Regular Record Dates for Interest:	The 15th calendar day preceding each Interest Payment Date, whether or not such day is a Business Day.
Payment of Additional Amounts:	In the event that BP is required to withhold any taxes by the laws of the jurisdiction in which BP is incorporated from a payment under the guarantees, BP will be required, subject to certain exceptions, to pay you an additional amount so that the net amount you receive is the amount specified in the 2025 Notes to which you are entitled.
Listing:	Application will be made to list the 2025 Notes on the New York Stock Exchange although neither BP Capital America nor BP can guarantee such listing will be obtained.
Redemption:	The 2025 Notes are not redeemable, except as described under "Description of Debt Securities and Guarantees - Optional Tax Redemption" on page 19 of the prospectus and as described below under "Optional Redemption". The provision for optional tax redemption described in the prospectus will apply in respect of changes in tax treatments occurring after September 18, 2018.
Optional Redemption:	Prior to July 21, 2025 (the date that is two months prior to the scheduled maturity date for the 2025 Notes), BP Capital America has the right to redeem the 2025 Notes, in whole or in part, at any time and from time to time at a redemption price equal to the greater of (i) 100% of the principal amount of the 2025 Notes to be redeemed and (ii) the sum of the present values of the remaining scheduled payments of principal and interest on the 2025 Notes to be redeemed that would be due if such notes matured on July 21, 2025 (not including any portion of payments of interest accrued and unpaid to the redemption date) discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the treasury rate plus 15 basis points, plus in each case accrued and unpaid interest to the date of redemption. On or after July 21, 2025 (the date that is two months prior to the scheduled maturity date for the 2025 Notes), BP Capital America has the right to redeem the 2025 Notes, in whole or in part, at any time and from time to time at a redemption price equal to 100% of the principal amount of the 2025 Notes to be redeemed, plus accrued and unpaid interest, if any, thereon to, but excluding, the date of redemption. For purposes of determining the optional redemption price, the following definitions are applicable. Treasury rate means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity or interpolated (on a day count basis) of the comparable treasury issue, assuming a price for the comparable treasury issue (expressed as a percentage of its principal amount) equal to the comparable treasury price for such redemption date. Comparable treasury issue means the U.S. Treasury security or securities selected by the quotation agent as having an actual or interpolated maturity comparable to the remaining term of the 2025 Notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of such notes. Comparable treasury price means, with respect to any redemption date, the average of the reference treasury dealer quotations for such redemption date. Quotation agent means
