ABOUT THIS PROSPECTUS SUPPLEMENT

This prospectus supplement and the accompanying prospectus are part of a registration statement that we filed with the Securities and Exchange Commission (the SEC) using a shelf registration process. In this prospectus supplement, we provide you with specific information about the Notes that we are selling in this offering and about the offering itself. Both this prospectus supplement and the accompanying prospectus include or incorporate by reference important information about us and other information you should know before investing in the Notes. This prospectus supplement also adds, updates and changes information contained or incorporated by reference in the accompanying prospectus. To the extent that any statement that we make in this prospectus supplement is inconsistent with the statements made in the accompanying prospectus, the statements made in the accompanying prospectus are deemed modified or superseded by the statements made in this prospectus supplement. You should read both this prospectus supplement and the accompanying prospectus, as well as the additional information contained in the documents described under Incorporation of Certain Documents by Reference, before investing in the Notes.

NON-GAAP FINANCIAL MEASURES

The body of accounting principles generally accepted in the United States is commonly referred to as GAAP. A non-GAAP financial measure is generally defined by the SEC as a numerical measure that purports to measure historical or future financial performance, financial position or cash flows, but excludes or includes amounts that would not be so adjusted in the most comparable GAAP measures. In this prospectus supplement, we disclose Adjusted EBITDAP. As used herein, Adjusted EBITDAP represents net income before interest expense, income tax (benefit) expense, depreciation and amortization expense, net periodic pension cost, rationalization charges, other (income) expense, and the loss on the deconsolidation of our Venezuelan subsidiary effective December 31, 2015. We have presented this measure because we believe Adjusted EBITDAP and other financial measures like it are widely used by investors to evaluate a company's operating performance. Adjusted EBITDAP is not a measure of our financial performance under GAAP and should not be construed as an alternative to net income or other financial measures presented in accordance with GAAP. It should be noted that companies calculate non-GAAP financial measures like Adjusted EBITDAP differently; as a result, Adjusted EBITDAP as presented herein may not be comparable to similarly-titled measures reported by other companies.

The terms "Goodyear," "Company" and "we," "us" or "our" as used herein refer to The Goodyear Tire & Rubber Company together with its consolidated domestic and foreign subsidiary companies, and the term "The Goodyear Tire & Rubber Company" as used herein refers to The Goodyear Tire & Rubber Company exclusive of its subsidiaries, in each case unless otherwise indicated or the context otherwise requires.

Overview of Goodyear

We are one of the world's leading manufacturers of tires, engaging in operations in most regions of the world. In 2015, our net sales were \$16,443 million and Goodyear net income was \$307 million, including an after-tax charge of \$577 million related to the deconsolidation of our Venezuelan subsidiary. For the three months ended March 31, 2016, our net sales were \$3,691 million and Goodyear net income was \$184 million. Together with our U.S. and international subsidiaries, we develop, manufacture, market and distribute tires for most applications. We also manufacture and market rubber-related chemicals for various applications. We are one of the world's largest operators of commercial truck service and tire retreading centers. In addition, we operate approximately 1,100 tire and auto service center outlets where we offer our products for retail sale and provide automotive repair and other services. We manufacture our products in 49 manufacturing facilities in 22 countries, including the United States, and we have marketing operations in almost every country around the world. We employ approximately 66,000 full-time and temporary associates worldwide.

Historically, we operated our business through four operating segments representing our regional tire businesses: North America; Europe, Middle East and Africa (EMEA); Asia Pacific; and Latin America. Effective January 1, 2016, we combined our North America and Latin America strategic business units into one Americas strategic business unit. We have combined the North America and Latin America reportable segments to align with the new organizational structure and the basis used for reporting to our Chief Executive Officer beginning in 2016.

Our principal business is the development, manufacture, distribution and sale of tires and related products and services worldwide. We manufacture and market numerous lines of rubber tires for:

automobiles;

trucks;

buses;

aircraft;

Table of Contents

motorcycles;

earthmoving and mining equipment;

farm implements;

industrial equipment; and

various other applications.

In each case, our tires are offered for sale to vehicle manufacturers for mounting as OE and for replacement worldwide. We manufacture and sell tires under the Goodyear, Dunlop, Kelly, Debica, Sava and Fulda brands and various other Goodyear owned house brands, and the private-label brands of certain customers. In certain geographic areas we also:

retread truck, aviation and off-the-road, or OTR, tires;

manufacture and sell tread rubber and other tire retreading materials;

sell chemical products; and

provide automotive repair services and miscellaneous other products and services.

Our principal products are new tires for most applications. Approximately 87% of our sales in 2015 and 2014 were for new tires, compared to 86% in 2013. Sales of chemical products and natural rubber to unaffiliated customers were 2% in 2015, 3% in 2014 and 4% in 2013 of our consolidated sales.

New tires are sold under highly competitive conditions throughout the world. On a worldwide basis, we have two major competitors: Bridgestone (based in Japan) and Michelin (based in France). Other significant competitors include Continental, Cooper, Hankook, Kumho, Pirelli, Sumitomo Rubber Industries, Ltd. (SRI), Toyo, Yokohama and various regional tire manufacturers.

We compete with other tire manufacturers on the basis of product design, performance, price and terms, reputation, warranty terms, customer service and consumer convenience. Goodyear and Dunlop brand tires enjoy a high recognition factor and have a reputation for performance and product design. The Kelly, Debica, Sava and Fulda brands and various house brand tire lines offered by us, and tires manufactured and sold by us to private brand customers, compete primarily on the basis of value and price.

The Goodyear Tire & Rubber Company is an Ohio corporation organized in 1898. Our principal executive offices are located at 200 Innovation Way, Akron, Ohio 44316-0001. Our telephone number at that address is (330) 796-2121.

See Description of Notes Subsidiary Guarantees and Certain Covenants Future Subsidiary Guarantors.

If the Notes are assigned an investment grade rating by at least two of Moody's Investors Service, Inc. (Moody's), Standard &

Poor's Ratings Services (S&P) and Fitch Ratings, Inc. (Fitch) and no default or event of default has occurred and is continuing, we may elect to suspend the Guarantees. If both (a) one or more ratings on the Notes subsequently declines to below investment grade, resulting in the Notes no longer having an investment grade rating from at least two of Moody's, S&P and Fitch, and (b) the terms of any other debt securities of The Goodyear Tire & Rubber Company or certain of its subsidiaries in an aggregate principal amount of greater than \$100 million then outstanding include previously suspended covenants (that are substantially the same as those that will be contained in the indenture that will govern the Notes) that have become applicable upon a substantially concurrent reversion as a result of substantially the same ratings downgrade with respect to such debt securities, then the Guarantees will be reinstated.

Optional Redemption

We have the option to redeem the Notes, in whole or in part, at any time on or after May 31, 2021, at the redemption prices set forth in this prospectus supplement. Prior to May 31, 2021, we may redeem the Notes, in whole or in part, at a price equal to 100% of the principal amount plus the make-whole premium described in this prospectus supplement. The redemption prices and make-whole premium are described in this prospectus supplement under the caption Description of Notes Optional Redemption.

Change of Control

If we experience a change of control, we will be required to make an offer to repurchase the Notes at a price equal to 101% of their principal amount, plus accrued and unpaid interest to the date of repurchase. See Description of Notes Change of Control.

Certain Covenants

The indenture governing the Notes will contain covenants that limit our ability and the ability of certain of our subsidiaries to, among other things:

- incur additional indebtedness or issue redeemable preferred stock;
- pay dividends, repurchase shares, make distributions in respect of our capital stock or make certain other restricted payments or investments;
- incur liens;
- sell assets;
- incur restrictions on the ability of our subsidiaries to pay dividends or to make other payments to us;
- enter into transactions with our affiliates;
- enter into sale/leaseback transactions; and
- consolidate, merge, sell or otherwise dispose of all or substantially all of our assets.

Table of Contents

These covenants are subject to a number of important exceptions and qualifications. For example, if the Notes are assigned an investment grade rating by at least two of Moody's, S&P and Fitch and no default or event of default has occurred and is continuing, certain covenants will be suspended. If both (a) one or more ratings on the Notes subsequently declines to below investment grade, resulting in the Notes no longer having an investment grade rating from at least two of Moody's, S&P and Fitch, and (b) the terms of any other debt securities of The Goodyear Tire & Rubber Company or certain of its subsidiaries in an aggregate principal amount of greater than \$100 million then outstanding include previously suspended covenants (that are substantially the same as those that will be contained in the indenture that will govern the Notes) that have become applicable upon a substantially concurrent reversion as a result of substantially the same ratings downgrade with respect to such debt securities, then the suspended covenants that will be contained in the indenture that will govern the Notes will be reinstated. See Description of Notes Certain Covenants.

Use of Proceeds

We estimate that the net proceeds from this offering, after deducting underwriting discounts and commissions and estimated offering expenses payable by us, will be approximately \$887 million.

We intend to use the net proceeds from this offering, together with our current cash and cash equivalents, to redeem in full our 6.5% Senior Notes due 2021 (the 2021 Notes) promptly following, and subject to, the completion of this offering, at a redemption price equal to 104.875% of the principal amount thereof, plus accrued and unpaid interest to the redemption date. Pending the use of proceeds as described above, we may temporarily apply the net proceeds from this offering to repay outstanding balances under our revolving credit facilities. See Use of Proceeds.

(2) Adjusted EBITDAP represents net income before interest expense, income tax (benefit) expense, depreciation and amortization expense, net periodic pension cost, rationalization charges, other (income) expense, and the loss on deconsolidation of our Venezuelan subsidiary effective December 31, 2015. We have presented this measure because we believe Adjusted EBITDAP and other financial measures like it are widely used by investors to evaluate a company's operating performance. Adjusted EBITDAP is not a measure of our financial performance under GAAP and should not be construed as an alternative to net income or other financial measures presented in accordance with GAAP. It should be noted that companies calculate non-GAAP financial measures like Adjusted EBITDAP differently; as a result, Adjusted EBITDAP as presented herein may not be comparable to similarly-titled measures reported by other companies. In evaluating Adjusted EBITDAP, you should be aware that in the future we may incur expenses that are the same or similar to some of the adjustments set forth below.

The following table presents the calculation of Adjusted EBITDAP from the most directly comparable GAAP measure, net income:

(a) Interest Expense and Other for the years ended December 31, 2015, 2014 and 2013 and the three months ended March 31, 2015 have been adjusted to reflect the impact of the accounting standards update on the presentation of debt issuance costs which requires the amortization of debt issuance costs to be included in Interest Expense rather than Other. This standard was adopted January 1, 2016.

(b) Net periodic pension cost excludes curtailments/settlements and termination benefits.

(c) Other includes (i) rationalization charges, (ii) other (income) expense, and (iii) the loss on the deconsolidation of our Venezuelan subsidiary effective December 31, 2015.

RISK FACTORS

Any investment in the Notes involves a high degree of risk. You should carefully consider the risks described below and all of the information contained in and incorporated by reference in this prospectus supplement and the accompanying prospectus before deciding whether to purchase the Notes. In particular, you should carefully consider the matters discussed under Risk Factors in our 2015 Form 10-K, which is incorporated by reference in this prospectus supplement and the accompanying prospectus. The risks and uncertainties described below or incorporated by reference herein are not the only risks and uncertainties we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. If any of the risks described below or in documents incorporated by reference herein actually occur, our business, results of operations, financial condition or liquidity could be materially adversely affected. In that event, the trading price of the Notes could decline, and you may lose all or part of your investment in the Notes. The risks described below or in documents incorporated by reference herein also include forward-looking statements, and our actual results may differ substantially from those discussed in these forward-looking statements. See Forward-Looking Information Safe Harbor Statement.

Risks Related to the Notes

The Notes and the Guarantees are effectively subordinated to all of the existing and future secured debt of The Goodyear Tire & Rubber Company and the Subsidiary Guarantors. They are also structurally subordinated to all indebtedness and other obligations of the Non-Guarantors.

The Notes and the Guarantees constitute senior unsecured obligations of The Goodyear Tire & Rubber Company and the Subsidiary Guarantors. As a result, the Notes and the Guarantees are effectively subordinated to all of the existing and future secured debt of The Goodyear Tire & Rubber Company and the Subsidiary Guarantors, in each case to the extent of the value of the collateral securing such debt. In the event of any liquidation, dissolution, bankruptcy, reorganization or other similar proceeding of The Goodyear Tire & Rubber Company or any of the Subsidiary Guarantors, the assets of The Goodyear Tire & Rubber Company or such Subsidiary Guarantor will be available to pay obligations on the Notes only after all secured debt of The Goodyear Tire & Rubber Company or such Subsidiary Guarantor has been paid in full. There may be no assets remaining after the claims of the lenders of such secured debt have been satisfied in full.

The Notes and the Guarantees are structurally subordinated to all indebtedness and other obligations of the Non-Guarantors. All obligations of the Non-Guarantors, including obligations of trade creditors and tort claimants, will have to be satisfied before any of the assets of the Non-Guarantors would be available for distribution, upon a liquidation or otherwise, to The Goodyear Tire & Rubber Company or a Subsidiary Guarantor.

As of March 31, 2016:

The Goodyear Tire & Rubber Company and the Subsidiary Guarantors had total assets of approximately \$13.0 billion; and

the Non-Guarantors had total assets of approximately \$9.0 billion.

As of March 31, 2016, there was outstanding:

approximately \$4.1 billion of senior indebtedness of The Goodyear Tire & Rubber Company, of which approximately \$1.0 billion was secured (exclusive of unused commitments under its credit agreements);

Table of Contents

approximately \$3.7 billion of senior indebtedness of the Subsidiary Guarantors, including guarantees of indebtedness of The Goodyear Tire & Rubber Company, of which approximately \$1.0 billion was secured; and

approximately \$2.0 billion of total indebtedness of the Non-Guarantors (exclusive of unused commitments under their credit agreements).

For the year ended December 31, 2015:

The Goodyear Tire & Rubber Company and the Subsidiary Guarantors generated net sales of approximately \$9.7 billion and net income of approximately \$349 million; and

the Non-Guarantors generated net sales of approximately \$10.3 billion and net income of approximately \$33 million.

For the three months ended March 31, 2016:

The Goodyear Tire & Rubber Company and the Subsidiary Guarantors generated net sales of approximately \$2.1 billion and net income of approximately \$206 million; and

the Non-Guarantors generated net sales of approximately \$2.0 billion and net income of approximately \$94 million.

The above financial information presents investments in subsidiaries following the equity method of accounting and does not represent financial information of The Goodyear Tire & Rubber Company on a consolidated basis. This financial information is presented before any adjustment related to minority interests of The Goodyear Tire & Rubber Company or its subsidiaries and before any elimination of intercompany transactions. These consolidating adjustments are, however, made in the preparation of our consolidated financial statements.

Please refer to Note 22 in our 2015 Form 10-K and Note 15 in our 1Q 2016 Form 10-Q, where we present financial information separately for:

The Goodyear Tire & Rubber Company;

the Subsidiary Guarantors, on a combined basis;

the Non-Guarantors, on a combined basis;

consolidating entries and eliminations; and

The Goodyear Tire & Rubber Company and subsidiaries, on a consolidated basis.

Our corporate structure may materially adversely affect our ability to meet our obligations as a Guarantor of the Notes.

A significant portion of our consolidated assets is held by our subsidiaries. We have manufacturing or sales operations in most countries in the world, often through subsidiary companies. Our cash flow and our ability to service our debt, including the Notes, depends on the results of operations of these subsidiaries and upon the ability of these subsidiaries to make distributions of cash to us, whether in the form of dividends, loans or otherwise. In recent years, our foreign subsidiaries have been a significant source of cash flow for our business. In certain countries where we operate, transfers of funds into or out of such countries are generally or periodically subject to various restrictive governmental

Edgar Filing: Goodyear Canada Inc. - Form 424B2

regulations, and there may be adverse tax consequences to such transfers. In addition, our debt instruments in certain cases place limitations on the ability of our subsidiaries to make distributions of cash to us. While the indenture governing the Notes limits our ability to enter into agreements that restrict our ability to receive dividends and other distributions from our subsidiaries,

S-11

Table of Contents

these limitations are subject to a number of significant exceptions. We are generally permitted to enter into such instruments in connection with financing our foreign subsidiaries, and limitations in existing agreements are not restricted. Furthermore, our subsidiaries are separate and distinct legal entities, and none of our subsidiaries, other than the Subsidiary Guarantors, have any obligation, contingent or otherwise, to make payments on the Notes or to make any funds available for that purpose.

A court could cancel the Guarantees of the Notes under fraudulent transfer law.

Although the Guarantees provide the holders of Notes with a direct unsecured claim against the assets of the Subsidiary Guarantors, under U.S. federal bankruptcy law and comparable provisions of U.S. state fraudulent transfer laws, in certain circumstances a court could cancel a Guarantee and order the return of any payments made thereunder to the subsidiary or to a fund for the benefit of its creditors.

A court might take these actions if it found, among other things, that when the Subsidiary Guarantors incurred the debt evidenced by their Guarantee (i) they received less than reasonably equivalent value or fair consideration for the incurrence of the debt and (ii) any one of the following conditions was satisfied:

the Subsidiary Guarantor was insolvent or rendered insolvent by reason of the incurrence;

the Subsidiary Guarantor was engaged in a business or transaction for which its remaining assets constituted unreasonably small capital; or

the Subsidiary Guarantor intended to incur, or believed (or reasonably should have believed) that it would incur, debts beyond its ability to pay as those debts matured.

In applying the above factors, a court would likely find that a Subsidiary Guarantor did not receive fair consideration or reasonably equivalent value for its Guarantee, except to the extent that it benefited directly or indirectly from the Notes issuance. The determination of whether a Guarantor was or was not rendered insolvent when it entered into its guarantee will vary depending on the law of the jurisdiction being applied. Generally, an entity would be considered insolvent if the sum of its debts (including contingent or unliquidated debts) is greater than all of its assets at a fair valuation or if the present fair salable value of its assets is less than the amount that will be required to pay its probable liability on its existing debts, including contingent or unliquidated debts, as they mature.

If a court canceled a Guarantee, the holders of Notes would no longer have a claim against that Subsidiary Guarantor or its assets. The assets of The Goodyear Tire & Rubber Company and the assets of the remaining Subsidiary Guarantors may not be sufficient to pay the amount then due under the Notes.

If the Notes are assigned an investment grade rating at any time by at least two of Moody's, S&P and Fitch, certain covenants contained in the indenture will be suspended, and in addition we may elect to suspend the Guarantees.

The indenture governing the Notes contains certain covenants that will be suspended and cease to have any effect from and after the first date when the Notes are rated investment grade by at least two of Moody's, S&P and Fitch and no default or event of default has occurred and is continuing. See Description of Notes Certain Covenants Fall Away Covenants. These covenants restrict, among other things, our ability to pay dividends, repurchase shares or make certain other restricted payments, incur certain liens, incur additional debt and enter into certain types of transactions. Because these restrictions would not apply to the Notes at any time that the Notes are rated investment grade by at least two of these rating agencies, the holders of the Notes would not be able to prevent us from

Table of Contents

incurring substantial additional debt and granting additional liens on our property. In addition, if the Notes are assigned an investment grade rating at any time by at least two of Moody's, S&P and Fitch and no default or event of default has occurred or is continuing, we may elect to suspend the Guarantees. See Description of Notes Certain Covenants Fall Away Covenants. If after these covenants are suspended or we elect to suspend the Guarantees, both (i) a ratings downgrade results in at least two of Moody's, S&P and Fitch assigning a non-investment grade rating to the Notes, and (ii) the terms of any other debt securities of The Goodyear Tire & Rubber Company or certain of its subsidiaries in an aggregate principal amount of greater than \$100 million then outstanding include previously suspended covenants (that are substantially the same as those that will be contained in the indenture that will govern the Notes) that have become applicable upon a substantially concurrent reversion as a result of substantially the same ratings downgrade with respect to such debt securities, then the covenants and the Guarantees would be reinstated and the holders of the Notes would again have the protection of these covenants and the benefit of the Guarantees. However, any liens or indebtedness incurred or other transactions entered into during such time as the Notes were rated investment grade would be permitted to remain in effect.

We may not have the ability to raise the funds necessary to finance a change of control offer required by the indenture governing the Notes, and holders may be unable to require us to repurchase the Notes in certain circumstances.

Upon the occurrence of specific change of control events set forth in the indenture governing the Notes, we will be required to offer to repurchase all of the Notes then outstanding at 101% of the principal amount, plus accrued and unpaid interest, to the date of repurchase. A change of control may also accelerate our obligations to repay amounts outstanding under our credit agreements and require us (or our subsidiaries) to make a similar offer to purchase the 2021 Notes, our 8.75% Senior Notes due 2020, our 7% Senior Notes due 2022, our 5.125% Senior Notes due 2023 and the 3.75% Senior Notes due 2023 of Goodyear Dunlop Tires Europe B.V. (GDTE), which we guarantee. Any of our future debt agreements may contain a similar provision. We may not have sufficient assets or be able to obtain sufficient third-party financing on favorable terms to satisfy all of our obligations under the Notes and our other current and future debt agreements upon a change of control.

Under the terms of our existing credit agreements, a change in control will result in an event of default. Any future credit agreements or other agreements or instruments relating to indebtedness to which we become a party may contain restrictions on our ability to offer to repurchase the Notes in connection with a change of control. In the event a change of control occurs at a time when we are prohibited from offering to purchase the Notes, we could attempt to obtain the consent of the lenders under those agreements or attempt to refinance the related indebtedness, but we may not be successful.

In addition, holders may not be entitled to require us to repurchase their Notes in certain circumstances involving a significant change in the composition of our Board of Directors. Under the terms of the indenture governing the Notes, we are required to offer to repurchase the Notes if, during any two consecutive years, individuals who at the beginning of such period constituted our Board of Directors (together with any new directors whose election by such Board of Directors or whose nomination for election by our shareholders was approved by a vote of a majority of our directors then still in office who were either directors at the beginning of such period or whose election or nomination for election was previously so approved) cease for any reason to constitute a majority of our Board of Directors then in office. The Court of Chancery of Delaware has found that, in a proxy contest where shareholders nominated their own slate of directors, the occurrence of a change of control under an indenture governed by New York law could be avoided if the directors approved the dissident slate of directors solely for purposes of the indenture but did not otherwise endorse them. In taking such action, the Board of Directors must determine in good faith that the election of the dissident nominees would

Table of Contents

not be materially adverse to the corporation or its stockholders but is not required to take into consideration the interests of the holders of debt securities in making this determination. The indenture governing the Notes will be governed by New York law. As a result, in certain circumstances involving a significant change in the composition of our Board of Directors, including in connection with a proxy contest where our Board of Directors does not endorse a dissident slate of directors but approves them for purposes of the indenture governing the Notes, holders of the Notes may not be entitled to require us to make a change of control offer.

Your right to require us to redeem the Notes is limited.

The holders of Notes have limited rights to require us to purchase or redeem the Notes in the event of a takeover, recapitalization or similar restructuring, including a recapitalization or similar transaction with management. Consequently, the change of control provisions of the indenture governing the Notes will not afford any protection in a highly leveraged transaction, including a transaction initiated by us, if such transaction does not result in a change of control or otherwise result in an event of default under the indenture. Accordingly, the change of control provisions of the indenture are likely to be of limited effect in such situations.

Your ability to transfer the Notes may be limited by the absence of an active trading market, which may not develop for the Notes.

The Notes will constitute a new issue of securities with no established trading market, and we do not intend to list them on any securities exchange. Although the underwriters have advised us that they currently intend to make a market in the Notes, they are not obligated to do so and may discontinue their market-making activities at any time without notice. As a result, the market price of the new Notes could be adversely affected. We cannot give you any assurance as to:

the liquidity of any trading market that may develop for the Notes;

the ability of holders to sell their Notes; or

the price at which holders would be able to sell their Notes.

Even if a trading market develops, the Notes may trade at higher or lower prices than their principal amount or purchase price, depending on many factors, including:

prevailing interest rates;

the number of holders of the Notes;

the interest of securities dealers in making a market for the Notes;

the market for similar Notes; and

our operating performance and financial condition.

Moreover, the market for non-investment grade debt has historically been subject to disruptions that have caused volatility in prices. It is possible that the market for the Notes will be subject to disruptions and, regardless of our prospects or performance, any disruption may have a negative effect on you as a holder of the Notes.

USE OF PROCEEDS

We estimate that the net proceeds from this offering, after deducting underwriting discounts and commissions and estimated offering expenses payable by us, will be approximately \$887 million. We intend to use the net proceeds from this offering, together with our current cash and cash equivalents, to redeem in full the 2021 Notes promptly following, and subject to, the completion of this offering, at a redemption price equal to 104.875% of the principal amount thereof, plus accrued and unpaid interest to the redemption date. Pending the use of proceeds as described above, we may temporarily apply the net proceeds from this offering to repay outstanding balances under our revolving credit facilities. Currently, \$900 million in aggregate principal amount of the 2021 Notes are outstanding.

In connection with the redemption of the 2021 Notes, we expect to record, for the period in which the 2021 Notes are redeemed:

a charge of approximately \$44 million associated with the payment of the redemption premium; and

a non-cash charge of approximately \$9 million associated with the expensing of deferred financing fees incurred in connection with the offer and sale of the 2021 Notes.

						(unaudited)
Ratio of earnings to fixed charges ⁽¹⁾	2.11x	2.13x	2.32x	1.75x	2.17x	3.17x

(1) For purposes of calculating our ratio of earnings to fixed charges:

Earnings consist of pre-tax income before adjustment for minority interests in consolidated subsidiaries or income or loss from equity investees plus (i) amortization of previously capitalized interest and (ii) distributed income of equity investees less (i) capitalized interest and (ii) minority interest in pre-tax income of consolidated subsidiaries with no fixed charges.

Fixed charges consist of (i) interest expense, less debt extinguishment costs included in interest expense, (ii) capitalized interest, (iii) the interest portion of rental expense (estimated to equal 1/3 of such expense, which is considered a reasonable approximation of the interest factor) and (iv) proportionate share of fixed charges of investees accounted for by the equity method.

The consolidated ratio of earnings to fixed charges is determined by adding back fixed charges, as defined above, to earnings, as defined above, which is then divided by fixed charges, as defined above.

DESCRIPTION OF OTHER INDEBTEDNESS

Senior Secured Credit Facilities

\$2.0 Billion Amended and Restated First Lien Revolving Credit Facility due 2021

On April 7, 2016, we amended and restated our \$2.0 billion U.S. first lien revolving credit facility. Changes to the facility include extending the maturity to 2021 and reducing the interest rate for loans under the facility by 25 basis points to LIBOR plus 125 basis points, based on our current liquidity as described below.

Our amended and restated first lien revolving credit facility is available in the form of loans or letters of credit, with letter of credit availability limited to \$800 million. Subject to the consent of the lenders whose commitments are to be increased, we may request that the facility be increased by up to \$250 million. Our obligations under the facility are guaranteed by most of our wholly-owned U.S. and Canadian subsidiaries. Our obligations under the facility and our subsidiaries' obligations under the related guarantees are secured by first priority security interests in collateral that includes, subject to certain exceptions:

U.S. and Canadian accounts receivable and inventory;

certain of our U.S. manufacturing facilities;

equity interests in our U.S. subsidiaries and up to 65% of the voting equity interests in most of our directly owned foreign subsidiaries; and

substantially all other tangible and intangible assets, including equipment, contract rights and intellectual property.

Availability under the facility is subject to a borrowing base, which is based on (i) eligible accounts receivable and inventory of The Goodyear Tire & Rubber Company and certain of its U.S. and Canadian subsidiaries, after adjusting for customary factors that are subject to modification from time to time by the administrative agent or the majority lenders at their discretion (not to be exercised unreasonably), (ii) the value of our principal trademarks, and (iii) certain cash in an amount not to exceed \$200 million. Modifications are based on the results of periodic collateral and borrowing base evaluations and appraisals. To the extent that our eligible accounts receivable and inventory and other components of the borrowing base decline in value, our borrowing base will decrease and the availability under the facility may decrease below \$2.0 billion. In addition, if the amount of outstanding borrowings and letters of credit under the facility exceeds the borrowing base, we are required to prepay borrowings and/or cash collateralize letters of credit sufficient to eliminate the excess. As of March 31, 2016 and December 31, 2015, our borrowing base, and therefore our availability, under this facility was \$618 million and \$536 million, respectively, below the facility's stated amount of \$2.0 billion.

The facility, which matures on April 7, 2021, contains certain covenants that, among other things, limit our ability and the ability of certain of our subsidiaries to (i) incur additional debt or issue redeemable preferred stock, (ii) pay dividends, repurchase shares or make certain other restricted payments or investments, (iii) incur liens, (iv) sell assets, (v) incur restrictions on the ability of our subsidiaries to pay dividends or to make other payments to us, (vi) enter into affiliate transactions, (vii) engage in sale and leaseback transactions, and (viii) consolidate, merge, sell or otherwise dispose of all or substantially all of our assets. These covenants are subject to significant exceptions and qualifications. In addition, in the event that the availability under the facility plus the aggregate amount of our Available Cash is less than \$200 million, we will not be permitted to allow our ratio of EBITDA to Consolidated Interest Expense to be less than 2.0 to 1.0 for any period of four consecutive fiscal quarters. Available Cash, EBITDA and Consolidated Interest Expense have the meanings given them in the facility.

Table of Contents

The facility has customary representations and warranties including, as a condition to borrowing, that all such representations and warranties are true and correct, in all material respects, on the date of the borrowing, including representations as to no material adverse change in our business or financial condition since December 31, 2015. The facility also has customary defaults, including a cross-default to material indebtedness of Goodyear and our subsidiaries.

If Available Cash plus the availability under the facility is greater than \$1.0 billion, amounts drawn under the facility will bear interest, at our option, at (i) 125 basis points over LIBOR or (ii) 25 basis points over an alternative base rate (the higher of (a) the prime rate, (b) the federal funds effective rate or the overnight bank funding rate plus 50 basis points or (c) LIBOR plus 100 basis points), and undrawn amounts under the facility will be subject to an annual commitment fee of 30 basis points. If Available Cash plus the availability under the facility is equal to or less than \$1.0 billion, then amounts drawn under the facility will bear interest, at our option, at (i) 150 basis points over LIBOR or (ii) 50 basis points over an alternative base rate, and undrawn amounts under the facility will be subject to an annual commitment fee of 25 basis points.

At March 31, 2016, we had \$270 million of borrowings outstanding and \$284 million of letters of credit issued under the first lien revolving credit facility. At December 31, 2015, we had no borrowings outstanding and \$315 million of letters of credit issued under the first lien revolving credit facility.

Amended and Restated Second Lien Term Loan Facility due 2019

Our amended and restated second lien term loan facility may be increased by up to \$300 million at our request, subject to the consent of the lenders making such additional term loans. The term loan currently bears interest at LIBOR plus 300 basis points, subject to a minimum LIBOR rate of 75 basis points. Our obligations under this facility are guaranteed by most of our wholly-owned U.S. and Canadian subsidiaries and are secured by second priority security interests in the same collateral securing the \$2.0 billion first lien revolving credit facility.

The facility, which matures on April 30, 2019, contains covenants, representations, warranties and defaults similar to those in the \$2.0 billion first lien revolving credit facility. In addition, if our Pro Forma Senior Secured Leverage Ratio (the ratio of Consolidated Net Secured Indebtedness to EBITDA) for any period of four consecutive fiscal quarters is greater than 3.0 to 1.0, before we may use cash proceeds from certain asset sales to repay any junior lien, senior unsecured or subordinated indebtedness, we must first offer to use such cash proceeds to prepay borrowings under the second lien term loan facility. Pro Forma Senior Secured Leverage Ratio, Consolidated Net Secured Indebtedness and EBITDA have the meanings given them in the facility. Loans under the second lien term loan facility bear interest, at our option, at (i) 300 basis points over LIBOR (subject to a minimum LIBOR rate of 75 basis points) or (ii) 200 basis points over an alternative base rate (the higher of the prime rate, the federal funds rate plus 50 basis points or LIBOR plus 100 basis points). After June 16, 2015 and prior to June 16, 2016, (i) loans under the facility may not be prepaid or repaid with the proceeds of term loan indebtedness, or converted into or replaced by new term loans, bearing interest at an effective interest rate that is less than the effective interest rate then applicable to such loans and (ii) no amendment of the facility may be made that, directly or indirectly, reduces the effective interest rate applicable to the loans under the facility, in each case unless we pay a fee equal to 1.0% of the principal amount of the loans so affected.

At both March 31, 2016 and December 31, 2015, the amounts outstanding under this facility were \$598 million. On February 3, 2015, we repaid \$200 million and on December 30, 2015 we repaid \$400 million of the borrowings under this facility. Repayments are not able to be redrawn.

550 Million Amended and Restated Senior Secured European Revolving Credit Facility Due 2020

Our amended and restated 550 million European revolving credit facility consists of (i) a 125 million German tranche that is available only to Goodyear Dunlop Tires Germany GmbH (GDTG) and (ii) a 425 million all-borrower tranche that is available to GDTE, GDTG and Goodyear Dunlop Tires Operations S.A. Up to 150 million of swingline loans and up to 50 million in letters of credit are available for issuance under the all-borrower tranche. Amounts drawn under the European revolving credit facility bear interest at LIBOR plus 175 basis points for loans denominated in U.S. dollars or pounds sterling and EURIBOR plus 175 basis points for loans denominated in euros, and undrawn amounts under the European revolving credit facility are subject to an annual commitment fee of 30 basis points.

GDTE and certain of its subsidiaries in the United Kingdom, Luxembourg, France and Germany provide guarantees to support the European revolving credit facility. GDTE's obligations under the European revolving credit facility and the obligations of its subsidiaries under the related guarantees are secured by security interests in collateral that includes, subject to certain exceptions:

the capital stock of the principal subsidiaries of GDTE; and

a substantial portion of the tangible and intangible assets of GDTE and certain of its subsidiaries in the United Kingdom, Luxembourg, France and Germany, including real property, equipment, inventory, contract rights, intercompany receivables and cash accounts, but excluding accounts receivable and certain cash accounts in subsidiaries that are or may become parties to securitization or factoring transactions.

The German guarantors secure the German tranche on a first-lien basis and the all-borrower tranche on a second-lien basis. GDTE and its other subsidiaries that provide guarantees secure the all-borrower tranche on a first-lien basis and generally do not provide collateral support for the German tranche. Goodyear and our U.S. subsidiaries and primary Canadian subsidiary that guarantee our U.S. senior secured credit facilities described above also provide unsecured guarantees in support of the European revolving credit facility.

The European revolving credit facility, which matures on May 12, 2020, contains covenants similar to those in our first lien revolving credit facility, with additional limitations applicable to GDTE and its subsidiaries. In addition, under the European revolving credit facility, GDTE's ratio of Consolidated Net J.V. Indebtedness to Consolidated European J.V. EBITDA for a period of four consecutive fiscal quarters is not permitted to be greater than 3.0 to 1.0 at the end of any fiscal quarter. Consolidated Net J.V. Indebtedness and Consolidated European J.V. EBITDA have the meanings given them in the European Credit Facility.

The European revolving credit facility has customary representations and warranties including, as a condition to borrowing, that all such representations and warranties are true and correct, in all material respects, on the date of the borrowing, including representations as to no material adverse change in our business or financial condition since December 31, 2014. The facility also has customary defaults, including a cross-default to material indebtedness of Goodyear and our subsidiaries.

At March 31, 2016, the amounts outstanding under the German and all-borrower tranche were \$142 million (125 million) and \$126 million (110 million), respectively. At December 31, 2015, there were no borrowings outstanding under the European revolving credit facility. There were no letters of credit issued at March 31, 2016 and December 31, 2015.

Accounts Receivable Securitization Facilities (On-Balance Sheet)

GDTE and certain other of our European subsidiaries are parties to a pan-European accounts receivable securitization facility that expires in 2019. The terms of the facility provide the flexibility to designate annually the maximum amount of funding available under the facility in an amount of not less than 45 million and not more than 450 million. For the period beginning October 16, 2014 to October 15, 2015, the designated maximum amount of the facility was 380 million. For the period beginning October 16, 2015 to October 15, 2016, the designated maximum amount of the facility is 340 million.

The facility involves an ongoing daily sale of substantially all of the trade accounts receivable of certain GDTE subsidiaries to a bankruptcy-remote French company controlled by one of the liquidity banks in the facility. These subsidiaries retain servicing responsibilities. Utilization under this facility is based on eligible receivable balances.

The funding commitments under the facility will expire upon the earliest to occur of: (a) September 25, 2019, (b) the non-renewal and expiration (without substitution) of all of the back-up liquidity commitments, (c) the early termination of the facility according to its terms (generally upon an Early Amortisation Event (as defined in the facility), which includes, among other things, events similar to the events of default under our senior secured credit facilities; certain tax law changes; or certain changes to law, regulation or accounting standards), or (d) our request for early termination of the facility. The facility's current back-up liquidity commitments will expire on October 15, 2016.

At March 31, 2016, the amounts available and utilized under this program totaled \$247 million (217 million). At December 31, 2015, the amounts available and utilized under this program totaled \$276 million (254 million) and \$125 million (115 million), respectively. The program does not qualify for sale accounting, and accordingly, these amounts are included in Long Term Debt and Capital Leases.

In addition to the pan-European accounts receivable securitization facility discussed above, subsidiaries in Australia have an accounts receivable securitization program that provides up to \$65 million (85 million Australian dollars) of funding. The terms of the facility provide the flexibility to designate semi-annually the maximum amount of funding available under the facility in an amount of not less than 60 million Australian dollars and not more than 85 million Australian dollars. At March 31, 2016, the amounts available and utilized under this program were \$36 million and \$21 million, respectively. At December 31, 2015, the amounts available and utilized under this program were \$34 million and \$19 million, respectively. The receivables sold under this program also serve as collateral for the related facility. We retain the risk of loss related to these receivables in the event of non-payment. These amounts are included in Long Term Debt and Capital Leases.

Accounts Receivable Factoring Facilities (Off-Balance Sheet)

Various subsidiaries sold certain of their trade receivables under off-balance sheet programs during 2015 and 2016. For these programs, we have concluded that there is generally no risk of loss to us from non-payment of the sold receivables. At March 31, 2016 and December 31, 2015, the gross amount of receivables sold was \$249 million and \$299 million, respectively.

Other Foreign Credit Facilities

A Chinese subsidiary has several financing arrangements in China. At March 31, 2016, these non-revolving credit facilities had total unused availability of \$67 million and can only be used to finance the expansion of our manufacturing facility in China. At March 31, 2016 and December 31, 2015, the amounts outstanding under these facilities were \$433 million and \$465 million, respectively.

Table of Contents

The facilities ultimately mature in 2023 and principal amortization began in 2015. The facilities contain covenants relating to the Chinese subsidiary and have customary representations and warranties and defaults relating to the Chinese subsidiary's ability to perform its obligations under the facilities. At March 31, 2016 and December 31, 2015, restricted cash related to funds obtained under these credit facilities was \$3 million and \$11 million, respectively.

Other Domestic Debt

In 2011, we entered into agreements for the construction of our Global and Americas Headquarters facility in Akron, Ohio. We concurrently entered into an agreement to occupy the facility under a 27-year lease, including the two-year construction period, with multiple renewal options available at our discretion. Additionally, we entered into similar agreements for the construction and lease of a new parking deck adjacent to the Headquarters facility. Due to our continuing involvement with the financing during construction of the Headquarters facility and the parking deck, we recorded a non-cash increase to fixed assets and financing liabilities on our Consolidated Balance Sheets as costs were incurred during the construction period. The total financing liability of approximately \$151 million, including capitalized interest, has been recorded in Long Term Debt and Capital Leases at March 31, 2016 and December 31, 2015.

Other Debt Securities

We have outstanding (i) \$900 million in aggregate principal amount of 6.5% Senior Notes due 2021, (ii) \$700 million in aggregate principal amount of 7% Senior Notes due 2022 and (iii) \$1.0 billion in aggregate principal amount of 5.125% Senior Notes due 2023. These notes are senior unsecured obligations and are guaranteed by our U.S. and Canadian subsidiaries that also guarantee our obligations under our first and second lien credit facilities described above. The terms of our indentures for these notes, among other things, limit our ability and the ability of certain of our subsidiaries to (i) incur additional debt or issue redeemable preferred stock, (ii) pay dividends, repurchase shares or make certain other restricted payments or investments, (iii) incur liens, (iv) sell assets, (v) incur restrictions on the ability of our subsidiaries to pay dividends or to make other payments to us, (vi) enter into affiliate transactions, (vii) engage in sale and leaseback transactions and (viii) consolidate, merge, sell or otherwise dispose of all or substantially all of our assets. These covenants are subject to significant exceptions and qualifications. For example, if these notes are assigned an investment grade rating by Moody's and S&P (or, in the case of the 5.125% Senior Notes due 2023, are assigned an investment grade rating by at least two of Moody's, S&P and Fitch) and no default has occurred and is continuing, certain covenants will be suspended and we may elect to suspend the subsidiary guarantees. The indentures for these notes have customary defaults, including a cross-default to material indebtedness of Goodyear and our subsidiaries.

We also have outstanding \$282 million in aggregate principal amount of 8.75% Notes due 2020 and \$150 million in aggregate principal amount of 7% Notes due 2028. These notes are senior unsecured obligations and the 8.75% Notes are guaranteed by our U.S. and Canadian subsidiaries that also guarantee our obligations under our first and second lien credit facilities described above. The terms of the indenture for these notes, among other things, limit our ability and the ability of certain of our subsidiaries to (i) incur secured debt, (ii) engage in sale and leaseback transactions and (iii) consolidate, merge, sell or otherwise dispose of all or substantially all of our assets. These covenants are subject to significant exceptions and qualifications.

GDTE has outstanding \$250 million in aggregate principal amount of the 3.75% Senior Notes due 2023. These notes are senior unsecured obligations of GDTE and are guaranteed, on a senior unsecured basis, by Goodyear and our U.S. and Canadian subsidiaries that also guarantee our obligations under our first and second lien credit facilities described above. The terms of the indenture

for these notes, among other things, limit our ability and the ability of certain of our subsidiaries, including GDTE, to (i) incur additional debt or issue redeemable preferred stock, (ii) pay dividends, repurchase shares or make certain other restricted payments or investments, (iii) incur liens, (iv) sell assets, (v) incur restrictions on the ability of our subsidiaries to pay dividends or to make other payments to us, (vi) enter into affiliate transactions, (vii) engage in sale and leaseback transactions and (viii) consolidate, merge, sell or otherwise dispose of all or substantially all of their assets. These covenants are subject to significant exceptions and qualifications. Definitions of certain terms used in this Description of Notes not otherwise defined herein may be found under the heading **Certain Definitions**. For purposes of this section, the term **Company** refers only to The Goodyear Tire & Rubber Company and not to any of its Subsidiaries; the terms **we**, **us** or **our** as used herein refer to The Goodyear Tire & Rubber Company and, where the context so requires, certain or all of its Subsidiaries. Certain of the Company's Subsidiaries will guarantee the Notes and therefore will be subject to many of the provisions contained in this Description of Notes. Each Subsidiary of the Company which guarantees the Notes is referred to in this Description of Notes as a **Subsidiary Guarantor**. Each such guarantee is termed a **Subsidiary Guarantee**.

The Notes will be issued under the indenture, dated as of August 13, 2010 (the **Base Indenture**), among the Company, the Subsidiary Guarantors and Wells Fargo Bank, N.A., as trustee (the **Trustee**), as supplemented by a Fifth Supplemental Indenture to be dated as of May 13, 2016 (together with the Base Indenture, the **Indenture**), among the Company, the Subsidiary Guarantors and the Trustee. The terms of the Notes include those stated in the Indenture and those made part of the Indenture by reference to the TIA.

The following description is meant to be only a summary of the provisions of the Indenture that we consider material. It does not restate the terms of the Indenture in their entirety. We urge that you carefully read the Indenture because the Indenture, and not this description, governs your rights as Holders. You may request copies of the Indenture at our address set forth under the heading **Incorporation of Certain Documents by Reference**.

(2) any such redemption by the Company must be made within 90 days after the closing of such Equity Offering and must be made in accordance with certain procedures set forth in the Indenture.

In addition, prior to May 31, 2021, we may at our option redeem the Notes, in whole or in part, at a redemption price equal to 100% of the principal amount of the Notes plus the Applicable Premium as of, and accrued and unpaid interest to, the redemption date (subject to the right of Holders on the relevant record date to receive interest due on the relevant interest payment date). Notice of such redemption must be mailed by first-class mail to each Holder's registered address (or with respect to global Notes, to the extent permitted or required by applicable DTC procedures or regulations, sent electronically), not less than 30 nor more than 60 days prior to the redemption date. The Indenture will provide that, with respect to any such redemption, we will notify the Trustee of the Applicable Premium promptly after our calculation thereof and that the Trustee will not be responsible for such calculation.

Applicable Premium means, with respect to a Note at any redemption date, the greater of (1) 1.00% of the principal amount of such Note and (2) the excess of (A) the present value at such redemption date of (i) the redemption price of such Note on May 31, 2021 (such redemption price being described in the first paragraph in this section exclusive of any accrued interest), plus (ii) all required remaining scheduled interest payments due on such Note through May 31, 2021 (but excluding accrued and unpaid interest to the redemption date), computed using a discount rate equal to the Adjusted Treasury Rate, over (B) the principal amount of such Note on such redemption date.

Adjusted Treasury Rate means, with respect to any redemption date, (1) the yield, under the heading which represents the average for the immediately preceding week, appearing in the most recently published statistical release designated H.15(519) or any successor publication which is published weekly by the Board of Governors of the Federal Reserve System and which establishes yields on actively traded United States Treasury securities adjusted to constant maturity under the caption Treasury Constant Maturities, for the maturity corresponding to the Comparable Treasury Issue (if no maturity is within three months before or after May 31, 2021, yields for the two published maturities most closely corresponding to the Comparable Treasury Issue shall be determined and the Adjusted Treasury Rate shall be interpolated or extrapolated from such yields on a straight line basis, rounding to the nearest month) or (2) if such release (or any successor release) is not published during the week preceding the calculation date or does not contain such yields, the rate per year equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date, in each case calculated on the third Business Day immediately preceding the redemption date, in each case of (1) and (2), plus 0.50%.

Comparable Treasury Issue means the United States Treasury security selected by the Quotation Agent as having a maturity comparable to the remaining term of the Notes from the redemption date to May 31, 2021 that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of U.S. Dollar denominated corporate debt securities of a maturity most nearly equal to May 31, 2021.

Comparable Treasury Price means, with respect to any redemption date, if clause (2) of the Adjusted Treasury Rate is applicable, the average of three, or if not possible, such lesser number as is obtained by the Company, Reference Treasury Dealer Quotations for such redemption date.

Quotation Agent means one of the Reference Treasury Dealers selected by the Company.

Reference Treasury Dealer means Citigroup Global Markets Inc. and its successors and assigns and two other nationally recognized investment banking firms selected by the Company that are primary U.S. Government Obligation securities dealers.

Table of Contents

Reference Treasury Dealer Quotations means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Company, of the bid and asked prices for the Comparable Treasury Issue, expressed in each case as a percentage of its principal amount, quoted in writing to the Company by such Reference Treasury Dealer at 5:00 p.m., New York City time, on the third Business Day immediately preceding such redemption date.

Selection

If we partially redeem the Notes, the Trustee, subject to the procedures of DTC, will select the Notes to be redeemed on a pro rata basis, by lot or by such other method as the Trustee in its sole discretion shall deem to be fair and appropriate, although no Note less than \$1,000 in original principal amount will be redeemed in part. If we redeem any Note in part only, the notice of redemption relating to such Note shall state the portion of the principal amount thereof to be redeemed. A new Note in principal amount equal to the unredeemed portion thereof will be issued in the name of the Holder thereof upon cancellation of the original Note. On and after the redemption date, interest will cease to accrue on Notes or portions thereof called for redemption so long as we have deposited with the Paying Agent funds sufficient to pay the principal of the Notes to be redeemed, plus accrued and unpaid interest thereon.

Subsidiary Guarantees

The Subsidiary Guarantors, as primary obligors and not merely as sureties, will jointly and severally irrevocably and unconditionally Guarantee on a senior unsecured basis the performance and full and punctual payment when due, whether at Stated Maturity, by acceleration or otherwise, of all obligations of the Company under the Indenture (including obligations to the Trustee) and the Notes, whether for payment of principal of or interest on the Notes, expenses, indemnification or otherwise (all such obligations guaranteed by such Subsidiary Guarantors being herein called the *Guaranteed Obligations*). Each of the Subsidiary Guarantors will agree to pay, in addition to the amount stated above, any and all costs and expenses (including reasonable counsel fees and expenses) incurred by the Trustee or the Holders in enforcing any rights under the Subsidiary Guarantees. Each Subsidiary Guarantee will be limited in amount to an amount not to exceed the maximum amount that can be Guaranteed by the applicable Subsidiary Guarantor without rendering the Subsidiary Guarantee, as it relates to such Subsidiary Guarantor, voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally. The Company will cause each Restricted Subsidiary that enters into a Guarantee of any Indebtedness of the Company or any Subsidiary Guarantor to become a Subsidiary Guarantor and, if applicable, execute and deliver to the Trustee a supplemental indenture pursuant to which such Restricted Subsidiary will Guarantee payment of the Notes. See *Certain Covenants* *Future Subsidiary Guarantors* below.

Each Subsidiary Guarantee is a continuing guarantee and shall (a) remain in full force and effect until payment in full of all the Guaranteed Obligations, (b) be binding upon each Subsidiary Guarantor and its successors and (c) inure to the benefit of, and be enforceable by, the Trustee, the Holders and their successors, transferees and assigns.

The Subsidiary Guarantee of a Subsidiary Guarantor will be released:

- (1) upon the sale (including any sale pursuant to any exercise of remedies by a holder of Indebtedness of the Company or of such Subsidiary Guarantor) or other disposition (including by way of consolidation or merger) of such Subsidiary Guarantor;
- (2) upon the sale or disposition of all or substantially all the assets of such Subsidiary Guarantor;
- (3) upon the designation of such Subsidiary Guarantor as an Unrestricted Subsidiary in accordance with the terms of the Indenture;

Table of Contents

(4) unless there is then existing an Event of Default, at such time and for so long as any such Subsidiary Guarantor that became a Subsidiary Guarantor after the Issue Date pursuant to the covenant described under **Certain Covenants Future Subsidiary Guarantors** does not Guarantee any Indebtedness that would have required such Subsidiary Guarantor to enter into a supplemental indenture pursuant to the covenant described under **Certain Covenants Future Subsidiary Guarantors** and the Company provides an Officers Certificate to the Trustee certifying that no such Guarantee is outstanding and the Company elects to have such Subsidiary Guarantor released from its Subsidiary Guarantee;

(5) at our election, during any Suspension Period if the Company provides an Officers Certificate to the Trustee stating that the Company elects to have such Subsidiary Guarantor released from its Subsidiary Guarantee; or

(6) if we exercise our legal defeasance option or our covenant defeasance option as described under **Defeasance** or if our obligations under the Indenture and the Notes are discharged in accordance with the terms of the Indenture;

provided, however, that in the case of clauses (1) and (2) above, (i) such sale or other disposition is made to a Person other than the Company or a Subsidiary of the Company, (ii) such sale or disposition is otherwise permitted by the Indenture and (iii) the Company complies with the covenant described under **Certain Covenants Limitation on Sales of Assets and Subsidiary Stock** .

The Trustee shall execute and deliver an appropriate instrument confirming the release of any such Subsidiary Guarantor upon request of the Company as provided in the Indenture.

Ranking

The indebtedness evidenced by these Notes and the Subsidiary Guarantees is unsecured and ranks pari passu in right of payment to the Senior Indebtedness of the Company and the Subsidiary Guarantors, as the case may be. The Notes are guaranteed by the Subsidiary Guarantors.

The Notes and the Subsidiary Guarantees are unsecured obligations of the Company and the Subsidiary Guarantors. Secured debt and other secured obligations of the Company and the Subsidiary Guarantors (including any obligations with respect to the Credit Agreements) will be effectively senior to the Notes and the Subsidiary Guarantees, to the extent of the value of the assets securing such debt or other obligations.

The Company currently conducts a portion of its operations through its Subsidiaries. To the extent such Subsidiaries are Non-Guarantors, creditors, including trade creditors, and preferred stockholders, if any, of such Non-Guarantors generally will have priority with respect to the assets and earnings of such Non-Guarantors over the claims of creditors of the Company, including Holders. The Notes, therefore, will be effectively subordinated to the claims of creditors, including trade creditors, and preferred stockholders, if any, of the Non-Guarantors.

As of March 31, 2016:

(1) the Company and the Subsidiary Guarantors had total assets of approximately \$13.0 billion; and

(2) the Non-Guarantors had total assets of approximately \$9.0 billion.

As of March 31, 2016, there was outstanding:

(1) approximately \$4.1 billion of senior indebtedness of the Company, of which approximately \$1.0 billion was secured (exclusive of unused commitments under its credit agreements);

Table of Contents

(2) approximately \$3.7 billion of senior indebtedness of the Subsidiary Guarantors, including guarantees of indebtedness of the Company, of which approximately \$1.0 billion was secured; and

(3) approximately \$2.0 billion of total indebtedness of the Non-Guarantors (in each case, exclusive of unused commitments under their credit agreements).

For the year ended December 31, 2015:

(1) the Company and the Subsidiary Guarantors generated net sales of approximately \$9.7 billion and net income of approximately \$349 million; and

(2) the Non-Guarantors generated net sales of approximately \$10.3 billion and net income of approximately \$33 million.

For the three months ended March 31, 2016:

(1) the Company and the Subsidiary Guarantors generated net sales of approximately \$2.1 billion and net income of approximately \$206 million; and

(2) the Non-Guarantors generated net sales of approximately \$2.0 billion and net income of approximately \$94 million.

The above financial information presents investments in subsidiaries following the equity method of accounting and does not represent financial information of the Company on a consolidated basis. This financial information is presented before any adjustment related to minority interests of the Company or its subsidiaries and before any elimination of intercompany transactions. These consolidating adjustments are, however, made in the preparation of our consolidated financial statements.

Please refer to Note 22 and Note 15, where the Company presents financial information separately for: (i) the Company, (ii) the Subsidiary Guarantors, on a combined basis, (iii) the Non-Guarantors, on a combined basis, (iv) consolidating entries and eliminations and (v) the Company and subsidiaries on a consolidated basis.

Although the Indenture limits the incurrence of Indebtedness by the Company and its Restricted Subsidiaries and the issuance of Preferred Stock by the Restricted Subsidiaries, such limitation is subject to a number of significant qualifications. The Company and its Subsidiaries may be able to incur substantial amounts of additional Indebtedness in certain circumstances. Such Indebtedness may be Senior Indebtedness and, subject to certain limitations, may be secured. See **Certain Covenants Limitation on Indebtedness** below.

The Notes will rank equally in all respects with all other Senior Indebtedness of the Company. Unsecured Indebtedness is not deemed to be subordinate or junior to Secured Indebtedness merely because it is unsecured.

Change of Control

Upon the occurrence of any of the following events (each a **Change of Control**), each Holder will have the right to require the Company to purchase all or any part of such Holder's Notes at a purchase price in cash equal to 101% of the principal amount thereof plus accrued and unpaid interest to the date of purchase (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date):

(1) any person (as such term is used in Sections 13(d) and 14(d) of the Exchange Act) becomes the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act, except

Table of Contents

that for purposes of this clause (1) such person shall be deemed to have beneficial ownership of all shares that any such person has the right to acquire, whether such right is exercisable immediately or only after the passage of time), directly or indirectly, of more than 50% of the total voting power of the Voting Stock of the Company;

(2) during any period of two consecutive years, individuals who at the beginning of such period constituted the board of directors of the Company (together with any new directors whose election by such board of directors of the Company or whose nomination for election by the shareholders of the Company was approved by a vote of a majority of the directors of the Company then still in office who were either directors at the beginning of such period or whose election or nomination for election was previously so approved) cease for any reason to constitute a majority of the board of directors of the Company then in office;

(3) the adoption of a plan relating to the liquidation or dissolution of the Company; or

(4) the merger or consolidation of the Company with or into another Person or the merger of another Person with or into the Company, or the sale of all or substantially all the assets of the Company (as determined on a Consolidated basis) to another Person, and, in the case of any such merger or consolidation, the securities of the Company that are outstanding immediately prior to such transaction and which represent 100% of the aggregate voting power of the Voting Stock of the Company are changed into or exchanged for cash, securities or property, unless pursuant to such transaction such securities are changed into or exchanged for, in addition to any other consideration, securities of the surviving Person or transferee that represent immediately after such transaction, at least a majority of the aggregate voting power of the Voting Stock of the surviving Person or transferee.

Within 30 days following any Change of Control, the Company shall mail (or with respect to global Notes, to the extent permitted or required by applicable DTC procedures or regulations, send electronically) a notice to each Holder with a copy to the Trustee (the Change of Control Offer), stating:

(1) that a Change of Control has occurred and that such Holder has the right to require the Company to purchase all or a portion of such Holder's Notes at a purchase price in cash equal to 101% of the principal amount thereof, plus accrued and unpaid interest to the date of purchase (subject to the right of Holders of record on the relevant record date to receive interest on the relevant interest payment date);

(2) the circumstances and relevant facts and financial information regarding such Change of Control;

(3) the purchase date (which shall be no earlier than 30 days nor later than 60 days from the date such notice is mailed or sent); and

(4) the instructions determined by the Company, consistent with this covenant, that a Holder must follow in order to have its Notes purchased.

The Company will not be required to make a Change of Control Offer upon a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in this covenant applicable to a Change of Control Offer made by the Company and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer. In addition, the Company will not be required to make a Change of Control Offer upon a Change of Control if the Notes have been called for redemption to the extent that the Company mails or sends a valid notice of redemption to Holders prior to the Change of Control, and thereafter redeems all Notes called for redemption in accordance with the terms set forth in such redemption notice.

Table of Contents

The Company will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the purchase of Notes pursuant to this covenant. To the extent that the provisions of any securities laws or regulations conflict with provisions of this covenant, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under this covenant by virtue thereof.

The Change of Control purchase feature is a result of negotiations between the Company and the underwriters. The Company has no present intention to engage in a transaction involving a Change of Control, although it is possible that the Company would decide to do so in the future. Subject to the limitations discussed below, the Company could, in the future, enter into certain transactions, including acquisitions, refinancings or recapitalizations, that would not constitute a Change of Control under the Indenture, but that could increase the amount of Indebtedness outstanding at such time or otherwise affect the Company's capital structure or credit ratings. Restrictions on the ability of the Company to Incur additional Indebtedness are contained in the covenants described under **Certain Covenants** **Limitation on Indebtedness**, **Limitation on Liens** and **Limitation on Sale/Leaseback Transactions**. Except for the limitations contained in such covenants, however, the Indenture does not contain any covenants or provisions that may afford Holders protection in the event of a highly leveraged transaction.

The definition of Change of Control includes a phrase relating to the sale of all or substantially all the assets of the Company (as determined on a Consolidated basis). Although there is a developing body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a Holder to require the Company to purchase its Notes as a result of a sale of less than all of the assets of the Company (as determined on a Consolidated basis) to another Person may be uncertain.

The occurrence of certain of the events which would constitute a Change of Control would constitute a default under the Credit Agreements. Future Senior Indebtedness of the Company may contain prohibitions of certain events which would constitute a Change of Control or require such Senior Indebtedness to be repurchased or repaid upon a Change of Control. Moreover, the exercise by the Holders of their right to require the Company to purchase the Notes could cause a default under such Senior Indebtedness, even if the Change of Control itself does not, due to the financial effect of such repurchase on the Company. Finally, the Company's ability to pay cash to the Holders upon a purchase may be limited by the Company's then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make any required purchases.

The provisions under the Indenture relative to the Company's obligation to make an offer to purchase the Notes as a result of a Change of Control may be waived or modified with the written consent of the Holders of at least a majority in principal amount of the Notes.

Certain Covenants

The Indenture contains covenants including, among others, those summarized below.

Fall Away Covenants. Following the first day (the **Suspension Date**) that:

- (1) the Notes have an Investment Grade Rating from at least two of the Rating Agencies; and
- (2) no Default has occurred and is continuing under the Indenture,

the Company and its Restricted Subsidiaries will not be subject to the provisions of the Indenture summarized below under:

- (A) **Limitation on Indebtedness** ;

Table of Contents

- (B) Limitation on Restricted Payments ;
- (C) Limitation on Restrictions on Distributions from Restricted Subsidiaries ;
- (D) Limitation on Sales of Assets and Subsidiary Stock ;
- (E) Limitation on Transactions with Affiliates ;
- (F) Future Subsidiary Guarantors ; and
- (G) clause (3) of the first paragraph under the heading Merger and Consolidation (collectively, the Suspended Covenants).

In addition, the Company may elect to suspend the Subsidiary Guarantees. In the event that the Company and its Restricted Subsidiaries are not subject to the Suspended Covenants for any period of time as a result of the foregoing and on any subsequent date (the Reversion Date) both (1) one or more of the Rating Agencies withdraws its Investment Grade Rating or downgrades the rating assigned to the Notes below an Investment Grade Rating resulting in the Notes no longer having an Investment Grade Rating from at least two of the Rating Agencies and (2) the terms of any other debt securities of the Company or any of its Restricted Subsidiaries then outstanding include previously suspended covenants (that are substantially the same as the Suspended Covenants described in the Indenture) that have become applicable upon a substantially concurrent reversion as a result of substantially the same ratings withdrawal or downgrade with respect to such debt securities (provided, however, that the aggregate principal amount then outstanding of such debt securities exceeds \$100,000,000), then the Company and its Restricted Subsidiaries shall thereafter again be subject to the Suspended Covenants with respect to future events and the Subsidiary Guarantees shall be reinstated (for the avoidance of doubt, it is understood and agreed that the Suspended Covenants as defined in each of the 2012 Indenture, the 2015 Euro Indenture and the 2015 Indenture are substantially the same as the Suspended Covenants described in the Indenture). The period of time between the Suspension Date and the Reversion Date is referred to in this description as the Suspension Period. Notwithstanding that the Suspended Covenants may be reinstated, no default will be deemed to have occurred as a result of a failure to comply with the Suspended Covenants during the Suspension Period. During any Suspension Period, the Company may not designate any Subsidiary to be an Unrestricted Subsidiary unless the Company would have been permitted to designate such Subsidiary to be an Unrestricted Subsidiary if a Suspension Period had not been in effect for any period.

On the Reversion Date, all Indebtedness Incurred during the Suspension Period will be classified to have been Incurred pursuant to the provisions under Limitation on Indebtedness (to the extent such Indebtedness would be permitted to be Incurred thereunder as of the Reversion Date and after giving effect to Indebtedness Incurred prior to the Suspension Period and outstanding on the Reversion Date). To the extent such Indebtedness would not be so permitted to be Incurred pursuant to paragraph (a) or (b) of Limitation on Indebtedness, such Indebtedness will be deemed to have been outstanding on the Issue Date, so that it is classified as permitted under clause (3)(B) of paragraph (b) of Limitation on Indebtedness. Calculations made after the Reversion Date of the amount available to be made as Restricted Payments under Limitation on Restricted Payments will be made as though the covenant described under Limitation on Restricted Payments had been in effect since the Issue Date and throughout the Suspension Period. Accordingly, Restricted Payments made during the Suspension Period will reduce the amount available to be made as Restricted Payments under paragraph (a) of Limitation on Restricted Payments and the items specified in subclause (4)(C) of paragraph (a) of the covenant described under Limitation on Restricted Payments will increase the amount available to be made under paragraph (a) thereof. For purposes of determining compliance with paragraphs (a) and (b) of the Limitation on Sales of Assets and Subsidiary Stock , the Net Available Cash from all Asset Dispositions not applied in accordance with

Table of Contents

the covenant will be deemed to be reset to zero after the Reversion Date. For purposes of determining compliance with paragraph (c) of the Limitation on Sales of Assets and Subsidiary Stock, the amount of Net Available Cash carried forward for purposes of determining whether an Offer is required with respect to the Net Available Cash from any subsequent Asset Disposition shall be deemed to be reset to zero after the Reversion Date.

In addition, the Indenture also permits, without causing a Default or Event of Default, the Company and the Restricted Subsidiaries to honor any contractual commitments to take actions in the future after any date on which the Notes no longer have an Investment Grade Rating from at least two of the Rating Agencies as long as such contractual commitments were entered into during a Suspension Period and not in anticipation of the Notes no longer having an Investment Grade Rating from at least two of the Rating Agencies.

Limitation on Indebtedness. (a) The Company will not, and will not permit any Restricted Subsidiary to, Incur, directly or indirectly, any Indebtedness; *provided, however,* that the Company or any Subsidiary Guarantor may Incur Indebtedness if on the date of such Incurrence and after giving effect thereto and the application of the proceeds therefrom the Consolidated Coverage Ratio would be greater than 2.0:1.0.

(b) Notwithstanding the foregoing paragraph (a), the Company and its Restricted Subsidiaries may Incur the following Indebtedness:

(1) (x) U.S. Bank Indebtedness in an aggregate principal amount not to exceed the greater of (A) \$3.5 billion, less the aggregate amount of all prepayments of principal applied to permanently reduce any such Indebtedness in satisfaction of the Company's or any Restricted Subsidiary's obligations under the covenant described under Limitation on Sales of Assets and Subsidiary Stock and (B) the sum of (i) 60% of the book value of the inventory of the Company and its Restricted Subsidiaries plus (ii) 80% of the book value of the accounts receivable of the Company and its Restricted Subsidiaries (other than any accounts receivable pledged, sold or otherwise transferred or encumbered by the Company or any Restricted Subsidiary in connection with a Qualified Receivables Transaction), in each case, as of the end of the most recent fiscal quarter for which financial statements have been filed with the SEC and (y) European Bank Indebtedness in an aggregate principal amount not to exceed 550.0 million; *provided, however,* that the amount of Indebtedness that may be Incurred pursuant to this clause (1) shall be reduced by any amount of Indebtedness Incurred and then outstanding pursuant to the election provision of clause (10)(A)(ii) below;

(2) Indebtedness of the Company owed to and held by any Restricted Subsidiary or Indebtedness of a Restricted Subsidiary owed to and held by the Company or any Restricted Subsidiary; *provided, however,* that any subsequent event that results in any such Restricted Subsidiary ceasing to be a Restricted Subsidiary or any subsequent transfer of any such Indebtedness (except to the Company or a Restricted Subsidiary) shall be deemed, in each case, to constitute the Incurrence of such Indebtedness by the issuer thereof;

(3) Indebtedness (A) represented by the Notes (not including any Additional Notes) and the Subsidiary Guarantees, (B) outstanding on the Issue Date (other than the Indebtedness described in clauses (1) and (2) above) and (C) consisting of Refinancing Indebtedness Incurred in respect of any Indebtedness described in this clause (3) (including Indebtedness that is Refinancing Indebtedness) or the foregoing paragraph (a);

(4) (A) Indebtedness of a Restricted Subsidiary Incurred and outstanding on or prior to the date on which such Restricted Subsidiary was acquired by the Company or a Restricted Subsidiary (other than Indebtedness Incurred in contemplation of, in connection with, as consideration in, or to provide all or any portion of the funds or credit support utilized to

consummate, the transaction or series of related transactions pursuant to which such Restricted Subsidiary became a Subsidiary of or was otherwise acquired by the Company); *provided, however*, that on the date that such Restricted Subsidiary is acquired by the Company, (i) the Company would have been able to Incur \$1.00 of additional Indebtedness pursuant to the foregoing paragraph (a) after giving effect to the Incurrence of such Indebtedness pursuant to this clause (4) or (ii) the Consolidated Coverage Ratio immediately after giving effect to such Incurrence and acquisition would be greater than such ratio immediately prior to such transaction and (B) Refinancing Indebtedness Incurred by a Restricted Subsidiary in respect of Indebtedness Incurred by such Restricted Subsidiary pursuant to this clause (4);

(5) Indebtedness (A) in respect of performance bonds, bankers' acceptances, bank guarantees, letters of credit, surety or appeal bonds or similar credit transactions entered into by the Company or any Restricted Subsidiary in the ordinary course of business, and (B) Hedging Obligations entered into in the ordinary course of business to hedge risks with respect to the Company's or a Restricted Subsidiary's interest rate, currency or raw materials pricing exposure and not entered into for speculative purposes;

(6) Purchase Money Indebtedness, Capitalized Lease Obligations and Attributable Debt and Refinancing Indebtedness in respect thereof in an aggregate principal amount on the date of Incurrence that, when added to all other Indebtedness Incurred pursuant to this clause (6) and then outstanding, will not exceed the greater of (A) \$800.0 million and (B) 5.0% of Consolidated assets of the Company as of the end of the most recent fiscal quarter for which financial statements have been filed with the SEC;

(7) Indebtedness Incurred by a Receivables Entity in a Qualified Receivables Transaction;

(8) Indebtedness arising from the honoring by a bank or other financial institution of a check, draft or similar instrument drawn against insufficient funds in the ordinary course of business; *provided, however*, that such Indebtedness is extinguished within five Business Days of a Financial Officer's becoming aware of its Incurrence;

(9) any Guarantee (other than the Subsidiary Guarantees) by the Company or a Restricted Subsidiary of Indebtedness or other obligations of the Company or any of its Restricted Subsidiaries so long as the Incurrence of such Indebtedness or other obligations by the Company or such Restricted Subsidiary is permitted under the terms of the Indenture (other than Indebtedness Incurred pursuant to clause (4) above);

(10) (A) Indebtedness of Foreign Subsidiaries in an aggregate principal amount that, when added to all other Indebtedness Incurred pursuant to this clause (10)(A) and then outstanding, will not exceed (i) \$2,000.0 million plus (ii) any amount then permitted to be Incurred pursuant to clause (1) above that the Company instead elects to Incur pursuant to this clause (10)(A) and (B) Indebtedness of Foreign Subsidiaries Incurred in connection with a Qualified Receivables Transaction in an amount not to exceed 450.0 million at any one time outstanding;

(11) Indebtedness constituting unsecured Indebtedness or Secured Indebtedness in an amount not to exceed \$1,300.0 million and Refinancing Indebtedness in respect thereof; and

(12) Indebtedness of the Company and the Restricted Subsidiaries in an aggregate principal amount on the date of Incurrence that, when added to all other Indebtedness Incurred pursuant to this clause (12) and then outstanding, will not exceed \$150.0 million.

(c) For purposes of determining the outstanding principal amount of any particular Indebtedness Incurred pursuant to this covenant:

(1) Outstanding Indebtedness Incurred pursuant to any of the Credit Agreements prior to or on the Issue Date shall be deemed to have been Incurred pursuant to clause (1) of paragraph (b) above;

Table of Contents

(2) Indebtedness permitted by this covenant need not be permitted solely by reference to one provision permitting such Indebtedness but may be permitted in part by one such provision and in part by one or more other provisions of this covenant permitting such Indebtedness; and

(3) in the event that Indebtedness meets the criteria of more than one of the types of Indebtedness described in this covenant, the Company, in its sole discretion, shall classify such Indebtedness (or any portion thereof) as of the time of Incurrence and will only be required to include the amount of such Indebtedness in one of such clauses *provided* that any Indebtedness originally classified as Incurred pursuant to clauses (b)(2) through (b)(12) above may later be reclassified as having been Incurred pursuant to paragraph (a) or any other of clauses (b)(2) through (b)(12) above to the extent that such reclassified Indebtedness could be Incurred pursuant to paragraph (a) or one of clauses (b)(2) through (b)(12) above, as the case may be, if it were Incurred at the time of such reclassification).

(d) For purposes of determining compliance with any U.S. dollar or euro denominated restriction on the Incurrence of Indebtedness where the Indebtedness Incurred is denominated in a different currency, the amount of such Indebtedness will be the U.S. Dollar Equivalent or Euro Equivalent, as the case may be, determined on the date of the Incurrence of such Indebtedness; *provided, however*, that if any such Indebtedness denominated in a different currency is subject to a Currency Agreement with respect to U.S. dollars or euros, as the case may be, covering all principal, premium, if any, and interest payable on such Indebtedness, the amount of such Indebtedness expressed in U.S. dollars or euros will be as provided in such Currency Agreement. The principal amount of any Refinancing Indebtedness Incurred in the same currency as the Indebtedness being Refinanced will be the U.S. Dollar Equivalent or Euro Equivalent, as appropriate, of the Indebtedness Refinanced determined on the date of the Incurrence of such Indebtedness, except to the extent that (1) such U.S. Dollar Equivalent or Euro Equivalent was determined based on a Currency Agreement, in which case the Refinancing Indebtedness will be determined in accordance with the immediately preceding sentence, and (2) the principal amount of the Refinancing Indebtedness exceeds the principal amount of the Indebtedness being Refinanced, in which case the U.S. Dollar Equivalent or Euro Equivalent, as appropriate, of such excess will be determined on the date such Refinancing Indebtedness is Incurred.

Limitation on Restricted Payments. (a) The Company will not, and will not permit any Restricted Subsidiary, directly or indirectly, to:

(8) the rendering of any final and nonappealable judgment or decree (not covered by insurance) for the payment of money in excess of \$100.0 million or its foreign currency equivalent (treating any deductibles, self-insurance or retention as not so covered) against the Company or a Significant Subsidiary if such final judgment or decree remains outstanding and is not satisfied, discharged or waived within a period of 60 days following such judgment (the judgment default provision); or

(9) any Subsidiary Guarantee ceases to be in full force and effect in all material respects (except as contemplated by the terms thereof) or any Subsidiary Guarantor denies or disaffirms such Subsidiary Guarantor's obligations under the Indenture or any Subsidiary Guarantee and such Default continues for 10 days after receipt of the notice as specified in the Indenture.

The foregoing will constitute Events of Default whatever the reason for any such Event of Default and whether it is voluntary or involuntary or is effected by operation of law or pursuant to any judgment, decree or order of any court or any order, rule or regulation of any administrative or governmental body.

Table of Contents

However, a default under clauses (4), (5), (6), (8) or (9) (as to clause (9) only with respect to any Subsidiary Guarantor that is not a Significant Subsidiary) will not constitute an Event of Default until the Trustee notifies the Company or the Holders of at least 25% in principal amount of the outstanding Notes notify the Company and the Trustee of the default and the Company or the Restricted Subsidiary, as applicable, does not cure such default within the time specified in clauses (4), (5), (6), (8) or (9) after receipt of such notice.

If an Event of Default (other than an Event of Default relating to certain events of bankruptcy, insolvency or reorganization of the Company) occurs and is continuing, the Trustee or the Holders of at least 25% in principal amount of the outstanding Notes by notice to the Company (and to the Trustee if given by Holders) may declare the principal of and accrued but unpaid interest on all the Notes to be due and payable. Upon such a declaration, such principal and interest will be due and payable immediately. If an Event of Default relating to certain events of bankruptcy, insolvency or reorganization of the Company occurs, the principal of and accrued but unpaid interest on all the Notes will become immediately due and payable without any declaration or other act on the part of the Trustee or any Holders. Under certain circumstances, the Holders of at least a majority in principal amount of the outstanding Notes may rescind any such acceleration with respect to the Notes and its consequences.

Subject to the provisions of the Indenture relating to the duties of the Trustee, in case an Event of Default occurs and is continuing, the Trustee will be under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any of the Holders unless such Holders have offered to the Trustee indemnity satisfactory to the Trustee against any loss, liability or expense, including by way of pre-funding. Except to enforce the right to receive payment of principal, premium (if any) or interest when due, no Holder of a Note may pursue any remedy with respect to the Indenture or the Notes unless:

- (1) such Holder has previously given the Trustee written notice that an Event of Default is continuing;
- (2) Holders of at least 25% in principal amount of the outstanding Notes have requested the Trustee in writing to pursue the remedy;
- (3) such Holders have offered the Trustee indemnity satisfactory to the Trustee against any loss, liability or expense;
- (4) the Trustee has not complied with such request within 60 days after the receipt of the request and the offer of indemnity; and
- (5) the Holders of at least a majority in principal amount of the outstanding Notes have not given the Trustee a direction inconsistent with such request within such 60-day period.

Subject to certain restrictions, the Holders of at least a majority in principal amount of the outstanding Notes will be given the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee. The Trustee, however, may refuse to follow any direction that conflicts with law or the Indenture or that the Trustee determines is unduly prejudicial to the rights of any other Holder of a Note or that would involve the Trustee in personal liability. Prior to taking any action under the Indenture, the Trustee will be entitled to indemnification satisfactory to it in its sole discretion against all losses and expenses caused by taking or not taking such action.

If a Default occurs and is continuing and is known to the Trustee, the Trustee must mail or deliver to each Holder of the Notes, notice of the Default within the earlier of 90 days after it occurs or 30 days after it is actually known to a Trust Officer or written notice of it is received by the Trustee. Except in

Table of Contents

the case of a Default in the payment of principal of or interest on any Note (including payments pursuant to the redemption provisions of such Note), the Trustee may withhold notice if and so long as a committee of its Trust Officers in good faith determines that withholding notice is in the interests of the Holders. In addition, the Company will be required to deliver to the Trustee, within 120 days after the end of each fiscal year, a certificate indicating whether the signers thereof know of any Default that occurred during the previous year. The Company will also be required to deliver to the Trustee, within 30 days after the occurrence thereof, written notice of any event which would constitute certain Events of Default, their status and what action the Company is taking or proposes to take in respect thereof.

Amendments and Waivers

Subject to certain exceptions, the Indenture (as it relates to the Notes) or the Notes may be amended with the written consent of the Holders of at least a majority in principal amount of the Notes then outstanding voting as a single class and any past default or compliance with any provisions with respect to the Notes may be waived with the consent of the Holders of at least a majority in principal amount of the Notes then outstanding voting as a single class. However, without the consent of each Holder of an outstanding Note affected, no amendment with respect to the Notes may, among other things:

- (1) reduce the amount of the Notes whose Holders must consent to an amendment;
- (2) reduce the rate of or extend the time for payment of interest on any Note;
- (3) reduce the principal of or extend the Stated Maturity of any Note;
- (4) reduce the premium payable upon the redemption of any Note or change the time at which any Note may be redeemed as described under Optional Redemption above;
- (5) make any Note payable in money other than that stated in the Note;
- (6) impair the right of any Holder of Notes to receive payment of principal of, and interest on, such Holder's Notes on or after the due dates therefor or to institute suit for the enforcement of any payment on or with respect to such Holder's Notes;
- (7) make any change in the amendment provisions which require each Holder's consent or in the waiver provisions; or
- (8) make any change in, or release other than in accordance with the Indenture, any Subsidiary Guarantee that would adversely affect the Holders.

The consent of the Holders will not be necessary to approve the particular form of any proposed amendment. It will be sufficient if such consent approves the substance of the proposed amendment.

Without the consent of any Holder of the Notes, the Company, the Subsidiary Guarantors and the Trustee, as applicable, may amend the Indenture to:

- (1) cure any ambiguity, omission, defect or inconsistency, as set forth in an Officers' Certificate;
- (2) provide for the assumption by a successor corporation of the obligations of the Company or any Subsidiary Guarantor under the Indenture in compliance with the provisions under Merger and Consolidation ;
- (3) provide for uncertificated Notes in addition to or in place of certificated Notes; *provided, however*, that the uncertificated Notes are issued in registered form for Federal income tax purposes;
- (4) add additional Guarantees with respect to the Notes or to confirm and evidence the release, termination or discharge of any Guarantee when such release, termination or discharge is permitted under the Indenture;

Table of Contents

- (5) add to the covenants of the Company for the benefit of the Holders of Notes or to surrender any right or power conferred upon the Company;
- (6) make any change that does not adversely affect the rights of any Holder in any material respect, subject to the provisions of the Indenture, as set forth in an Officers Certificate;
- (7) make any amendment to the provisions of the Indenture relating to the form, authentication, transfer and legending of Notes; *provided, however,* that
- (A) compliance with the Indenture as so amended would not result in Notes being transferred in violation of the Securities Act or any other applicable securities law, and
- (B) such amendment does not materially affect the rights of Holders to transfer Notes;
- (8) provide for the issuance of Additional Notes in accordance with the terms of the Indenture;
- (9) comply with any requirement of the SEC in connection with qualifying, or maintaining the qualification of, the Indenture under the TIA; or
- (10) convey, transfer, assign, mortgage or pledge as security for the Notes any property or assets in accordance with the covenant described under Certain Covenants Limitation on Liens.

After an amendment becomes effective, the Company is required to mail or send to Holders a notice briefly describing such amendment. However, the failure to give such notice to all Holders, or any defect therein, will not impair or affect the validity of the amendment.

Transfer and Exchange

A Holder will be able to transfer or exchange Notes in accordance with the Indenture. Upon any transfer or exchange, the Registrar and the Trustee may require a Holder, among other things, to furnish appropriate endorsements and transfer documents and the Company may require a Holder to pay any taxes and fees required by law or permitted by the Indenture. The Company will not be required to make and the Registrar need not register transfers or exchanges of any Notes selected for redemption (except, in the case of Notes to be redeemed in part, the portion thereof not to be redeemed) or any Notes for a period of 15 days prior to a selection of Notes to be redeemed or any Notes for a period of 15 days prior to an interest payment date. The Notes will be issued in registered form and the Holder will be treated as the owner of such Note for all purposes.

Satisfaction and Discharge

When (1) the Company delivers to the Trustee all outstanding Notes for cancellation or (2) all outstanding Notes have become due and payable, whether at maturity or on a redemption date as a result of the mailing or giving of notice of redemption and, in the case of clause (2), the Company irrevocably deposits with the Trustee funds or U.S. Government Obligations (or any combination thereof) sufficient (if U.S. Government Obligations are deposited, in the opinion of a nationally recognized investment bank, appraisal firm or firm of independent accountants expressed in a written certification thereof delivered to the Trustee) to pay at maturity or upon redemption all outstanding Notes, including premium, if any, interest thereon to maturity or such redemption date, and if in any case the Company pays all other sums payable under the Indenture by the Company, then the Indenture shall, subject to certain exceptions, cease to be of further effect as it relates to the Notes.

Defeasance

The Company may, as described below, at any time terminate all its obligations under the Notes and the Indenture relating to the Notes (legal defeasance), except for certain obligations, including

Table of Contents

those respecting the defeasance trust and obligations to register the transfer or exchange of the Notes, to replace mutilated, destroyed, lost or stolen Notes and to maintain a Registrar and Paying Agent in respect of the Notes.

In addition, the Company may, as described below, at any time terminate:

(1) the obligations under the covenants described under **Certain Covenants** , and

(2) the operation of clauses (4), (5) (with respect only to the Company's obligations described under **Certain Covenants SEC Reports**), (6), (7) (with respect only to Significant Subsidiaries), (8) and (9) under **Defaults** above, and the limitations contained in clause (3) under the first paragraph of **Merger and Consolidation** above (**covenant defeasance**).

In the event that the Company exercises its legal defeasance option or its covenant defeasance option with respect to the Notes, each Subsidiary Guarantor will be released from all of its obligations with respect to its Subsidiary Guarantee.

The Company may exercise its legal defeasance option notwithstanding its prior exercise of its covenant defeasance option. If the Company exercises its legal defeasance option, payment of the Notes may not be accelerated because of an Event of Default with respect thereto. If the Company exercises its covenant defeasance option, payment of the Notes may not be accelerated because of an Event of Default specified in clause (4), (5) (with respect only to the Company's obligations described under **Certain Covenants SEC Reports**), (6), (7) (with respect only to Significant Subsidiaries), (8) or (9) under **Defaults** above or because of the failure of the Company to comply with clause (3) under the first paragraph of **Merger and Consolidation** above.

In order to exercise either defeasance option, the Company must irrevocably deposit in trust (the **defeasance trust**) with the Trustee money in an amount sufficient to pay U.S. Government Obligations, the principal of and interest on which will be sufficient, or a combination thereof sufficient, without consideration of any reinvestment of such principal and interest, in the opinion of a nationally recognized investment bank, appraisal firm or firm of independent accountants expressed in a written certification thereof delivered to the Trustee, to pay the principal of and interest in respect of the Notes to redemption or maturity, as the case may be, and must comply with certain other conditions, including delivery to the Trustee of an Opinion of Counsel to the effect that Holders will not recognize income, gain or loss for Federal income tax purposes as a result of such deposit and defeasance and will be subject to Federal income tax on the same amounts and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred (and, in the case of legal defeasance only, such Opinion of Counsel must be based on a ruling of the Internal Revenue Service or other change in applicable Federal income tax law).

(B) if the Company or any Restricted Subsidiary has repaid, repurchased, defeased or otherwise discharged any Indebtedness since the beginning of such period or if any Indebtedness is to be repaid, repurchased, defeased or otherwise discharged (in each case other than Indebtedness Incurred under any revolving credit facility unless such Indebtedness has been permanently repaid and has not been replaced) on the date of the transaction giving rise to the need to calculate the Consolidated Coverage Ratio, EBITDA and Consolidated Interest Expense for such period shall be calculated on a pro forma basis as if such discharge had occurred on the first day of such period and as if the Company or such Restricted Subsidiary had not earned the interest income actually earned during such period in respect of cash or Temporary Cash Investments used to repay, repurchase, defease or otherwise discharge such Indebtedness;

BOOK-ENTRY SYSTEM

Book-Entry, Delivery and Form

Except as set forth below, the Notes will be issued in registered, global form in minimum denominations of \$1,000 aggregate principal amount at maturity and integral multiples of \$1,000 aggregate principal amount at maturity in excess of \$1,000. The Notes will be issued at the closing of this offering only against payment in immediately available funds.

The Notes initially will be represented by one or more global Notes in registered form without interest coupons, which we refer to as the Global Notes. The Global Notes will be deposited upon issuance with the Trustee as custodian for The Depository Trust Company, or DTC, and registered in the name of DTC or its nominee, Cede & Co., in each case for credit to an account of a direct or indirect participant in DTC as described below.

Except as set forth below, the Global Notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the Global Notes may not be exchanged for Notes in certificated form except in the limited circumstances described below. See Exchange of Global Notes for Certificated Notes. Except in the limited circumstances described below, owners of beneficial interests in the Global Notes will not be entitled to receive physical delivery of Notes in certificated form. Transfers of beneficial interests in the Global Notes will be subject to the applicable rules and procedures of DTC and its direct or indirect participants, which may change from time to time.

Depository Procedures

The following description of the operations and procedures of DTC is provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to changes by them. We take no responsibility for these operations and procedures and urge investors to contact the system or their participants directly to discuss these matters.

DTC has advised us that DTC is a limited-purpose trust company created to hold securities for its participating organizations, which we refer to as the Participants, and to facilitate the clearance and settlement of transactions in those securities between Participants through electronic book-entry changes in accounts of its Participants. The Participants include securities brokers and dealers (including the underwriters), banks, trust companies, clearing corporations and certain other organizations. Access to DTC's system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Participant, either directly or indirectly, which we refer to as the Indirect Participants. Persons who are not Participants may beneficially own securities held by or on behalf of DTC only through the Participants or the Indirect Participants. The ownership interests in, and transfers of ownership interests in, each security held by or on behalf of DTC are recorded on the records of the Participants and Indirect Participants.

DTC has also advised us that, pursuant to procedures established by it:

- (1) upon deposit of the Global Notes, DTC will credit the accounts of Participants designated by the underwriters with portions of the principal amount at maturity of the Global Notes; and
- (2) ownership of these interests in the Global Notes will be shown on, and the transfer of ownership of these interests will be effected only through, records maintained by DTC (with respect to the Participants) or by the Participants and the Indirect Participants (with respect to other owners of beneficial interests in the Global Notes).

Table of Contents

Investors in the Global Notes who are Participants in DTC's system may hold their interests therein directly through DTC. Investors in the Global Notes who are not Participants may hold their interests therein indirectly through organizations which are Participants in such system. All interests in a Global Note may be subject to the procedures and requirements of DTC. The laws of some states require that certain persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer beneficial interests in a Global Note to such persons will be limited to that extent. Because DTC can act only on behalf of Participants, which in turn act on behalf of Indirect Participants, the ability of a person having beneficial interests in a Global Note to pledge such interests to persons that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

Except as described below, owners of an interest in the Global Notes will not have Notes registered in their names, will not receive physical delivery of Notes in certificated form and will not be considered the registered owners or Holders thereof under the Indenture for any purpose.

Payments in respect of the principal of, and interest and premium and additional interest, if any, on a Global Note registered in the name of DTC or its nominee will be payable to DTC in its capacity as the registered Holder under the Indenture. Under the terms of the Indenture, we and the Trustee will treat the persons in whose names the Notes, including the Global Notes, are registered as the owners of the Notes for the purpose of receiving payments, notices and for all other purposes. Consequently, neither we, the Trustee nor any agent of ours or the Trustee has or will have any responsibility or liability for:

- (1) any aspect of DTC's records or any Participant's or Indirect Participant's records relating to or payments made on account of beneficial ownership interests in the Global Notes or for maintaining, supervising or reviewing any of DTC's records or any Participant's or Indirect Participant's records relating to the beneficial ownership interests in the Global Notes; or
- (2) any other matter relating to the actions and practices of DTC or any of its Participants or Indirect Participants.

DTC has advised us that its current practice, upon receipt of any payment in respect of securities such as the Notes (including principal and interest), is to credit the account of the relevant Participants with the payment on the payment date unless DTC has reason to believe it will not receive payment on such payment date. Each relevant Participant is credited with an amount proportionate to its beneficial ownership of an interest in the principal amount at maturity of the relevant security as shown on the records of DTC. Payments by the Participants and the Indirect Participants to the beneficial owners of Notes will be governed by standing instructions and customary practices and will be the responsibility of the Participants or the Indirect Participants and will not be the responsibility of DTC, the Trustee or the Company. Neither we nor the Trustee will be liable for any delay by DTC or any of its Participants in identifying the beneficial owners of the Notes, and we and the Trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Transfers between Participants in DTC will be effected in accordance with DTC's procedures, and will be settled in same-day funds.

DTC has advised us that it will take any action permitted to be taken by a Holder of Notes only at the direction of one or more Participants to whose account DTC has credited the interests in the Global Notes and only in respect of such portion of the aggregate principal amount at maturity of the Notes as to which such Participant or Participants has or have given such direction. However, if there is an Event of Default under the Notes, DTC reserves the right to exchange the Global Notes for Notes in certificated form, and to distribute such Notes to its Participants.

Table of Contents

Neither we nor the Trustee nor any of their respective agents will have any responsibility for the performance by DTC or its Participants or Indirect Participants of their respective obligations under the rules and procedures governing their operations.

Exchange of Global Notes for Certificated Notes

Global Notes are exchangeable for certificated Notes if:

- (1) DTC (a) notifies us that it is unwilling or unable to continue as depository for the Global Notes or (b) has ceased to be a clearing agency registered under the Exchange Act and, in each case, a successor depository is not appointed by us within 120 days;
- (2) we, at our option, notify the Trustee in writing that we elect to cause the issuance of the certificated Notes; or
- (3) there has occurred and is continuing an Event of Default with respect to the Notes.

In addition, beneficial interests in a Global Note may be exchanged for certificated Notes upon prior written notice given to the Trustee by or on behalf of DTC in accordance with the Indenture. In all cases, certificated Notes delivered in exchange for any Global Note or beneficial interests in Global Notes will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depository (in accordance with its customary procedures).

Same Day Settlement and Payment

We will make payments in respect of the Notes represented by the Global Notes (including principal, premium, if any, interest and additional interest, if any) by wire transfer of immediately available funds to the accounts specified by the Global Note Holder. We will make all payments of principal, interest and premium and additional interest, if any, with respect to certificated Notes by wire transfer of immediately available funds to the accounts specified by the Holders of the certificated Notes or, if no such account is specified, by mailing a check to each such Holder's registered address. The Notes represented by the Global Notes are expected to be eligible to trade in DTC's Same-Day Funds Settlement System, and any permitted secondary market trading activity in such Notes will, therefore, be required by DTC to be settled in immediately available funds. We expect that secondary trading in any certificated Notes will also be settled in immediately available funds.

CERTAIN MATERIAL UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of certain of the material United States federal income tax consequences of the acquisition, ownership and disposition of the Notes. Unless otherwise stated, this summary deals only with holders that purchase Notes at their issue price, which will equal the first price to the public (not including bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers) at which a substantial amount of a series of Notes is sold for cash. This summary also only addresses holders who hold Notes as capital assets.

As used herein, U.S. holders are any beneficial owners of the Notes, that are, for United States federal income tax purposes, (i) citizens or residents of the United States, (ii) corporations (or other entities treated as corporations for United States federal income tax purposes) created or organized in, or under the laws of, the United States, any state thereof or the District of Columbia, (iii) estates, the income of which is subject to United States federal income taxation regardless of its source, or (iv) trusts if (a) a court within the United States is able to exercise primary supervision over the administration of the trust and (b) one or more United States persons have the authority to control all substantial decisions of the trust. In addition, certain trusts in existence on August 20, 1996 and treated as U.S. persons prior to such date may also be treated as U.S. holders. As used herein, non-U.S. holders are beneficial owners of the Notes, other than partnerships, that are not U.S. holders. If a partnership (including for this purpose any entity treated as a partnership for United States federal income tax purposes) is a beneficial owner of the Notes, the treatment of a partner in the partnership will generally depend upon the status of the partner and upon the activities of the partnership. Partnerships and partners in such partnerships should consult their tax advisors about the United States federal income tax consequences of acquiring, owning and disposing of the Notes.

This summary does not describe all of the tax consequences that may be relevant to a holder in light of its particular circumstances. For example, it does not deal with special classes of holders such as banks, thrifts, real estate investment trusts, regulated investment companies, insurance companies, dealers and traders in securities or currencies, or tax-exempt investors. It also does not discuss Notes held as part of a hedge, straddle, synthetic security or other integrated transaction. This summary does not address the tax consequences to (i) persons that have a functional currency other than the U.S. dollar, (ii) certain U.S. expatriates or (iii) persons subject to the alternative minimum tax. Further, it does not include any description of any estate or gift tax consequences or the tax laws of any state or local government or of any foreign government that may be applicable to the Notes.

This summary is based on the Internal Revenue Code of 1986, as amended (the Code), the Treasury Regulations promulgated thereunder and administrative and judicial interpretations thereof, all as of the date hereof, and all of which are subject to change or differing interpretations, possibly on a retroactive basis.

You should consult with your own tax advisor regarding the United States federal, state, local and foreign tax consequences of the ownership and disposition of the Notes.

Taxation of U.S. Holders

In certain circumstances the timing and amount of payments otherwise due on the Notes may differ from the scheduled payments on the Notes (see Description of Notes Optional Redemption and Description of Notes Change of Control). Because we are obligated to make such payments under certain circumstances, the Notes may be subject to special rules under the Treasury Regulations that are applicable to debt instruments that provide for one or more contingent payments. Under the Treasury Regulations, however, the special rules applicable to contingent payment debt instruments

Table of Contents

will not apply if, as of the issue date, the contingencies are either remote or incidental. Goodyear intends to take the position (and this discussion assumes) that such payments are remote or incidental contingencies. Goodyear's determination that such payments are remote or incidental contingencies for these purposes is binding on each holder (but not on the Internal Revenue Service (the "IRS")), unless such holder discloses in the proper manner to the IRS that it is taking a different position. The remainder of this discussion assumes that the Notes are not subject to the rules applicable to contingent payment debt instruments.

Interest income and original issue discount. Payments of stated interest on the Notes will be taxable to a U.S. holder as ordinary interest income at the time such payments are accrued or received in accordance with the holder's regular method of tax accounting for United States federal income tax purposes.

It is expected that the Notes will be not be issued with original issue discount ("OID") for United States federal income tax purposes. The Notes will be treated as issued with OID if their principal amount exceeds their issue price by at least the *de minimis* amount of 1/4 of 1 percent of the principal amount multiplied by the number of complete years from the issue date of the Note to its maturity. If the Notes are issued with at least a *de minimis* amount of OID, a U.S. holder would be required to include OID in income based on a constant yield to maturity accrual method before the receipt of corresponding cash payments. The remainder of this discussion assumes that the Notes will not be issued with OID for United States federal income tax purposes.

Sale, exchange or redemption of Notes. A U.S. holder will generally recognize taxable gain or loss equal to the difference between the amount realized on the sale, exchange, redemption or other disposition of a Note and the holder's tax basis in such Note. The amount realized is generally equal to the amount of cash and the fair market value of any property received for the Note (other than amounts attributable to accrued but unpaid stated interest on the Note which will be taxed as interest income as described above). A U.S. holder's tax basis in the Note generally will be the initial purchase price paid therefor. In the case of a U.S. holder other than a corporation, preferential tax rates may apply to gain recognized on the sale of a Note if such holder's holding period for such Note exceeds one year. To the extent the amount realized is less than the U.S. holder's tax basis, the holder will recognize a capital loss. Subject to certain limited exceptions, capital losses cannot be applied to offset ordinary income for United States federal income tax purposes.

Certain U.S. holders who are individuals, estates or trusts may be required to pay up to an additional 3.8% tax on, among other things, interest and capital gains.

Information reporting and backup withholding. In general, information reporting requirements will apply to payments of principal and interest on the Notes and payments of the proceeds of the sale of the Notes. Backup withholding may apply to such payments if the holder fails to comply with certain identification requirements. Backup withholding is currently imposed at a rate of 28%. Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from a payment to a U.S. holder will be allowed as a credit against such holder's United States federal income tax and may entitle the holder to a refund, provided that the required information is furnished to the IRS.

Taxation of Non-U.S. Holders

The rules governing United States federal income taxation of a non-U.S. holder of the Notes are complex. Non-U.S. holders should consult with their own tax advisors to determine the effect of United States federal, state and local and foreign tax laws, as well as income tax treaties, with regard to an investment in the Notes, including any reporting requirements.

Table of Contents

Interest income. Generally, interest income of a non-U.S. holder that is not effectively connected with a United States trade or business is subject to a withholding tax at a 30% rate (or if applicable, a lower tax rate specified by an applicable income tax treaty). However, interest income earned on a Note by a non-U.S. holder will qualify for the portfolio interest exemption and therefore will not be subject to United States federal income tax or withholding tax, provided that such income is not effectively connected with a United States trade or business of the non-U.S. holder and provided that (i) the non-U.S. holder does not actually or constructively own 10% or more of the total combined voting power of all classes of Goodyear stock entitled to vote; (ii) the non-U.S. holder is not a controlled foreign corporation that is related to us through stock ownership; (iii) the non-U.S. holder is not a bank which acquired the Note in consideration for an extension of credit made pursuant to a loan agreement entered into in the ordinary course of business; and (iv) either (a) the non-U.S. holder certifies to the payor or the payor's agent, under penalties of perjury, that it is not a United States person and provides its name, address, and certain other information on a properly executed IRS Form W-8BEN, W-8BEN-E or a suitable substitute form or (b) a securities clearing organization, bank or other financial institution that holds customer securities in the ordinary course of its trade or business and holds the Notes in such capacity, certifies to the payor or the payor's agent, under penalties of perjury, that such a statement has been received from the beneficial owner by it or by a financial institution between it and the beneficial owner and, when required, furnishes the payor or the payor's agent with a copy thereof. The applicable Treasury Regulations also provide alternative methods for satisfying the certification requirements of clause (iv), above. If a non-U.S. holder holds the Note through certain foreign intermediaries or partnerships, such holder and the foreign intermediary or partnership may be required to satisfy certification requirements under applicable Treasury Regulations.

Except to the extent that an applicable income tax treaty otherwise provides, a non-U.S. holder generally will be taxed with respect to interest in the same manner as a U.S. holder if such income is effectively connected with a United States trade or business of the non-U.S. holder. Effectively connected income received or accrued by a corporate non-U.S. holder may also, under certain circumstances, be subject to an additional branch profits tax at a 30% rate (or if applicable, at a lower tax rate specified by an applicable income tax treaty). Even though such effectively connected income is subject to income tax, and may be subject to the branch profits tax, it is not subject to withholding tax if the non-U.S. holder delivers a properly executed IRS Form W-8ECI (or successor form) to the payor or the payor's agent.

Sale, exchange or redemption of Notes. A non-U.S. holder generally will not be subject to United States federal income tax on any gain realized on the sale, exchange, redemption or other disposition of a Note unless (i) the gain is effectively connected with a United States trade or business of the non-U.S. holder, (ii) in the case of a non-U.S. holder who is an individual, such holder is present in the United States for a period or periods aggregating 183 days or more during the taxable year of the disposition and certain other conditions are met, or (iii) the gain represents accrued but unpaid interest not previously included in income, in which case the rules regarding interest income would apply.

Except to the extent that an applicable income tax treaty otherwise provides, if an individual non-U.S. holder falls under clause (i) above, such individual generally will be taxed on the net gain derived from a sale in the same manner as a U.S. holder. If an individual non-U.S. holder falls under clause (ii) above, such individual generally will be subject to a 30% tax on the gain derived from a sale, which may be offset by certain United States-related capital losses (notwithstanding the fact that such individual is not considered a resident of the United States). Individual non-U.S. holders who have spent (or expect to spend) 183 days or more in the United States in the taxable year in which they contemplate a disposition of Notes are urged to consult their tax advisors as to the tax consequences of such sale. If a non-U.S. holder that is a foreign corporation falls under clause (i), it generally will be taxed on the net gain derived from a sale in the same manner as a U.S. holder and, in addition, may be subject to the branch profits tax on such effectively connected income at a 30% rate (or such lower rate as may be specified by an applicable income tax treaty).

Table of Contents

Information reporting and backup withholding. Generally, we must report annually to the IRS and to each non-U.S. holder the amount of interest paid to such holder, and the tax withheld with respect to those payments. Copies of the information returns reporting such amounts and any withholding may also be made available to the tax authorities in the country in which the non-U.S. holder resides under the provisions of an applicable income tax treaty. United States backup withholding will not apply to payments on the Notes to a non-U.S. holder if the requirements described in clause (iv) of *Interest income* above are satisfied with respect to the holder, unless the payor has actual knowledge or reason to know that the holder is a United States person.

Information reporting requirements and backup withholding will not apply to any payment of the proceeds of a sale of Notes effected outside the United States by a foreign office of a broker as defined in applicable Treasury Regulations (absent actual knowledge or reason to know that the payee is a United States person), unless such broker (i) is a United States person as defined in the Code, (ii) is a foreign person that derives 50% or more of its gross income for certain periods from the conduct of a trade or business in the United States, (iii) is a controlled foreign corporation for United States federal income tax purposes or (iv) is a foreign partnership with certain connections to the United States. Payment of the proceeds of any such sale effected outside the United States by a foreign office of any broker that is described in the preceding sentence may be subject to information reporting unless such broker has documentary evidence in its records that the beneficial owner is a non-U.S. holder and certain other conditions are met, or the beneficial owner otherwise establishes an exemption. Payment of the proceeds of any such sale to or through the United States office of a broker is subject to information reporting and backup withholding requirements unless the beneficial owner satisfies the requirements described in clause (iv) of *Interest income* above and certain other conditions are met, or the beneficial owner otherwise establishes an exemption.

Backup withholding is not an additional tax. Any amounts withheld from a payment to a non-U.S. holder under the backup withholding rules will be allowed as a credit against the holder's United States federal income tax liability and may entitle the holder to a refund, provided that the required information is furnished to the IRS. Non-U.S. holders should consult their tax advisors regarding the application of information reporting and backup withholding in their particular situations, the availability of an exemption from backup withholding and the procedure for obtaining such an exemption, if available.

Foreign Account Tax Compliance Withholding

The Foreign Account Tax Compliance Act, or FATCA, imposes a 30% withholding tax on certain types of payments made to foreign financial institutions and certain other non-U.S. entities unless certain due diligence, reporting, withholding, and certification requirements are satisfied.

As a general matter, FATCA imposes a 30% withholding tax on interest on, and gross proceeds from the sale or other disposition of, Notes if paid to a foreign entity unless either (i) the foreign entity is a foreign financial institution that undertakes certain due diligence, reporting, withholding, and certification obligations, (ii) the foreign entity is not a foreign financial institution and identifies certain of its U.S. investors, or (iii) the foreign entity otherwise is excepted under FATCA.

Different rules than those described above may apply to non-U.S. holders resident in jurisdictions that have entered into inter-governmental agreements with the United States.

Pursuant to the delayed effective dates provided for in the final regulations, the required withholding currently applies to interest on the Notes and will apply beginning on January 1, 2019, with respect to gross proceeds from a sale or other disposition of Notes.

Table of Contents

If withholding is required under FATCA on a payment related to Notes, investors that otherwise would not be subject to withholding (or that otherwise would be entitled to a reduced rate of withholding) generally will be required to seek a refund or credit from the IRS to obtain the benefit of such exemption or reduction (provided that such benefit is available). Prospective investors should consult their tax advisors regarding the effect of FATCA in their particular circumstances.

The United States federal income tax discussion set forth above is included for general information only and may not be applicable depending upon a holder's particular situation. Prospective holders should consult their tax advisors with respect to the tax consequences to them of the ownership and disposition of the Notes, including the tax consequences under state, local, foreign and other tax laws and the possible effects of changes in United States federal income or other tax laws.

BENEFIT PLAN CONSIDERATIONS

*As used in this prospectus supplement, the term **Plan** means any of the following: an employee benefit plan, as defined in Section 3(3) of the Employee Retirement Income Security Act of 1974, as amended (**ERISA**); any plan, individual retirement account, or other arrangement described in Section 4975(e)(1) of the Code; any plan that is subject to provisions of any federal, state, local, foreign, or other law, rule, or regulation that is similar to provisions of ERISA or Section 4975 of the Code (**Similar Laws**); any **benefit plan investor** within the meaning of Section 3(42) of ERISA; or any other entity whose underlying assets include plan assets by reason of a plan's investment in such entity. If you intend to use the assets of any Plan directly or indirectly to purchase any of the Notes offered for sale in connection with this prospectus supplement, you should consult with the Plan's counsel on the potential consequences of your investment under the fiduciary responsibility provisions of ERISA, the prohibited transaction provisions of ERISA and the Code, and the provisions of any Similar Laws.*

*The following summary relates to investors that are subject to Title I of ERISA and/or Section 4975 of the Code (**Benefit Plan Investors**) and is based on the provisions of ERISA and the Code and related guidance in effect as of the date of this prospectus supplement, except as specifically noted below. This summary is general in nature and is not intended as a complete summary of these considerations. Future legislation, court decisions, administrative regulations, or other guidance may change the requirements summarized in this section. Any of these changes could be made retroactively and could apply to transactions entered into before the change is enacted. In addition, Plans that are not subject to ERISA or the Code might be subject to comparable requirements under applicable Similar Laws.*

Fiduciary Responsibilities

In general, ERISA imposes requirements on Plans subject to Title I of ERISA (**ERISA Plans**) and fiduciaries of ERISA Plans. Under ERISA, fiduciaries are identified by function rather than title, and generally include persons who exercise discretionary authority or control over the management of an ERISA Plan or any authority or control over the management and disposition of its assets; who render investment advice with respect to an ERISA Plan for compensation, direct or indirect; or who have discretionary authority or responsibility in the administration of an ERISA Plan. Before investing the assets of an ERISA Plan in any Note offered in connection with this prospectus supplement, the fiduciary should consider, among other requirements, whether the investment would satisfy the prudence and diversification requirements of ERISA and whether the investment would be consistent with the governing documents and investment policies of the underlying plan or plans.

We note that, on April 8, 2016, the U.S. Department of Labor (**DOL**) published a comprehensive package of guidance that substantially expands the definition of who is a **fiduciary** under ERISA as a result of giving investment advice to a Plan or its participants or beneficiaries. The final guidance is effective sixty days after its publication but is not applicable until April 10, 2017 (and certain portions of it are phased in and applicable at later dates). In deciding whether to make an investment in the Notes, you should consider the impact and timing of these new rules governing fiduciaries.

You should consider all factors and circumstances of a particular investment in the Notes, including, for example, the risk factors discussed in **Risk Factors** and the fact that in the future there might not be a market in which you will be able to sell or otherwise dispose of your interest in the Notes.

We are not making any representation that the sale of any Notes to an ERISA Plan meets the fiduciary requirements for investment by ERISA Plans generally or any particular ERISA Plan or that such an investment is appropriate for ERISA Plans generally or any particular ERISA Plan. We are not providing investment advice to any ERISA Plan, through this prospectus supplement or otherwise, in connection with the sale of the Notes.

Table of Contents

Indicia of Ownership

ERISA prohibits ERISA Plan fiduciaries from maintaining the indicia of ownership of any ERISA Plan assets outside the jurisdiction of the United States district courts except in specified cases. Before investing in any Note offered for sale in connection with this prospectus supplement, you should consider whether the acquisition, holding or disposition of a Note would satisfy such indicia of ownership rules.

Prohibited Transactions

ERISA and the Code prohibit a wide range of transactions involving Benefit Plan Investors, on the one hand, and persons who have specified relationships to such Benefit Plan Investors, on the other. These persons are called parties in interest under ERISA and disqualified persons under the Code. Parties in interest and disqualified persons include, for example, an employer that sponsors an ERISA Plan; an employee organization whose members are covered by an ERISA Plan; a trustee, investment manager, or other fiduciary of a Benefit Plan Investor; a person (such as a broker or recordkeeper) that provides services to a Benefit Plan Investor; and certain affiliates of the foregoing persons. ERISA and the Code also prohibit self-dealing by plan fiduciaries and transactions that involve conflicts of interests. The transactions prohibited by ERISA and the Code are called prohibited transactions. If you are a party in interest or disqualified person who engages in a prohibited transaction, or a fiduciary who causes a Benefit Plan Investor to engage in a prohibited transaction, you might be subject to excise taxes and other penalties and liabilities under ERISA and/or the Code. As a result, if you are considering using Benefit Plan Investor assets directly or indirectly to invest in any of the Notes offered for sale in connection with this prospectus supplement, you should consider whether the investment might be a prohibited transaction under ERISA and/or the Code.

Prohibited transactions might arise, for example, if the Notes are acquired by an ERISA Plan with respect to which we, the underwriters, and/or any of our or their respective affiliates, are parties in interest or disqualified persons. Exemptions from the prohibited transaction provisions of ERISA and the Code might apply, depending in part on the type of plan fiduciary making the decision to acquire a Note and the circumstances under which such decision is made. These exemptions include, but are not limited to:

1. Prohibited transaction class exemption (PTCE) 75 1 (relating to specified transactions involving employee benefit plans and broker-dealers, reporting dealers, and banks);
2. PTCE 84 14 (relating to specified transactions directed by independent qualified professional asset managers);
3. PTCE 90 1 (relating to specified transactions involving insurance company pooled separate accounts);
4. PTCE 91 38 (relating to specified transactions by bank collective investment funds);
5. PTCE 95 60 (relating to specified transactions involving insurance company general accounts);
6. PTCE 96 23 (relating to specified transactions directed by in-house asset managers); and
7. ERISA Section 408(b)(17) and Code Section 4975(d)(20) (relating to specified transactions with non-fiduciary service providers).

These exemptions do not, however, provide relief from the provisions of ERISA and the Code that prohibit self-dealing and conflicts of interest by plan fiduciaries. In addition, there is no assurance that any of these class exemptions or any other exemption will be available with respect to any particular transaction involving the Notes.

Table of Contents

Based on the reasoning of the United States Supreme Court in *John Hancock Mutual Life Insurance Co. v. Harris Trust and Savings Bank*, 510 U.S. 86 (1993), assets in the general account of an insurance company might be deemed to be Benefit Plan Investor assets under certain circumstances. If general account assets are deemed to be Benefit Plan Investor assets, an insurance company's purchase of the Notes with assets of its general account might be subject to ERISA's fiduciary responsibility provisions or might give rise to prohibited transactions under ERISA and the Code. Insurance companies that intend to use assets of their general accounts to purchase the Notes should consider the potential effects of Section 401(c) of ERISA, PTCE 95-60, and Department of Labor Regulations Section 2550.401c-1 on their purchase.

Representations and Warranties

If you acquire or accept a Note (or any interest therein) offered in connection with this prospectus supplement, you will be deemed to have represented and warranted that either:

1. you have not, directly or indirectly, used the assets of any Plan to acquire or hold such Note (or any interest in such Note); or
2. your acquisition and holding of such Note (A) is exempt from the prohibited transaction restrictions of ERISA and the Code under one or more prohibited transaction exemptions or does not constitute a prohibited transaction under ERISA and the Code, (B) meets the applicable fiduciary requirements of ERISA, and (C) does not violate any applicable Similar Law.

Any subsequent purchaser of such Note will be required to make the same representations concerning the use of Plan assets to acquire or hold the Note.

The underwriters initially propose to offer the Notes to the public at the public offering price that appears on the cover page of this prospectus supplement. After the initial offering, the underwriters may change the public offering price and any other selling terms. The offering of the Notes by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part. The underwriters may offer and sell the Notes through certain of their affiliates.

In the underwriting agreement, we have agreed that:

Except for the offer and sale of debt securities or guarantees for which the primary use of proceeds is to refinance the outstanding indebtedness of The Goodyear Tire & Rubber Company or any of its subsidiaries, and except for the Notes offered hereby, The Goodyear Tire & Rubber Company will not, during the period beginning on May 10, 2016 and continuing through and including August 11, 2016, offer, sell, contract to sell or otherwise dispose of any debt securities issued or guaranteed by The Goodyear Tire & Rubber Company or any of the Subsidiary Guarantors that are substantially similar to the Notes without the prior written consent of Citigroup Global Markets Inc.

We will indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or contribute to payments that the underwriters may be required to make in respect of those liabilities.

The Notes are a new issue of securities, and there is currently no established trading market for the Notes. We do not intend to apply for the Notes to be listed on any securities exchange or to arrange for the Notes to be quoted on any quotation system. The underwriters have advised us that they intend to make a market in the Notes, but they are not obligated to do so. The underwriters may discontinue any market making in the Notes at any time in their sole discretion. Accordingly, we cannot assure you that a liquid trading market will develop for the Notes.

In connection with the offering of the Notes, the underwriters may engage in overallotment, stabilizing transactions and syndicate covering transactions. Overallotment involves sales in excess of the offering size, which creates a short position for the underwriters. Stabilizing transactions involve bids to purchase the Notes in the open market for the purpose of pegging, fixing or maintaining the price of the Notes. Syndicate covering transactions involve purchases of the Notes in the open market after the distribution has been completed in order to cover short positions. Stabilizing transactions and syndicate covering transactions may cause the price of the Notes to be higher than it would otherwise be in the absence of those transactions. If the underwriters engage in stabilizing or syndicate covering transactions, they may discontinue them at any time.

The underwriters may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the underwriting syndicate has repurchased Notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

The Notes may be sold in Canada only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 *Prospectus Exemptions* or subsection 73.3(1) of the *Securities Act* (Ontario), and are permitted clients, as defined in National Instrument 31-103 *Registration Requirements, Exemptions and Ongoing Registrant Obligations*. Any resale of the Notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus supplement and the accompanying prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 of National Instrument 33-105 *Underwriting Conflicts* (NI 33-105), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

This prospectus has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the Notes may not be circulated or distributed, nor may the Notes be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the SFA), (ii) to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

is to hold investments and each beneficiary is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries' rights and interest in that trust shall not be transferable for 6 months after that corporation or that trust has acquired the Notes under Section 275 except: (1) to an institutional investor under Section 274 of the SFA or to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA; (2) where no consideration is given for the transfer; or (3) by operation of law.

The securities have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (the Financial Instruments and Exchange Law) and each underwriter has agreed that it will not offer or sell any securities, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Financial Instruments and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which activities may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters and their affiliates have from time to time provided, and in the future may provide, certain investment banking and financial advisory services to us and our affiliates, for which they have received, and in the future would receive, customary fees. Affiliates of certain of the underwriters are lenders under certain of our senior secured credit facilities. Certain of the underwriters and their affiliates serve as counterparties to certain derivative and hedging arrangements with respect to certain of our pension plans. In addition, from time to time, certain of the underwriters and their affiliates may effect transactions for their own account or the account of customers, and hold on behalf of themselves or their customers, long or short positions in our debt or equity securities or loans, and may do so in the future. In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments including serving as counterparties to certain derivative and hedging arrangements, and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of the issuer. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. If any of the underwriters or their affiliates has a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the Notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the Notes offered hereby. In addition, certain underwriters or their affiliates may hold positions in the 2021 Notes and therefore may receive a portion of the proceeds from this offering.

FORWARD-LOOKING INFORMATION SAFE HARBOR STATEMENT

Certain information set forth herein or incorporated by reference herein (other than historical data and information) may constitute forward-looking statements regarding events and trends that may affect our future operating results and financial position. The words estimate, expect, intend and project, as well as other words or expressions of similar meaning, are intended to identify forward-looking statements. You are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date of this prospectus or, in the case of information incorporated by reference herein, as of the date of the document in which such information appears. Such statements are based on current expectations and assumptions, are inherently uncertain, are subject to risks and should be viewed with caution. Actual results and experience may differ materially from the forward-looking statements as a result of many factors, including:

if we do not successfully implement our strategic initiatives, our operating results, financial condition and liquidity may be materially adversely affected;

we face significant global competition, increasingly from lower cost manufacturers, and our market share could decline;

we could be negatively impacted by the decision to impose tariffs on certain tires imported to the U.S. from China;

deteriorating economic conditions in any of our major markets, or an inability to access capital markets or third-party financing when necessary, may materially adversely affect our operating results, financial condition and liquidity;

our international operations have certain risks that may materially adversely affect our operating results, financial condition and liquidity;

we have foreign currency translation and transaction risks that may materially adversely affect our operating results, financial condition and liquidity;

raw material and energy costs may materially adversely affect our operating results and financial condition;

if we experience a labor strike, work stoppage or other similar event our business, results of operations, financial condition and liquidity could be materially adversely affected;

our long term ability to meet our obligations, to repay maturing indebtedness or to implement strategic initiatives may be dependent on our ability to access capital markets in the future and to improve our

operating results;

financial difficulties, work stoppages, supply disruptions or economic conditions affecting our major original equipment customers, dealers or suppliers could harm our business;

our capital expenditures may not be adequate to maintain our competitive position and may not be implemented in a timely or cost-effective manner;

we have a substantial amount of debt, which could restrict our growth, place us at a competitive disadvantage or otherwise materially adversely affect our financial health;

any failure to be in compliance with any material provision or covenant of our credit facilities or the indentures governing our notes could have a material adverse effect on our liquidity and operations;

our variable rate indebtedness subjects us to interest rate risk, which could cause our debt service obligations to increase significantly;

we have substantial fixed costs and, as a result, our operating income fluctuates disproportionately with changes in our net sales;

we may incur significant costs in connection with our contingent liabilities and tax matters;

Table of Contents

our reserves for contingent liabilities and our recorded insurance assets are subject to various uncertainties, the outcome of which may result in our actual costs being significantly higher than the amounts recorded;

we are subject to extensive government regulations that may materially adversely affect our operating results;

we may be adversely affected by any cyber attack on, disruption in, or failure of our information technology systems;

if we are unable to attract and retain key personnel, our business could be materially adversely affected; and

we may be impacted by economic and supply disruptions associated with events beyond our control, such as war, acts of terror, political unrest, public health concerns, labor disputes or natural disasters.

It is not possible to foresee or identify all such factors. We will not revise or update any forward-looking statement or disclose any facts, events or circumstances that occur after the date hereof that may affect the accuracy of any forward-looking statement.

RATIO OF EARNINGS TO FIXED CHARGES

	Year Ended December 31,					Nine Months Ended
	2014	2013	2012	2011	2010	September 30,
						2015
						(unaudited)
Ratio of earnings to fixed charges(1)	2.13x	2.32x	1.75x	2.17x	*	3.70x

* Earnings for the year ended December 31, 2010 were inadequate to cover fixed charges. The coverage deficiency was \$22 million.

(1) For purposes of calculating our ratio of earnings to fixed charges:

Earnings consist of pre-tax income (loss) from continuing operations before adjustment for minority interests in consolidated subsidiaries or income or loss from equity investees plus (i) amortization of previously capitalized interest and (ii) distributed income of equity investees less (i) capitalized interest and (ii) minority interest in pre-tax income of consolidated subsidiaries with no fixed charges.

Fixed charges consist of (i) interest expense, (ii) capitalized interest, (iii) amortization of debt discount, premium or expense, (iv) the interest portion of rental expense (estimated to equal 1/3 of such expense, which is considered a reasonable approximation of the interest factor) and (v) proportionate share of fixed charges of investees accounted for by the equity method.

The consolidated ratio of earnings to fixed charges is determined by adding back fixed charges, as defined above, to earnings, as defined above, which is then divided by fixed charges, as defined above.

DESCRIPTION OF DEBT SECURITIES

*The following description of the terms of the debt securities sets forth certain general terms and provisions of the debt securities to which any prospectus supplement may relate. The particular terms of the debt securities offered by any prospectus supplement and the extent, if any, to which these general provisions may apply to those debt securities will be described in the prospectus supplement relating to those debt securities. Accordingly, for a description of the terms of a particular issue of debt securities, reference must be made to both the prospectus supplement relating thereto and to the following description. For purposes of this section, the term *Company* refers only to The Goodyear Tire & Rubber Company and not to any of its subsidiaries, and the terms *we*, *our* and *us* refer to The Goodyear Tire & Rubber Company and, where the context so requires, certain or all of its subsidiaries.*

We may issue debt securities from time to time in one or more series. The debt securities will be general obligations of the Company. In the event that any series of debt securities will be subordinated to other indebtedness that we have outstanding or may incur, the terms of the subordination will be set forth in the prospectus supplement relating to the subordinated debt securities. Debt securities will be issued under one or more indentures between us and Wells Fargo Bank, N.A., as trustee, or another trustee named in the prospectus supplement. A copy of the indenture has been filed as an exhibit to the registration statement of which this prospectus forms a part. The following discussion of certain provisions of the indenture is a summary only and should not be considered a complete description of the terms and provisions of the indenture. Accordingly, the following discussion is qualified in its entirety by reference to the provisions of the indenture, including the definition of certain terms used below.

may be issued in registered or bearer form and certificated or uncertificated form; and

may be represented by one or more global securities registered in the name of a designated depository or its nominee, and if so, beneficial interests in the global security will be shown on and transfers will be made only through records maintained by the designated depository and its participants.

The aggregate principal amount of debt securities that we may issue and deliver is unlimited. The debt securities may be issued in one or more series as we may authorize from time to time. Table of Contents

Unless otherwise provided in the applicable prospectus supplement, debt securities in registered form may be transferred or exchanged at the office of the trustee at which its corporate trust operations are administered in the United States, subject to the limitations provided in the indenture, with the payment of any taxes and fees required by law or permitted by the indenture payable in connection therewith. Securities in bearer form will be transferable only by delivery. Provisions with respect to the transfer or exchange of securities in bearer form will be described in the prospectus supplement relating to those securities in bearer form.

Subject to applicable abandoned property laws, all funds that we pay to a paying agent for the payment of principal or interest with respect to any debt securities that remain unclaimed at the end of two years after that principal or interest shall have become due and payable will be repaid to us, and the holders of those debt securities or any related coupons will thereafter look only to us for payment thereof.

Guarantees

Any debt securities may be guaranteed by one or more of our direct or indirect subsidiaries. Each prospectus supplement will describe any guarantees for the benefit of the series of debt securities to which it relates.

Global Securities

The debt securities of a series may be issued in whole or in part in the form of one or more global securities that will be deposited with, or on behalf of, a depository identified in the prospectus supplement. Global securities will be issued in registered form and in either temporary or definitive form. Unless and until it is exchanged in whole or in part for the individual debt securities, a global security may not be transferred except as a whole by the depository for such global security to a nominee of such depository or by a nominee of such depository to such depository or another nominee of such depository or by such depository or any such nominee to a successor of such depository or a nominee of such successor. The specific terms of the depository arrangement with respect to any debt securities of a series and the rights of and limitations upon owners of beneficial interests in a global security will be described in the applicable prospectus supplement.

Limitations on Issuance of Securities in Bearer Form

The debt securities of a series may be issued as securities in registered form (which will be registered as to principal and interest in the register maintained by the registrar for such debt securities) or securities in bearer form (which will be transferable only by delivery). If such debt securities are issuable as securities in bearer form, the applicable prospectus supplement will describe certain special limitations and considerations that will apply to such debt securities.

Certain Covenants

The indenture, as supplemented for a particular series of debt securities under which such series of debt securities are issued, may contain certain covenants for the benefit of the holders of such series of debt securities, which will be applicable (unless waived or amended) so long as any of the debt securities of such series are outstanding, unless stated otherwise in the prospectus supplement. The specific terms of the covenants, and summaries thereof, will be set forth in the prospectus supplement relating to such series of debt securities.

Subordination

Debt securities of a series, or any related subsidiary guarantee, may be subordinated to senior indebtedness (as defined in the applicable prospectus supplement) to the extent set forth in the prospectus supplement relating thereto. The Company currently conducts a portion of its operations through its subsidiaries. To the extent such subsidiaries are not subsidiary guarantors for a series of debt securities, creditors of such subsidiaries, including trade creditors, and preferred stockholders, if any, of such subsidiaries generally will have priority with respect to

Table of Contents

the assets and earnings of such subsidiaries over the claims of creditors of the Company, including holders of such series of debt securities. A series of debt securities, therefore, will be effectively subordinated to the claims of creditors, including trade creditors, and preferred stockholders, if any, of our subsidiaries that are not subsidiary guarantors with respect to such series of debt securities.

Events of Default

Each of the following constitutes an event of default under the indenture with respect to any series of debt securities:

default in the payment of interest on the debt securities of that series when due and payable that continues for 30 days;

default in payment of the principal on the debt securities of that series, when such amount becomes due and payable at maturity, upon optional or required redemption, upon declaration of acceleration or otherwise;

failure to comply with the obligations described under Mergers and Sales of Assets below;

failure to comply with any of our other agreements with respect to the debt securities of that series or the indenture or supplemental indenture related to that series of debt securities and that failure continues for 60 days after notice thereof;

certain events of bankruptcy, insolvency or reorganization affecting us; or

if such series of debt securities has the benefit of subsidiary guarantees, any such subsidiary guarantee ceases to be in full force and effect in all material respects (except as contemplated by the terms thereof) or any applicable subsidiary guarantor denies or disaffirms such subsidiary guarantor's obligations under the indenture or any such subsidiary guarantee and such default continues for 10 days after receipt of notice thereof.

A prospectus supplement may omit, modify or add to the foregoing events of default.

A default under the fourth or the sixth (only with respect to a subsidiary guarantor that is not a significant subsidiary) clause above will not constitute an event of default until the trustee or the holders of 25% in principal amount of the outstanding debt securities of that series notify us (and also the trustee if given by holders) of the default and we do not cure such default within the time specified after receipt of such notice. As used herein, significant subsidiary means any subsidiary of the Company that would be a significant subsidiary of the Company within the meaning of Rule 1-02 under Regulation S-X promulgated by the SEC.

If any event of default (other than an event of default relating to certain events of bankruptcy, insolvency or reorganization) occurs and is continuing with respect to a particular series of debt securities, either the trustee or the holders of at least 25% in principal amount of the outstanding debt securities of that series by notice to us (and also the trustee if given by holders) may declare the principal amount of and accrued but unpaid interest on the debt

securities of that series to be due and payable. Upon such a declaration, such principal and interest will be due and payable immediately. If an event of default relating to certain events of bankruptcy, insolvency or reorganization occurs, the principal of and interest on the debt securities of that series will become immediately due and payable without any declaration or other act on the part of the trustee or any holders. Under certain circumstances, the holders of a majority in principal amount of the outstanding debt securities of a series may rescind any such acceleration with respect to the debt securities of that series and its consequences.

Subject to the provisions of the indenture relating to the duties of the trustee, in case an event of default occurs and is continuing with respect to a series of debt securities, the trustee will be under no obligation to exercise any of the rights or powers under the indenture at the request or direction of any of the holders of that series of debt securities unless such holders have offered to the trustee indemnity satisfactory to the trustee against any loss,

Table of Contents

liability or expense. Except to enforce the right to receive payment of principal, premium (if any) or interest (if any) with respect to the debt securities of a series when due, no holder of the debt securities of such series may pursue any remedy with respect to the indenture or such series of debt securities unless:

such holder has previously given the trustee notice that an event of default is continuing with respect to that series of debt securities;

holders of at least 25% in principal amount of the outstanding debt securities of that series have requested the trustee in writing to pursue the remedy;

such holders of debt securities of that series have offered the trustee indemnity satisfactory to the trustee against any loss, liability or expense;

the trustee has not complied with such request within 60 days after the receipt of the request and the offer of indemnity; and

the holders of a majority in principal amount of the outstanding debt securities of that series have not given the trustee a direction inconsistent with such request within such 60-day period.

Subject to certain restrictions, the holders of a majority in principal amount of the outstanding debt securities of any series will, with respect to that series of debt securities, be given the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or of exercising any trust or power conferred on the trustee. The trustee, however, may refuse to follow any direction that conflicts with law or the indenture or that the trustee determines is unduly prejudicial to the rights of any other holder of debt securities of such series or that would involve the trustee in personal liability. Prior to taking any action under the indenture, the trustee will be entitled to indemnification satisfactory to it in its sole discretion against all losses and expenses caused by taking or not taking such action.

If a default with respect to debt securities of any series occurs and is continuing and is known to the trustee, the trustee must mail to each holder of debt securities of such series, notice of the default within the earlier of 90 days after it occurs or 30 days after it is actually known to certain officers of the trustee or written notice of it is received by the trustee. Except in the case of a default in the payment of principal of, premium (if any) or interest (if any) on any debt securities of any series (including payments pursuant to the redemption provisions of such debt securities), the trustee may withhold notice if and so long as a committee of its officers in good faith determines that withholding notice is in the interests of the holders of that series of debt securities. In addition, we will be required to deliver to the trustee, within 120 days after the end of each fiscal year, a certificate indicating whether the signers thereof know of any default that occurred during the previous year. We will also be required to deliver to the trustee, within 30 days after the occurrence thereof, written notice of any event which would constitute certain events of default, their status and what action we are taking or propose to take in respect thereof.

Modification and Waiver

The indenture may be amended with respect to any series of debt securities with the written consent of the holders of a majority in principal amount of the debt securities of that series then outstanding voting as a single class, and any past default or compliance with any provisions with respect to any series of debt securities may be waived with the consent of the holders of a majority in principal amount of the debt securities of that series then outstanding voting as a single class. However, without the consent of each holder of an outstanding debt security affected thereby, no amendment may, among other things:

reduce the amount of debt securities of any series whose holders must consent to an amendment;

reduce the rate of or extend the time for payment of interest on any debt security;

reduce the principal of or extend the stated maturity of any debt security;

reduce the premium, if any, payable upon the redemption of any debt security or change the time at which such debt security may be redeemed;

Table of Contents

make any debt security payable in money or securities other than that stated in such debt security;

impair the right of any holder to receive payment of principal of, and interest on, such holder's debt securities on or after the due dates therefor or to institute suit for the enforcement of any payment on or with respect to such holder's debt securities;

in the case of any subordinated debt security or coupons appertaining thereto, make any change in the provisions of the indenture relating to subordination that adversely affects the rights of any holder under such provisions;

make any change in the amendment provisions which require each affected holder's consent or in the waiver provisions; or

make any change in, or release other than in accordance with the indenture, any subsidiary guarantee that would adversely affect the holders.

Without the consent of any holder, the Company, any subsidiary guarantors and the trustee may amend or supplement the indenture or the debt securities of any series for one or more of the following purposes:

to cure any ambiguity, omission, defect or inconsistency;

to provide for the assumption by a successor corporation of our obligations or the obligations of any subsidiary guarantor under the indenture;

to provide for uncertificated debt securities in addition to or in place of certificated debt securities; provided, however, that the uncertificated debt securities are issued in registered form for purposes of Section 163(f) of the Internal Revenue Code or in a manner such that the uncertificated debt securities are described in Section 163(f)(2)(B) of the Internal Revenue Code;

to add additional guarantees with respect to the debt securities of such series or to confirm and evidence the release, termination or discharge of any such guarantee when such release, termination or discharge is permitted under the indenture;

to add to the covenants of the Company for the benefit of the holders of such series of debt securities or to surrender any right or power herein conferred upon the Company;

to make any change that does not adversely affect the rights of any holder in any material respect, subject to the provisions of the indenture;

to comply with any requirement of the SEC in connection with qualifying, or maintaining the qualification of, the indenture under the Trust Indenture Act;

to make any amendment to the provisions of the indenture relating to form, authentication, transfer and legending of such series of debt securities; provided, however, that (i) compliance with the indenture as so amended would not result in such debt securities being transferred in violation of the Securities Act, or any other applicable securities law and (ii) such amendment does not materially affect the rights of holders to transfer such debt securities;

to convey, transfer, assign, mortgage or pledge as security relating to the debt securities of such series any property or assets;

in the case of subordinated debt securities, to make any change in the provisions of the indenture relating to subordination that would limit or terminate the benefits available to any holder of senior indebtedness under such provisions (but only if each such holder of senior indebtedness consents to such change);

to add to, change or eliminate any of the provisions of the indenture with respect to one or more series of debt securities, so long as any such addition, change or elimination not otherwise permitted under the indenture shall (i) neither apply to any debt security of any series created prior to the execution of

the related supplemental indenture and entitled to the benefit of such provision nor modify the rights of the holders of any such debt security with respect to the benefit of such provision or (ii) become effective only when there is no such debt security outstanding; or

Mergers and Sales of Assets

Unless otherwise disclosed in the prospectus supplement relating to a particular series of debt securities, we will not, directly or indirectly, consolidate with or merge with or into, or convey, transfer or lease all or substantially all of our assets in one or a series of related transactions to, any person, unless:

the resulting, surviving or transferee person (the Successor Company) will be a corporation organized and existing under the laws of the United States of America, any state thereof or the District of Columbia, and the Successor Company (if not the Company) will expressly assume, by a supplemental indenture, executed and delivered to the trustee, in form satisfactory to the trustee, all the obligations of the Company under the debt securities and the indenture;

immediately after giving effect to such transaction, no default shall have occurred and be continuing; and

we shall have delivered to the trustee an officers certificate and an opinion of counsel, each stating that such consolidation, merger or transfer and such supplemental indenture (if any) comply with the indenture.

The Successor Company will succeed to, and be substituted for, and may exercise every right and power of, the Company under the indenture, and the predecessor company, other than in the case of a lease, will be released from the obligation to pay the principal of, premium, if any, and interest, if any, on the debt securities.

In addition, we will not permit any subsidiary guarantor to, directly or indirectly, consolidate with or merge with or into, or convey, transfer or lease all or substantially all of its assets in one or a series of related transactions to, any person unless:

except in the case of a subsidiary guarantor (i) that has been disposed of in its entirety to another person (other than to the Company or an affiliate of the Company), whether through a merger, consolidation or sale of capital stock or assets or (ii) that, as a result of the disposition of all or a portion of its capital stock, ceases to be a subsidiary, the resulting, surviving or transferee person (the Successor Guarantor) will be a corporation organized and existing under the laws of the United States of America, any state thereof, the District of Columbia or any other jurisdiction under which such Subsidiary Guarantor was organized, and such person (if not such subsidiary guarantor) will expressly assume, by a supplemental indenture, executed and delivered to the trustee, in form satisfactory to the trustee, all the obligations of such subsidiary guarantor under its subsidiary guarantee;

immediately after giving effect to such transaction, no default shall have occurred and be continuing; and

the Company will have delivered to the trustee an officers certificate and an opinion of counsel, each stating that such consolidation, merger or transfer and such supplemental indenture (if any) comply with the indenture.

Notwithstanding the foregoing:

any subsidiary may consolidate with, merge into or transfer all or part of its properties and assets to the Company or any subsidiary guarantor; and

the Company may merge with an affiliate incorporated solely for the purpose of reincorporating the Company in another jurisdiction within the United States of America, any state thereof or the District of Columbia to realize tax or other benefits.

Satisfaction and Discharge of the Indenture; Defeasance

Unless otherwise disclosed in the prospectus supplement relating to a particular series of debt securities, the indenture shall generally cease to be of any further effect with respect to a series of debt securities if (i) we have delivered to the trustee for cancellation all debt securities of such series (with certain limited exceptions) or (ii) all debt securities of such series not theretofore delivered to the trustee for cancellation shall have become due and payable, whether at maturity or on a redemption date as a result of the mailing of a notice of redemption pursuant to the provisions of the indenture relating to redemption, and, in the case of clause (ii), we shall have irrevocably deposited with the trustee funds or U.S. government obligations sufficient to pay at maturity or upon redemption all such debt securities including premium, if any, and interest, if any, thereon to maturity or such redemption date (and if, in either case, we shall also pay or cause to be paid all other sums payable under the indenture by us).

In addition, we shall have a legal defeasance option (pursuant to which we may terminate, with respect to the debt securities of a particular series, all of our obligations under such debt securities and the indenture with respect to such debt securities) and a covenant defeasance option (pursuant to which we may terminate, with respect to the debt securities of a particular series, our obligations with respect to such debt securities under certain specified covenants contained in the indenture). If we exercise our legal defeasance option with respect to a series of debt securities, payment of such debt securities may not be accelerated because of an event of default. If we exercise our covenant defeasance option with respect to a series of debt securities, payment of such debt securities may not be accelerated because of an event of default related to the specified covenants. The applicable prospectus supplement will describe the procedures we must follow in order to exercise our defeasance options.

Regarding the Trustee

The indenture provides that, except during the continuance of an event of default, the trustee will perform only such duties as are specifically set forth in the indenture. During the existence of an event of default, the trustee will exercise such rights and powers vested in it under the indenture and use the same degree of care and skill in its exercise as a prudent person would exercise under the circumstances in the conduct of such person's own affairs. The indenture and provisions of the Trust Indenture Act that are incorporated by reference therein contain limitations on the rights of the trustee, should it become one of our creditors, to obtain payment of claims in certain cases or to realize on certain property received by it in respect of any such claim as security or otherwise. The trustee is permitted to engage in other transactions with us or any of our affiliates; provided, however, that if it acquires any conflicting interest (as defined in the Trust Indenture Act), it must eliminate such conflict or resign as provided in the indenture.

Governing Law

The indenture and the debt securities will be governed by the laws of the State of New York.
