PROXY STATEMENT
for
ANNUAL MEETING OF STOCKHOLDERS

February 3, 2015

The Board of Directors of PriceSmart, Inc., a Delaware corporation (the Company), is soliciting the enclosed Proxy for use at the Annual Meeting of Stockholders of the Company to be held on February 3, 2015 (the Annual Meeting), and at any adjournments thereof. This Proxy Statement will be first sent to stockholders on or about December 17, 2014. You can submit your Proxy by mail or you may provide voting instructions for your shares by telephone or via the Internet. Instructions for voting by telephone, by using the Internet or by mail are described on the enclosed Proxy. If you plan to attend the Annual Meeting and wish to vote your shares personally, you may do so. Unless contrary instructions are indicated on the Proxy, all shares represented by valid Proxies received pursuant to this solicitation (and not revoked before they are voted) will be voted for the election of the Board of Directors' nominees for directors, or for a substitute or substitutes selected by the Board of Directors in the event a nominee or nominees are unable to serve or decline to do so, and for approval of the compensation of the named executive officers as disclosed in this Proxy Statement. As to any other business which may properly come before the Annual Meeting and be submitted to a vote of the stockholders, Proxies received by the Board of Directors will be voted in accordance with the best judgment of the holders thereof.

A Proxy may be revoked by written notice to the Secretary of the Company at any time prior to the Annual Meeting by executing a later Proxy or by attending the Annual Meeting and voting in person.

The Company will bear the cost of solicitation of Proxies. In addition to the use of mails, Proxies may be solicited by personal interview, telephone, facsimile or e-mail, by officers, directors and other employees of the Company. The Company also will request persons, firms and corporations holding shares in their names, or in the names of their nominees, which are beneficially owned by others, to send, or cause to be sent, Proxy material to, and obtain Proxies from, such beneficial owners and will reimburse such holders for their reasonable expenses in so doing.

The Company's mailing address is 9740 Scranton Road, San Diego, California 92121.

Voting

Stockholders of record at the close of business on December 12, 2014 (the Record Date) will be entitled to notice of, and to vote at, the Annual Meeting or any adjournments thereof.

As of December 12, 2014, 30,209,917 shares of the Company's common stock, \$.0001 par value per share (Common Stock), were outstanding, representing the only voting securities of the Company. Each share of Common Stock is entitled to one vote.

Votes cast by Proxy or in person at the Annual Meeting will be counted by the person appointed by the Company to act as Inspector of Election for the Annual Meeting. The Inspector of Election will treat shares represented by Proxies that reflect abstentions or include broker non-votes as shares that are present and entitled to vote for purposes of determining the presence of a quorum.

Edgar Filing: PRICESMART INC - Form DEF 14A

Because directors are elected by a plurality of the votes of the shares present in person or represented by Proxy at the Annual Meeting and entitled to vote on the election of directors, abstentions and broker non-votes do not constitute a vote for or against any nominee for the Board of Directors and thus will be disregarded in the calculation of votes cast for purposes of electing nominees to the Board of Directors. The non-binding advisory vote on executive compensation requires the affirmative vote of a majority of the aggregate votes present, in person or by proxy, and entitled to vote at the Annual Meeting. Abstentions will have the same effect as votes against this proposal and broker non-votes will have no effect on the outcome.

Proposal 1: Election of Directors

Based on the recommendation of the Nominating/Corporate Governance Committee, the Board of Directors of the Company has nominated and recommends for election as directors the nine persons named herein to serve until the next Annual Meeting of Stockholders and until their respective successors shall have been duly elected and qualified. All of the nominees are presently directors of the Company, and following the Annual Meeting there will be no vacancies on the Board of Directors. Directors are elected by a plurality of the votes of the shares present in person or represented by Proxy at the Annual Meeting and entitled to vote on the election of directors. The enclosed Proxy will be voted in favor of the persons nominated unless otherwise indicated. If any of the nominees should be unable to serve or should decline to do so, the discretionary authority provided in the Proxy will be exercised by the proxy holders to vote the shares represented by the Proxies for one or more substitute nominees selected by the present Board of Directors. The Board of Directors does not believe at this time that any substitute nominee or nominees will be required.

Nominations Process

Identification and Evaluation of Nominees for Directors

The Nominating/Corporate Governance Committee identifies nominees for director by first evaluating the current members of our Board of Directors willing to continue in service. Current members with qualifications and skills that are consistent with the Nominating/Corporate Governance Committee's criteria for board service, as set forth in the section below entitled *Director Qualifications*, and who are willing to continue in service are considered for re-nomination, balancing the value of continuity of service by existing members of our Board of Directors with that of obtaining a new perspective.

If any member of the Board of Directors does not wish to continue in service or if the Board of Directors decides not to re-nominate a member for re-election, the Nominating/Corporate Governance Committee identifies the desired skills and experience of a new nominee in light of the criteria set forth below in *Director Qualifications*. The Nominating/Corporate Governance Committee generally consults with other members of the Board of Directors and may seek input from management, independent counsel, industry experts or advisors that the Nominating/Corporate Governance Committee believes to be desirable and appropriate. The Nominating/Corporate Governance Committee reviews the qualifications, experience and background of any candidates who are identified. Final candidates are interviewed by the members of the Nominating/Corporate Governance Committee. In making its determinations, the Nominating/Corporate Governance Committee evaluates each individual in the context of the Board of Directors as a whole, with the objective of assembling a group that can best perpetuate the success of the Company and represent stockholder interests through the exercise of sound judgment. After review and deliberation of all feedback and data, the Nominating/Corporate Governance Committee makes its recommendation to the Board of Directors.

Pursuant to the Nominating/Corporate Governance Committee Charter, stockholders of the Company who have held shares of the Company's common stock for at least one year and who hold a minimum of 1% of the Company's outstanding shares of common stock may suggest a candidate for director by writing to the Secretary of the Company. In order to be considered, the recommendation for a candidate must include the following written information: (1) a detailed resume of the recommended candidate; (2) an explanation of the reasons why the stockholder believes the recommended candidate is qualified for service on the Board of Directors; (3) such other information that would be required by the rules of the SEC to be included in a proxy statement; (4) the written consent of the recommended candidate; (5) a description of any arrangements or undertakings between the stockholder and the recommended candidate regarding the nomination; and (6) proof of the recommending stockholder's stock holdings in the Company. In addition, we may require any candidate to furnish such other information as may reasonably be required by the Company to determine the eligibility of such candidate to serve as an independent director in accordance with the Company's corporate governance guidelines or that could be material to a reasonable stockholder's understanding of the independence or lack of independence of such candidate. In order to give the Nominating/Corporate Governance Committee sufficient time to evaluate a recommended candidate and/or include the candidate in the Company's proxy statement for the annual meeting to be held in 2016, the recommendation should be received by the Secretary of the

Proposal 1: Election of Directors (continued)

Company at the Company's principal executive offices in accordance with the timing in the section below entitled "Stockholder Proposals." In the event that the Company receives director candidate recommendations from stockholders, those recommendations are evaluated in the same manner that potential nominees suggested by Board members, management or other parties are evaluated. The Company does not intend to treat stockholder recommendations in any manner different from other recommendations.

Director Qualifications

In evaluating director nominees, the Nominating/Corporate Governance Committee considers, among other things, the following factors:

personal and professional integrity, ethics and values;

experience in corporate management, such as serving as an officer or former officer of a publicly held company, and a general understanding of marketing, finance and other elements relevant to the success of a publicly traded company in today's business environment;

experience in the Company's industry and with relevant social policy concerns;

experience as a board member of another publicly held company;

academic expertise in an area of the Company's operations; and

practical and mature business judgment, including ability to make independent analytical inquiries.

While the Company does not have a specific policy regarding board diversity, in connection with its evaluation of director nominees, the Nominating/Corporate Governance Committee also considers diversity of expertise and experience in substantive matters pertaining to our business relative to other members of the Board of Directors. The Nominating/Corporate Governance Committee's objective is to assemble a group that can best perpetuate the success of the business and represent stockholder interests through the exercise of sound judgment using its diversity of experience.

Other than the foregoing, there are no stated minimum criteria for director nominees, although the Nominating/Corporate Governance Committee may also consider such other facts as it may deem are in the best interests of the Company and its stockholders. The Nominating/Corporate Governance Committee also believes it is appropriate for at least one, and, preferably, several, members of the Board of Directors to meet the criteria for an audit committee financial expert as defined by SEC rules, and that a majority of the members of the Board of Directors be independent as required under the Nasdaq Stock Market listing standards applicable to the Company. The Nominating/Corporate Governance Committee also believes it is appropriate for the Company's chief executive officer to serve as a member of the Board of Directors. Directors' performance and qualification criteria are reviewed annually by the Nominating/Corporate Governance Committee.

A copy of the Nominating/Corporate Governance Committee Charter is available on the Company's website at www.pricemart.com.

Recommendation of the Board of Directors

The Board of Directors recommends that stockholders vote FOR the slate of nominees set forth above. Proxies solicited by the Board of Directors will be so voted unless stockholders specify otherwise on the accompanying Proxy.

Proposal 2: Approval of the Compensation of the Named Executive Officers

Under the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, or the Dodd-Frank Act, the Company's stockholders are entitled to vote at the Annual Meeting to provide advisory approval of the compensation of the Company's named executive officers as disclosed in this Proxy Statement pursuant to the compensation disclosure rules of the Securities and Exchange Commission. Pursuant to the Dodd-Frank Act, the stockholder vote on executive compensation is an advisory vote only, and it is not binding on the Company or our Board of Directors.

Although the vote is non-binding, our Compensation Committee and Board of Directors appreciate the opinions of the stockholders and will consider the outcome of the vote when making future compensation decisions. As described more fully in the Compensation Discussion and Analysis section of this Proxy Statement, the Company's executive compensation program is designed to attract, retain and motivate individuals with superior ability, experience and leadership capability to deliver on our annual and long-term business objectives necessary to achieve growth in stockholder value. We urge stockholders to read the Compensation Discussion and Analysis section of this Proxy Statement, which describes in detail how our executive compensation policies and procedures operate and are intended to operate in the future. The Compensation Committee and the Board of Directors believe that our executive compensation program fulfills these goals and is reasonable, competitive and aligned with our performance and the performance of our executives.

We are asking our stockholders to indicate their support for our named executive officer compensation as described in this Proxy Statement. This proposal, commonly known as a "say-on-pay" proposal, gives our stockholders the opportunity to express their views on our named executive officers' compensation. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the philosophy, policies and practices described in this Proxy Statement. Accordingly, we ask that our stockholders vote FOR the following resolution:

RESOLVED, that the Company's stockholders approve, on an advisory basis, the compensation of the named executive officers, as disclosed in the Company's Proxy Statement for the 2015 Annual Meeting of Stockholders, pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the Summary Compensation Table and the other related tables and disclosure.

The Board of Directors recommends that stockholders vote FOR the approval of the compensation of the named executive officers as disclosed in this Proxy Statement pursuant to the compensation disclosure rules of the Securities and Exchange Commission. Proxies solicited by the Board of Directors will be so voted unless stockholders specify otherwise on the accompanying Proxy.

Audit Committee Report

The Audit Committee oversees the Company's financial accounting and reporting process and the audits of the financial statements of the Company. All committee members satisfy the definition of independent director set forth at Rule 5605(a)(2) and Rule 5605(c)(2) of the Nasdaq Stock Market's listing standards. The Audit Committee is governed by a written charter adopted by the Board of Directors, which is available on the Company's public website at www.pricemart.com.

In fulfilling its oversight responsibilities, the committee reviewed and discussed with management the audited financial statements in the Company's Annual Report on Form 10-K for the year ended August 31, 2014, including a discussion of the quality, and not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The Company's independent registered public accounting firm, Ernst & Young LLP (EY), is responsible for expressing an opinion on the conformity of its audited financial statements with generally accepted accounting principles. EY met with the committee and expressed its judgment as to the quality, not just the acceptability, of the Company's accounting principles and discussed with the committee other matters as required under generally accepted auditing standards, including those matters required to be discussed by Public Company Accounting Oversight Board Statement on Auditing Standards No. 16 *Communications with Audit Committees*. In addition, EY discussed the accountants' independence from the Company and from the Company's management and delivered to the committee those matters to be set forth in written disclosures as required by applicable requirements of the Public Company Accounting Oversight Board regarding independent registered public accounting firm's communications with the Audit Committee concerning independence.

The committee discussed with the Company's independent registered public accounting firm the overall scope and plan of their audit. The committee meets with the independent registered public accounting firm, with and without our management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting.

In reliance on the reviews and discussions referred to above, the committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended August 31, 2014 for filing with the SEC.

This report of the Audit Committee shall not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that the Company specifically incorporates this information by reference, and shall not otherwise be deemed filed under such acts.

Executive Compensation

Compensation Discussion and Analysis

The Compensation Committee of our Board of Directors, comprised entirely of independent directors, administers the Company's executive compensation program. The role of the Compensation Committee is to oversee compensation and benefit plans and policies, administer stock plans and review and approve annually all compensation decisions relating to all executive officers.

Purposes and Structure of the Executive Compensation Program

The executive compensation program is designed to:

Attract, motivate and retain superior talent;

Encourage high performance and promote accountability;

Align a portion of compensation with Company performance and stockholder returns;

Provide financial incentives for the achievement of financial and operational targets and strategic objectives that are critical to our long-term growth; and

Ensure that the executive officers have financial incentives to achieve substantial growth in stockholder value.

To achieve these objectives, the Compensation Committee, which is comprised of members who have knowledge of executive compensation levels of other companies by virtue of their professional background, experience and dealings external to PriceSmart, has implemented and intends to maintain compensation plans that tie a portion of the executives' overall compensation to key financial and operational goals.

The compensation of our named executive officers is comprised of base salaries, an annual corporate incentive bonus plan and long-term equity incentives in the form of restricted stock. In determining specific components of compensation, the Compensation Committee considers each officer's performance, level of responsibility, skills and experience, and other compensation awards or arrangements, as more fully described below under Elements of Compensation.

Compensation Determination Process

The Compensation Committee reviews and approves all elements of compensation for all named executive officers taking into consideration recommendations from management. The Compensation Committee also reviews and approves all annual bonus awards for all executives and equity awards for all employees. The Company's Chairman makes recommendations to the Compensation Committee with respect to salary, bonus eligibility and restricted stock for the Chief Executive Officer and President, and the Chief Executive Officer and President makes recommendations to the Compensation Committee with respect to salary, bonus eligibility and restricted stock for the Executive Vice Presidents. The Chief Executive Officer and President also provides information to the Committee members at their request to aid in their decision-making. The information includes historical salary and bonus payments to PriceSmart executives, internal equity comparisons, and the financial impact to the Company of a particular compensation decision. The Compensation Committee also receives comparable company compensation information, as described below. After gathering this input and receiving these recommendations, the Compensation Committee determines the compensation of our named executive officers in executive session. In the case of employees below the level of Executive Vice President, the Chief Executive Officer and President sets their salaries and bonus opportunities and makes recommendations to the Compensation Committee.

with respect to their equity awards.

The Compensation Committee has not adopted any formal or informal policies or guidelines for allocating compensation between long-term and currently paid out compensation, between cash and non-cash compensation, or among different forms of compensation. This is due to the small size of our executive team and the need to tailor each executive's compensation

Executive Compensation (continued)

program to attract and retain that executive. However, the Committee believes that long-term compensation plays an important role in aligning the compensation of the senior management team to stockholder returns, and in the retention of key executives. In particular, the Committee believes that the Chief Executive Officer and President's compensation should be more heavily weighted towards long-term incentives as compared to other members of senior management given his greater ability to affect the results of the Company and the importance to us of retaining his services.

In January 2012, we held a stockholder advisory vote on the compensation of PriceSmart's named executive officers, commonly referred to as a say-on-pay vote. Stockholders overwhelmingly approved the compensation of the named executive officers, with approximately 99% of stockholder votes cast in favor of the 2012 say-on-pay resolution (excluding abstentions and broker non-votes). As the Compensation Committee evaluated our compensation practices and talent needs throughout 2013, the Compensation Committee was mindful of the strong support PriceSmart's stockholders expressed for our compensation philosophy. As a result, following the annual review of the executive compensation philosophy, the Compensation Committee decided to generally retain the existing approach to executive compensation for continuing executives, with an emphasis on short- and long-term incentive compensation that rewards senior executives when they deliver value for stockholders. The Company is holding a stockholder advisory vote at the Annual Meeting on the compensation of our named executive officers. See Proposal 2.

Role of Comparable Company Compensation Information in the Compensation Determination Process

The Compensation Committee establishes individual executive compensation at levels the Compensation Committee believes are comparable with those of executives in other companies of similar size and stage of development operating in retail industries and similarly sized public companies in the Southern California region, taking into account our relative performance and our own strategic goals. Management utilized Equilar Inc.'s Executive Insight research database, a resource for referencing executive compensation and analyzing executive pay trends, to aid the Compensation Committee in the identification of a peer group of publicly traded companies so that the Compensation Committee could consider competitive market data in determining the named executive officers' fiscal 2014 compensation program and compensation levels. In establishing fiscal 2014 compensation levels for the named executive officers, the Compensation Committee evaluated the compensation practices of the following public company peer groups:

U.S.-based retail companies with annual revenues ranging from \$500 million to \$15 billion: 99¢ Only Stores, Belk, Inc., Big Lots, Inc., Bon-Ton Stores, Inc., Burlington Coat Factory, Dillards, Inc., Dollar General Corporation, Dollar Tree, Inc., Family Dollar Stores, Inc., Fred's, Inc., Neiman Marcus, Inc., Saks, Inc., and Tuesday Morning Corporation.

Companies based in Southern California with revenues of \$500 million to \$3.1 billion: Callaway Golf Co., Corinthian Colleges, Inc., Cubic Corp., Edwards Lifesciences Corp., Guess, Inc., Impac Mortgage Holdings, Inc., Jack in the Box, Inc., Kaiser Aluminum Corp., Leap Wireless International, Inc., Pacific Sunwear of California, Inc., Quiksilver, Inc., Resmed, Inc., and Standard Pacific Corporation.

In addition, the Compensation Committee reviewed and considered the compensation practices of Costco Wholesale Corporation because the Company's business is similar to Costco's. However, the Compensation Committee took into account Costco's significantly larger size compared to the Company's in making comparisons about executive compensation.

As part of this process, the Compensation Committee reviews the mix of the compensation elements for the named executive officers against the compensation data for positions similar to those held by such officers within the peer group of companies and Costco. Equilar gathers data from proxy statements and reports filed with the Securities and Exchange Commission regarding the peer group companies. The Compensation Committee noted that there was substantial variation between the compensation levels of similarly situated named executive officers across the comparable companies. In particular, the Compensation Committee noted that long-term equity compensation varied significantly company-to-company resulting from the timing of grants or stock options provided to executives. As a result, the Compensation Committee focused on the cash

Executive Compensation (continued)

compensation aspect of overall compensation (that is, base salary and annual target bonus) of other companies' executives relative to our named executive officers' compensation. The Compensation Committee determined that the cash compensation of our named executive officers was below the midpoint of the similarly titled executives at the comparable companies and therefore concluded that the compensation was not excessive.

The named executive officers are all employees of PriceSmart, Inc. and work and reside in the U.S. (either San Diego, California or in the case of Mr. Naylon, Miami, Florida). As such, the Compensation Committee concluded that the competition for executive talent for the Company's named executives would likely be either similarly sized U.S. headquartered companies in the retail industry and/or similarly sized companies in varying industries located in Southern California. PriceSmart had to use a broader revenue range for U.S. retail companies than for Southern California companies to get an adequate sample of broad line retailers.

The Compensation Committee utilized data obtained from Equilar's Executive Insight research database but did not otherwise engage Equilar as a compensation consultant and did not meet with any representative of Equilar, or any other external compensation consultant, with respect to any named executive officers' compensation.

Based on the objectives outlined above, the Compensation Committee strives to set target total compensation opportunity levels and the individual components of compensation to be competitive with the market in which we compete for executive talent. The Compensation Committee does not, however, guarantee that any executive will receive a specific market-derived compensation level.

Compensation data for the peer group of companies is only one of the many factors the Compensation Committee considers in setting compensation for PriceSmart's named executive officers, and actual compensation may vary based on the Compensation Committee's review of other considerations, including the Company's and the individual named executive officer's performance and the value of the executive's leadership and other skills to the Company. The named executive officers may also realize compensation above target opportunity levels based on achieving outstanding results, which is measured in large part based on Company performance relative to the annual financial and operational goals set by the Compensation Committee. This approach is intended to ensure that there is a direct relationship between overall performance in the achievement of financial and operational goals and each individual named executive officer's total compensation.

Elements of Compensation

Executive compensation consists of the following elements:

Base Salary. Base salaries for the named executive officers were initially established either when they were hired into the position from outside the Company (the most recent such hire being October 1, 2004), or over an extended period as they were promoted to increasing levels of responsibility within the Company. Base salaries for the named executive officers are generally established based on the scope of their responsibilities, level of experience and individual performance, taking into account both external competitiveness and internal equity considerations. While the goal for the base salary component is to compensate executives at a level that is competitive with the salaries of executives in comparable positions among our peer group, the Compensation Committee does not attempt to set base salaries at a certain target percentile within the peer group. Instead, the Compensation Committee considers the peer group information as merely a means by which to confirm that its base salary determinations based on the other factors described above are competitive within the peer group. The Compensation Committee annually evaluates the base salary levels of the named executive officers to ensure that there is consistency within the Company based upon scope of responsibility and also to ensure that the base salaries are not excessive relative to other companies of similar size. In establishing changes to base salaries, the Compensation Committee may consider the overall financial condition of the Company but does not make changes to executive salaries based on the achievement of any particular financial criteria.

Executive Compensation (continued)

In January 2014, all of the named executive officers received increases to their base salaries of 2%. The increase in base pay for non-executive U.S.-based employees within the Company was 3.4%. Mr. Laparte received an increase of \$11,444, Mr. Heffner received an increase of \$6,732, Mr. Gans received an increase of \$6,997, Mr. Naylon received an increase of \$8,160, and Mr. Martin received an increase of \$7,140. In each case, these increases were intended to maintain base salaries at an appropriate level based upon the Compensation Committee's review of peer group companies and taking into account general economic inflation.

Annual Management Bonus Program. The Company emphasizes pay-for-performance through an annual management bonus program. All named executive officers with at least six months of service who meet a minimum level of acceptable performance are eligible to participate in the program. Under the program, the Compensation Committee sets target bonus ranges for each participant. Actual bonuses are awarded only if the Company achieves certain levels of operating income and warehouse sales approved by the Compensation Committee. In establishing the levels of operating income and warehouse sales that would result in bonus payments at the threshold, target, and maximum levels, the Compensation Committee considers (1) the operating income and warehouse sales achieved by the Company in the year just completed; (2) the budgeted level of performance set by the Board of Directors for the current fiscal year; (3) the level of bonus payments that would be made to management at differing levels of performance as compared to levels of operating income and warehouse sales; and (4) whether the targets established are consistent with our longer-term business strategy and will not encourage undue risk taking by management simply to achieve a short term objective. After considering these factors, the Compensation Committee applies its judgment to establishing the target levels of performance for the various bonus levels.

In fiscal 2014, payment of a bonus unit to each named executive officer was contingent upon our achieving specified levels of targeted operating income, including currency gain/loss, of \$133.7 million. Minimum performance of \$130.0 million of operating income was required for any bonus payouts, with performance between \$130.0 million and \$133.7 million of operating income resulting in bonuses, as follows: 25% of the target bonus amount, or bonus unit, for operating income at \$130.0 million of operating income, 50% of the bonus unit at \$131.2 million of operating income, 75% of the bonus unit at \$132.4 million of operating income and 100% of the bonus unit at \$133.7 million of operating income. The 2014 program also allowed for (1) an additional bonus amount, of up to 100% of an executive's bonus unit, with 50% for achievement of net warehouse sales above \$2.480 billion with a maximum payout at net warehouse sales above \$2.505 billion; and 50% of a bonus unit for achievement of operating income above \$134.5 million with a maximum payout at operating income above \$137.4 million; and (2) a second additional bonus amount, of up to 100% of an executive's bonus unit, 50% for achievement of net warehouse sales above \$2.514 billion with a maximum payout at net warehouse sales above \$2.550 billion, and 50% for achievement of operating income above \$138.4 million with a maximum payout at operating income above \$142.4 million. The program allowed for an executive to begin receiving a bonus related to operating income over \$138.4 million only if net warehouse sales exceeded \$2.505 billion. The bonus unit for each of Messrs. Heffner, Gans, Naylon and Martin was 15% of annual salary as of August 31, 2014. However, if the maximum levels of both net warehouse sales and operating income were achieved, then each of these executives' maximum bonus would be three times the bonus unit (or 45% of salary). The bonus unit for Mr. Laparte was \$110,000. At that same achievement level, Mr. Laparte's maximum bonus would be \$330,000.

For fiscal 2014, our operating income was \$137.7 million and net warehouse sales were \$2.444 billion. Accordingly, the Company paid annual incentive bonuses to each of our named executive officers at 1.5 times their bonus units. The amounts paid to the named executive officers under the annual management bonus program for fiscal 2014 are disclosed in the Summary Compensation Table below as Non-Equity Incentive Plan Compensation. The named executive officers received the bonus amounts dictated by the 2014 Management Bonus Program, as described above, with no adjustment.

The Compensation Committee reserves the right to apply its judgment to the bonus amounts actually paid based on factors that may affect reported operating income, both positively and negatively, and specifically approves the payments made to our named executive officers. The Compensation Committee does not currently have specific guidelines regarding the exercise of such judgment by the Compensation Committee.

Executive Compensation (continued)

Long-Term Incentive Compensation. We believe that long-term incentives are an integral part of the overall executive compensation program and that our long-term performance will be enhanced through the use of equity awards that reward Company executives for maximizing stockholder value over time. While we previously used stock options as the primary long-term equity incentive vehicle, in January 2006 we instead began using restricted stock grants. The restricted stock vests based on continued employment over the vesting period, which historically has not exceeded five years. However, the named executive officers in January 2012 received long-term retention awards that had varying vesting periods related to the ages of our named executive officers such that final vesting will occur up to but not beyond the executive's attainment of age 66. These awards at the time they were granted vested over eight years (for Mr. Heffner), ten years (for Messrs. Naylon and Martin) and originally five years (for Mr. Gans). Mr. Gans' grant was accelerated to vest in full in 2015. The Company did not make any restricted stock awards to Messrs. Gans, Heffner, Naylon or Martin in fiscal year 2014 or 2013 because the Compensation Committee believes that the grants provided in fiscal year 2012 were substantial enough in value and provided for vesting over sufficiently long time periods as to meet the objectives of long-term equity compensation as noted below for these individuals.

PriceSmart has used restricted stock as the primary long-term incentive vehicle because:

restricted stock and the related vesting period help attract and retain executives;

the value received by the recipient of a restricted stock grant is enhanced as our stock price increases; therefore, restricted stock enhances the executive's incentive to increase the stock price and maximize stockholder value; and

restricted stock helps to provide a balance to the overall executive compensation program as base salary and our annual bonus plan focus on short-term compensation, while restricted stock rewards executives for increases in stockholder value over the longer term.

We may continue to use restricted stock, or other long-term incentives, to achieve these objectives.

In determining the number of shares of restricted stock to be granted to our named executive officers, and the vesting schedules applicable to such awards, the Compensation Committee takes into account the individual's position, age, scope of responsibility, ability to affect profits and stockholder value and the value of restricted stock in relation to other elements of the individual executive's total compensation. All awards of restricted stock are made by the Compensation Committee. We do not have equity ownership requirements or guidelines.

Our named executive officers recognize taxable income from restricted stock when and as shares vest. On each vesting date, the Company repurchases a portion of the shares vesting on such vesting date from the participant to cover the tax obligations triggered by the vesting. The Company repurchases the shares at their fair market value on the date of vesting and pays this amount directly to the taxing authorities. PriceSmart generally receives a corresponding tax deduction for compensation expense in the year of vesting, subject to limits on the deductibility of compensation in excess of \$1.0 million paid to certain executives under Internal Revenue Code Section 162(m) when the compensation does not qualify as performance-based. The amount included in the participant's wages upon such vesting, and, subject to Section 162(m), the amount we may deduct, is equal to the fair market value of a share of Common Stock on the date the shares vest, multiplied by the number of shares vesting.

Severance and Change in Control Payments. We have entered into agreements and maintain plans that require us to make payments and/or provide benefits to our named executive officers under specified circumstances in the event of a termination of their employment or a change in control. We provide for certain severance benefits in the event that a named executive officer's employment is involuntarily terminated. Such severance benefits are designed to alleviate the financial impact of an involuntary termination through salary continuation and with the intent of providing for a stable work environment. We believe that reasonable severance benefits for our named executive officers are important because it may be difficult for our executive officers to find comparable employment within a short period of time following certain qualifying terminations. In addition to normal severance, we provide for accelerated vesting of all equity awards for all employees in the event of a change in control as a means of

reinforcing and encouraging the continued attention and dedication of its employees to their duties of employment without personal distraction or conflict of interest in circumstances which could arise from the occurrence of a change in control. We believe that the interests of stockholders will be best served if the interests of our senior management are aligned with them, and providing these change-in-control benefits should eliminate, or at least reduce, the reluctance of senior management to pursue potential change in control transactions that may be in the best interests of stockholders.

The Company provides severance, continuity and change-in-control benefits because they are essential to help us fulfill our objectives of attracting and retaining key managerial talent. These agreements are intended to be competitive with those of similarly sized companies in our industry and company size and to attract and retain highly qualified individuals. While these arrangements form an integral part of the total compensation provided to these individuals and are considered by the Compensation Committee when determining executive officer compensation, the decision to offer these benefits did not influence the Compensation Committee's determinations concerning other direct compensation or benefit levels.

Other Benefits. PriceSmart's named executive officers are eligible to participate in all of our employee benefit plans, such as our 401(k) plan and our medical, dental, vision, long and short-term disability and life insurance plans, in each case on the same basis as other employees. We also offer our Chief Executive Officer and President a housing allowance and travel benefits in accordance with his employment agreement described below. The Compensation Committee believes that these perquisites are no greater than competitors' practices.

Employment Contracts

The Company has employment agreements with each of our named executive officers. Each agreement currently has a one-year term and a base salary amount which is amended each time a determination is made to renew the agreement or increase the base salary. Each agreement states that the executive is eligible to participate in our bonus plan and to receive all other benefits offered to officers under our standard company benefits practices and plans. Under the agreements, the executive may terminate the agreement at any time on 90 days prior written notice. We may terminate the executive's employment with or without cause upon immediate notice thereof, or upon the death or disability of the executive. The executive may not engage in any activities, with or without compensation, that would interfere with the performance of his duties or that would be adverse to our interests without our prior written consent. In the event that we terminate the agreement for any reason other than cause, death or disability, the executive will be entitled to the continuation of his base salary for one year, payable in conformity with our normal payroll period. If the agreement expires and is not renewed by the Company upon expiration of the employment term with at least the same base annual salary or does not thereafter continue upon other mutually agreeable terms, the executive will be entitled to the continuation of his base salary for one year, reduced by any compensation he may receive from another employer.

Executive Compensation (continued)

Except as noted below, the foregoing severance benefits are the exclusive benefits that would be payable to the executive under his agreement by reason of his termination, and we are not obligated to segregate any assets or procure any investment in order to fund such severance benefits. Each year, participants may contribute up to 100% per pay period of their pre-tax annual compensation (as defined in the retirement plan) up to the maximum allowable by the Internal Revenue Code of 1986, as amended. Participants also may contribute amounts representing distributions from other qualified plans. Effective January 1, 2011, the Plan was amended to replace the Company match with a discretionary contribution of 4% of the employee's eligible compensation up to the IRS maximum allowed to all employees regardless of their own salary deferrals. Prior to that amendment, the Company provided a matching contribution equal to 100% of the participant's elective deferrals up to an annual maximum of 4% of base compensation. Although the Company has not expressed any intent to do so, the Company has the right under the retirement plan to discontinue its contributions at any time and to terminate the retirement plan, subject to the provisions of Employee Retirement Income Security Act of 1974, as amended. Director Compensation

Each non-employee director receives an annual retainer for serving on the Board of Directors.

Effective May 1, 2012, the Board of Directors adopted a new cash compensation program for the non-employee directors. Under the program, each non-employee director receives an annual retainer of \$25,000 per year for serving on the Board of Directors. Additionally, non-employee directors who also serve as chairpersons of Committees receive additional annual retainers, as follows: the chairperson of the Compensation Committee receives an additional annual retainer of \$10,000, the chairperson of the Finance Committee receives an additional annual retainer of \$15,000, the chairperson of the Audit Committee receives an additional annual retainer of \$35,000, and the chairperson of the Nominating/Corporate Governance Committee receives an additional annual retainer of \$5,000. These annual retainers are paid on a quarterly basis.

Prior to May 1, 2012, each director was eligible to receive stock options pursuant to the Company's 2001 Plan and the 2002 Plan. Under each of these plans, non-employee directors were entitled to receive initial grants of non-qualified stock options to purchase 3,000 shares of Common Stock upon becoming directors and additional grants of options to purchase 1,000 shares of Common Stock on the date of each annual meeting of stockholders at which the director was re-elected to the Board of Directors. Each year, the Company historically made a determination as to

awards were to be granted under for such year based in part on its review of the available share reserves under such equity plans. Non-employee directors did not receive automatic option grants under more than one equity plan during any year. These options provided for vesting in equal annual installments over a five-year period, with such vesting accelerating upon a change in control.

Pursuant to a resolution of the Board of Directors effective May 1, 2012, automatic stock option grants to non-employee directors upon election and re-election to the Board of Directors was suspended.

Effective May 1, 2012, following the suspension of the automatic option grant program, the Board of Directors granted to each non-employee director an award of 1,050 restricted stock units under the 2001 Plan, with dividend equivalents thereon, which number of restricted stock units was equal to (1) \$75,000 divided by (2) the 30-trading-day average of the Company's stock price prior to April 17, 2012. In addition, the Board of Directors adopted a standing resolution pursuant to which a person who is initially elected or appointed to the Board of Directors following May 1, 2012, and who is a non-employee director at the time of such initial election or appointment, will be automatically granted such number of restricted stock units, with dividend equivalents thereon, equal to (1) \$75,000 divided by (2) the 30-trading-day average of the Company's stock price prior to the date of such election or appointment. The foregoing awards will vest in three equal installments on the first three anniversaries of the date of grant, subject to the non-employee director's continued service on the Board of Directors on each such vesting date. The vesting of all restricted stock units accelerates automatically upon a change in control.

Mr. Hanson was granted 729 restricted stock unit awards upon his appointment to the Board of Directors in April 2014.

Directors also receive reimbursement for travel expenses incurred in connection with their duties as directors.

The following table summarizes the potential payments to each named executive officer in two different potential scenarios: (1) a termination of the named executive officer without cause, and (2) a change in control without a termination of employment. The table assumes that the termination of employment or change in control occurred on August 31, 2014, the last business day of our last completed fiscal year. For purposes of estimating the value of accelerated vesting of equity awards to be received in the event of a change in control, the Company has assumed a price per share of our Common Stock of \$89.62, which represents the closing market price of our Common Stock as reported on the Nasdaq Global Select Market on August 29, 2014 (the last trading day of fiscal 2014).

| Name | Severance upon Termination without Cause (\$) ⁽¹⁾ | Acceleration of Options and Restricted Stock upon Change in Control (\$) ⁽²⁾ |
|-------------------|--|---|
| Jose Luis Laparte | \$ 583,664 | \$ 6,497,450 |
| John M. Heffner | 343,332 | 1,790,070 |

| William J. Naylon | 416,160 | 2,521,548 |
| Thomas D. Martin | 364,140 | 1,891,340 |

⁽¹⁾ Under the named executive officer's employment agreement, in the event of his termination for other than cause, death or disability, he will be entitled to the continuation of his base salary for a period of one year, payable over such severance period in conformity with our normal payroll.

⁽²⁾ Under the terms of our equity incentive award plans, vesting of all equity awards will accelerate upon a change in control.

Risk Assessment

Management assessed the Company's compensation program for the purpose of reviewing and considering any risks presented by the Company's compensation policies and practices that are likely to have a material adverse effect on the Company.

As part of that assessment, management reviewed the primary elements of our compensation program, including base salary, annual short-term incentive compensation and long-term equity compensation. Management's risk assessment included a review of the overall design of each primary element of our compensation program and an analysis of the various design features, controls and approval rights in place with respect to compensation paid to management and other employees that mitigate potential risks to the Company.

Following the assessment, management determined that the Company's compensation policies and practices did not create risks that were reasonably likely to have a material adverse effect on the Company and reported the results of the assessment to the Compensation Committee.
