Report of Independent Registered Public Accounting Firm

To the Participants and Administrative Committee of

the Baxter International Inc. and Subsidiaries Incentive Investment Plan

Deerfield, Illinois

We have audited the accompanying statements of net assets available for benefits of the Baxter International Inc. and Subsidiaries Incentive Investment Plan (the Plan) as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

The supplemental Schedule H, Line 4i Schedule of Assets (Held at End of Year) as of December 31, 2015 has been subjected to audit procedures performed in conjunction with the audit of the Baxter International Inc. and Subsidiaries Incentive Investment Plan's financial statements. The supplemental schedule is the responsibility of the Plan's management. Our audit procedures included determining whether the information presented in the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental schedule is fairly stated in all material respects in relation to the financial statements as a whole.

Incentive Investment Plan

Notes to Financial Statements

December 31, 2015 and 2014

1. General Description of the Plan

The following description of the Baxter International Inc. and Subsidiaries Incentive Investment Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document and summary plan description for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is a defined contribution plan the predecessor of which originally became effective on January 1, 1960. The Plan was created for the purpose of providing retirement benefits to United States employees of Baxter International Inc. (the Sponsor or the Company) and its subsidiaries, and to encourage and assist employees in adopting a regular savings program by means of payroll deductions through a plan that qualifies under the United States Internal Revenue Code. Plan participants may authorize the Company to make payroll deductions under the Plan ranging from 1% to 50% of their pre-tax monthly compensation limited to a maximum of \$18,000 and \$17,500 a year in 2015 and 2014, respectively. Participants who have attained the age of 50 by the end of the year may contribute up to an additional \$6,000 and \$5,500 per year in catch-up contributions in 2015 and 2014, respectively. Newly hired employees are deemed to have elected to contribute 3% of compensation (increased by 1% per year to a total of 6%) unless they make a contrary election. The Company matches a participant's savings contributions on a dollar for dollar basis up to 3.0% of the participant's compensation, and matches any contributions between 3% and 4% of compensation at the rate of 50 cents for each dollar of a participant's pre-tax contribution, so that the maximum matching contribution for participants who contribute at least 4% of their compensation is 3.5% of compensation. The Company also contributes an additional non-matching 3% of compensation for employees that are not eligible to participate in the Company's U.S. qualified defined benefit pension plan, which includes all new employees hired on or after January 1, 2007, and employees who had less than five years of service on January 1, 2007 and who elected to cease earning additional service in the pension plan and participate in the higher level of Company contributions in the Plan.

Participants are immediately vested in the elective contributions and matching contribution plus actual earnings thereon. The additional non-matching contributions become fully vested after three years of service. Participants are fully vested in the Company's non-matching contributions account, regardless of years of service with the Company, upon attaining age 65, upon becoming disabled in accordance with the provisions of the Plan or upon dying while employed by the Company. Forfeitures of nonvested accounts are used to reduce future employer contributions.

Participants may borrow from their vested accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate at the last day of the month prior to loan request, plus one percent.

Participants or their beneficiaries may elect lump-sum benefit payments, or benefits may be paid in installments. Shares of Baxter common stock may also be distributed in kind at the participant's election. Subject to certain provisions specified in the Plan agreement, employed participants may withdraw their pre-tax contributions, matching contributions made prior to 2008, vested non-matching contributions and related earnings in cases of financial hardship and in certain other circumstances. In the case of a participant termination by reason of death or disability, the entire vested amount is paid to the person or persons legally entitled thereto.

Each participant's account is credited with the participant's contributions and an allocation of the Company's contributions and Plan earnings, and is charged with his or her withdrawals and an allocation of Plan-related expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The net income of the Plan is posted to the participant's accounts on a daily basis. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Table of Contents**Baxter International Inc. and Subsidiaries****Incentive Investment Plan****Notes to Financial Statements****December 31, 2015 and 2014**

Upon enrollment in the Plan, a participant may direct contributions into any of 17 investment options: Stable Income Fund, Baxter Common Stock Fund, State Street S&P 500 Index Non-Lending Series Fund, State Street International Index Non-Lending Series Fund, State Street Russell Small Cap Index Non-Lending Series Fund, Northern Trust Domestic Mid Cap Fund, State Street Global Advisors Emerging Markets Fund (SSgA Emerging Markets Fund) and ten different Target Date Retirement Funds. However, non-matching contributions may not be invested in the Baxter Common Stock Fund. Participants may not direct contributions to the Self-Managed Fund but can transfer funds into the Self-Managed Fund from other investment options. In addition, certain participants may maintain shares received in connection with Baxter's 1996 spin-off of Allegiance Corporation (Allegiance), which were subsequently converted into common shares of Cardinal Health Inc. (Cardinal) upon Cardinal's acquisition of Allegiance in 1999. These shares are maintained in the Cardinal Health Common Stock Fund. Additionally, certain participants maintain shares in Edwards Lifesciences Corporation. These shares were placed into the Edwards Lifesciences Common Stock Fund in connection with Baxter's 2000 spin-off of its cardiovascular business. Certain participants obtained shares in Baxalta Incorporated (Baxalta), in connection with the spin (as discussed below). These shares were placed into the Baxalta Common Stock Fund in connection with Baxter's 2015 spin-off of its BioScience business. See Note 12 for a discussion of the conversion of the Baxalta Common Stock Fund into the Shire Common Stock Fund in June 2016, in connection with the merger of a wholly-owned subsidiary of Shire plc (Shire) with and into Baxalta, with Baxalta as the surviving company (the Merger). Participants are not able to make contributions or transfer existing account balances to the Cardinal Health Common Stock Fund, Edwards Lifesciences Common Stock Fund or the Shire Common Stock Fund (f/k/a the Baxalta Common Stock Fund), but may make transfers out of these funds at any time. Starting in 2013, participants are no longer able to make contributions to the Composite Fund and General Equity Fund, but may make transfers out of these funds at any time.

On July 1, 2015, Baxter completed the distribution of approximately 80.5% of the outstanding common stock of Baxalta to Baxter stockholders in connection with the separation of its biopharmaceutical business (the spin). The distribution was made to Baxter's stockholders of record as of the close of business on June 17, 2015, who received one share of Baxalta common stock for each Baxter common share held as of such date. The Plan received 2,703,100 shares of Baxalta common stock on July 1, 2015 as a result of the distribution. The distribution was intended to take the form of a tax-free distribution for federal income tax purposes in the United States. As a result of the distribution, Baxalta became an independent public company whose shares traded on the New York Stock Exchange under the symbol BXLTY. In 2015, the Plan transferred approximately \$497 million of assets to the Baxalta Incorporated and Subsidiaries Incentive Investment Plan in connection with the spin.

2. Summary of Significant Accounting Policies**Basis of Accounting**

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting. Accordingly, investment income is recognized when earned and expenses are recognized when incurred.

New Accounting Standards

In May 2015, the Financial Accounting Standards Board (FASB) issued updated guidance which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share (NAV) practical expedient (ASU 2015-07). ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV practical expedient. ASU 2015-07 is effective for annual reporting periods beginning after December 15, 2016. The Plan Sponsor has chosen not to early adopt this standard and is currently evaluating the impact of this standard on the Plan's financial statements.

Edgar Filing: BAXTER INTERNATIONAL INC - Form 11-K

In July 2015, the FASB issued new guidance impacting benefit plan accounting and reporting (ASU 2015-12). ASU 2015-12 requires an employee benefit plan to use contract value as the only measurement amount for fully benefit-responsive investment contracts. It also simplifies and increases the effectiveness of plan investment disclosure requirements for employee benefit plans, and provides employee benefit plans with a measurement-date practical expedient for asset fair value. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015. The Plan Sponsor has chosen not to early adopt this standard and is currently evaluating the impact of this standard on the Plan s financial statements.

Incentive Investment Plan

Notes to Financial Statements

December 31, 2015 and 2014

Valuation of Investments and Collateral

The fair value of Plan investments and collateral is determined as follows:

| | |
|--|---|
| Cash and cash equivalents | These largely consist of a short-term investment fund and a money market fund, the fair value of which is based on the net asset value. The investment objectives for these funds are to provide safety for principal, daily liquidity and a competitive yield by investing in high quality instruments. |
| Common stock | Value based on closing prices on the valuation date in an active market on national securities exchanges. |
| U.S. government and government agency issues | Value based on reputable pricing vendors that typically use pricing matrices or models. |
| Corporate and other obligations | Value based on reputable pricing vendors that typically use pricing matrices or models. |
| Commingled funds | Value based on net asset values reported by the fund managers as of the Plan's financial statement dates and recent transaction prices. The investment objectives of certain funds are to track the performances of the S&P 500, Europe, Australasia and the Far East (EAFE), or Russell 2000 indexes. In addition, these funds include target date retirement funds, whose objective is to provide investors, who have a specific date in mind for retirement with a portfolio of investments. The underlying investments for all funds vary, with some holding diversified portfolios of domestic stocks, government agency and corporate bonds, and others holding collective investment funds. Each fund provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement. |
| Registered investment companies | Value based upon the closing price from a national security exchange on the valuation date. |
| Synthetic guaranteed investment contracts | Value based on the fair value of the underlying securities in the contract on the valuation date plus the fair value of the wrapper contracts, which is calculated using a replacement cost approach. The underlying securities are valued based upon the methodologies described above. In addition, this investment includes an individual separate account with Metropolitan Life Insurance Company (MetLife). The value of this separate account is based upon the unit value provided by MetLife as of the Plan's financial statement date plus the fair value of the wrapper contracts, which is calculated using a replacement cost |

| | |
|--|--|
| | approach. The underlying securities primarily of the account, managed by a sub-advisor of the insurance company, consist of fixed income securities. See below for more information. |
| Collateral held on loaned securities | Value based upon the net asset value per unit of the short-term investment funds where the collateral is invested. Refer to Note 7 for more information on the securities lending program. |
| Collateral to be paid on loaned securities | Value based on the fair value of the underlying securities loaned on the valuation date, plus an incremental margin. |

Income Recognition

Plan investment return includes dividend and interest income, gains and losses on sales of investments and unrealized depreciation or appreciation of investments. Purchases and sales of investments are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest is earned on an accrual basis.

The financial statements reflect the net depreciation or appreciation in the fair value of the Plan's investments. This net depreciation or appreciation consists of realized gains and losses calculated as the difference between proceeds from a sales transaction and cost determined on a moving average basis, and unrealized gains and losses calculated as the change in the fair value between beginning of the year (or purchase date if later) and the end of the year.

Synthetic Guaranteed Investment Contracts

The Plan holds synthetic guaranteed investment contracts (GICs) as part of the Stable Income Fund. The synthetic GICs provide for a fixed return on principal over a specified time through fully benefit-responsive contracts issued by Transamerica, Prudential and MetLife. During 2014, the GIC with Bank of America was terminated and the Plan entered into a new GIC with Prudential. The portfolio of assets underlying the synthetic GICs primarily includes cash and cash equivalents, U.S. government and government agency issues, and corporate and other obligations.

The fair value of the synthetic GICs equals the total of the fair value of the underlying assets plus the fair value of the wrapper contracts. The fair value of the wrapper contracts is computed using a replacement cost approach that incorporates a comparison of the current fee rate on similar wrapper contracts to the fee being paid by the Plan. Using this approach, the fair values of the wrapper contracts were a loss of \$391 thousand and a loss of \$449 thousand at December 31, 2015 and 2014, respectively.

While Plan investments are presented at fair value in the Statements of Net Assets Available for Benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the Statements of Net Assets Available for Benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions, plus earnings, less participant withdrawals and administrative expenses. The wrapper contracts used by the Plan are fully benefit-responsive because the wrapper contract issuers are contractually obligated to make up any shortfall in the event that the underlying asset portfolio has been liquidated and is inadequate to cover participant withdrawals and transfers at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or any other risk. The contract value for the synthetic GICs was \$594.2 million and \$671.1 million at December 31, 2015 and 2014, respectively.

Table of Contents

Baxter International Inc. and Subsidiaries

Incentive Investment Plan

Notes to Financial Statements

December 31, 2015 and 2014

The crediting interest rate, which is reset quarterly, can never fall below zero. The crediting rate formula smoothes the impact of interest rate changes on participant returns by amortizing any difference between market value and book value over a period of years equal to the duration of the portfolio benchmark. The average yield on the synthetic GICs was approximately 2.3% and 1.9% at December 31, 2015 and 2014, respectively. The average interest rate credited to participants on the synthetic GICs was approximately 2.7% and 2.8% for the years ended December 31, 2015 and 2014. The credit ratings for Transamerica, Prudential and MetLife were AA- at both December 31, 2015 and 2014.

Events that lead to market value withdrawals that exceed 15 percent of the contract value of the GICs of Prudential and Transamerica or 10 percent of the contract value of the GIC of MetLife would limit the ability of the Plan to transact at contract value with participants. These events include restructurings, early retirement plans, divestitures, bankruptcies, or legal, tax or regulatory changes. The Plan sponsor believes that the occurrence of any such event is remote. The spin did not constitute such an event under the GICs.

The wrapper providers can only terminate at a value different than contract value under an event of default (that was not remedied) such as failure to follow the terms of the contract. If a wrapper provider would like to exit the contract for another reason, the Plan can maintain the contract through an extended termination process designed to ensure continued benefit-responsive treatment for withdrawals.

Notes Receivables from Participants

Participant loans are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participant's account balances.

Payment of Benefits and Fees

Benefits are recorded when paid. Loan origination fees associated with notes receivable from participants and the Plan's record keeping and trustee fees are paid by the Plan and are reflected in the financial statements as Plan expenses. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other expenses of the Plan are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and related notes to the financial statements. Changes in such estimates may affect amounts reported in future periods.

Other

Due from broker for securities sold represent the net cash value of security trades initiated but not yet settled at each respective year-end.

Risks and Uncertainties

The Plan provides for various investment options which invest in any combination of registered investment companies, U.S. government and government agency issues, corporate and other obligations, common stock, commingled funds, synthetic guaranteed investment contracts and short-term investments. Investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the

Edgar Filing: BAXTER INTERNATIONAL INC - Form 11-K

level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits. Individual participants' accounts bear the risk of loss resulting from fluctuations in investment values.

Table of Contents

Baxter International Inc. and Subsidiaries

Incentive Investment Plan

Notes to Financial Statements

December 31, 2015 and 2014

Investments underlying the Plan's synthetic GICs include securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by subprime mortgage loans (corporate and other obligations). The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies and/or defaults and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

3. Eligibility Requirements

Employees become eligible to participate in the Plan as of the first day of the month following the completion of thirty days of employment. Eligible employees are those who meet the following requirements:

- A. U.S. employees of Baxter or its subsidiaries which have adopted the Plan;
- B. U.S. employees not covered by a collective bargaining agreement unless the agreement provides for coverage under the Plan; and
- C. U.S. employees who are not leased employees.

4. Administration of the Plan

State Street Bank and Trust Company (the Trustee) serves as trustee and Voya Institutional Plan Services, LLC, formerly ING Institutional Plan Services, LLC, serves as recordkeeper for the Plan.

The Administrative Committee administers the Plan. The Investment Committee has authority, responsibility and control over the management of the assets of the Plan. Members of both committees are appointed by the Board of Directors of Baxter and are employees of Baxter.

Substantially all investment manager, trustee and administrative fees incurred in the administration of the Plan were paid from the assets of the Plan.

5. Fair Value Measurements

The fair value hierarchy under the accounting standard for fair value measurements consists of the following three levels:

Edgar Filing: BAXTER INTERNATIONAL INC - Form 11-K

Level 1 - Quoted prices in active markets that the Plan has the ability to access for identical assets or liabilities;

Level 2 - Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuations in which all significant inputs are observable in the market; and

Level 3 - Valuations using significant inputs that are unobservable in the market and include the use of judgment by the Plan's management about the assumptions market participants would use in pricing the asset or liability.

Table of Contents**Baxter International Inc. and Subsidiaries****Incentive Investment Plan****Notes to Financial Statements****December 31, 2015 and 2014**

The following tables summarize the bases used to measure the Plan's financial instruments and liabilities that are carried at fair value on a recurring basis.

| (in thousands) | Balance at December 31, 2015 | Basis of Fair Value Measurement | | |
|--|------------------------------------|--|---|--|
| | | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |

Table of Contents**Baxter International Inc. and Subsidiaries****Incentive Investment Plan****Notes to Financial Statements****December 31, 2015 and 2014**

Transfers between hierarchy measurement levels are recognized by the Plan as of the beginning of the reporting period. The fair value of commingled funds is valued based upon the net asset value of the underlying securities and is classified as Level 2. The Plan did not have any transfers between Levels 1 and 2 during 2015 and 2014.

The following table sets forth a summary of changes in the fair values of the Plan's level 3 financial instruments.

| (in thousands) | Wrapper Contracts |
|--|----------------------|
| Balance at December 31, 2013 | \$ (129) |
| Additions | (84) |
| Settlements | (67) |
| Unrealized losses (relating to assets held at end of year) | (169) |
| Balance at December 31, 2014 | (449) |
| Unrealized gains (relating to assets held at end of year) | 58 |
| Balance at December 31, 2015 | \$ (391) |

The unrealized losses from the wrapper contracts are excluded from the net appreciation reported for the Plan, but instead are reflected in the change in the adjustment from fair value to contract value for fully benefit responsive contracts reported on the statements of net assets available for benefits. In 2014, the additions are due to the new contract with Prudential and the settlements are due to termination of the contract with Bank of America as detailed in Note 2.

See Valuation of Investments and Collateral in Note 2 above for a discussion of the methodologies used to determine the fair values of the Plan's investments and collateral. These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Investments

Investments representing five percent or more of the Plan's net assets available for benefits at December 31, 2015 and 2014 are summarized as follows:

| (in thousands, except per share data) | 2015 | 2014 |
|--|------|------------|
| Baxter common stock, 2,530,593 shares at December 31, 2014 | \$ * | \$ 185,467 |

| Target Date Retirement Funds | 431,877 | 536,660 |
| Collateral held on loaned securities | 12,328 | 12,903 |
| | | |
| Total investments at fair value | 2,111,388 | 2,518,042 |
| Adjustment from fair value to contract value for Stable Income Fund | (22,443) | (41,872) |
| | | |
| Total investments | \$ 2,088,945 | \$ 2,476,170 |

Net appreciation (depreciation) in fair value for each significant class of investment, which includes realized and unrealized gains and losses, is as follows:

| (in thousands) | 2015 | 2014 |
|--|-------------|-------------|
| Baxter common stock | \$ (8,141) | \$ 9,991 |
| Other common stock | 40,749 | 33,870 |
| U.S. government and government agency issues | (835) | 1,668 |
| Corporate and other obligations | (2,796) | 560 |
| Commingled funds | (1,310) | 75,339 |

| | | |
|---------------------------------|-----------|------------|
| Registered investment companies | (1,796) | (86) |
| | \$ 25,871 | \$ 121,342 |

7. Securities Lending Transactions

The Plan participates in a securities lending program with the Trustee. The program allows the Trustee to loan securities, which are assets of the Plan, to approved brokers (the Borrowers).

The Trustee requires the Borrowers, pursuant to a security loan agreement, to deliver collateral to secure each loan in an amount that is at least equal to the fair value of the securities loaned. The Plan bears the risk of loss with respect to any unfavorable change in fair value of the invested cash collateral. However, the Borrower bears the risk of loss related to the decrease in the fair value of the non-cash collateral and, therefore, would have to deliver additional securities to maintain the required collateral. In the event of default by the Borrower,

Table of Contents

Baxter International Inc. and Subsidiaries

Incentive Investment Plan

Notes to Financial Statements

December 31, 2015 and 2014

the Trustee shall indemnify the Plan by purchasing replacement securities equal to the number of unreturned loaned securities, to the extent that such replacement securities are available on the open market and if to the extent that such proceeds are insufficient or the collateral is unavailable, the purchase of replacement securities shall be made at Trustee expense or, if replacement securities are not able to be purchased, the Trustee shall credit the Plan for the market value of the unreturned securities. In each case, the Trustee would apply the proceeds from the collateral for such a loan to make the Plan whole. The fair value of the investment of cash collateral received pursuant to securities lending transactions is reflected on the Statements of Net Assets Available for Benefits as an asset and the obligation to return the amount received is reflected as a liability.

As of December 31, 2015 and 2014, the Plan had securities on loan with a fair value of \$12.1 million and \$12.6 million, respectively, with cash collateral received of \$12.3 million and \$12.9 million, respectively, which was invested in the State Street Quality D Short-Term Investment Fund. Investments underlying this fund primarily consisted of cash and cash equivalents and asset-backed securities as of both December 31, 2015 and 2014, and the net asset value of this fund was approximately \$1.00 per unit. As of December 31, 2015 and 2014 the cash collateral received is reflected at its fair value of \$12.3 million and \$12.9 million in the 2015 and 2014 Statements of Net Assets Available for Benefits, respectively.

Non-cash collateral of \$1.5 million and \$0.5 million received for securities on loan at December 31, 2015 and December 31, 2014, respectively, consisted of U.S. government and government agency issues, equity securities, and corporate and other obligations held by the Trustee on behalf of the Plan. Non-cash collateral is not included with the collateral balance on the 2015 and 2014 Statements of Net Assets Available for Benefits because it may not be sold or repledged. A portion of the income generated upon investment of cash collateral is remitted to the Borrowers, and the remainder is allocated between the Plan and the Trustee in its capacity as a security agent. Securities lending income allocated to the Plan amounted to \$24 thousand for both 2015 and 2014. Securities lending income is classified as interest income in the Statements of Changes in Net Assets Available for Benefits.

8. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to reduce, suspend or discontinue its contributions at any time and to terminate the Plan subject to the provisions of the ERISA. In the event the Plan terminates, the interest of each participating employee in the Plan shall become fully vested and such termination of the Plan would not reduce the interest of any participating employee or their beneficiaries accrued under the Plan up to the date of such termination.

9. Tax Status of the Plan

The Internal Revenue Service (IRS) has determined and informed the Plan sponsor by a letter dated September 16, 2013 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the IRC). The Plan has been amended since the date of the determination letter. The Plan sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. A Form 5300 Application for Determination for Employee Benefit Plan was filed with the IRS on January 21, 2016 to request an updated favorable determination letter for the Plan. U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by

Edgar Filing: BAXTER INTERNATIONAL INC - Form 11-K

taxing jurisdictions; however there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

10. Parties-in-Interest Transactions

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others.

At December 31, 2015 and 2014, the Plan held shares of common stock of State Street Corporation, shares of registered investment companies of SSgA, and participation units in commingled funds and short-term investment funds of State Street Bank and Trust Company, the Plan Custodian and Charles Schwab, the brokerage provider; loans with participants; shares of common stock, shares of registered investment companies, units of commingled funds, fixed income securities, or bonds managed by AllianceBernstein, Northern Trust Corporation, Pacific Investment Management Company, Loomis Sayles, and Vanguard, investment managers for the Plan; shares of common stock, bonds, individual separate accounts or interest rate wrapper contracts of Prudential, Transamerica, and Metlife, issuers of the Plan's fully benefit-responsive contracts; shares of registered investment companies in various affiliates of Voya Institutional Plan Services, LLC, the recordkeeper; and shares of common stock of Edward Lifesciences Corporation and Cardinal, entities the Company has previously spun off. The Plan held bonds and shares of common stock of Baxter, the Plan Sponsor, and Baxalta, the spin-off company. At December 31, 2015 and 2014, the Plan held 2,228,977 and 2,530,593 shares of common stock of Baxter valued at \$85,035,458 and \$185,467,155, respectively. At December 31, 2015, the Plan held 2,111,473 shares of common stock of Baxalta valued at \$82,410,788. These transactions are allowable party-in-interest transactions under ERISA and the regulations promulgated thereunder.

Fees paid by the Plan for investment management, recordkeeping and consulting services, also qualify as party-in-interest transactions and are included in Plan expenses in the accompanying financial statements. The Company pays certain expenses for the administration of the Plan. These transactions are exempt from the party-in interest transaction prohibitions of ERISA.

11. Plan Merger

During 2013, Baxter acquired 100 percent of the voting equity interests in Indap Holding AB, the holding company for Gambro AB (Gambro). The Gambro Renal Products, Inc. 401(k) Plan was merged into the Plan effective September 2015. As a result of this merger, total assets of approximately \$45.9 million were transferred into the Plan.

During 2012, Baxter acquired Synovis Life Technologies, Inc. (Synovis). The Synovis 401(k) Plan was merged into the Plan effective September 2014. As a result of this merger, total assets of approximately \$12.1 million were transferred into the Plan.

12. Subsequent Event

On June 3, 2016, a wholly-owned subsidiary of Shire plc (Shire) merged with and into Baxalta, with Baxalta as the surviving company in the Merger. In connection with the closing of the Merger, each Baxalta stockholder received a combination of cash and Shire equity securities. Participants invested in the Baxalta Common Stock Fund at the closing of the Merger were able to direct the investment of the cash portion of the related merger consideration into certain investment alternatives within the Plan. In the event that a participant did not make an investment election, the cash portion was invested in the Plan's qualified default investment alternative.

Additionally, in connection with the Merger, the Baxalta Common Stock Fund became the Shire Stock Fund, holding Shire American Depository Shares and cash (for liquidity purposes).
