PROXY STATEMENT

This Proxy Statement is furnished to the stockholders of Celgene Corporation, a Delaware corporation, in connection with the solicitation of proxies by the Board of Directors for use at our annual meeting of stockholders (referred to as the Annual Meeting) to be held on June 15, 2005, and at any adjournment or postponement thereof. A copy of the Notice of Annual Meeting accompanies this Proxy Statement. It is anticipated that the mailing of this Proxy Statement will commence on or about May 10, 2005.

Record Date and Voting Securities

Only stockholders of record at the close of business on April 28, 2005, the record date for the Annual Meeting, or the Record Date, will be entitled to notice of and to vote at the Annual Meeting. On the Record Date we had outstanding 166,827,800 shares of common stock, par value \$.01 per share (the **Common Stock**), which are our only securities entitled to vote at the Annual Meeting, each share being entitled to one vote.

Revocability of Proxies

Stockholders who execute proxies may revoke them by giving written notice to our Chief Executive Officer at any time before such proxies are voted. Attendance at the Annual Meeting shall not have the effect of revoking a proxy unless the stockholder so attending shall, in writing, so notify the Secretary of the Annual Meeting at any time prior to the voting of the proxy at the Annual Meeting.

Other Matters

The Board of Directors does not know of any matter that is expected to be presented for consideration at the Annual Meeting, other than the election of directors, the amendment of the 1998 Stock Incentive Plan, the amendment of the 1995 Non-Employee Directors' Incentive Plan (referred to as the Directors' Incentive Plan) and the ratification of the appointment of our independent registered public accounting firm for the current fiscal year. However, if other matters properly come before the Annual Meeting, the persons named in the accompanying proxy intend to vote thereon in accordance with their judgment.

Solicitation Expenses

We will bear the cost of the Annual Meeting and the cost of soliciting proxies, including the cost of mailing the proxy material. In addition to solicitation by mail, our directors, officers and regular employees (who will not be specifically compensated for such services) may solicit proxies by telephone or otherwise. Arrangements will be made with brokerage houses and other custodians, nominees and fiduciaries to forward

Edgar Filing: CELGENE CORP /DE/ - Form DEF 14A

proxies and proxy material to their principals, and we will reimburse them for their expenses. In addition, we have retained Automatic Data Processing, or ADP, a proxy solicitation organization, to assist in the solicitation of proxies. ADP's fee is estimated to be \$32,000, plus reasonable out-of-pocket expenses.

Voting Procedures; Abstentions

All proxies received pursuant to this solicitation will be voted except as to matters where authority to vote is specifically withheld and, where a choice is specified as to the proposal, they will be voted in accordance with

such specification. If no instructions are given, the persons named in the proxy solicited by our Board of Directors intend to vote FOR the nominees for election as our directors listed herein, FOR the amendment to our 1998 Stock Incentive Plan, FOR the amendment to our Directors Incentive Plan and FOR the ratification of the appointment of KPMG LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2005.

A majority of the outstanding shares of Common Stock entitled to vote on the Record Date, whether present in person or represented by proxy, will constitute a quorum for the transaction of business at the Annual Meeting and any adjournment or postponement thereof. Abstentions will be counted as present or represented for purposes of establishing a quorum for the transaction of business.

Abstentions are counted in tabulations of the votes cast on proposals presented to stockholders. Abstentions will have no effect on the election of directors, which is by plurality of the votes cast in person or by proxy, but abstentions will, in effect, be votes against the approval of the proposed amendment to the 1998 Stock Incentive Plan, against the approval of the proposed amendment to the Directors Incentive Plan and against the ratification of the appointment of KPMG LLP as our independent registered public accounting firm, as these items require the affirmative vote of a majority of the shares of Common Stock present and eligible to vote on such matters.

All shares of Common Stock as set forth in this Proxy Statement have been adjusted to reflect the three for one split we declared and paid on April 14, 2000, or the 2000 Split, and the two for one split we declared and paid on October 22, 2004, or the 2004 Split. The 2000 Split and the 2004 Split are collectively referred to as the Splits.

MATTERS TO COME BEFORE THE ANNUAL MEETING PROPOSAL ONE: ELECTION OF DIRECTORS

Nominees

At the Annual Meeting, ten directors, who have been nominated by the Nominating and Governance Committee, are to be elected, each to hold office (subject to our Bylaws) until the next annual meeting and until his or her successor has been elected and qualified. Each nominee has consented to being named as a nominee in this Proxy Statement and to serve if elected. If any nominee listed in the table below should become unavailable for any reason, which the Board of Directors does not anticipate, the proxy will be voted for any substitute nominee or nominees who may be selected by the Board of Directors prior to or at the Annual Meeting, or, if no substitute is selected by the Board of Directors prior to or at the Annual Meeting, for a motion to reduce the membership of the Board of Directors to the number of nominees available. Directors will be elected by an affirmative vote of a plurality of the votes cast at the Annual Meeting in person or by proxy. There are no family relationships between any of our directors and executive officers. The information concerning the nominees and their security holdings has been furnished by them to us.

Janus Capital and its subsidiaries Bay Isle Financial LLC and Intech serve as investment advisors to various investment company clients. No one client accounts for more than 5% of the total outstanding Common Stock.

Director Compensation

All members of the Board of Directors who are not our employees, or the Non-Employee Directors, receive an annual fee of \$10,000 a year and an additional \$10,000 a year upon attendance of 75% of the total number of meetings of the Board of Directors. In addition, all Non-Employee Directors receive \$2,000 for each Board Meeting attended in person (and are reimbursed for their expenses for each meeting attended) and \$500

for each telephonic Board Meeting attended, and are eligible to receive stock options pursuant to the Directors Incentive Plan. Each Non-Employee Director serving on a committee of the Board of Directors receives \$500 for each committee meeting attended in person or by telephone. In addition, each of the Chairmen of the Management Compensation and Development Committee, the Executive Committee and the Nominating and Governance Committee receives \$2,500 in annual cash compensation, and the Chairman of the Audit Committee receives \$5,000 in annual cash compensation.

The Directors Incentive Plan was adopted by the Board of Directors on April 5, 1995, and approved by our stockholders at the 1995 annual meeting of stockholders. At our annual meeting held in 1997, the Directors Incentive Plan was amended to increase the number of shares of our Common Stock that may be issued upon exercise of options granted thereunder from 1,500,000 shares to 2,100,000 shares, as adjusted for the Splits. At our annual meeting held in 1999, the Directors Incentive Plan was amended to increase the number of shares of our Common Stock that may be issued upon exercise of options granted thereunder from 2,100,000 shares to 3,600,000 shares, as adjusted for the Splits. The Directors Incentive Plan currently provides for the granting to Non-Employee Directors of non-qualified options to purchase an aggregate of not more than 3,600,000 shares (subject to adjustment to reflect changes in capitalization) of Common Stock. If Proposal Three is approved by stockholders, an aggregate of 3,850,000 shares of Common Stock will be available under the Directors Incentive Plan.

Under the Directors Incentive Plan, each new Non-Employee Director upon the date of his or her election or appointment will be granted a non-qualified option to purchase 20,000 shares of Common Stock. These initial options vest in four equal annual installments commencing on the first anniversary of the date of grant, assuming the Non-Employee Director remains a director of our company.

Each Non-Employee Director currently also receives non-qualified options to purchase 3,750 shares of Common Stock per quarter (15,000 shares annually). These options vest in full on the first anniversary of the date of the grant, assuming the Non-Employee Director is a director of our company on that date.

The Directors Incentive Plan also provides for a discretionary grant upon the date of each annual meeting of an additional option to purchase up to 5,000 shares to a Non-Employee Director who serves as a member (but not a Chairman) of a committee of the Board of Directors and up to 10,000 shares to a non-employee director who serves as the Chairman of a committee of the Board of Directors.

All options granted pursuant to the Directors Incentive Plan will expire no later than 10 years from the date of grant and, under the current terms of the Directors Incentive Plan, no options may be granted after April 5, 2005. If Proposal Three is approved, such period shall be extended until June 30, 2015. If a Non-Employee Director terminates his or her service on the Board of Directors for any reason, options that were exercisable on

6

the date of termination and that have not expired may be exercised at any time until the date of expiration of such options. In addition, if there is a change of control and within two years after such change of control a director ceases to be a Non-Employee Director for any reason, or is not nominated for election by our stockholders, all unvested portions of a stock option will automatically vest.

In 2004, pursuant to the Directors Incentive Plan, each of Messrs. Bowman, Cary, Casey and Morgan and Drs. Hayes, Kaplan and Robb received options to purchase a total of 15,000 shares of Common Stock. Such options were granted in the amount of 3,750 for each individual on each of March 15, 2004, June 15, 2004, September 15, 2004 and December 15, 2004, respectively, at exercise prices, as adjusted for the 2004 Split, of \$21.94, \$27.35, \$28.99 and \$28.37 per share, respectively, the fair market value of the stock on the dates of the grants.

Board Independence

No director will be deemed to be independent unless the Board of Directors affirmatively determines that the director has no material relationship with our company, directly or as an officer, stockholder or partner of an organization that has such a relationship. The Board of Directors observes all criteria for independence established by the National Association of Securities Dealers, Inc. (**NASD**). In its annual review of director independence, the Board of Directors has determined that all of our Non-Employee Directors, and a majority of all of the directors, of our company may be classified as independent within the meaning of Rule 4200 of the NASD Marketplace Rules.

Board Meetings; Committees and Membership

The Board of Directors held six meetings during 2004. During 2004, each of the directors attended more than 75% of the aggregate of (i) the total number of meetings of the Board of Directors and (ii) the total number of meetings of all committees of the Board on which such director served. Our policy is to encourage our Board members to attend the Annual Meeting of stockholders, and a majority of our directors attended the 2004 Annual Meeting of stockholders.

Edgar Filing: CELGENE CORP /DE/ - Form DEF 14A

We maintain the following committees of the Board of Directors: the Executive Committee, the Management Compensation and Development Committee (referred to as the Compensation Committee), the Nominating and Governance Committee (referred to as the Nominating Committee) and the Audit Committee. Except for the Executive Committee, each of the committees are comprised entirely of directors who may be classified as independent within the meaning of Rule 4200 of the NASD Marketplace Rules. Other than the Executive Committee, each of the committees acts pursuant to a separate written charter, and each such charter has been adopted and approved by the Board of Directors. A copy of the Audit Committee Charter is available on our website at <http://www.celgene.com> under the Investor Relations link in the Corporate Governance section. A copy of the Nominating Committee Charter has been filed as Appendix B to our proxy statement for our 2004 annual meeting filed on April 29, 2004.

The Executive Committee

The Executive Committee's current members are Frank T. Cary, Chairman; Sol J. Barer, John W. Jackson and Richard C.E. Morgan. The Executive Committee held one meeting in 2004. The Executive Committee has and may exercise all of the powers and authority of our full Board of Directors, subject to certain exceptions.

7

The Compensation Committee

The Compensation Committee's current members are Richard C.E. Morgan, Chairman; Frank T. Cary and Jack L. Bowman. The Compensation Committee annually reviews the total compensation package for all executive officers, including the Chief Executive Officer; considers modification of existing compensation and benefit programs and the adoption of new plans; administers the plans and reviews the compensation of non-employee members of the Board of Directors. The Compensation Committee has (i) the full power and authority to interpret the provisions and supervise the administration of our 1986 Stock Option Plan, the Anthrogenesis Corporation Qualified Employee Incentive Stock Option Plan, the Signal Pharmaceuticals, Inc. 2000 Equity Incentive Plan, the 1992 Long-Term Incentive Plan and the 1998 Stock Incentive Plan, (ii) the full power and authority to administer and interpret our non-qualified deferred compensation plans and (iii) the authority to review all matters relating to our personnel. The Compensation Committee met five times during 2004.

The Nominating Committee

The Nominating Committee's current members are Jack L. Bowman, Chairman; Frank T. Cary and Michael D. Casey. The Nominating Committee held its first meeting in 2004. The Nominating Committee determines the criteria for nominating new directors, recommends to the Board of Directors candidates for nomination to the Board of Directors and oversees the evaluation of the Board of Directors. The Nominating Committee's process to identify and evaluate candidates for nomination to the Board of Directors includes consideration of candidates for nomination to the Board of Directors recommended by stockholders. Such stockholder recommendations must be delivered to our Corporate Secretary, together with the information required to be filed in a Proxy Statement with the Securities and Exchange Commission regarding director nominees, and each such nominee must consent to serve as a director if elected, no later than the deadline for submission of stockholder proposals as set forth in our Bylaws and under the section of this Proxy Statement entitled Stockholder Nominations. In considering and evaluating such stockholder proposals that have been properly submitted, the Nominating Committee will apply substantially the same criteria that the Nominating Committee believes must be met by a Nominating Committee-recommended nominee as described below. To date, we have not received any recommendations from stockholders requesting that the Nominating Committee consider a candidate for inclusion among the Nominating Committee's slate of nominees in our proxy statement.

In addition, certain identification and disclosure rules apply to director candidate proposals submitted to the Nominating Committee by any single stockholder or group of stockholders that has beneficially owned more than five percent of the Common Stock for at least one year, or a Qualified Stockholder Proposal. If the Nominating Committee receives a Qualified Stockholder Proposal that satisfies the necessary notice, information and consent provisions referenced above, the Proxy Statement will identify the candidate and the stockholder (or stockholder group) that recommended the candidate and disclose whether the Nominating Committee chose to nominate the candidate. However, no such identification or disclosure will be made without the written consent of both the stockholder (or stockholder group) and the candidate to be so identified. The procedures described in this paragraph are meant to establish additional requirements and are not meant to replace or limit stockholders' general nomination rights in any way.

In evaluating director nominees, the Nominating Committee currently considers the following factors:

our needs with respect to the particular talents and experience of our directors;

the knowledge, skills and experience of nominees, including experience in business or finance, in light of prevailing business conditions and the knowledge, skills and experience already possessed by other members of the Board of Directors;

familiarity with our business and businesses similar or analogous to ours;

experience with accounting rules and practices and corporate governance principles; and

such other factors as the Nominating Committee deems are in our best interests and the best interests of our stockholders.

The Nominating Committee identifies nominees by first evaluating the current members of the Board of Directors willing to continue in service. If any member of the Board does not wish to continue in service or if the Nominating Committee or the Board of Directors decides not to re-nominate a member for re-election, the Nominating Committee identifies the desired skills and experience of a new nominee, and discusses with the Board of Directors suggestions as to individuals who meet the criteria. The Nominating Committee may also utilize the services of an outside search firm to assist it in finding appropriate nominees for the Board of Directors.

The Audit Committee

The Audit Committee's current members are Walter L. Robb, Chairman; Gilla Kaplan; Arthur Hull Hayes, Jr. and Michael D. Casey. The Audit Committee held eight meetings in 2004. Each of Dr. Robb and Mr. Casey is an audit committee financial expert within the meaning of the rules of the Securities and Exchange Commission and, as such, both Mr. Casey and Dr. Robb satisfy the requirements of Rule 4350 of the NASD. The Audit Committee oversees our financial reporting process on behalf of the Board of Directors. In fulfilling its responsibility, the Audit Committee pre-approves, subject to stockholder ratification, the selection of our independent registered public accounting firm. The Audit Committee also reviews our consolidated financial statements and the adequacy of our internal controls. The Audit Committee meets at least quarterly with our management and our independent registered public accounting firm to review and discuss the results of audits or reviews of our consolidated financial statements, the evaluation of our internal audit controls, the overall quality of our financial reporting and our critical accounting policies and to approve any related-party transactions. The Audit Committee meets separately, at least quarterly, with the independent registered public accounting firm and our Chief Executive Officer. In addition, the Audit Committee oversees our existing procedures for the receipt, retention and handling of complaints.

Code of Ethics

We have adopted a Code of Ethics that applies to our chief executive officer, senior financial officer and other financial professionals. This Code of Ethics is posted on our website, <http://www.celgene.com> (under the Investor Relations link in the Corporate Governance section). We intend to satisfy the disclosure requirement regarding any amendment to, or a waiver of, a provision of the Code of Ethics by posting such information on our website. We undertake to provide to any person a copy of this Code of Ethics upon request to our Corporate Secretary at our principal executive offices.

Stockholder Nominations

Our Bylaws provide that nominations for the election of directors may be made at the Annual Meeting: (a) by or at the direction of the Board of Directors (or any duly authorized committee thereof) or (b) by any stockholder who (i) is a stockholder of record on the date of the giving of the notice and on the record date for the determination of stockholders entitled to vote at such annual meeting and (ii) complies with the notice procedures set forth below.

In addition to any other applicable requirements, for a nomination to be made by a stockholder, such stockholder must have given timely notice thereof in proper written form to our Corporate Secretary.

Edgar Filing: CELGENE CORP /DE/ - Form DEF 14A

To be timely, a stockholder's notice to the Corporate Secretary must be delivered to or mailed and received at our principal executive offices not less than sixty (60) days nor more than ninety (90) days prior to the date of the annual meeting; *provided, however*, that in the event that less than seventy (70) days' notice or prior public disclosure of the date of the annual meeting is given or made to stockholders, notice by the stockholder (in order to be timely) must be so received not later than the close of business on the tenth (10th) day following the day on which such notice of the date of the annual meeting was mailed or such public disclosure of the date of the annual meeting was made, whichever first occurs.

To be in proper written form, a stockholder's notice to the Corporate Secretary must set forth (a) as to each person whom the stockholder proposes to nominate for election as a director: (i) the name, age, business address and residence address of the person, (ii) the principal occupation or employment of the person, (iii) the class or series and number of shares of our capital stock which are owned beneficially or of record by the person and (iv) any other information relating to the person that would be required to be disclosed in a proxy statement or other filing required to be made in connection with solicitations of proxies for election of directors pursuant to Section 14 of the Securities Exchange Act of 1934, as amended, or the Exchange Act, and the rules and regulations promulgated thereunder; and (b) as to the stockholder giving the notice: (i) the name and record address of such stockholder, (ii) the class or series and number of shares of our capital stock which are owned beneficially or of record by such stockholder, (iii) a description of all arrangements or understandings between such stockholder and each proposed nominee and any other person or persons (including their names) pursuant to which the nomination(s) are to be made by such stockholder, (iv) a representation that such stockholder intends to appear in person or by proxy at the annual meeting to nominate the persons named in his or her notice and (v) any other information relating to such stockholder that would be required to be disclosed in a proxy statement or other filing required to be made in connection with solicitations of proxies for election of directors pursuant to Section 14 of the Exchange Act and the rules and regulations promulgated thereunder. Such notice must be accompanied by a written consent of each proposed nominee to being named as a nominee and serving as a director if elected.

Stockholder Communications

Our Board of Directors has determined that, in order to facilitate communications with the Board of Directors, or any individual members or any Committees of the Board of Directors, stockholders should direct all communication in writing to our Corporate Secretary at our principal executive offices. Our Corporate Secretary will forward all such correspondence to the Board of Directors, individual members of the Board of Directors or applicable chair persons of any Committee of the Board of Directors, as appropriate and as directed in the communication, unless the communication is unduly hostile, threatening or illegal.

Section 16(a) Beneficial Ownership Reporting Compliance

Pursuant to Section 16(a) of the Exchange Act, our Directors, Executive Officers and any persons holding more than 10 percent of the Common Stock are required to report their ownership of Common Stock and any changes in that ownership, on a timely basis, to the Securities and Exchange Commission. All applicable acquisitions and dispositions of Common Stock, including grants of options under our Directors' Incentive Plan, the 1992 Long-Term Incentive Plan and the 1998 Stock Incentive Plan in 2004, were filed on a timely basis for the year 2004.

Audit Committee Report

Pursuant to rules adopted by the Securities and Exchange Commission designed to improve disclosures related to the functioning of corporate audit committees and to enhance the reliability and credibility of financial statements of public companies, the Audit Committee of the Company's Board of Directors submits the following report:

10

Audit Committee Report to Stockholders

The Audit Committee of the Board of Directors is responsible for providing independent, objective oversight of the Company's accounting functions and internal controls. The Audit Committee is composed of four directors, each of whom is independent as defined by the National Association of Securities Dealers' listing standards. The Audit Committee operates under a written charter approved by the Board of Directors and held eight meetings in 2004. A copy of the charter has been filed as Appendix A to our proxy statement for our 2004 annual meeting filed on April 29, 2004 and is also available on our website at <http://www.celgene.com> under the Investor Relations' link in the Corporate Governance section.

Management is responsible for the Company's internal controls and financial reporting process. The independent registered public accounting firm is responsible for performing an independent audit of the Company's consolidated financial statements and the assessment of the Company's internal control over financial reporting in accordance with generally accepted auditing standards and to issue reports thereon. The Audit

Edgar Filing: CELGENE CORP /DE/ - Form DEF 14A

Committee's responsibility is to monitor and oversee these processes. The Audit Committee has established a mechanism to receive, retain and process complaints on auditing, accounting and internal control issues including the confidential, anonymous submission by employees of concerns on questionable accounting and auditing matters.

In connection with these responsibilities, the Audit Committee met with management and the independent registered public accounting firm to review and discuss the December 31, 2004 consolidated financial statements. The Audit Committee also discussed with the independent registered public accounting firm the matters required by Statement on Auditing Standards No. 61 (Communication with Audit Committees). The Audit Committee also received written disclosures from the independent registered public accounting firm required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and the Audit Committee discussed with the independent registered public accounting firm the firm's independence.

Based upon the Audit Committee's discussions with management and the independent registered public accounting firm, and the Audit Committee's review of the representations of management and the independent registered public accounting firm, the Audit Committee recommended that the Board of Directors include the audited consolidated financial statements in the Company's Annual Report on Form 10-K, as amended by its Form 10-K/A, for the year ended December 31, 2004, to be filed with the Securities and Exchange Commission.

Respectfully submitted,
THE AUDIT COMMITTEE

Employment Agreements and Termination of Employment Arrangements

John W. Jackson, Sol J. Barer and Robert J. Hugin (each an (Executive) are employed pursuant to substantially similar employment agreements (the Employment Agreements). On May 1, 2003 we entered into new three-year Employment Agreements with each of the Executives (each expiring on May 1, 2006). The Employment Agreements provide Messrs. Jackson, Hugin and Dr. Barer with an initial base salary (which from time to time may be increased by the Board of Directors, or a committee thereof), and which is currently \$780,000, \$624,000 and \$546,000, respectively. In addition, each of the Employment Agreements provides for an annual target bonus which is currently 100%, 75% and 60%, respectively, of each Executive s base salary measured against objective criteria to be determined by the Board of Directors, or a committee thereof. The Employment Agreements also provide that Messrs. Jackson, Hugin and Dr. Barer are entitled to continue to participate in all group health and insurance programs (and all other fringe benefit or retirement plans which are generally available to our employees). Each of the Employment Agreements provides that if an Executive is terminated by us without cause or due to an Executive s disability, he shall be entitled to receive a lump sum payment in an amount equal to the Executive s annual base salary and a pro rata share of the Executive s annual target bonus. Upon the occurrence of a change in control (as defined in the Employment Agreements) and thereafter, each Employment Agreement provides that if (a) at any time within one year of a change in control an Executive s employment is terminated by us without cause or for disability or by an Executive for good reason (as defined in the Employment Agreement) or (b) at any time within 90 days prior to a change in control, an Executive s employment is terminated by us without cause or by an Executive for good reason, the Executive

shall be entitled to receive: (i) a lump sum payment in an amount equal to (a) three times the Executive s base salary plus (b) three times the Executive s highest annual bonus within the three years prior to the change in control; (ii) any accrued benefits; (iii) payment of health and welfare premiums for the Executive and his dependants for a maximum of three years; and (iv) full and immediate vesting of all stock options and equity awards; provided, however, that such payment shall be reduced by any payments made to the Executive prior to the change in control on account of the Executive s termination. Each Employment Agreement also provides that an Executive shall be entitled to receive a gross-up payment on any payments made to an Executive that are subject to the excise tax imposed by Section 4999 of the Internal Revenue Code of 1986, as amended, or the Code, except that a gross-up will not be made if the payments made to an Executive do not exceed 105% of the greatest amount that could be paid to an Executive such that the receipt of payments would not give rise to the excise tax. Each Executive is subject to a non-compete provision which applies during the period Executive is employed by us and until the first anniversary of the date an Executive s employment terminates (the non-compete provision applies to the second anniversary of the date an Executive s employment terminates if Executive receives change in control payments and benefits).

The Anthrogenesis Corporation Qualified Employee Incentive Stock Option Plan, or the Qualified Plan, has not been approved by our stockholders. As a result of our acquisition of Anthrogenesis in December of 2002, we acquired the Qualified Plan and the Anthrogenesis Non-Qualified Recruiting and Retention Stock Option Plan, or the Non-Qualified Plan. No future awards will be granted under the Non-Qualified Plan. The Qualified Plan authorizes the award of incentive stock options, which are stock options that qualify for special federal

income tax treatment. The exercise price of any stock option granted under the Qualified Plan may not be less than the fair market value of the Common Stock on the date of grant. In general, each option granted under the Qualified Plan vests evenly over a four-year period and expires ten years from the date of grant, subject to earlier expiration in case of termination of employment. The vesting period is subject to certain acceleration provisions if a change in control occurs. No award will be granted under the Qualified Plan on or after December 31, 2008.

Compensation Committee Report

The Compensation Committee annually reviews the performance and total compensation package and policies for all executive officers, considers the modification of existing compensation and employee benefit programs and the adoption of new plans, administers the 1986 Stock Option Plan, the 1992 Long-Term Incentive Plan, the 1998 Stock Incentive Plan and the Non-Qualified Deferred Compensation plans. The Compensation Committee also reviews the compensation and benefits of Non-Employee Directors. The Compensation Committee is composed solely of independent outside directors.

Executive Compensation Policies and Programs

Our executive compensation program is part of a company-wide program covering all employees. The program's goals are to attract, retain and motivate employees, and it utilizes incentives such that employees and stockholders share in common goals. The compensation program is designed to link compensation to performance.

A portion of each employee's compensation relates to the grant of stock options, and such grants are based on the successful attainment of strategic corporate, commercial and individual goals.

We do not have a pension plan (other than the 401(k) Plan) or other capital accumulation program. Grants of stock options are therefore of great importance to executives as well as all employees. Any long-term value to be derived from such grants will be consistent with stockholder gains.

On and after September 19, 2000, stock options granted to executives at the vice-president level and above contain a reload feature which provides that if (1) the optionee exercises all or any portion of the stock option (a) at least six months prior to the expiration of the stock option, (b) while employed by us or one of our affiliates and (c) prior to the expiration date of the 1998 Stock Incentive Plan and (2) the optionee pays the exercise price for the portion of the stock option so exercised or pays applicable withholding taxes by using Common Stock owned by the optionee for at least six months prior to the date of exercise, the optionee shall be granted a new stock option under the 1998 Stock Incentive Plan on the date all or any portion of the stock option is exercised to purchase the number of shares of Common Stock equal to the number of shares of Common Stock exchanged by the optionee to exercise the stock option or to pay withholding taxes thereon. The reload stock option will be exercisable on the same terms and conditions as apply to the original stock option except that (x) the reload stock option will become exercisable in full on the day that is six months after the date the original stock option is exercised, (y) the exercise price shall be the fair market value (as defined in the 1998 Stock Incentive Plan) of Common Stock on the date the reload stock option is granted and (z) the expiration of the reload stock option will be the date of expiration of the original stock option. An optionee may not reload the reload stock option unless otherwise permitted by the Compensation Committee. Stock options granted after October 1, 2004 do not contain any reload feature.

Executive and employee compensation includes salary, bonus payments, employment-related benefits and incentive compensation:

Salary. Salaries are intended to be competitive relative to the biotechnology and pharmaceutical industries—industries in which we compete for our highly skilled talent. Individual experience and performance is considered when setting salaries within the range for each position. Annual reviews are held and adjustments are made based on attainment of individual goals and market-wide changes in salaries for comparable positions and qualifications.

Bonus Plan. Our total cash compensation, in addition to base salaries, includes annual bonus eligibility for executives and some other employee levels. The purpose of this compensation is to provide a variable compensation component for executives and employees who achieve annual corporate, business unit and individual goals. Individual goals are set annually based upon our corporate-wide objectives to focus and motivate employees to achieve key business targets and to create employee ownership. The Executive Bonus Plan for officers is based exclusively on achievement of our key performance measures established and approved by the Compensation Committee of the Board of Directors.

Deferred Compensation. Certain designated executives may elect to defer the receipt of a portion of their base salary and bonuses, the receipt of restricted stock and the delivery of stock option gains to our Non-Qualified Deferred Compensation plans, an unfunded non-qualified deferred compensation arrangement. We make a matching contribution to the Non-Qualified Deferred Compensation plans on behalf of certain executives in the plan at a rate specified by the Compensation Committee.

Edgar Filing: CELGENE CORP /DE/ - Form DEF 14A

Benefits. All employees are eligible for similar benefits, such as medical, dental, vision, disability and life insurance.

Incentive Compensation. A stock incentive program is established annually. The purpose of this program is to provide financial incentives to executives and employees to achieve annual corporate, business unit and individual goals. The stock incentive program also aligns executive and employee interests with those of stockholders by using grants of stock options. Such grants vest over time, thereby encouraging continued employment with us. The size of grants is tied to comparable biotechnology industry practices. To determine such comparative data, we rely on outside compensation consultants and third-party industry surveys. Stock option grants are made on a quarterly basis.

Under our 2004 incentive program, it was agreed that we would grant at a future date options to purchase shares of Common Stock, subject to the achievement of certain 2004 goals. A similar incentive program has been designed for 2005 based on attainment of corporate, business unit and individual goals. The program is open to all regular full-time employees with at least three months of service, other than our executive officers.

In 2003, we established a performance incentive program under our 1998 Stock Incentive Plan, which is a long-term program, designed to provide key officers and executives with specified incentive opportunities contingent upon achievement of pre-established corporate performance objectives and continued employment. The goals of the program are to create focus on key long-term objectives over time while creating a retention vehicle to ensure management continuity in key functional areas. The 2004 performance cycle began on January 1, 2004 and will end on December 31, 2006, referred to as the 2004 Cycle. In addition, the 2005 performance cycle began on January 1, 2005 and will end on December 31, 2007, referred to as the 2005 Cycle. Performance measures for the 2004 Cycle are based on the following components: 25% on earnings per share, 25% on net income and 50% on revenue.

For the 2004 Cycle and the 2005 Cycle, performance awards are expressed as a percentage of base salary. While such awards are denominated in cash, it is anticipated that they will be payable in the form of shares (converted from

16

cash at the time of payment), although the Compensation Committee reserves the right to use cash. It is also anticipated that each named Executive Officer will participate in the performance incentive program.

Chief Executive Officer Compensation. Mr. Jackson received a salary of \$770,000 for 2004. Mr. Jackson also received a bonus of \$924,000 for 2004. Mr. Jackson's bonus is based solely on the achievement of key performance objectives for our company that were approved and measured by the Compensation Committee of the Board of Directors. Factors considered in determining Mr. Jackson's bonus included the successful attainment of certain revenue and earnings targets, and several important milestones in the development of our products, as well as comparisons to total compensation packages of chief executive officers at corporations within our industry that are of comparable size.

Policy with Respect to Compensation Deductibility. Our policy with respect to the deductibility limit of Section 162(m) of the Code generally is to preserve the federal income tax deductibility of compensation paid when it is appropriate and is in the best interest of us and our stockholders. However, we reserve the right to authorize the payment of non-deductible compensation if we deem that it is appropriate.

**PROPOSAL TWO:
APPROVAL OF THE AMENDMENT
TO THE 1998 STOCK INCENTIVE PLAN**

Our stockholders are asked to approve an amendment to our 1998 Stock Incentive Plan, which was approved by the Board of Directors on April 13, 2005, subject to stockholder approval, that would increase the aggregate number of shares of our Common Stock that may be subject to awards thereunder from 25,000,000 to 31,000,000, and to decrease the number of shares that may be used for restricted stock or performance awards denominated in shares of Common Stock from 1,700,000 to 750,000. The affirmative vote of the holders of at least a majority of the outstanding shares of Common Stock present or represented by proxy and entitled to vote at the Annual Meeting is required to approve the amendment to the 1998 Stock Incentive Plan.

The Board of Directors also amended the 1998 Stock Incentive Plan to incorporate certain miscellaneous changes that do not legally require stockholder approval, including: (i) to provide a minimum vesting schedule of one year for restricted stock and performance awards (and accelerated vesting in limited circumstances); (ii) to provide that stock appreciation rights granted on or after January 1, 2005, may be settled only in Common Stock (in order to avoid adverse tax consequences under recent changes to non-qualified deferred compensation plans); (iii) to provide that stock options granted on or after October 1, 2004 may not contain a reload feature (which grants additional options upon exercise of the original Option); and (iv) to amend the definition of committee to comply with NASD rules.

\$400.0 million of unsecured convertible notes are convertible into 16,511,840 shares of our common stock at a conversion price of approximately \$24.225 per share.

Background of the Proposal to Amend the 1998 Stock Incentive Plan

As of March 31, 2005, options to purchase 26,982,292 shares of Common Stock have been granted under the 1998 Stock Incentive Plan (including 2,872,639 shares that were subject to awards that expired and became available for awards again) at exercise prices based on the fair market value of the shares of our Common Stock ranging from \$2.6042 to \$35.0000. As of April 28, 2005, the closing price of a share of Common Stock was \$38.17.

The Board of Directors believes that stock ownership by employees provides performance incentives and fosters long-term commitment to our benefit and the benefit of our stockholders. As of March 31, 2005, only 890,347 shares remain available for future grants to our employees out of the aggregate of 25,000,000 shares of Common Stock authorized for grants under the 1998 Stock Incentive Plan. Although we maintain various stock option plans, shares available for option grants under those plans cannot be used for option grants under the 1998 Stock Incentive Plan. For example, under the Anthrogenesis Corporation Qualified Employee Incentive Stock Option Plan, which presently has 74,739 shares available for future option grants, options may only be used for employees of the Cellular Therapeutics Division; under the Directors Incentive Plan (with only 220,600 shares

19

remaining for future grants), options are only available for grants to Non-Employee Directors; and no future options will be granted out of the 453,010 shares remaining in the Signal Pharmaceuticals, Inc. 2000 Equity Incentive Plan, under which options in the past had been granted to certain employees of the San Diego Research Division. The Board of Directors believes that the increase will provide an adequate reserve of shares of Common Stock under the 1998 Stock Incentive Plan to allow us to compete successfully with other companies in attracting and retaining valuable employees. Accordingly, the Board of Directors recommends that stockholders approve the amendment to the 1998 Stock Incentive Plan to increase the aggregate number of shares of our Common Stock that may be subject to awards as described below. The following is a brief summary of the principal provisions of the 1998 Stock Incentive Plan, as amended. This summary does not purport to be complete and is qualified in its entirety by reference to the text of the 1998 Stock Incentive Plan, a copy of which may be obtained upon written request to us at our principal business address.

While we do not have a history of repricing stock options, in recognition of recent trends in corporate governance, we have a policy that we will not, without stockholder approval, either (i) reduce the exercise price of an outstanding stock option, or (ii) simultaneously cancel stock options for which the exercise price exceeds the then current fair market value of the underlying Common Stock and grant a new stock option with an exercise price equal to the then current fair market value of the underlying current stock.

Summary of the 1998 Stock Incentive Plan.

Purpose; Eligibility. The purpose of the 1998 Stock Incentive Plan is to enable us and our affiliates to attract, retain and motivate key employees who are important to our success and growth, and to strengthen the mutuality of interests between such individuals and our stockholders by granting such individuals stock-based incentives and other equity interests in us.

Edgar Filing: CELGENE CORP /DE/ - Form DEF 14A

Administration. The 1998 Stock Incentive Plan is administered by the Compensation Committee or such other committee or subcommittee appointed from time to time by the Board (referred to as the Committee), which is intended to consist of two or more Non-Employee Directors, each of whom will be, to the extent required by Rule 16b-3 under the Exchange Act, Section 162(m) of the Code and NASD Rules, a non-employee director as defined in Rule 16b-3, an outside director as defined under Section 162(m) of the Code and an independent director as defined under NASD Rule 4200(a)(15) (referred to as the Committee). If for any reason the appointed Committee does not meet the requirements of Rule 16b-3 of the Exchange Act or Section 162(m) of the Code, the validity of the awards, grants, interpretation or other actions of the Committee will not be affected. The Committee has the full authority to select those individuals eligible to receive awards and the amount and type of awards. Terms and conditions of awards will be set forth in written grant agreements, the terms of which will be consistent with the terms of the 1998 Stock Incentive Plan. Awards under the 1998 Stock Incentive Plan may not be made on or after the tenth anniversary of the date of its adoption, but awards granted prior to such date may extend beyond that date.

Types of Awards. The 1998 Stock Incentive Plan provides for the grant of any or all of the following types of awards: (i) stock options, including incentive stock options and non-qualified stock options; (ii) stock appreciation rights, in tandem with stock options or freestanding; (iii) restricted stock; and (iv) performance-based awards.

Stock Options. Options may be in the form of incentive stock options or non-qualified stock options. The Committee will, with regard to each stock option, determine the number of shares subject to the option, the term of the option (which shall not exceed ten years, provided, however, that the term of an incentive stock option granted to a 10% stockholder shall not exceed five years), the exercise price per share of stock subject to the option, the vesting schedule (if any) and the other material terms of the option. No stock option may have an

20

exercise price less than the fair market value (as defined in the 1998 Stock Incentive Plan) of the Common Stock at the time of grant (or, in the case of an incentive stock option granted to a 10% stockholder, 110% of the fair market value of the Common Stock).

The exercise price upon exercise may be paid in cash, shares of Common Stock owned by the recipient for at least six months and for which the recipient has good title free and clear of any liens or encumbrances or, if the Common Stock is traded on a national securities exchange, to the extent permitted by law, through the delivery of irrevocable instructions to a broker to deliver to us an amount equal to the exercise price. The Committee may also provide, at the time of grant, that the shares to be issued upon the exercise of a stock option be in the form of restricted stock or may, in the stock option agreement, reserve a right to do so after the time of grant.

Stock Appreciation Rights or SARs. The Committee may grant SARs either with a stock option, referred to as Tandem SARs, or independent of a stock option, referred to as Non-Tandem SARs. An SAR is a right to receive a payment in Common Stock, equal in value to the excess of the fair market value of a share of Common Stock on the date of exercise over the reference price per share of Common Stock established in connection with the grant of the SAR. The reference price per share covered by an SAR will be the per share exercise price of the related option in the case of a Tandem SAR and will be the per share fair market value of Common Stock on the date of the grant in the case of a Non-Tandem SAR. The Committee may also grant limited SARs, either as Tandem SARs or Non-Tandem SARs, which may become exercisable only upon the occurrence of a Change in Control (as defined in the 1998 Stock Incentive Plan) or such other event as the Committee may, in its sole discretion, designate at the time of grant or thereafter.

Restricted Stock. The Committee may award shares of restricted stock. Upon the award of restricted stock, the recipient has all rights of a stockholder with respect to the shares, including, without limitation, the right to receive dividends, the right to vote such shares and, subject to and conditioned upon the full vesting of the shares of restricted stock, the right to tender such shares. Unless otherwise determined by the Committee at grant, the payment of dividends, if any, shall be deferred until the date that the relevant share of restricted stock vests.

Recipients of restricted stock are required to enter into a restricted stock award agreement with us which states the restrictions to which the shares are subject and the criteria or date or dates on which such restrictions will lapse. Within these limits, based on service, attainment of performance goals and such other factors as the Committee may determine in its sole discretion, or a combination thereof, the Committee may provide for the lapse of such restrictions in installments in whole or in part or may accelerate or waive such restrictions at any time. If the lapse of the relevant restriction is based on the attainment of performance goals, the Committee shall establish the goals, formulae or standards and the applicable vesting percentage for the restricted stock awards applicable to recipients. Restricted stock may also be granted based upon the attainment of performance goals.

Restricted stock is subject to a minimum vesting schedule of one year, except that unvested restricted stock will become vested upon retirement, disability, death, involuntary termination of employment without cause or a change in control.

Performance-Based Awards. The Committee may award Common Stock and other awards (including awards of cash) that are valued in whole or in part by reference to, or are payable in or otherwise based on, Common Stock or the attainment of pre-established performance goals, or Performance Awards. Performance Awards are subject to a minimum vesting schedule of one year, except that unvested Performance Awards become vested upon retirement, disability, death, involuntary termination of employment without cause or a change in control.

Performance Awards may be granted either alone or in addition to or in tandem with stock options, stock appreciation rights, or restricted stock. Performance Awards may be paid in Common Stock, restricted stock or cash as the Committee may determine at grant and they will be subject to such other terms and conditions as the Committee may prescribe, including the attainment of performance goals established by the Committee for a specified performance period (which period may not exceed three years). These awards may be designed to comply with Section 162(m) of the Code so as to preserve the tax deductibility of such awards.

If the awards are intended to comply with Section 162(m) of the Code, the performance goals will be based on one or more of the following criteria: (i) revenues, income before income taxes and extraordinary items, net income, operating income, earnings before income tax, earnings before interest, taxes, depreciation and amortization or a combination of any or all of the foregoing; (ii) after-tax or pre-tax profits; (iii) operational cash flow; (iv) level of, reduction of, or other specified objectives with regard to our bank debt or other long-term or short-term public or private debt or other similar financial obligations; (v) earnings per share or earnings per share from continuing operations; (vi) return on capital employed or return on invested capital; (vii) after-tax or pre-tax return on stockholders' equity; (viii) economic value-added targets; (ix) fair market value of the shares of Common Stock; (x) the growth in the value of an investment in Common Stock assuming the reinvestment of dividends; (xi) filing of a new drug application or the approval of such application by the U.S. Food and Drug Administration; (xii) launch of a new drug; (xiii) research and development milestones; (xiv) successful completion of clinical trial phases or (xv) level of, reduction of, or other specified objectives with regard to limiting the level in or increase in all or a portion of controllable expenses or costs or other expenses or costs. In addition, such performance goals may be based upon the attainment of specified levels of our (or our subsidiary, division or other operational unit) performance under one or more of the measures described above relative to the performance of other corporations. To the extent permitted under the Code, the Committee may: (i) designate additional business criteria on which the performance goals may be based; or (ii) adjust, modify or amend the aforementioned business criteria.

Amendment and Termination. The 1998 Stock Incentive Plan provides that it may be amended, in whole or in part, suspended or terminated by the Board of Directors, except that no such amendment, suspension or termination will be made without stockholder approval to the extent such approval is required by any exchange or system on which our securities are listed or traded, applicable state law, the exception for performance-based compensation under Section 162(m) of the Code or Section 422 of the Code (with respect to ISOs).

Share and Other Limitations. As currently in effect, a maximum of 25,000,000 shares of Common Stock may be issued or used for reference purposes pursuant to the 1998 Stock Incentive Plan, as amended, although only 1,700,000 shares may be issued or used for reference purposes for restricted stock or performance awards denominated in Common Stock. If this Proposal is approved by stockholders, a maximum of 31,000,000 shares of Common Stock may be issued or used for reference purposes and a maximum of 750,000 shares of Common Stock may be issued or used for reference purposes for restricted stock or performance awards denominated in Common Stock.

The maximum number of shares of Common Stock subject to stock options, SARs or Performance Awards denominated in shares of Common Stock that may be granted to any individual under the 1998 Stock Incentive Plan shall be 1,500,000 for any fiscal year (or, with respect to Performance Awards, pro-rated if the performance period is less than three consecutive fiscal years) during the term of the 1998 Stock Incentive Plan. The maximum payment under any Performance Award denominated in cash shall be \$4,000,000 for any fiscal year (pro-rated if the performance period is less than three consecutive fiscal years). If an SAR or a limited SAR is granted in tandem with a stock option, it shall apply against the individual limits for both stock options and SARs, but only once against the maximum number of shares available under the 1998 Stock Incentive Plan. To the extent that shares of Common Stock for which stock options or SARs are permitted to be granted to a recipient during a

calendar year are not covered by a grant of a stock option or an SAR during the calendar year, such shares of Common Stock shall not be available for grant or issuance to the recipient in any subsequent calendar year during the term of the 1998 Stock Incentive Plan.

The Committee may make appropriate adjustments to the number of shares available for awards and the terms of outstanding awards under the 1998 Stock Incentive Plan to reflect any change in our capital structure or business, stock dividend, stock split, recapitalization, reorganization, merger, consolidation or sale of all or substantially all of our assets.

Change in Control. Unless determined otherwise by the Committee at the time of grant, upon a Change in Control (as defined in the 1998 Stock Incentive Plan), all vesting and forfeiture conditions, restrictions and limitations in effect with respect to any outstanding award will immediately lapse and any unvested awards will automatically become 100% vested. However, unless otherwise determined by the Committee at the time of grant or thereafter, no acceleration of exercisability shall occur with regard to certain stock options that the Committee reasonably determines in good faith prior to a Change in Control will be honored or assumed or new rights substituted therefor by a recipient's employer immediately following the Change in Control. The Committee may also, in its sole discretion, provide for accelerated vesting of an award at any time.

Transferability. Although awards will generally be nontransferable (except by will or the laws of descent and distribution), the Committee may determine at the time of grant or thereafter that a non-qualified stock option that is otherwise nontransferable is transferable in whole or in part and in such circumstances, and under such conditions, as specified by the Committee. If a non-qualified stock option is transferable, it is anticipated that the options may be transferred solely to immediate family members or trusts, partnerships or other family entities and, to the extent permitted by the Committee, to charitable organizations.

Certain U.S. Federal Income Tax Consequences.

The rules concerning the federal income tax consequences with respect to stock options granted pursuant to the 1998 Stock Incentive Plan are highly technical. In addition, the applicable statutory provisions are subject to change and their application may vary in individual circumstances. Therefore, the following is designed to provide a general understanding of the federal income tax consequences; it does not set forth any state or local income tax or estate tax consequences that may be applicable.

Incentive Stock Options. Options granted under the 1998 Stock Incentive Plan may be incentive stock options as defined in the Code, provided that such options satisfy the requirements under the Code. In general, neither the grant nor the exercise of an incentive stock option will result in taxable income to the optionee or a deduction to us. The sale of Common Stock received pursuant to the exercise of an option which satisfied all the requirements of an incentive stock option, as well as the holding period requirement described below, will result in a long-term capital gain or loss to the optionee equal to the difference between the amount realized on the sale and the exercise price and will not result in a tax deduction to us. To receive incentive stock option treatment, the optionee must not dispose of the Common Stock purchased pursuant to the exercise of an option either (i) within two years after the option is granted or (ii) within one year after the date of exercise.

If all requirements for incentive stock option treatment other than the holding period rules are satisfied, the recognition of income by the optionee is deferred until disposition of the Common Stock, but, in general, any gain (in an amount equal to the lesser of (i) the fair market value of the Common Stock on the date of exercise (or, with respect to officers, the date that sale of such stock would not create liability, referred to as Section 16(b) liability, under Section 16(b) of the Exchange Act) minus the exercise price or (ii) the amount realized on the disposition minus the exercise price) is treated as ordinary income. Any remaining gain is treated as long-term or short-term capital gain depending

on the optionee's holding period for the stock disposed of. The Company generally will be entitled to a deduction at that time equal to the amount of ordinary income realized by the optionee.

The 1998 Stock Incentive Plan provides that an optionee may pay for Common Stock received upon the exercise of an option (including an incentive stock option) with other shares of Common Stock held for at least six months. In general an optionee's transfer of stock acquired pursuant to the exercise of an incentive stock option, to acquire other stock in connection with the exercise of an incentive stock option may result in ordinary income if the transferred stock has not met the minimum statutory holding period necessary for favorable tax treatment as an incentive stock option. For example, if an optionee exercises an incentive stock option and uses the stock so acquired to exercise another incentive stock option within the two-year or one-year holding periods discussed above, the optionee may realize ordinary income under the rules summarized above.

Non-Qualified Stock Options. An optionee will realize no taxable income at the time he or she is granted a non-qualified stock option. Such conclusion is predicated on the assumption that, under existing Treasury Department regulations, a non-qualified stock option, at the time of its grant, has no readily ascertainable fair market value. Ordinary income will be realized when a non-qualified stock option is exercised, provided the Common Stock issued is not restricted stock. The amount of such income will be equal to the excess of the fair market value on the exercise date of the shares of Common Stock issued to an optionee over the exercise price. The optionee's holding period with respect to the shares

acquired will begin on the date of exercise.

The tax basis of the stock acquired upon the exercise of any option will be equal to the sum of (i) the exercise price of such option and (ii) the amount included in income with respect to such option. Any gain or loss on a subsequent sale of the stock will be either a long-term or short-term capital gain or loss, depending on the optionee's holding period for the stock disposed of. If the Common Stock issued is restricted stock, different rules may apply. Subject to the limitations under Sections 162(m) and 280G of the Code (as described below), the Company generally will be entitled to a deduction for federal income tax purposes at the same time and in the same amount as the optionee is considered to have realized ordinary income in connection with the exercise of the option.

Certain Other Tax Issues. In addition, (i) any of our officers subject to Section 16(b) liability may be subject to special rules regarding the income tax consequences concerning their awards; (ii) any entitlement to a tax deduction on our part is subject to the applicable federal tax rules (including, without limitation, Section 162(m) of the Code regarding the \$1 million limitation on deductible compensation); (iii) in the event that the exercisability or vesting of any award is accelerated because of a Change in Control, payments relating to the awards (or a portion thereof), either alone or together with certain other payments, may constitute parachute payments under Section 280G of the Code, which excess amounts may be subject to excise taxes and may be nondeductible by us; and (iv) the exercise of an incentive stock option may have implications in the computation of alternative minimum taxable income.

In general, Section 162(m) of the Code denies a publicly held corporation a deduction for federal income tax purposes for compensation in excess of \$1 million per year per person to its chief executive officer and the four other officers whose compensation is disclosed in its proxy statement, subject to certain exceptions. Options will generally qualify under one of these exceptions if they are granted under a plan that states the maximum number of shares with respect to which options may be granted to any employee during a specified period and the plan under which the options are granted is approved by stockholders and is administered by a compensation committee comprised of outside directors. The 1998 Stock Incentive Plan is intended to satisfy these requirements with respect to options and certain Performance Awards. Awards of restricted shares generally do not satisfy, and certain other Performance Awards may not satisfy, the exception for performance-based compensation under Section 162(m) of the Code.

24

The 1998 Stock Incentive Plan is not subject to any of the requirements of the Employee Retirement Income Security Act of 1974, as amended. The 1998 Stock Incentive Plan is not, nor is it intended to be, qualified under Section 401(a) of the Code.

New Plan Benefits

The table below presents certain information with respect to new options to be granted under the 1998 Stock Incentive Plan (subject to approval by stockholders of the amendment to the 1998 Stock Incentive Plan) to our Chief Executive Officer and other executive officers (for whom executive compensation information is provided under the section entitled "Executive Compensation and Other Information") as follows:

Name and Position	Dollar Value (\$)	Number of Shares Underlying Options
John W. Jackson, Chief Executive Officer	(1)	(2)
Sol J. Barer, Ph.D., President and Chief Operating Officer	(1)	(2)
Robert J. Hugin, Senior Vice President and Chief Financial Officer	(1)	(2)
All Executive Officers as a Group	(1)	(2)
Non-Executive Directors as a Group	(3)	(3)
Non-Executive Officer Employees as a Group	(4)	(4)

- (1) Options are to be granted at the fair market value of the underlying shares of Common Stock on the effective date of the grant, with a ten-year expiration date for each option.

- (2) We anticipate that options may be granted to the named individual under the 1998 Stock Incentive Plan on a quarterly basis. However, the amount of options that may be granted to the named individual are based upon various prospective factors and cannot be determined at this time.
- (3) Non-executive directors do not participate in the 1998 Stock Incentive Plan and are not qualified to receive any benefits thereunder.
- (4) No new options have been granted at this time to any employees. Because the grant of awards under the 1998 Stock Incentive Plan will be based upon prospective factors including the nature of services to be rendered by our key employees and officers and employees and officers of our affiliates, and their potential contributions to our success, actual awards to be granted under the 1998 Stock Incentive Plan cannot be determined at this time.

**PROPOSAL THREE:
APPROVAL OF THE AMENDMENT TO
THE 1995 NON-EMPLOYEE DIRECTORS INCENTIVE PLAN**

Our stockholders are asked to approve an amendment to our Directors Incentive Plan which was approved by the Board of Directors, effective as of April 5, 2005, subject to stockholder approval, that would increase the aggregate number of shares of our Common Stock that may be subject to options from 3,600,000 to 3,850,000, and to extend the period under which options may be granted and from April 5, 2005 to June 30, 2015. The affirmative vote of the holders of at least a majority of the outstanding shares of Common Stock present or represented by proxy and entitled to vote at the Annual Meeting is required to approve the amendment of the Directors Incentive Plan.

Background of the Proposal to Amend the Directors Incentive Plan

Under the current Directors Incentive Plan, options may be granted through April 5, 2005. The amendment would extend the term of the Directors Incentive Plan to June 30, 2015.

As of March 31, 2005, options to purchase 3,399,400 shares of Common Stock have been granted under the Directors Incentive Plan (including 20,000 shares that were subject to awards that expired and became available for awards again) at exercise prices based on the fair market value of the shares of our Common Stock ranging from \$1.1875 to \$33.8700. As of March 31, 2005, 220,600 shares remain available for future grants

Edgar Filing: CELGENE CORP /DE/ - Form DEF 14A

to our Non-Employee Directors out of the aggregate of 3,600,000 shares of Common Stock authorized for grant under the Directors' Incentive Plan. As of April 28, 2005 the closing price of a share of Common Stock was \$38.17.

The Directors' Incentive Plan is designed to provide a means of giving existing and new Non-Employee Directors an increased opportunity to acquire an investment in our company, thereby maintaining and strengthening their desire to remain with our Board of Directors and stimulating their efforts on our behalf. It is also expected that the Directors' Incentive Plan will encourage qualified persons to become future directors. Accordingly, the Board of Directors recommends that stockholders approve the amendment to the Directors' Incentive Plan to extend the term. The following is a brief summary of the principal provisions of the Directors' Incentive Plan, as amended. This summary does not purport to be complete and is qualified in its entirety by reference to the text of the Directors' Incentive Plan, a copy of which may be obtained upon written request to us at our principal business of address.

26

Summary of the Directors' Incentive Plan

Share Limitations. The Directors' Incentive Plan currently provides for the granting of non-qualified options to purchase an aggregate of not more than 3,600,000 shares (subject to adjustment in certain circumstances) of Common Stock to Non-Employee Directors.

The Directors' Incentive Plan was adopted by our Board of Directors on April 5, 1995, and approved by our stockholders at the 1995 annual meeting of stockholders. The stockholders previously approved amendments to the Directors' Incentive Plan to increase the number of shares of our Common Stock that may be issued upon exercise of options granted thereunder. Most recently, at our annual meeting held in 1999, the Directors' Incentive Plan was amended to increase the number of shares of our Common Stock that may be issued upon exercise of options granted thereunder from 2,100,000 shares to 3,600,000 shares, as adjusted for the Splits.

If this Proposal is approved by stockholders, a maximum of 3,850,000 shares of our Common Stock will be available to grant non-qualified options.

Automatic Option Grants. Under the Directors' Incentive Plan, each new Non-Employee Director upon the date of his or her election or appointment is granted a non-qualified option to purchase 20,000 shares of Common Stock. These initial options vest in four equal annual installments commencing on the first anniversary of the date of grant, assuming the Non-Employee Director remains a director of our company.

Each Non-Employee Director currently also receives non-qualified options to purchase 3,750 shares of Common Stock per quarter (15,000 shares annually). These options vest in full on the first anniversary of the date of the grant, assuming the Non-Employee Director is a director of our company on that date.

The Directors' Incentive Plan also provides for a discretionary grant upon the date of each annual meeting of an additional option to purchase up to 5,000 shares to a non-employee director who serves as a member (but not a chairman) of a committee of the Board of Directors and up to 10,000 shares to a non-employee director who serves as the chairman of a committee of the Board of Directors.

Option Terms. All options granted pursuant to the Directors' Incentive Plan, as amended, will expire no later than 10 years from the date of grant and no options may be granted after April 5, 2005 (or June 30, 2015, if this Proposal is approved by stockholders). If a Non-Employee Director terminates his or her service on the Board of Directors for any reason, options that were exercisable on the date of termination and that have not expired may be exercised at any time until the date of expiration of such options. In addition, if there is a change of control and within two years after such change of control a director ceases to be a Non-Employee Director for any reason, or is not nominated for election by our stockholders, all unvested portions of a stock option will automatically vest.

Transferability. Although awards will generally be nontransferable (except by will or the laws of descent and distribution), the Board of Directors may determine at the time of grant or thereafter that a stock option that is otherwise nontransferable is transferable in whole or in part and in such circumstances, and under such conditions, as specified by the Board of Directors. If a stock option is transferable, it is anticipated that the options may be transferred solely to immediate family members or trusts, partnerships or other family entities and, to the extent permitted by the Board of Directors, to charitable organizations.

Administration. The Directors' Incentive Plan is administered by our Board of Directors which has the full and final authority to interpret the Directors' Incentive Plan and to adopt and amend such rules and regulations for the administration of the Directors' Incentive Plan as the Board may deem desirable. In addition, the Board of Directors has the right to amend, suspend, or terminate the Directors' Incentive Plan at any time; provided, however, that unless first duly approved by the holders of Common Stock entitled to vote thereon, no amendment

or change may be made in the Directors' Incentive Plan: (i) increasing the maximum number of shares for which options may be granted under the Directors' Incentive Plan; (ii) reducing the purchase price previously specified for the shares subject to options; (iii) extending the period during which options may be granted or options exercised under the Directors' Incentive Plan; or (iv) changing the class of persons eligible to receive options under the Directors' Incentive Plan.

The Directors' Incentive Plan is not subject to any of the requirements of the Employee Retirement Income Security Act of 1974, as amended. The Directors' Incentive Plan is not, nor is it intended to be, qualified under Section 401(a) of the Internal Revenue Code. Options granted under the Directors' Incentive Plan are non-qualified stock options and are not intended to qualify as incentive stock options under Section 422 of the Internal Revenue Code.

Certain Federal Income Tax Consequences

The rules concerning the federal income tax consequences with respect to stock options granted pursuant to the Directors' Incentive Plan are highly technical. In addition, the applicable statutory provisions are subject to change and their application may vary in individual circumstances. Therefore, the following is designed to provide a general understanding of the federal income tax consequences; it does not set forth any state or local income tax or estate tax consequences that may be applicable.

The options granted or to be granted under the Directors' Incentive Plan do not and will not qualify as incentive stock options and are herein referred to as non-qualified stock options. An optionee will realize no income at the time he is granted a non-qualified stock option. Such conclusion is predicated on the assumption that, under existing Treasury Department regulations, a non-qualified stock option, at the time of its grant, has no readily ascertainable fair market value. Ordinary income will be realized when a non-qualified stock option is exercised. The amount of such income will be equal to the excess of the fair market value on the exercise date of the shares of Common Stock issued to an optionee over the exercise price. The optionee's holding period with respect to the shares acquired will begin on the date of exercise.

The tax basis of the stock acquired upon the exercise of any option will be equal to the sum of (i) the exercise price of such option and (ii) the amount included in income with respect to such option. Any gain or loss on a subsequent sale of the stock will be either long term or short term capital gain or loss, depending on the optionee's holding period for the stock disposed of.

In addition, any of our Non-Employee Directors subject to Section 16(b) of the Exchange Act may be subject to special tax rules regarding the income tax consequences concerning their non-qualified options. A participant subject to Section 16(b) should consult his or her tax advisor as to whether, as a result of Section 16(b) of the Exchange Act and Section 83 of the Code and the regulations thereunder, the timing of income recognition is deferred to any period following exercise of an option (e.g., the six-month period following such exercise).

We will be entitled, subject to rules regarding reasonableness of compensation, to a deduction for federal income tax purposes at the same time and in the same amount as the optionee is considered to have realized ordinary income in connection with the exercise of the option. The deduction will be allowed for our taxable year in which or with which ends the taxable year of the optionee in which such ordinary income is recognized.

New Plan Benefits

The table below presents certain information with respect to new options to be granted under the Directors' Incentive Plan (subject to approval by stockholders of the amendment to the Directors' Incentive Plan to extend the term thereunder) to our Non-Employee Directors as follows:

Name and Position	Dollar Value (\$)	Number of Shares Underlying Options
John W. Jackson, Chief Executive Officer	(1)	(1)

Name and Position	Dollar Value (\$)	Number of Shares Underlying Options
Sol J. Barer, Ph.D., President and Chief Operating Officer	(1)	(1)
Robert J. Hugin, Senior Vice President and Chief Financial Officer	(1)	(1)
All Executive Officers as a Group	(1)	(1)
Non-Executive Directors as a Group	(2)	(3)(4)
Non-Executive Officer Employees as a Group	(1)	(1)

- (1) Our executive officers and other employees do not participate in the Directors Incentive Plan and are not qualified to receive any benefits thereunder.
- (2) Options are granted to our Non-Employee Directors at the fair market value of the underlying shares of Common Stock, with a ten-year expiration date for each option.
- (3) Subject to the approval by stockholders to amend the Directors Incentive Plan, we anticipate that options will be granted to our Non-Employee Directors under the Directors Incentive Plan as a group to purchase an aggregate 26,250 shares of Common Stock on a quarterly basis (105,000 shares of Common Stock annually).
- (4) The Directors Incentive Plan also provides for certain discretionary grants to Non-Employee Directors upon the date of each annual meeting in the amounts and under the circumstances as described in the section entitled Director Compensation under Proposal One. However, because these additional grants are discretionary and will be based upon various prospective factors, the actual awards or amounts thereof cannot be determined at this time.
