Forward Looking Statements

This Annual Report on Form 10-K, including any information incorporated by reference, contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, referred to as the “Securities Act”, and Section 21E of the Securities Exchange Act of 1934, as amended, referred to as the “Exchange Act”. In some cases, you can identify forward-looking statements by terms such as “may,” “will,” “should,” “expect,” “plan,” “intend,” “forecast,” “anticipate,” “believe,” “estimate,” “predict,” “potential,” “seeks”, “estimates” or the negative of these terms or other comparable terminology, which when used are meant to signify the statement as forward-looking. However, not all forward-looking statements contain these words. Forward-looking statements include, but are not limited to, statements about our plans, objectives, expectations and intentions and other statements that are not historical facts. These forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties and situations that are difficult to predict and that may cause our own, or our industry’s actual results, to be materially different from the future results that are expressed or implied by these statements. Accordingly, actual results may differ materially from those anticipated or expressed in such statements as a result of a variety of factors, including those set forth under Item 1A “Risk Factors” in this Annual Report on Form 10-K.

Business

Introduction – Willamette Valley Vineyards, Inc. (“the Company” or “WVV”) was formed in May 1988 to produce and sell premium, super premium and ultra-premium varietal. The Company was originally established as a sole proprietorship by Oregon winegrower Jim Bernau in 1983. The Company is headquartered south of Salem, in Turner, Oregon. The Company’s wines are made from grapes grown in vineyards owned, leased or contracted by the Company, and from grapes purchased from other nearby vineyards. The grapes are harvested, fermented and made into wine at the Company’s Turner winery (the “Estate Winery” or “Winery”) and the wines are sold principally under the Company’s Willamette Valley Vineyards label, but also under the Griffin Creek and Tualatin Estates labels. The Company also owns the Tualatin Estate Vineyards and Winery, located near Forest Grove, Oregon (the “Tualatin Winery”).

Products – Under its Willamette Valley Vineyards label, the Company produces and sells the following types of wine in 750 ml bottles: Pinot Noir, the brand’s flagship and its largest selling varietal in 2014, \$22 to \$100 per bottle; Chardonnay, \$25 to \$45 per bottle; Pinot Gris, \$16 per bottle; Rose, \$24 per bottle; and Riesling, \$14 per bottle (all bottle prices included herein are the suggested retail prices). The Company’s mission for this brand is to become the premier producer of Pinot Noir from the Pacific Northwest.

Under its Tualatin Estate Vineyards label, the Company currently produces and sells the following type of wine in 750 ml bottles: Semi-Sparkling Muscat, \$19 per bottle.

Under its Griffin Creek label, the Company produces and sells the following types of wine in 750 ml bottles: Syrah, the brand’s flagship, \$40 per bottle; Merlot, \$40 per bottle; Cabernet Sauvignon, \$40 per bottle; Cabernet Franc, \$40 per bottle; The Griffin (a Bordeaux style blend), \$60 per bottle; and Viognier, \$30 per bottle. This brand’s mission is to be the highest quality producer of Bordeaux and Rhone varietals in Oregon.

Under its Made in Oregon Cellars label, the Company produces and sells the following type of wine in 750 ml bottles: Oregon Blossom (blush blend), \$12 per bottle.

The Company holds U.S. federal and/or Oregon state trademark registrations for the trademarks material to the business, including but not limited to, the WILLAMETTE VALLEY VINEYARDS, GRIFFIN CREEK, WILLAMETTE, SIP.SAVE, WHOLE CLUSTER, MADE IN OREGON CELLARS, OREGON BLOSSOM, and IT'S WILLAMETTE, DAMMIT marks.

ITEM 1. BUSINESS - continued

Market overview – The United States wine industry has seen a rapid increase in the number of wineries that are being established throughout the country. From 1995 to 2014, U.S. wineries grew in number from 1,817 to 7,762. In addition, wineries are classified as one of the fastest growing segments in agriculture with an average annual growth of 10–15%.

The United States is the largest wine market in terms of revenues and volume. According to Impact Databank, U.S. wine sales have been growing at a rate of 2–3% per year for the past 21 years. In 2013, the most recent year such data is available, U.S. wine sales reached \$36.3 billion, a 5% increase from 2012. The U.S. wine volume reached 329 million cases in 2013 with France in second place at 313 million cases. The U.S. also leads as the largest wine-consuming nation with over 101 million people drinking wine, approximately 44% of all U.S. adults.

U.S. wineries also increased production in 2013, the most recent year such data is available, by 6.3% while the average price per bottle rose from \$9 to \$10.85. Pinot Noir is one of the highest-priced varietals on the market, yet its sales have nearly tripled in the U.S. since the movie *Sideways* was released in 2004. Inexpensive Pinot Noir brands, which are those brands priced below the industry average, are now outpacing higher priced Pinot Noir brands, by roughly twice the rate for both domestic and imported wines, according to Impact Databank, a provider of data on the wine industry owned by M. Shanken Communications, the parent company of Wine Spectator.

In 2013, the most recent year such data is available, 57% of all wine drinkers were considered “core” drinkers according to a Wine Market Council report. “Core” drinkers, meaning they drink wine on a fairly consistent weekly or monthly basis, account for 25% of the United States adult population and consume 93% of wine by volume. The “core” drinker segment continues to grow, mostly driven by younger Millennials, aged 21 to 26, with an average “core” drinker age of 47.8 years old. Of younger Millennials, 28% report drinking wine daily while 19% of older Millennials, aged 26 to 36, report drinking daily. Millennials represent 29% of the U.S. adult population but consume 38% of the wine consumed in the U.S. by volume. Unlike previous generations, which typically did not drink wine regularly until they reached their 40s, younger consumers are discovering wine in their 20s and 30s. Baby Boomers (ages 49 to 67) continue to be an important market segment making up 38% of all wine drinkers and consuming 32% of wine by volume.

The Oregon wine industry – Oregon is a relatively new wine-producing region in comparison to California and France. In 1966, there were only two commercial wineries licensed in Oregon. In 2013, the most recent year such data is available, there were 605 commercial wineries licensed in Oregon and 25,448 acres of wine grape vineyards, 23,955 acres of which are currently producing. Oregon wine grapes produced a crop with a total value of \$128 million, making grapes the number one fruit crop in the state. Total production of Oregon wines in 2013 is estimated at 3.3 million cases, up from 2.6 million cases in 2011. Oregon case sales in 2013 are estimated at 2.4 million, up from 2 million in 2011. Case sales, in dollars, for 2013 are estimated to be \$311.7 million. The sum of all economic activity in Oregon related directly or indirectly to wine is now more than \$3.3 billion annually, up from \$2.7 billion in 2010.

Because of climate, soil and other growing conditions, the Willamette Valley in western Oregon is ideally suited to growing superior quality Pinot Noir, Chardonnay, Pinot Gris and Riesling wine grapes. Some of Oregon’s Pinot Noir, Pinot Gris and Chardonnay wines have developed outstanding reputations, winning numerous national and international awards.

Oregon does have certain disadvantages as a new wine-producing region. Oregon’s wines are relatively little known to consumers worldwide and the total wine production of Oregon wineries is small relative to California and French competitors. Greater worldwide label recognition and larger production levels give Oregon’s competitors certain financial, marketing, distribution and unit cost advantages.

Furthermore, Oregon's Willamette Valley has an unpredictable rainfall pattern in early autumn. If significantly above-average rains occur just prior to the autumn grape harvest, the quality of harvested grapes is often materially diminished, thereby affecting that year's wine quality.

ITEM 1. BUSINESS - continued

Finally, phylloxera, an aphid-like insect that feeds on the roots of grapevines, has been found in several commercial vineyards in Oregon. Contrary to the California experience, most Oregon phylloxera infestations have expanded very slowly and done only minimal damage. Nevertheless, phylloxera does constitute a significant risk to Oregon vineyards. Prior to the discovery of phylloxera in Oregon, all vine plantings in the Company's Estate Vineyard, in Turner, Oregon, were with non-resistant rootstock. As of December 31, 2014, the Company has not detected any phylloxera at its Turner site. Beginning with the Company's plantings in May 1992, only phylloxera-resistant rootstock is used. In 1997, the Company purchased Tualatin Vineyards at the Tualatin Winery, which has phylloxera at its site. All current plantings are with, and all future planting will be with phylloxera-resistant rootstock at that location. The Company takes commercially reasonable precautions in an effort to prevent the spread of phylloxera to its Turner site.

As a result of these factors, subject to the risks and uncertainties identified in this Annual Report, the Company believes that long-term prospects for growth in the Oregon wine industry are excellent. The Company believes that over the next several years the Oregon wine industry will grow at a faster rate than the overall domestic wine industry, and that much of this growth will favor producers of premium, super premium and ultra-premium wines such as the Company's.

2013 Oregon harvest – The Oregon Vineyard and Winery Census Report states that the total grapes crushed in Oregon rose 2.4%, compared to 2012, to a record high of 52,588 tons. Pinot Noir continued to lead statewide production representing 58% of the tonnage grown and crushed. Yield increased to an average 2.59 tons per acre from 21,681 harvested acres.

2014 Oregon harvest – There is no official data available on the 2014 Oregon harvest as of the date of this report.

Company Strategy

The Company, one of the largest wine producers in Oregon by volume, believes its success is dependent upon its ability to: (1) grow and purchase high quality vinifera wine grapes; (2) vinify the grapes into premium, super premium and ultra-premium wine; (3) achieve significant brand recognition for its wines, first in Oregon and then nationally and internationally; (4) effectively distribute and sell its products nationally; and (5) continue to build on its base of direct to consumer sales. The Company's goal is to continue to build on a reputation for producing some of Oregon's finest, most sought-after wines.

Based upon several highly regarded surveys of the U.S. wine industry, the Company believes that successful wineries exhibit the following four key attributes: (i) focus on production of high-quality premium, super premium and ultra-premium varietal wines; (ii) achieve brand positioning that supports high bottle prices for its high quality wines; (iii) build brand recognition by emphasizing restaurant sales; and (iv) develop strong marketing advantages (such as a highly visible winery location, successful support of distribution, and life-long customer service programs).

To successfully execute this strategy, the Company has assembled a team of accomplished winemaking professionals and has constructed and equipped the Estate Winery into a 12,784 square foot state-of-the-art winery that includes a 12,500 square foot outdoor production area for the harvesting, pressing and fermentation of wine grapes.

The Company's marketing and selling strategy is to sell its premium, super premium and ultra-premium cork-finished-wine through a combination of direct sales at the Estate Winery, the McMinnville Tasting Room in McMinnville, Oregon and Tualatin Winery and sales through independent distributors and wine brokers who market the Company's wine in specific targeted areas.

The Company believes the location of the Estate Winery next to Interstate 5, Oregon's major north-south freeway, significantly increases direct sales to consumers. The Company believes this location provides high visibility for the Winery to passing motorists, thus enhancing recognition of the Company's products in retail outlets and restaurants. The Company's recently remodeled Hospitality Center, at the Estate Winery, has further increased the Company's direct sales and enhanced public recognition of its wines.

ITEM 1. BUSINESS - continued

Vineyards

The Company owns and leases approximately 654 acres of land, of which 529 acres are currently planted as vineyards or is suitable for future vineyard planting. The vineyards the Company owns and leases are all certified sustainable by LIVE (Low Input Viticulture and Enology) and Salmon Safe. At full production, the Company anticipates these vineyards would enable the Company to grow approximately 70% of the grapes needed to meet the winery's production capacity, of 314,000 gallons (132,000 cases), at its Estate Winery.

The following table summarizes the Company's acreage:

WVV Estate –Established in 1983, the Company's Estate Vineyard (the "Estate Vineyard") is located at the Winery location south of Salem, near Turner, Oregon. The Estate Vineyard uses an elaborate trellis design known as the

Geneva Double Curtain. The Company has incurred the additional expense of constructing this trellis because it doubles the number of canes upon which grape clusters grow and spreads these canes for additional solar exposure and air circulation. Research and practical applications of this trellis design indicate that it should improve grape quality through smaller clusters and berries over traditional designs. The Company planted four acres in 2014 and intends to plant an additional two acres in 2015.

Tualatin Estate Vineyards – Established in 1973 at the Tualatin Winery location near Forest Grove, Oregon, the Company’s Tualatin Estate Vineyards (the “Tualatin Vineyards”) is one of the oldest vineyards in Oregon. It was purchased by the Company in 1997. A series of sale-leaseback transactions split the property into two additional vineyards, and the Company continues to lease and manage the Peter Michael Vineyards and Meadowview Vineyards, located adjacent to the Tualatin Vineyards. The Company intends to replant approximately nine acres in 2015.

Ingram and Elton Vineyards – The Company purchased 86 acres near Hopewell, Oregon, for vineyard plantings. Adjacent to the purchased land is an additional 109 leased acres, also for vineyard development. The Company believes the site is ideally situated to grow premium Pinot Noir and planted 44 acres in 2014. The Ingram site is also adjacent to Elton Vineyards, where the Company leases 54 acres of established vineyards. The Company intends to plant 35 leased acres at Ingram and two acres at Elton in 2015.

Loeza Vineyards – The Company purchased 62 acres near Gaston, Oregon in 2014, for vineyard plantings, and believes the site is ideally situated to grow premium Pinot Gris. The site is close to Tualatin Vineyards which allows the Company to leverage existing crews for vineyard development and operations. The Company intends to plant 58 acres in 2015.

ITEM 1. BUSINESS - continued

Grape Vines - Beginning in 1997, the Company embarked on a major effort to improve the quality of its flagship varietal by planting new Pinot Noir clones that originated directly from the cool climate growing region of Burgundy rather than the previous source, Napa, California, where winemakers believe the variety adapted to the warmer climate over the many years it was grown there.

These new French clones are called “Dijon clones” after the University of Dijon in Burgundy, which assisted in their selection and shipment to a U.S. government authorized quarantine site, and then two years later to Oregon winegrowers. The most desirable of these new Pinot Noir clones are numbered 113, 114, 115, 667, 777 and 943. In addition to certain flavor advantages, these clones ripen up to two weeks earlier, allowing growers to pick before heavy autumn rains. Heavy rains can dilute concentrated fruit flavors and promote bunch rot and spoilage. These Pinot Noir clones were planted at the Tualatin Vineyards with phylloxera-resistant rootstock and the 667 and 777 clones have been grafted onto seven acres of self-rooted, non-phylloxera-resistant vines at the Company’s Estate Vineyard. The Company also planted 943 clones at its Estate and Ingram Vineyards in 2015.

New clones of Chardonnay preceded Pinot Noir into Oregon and were planted at the Company’s Estate Vineyard with phylloxera-resistant rootstock.

Grape supply – In 2014, the Company’s 57 producing acres in the Estate Vineyard yielded approximately 227 tons of grapes. Tualatin/Peter Michael/Meadowview Vineyards produced 781 tons of grapes in 2014. Elton Vineyards produced 203 tons of grapes in 2014.

The Company fulfills its remaining grape needs by purchasing grapes from other nearby vineyards at competitive prices or from bulk wine purchases from neighboring wineries. In 2014, the Company purchased an additional 970 tons of grapes from other growers. The Company cannot grow enough grapes to meet anticipated production needs, and therefore contracts grape purchases to make up the difference. Contracted grape purchases are considered an important component of the Company’s long-term growth and risk-management plan. The Company believes high quality grapes and bulk wine will be available for purchase in sufficient quantity to meet the Company’s requirements. Additionally, the Company will continue to evaluate opportunities to purchase properties for future vineyards.

The grapes grown on the Company’s vineyards establish a foundation of quality, through the Company’s farming practices, upon which the quality of the Company’s wines is built. In addition, wine produced from grapes grown in the Company’s own vineyards may be labeled as “Estate Bottled” wines. These wines traditionally sell at a premium over non-estate bottled wines.

Viticultural conditions – Oregon’s Willamette Valley is recognized as a premier location for growing certain varieties of high quality wine grapes, particularly Pinot Noir, Chardonnay, Riesling and Pinot Gris. The Company believes that the Estate Vineyard’s growing conditions, including its soil, elevation, slope, rainfall, evening marine breezes and solar orientation are among the most ideal conditions in the United States for growing certain varieties of high-quality wine grapes. The Estate Vineyard’s grape growing conditions compare favorably to those found in some of the famous Viticultural regions of France. Western Oregon’s latitude (42o–46o North) and relationship to the eastern edge of a major ocean is very similar to certain centuries-old wine grape growing regions of France.

The Estate Vineyard’s soil type is Jory/Nekia, a dark, reddish-brown, silky clay loam over basalt bedrock, noted for being well drained, acidic, of adequate depth, retentive of appropriate levels of moisture and particularly suited to growing high quality wine grapes.

The Estate Vineyard's elevation ranges from 533 feet to 700 feet above sea level with slopes from 2% to 30% (predominately 12-20%). The Estate Vineyard's slope is oriented to the south, southwest and west. Average annual precipitation at the Estate Vineyard is 41.3 inches; average annual air temperature is 52 to 54 degrees Fahrenheit, and the length of each year's frost-free season averages from 190 to 210 days. These conditions compare favorably with conditions found throughout the Willamette Valley viticultural region and other domestic and foreign viticultural regions, which produce high quality wine grapes.

In the Willamette Valley, permanent vineyard irrigation generally is not required. The average annual rainfall provides sufficient moisture to avoid the need to irrigate the Estate Vineyard. However, if the need should arise, the Company's Estate property contains one water well which can sustain sufficient volume to meet the needs of the Winery and to provide auxiliary water to the Estate Vineyard for new plantings and unusual drought conditions. At the Tualatin Vineyard, the Company has water rights to a year round spring that feeds an irrigation pond.

ITEM 1. BUSINESS - continued

Susceptibility of vineyards to disease – The Tualatin Vineyard and the adjacent leased vineyards are known to be infested with phylloxera, an aphid-like insect, which can destroy vines. The Company has not detected any phylloxera at its Estate Vineyard or Loeza Vineyard.

It is not possible to estimate any range of loss that may be incurred due to the phylloxera infestation of the Company's vineyards. The phylloxera at Tualatin Vineyard is believed to have been introduced on the roots of the vines first planted on the property in the southern most section Gewurztraminer in 1971 that the Company partially removed in 2004. The remaining vines, and all others infested, remain productive at low crop levels. The Company is in the process of gradually replacing infested areas with new, phylloxera-resistant vines.

Winery

Wine production facility – The Company's Winery and production facilities are capable of efficiently producing up to 132,000 cases (314,000 gallons) of wine per year, depending on the type of wine produced. In 2014, the Winery produced approximately 271,300 gallons (108,958 cases) from its 2012 and 2013 harvest. The Company expects to produce approximately 286,000 gallons in 2015 (120,100 cases) from its 2013 and 2014 harvests.

The Winery is 12,784 square feet in size and contains areas for processing, fermenting, aging and bottling wine, as well as an underground wine cellar, and administrative offices. There is a 12,500 square foot outside production area for harvesting, pressing and fermenting wine grapes, and a 4,500 square foot insulated storage facility with a capacity of approximately 30,000 cases of wine. The Company also has a 23,000 square foot storage building to store its inventory of bottled product with a capacity of approximately 135,000 cases of wine. The production area is equipped with a settling tank and sprinkler system for disposing of wastewater from the production process in compliance with environmental regulations.

In addition to the production capacity discussed above, the Tualatin Winery has 20,000 square feet of production capacity. This adds approximately 25,000 cases (59,000 gallons) of wine production capacity to the Company. The capacity at the Tualatin Winery is available to the Company to meet any anticipated future production needs. In 2008, the Company replaced the roof and production floor, insulation and walls, in anticipation of using it for wine storage and future production.

Hospitality facility – The Company has a recently renovated tasting and hospitality facility of 35,642 square feet (the "Hospitality Center") at the Estate Winery. The main floor of the Hospitality Center includes retail sales space with the Estate Tasting Room, Club Room for Wine Club Members, dining area and mezzanine, which altogether are designed to accommodate approximately 300 persons for tastings, wine and food pairing meals, public and private events and meetings. An iconic observation tower and tiered decks around the Hospitality Center enable visitors to enjoy the view of the Willamette Valley and the Company's Estate Vineyard. The tiered decks funnel into an outdoor courtyard that hosts many seasonal gatherings. To the south side of the tiered decks the Company has two hospitality suites for overnight accommodations. The Hospitality Center sits above the underground barrel cellar and tunnel that connects with the Winery. The facility includes a basement cellar, tunnel and barrel room of 11,090 square feet including a recent expansion of 2,190 square feet to now store up to 1,800 barrels of wine for aging in the proper environment.

Just outside the Hospitality Center, the Company has a landscaped park setting consisting of terraced lawns for outdoor events. The area between the Winery and Hospitality Center form a 20,000 square foot quadrangle. As designed, a removable fabric top can cover the quadrangle, making it an all-weather outdoor facility to promote the sale of the Company's wines through festivals and social events. Above the Company's working Winery houses the Pinot Room and Founders' Room, which can accommodate 40 persons and 111 persons for public and private events.

ITEM 1. BUSINESS - continued

The Company believes the Hospitality Center and surrounding areas make the Winery an attractive recreational and social destination for tourists and residents, thereby enhancing the Company's ability to sell its wines.

Mortgages on properties – The Company's winery facilities at the Estate Winery are subject to four mortgages with an aggregate principal balance of \$5,502,294 at December 31, 2014. The mortgages are payable in monthly aggregate installments, including principal and interest, of approximately \$53,058. The maturity dates of the mortgages range from December 1, 2024 through December 1, 2028.

Wine production – The Company operates on the principle that winemaking is a natural but highly technical process requiring the attention and dedication of the winemaking staff. The Company's Winery is equipped with current technical innovations and uses modern laboratory equipment and computers to monitor the progress of each wine through all stages of the winemaking process.

The Company's recent annual grape harvest and wine production is as follows:

Harvest Year	Tons of Grapes Grown	Tons of Grapes Purchased	Total Tons of Grapes Harvested	Gallons of Bulk Purchases	Production Year	Cases Produced

Sales and Distribution

Marketing strategy – The Company markets and sells its wines through a combination of direct sales at the Winery, directly through mailing lists, and through distributors and wine brokers. As the Company has increased production volumes and achieved greater brand recognition, sales to out of state markets have increased, both in terms of absolute dollars and as a percentage of total Company sales.

The Company uses a variety of marketing channels to generate interest in its wines. The Company has created a new, highly functional website and maintains social media sites. The Company controls a database of customers for email and direct promotions. The Company continues to submit its wines to competitions and state, regional and national media for editorials and ratings.

Direct sales – The Company's Estate Winery is located on a visible hill adjacent to Oregon's major north-south freeway (Interstate 5), approximately 2 miles south of the state's second-largest metropolitan area (Salem), and 50 miles in either direction from the state's first and third-largest metropolitan areas (Portland and Eugene). The unique location

along Interstate 5 has resulted in generally greater amount of wines sold at the Estate Winery as compared to the Oregon industry standard. Direct sales from the Winery are a vital and growing sales channel and an effective means of product promotion. The Estate Winery Tasting Room is open daily and offers wine tasting and education by trained personnel. The Company offers a complimentary daily tour along with by-appointment private tours offering a behind-the-scenes look at the production process of the wines. The Company has the largest wine club membership in Oregon and features a Members-only Club Room at the Estate Winery.

ITEM 1. BUSINESS - continued

New in 2014, the Company launched “Pairings,” a focused restaurant offering a wine and food pairing lunch. Led by the Winery chef, the menu highlights Northwest fresh dishes paired thoughtfully with the Company’s wines. The culinary offering has now expanded to include “Pairings Food & Wine Experiences,” community-style wine dinners hosted on the weekends.

The Winery has developed a strong Winery Ambassador program, which connects its “Ambassadors” with customers throughout the United States and offers personalized wine recommendations and easy ordering by phone or email.

The Company also operates two additional tasting rooms, one in historic downtown McMinnville, in the heart of Oregon Wine Country, and at its Tualatin Vineyard (located 30 minutes west of Portland).

The Company holds four major festivals at the Winery each year. In addition, open houses are held at the Winery during major holiday weekends such as Memorial Day and Thanksgiving. Numerous private events, wedding receptions, charitable and political events are also held at the Winery.

Direct sales are more profitable because the Company is able to sell its wine directly to consumers at retail prices rather than to distributors at free-on-board or “FOB” prices. Sales made directly to consumers at retail prices result in an increased profit margin equal to the difference between retail prices and distributor prices. For 2014 and 2013, direct sales contributed approximately 34% and 28% of the Company’s net sales, respectively.

Distributors and wine brokers – The Company uses both independent distributors and wine brokers primarily to market the Company’s wines in specific targeted areas. Only those distributors and wine brokers who have demonstrated knowledge of and a proven ability to market premium, super premium, and ultra-premium wines are utilized. The Company’s products are distributed in 49 states and the District of Columbia, and there are 5 non-domestic (export) customers. For 2014 and 2013, sales to distributors and wine brokers contributed approximately 66% and 72% of the Company’s revenue from continuing operations, respectively.

Tourists – Oregon wineries are a popular tourist destination with many bed & breakfasts, motels and fine restaurants available. The Willamette Valley, Oregon’s leading wine region has two-thirds of the state’s wineries and vineyards and is home to approximately 600 wineries. An additional advantage for Willamette Valley wine tourism is the proximity of the wineries to Portland (Oregon’s largest city and most popular destination). From Portland, tourists can visit the Willamette Valley winery of their choice in anywhere from 45 minutes to two hours.

The Company believes its convenient location, adjacent to Interstate 5, enables the Winery to attract a significant number of visitors. The Winery is located 45 minutes from Portland and less than one mile from The Enchanted Forest, an amusement park which operates from April through September each year and attracts approximately 130,000 paying visitors per year. Adjacent to the Enchanted Forest is the Hope Valley Recreational Vehicle Park, which contains approximately 110 overnight recreational vehicle sites.

Dependence on Major Customers

Historically, the Company’s revenue has been derived from thousands of customers annually. In 2014, sales to one distributor represented approximately 16.6% of total Company revenue. In 2013, sales to one distributor represented approximately 17.5% of total Company revenue.

Research and Development

The nature of the Company's business does not require the Company to incur a material amount of research and development expense.

Competition

The wine industry is highly competitive. In a broad sense, wines may be considered to compete with all alcoholic and nonalcoholic beverages. Within the wine industry, the Company believes that its principal competitors include wineries in Oregon, California and Washington, which, like the Company, produce premium, super premium, and ultra-premium wines. Wine production in the United States is dominated by large California wineries that have significantly greater financial, production, distribution and marketing resources than the Company. Currently, no Oregon winery dominates the Oregon wine market. Several Oregon wineries, however, are older and better established and have greater label recognition than that of the Company.

ITEM 1. BUSINESS - continued

The Company believes that the principal competitive factors in the premium, super premium, and ultra-premium segment of the wine industry are product quality, price, label recognition, and product supply. The Company believes it competes favorably with respect to each of these factors. The Company has primarily received “Excellent” to “Recommended” reviews in tastings of its wines and believes its prices are competitive with other Oregon wineries. Larger scale production is necessary to satisfy retailers’ and restaurants’ demand and the Company believes that additional production capacity will be needed to meet estimated future demand. Furthermore, the Company believes that its ultimate forecasted production level of 373,000 gallons (157,000 cases) per year, at its Estate Vineyards and Tualatin Vineyard locations, will give it significant competitive advantages over most Oregon wineries in areas such as marketing, distribution arrangements, grape purchasing, and access to financing. The current production level of most Oregon wineries is generally much smaller than the projected production level of the Company’s Winery. With respect to label recognition, the Company believes that its unique structure as a consumer-owned company will give it a significant advantage in gaining market share in Oregon, as well as penetrating other wine markets.

Governmental Regulation of the Wine Industry

The production and sale of wine is subject to extensive regulation by the U.S. Department of the Treasury, Alcohol and Tobacco Tax and Trade Bureau and the Oregon Liquor Control Commission. The Company is licensed by and meets the bonding requirements of each of these governmental agencies. Sale of the Company’s wine is subject to federal alcohol tax, payable at the time wine is removed from the bonded area of the Winery for shipment to customers or for sale in its tasting room. The current federal alcohol tax rate is \$1.07 per gallon for wines with alcohol content at or below 14.0% and \$1.57 per gallon for wines with alcohol content above 14.0%; however, wineries that produce not more than 250,000 gallons during the calendar year are allowed a graduated tax credit of up to \$0.90 per gallon on the first 100,000 gallons of wine (other than sparkling wines) removed from the bonded area during that year. The Company also pays the state of Oregon an excise tax of \$0.67 per gallon for wines with alcohol content at or below 14.0% and \$0.77 per gallon for wines with alcohol content above 14.0% on all wine sold in Oregon. In addition, most states in which the Company’s wines are sold impose varying excise taxes on the sale of alcoholic beverages. As an agricultural processor, the Company is also regulated by the Oregon Department of Agriculture and, as a producer of wastewater, by the Oregon Department of Environmental Quality. The Company has secured all necessary permits to operate its business.

Prompted by growing government budget shortfalls and public reaction against alcohol abuse, Congress and many state legislatures are considering various proposals to impose additional excise taxes on the production and sale of alcoholic beverages, including table wines. Some of the excise tax rates being considered are substantial. The ultimate effects of such legislation, if passed, cannot be assessed accurately since the proposals are still in the discussion stage. Any increase in the taxes imposed on table wines can be expected to have a potentially adverse impact on overall sales of such products. However, the impact may not be proportionate to that experienced by producers of other alcoholic beverages and may not be the same in every state.

Costs and Effects of Compliance with Local, State and Federal Environmental Laws

The Company management is strongly focused on environmental stewardship and maintains a variety of policies and processes designed to protect the environment, the public and consumers of its wine. Much of the Company’s expenses for protecting the environment are voluntary, however the Company is regulated by various local, state and federal agencies regarding environmental laws where these costs and processes are effectively integrated into the Company’s regular operations and do not cause significant alternative processes or costs.

ITEM 1. BUSINESS - continued

Employees

As of December 31, 2014 the Company had approximately 78 full-time employees and 44 part-time employees. In addition, the Company hires additional employees for seasonal work as required. The Company's employees are not represented by any collective bargaining unit. The Company believes it maintains positive relations with its employees.

Additional Information

The Company files Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and proxy statements with the Securities and Exchange Commission ("SEC"). The public may read and copy any materials that the Company files with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Washington, D.C. 20549, on official business days during the hours of 10 a.m. to 3 p.m. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC maintains an internet site that contains reports, proxy and information statements, and other information regarding issuers, including the Company, that file electronically with the SEC at www.sec.gov. ITEM 1A. RISK FACTORS

The following disclosures should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations of this Annual Report on Form 10-K. These disclosures are intended to discuss certain material risks of the Company's business as they appear to Management at this time. However, this list is not exhaustive. Other risks may, and likely will, arise from time to time.

Agricultural risks could adversely affect the Company

Winemaking and grape growing are subject to a variety of agricultural risks. Various diseases, pests, fungi, viruses, drought, frost and certain other weather conditions can affect the quantity of grapes available to the Company, decreasing the supply of the Company's products and negatively impacting profitability. In particular, certain of the Company's vines are not resistant to phylloxera; accordingly, those vines are particularly at risk to the effects from an infestation of phylloxera. Phylloxera is a pest that attacks the rootstocks of wine grape plants. Vineyards in the United States, including some in Oregon and some owned by us, have been infested in recent years with phylloxera. Since May of 1992, the Company's vineyard properties have been planted with rootstocks believed to be resistant to phylloxera. However, rootstocks planted by the Company prior to 1992 are not resistant. There can be no assurance that the Company's existing vineyards, or the rootstocks the Company is now using in its planting programs, will not become susceptible to current or new strains of phylloxera. Pierce's Disease is a vine bacterial disease. It kills grapevines and there is no known cure. Small insects called Sharpshooters spread this disease. A new strain of the Sharpshooter was discovered in Southern California and is believed to be migrating north. The Company is actively supporting the efforts of the agricultural industry to control this pest and is making every reasonable effort to prevent an infestation in its own vineyards. The Company cannot, however, guarantee that it will succeed in preventing contamination in its vineyards. Future government restrictions regarding the use of certain materials used in grape growing may increase vineyard costs and/or reduce production. Additionally, long-term changes in weather patterns could adversely affect the Company.

The Company may not be able to grow or acquire enough quality fruit for its wines

The adequacy of the Company's grape supply is influenced by consumer demand for wine in relation to industry-wide production levels. While the Company believes that it can secure sufficient supplies of grapes from a combination of its own production and from grape supply contracts with independent growers, the Company cannot be certain that grape supply shortages will not occur. A shortage in the supply of wine grapes could result in an increase in the price of some or all grape varieties and a corresponding increase in wine production costs.

ITEM 1A. RISK FACTORS - continued

Loss of key employees could harm the Company's reputation and business

The Company's success depends to some degree upon the continued service of a number of key employees. The loss of the services of one or more of these key employees, including James W. Bernau, our President, and Richard F. Goward Jr., our Chief Financial Officer, could harm the Company and its reputation and negatively impact its profitability, particularly if one or more of the Company's key employees resigns to join a competitor or to form a competing company.

The Company's ability to operate requires utilization of the line of credit

The Company's cash flow from operations historically has not been sufficient to provide all funds necessary for the Company's operations. The Company has entered into a line of credit agreement to provide such funds and entered into term loan arrangements, the proceeds of which were used to acquire the Tualatin Winery and the Tualatin Vineyards, construct and remodel the Hospitality Center and pay down the Company's revolving line of credit. There is no assurance that the Company will be able to comply with all conditions under its credit facilities in the future or that the amount available under the line of credit facility will be adequate for the Company's future needs. Failure to comply with all conditions of the credit facilities, or to have sufficient funds for operations could adversely affect the Company's results of operations and shareholder value.

As of December 31, 2014, the Company's outstanding indebtedness was approximately \$5.2 million and the Company had a line of credit balance of \$0 on a maximum borrowing amount of \$2 million.

Costs of being a publicly-held company may put the Company at a competitive disadvantage

As a public company, the Company incurs substantial costs that are not incurred by its competitors that are privately-held. These compliance costs may result in the Company's wines being more expensive than those produced by its competitors and/or may reduce profitability compared to such competitors.

The Company faces significant competition which could adversely affect profitability

The wine industry is intensely competitive and highly fragmented. The Company's wines compete in several premium wine market segments with many other premium domestic and foreign wines, with imported wines coming from the Burgundy and Bordeaux regions of France, as well as Italy, Chile, Argentina, South Africa and Australia. The Company's wines also compete with popular priced generic wines and with other alcoholic and, to a lesser degree, non-alcoholic beverages, for shelf space in retail stores and for marketing focus by the Company's independent distributors, many of which carry extensive brand portfolios. A result of this intense competition has been and may continue to be upward pressure on the Company's selling and promotional expenses. In addition, the wine industry has experienced significant consolidation. Many of the Company's competitors have greater financial, technical, marketing and public relations resources than the Company does. Company sales may be harmed to the extent it is not able to compete successfully against such wine or alternative beverage producers' costs. There can be no assurance that in the future the Company will be able to successfully compete with its current competitors or that it will not face greater competition from other wineries and beverage manufacturers.

The Company competes for shelf space in retail stores and for marketing focus by its independent distributors, most of whom carry extensive product portfolios

Nationwide, the Company sells its products primarily through independent distributors and brokers for resale to retail outlets, restaurants, hotels and private clubs across the United States and in some overseas markets. Sales to distributors are expected to continue to represent a substantial portion of the Company's net revenue in the future. A change in the relationship with any of the Company's significant distributors could harm the Company's business and reduce Company sales. The laws and regulations of several states prohibit changes of distributors, except under certain limited circumstances, making it difficult to terminate a distributor for poor performance without reasonable cause, as defined by applicable statutes. Any difficulty or inability to replace distributors, poor performance of the Company's major distributors or the Company's inability to collect accounts receivable from its major distributors could harm the Company's business. There can be no assurance that the distributors and retailers the Company uses will continue to purchase the Company's products or provide Company products with adequate levels of promotional support.

ITEM 1A. RISK FACTORS - continued

Consolidation at the retail tier, among club and chain grocery stores in particular, can be expected to heighten competitive pressure to increase marketing and sales spending or constrain or reduce prices.

Fluctuations in quantity and quality of grape supply could adversely affect the Company

A shortage in the supply of quality grapes may result from a variety of factors that determine the quality and quantity of the Company's grape supply, including weather conditions, pruning methods, diseases and pests, the ability to buy grapes on long and short term contracts and the number of vines producing grapes. Any shortage in the Company's grape production could cause a reduction in the amount of wine the Company is able to produce, which could reduce sales and adversely impact the Company's results from operations. Factors that reduce the quantity of the Company's grapes may also reduce their quality, which in turn could reduce the quality or amount of wine the Company produces. Deterioration in the quality of the Company's wines could harm its brand name and could reduce sales and adversely impact the Company's results of operations.

Contamination of the Company's wines would harm the Company's business

The Company is subject to certain hazards and product liability risks, such as potential contamination, through tampering or otherwise, of ingredients or products. Contamination of any of the Company's wines could cause it to destroy its wine held in inventory and could cause the need for a product recall, which could significantly damage the Company's reputation for product quality. The Company maintains insurance against certain of these kinds of risks, and others, under various insurance policies. However, the insurance may not be adequate or may not continue to be available at a price or on terms that are satisfactory to the Company and this insurance may not be adequate to cover any resulting liability.

A reduction in consumer demand for premium wines could harm the Company's business

There have been periods in the past in which there were substantial declines in the overall per capita consumption of beverage alcohol products in the United States and other markets in which the Company participates. A limited or general decline in consumption in one or more of the Company's product categories could occur in the future due to a variety of factors, including: a general decline in economic conditions; increased concern about the health consequences of consuming alcoholic beverage products and about drinking and driving; a trend toward a healthier diet including lighter, lower calorie beverages such as diet soft drinks, juices and water products; the increased activity of anti-alcohol consumer groups; and increased federal, state or foreign excise and other taxes on beverage alcohol products. The competitive position of the Company's products could also be affected adversely by any failure to achieve consistent, reliable quality in the product or service levels to customers.

Changes in consumer spending could have a negative impact on the Company's financial condition and business results

Wine sales depend upon a number of factors related to the level of consumer spending, including the general state of the economy, federal and state income tax rates, deductibility of business entertainment expenses under federal and state tax laws, and consumer confidence in future economic conditions. Changes in consumer spending in these and other regions can affect both the quantity and the price of wines that customers are willing to purchase at restaurants or through retail outlets. Reduced consumer confidence and spending may result in reduced demand for the Company's products, limitations on the Company's ability to increase prices and increased levels of selling and promotional expenses. This, in turn, may have a considerable negative impact upon the Company's sales and profit margins.

Increased regulation could adversely affect the Company

The wine industry is subject to extensive regulation by the Federal Alcohol Tobacco Tax and Trade Bureau (“TTB”) and various foreign agencies, state liquor authorities, such as the Oregon Liquor Control Commission (“OLCC”), and local authorities. These regulations and laws dictate such matters as licensing requirements, trade and pricing practices, permitted distribution channels, permitted and required labeling, and advertising and relations with wholesalers and retailers. Any expansion of the Company’s existing facilities or development of new vineyards or wineries may be limited by present and future zoning ordinances, environmental restrictions and other legal requirements. In addition, new regulations or requirements or increases in excise taxes, income taxes, property and sales taxes or international tariffs, could negatively affect the Company’s financial condition or results of operations. Recently, many states have considered proposals to increase, and some of these states have increased, state alcohol excise taxes. New or revised regulations, or increased licensing fees, requirements or taxes could have a material adverse effect on the Company’s financial condition or results of operations. There can be no assurance that new or revised regulations or increased licensing fees and requirements will not have a material adverse effect on the Company’s business and its results of operations and its cash flows.

ITEM 1A. RISK FACTORS - continued

The Company's common stock is thinly traded, and therefore not as liquid as other investments.

The trading volume of the Company's common stock on NASDAQ is consistently "thin," in that there is not a great deal of trading activity on a daily basis. Because the average active trading volume is thin, there is less opportunity for shareholders to sell their shares of the Company's common stock on the open market, resulting in the common stock being less liquid than common stock in other publicly traded companies.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Vineyards – The Company owns or leases 654 acres of land, of which 362 acres is owned and 292 acres leased. Of the 654 acres of land owned or leased, 276 acres are productive vineyards, 253 acres are pre-productive vineyards or are suitable for future vineyard plantings, and 125 acres are not suitable for vineyard planting or are used for winery or hospitality purposes. See Item 1 Business - Vineyards, of this Annual Report on Form 10-K for the locations of each of the Company's vineyards (both owned and leased) and other information pertaining to the production capacity, harvest totals and other important characteristics of each such vineyard.

Wine production facility – The Company's Estate Winery and production facilities are capable of efficiently producing up to 132,000 cases (314,000 gallons) of wine per year, depending on the type of wine produced. In 2014, the Winery produced approximately 271,300 gallons (108,958 cases) from its 2012 and 2013 harvest. The Winery is 12,784 square feet in size and contains areas for processing, fermenting, aging and bottling wine, as well as an underground wine cellar, meeting rooms, and administrative offices. There is a 12,500 square foot outside production area for harvesting, pressing and fermenting wine grapes, and a 4,500 square foot insulated storage facility with a capacity of 30,000 cases of wine. The Company also has a 23,000 square foot storage building to store its inventory of bottled product. The production area is equipped with a settling tank and sprinkler system for disposing of wastewater from the production process in compliance with environmental regulations. The Company's Estate Winery has a large 35,642 square foot tasting and hospitality facility (the "Hospitality Center"). The Hospitality Center sits above the underground barrel cellar and tunnel that connects with the Winery. The facility includes a basement cellar, tunnel and barrel room of 11,090 square feet including a recent expansion of 2,190 square feet to now store up to 1,800 barrels of wine for aging in the proper environment.

The Company's Tualatin Winery has 20,000 square feet of production capacity. This adds approximately 25,000 cases (59,000 gallons) of wine production capacity to the Company. The capacity at the Tualatin Winery is not currently used but is available to the Company to meet any anticipated future production needs. Additionally, the Company operates a small retail store and tasting room at the Tualatin Winery.

The Company carries Property and Liability insurance coverage in amounts deemed adequate by Management.

See additional discussion of vineyard and wine production facility under Item 1. Business.

ITEM 3. LEGAL PROCEEDINGS

There are no material legal proceedings pending to which the Company is a party or to which any of its property is subject, and the Company's management does not know of any such action being contemplated.

ITEM 4. MINE SAFETY DISCLOSURES

Recent Sales of Unregistered Securities

None.

Issuer Purchases of Equity Securities

As originally disclosed in the Form 10-K for the fiscal year ended December 31, 2011, filed March 27, 2012, the Board of Directors authorized the expenditure of \$200,000 to be used in the buyback program to run through April 1, 2013. During the three months ended June 30, 2013, the Board of Directors expanded the buyback program an additional \$50,000 and extended the program to last until the full amount of authorized funds are expended. During the three months ended September 30, 2013, the Board of Directors authorized additional buybacks of \$250,000, bringing the total amount authorized for buyback to \$500,000. During 2014, the Company did not buyback any stock as a result of the stock trading consistently above the board established threshold. As of December 31, 2014, \$74,898 remains unspent.

ITEM 6. SELECTED FINANCIAL DATA

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the Company's financial statements and related notes. Some statements and information contained in this Management's Discussion and Analysis of Financial Condition and Results of Operations are not historical facts but are forward-looking statements. For a discussion of these forward-looking statements, and of important factors that could cause results to differ materially from the forward-looking statements contained in this report, see Item 1 of Part I, "Business – Forward-Looking Statements."

Critical Accounting Policies and Estimates

Management's Discussion and Analysis of Financial Condition and Results of Operations discusses Willamette Valley Vineyards' financial statements, which have been prepared in accordance with generally accepted accounting principles. As such, management is required to make certain estimates, judgments and assumptions that are believed to be reasonable based upon the information available. On an on-going basis, management evaluates its estimates and judgments, including those related to product returns, bad debts, inventories, investments, income taxes, financing operations, and contingencies and litigation. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

The Company's principal sources of revenue are derived from sales and distribution of wine. Distributor sales are recognized from wine sales at the time of shipment and passage of title. The Company's payment arrangements with customers provide primarily 30-day terms and, to a limited extent, 45-day, 60-day or longer terms for some international customers. Direct sales from items sold through the Company's retail locations are recognized at the time of sale.

The Company values inventories at the lower of actual cost to produce the inventory or market value. The Company regularly reviews inventory quantities on hand and adjusts its production requirements for the next twelve months based on estimated forecasts of product demand. A significant decrease in demand could result in an increase in the amount of excess inventory quantities on hand. In the future, if the Company's inventory cost is determined to be greater than the net realizable value of the inventory upon sale, the Company would be required to recognize such excess costs in its cost of goods sold at the time of such determination. Therefore, although the Company makes every effort to ensure the accuracy of its forecasts of future product demand, any significant unanticipated changes in demand could have a significant impact on the ultimate selling price and cases sold and, therefore, the carrying value of the Company's inventory and its reported operating results.

The Company capitalizes internal vineyard development costs prior to the vineyard land becoming fully productive. These costs consist primarily of the costs of the vines and expenditures related to labor and materials to prepare the land and construct vine trellises. Amortization of such costs as annual crop costs is done on a straight-line basis for the estimated economic useful life of the vineyard, which is estimated to be 30 years. The Company regularly evaluates the recoverability of capitalized costs. Amortization of vineyard development costs are included in capitalized crop costs that in turn are included in inventory costs and ultimately become a component of cost of goods sold.

The Company pays depletion allowances to the Company's distributors based on their sales to their customers. The Company sets these allowances on a monthly basis and the Company's distributors bill them back on a monthly basis. All depletion expenses associated with a given month are recognized in that month as a reduction of revenues. The Company also reimburses for samples used by distributors up to 1.5% of product sold to the distributors. Sample expenses are recognized at the time the Company is billed as a selling, general and administrative expense.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - continued

Amounts paid by customers to the Company for shipping and handling expenses are included in the net revenue. Expenses incurred for outbound shipping and handling charges are included in selling, general and administrative expense. The Company's gross margins may not be comparable to other companies in the same industry as other companies may include shipping and handling expenses as a cost of goods sold.

Overview

The Company generates revenue from the sales of wine to wholesalers and direct to consumers. Direct to consumer sales primarily include sales through the Company's tasting rooms and wine club. Direct to consumer sales are more profitable to the Company due to prices received being closer to retail than those prices paid by wholesalers. The Company continues to emphasize growth in direct to consumer sales through the Hospitality Center remodel and expansion and growth in wine club membership. Wine club memberships had a net increase of approximately 1,115 for the year ended December 31, 2014. Periodically, the Company will also sell grapes or bulk wine, which primarily consists of inventory that does not meet Company standards or is in excess to production targets. However, this activity is not a significant part of the Company's activities.

The Company sold approximately 107,400 and 100,500 cases of produced wine during the years ended December 31, 2014 and 2013, respectively, an increase of 6,900 cases, or 6.9% in the current year over the prior year. The increase in wine sales was the result of growth in both retail sales and sales through distributors.

Cost of Sales includes grape costs, whether purchased or grown at Company vineyards, crush costs, winemaking and processing costs, bottling, packaging, warehousing and shipping and handling costs associated with purchased production materials. For grapes grown at Company vineyards, costs include farming expenditures and amortization of vineyard development costs. The Company expects cost of sales to decrease, as a percentage of net sales, over the next several years, as higher yield vintages are released.

At December 31, 2014, wine inventory includes approximately 67,500 cases of bottled wine and 392,000 gallons of bulk wine in various stages of the aging process. Case wine is expected to be sold over the next 12 to 24 months and generally before the release date of the next vintage. The winery bottled approximately 108,958 cases during the year ended December 31, 2014.

Results of Operations

The Company had net sales of \$15,156,159 and \$13,271,914 for the years December 31, 2014 and 2013, respectively, an increase of \$1,884,245 or 14.2%, for the year ended December 31, 2014 over the prior year period. The reasons for this increase include increased sales in all categories; retail sales, in-state sales, out-of state sales and sales of bulk products.

Gross profit was \$9,016,606 and \$7,683,475 for the years ended December 31 2014 and 2013, respectively, an increase of \$1,333,131, or 17.4%, for the year ended December 31, 2014 over the prior year period. This increase was generally driven by an increase in the average price per case sold combined with direct-to-consumer sales being a larger percentage of total sales.

The gross margin percentage was 59.5% and 57.9% for the years ended December 31, 2014 and 2013, respectively, an increase of 1.6 points, or 2.8%, for the year ended December 31, 2014 over the prior year period. This increase in the gross profit percentage is primarily the result of increases in retail sales, as a percentage of total sales, combined with

an overall increase in the per case margins and other factors.

Selling, general and administrative expenses were \$6,210,384 and \$5,308,931 for the years ended December 31, 2014 and 2013, respectively, an increase of \$901,453, or 17.0%, for the year ended December 31, 2014 over the prior year period. This increase was mainly the result of both increased selling expenses and increased general and administrative costs, much of which resulted from increased costs associated with operating the Company's remodeled Hospitality Center.

Income from operations was \$2,806,222 and \$2,374,544 for the years ended December 31, 2014 and 2013, respectively, an increase of \$431,678, or 18.2%, for the year ended December 31, 2014 over the prior year period. The primary reasons for this increase are increased gross profit, which was partially offset by increased selling expenses.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - continued

Provision for income taxes was \$775,999 and \$904,709 for the years ended December 31, 2014 and 2013, respectively, a decrease of \$128,710, or 14.2%, for the year ended December 31, 2014 over the prior year period. This decrease is primarily related to tax deductions for domestic production activity and federal and state tax credits related to the Company's recent facility expansions and remodels. The Company does not anticipate similar credits in future periods.

Net income was \$2,161,340 and \$1,423,492, for the years ended December 31, 2014 and 2013, respectively, an increase of \$737,848, or 51.8%, for the year ended December 31, 2014 over the prior year period. The primary reasons for this increase are an overall increase in sales, and improved margins, partially offset by increased selling and administrative expenses, that increased income from operations. Additionally, the Company recorded \$180,035, net of cost and deductible, in insurance proceeds from a wine spillage at the Estate Winery in March of 2014 that was included in other income.

Diluted earnings per share were \$0.44 and \$0.29 for the years ended December 31, 2014 and 2013, respectively, an increase of \$0.15, or 51.7%, for the year ended December 31, 2014 over the prior year period. The primary reason for this increase is an increase in income from continuing operations as well as receipt of insurance proceeds recorded as other income.

The Company has three primary sales channels: direct-to-consumer sales, in-state sales to distributors, and out-of-state sales to distributors. These three sales channels represent 34.1%, 16.6% and 49.2%, of net sales for the year ended December 31, 2014, respectively. This compares to 28.2%, 17.5% and 54.2% of net sales for the year ended December 31, 2013, respectively. Miscellaneous and grape sales are included in direct-to-consumer sales.

The Company had cash balances of \$519,761, at December 31, 2014, and \$945,683, net of restricted cash of \$450,000, at December 31, 2013. The Company had no outstanding line of credit balance at December 31, 2014 and 2013.

EBITDA

The following table presents the calculation of the Company's earnings before interest, taxes, depreciation and amortization ("EBITDA"):

	Year Ended December 31,	
	2014	2013
Net Income	\$ 2,161,340	\$ 1,423,492
Depreciation and amortization expense	1,074,737	748,832
Interest Expense	289,020	245,431
Interest Income	(1,031)	(6,963)
Income tax expense	775,999	904,709
EBITDA	\$ 4,300,065	\$ 3,315,501

Hospitality Center

In December 2012, the Board of Directors approved a significant remodel and expansion of the Winery's Hospitality Center. The Board approved a total project cost of up to \$4.5 million, to be financed with \$2,000,000 of new

borrowings from NW Farm Credit Services, with the balance of the costs funded by using existing cash reserves. In November of 2013 the Board approved additional costs, in excess of the original budget, to be funded by using cash reserves. Features of the remodeled and expanded facility included additional barrel storage capacity, a club-members tasting room, a larger general public tasting area, enhanced kitchen services, new spaces for hosting smaller parties, expanded deck seating to capitalize on views from the winery, and a new lawn terrace for outdoor events. Management believes that these enhancements are critical in supporting the future growth of direct-to-consumer sales of Company wines. Construction began in February 2013, and was finished in April 2014.

Sales

Wine sales for the years ended December 31, 2014 and 2013 and ending inventory amounts for the year ended December 31, 2014, are shown on the following table, as well as planned production quantities for the year ending December 31, 2015:

Varietal/Product	Cases Sold 2014	Cases Sold 2013	Cases On-Hand December 31, 2014	Planned Bottling
				Production (Cases) 2015
Pinot Noir/Estate	12,500	12,500	14,000	16,000
Pinot Noir/Barrel Select	8,000	6,000	1,000	4,000
Pinot Noir/Founders Reserve	2,400	2,500	2,500	3,700
Pinot Noir/Special Designates	2,400	2,500	10,000	2,300
Pinot Noir/Whole Cluster	27,800	23,500	4,000	37,000
Pinot Gris	20,100	20,000	10,500	19,000
Riesling	20,300	20,500	10,000	21,000
Chardonnay	3,200	2,000	3,500	3,500
Table Wine	5,700	6,500	5,500	4,000
Other	5,000	4,500	6,500	9,600
Total	107,400	100,500	67,500	120,100

Approximately 49% of the Company's case sales during 2014 were of the Company's flagship varietal, Pinot Noir. Case sales of Riesling and Pinot Gris follow with approximately 19% of case sales each. The Company sold approximately 107,400 and 100,500 cases of Company-produced wine during the years ended December 31, 2014 and 2013, respectively. This represents an increase of approximately 6,900 cases, or 6.9%. This increase in case sales was the result of growth in both retail sales and sales through distributors.

Wine Inventory

The Company had approximately 67,500 cases of bottled wine on-hand at the end of 2014. Sufficient bulk wine inventory is on-hand to bottle approximately 120,100 cases of wine in 2015. Management believes that sufficient stock is on hand to meet current demand levels until the 2015 vintage becomes available.

Production Capacity

Current production volumes are well within the current production capacity constraints of the Winery. In 2014, approximately 108,958 cases were produced, and Management anticipates bottling approximately 120,100 cases in 2015. The Winery has capacity to comfortably process about 132,000 cases of wine per year. Management continues to invest in new production technologies to increase the efficiency and quality of wine production. During 2014, the Company did not choose to utilize the wine production facilities at the Tualatin Winery. The Tualatin Winery has capacity to produce approximately 25,000 cases of wine. The facility is maintained in good condition, and is occasionally used by other local wineries. Management intends to fully utilize the production capacity at the Estate Winery before expanding into the Tualatin Winery.

Grape Supply

For the 2014 and 2013 vintages, the Company grew approximately 56% and 42% of all grapes harvested, respectively. The remaining grapes harvested were purchased from other growers. In 2014 and 2013, 13% and 18% of grapes harvested were purchased under short-term contracts, and 31% and 40% of grapes harvested were purchased under long-term contracts, respectively. The Company considers short-term contracts to be for single vintage years and long-term contracts to cover multiple vintage years.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - continued

Grapes are typically harvested and received in October of the vintage year. Upon receipt, the grapes are weighed, and a quality analysis is performed to ensure the grapes meet the standards set forth in the purchase contract. Based on the amount of qualifying grapes received, the full amount payable to the grower is recorded to the grapes payable liability account. Approximately 50% of the grapes payable amount is due in November of the vintage year. The remaining amount is due in March of the following year. The grapes are processed into wine, which is typically bottled and available for sale between five months and two years from date of harvest.

The Company received \$787,696 and \$554,532 worth of grapes from long-term contracts during the years ended December 31, 2014 and 2013, respectively. The Company received \$644,910 and \$596,995 worth of grapes from short-term contracts during the years ended December 31, 2014 and 2013, respectively. Total grapes payable were \$698,851 and \$689,028 for the years ended December 31, 2014 and 2013, respectively. Grapes payable includes \$398,142 and \$277,625 of grapes payable from long-term contracts as of December 31, 2014 and 2013, respectively.

The Company plans to address long-term grape supply needs by developing new vineyards on properties currently owned or secured by lease. The Company has approximately 82 acres of vineyards that have been planted but are in the pre-productive stage. We anticipate that these vineyards will begin bearing fruit in the next one to three years. The Company has approximately 171 acres of land that is suitable for future vineyard development. Management currently has plans to plant approximately 97 acres and 33 acres in the years 2015 and 2016, which we anticipate will begin bearing fruit in years 2019 and 2020, respectively. Additionally, the Company intends to seek out opportunities to acquire land for future grape plantings in order to better control its supply chain, more effectively manage grape costs and mitigate uncertainty associated with long-term contracts that expire after vintage years 2015 and 2016.

Wine Quality

Continued awareness of the Willamette Valley Vineyards brand and the quality of its wines, was enhanced by national and regional media coverage throughout 2014.

In late December of 2013, Robert Parker's Wine Advocate recognized the Company's 2011 Elton Pinot Noir with 90 points.

The 9th annual Portland Seafood and Wine Festival Competition was held in January 2014 where the 2012 Riesling was awarded a Gold Medal.

Editor at Large, Harvey Steiman, recognized the Company's 2012 Whole Cluster Pinor Noir with 89 points, in Wine Spectator's February issue stating, "Smooth and generous, with a green edge to the dark plum and wet earth flavors, finishing with a silky texture and deft balance".

In March, Oregon Business Magazine named Willamette Valley Vineyards on the "2014 100 Best Green Companies to Work For in Oregon." Editor Linda Baker said, "This ranking shows that your workplace has implemented a variety of green policies, and that your employees place a high value on sustainable practices and believe your commitment to them is exceptional."

In April, Beverage Dynamics magazine awarded three of the Company's wines with 90+ point scores; 2010 Elton Pinot Noir, 92 points and 5 stars; 2011 Tualatin Estate Pinot Noir, 91 points and Signature Cuvee Pinot Noir, 90 points.

Wine & Spirits magazine recognized three wines with 90+ point scores in their April issue; 2010 Elton Pinot Noir, 92 points; 2010 Bernau Block Pinot Noir, 90 points; Signature Cuvee Pinot Noir, 90 points.

The Oregon Wine Press' Hilary Berg featured the Company's Estate Winery Tasting Room and Barrel Cellar remodel in a May article entitled, "Must-See in Salem, Willamette Valley Vineyards reveals impressive new tasting room."

Statesman Journal newspaper's 2014 Best of the Mid-Valley People's Choice Awards invited readers to nominate and vote for their favorite people, businesses and things to do in Marion and Polk counties. In May the results were released and Willamette Valley Vineyards was named the "Best Winery".

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - continued

The 2014 Oregon Wine Awards winners were released in May and recognized the Company's 2010 Griffin Creek Cabernet Sauvignon with Double Gold and the 2011 Willamette Valley Vineyards Estate Chardonnay with Gold.

In July, The Pensacola News Journal in Florida ran an article entitled, "Handcrafted Pinot Noir is Something Special" in their "Wine Time" section that fondly featured Willamette Valley Vineyard's backstory and the 2013 Whole Cluster Pinot Noir.

Wine Blogger, Catherine O'Brien visited the Company's tasting room and cellar in July and shared her positive experiences through her blog, "Pursuing Pinot".

In their August issue, Wine & Spirits magazine rated the 2012 Estate Pinot Noir 93 points, calling it an "Exuberant Pinot Noir."

Wine Enthusiast magazine recognized several of the Company's wines in their August issue; 2012 Bernau Block Pinot Noir, 90 points/Cellar Selection, 2013 Riesling, 89 points/Best Buy; 2013 Whole Cluster Pinot Noir, Best Buy.

Reporters from The Associated Press visited the Estate Winery during the hosting of the Oregon Grape Stomp Championship and Harvest Celebration and wrote an article entitled, "Go for the Food; Grape Stomps for Fun, Not Wine." The article was syndicated to dozens of publications that spanned from local newspapers to ABCNEWS.com.

The October issue of Portland Monthly Magazine featured Oregon's 50 Best Wines of 2014. The Company's 2012 Estate Pinot Noir was ranked #9 and scored 97.75 points.

Sunset Magazine named the 2012 Bernau Block a "Top Red Over \$40" in their October issue.

Wine Press Northwest Magazine held their annual Platinum Judging in October awarding the Company's 2012 Bernau Block Pinot Noir a Platinum Medal naming it one of the "best of the best" wines of 2014.

Seasonal and Quarterly Results

The Company has historically experienced and expects to continue experiencing seasonal fluctuations in its revenue and net income. Typically, first quarter sales are the lowest of any given year, and sales volumes increase progressively through the fourth quarter because of consumer buying habits.

The following table sets forth certain information regarding the Company's revenue, excluding excise taxes, from the Winery's operations for the three and twelve months ended December 31, 2014 and 2013:

	Three months ended December 31,		Twelve months ended December 31,	
	2014	2013	2014	2013
Retail sales	\$ 1,460,951	\$ 1,034,804	\$ 5,044,362	\$ 3,813,953
In-state sales	736,982	621,920	2,578,529	2,376,497
Out-of-state sales	2,301,888	2,001,924	7,631,019	7,349,489
Bulk wine/miscellaneous sales	50,215	5,535	247,975	9,376
Total revenue	4,550,036	3,664,183	15,501,885	13,549,315
Less excise taxes	(105,369)	(86,634)	(345,726)	(277,401)
Sales, net	\$ 4,444,667	\$ 3,577,549	\$ 15,156,159	\$ 13,271,914

2014 Compared to 2013

Retail sales for the years ended December 31, 2014 and 2013 were \$5,044,362 and \$3,813,953, respectively, an increase of \$1,230,409, or 32.3%, for the year ended December 31, 2014 over the prior year period. This increase was primarily driven by membership growth in the Company's wine club program and by increased visitor traffic to the Estate Winery's newly remodeled tasting room, including expanded sales from food, room rentals, and on-site events.

Bulk Wine/miscellaneous sales for the years ended December 31, 2014 and 2013 were \$247,975 and \$9,376, respectively, an increase of \$238,599. This increase represents the Company's sale of bulk wine in 2014 due to higher yields.

In-state sales for the years ended December 31, 2014 and 2013 were \$2,578,529 and \$2,376,497, respectively, an increase of \$202,032, or 8.5%, for the year ended December 31, 2014 over the prior year period. Management believes this increase is primarily due to increased visibility in the Oregon market.

Out-of-state sales for the years ended December 31, 2014 and 2013 were \$7,631,019 and \$7,349,489, respectively, an increase of \$281,530, or 3.8%. Management believes this increase is primarily related to increased sales efforts particularly with larger chain retailers.

The Company pays alcohol excise taxes to both the OLCC and to the TTB. These taxes are based on product sales volumes. The Company is liable for the taxes upon the removal of product from the Company's warehouse on a per gallon basis. The Company also pays taxes on the grape harvest on a per ton basis to the OLCC for the Oregon Wine Board. The Company's excise taxes for the years ended December 31, 2014 and 2013 were \$345,726 and \$277,401, an increase of \$68,325, or 24.6%, for the year ended December 31, 2014 over the prior year period. This increase was due primarily to increased wine sales being partially offset by a reduction in the small producer tax credit, and timing differences in tax payments.

Cost of Sales was \$6,139,553 and \$5,588,439 for the years ended December 31, 2014 and 2013, respectively, an increase of \$551,114, or 9.9%, for the year ended December 31, 2014 over the prior year period. The increase in cost of sales can be attributed mainly to the overall increase in product sales.

As a percentage of net revenue, gross profit was 59.5% and 57.9% in the years ended December 31, 2014 and 2013, respectively, an increase of 1.6 points or, 2.8%, for the year ended December 31, 2014 over the prior year period. This increase in the gross profit percentage is primarily a result of increases in retail sales, relative to sales through distributors, the release of higher margin vintages and increases in food sales and room rentals which have larger margins.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - continued

The Company continued its focus in 2014 on improved distribution of higher margin products through distributors nationwide and through direct sales and strives to minimize increases in grape and production costs.

Selling, general and administrative expenses were \$6,210,384 and \$5,308,931 for the years ended December 31, 2014 and 2013, respectively, an increase of \$901,453, or 17.0%, for the year ended December 31, 2014 over the prior year period. This increase was primarily the result of the increased operating costs associated with the newly remodeled Hospitality Center.

Interest income was \$1,031 and \$6,963 for the years ended December 31, 2014 and 2013, respectively. The decrease in interest income is primarily due to a reduction in the balances of cash on hand in the Company's accounts as a result of using cash for investments in capital assets. Interest expense was \$289,020 and \$245,431 for the years ended December 31, 2014 and 2013, respectively, an increase of \$43,589, or 17.8%, for the year ended December 31, 2014 over the prior year period. The increase in interest expense was mainly due to additional interest expense associated with the Hospitality Center remodel loan. Interest on this new loan was capitalized in 2013 but began to be expensed in 2014 as the project came to conclusion. Additionally, the Company used the line of credit periodically in 2014, generating additional interest expense.

Other income, net, was \$419,106 and \$192,125 for the years ended December 31, 2014 and 2013, respectively, an increase of \$226,981, or 118.1%, for the year ended December 31, 2014 over the prior year period. The increase in other income, net, relates primarily to the receipt of a net insurance proceed of \$180,035 associated with a wine spill at the Estate Winery that occurred in 2014. The Company believes that this spill was a result of a mechanical error and has since developed processes intended to reduce this risk.

The provision for income taxes and the Company's effective tax rate was \$775,999 and 26.4%, respectively of pre-tax income in the year ended December 31, 2014. The provision for income taxes and the Company's effective tax rate was \$904,709 and 38.9%, respectively of pre-tax income in the year ended December 31, 2013. This decrease in the Company's income tax provision is primarily related to tax deductions for domestic production activity and federal and state tax credits related to the Company's recent facility expansions and remodels. The Company does not anticipate similar credits in future periods.

As a result of the above factors, net income was \$2,161,340 and \$1,423,492 for the years ended December 31, 2014 and 2013, respectively, an increase of \$737,848, or 51.8%, for the year ended December 31, 2014 over the prior year period. Diluted earnings per share were \$0.44 and \$0.29 for the years ended December 31, 2014 and 2013, respectively, an increase of \$0.15 or 51.7%. The increase in earnings per share is primarily a result of increased net income.

Liquidity and Capital Resources

At December 31, 2014, the Company had a working capital balance of \$9.8 million and a current ratio of 4.63:1. At December 31, 2013, the Company had a working capital balance of \$9.8 million and a current ratio of 4.57:1. The Company had cash balances of \$519,761, at December 31, 2014, and \$945,683, net of restricted cash of \$450,000, at December 31, 2013. The decrease in cash year over year was primarily due to cash spent on the Hospitality Center remodel and expansion project.

Total cash provided from operating activities for the years ended December 31, 2014 and 2013 was \$3,006,548 and \$1,692,829, respectively. In 2014 these results were primarily due to income from operations, buoyed by non-cash

operating expenses such as depreciation, and an increase in accounts receivable.

Total cash used in investing activities for the years ended December 31, 2014 and 2013 was \$3,716,509 and \$6,692,862, respectively. These results were primarily due to additions to property and equipment and general vineyard development. Cash used in investing activities decreased in 2014, when compared to 2013, and was primarily the result of winding down of the Hospitality Center remodel and expansion project.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - continued

Total cash provided from financing activities for the years ended December 31, 2014 and 2013 was \$284,039 and \$1,396,940. In 2014, these results were primarily due to receipt of formerly restricted loan proceeds, for the Hospitality Center remodel and expansion project, and proceeds from stock option exercises partially offset by payments of long-term debt. In 2013, these results were primarily the result of long-term debt borrowing, for the Hospitality Center remodel and expansion project, net of proceeds held as restricted cash, and proceeds from the exercise of stock options, being partially offset by payments of long-term debt.

Total cash provided (used) from discontinued operations for the years ended December 31, 2014 and 2013 was \$0 and \$(4,337), respectively. Total cash used in 2013 primarily resulted from the payment of a liability associated with operations discontinued in 2013.

At December 31, 2014, the line of credit balance was \$0 on a maximum borrowing amount of \$2,000,000. The Company has a loan agreement with Umpqua Bank that contains, among other things, certain restrictive financial covenants with respect to total equity, debt-to-equity and debt coverage that must be maintained by the Company on a quarterly basis. As of December 31, 2014, the Company was in compliance with all of the financial covenants. The current line of credit loan agreement with Umpqua Bank is due to renew in June 2016.

As of December 31, 2014, the Company had a total long-term debt balance of \$5,502,294 owed to NW Farm Credit Services. The debt with NW Farm Credit Services was used to finance the Hospitality Center and subsequent remodels, invest in winery equipment to increase the Company's winemaking capacity, complete the storage facility, and acquire new vineyard land for future development.

The Company believes that cash flow from operations and funds available under its existing credit facilities will be sufficient to meet the Company's foreseeable short and long-term operating needs.

The Company's contractual obligations as of December 31, 2014 including long-term debt, grape payables and commitments for future payments under non-cancelable lease arrangements are summarized below:

	Total	Payments Due by Period			
		Less than 1 Year	1 – 3 Years	3 – 5 Years	After 5 Years
Long-term debt	\$ 5,502,294	\$ 329,255	\$ 718,957	\$ 807,970	\$ 3,646,112
Grape payables	698,851	698,851	-	-	-
Operating leases	2,342,483	389,356	755,254	694,495	503,378
Total contractual obligations	\$ 8,543,628	\$ 1,417,462	\$ 1,474,211	\$ 1,502,465	\$ 4,149,490

Inflation

The Company's management does not believe inflation has had a material impact on the Company's revenues or income during 2014 or 2013.

Off Balance Sheet Arrangements

At December 31, 2014 and 2013, the Company had no off-balance sheet arrangements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders
Willamette Valley Vineyards, Inc.

We have audited the accompanying balance sheets of Willamette Valley Vineyards, Inc. (the "Company") as of December 31, 2014 and 2013, and the related statements of income, shareholders' equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Willamette Valley Vineyards, Inc. as of December 31, 2014 and 2013, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying notes are an integral part of the financial statements.

NOTE 1 – SUMMARY OF OPERATIONS, BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Organization and operations – Willamette Valley Vineyards, Inc. (the “Company”) owns and operates vineyards and a winery located in the state of Oregon, and produces and distributes premium, super premium, and ultra-premium wines, primarily Pinot Noir, Pinot Gris, Chardonnay, and Riesling.

The Company has direct-to-consumer sales and national sales to distributors. These sales channels offer comparable products to customers and utilize similar processes and share resources for production, selling and distribution. Direct-to-consumer sales generate a higher gross profit margin than national sales to distributors due to differentiated pricing between these segments.

Direct-to-consumer sales, including bulk wine, miscellaneous sales, and grape sales, represented approximately 34.1% and 28.2% of total revenue for 2014 and 2013, respectively.

In state sales through distributors represented approximately 16.6% and 17.5% of total revenue for 2014 and 2013, respectively.

Out-of-state sales, including foreign sales, represented approximately 49.2% and 54.2% of total revenue for 2014 and 2013, respectively. Foreign sales represent 1% of total revenue.

Basis of presentation – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, which require management to make certain estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. The Company bases its estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances at the time. Actual results could differ from those estimates under different assumptions or conditions.

Financial instruments and concentrations of risk – The Company has the following financial instruments: cash and cash equivalents, accounts receivable, accounts payable, accrued liabilities, grapes payable and long-term debt.

Cash and cash equivalents are maintained at four financial institutions. Deposits held with these financial institutions may exceed the amount of insurance provided on such deposits. Generally, these deposits may be redeemed upon demand and are maintained with a financial institution of reputable credit and therefore bear minimal credit risk.

In 2014, sales to one distributor represented approximately 16.6% of total Company revenue. In 2013, sales to one distributor represented approximately 17.5% of total Company revenue.

Other comprehensive income – The nature of the Company’s business and related transactions do not give rise to other comprehensive income.

Cash and cash equivalents – Cash and cash equivalents include highly liquid short-term investments with an original maturity of less than 90 days.

Accounts receivable – The Company performs ongoing credit evaluations of its customers and does not require collateral. A reserve is maintained for potential credit losses. The allowance for doubtful accounts is based on an assessment of the collectability of customer accounts. The Company regularly reviews the allowance by considering factors such as historical experience, credit quality, the age of the accounts receivable balances, and current economic

conditions that may affect a customer's ability to pay. The Company has credit risk associated with uncollateralized trade accounts receivable from all operations totaling \$1,624,068 and \$1,244,131 as of December 31, 2014 and 2013 exclusive of the allowance for doubtful accounts. The allowance for doubtful accounts is further discussed in Note 2.

Inventories – For Company produced wines, after a portion of the vineyard becomes commercially productive, the annual crop and production costs relating to such portion are recognized as work-in-process inventories. Such costs are accumulated with related direct and indirect harvest costs, wine processing and production costs, and are transferred to finished goods inventories when the wine is produced, bottled, and ready for sale.

NOTE 1 – SUMMARY OF OPERATIONS, BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES - continued

The cost of finished goods is recognized as cost of sales when the wine product is sold. Inventories are stated at the lower of first-in, first-out (“FIFO”) cost or market by variety.

In accordance with general practices in the wine industry, wine inventories are generally included in current assets in the accompanying balance sheets, although a portion of such inventories may be aged for more than one year (Note 3).

Vineyard development costs – Vineyard development costs consist primarily of the costs of the vines and expenditures related to labor and materials to prepare the land and construct vine trellises. The costs are capitalized until the vineyard becomes commercially productive, at which time annual amortization is recognized using the straight-line method over the estimated economic useful life of the vineyard, which is estimated to be 30 years. Accumulated amortization of vineyard development costs aggregated \$1,033,737 and \$958,067 at December 31, 2014 and 2013, respectively.

Amortization of vineyard development costs are included in capitalized crop costs that in turn are included in inventory costs and ultimately become a component of cost of goods sold. For the years ending December 31, 2014 and 2013, approximately \$75,670 and \$75,669, respectively, was amortized into inventory costs.

Property and equipment – Property and equipment are stated at cost and are depreciated on the straight-line basis over their estimated useful lives. Land improvements are depreciated over 15 years. Winery buildings are depreciated over 30 years. Equipment is depreciated over 3 to 10 years, depending on the classification of the asset. Depreciation is discussed further in Note 4.

Expenditures for repairs and maintenance are charged to operating expense as incurred. Expenditures for additions and betterments are capitalized. When assets are sold or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is included in operations.

Review of long-lived assets for impairment - The Company evaluates long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or asset group may not be recoverable. Long-lived assets consist primarily of property and equipment. Circumstances that might cause the Company to evaluate its long-lived assets for impairment could include a significant decline in the prices the Company or the industry can charge for its products, which could be caused by general economic or other factors, changes in laws or regulations that make it difficult or more costly for the Company to distribute its products to its markets at prices which generate adequate returns, natural disasters, significant decrease in demand for the Company’s products or significant increase in the costs to manufacture the Company’s products.

Recoverability of assets is measured by a comparison of the carrying amount of an asset group to future net undiscounted cash flows expected to be generated by the asset group. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. The Company groups its long-lived assets with other assets and liabilities at the lowest level for which identifiable cash flows are largely independent of the cash flows of other assets and liabilities (or asset group). This would typically be at the winery level. The Company did not recognize any impairment charges associated with long-lived assets during the years ended December 31, 2014 and 2013.

Debt issuance costs – Debt issuance costs are amortized on the straight-line basis, which approximates the effective interest method, over the life of the debt. For the years ended December 31, 2014 and 2013, amortization of debt issuance costs was approximately \$4,383 and \$3,382 respectively. Debt issuance amortization costs are scheduled at

\$4,383 for each of the next five years, and \$32,689 thereafter.

Distribution agreement receivable – Effective September 1, 2011, the Company entered into an agreement with Young’s Market Company for distribution of Company-produced wines in Oregon and Washington. The terms of this contract include exclusive rights to distribute Willamette Valley Vineyard’s wines in Oregon and Washington for seven years. In an effort to facilitate the transition, with as little disruption as possible, Young’s Market Company agreed to compensate Willamette Valley Vineyards for ongoing Oregon sales and branding efforts. As a result, the Company was due to receive \$250,000 per year starting on September 2011 for each of the next four years for a total of \$1,000,000. As of December 31, 2014 and 2013, the Company has recorded a current distribution agreement receivable in the amount of \$0 and \$250,000, respectively, with the final payment having been made in 2014. The total amount of \$1,000,000 received by the Company related to this agreement is being recognized as revenue on a straight line basis over the seven year life of the agreement. For the year ended December 31, 2014 and 2013, the Company has recognized revenue related to this agreement in the amount of \$142,860 and \$142,860, respectively, recorded to other income.

NOTE 1 – SUMMARY OF OPERATIONS, BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES - continued

Income taxes – Income taxes are recognized using enacted tax rates, and are composed of taxes on financial accounting income that is adjusted for requirements of current tax law, and deferred taxes. Deferred taxes are estimated using the asset and liability approach whereby deferred income taxes are calculated for the expected future tax consequences of temporary differences between the book basis and tax basis of the Company’s assets and liabilities.

The Company had no unrecognized tax benefits as of December 31, 2014 or 2013. The Company recognizes interest assessed by taxing authorities as a component of tax expense. The Company recognizes any penalties assessed by taxing authorities as a component of tax expense. Interest and penalties for the years ended December 31, 2014 and 2013 were not material.

The Company files U.S. federal income tax returns with the Internal Revenue Service (“IRS”) as well as income tax returns in Oregon, California and Connecticut. The Company may be subject to examination by the IRS for tax years 2011 through 2014. Additionally, the Company may be subject to examinations by state taxing jurisdictions for tax years 2010 through 2014. The Company is not aware of any current examinations by the IRS or the state taxing authorities.

Deferred rent liability – The Company leases land under a sale-leaseback agreement. The long-term operating lease has minimum lease payments that escalate every year. For accounting purposes, rent expense is recognized on the straight-line basis by dividing the total minimum rents due during the lease by the number of months in the lease. In the early years of a lease with escalation clauses, this treatment results in rental expense recognition in excess of rents paid, and the creation of a long-term deferred rent liability. As the lease matures, the deferred rent liability will decrease and the rental expense recognized will be less than the rents actually paid. For the years ended December 31, 2014 and 2013, rent costs paid in excess of amounts recognized totaled \$18,794 and \$14,751, respectively.

Revenue recognition – The Company recognizes revenue when the product is shipped and title passes to the customer. The Company’s standard terms are ‘FOB’ shipping point, with no customer acceptance provisions. The cost of price promotions and rebates are treated as reductions of revenue. No products are sold on consignment. Credit sales are recorded as trade accounts receivable and no collateral is required. Revenue from items sold through the Company’s retail locations is recognized at the time of sale. Net revenue reported herein is shown net of sales allowances and excise taxes.

The Company has price incentive programs with its distributors to encourage product placement and depletions. In accordance with FASB ASC Subtopic 605-50, Revenue Recognition – Customer Payments and Incentives, when recording a sale to the customer, an incentive program liability is recorded to accrued liabilities and sales are reported net of incentive program expenses. Incentive program payments are made when completed incentive program payment requests are received from the customers. Incentive payments to a customer reduce the incentive program accrued liability. For the years ended December 31, 2014 and 2013, the Company recorded incentive program expenses of \$325,509 and \$197,301, respectively, as a reduction in sales on the income statement. As of December 31, 2014 and 2013, the Company has recorded an incentive program liability in the amount of \$48,000 and \$60,241, respectively, which is included in accrued expenses on the balance sheet.

Cost of goods sold – Costs of goods sold include costs associated with grape growing, external grape costs, packaging materials, winemaking and production costs, vineyard and production administrative support and overhead costs, purchasing and receiving costs and warehousing costs.

NOTE 1 – SUMMARY OF OPERATIONS, BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES - continued

Administrative support, purchasing, receiving and most other fixed overhead costs are expensed as selling, general and administrative expenses without regard to inventory units. Warehouse and winery production and facilities costs, which make up approximately 11% of total costs, are allocated to inventory units on a per gallon basis during the production of wine, prior to bottling the final product. No further costs are allocated to inventory units after bottling.

Selling, general and administrative expenses – Selling, general and administrative expenses consist primarily of non-manufacturing administrative and overhead costs, advertising and other marketing promotions. Advertising costs are expensed as incurred or the first time the advertising takes place. For the years ended December 31, 2014 and 2013, advertising costs incurred were approximately \$100,000 and \$48,000 respectively.

The Company provides an allowance to distributors for providing sample of products to potential customers. For the years ended December 31, 2014 and 2013, these costs, which are included in selling, general and administrative expenses, totaled approximately \$129,900 and \$85,900, respectively.

Shipping and handling costs – Amounts paid by customers to the Company for shipping and handling costs are included in the net revenue. Costs incurred for shipping and handling charges are included in selling, general and administrative expense. For the years ended December 31, 2014 and 2013, such costs totaled approximately \$407,000 and \$315,000, respectively. The Company's gross margins may not be comparable to other companies in the same industry as other companies may include shipping and handling costs as a cost of goods sold.

Excise taxes – The Company pays alcohol excise taxes based on product sales to both the Oregon Liquor Control Commission and to the U.S. Department of the Treasury, Alcohol and Tobacco Tax and Trade Bureau. The Company is liable for the taxes upon the removal of product from the Company's warehouse on a per gallon basis. The federal tax rate is affected by a small winery tax credit provision which declines based upon the number of gallons of wine production in a year rather than the quantity sold. The Company also pays taxes on the grape harvest on a per ton basis to the Oregon Liquor Control Commission for the Oregon Wine Advisory. For the years ended December 31, 2014 and 2013, excise taxes incurred were approximately \$345,700 and \$277,400 respectively.

Stock based compensation – The Company expenses stock options on a straight line basis over the options' related vesting term. For the years ended December 31, 2014 and 2013, the Company recognized pretax compensation expense related to stock options of \$21,164 and \$22,839, respectively.

Basic and diluted net income per share – Basic earnings per share is computed based on the weighted-average number of common shares outstanding each year. Diluted earnings per share are computed using the weighted average number of shares of common stock and potentially dilutive securities assumed to be outstanding during the year. Potentially dilutive shares from stock options and other common stock equivalents are excluded from the computation when their effect is anti-dilutive.

Options to purchase 222,971 shares of common stock were outstanding at December 31, 2014 and diluted weighted-average shares outstanding at December 31, 2014 include the effect of 80,880 stock options. Options to purchase 260,200 shares of common stock were outstanding at December 31, 2013 and diluted weighted-average shares outstanding at December 31, 2013 include the effect of 51,520 stock options.

0 and 75,200 potentially dilutive shares from stock options were not included in the computation of dilutive earnings per share for 2014 and 2013, respectively as their impact would have been anti-dilutive.

Recently issued accounting standards – In May 2014, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2014-09, Revenue from Contracts with Customers, which creates a single source of revenue recognition guidance for all companies. This guidance is more principles-based than current revenue guidance and also addresses accounting for items not typically thought of as revenue, such as certain costs associated with obtaining and fulfilling a contract and the sale of certain nonfinancial assets. For public entities, the amendments are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted. The Company has not yet selected a transition method or determined the effect of the standard on its ongoing financial reporting.

Depreciation expense was \$994,685 and \$669,781 during the years ended December 31, 2014 and 2013, respectively. Capitalized interest was \$40,039 and \$25,999 for the years ended December 31, 2014 and 2013, respectively.

NOTE 5 – LINE OF CREDIT FACILITY

In December of 2005 the Company entered into a revolving line of credit agreement with Umpqua Bank that allows borrowings of up to \$2,000,000 against eligible accounts receivables and inventories as defined in the agreement. The revolving line bears interest at prime, is payable monthly, and is subject to biannual renewal. The Company renewed the credit agreement in June of 2014 for a period of 24 months. The interest rate was 3.25% at December 31, 2014 and 2013. At December 31, 2014 and 2013 there were no borrowings on this revolving line of credit.

The line of credit agreement includes various covenants, which among other things, requires the Company to maintain minimum amounts of tangible net worth, debt-to-equity, and debt service coverage as defined, and limits the level of acquisitions of property and equipment. As of December 31, 2014, the Company was in compliance with these financial covenants.

NOTE 6 – LONG-TERM DEBT

Long-term debt consists of:

	December 31,	
	2014	2013
Northwest Farm Credit Services Loan #1	\$ 1,238,256	\$ 1,310,084
Northwest Farm Credit Services Loan #2	1,154,945	1,233,472
Northwest Farm Credit Services Loan #3	1,202,799	1,269,402
Northwest Farm Credit Services Loan #4	1,906,294	2,000,000
Other long term debt	-	3,787
	5,502,294	5,816,745
Current portion	(329,255)	(306,353)
	\$ 5,173,039	\$ 5,510,392

The Company has four agreements with Northwest Farm Credit Services (“FCS”). Loan #1 requires monthly payments of \$12,266, bears interest at a rate of 5.90%, is collateralized by real estate and equipment, and matures in 2026. Loan #2 requires monthly payments of \$13,232, bears interest at a rate of 6.70%, is collateralized by real estate and equipment, and matures in 2024. Loan #3 requires monthly payments of \$12,004, bears interest at a rate of 6.25%, is collateralized by real estate and equipment, and matures in 2026. Loan #4 requires monthly payments of \$15,556, bears interest at a rate of 4.75%, is collateralized by real estate and equipment, and matures in 2028.

The loan agreements contain covenants, which require the Company to maintain certain financial ratios and balances. At December 31, 2014, the Company was in compliance with these covenants. In the event of future noncompliance with the Company’s debt covenants, FCS would have the right to declare the Company in default, and at FCS’ option without notice or demand, the unpaid principal balance of the loan, plus all accrued unpaid interest thereon and all other amounts due shall immediately become due and payable.

Future minimum principal payments of long-term debt mature as follows for the years ending December 31:

2015	\$329,255
2016	349,002
2017	369,955
2018	392,189
2019	415,781
Thereafter	3,646,112
	\$5,502,294

The weighted-average interest rates on the aforementioned borrowings for the fiscal years ended December 31, 2014 and 2013 was 5.75% and 5.75% respectively.

NOTE 7 – SHAREHOLDERS’ EQUITY

The Company is authorized to issue 10,000,000 shares of its common stock. Each share of common stock is entitled to one vote. At its discretion, the Board of Directors may declare dividends on shares of common stock, although the

Board does not anticipate paying dividends in the foreseeable future.

NOTE 8 – STOCK INCENTIVE PLAN

The Company has a stock incentive plan, originally created in 1992, most recently amended in 2001. No additional grants may be made under the plan. All stock options have an exercise price that is equal to the fair market value of the Company's stock on the date the options were granted. Administration of the plan, including determination of the number, term, and type of options granted, resides with the Board of Directors or a duly authorized committee of the Board of Directors. Options were generally granted based on employee performance with vesting periods ranging from date of grant to seven years. At the date of the grant, the maximum term before expiration is ten years.

NOTE 8 – STOCK INCENTIVE PLAN - continued

All share-based compensation is measured at the grant date based on the fair value of the award, and is recognized as an expense in earnings over the requisite service period. The fair value of each stock option granted is estimated on the date of grant using the Black-Scholes based stock option valuation model. This model uses the assumptions listed in the table below. Expected volatilities are based on implied volatilities from the Company's stock, historical volatility of the Company's stock, and other factors. Expected dividends are based on the Company's plan not to pay dividends for the foreseeable future. The Company uses historical data to estimate option exercises and employee terminations within the valuation model. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. There were no stock options granted during the years ended December 31, 2014 and 2013.

Stock compensation expense was \$21,164 and \$22,839 for the years ended December 31, 2014 and 2013, respectively, and is included in selling, general & administrative expenses on the statement of income.

As of December 31, 2014, unrecognized compensation expense related to stock options was \$17,409.

NOTE 9 – INCOME TAXES

The provision (benefit) for income taxes consists of:

	Year Ended December 31,	
	2014	2013
Current tax expense:		
Federal	\$ 663,096	\$ 406,889
State (includes Mult/PDX)	132,903	114,820

Net deferred tax liability	\$ (1,417,000)	\$ (1,437,000)

NOTE 10 – RELATED PARTY TRANSACTIONS

The Company provides living accommodations in a residence on the Company's premises, at its convenience, for the Company's President. The President provides security and lock-up services and is required to live on premises as a condition of his employment. Over the years the Company has recorded annual expenses less than \$12,000, exclusive of depreciation, related to the housing provided for its president.

In February 2007 the Company entered into a lease agreement for 59 acres of vineyard land at Elton Vineyards. This lease is for a 10-year term with four five-year renewals at the Company's option and a first right of refusal in the event of the vineyard's sale. For 2014, the annual costs of this lease were \$119,304. For subsequent years there is an escalation provision tied to the CPI not to exceed 2% per annum. Betty M. O'Brien, a Director of the Company, is a principal owner of Elton Vineyards.

NOTE 11 – COMMITMENTS AND CONTINGENCIES

Litigation – From time to time, in the normal course of business, the Company is a party to legal proceedings. Management believes that these matters will not have a material adverse effect on the Company's financial position, results of operations or cash flows, but, due to the nature of litigation, the ultimate outcome of any potential actions cannot presently be determined.

Operating leases – In December 1999, under a sale-leaseback agreement, the Company sold approximately 79 acres of the Tualatin Vineyards property with a net book value of approximately \$1,000,000 for approximately \$1,500,000 cash and entered into a 20-year operating lease agreement. The gain of approximately \$500,000 is being amortized over the life of the lease. This property is referred to as the Peter Michael Vineyard, and includes approximately 69 acres of producing vineyards.

In December 2004, under a sale-leaseback agreement, the Company sold approximately 75 acres of the Tualatin Vineyards property with a net book value of approximately \$551,000 for approximately \$727,000 cash and entered

into a 14-year operating lease agreement for the vineyard portion of the property. Approximately \$99,000 of the total gain of \$176,000 has been deferred and is being amortized over the life of the lease. This property is referred to as the Meadowview Vineyard, and includes approximately 45 acres of producing vineyards.

The amortization of the deferred gain totals approximately \$25,000 per year for the 1999 sale-leaseback agreement and \$7,000 for the 2004 sale-leaseback agreement, and is recorded as an offset to the related lease expense in selling, general and administrative expenses.

NOTE 11 – COMMITMENTS AND CONTINGENCIES - continued

In February 2007 the Company entered into a lease agreement for 59 acres of vineyard land at Elton Vineyards. This lease is for a 10-year term with four five-year renewals at the Company's option and a first right of refusal in the event of the vineyard's sale. For 2014, the annual costs of this lease were \$119,304. For subsequent years there is an escalation provision tied to the CPI not to exceed 2% per annum. Betty M. O'Brien, a Director of the Company, is a principal owner of Elton Vineyards. The terms of the lease currently call for a monthly payment of \$9,942 with the annual adjustment ending January 2017 unless renewed.

In July 2008 the Company entered into a 34-year lease agreement with a property owner in the Eola Hills for approximately 109 acres adjacent to the existing Elton Vineyards site. These 109 acres will be developed into vineyards in the future. Terms of this agreement contain rent escalation that rises as the vineyard is developed. The current terms call for monthly payments of \$279.

In September 2014 the Company entered into a two year lease, with an option to renew for an additional two years, for its McMinnville tasting room. The monthly payment for this lease is \$3,000 with potential negotiated escalations not to exceed 5%.

Grape Purchases - The Company has entered into three long-term grape purchase agreements with one of its Willamette Valley wine grape growers. These contracts, entered into in 2004, 2006 and 2007, expire in 2015, 2016 and 2016, respectively. With these contracts, the Company is obligated to purchase, at pre-determined prices, 100% of the crop produced within the strict quality standards and crop loads, equating to maximum payments of approximately \$1,500,000 per year. The Company cannot calculate the minimum payment as such a calculation is dependent in large part on an unknown – the amount of grapes produced that meet the strict quality standards in any given year. If no grapes are produced that meet the contractual quality levels, the grapes may be refused and no payment would be due. The Company received \$598,133 and \$554,532 worth of grapes from these long-term contracts during the years ended December 31, 2014 and 2013, respectively.

As of December 31, 2014, future minimum lease payments are as follows for the years ending December 31:

2015	\$389,356
2016	385,873
2017	369,381
2018	371,413
2019	323,082
Thereafter	503,378
Total	\$2,342,483

The Company is also committed to lease payments for various pieces of office equipment. Total rental expense for these operating leases amounted to \$8,500 and \$14,500 in 2014 and 2013, respectively. In addition, payments for the leased vineyards have been included in inventory or vineyard developments costs and aggregate approximately \$346,750 and \$340,529 for the years ended December 31, 2014 and 2013, respectively.

Vineyard development – The Company has approximately 171 acres of undeveloped plantable vineyard land at December 31, 2014. This estimated cost to develop this for grape production is approximately \$15,500 per acre or \$2.7 million in total. The Company estimates that this acreage will be developed as projected sales demand dictates the need for increased grape supply.

NOTE 12 – EMPLOYEE BENEFIT PLAN

In February 2006, the Company instituted a 401(k) profit sharing plan covering all eligible employees. Employees who participate may elect to make salary deferral contributions to the Plan up to 100% of the employees' eligible payroll subject to annual Internal Revenue Code maximum limitations. The Company may make a discretionary contribution to the entire qualified employee pool, in accordance with the Plan. For the years ended December 31, 2014 and 2013 there were \$64,664 and \$36,749 contributions made by the Company to the 401(k) plan, respectively.

NOTE 13 – SEGMENT REPORTING

The Company has identified two operating segments, Direct Sales and Distributor Sales, based upon their different distribution channels, margins and selling strategies. Direct Sales includes retail sales in the tasting room and remote sites, Wine Club sales, on-site events, kitchen and catering sales and other sales made directly to the consumer without the use of an intermediary. Distributor Sales include all sales through a third party where prices are given at a wholesale rate.

The two segments reflect how the Company's operations are evaluated by senior management and the structure of its internal financial reporting. The Company evaluates performance based on the gross profit of the respective business segments. Selling expenses that can be directly attributable to the segment, including depreciation of segment specific assets, are included however centralized selling expenses and general and administrative expenses are not allocated between operating segments. Therefore, net income information for the respective segments is not available. Discrete financial information related to segment assets, other than segment specific depreciation associated with selling, is not available and that information continues to be aggregated.

The following table outlines the sales, cost of sales, gross margin, directly attributable selling expenses, and contribution margin of the segments for the twelve month periods ending December 31, 2014 and 2013. Sales figures are net of related excise taxes.

NOTE 15 – SUBSEQUENT EVENTS

Subsequent events are events or transactions that occur after the balance sheet date but before financial statements are issued. The Company recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing the financial statements. The Company's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the balance sheet but arose after the balance sheet date and before financial statements are issued.

In March of 2015, the Company signed a Purchase and Sale agreement to purchase approximately 44 acres of undeveloped farmland in the Walla Walla Valley AVA for \$736,250, with an option to purchase an additional 45 acres for \$433,000. The Company expects the purchase to close in April 2015. This purchase is part of the Company's plan to broaden its product and brand line of premium wines.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We carried out an evaluation as of the end of the period covered by this Annual Report on Form 10-K, under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of our disclosure controls and procedures pursuant to paragraph (b) of Rule 13a-15 and 15d-5 under the Exchange Act. Based on that review, the Chief Executive Officer and the Chief Financial Officer have concluded that, as of the end of the period covered by this Annual Report, our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act (1) is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and (2) is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

It should be noted that any system of controls is based in part upon certain assumptions designed to obtain reasonable (and not absolute) assurance as to its effectiveness, and there can be no assurance that any design will succeed in achieving its stated goals.

Internal Control over Financial Reporting

Management's report on internal control over financial reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of the Company's financial reporting and the preparation of the Company's financial statements for external purposes in accordance with generally accepted accounting principles. Internal control over financial reporting is defined in Rules 13a-15(f) and 15d-15(f) promulgated under the Exchange Act and includes those policies and procedures that: (a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the Company's assets; (b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that the Company's receipts and expenditures are being made only in accordance with authorizations of the Company's management and directors; and (c) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the Company's financial statements. All internal controls, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

The Company's management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2014. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in Internal Control – Integrated Framework (1992). Based on this assessment, management has concluded that, as of December 31, 2014, our internal control over financial reporting was effective.

Changes in Internal Control over Financial Reporting

There have not been any other changes in the Company's internal control over financial reporting (as such term is defined in Rule 13a-15(f) and 15d-15(f) under the Exchange Act) during the Company's fourth fiscal quarter that our certifying officers concluded materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires the Company's officers, directors and persons who own more than 10% of a registered class of the Company's equity securities to file certain reports with the SEC regarding ownership of, and transactions in, the Company's securities. These officers, directors and stockholders are also required by SEC rules to furnish the Company with copies of all Section 16(a) reports that are filed with the SEC. Based solely on a review of copies of such forms received by the Company and written representations received by the Company from certain reporting persons, the Company believes that for the year ended December 31, 2014 all Section 16(a) reports required to be filed by the Company's executive officers, directors and 10% stockholders were filed on a timely basis.

Code of Ethics

The Company has adopted a code of ethics applicable to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, which is a "code of ethics" as defined by applicable rules of the SEC. A copy of the Company's Code of Business Conduct and Ethics is posted on the Company's web site, www.wvv.com. Amendments to the Company's Code of Business Conduct and Ethics or any grant of a waiver from a provision of the Company's Code of Business Conduct and Ethics requiring disclosure under applicable SEC rules, if any, will be disclosed on the Company website at www.wvv.com. Any person may request a copy of the Company's Code of Business Conduct and Ethics, at no cost, by writing to the Company at the following address:

Willamette Valley Vineyards, Inc.

Bernau Employment Agreement – The Company and Mr. Bernau are parties to an employment agreement dated August 3, 1988 as amended on February 20, 1997, in January of 1998, in November 2010, and again on November 8, 2012. Under the amended agreement, Mr. Bernau is paid an annual salary of \$235,000 with annual increases tied to increases in the consumer price index. Mr. Bernau's bonus is calculated as a percentage of Company net income before taxes; 5% on the first \$1.5 million of pre-tax income, and 7.5% on the pre-tax net income over \$1.5 million, not to exceed 50% of Mr. Bernau's base salary. Additionally, Mr. Bernau participates in the employer sponsored 401(k) plan. Pursuant to the terms of the employment agreement, the Company is to provide Mr. Bernau with housing on the Company's property. During part of 2013, Mr. Bernau lived in a mobile home on the Company property free of rent. During 2013, the mobile home was demolished and new estate lodging was built on the same site. Since completion in February 2013, Mr. Bernau resides in the new estate housing, free of rent, which will also be used to accommodate overnight stays for Company guests. Mr. Bernau resides in the residence for the convenience of the Company and must continue to reside there for the duration of his employment in order to provide additional security and lock-up services for late evening events at the Winery and Vineyard. The employment agreement provides that Mr. Bernau's employment may be terminated only for cause, which is defined as non-performance of his duties or conviction of a crime.

Goward Employment Agreement – The Company and Mr. Goward are parties to an employment agreement dated April 16, 2013. Under the agreement Mr. Goward is paid an annual salary of \$90,000. Additionally, the agreement includes reimbursement for costs associated with him providing his own health insurance. Mr. Goward also participates in the employer sponsored 401(k) plan.

Outstanding Equity Awards at Fiscal 2014 Year End

The following table summarizes the outstanding equity award holdings held by our named executive officers. The amounts are not stated in thousands. As indicated above, disclosure is not required for any other executive officer. No stock awards were held by any of our named executive officers as of December 31, 2014

(1) On July 20, 2011, the Board of Directors granted Mr. Bernau an option to purchase 80,000 shares of the Company's common stock. The vesting commencement date of this option is July 20, 2011. 25% of the total amounts of shares subject to the options vest annually on the anniversary of the vesting commencement date, such that all shares subject to the option shall be exercisable on July 20, 2015.

ITEM 11. EXECUTIVE COMPENSATION - continued

Stock options

In order to reward performance and retain high-quality employees, the Company has, in the past, granted stock options to its employees. The Company has not ordinarily directly issued shares of stock to its employees. Options were typically issued at a per share exercise price equal to the closing price as reported by the Nasdaq Capital Market at the time the option was granted. The options vest to the employee over time. Three months following termination of the employee's employment with the Company, any and all unexercised options terminate. The Company is not currently granting new options and does not intend to do so at this time.

Director compensation

The following table sets forth information concerning compensation of the Company's directors other than Mr. Bernau for the fiscal year ended December 31, 2014:

* Retired or resigned from Board in 2014

** Appointed to Board January 2015

(1) There were no option awards granted to the Company's directors in the fiscal year ended December 31, 2014. The aggregate number of option awards outstanding for each director as of December 31, 2014 is as follows: Mr. Ellis – 68,000, Mr. Cary – 2,083, Mr. Sarles – 0, Mr. Brian – 22,000, Mr. Smith – 0, Ms. O'Brien – 18,000, and Mr. Turel – 12,000.

Other compensation for James L. Ellis includes a monthly stipend for ongoing consultation services as well as serving as administrator of any potential employee complaint that might rise to the board level.

The members of the Company's Board of Directors (the "Board") received cash compensation for their service on the Board in 2014, and were reimbursed for out-of-pocket and travel expenses incurred in attending Board meetings. Under the Company's Stock Incentive Plan adopted by the shareholders in 1992 and further amended by the shareholders in 1996, beginning in 1997 an option to purchase 1,500 shares of Common Stock is granted to each Director for service on the Board during the year. This option was increased to 4,000 per year when the 50-share grant per Director's meeting was discontinued for the year 2000 and beyond. In December 2005, each Director was granted 14,000 options for service during 2005. In the foreseeable future, as a result of FASB ASC Topic 718, Stock Compensation, requiring all share-based payments to be recognized as expenses in the statement of operations based on their fair values and vesting periods, the Company does not intend to issue stock options to the Directors for their service.

In January 2009 the Board, upon recommendation of the Compensation Committee, who had sought outside counsel regarding revision of the Company's Board Compensation Plan, adopted the final version of the revised WVV Board Member Compensation Plan. Under the terms of the revised plan, any Board member may elect not to receive any or all of the compensation components. The Board also reserved the right to suspend this plan at any time on the basis of prevailing economic conditions and their impact on the company. The basic elements of the revised plan are: \$1,000 yearly stipend for service on the Board, \$500 per Board meeting attended in person, \$250 per Board meeting via teleconference, \$200 per committee meeting in person and \$100 per committee meeting via teleconference. A set per diem for expenses associated with meeting attendance, as well as a yearly wine allowance were also approved.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

In 2007, the Company entered into a long-term lease for Elton vineyards which consists of 54 acres of mature grapevines, of which approximately 42 acres are Pinot Noir. The agreement was for an initial 10-year lease with the option to renew for four successive terms of five years each, plus a first right of refusal on the property's sale. Betty O'Brien, a member of the Board, is a 50% owner of the lessor, Elton Vineyards, LLC. As such, she is therefore entitled to 50% of the net income of Elton Vineyards, LLC.

The Company believes that the transactions set forth above were made on terms no less favorable to the Company than could have been obtained from unaffiliated third parties. All future transactions between the Company and its officers, directors, and principal shareholders will be approved by a disinterested majority of the members of the Affiliated Transactions Committee of the Board, and will be on terms no less favorable to the Company than could be obtained from unaffiliated third parties. After reviewing the relationship between the Company and Elton Vineyards, LLC, in each of the last three years, the Board has determined that Ms. O'Brien is "independent" within the meaning of the applicable rules and regulations of the SEC and the director independence standards of the NASDAQ Stock market, Inc. ("NASDAQ").

During 2014, the Company did not participate in any transactions with related persons that had a direct or indirect material interest in an amount exceeding \$120,000 and there are no currently and there are no currently proposed transactions with related persons that exceed \$120,000.

The Board has determined that each of our directors, except Mr. Bernau and Mr. Ellis is "independent" within the meaning of the applicable rules and regulations of the SEC and the director independence standards of NASDAQ, as currently in effect. Furthermore, the Board has determined that each of the members of each of the committees of the Board is "independent" under the applicable rules and regulations of the SEC and the director independence standards of NASDAQ, as currently in effect.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

Moss Adams LLP served as the Company's independent registered public accounting firm for the years ended December 31, 2014 and 2013. Fees for professional services provided by our independent registered public accounting firm in each of the last two fiscal years, in each of the following categories are:

	Years Ended December 31,	
	2014	2013

Tax fees (2)	46,679	29,500
All other fees (3)	-	750
	\$ 184,929	\$ 179,250

(1) Audit fees represent fees for services rendered for the audit of the Company's annual financial statements and review of the Company's quarterly financial statements.

(2) Tax fees represent fees for services rendered for tax compliance, tax advice and tax planning

(3) All other fees represent limited engagement activity. In the year ended December 31, 2013 the Company entered into a limited engagement with Moss-Adams to perform a cost certification, required as part of a state solar energy incentive, and incurred fees of \$750 for performance of the engagement.

The Company did not incur any audit related fees in either 2013 or 2014.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES - continued

Pre-approval policies and procedures

It is the policy of the Company not to enter into any agreement for Moss Adams LLP to provide any non-audit services to the Company unless (a) the agreement is approved in advance by the Audit Committee or (b) (i) the aggregate amount of all such non-audit services constitutes no more than 5% of the total amount the Company pays to Moss Adams LLP during the fiscal year in which such services are rendered, (ii) such services were not recognized by the Company as constituting non-audit services at the time of the engagement of the non-audit services and (iii) such services are promptly brought to the attention of the Audit Committee and prior to the completion of the audit were approved by the Audit Committee or by one or more members of the Audit Committee who are members of the Board to whom authority to grant such approvals has been delegated by the Audit Committee. The Audit Committee will not approve any agreement in advance for non-audit services unless (1) the procedures and policies are detailed in advance as to such services, (2) the Audit Committee is informed of such services prior to commencement and (3) such policies and procedures do not constitute delegation of the Audit Committee's responsibilities to management under the Exchange Act.
