ABOUT THE MEETING

What is the purpose of the Annual Meeting?

The purpose of the annual meeting is to allow you to vote on the matters outlined in the accompanying Notice of Annual Meeting of Shareholders, including the election of the directors.

Who is entitled to vote?

Only shareholders of record at the close of business on the record date, August 19, 2004 (the "Record Date"), are entitled to vote at the annual meeting, or any postponements or adjournments of the meeting.

What are the Board's recommendations on the proposals?

The Board recommends a vote FOR each of the nominees and FOR the amendment to increase the number of shares under the 2002 Stock Option Plan.

How do I vote?

Sign and date each proxy card you receive and return it in the postage-prepaid envelope enclosed with your proxy materials. If you are a registered shareholder and attend the meeting, you may deliver your completed proxy card(s) in person.

If your shares are held by your broker or bank, in "street name," you will receive a form from your broker or bank seeking instructions as to how your shares should be voted. If you do not instruct your broker or bank how to vote, your broker or bank will vote your shares if it has discretionary power to vote on a particular matter.

Can I change my vote after I return my proxy card?

Yes. You have the right to revoke your proxy at any time before the meeting by notifying the Company's Secretary at Digital Power Corporation, 41920 Christy Street, Fremont, California 94538, in writing, voting in person or returning a proxy card with a later date.

Who will count the vote?

The Secretary will count the votes and act as the inspector of election. Our transfer agent, Computershare Transfer & Trust is the transfer agent for the Company's common stock. Computershare Transfer & Trust will tally the proxies and provide this information at the time of the meeting.

What shares are included on the proxy card(s)?

The shares on your proxy card(s) represent ALL of your shares.

What does it mean if I get more than one proxy card?

Edgar Filing: DIGITAL POWER CORP - Form DEF 14A

If your shares are registered differently and are in more than one account, you will receive more than one proxy card. Sign and return all proxy cards to ensure that all your shares are voted. We encourage you to have all accounts registered in the same name and address whenever possible. You can accomplish this by contacting our transfer agent, Computershare Transfer & Trust, located at 350 Indiana Street, Suite 800, Golden, Colorado 80401, telephone (303) 986-5400, facsimile (303) 986-2444, or, if your shares are held by your broker or bank in "street name," by contacting the broker or bank who holds your shares.

How many shares can vote?

Only shares of common stock may vote. As of the Record Date of August 19, 2004, 6,136,859 shares of common stock were issued and outstanding.

Each share of common stock is entitled to one vote at the annual meeting, except with respect to the election of directors. In elections of directors, California law provides that a shareholder, or his or her proxy, may cumulate votes; that is, each shareholder has that number of votes equal to the number of

shares owned, multiplied by the number of directors to be elected, and the shareholder may cumulate such votes for a single candidate, or distribute such votes among as many candidates as he or she deems appropriate. However, a shareholder may cumulate votes only for a candidate or candidates whose names have been properly placed in nomination prior to the voting, and only if the shareholder has given notice at the meeting, prior to the voting, of his or her intention to cumulate votes for the candidates in nomination. The Company's designated proxy holders (the "Proxy Holders") have discretionary authority to cumulate votes represented by the proxies received in the election of directors. The Proxy Holders intend to vote all proxies received by them in such manner as will assure the election of as many of the nominees described under "Election of Directors" as possible.

What is a "quorum"?

A "quorum" is a majority of the outstanding shares entitled to vote. A quorum may be present in person or represented by proxy to transact business at the shareholders' meeting. For the purposes of determining a quorum, shares held by brokers or nominees for which we receive a signed proxy will be treated as present even if the broker or nominee does not have discretionary power to vote on a particular matter or if instructions were never received from the beneficial owner. These shares are called "broker non-votes." Abstentions will be counted as present for quorum purposes.

What is required to approve each proposal?

For the election of the directors, once a quorum has been established, the nominees for director who receive the most votes will become our directors. A majority of the shares voting is required to approve all other proposals; however, the number of shares voting affirmatively must be greater than twenty-five percent (25%) of the outstanding shares.

If a broker indicates on its proxy that it does not have discretionary authority to vote on a particular matter, the affected shares will be treated as not present and not entitled to vote with respect to that matter, even though the same shares may be considered present for quorum purposes and may be entitled to vote on other matters.

What happens if I abstain?

Edgar Filing: DIGITAL POWER CORP - Form DEF 14A

Proxies marked "abstain" will be counted as shares present for the purpose of determining the presence of a quorum, but for purposes of determining the outcome of a proposal, shares represented by such proxies will not be treated as affirmative votes.

How will we solicit proxies?

We will distribute the proxy materials and solicit votes. The cost of soliciting proxies will be borne by us. These costs will include the expense of preparing and mailing proxy solicitation materials for the meeting and reimbursements paid to brokerage firms and others for their reasonable out-of-pocket expenses for forwarding proxy solicitation materials to shareholders. Proxies may also be solicited in person, by telephone or by facsimile by our directors, officers and employees without additional compensation.

Committees of the Board of Directors

Audit Committee

The Audit Committee of the Board of Directors makes recommendations regarding the retention of independent auditors, reviews the scope of the annual audit undertaken by our independent auditors and the progress and results of their work, and reviews our financial statements, internal accounting and auditing procedures and corporate programs to ensure compliance with applicable laws. The Audit Committee reviews the services performed by the independent auditors and determines whether they are compatible with maintaining the independent auditor's independence. The Audit Committee has a Charter, which is reviewed annually and as may be required due to changes in industry accounting practices or the promulgation of new rules or guidance documents. The members of the Audit Committee in 2004 were Messrs. Mark Thum, Amos Kohn, Yeheskel Manea and Youval Menipaz. The current members of the Audit Committee are: Messrs. Kohn, Manea and Menipaz. All Audit Committee members are independent directors. The Audit Committee met four times during fiscal 2003.

Edgar Filing: DIGITAL POWER CORP - Form DEF 14A

Nominations to the Board of Directors

Our directors take a critical role in guiding our strategic direction and oversee the management of the Company. Board candidates are considered based upon various criteria, such as their broad-based business and professional skills and experiences, a global business and social perspective, concern for the long-term interests of the shareholders and personal integrity and judgment. In addition, directors must have time available to devote to Board activities and to enhance their knowledge of the power supply industry. Accordingly, we seek to attract and retain highly qualified directors who have sufficient time to attend to their substantial duties and responsibilities to the Company.

The Board of Directors does not have a nominating committee. The Board believes given the diverse skills and experience required to grow the Company that the input of all members is important for considering the qualifications of individuals to serve as directors. The Board recommends a slate of directors for election at the annual meeting. In accordance with AMEX rules, the slate of nominees is approved by a majority of the independent directors. Messrs. Kohn, Manea and Menipaz are independent as defined in the AMEX listing standards.

In carrying out its responsibilities, the Board will consider candidates suggested by shareholders. If a shareholder wishes to formally place a candidate's name in nomination, however, he or she must do so in accordance with the provisions of the Company's Bylaws. Suggestions for candidates to be evaluated by the Board must be sent to Uzi Sasson, Corporate Secretary, Digital Power Corporation, 41920 Christy Street, Fremont, California 94538.

In accordance with Securities Exchange Commission regulations, the following is the Audit Committee Report. Such report is not deemed to be filed with the Securities Exchange Commission.

Report of the Audit Committee

The Audit Committee oversees the financial reporting process for the Company on behalf of the Board of Directors. In fulfilling its oversight responsibilities, the Audit Committee reviews the Company's internal accounting procedures, consults with and reviews the services provided by the Company's independent auditors and makes recommendations to the Board of Directors regarding the selection of independent auditors. Management is responsible for the financial statements and the reporting process, including the system of internal controls. The independent auditors are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles.

In accordance with Statements on Accounting Standards (SAS) No. 61, discussions were held with management and the independent auditors regarding the acceptability and the quality of the accounting principles used in the reports. These discussions included the clarity of the disclosures made therein, the underlying estimates and assumptions used in the financial reporting, and the reasonableness of the significant judgments and management decisions made in developing the financial statements. In addition, the Audit Committee has discussed with the independent auditors their independence from the Company and its management and the independent auditors provided the written disclosures and the letter required by Independence Standards Board Standard No. 1.

The Audit Committee has also met and discussed with the Company's management, and its independent auditors, issues related to the overall scope and objectives of the audits conducted, the internal controls used by the Company and the selection of the Company's independent auditors. In addition, the Audit Committee discussed with the independent auditors, with and without management present, the specific results of audit investigations and

Edgar Filing: DIGITAL POWER CORP - Form DEF 14A

examinations and the auditor's judgments regarding any and all of the above issues.

Pursuant to the reviews and discussions described above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Annual Report on Form 10-KSB for the fiscal year ended December 31, 2003, for filing with the Securities and Exchange Commission.

PROPOSAL 2 - ADOPTION OF THE 2002 STOCK OPTION PLAN

You are being asked to approve an amendment to increase the number of shares available for grant under our 2002 Stock Option Plan (the "2002 Plan"). The shareholders of the Company approved the 2002 Stock Option Plan on September 23, 2002 (the "Plan"). Under the Plan, a total of 1,219,000 shares of Common Stock were authorized to be issued, of which as of August 16, 2004, 921,520 shares were subject to options and 110,000 shares were retired upon the exercise of options. Subject to shareholder approval, the Compensation Committee and the Board of Directors approved an amendment to the Plan to increase the number of shares subject to the Plan by an additional 300,000 shares.

The Board of Directors believes that stock options are an important component of our overall compensation and incentive strategy for employees, directors, officers and consultants. We are committed to broad-based participation in the stock option program by employees at all levels and by directors, officers and consultants. We believe that the stock option program is important in order to maintain our culture, employee motivation and continued success.

DESCRIPTION OF THE 2002 PLAN

Structure. The 2002 Plan is a discretionary option grant program under which eligible individuals in the Company's employ or service as directors, officers or consultants may, at the discretion of the Plan Administrator, be granted options to purchase shares of common stock in the Company. The principal features of the program are described below.

Administration. The Compensation Committee of the Board of Directors will serve as the Plan Administrator with respect to the 2002 Plan. The term "Plan Administrator" as used in this summary means the Compensation Committee and any other appointed committee acting within the scope of its administrative authority under the 2002 Plan. The Plan Administrator has the authority to interpret the 2002 Plan and the rights underlying any grants made subject to the 2002 Plan. Any decision or action of the Plan Administrator in connection with the 2002 Plan is final and binding.

Eligibility. Employees, directors, officers and consultants in the service of the Company or any parent or subsidiary corporation (whether now existing or subsequently established) are eligible to participate in the 2002 Plan. Eligible

Edgar Filing: DIGITAL POWER CORP - Form DEF 14A

persons include in the case of an incentive stock option, employees of the Company or a subsidiary and in the case of a non-qualified stock option, employees, directors, officers and consultants of the Company or a subsidiary. Determinations as to eligibility shall be made by the Plan Administrator.

Share Reserve. The shares issuable under the 2002 Plan may be made available either from the Company's authorized but unissued common stock or from common stock reacquired by the Company, including shares purchased in the open market. In addition, shares subject to any outstanding options under the 2002 Plan that expire or terminate prior to exercise will be available for subsequent issuance.

Terms and Conditions of Option Grants. One or more options may be granted to each eligible person. The options granted under the 2002 Plan will be evidenced by an option agreement, which will expressly identify the option as an incentive stock option or a non-qualified stock option. The Plan Administrator shall specify the grant date, exercise price, terms and conditions for the exercise of the options. No option under the 2002 Plan shall terminate later than ten years after the date of grant subject to the following provision. In the case of an incentive stock option when the optionee owns more than 10% of the total combined voting power of all classes of stock, the option shall expire not later than five years after the date of grant. The maximum value of shares subject to options, which can be granted as incentive stock options under the 2002 Plan during any calendar year to an individual, is \$100,000. Shareholder approval of this Proposal will also constitute approval of that limit for purposes of Internal Revenue Code Section 162(m).

Exercise of the Option. Options may be exercised by delivery to the Company of a written stock option exercise agreement together with payment in full of the exercise price for the number of shares being purchased. The exercise price shall be 100% of the fair market value of the shares on the date of grant. The exercise price of any incentive stock option granted to a ten percent shareholder will not be less than 110% of the fair market value of the shares on the date of grant. The Plan Administrator, may, at its discretion, issue options to purchase common stock at an exercise price less than fair market value.

Payment for shares purchased pursuant to the 2002 Plan may be made by cash or check. The Administrator may allow other forms of payment by (i) surrender of shares of the Company owned by the optionee more than six months, or that were obtained by the optionee on the open market, (ii) cancellation of indebtedness of the Company to the Participant, (iii) through a "same day sale" commitment from the optionee and a broker-dealer that is a member of the National Association of Securities Dealers (a "NASD dealer") whereby the optionee irrevocably elects to exercise the option and to sell a portion of the shares so purchased to pay for the exercise price, and whereby the NASD dealer commits to forward the exercise price directly to the Company, (iv) a "margin" commitment from the optionee and an NASD dealer whereby the optionee irrevocably elects to exercise his or her option and to pledge the shares so purchased to the NASD dealer in a margin account as security for a loan from the NASD dealer in the amount of the exercise price, and whereby the NASD dealer irrevocably commits upon receipt of such shares to forward the exercise price directly to the Company or (v) "immaculate cashless exercise" in which the optionee exercises by forfeiting the option shares at their exercise price.

Reload Option. The Plan Administrator of the 2002 Plan may, in its discretion, grant optionee a reload option. An optionee with a reload option, who pays for his or her stock in whole or in part with stock owned by the optionee may be granted another option to purchase the number of shares tendered at a price no less than fair market value of the shares at the date the additional option is granted. The purpose of the reload option is to encourage insiders to own stock in the Company.

Edgar Filing: DIGITAL POWER CORP - Form DEF 14A

Transferability of Options. No option shall be transferable other than by will or by the laws of descent and distribution, and during the lifetime of the optionee, only the optionee, his or her guardian or legal representative may

exercise an option. However, the Plan Administrator may provide for transfer of an option (other than an incentive stock option) without payment of consideration to designated family members and certain other entities specified in the 2002 Plan. The terms applicable to the assigned portion shall be the same as those in effect for the option immediately prior to such assignment. A request to assign an option may be made only by delivery to the Company of a written stock option assignment request.

Termination of Employment. If optionee's employment is terminated, vested incentive stock options may be exercised at any time within three months after the date of such termination, but in no event after the termination of the option as specified in the option agreement. If an employee continues service to the Company after termination of employment, the employee need not exercise the option within three months of termination of employment, but may exercise within three months of termination of his or her continuing service as a consultant, advisor or work performed in a similar capacity, but if the options held are incentive stock options and employee exercises after three months of termination of employment, the options will not be treated as incentive stock options.

Retirement, Death or Permanent Disability. If an optionee under the 2002 Plan ceases to be an employee of the Company due to retirement, the optionee may exercise the option within the maximum term of the option as it existed on the date of retirement. If the optionee does not exercise within three months of retirement, no option shall qualify as an incentive stock option if it was otherwise so qualified. If an optionee becomes permanently and totally disabled or dies while employed by the Company or its subsidiary, vested options may be exercised by the optionee, the optionee's personal representative, or by the person to whom the option is transferred by will or the laws of descent and distribution, at any time within one (1) year after the termination of employment resulting from the disability or death, but in no event after the expiration of the option as set forth in the option agreement.

Current or Former Directors. Current or former directors may exercise vested options at any time during the maximum term of the option.

Suspension or Termination of Options. If the Plan Administrator reasonably believes that an optionee has committed an act of misconduct, the Plan Administrator may suspend the optionee's right to exercise any option pending a final determination by the Plan Administrator. If the Plan Administrator determines an optionee has committed an act of embezzlement, fraud, dishonesty, breach of fiduciary duty; or deliberate disregard of the Company's rules; or makes an unauthorized disclosure of any Company trade secret or confidential information; or engages in any conduct constituting unfair competition, induces any of the Company's customers or contracting parties to breach a contract with the Company or induces any principal for whom the Company acts as an agent to terminate such agency relationship, neither the optionee nor his or her estate shall be entitled to exercise any option whatsoever. The determination of the Plan Administrator shall be final and conclusive unless overruled by the Board of Directors.

GENERAL PROVISIONS

Dissolution, Liquidation, or Merger and Change of Control. In the event of an occurrence after which the Company no longer survives as an entity, the Plan

Edgar Filing: DIGITAL POWER CORP - Form DEF 14A

Administrator may, in its discretion, cancel each outstanding option upon payment to the Participant of adequate consideration as specified in the 2002 Plan. The Plan Administrator may also accelerate the time within which each outstanding option may be exercised. After a merger, consolidation, combination or reorganization in which the Company is the survivor, the Plan Administrator shall determine any appropriate adjustments to outstanding options.

In the event a change of control of the Company, as defined in the 2002 Plan, then all outstanding options shall fully vest immediately upon the Company's public announcement of such a change. A change of control generally occurs when one transaction or series of transactions results in the issuance of 50% of voting securities, the Company is acquired in some form of merger or consolidation in which the Company does not survive, or when substantially all the assets of the Company are sold.

The acceleration of vesting in the event of a change in the ownership or control of the Company may be seen as an anti-takeover provision and may have the effect of discouraging a merger proposal, a takeover attempt or other efforts to gain control of the Company.

Changes in Capitalization. In the event any change is made to the outstanding shares of common stock by reason of any stock split, stock dividend, recapitalization, combination of shares, exchange of shares or other change in corporate structure effected without the Company's receipt of consideration, appropriate adjustments will be made to (i) the maximum number and/or class of securities issuable under the 2002 Plan and (ii) the number and/or class of securities and the exercise price per share in effect under each outstanding option in order to prevent the dilution or enlargement of benefits thereunder.

Shareholder Rights. No optionee will have any shareholder rights with respect to the option shares until such optionee has exercised the option and paid the exercise price for the purchased shares.

Special Tax Election. The Plan Administrator may, in its discretion, provide one or more holders of outstanding options under the 2002 Plan with the right to have the Company withhold a portion of the shares of common stock otherwise issuable to such individuals in satisfaction of the income and employment withholding taxes to which they become subject in connection with the exercise of those options. Alternatively, the Plan Administrator may allow such individuals to deliver existing shares of common stock in satisfaction of such withholding tax liability.

Amendment and Termination. The Board may amend, suspend or terminate the 2002 Plan at any time and for any reason, but no amendment, suspension or termination shall be made which would impair the right of any person under any outstanding options without such person's consent not unreasonably withheld. Further, the Board of Directors may, in its discretion, determine that any amendment should be effective only if approved by the stockholders even if such approval is not expressly required by the 2002 Plan or by law.

Unless sooner terminated by the Board, the 2002 Plan will in all events terminate on October 7, 2012. Any options outstanding at the time of such termination will remain in force in accordance with the provisions of the instruments evidencing such grants.

Securities Laws. No option shall be effective unless made in compliance with all federal and state securities laws, rules and regulations and in compliance with any rules on any exchange on which shares are quoted.

Edgar Filing: DIGITAL POWER CORP - Form DEF 14A

Other Provisions. The option agreements may contain such other terms, provisions and conditions not inconsistent with the 2002 Plan as may be determined by the Board or the Plan Administrator.

FEDERAL INCOME TAX CONSEQUENCES OF OPTIONS GRANTED UNDER THE 2002 PLAN

Options granted under the 2002 Plan may be either incentive stock options which satisfy the requirements of Section 422 of the Internal Revenue Code or non-statutory options which are not intended to meet such requirements. The Federal income tax treatment for the two types of options differs as follows:

Incentive Options. No taxable income is recognized by the optionee at the time of the option grant and no taxable income is generally recognized at the time the option is exercised. The optionee will, however, recognize taxable income in the year in which the purchased shares are sold or otherwise made the subject of a taxable disposition. For Federal tax purposes, dispositions are divided into two categories: (i) qualifying and (ii) disqualifying. A qualifying disposition occurs if the sale or other disposition is made after the optionee has held the shares for more than two (2) years after the option grant date and more than one (1) year after the exercise date. If either of these two holding periods is not satisfied, then a disqualifying disposition will result.

Upon a qualifying disposition of the shares, the optionee will recognize long-term capital gain in an amount equal to the excess of (i) the amount realized upon the sale or other disposition of the purchased shares over (ii) the exercise price paid for those shares. If there is a disqualifying disposition of the shares, then the excess of (i) the fair market value of the shares on the option exercise date over (ii) the exercise price paid for those shares will be taxable as ordinary income to the optionee. Any additional gain or loss recognized upon the disposition of the shares will be taxable as a capital gain or loss.

If the optionee makes a disqualifying disposition of the purchased shares, then the Company will be entitled to an income tax deduction, for the taxable year in which such disposition occurs, equal to the excess of (i) the fair market value of such shares on the option exercise date over (ii) the exercise price paid for the shares. In no other instance will the Company be allowed a deduction with respect to the optionee's disposition of the purchased shares.

Non-Statutory Options. No taxable income is recognized by an optionee upon the grant of a non-statutory option. The optionee will, in general, recognize ordinary income in the year in which the option is exercised, equal to the excess of the fair market value of the purchased shares on the exercise date over the exercise price paid for the shares and the optionee will be required to satisfy the tax withholding requirements applicable to such income.

If the shares acquired upon exercise of the non-statutory option are unvested because they are subject to forfeiture in the event of the optionee's termination of service and are nontransferable, the optionee will not recognize any taxable income at the time of exercise, but will have to report as ordinary income as and when the forfeiture lapses an amount equal to the excess of (i) the fair market value of the shares on the date the forfeiture lapses over (ii) the exercise price paid the shares. The optionee may, however, elect under Section 83(b) of the Internal Revenue Code to include as ordinary income in the year of exercise of the option an amount equal to the excess of (i) the fair market value of the purchased shares on the exercise date over (ii) the exercise price paid for such shares. If the Section 83(b) election is made, the optionee will not recognize any additional income as and when the forfeiture lapses.

The Company will be entitled to an income tax deduction equal to the amount of ordinary income recognized by the optionee with respect to the exercised

Edgar Filing: DIGITAL POWER CORP - Form DEF 14A

non-statutory option. The deduction will in general be allowed for the taxable year of the Company in which such ordinary income is recognized by the optionee.

DEDUCTIBILITY OF EXECUTIVE COMPENSATION

The Company anticipates that any compensation deemed paid by it in connection with disqualifying dispositions of incentive stock option shares or exercises of non-statutory options will qualify as performance-based compensation for purposes of Code Section 162(m) and will not have to be taken into account for purposes of the \$1,000,000 limitation per covered individual on the deductibility of the compensation paid to certain executive officers of the Company. Accordingly, it is expected that all compensation deemed paid with respect to those options will remain deductible by the Company without limitation under Code Section 162(m).

ACCOUNTING TREATMENT

Awards with an exercise or purchase price per share equal to 100% of the fair market value of the shares at the time of grant generally will not result in any direct charge to the Company's earnings. However, other provisions in the Plan, if included in a specific grant, may result in a direct charge to the Company's earnings for that grant. The fair value of those awards that did not result in a direct charge to the Company's earnings must be disclosed in the notes to the Company's financial statements, in the form of pro-forma statements to those financial statements, which demonstrates the impact those awards would have upon the Company's reported earnings were the value of those awards at the time of grant treated as compensation expense. In addition, the number of outstanding awards may be a factor in determining the Company's earnings per share on a diluted basis.

All eligible employees of the Company participate in the ESOP on the basis of level of compensation and length of service. Participation in the ESOP is subject to vesting over a six-year period. The shares of our common stock owned by the ESOP are voted by the ESOP trustees. Mr. Wax and Mr. Diamant are the two trustees of the ESOP.

2002, 1998 and 1996 Stock Option Plans

We have established the 2002, 1998 and 1996 Stock Option Plans (the "Plans"). The purposes of the Plans are to encourage stock ownership by our employees, officers, and directors to give them a greater personal interest in the success of the business and to provide an added incentive to continue to advance in their employment or service to us. The Plans provide for the grant of either incentive or non-statutory stock options. The exercise price of any stock

Edgar Filing: DIGITAL POWER CORP - Form DEF 14A

option granted under the Plans may not be less than 100% of the fair market value of our common stock on the date of grant. The fair market value for which an optionee may be granted incentive stock options in any calendar year may not exceed \$100,000. Generally, the Company's stock option agreements require all stock to be purchased by cash or check. Unless otherwise provided by the Board, an option granted under the Plans is exercisable for ten years. The Plans are administered by the Compensation Committee, which has discretion to determine optionees, the number of shares to be covered by each option, the exercise schedule and other terms of the options. The Plans may be amended, suspended, or terminated by the Board but no such action may impair rights under a previously granted option. Each incentive stock option is exercisable, during the lifetime of the optionee, only so long as the optionee remains employed by us. In general, no option is transferable by the optionee other than by will or the laws of descent and distribution.

As of December 31, 2003, a total of 1,972,000 options are authorized to be issued under the 2002, 1998 and 1996 Plans and options to purchase 972,460 shares of common stock were outstanding.

401(k) Plan

We adopted a tax-qualified employee savings and retirement plan (the "401(k) Plan"), which generally covers all of our full-time employees. Pursuant to the 401(k) Plan, employees may make voluntary contributions to the 401(k) Plan up to a maximum of six percent of eligible compensation. The 401(k) Plan permits, but does not require, additional matching and Company contributions on behalf of Plan participants. We match contributions at the rate of \$0.25 for each \$1.00 contributed up to 6% of the base salary. We can also make discretionary contributions. The 401(k) Plan is intended to qualify under Sections 401(k) and 401(a) of the Internal Revenue Code of 1986, as amended. Contributions to such a qualified plan are deductible to the Company when made and neither the contributions nor the income earned on those contributions is taxable to Plan participants until withdrawn. All 401(k) Plan contributions are credited to separate accounts maintained in trust. No amount was contributed on behalf of Mr. Amitai or Mr. Smith in 2003.
