We intend to use the remaining proceeds, if any, for general corporate purposes. See Use of Proceeds.

In the event that the consummation of the acquisition has not occurred on or prior to the earlier of (i) February 15, 2017 (or in certain cases up to May 15, 2017), and (ii) the date the purchase agreement is terminated, we will be required to redeem all outstanding notes at the price specified and as otherwise described under the caption

WHERE YOU CAN FIND MORE INFORMATION

We file annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy and information statements and other information with the Securities and Exchange Commission (the **SEC**). You may read and copy these materials at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. You may obtain information on the operation of the public reference room by calling the SEC at 1-800-SEC-0330. The SEC also maintains a website at www.sec.gov that contains reports, proxy and information statements and other information regarding Xylem Inc. and other companies that file materials with the SEC electronically. Copies of our periodic and current reports and proxy statements may be obtained, free of charge, on the **Investors** section of our website at <http://www.xyleminc.com>. NON-GAAP MEASURES

Edgar Filing: Xylem Inc. - Form 424B5

Management reviews key performance indicators including revenue, gross margins, segment operating income and margins, orders growth, free cash flow, working capital, and backlog, among others. In addition, we

S-1

Table of Contents

consider certain non-GAAP (or adjusted) measures to be useful to management and investors evaluating our operating performance for the periods presented, and provide a tool for evaluating our ongoing operations, liquidity and management of assets. This information can assist investors in assessing our financial performance and measures our ability to generate capital for deployment among competing strategic alternatives and initiatives, including but not limited to, dividends acquisitions, share repurchases and debt repayment. However, other than with respect to total revenue, we only provide guidance on a non-GAAP basis and do not provide reconciliations of such forward-looking measures to GAAP due to the inherent difficulty in forecasting certain amounts that would be included in GAAP earnings, such as, integration and acquisition-related costs, special charges and tax related special items. These adjusted metrics are consistent with how management views our business and are used to make financial, operating and planning decisions. These metrics, however, are not measures of financial performance under GAAP and should not be considered a substitute for revenue, operating income, net income, earnings per share (basic and diluted) or net cash from operating activities as determined in accordance with GAAP. We consider non-GAAP measures, which may not be comparable to similarly titled measures reported by other companies, to be key performance indicators. In addition, we consider the following non-GAAP measures to be key performance indicators for Sensus:

Adjusted revenue defined as revenue, adjusted to exclude the impact of non-cash deferred revenue recognized.

EBITDA defined as earnings before interest, taxes, depreciation, amortization expense, and share-based compensation. Adjusted EBITDA reflects the adjustments to EBITDA to exclude the impact of non-cash revenue as well as the reversal of a product warranty reserve, restructuring and realignment charges, management fees and other non-recurring charges.

INCORPORATION BY REFERENCE

FORWARD-LOOKING STATEMENTS

This prospectus supplement contains information that may constitute forward-looking statements within the meaning of the Private Securities Litigation Act of 1995. Forward-looking statements by their nature address matters that are, to different degrees, uncertain. Generally, the words anticipate, estimate, expect, project, intend, plan, forecast, believe, target, will, could, would, should and similar expressions identify forward-looking statements. However, the absence of these words or similar expressions does not mean that a statement is not forward-looking. These forward-looking statements include any statements that are not historical in nature, including any such statements about the capitalization of the Company, the Company's restructuring and realignment, future strategic plans and other statements that describe the Company's business strategy, outlook, objectives, plans, intentions or goals. All statements that address operating or financial performance, events or developments that we expect or anticipate will occur in the future including statements relating to orders, revenue, operating margins and earnings per share growth, and statements expressing general views about future operating results are forward-looking statements. Forward-looking statements involve known and unknown risks, uncertainties and other important factors that could cause actual results to differ materially from those expressed or implied in, or reasonably inferred from, such forward-looking statements.

Factors that could cause results to differ materially from those anticipated include: overall economic and business conditions, political and other risks associated with our international operations, including military actions, economic sanctions or trade embargoes that could affect customer markets, and non-compliance with laws, including foreign corrupt practice laws, export and import laws and competition laws; potential for unexpected cancellations or delays of customer orders in our reported backlog; our exposure to fluctuations in foreign currency exchange rates; competition and pricing pressures in the markets we serve; the strength of housing and related markets; weather conditions; ability to retain and attract key members of management; our relationship with and the performance of our channel partners; our ability to successfully identify, complete and integrate acquisitions; our ability to borrow or to refinance our existing indebtedness and availability of liquidity sufficient to meet our needs; changes in the value of goodwill or intangible assets; risks relating to product defects, product liability and recalls; governmental investigations; security breaches or other disruptions of our information technology systems; litigation and contingent liabilities; and other factors set forth below under Risk Factors and those described from time to time in reports filed with the SEC.

All forward-looking statements made herein are based on information available to the Company as of the date of this prospectus supplement. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

SUMMARY

The following is a brief summary of some of the terms of this offering. It does not contain all of the information that you need to consider in making your investment decision. To understand all of the terms of the offering of the notes, you should carefully read this prospectus supplement and the accompanying prospectus.

About Xylem

Xylem is a leading equipment and service provider for water and wastewater applications with a broad portfolio of products and services addressing the full cycle of water, from collection, distribution and use to the return of water to the environment. Our business focuses on providing technology-intensive equipment and services. Our product and service offerings are organized into two reportable segments: Water Infrastructure and Applied Water. Our segments are aligned with each of the sectors in the cycle of water, water infrastructure and usage applications.

Water Infrastructure serves the water infrastructure sector with pump systems that transport water from aquifers, lakes, rivers and seas; with filtration, ultraviolet and ozone systems that provide treatment, making the water fit to use; and pumping solutions that move the wastewater to treatment facilities where our mixers, biological treatment, monitoring and control systems provide the primary functions in the treatment process. We provide analytical instrumentation used to measure water quality, flow and level in wastewater, surface water and coastal environments. In the Water Infrastructure segment, we provide the majority of our sales directly to customers with strong application expertise, while the remaining amount is through distribution partners.

Applied Water serves the usage applications sector with water pressure boosting systems for heating, ventilation and air conditioning and for fire protection systems to the residential and commercial building services markets. In addition, our pumps, heat exchangers, valves and controls provide cooling to power plants and manufacturing facilities, as well as circulation for food and beverage processing. We also provide boosting systems for farming irrigation, pumps for dairy operations and rainwater reuse systems for small scale crop and turf irrigation. In the Applied Water segment, we provide the majority of our sales through long-standing relationships with some of the world's leading distributors, with the remainder going directly to customers.

Xylem Inc. was incorporated under the laws of the State of Indiana on May 4, 2011. Our principal executive offices are located at 1 International Drive, Rye Brook, New York 10573, and our telephone number is (914) 323-5700.

Recent Developments

On August 15, 2016, Xylem and its wholly-owned subsidiary, Xylem Luxembourg S.à r.L., a Luxembourg *société à responsabilité limitée*, entered into a share purchase agreement (the "purchase agreement") with Sensus Worldwide Limited, an exempted company incorporated under the laws of Bermuda, Sensus Industries Limited, an exempted company incorporated under the laws of Bermuda and wholly-owned subsidiary of Sensus Worldwide Limited, and Sensus USA Inc., a Delaware corporation and wholly-owned subsidiary of Sensus Worldwide Limited. Pursuant to the purchase agreement Xylem will acquire all of the direct and indirect subsidiaries of Sensus Worldwide Limited (other than Sensus Industries Limited), which we refer to herein as "Sensus" for approximately \$1.7 billion in cash, subject to certain adjustments as set forth in the purchase agreement (the "acquisition"). Xylem expects to finance the acquisition with the net proceeds from the sale of the notes, together with cash on hand, proceeds from issuances under our existing commercial paper program and borrowings under a new euro-denominated term loan, as described

below. The transaction is not subject to a financing condition.

S-5

Table of Contents

Sensus is a leading provider of smart meters, network technologies, and advanced data analytics services for the water, electric and gas industries. Sensus currently has more than 80 million metering devices installed globally and generated \$861 million of revenue and \$837 million in adjusted revenue and \$99 million in pre-tax income and \$159 million in adjusted earnings before interest, taxes, depreciation and amortization (EBITDA) in its latest fiscal year which ended on March 31, 2016, with nearly 70% of its revenues coming from the U.S. Completion of the acquisition is subject to regulatory approvals, including from the Federal Communications Commission. Xylem expects the deal to close in the fourth quarter of 2016.

On August 15, 2016, Xylem entered into a commitment letter (the **Commitment Letter**) with Citigroup Global Markets Inc., Wells Fargo Securities, LLC and Wells Fargo Bank, National Association (collectively, the **Arrangers**) pursuant to which the Arrangers have committed to provide, subject to the terms and conditions set forth in the Commitment Letter, a 364-day \$1.3 billion senior unsecured bridge facility (the **Bridge Facility**, and the provision of such funds as set forth in the Commitment Letter, the **Bridge Financing**). The Bridge Facility is available to finance the transactions contemplated by the purchase agreement and to pay fees and expenses related thereto to the extent that Xylem does not finance such consideration and fees and expenses through available cash on hand and the issuance of the notes offered hereby. The Arrangers' commitments to provide the Bridge Financing are subject to certain customary closing conditions. The Bridge Facility will contain certain representations and warranties, certain affirmative covenants, certain negative covenants, certain financial covenants, and certain conditions and events of default that are customarily required for similar financings. The commitments under the Bridge Facility will be reduced by \$900,000,000 upon the issuance of the notes hereby.

In order to finance a portion of the acquisition and to pay fees and expenses related thereto, we expect to, through our wholly-owned subsidiary, Xylem Europe GmbH, enter into a one-year, 150 million term loan facility (the **Term Loan Facility**). We expect to borrow up to 150 million for the purpose of financing the acquisition and to use the remainder of the amounts borrowed under the Term Loan Facility, if any, for general corporate or working capital purposes. The Term Loan Facility contains certain representations and warranties, certain affirmative covenants, certain negative covenants, certain financial covenants, certain conditions and events of default that are customary for similar financings. The obligations of Xylem Europe GmbH under the Term Loan Facility are also secured by a guarantee granted by Xylem on terms customary for such a guarantee.

Table of Contents

RISK FACTORS

Investing in the notes involves risk. Before you decide whether to purchase any notes, you should carefully consider the risks described under Risk Factors in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2015 (which Risk Factors are incorporated by reference herein), as such descriptions may be updated or amended in any future reports we file with the SEC, as well as the risks described below and the other information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus. See Where You Can Find More Information above.

Risks Related to the Notes

We may not be able to repurchase the notes upon a change of control.

Upon a change of control triggering event, as defined under the indenture governing the notes, we are required to offer to repurchase all of the notes then outstanding at a price equal to 101% of the aggregate principal amount of the notes repurchased, plus accrued interest. In order to obtain sufficient funds to pay the purchase price of the outstanding notes, we expect that we would have to refinance the notes. We cannot assure you that we would be able to refinance the notes on favorable terms or at all. Our failure to offer to purchase all outstanding notes or to purchase all validly tendered notes would be an event of default under the indenture governing the notes. Such an event of default may cause the acceleration of our other indebtedness. Our future indebtedness may also contain restrictions on repayment requirements with respect to specified events or transactions that constitute a change of control triggering event under the indenture. Please see the section entitled Description of Notes Repurchase Upon Change of Control Triggering Event.

In the event that the closing of the acquisition has not occurred on or prior to the earlier of (i) February 15, 2017 (or in certain cases up to May 15, 2017), and (ii) the date the purchase agreement is terminated, we will be required to redeem the notes on the special mandatory redemption date at a redemption price equal to 101% of the aggregate principal amount of the notes, and, as a result, holders of such notes may not obtain their expected return on the notes.

We may not consummate the acquisition within the timeframe specified under Description of Notes Special Mandatory Redemption, or the purchase agreement may be terminated. Our ability to consummate the acquisition is subject to customary closing conditions over which we have limited or no control. In the event that the closing of the acquisition has not occurred on or prior to the earlier of (i) February 15, 2017 (or in certain cases up to May 15, 2017), and (ii) the date the purchase agreement is terminated, we will be required to redeem all outstanding notes at a redemption price equal to 101% of the aggregate principal amount thereof, plus accrued and unpaid interest, if any, to, but excluding, the date of redemption. If we redeem the notes pursuant to the special mandatory redemption, you may not obtain your expected return on the notes. Your decision to invest in the notes is made at the time of the offering of the notes. You will have no rights under the special mandatory redemption provision if the closing of the acquisition occurs within the specified timeframe, nor will you have any right to require us to redeem your notes if, between the closing of the notes offering and the closing of the acquisition, we experience any changes in our business or financial condition or if the terms of the acquisition change.

We are not obligated to place the proceeds from the sale of the notes in escrow prior to the closing of the acquisition.

In the event that the closing of the acquisition has not occurred on or prior to the earlier of (i) February 15, 2017 (or in certain cases up to May 15, 2017), and (ii) the date the purchase agreement is terminated, we will be required to

redeem all outstanding notes for a redemption price equal to 101% of the aggregate principal amount thereof, plus accrued and unpaid interest, if any, to, but excluding, the date of redemption. See Description of Notes Special Mandatory Redemption. We are not obligated to place the proceeds from the sale of the notes in escrow prior to the closing of the acquisition or to provide a security interest in those proceeds, and there are no restrictions on our use of those proceeds during such time. Accordingly, we will need to fund any special mandatory redemption using cash on hand, proceeds of this offering that we have voluntarily retained or from other sources of liquidity.

Table of Contents

There is no current public market for the notes and a market may not develop.

The notes are new issues of securities with no established trading markets. As a result, we can give no assurances that markets will develop for the notes or that you will be able to sell the notes. If any of the notes are traded after their initial issuance, they may trade at a discount from their initial offering prices. Future trading prices of the notes will depend on many factors, including prevailing interest rates, the market for similar securities, general economic conditions, our financial condition and performance, as well as other factors. Accordingly, you may be required to bear the financial risk of an investment in the notes for an indefinite period of time. We do not intend to apply for listing or quotation of the notes of either series on any securities exchange or automated quotation system, respectively.

We may choose to redeem the notes when prevailing interest rates are relatively low.

The notes are redeemable at our option, and we may choose to redeem some or all of the notes from time to time, especially when prevailing interest rates are lower than the rate borne by the notes. If prevailing rates are lower at the time of redemption, you would not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as the interest rate on the notes being redeemed. See Description of Notes Optional Redemption.

USE OF PROCEEDS

We estimate that the net proceeds from the sale of the notes will be approximately \$886,578,000 after deducting the underwriting discounts and our estimated expenses of this offering. We intend to use the net proceeds from the sale of the notes, together with cash on hand, proceeds from issuances under our existing commercial paper program and borrowings under a new euro-denominated term loan, to fund the purchase price of the acquisition. We intend to use the remaining net proceeds, if any, for general corporate purposes. Pending such use of the net proceeds, we may invest the proceeds in highly liquid short-term securities.

This offering is not conditioned upon the consummation of acquisition. In the event that the closing of the acquisition has not occurred on or prior to the earlier of (i) February 15, 2017 (or in certain cases up to May 15, 2017), and (ii) the date the purchase agreement is terminated, we will be required to redeem all outstanding notes on a special mandatory redemption date at a redemption price equal to 101% of the aggregate principal amount thereof, plus accrued and unpaid interest, if any, to, but excluding, the date of redemption. See [Description of Notes](#) [Special Mandatory Redemption](#).

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

The following table sets forth our historical ratios of earnings to fixed charges for the periods indicated. This information should be read in conjunction with the consolidated financial statements and the accompanying notes incorporated by reference into this prospectus supplement. The ratio of earnings to fixed charges is computed by dividing (i) pre-tax income before income and losses from equity interests, plus fixed charges by (ii) fixed charges. The term **fixed charges** means the sum of the following: (a) interest expense, including amortization of deferred finance fees and (b) the interest portion of rental expense.

DESCRIPTION OF NOTES

We are offering \$900,000,000 aggregate principal amount of notes, consisting of \$500,000,000 aggregate principal amount of 3.250% Senior Notes due 2026, which we refer to as the 2026 notes and \$400,000,000 aggregate principal amount of 4.375% Senior Notes due 2046, which we refer to as the 2046 notes. We refer to both series of the notes offered hereby collectively as the notes. The notes will be issued under the senior indenture, dated as of March 11, 2016, which is more fully described in the accompanying prospectus, as supplemented and amended by the first supplemental indenture, dated as of March 11, 2016, as further supplemented and amended by the third supplemental indenture, dated as of October 11, 2016, each between us and Deutsche Bank Trust Company Americas, as trustee. We refer to the senior indenture as so supplemented and amended as the indenture.

The following description supplements, and to the extent it is inconsistent with, replaces the description of the general terms and provisions of the debt securities contained in Description of Debt Securities in the accompanying prospectus. Because this section is a summary, it does not describe every aspect of the notes and the indenture. This summary is subject to, and qualified in its entirety by reference to, all the provisions of the notes and the indenture, including definitions of certain terms used therein. You may obtain copies of the notes and the indenture by requesting them from us or the trustee.

In this Description of Notes, the Company, we, us, our and similar words refer to Xylem Inc. and not to any of its subsidiaries. Any capitalized terms that are defined in the accompanying prospectus have the same meanings in this section unless a different definition appears in this section.

General

Each series of notes:

will be senior unsecured obligations of ours;

will rank equally with all of our other unsecured and unsubordinated indebtedness from time to time outstanding;

will be structurally subordinated to all existing and future obligations of our subsidiaries, including claims with respect to trade payables;

will initially be limited to \$500,000,000 aggregate principal amount in the case of the 2026 notes and \$400,000,000 aggregate principal amount in the case of the 2046 notes; and

will be issued in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

Principal, Maturity and Interest

The 2026 notes will bear interest at a rate of 3.250% per annum and the 2046 notes will bear interest at a rate of 4.375% per annum, each from October 11, 2016, or from the most recent date to which interest has been paid or

provided for (each, an Interest Payment Date), payable semi-annually in arrears on May 1 and November 1 of each year commencing on May 1, 2017 to holders of record at the close of business on the 15th calendar day (whether or not a business day) immediately preceding the Interest Payment Date; provided, however, that interest payable on the maturity date of the notes or any redemption date of the notes shall be payable to the person to whom the principal of such notes shall be payable.

Interest payable on the notes on any Interest Payment Date, redemption date or maturity date shall be computed on the basis of a 360-day year of twelve 30-day months. Interest on the notes will accrue from October 11, 2016. If any Interest Payment Date falls on a day that is not a business day, the interest payment will be made on the next succeeding day that is a business day, but no additional interest will accrue as a result of the delay in payment. If the maturity date or any redemption date of the notes falls on a day that is not

S-15

Table of Contents

a business day, the related payment of principal, premium, if any, and interest will be made on the next succeeding business day as if it were made on the date such payment was due, and no interest will accrue on the amounts so payable for the period from and after such date to the next succeeding business day.

Unless otherwise indicated, the term **business day** means any day, other than a Saturday or Sunday, which is not a day on which banking institutions in The City of New York are authorized or required by law or executive order to close.

Special Mandatory Redemption

In the event the closing of the acquisition has not occurred on or prior to the earlier of (i) February 15, 2017 (provided that, if the termination date of the purchase agreement is extended, this date will also be extended to the same extended termination date, but in no case will this date be extended beyond May 15, 2017) and (ii) the date the purchase agreement is terminated (each, a **special mandatory redemption event**), we will redeem the notes in whole at a special mandatory redemption price (the **special mandatory redemption price**) equal to 101% of the aggregate principal amount of the notes, plus accrued and unpaid interest on the principal amount of the notes to, but not including, the special mandatory redemption date (as defined below). Upon the occurrence of a special mandatory redemption event, we will promptly (but in no event later than 10 business days following such special mandatory redemption event) cause notice to be delivered electronically or mailed, with a copy to the trustee, to each holder at its registered address (such date of notification to the holders, the **redemption notice date**). The notice will inform holders that the notes will be redeemed on the 30th day (or if such day is not a business day, the first business day thereafter) following the redemption notice date (such date, the **special mandatory redemption date**) and that all of the outstanding notes will be redeemed at the special mandatory redemption price on the special mandatory redemption date automatically and without any further action by the holders of the notes. At or prior to 12:00 p.m. (New York City time) on the business day immediately preceding the special mandatory redemption date, we will deposit with the trustee funds sufficient to pay the special mandatory redemption price for the notes. If such deposit is made as provided above, the notes will cease to bear interest on and after the special mandatory redemption date.

Optional Redemption

The 2026 notes and the 2046 notes will be redeemable at any time prior to the applicable Par Call Date (as defined below), as a whole or in part, in each case at our option, on at least 30 days, but not more than 60 days, prior notice mailed (or otherwise transmitted in accordance with the applicable procedures of DTC) to the registered address of each holder of the notes to be redeemed, at a redemption price equal to the greater of:

100% of the principal amount of the notes to be redeemed; and

the sum, as determined by an Independent Investment Banker, of the present values of the remaining scheduled payments of principal and interest (exclusive of interest accrued to the date of redemption) from the redemption date to the applicable Par Call Date, in each case discounted to the redemption date on a semiannual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus 25 basis points for the 2026 notes and 35 basis points for the 2046 notes;

together with, in each case, accrued and unpaid interest on the principal amount of the notes to be redeemed to, but not including, the date of redemption.

Edgar Filing: Xylem Inc. - Form 424B5

The 2026 notes and the 2046 notes will be redeemable at any time on or after the applicable Par Call Date, as a whole or in part, in each case at our option, on at least 30 days , but not more than 60 days , prior notice mailed (or otherwise transmitted in accordance with the applicable procedures of DTC) to the registered address of each holder of the notes to be redeemed, at a redemption price equal to 100% of the principal amount of the notes to be redeemed, plus accrued and unpaid interest, if any, on the principal amount of the notes to be redeemed to, but excluding, the redemption date.

S-16

Table of Contents

If money sufficient to pay the redemption price of all of the notes (or portions thereof) to be redeemed on the redemption date is deposited with the trustee or paying agent on or before the redemption date and certain other conditions are satisfied, then on and after such redemption date, interest will cease to accrue on such notes (or such portion thereof) called for redemption.

Comparable Treasury Issue means the United States Treasury security selected by an Independent Investment Banker as having a maturity comparable to the remaining term (Remaining Life) of the notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the notes (assuming, for this purpose, such notes mature on the applicable Par Call Date).

Comparable Treasury Price means, with respect to any redemption date, (1) the average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotations, or (2) if the Independent Investment Banker obtains fewer than four such Reference Treasury Dealer Quotations, the average of all such Quotations or, if only one such Quotation is obtained, such Quotation.

Independent Investment Banker means an independent investment banking institution of national standing appointed by us, which may be one of the Reference Treasury Dealers.

Par Call Date means, in the case of the 2026 notes, August 1, 2026 (three months prior to their maturity) and, in the case of the 2046 notes, May 1, 2046 (six months prior to their maturity).

Reference Treasury Dealer means each of (1) Citigroup Global Markets Inc. and Wells Fargo Securities, LLC, and their respective successors, and (2) any other primary U.S. government securities dealer in New York City that we select (each, a Reference Treasury Dealer).

Reference Treasury Dealer Quotation means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Independent Investment Banker, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Independent Investment Banker by such Reference Treasury Dealer at 5:00 p.m., New York City time, on the third business day preceding such redemption date.

Treasury Rate means, with respect to any redemption date, (1) the yield, under the heading which represents the average for the immediately preceding week, appearing in the most recently published statistical release designated H.15(519) or any successor publication which is published weekly by the Board of Governors of the Federal Reserve System and which establishes yields on actively traded United States Treasury securities adjusted to constant maturity under the caption Treasury Constant Maturities, for the maturity corresponding to the Comparable Treasury Issue (if no maturity is within three months before or after the Remaining Life, yields for the two published maturities most closely corresponding to the Comparable Treasury Issue shall be determined and the Treasury Rate shall be interpolated or extrapolated from such yields on a straight line basis, rounding to the nearest month), (2) if the period from the redemption date to the applicable Par Call Date of the notes to be redeemed is less than one year, the weekly average yield on actually traded United States Treasury securities adjusted to a constant maturity of one year will be used, or (3) if such release (or any successor release) is not published during the week preceding the calculation date or does not contain such yields, the rate per annum equal to the semiannual equivalent yield to maturity of the Comparable Treasury Issue, calculated using a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date. The Treasury Rate shall be calculated on the third business day preceding the redemption date.

Unless we default in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the applicable notes or portions thereof called for redemption. On or before the redemption date, we

S-17

Table of Contents

will deposit with the paying agent or set aside, segregate and hold in trust (if we are acting as paying agent), funds sufficient to pay the redemption price of, and accrued and unpaid interest on, such notes to be redeemed on that redemption date. If fewer than all of the notes are to be redeemed, the trustee will select, not more than 60 days prior to the redemption date, the particular notes or portions thereof to be redeemed from the outstanding notes not previously called for redemption by such method as the trustee deems fair and appropriate; provided that if the notes are represented by one or more global notes, beneficial interests in the notes will be selected for redemption by DTC in accordance with their respective standard procedures therefor; provided, however, that no notes of a principal amount of \$2,000 or less shall be redeemed in part.

We may at any time, and from time to time, purchase the notes at any price or prices in the open market or otherwise.

Repurchase Upon Change of Control Triggering Event

A change of control requiring us to repurchase all, or part, of the notes of a series as described below will be triggered in the event that the notes of such series cease to be rated equal to or higher than BBB- (or the equivalent) by Fitch Inc. (Fitch), Baa3 (or the equivalent) by Moody's Investors Service, Inc. (Moody's) or BBB- (or the equivalent) by S&P Global Ratings, a division of S&P Global Inc. (S&P), and the equivalent investment grade credit rating from any replacement rating agency or rating agencies selected by us on any date during the 60-day period commencing upon the earlier of (1) the first public announcement of the change of control or our intention to effect a change of control and (2) the consummation of such change of control, which period will be extended following consummation of a change of control for so long as the rating of the notes of such series is under publicly announced consideration for possible downgrade by any of the rating agencies. Unless at least one rating agency is providing a rating for the notes of such series at the commencement of any such period, the notes of such series will be deemed to have ceased to be rated as described above during such period. Notwithstanding the foregoing, no event triggering a change of control will be deemed to have occurred in connection with any particular change of control unless and until such change of control has actually been consummated.

If an event triggering a change of control occurs, unless we have exercised our right to redeem the notes of such series, we will be required to make an offer to repurchase all or, at the holder's option, any part (equal to \$2,000 or any multiple of \$1,000 in excess thereof) of each holder's notes of such series on the terms set forth in the notes of such series. In such offer, we will be required to offer payment in cash equal to 101% of the aggregate principal amount of the notes of such series repurchased plus accrued and unpaid interest, if any, on the notes of such series repurchased, to, but not including, the date of purchase.

Within 30 days following any event triggering a change of control or, at our option, prior to any change of control, but after public announcement of the transaction that constitutes or may constitute the change of control, a notice will be mailed to holders of the notes of each series (with a copy mailed to the trustee) describing the transaction that constitutes or may constitute the change of control triggering event and offering to repurchase such notes on the date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed. The notice, if mailed prior to the date of consummation of the change of control, will state that the change of control offer is conditioned on the change of control triggering event occurring on or prior to such payment date.

On such payment date, we will be required, to the extent lawful, to:

accept for payment all notes or portions of notes properly tendered pursuant to the offer described in the first paragraph above;

deposit with the paying agent an amount equal to the required payment in respect of all notes or portions of notes properly tendered; and

S-18

Table of Contents

deliver or cause to be delivered to the trustee the notes properly accepted together with an officer's certificate stating the aggregate principal amount of notes or portions of notes being purchased by us.

The paying agent will be required to promptly mail to each holder who properly tendered notes the purchase price for such debt securities, and the trustee will be required to promptly authenticate and mail (or cause to be transferred by book entry) to each such holder a new debt security equal in principal amount to any unpurchased portion of the notes surrendered, if any; provided that each new debt security will be in a principal amount of \$2,000 or a multiple of \$1,000 in excess thereof.

We will not be required to make an offer upon an event triggering a change of control if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for an offer made by us and such third party purchases all notes properly tendered and not withdrawn under its offer. In the event that such third party terminates or defaults its offer, we will be required to make an offer treating the date of such termination or default as though it were the date of such change of control triggering event.

In addition, we will not repurchase any notes if there has occurred and is continuing on the relevant payment date an event of default under the indenture, other than a default in the payment of the change of control payment upon a change of control triggering event.

To the extent that we are required to offer to repurchase the notes upon the occurrence of a change of control triggering event, we may not have sufficient funds to repurchase the notes in cash at such time. In addition, our ability to repurchase the notes for cash may be limited by law or the terms of other agreements relating to our indebtedness outstanding at the time. The failure to make such repurchase would result in a default under the notes.

We will comply with the requirements of Rule 14e-1 under the Exchange Act, and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the notes as a result of a change of control triggering event. To the extent that the provision of any such notes laws or regulations conflicts with the offer provisions in respect of a change of control of the notes, we will comply with those securities laws and regulations and will not be deemed to have breached our obligations under such offer provisions by virtue of any such conflict.

The definition of change of control includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of all or substantially all of our properties or assets and those of our subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of notes to require us to repurchase its notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of our assets and those of our subsidiaries, taken as a whole, to another person or group may be uncertain. In such case, holders of the notes may not be able to resolve this uncertainty without resorting to legal action.

For purposes of the foregoing, the following terms will be applicable:

change of control means the occurrence of any one of the following: (1) the direct or indirect sale, lease, transfer, conveyance or other disposition (other than by way of merger, amalgamation, arrangement or consolidation), in one or a series of related transactions, of all or substantially all of our properties or assets and those of our subsidiaries, taken as a whole, to one or more persons, other than to us or one of our subsidiaries; (2) the first day on which a majority of the members of our board of directors is not composed of directors who (a) were members of our board of directors on the issue date or (b) were nominated for election, elected or appointed to our board of directors with the approval of a majority of the directors who were members of our board of directors at the time of such nomination, election or appointment (either by a specific vote or by approval by such directors of our proxy statement in which such member

was named as a nominee for election as a director); (3)

S-19

Table of Contents

the consummation of any transaction including, without limitation, any merger, amalgamation, arrangement or consolidation the result of which is that any person becomes the beneficial owner, directly or indirectly, of more than 50% of our voting stock; (4) we consolidate with, or merge with or into, any person, or any person consolidates with, or merges with or into, us, in any such event pursuant to a transaction in which any of the outstanding voting stock of us or of such other person is converted into or exchanged for cash, securities or other property, other than any such transaction where the shares of our voting stock outstanding immediately prior to such transaction constitute, or are converted into or exchanged for, a majority of the voting stock of the surviving person immediately after giving effect to such transaction; or (5) the adoption of a plan relating to our liquidation or dissolution (other than our liquidation into a newly formed holding company). Notwithstanding the foregoing, a transaction described in clause (3) above will not be deemed to involve a change of control if (1) the Company becomes a direct or indirect wholly-owned subsidiary of a holding company (which shall include a parent company) and (2)(A) the direct or indirect holders of the voting stock of such holding company immediately following that transaction are substantially the same as, and hold in substantially the same proportions as, the holders of the Company's voting stock immediately prior to that transaction or (B) immediately following that transaction no person (other than a holding company satisfying the requirements of this sentence) is the beneficial owner, directly or indirectly, of more than 50% of the then outstanding voting stock, measured by voting power, of such holding company. Following any such transaction, references in this definition to the Company shall be deemed to refer to such holding company. For the purposes of this definition, person and beneficial owner have the meanings used in Section 13(d) of the Exchange Act.

Defeasance and Covenants

In some circumstances, we may elect to discharge our obligations on the notes through defeasance or covenant defeasance. See Description of Debt Securities Satisfaction, Discharge and Defeasance in the accompanying prospectus for more information about how we may do this.

The indenture generally does not limit our ability to incur additional debt and does not contain financial or similar restrictive covenants, except as described in the accompanying prospectus under the caption Description of Debt Securities Other Covenants.

Further Issues

We may from time to time, without notice to or the consent of the holders of any series of notes, create and issue further notes ranking equally and ratably with such series of notes in all respects, or in all respects except for the payment of interest accruing prior to the issue date or except for the first payment of interest following the issue date of those further notes. Any further notes will have the same terms as to status, redemption or otherwise as the applicable series of notes. If such further notes are not fungible with the notes in this offering for United States federal income tax purposes, the further notes will have different ISIN and CUSIP numbers.

Book-Entry System

The notes will be issued in the form of one or more fully registered global notes (each a global note) which will be deposited with, or on behalf of, The Depository Trust Company, New York, New York (DTC) and registered in the name of Cede & Co., DTC's nominee. We will not issue notes in certificated form except in certain circumstances. Beneficial interests in the global notes will be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in DTC (the Depository Participants). Investors may elect to hold interests in the global notes through either DTC (in the United States), or Clearstream Banking Luxembourg S.A. (Clearstream Luxembourg) or Euroclear Bank S.A./N.V., as operator of the Euroclear System (Euroclear) (in Europe) if they are participants in those systems, or indirectly through organizations that are

participants in those systems. Clearstream Luxembourg and Euroclear will hold interests on behalf of their participants through customers' securities accounts in Clearstream Luxembourg's and Euroclear's names on the books of their respective depositaries, which in turn will hold such

S-20

Table of Contents

interests in customers' securities accounts in the depositaries' names on the books of DTC. At the present time, Citibank, N.A. acts as U.S. depository for Clearstream Luxembourg and JPMorgan Chase Bank acts as U.S. depository for Euroclear (the "U.S. Depositaries"). Beneficial interests in the global notes will be held in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. Except as set forth below, the global notes may be transferred, in whole but not in part, only to another nominee of DTC or to a successor of DTC or its nominee.

DTC has advised us that it is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities that its participants ("Direct Participants") deposit with DTC. DTC also facilitates the settlement among Direct Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in Direct Participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants include securities brokers and dealers (which may include the underwriters), banks, trust companies, clearing corporations and certain other organizations. DTC is owned by a number of its Direct Participants and by the New York Stock Exchange, Inc., the NYSE MKT LLC and the Financial Industry Regulatory Authority. Access to DTC's book-entry system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). The rules applicable to DTC and its Direct and Indirect Participants are on file with the SEC.

Clearstream Luxembourg has advised us that it is incorporated under the laws of Luxembourg as a professional depository. Clearstream Luxembourg holds securities for its participating organizations, known as Clearstream Luxembourg participants, and facilitates the clearance and settlement of securities transactions between Clearstream Luxembourg participants through electronic book-entry changes in accounts of Clearstream Luxembourg participants, thereby eliminating the need for physical movement of certificates. Clearstream Luxembourg provides to Clearstream Luxembourg participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream Luxembourg interfaces with domestic markets in several countries. As a professional depository, Clearstream Luxembourg is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector, also known as the Commission de Surveillance du Secteur Financier. Clearstream Luxembourg participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. Indirect access to Clearstream Luxembourg is also available to others, such as banks, brokers, dealers and trust companies that clear through, or maintain a custodial relationship with, a Clearstream Luxembourg participant either directly or indirectly.

Distributions with respect to the notes held beneficially through Clearstream Luxembourg will be credited to the cash accounts of Clearstream Luxembourg participants in accordance with its rules and procedures, to the extent received by the U.S. Depository for Clearstream Luxembourg.

Euroclear has advised us that it was created in 1968 to hold securities for its participants, known as Euroclear participants, and to clear and settle transactions between Euroclear participants and between Euroclear participants and participants of certain other securities intermediaries through simultaneous electronic book-entry delivery against payment, eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear is owned by Euroclear Clearance System Public Limited Company and operated through a license agreement by Euroclear Bank S.A./N.V., known as the Euroclear operator. The Euroclear operator provides Euroclear participants, among other things, with safekeeping, administration, clearance and settlement, securities lending and borrowing and related services. Euroclear participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters.

Indirect access to Euroclear is also available to others that clear through or maintain a custodial relationship with a Euroclear participant, either directly or indirectly.

The Euroclear operator is regulated and examined by the Belgian Banking and Finance Commission.

Securities clearance accounts and cash accounts with the Euroclear operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian law, collectively referred to as the terms and conditions. The terms and conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear operator acts under the terms and conditions only on behalf of Euroclear participants, and has no record of or relationship with persons holding through Euroclear participants.

Distributions with respect to notes held beneficially through Euroclear will be credited to the cash accounts of Euroclear participants in accordance with the terms and conditions, to the extent received by the U.S. Depository for Euroclear.

If DTC is at any time unwilling or unable to continue as depository and a successor depository is not appointed by us within 90 days, we will issue the notes in definitive form in exchange for the entire global note representing such notes. In addition, we may at any time, and in our sole discretion, determine not to have the notes represented by the global note and, in such event, will issue notes in registered definitive form in exchange for the global note representing such notes. In any such instance, an owner of a beneficial interest in the global note will be entitled to physical delivery in definitive form of notes represented by such global note equal in principal amount to such beneficial interest and to have such notes registered in its name.

Title to book-entry interests in the notes will pass by book-entry registration of the transfer within the records of Clearstream Luxembourg, Euroclear or DTC, as the case may be, in accordance with their respective procedures. Book-entry interests in the notes may be transferred within Clearstream Luxembourg and within Euroclear and between Clearstream Luxembourg and Euroclear in accordance with procedures established for these purposes by Clearstream Luxembourg and Euroclear. Book-entry interests in the notes may be transferred within DTC in accordance with procedures established for this purpose by DTC. Transfers of book-entry interests in the notes among Clearstream Luxembourg and Euroclear and DTC may be effected in accordance with procedures established for this purpose by Clearstream Luxembourg, Euroclear and DTC.

Global Clearance and Settlement Procedures

Initial settlement for the notes will be made in immediately available funds. Secondary market trading between Depository Participants will occur in the ordinary way in accordance with DTC's rules and will be settled in immediately available funds using DTC's Same-Day Funds Settlement System. Secondary market trading between Clearstream Luxembourg participants and Euroclear participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream Luxembourg and Euroclear and will be settled using the procedures applicable to conventional eurobonds in immediately available funds.

Cross-market transfers between persons holding directly or indirectly through DTC, on the one hand, and directly or indirectly through Clearstream Luxembourg or Euroclear participants, on the other, will be effected through DTC in accordance with DTC's rules on behalf of the relevant European international clearing system by its U.S. Depository; however, such cross-market transactions will require delivery of instructions to the relevant European international

clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (European time).

The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. Depositary to take action to effect final settlement on its behalf by

delivering or receiving the notes in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Clearstream Luxembourg participants and Euroclear participants may not deliver instructions directly to their respective U.S. Depositories.

Because of time-zone differences, credits of the notes received in Clearstream Luxembourg or Euroclear as a result of a transaction with a Depository Participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits, or any transactions in the notes settled during such processing, will be reported to the relevant Euroclear participants or Clearstream Luxembourg participants on that business day. Cash received in Clearstream Luxembourg or Euroclear as a result of sales of notes by or through a Clearstream Luxembourg participant or a Euroclear participant to a Depository Participant will be received with value on the business day of settlement in DTC but will be available in the relevant Clearstream Luxembourg or Euroclear cash account only as of the business day following settlement in DTC.

Although DTC, Clearstream Luxembourg and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of securities among participants of DTC, Clearstream Luxembourg and Euroclear, they are under no obligation to perform or continue to perform such procedures and they may discontinue the procedures at any time.

Notices

Notices to holders of the notes will be sent by mail or email to the registered holders, or otherwise in accordance with the procedures of the applicable depository.

The Trustee, Paying Agent and Registrar

Deutsche Bank Trust Company Americas will be the trustee, paying agent, registrar and DTC custodian with respect to the notes and maintains various commercial and investment banking relationships with us and with affiliates of ours.

Principal of, premium, if any, and interest on the notes will be payable at the office of the paying agent or, at our option, payment of interest may be made by check mailed to the holders of the notes at their respective addresses set forth in the register of holders; provided that all payments of principal, premium, if any, and interest with respect to the notes represented by one or more global notes deposited with, or on behalf of, a common depository, and registered in the name of the nominee of the common depository for the account of DTC will be made through the facilities of the common depository. We may change the paying agent without prior notice to the holders, and we or any of our subsidiaries may act as paying agent.

Governing Law

The indenture and the notes will be governed by, and construed in accordance with, the laws of the State of New York.

Table of Contents

UNITED STATES TAX CONSIDERATIONS

The following is a general summary of the material U.S. federal income tax consequences of the acquisition, ownership and disposition of the notes. This discussion is based upon the U.S. Internal Revenue Code of 1986, as amended (the Code), the U.S. Treasury regulations promulgated thereunder, administrative pronouncements and judicial decisions, all as of the date hereof and all of which are subject to change, possibly with retroactive effect. Unless otherwise indicated, this summary addresses only the U.S. federal income tax consequences relevant to investors that purchase notes for cash at the time of original issuance at their issue price (generally the first price at which a substantial amount of the notes are sold for money to the public, not including purchases by bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers) and applies only to beneficial owners that hold the notes as capital assets within the meaning of Section 1221 of the Code.

This summary does not address all of the U.S. federal income tax considerations that may be relevant to a particular holder in light of the holder's individual circumstances or to holders subject to special rules under U.S. federal income tax laws, such as banks and other financial institutions, insurance companies, real estate investment trusts, regulated investment companies, tax-exempt organizations, entities and arrangements classified as partnerships for U.S. federal income tax purposes and other pass-through entities, dealers in securities or currencies, traders in securities that elect to use a mark-to-market method of tax accounting, persons liable for U.S. federal alternative minimum tax, U.S. Holders (as defined below) whose functional currency is not the U.S. dollar, certain U.S. expatriates, controlled foreign corporations, passive foreign investment companies, and persons holding notes as part of a straddle, hedge, conversion transaction, or other integrated investment. The discussion does not address any foreign, state, local or non-income tax consequences of the acquisition, ownership or disposition of the notes.

As used in this prospectus supplement, the term U.S. Holder means a beneficial owner of a note that is for U.S. federal income tax purposes:

an individual citizen or resident of the United States;

a corporation created or organized in or under the laws of the United States or any state or political subdivision thereof;

an estate, the income of which is subject to U.S. federal income tax regardless of its source; or

a trust, if (i) a U.S. court is able to exercise primary supervision over the trust's administration and one or more United States persons, as defined in the Code (United States Person) have the authority to control all substantial decisions of the trust, or (ii) the trust has in effect a valid election to be treated as a United States Person.

The term Non-U.S. Holder means any beneficial owner of a note that is not a U.S. Holder and is not a partnership (including any entity or arrangement properly classified as a partnership for U.S. federal income tax purposes). For the purposes of this summary, U.S. Holders and Non-U.S. Holders are referred to collectively as holders.

If a partnership (or other entity or arrangement classified as a partnership for U.S. federal income tax purposes) is a beneficial owner of a note, the U.S. federal income tax treatment of a partner in that partnership will generally depend upon the status of the partner and the activities of the partnership. A beneficial owner of a note that is a partnership and partners in such partnerships are urged to consult with their own tax advisors regarding the U.S. federal income and other tax consequences of the acquisition, ownership and disposition of the notes.

This discussion is for general purposes only. Holders are urged to consult their own tax advisors regarding the application of the U.S. federal income tax laws to their particular situations and the consequences under federal estate or gift tax laws, as well as foreign, state, and local laws and tax treaties, and the possible effects of changes in tax laws.

Table of Contents**Payments under Certain Events**

We may be required, under certain circumstances, to pay additional amounts in excess of stated interest in respect of certain contingencies (including as described in Description of Notes Special Mandatory Redemption, Optional Redemption and Repurchase Upon Change of Control Triggering Event). Although the issue is not free from doubt, we intend to take the position that the possibility of payment of such additional amounts in respect of certain contingencies does not result in the notes being treated as contingent payment debt instruments under the applicable U.S. Treasury regulations. This position will be based on our determination that, as of the date of the issuance of the notes, the possibility that additional amounts in respect of such contingencies will have to be paid are remote or incidental contingencies within the meaning of applicable U.S. Treasury regulations. Our determination that these contingencies are remote or incidental is binding on a holder, unless such holder explicitly discloses to the U.S. Internal Revenue Service (IRS) on its tax return for the year during which it acquires the notes that it is taking a different position. However, our position is not binding on the IRS. If the IRS takes a contrary position to that described above, the timing and character of a holder s income and the timing of our deductions with respect to the notes could be affected. Holders of notes should consult their tax advisors regarding the tax consequences of the notes being treated as contingent payment debt instruments. The remainder of this discussion assumes that the notes will not be treated as contingent payment debt instruments for U.S. federal income tax purposes.

U.S. Holders*Payments of Interest*

Interest on notes beneficially owned by a U.S. Holder will generally be taxable as ordinary interest income at the time it is paid or accrued in accordance with the U.S. Holder s regular method of accounting for U.S. federal income tax purposes.

Sale, Exchange, Redemption or Other Taxable Disposition of the Notes

Upon the sale, exchange, redemption or other taxable disposition of the notes, a U.S. Holder will generally recognize gain or loss equal to the difference, if any, between (i) the amount realized upon the sale, exchange, redemption or other taxable disposition, other than amounts attributable to accrued and unpaid interest (which will be treated as interest and recognized as ordinary interest income to the extent such interest has not been previously included in income) and (ii) the U.S. Holder s adjusted tax basis in the notes. The amount realized by a U.S. Holder is the sum of cash plus the fair market value of all other property received on such sale, exchange, redemption or other taxable disposition. A U.S. Holder s adjusted tax basis in a note will generally equal the cost of the note to such holder, reduced by the amount of any amortizable bond premium previously used to offset interest income, if any.

Such gain or loss will generally be long-term capital gain or loss if, at the time of the sale, exchange, redemption, or other taxable disposition, the U.S. Holder s holding period in the notes exceeds one year. For non-corporate U.S. Holders, long-term capital gains are currently taxed at a lower rate than ordinary income. The deductibility of capital losses is subject to limitations. U.S. Holders are urged to consult their own tax advisors regarding the deductibility of capital losses in light of their particular circumstances.

Medicare Tax

U.S. Holders who are individuals, estates or certain trusts are subject to an additional 3.8% Medicare tax on the lesser of (a) the U.S. Holder s net investment income (or undistributed net investment income in the case of an estate or trust) for the relevant taxable year and (b) the excess of the U.S. Holder s modified gross income for the taxable year over a

certain threshold (which in the case of individuals will be between \$125,000 and \$250,000 depending on the individual's circumstances). Net investment income will generally include interest income and net gains from the disposition of the notes, unless such interest income or net gains are derived in the

ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). A U.S. Holder that is an individual, estate or trust should consult its tax advisor regarding the applicability of the Medicare tax to its income and gains in respect of its investment in the notes.

Backup Withholding and Information Reporting

In general, a U.S. Holder that is not an exempt recipient will be subject to U.S. federal backup withholding at the applicable rate (currently 28%) with respect to payments on the notes and the proceeds of a sale, exchange, redemption or other taxable disposition of the notes, unless the U.S. Holder provides its taxpayer identification number to the applicable withholding agent and certifies, under penalty of perjury, that it is not subject to backup withholding on an IRS Form W-9 (Request for Taxpayer Identification Number and Certification) or an applicable successor form and otherwise complies with the applicable requirements of the backup withholding rules. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a U.S. Holder may be allowed as a credit against such U.S. Holder's U.S. federal income tax liability and may entitle such U.S. Holder to a refund, provided the required information is furnished to the IRS in a timely manner. In addition, payments on the notes made to, and the proceeds of a sale or other taxable disposition by, a U.S. Holder will generally be subject to information reporting requirements, unless such U.S. Holder is an exempt recipient and appropriately establishes that exemption.

Non-U.S. Holders

Payments of Interest

Subject to the discussions below under Backup Withholding and Information Reporting and Foreign Account Tax Compliance Act, a Non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax on interest paid on the notes as long as that interest is not effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States and:

the Non-U.S. Holder does not, directly or indirectly, actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote;

the Non-U.S. Holder is not a controlled foreign corporation for U.S. federal income tax purposes that is related to us, actually or by attribution, through stock ownership;

the Non-U.S. Holder is not a bank receiving the interest pursuant to a loan agreement entered into in the ordinary course of the Non-U.S. Holder's trade or business; and

either (i) the Non-U.S. Holder certifies under penalties of perjury on IRS Form W-8BEN or W-8BEN-E, as applicable, or an applicable successor form that it is not a United States Person, and provides its name, address and certain other required information or (ii) a securities clearing organization, bank or other financial institution that holds customers' securities in the ordinary course of its trade or business and holds the notes on behalf of the Non-U.S. Holder certifies under penalties of perjury that the certification referred to in clause (i) has been received from the Non-U.S. Holder or an intermediate financial institution and

furnishes to the applicable withholding agent a copy thereof.

A Non-U.S. Holder that does not qualify for exemption from withholding as described above will generally be subject to withholding of U.S. federal income tax at a rate of 30% on payments of interest on the notes (except as described below with respect to effectively connected income). A Non-U.S. Holder may be entitled to the benefits of an income tax treaty under which interest on the notes is subject to a reduced rate of withholding tax or is exempt from U.S. withholding tax, provided the Non-U.S. Holder furnishes the applicable withholding agent with a properly executed IRS Form W-8BEN or W-8BEN-E, as applicable, or an applicable successor form claiming the reduction or exemption and the Non-U.S. Holder complies with any other applicable procedures.

Sale, Exchange, Redemption or Other Taxable Disposition of the Notes

Generally, subject to the discussions below under Backup Withholding and Information Reporting and Foreign Account Tax Compliance Act, any gain recognized by a Non-U.S. Holder on the sale, exchange, redemption or other taxable disposition of a note (other than amounts attributable to accrued and unpaid interest, which will generally be treated as described under Payments of Interest above) will be exempt from U.S. federal income and withholding tax, unless

the gain is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if a treaty applies, is attributable to a permanent establishment maintained by the Non-U.S. Holder in the United States), in which case the Non-U.S. Holder generally will be subject to U.S. federal income tax in the manner described below under Effectively Connected Income ; or

the Non-U.S. Holder is an individual who is present in the United States for 183 days or more during the taxable year of the sale or other disposition and certain other conditions are met, in which case the Non-U.S. Holder generally will be subject to U.S. federal income tax at a rate of 30% (unless a lower treaty rate applies) on the amount by which its U.S. source capital gains exceed its U.S. source capital losses.

Effectively Connected Income

If interest or gain recognized by a Non-U.S. Holder on a note is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if a treaty applies, is attributable to a permanent establishment maintained by the Non-U.S. Holder in the United States), then, subject to the discussions below under Backup Withholding and Information Reporting and Foreign Account Tax Compliance Act, the Non-U.S. Holder will be exempt from the withholding tax on such interest if the Non-U.S. Holder provides us with a properly completed and executed IRS Form W-8ECI or an applicable successor form, but the Non-U.S. Holder will generally be subject to U.S. federal income tax on such interest or gain as if such Non-U.S. Holder were a United States Person. In addition to such U.S. federal income tax, if the Non-U.S. Holder is treated as a corporation for U.S. federal income tax purposes, it may be subject to an additional branch profits tax, currently at a rate of 30% or such lower rate provided by an applicable income tax treaty.

Backup Withholding and Information Reporting

Under current U.S. Treasury regulations, we (or the applicable withholding agent) must report annually to the IRS and to each Non-U.S. Holder the amount of interest paid to the Non-U.S. Holder and the amount of tax withheld, if any, from those payments. These reporting requirements apply regardless of whether U.S. withholding tax on such payments was reduced or eliminated by any applicable tax treaty or otherwise. Copies of the information returns reporting those payments and the amounts withheld may also be made available to the tax authorities in the country where a Non-U.S. Holder is a resident under the provisions of an applicable income tax treaty or agreement.

Under some circumstances, U.S. Treasury regulations require backup withholding and additional information reporting on payments of interest and other reportable payments. Such backup withholding and additional information reporting will not apply to payments on the notes made by us or our paying agent to a Non-U.S. Holder if the certification described above under Payments of Interest is received from the Non-U.S. Holder.

Backup withholding and information reporting will generally not apply to payments of proceeds from the sale or other disposition of a note made to a Non-U.S. Holder by or through the foreign office of a broker. However, information reporting requirements, and possibly backup withholding, will apply if such broker is, for U.S. federal income tax purposes, a United States Person or has certain other enumerated connections with the United States, unless such broker has documentary evidence in its records that the Non-U.S. Holder is not a

S-27

Table of Contents

United States Person and certain other conditions are met, or the Non-U.S. Holder otherwise establishes an exemption. Payments of proceeds from the sale or other disposition of a note made to a Non-U.S. Holder by or through the U.S. office of a broker are subject to information reporting and backup withholding at the applicable rate unless the Non-U.S. Holder certifies, under penalties of perjury, that it is not a United States Person and it satisfies certain other conditions, or the Non-U.S. Holder otherwise establishes an exemption. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a Non-U.S. Holder may be allowed as a credit against such Non-U.S. Holder's U.S. federal income tax liability and may entitle such Non-U.S. Holder to a refund, provided the required information is furnished to the IRS in a timely manner.

Non-U.S. Holders are urged to consult their tax advisors regarding the application of information reporting and backup withholding in their particular situations, the availability of an exemption therefrom, and the procedures for obtaining such an exemption, if available.

Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the Code, the treasury regulations promulgated thereunder and other governmental notices with respect thereto (collectively "FATCA") could impose a withholding tax of 30% ("FATCA Withholding") on interest income (including any amount treated as interest for U.S. federal income tax purposes) on the notes paid to a holder or any non-U.S. person or entity that receives such income (a "non-U.S. payee") on a holder's behalf, unless the holder and each non-U.S. payee in the payment chain comply with the applicable information reporting, account identification, withholding, certification and other FATCA-related requirements (including any intergovernmental agreement entered into by the United States and another applicable jurisdiction to facilitate the application and implementation of FATCA (an "IGA")). In the case of a payee that is a non-U.S. financial institution (for example, a clearing system, custodian, nominee or broker), withholding generally will not be imposed if the financial institution complies with the requirements imposed by FATCA to collect and report (to the U.S. or another relevant taxing authority) substantial information regarding such institution's U.S. account holders (which would include some account holders that are non-U.S. entities but have U.S. owners). Other payees, including individuals, may be required to provide proof of tax residence or waivers of confidentiality laws and/or, in the case of non-U.S. entities, certification or information relating to their U.S. ownership.

FATCA Withholding may be imposed at any point in a payment chain if a non-U.S. payee is not compliant with the applicable FATCA requirements. A payment chain may consist of a number of parties, including a paying agent, a clearing system, each of the clearing system's participants and a non-U.S. bank or broker through which a holder holds the notes. Accordingly, if a holder receives payments through a payment chain that includes one or more non-U.S. payees the payment could be subject to FATCA Withholding if any non-U.S. payee in the payment chain fails to comply with the FATCA requirements and is subject to withholding. This would be the case even if the holder would not otherwise have been directly subject to FATCA Withholding.

A number of countries have entered into, and other countries are expected to enter into IGAs. While the existence of an IGA will not eliminate the risk that the notes will be subject to FATCA Withholding, these agreements are expected to facilitate compliance with the FATCA requirements thereby reducing the likelihood that FATCA Withholding will occur for holders in (or investors that indirectly hold notes through financial institutions in) those countries.

FATCA Withholding could apply to all interest payments made on the notes. In addition, FATCA Withholding could apply to the gross proceeds payable upon the sale, exchange, redemption or maturity of the notes on or after January 1, 2019. Under the terms of the notes, we are not obligated to and we will not pay any additional amounts in respect of FATCA Withholding, so if FATCA Withholding applies, a holder will receive less than the amount that such holder

would have otherwise received.

S-28

Table of Contents

Depending on a holder's circumstances, such holder may be entitled to a refund or credit in respect of some or all of any FATCA Withholding. However, even if a holder is entitled to have any such withholding refunded, the required procedures could be cumbersome and significantly delay such holder's receipt of any withheld amounts.

Holders are strongly urged to consult their tax advisor regarding FATCA. Holders should also consult their bank or broker through which they would hold the notes about the likelihood that payments to it (for credit to such holder) may become subject to FATCA Withholding at some point in the payment chain.

The U.S. federal income tax discussion set forth above is included for general information only and may not be applicable depending upon a holder's particular situation. Holders are urged to consult their own tax advisors with respect to the tax consequences to them of the acquisition, ownership and disposition of the notes, including the tax consequences under state, local, estate, foreign and other tax laws and tax treaties and the possible effects of changes in U.S. or other tax laws.

The underwriting agreement provides that the obligations of the underwriters to purchase the notes included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all the notes if they purchase any of the notes.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

Notes sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus supplement. Any notes sold by the underwriters to securities dealers may be sold at a discount from the initial public offering price not to exceed 0.400% per 2026 note and 0.525% per 2046 note. Any such securities dealers may resell any notes purchased from the underwriters to certain other brokers or dealers at a discount from the initial public offering price not to exceed 0.250% per 2026 note and 0.315% per 2046 note. If all the notes are not sold at the initial public offering price, less applicable discounts, the underwriters may change the public offering price and the discounts. The underwriters may offer and sell notes through certain of their affiliates.

We estimate that our total expenses for this offering, excluding the underwriting discounts, will be \$1,470,000.

The notes are new issues of securities, and there is currently no established trading market. We do not intend to apply for listing of the notes of either series on any securities exchange or for inclusion of the notes of any series on any automated dealer quotation system. Although the underwriters have advised us that they intend to make a market in the notes, they are not obligated to do so. The underwriters may discontinue any market making in the notes at any time without notice in their sole discretion. Therefore, we cannot assure you that a liquid trading market will develop for the notes, that you will be able to sell your notes at a particular time or that the prices that you receive when you sell will be favorable.

In connection with this offering, the underwriters may engage in overallotments, stabilizing transactions and syndicate covering transactions in accordance with Regulation M under the Exchange Act. Overallotment involves sales in excess of the offering size, which creates a short position for the underwriters. Stabilizing transactions involve bids to purchase the notes in the open market for the purpose of pegging, fixing or maintaining the price of the notes, as applicable. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover short positions. Stabilizing transactions and syndicate covering transactions may cause the price of the notes to be higher than it would otherwise be in the absence of those transactions. If the underwriters engage in stabilizing or syndicate covering transactions, they may discontinue them at any time without notice.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover short positions and stabilizing purchases, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of the notes. They may also cause the price of the notes to be higher than the price that would otherwise exist in the open market in the absence of these transactions. The underwriters may conduct these transactions in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

We expect to deliver the notes against payment for the notes on or about the date specified in the last paragraph of the cover page of this prospectus supplement, which will be the fifth business day following the date of the pricing of the notes. Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to a trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date of pricing or the next succeeding business day will be required, by virtue of the fact that the notes initially will settle in T+5, to specify alternative settlement arrangements to prevent a failed settlement. As used in this paragraph, the term *business day* means any day, other than a Saturday or Sunday, that is not a day on which banking institutions in The City of New York are authorized or required by law or executive order to close.

Other Relationships

The underwriters are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, principal investment, hedging, financing and brokerage activities. The underwriters and their respective affiliates have in the past performed commercial banking, investment banking and advisory services for us from time to time for which they have received customary fees and reimbursement of expenses and may, from time to time, engage in transactions with and perform services for us in the ordinary course of their business for which they may receive customary fees and reimbursement of expenses. Certain affiliates of the underwriters are lenders, and in some cases agents or managers for the lenders,

under our Credit Facility. Further, Citigroup Global Markets Inc., Wells Fargo Securities, LLC and its affiliate Wells Fargo Bank, National Association have agreed to provide us with interim financing under the bridge facility pursuant to the Commitment Letter. See Summary Recent Developments.

S-31

Table of Contents

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (which may include bank loans and/or credit default swaps) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve our securities and instruments. In addition, the underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. If any of the underwriters or their affiliates have a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby.

Skandinaviska Enskilda Banken AB (publ) (SEB) is not a U.S. registered broker-dealer and, therefore, intends to participate in the offering outside of the United States and, to the extent that the offering by SEB is within the United States, it will offer to and place securities with investors through SEB Securities Inc., an affiliated U.S. broker-dealer. The activities of SEB in the United States will be effected only to the extent permitted by Rule 15a-6 under the Exchange Act.

Notice to Prospective Investors in the European Economic Area

In relation to each member state of the European Economic Area (each, a relevant member state), no offer of notes described in this prospectus supplement may be made to the public in that relevant member state other than:

to any legal entity which is a qualified investor as defined in the Prospectus Directive;

to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the representatives; or

in any other circumstances falling within Article 3(2) of the Prospectus Directive,

S-32

Table of Contents

provided that no such offer of notes shall require us or any underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

Each person in a relevant member state who initially acquires any notes or to whom any offer is made will be deemed to have represented, acknowledged and agreed that it is a qualified investor within the meaning of Article 2(1)(e) of the Prospectus Directive (including any relevant implementing measure in each relevant member state).

This prospectus supplement has been prepared on the basis that any offer of notes in any relevant member state will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of notes. Accordingly, any person making or intending to make an offer in that relevant member state of notes which are the subject of the offering contemplated in this prospectus supplement may only do so in circumstances in which no obligation arises for the Company or any of the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither the Company nor the underwriters have authorized or authorize the making of any offer of notes through any financial intermediary on their behalf, other than offers made by the underwriters with a view to the final placement of the notes as contemplated in this prospectus supplement. Accordingly, no purchaser of the notes, other than the underwriters, is authorized to make any further offer of the notes on behalf of the Company or the underwriters.

For the purposes of this provision, the expression an offer to the public in relation to any notes in any relevant member state means the communication in any form and by any means of sufficient information on the terms of the offer and the notes to be offered so as to enable an investor to decide to purchase or subscribe for the notes, as the expression may be varied in that relevant member state by any measure implementing the Prospectus Directive in that member state, and the expression Prospectus Directive means Directive 2003/71/EC (as amended) and includes any relevant implementing measure in each relevant member state.

ABOUT THE REGISTRANT

Xylem is a leading equipment and service provider for water and wastewater applications with a broad portfolio of products and services addressing the full cycle of water, from collection, distribution and use to the return of water to the environment. Our business focuses on providing technology-intensive equipment and services. Our product and service offerings are organized into two reportable segments: Water Infrastructure and Applied Water. Our segments are aligned with each of the sectors in the cycle of water, water infrastructure and usage applications.

Water Infrastructure serves the water infrastructure sector with pump systems that transport water from aquifers, lakes, rivers and seas; with filtration, ultraviolet and ozone systems that provide treatment, making the water fit to use; and pumping solutions that move the wastewater to treatment facilities where our mixers, biological treatment, monitoring and control systems provide the primary functions in the treatment process. We provide analytical instrumentation used to measure water quality, flow and level in wastewater, surface water and coastal environments. In the Water Infrastructure segment, we provide the majority of our sales directly to customers with strong application expertise, while the remaining amount is through distribution partners.

Applied Water serves the usage applications sector with water pressure boosting systems for heating, ventilation and air conditioning and for fire protection systems to the residential and commercial building services markets. In addition, our pumps, heat exchangers, valves and controls provide cooling to power plants and manufacturing facilities, as well as circulation for food and beverage processing. We also provide boosting systems for farming irrigation, pumps for dairy operations and rainwater reuse systems for small scale crop and turf irrigation. In the Applied Water segment, we provide the majority of our sales through long-standing relationships with some of the world's leading distributors, with the remainder going directly to customers.

Xylem Inc. was incorporated under the laws of the State of Indiana on May 4, 2011. Our principal executive offices are located at 1 International Drive, Rye Brook, New York 10573, and our telephone number is (914) 323-5700.

Investing in our securities involves risk. Before you decide whether to purchase any of our securities, in addition to the other information, documents or reports included in or incorporated by reference into this prospectus and any accompanying prospectus supplement or other offering materials, you should carefully consider the risk factors in the section entitled "Risk Factors" in any prospectus supplement as well as our most recent Annual Report on Form 10-K, which is incorporated by reference into this prospectus and any prospectus supplement in their entirety, as the same may be amended, supplemented or superseded from time to time by our filings under the Exchange Act. For more information, see the section entitled "Where You Can Find More Information." Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

This information should be read in conjunction with the consolidated financial statements and the accompanying notes incorporated by reference into this prospectus and any prospectus supplement. See [Where You Can Find More Information](#) and [Incorporation By Reference](#).

The ratio of earnings to fixed charges is computed by dividing (i) income before income taxes and losses from equity interests, plus fixed charges by (ii) fixed charges.

The term [fixed charges](#) means the sum of the following: (a) interest expense, including amortization of deferred finance fees and (b) the interest portion of rental expense.

We refer to both the senior indenture and the subordinated indenture as the indentures, and to each of the trustees under the indentures as a trustee. The terms of each series of debt securities will be set forth in a resolution of the board of directors of the Registrant, an officers' certificate or by a supplemental indenture. You should read the indentures, including any amendments or supplements or any officers' certificate setting forth the terms of any series of notes, carefully to fully understand the terms of the debt securities. The forms of the indentures have been filed as exhibits to the registration statement of which this prospectus is a part. The indentures are subject to, and are governed by, the Trust Indenture Act of 1939, as amended (the Trust Indenture Act).

Any senior debt securities that we may issue will be our unsubordinated obligations. They will rank equally with each other and all of our other unsubordinated debt, unless otherwise indicated in the applicable prospectus supplement. Any subordinated debt securities that we may issue will be subordinated in right of payment to the prior payment in full of our senior debt. See Subordination of Subordinated Debt Securities. The subordinated debt securities will rank equally with each other, unless otherwise indicated in the applicable prospectus supplement. We will indicate in each applicable prospectus supplement, as of the most recent practicable date, the aggregate amount of our outstanding debt that would rank senior to the subordinated debt securities.

The indentures do not limit the amount of debt securities that can be issued thereunder and provide that debt securities of any series may be issued thereunder up to the aggregate principal amount that we may authorize from time to time. Unless otherwise provided in the applicable prospectus supplement, the indentures do not limit the amount of other indebtedness or securities that we may issue. We may issue debt securities of the same series at more than one time and, unless prohibited by the terms of the series, we may reopen a series for issuances of additional debt securities without the consent of the holders of the outstanding debt securities of that series. All debt securities issued as a series, including those issued pursuant to any reopening of a series, will vote together as a single class.

Reference is made to the prospectus supplement for the following and other possible terms of each series of the debt securities with respect to which this prospectus is being delivered:

the title of the debt securities;

any limit upon the aggregate principal amount of the debt securities of the series that may be authenticated and delivered under the applicable indenture;

any additional restrictive covenants or events of default that will apply to the debt securities of the series, or any changes to the restrictive covenants set forth in the applicable indenture that will apply to the debt securities of the series, which may consist of establishing different terms or provisions from those set forth in the applicable indenture or eliminating any such restrictive covenant or event of default with respect to the debt securities of the series;

any and all additional, eliminated or changed terms that shall apply to the debt securities of the series, including any terms that may be required by or advisable under United States laws or regulations, including the Securities Act of 1933, as amended (the Securities Act) and the rules and regulations promulgated thereunder, or advisable in connection with the marketing of debt securities of that series.

We will comply with Section 14(e) under the Exchange Act, to the extent applicable, and any other tender offer rules under the Exchange Act that may then be applicable, in connection with any obligation to purchase debt securities at the option of the holders thereof. Any such obligation applicable to a series of debt securities will be described in the prospectus supplement relating thereto.

The statements made hereunder relating to the indentures and any debt securities that we may issue are summaries of certain provisions thereof and are qualified in their entirety by reference to all provisions of the indentures and the debt securities and the descriptions thereof, if different, in the applicable prospectus supplement.

Subordination of Subordinated Debt Securities

We will set forth in the applicable prospectus supplement the terms and conditions, if any, upon which any series of subordinated debt securities is subordinated to debt securities of another series or to our other indebtedness. The terms will include a description of:

the indebtedness ranking senior to the debt securities being offered;

the restrictions, if any, on payments to the holders of the debt securities being offered while a default with respect to the senior indebtedness is continuing; and

Table of Contents

the provisions requiring holders of the debt securities being offered to remit some payments to the holders of senior indebtedness.

Redemption

If specified in the applicable prospectus supplement, we may redeem the debt securities of any series, as a whole or in part, at our option on and after the dates and in accordance with the terms established for such series, if any, in the applicable prospectus supplement. If we redeem the debt securities of any series, we also must pay accrued and unpaid interest, if any, to the date of redemption on such debt securities.

Selection and Notice

If less than all of the debt securities of a series are to be redeemed at any time, the trustee will select the debt securities of such series for redemption by lot, based on the applicable procedures of The Depository Trust Company (DTC).

No debt securities in principal amount of \$1,000 or less can be redeemed in part. Notices of redemption will be mailed by first-class mail (in case of notes held in book-entry form, by electronic transmission) at least 30 but not more than 60 days before the redemption date to each holder of debt securities of such series to be redeemed at its registered address, except that redemption notices may be mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the debt securities of such series or a satisfaction and discharge of the indenture.

If any debt security is to be redeemed in part only, the notice of redemption that relates to that debt security will state the portion of the principal amount of that debt security that is to be redeemed. For debt securities issued in certificated form, a new certificate in principal amount equal to the unredeemed portion of the original debt security will be issued in the name of the holder of the original debt security upon cancellation of the original debt security. Debt securities called for redemption become due on the date fixed for redemption. Unless we default in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the debt securities or portions of the debt securities called for redemption.

The trustee will not be liable for selections made by it as contemplated in this section. For any debt securities which are represented by global securities held on behalf of DTC, the Euroclear System (Euroclear) or Clearstream Banking S.A. (Clearstream), notices may be given by delivery of the relevant notices to DTC, Euroclear or Clearstream for communication to entitled account holders in substitution for the aforesaid mailing.

Reports

Whether or not required by the rules and regulations of the SEC, so long as any debt securities are outstanding, we shall file with the trustee, within 15 days after we are required to file the same with the SEC, copies of the annual reports and of the information, documents and other reports (or copies of such portions of any of the foregoing as the SEC may from time to time by rules and regulations prescribe) that we would be required to file with the SEC pursuant to Section 13 or Section 15(d) of the Exchange Act.

We shall be deemed to have complied with the previous sentence to the extent that such information, documents and reports are filed with the SEC via EDGAR or any successor electronic delivery procedure. Delivery of such reports, information and documents to the trustee is for informational purposes only, and the trustee's receipt of such shall not constitute constructive notice of any information contained therein or determinable from information contained therein, including our compliance with any covenants under the indenture (as to which the trustee is entitled to rely exclusively on officers' certificates).

Table of Contents

Events of Default

The following will be Events of Default with respect to debt securities of a particular series, except to the extent provided in the supplemental indenture, officers' certificate or resolution of our board of directors pursuant to which a series of debt securities is issued:

default in paying interest on any of the debt securities of such series when it becomes due and the default continues for a period of 30 days or more;

default in paying principal, or premium, if any, on any of the debt securities of such series when due;

default in the payment of any sinking or purchase fund or analogous obligation when the same becomes due, and such default continues for 30 days or more;

default in the performance, or breach, of any covenant in the indenture (other than defaults specified above) and the default or breach continues for a period of 90 days or more after we receive written notice from the trustee or we and the trustee receive notice from the holders of at least 25% in aggregate principal amount of the outstanding debt securities of such series;

certain events of bankruptcy, insolvency, reorganization, administration or similar proceedings; or

any other Event of Default provided in the supplemental indenture, officers' certificate or resolution of our board of directors under which such series of debt securities is issued or in the form of security for such series.

If an Event of Default (other than an Event of Default specified in the fifth bullet point above) under the indenture occurs with respect to the notes and is continuing, then the trustee or the holders of at least 25% in principal amount of the outstanding debt securities of the affected series may by written notice require us to repay immediately the entire principal amount of the outstanding notes of that series, together with all accrued and unpaid interest and premium, if any.

If an Event of Default under the indenture specified in the fifth bullet point above occurs and is continuing, then the entire principal amount of the outstanding debt securities of the affected series will automatically become due and payable immediately without any declaration or other act on the part of the trustee or any holder.

After a declaration of acceleration, the holders of a majority in principal amount of outstanding debt securities of the affected series may rescind this accelerated payment requirement if (i) all existing Events of Default, except for nonpayment of the principal and interest on the debt securities of that series that has become due solely as a result of the accelerated payment requirement, have been cured or waived, (ii) the rescission of acceleration would not conflict with any judgment or decree and (iii) we have paid or deposited with the trustee a sum sufficient to pay all sums paid or advanced by the trustee and the reasonable and duly documented compensation, expenses, disbursements and advances of the trustee, its agents and counsel. The holders of a majority in principal amount of the outstanding debt

securities of the affected series also have the right to waive past defaults, except a default in paying principal or interest on any outstanding note of that series, and except in respect of a covenant or a provision that cannot be modified or amended without the consent of all holders of the debt securities of that series.

Holders of at least 25% in principal amount of the outstanding debt securities of the affected series may seek to institute a proceeding only after they have notified the trustee of a continuing Event of Default in writing and made a written request, and offered reasonable indemnity, to the trustee to institute a proceeding and the trustee has failed to do so within 60 days after it received this notice. In addition, within this 60-day period the trustee must not have received directions inconsistent with this written request by holders of a majority in principal amount of the notes of that series. These limitations do not apply, however, to a suit instituted by a holder of a note for the enforcement of the payment of principal, interest or any premium on or after the due dates for such payment.

Table of Contents

During the existence of an Event of Default, the trustee is required to exercise the rights and powers vested in it under the indenture and to use the same degree of care and skill in its exercise as a prudent person would use under the circumstances in the conduct of that person's own affairs. If an Event of Default has occurred and is continuing, the trustee is not under any obligation to exercise any of its rights or powers at the request or direction of any of the holders unless the holders have offered to the trustee reasonable security or indemnity. Subject to certain provisions, the holders of a majority in principal amount of the outstanding debt securities of the affected series have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust or power conferred on the trustee.

The trustee will, within 90 days after any default occurs, give notice of the default to the holders of the notes of the affected series, unless the default was already cured or waived. Unless there is a default in paying principal, interest or any premium when due, the trustee can withhold giving notice to the holders if it determines in good faith that the withholding of notice is in the interest of the holders.

The trustee is not to be charged with knowledge of any Event of Default or knowledge of any cure of any Event of Default unless either (i) an authorized officer or agent of the trustee with direct responsibility for the administration of the indenture has actual knowledge of such Event of Default or (ii) written notice of such Event of Default has been given to such authorized officer of the trustee by the Issuer or any holder of the debt securities.

Covenants

Although the indentures generally do not contain financial or similar restrictive covenants, unless otherwise specified in the applicable prospectus supplement, the debt securities will contain the additional covenants described below that are not contained in the indentures.

Repurchase Upon Change of Control Triggering Event

A change of control requiring us to repurchase all, or part, of the debt securities as described below will be triggered in the event that the debt securities notes cease to be rated equal to or higher than BBB- (or the equivalent) by Fitch Inc. (Fitch), Baa3 (or the equivalent) by Moody's Investors Service, Inc. (Moody's) or BBB- (or the equivalent) by Standard & Poor's Rating Services (S&P), and the equivalent investment grade credit rating from any replacement rating agency or rating agencies selected by us on any date during the 60-day period commencing upon the earlier of (1) the first public announcement of the Change of Control or our intention to effect a Change of Control and (2) the consummation of such Change of Control, which period will be extended following consummation of a Change of Control for so long as the rating of the debt securities is under publicly announced consideration for possible downgrade by any of the rating agencies. Unless at least one rating agency is providing a rating for the notes at the commencement of any such period, the notes will be deemed to have ceased to be rated as described above during such period. Notwithstanding the foregoing, no event triggering a change of control will be deemed to have occurred in connection with any particular Change of Control unless and until such Change of Control has actually been consummated.

If an event triggering a change of control occurs, unless we have exercised our right to redeem the debt securities of a series pursuant to the terms of such series, we will be required to make an offer to repurchase all or, at the holder's option, any part (equal to \$2,000 or any multiple of \$1,000 in excess thereof) of each holder's debt securities on the terms set forth in the debt securities. In such offer, we will be required to offer payment in cash equal to 101% of the aggregate principal amount of the debt securities repurchased plus accrued and unpaid interest, if any, on the debt securities repurchased, to, but not including, the date of purchase.

Within 30 days following any event triggering a change of control or, at our option, prior to any change of control, but after public announcement of the transaction that constitutes or may constitute the change of control, a notice will be mailed to holders of the notes (with a copy mailed to the trustee) describing the transaction that

Table of Contents

constitutes or may constitute the change of control triggering event and offering to repurchase such notes on the date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed. The notice, if mailed prior to the date of consummation of the change of control, will state that the change of control offer is conditioned on the change of control triggering event occurring on or prior to such payment date.

On such payment date, we will be required, to the extent lawful, to:

accept for payment all debt securities or portions of debt securities properly tendered pursuant to the offer described in the first paragraph above;

deposit with the paying agent an amount equal to the required payment in respect of all debt securities or portions of notes debt securities properly tendered; and

deliver or cause to be delivered to the trustee the debt securities properly accepted together with an officer's certificate stating the aggregate principal amount of debt securities or portions of debt securities being purchased by us.

The paying agent will be required to promptly mail to each holder who properly tendered debt securities the purchase price for such debt securities, and the trustee will be required to promptly authenticate and mail (or cause to be transferred by book entry) to each such holder a new debt security equal in principal amount to any unpurchased portion of the debt securities surrendered, if any; provided that each new debt security will be in a principal amount of \$2,000 or a multiple of \$1,000 in excess thereof.

We will not be required to make an offer upon an event triggering a change of control if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for an offer made by us and such third party purchases all debt securities properly tendered and not withdrawn under its offer. In the event that such third party terminates or defaults its offer, we will be required to make an offer treating the date of such termination or default as though it were the date of such change of control triggering event.

In addition, we will not repurchase any debt securities if there has occurred and is continuing on the relevant payment date an event of default under the indenture, other than a default in the payment of the change of control payment upon a change of control triggering event.

To the extent that we are required to offer to repurchase the debt securities upon the occurrence of a change of control triggering event, we may not have sufficient funds to repurchase the debt securities in cash at such time. In addition, our ability to repurchase the debt securities for cash may be limited by law or the terms of other agreements relating to our indebtedness outstanding at the time. The failure to make such repurchase would result in a default under the debt securities.

We will comply with the requirements of Rule 14e-1 under the Exchange Act, and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the debt securities as a result of a change of control triggering event. To the extent that the provision of any such securities laws or regulations conflicts with the offer provisions in respect of a change of control of the debt securities, we will comply with those securities laws and regulations and will not be deemed to have breached our obligations under such offer provisions by virtue of any such conflict.

The definition of Change of Control includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of all or substantially all of our properties or assets and those of our subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of notes to require us to repurchase its notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of our assets and those of our subsidiaries, taken as a whole, to another person or group may be uncertain. In such case, holders of the notes may not be able to resolve this uncertainty without resorting to legal action.

Table of Contents

For purposes of the foregoing, the following term will be applicable:

change of control means the occurrence of any one of the following: (1) the direct or indirect sale, lease, transfer, conveyance or other disposition (other than by way of merger, amalgamation, arrangement or consolidation), in one or a series of related transactions, of all or substantially all of our properties or assets and those of our subsidiaries, taken as a whole, to one or more persons, other than to us or one of our subsidiaries; (2) the first day on which a majority of the members of our board of directors is not composed of directors who (a) were members of our board of directors on the issue date or (b) were nominated for election, elected or appointed to our board of directors with the approval of a majority of the directors who were members of our board of directors at the time of such nomination, election or appointment (either by a specific vote or by approval by such directors of our proxy statement in which such member was named as a nominee for election as a director); (3) the consummation of any transaction including, without limitation, any merger, amalgamation, arrangement or consolidation the result of which is that any person becomes the beneficial owner, directly or indirectly, of more than 50% of our voting stock; (4) we consolidate with, or merge with or into, any person, or any person consolidates with, or merges with or into, us, in any such event pursuant to a transaction in which any of the outstanding Voting Stock of us or of such other person is converted into or exchanged for cash, securities or other property, other than any such transaction where the shares of our voting stock outstanding immediately prior to such transaction constitute, or are converted into or exchanged for, a majority of the voting stock of the surviving person immediately after giving effect to such transaction; or (5) the adoption of a plan relating to our liquidation or dissolution (other than our liquidation into a newly formed holding company). Notwithstanding the foregoing, a transaction described in clause (3) above will not be deemed to involve a Change of Control if (1) the Company becomes a direct or indirect wholly-owned subsidiary of a holding company (which shall include a parent company) and (2)(A) the direct or indirect holders of the voting stock of such holding company immediately following that transaction are substantially the same as, and hold in substantially the same proportions as, the holders of the Company's voting stock immediately prior to that transaction or (B) immediately following that transaction no person (other than a holding company satisfying the requirements of this sentence) is the beneficial owner, directly or indirectly, of more than 50% of the then outstanding voting stock, measured by voting power, of such holding company. Following any such transaction, references in this definition to the Company shall be deemed to refer to such holding company. For the purposes of this definition, person and beneficial owner have the meanings used in Section 13(d) of the Exchange Act.

Other Covenants

Unless we indicate otherwise in the applicable prospectus supplement, the debt securities will not contain any financial covenants or other restrictive provisions designed to protect holders of the debt securities in the event of a highly leveraged transaction. The indentures contain the following covenants:

Limitations on Liens

We will not, and we will not permit any of our restricted subsidiaries to, incur, suffer to exist or guarantee any debt secured by a lien on any principal property or on any shares of stock of (or other interests in) any of our restricted subsidiaries unless we or such restricted subsidiary secures or we cause such restricted subsidiary to secure the debt securities (and any of its or such restricted subsidiary's other debt, at its option or such restricted subsidiary's option, as the case may be, not subordinate to the debt securities), equally and ratably with (or prior to) such secured debt, for as long as such secured debt will be so secured.

These restrictions will not, however, apply to debt secured by:

any liens existing prior to the issuance of the debt securities;

any lien on property of or shares of stock of (or other interests in) or debt of any entity existing at the time such entity becomes a restricted subsidiary;

Table of Contents

any liens on property, shares of stock (or other interests in) or debt of any entity (i) existing at the time of acquisition of such property or shares (or other interests) (including acquisition through merger or consolidation), (ii) to secure the payment of all or any part of the purchase price of such property or shares (or other interests) or the costs of construction or improvement of such property or (iii) to secure any debt incurred prior to, at the time of, or within 180 days after the later of the acquisition, the completion of construction or the commencement of full operation of such property or within 180 days after the acquisition of such shares (or other interests) for the purpose of financing all or any part of the purchase price of such property or shares (or other interests) or the costs of construction thereon;

any liens in favor of us or any of our restricted subsidiaries;

any liens in favor of, or required by contracts with, governmental entities; or

any extension, renewal, or refunding of liens referred to in any of the preceding clauses.

Notwithstanding the foregoing, we or any of our restricted subsidiaries may incur, suffer to exist or guarantee any debt secured by a lien on any principal property or on any shares of stock of (or other interests in) any of our restricted subsidiaries if, after giving effect thereto and together with the value of attributable debt outstanding pursuant to the second paragraph of the *Limitation on Sale and Lease-Back Transactions* covenant below, the aggregate amount of such debt does not exceed 15% of our consolidated net tangible assets.

The indenture does not restrict the transfer by us of a principal property to any of our unrestricted subsidiaries or our ability to change the designation of a subsidiary owning principal property from a restricted subsidiary to an unrestricted subsidiary and, if we were to do so, any such unrestricted subsidiary would not be restricted from incurring secured debt nor would we be required, upon such incurrence, to secure the debt securities equally and ratably with such secured debt.

Limitation on Sale and Lease-Back Transactions

We will not enter into any sale and lease-back transaction with respect to any principal property, other than any such sale and lease-back transaction involving a lease for a term of not more than three years or any such sale and lease-back transaction between us and one of our restricted subsidiaries or between our restricted subsidiaries, unless: (i) we or such restricted subsidiary would be entitled to incur debt secured by a lien on the principal property involved in such sale and lease-back transaction at least equal in amount to the attributable debt with respect to such sale and lease-back transaction, without equally and ratably securing the debt securities, pursuant to the covenant described above under the caption *Limitation on Liens* ; or (ii) the proceeds of such sale and lease-back transaction are at least equal to the fair market value of the affected principal property (as determined in good faith by our board of directors) and we apply an amount equal to the net proceeds of such sale and lease-back transaction within 180 days of such sale and lease-back transaction to any (or a combination) of (a) the prepayment or retirement of the debt securities, (b) the prepayment or retirement (other than any mandatory retirement, mandatory prepayment or sinking fund payment or payment at maturity) of other debt of us or of one of our restricted subsidiaries (other than debt that is subordinated to the debt securities or debt owed to us or one of our restricted subsidiaries) that matures more than 12 months after its creation or matures less than 12 months after its creation but by its terms being renewable or extendible, at the option of the obligor in respect thereof, beyond 12 months from its creation or (c) the purchase, construction, development, expansion or improvement of other comparable property.

Notwithstanding the restrictions in the preceding paragraph, we will be permitted to enter into sale and lease-back transactions otherwise prohibited by this covenant, the attributable debt with respect to which, together with all debt outstanding pursuant to the third paragraph of the Limitation on Liens covenant above, without duplication, do not exceed 15% of consolidated net tangible assets measured at the closing date of the sale and lease-back transaction.

Table of Contents

The following are definitions of some terms used in the above description. We refer you to the indenture for a full description of all of these terms, as well as any other terms used herein for which no definition is provided.

attributable debt with regard to a sale and lease-back transaction with respect to any principal property means, at the time of determination, the present value of the total net amount of rent required to be paid under such lease during the remaining term thereof (including any period for which such lease has been extended), discounted at the rate of interest set forth or implicit in the terms of such lease (or, if not practicable to determine such rate, the weighted average interest rate per annum borne by the notes then outstanding under the indenture) compounded semi-annually. In the case of any lease which is terminable by the lessee upon the payment of a penalty, such net amount shall be the lesser of (x) the net amount determined assuming termination upon the first date such lease may be terminated (in which case the net amount shall also include the amount of the penalty, but shall not include any rent that would be required to be paid under such lease subsequent to the first date upon which it may be so terminated) or (y) the net amount determined assuming no such termination.

consolidated net tangible assets means the total amount of our assets and our restricted subsidiaries' assets minus:

all applicable depreciation, amortization and other valuation reserves;

all current liabilities of ours and our restricted subsidiaries (excluding any intercompany liabilities); and

all goodwill, trade names, trademarks, patents, unamortized debt discount and expenses and other like intangibles, all as set forth on our and our restricted subsidiaries' latest consolidated balance sheets prepared in accordance with U.S. GAAP.

debt means any indebtedness for borrowed money.

principal property means any single manufacturing or processing plant, office building or warehouse owned or leased by us or any of our restricted subsidiaries which has a gross book value in excess of 2% of our consolidated net tangible assets other than a plant, warehouse, office building or portion thereof which, in the opinion of our Board of Directors, is not of material importance to the business conducted by the Company and its restricted subsidiaries as an entirety.

restricted subsidiary means, at any time, any subsidiary which at the time is not an unrestricted subsidiary of ours.

subsidiary means any entity, at least a majority of the outstanding voting stock of which shall at the time be owned, directly or indirectly, by us or by one or more of our subsidiaries, or both.

unrestricted subsidiary means any subsidiary of ours (not at the time designated as our restricted subsidiary) (1) the major part of whose business consists of finance, banking, credit, leasing, insurance, financial services or other similar operations, or any combination thereof, (2) substantially all the assets of which consist of the capital stock of one or more subsidiaries engaged in the operations referred to in the preceding clause (1), or (3) designated as an unrestricted subsidiary by our Board of Directors and which, in the opinion of our Board of Directors, is not of material importance to the business conducted by the Company and its restricted subsidiaries as an entity.

Consolidation, Merger or Sale of Assets

We may consolidate or merge with or into, or convey or transfer all or substantially all of our assets to, any entity (including, without limitation, a limited partnership or a limited liability company); provided that:

we will be the surviving corporation or, if not, that the successor will be a corporation that is organized and validly existing under the laws of any state of the United States of America or the District of Columbia and will expressly assume by a supplemental indenture our obligations under the indenture and the debt securities;

immediately after giving effect to such transaction, no event of default, and no default or other event which, after notice or lapse of time, or both, would become an event of default, will have happened and be continuing; and

we will have delivered to the trustee an opinion of counsel, stating that such consolidation, merger, conveyance or transfer and such supplemental indenture, if any, complies with the indenture.

In the event of any such consolidation, merger, conveyance, transfer or lease, any such successor will succeed to and be substituted for us as obligor on the notes with the same effect as if it had been named in the indenture as obligor.

The trustee will be entitled to conclusively rely on and will accept such opinion as sufficient evidence of the satisfaction of the conditions precedent set forth in the third clause above, in which event it shall be conclusive and binding on the holders of the debt securities.

Modification and Waiver

The indenture may be amended or modified without the consent of any holder of the debt securities of any series in order to:

evidence a succession to the trustee;

cure ambiguities, defects or inconsistencies or make any other change that does not adversely affect in any material respect the interests of any holder;

provide for the assumption of our obligations in the case of a merger or consolidation or transfer of all or substantially all of our assets;

make any change that would provide any additional rights or benefits to the holders of the debt securities of any series;

add guarantors with respect to the debt securities of any series;

secure the debt securities of any series;

establish the form or forms of the debt securities of any series; or

maintain the qualification of the indenture under the Trust Indenture Act.

Other amendments to and modifications of the indenture or the debt securities of any series issued may be made with the consent of the holders of not less than a majority of the aggregate principal amount of the outstanding series affected by the amendment or modification. However, no modification or amendment may, without the consent of the holder of each affected outstanding debt security:

reduce the principal amount, or extend the fixed maturity, of the debt securities of any series;

alter or waive the redemption provisions of the debt securities of any series;

change the currency in which principal, any premium or interest is paid;

Table of Contents

reduce the percentage in principal amount outstanding of the debt securities of any series which must consent to an amendment, supplement or waiver or consent to take any action;

impair the right to institute suit for the enforcement of any payment on the debt securities of any series;

waive a payment default with respect to the debt securities of any series;

reduce the interest rate or extend the time for payment of interest on the debt securities of any series; or

adversely affect the ranking of the debt securities of any series.

Information Concerning the Trustee

If an Event of Default occurs and is continuing, the trustee will be required to use the degree of care and skill of a prudent person in the conduct of his or her own affairs. The trustee will become obligated to exercise any of its powers under the indenture at the request of any of the holders of any debt securities issued under the indenture only after those holders have furnished the trustee reasonable security or indemnity against the costs, expenses and liabilities which might be incurred by it in compliance with such request or direction.

If the trustee becomes a creditor of ours, it will be subject to limitations in the indenture on its rights to obtain payment of claims or to realize on certain property received for any such claim, as security or otherwise. The trustee is permitted to engage in other transactions with us. If, however, it acquires any conflicting interest, it must eliminate such conflict, resign or obtain an order from the SEC permitting it to remain as trustee.

Paying Agent and Security Registrar

We will maintain one or more paying agents (each, a **Paying Agent**) for any debt securities we issue in New York, New York. We, upon written notice to the trustee accompanied by an officers' certificate, may appoint one or more **Paying Agents**, other than the trustee, for all or any series of such debt securities. If we fail to appoint or maintain another entity as **Paying Agent**, the trustee shall act as such. We or any of our subsidiaries, upon notice to the trustee, may act as **Paying Agent**.

We will also maintain one or more security registrars (each, a **Security Registrar**) with an office in New York, New York. We, upon written notice to the trustee accompanied by an officers' certificate, may appoint one or more registrars, other than the trustee, for all or any series of debt securities. If we fail to appoint or maintain another entity as registrar, the trustee shall act as such. We or any of our subsidiaries, upon notice to the trustee, may act as registrar.

The **Security Registrar** will maintain a register reflecting ownership of debt securities outstanding from time to time, and the **Paying Agents** will make payments on and facilitate transfer of debt securities on our behalf. We may change any **Paying Agents** or **Security Registrars** without prior notice to the holders of debt securities.

Governing Law

The indenture and any debt securities issued thereunder shall be deemed to be a contract made under the internal laws of the State of New York, and for all purposes shall be construed in accordance with the laws of the State of New

York without regard to conflicts of laws principles that would require the application of any other law. The indenture is subject to the provisions of the Trust Indenture Act that are required to be part of the indenture and shall, to the extent applicable, be governed by such provisions.

Satisfaction, Discharge and Defeasance

We may terminate our obligations with respect to the debt securities of any series under the indenture when:

either:

all the debt securities of any series issued that have been authenticated have been delivered to the trustee for cancellation; or

Table of Contents

all the debt securities of any series issued that have not been delivered to the trustee for cancellation have become due and payable, will become due and payable within one year, or are to be called for redemption within one year and we have made arrangements satisfactory to the trustee for the giving of notice of redemption by such trustee in our name and at our expense, and in each case, we have irrevocably deposited or caused to be deposited with the trustee sufficient funds to pay and discharge the entire indebtedness on the notes to pay principal, interest and any premium; and

we have paid or caused to be paid all other sums then due and payable under the indenture; and

we have delivered to the trustee an officers certificate and an opinion of counsel, each stating that all conditions precedent under the indenture relating to the satisfaction and discharge of the indenture have been complied with.

We may elect to have our obligations under the indenture discharged with respect to the outstanding debt securities of any series (legal defeasance). Legal defeasance means that we will be deemed to have paid and discharged the entire indebtedness represented by the outstanding debt securities of such series under the indenture, except for:

the rights of holder of the debt securities to receive principal, interest and any premium when due;

mutilated, destroyed, lost or stolen debt securities and the maintenance of an office or agency for payment for security payments held in trust;

the rights, powers, trusts, duties and immunities of the trustee; and

the defeasance provisions of the indenture.

In addition, we may elect to have our obligations released with respect to certain covenants in the indenture (covenant defeasance). Any omission to comply with these obligations will not constitute a default or an event of default with respect to the debt securities of any series. In the event covenant defeasance occurs, certain events, not including non-payment, bankruptcy and insolvency events, described under Events of Default will no longer constitute an event of default for that series.

In order to exercise either legal defeasance or covenant defeasance with respect to the outstanding debt securities of any series:

we must irrevocably have deposited or caused to be deposited with the trustee as trust funds for the purpose of making the following payments, specifically pledged as security for, and dedicated solely to the benefits of the holders of the debt securities of a series:

money in an amount;

U.S. government obligations that will provide, not later than one day before the due date of any payment, money in an amount; or

a combination of money and U.S. government obligations (or equivalent government obligations, as applicable),

in each case sufficient, in the written opinion of a nationally recognized firm of independent registered public accountants to pay and discharge, and which shall be applied by the trustee to pay and discharge, all of the principal (including mandatory sinking fund payments), interest and any premium at due date or maturity;

in the case of legal defeasance, we have delivered to the trustee an opinion of counsel stating that (i) we have received from, or there has been published by, the U.S. Internal Revenue Service, a ruling, or (ii) since the issuance of the debt securities, there has been a change in applicable U.S. federal income

Table of Contents

tax law, in either case to the effect that the holders of the debt securities of that series will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the deposit, defeasance and discharge to be effected and will be subject to the same U.S. federal income tax as would be the case if the deposit, defeasance and discharge did not occur;

in the case of covenant defeasance, we have delivered to the trustee an opinion of counsel to the effect that the holders of the debt securities of that series will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the deposit and covenant defeasance to be effected and will be subject to the same U.S. federal income tax as would be the case if the deposit and covenant defeasance did not occur;

no event of default or default with respect to the outstanding debt securities of that series has occurred and is continuing at the time of such deposit after giving effect to the deposit or, in the case of legal defeasance, no default relating to bankruptcy or insolvency has occurred and is continuing at any time on or before the 91st day after the date of such deposit, it being understood that this condition is not deemed satisfied until after the 91st day;

the legal defeasance or covenant defeasance will not cause the trustee to have a conflicting interest within the meaning of the Trust Indenture Act, assuming all debt securities of that series were in default within the meaning of such Act;

the legal defeasance or covenant defeasance will not result in a breach or violation of, or constitute a default under, any other agreement or instrument to which we are a party;

the legal defeasance or covenant defeasance will not result in the trust arising from such deposit constituting an investment company within the meaning of the Investment Company Act of 1940, as amended, unless the trust is registered under such Act or exempt from registration; and

we have delivered to the trustee an officers' certificate and an opinion of counsel stating that all conditions precedent with respect to the defeasance or covenant defeasance have been complied with.

Book-Entry, Delivery and Form

The debt securities of a series may be issued in whole or in part in the form of one or more global securities that will be deposited with, or on behalf of, a depository identified in the applicable prospectus supplement. Global securities may be issued in either registered or bearer form and in either temporary or permanent form. Unless otherwise provided in such prospectus supplement, debt securities that are represented by a global security will be issued in denominations of \$2,000 or any integral multiple of \$1,000 in excess thereof and will be issued in registered form only, without coupons.

We anticipate that any global securities will be deposited with, or on behalf of, DTC, and that such global securities will be registered in the name of Cede & Co., DTC's nominee. We further anticipate that the following provisions will apply to the depository arrangements with respect to any such global securities. Any additional or differing terms of the depository arrangements will be described in the prospectus supplement relating to a particular series of debt

securities issued in the form of global securities.

Beneficial interests in the global securities will be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct or indirect participants in DTC.

Investors may elect to hold their interests in the global securities through either DTC (in the United States) or (in Europe) through Clearstream or through Euroclear. Investors may hold their interests in the global securities directly, if they are participants of such systems, or indirectly through organizations that are participants in these systems. Clearstream and Euroclear will hold interests on behalf of their participants through customers' securities accounts in Clearstream's and Euroclear's names on the books of their respective U.S. depositaries, which in turn will hold these interests in customers' securities accounts in the depositaries' names.

Table of Contents

on the books of DTC. Beneficial interests in the global securities will be held in denominations of \$2,000 and multiples of \$1,000 in excess thereof. Except as set forth below, the global securities may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee.

Debt securities represented by a global security can be exchanged for definitive securities in registered form only if:

DTC notifies us that it is unwilling or unable to continue as depository for that global security, and we do not appoint a successor depository within 90 days after receiving that notice;

at any time DTC ceases to be a clearing agency registered or in good standing under the Exchange Act, as amended, or other applicable statute or regulation, and we do not appoint a successor depository within 90 days after becoming aware that DTC has ceased to be registered as a clearing agency; or

we determine that that global security will be exchangeable for definitive securities in registered form and we notify the trustee of our decision.

A global security that can be exchanged as described in the preceding sentence will be exchanged for definitive securities issued in authorized denominations in registered form for the same aggregate amount. The definitive securities will be registered in the names of the owners of the beneficial interests in the global security as directed by DTC.

We will make principal and interest payments on all debt securities represented by a global security to the Paying Agent which in turn will make payment to DTC or its nominee, as the case may be, as the sole registered owner and the sole holder of the debt securities represented by a global security for all purposes under the indenture.

Accordingly, we, the trustee and any Paying Agent will have no responsibility or liability for:

any aspect of DTC's records relating to, or payments made on account of, beneficial ownership interests in a debt security represented by a global security; or

any other aspect of the relationship between DTC and its participants or the relationship between those participants and the owners of beneficial interests in a global security held through those participants; or the maintenance, supervision or review of any of DTC's records relating to those beneficial ownership interests.

DTC has advised us that its current practice is to credit participants' accounts on each payment date with payments in amounts proportionate to their respective beneficial interests in the principal amount of such global security as shown on DTC's records, upon DTC's receipt of funds and corresponding detail information. The underwriters or agents for the debt securities represented by a global security will initially designate the accounts to be credited. Payments by participants to owners of beneficial interests in a global security will be governed by standing instructions and customary practices, as is the case with securities held for customer accounts registered in street name, and will be the sole responsibility of those participants. Book-entry notes may be more difficult to pledge because of the lack of a physical note. So long as DTC or its nominee is the registered owner of a global security, DTC or its nominee, as the case may be, will be considered the sole owner and holder of the debt securities represented by that global security for all purposes of the debt securities. Owners of beneficial interests in the debt securities will not be entitled to have debt

securities registered in their names, will not receive or be entitled to receive physical delivery of the debt securities in definitive form and will not be considered owners or holders of debt securities under the indenture. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if that person is not a DTC participant, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder of debt securities. The laws of some jurisdictions require that certain purchasers of securities take physical delivery of the securities in certificated form. These laws may impair the ability to transfer beneficial interests in a global security. Beneficial owners may experience delays in receiving distributions on their debt securities since distributions will initially be made to DTC and must then be transferred through the chain of intermediaries to the beneficial owner's account.

Table of Contents

We understand that, under existing industry practices, if we request holders to take any action, or if an owner of a beneficial interest in a global security desires to take any action which a holder is entitled to take under the indenture, then DTC would authorize the participants holding the relevant beneficial interests to take that action and those participants would authorize the beneficial owners owning through such participants to take that action or would otherwise act upon the instructions of beneficial owners owning through them.

Beneficial interests in a global security will be shown on, and transfers of those ownership interests will be effected only through, records maintained by DTC and its participants for that global security. The conveyance of notices and other communications by DTC to its participants and by its participants to owners of beneficial interests in the debt securities will be governed by arrangements among them, subject to any statutory or regulatory requirements in effect.

DTC has advised us that it is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code and a clearing agency registered pursuant to Section 17A of the Exchange Act.

DTC holds the securities of its participants and facilitates the clearance and settlement of securities transactions among its participants in such securities through electronic book-entry changes in accounts of its participants. The electronic book-entry system eliminates the need for physical certificates. DTC's participants include both U.S. and non-U.S. securities brokers and dealers, including underwriters, banks, trust companies, clearing corporations and certain other organizations. DTC is a wholly owned subsidiary of The Depository Trust & Clearing Corporation (DTCC). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others, such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the SEC.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that we believe to be reliable, but we take no responsibility for the accuracy thereof.

Clearstream

Clearstream has advised us that it is incorporated under the laws of Luxembourg as a professional depository. Clearstream holds securities for its participating organizations (Clearstream Participants), and facilitates the clearance and settlement of securities transactions between Clearstream Participants through electronic book-entry changes in accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates. Clearstream provides to Clearstream Participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic securities markets in several countries. As a registered bank in Luxembourg, Clearstream is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector (Commission de Surveillance du Secteur Financier). Clearstream Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. In the U.S., Clearstream Participants are limited to securities brokers and dealers and banks. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream Participant either directly or indirectly. Clearstream is an indirect participant in DTC.

Distributions with respect to debt securities held beneficially through Clearstream will be credited to cash accounts of Clearstream Participants in accordance with its rules and procedures, to the extent received by the U.S. Depositary for Clearstream.

Euroclear

Euroclear has advised us that it was created in 1968 to hold securities for participants of Euroclear (Euroclear Participants), and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear performs various other services, including securities lending and borrowing, and interacts with domestic markets in several countries. The Euroclear System is owned by Euroclear Clearance System Public Limited Company (ECSplc) and operated through Euroclear Bank S.A/N.V. (the Euroclear Operator), a bank incorporated under the laws of the Kingdom of Belgium, under contract with Euroclear Clearance Systems S.C., a Belgian cooperative corporation (the Cooperative). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include banks, including central banks, securities brokers and dealers and other professional financial intermediaries. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

The Euroclear Operator advises us that it is regulated and examined by the Belgian banking and Finance Commission and the National Bank of Belgium.

Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian law, herein the Terms and Conditions. The Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear Participants, and has no record of or relationship with persons holding through Euroclear Participants.

Distributions with respect to debt securities held beneficially through Euroclear will be credited to the cash accounts of Euroclear Participants in accordance with the Terms and Conditions, to the extent received by the U.S. Depository for Euroclear.

Euroclear has further advised us that investors that acquire, hold and transfer interests in the debt securities by book-entry through accounts with the Euroclear Operator or any other securities intermediary are subject to the laws and contractual provisions governing their relationship with their intermediary, as well as the laws and contractual provisions governing the relationship between such an intermediary and each other intermediary, if any, standing between themselves and the global securities.

Global Clearance and Settlement Procedures

Initial settlement for the debt securities will be made in immediately available funds. Secondary market trading between DTC participants will occur in the ordinary way in accordance with DTC rules and will be settled in immediately available funds using DTC's Same-Day Funds Settlement System. Secondary market trading between Clearstream Participants and/or Euroclear Participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream and Euroclear and will be settled using the procedures applicable to conventional eurobonds in immediately available funds.

Cross-market transfers between persons holding directly or indirectly through DTC, on the one hand, and directly or indirectly through Clearstream Participants or Euroclear Participants, on the other, will be effected through DTC in accordance with DTC rules on behalf of the relevant European international clearing system by its U.S. Depositary; however, such cross-market transactions will require delivery of instructions to the relevant

Table of Contents

European international clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (European time). The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. Depositary to take action to effect final settlement on its behalf by delivering or receiving debt securities through DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Clearstream Participants and Euroclear Participants may not deliver instructions directly to their respective U.S. Depositories.

Because of time-zone differences, credits of debt securities received through Clearstream or Euroclear as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits or any transactions in such debt securities settled during such processing will be reported to the relevant Euroclear Participants or Clearstream Participants on such business day. Cash received in Clearstream or Euroclear as a result of sales of debt securities by or through a Clearstream Participant or a Euroclear Participant to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant Clearstream or Euroclear cash account only as of the business day following settlement in DTC.

If the debt securities are cleared only through Euroclear and Clearstream (and not DTC), you will be able to make and receive through Euroclear and Clearstream payments, deliveries, transfers, exchanges, notices and other transactions involving any securities held through those systems only on days when those systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States. In addition, because of time-zone differences, U.S. investors who hold their interests in the securities through these systems and wish to transfer their interests, or to receive or make a payment or delivery or exercise any other right with respect to their interests, on a particular day may find that the transaction will not be effected until the next business day in Luxembourg or Brussels, as applicable. Thus, U.S. investors who wish to exercise rights that expire on a particular day may need to act before the expiration date.

Although DTC, Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of debt securities among participants of DTC, Clearstream and Euroclear, they are under no obligation to perform or continue to perform such procedures and such procedures may be modified or discontinued at any time. Neither we nor any paying agent will have any responsibility for the performance by DTC, Euroclear or Clearstream or their respective direct or indirect participants of their obligations under the rules and procedures governing their operations.

DESCRIPTION OF CAPITAL STOCK

Xylem is authorized to issue 750,000,000 shares of common stock, \$0.01 par value, and 50,000,000 shares of preferred stock, \$0.01 par value per share. As of October 23, 2015, there were 179,366,169 shares of common stock outstanding, and no shares of preferred stock outstanding.

Our common stock is listed on the New York Stock Exchange under the symbol **XYL**. All outstanding shares of common stock are validly issued, fully paid and nonassessable.

The following descriptions of the terms of our common and preferred stock are not complete and are qualified in their entirety by reference to our Amended and Restated Articles of Incorporation (the **Articles of Incorporation**), and our By-laws (the **By-laws**), and to the laws of the state of Indiana.

Common Stock

Dividend Rights

Under our Articles of Incorporation, holders of our common stock are entitled to receive any dividends our Board of Directors may declare on the common stock, subject to the prior rights of the preferred stock. The Board of Directors may declare dividends from funds legally available for this purpose.

Voting Rights

Our common stock has one vote per share. The holders of our common stock are entitled to vote on all matters to be voted on by shareholders. Our Articles of Incorporation do not provide for cumulative voting. This could prevent directors from being elected by a relatively small group of shareholders.

Liquidation Rights

After provision for payment of creditors and after payment of any liquidation preferences to holders of the preferred stock, if we liquidate, dissolve or are wound up, whether this is voluntary or not, the holders of our common stock will be entitled to receive on a pro rata basis all assets remaining.

Other Rights

Our common stock is not liable to further calls or assessment. The holders of our common stock are not currently entitled to subscribe for or purchase additional shares of our capital stock. Our common stock is not subject to redemption and does not have any conversion or sinking fund provisions.

Preferred Stock

Our Board of Directors has the authority, without other action by shareholders, to issue preferred stock in one or more series. The holders of our preferred stock do not have the right to vote, except as our Board of Directors establishes, or as provided in our amended and restated articles of incorporation or as determined by state law.

The Board of Directors has the authority to determine the terms of each series of preferred stock, within the limits of our amended and restated articles of incorporation, our amended and restated by-laws and the laws of the state of Indiana. These terms include the number of shares in a series, the consideration, dividend rights, liquidation

preferences, terms of redemption, conversion rights and voting rights, if any.

Provisions of Our Articles of Incorporation and By-Laws That Could Delay or Prevent a Change in Control

Certain provisions of our Articles of Incorporation and By-laws may delay or make more difficult unsolicited acquisitions or changes of control of the Company. We believe that such provisions will enable us to develop our business in a manner that will foster our long-term growth without disruption caused by the threat of a takeover not deemed by our Board of Directors to be in the best interests of the Company, our shareholders and certain other constituents. Such provisions could have the effect of discouraging third parties from making proposals involving an unsolicited acquisition or change of control of the Company, although a majority of our shareholders might consider such proposals, if made, desirable. Such provisions may also have the effect of making it more difficult for third parties to cause the replacement of our current management without the concurrence of our Board of Directors. These provisions include:

a classified Board of Directors;

the availability of capital stock for issuance from time to time at the discretion of our Board of Directors;

the ability of our Board of Directors to increase the size of the board and to appoint directors to fill newly created directorships; and

requirements for advance notice for raising business or making nominations at shareholders meetings.

Classified Board of Directors

Our Board of Directors is divided into three classes that are, as nearly as possible, of equal size. Upon the expiration of each initial term, directors will subsequently serve three-year terms if renominated and reelected. Beginning in 2016, we will phase out the staggered board structure and our directors will be elected for a one-year term.

Authorized But Unissued Capital Stock

The authorized but unissued shares of our common stock and preferred stock will be available for future issuance without shareholder approval. Indiana law does not require shareholder approval for any issuance of authorized shares. However, the listing requirements of the New York Stock Exchange, which would apply to us so long as our common stock remains listed on the New York Stock Exchange, require shareholder approval of certain issuances equal to or exceeding 20% of the then outstanding voting power or then outstanding number of shares of our common stock. We may issue additional shares for a variety of corporate purposes, including future public offerings to raise additional capital or to facilitate corporate acquisitions.

Our board may be able to issue shares of unissued and unreserved common or preferred stock to persons friendly to current management. This issuance may render more difficult or discourage an attempt to obtain control of us by means of a merger, tender offer, proxy contest or otherwise, and thereby protect the continuity of our management. This could possibly deprive our shareholders of opportunities to sell their shares of our stock at prices higher than prevailing market prices. Our board could also use these shares to dilute the ownership of persons seeking to obtain control of the Company.

Number of Directors; Filling of Vacancies

Our By-laws provide that the Board of Directors will have at least 3 and at most 25 directors. The size of the board may be changed by a majority vote of the Board of Directors. A majority of the board determines the exact number of directors at any given time. The board fills any new directorships it creates and any vacancies, subject to the requirement provided in the By-laws that the majority of directors holding office immediately after such election be independent directors, as defined in the By-laws. Accordingly, our board may be able to prevent any shareholder from obtaining majority representation on the board by increasing the size of the board and filling the newly created directorships with its own nominees.

Table of Contents

Special Meetings

Under circumstances described in our Articles of Incorporation and By-laws and subject to certain procedural requirements, our shareholders can require the Secretary to call a special meeting. Our By-laws provide that shareholders may not call a special meeting (i) if the item of business for which the meeting is proposed to be called would violate state law, (ii) if the request to hold the special meeting is received during the period beginning 90 days prior to the anniversary of the prior annual meeting of shareowners and ending on the date of the next annual meeting of shareowners, (iii) if the item of business for which the meeting is proposed to be called is identical or substantially similar to another item that was presented at a meeting of shareowners held within the prior 90 day period, (iv) the item of business for which the meeting is proposed to be called is substantially similar to another item that is included in the Company's notice of meeting as an item of business to be brought before a shareowner meeting that has been called but not yet held or that is called for a date within 90 days of the receipt of the request that the special meeting be held or (v) such special meeting request was made in a manner that involved a violation of Regulation 14A under the Securities Act, or other applicable law.

Advance Notice Provisions

Our By-laws require that for a shareholder to nominate a director or bring other business before an annual meeting, the shareholder must give written notice, in proper form, to the Secretary of Xylem not less than 90 days and no more than 120 days prior to the date corresponding to the date on which we first mailed our proxy materials for the prior year's annual meeting.

Only persons who are nominated by, or at the direction of, our Board of Directors, or who are nominated by a shareholder who has given timely written notice, in proper form, to the Secretary of Xylem prior to a meeting at which directors are to be elected, will be eligible for election as directors of Xylem. The notice of any nomination for election as a director must set forth:

the name and address of the shareholder who intends to make the nomination and of the person or persons to be nominated;

a representation that the shareholder is a holder of record of our stock entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to nominate the person or persons specified in the notice;

a description of all arrangements or understandings between the shareholder and each nominee and any other person or persons, naming such person or persons, pursuant to which the nomination or nominations are to be made by the shareholder;

such other information regarding each nominee proposed by such shareholder as would have been required to be included in a proxy statement filed pursuant to the proxy rules of the Securities and Exchange Commission had each nominee been nominated, or intended to be nominated, by our board;

the consent of each nominee to serve as a director if so elected; and

if the shareholder intends to solicit proxies in support of such shareholder's nominee(s), a representation to that effect.

The notice to bring any other matter a shareholder proposes to bring before an annual meeting must also set forth:

a brief description of the proposal and the reasons therefor;

if the proposal involves an amendment to our amended and restated articles of incorporation or amended and restated by-laws, the language of the amendment;

any material interest of the shareholder in the proposal; and

if the shareholder intends to solicit proxies with respect to the proposal, a representation to that effect.

Table of Contents

Our By-laws limit the business that may be conducted at a special meeting to the purposes stated in the notice of the meeting. The advance notice provisions may delay a person from bringing matters before a shareholder meeting. The provisions may provide enough time for us to begin litigation or take other steps to respond to these matters, or to prevent them from being acted upon, if we find it desirable.

Certain Provisions of the Indiana Business Corporation Law

As an Indiana corporation, we are governed by the Indiana Business Corporation Law (the **IBCL**). Under specified circumstances, the following provisions of the IBCL may delay, prevent or make more difficult unsolicited acquisitions or changes of control of the Company. These provisions also may have the effect of preventing changes in our management. It is possible that these provisions could make it more difficult to accomplish transactions which shareholders may otherwise deem to be in their best interest.

Control Share Acquisitions. Under Sections 23-1-42-1 through 23-1-42-11 of the IBCL, an acquiring person or group who makes a control share acquisition in an issuing public corporation may not exercise voting rights on any control shares unless these voting rights are conferred by a majority vote of the disinterested shareholders of the issuing corporation at a special meeting of those shareholders held upon the request and at the expense of the acquiring person. If control shares acquired in a control share acquisition are accorded full voting rights and the acquiring person has acquired control shares with a majority or more of all voting power, all shareholders of the issuing public corporation have dissenters' rights to receive the fair value of their shares pursuant to Section 23-1-44 of the IBCL.

Under the IBCL, control shares means shares acquired by a person that, when added to all other shares of the issuing public corporation owned by that person or in respect to which that person may exercise or direct the exercise of voting power, would otherwise entitle that person to exercise voting power of the issuing public corporation in the election of directors within any of the following ranges:

one-fifth or more but less than one-third;

one-third or more but less than a majority; or

a majority or more.

Control share acquisition means, subject to specified exceptions, the acquisition, directly or indirectly, by any person of ownership of, or the power to direct the exercise of voting power with respect to, issued and outstanding control shares. For the purposes of determining whether an acquisition constitutes a control share acquisition, shares acquired within 90 days or under a plan to make a control share acquisition are considered to have been acquired in the same acquisition. Issuing public corporation means a corporation which is organized in Indiana and has (i) 100 or more shareholders, (ii) its principal place of business, its principal office or assets having a fair market value of more than \$1,000,000 within Indiana and (iii) (A) more than 10% of its shareholders resident in Indiana, (B) more than 10% of its shares owned by Indiana residents or (C) 1,000 shareholders resident in Indiana.

The above provisions do not apply if, before a control share acquisition is made, the corporation's articles of incorporation or by-laws, including a board adopted by-law, provide that they do not apply. Our amended and restated articles of incorporation and amended and restated by-laws do not currently exclude us from the restrictions imposed by the above provisions.

Certain Business Combinations. Sections 23-1-43-1 through 23-1-43-24 of the IBCL restrict the ability of a resident domestic corporation to engage in any combinations with an interested shareholder for five years after the date the interested shareholder became such, unless the combination or the purchase of shares by the interested shareholder on the interested shareholder's date of acquiring shares is approved by the Board of Directors of the resident domestic corporation before that date. If the combination was not previously approved,

the interested shareholder may effect a combination after the five-year period only if that shareholder receives approval from a majority of the disinterested shares or the offer meets specified fair price criteria. For purposes of the above provisions, resident domestic corporation means an Indiana corporation that has 100 or more shareholders.

Interested shareholder means any person, other than the resident domestic corporation or its subsidiaries, who is (1) the beneficial owner, directly or indirectly, of 10% or more of the voting power of the outstanding voting shares of the resident domestic corporation or (2) an affiliate or associate of the resident domestic corporation, which at any time within the five-year period immediately before the date in question was the beneficial owner, directly or indirectly, of 10% or more of the voting power of the then outstanding shares of the resident domestic corporation. The above provisions do not apply to corporations that so elect in an amendment to their articles of incorporation approved by a majority of the disinterested shares. That amendment, however, cannot become effective until 18 months after its passage and would apply only to share acquisitions occurring after its effective date. Our amended and restated articles of incorporation do not exclude us from the restrictions imposed by the above provisions.

Directors Duties and Liability. Under Section 23-1-35-1 of the IBCL, directors are required to discharge their duties:

in good faith;

with the care an ordinarily prudent person in a like position would exercise under similar circumstances; and

in a manner the directors reasonably believe to be in the best interests of the corporation.

However, the IBCL also provides that a director is not liable for any action taken as a director, or any failure to act, unless the director has breached or failed to perform the duties of the director's office and the action or failure to act constitutes willful misconduct or recklessness. The exoneration from liability under the IBCL does not affect the liability of directors for violations of the federal securities laws.

Section 23-1-35-1 of the IBCL also provides that a Board of Directors, in discharging its duties, may consider, in its discretion, both the long-term and short-term best interests of the corporation, taking into account, and weighing as the directors deem appropriate, the effects of an action on the corporation's shareholders, employees, suppliers and customers and the communities in which offices or other facilities of the corporation are located and any other factors the directors consider pertinent. Directors are not required to consider the effects of a proposed corporate action on any particular corporate constituent group or interest as a dominant or controlling factor. If a determination is made with the approval of a majority of the disinterested directors of the board, that determination is conclusively presumed to be valid unless it can be demonstrated that the determination was not made in good faith after reasonable investigation. Section 23-1-35-1 specifically provides that specified judicial decisions in Delaware and other jurisdictions, which might be looked upon for guidance in interpreting Indiana law, including decisions that propose a higher or different degree of scrutiny in response to a proposed acquisition of the corporation, are inconsistent with the proper application of the business judgment rule under the IBCL.
