SDRL - Seadrill secures long-term contracts for two jack-up rigs

Hamilton, Bermuda, August 9, 2011 - Seadrill has been awarded two new contracts by KJO (AL-Khafji Joint Operations) in the joint development zone between the Kingdom of Saudi Arabia and Kuwait for the jack-up rigs West Triton and Offshore Resolute. The assignments which will commence in direct continuation of their current contracts in Southeast Asia are each for a firm period of 3 years plus the time required to mobilize to the Arabian Gulf. Each contract also includes an option for KJO to extend the term for a further 1 year.

Alf C. Thorkildsen, Chief Executive Officer in Seadrill Management AS says, "These new contracts will strengthen the relationship with KJO, one of the key customers in the Arabian Gulf. In addition, relocating two rigs for term work and at attractive market rates serves our strategic desire to increase our long term presence in this active oil and gas region."

SDRL - North Atlantic Drilling Ltd. takes delivery of the harsh environment jack-up rig West Elara

Hamilton, Bermuda, August 9, 2011 - North Atlantic Drilling Ltd., in which Seadrill has a 75 percent ownership, has taken delivery of the new harsh environment jack-up drilling rig, West Elara from Jurong Shipyard in Singapore. The rig is expected to depart Singapore on August 11th and arrive at Westcon Shipyard in Ølen, Norway in early October in order to undertake final contract preparation activities. The West Elara is expected to begin operations for Statoil on a five- year contract during late November 2011.

The West Elara is the first of two Gusto MSC CJ70 150A rigs to be constructed for North Atlantic Drilling Ltd. The rig is an advanced, ultra large, harsh environment, high specification drilling unit, specifically built for Norwegian requirements and matching the specifications of the largest jack-up drilling units in the world. The unit can operate in water depth up to 150 meters with a higher variable deck load and a higher operating efficiency compared to earlier generation jack-ups. The size of the unit allows for additional opportunities in terms of logistics, well testing and early production.

Alf C. Thorkildsen, Chief Executive Officer in Seadrill Management AS and Chairman of North Atlantic Drilling Ltd, said, "We are pleased to take delivery of the West Elara, the first of two new ultra large and harsh environment jack-ups to be added to the North Atlantic Drilling fleet. We look forward to seeing this new and advanced drilling unit operating on the Norwegian Continental Shelf, creating growth for North Atlantic Drilling ahead of its listing on the Oslo Stock Exchange, increasing our presence in this key region and further strengthening our relationship with Statoil, one of our most important customers."

SDRL - 2011 Annual General Meeting

Hamilton, Bermuda, July 19, 2011 - Seadrill advises that its 2011 Annual General Meeting will be held on September 23, 2011. The record date for voting at the Annual General Meeting is set to July 19, 2011. The notice, agenda and associated material will be distributed prior to the meeting.

This information is subject of the disclosure requirements acc. to §5-12 vphl (Norwegian Securities Trading Act)

SDRL - Mandatory notification of trade

Hamilton, Bermuda, July 18, 2011 - In connection with the Company's Employee Share Ownership Plan (ESOP), eligible option holders have exercised options to acquire 99,733 common shares at strike price varying from NOK52.32 to NOK104.64 per share.

The Company has used treasury shares to settle the obligation related to the share option plan. Consequently, Seadrill has reduced its holding of treasury shares from 2,561,458 shares to 2,461,725.

This information is subject of the disclosure requirements acc. to §5-12 vphl (Norwegian Securities Trading Act)

SDRL - Seadrill acquires ownership stake in the jack-up rig company Asia Offshore Drilling Limited

Hamilton, Bermuda, July 1, 2011 - Seadrill has participated in a private placement in Asia Offshore Drilling Limited and has been allocated shares for US\$54 million which corresponds to a 33.75 percent ownership stake.

Asia Offshore Drilling was established by Mermaid Maritime Public Company Limited in late 2010 when two MOD-V B Class jack-up rigs were ordered at Keppel FELS in Singapore. Asia Offshore Drilling had in addition option agreements for construction of two similar units. The proceeds from the private placement will be used to exercise the first of the two options. Mermaid will following the private placement have an ownership share of 33.75 percent in Asia Offshore Drilling.

Furthermore, it has been agreed that Seadrill will be responsible for the construction supervision, project management, and commercial management of all of Asia Offshore Drilling's jack-up rigs.

Asia Offshore Drilling has applied for listing on Oslo Axess.

SDRL - Seadrill sells the jack-up rig West Janus

Hamilton, Bermuda, June 21, 2011 - Seadrill has entered into an agreement to sell the 1985 built jack-up drilling rig West Janus to Harrington LLC in Dubai for a total consideration of US\$73 million.

Seadrill expects to record a gain on the sale in excess of US\$50 million on closing. Closing of the agreement and the transfer of ownership of the unit is scheduled upon completion of the rig's present drilling assignment in the second half of 2011.

Seadrill's fleet of jack-up rigs remains the world largest modern jack-up fleet with a total of 19 units built after 2006, including rigs under construction. Furthermore, Seadrill has options for construction of six further units at attractive prices.

Alf C Thorkildsen, CEO of Seadrill Management AS says, "We remain optimistic about the market outlook for premium jack-up rigs, and at the same time continue to highgrade our fleet by disposing some older units, whilst adding new rigs to it. The disposal of West Janus further reduces the average age of the modern Seadrill jack-up fleet to 2.6 years, and is in line with our strategy of focusing our company on modern, premium offshore drilling units."

SDRL - Seadrill orders new semi-tender for delivery in 2013

Hamilton, Bermuda, June 9, 2011 - Seadrill has today entered into an agreement with Keppel FELS Limited in Singapore to build a new semi-submersible self-erecting tender rig (semi-tender). Total project price for the rig is estimated at below US\$200 million (including the drilling equipment set, project management, spares, capitalized interest and operation preparation).

The new rig is scheduled for delivery in the second quarter 2013 and will be based on a similar design and specification as the semi-tender West Jaya, which was delivered from the Keppel FELS yard in March this year and is contracted for a minimum of two years. Similar to previous semi-tenders, the new unit is suited for harsher environment and deepwater drilling operations in combination with floating wellhead platforms such as Tension Leg Platforms and Spars.

The new unit is based on the KFELS SSDT 3600E design and adds to the seven semi-tenders that Keppel has earlier built for Seadrill since the launch of the design in 1994. The unit will feature a crane capacity of 250 tones, four mud pumps and accommodation for 160 people.

Alf C Thorkildsen, Chief Executive Officer of Seadrill Management AS says, "We are pleased to announce the addition of a new semi-tender to our existing fleet of 19 tender rigs. The tender rig business has delivered excellent operational results as well as outstanding economics over the last decade. Based on the continued strength of the offshore drilling market we continue to see strong growth and earnings potential for our business. The new semi-tender has a favorable construction price and an equipment specification list that will meet our customers' future needs. We have had very good experience with the Keppel FELS yard and this design and we are confident that the new unit will be delivered on time and within budget once again. "

SDRL - Seadrill secures new jack-up contract in Bangladesh

Hamilton, Bermuda, June 6, 2011 - Seadrill has been awarded a new contract by a subsidiary of Santos Ltd. for the jack-up rig Offshore Resolute. The assignment for operations in Bangladesh will have a minimum duration of 130 days under a three firm well plus two optional wells contract. Commencement of operations under the new contract is scheduled for early third quarter 2011, in direct continuation of the rig's existing contract. The estimated contract value is USD \$17.5 million for the firm 130 day minimum duration period.

SDRL - Dividend information

Hamilton, Bermuda, June 3, 2011 - Reference is made to the first quarter 2011 report released on May 27, 2011. Seadrill Limited will be trading ex-dividend of a cash dividend of US\$0.75 per share on June 6, 2011.

The record date is June 8, 2011, and the dividend will be paid on or about June 17, 2011.

This information is subject of the disclosure requirements pursuant to section 5-12 of the Norwegian Securities Trading Act.

SDRL - Seadrill secures new jack-up contract in Thailand

Hamilton, Bermuda, May 31, 2011 - Seadrill has been awarded a new contract by PTTEP in Thailand for the jack-up rig West Leda. The assignment is for a firm period of nine months and with an option to extend for a further six months. The contract value for the firm period is approximately US\$35 million. Commencement of the operations under the new contract is scheduled for late second quarter 2011, in direct continuation of the rig's existing contract.

Alf C Thorkildsen, Chief Executive Officer in Seadrill Management AS, says, "We are pleased to secure a new contract for one of our jack-ups in the South East Asia region. We consider this as an excellent opportunity to further strengthening our relationship with PTTEP, one of our key customers. Representing a total contract value of US\$35 million, this assignment improves the earnings visibility for our jack-ups."
