ITEM 2.05. Costs Associated with Exit or Disposal Activities.

On April 15, 2015, Whirlpool Corporation (the Company) committed to an industrial plan for Italy to integrate its legacy Italian operations with those of Indesit Company S.p.A., in which the Company acquired a majority stake in October 2014 and fully acquired in December 2014. These actions are expected to result in the closure of a manufacturing facility in Carinara and research and development facility in None; the integration of a manufacturing facility in Albacina into a manufacturing facility in Melano; and certain other headcount reductions in manufacturing facilities in Fabriano, Comunanza and Naples. The Company currently expects that approximately 1,350 full-time positions, most of which were deemed redundant by Indesit prior to the acquisition, will be impacted by these actions. The Company expects these actions to be substantially complete in 2018.

The Company estimates that it will incur up to approximately 95 million (\$101 million) in employee-related costs, approximately 25 million (\$27 million) in asset impairment costs, and approximately 15 million (\$16 million) in other associated costs in connection with these actions.

The Company estimates that it will incur a total of approximately 135 million (\$144 million) in costs (as itemized above) through 2018 in connection with these actions.

The Company estimates that approximately 110 million (\$118 million) of the estimated 135 million total cost will result in future cash expenditures.

The Company has previously reported anticipated restructuring charges of up to \$300 million for fiscal year 2015. The actions outlined above are expected to fall within these anticipated charges.
