March 16, 2015

Dear Shareholder:

We hope you find the semiannual report for Prudential Global Short Duration High Yield Fund, Inc. informative and useful. The report covers performance for the six-month period ended January 31, 2015.

Since market conditions change over time, we believe it is important to maintain a diversified portfolio of funds consistent with your tolerance for risk, time horizon, and financial goals.

Your financial advisor can help you create a diversified investment plan that may include funds covering all the basic asset classes and that reflects your personal investor profile and risk tolerance. Keep in mind, however, that diversification and asset allocation strategies do not assure a profit or protect against loss in declining markets.

Prudential Investments® is dedicated to helping you solve your toughest investment challenges whether it's capital growth, reliable income, or protection from market volatility and other risks. We offer the expertise of Prudential Financial's affiliated asset managers* that strive to be leaders in a broad range of funds to help you stay on course to the future you envision. They also manage money for major corporations and pension funds around the world, which means you benefit from the same expertise, innovation, and attention to risk demanded by today's most sophisticated investors.

Thank you for choosing the Prudential Investments family of funds.

Sincerely,

Stuart S. Parker, President

Prudential Global Short Duration High Yield Fund, Inc.

Performance data quoted represent past performance and assume the reinvestment of all dividends. Past performance does not guarantee future results. An investor may obtain more recent performance data by visiting our website at www.prudentialfunds.com.

Investment Objective

The Fund seeks to provide a high level of current income by investing primarily in higher-rated, below-investment-grade fixed income instruments of issuers located around the world, including emerging markets.* The Fund seeks to maintain a weighted average portfolio duration of three years or less and a weighted average maturity of five years or less.

*There can be no guarantee the Fund will achieve its objective. Higher-rated high yield bonds, commonly referred to as junk bonds, are below investment grade and are considered speculative. They are rated Ba, B by Moody's Investors Service, Inc. (Moody's); BB, B by Standard & Poor's Ratings Services (S&P) or Fitch Ratings, Inc. (Fitch); or are comparably rated by another nationally recognized statistical rating organization (NRSRO), or if unrated, are considered by PIM to be of comparable quality.

Performance Snapshot as of 1/31/15

Price Per Share	Total Return For Six Months Ended 1/31/15
\$17.20 (NAV)	1.33%
\$16.45 (Market Price)	3.21%

Total returns are based on changes in net asset value (NAV) or market price. NAV total return assumes the reinvestment of all distributions, including returns of capital, if any, at NAV. Market Price total return assumes the reinvestment of all distributions, including returns of capital, if any, in additional shares in accordance with the Fund's Dividend Reinvestment Plan.

Strategy and Performance Overview

How did the Fund perform?

During the six-month reporting period ended January 31, 2015, the **Prudential Global Short Duration High Yield Fund, Inc.**'s NAV per share declined by \$1.25 from \$18.45 to \$17.20. Including the reinvestment of dividends, the Fund's return was -1.33%, underperforming the Barclays Global High Yield Ba/B 1-5 Year 1% Issuer Constrained Index's (Index) decline of -0.60%. The Fund outperformed the -2.76% decline of the Lipper Closed End High Yield Funds (Leveraged) Average. During the period, the Fund's market price declined by \$0.49, from \$16.94 to \$16.45. The Fund's market price total return, including the reinvestment of dividends, was 3.21% for the period.

What were conditions like in the short-term global high yield corporate bond market?

The global high yield corporate bond market was weak for much of the six-month reporting period, with volatility among energy-related issuers carrying over into other sectors. As market turbulence increased, credits with healthier fundamentals outperformed.

Shorter duration, higher-rated global high yield bonds, as measured by the Index, performed better than the broad market, but still recorded a small decline overall. Bonds with higher ratings such as BB returned 1.54%, outperforming B-rated bonds and CCC-rated bonds, which fell -2.50% and -11.22%, respectively.

From a regional perspective, emerging markets high yield bonds were under the most pressure, down -11.08% during the period. U.S. high yield bonds also declined, dropping -0.89%. European high yield bonds generated a positive return of 1.85%.

U.S. retail investors seemed somewhat skittish throughout much of the reporting period. During the fourth quarter, the market experienced \$1 billion in investment outflows, bringing 2014's outflow total to \$21 billion. However, near the end of the period, the technical backdrop improved, with \$2.77 billion of inflows during the final week of January—the largest weekly inflow since September 2013.

New issuance was muted during the period overall. Monthly volume, which had averaged \$35 billion through the first six months of 2014, dropped by more than 30% during the second half of the year to about \$25 billion per month in the fourth quarter. During January 2015, only 30 new issues came to market, for a total of \$21.6 billion—the lightest January since 2010 when just \$20.1 billion in new issues were priced.

The credit health of the high yield universe, ex-energy, remains generally strong. Companies have strengthened their balance sheets and cash flows by taking advantage of an accommodative market to refinance debt, push out debt maturities, and reduce interest expenses. At the end of the period, the trailing 12-month U.S. speculative-grade issuer default rate was 1.9%, according to Moody's. This compares to a rate of 2.2% at the end of January 2014.

What strategies proved most beneficial to the Fund's performance?

The Fund benefited from overweight positions in the technology and cable sectors and underweight allocations to the foreign non-corporate and energy sectors.

Security selection in the building materials and construction, capital goods, and gaming sectors added to relative returns.

The avoidance of troubled credit CMP Participacoes Ltda, a Brazil-based company offering mining and exploration services, was the largest positive contributor to Fund performance. The Fund was also helped by its underweight in foreign non-corporate debt, including Venezuela and Russian agricultural bank Rosselkhozbank Ojsc. Underweight positions in energy-related credits, such as U.S.-based oil and natural gas companies EPL Oil & Gas and Linn Energy, also enhanced results.

What strategies detracted most from the Fund's performance?

Underweight positions in the financial and automotive sectors and an overweight position in the metals sector detracted from performance.

Security selection in the retailing, energy, and foods sectors dampened relative results.

U.K. mobile phone retailer Phones 4U was the largest single name detractor. Its bonds declined significantly after mobile carrier Vodafone announced it would not renew its distribution agreement, which was set to expire in February 2015.

The Fund's overweights in international mining group Berau Capital Resources, petroleum exploration and production company Pacific Rubiales Energy Corporation, and North American tubular steel manufacturer JMC Steel Group hurt performance relative to the Index.

How did the Fund's leverage strategy affect its performance?

The Fund's use of leverage hindered returns as the investment returns lagged borrowing costs. As of January 31, 2015, the Fund had borrowed approximately \$265 million and was approximately 27.4% leveraged. During the period, the average amount of leverage utilized was approximately 28.1%.

Strategy and Performance Overview (continued)

Did the Fund have exposure to derivatives?

Derivatives in the form of forward currency exchange contracts were used to hedge against the Fund's positions not denominated in U.S. dollars. Changes in the Fund's foreign currency positions were offset by price movements in the Fund's bond holdings, so the use of foreign currency exchange contracts had a minimal effect on performance on a net basis.

Were there any changes to the Fund's management?

There were no changes to the Fund's management during the period. However, to take greater advantage of the global scope of Prudential Fixed Income's resources and enhance our service to investors, Pramerica Investment Management Limited (PIML), an indirect wholly owned subsidiary of PIM, will be added in a sub-advisory role to the Fund. This Board-approved change, which is effective on May 1, 2015, will have no impact on the Fund's management team, investment process, or strategy. PIML has been increasingly involved in providing research that supports investments made in the Fund, and this addition will help to facilitate the Fund's trading activities due to time zone differences outside the U.S. The fee for PIML's Services will be paid by PIM, not the Fund or the Fund's manager. Based in London, PIML has a staff of 52 employees, including 28 investment professionals.

(1) Cash of \$610,000 has been segregated to cover requirements for open forward foreign currency contracts as of January 31, 2015.

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in the three broad levels listed below.

Level 1 quoted prices generally in active markets for identical securities.

Level 2 quoted prices for similar securities, interest rates and yield curves, prepayment speeds, foreign currency exchange rates and other observable inputs.

Level 3 unobservable inputs for securities valued in accordance with Board approved fair valuation procedures.

See Notes to Financial Statements.

Edgar Filing: Prudential Global Short Duration High Yield Fund, Inc. - Form N-CSRS

The following is a summary of the inputs used as of January 31, 2015 in valuing such portfolio securities:

	Level 1	Level 2	Level 3
Investments in Securities			
Bank Loans	\$	\$ 31,798,981	\$ 6,499,638
Corporate Bonds		604,201,597	672,751

* Other financial instruments are derivative instruments not reflected in the Portfolio of Investments, such as futures, forwards and exchange-traded swap contracts, which are recorded at the unrealized appreciation/depreciation on the instrument, and over-the-counter swap contracts which are recorded at fair value.

** Of which, (\$57,250) was relating to securities held at the reporting period end.

It is the Fund's policy to recognize transfers in and transfers out at the fair value as of the beginning of period. At the reporting period end, there was one Corporate Bond transferred out of Level 3 as a result of being priced by a vendor and one Corporate Bond and one Bank Loan transferred into Level 3 as a result of being priced using a single broker quote.

See Notes to Financial Statements.

Portfolio of Investments

as of January 31, 2015 (Unaudited) continued

Level 3 securities as presented in the table above are being fair valued using pricing methodologies approved by the Board of Directors, which contain unobservable inputs. Such methodologies include, but are not limited to, using prices provided by a single broker/dealer, the cost of the investment, and broker quotes adjusted for changes in yields of comparable U.S. Government and other securities using fixed income securities valuation models.

(Unaudited)

Prudential Global Short Duration High Yield Fund, Inc. (the Fund) is a diversified, closed-end management investment company, registered under the Investment Company Act of 1940, as amended (1940 Act). The Fund was incorporated as a Maryland corporation on July 23, 2012. The Fund's investment objective is to provide a high level of current income.

Note 1. Accounting Policies

The Fund follows investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 Financial Services-*Investment Companies*. The following accounting policies conform to U.S. generally accepted accounting principles. The Fund consistently follows such policies in the preparation of its financial statements.

Securities Valuation: The Fund holds securities and other assets that are fair valued at the close of each day the New York Stock Exchange (NYSE) is open for trading. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Board of Directors (the Board) has adopted Valuation Procedures for security valuation under which fair valuation responsibilities have been delegated to Prudential Investments LLC (PI or Manager). Under the current Valuation Procedures, the established Valuation Committee is responsible for supervising the valuation of portfolio securities and other assets. The Valuation Procedures permit the Fund to utilize independent pricing vendor services, quotations from market makers, and alternative valuation methods when market quotations are either not readily available or not deemed representative of fair value. A record of the Valuation Committee's actions is subject to the Board's review, approval, and ratification at its next regularly-scheduled quarterly meeting.

Various inputs determine how the Fund's investments are valued, all of which are categorized according to the three broad levels (Level 1, 2, or 3) detailed in the table following the Portfolio of Investments.

Common and preferred stocks, exchange-traded funds, and derivative instruments such as futures or options that are traded on a national securities exchange are valued at the last sale price as of the close of trading on the applicable exchange where the security principally trades. Securities traded via NASDAQ are valued at the NASDAQ official closing price. To the extent these securities are valued at the last sale price or NASDAQ official closing price; they are classified as Level 1 in the fair value hierarchy.

Notes to Financial Statements

(Unaudited) continued

In the event that no sale or official closing price on valuation date exists, these securities are generally valued at the mean between the last reported bid and ask prices, or at the last bid price in the absence of an ask price. These securities are classified as Level 2 in the fair value hierarchy, as the inputs are observable and considered to be significant to the valuation.

Common and preferred stocks traded on foreign securities exchanges are valued using pricing vendor services that provide model prices derived using adjustment factors based on information such as local closing price, relevant general and sector indices, currency fluctuations, depository receipts, and futures, as applicable. Securities valued using such model prices are classified as Level 2 in the fair value hierarchy, as the adjustment factors are observable and considered to be significant to the valuation. Such securities are valued using model prices to the extent that the valuation meets the established confidence level for each security. If the confidence level is not met or the vendor does not provide a model price, securities are valued in accordance with exchange-traded common and preferred stocks discussed above.

Investments in open-end, non-exchange-traded mutual funds are valued at their net asset values as of the close of the NYSE on the date of valuation. These securities are classified as Level 1 in the fair value hierarchy since they may be purchased or sold at their net asset values on the date of valuation.

Fixed income securities traded in the over-the-counter market are generally valued at prices provided by approved independent pricing vendors. The pricing vendors provide these prices after evaluating observable inputs including, but not limited to yield curves, yield spreads, credit ratings, deal terms, tranche level attributes, default rates, cash flows, prepayment speeds, broker/dealer quotations, and reported trades. Securities valued using such vendor prices are classified as Level 2 in the fair value hierarchy.

Over-the-counter derivative instruments are generally valued using pricing vendor services, which derive the valuation based on inputs such as underlying asset prices, indices, spreads, interest rates, and exchange rates. These instruments are categorized as Level 2 in the fair value hierarchy.

Centrally cleared swaps listed or traded on a multilateral or trade facility platform, such as a registered exchange, are valued at the daily settlement price determined by the respective exchange. These securities are classified as Level 2 in the fair value hierarchy, as the daily settlement price is not public.

Securities and other assets that cannot be priced according to the methods described above are valued based on pricing methodologies approved by the Board. In the event that significant unobservable inputs are used when determining such valuations, the securities will be classified as Level 3 in the fair value hierarchy.

When determining the fair value of securities, some of the factors influencing the valuation include: the nature of any restrictions on disposition of the securities; assessment of the general liquidity of the securities; the issuer's financial condition and the markets in which it does business; the cost of the investment; the size of the holding and the capitalization of the issuer; the prices of any recent transactions or bids/offers for such securities or any comparable securities; any available analyst media or other reports or information deemed reliable by the investment adviser regarding the issuer or the markets or industry in which it operates. Using fair value to price securities may result in a value that is different from a security's most recent closing price and from the price used by other mutual funds to calculate their net asset values.

Restricted and Illiquid Securities: The Fund may invest in illiquid securities. Illiquid securities are those that, because of the absence of a readily available market or due to legal or contractual restrictions on resale, cannot be sold within seven days in the ordinary course of business at approximately the amount at which the Fund has valued the investment. Therefore, the Fund may find it difficult to sell illiquid securities at the time considered most advantageous by its Subadviser and may incur expenses that would not be incurred in the sale of securities that were freely marketable. Certain securities that would otherwise be considered illiquid because of legal restrictions on resale to the general public may be traded among qualified institutional buyers under Rule 144A of the Securities Act of 1933. These Rule 144A securities, as well as commercial paper that is sold in private placements under Section 4(2) of the Securities Act, may be deemed liquid by the Fund's Subadviser under the guidelines adopted by the Fund. However, the liquidity of the Fund's investments in Rule 144A securities could be impaired if trading does not develop or declines.

Forward Currency Contracts: A forward currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate between two parties. The Fund enters into forward currency contracts in order to hedge its exposure to changes in foreign currency exchange rates on its foreign portfolio holdings or specific receivables and payables denominated in a foreign currency. The contracts are valued daily at current exchange rates and any unrealized gain or loss is included in net unrealized appreciation or depreciation on foreign currencies. Gain or loss is realized on the settlement date of the contract equal to the difference between the settlement value of the original and negotiated forward contracts. This gain or loss, if any, is included in net realized gain (loss) on foreign

Notes to Financial Statements

(Unaudited) continued

currency transactions. Risks may arise upon entering into these contracts from the potential inability of the counterparties to meet the terms of their contracts. Forward currency contracts involve risks from currency exchange rate and credit risk in excess of the amounts reflected on the Statement of Assets and Liabilities. The Fund's maximum risk of loss from counterparty credit risk is the net value of the cash flows to be received from the counterparty at the end of the contract's life.

Cross Currency Exchange Contracts: A cross currency contract is a forward contract where a specified amount of one foreign currency will be exchanged for an amount of another foreign currency.

Master Netting Arrangements: The Fund is subject to various Master Agreements, or netting arrangements, with select counterparties. A master netting arrangement between the Fund and the counterparty permits the Fund to offset amounts payable by the Fund to the same counterparty against amounts to be received; and by the receipt of collateral from the counterparty by the Fund to cover the Fund's exposure to the counterparty. However, there is no assurance that such mitigating factors are easily enforceable. The right to set-off exists when all the conditions are met such that each of the parties owes the other a determinable amount, the reporting party has the right to set-off the amount owed with the amount owed by the other party, the reporting party intends to set-off, and the right of set-off is enforceable by law. During the reporting period, no instances occurred where the right to set-off existed and management has not elected to offset.

The Fund is party to ISDA (International Swaps and Derivatives Association, Inc.) Master Agreements with certain counterparties that govern over-the-counter derivative and foreign exchange contracts entered into from time to time. The Master Agreements may contain provisions regarding, among other things, the parties' general obligations, representations, agreements, collateral requirements, events of default and early termination. With respect to certain counterparties, in accordance with the terms of the Master Agreements, collateral posted to the Fund is held in a segregated account by the Fund's custodian and with respect to those amounts which can be sold or re-pledged, are presented in the Portfolio of Investments. Collateral pledged by the Fund is segregated by the Fund's custodian and identified in the Portfolio of Investments. Collateral can be in the form of cash or debt securities issued by the U.S. Government or related agencies or other securities as agreed to by the Fund and the applicable counterparty. Collateral requirements are determined based

on the Fund's net position with each counterparty. Termination events applicable to the Fund may occur upon a decline in the Fund's net assets below a specified threshold over a certain period of time. Termination events applicable to counterparties may occur upon a decline in the counterparty's long-term and short-term credit ratings below a specified level. In each case, upon occurrence, the other party may elect to terminate early and cause settlement of all derivative and foreign exchange contracts outstanding, including the payment of any losses and costs resulting from such early termination, as reasonably determined by the terminating party. Any decision by one or more of the Fund's counterparties to elect early termination could impact the Fund's future derivative activity.

In addition to each instrument's primary underlying risk exposure (e.g. interest rate, credit, equity or foreign exchange, etc.), swap agreements involve, to varying degrees, elements of credit, market and documentation risk. Such risks involve the possibility that no liquid market for these agreements will exist, the counterparty to the agreement may default on its obligation to perform or disagree on the contractual terms in the agreement, and changes in net interest rates will be unfavorable. In connection with these agreements, securities may be identified or received as collateral from the counterparty in accordance with the terms of the respective swap agreements to provide or receive assets of value and serve as recourse in the event of default or bankruptcy/insolvency of either party. Such over-the-counter derivative agreements include conditions which, when materialized, give the counterparty the right to cause an early termination of the transactions under those agreements. Any election by the counterparty for early termination of the contract(s) may impact the amounts reported on financial statements.

As of January 31, 2015, the Fund has not met conditions under such agreements that give the counterparty the right to call for an early termination.

Forward currency contracts, written options, short sales, swaps and financial futures contracts involve elements of both market and credit risk in excess of the amounts reflected on the Statement of Assets and Liabilities. Such risks may be mitigated by engaging in master netting arrangements.

Loan Participations: The Fund may invest in loan participations. When the Fund purchases a loan participation, the Fund typically enters into a contractual relationship with the lender or third party selling such participations (Selling Participant), but not the borrower. As a result, the Fund assumes the credit risk of the borrower and any other persons interpositioned between the Fund and the borrower. The Fund may not directly benefit from the collateral supporting the senior loan in which it has purchased the loan participation.

Notes to Financial Statements

(Unaudited) continued

Payment In Kind Securities: The Fund may invest in open market or receive pursuant to debt restructuring, securities that pay in kind (PIK) the interest due on such debt instruments. The PIK interest, computed at the contractual rate specified, is added to the existing principal balance of the debt when issued bonds have the same terms as the bond or recorded as a separate bond when terms are different from the existing debt, and is recorded as interest income. The interest rate on PIK debt is paid out over time.

Cash Flow Information: The Fund invests in securities and distributes dividends from net investment income, which are paid in cash or are reinvested at the discretion of stockholders. These activities are reported in the Statement of Changes in Net Assets and additional information on cash receipts and cash payments is presented in the Statement of Cash Flows.

Accounting practices that do not affect reporting activities on a cash basis include carrying investments at value, accruing income on PIK (payment-in-kind) securities and accreting discounts and amortizing premiums on debt obligations.

Securities Transactions and Net Investment Income: Securities transactions are recorded on the trade date. Realized gains or losses from security and currency transactions are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income, including amortization of premium and accretion of discount on debt securities, as required, is recorded on the accrual basis. Expenses are recorded on the accrual basis, which may require the use of certain estimates by management, that may differ from actual.

Dividends and Distributions: The Fund intends to make a level dividend distribution each month to the holders of Common Stock. The level dividend rate may be modified by the Board from time to time, and will be based upon the past and projected performance and expenses of the Fund. The Fund intends to also make a distribution during or with respect to each calendar year (which may be combined with a regular monthly distribution), which will generally include any net investment income and net realized capital gain for the year not otherwise distributed.

PI has received an order from the Securities and Exchange Commission granting the Fund an exemption from Section 19(b) of the 1940 Act and Rule 19b-1 thereunder to permit certain closed-end funds managed by PI to include realized long-term capital

gains as a part of their respective regular distributions to the holders of Common Stock more frequently than would otherwise be permitted by the 1940 Act (generally once per taxable year). The Fund intends to rely on this exemptive order. The Board may, at the request of PI, adopt a managed distribution policy.

Dividends and distributions to stockholders, which are determined in accordance with federal income tax regulations and which may differ from generally accepted accounting principles, are recorded on the ex-dividend date. Permanent book/tax differences relating to income and gains are reclassified amongst undistributed net investment income, accumulated net realized gain or loss and paid-in capital in excess of par, as appropriate.

Organization and Offering Costs: PI has agreed to pay all of the Fund's organizational costs and such amount of the Fund's offering costs (other than sales load) that exceed \$0.04 per share of common stock. Organizational costs are expensed by the Fund as incurred.

Taxes: For federal income tax purposes, the Fund is treated as a separate taxpaying entity. It is the Fund's policy to continue to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable net income and capital gains, if any, to its stockholders. Therefore, no federal income tax provision is required. Withholding taxes on foreign interest are recorded, net of reclaimable amounts, at the time the related income is earned.

Estimates: The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Note 2. Agreements

The Fund has a management agreement with PI. Pursuant to this agreement, PI has responsibility for all investment advisory services and supervises the subadviser's performance of such services. PI has entered into a subadvisory agreement with PIM. The subadvisory agreement provides that PIM will furnish investment advisory services in connection with the management of the Fund. In connection therewith, PIM is obligated to keep certain books and records of the Fund. PI pays for the services of PIM, the cost of compensation of officers of the Fund, occupancy and certain clerical and bookkeeping costs of the Fund. The Fund bears all other cost and expenses.

Notes to Financial Statements

(Unaudited) continued

The management fee paid to PI is accrued daily and payable monthly, at an annual rate of .85% of the average daily value of the Fund's investable assets. Investable assets refers to the net assets attributable to the outstanding Common Stock of the Fund plus the liquidation preference of any outstanding preferred stock issued by the Fund, the principal amount of any borrowings and the principal on any debt securities issued by the Fund.

PI and PIM are indirect, wholly-owned subsidiaries of Prudential Financial, Inc. (Prudential).

Note 3. Other Transactions with Affiliates

The Fund invests in the Prudential Core Taxable Money Market Fund (the Core Fund), a portfolio of the Prudential Investment Portfolios 2, registered under the 1940 Act, and managed by PI. Earnings from the Core Fund are disclosed on the Statement of Operations as affiliated dividend income.

Note 4. Fund Securities

Purchases and sales of portfolio securities, other than short-term investments, for the six months ended January 31, 2015, aggregated \$247,330,704 and \$310,210,001, respectively.

Note 5. Tax Information

The United States federal income tax basis of the Fund's investments and the net unrealized depreciation as of January 31, 2015 were as follows:

Tax Basis	\$ 1,007,713,777
Appreciation	1,957,424
Depreciation	(68,078,898)
Net Unrealized Depreciation	\$ (66,121,474)

The book basis may differ from tax basis due to certain tax-related adjustments.

For federal income tax purposes, the Fund had a capital loss carryforward as of July 31, 2014 of approximately \$9,927,000 which can be carried forward for an unlimited period. No capital gains distributions are expected to be paid to shareholders until net gains have been realized in excess of such losses.

Management has analyzed the Fund's tax positions and has concluded that no provision for income tax is required in the Fund's financial statements for the current reporting period. The Fund's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

Note 6. Capital

There are 1 billion shares of \$0.001 par value Common Stock authorized. Prior to commencement of operations on December 26, 2012, the Fund issued 5,240 shares of Common Stock to Prudential at an aggregate purchase price of \$100,084. As of January 31, 2015, Prudential owned 6,314 shares of Common Stock of the Fund.

For the six months ended January 31, 2015, the Fund did not issue any shares of Common Stock in connection with the Fund's dividend reinvestment plan.

On February 1, 2013, an additional 3,902,005 shares of Common Stock were issued in connection with the exercise of the underwriters over-allotment option. An amount of \$74,528,296 (net of sales load of \$3,511,805) was received pursuant to this allotment. An amount of \$156,080 (\$0.04 per share of the Common Stock) will be used to offset any offering costs as described in Note 1 of the Notes to the Financial Statements.

During the period ended July 31, 2013, the Fund issued 37,000,000 shares of Common Stock in its initial public offering. These shares were all issued at \$20.00 per share before a sales load of \$0.90 per share. Offering costs of approximately \$1,298,000 were accrued and offset against the proceeds of the offering and have been charged to paid-in capital in excess of par.

Note 7. Borrowings

The Fund currently is a party to a committed credit facility (the credit facility) with a financial institution. The credit facility provides for a maximum commitment of approximately \$378 million. Interest on any borrowings under the credit facility is payable at the negotiated rates. The Fund's obligations under the credit facility are secured by the assets of the Fund segregated for the purpose of securing the amount

Notes to Financial Statements

(Unaudited) continued

borrowed. The purpose of the credit facility is to provide the Fund with portfolio leverage and to meet its general cash flow requirements.

During the six months ended January 31, 2015, the Fund utilized the credit facility and had an average daily outstanding loan balance of \$286,081,522 during the 184 day period that the facility was utilized, at an average interest rate of 0.91%. The maximum amount of loan outstanding during the period was \$316,000,000. There was a balance of \$265,000,000 outstanding at January 31, 2015.

Note 8. Subsequent Event

Dividends and Distributions: On February 26, 2015 the Fund declared monthly dividends of \$0.125 per share payable on March 31, 2015, April 30, 2015 and May 29, 2015, respectively, to shareholders of record on March 20, 2015, April 17, 2015 and May 15, 2015, respectively. The ex-dividend dates were March 18, 2015, April 15, 2015 and May 13, 2015, respectively.

(a) Commencement of operations.

(b) Calculated based on average shares outstanding during the period.

(c) Total investment return is calculated assuming a purchase of common stock at the current market price on the first day and a sale at the closing market price on the last day of each period reported. Dividends are assumed, for the purpose of this calculation, to be reinvested at prices obtainable under the Fund's dividend reinvestment plan. This amount does not reflect brokerage commissions or sales load. Total returns for periods less than a full year are not annualized.

(d) Does not include expenses of the underlying portfolio in which the Fund invests.

(e) Includes interest expense of 0.36% for the period ended January 31, 2015, 0.36% for the year ended July 31, 2014 and 0.25% for the period ended July 31, 2013.

Dividend Reinvestment Plan. Unless a holder of Common Stock elects to receive cash by contacting Computershare Trust Company, N.A. (the Plan Administrator), all dividends declared on Common Stock will be automatically reinvested by the Plan Administrator pursuant to the Fund's Automatic Dividend Reinvestment Plan (the Plan), in additional Common Stock. The holders of Common Stock who elect not to participate in the Plan will receive all dividends and other distributions (together, a Dividend) in cash paid by check mailed directly to the stockholder of record (or, if the Common Stock is held in street or other nominee name, then to such nominee) by the Plan Administrator as dividend disbursing agent. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the Dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared Dividend. Such notice will be effective with respect to a particular Dividend. Some brokers may automatically elect to receive cash on behalf of the holders of Common Stock and may re-invest that cash in additional Common Stock.

The Plan Administrator will open an account for each common stockholder under the Plan in the same name in which such common stockholder's Common Stock is registered. Whenever the Fund declares a Dividend payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in Common Stock. The Common Stock will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common Stock from the Fund (Newly Issued Common Stock) or (ii) by purchase of outstanding Common Stock on the open market (Open-Market Purchases) on the NYSE or elsewhere. If, on the payment date for any Dividend, the closing market price of the Common Stock plus per share fees (as defined below) is equal to or greater than the NAV per share of Common Stock (such condition being referred to as market premium), the Plan Administrator will invest the Dividend amount in Newly Issued Common Stock on behalf of the participants. The number of Newly Issued Common Stock to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the NAV per share of Common Stock on the payment date, provided that, if the NAV per share of Common Stock is less than or equal to 95% of the closing market price per share of Common Stock on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per Common Stock on the payment date. If, on the payment date for any Dividend, the NAV per share of Common Stock is greater than the closing market value per share of Common Stock plus per share fees (such condition being referred to as market discount), the Plan Administrator will invest the Dividend amount in shares of Common Stock acquired on behalf of the participants in Open-Market Purchases.

Per share fees include any applicable brokerage commissions the Plan Administrator is required to pay.

In the event of a market discount on the payment date for any Dividend, the Plan Administrator will have until the last business day before the next date on which the Common Stock trades on an ex-dividend basis or 30 days after the payment date for such Dividend, whichever is sooner (the Last Purchase Date), to invest the Dividend amount in Common Stock acquired in Open-Market Purchases on behalf of participants. If, before the Plan Administrator has completed its Open-Market Purchases, the market price per share of Common Stock exceeds the NAV per share of Common Stock, the average per share purchase price paid by the Plan Administrator for Common Stock may exceed the NAV per share of the Common Stock, resulting in the acquisition of fewer shares of Common Stock than if the Dividend had been paid in Newly Issued Common Stock on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Stock at the NAV per share of Common Stock at the close of business on the Last Purchase Date, provided that, if the NAV is less than or equal to 95% of the then current market price per share of Common Stock, the dollar amount of the Dividend will be divided by 95% of the market price on the payment date for purposes of determining the number of shares issuable under the Plan.

The Plan Administrator maintains all stockholder accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by stockholders for tax records. Common Stock in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each stockholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of the holders of Common Stock such as banks, brokers or nominees that hold shares of Common Stock for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of shares of Common Stock certified from time to time by the record stockholder's name and held for the account of beneficial owners who participate in the Plan.

Other Information

(Unaudited) continued

The Plan Administrator's service fee, if any, and expenses for administering the plan will be paid for by the Fund. If a participant elects by written, Internet or telephonic notice to the Plan Administrator to have the Plan Administrator sell part or all of the shares held by the Plan Administrator in the participant's account and remit the proceeds to the participant, the Plan Administrator is authorized to deduct a \$15.00 transaction fee plus a \$0.12 per share fee. If a participant elects to sell his or her shares of Common Stock, the Plan Administrator will process all sale instructions received no later than five business days after the date on which the order is received by the Plan Administrator, assuming the relevant markets are open and sufficient market liquidity exists (and except where deferral is required under applicable federal or state laws or regulations). Such sale will be made through the Plan Administrator's broker on the relevant market and the sale price will not be determined until such time as the broker completes the sale. In every case the price to the participant shall be the weighted average sale price obtained by the Plan Administrator's broker net of fees for each aggregate order placed by the participant and executed by the broker. To maximize cost savings, the Plan Administrator will seek to sell shares in round lot transactions. For this purpose the Plan Administrator may combine a participant's shares with those of other selling participants.

There will be no brokerage charges with respect to shares of Common Stock issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with Open-Market Purchases. Each participant will be charged a per share fee (currently \$0.05 per share) on all Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such Dividends. See Tax Matters. Participants that request a sale of Common Stock through the Plan Administrator are subject to brokerage commissions.

Each participant may terminate the participant's account under the Plan by so notifying the Plan Administrator via the Plan Administrator's website at www.computershare.com/investor, by filling out the transaction request form located at the bottom of the participant's Statement and sending it to the Plan Administrator or by calling the Plan Administrator. Such termination will be effective immediately if the participant's notice is received by the Plan Administrator prior to any dividend or distribution record date. Upon any withdrawal or termination, the Plan Administrator will cause to be delivered to each terminating participant a statement of holdings for the appropriate number of the Fund's whole book-entry shares of Common Stock and a check for the cash adjustment of any fractional share at the market value of the Fund's shares of Common Stock as of the close of business on the date the termination is effective less any applicable fees. In the event a participant's notice of

termination is on or after a record date (but before payment date) for an account whose dividends are reinvested, the Plan Administrator, in its sole discretion, may either distribute such dividends in cash or reinvest them in shares of Common Stock on behalf of the terminating participant. In the event reinvestment is made, the Plan Administrator will process the termination as soon as practicable, but in no event later than five business days after the reinvestment is completed. The Plan may be terminated by the Fund upon notice in writing mailed to each participant at least 30 days prior to any record date for the payment of any dividend or distribution by the Fund.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, Computershare Trust Company, N.A., P.O. Box 43078, Providence, RI 02940-3078 or by calling (toll free) 800-451-6788.
