9 for the three and nine months ended September 30, 2014, respectively, and \$2.7 and \$11.2 for the three and nine months ended September 30, 2013, respectively. Realized tax benefits related to the excess of deductible amounts over expense recognized amounted to \$.5 and \$2.0 for the three and nine months ended September 30, 2014, respectively, and \$1.0 and \$2.5 for the three and nine months ended September 30, 2013, respectively, and have been classified as a financing cash flow.

During the first three quarters of 2014, the Company issued 541,252 common shares under deferred and stock compensation arrangements.

Table of Contents**PACCAR Inc Form 10-Q****Notes to Consolidated Financial Statements (Unaudited)**

(Millions, Except Share Amounts)

NOTE G - Income Taxes

The effective income tax rate in the third quarter of 2014 of 32.8% increased from 29.7% in the same period of 2013, and the effective income tax rate in the first nine months of 2014 of 33.0% increased from 30.8% in the same period of 2013. The increases in the effective tax rates for the third quarter and first nine months were primarily due to a higher proportion of income generated in higher taxed jurisdictions in 2014 as compared to 2013.

NOTE H - Segment Information

PACCAR operates in three principal segments: Truck, Parts and Financial Services.

	Three Months Ended September 30		Nine Months Ended September 30	
	2014	2013	2014	2013
Net sales and revenues:				
Truck	\$ 4,000.1	\$ 3,416.6	\$ 11,168.1	\$ 9,924.6

Table of Contents**PACCAR Inc Form 10-Q****Notes to Consolidated Financial Statements (Unaudited)**

(Millions, Except Share Amounts)

Truck and Parts

The Truck segment includes the manufacture of trucks and the Parts segment includes the distribution of related aftermarket parts, both of which are sold through the same network of independent dealers. These segments derive a large proportion of their revenues and operating profits from operations in North America and Europe. The Truck segment incurs substantial costs to design, manufacture and sell trucks to its customers. The sale of new trucks provides the Parts segment with the basis for parts sales that may continue over the life of the truck, but are generally concentrated in the first five years after truck delivery. To reflect the benefit the Parts segment receives from costs incurred by the Truck segment, certain expenses are allocated from the Truck segment to the Parts segment. The expenses allocated are based on a percentage of the average annual expenses for factory overhead, engineering, research and development (R&D) and selling, general and administrative (SG&A) expenses for the preceding five years. The allocation is based on the ratio of the average parts direct margin dollars (net sales less material and labor costs) to the total truck and parts direct margin dollars for the previous five years. The Company believes such expenses have been allocated on a reasonable basis. Truck segment assets related to the indirect expense allocation are not allocated to the Parts segment.

Financial Services

The Financial Services segment includes finance and leasing of primarily PACCAR products and services provided to truck customers and dealers. Revenues are primarily generated from operations in North America and Europe.

Other

Included in Other is the Company's industrial winch manufacturing business. Also within this category are other sales, income and expense not attributable to a reportable segment, including a portion of corporate expenses.

The accounting policies of the reportable segments are the same as those applied in the consolidated financial statements as described in Note A of the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

NOTE I - Derivative Financial Instruments

As part of its risk management strategy, the Company enters into derivative contracts to hedge against interest rates and foreign currency risk. Certain derivative instruments designated as either cash flow hedges or fair value hedges are subject to hedge accounting. Derivative instruments that are not subject to hedge accounting are held as economic hedges. The Company's policies prohibit the use of derivatives for speculation or trading. At the inception of each hedge relationship, the Company documents its risk management objectives, procedures and accounting treatment. All of the Company's interest-rate and certain foreign exchange contracts are transacted under International Swaps and Derivatives Association (ISDA) master agreements. Each agreement permits the net settlement of amounts owed in the event of default and certain other termination events. For derivative financial instruments, the Company has elected not to offset derivative positions in the balance sheet with the same counterparty under the same agreements

and is not required to post or receive collateral. Exposure limits and minimum credit ratings are used to minimize the risks of counterparty default. The Company had no material exposures to default at September 30, 2014.

The Company uses regression analysis to assess effectiveness of interest-rate contracts on a quarterly basis. For foreign-exchange contracts, the Company performs quarterly assessments to ensure that critical terms continue to match. All components of the derivative instrument's gain or loss are included in the assessment of hedge effectiveness. Gains or losses on the ineffective portion of cash flow hedges are recognized currently in earnings. Hedge accounting is discontinued prospectively when the Company determines that a derivative financial instrument has ceased to be a highly effective hedge.

PACCAR Inc Form 10-Q

Notes to Consolidated Financial Statements (Unaudited)

(Millions, Except Share Amounts)

Interest-Rate Contracts: The Company enters into various interest-rate contracts, including interest-rate swaps and cross currency interest-rate swaps. Interest-rate swaps involve the exchange of fixed for floating rate or floating for fixed rate interest payments based on the contractual notional amounts in a single currency. Cross currency interest-rate swaps involve the exchange of notional amounts and interest payments in different currencies. The Company is exposed to interest-rate and exchange-rate risk caused by market volatility as a result of its borrowing activities. The objective of these contracts is to mitigate the fluctuations on earnings, cash flows and fair value of borrowings. Net amounts paid or received are reflected as adjustments to interest expense.

At September 30, 2014, the notional amount of the Company's interest-rate contracts was \$3,724.3. Notional maturities for all interest-rate contracts are \$238.5 for the remainder of 2014, \$1,271.4 for 2015, \$1,230.7 for 2016, \$543.3 for 2017, \$330.2 for 2018 and \$110.2 thereafter. The majority of these contracts are floating to fixed swaps that effectively convert an equivalent amount of commercial paper and other variable rate debt to fixed rates.

Foreign-Exchange Contracts: The Company enters into foreign-exchange contracts to hedge certain anticipated transactions and assets and liabilities denominated in foreign currencies, particularly the Canadian dollar, the euro, the British pound, the Australian dollar, the Brazilian real and the Mexican peso. The objective is to reduce fluctuations in earnings and cash flows associated with changes in foreign currency exchange rates. At September 30, 2014, the notional amount of the outstanding foreign-exchange contracts was \$351.4. Foreign-exchange contracts mature within one year.

(Millions, Except Share Amounts)

Fair Value Hedges

Changes in the fair value of derivatives designated as fair value hedges are recorded in earnings together with the changes in fair value of the hedged item attributable to the risk being hedged. The (income) or expense recognized in earnings related to fair value hedges was included in interest and other borrowing expenses in the Financial Services segment of the Consolidated Statements of Comprehensive Income as follows:

	Three Months Ended		Nine Months Ended	
	September 30		September 30	
	2014	2013	2014	2013
Interest-rate swaps	\$.6	\$.2	\$.1	\$.6
Term notes	(1.0)	(1.2)	(2.2)	(3.9)

Cash Flow Hedges

Substantially all of the Company's interest-rate contracts and some foreign-exchange contracts have been designated as cash flow hedges. Changes in the fair value of derivatives designated as cash flow hedges are recorded in AOCI to the extent such hedges are considered effective. The maximum length of time over which the Company is hedging its exposure to the variability in future cash flows is 6.4 years.

Amounts in AOCI are reclassified into net income in the same period in which the hedged transaction affects earnings. Net realized gains and losses from interest-rate contracts are recognized as an adjustment to interest expense. Net realized gains and losses from foreign-exchange contracts are recognized as an adjustment to cost of sales or to Financial Services interest expense, consistent with the hedged transaction. The Company recognized gains on the ineffective portions of \$.3 for the third quarters of 2014 and 2013, and gain of nil and \$.1 for the first nine months of 2014 and 2013, respectively.

The following table presents the pre-tax effects of derivative instruments recognized in OCI:

	Three Months Ended		Nine Months Ended	
	September 30, 2014		September 30, 2014	
	Interest-Rate Contracts	Foreign-Exchange Contracts	Interest-Rate Contracts	Foreign-Exchange Contracts
Gain (loss) recognized in OCI:				
Truck, Parts and Other		\$ 2.5		\$ (.3)

Financial Services	\$ 28.7		\$ (1.6)	
	\$ 28.7	\$ 2.5	\$ (1.6)	\$ (.3)
	Three Months Ended September 30, 2013		Nine Months Ended September 30, 2013	
	Interest- Rate Contracts	Foreign- Exchange Contracts	Interest- Rate Contracts	Foreign- Exchange Contracts
(Loss) gain recognized in OCI:				
Truck, Parts and Other		\$ (4.6)		\$ (1.7)
Financial Services	\$ (33.1)		\$ 41.3	
	\$ (33.1)	\$ (4.6)	\$ 41.3	\$ (1.7)

- 26 -

Table of Contents**PACCAR Inc Form 10-Q****Notes to Consolidated Financial Statements (Unaudited)**

(Millions, Except Share Amounts)

Expense (income) reclassified out of AOCI into income:

	Three Months Ended		Nine Months Ended	
	September 30, 2014		September 30, 2014	
	Interest-Rate	Foreign-Exchange	Interest-Rate	Foreign-Exchange
	Contracts	Contracts	Contracts	Contracts
Truck, Parts and Other:				
Cost of sales and revenues		\$ (.1)		\$ 1.7
Interest and other expense, net				.1
Financial Services:				
Interest and other borrowing expenses	\$ (23.6)		\$ 8.0	
	\$ (23.6)	\$ (.1)	\$ 8.0	\$ 1.8
	Three Months Ended		Nine Months Ended	
	September 30, 2013		September 30, 2013	
	Interest-Rate	Foreign-Exchange	Interest-Rate	Foreign-Exchange
	Contracts	Contracts	Contracts	Contracts
Truck, Parts and Other:				
Cost of sales and revenues		\$ 1.8		\$ (.5)
Interest and other expense, net		(.5)		(.2)
Financial Services:				
Interest and other borrowing expenses	\$ 32.8		\$ (29.1)	
	\$ 32.8	\$ 1.3	\$ (29.1)	\$ (.7)

The amount of loss recorded in AOCI at September 30, 2014 that is estimated to be reclassified to interest expense or cost of sales in the following 12 months if interest rates and exchange rates remain unchanged is approximately \$21.1, net of taxes. The fixed interest earned on finance receivables will offset the amount recognized in interest expense, resulting in a stable interest margin consistent with the Company's risk management strategy.

Economic Hedges

For other risk management purposes, the Company enters into derivative instruments that do not qualify for hedge accounting. These derivative instruments are used to mitigate the risk of market volatility arising from borrowings and

foreign currency denominated transactions. Changes in the fair value of economic hedges are recorded in earnings in the period in which the change occurs.

Table of Contents**PACCAR Inc Form 10-Q****Notes to Consolidated Financial Statements (Unaudited)**

	\$ (.1)	\$ (5.2)	\$ (1.5)	\$ (9.0)

NOTE J - Fair Value Measurements

Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Inputs to valuation techniques used to measure fair value are either observable or unobservable. These inputs have been categorized into the fair value hierarchy described below.

Level 1 Valuations are based on quoted prices that the Company has the ability to obtain in actively traded markets for identical assets or liabilities. Since valuations are based on quoted prices that are readily and regularly available in an active market or exchange traded market, valuation of these instruments does not require a significant degree of judgment.

Level 2 Valuations are based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3 Valuations are based on model-based techniques for which some or all of the assumptions are obtained from indirect market information that is significant to the overall fair value measurement and which require a significant degree of management judgment.

There were no transfers of assets or liabilities between Level 1 and Level 2 of the fair value hierarchy during the nine months ended September 30, 2014. The Company's policy is to recognize transfers between levels at the end of the reporting period.

Table of Contents**PACCAR Inc Form 10-Q****Notes to Consolidated Financial Statements (Unaudited)**

(Millions, Except Share Amounts)

The Company uses the following methods and assumptions to measure fair value for assets and liabilities subject to recurring fair value measurements.

Marketable Securities: The Company's marketable debt securities consist of municipal bonds, government obligations, investment-grade corporate obligations, commercial paper, asset-backed securities and term deposits. The fair value of U.S. government obligations is determined using the market approach and is based on quoted prices in active markets and are categorized as Level 1.

The fair value of U.S. government agency obligations, non-U.S. government bonds, municipal bonds, corporate bonds, asset-backed securities, commercial paper and term deposits is determined using the market approach and is primarily based on matrix pricing as a practical expedient which does not rely exclusively on quoted prices for a specific security. Significant inputs used to determine fair value include interest rates, yield curves, credit rating of the security and other observable market information and are categorized as Level 2.

Derivative Financial Instruments: The Company's derivative contracts consist of interest-rate swaps, cross currency swaps and foreign currency exchange contracts. These derivative contracts are traded over the counter, and their fair value is determined using industry standard valuation models, which are based on the income approach (i.e., discounted cash flows). The significant observable inputs into the valuation models include interest rates, yield curves, currency exchange rates, credit default swap spreads and forward rates and are categorized as Level 2.

Assets and Liabilities Subject to Recurring Fair Value Measurement

The Company's assets and liabilities subject to recurring fair value measurements are either Level 1 or Level 2 as follows:

At September 30, 2014	Level 1	Level 2	Total
Assets:			
Marketable debt securities			
U.S. tax-exempt securities		\$ 360.2	\$ 360.2
U.S. corporate securities		61.4	61.4
U.S. government and agency securities	\$ 5.2	.2	5.4

Fair Value Disclosure of Other Financial Instruments

For financial instruments that are not recognized at fair value, the Company uses the following methods and assumptions to determine the fair value. These instruments are categorized as Level 2, except cash which is categorized as Level 1 and fixed rate loans which are categorized as Level 3.

Cash and Cash Equivalents: Carrying amounts approximate fair value.

Financial Services Net Receivables: For floating-rate loans, wholesale financings, and operating lease and other trade receivables, carrying values approximate fair values. For fixed rate loans, fair values are estimated using the income approach by discounting cash flows to their present value based on current rates for comparable loans. Finance lease receivables and related allowance for credit losses have been excluded from the accompanying table.

Debt: The carrying amounts of financial services commercial paper, variable rate bank loans and variable rate term notes approximate fair value. For fixed rate debt, fair values are estimated using the income approach by discounting cash flows to their present value based on current rates for comparable debt.

Table of Contents**PACCAR Inc Form 10-Q****Notes to Consolidated Financial Statements (Unaudited)**

(Millions, Except Share Amounts)

The Company's estimate of fair value for fixed rate loans and debt that are not carried at fair value was as follows:

	September 30, 2014		December 31, 2013	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Assets:				
Financial Services fixed rate loans	\$ 3,600.3	\$ 3,646.1	\$ 3,592.7	\$ 3,627.3
Liabilities:				
Truck, Parts and Other fixed rate debt			150.0	151.1
Financial Services fixed rate debt	3,433.9	3,453.9	4,039.1	4,087.0

NOTE K - Employee Benefit Plans

The Company has several defined benefit pension plans, which cover a majority of its employees. The following information details the components of net pension expense for the Company's defined benefit plans:

	Three Months Ended September 30		Nine Months Ended September 30	
	2014	2013	2014	2013
Service cost	\$ 17.0	\$ 18.3	\$ 51.0	\$ 55.0
Interest on projected benefit obligation	23.0	20.2	69.1	60.6
Expected return on assets	(32.1)	(29.8)	(96.3)	(89.4)
Amortization of prior service costs	.3	.3	.9	.9
Recognized actuarial loss	5.3	11.0	15.7	33.0
Net pension expense	\$ 13.5	\$ 20.0	\$ 40.4	\$ 60.1

During the three and nine months ended September 30, 2014, the Company contributed \$3.7 and \$12.0 to its pension plans, respectively, and \$5.9 and \$12.0 for the three and nine months ended September 30, 2013, respectively.

Table of Contents**PACCAR Inc Form 10-Q****ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****OVERVIEW:**

PACCAR is a global technology company whose Truck segment includes the design and manufacture of high-quality, light-, medium- and heavy-duty commercial trucks. In North America, trucks are sold under the Kenworth and Peterbilt nameplates, in Europe, under the DAF nameplate and in Australia and South America, under the Kenworth and DAF nameplates. The Parts segment includes the distribution of aftermarket parts for trucks and related commercial vehicles. The Company's Financial Services segment derives its earnings primarily from financing or leasing PACCAR products in North America, Europe and Australia. The Company's Other business is the manufacturing and marketing of industrial winches.

Consolidated net sales and revenues in the third quarter of 2014 increased to \$4.93 billion from \$4.30 billion in the third quarter of 2013. In the first nine months of 2014, net sales and revenue increased to \$13.88 billion from \$12.52 billion in the same period in 2013. The Company's worldwide truck net sales and revenues in the third quarter of 2014 increased to \$3.81 billion from \$3.26 billion in the third quarter of 2013. In the first nine months of 2014, truck net sales increased to \$10.59 billion from \$9.46 billion in the same period of 2013. Increases in truck sales were primarily due to higher sales volume in the U.S. and Canada and higher price realization for higher content Euro 6 emission vehicles. The Company's worldwide parts net sales and revenues increased to a record \$784.2 million in the third quarter of 2014 from \$715.3 million in the third quarter of 2013. In the first nine months of 2014, worldwide parts net sales and revenues increased to a record \$2.29 billion from \$2.09 billion in the same period in 2013. Parts growth was due to higher aftermarket demand worldwide and innovative products and services offered by PACCAR Parts. Financial Services revenues increased to \$305.9 million in the third quarter of 2014 from \$293.5 million in the third quarter of 2013. In the first nine months of 2014, Financial Services revenues increased to \$902.2 million from \$875.4 million in the same period in 2013. The increase in Financial Services revenues for both periods was primarily due to higher average earning assets.

Third quarter 2014 net income increased to \$371.4 million (\$1.04 per diluted share) from \$309.4 million (\$.87 per diluted share) in the third quarter of 2013. For the first nine months of 2014, net income improved to \$964.5 million (\$2.71 per diluted share) from \$837.1 million (\$2.36 per diluted share) in the first nine months of 2013. The results reflect improving truck sales in the U.S. and Canada and strong aftermarket Parts and Financial Services results worldwide.

In the third quarter of 2014, DAF introduced the new DAF Euro 6 CF Silent distribution truck for deliveries in urban areas with noise restrictions, and the new DAF Euro 6 CF and XF Low Deck tractors which maximize trailer volume within European height and length regulations. These new vehicles expand DAF's product range in distribution and over-the-road applications and expand DAF's Euro 6 range of trucks.

PACCAR Parts opened a new parts distribution center in Montreal, Canada and now has 17 parts distribution centers supporting over 2,000 DAF, Kenworth and Peterbilt dealer locations.

In the third quarter and first nine months of 2014, the Company's research and development (R&D) expenses were \$50.5 million and \$153.1 million, respectively, compared to \$56.6 million and \$190.5 million in the third quarter and first nine months of 2013, respectively. R&D declined as new truck models and engines developed in 2013 and prior

years began production. R&D is focused on engine and new vehicle development.

Truck and Parts Outlook

Truck industry retail sales in the U.S. and Canada in 2014 are expected to be 245,000-255,000 units compared to 212,200 units in 2013 driven primarily by economic growth, including improving construction and automotive sectors. The truck market in 2014 is benefiting from some expansion of industry fleet capacity, reflecting improved freight demand. Estimates for U.S. and Canada truck

Table of Contents**PACCAR Inc Form 10-Q**

industry class 8 retail sales in 2015 are in the range of 240,000-270,000 driven primarily by continued strong freight tonnage and expansion of fleet capacity to meet increased demand. In Europe, the 2014 truck industry registrations for over 16-tonne vehicles are expected to be 210,000-220,000 units, compared to 240,800 units in 2013. The 2015 industry sales in the above 16-tonne truck market are projected to be in the range of 200,000-240,000 units.

In 2014, Parts industry aftermarket sales are expected to increase 7-9%, and in 2015, aftermarket sales are expected to increase 4-7%, reflecting modest economic growth in the U.S. and Canada and Europe.

In 2014, capital investments are expected to be \$225 to \$250 million and R&D is expected to be \$205 to \$215 million and are focused on enhanced powertrain development, new technologies and increased operating efficiency for truck assembly and parts distribution facilities. In 2015, capital expenditures for product development and enhanced operating efficiency are projected to be \$325 to \$375 million, and research and development expenses are estimated to be \$200 to \$250 million.

Financial Services Outlook

Based on the truck market outlook, average earning assets in the fourth quarter and in 2015 are expected to be slightly higher than current levels based on truck industry forecasts. Current levels of freight tonnage, freight rates and fleet utilization are contributing to customers' profitability and cash flow. If current freight transportation conditions decline due to weaker economic conditions, past due accounts, truck repossessions and credit losses would likely increase from the current low levels.

See the Forward-Looking Statements section of Management's Discussion and Analysis for factors that may affect these outlooks.

RESULTS OF OPERATIONS:

Europe	816.4	876.1	(7)	2,636.7	2,556.6	3
Mexico, South America, Australia and other	516.3	504.3	2	1,397.9	1,574.6	(11)
	\$ 3,810.6	\$ 3,261.2	17	\$ 10,594.8	\$ 9,464.5	12
Truck income before income taxes	\$ 330.0	\$ 242.5	36	\$ 801.9	\$ 645.9	24
Pre-tax return on revenues	8.7%	7.4%		7.6%	6.8%	

The Company's worldwide truck net sales and revenues in the third quarter of 2014 increased to \$3.81 billion from \$3.26 billion in 2013, primarily due to higher truck deliveries in the U.S. and Canada, higher price realization in Europe related to higher content Euro 6 emission vehicles, partially offset by lower truck deliveries in Europe and Mexico. The Company's worldwide truck net sales and revenues in the first nine months of 2014 increased to \$10.59 billion from \$9.46 billion in 2013, primarily due to higher truck deliveries in the U.S., higher price realization in Europe related to higher content Euro 6 emission vehicles, partially offset by lower truck deliveries in Europe and Mexico.

For the third quarter and first nine months of 2014, Truck segment income before income taxes and pre-tax return on revenues reflect higher truck unit deliveries in the U.S. and lower R&D spending, partially offset by lower deliveries in Europe and Mexico.

The Company's new truck deliveries are summarized below:

	Three Months Ended September 30			Nine Months Ended September 30		
	2014	2013	% Change	2014	2013	% Change
U.S.	20,600	15,700	31	54,500	43,700	25
Canada	2,900	2,500	16	8,100	7,800	4

- 34 -

Table of Contents**PACCAR Inc Form 10-Q**

In the first nine months of 2014, industry retail sales in the heavy-duty market in the U.S. and Canada increased to 179,000 units from 153,000 units in the same period of 2013. The Company's heavy-duty truck retail market share was 27.5% in the first nine months of 2014 compared to 27.9% in the first nine months of 2013. The medium-duty market was 54,200 units in the first nine months of 2014 compared to 48,800 units in the same period of 2013. The Company's medium-duty market share was 16.1% in the first nine months of 2014 compared to 14.9% in the first nine months of 2013.

The over 16-tonne truck market in Western and Central Europe in the first nine months of 2014 was 162,600 units, a 3% increase from 157,600 units in the first nine months of 2013. The largest increases were in Germany, Spain and the Central European countries, partially offset by reductions in the U.K. and France. The Company's market share was 13.4% in the first nine months of 2014, a decrease from 15.8% in the same period of 2013. The decrease in market share was primarily due to lower DAF registrations in the U.K. and the Netherlands which were impacted by the Euro 5/Euro 6 transition rules. DAF's market share in the over 16-tonne market was 15.2% in the third quarter of 2014. The 6- to 16-tonne market in the first nine months of 2014 was 34,400 units compared to 39,300 units in the first nine months of 2013. DAF market share in the 6- to 16-tonne market in the first nine months of 2014 was 8.7% compared to 11.2% in the same period of 2013. The decline in market share is a result of reduced registrations in the U.K. which were also affected by the Euro 5/Euro 6 transition rules.

The major factors for the changes in net sales and revenues, cost of sales and revenues and gross margin for the three months ended September 30, 2014 for the Truck segment are as follows:

(\$ in millions)	Net Sales	Cost of Sales	Gross Margin
Three Months Ended September 30, 2013	\$ 3,261.2	\$ 2,932.1	\$ 329.1
Increase (decrease)			
Truck delivery volume	492.3	424.8	67.5
Average truck sales prices	101.1		101.1
Average per truck material, labor and other direct costs		73.3	(73.3)
Factory overhead and other indirect costs		14.8	(14.8)
Operating leases	(28.9)	(27.5)	(1.4)
Currency translation	(15.1)	(14.5)	(.6)
Total increase	549.4	470.9	78.5
Three Months Ended September 30, 2014	\$ 3,810.6	\$ 3,403.0	\$ 407.6

Truck delivery volume reflects higher truck deliveries in the U.S., Canada and Australia which resulted in higher sales (\$618.2 million) and cost of sales (\$524.4 million), partially offset by lower deliveries in Europe and Mexico which lowered sales (\$135.3 million) and cost of sales (\$108.9 million).

Average truck sales prices increased sales by \$101.1 million, primarily due to higher content Euro 6 emission vehicles in Europe (\$54.6 million), improved price realization in the U.S. and Canada (\$25.9 million) and in Latin America and Australia (\$20.6 million).

Average cost per truck increased cost of sales by \$73.3 million, primarily due to higher content Euro 6 emission vehicles in Europe (\$78.1 million).

Factory overhead and other indirect costs increased \$14.8 million primarily due to higher salaries and related costs (\$17.9 million), partially offset by lower Euro 6 project expenses (\$5.7 million).

Operating lease revenues and cost of sales decreased due to lower average asset balances.

Truck gross margin in the third quarter of 2014 of 10.7% increased from 10.1% in the same period in 2013 due to the factors noted above.

Table of Contents**PACCAR Inc Form 10-Q**

The major factors for the changes in net sales and revenues, cost of sales and revenues and gross margin for the nine months ended September 30, 2014 for the Truck segment are as follows:

(\$ in millions)	Net Sales	Cost of Sales	Gross Margin
Nine Months Ended September 30, 2013	\$ 9,464.5	\$ 8,541.7	\$ 922.8
Increase (decrease)			
Truck delivery volume	769.2	676.1	93.1
Average truck sales prices	389.4		389.4
Average per truck material, labor and other direct costs		316.9	(316.9)
Factory overhead and other indirect costs		49.0	(49.0)
Operating leases	(13.2)	(15.3)	2.1
Currency translation	(15.1)	(14.7)	(.4)
Total increase	1,130.3	1,012.0	118.3
Nine Months Ended September 30, 2014	\$ 10,594.8	\$ 9,553.7	\$ 1,041.1

Truck delivery volume reflects higher deliveries in the U.S. and Canada which resulted in higher sales (\$1,211.5 million) and cost of sales (\$1,025.0 million), partially offset by lower truck deliveries in Mexico, Europe and Australia with lower sales (\$471.0 million) and cost of sales (\$377.4 million).

Average truck sales prices increased sales by \$389.4 million, primarily due to higher content Euro 6 emission vehicles in Europe (\$237.7 million), improved price realization in U.S. and Canada (\$100.2 million) and in Latin America and Australia (\$51.5 million).

Average cost per truck increased cost of sales by \$316.9 million, primarily due to higher content Euro 6 emission vehicles in Europe (\$283.3 million).

Factory overhead and other indirect costs increased \$49.0 million primarily due to higher salaries and related costs (\$49.5 million) and depreciation expense (\$12.9 million), partially offset by lower Euro 6 project expenses (\$17.4 million).

Operating lease revenues and cost of sales decreased due to lower average asset balances.

Truck gross margin in the first nine months of 2014 and 2013 was 9.8%.

Truck selling, general and administrative (SG&A) expenses for the third quarter of 2014 decreased to \$46.8 million from \$51.1 million in 2013, and in the first nine months of 2014, Truck SG&A decreased to \$150.9 million from \$154.6 million in 2013. The decrease in both periods was primarily due to lower promotion and marketing costs.

As a percentage of sales, Truck SG&A decreased to 1.2% in the third quarter of 2014 compared to 1.6% for the same period in 2013. For the first nine months of 2014, Truck SG&A as a percentage of sales decreased to 1.4% from 1.6% in the first nine months of 2013, reflecting higher sales volume and ongoing cost controls.

PACCAR Inc Form 10-Q

Parts

The Company's Parts segment accounted for 15.9% and 16.5% of revenues in the third quarter and first nine months of 2014 compared to 16.6% and 16.7% in the third quarter and first nine months of 2013.

(\$ in millions)	Three Months Ended September 30			Nine Months Ended September 30		
	2014	2013	% Change	2014	2013	% Change
Parts net sales and revenues:						
U.S. and Canada	\$ 475.6	\$ 424.1	12	\$ 1,364.0	\$ 1,215.5	12
Europe	210.8	202.7	4	649.6	607.3	7
Mexico, South America, Australia and other	97.8	88.5	11	275.2	269.4	2
	\$ 784.2	\$ 715.3	10	\$ 2,288.8	\$ 2,092.2	9
Parts income before income taxes	\$ 127.9	\$ 106.5	20	\$ 366.7	\$ 311.2	18
Pre-tax return on revenues	16.3%	14.9%		16.0%	14.9%	

The Company's worldwide parts net sales and revenues increased in the third quarter and first nine months of 2014 due to higher aftermarket demand worldwide. The increase in Parts segment income before taxes and pre-tax return on revenues in the third quarter and first nine months of 2014 was primarily due to higher sales and gross margins.

The major factors for the changes in net sales and revenues, cost of sales and revenues and gross margin for the three months ended September 30, 2014 for the Parts segment are as follows:

(\$ in millions)	Net Sales	Cost of Sales	Gross Margin
Three Months Ended September 30, 2013	\$ 715.3	\$ 534.4	\$ 180.9
Increase (decrease)			
Aftermarket parts volume	53.8	30.6	23.2
Average aftermarket parts sales prices	15.0		15.0
Average aftermarket parts direct costs		13.4	(13.4)
Warehouse and other indirect costs		2.6	(2.6)
Currency translation	.1	.2	(.1)
Total increase	68.9	46.8	22.1

Three Months Ended September 30, 2014	\$ 784.2	\$ 581.2	\$ 203.0
--	-----------------	-----------------	-----------------

Higher market demand in all markets resulted in increased aftermarket parts sales volume of \$53.8 million and related cost of sales by \$30.6 million.

Average aftermarket parts sales prices increased sales by \$15.0 million reflecting improved price realization.

Average aftermarket parts direct costs increased \$13.4 million due to higher material costs.

Warehouse and other indirect costs increased \$2.6 million primarily due to additional costs to support higher sales volume.

Parts gross margins in the third quarter of 2014 of 25.9% increased from 25.3% in the third quarter of 2013 due to the factors noted above.

Table of Contents**PACCAR Inc Form 10-Q**

The major factors for the changes in net sales and revenues, cost of sales and revenues and gross margin for the nine months ended September 30, 2014 for the Parts segment are as follows:

(\$ in millions)	Net Sales	Cost of Sales	Gross Margin
Nine Months Ended September 30, 2013	\$ 2,092.2	\$ 1,556.6	\$ 535.6
Increase (decrease)			
Aftermarket parts volume	134.2	82.1	52.1
Average aftermarket parts sales prices	53.4		53.4
Average aftermarket parts direct costs		46.7	(46.7)
Warehouse and other indirect costs		5.6	(5.6)
Currency translation	9.0	5.1	3.9
Total increase	196.6	139.5	57.1
Nine Months Ended September 30, 2014	\$ 2,288.8	\$ 1,696.1	\$ 592.7

Higher market demand in all markets resulted in increased aftermarket parts sales volume of \$134.2 million and related cost of sales by \$82.1 million.

Average aftermarket parts sales prices increased sales by \$53.4 million reflecting improved price realization.

Average aftermarket parts direct costs increased \$46.7 million due to higher material costs.

Warehouse and other indirect costs increased \$5.6 million primarily due to additional costs to support higher sales volume.

Parts gross margins in the first nine months of 2014 of 25.9% increased from 25.6% in the first nine months of 2013 due to the factors noted above.

Parts SG&A for the third quarter increased to \$52.2 million in 2014 from \$51.1 million in 2013, and in the first nine months of 2014, Parts SG&A increased to \$156.5 million from \$152.9 million in 2013. The increase in both periods was primarily due to higher salaries and related expenses.

As a percentage of sales, Parts SG&A decreased to 6.7% in the third quarter of 2014 from 7.1% in the third quarter of 2013 due to higher sales volume. For the first nine months of 2014, Parts SG&A as a percentage of sales was 6.8%,

down from 7.3% in the first nine months of 2013, reflecting higher sales volume.

Table of Contents**PACCAR Inc Form 10-Q****Financial Services**

The Company's Financial Services segment accounted for 6.2% and 6.5% of revenues in the third quarter and first nine months of 2014 compared to 6.8% and 7.0% in the third quarter and first nine months of 2013.

New loan and lease volume of \$1,124.8 million and \$3,189.1 million in the third quarter and first nine months of 2014, respectively, was comparable to \$1,076.3 million and \$3,084.7 million in the third quarter and first nine months of 2013. In the third quarter of 2014, finance market share on new PACCAR trucks sales was 27.6% compared to 28.7% in the third quarter of 2013. In the first nine months of 2014, finance market share on new PACCAR trucks sales was 28.3%, comparable to 28.7% in the same period of 2013.

Table of Contents**PACCAR Inc Form 10-Q**

In the third quarter of 2014, Financial Services revenues increased to \$305.9 million from \$293.5 million in 2013, and in the first nine months of 2014, Financial Services revenues increased to \$902.2 million from \$875.4 million in 2013. The increase for both periods was primarily due to higher average earning asset balances, offset by lower yields. Income before income taxes increased to \$96.9 million in the third quarter of 2014 from \$88.2 million in 2013, and for the first nine months of 2014, income before income taxes increased to \$274.1 million from \$249.8 million in 2013. The increase in income before income taxes for both periods was primarily due to higher finance and lease margins related to increased average earning asset balances.

The major factors for the changes in interest and fees, interest and other borrowing expenses and finance margin for the three months ended September 30, 2014 are outlined in the table below:

(\$ in millions)	Interest and Fees	Interest and Other Borrowing Expenses	Finance Margin
Three Months Ended September 30, 2013	\$ 116.4	\$ 37.9	\$ 78.5
Increase (decrease)			
Average finance receivables	5.1		5.1
Average debt balances		1.0	(1.0)
Yields	(4.0)		(4.0)
Borrowing rates		(6.4)	6.4
Currency translation	.5	.1	.4
Total increase (decrease)	1.6	(5.3)	6.9
Three Months Ended September 30, 2014	\$ 118.0	\$ 32.6	\$ 85.4

Average finance receivables increased \$381.2 million (excluding foreign exchange effects) in the third quarter of 2014 as a result of retail portfolio new business volume exceeding repayments.

Average debt balances increased \$272.0 million in the third quarter of 2014. The higher average debt balances reflect funding for a higher average earning asset portfolio, including loans, finance leases and equipment on operating leases.

Lower market rates resulted in lower portfolio yields (5.3% in 2014 compared to 5.6% in 2013) and lower borrowing rates (1.6% in 2014 compared to 1.9% in 2013).

The major factors for the changes in interest and fees, interest and other borrowing expenses and finance margin for the nine months ended September 30, 2014 are outlined in the table below:

(\$ in millions)	Interest and Fees	Interest and Other Borrowing Expenses	Finance Margin
Nine Months Ended September 30, 2013	\$ 345.2	\$ 116.2	\$ 229.0
Increase (decrease)			
Average finance receivables	18.6		18.6
Average debt balances		4.4	(4.4)
Yields	(16.7)		(16.7)
Borrowing rates		(17.2)	17.2
Currency translation	(1.5)	(.5)	(1.0)
Total increase (decrease)	.4	(13.3)	13.7
Nine Months Ended September 30, 2014	\$ 345.6	\$ 102.9	\$ 242.7

Average finance receivables increased \$468.2 million (excluding foreign exchange effects) in the first nine months of 2014 as a result of retail portfolio new business volume exceeding repayments.

Table of Contents**PACCAR Inc Form 10-Q**

Average debt balances increased \$357.9 million in the first nine months of 2014. The higher average debt balances reflect funding for a higher average earning asset portfolio, including loans, finance leases and equipment on operating leases.

Lower market rates resulted in lower portfolio yields (5.3% in 2014 compared to 5.6% in 2013) and lower borrowing rates (1.7% in 2014 compared to 2.0% in 2013).

The following table summarizes operating lease, rental and other revenues and depreciation and other expense:

(\$ in millions)	Three Months Ended		Nine Months Ended	
	September 30		September 30	
	2014	2013	2014	2013
Operating lease revenues	\$ 181.8	\$ 168.3	\$ 536.0	\$ 488.8
Used truck sales and other	6.1	8.8	20.6	41.4
Operating lease, rental and other revenues	\$ 187.9	\$ 177.1	\$ 556.6	\$ 530.2
Depreciation of operating lease equipment	\$ 119.4	\$ 110.3	\$ 351.2	\$ 317.4
Vehicle operating expenses	24.7	24.0	77.0	71.6
Cost of used truck sales and other	3.2	5.9	11.8	34.2
Depreciation and other expense	\$ 147.3	\$ 140.2	\$ 440.0	\$ 423.2

The major factors for the changes in operating lease, rental and other revenues, depreciation and other expense and lease margin for the three months ended September 30, 2014 are outlined below:

(\$ in millions)	Operating Lease, Rental and Other Revenues	Depreciation and Other Expense	Lease Margin
Three Months Ended September 30, 2013	\$ 177.1	\$ 140.2	\$ 36.9
Increase (decrease)			
Used truck sales	(2.6)	(2.5)	(.1)
Results on returned lease assets		(2.4)	2.4
Average operating lease assets	10.0	7.6	2.4
Revenue and cost per asset	3.0	4.3	(1.3)
Currency translation and other	.4	.1	.3

Total increase		10.8		7.1		3.7
Three Months Ended September 30, 2014	\$	187.9	\$	147.3	\$	40.6

A lower volume of used truck sales decreased operating lease, rental and other revenues by \$2.6 million and decreased depreciation and other expense by \$2.5 million.

Average operating lease assets increased \$261.3 million, which increased revenues by \$10.0 million and related depreciation and other expense by \$7.6 million.

Revenue and cost per asset increased \$3.0 million and \$4.3 million, respectively. Operating lease margin decreased by \$1.3 million mainly due to lower fleet utilization and higher vehicle related expenses.

Table of Contents**PACCAR Inc Form 10-Q**

The major factors for the changes in operating lease, rental and other revenues, depreciation and other expense and lease margin for the nine months ended September 30, 2014 are outlined below:

(\$ in millions)	Operating Lease, Rental and Other Revenues	Depreciation and Other Expense	Lease Margin
Nine Months Ended September 30, 2013	\$ 530.2	\$ 423.2	\$ 107.0
Increase (decrease)			
Used truck sales	(20.4)	(20.7)	.3

	\$ 4.8	\$ 3.8	\$ 12.5	\$ 10.2

(\$ in millions)	Three Months Ended September 30, 2013		Nine Months Ended September 30, 2013	
	Provision For Losses on Receivables	Net Charge-Offs	Provision For Losses on Receivables	Net Charge-Offs
U.S. and Canada	\$ 1.7	\$ 1.3	\$ 5.7	\$ 3.7
Europe	1.5	1.6	7.2	9.6
Mexico and Australia	.4	.2	2.5	.6
	\$ 3.6	\$ 3.1	\$ 15.4	\$ 13.9

The provision for losses on receivables of \$4.8 million for the third quarter of 2014, increased \$1.2 million from the third quarter of 2013, primarily driven by a general weakening in the mining industry in Australia, partially offset by improved portfolio performance in the U.S. and Canada. For the first nine months, the provision for losses declined to \$12.5 million in 2014 from \$15.4 million in 2013 primarily due to improved portfolio performance in the U.S. and Canada and Europe, partially offset by higher past dues resulting from a weaker mining industry in Australia.

Table of Contents**PACCAR Inc Form 10-Q**

The Company modifies loans and finance leases as a normal part of its Financial Services operations. The Company may modify loans and finance leases for commercial reasons or for credit reasons. Modifications for commercial reasons are changes to contract terms for customers that are not considered to be in financial difficulty. Insignificant delays are modifications extending terms up to three months for customers experiencing some short-term financial stress, but not considered to be in financial difficulty. Modifications for credit reasons are changes to contract terms for customers considered to be in financial difficulty. The Company's modifications typically result in granting more time to pay the contractual amounts owed and charging a fee and interest for the term of the modification. When considering whether to modify customer accounts for credit reasons, the Company evaluates the creditworthiness of the customers and modifies those accounts that the Company considers likely to perform under the modified terms. When the Company modifies loans and finance leases for credit reasons and grants a concession, the modifications are classified as troubled debt restructurings (TDR).

The post-modification balance of accounts modified during the nine months ended September 30, 2014 and 2013 are summarized below:

(\$ in millions)	2014		2013	
	Recorded Investment	% of Total Portfolio*	Recorded Investment	% of Total Portfolio*
Nine Months Ended September 30,				
Commercial	\$ 134.5	2.5%	\$ 205.5	3.9%
Insignificant delay	55.8	1.0%	96.7	1.9%
Credit - no concession	20.3	.4%	20.9	.4%
Credit - TDR	25.9	.5%	10.3	.2%
	\$ 236.5	4.4%	\$ 333.4	6.4%

* Recorded investment immediately after modification as a percentage of ending retail portfolio, on an annualized basis.

During the first nine months of 2014, total modification activity decreased compared to 2013 primarily due to lower modifications for commercial reasons and insignificant delays, partially offset by an increase in TDR modifications. The decrease in commercial modifications primarily reflects lower levels of additional equipment financed and end-of-contract modifications. The decline in modifications for insignificant delays reflect 2013 extensions granted to two customers in Australia primarily due to business disruptions arising from flooding. TDR modifications increased primarily due to a contract modification for a large customer in the U.S.

The following table summarizes the Company's 30+ days past due accounts:

	September 30 2014	December 31 2013	September 30 2013
Percentage of retail loan and lease accounts 30+ days past due:			
U.S. and Canada	.1%	.3%	.4%
Europe	1.6%	.7%	1.1%
Mexico and Australia	1.7%	1.4%	1.6%
Worldwide	.6%	.5%	.7%

Accounts 30+ days past due were .6% at September 30, 2014 and have increased .1% from December 31, 2013 due to higher past due accounts in Europe, Australia and Mexico. The Company continues to focus on maintaining low past due balances.

Table of Contents**PACCAR Inc Form 10-Q**

When the Company modifies a 30+ days past due account, the customer is then generally considered current under the revised contractual terms. The Company modified \$8.6 million of accounts worldwide during the third quarter of 2014, \$4.9 million during the fourth quarter of 2013 and \$8.1 million during the third quarter of 2013 that were 30+ days past due and became current at the time of modification. Had these accounts not been modified and continued to not make payments, the pro forma percentage of retail loan and lease accounts 30+ days past due would have been as follows:

	September 30 2014	December 31 2013	September 30 2013
Pro forma percentage of retail loan and lease accounts 30+ days past due:			
U.S. and Canada	.2%	.3%	.4%
Europe	1.7%	.8%	1.2%
Mexico and Australia	2.1%	1.7%	2.2%
Worldwide	.7%	.6%	.8%

Modifications of accounts in prior quarters that were more than 30 days past due at the time of modification are included in past dues if they were not performing under the modified terms at September 30, 2014, December 31, 2013 and September 30, 2013. The effect on the allowance for credit losses from such modifications was not significant at September 30, 2014, December 31, 2013 and September 30, 2013.

The Company's annualized pre-tax return on average earning assets for Financial Services was 3.4% in the third quarter of 2014 and 3.3% for the same period in 2013. For the first nine months of 2014, the Company's annualized pre-tax return on average earning assets for Financial Services was 3.3% and 3.2% for the same period in 2013.

Other

Other includes the winch business as well as sales, income and expenses not attributable to a reportable segment, including a portion of corporate expense. Other sales represent approximately 1% of consolidated net sales and revenues for both the third quarter and first nine months of 2014 and 2013. Other SG&A for the third quarter was \$13.5 million in 2014 and \$9.0 million in 2013, and for the first nine months, Other SG&A was \$41.3 million in 2014 compared to \$33.6 million in 2013. The increase in SG&A for both periods was primarily due to higher salaries and related expenses. For the third quarter, other income (loss) before tax was a loss of \$8.1 million in 2014 and a loss of \$4.5 million in 2013; the higher loss in the third quarter was primarily due to higher salaries and related expenses and lower income before tax from the winch business. For the first nine months, other income (loss) before tax was a loss of \$19.8 million in 2014 compared to a loss of \$18.6 million in 2013; the higher year-to-date loss was primarily due to higher salaries and related expenses, partially offset by higher income before tax from the winch business.

Investment income for the third quarter was \$5.7 million in 2014 compared to \$7.3 million in 2013, and for the first nine months, investment income was \$17.0 million in 2014 compared to \$21.8 million in 2013. The lower investment

income in the third quarter and first nine months of 2014 primarily reflects lower yields on investments due to lower market interest rates, partially offset by higher average investment balances.

The effective income tax rate in the third quarter of 2014 of 32.8% increased from 29.7% in the same period of 2013, and the effective income tax rate in the first nine months of 2014 of 33.0% increased from 30.8% in the same period of 2013. The increases in the effective tax rates for the third quarter and first nine months were primarily due to a higher proportion of income generated in higher taxed jurisdictions in 2014 as compared to 2013.

Table of Contents**PACCAR Inc Form 10-Q**

(\$ in millions)	Three Months Ended		Nine Months Ended	
	September 30		September 30	
	2014	2013	2014	2013
Domestic income before taxes	\$ 354.7	\$ 226.9	\$ 893.2	\$ 568.3
Foreign income before taxes	197.7	213.1	546.7	641.8
Total income before taxes	\$ 552.4	\$ 440.0	\$ 1,439.9	\$ 1,210.1
Domestic pre-tax return on revenues	12.7%	10.4%	11.9%	9.3%
Foreign pre-tax return on revenues	9.2%	10.0%	8.5%	10.0%
Total pre-tax return on revenues	11.2%	10.2%	10.4%	9.7%

For the third quarter and first nine months of 2014, the improvement in income before income taxes and return on revenues for domestic operations was due to higher revenues from truck and parts operations and higher truck margins.

For the third quarter of 2014, the lower income before income taxes and return on revenues for foreign operations were primarily due to lower revenues and margins from truck operations in all foreign markets, except Australia. For the first nine months of 2014, the lower income before income taxes and return on revenues for foreign operations were primarily due to lower revenues and truck margins in all foreign markets.

LIQUIDITY AND CAPITAL RESOURCES:

(\$ in millions)	September 30	December 31
	2014	2013
Cash and cash equivalents	\$ 1,648.4	\$ 1,750.1
Marketable debt securities	1,320.6	1,267.5
	\$ 2,969.0	\$ 3,017.6

The Company's total cash and marketable debt securities at September 30, 2014 decreased \$48.6 million from the balances at December 31, 2013 due to a decrease in cash and cash equivalents.

The change in cash and cash equivalents is summarized below:

(\$ in millions)	2014	2013
Nine Months Ended September 30,		
Operating activities:		

Edgar Filing: PACCAR INC - Form 10-Q

Net income	\$ 964.5	\$ 837.1
Net income items not affecting cash	621.3	658.4
Changes in operating assets and liabilities, net	15.8	204.8
Net cash provided by operating activities	1,601.6	1,700.3
Net cash used in investing activities	(1,082.3)	(1,464.1)
Net cash (used in) provided by financing activities	(575.8)	219.9
Effect of exchange rate changes on cash	(45.2)	(18.1)
Net (decrease) increase in cash and cash equivalents	(101.7)	438.0
Cash and cash equivalents at beginning of period	1,750.1	1,272.4
Cash and cash equivalents at end of period	\$ 1,648.4	\$ 1,710.4

Operating activities: Cash provided by operations was \$1,601.6 million in the first nine months of 2014 compared to \$1,700.3 million in 2013. Lower operating cash flow reflects cash usage due to sales of goods and services in accounts receivable exceeding cash

Table of Contents**PACCAR Inc Form 10-Q**

receipts (\$109.8 million) and a higher increase in net purchases of inventory of \$102.3 million. In addition, lower cash inflows resulted from a reduction in liabilities for residual value guarantees (RVG) and deferred revenues of \$180.2 million, primarily due to a lower volume of new RVG contracts compared to 2013. These outflows were partially offset by \$127.4 million of higher net income, a \$116.5 million lower increase in Financial Services segment wholesale receivables and \$51.3 million of higher depreciation on property, plant and equipment.

Investing activities: Cash used in investing activities of \$1,082.3 million decreased \$381.8 million from the \$1,464.1 million used in the first nine months of 2013, primarily due to lower net new loan and lease originations of \$154.1 million, lower payments for property, plant and equipment of \$149.4 million and lower cash used in the acquisitions of equipment for operating leases of \$124.5 million. These lower cash outflows were partially offset by \$97.9 million of higher net purchases of marketable securities in 2014.

Financing activities: Cash used in financing activities was \$575.8 million for the first nine months of 2014 compared to cash provided by financing activities of \$219.9 million in the first nine months of 2013. The Company paid \$545.8 million of dividends in the first nine months of 2014 compared to \$212.3 million paid in the first nine months of 2013, an increase of \$333.5 million. The higher dividends in 2014 reflect a special dividend declared in 2013 and paid in early 2014. In 2013, there was no special dividend payment, as the 2012 special dividend was declared and paid in 2012. The Company also repurchased .6 million shares of common stock for \$34.1 million of which \$25.5 million was settled in cash through September 30, 2014. In addition, in the first nine months of 2014, the Company issued \$1,266.8 million of long-term debt and \$595.3 million of commercial paper and short-term bank loans to repay long-term debt of \$1,883.0 million. In the first nine months of 2013, the Company issued \$1,884.1 million in medium-term debt to reduce its outstanding commercial paper and bank loans by \$912.1 million and repay medium-term debt of \$565.5 million. This resulted in cash used in borrowing activities of \$20.9 million in the first nine months of 2014, \$427.4 million higher than the cash provided by borrowing activities of \$406.5 million in the first nine months of 2013.

Credit Lines and Other

The Company has line of credit arrangements of \$3.52 billion, of which \$3.39 billion were unused at September 30, 2014. Included in these arrangements are \$3.0 billion of syndicated bank facilities, of which \$1.0 billion matures in June 2015, \$1.0 billion matures in June 2018 and \$1.0 billion matures in June 2019. The Company intends to replace these credit facilities as they expire with facilities of similar amounts and duration. These credit facilities are maintained primarily to provide backup liquidity for commercial paper borrowings and maturing medium-term notes. There were no borrowings under the syndicated bank facilities for the nine months ended September 30, 2014.

In December 2011, PACCAR Inc filed a shelf registration under the Securities Act of 1933. The current registration expires in the fourth quarter of 2014 and does not limit the principal amount of debt securities that may be issued during the period. Upon maturity in February 2014, \$500.0 million of medium-term notes, of which \$150.0 million was manufacturing debt, were repaid in full. There were no medium-term notes outstanding for PACCAR Inc as of September 30, 2014.

In December 2011, PACCAR's Board of Directors approved the repurchase of \$300.0 million of the Company's common stock. As of September 30, 2014, \$226.1 million shares have been repurchased pursuant to the authorization, including the repurchase of .6 million common shares for \$34.1 million during the third quarter.

Truck, Parts and Other

The Company provides funding for working capital, capital expenditures, R&D, dividends, stock repurchases and other business initiatives and commitments primarily from cash provided by operations. Management expects this method of funding to continue in the future.

- 46 -

Table of Contents

PACCAR Inc Form 10-Q

Investments for property, plant and equipment in the first nine months of 2014 decreased to \$158.5 million from \$294.8 million, as the first nine months of 2013 included higher spending for new product development and construction of the Eindhoven parts distribution center in Europe and DAF Brasil factory. Over the past decade, the Company's combined investments in worldwide capital projects and R&D totaled \$5.82 billion, which have significantly increased operating capacity and efficiency of its facilities and the competitive advantage of the Company's premium products.

In 2014, capital investments are expected to be approximately \$225 to \$250 million and are targeted for enhanced powertrain development, new technologies and increased operating efficiency of the Company's truck assembly and parts distribution facilities. Spending on R&D in 2014 is expected to be \$205 to \$215 million as PACCAR will continue to focus on new products and services.

In 2015, capital investments are expected to be \$325 to \$375 million, and R&D is expected to be \$200 to \$250 million as PACCAR will continue to focus on enhanced powertrain development, increased operating efficiencies and new products and services.

The Company conducts business in Spain, Italy, Portugal, Ireland, Greece, Russia, Ukraine and certain other countries which have been experiencing significant financial stress, fiscal or political strain and the corresponding potential default. The Company routinely monitors our financial exposure to global financial conditions, our global counterparties and our operating environments. As of September 30, 2014, the Company had finance and trade receivables in these countries of approximately 1% of consolidated total assets. As of September 30, 2014, the Company did not have any marketable debt security investments in corporate or sovereign government securities in these countries. In addition, the Company had no derivative counterparty credit exposures in these countries as of September 30, 2014.

Financial Services

The Company funds its financial services activities primarily from collections on existing finance receivables and borrowings in the capital markets. The primary sources of borrowings in the capital markets are commercial paper and medium-term notes issued in the public markets and, to a lesser extent, bank loans. An additional source of funds is loans from other PACCAR companies.

The Company issues commercial paper for a portion of its funding in its Financial Services segment. Some of this commercial paper is converted to fixed interest rate debt through the use of interest rate swaps, which are used to manage interest rate risk. In the event of a future significant disruption in the financial markets, the Company may not be able to issue replacement commercial paper. As a result, the Company is exposed to liquidity risk from the shorter maturity of short-term borrowings paid to lenders compared to the longer timing of receivable collections from customers. The Company believes its cash balances and investments, collections on existing finance receivables, syndicated bank lines and current investment-grade credit ratings of A+/A1 will continue to provide it with sufficient resources and access to capital markets at competitive interest rates and therefore contribute to the Company maintaining its liquidity and financial stability. A decrease in these credit ratings could negatively impact the Company's ability to access capital markets at competitive interest rates and the Company's ability to maintain liquidity and financial stability.

In November 2012, the Company's U.S. finance subsidiary, PACCAR Financial Corp. (PFC), filed a shelf registration under the Securities Act of 1933. The total amount of medium-term notes outstanding for PFC as of September 30, 2014 was \$3.85 billion. The registration expires in November 2015 and does not limit the principal amount of debt securities that may be issued during that period.

As of September 30, 2014, the Company's European finance subsidiary, PACCAR Financial Europe, had 417.1 million available for issuance under a 1.50 billion medium-term note program registered with the London Stock Exchange. The program was renewed in the second quarter of 2014 and is renewable annually through the filing of a new prospectus.

Table of Contents

PACCAR Inc Form 10-Q

In April 2011, PACCAR Financial Mexico registered a 10.00 billion peso medium-term note and commercial paper program with the Comision Nacional Bancaria y de Valores. The registration expires in 2016 and limits the amount of commercial paper (up to one year) to 5.00 billion pesos. At September 30, 2014, 7.78 billion pesos remained available for issuance.

PACCAR believes its Financial Services companies will be able to continue funding receivables, servicing debt and paying dividends through internally generated funds, access to public and private debt markets and lines of credit.

FORWARD-LOOKING STATEMENTS:

This report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include statements relating to future results of operations or financial position and any other statement that does not relate to any historical or current fact. Such statements are based on currently available operating, financial and other information and are subject to risks and uncertainties that may affect actual results. Risks and uncertainties include, but are not limited to: a significant decline in industry sales; competitive pressures; reduced market share; reduced availability of or higher prices for fuel; increased safety, emissions, or other regulations resulting in higher costs and/or sales restrictions; currency or commodity price fluctuations; lower used truck prices; insufficient or under-utilization of manufacturing capacity; supplier interruptions; insufficient liquidity in the capital markets; fluctuations in interest rates; changes in the levels of the Financial Services segment new business volume due to unit fluctuations in new PACCAR truck sales or reduced market shares; changes affecting the profitability of truck owners and operators; price changes impacting truck sales prices and residual values; insufficient supplier capacity or access to raw materials; labor disruptions; shortages of commercial truck drivers; increased warranty costs or litigation; or legislative and governmental regulations. A more detailed description of these and other risks is included under the heading Part 1, Item 1A, Risk Factors in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There were no material changes in the Company's market risk during the nine months ended September 30, 2014. For additional information, refer to Item 7A as presented in the 2013 Annual Report on Form 10-K.

ITEM 4. CONTROLS AND PROCEDURES

The Company's management, with the participation of the Principal Executive Officer and Principal Financial Officer, conducted an evaluation of the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) as of the period covered by this report. Based on that evaluation, the Principal Executive Officer and Principal Financial Officer concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report.

There have been no significant changes in the Company's internal controls over financial reporting that occurred during the fiscal quarter covered by this quarterly report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents**PACCAR Inc Form 10-Q****PART II OTHER INFORMATION**

For Items 3, 4 and 5, there was no reportable information for the nine months ended September 30, 2014.

ITEM 1. LEGAL PROCEEDINGS

The Company and its subsidiaries are parties to various lawsuits incidental to the ordinary course of business. Management believes that the disposition of such lawsuits will not materially affect the Company's business or financial condition.

In January 2011, the European Union (EU) Competition Commission commenced an investigation of all major European commercial vehicle manufacturers, including subsidiaries of the Company, concerning whether such companies participated in agreements or concerted practices to coordinate their commercial policy in the EU. The Company's subsidiaries are cooperating fully with the EU Competition Commission.

ITEM 1A. RISK FACTORS

For information regarding risk factors, refer to Part I, Item 1A as presented in the 2013 Annual Report on Form 10-K. There have been no material changes in the Company's risk factors during the nine months ended September 30, 2014.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

For items 2(a) and (b), there was no reportable information for the nine months ended September 30, 2014.

(c) Issuer purchases of equity securities.

On December 6, 2011, the Company's Board of Directors approved a plan to repurchase up to \$300 million of the Company's outstanding common stock. As of September 30, 2014, the Company has repurchased 5.6 million shares for \$226.1 million under this plan. The following are details of repurchases made under the plan for the period covered by this report:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Maximum Dollar Value that May Yet be Purchased Under the Plans
July 1 - 31, 2014			\$ 108,003,152
August 1 - 31, 2014			\$ 108,003,152
September 1 - 30, 2014	581,355	\$ 58.65	\$ 73,894,577

Total	581,355	\$ 58.65	\$ 73,894,577
-------	---------	----------	---------------
