PROXY STATEMENT

Navistar International Corporation
4201 Winfield Road
Warrenville, Illinois 60611

INFORMATION ABOUT THE ANNUAL MEETING

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of Navistar International Corporation, a Delaware corporation, for use at the 2003 Annual Meeting of Shareowners and at any meeting following postponement or adjournment thereof. The meeting will be held at the Hyatt Lisle Hotel, 1400 Corporetum Drive, Lisle, Illinois on Tuesday, February 18, 2003 at 11:00 a.m. (Central Standard Time). This Proxy Statement summarizes information that we are required to provide you under the rules of the U.S. Securities and Exchange Commission and is designed to assist you in voting your shares. On or about January 16 2003, we began sending these proxy materials to all shareowners of record at the close of business on January 3, 2003.

INFORMATION ABOUT VOTING

Shareowners of record can vote in person at the Annual Meeting or by proxy. There are two ways to vote by proxy:

- By Telephone--If you hold your shares in your own name rather than through a broker, you can vote by telephone by calling the toll-free number listed on the proxy card. Please see your proxy card for specific instructions.
- By Mail--You can vote by mail by signing, dating and mailing the enclosed proxy card.

If you hold your shares through a bank, broker, or other record holder, you may vote your shares by following the instructions they have provided.

By voting by proxy, you will direct the individuals named on the card (your "proxies") to vote your shares at the Annual Meeting in the manner you indicate. The persons named as proxies were selected by the Board of Directors and are either directors or officers of the Company or both. If you sign and return the card without indicating your instructions, then the designated proxies will vote your shares "FOR" the election of all three nominees for director.

You may revoke or change your proxy at any time before it is exercised by sending a written revocation to the Company's Secretary, by providing a later dated proxy, by voting by telephone at a later time, or by attending the Annual Meeting and voting in person.

You may have your votes kept confidential by so indicating in the designated place on the proxy card or when prompted during telephone voting. If you are a participant in the Company's 401(k) Retirement Savings Plan, 401(k) Plan for Represented Employees, or Retirement Accumulation Plan, the proxy card

Edgar Filing: NAVISTAR INTERNATIONAL CORP - Form DEF 14A

will represent the number of shares allocated to your account under the Plan and will serve as a direction to the Plan's trustee as to how the shares in your account are to be voted.

Holders of record of Navistar's Common Stock at the close of business on January 3, 2003 are entitled to receive this notice and to vote their shares at the Annual Meeting. As of that date, there were outstanding 67,842,193 shares of Common Stock. You are entitled to one vote per share, exercisable in person or by proxy, with respect to all matters to come before the Annual Meeting.

1

Quorum Requirements

A quorum is necessary to hold a valid meeting. Under the Company's By-Laws at least one-third of the Company's Common Stock must be represented at the Annual Meeting, whether in person or by proxy, to constitute a quorum. Abstentions and broker non-votes are counted as present for establishing a quorum. A broker "non-vote" occurs when a broker votes on some matter on the proxy card but not on others because the broker does not have the authority to do so.

Required Vote

Directors are elected by a plurality vote of shares present (in person or by proxy) at the meeting, meaning that the three nominees for director receiving the highest number of votes will be elected. Abstentions and broker "non-votes" are not counted in determining the number of shares voted for or against any nominee for director.

Other Matters

The Board of Directors does not know of any other matters that will be presented at the Annual Meeting other than the election of directors as discussed in this Proxy Statement. If any other matter properly comes before the Annual Meeting, your proxies will vote your shares in accordance with their best judgment. Discretionary authority to vote on other matters is included in the proxy.

ELECTION OF DIRECTORS

Our Board of Directors currently has 14 members, who are divided into three classes (Class I, Class II, and Class III). One class is elected at each Annual Meeting of shareowners to serve for a three-year term.

Three directors will be elected at the Annual Meeting to serve as Class I directors for a three-year term beginning at this Annual Meeting and expiring at our Annual Meeting in the year 2006. The Board of Directors has nominated Y. Marc Belton, Abbie J. Griffin and Robert C. Lannert for election as Class I directors. Each nominee is presently a director of the Company. Your proxies will vote your shares FOR the nominees, unless you instruct otherwise. Each nominee elected as a director will continue in office until his or her successor has been elected and qualified, or until his or her death, resignation or retirement.

The Board of Directors Recommends a vote FOR the Election of these Nominees as Directors.

The Company expects each nominee to be able to serve. If a nominee is unavailable for election, the Board may choose another nominee and your proxies

Edgar Filing: NAVISTAR INTERNATIONAL CORP - Form DEF 14A

will then vote your shares for that nominee or, as an alternative, the Board may reduce the number of directors to be elected at the Annual Meeting. The Board has authority under the Company's By-Laws to fill vacancies and to increase and decrease its size.

The Board's retirement policy provides for directors' retirement prior to the first Annual Meeting of shareowners, which is held after the date they attain age 70. Mr. Jerry E. Dempsey, currently a Class I director, and Mr. Allen J. Krowe, currently a Class III director, will have attained age 70 prior to the Annual Meeting and will retire from the Board of Directors. As a result, effective upon the election of the Class I directors at the Annual Meeting, the total number of directors of the Company will be decreased to 12.

If you want to recommend a director candidate, you may do so in accordance with the Company's By-Laws that require advance notice to the Company and certain other information. If you are interested in recommending a director candidate, you should request a copy of the By-Laws provisions by writing the Company's Secretary, Navistar International Corporation, 4201 Winfield Road, P.O. Box 1488, Warrenville, Illinois 60555.

International has delegated authority for such matters to the Base Plan Investment Committee of International (the "BPIC"), which currently has the same members as the PFIC; all who are executive officers of Navistar. Jennison Associates LLC has subsequently been appointed the investment manager for each trust with respect to the Navistar stock, and Jennison has been given discretionary authority regarding voting and disposition of the Navistar stock. Since, the PFIC and BPIC and Navistar have the power to revoke or change the appointment of Jennison (and therefore reacquire the voting and dispositive control over the Navistar stock), the committees, International or Navistar could be considered "beneficial owners" of the Navistar stock.

AUDIT COMMITTEE REPORT

The Audit Committee of the Board of Directors (under this heading, the "Committee") is composed of 7 directors who are neither officers nor employees of the Company, and who meet the independence requirements of the New York Stock Exchange. The Committee is governed by a written charter as approved by the Board of Directors. In accordance with its written charter, the Committee assists the Board in fulfilling its responsibility for oversight of the quality and integrity of the accounting, auditing and financial reporting practices of the Company. During fiscal year 2002, the Committee met 5 times, and the Committee chair, as representative of the Committee, discussed the interim financial information contained in quarterly earnings announcements with both management and the independent auditors prior to public release.

In discharging its oversight responsibility as to the audit process, the Committee obtained from the independent auditors a formal written statement describing all relationships between the auditors and the Company that might bear on the auditors' independence consistent with Independence Standards Board Standard No. 1 "Independence Discussions with Audit Committees," discussed with the auditors any relationships that may impact their objectivity and independence and satisfied itself as to the auditors' independence. The Committee also discussed with management, the internal auditors and the independent auditors the quality and adequacy of the Company's internal controls. The Committee reviewed with both the independent and the internal auditors their audit plans, audit scope, and identification of audit risks.

The Committee discussed and reviewed with the independent auditors all communications required by generally accepted auditing standards, including those described in Statement on Auditing Standards No. 61, as amended,

"Communication with Audit Committees" and, with and without management present, discussed and reviewed the results of the independent auditors' examination of the financial statements. The Committee also discussed the results of the internal audit examinations.

The Committee discussed and reviewed the audited consolidated financial statements of the Company as of and for the fiscal year ended October 31, 2002 with management and the independent auditors. Management has the responsibility for the preparation of the Company's financial statements and the independent auditors have the responsibility for the examination of those statements.

Based on the above-mentioned review and discussions with management and the independent auditors, the Committee recommended to the Board that the Company's audited consolidated financial statements be included in its Annual Report on Form 10-K for the fiscal year ended October 31, 2002 for filing with the Securities and Exchange Commission.

EXECUTIVE COMPENSATION

Committee on Compensation and Governance Executive Compensation Report

Introduction

The Board's Committee on Compensation and Governance (under this heading, the "Committee") establishes, administers, and monitors all compensation and benefit programs under which executive benefits are provided and compensation is paid or awarded to the Company's executive officers. Specifically the Committee reviews the performance of executive officers and makes compensation decisions with respect to the Company's executive officers, given the overall successes of the individual executives, their specific group and the organization as a whole.

Compensation Philosophy and Objectives

The executive compensation program is designed to closely align executive compensation with corporate and individual performance and the total return to shareowners. The Company has developed an overall compensation philosophy that is built on a foundation of guiding principles:

- o Competitive Positioning: To attract and retain the executive talent required to achieve the Company's goals through a market competitive total remuneration package.
- o Performance Orientation: Executive compensation has a strong individual performance-based link, and is designed to promote an alignment of interests between shareowners and senior executives.
- o Equity: Our compensation programs are fair and equitable, and create

Edgar Filing: NAVISTAR INTERNATIONAL CORP - Form DEF 14A

no advantage for any one individual or group on the basis of age, service, or other non-performance related criteria.

- o Ownership and Responsibility: The Company has designed a compensation program that recognizes individual contributions as well as linking executive and shareowner interests through compensation programs that are based on common measures of financial success.

Market Compensation Review

In 2002 the Committee conducted a comprehensive review of the executive compensation program to ensure that pay opportunities are competitive with the current market, and that there is an appropriate link between company and individual performance, the Company's stated compensation philosophy, and actual executive compensation. This process included consultation with an independent compensation and benefits consulting firm throughout the year on such issues as base salaries, incentive awards, and overall compensation and benefits philosophy. The Committee reviews executive compensation against peer groups of companies with which the Company competes for talent. Competitive executive compensation data was gathered from a custom peer group of 32 companies reflecting a cross section of aerospace, automobile, and other transportation companies.

The Committee believes that the market in which the Company competes for talent is growing in breadth and scope. Therefore, we feel it is relevant to include in our compensation review not only some of those companies that make up the Standard and Poor's Construction and Farm Index (classified as the Heavy Duty Truck & Parts Index through 2001), which appears in the Performance Graph in this Proxy Statement, but also those organizations that we view as a relevant source for executive talent.

The Company has established and communicated to executives a policy of targeting base salaries at the 50th percentile of the competitive market. Our incentive compensation is targeted to reward executives with total compensation at the 50th percentile of the market for target corporate performance, and at the 75th percentile for distinguished corporate performance. This philosophy was adhered to in setting base salaries.

10

Policy on Deductibility of Compensation

Section 162(m) of The Internal Revenue Code of 1986 provides that a public company generally may not deduct the amount of annual compensation paid to certain executive officers that is more than \$1 million. The provision does not apply to certain performance-based compensation that meets the requirements contained in IRS regulations. Performance based compensation can include income from stock options, restricted stock, and certain formula driven compensation that meets the IRS requirements. The Committee has considered the effect of this Internal Revenue Code limitation, and has concluded that the limitation will not have any significant effect on the Company's income tax liability.

Elements of Executive Compensation

The elements of the Company's executive compensation program include base salary, an annual incentive program, and long-term incentives. Although each decision relative to these compensation programs has to be undertaken separately, the Committee considers the total compensation and benefits package (including salary, incentives, stock options, pension benefits, supplemental

Edgar Filing: NAVISTAR INTERNATIONAL CORP - Form DEF 14A

retirement benefits, insurance and other benefits) when making any compensation decision. Also, in considering the individual performance of the executives named in this proxy statement, the Committee takes into consideration the opinions and recommendations of Mr. Horne, the Chief Executive Officer, for positions other than his own.

Base Salary

Base salaries for executive officers are determined initially by evaluating and comparing the responsibilities of their positions and experiences and by reference to the competitive marketplace for executive talent. Salary adjustments are determined by evaluating the performance of the Company and of each executive. In addition, the market is surveyed to determine average year over year industry changes in executive pay.

Based on the competitive survey conducted by the outside consultants and a subjective review of individual performance, the Committee increased base pay of the executives named in the Summary Compensation Table by an average of 10.3% in 2002, which includes performance and promotional increases. These increases in base pay resulted in the group of executive officers being paid, on average, at the median of the competitive market.

Annual Incentive

A substantial portion of the Company's executive compensation package is contingent upon the Company's attaining financial and non-financial performance goals established by the Committee prior to the beginning of each fiscal year. Approximately 500 participants are eligible for annual incentive payments. The target annual incentive varies by organization level, from 25% of base salary for senior managers to 110% of base salary for the Chief Executive Officer. In 1997, the Committee established a performance goal based on the Company's return on equity.

Long-Term Incentives

Again in 2002, the Company delivered long-term incentive compensation entirely in annual stock option grants to all executives. Option grants are made to executives at the fair market value price on the date of grant and expire on the 10th anniversary of the grant. In 2002, one-third of the options granted become exercisable on each of the first, second and third anniversaries of the grant.

When determining the size of the option grants made to executives, the Committee again considered the results of a competitive compensation survey conducted by an outside consulting firm.

The Company feels strongly that it is important to encourage senior executives to hold significant amounts of Navistar stock, thereby tying their long-term economic interest directly to that of the shareowners. To achieve this goal, the Company has implemented stock ownership guidelines for those executives. The Company's stock ownership targets apply to approximately 44 executives, the majority of whom hold the title of staff vice president and above. Executives are expected to attain their respective ownership level within five years. These

executives have ownership requirements that range from 75% to 300% as a percent of base salary and are fixed at the number of shares that are required on the date of their promotion or hire. Currently, the average number of shares owned

Edgar Filing: NAVISTAR INTERNATIONAL CORP - Form DEF 14A

by these executives exceeds the required number of shares.

Chief Executive Officer Compensation

Mr. Horne's 2002 base salary was at the median base salary for comparable positions, according to the compensation survey conducted that same year. As a result of his achievement of aggressive non-financial performance goals, his 2002 salary was increased by \$100,000 to \$1,200,000, which, according to the compensation survey, was within competitive levels at 5% above the 50th percentile of the Company's competitive market.

Mr. Horne's 2002 annual cash incentive payment would have been awarded on the achievement of a very challenging return on equity goal for the Company established by the Committee, as well as the achievement of various non-financial goals of each business unit. These non-financial goals include, but are not limited to, leadership development, strategies/growth and product development. Because these aggressive financial goals were not met, Mr. Horne did not receive an annual incentive payment for 2002.

In fiscal year 2002, Mr. Horne was also granted an option to purchase 242,700 shares of Common Stock. This award is both competitive and commensurate with market practice given recent Company and individual performance.

It is the Committee's view that the Company's executive compensation programs and awards provide a significant link between individual and corporate performance and compensation paid. We also believe that the programs are appropriate in the current competitive market and in the shareowners' interests

Performance Graph

This graph shows the yearly percentage change in the Company's cumulative total shareowner return on Navistar's Common Stock during the last five fiscal years ended October 31, 2002. The graph also shows the cumulative total returns of the S&P 500 Index and the S&P Construction & Farm Index. In prior fiscal years the Company's performance was compared with the cumulative total return of the S&P Truck and Parts Index. The S&P Truck and Parts Index was discontinued by Standard & Poor's at the end of 2001, when they changed their classification standard. The graph shows the cumulative total returns of the S&P Truck and Parts Index through the last four fiscal years ended October 31, 2001.

The comparison assumes \$100 was invested on October 31, 1997 in Navistar Common Stock and in each of the indices shown and assumes reinvestment of dividends.

(2) Non-Qualified Options

(3) Restoration options with the following terms: granted at fair market value; becoming exercisable two years from the grant date, or, if sooner, one month before the end of the remaining term of the options they replaced; and expiring coincident with the options they replaced. Restoration options are issued when an executive uses shares of Company Common Stock to pay the option exercise price of a previously issued option.

(4) All options, other than restoration options, become exercisable under the following schedule: one-third on the first anniversary of the grant, one-third on the second anniversary, and one-third on the third anniversary. In the event an optionee exercises a non-qualified option with already-owned shares, he or she may be eligible to receive restoration options. Restoration options contain the same expiration dates and other terms as the options they replace except that they have an exercise price per share equal to the fair market value

of the Common Stock on the date the restoration option is granted and become exercisable in full six months after they are granted or, if sooner, one month before the end of the remaining term of the options they replace.

(5) The Black-Scholes model was used to calculate the grant date present value of the options granted. The following assumptions were used to estimate the value of options: a 4.0 year expected life of the options; a dividend yield of 0%; expected volatility for Navistar Common Stock of 39.1%; and a risk-free rate of return of 4.1%. The actual value, if any, the named executive officers may realize from these options will depend solely on the gain in stock price over the exercise price when the options are exercised.

This table sets forth certain information regarding exercises of options during fiscal year 2002, and total options held at year end by the individuals named in the Summary Compensation Table.

Termination and Other Compensatory Arrangements

To assure stability and continuity of management, the Company has entered into executive termination agreements with each of its executive officers. The agreements provide that if the officer's employment is terminated by the Company for any reason other than for cause, as defined in the agreement, the officer will receive a lump sum payment varying in amounts from 200% of his or her annual base salary plus annual target bonus (for the Chief Executive Officer) to 150% of his or her annual base salary plus annual target bonus (for the other executive officers), plus a pro rata portion of the officer's annual target bonus. However, if the officer's employment is terminated by the Company within 3 years after a "change in control" or prior thereto in anticipation of a change in control, the officer will receive a lump sum payment equal to the greater of: (i) a pro rata portion of the officer's annual target bonus and three times the officer's current annual base salary plus annual target bonus; and (ii) 295% of the officer's average annual compensation during the previous five years. The agreements' definition of a "change in control" includes the acquisition by any person or group of securities of the Company representing 25% or more of the combined voting power of the Company's then outstanding securities. Pursuant to an arrangement originally entered into with Mr. Horne in 1986, his agreement provides that if he voluntarily terminates his employment from the Company, including upon his retirement, and agrees not to compete with the Company, he will receive an amount equal to 100% of his annual base salary (either in a single lump sum payment or in 12 equal monthly payments, as selected by Mr. Horne). Each agreement expires June 30, 2002 and is then renewed automatically for successive one-year periods unless the Board, six months prior to the renewal date, elects not to renew it.

On July 8, 2002, the Company entered into an Employment Agreement with each of Mr. Horne and Mr. Lannert providing for their leadership in the Company's management transition process. Under the Agreements, in consideration for Mr. Horne and Mr. Lannert agreeing to extend their planned retirement dates and to provide certain consulting services to the Company following retirement, their annual retirement benefit under the

Company's MRO Plan will be determined based on their highest consecutive five years of base salary plus certain amounts of their highest five years of short-term incentive compensation, in each case out of the ten years immediately preceding retirement. The effect of the Agreements would be to increase the estimated annual retirement benefit for Mr. Horne by approximately \$193,000 per year and for Mr. Lannert by approximately \$97,735 per year. The Agreements require Messrs. Horne and Lannert to refrain from competing with the Company for their lifetimes.

Retirement Plans

The International Truck and Engine Corporation Retirement Plan for Salaried Employees ("RPSE"), which covers substantially all of the salaried employees of the Company first hired before January 1, 1996, provides annual retirement benefits based upon age, credited service and "final average annual earnings" computed on the basis of the individual's highest consecutive five years of base salary out of the ten years immediately preceding retirement, reduced by a portion of the social security benefits to which it is estimated the participant will be entitled. Benefits accrue at a lower rate for service after December 31, 1988, than for service prior to that date. Maximum benefits that may be provided to an employee under the RPSE are subject to the annual pension limitation (\$160,000 in 2003, indexed for inflation) imposed for qualified plans under The Employee Retirement Income Security Act ("ERISA"). In addition, these benefits are subject to a requirement that annual compensation in excess of an annual limit (\$200,000 in 2003, indexed for inflation) is not taken into account. Employees who are first hired on or after January 1, 1996 are not eligible to participate in the RPSE.

With respect to eligible upper level employees who retire at or after age 55 with at least 10 years of credited service, the Company also has a Managerial Retirement Objective ("MRO") Plan. The MRO Plan currently provides a retirement benefit objective based upon age, credited service and "final average annual earnings" computed on the basis of the individual's highest consecutive five years of base salary plus certain amounts of short-term incentive compensation out of the ten years immediately preceding retirement. Benefits accrue at a lower rate for service after December 31, 1988, than for service prior to that date. If the annual retirement benefits of any eligible employee from all sources from both the Company contributions and employee contributions (including benefits under the RPSE and a portion of the social security benefits to which it is estimated the individual will be entitled, but not including the International Truck and Engine Corporation 401(k) Retirement Savings Plan or any individual deferred compensation agreements) do not equal the retirement benefit objective under the MRO Plan, the Company will pay the difference to the employee. Employees who are first hired on or after January 1, 1996 are not eligible to participate in the MRO Plan. See also "Termination and Other Compensation Arrangements" with respect to Messrs. Horne and Lannert above.

A substantial portion of the salaried employees of the Company, who are first hired on or after January 1, 1996, are covered by the International Truck and Engine Corporation Retirement Accumulation Plan ("RAP"), or by a comparable plan of a subsidiary company. The RAP is a defined contribution plan that provides for an annual contribution to be allocated to each participant's retirement account based on an age-weighted percentage of the participant's eligible compensation for the calendar year. The RAP also contains a 401(k) feature and provides for a company match, currently 50% of the first 6% of pretax salary reduction contributions made on behalf of the participant.

The Company also has a Supplemental Executive Retirement Plan ("SERP"). The SERP covers certain executive officers who have attained age 55, and

Edgar Filing: NAVISTAR INTERNATIONAL CORP - Form DEF 14A

provides annual retirement income objectives to such executive officers who have at least five years of credited service, based upon age, credited service and "final average earnings" (as defined above for purposes of the MRO Plan). SERP objectives range from 30% to 50% of "final average earnings", and are reduced by benefits, if any, under the RPSE and the MRO Plan, by the actuarial equivalent of the executive's retirement account (but not the 401(k) or Company match accounts) under the RAP, by 50% of the participant's social security benefit and by retirement benefits from prior employers. It is estimated that the annual benefits payable under the SERP upon normal retirement (at age 65) to Mr. Keate, would be approximately 4% of his individual "final average earnings" and to Mr. Boardman, would be approximately 11% of his individual "final average earnings." It is estimated that Messrs. Horne, Lannert and Ustian would derive no benefit from the SERP. Payments under the SERP in fiscal 2002 were \$288,524.

17

In the event of a termination of employment by the Company following a "change in control," certain benefits under the MRO Plan and the SERP will become contractual rights and not subject to change without the consent of those affected employees who have accrued at least five years of credited service as of the date of such termination.

Certain Related Transactions

The Company established the Navistar International Corporation Stock Ownership Program in 1997 to more closely align the interests of shareowners and the Company's senior management. Under the Program all executive officers and certain senior managers of the Company are required to purchase and hold a specified amount of Navistar's Common Stock equal to a multiple of his or her annual base salary. During 1999, 2000 and 2001 certain executive officers received full-recourse loans for the purchase price of the Common Stock they purchased from the Company. Effective July 30, 2002, however, and in accordance with the recently-enacted Sarbanes-Oxley Act of 2002, the Company no longer offers its executive officers loans to assist them in meeting their ownership requirements under the program. The loans extended to the Company's executive officers prior to July 30, 2002 will, however, remain in effect in accordance with their then existing terms and conditions. These existing loans accrue interest at the applicable federal rate (as determined by Section 1274(d) of the Internal Revenue Code) on the purchase date for loans of stated maturity, compounded annually, are unsecured obligations and have a nine-year term.

For current outstanding loans, principal and interest is due at maturity in a balloon payment. The payment of the loan will be accelerated if a participant's employment is terminated for cause or for certain other reasons prior to or following a change of control. In the event of retirement, there is no loan acceleration. The loan may be prepaid at any time at the participant's option.

The following executive officers of the Company have outstanding loans under the program. The table indicates the largest amount of the indebtedness outstanding during fiscal year 2002, the interest rate charged, and the aggregate outstanding balance as of December 31, 2002:

Name	Maximum Indebtedness During Fiscal Year 2002 (\$)	Aggregate Outstanding Balance as of December 31, 2002 (\$)	Interest Rate (%)

OTHER INFORMATION

Annual Report

A copy of our Annual Report, which includes our Consolidated Financial Statements for the three years ended October 31, 2002, is being mailed to all shareowners of record as of January 3, 2003 together with this Proxy Statement. The Annual Report is not to be regarded as proxy soliciting materials.

Householding Information

Some banks, brokers and other record holders may be participating in the practice of "householding" proxy statements and annual reports. To reduce our printing costs and postage fees, beginning this year, the Company has also adopted this procedure. This means that you and other holders of the Company's Common Stock in your household that share the same last name may not receive separate copies of our Proxy Statement or Annual Report. We will promptly deliver an additional copy of either document to you if you call or write us at the following address or phone number: Investor Relations, Navistar International Corporation, 4201 Winfield Road, P.O. Box 1488, Warrenville, Illinois 60555, (630) 753-2143.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires our directors and executive officers and persons who own beneficially more than ten percent of a registered class of our equity securities to file reports of holdings and transfers of Navistar stock with the U.S. Securities and Exchange Commission and the New York Stock Exchange and to provide copies of those reports to the Company. Based solely on our review of copies of those reports received by the Company or written representations that all such reports were timely filed, we believe that in 2002 our directors, executive officers and greater than ten beneficial percent shareowners made all required filings on time, except that Messrs. Ustian, Boardman and Keate each inadvertently filed a Form 4 late, reporting one, two and three transactions, respectively.

Independent Public Accountants

Upon the recommendation of the Audit Committee, the Board has reappointed the firm of Deloitte & Touche LLP, Two Prudential Plaza, 180 N. Stetson Avenue, Chicago, Illinois 60601, to examine the financial statements of the Company for the current fiscal year ending October 31, 2003. Representatives of Deloitte & Touche LLP will be present at the Annual Meeting, will have the opportunity to make a statement if they desire, and will also be available to respond to appropriate questions.

Audit Fees

The aggregate fees billed by Deloitte & Touche LLP, the member firms of Deloitte Touche Tohmatsu and their respective affiliates ("Deloitte") for professional services rendered for the audit of the Company's consolidated financial statements, including foreign and other statutory audit requirements,

Edgar Filing: NAVISTAR INTERNATIONAL CORP - Form DEF 14A

reviews of the consolidated financial statements included in the Company's Quarterly Reports on Form 10-Q and other audit related services were \$1,795,000 and \$1,402,000, respectively for the fiscal years ended October 31, 2002 and 2001.

Financial Information Systems Design and Implementation Fees

The Company did not incur any fees to Deloitte for professional services rendered for information technology services relating to financial information systems design and implementation for the fiscal years ended October 31, 2002 and 2001.

20

All Other Fees

The aggregate fees billed by Deloitte for services rendered to the Company, other than the services described above under "Audit Fees" and "Financial Systems Design and Implementation Fees" were \$2,461,000 and \$4,067,000, respectively for the fiscal years ended October 31, 2002 and 2001, comprised of the following:

	2002	2001
	-----	-----
Audit related services	\$ 525,000	\$1,276,000
Tax services	\$1,086,000	\$2,159,000
All other services	\$ 850,000	\$ 632,000

In making its recommendation to appoint Deloitte as the Company's independent public accountants for the fiscal year ending October 31, 2003, the Audit Committee has considered whether the provision of the non-audit services rendered by Deloitte is compatible with maintaining that firm's independence.

Proxy Solicitation

The cost of this proxy solicitation will be borne by the Company. Georgenson Shareholder Communications, Inc., 17 State Street, New York, New York 10004 has been retained to assist in the solicitation of proxies and will receive a fee not to exceed \$7,500 plus expenses. Directors, officers and employees of the Company at no additional cost may also solicit proxies. Banks, brokerage houses and other institutions, nominees or fiduciaries will be requested to forward the proxy materials to the beneficial owners of the Common Stock and will be reimbursed for their reasonable expenses incurred in forwarding such matters.

Shareowner Proposals for the 2004 Annual Meeting

Under the rules of the U.S Securities and Exchange Commission, proposals of shareowners intended to be presented at the Company's 2004 Annual Meeting must be received by the Company's Secretary no later than the close of business on September 17, 2003 for the proposal to be considered for inclusion in our proxy material for that meeting. To otherwise bring a proposal before the Company's 2004 Annual Meeting, you must comply with our By-Laws. The address of the Company's Secretary is Navistar International Corporation, 4201 Winfield Road, P.O. Box 1488, Warrenville, Illinois 60555. A copy of our By-Laws may be obtained from the Company's Secretary by written request to the same address.
