Annual Report
September 30, 2009

Fort Dearborn Income Securities, Inc.

November 16, 2009

Dear shareholder,

We present you with the annual report for Fort Dearborn Income Securities, Inc. (the "Fund") for the 12 months ended September 30, 2009.

Performance

For the 12 months ended September 30, 2009, the Fund gained 25.29% on a net asset value basis, and 21.08% on a market price basis. Over the same period, the Fund's peer group, as measured by the Lipper Corporate Debt Funds BBB-Rated median, posted a return of 16.12% on a net asset value basis, and 35.31% on a market price basis, while the Fund's benchmark, the Investment Grade Bond Index (the "Index"), gained 20.66%.^{*} (For more performance information, please refer to "Performance at a glance" on page 6.)

On an NAV basis, the Fund outperformed both its peer group as well as its benchmark during the reporting period. During the period, neither the Fund nor the Index used leverage, though some funds in its Lipper peer group may use leverage. (Leverage magnifies returns on both the upside and on the downside, creating a wider range of returns.)

The Fund traded at a discount to its NAV per share during the 12-month reporting period. During that time, the Fund's average discount was 9.4%, which was greater than the median discount of 5.1% of its Lipper peer group over the same period, according to data provided by Lipper, Inc. As of September 30, 2009, the Fund was trading at a discount of 10.00%, while the median discount of its Lipper peer group was 4.6%.

^{*} The Investment Grade Bond Index is an unmanaged index compiled by the Advisor, constructed as follows: From 12/31/81 to present—5% Barclays Capital US Agency Index (formerly known as Lehman Brothers US Agency Index) (7+ years), 75% Barclays Capital US Credit Index (formerly known as Lehman Brothers US Credit Index) (7+ years), 10% Barclays Capital US MBS Fixed Rate Index (formerly known as Lehman Brothers US MBS Fixed Rate Index) (all maturities) and 10% Barclays Capital US Treasury Index (formerly known as Lehman Brothers US Treasury Index) (7+ years). Investors should note that indices do not reflect the deduction of fees, expenses or taxes.

Fort Dearborn Income Securities, Inc.

Investment goal:

Current income consistent with external interest rate conditions and total return

Portfolio Manager:

Michael Dow

Dividend payments:

Quarterly

Fort Dearborn Income Securities, Inc.

A fund trades at a discount when the market price at which its shares trade is less than its NAV. Alternately, a fund trades at a premium when the market price at which its shares trade is more than its NAV per share. The market price is the price the market is willing to pay for shares of a fund at a given time, and may be influenced by a range of factors, including supply and demand and market conditions. NAV per share is determined by dividing the value of the Fund's securities, cash and other assets, less all liabilities, by the total number of common shares outstanding.

An interview with Portfolio Manager Michael Dow

Q. Can you describe the economic environment during the reporting period?

- A. While economic growth in the US remained weak during much of the reporting period, the recession is considered to be the longest since the Great Depression is likely to be over. Looking back, gross domestic product (GDP) declined 6.3% during the fourth quarter of 2008. The economy continued to contract during the first half of 2009, as first quarter GDP declined 6.4%. While the economy continued to struggle during the second quarter, it fell at a more modest pace, with GDP declining 0.7%. This relatively better reading was largely the result of smaller declines in exports and business spending.

After four consecutive quarters of negative GDP the estimate for third quarter 2009 GDP was a positive 3.5%. The economy's turnaround was due, in part, to the government's \$787 billion stimulus program, which included an \$8,000 tax credit for first-time home buyers, as well as the "Cash for Clunkers" car rebate program, which has since concluded.

Q. How did the Federal Reserve Board (the "Fed") react in this economic environment?

- A. Both the Fed and US Treasury Department were extremely active given the magnitude of the economic decline and the turmoil in the financial markets. In addition to flooding the financial system with billions of dollars since the recession began in December 2007, both the Fed and Treasury were actively involved in the acquisition and mergers of several storied financial institutions. The Treasury also oversaw the \$700 billion Troubled Asset Relief Program (TARP) and introduced the Public-Private Partnership Investment Program (PPIP), the latter of which is seeking to facilitate the purchase of \$40 billion of toxic mortgage assets from bank balance sheets.

The Fed reduced the fed funds rate on several occasions during the reporting period. When the period began, the fed funds rate was 2.00%. (The federal funds rate, or "fed funds" rate, is the rate that

Fort Dearborn Income Securities, Inc.

banks charge one another for funds they borrow on an overnight basis.) However, with the global financial crisis rapidly escalating and oil prices falling sharply, the Fed moved into action in October 2008, as it cut the fed funds rates twice to 1.00%. Then, during its meeting on December 16, the Fed aggressively cut the fed funds rate to a range of 0.00% to 0.25%—a record low.

The Fed maintained this rate throughout the entire reporting period, and indicated at its September 2009 meeting that it expects to continue to do so, anticipating economic conditions that are “likely to warrant exceptionally low levels of the federal funds rate for an extended period.”

Q. How did the bond market perform during the reporting period?

A. The US bond market as a whole generated strong results during the 12-month reporting period. After a lengthy period of heightened risk aversion, investors were gradually drawn to lower-quality, non-Treasury securities as the reporting period progressed. This followed signs that the government’s aggressive initiatives to stabilize the financial markets were succeeding, as well as due to optimism that positive economic growth would return later in 2009. In particular, lower-rated securities generated exceptional returns during the second half of the reporting period. During the 12 months ended September 30, 2009, the overall US bond market, as measured by the Barclays Capital US Aggregate Bond Index, returned 10.56%.*

Q. How did you manage the Fund’s duration during the reporting period?

A. We kept the Fund’s duration, which measures a portfolio’s sensitivity to changes in interest rates, largely in line with that of its Index during the first half of the reporting period. We subsequently moved to a slightly longer duration than the Index. This enhanced the Fund’s performance during the reporting period as both short- and long-term rates declined.

Q. How did you position the Fund’s portfolio during the reporting period?

A. We proactively managed the Fund’s portfolio as we sought to take advantage of what we believed to be pricing dislocations in the fixed income market.

□ The Fund maintained a neutral duration relative to the Index throughout the reporting period.

This positioning was due to the high level of uncertainty regarding the strength of the

* Formerly known as the Lehman Brothers US Aggregate Bond Index.

Fort Dearborn Income Securities, Inc.

economic recovery and the fact that interest rates remained in a narrow range during the period.

- **The Fund maintained an underweight position to US Treasuries, favoring higher-yielding securities in the spread (that is, non-Treasury) sectors.** During the initial part of the reporting period, this hurt relative returns, as Treasuries staged a sharp rally in late 2008. However, as risk aversion abated in 2009, the Fund's underweight to Treasuries and overweight to commercial mortgage-backed securities (CMBS), asset-backed securities (ABS) and corporate bonds paid off as these sectors of the market staged a sharp rebound.
- **An overweight to CMBS and ABS produced mixed results.** Early in the reporting period, the Fund's minimal exposure to ABS backed by home equity loans was a small drag on performance as mortgage foreclosures and defaults moved sharply higher. However, the overall ABS sector rallied as the reporting period progressed. This was due, in part, to the market's reaction to the Term Asset-Backed Securities Loan Facility (TALF), created to revive consumer lending by facilitating issuance of consumer and small business ABS.
- **The Fund's CMBS holdings fared poorly during the first part of the reporting period before outperforming in 2009.** Despite initially underperforming, we continued to selectively add to the Fund's exposure to AAA-rated CMBS during the period. We believed that these securities offered high-quality cash flows and that their long-term appreciation potential was compelling. In fact, recent government support from the Treasury's Public-Private Partnership Investment Program has caused these securities to rally from their distressed levels. As a result, CMBS spreads—the difference between the yields paid on these securities versus those paid on US Treasury bonds—which had reached historically wide levels during the fourth quarter of 2008, tightened dramatically in the second and third quarters of 2009.

Q. What factors do you believe will affect the Fund over the coming months?

- A. Overall, it appears that many of the actions taken by policy makers at the US Treasury Department and the Fed are having their intended effect—increasing liquidity within the financial system and providing credit to consumers and businesses. In our view, the key uncertainty remains the sustainability of the recent strength in economic activity. There are questions whether the current fiscal and monetary policy

Fort Dearborn Income Securities, Inc.

will provide an effective bridge to more robust consumer demand and stimulate increased investment in the US economy.

In our opinion, the impact of further government intervention in the asset, housing and financial markets on consumer and business confidence, as well as concerns regarding how involved government will be in major economic sectors such as health care and energy is likely to limit gains until fiscal and monetary policy becomes more clear.

We thank you for your continued support and welcome any comments or questions you may have. For additional information regarding the Fund, please contact your Financial Advisor, or visit us at www.ubs.com/globalam-us.

Sincerely,

Kai R. Sotorp

Past performance does not predict future performance. The return and value of an investment will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. The Fund's net asset value ("NAV") returns assume, for illustration only, that dividends and other distributions, if any, were reinvested at the NAV on the payable dates. The Fund's market price returns assume that all dividends and other distributions, if any, were reinvested at prices obtained under the Fund's Dividend Reinvestment Plan. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and other distributions, if any, or the sale of Fund shares.

Lipper peer group data calculated by Lipper Inc.; used with permission. The Lipper median is the return of the fund that places in the middle of the peer group.

⁽¹⁾ The Investment Grade Bond Index is an unmanaged index compiled by the Advisor, constructed as follows: From 12/31/81 to present—5% Barclays Capital US Agency Index (formerly known as Lehman Brothers US Agency Index) (7+ years), 75% Barclays Capital US Credit Index (formerly known as Lehman Brothers US Credit Index) (7+ years), 10% Barclays Capital US MBS Fixed Rate Index (formerly known as Lehman Brothers US MBS Fixed Rate Index) (all maturities) and 10% Barclays Capital US Treasury Index (formerly known as Lehman Brothers US Treasury Index) (7+ years). Notes to portfolio of investments

For federal income tax purposes the tax cost of investments and the components of net unrealized appreciation of investments at September 30, 2009 were as follows:

Tax cost of investments	\$136,041,062
<hr/>	
Gross unrealized appreciation	11,988,090
<hr/>	
Gross unrealized depreciation	(4,809,387)
<hr/>	
Net unrealized appreciation of investments	\$7,178,703
<hr/>	

- On September 7, 2008, the Federal Housing Finance Agency placed the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation into conservatorship, and the US Treasury guaranteed the debt issued by those organizations.
- (1) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities are considered liquid, unless noted otherwise, and may be resold in transactions exempt from registration, normally to qualified institutional buyers. At September 30, 2009, the value of these securities amounted to \$12,020,576 or 8.30% of net assets.
- (2) Security is in default.
- (3) Security is illiquid. At September 30, 2009, the value of these securities amounted to \$14,875 or 0.01% of net assets.
- (4) Security exempt from registration under Rule 144A of the Securities Act of 1933. This security, which represents 0.01% of net assets as of September 30, 2009, is considered illiquid and restricted. (See restricted security table below for more information.)

REMIC Real Estate Mortgage Investment Conduit

TIPS Treasury inflation protected securities (TIPS) are debt securities issued by the US Treasury whose principal and/or interest payments are adjusted for inflation, unlike debt securities that make fixed principal and interest payments. The interest rate paid by the TIPS is fixed, while the principal value rises or falls based on changes in a published Consumer Price Index (CPI). Thus, if inflation occurs, the principal and interest payments on the TIPS are adjusted accordingly to protect investors from inflationary loss. During a deflationary period, the principal and interest payments decrease, although the TIPS principal amounts will not drop below their face amounts at maturity. In exchange for the inflation protection, the TIPS generally pay lower interest rates than typical US Treasury securities. Only if inflation occurs will TIPS offer a higher real yield than a conventional Treasury security of the same maturity.

Fort Dearborn Income Securities, Inc.

Portfolio of investments as of September 30, 2009

The following is a summary of the inputs used as of September 30, 2009 in valuing the Fund's investments:

Measurements at 09/30/09

	For the years ended September 30,				
	2009	2008	2007	2006	2005
Net asset value, beginning of year	\$ 13.81	\$ 15.68	\$ 15.80	\$ 16.23	\$ 16.48
Net investment income ⁽¹⁾	0.78	0.85	0.82	0.81	0.80
Net realized and unrealized gains/ (losses) from investment activities	2.63	(1.83)	(0.14)	(0.28)	(0.12)
Net increase/(decrease) from investment operations	3.41	(0.98)	0.68	0.53	0.68
Dividends from net investment income	(0.71)	(0.80)	(0.80)	(0.82)	(0.82)
Distributions from net realized gains	(0.01)	(0.09)	□	(0.14)	(0.11)
Total dividends and distributions	(0.72)	(0.89)	(0.80)	(0.96)	(0.93)
Net asset value, end of year	\$ 16.50	\$ 13.81	\$ 15.68	\$ 15.80	\$ 16.23
Market price per share, end of year	\$ 14.85	\$ 12.92	\$ 13.86	\$ 14.04	\$ 14.74
Total net asset value return⁽²⁾	25.29%	(6.60)%	4.40%	3.46%	4.17%
Total market price return⁽³⁾	21.08%	(0.62)%	4.31%	2.01%	5.68%
Ratios/supplemental data:					
Net assets, end of year (in millions)	\$ 144.8	\$ 121.2	\$ 137.6	\$ 138.7	\$ 142.5
Ratio of expenses to average net assets	0.85%	0.72%	0.77%	0.74%	0.74%
Ratio of net investment income to average net assets	5.35%	5.45%	5.20%	5.19%	4.81%
Portfolio turnover	117%	185%	130%	93%	78%
Number of shares outstanding at end of year (in thousands)	8,776	8,776	8,776	8,776	8,776

⁽¹⁾ Calculated using the average shares method.

⁽²⁾ Total net asset value return is calculated assuming a \$10,000 purchase of common stock at the current net asset value on the first day of each year reported and a sale at the current net asset value on the last day of

Edgar Filing: FORT DEARBORN INCOME SECURITIES INC - Form N-CSR

each year reported, and assuming reinvestment of dividends and other distributions at the net asset value on the payable dates. Total net asset value return does not reflect brokerage commissions or the deduction of taxes that a shareholder would pay on Fund dividends/distributions or a sale of Fund shares. Total return based on net asset value is hypothetical as investors cannot purchase or sell Fund shares at the net asset value but only at market prices.

- (3) Total market price return is calculated assuming a \$10,000 purchase of common stock at the current market price on the first day of each year reported and a sale at the current market price on the last day of each year reported, and assuming reinvestment of dividends and other distributions at prices obtained under the Fund's Dividend Reinvestment Plan. Total market price return does not reflect brokerage commissions or the deduction of taxes that a shareholder would pay on Fund dividends/distributions or a sale of Fund shares.

See accompanying notes to financial statements

Fort Dearborn Income Securities, Inc.

Notes to financial statements September 30, 2009

Organization and significant accounting policies

Fort Dearborn Income Securities, Inc. (the "Fund") is registered under the Investment Company Act of 1940, as amended, as a diversified closed-end management investment company whose shares trade on the New York Stock Exchange and the Chicago Stock Exchange. The Fund invests principally in investment grade long-term fixed income debt securities. The Fund's primary objective is to provide shareholders with a stable stream of current income consistent with external interest rate conditions and provide a total return over time that is above what they could receive by investing individually in the investment grade and long-term maturity sectors of the bond market. There can be no assurance that the Fund's investment objective will be achieved.

In the normal course of business, the Fund may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had any prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

In June 2009, the Financial Accounting Standards Board ("FASB") established the FASB Accounting Standards Codification™ ("Codification") as the single source of authoritative accounting principles recognized by the FASB in the preparation of financial statements in conformity with US generally accepted accounting principles ("GAAP"). The Codification supersedes existing non-grandfathered, non-SEC accounting and reporting standards. The Codification did not change GAAP but rather organized it into a hierarchy where all guidance within the Codification carries an equal level of authority. The Codification became effective on July 1, 2009. The Codification did not have a material effect on the Fund's financial statements.

The preparation of financial statements in accordance with GAAP requires the Fund's management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies:

Valuation of investments—The Fund calculates its net asset value based on the current market value for its portfolio securities. The Fund normally obtains market values for its securities and other instruments from

Fort Dearborn Income Securities, Inc.

Notes to financial statements—September 30, 2009

independent pricing sources. Independent pricing sources may use last reported sale prices, official market closing prices, current market quotations or valuations from computerized "matrix" systems that derive values based on comparable securities or instruments. A matrix system incorporates parameters such as security quality, maturity and coupon, and/or research and evaluations by its staff, including review of broker-dealer market price quotations, if available, in determining the valuation of the portfolio securities or instruments. Securities traded in the over-the-counter ("OTC") market and listed on The NASDAQ Stock Market, Inc. ("NASDAQ") normally are valued at the NASDAQ Official Closing Price. Other OTC securities are valued at the last bid price available prior to valuation. Securities which are listed on US and foreign stock exchanges normally are valued at the market close, the last sale price on the day the securities are valued or, lacking any sales on such day, at the last available bid price. Securities listed on foreign stock exchanges may be fair valued based on significant events that have occurred subsequent to the close of the foreign markets. The Fund may use a systematic fair valuation model provided by an independent third party to value securities principally traded in foreign markets in order to adjust for possible stale pricing that may occur between the close of the foreign exchanges and the time for valuation. If a security is valued at a "fair value," that value is likely to be different from the last quoted market price for the security. In cases where securities are traded on more than one exchange, the securities are valued on the exchange designated as the primary market by UBS Global Asset Management (Americas) Inc. ("UBS Global AM"), the investment advisor of the Fund. UBS Global AM is an indirect wholly owned asset management subsidiary of UBS AG, an internationally diversified organization with headquarters in Zurich and Basel, Switzerland and operations in many areas of the financial services industry. If a market value is not readily available from an independent pricing source for a particular security or instrument, that security or instrument is valued at a fair value determined by or under the direction of the Fund's Board of Directors (the "Board"). Various factors may be reviewed in order to make a good faith determination of a security's or instrument's fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the securities or instruments; and the evaluation of forces which influence the market in which the securities or instruments are purchased and sold. Investments in open-end investment companies are valued at the daily closing net asset value of the respective investment company.

Fort Dearborn Income Securities, Inc.

Notes to financial statements—September 30, 2009

Certain securities in which the Fund invests are traded in markets that close before 4:00 p.m. Eastern Time. Normally, developments that occur between the close of the foreign markets and 4:00 p.m. Eastern Time will not be reflected in the Fund's NAV. However, if the Fund determines that such developments are so significant that they will materially affect the value of the Fund's securities, the Fund may adjust the previous closing prices to reflect what the Board believes to be the fair value of these securities as of 4:00 p.m. Eastern Time.

GAAP requires disclosure surrounding the various inputs that are used in determining the value of the Fund's investments. These inputs are summarized into the three broad levels listed below.

Level 1—Quoted prices in active markets for identical investments.

Level 2—Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risk.

Level 3—Unobservable inputs inclusive of the Fund's own assumptions in determining the value of investments.

A fair value hierarchy has been included near the end of the Fund's Portfolio of investments.

Additionally, GAAP provides guidance on determining whether the volume and activity in a market has decreased significantly and whether such a decrease in activity results in transactions that are not orderly. GAAP requires enhanced disclosures around valuation inputs and techniques used during annual and interim periods.

In March 2008, the FASB amended Accounting Standards Codification Topic 815 Derivatives and Hedging (ASC 815), which changes the disclosure requirements for derivative instruments and hedging activities. Since investment companies value their derivatives at fair value and recognize changes in fair value through the statement of operations, they do not qualify for hedge accounting under ASC 815. Accordingly, even though a fund's investments in derivatives may represent economic hedges, they are considered to be non-hedge transactions for purposes of disclosure under ASC 815. ASC 815 requires that (1) objectives for using derivative instruments be disclosed in terms of underlying risk and accounting designation, (2) the fair values of derivative instruments and their gains and losses be disclosed in a tabular format, and (3) information be disclosed

Fort Dearborn Income Securities, Inc.

Notes to financial statements□September 30, 2009

about credit-risk contingent features of derivatives contracts. ASC 815 is effective for financial statements for fiscal years and interim periods beginning after November 15, 2008.

Restricted securities

The Fund may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of the Fund's Portfolio of investments.

Mortgage-backed securities and other investments□The Fund invests in Mortgage-Backed Securities (MBS), representing interests in pools of mortgage loans. These securities provide shareholders with payments consisting of both principal and interest as the mortgages in the underlying mortgage pools are paid. MBS issued by private entities are not government securities and are not directly guaranteed by any government agency. They are secured by the underlying collateral of the private issuer. Yields on privately issued MBS tend to be higher than those of government backed issues. However, risk of loss due to default and sensitivity to interest rate fluctuations is also higher. Freddie Mac and Fannie Mae historically were agencies sponsored by the US government that were supported only by the credit of the issuing agencies and not backed by the full faith and credit of the United States. However, on September 7, 2008, due to the value of Freddie Mac's and Fannie Mae's securities falling sharply and concerns that the firms did not have sufficient capital to offset losses resulting from the mortgage crisis, the Federal Housing Finance Agency placed Freddie Mac and Fannie Mae into conservatorship. As a result, Fannie Mae and Freddie Mac obligations became guaranteed obligations of the United States. Although the US government or its agencies provide financial support to such entities, no assurance can be given that they will always do so. The US government and its agencies and instrumentalities do not guarantee the market value of their securities; consequently, the value of such securities will fluctuate.

The Fund invests in Collateralized Mortgage Obligations (CMOs). A CMO is a bond, which is collateralized by a pool of MBS. The Fund may also invest in REMICs (Real Estate Mortgage Investment Conduits) which are simply another form of CMO. These MBS pools are divided into classes or tranches

Fort Dearborn Income Securities, Inc.

Notes to financial statements September 30, 2009

with each class having its own characteristics. The different classes are retired in sequence as the underlying mortgages are repaid. For instance, a Planned Amortization Class (PAC) is a specific class of mortgages, which over its life will generally have the most stable cash flows and the lowest prepayment risk. A Graduated Payment Mortgage (GPM) is a negative amortization mortgage where the payment amount gradually increases over the life of the mortgage. The early payment amounts are not sufficient to cover the interest due, and therefore, the unpaid interest is added to the principal, thus increasing the borrower's mortgage balance. Prepayment may shorten the stated maturity of the CMO and can result in a loss of premium, if any has been paid.

The Fund invests in Asset-Backed Securities, representing interests in pools of certain types of underlying installment loans or leases or by revolving lines of credit. They often include credit enhancement that help limit investors' exposure to the underlying credit. These securities are valued on the basis of timing and certainty of cash flows compared to investments with similar durations.

Inflation protected securities—Inflation protected securities are debt securities whose principal and/or interest payments are adjusted for inflation, unlike debt securities that make fixed principal and interest payments. Inflation protected securities include Treasury Inflation Protected Securities (TIPS), which are securities issued by the US Treasury. The interest rate paid by TIPS is fixed, while the principal value rises or falls based on changes in a published Consumer Price Index. Thus, if inflation occurs, the principal and interest payments on the TIPS are adjusted accordingly to protect investors from inflationary loss. During a deflationary period, the principal and interest payments decrease, although the TIPS' principal amounts will not drop below their face amounts at maturity. In exchange for the inflation protection, TIPS generally pay lower interest rates than typical US Treasury securities. Only if inflation occurs will TIPS offer a higher real yield than a conventional Treasury security of the same maturity.

Investment transactions and investment income—Investment transactions are recorded on the trade date. Realized gains and losses from investment transactions and foreign exchange transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

Fort Dearborn Income Securities, Inc.

Notes to financial statements September 30, 2009

Securities traded on to-be-announced basis—The Fund may from time to time purchase securities on a to-be-announced (“TBA”) basis. In a TBA transaction, the Fund commits to purchasing securities for which all specific information is not yet known at the time of the trade, particularly the face amount and maturity date of the underlying security transactions. Securities purchased on a TBA basis are not settled until they are delivered to the Fund, normally 15 to 45 days later. Beginning on the date the Fund enters into a TBA transaction, cash, US government securities or other liquid high grade debt obligations are segregated in an amount equal in value to the purchase price of the TBA security. These transactions are subject to market fluctuations and their current value is determined in the same manner as for other securities. At September 30, 2009, the Fund did not hold any TBA securities.

Dividends and distributions—Dividends and distributions to shareholders are recorded on the ex-dividend date. The amounts of dividends from net investment income and distributions of net realized capital gains and/or return of capital are determined in accordance with income tax regulations, which may differ from US generally accepted accounting principles. These “book/tax” differences are either considered temporary or permanent in nature. To the extent they are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

Concentration of risk

Investing in securities of foreign issuers and currency transactions may involve certain considerations and risks not typically associated with investments in the United States. These risks include revaluation of currencies, adverse fluctuations in foreign currency values and possible adverse political, social and economic developments, including those particular to a specific industry, country or region, which could cause the securities and their markets to be less liquid and prices more volatile than those of comparable US companies and US government securities. These risks are greater with respect to securities of issuers located in emerging market countries in which the Fund invests.

The ability of the issuers of debt securities held by the Fund to meet their obligations may be affected by economic and political developments particular to a specific industry, country, state or region.

Notes to financial statements—September 30, 2009

Capital stock

At September 30, 2009, there were 12,000,000 shares of \$0.01 par value capital stock authorized, and 8,775,665 shares issued and outstanding. During the year ended September 30, 2009, no new shares were issued as part of the dividend reinvestment plan.

Investment advisory fees and other transactions with affiliates

Under an agreement between the Fund and UBS Global AM, UBS Global AM manages the Fund's investment portfolio, maintains its accounts and records, and furnishes the services of individuals to perform executive functions for the Fund. In return for these services, the Fund pays UBS Global AM 0.50% per annum of the Fund's average weekly net assets up to \$100,000,000 and 0.40% per annum of average weekly net assets in excess of \$100,000,000. At September 30, 2009, the Fund owed UBS Global AM \$316,343 for investment advisory fees.

Purchases and sales of securities

Purchases and sales (including maturities) of portfolio securities during the year ended September 30, 2009, were as follows: debt securities, excluding short-term securities and US government debt obligations, \$121,154,657 and \$100,372,248, respectively; and US government debt obligations, \$26,666,289 and \$48,545,105, respectively.

Federal tax status

It is the Fund's policy to comply with all requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. In addition, by distributing during each calendar year substantially all of its net investment income, net realized capital gains and certain other amounts, if any, the Fund intends not to be subject to a federal excise tax. Accordingly, no federal income tax provision was required.

The tax character of distributions paid during the years ended September 30, 2009 and September 30, 2008 were as follows:

Distributions paid from:	2009	2008
Ordinary income	\$6,231,135	\$7,020,532
Net long-term capital gains	87,344	831,056
	\$6,318,479	\$7,851,588

Fort Dearborn Income Securities, Inc.

Notes to financial statements—September 30, 2009

At September 30, 2009, the components of accumulated earnings/(deficit) on tax basis were as follows:

Undistributed ordinary income	\$4,255,579
<hr/>	
Accumulated capital and other losses	(1,777,083)
<hr/>	
Net unrealized appreciation of investments	7,178,703
<hr/>	
Total accumulated earnings	\$9,657,199
<hr/>	

The difference between book-basis and tax-basis net unrealized appreciation of investments is attributable to wash sales.

To reflect reclassifications arising from permanent "book/tax" differences for the year ended September 30, 2009, the Fund's accumulated undistributed net investment income was increased by \$1,188,456, and accumulated net realized gain from investment activities was decreased by \$1,184,406, and capital stock was decreased by \$4,050. These differences are primarily due to paydown losses and reclassification of dividends.

Post-October losses are deemed to arise on the first business day of a Fund's next taxable year. For the year ended September 30, 2009, the Fund incurred, and elected to defer, \$1,777,083 of net realized capital losses.

As of and during the year ended September 30, 2009, the Fund did not have any liabilities for any unrecognized tax positions. The Fund recognizes interest and penalties, if any, related to unrecognized tax positions as income tax expense in the Statement of operations. During the year, the Fund did not incur any interest or penalties.

Each of the tax years in the four year period ended September 30, 2009 remains subject to examination by the Internal Revenue Service and state taxing authorities.

Subsequent events

Events after the date of the Statement of assets and liabilities are evaluated through November 25, 2009 the date of issuance of the financial statements. The Fund had no material subsequent events that occurred between the date of the Statement of assets and liabilities through November 25, 2009 that required disclosure in the financial statements.

Fort Dearborn Income Securities, Inc.

Report of Ernst & Young LLP, independent registered public accounting firm

The Board of Directors and Shareholders
of Fort Dearborn Income Securities, Inc.

We have audited the accompanying statement of assets and liabilities of Fort Dearborn Income Securities, Inc., (the "Fund"), including the portfolio of investments, as of September 30, 2009, and the related statement of operations for the year then ended, the statement of changes in net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of September 30, 2009, by correspondence with the custodian and others or by other appropriate auditing procedures where replies from others were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Fort Dearborn Income Securities, Inc. at September 30, 2009, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with US generally accepted accounting principles.

New York, New York
November 25, 2009

Fort Dearborn Income Securities, Inc.

General information (unaudited)

The Fund

Fort Dearborn Income Securities, Inc. (the "Fund") is a diversified, closed-end management investment company whose shares trade on the New York Stock Exchange and the Chicago Stock Exchange. The primary objective of the Fund is to provide its shareholders with a stable stream of current income consistent with external interest rate conditions and provide a total return over time that is above what they could receive by investing individually in the investment grade and long-term maturity sectors of the bond market. There can be no assurance that the Fund's investment objective will be achieved. The Fund's investment advisor is UBS Global Asset Management (Americas) Inc. ("UBS Global AM"). As of June 30, 2009, UBS Global AM had approximately \$142 billion in assets under management. UBS Global AM is an indirect wholly owned asset management subsidiary of UBS AG and a member of the UBS Global Asset Management division, which had approximately \$547 billion in assets under management worldwide as of June 30, 2009.

Shareholder information

The Fund's NYSE trading symbol is "FDI." Comparative net asset value and market price information about the Fund is published weekly in various publications.

Quarterly Form N-Q portfolio schedule

The Fund will file its complete schedule of portfolio holdings with the Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the SEC's Web site at <http://www.sec.gov>. The Fund's Forms N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the SEC's Public Reference Room may be obtained by calling 1-800-SEC 0030. Additionally, you may obtain copies of Form N-Q from the Fund upon request by calling 1-800-647 1568.

Proxy voting policies, procedures and record

You may obtain a description of the Fund's (1) proxy voting policies (2) proxy voting procedures, and (3) information regarding how the Fund voted any proxies related to portfolio securities during the most recent 12-month period ended June 30 for which an SEC filing has been made, without charge, upon request by contacting the Fund directly at 1-800-647 1568, online on the Fund's Web site: <http://www.ubs.com/ubsglobalam-proxy> or on the EDGAR Database on the SEC's Web site (<http://www.sec.gov>.)

Fort Dearborn Income Securities, Inc.

General information (unaudited)

Stock repurchase plan

On July 28, 1988, the Board of Directors of the Fund approved a resolution to repurchase up to 700,000 of its common shares. The Fund may repurchase shares, at a price not in excess of market and at a discount from net asset value, if and when such repurchases are deemed appropriate and in the shareholder's best interest. Any repurchases will be made in compliance with applicable requirements of the federal securities law.

Dividend reinvestment plan

The Fund has established a dividend reinvestment plan (the "Plan") under which all shareholders whose shares are registered in their own names, or in the name of a participating broker or its nominee, may elect to have all dividends and other distributions automatically reinvested in additional Fund shares. Shareholders who elect to hold their shares in the name of a broker or nominee should contact such broker or nominee to determine whether, or how, they may participate in the Plan. The ability of such shareholders to participate in the Plan may change if their shares are transferred into the name of another broker or nominee. More information regarding the Plan is provided below.

The Plan is applicable in each case where the Fund declares a dividend or other distribution payable in cash and simultaneously gives to its shareholders who are participants under the Plan ("Participants") the option to receive such dividend or other distribution in Fund shares.

Commencing seven trading days prior to the date of payment of such dividend or other distribution, but only if the market price plus brokerage commissions at the time of purchase is lower than the net asset value as of the close of business on the eighth trading day prior to such date of payment ("Base Net Asset Value"), the agent (the "Agent"), on behalf of the Participants, will purchase shares in the open market(s) available to it. There can be no assurance that shares will be available in such open market(s) at a cost lower than Base Net Asset Value or in sufficient quantities to permit such purchases by the Agent. These purchases may be made on any securities exchange where such shares are traded, in the over-the-counter market or by negotiated transactions and may be subject to such terms of price, delivery, etc., to which the Agent may agree. If the market price for the shares is greater than the net asset value as of the close of business on the eighth trading day prior to the date of payment, then the Fund will issue shares in payment of the dividend.

Fort Dearborn Income Securities, Inc.

General information (unaudited)

On the date of payment of such dividend or other distribution, the Agent will elect to have the Fund pay the dividend or other distribution in cash to the extent of the cost, including brokerage commissions, of the shares to be purchased by the Agent, and will elect to have the Fund pay the balance, if any, of the dividend or other distribution in shares. Such payments will be made by the Fund to Computershare Trust Company, N.A. (["Computershare"]) as administrator of the Plan for the Participants. Computershare, in turn, will immediately settle the open market purchases with the Agent. If shares are distributed in payment of a dividend or distribution because market price exceeded net asset value, a Participant will be required to include in gross income an amount equal to the greater of net asset value or 95% of fair market value (average of the high and low sales price on the date of the distribution) of the shares received by the Participant rather than the amount of such dividend. Distributions of shares will be subject to the right of the Fund to take such actions as may be deemed necessary in order to comply with or conform to the requirements of any applicable law or regulation.

The shares credited to the accounts of Participants at Computershare will be determined on the basis of the amount of dividend or distribution to which each Participant is entitled, whether shares are purchased on the open market or issued by the Fund. Each Participant will be furnished with periodic statements.

A Participant will have the right to vote the full shares credited to the Participant's account under the Plan on the record date for a vote. Proxies sent to a Participant by Computershare will include the number of full shares held for the Participant under the Plan.

The investment of dividends and distributions under the Plan does not relieve the Participant of any income tax which may be payable on such dividends or distributions. Annually, each participant will be provided with information for tax purposes with respect to the dividends and distributions on the shares held for the account of the Participant. The Fund strongly recommends that all Participants retain each year's final statement on their Plan participation as a part of their permanent tax record.

Shareholders who wish to elect to participate in the Plan should contact Computershare for further information. A Participant may terminate participation in the Plan at any time by notice in writing to Computershare.

Fort Dearborn Income Securities, Inc.

General information (unaudited)

All correspondence concerning the Plan should be directed to Computershare at Computershare Dividend Reinvestment Services, P.O. Box 43081, Providence, RI 02940-3081. You may also contact Computershare directly at 1-800-446 2617. In order to be effective on the payment date of any dividend or distribution, notice of such termination must be received by Computershare before the record date for the payment of such dividend or distribution. If a notice to discontinue is received by Computershare on or after the record date for a dividend payment, such notice to discontinue may not become effective until such dividend has been reinvested and the shares purchased are credited to the Participant's account under the Plan. Computershare, in its sole discretion, may either pay such dividend in cash or reinvest it in shares on behalf of the terminating Participant. Computershare may terminate, for whatever reason at any time as it may determine in its sole discretion, an individual's participation in the Plan upon mailing a notice of termination to the Participant at the Participant's address as it appears on Computershare's records.

When an account is terminated, the Participant will receive a certificate for the number of full shares credited to the Participant's account under the Plan, unless the sale of all or part of such shares is requested. Such sale may, but need not, be made by purchase of the shares for the account of other Participants and any such transaction shall be deemed to have been made at the then current market price less any applicable brokerage commissions and any other costs of sale. The terminating Participant's fractional share interest in the Plan will be aggregated with the fractional share interests of other terminating Participants and sold. The net proceeds of such sales will be distributed to the Participants in payment for their fractional share interests.

The Fund may terminate or amend the Plan upon thirty (30) days' notice in writing to each Participant, such termination or amendment to be effective as to all dividends and distributions payable to shareholders of record on any date more than thirty (30) days after mailing of such notice.

There is no direct service charge (other than brokerage commissions) by the Agent to Participants in the Plan. All costs of the Plan, except brokerage commissions, will be paid by the Fund. However, the Fund reserves the right to amend the Plan in the future to include a service charge.

Fort Dearborn Income Securities, Inc.

Board approval of investment advisory agreement (unaudited)

At the meeting of the Board of Directors (the "Board") of Fort Dearborn Income Securities, Inc. (the "Fund"), held on June 1 and 2, 2009 (the "Meeting"), the Board, consisting entirely of Directors who are not "interested persons" (as defined in the 1940 Act) of the Fund or UBS Global Asset Management (Americas) Inc. (the "Advisor") and its affiliates (together, the "Independent Directors"), considered the continuation of the investment advisory agreement (the "Advisory Agreement") between the Fund and the Advisor. Prior to the Meeting, the Independent Directors' counsel had sent to the Advisor a request detailing the information that the Independent Directors wished to receive in connection with their consideration of the continuation of the Advisory Agreement. The Independent Directors met with their independent counsel, as well as an independent consultant engaged by the Board to assist in the annual Advisory Agreement review process, on May 21, 2009, June 1, 2009 and June 2, 2009, to discuss the materials provided to them in response to the information request, including materials prepared by the Advisor, as well as reports prepared by Lipper Inc. ("Lipper Reports"), an independent statistical compilation company, providing comparative expense information and comparative performance information for the Fund. The Board also made reference to information and material that had been provided to the Independent Directors throughout the year at quarterly Board meetings.

At the Meeting, the Board considered a number of factors in connection with their deliberations concerning the continuation of the Advisory Agreement for the Fund, including: (i) the nature, extent and quality of the services provided by the Advisor to the Fund; (ii) the performance of the Fund and the Advisor; (iii) the Fund's expenses, costs of the services to be provided and profits to be realized by the Advisor and its affiliates from the relationship with the Fund; and (iv) whether economies of scale are realized by the Advisor with respect to the Fund, as it grows larger, and the extent to which the economies of scale are reflected in the level of the management fees charged.

Nature, extent, and quality of services—In considering the nature, extent and quality of the services provided by the Advisor to the Fund, the Board reviewed the material presented by the Advisor describing the various services provided to the Fund. The Board noted that in addition to investment management services, the Advisor provides the Fund with operational, legal and compliance support. The Board also considered the

Fort Dearborn Income Securities, Inc.

Board approval of investment advisory agreement (unaudited)

scope and depth of the Advisor's organization and the experience and expertise of the professionals currently providing investment management and other services to the Fund. The Board considered that the Advisor was a well-established investment management organization employing investment personnel with significant experience in the investment management industry. The Board also considered the Advisor's in-house research capabilities, as well as other research services available to it, including research services available to the Advisor as a result of securities transactions effected for the Fund and the Advisor's other investment management clients, and noted that the Advisor had extensive global research capabilities. The Board also evaluated the Advisor's portfolio management process for the Fund, including the use of risk management techniques and the proprietary technologies utilized to structure the Fund's portfolio. The Board noted that various presentations had been made by investment personnel at Board meetings throughout the year concerning the Fund's investment performance and investment strategies. The Board also discussed the annual written compliance report from the Chief Compliance Officer and noted enhancements undertaken and planned with respect to the compliance program. After analyzing the services provided by the Advisor to the Fund, both quantitatively and qualitatively, including the impact of these services on investment performance, the Board concluded that the nature, extent, and quality of services provided to the Fund were consistent with the operational requirements of the Fund, and met the needs of the Fund's shareholders.

Performance—In evaluating the performance of the Fund, the Board analyzed the Lipper Reports, which compared the performance of the Fund with other funds in its respective peer universe over various time periods. The Board noted that the Fund's performance appeared in the top performance quintile for all periods presented. After analyzing the performance for the Fund, the Board determined that the performance of the Fund was acceptable as compared with relevant performance standards, given the investment strategies and risk profile of the Fund and the expectations of the shareholder base.

Fund fees and expenses—When considering the fees and expenses borne by the Fund, and the reasonableness of the management fees paid to the Advisor in light of the services provided to the Fund, the Board compared the fees charged by the Advisor to the Fund to the fees charged to the funds in its peer group for comparable services,

Fort Dearborn Income Securities, Inc.

Board approval of investment advisory agreement (unaudited)

as provided in the Lipper Reports. In examining the Lipper Reports, and in reviewing comparative costs, it was noted that the results of such expense comparisons showed that the management fee rate was lower than the median of the Fund's Lipper expense group and that total expenses for the Fund were in the second quintile of its expense group.

The Board also received and considered information about the fee rates charged to other funds and accounts that are managed by the Advisor. After discussing the information about the other funds and accounts with the Advisor, the Board determined that the fees charged by the Advisor to the Fund were within a reasonable range, giving effect to differences in services performed for such other funds and accounts as compared to such fee rates. The Board, after reviewing all pertinent material, concluded that the management fee payable under the Fund's Advisory Agreement was fair and reasonable, both on an absolute basis and in comparison with the fees of other funds identified in its peer group.

Costs and profitability—The Board considered the costs of providing services to the Fund and the profitability of the Fund to the Advisor by reviewing the profitability analysis provided by the Advisor, including information about its fee revenues and expenses. The Board reviewed the profitability of the Fund to the Advisor and the compensation that was received for providing services to the Fund. The profitability analysis, which provided information for the last two calendar years, included schedules relating to the revenue and expenses attributable to the investment advisory and administration services provided by the Advisor. In discussing the profitability analysis with the Board, the Advisor, as requested by the Board, provided the Board with a presentation on the methodology utilized in the profitability analysis. The Board noted that the methodology used for the profitability analysis provided to the Board for purposes of its annual review of the Advisory Agreement was reasonable. The Advisor also explained to the Board the reasons for the decrease in profitability of the Fund from last calendar year to this calendar year. The Board also considered "fall-out" or ancillary benefits to the Advisor or its affiliates as the result of their relationship with the Fund; for example, the ability to attract other clients due to the Advisor's role as investment advisor to the Fund. Upon closely examining the information provided concerning the Advisor's profitability, the Board concluded that the level of profits realized by the Advisor with respect to the Fund was reasonable in relation to the nature and quality of the services that were provided.

Fort Dearborn Income Securities, Inc.

Board approval of investment advisory agreement (unaudited)

Economies of scale—The Board also discussed whether economies of scale are realized by the Advisor with respect to the Fund as it grows larger, and the extent to which this is reflected in the level of management fees charged. The Board noted that as a closed-end fund, which does not continuously offer its shares, asset growth will primarily result from market appreciation, which benefits its shareholders. The Board also noted that the Fund's management fee was one of the lowest in its peer group and that the Advisor was not experiencing a significant profit with respect to the Fund. Based on this analysis, the Board concluded that economies of scale and the reflection of such economies of scale in the level of management fees charged were inapplicable to the Fund at the present time due to the closed-end structure of the Fund, the current level of fees and the profitability of the Fund.

After full consideration of the factors discussed above, with no single factor identified as being of paramount importance, the Board, with the assistance of independent counsel, concluded that the continuation of the Advisory Agreement for the Fund was in the best interests of the Fund and its shareholders.

New York Stock Exchange certifications (unaudited)

Fort Dearborn Income Securities, Inc. (the "Fund") is listed on the New York Stock Exchange ("NYSE"). As a result, it is subject to certain corporate governance rules and related interpretations issued by the exchange. Pursuant to those requirements, the Fund must include information in this report regarding certain certifications. The Fund's president and treasurer have filed certifications with the SEC regarding the quality of the Fund's public disclosure. Those certifications were made pursuant to Section 302 of the Sarbanes-Oxley Act ("Section 302 Certifications"). The Section 302 Certifications were filed as exhibits to the Fund's annual report on Form N-CSR, which included a copy of this annual report along with other information about the Fund. After the Fund's 2008 annual meeting of shareholders, it filed a certification with the NYSE on December 22, 2008 stating that its president was unaware of any violation of the NYSE's Corporate Governance listing standards.

UBS family of funds privacy notice

This notice describes the privacy policy of the UBS family of funds, the UBS PACE Funds and all closed-end funds managed, advised or sub-advised by UBS Global Asset Management (collectively, the "Funds"). The Funds are committed to protecting the personal information that they collect about individuals who are prospective, current or former investors.

The Funds collect personal information in order to process requests and transactions and to provide customer service. Personal information which is obtained from applications may include name(s), address, social security number or tax identification number, bank account information, other Fund holdings and any affiliation the person has with UBS Financial Services Inc. or its subsidiaries ("Personal information").

The Funds limit access to Personal Information to those individuals who need to know that information in order to process transactions and service accounts. These individuals are required to maintain and protect the confidentiality of Personal Information. The Funds maintain physical, electronic and procedural safeguards to protect Personal Information.

The Funds may share Personal Information described above with their affiliates, including UBS Financial Services Inc. and UBS AG, for marketing and other business purposes, such as to facilitate the servicing of accounts.

The Funds may share Personal Information described above with a non-affiliated third party if the entity is under contract to perform transaction processing or to service and maintain shareholder accounts on behalf of the Funds and otherwise as permitted by law. Any such contract will include provisions designed to ensure that the third party will uphold and maintain privacy standards when handling Personal Information. The Funds may disclose Personal Information to regulatory authorities as required by applicable law.

Except as described in this privacy notice, the Funds will not use Personal Information for any other purpose unless the Funds describe how such Personal Information will be used and clients are given an opportunity to decline approval of such use of Personal Information relating to them.

The Funds endeavor to keep their customer files complete and accurate. The Funds should be notified if any Personal Information needs to be corrected or updated. Please call 1-800-647 1568 with any questions or concerns regarding your Personal Information or this privacy notice.

Item 2. Code of Ethics.

The registrant has adopted a code of ethics that applies to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions pursuant to Section 406 of the Sarbanes-Oxley Act of 2002. (The registrant has designated the code of ethics adopted pursuant to Sarbanes-Oxley as a Code of Conduct to lessen the risk of confusion with its separate code of ethics adopted pursuant to Rule 17j-1 under the Investment Company Act of 1940, as amended.)

Item 3. Audit Committee Financial Expert.

The registrant's Board of Trustees has determined that the following person serving on the registrant's Audit Committee is an audit committee financial expert as defined in item 3 of Form N-CSR: J. Mikesell Thomas. Mr. Thomas is independent as defined in item 3 of Form N-CSR.

Item 4. Principal Accountant Fees and Services.

(a) **Audit Fees:**

For the fiscal years ended September 30, 2009 and September 30, 2008, the aggregate Ernst & Young LLP (E&Y) audit fees for professional services rendered to the registrant were approximately \$36,800 and \$35,000, respectively.

Fees included in the audit fees category are those associated with the annual audits of financial statements and services that are normally provided in connection with statutory and regulatory filings.

(b) **Audit-Related Fees:**

In each of the fiscal years ended September 30, 2009 and September 30, 2008, the aggregate audit-related fees billed by E&Y for services rendered to the registrant that are reasonably related to the performance of the audits of the financial statements, but not reported as audit fees, were approximately \$2,500 and \$2,500, respectively.

Fees included in the audit-related category are those associated with the reading and providing of comments on the 2009 and 2008 semiannual financial statements.

There were no audit-related fees required to be approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the fiscal years indicated above.

(c) **Tax Fees:**

In each of the fiscal years ended September 30, 2009 and September 30, 2008, the aggregate tax fees billed by E&Y for professional services rendered to the registrant were approximately \$4,450 and \$4,440, respectively.

Fees included in the tax fees category comprise all services performed by professional staff in the independent accountant's tax division except those services related to the audits. This category comprises fees for tax return preparation, review of excise tax calculations and FIN 48 review.

There were no tax fees required to be approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the fiscal years indicated above.

(d) All Other Fees:

In each of the fiscal years ended September 30, 2009 and September 30, 2008, there were no fees billed by E&Y for products and services, other than the services reported in Item 4(a)-(c) above, rendered to the registrant.

Fees included in the all other fees category would consist of services related to internal control reviews, strategy and other consulting, financial information systems design and implementation, consulting on other information systems, and other tax services unrelated to the registrant.

There were no all other fees required to be approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the fiscal years indicated above.

(e) (1) Audit Committee Pre-Approval Policies and Procedures:

The Audit Committee Charter contains the Audit Committee's pre-approval policies and procedures. Reproduced below is an excerpt from the Audit Committee Charter regarding pre-approval policies and procedures:

To carry out its purposes, the Audit Committee shall have the following duties and powers:

- (a) To pre-approve the engagement of, and to recommend to the Board the engagement, retention or termination of, the independent auditors to provide audit, review or attest services to the Fund, and, in connection therewith, to review and evaluate the capabilities and independence of the auditors, and receive the auditors' specific representations as to their independence. In evaluating the auditors' qualifications, performance and independence, the Committee must, among other things, obtain and review a report by the auditors, at least annually, describing the following items: (i) all relationships between the independent auditors and the Fund, as well as with the Fund's, investment advisor or any control affiliate of the investment advisor that provides ongoing services to the Fund; (ii) any material issues raised by the most recent internal quality control review, or peer review, of the audit firm, or by any inquiry or investigation by governmental or professional authorities, within the preceding five years, with respect to one or more independent audits carried out by the firm, and any steps taken to deal with any such issues; and (iii) the audit firm's internal quality control procedures.
- (b) To pre-approve all non-audit services to be provided to the Fund by the independent auditors when, without such pre-approval, the auditors would not be independent of the Fund under applicable federal securities laws, rules or auditing standards.

- (c) To pre-approve all non-audit services to be provided by the Fund's independent auditors to the Fund's investment advisor or to any entity that controls, is controlled by or is under common control with the Fund's investment advisor (advisor affiliate) and that provides ongoing services to the Fund when, without such pre-approval by the Committee, the auditors would not be independent of the Fund under applicable federal securities laws, rules or auditing standards.
 - (d) To establish, if deemed necessary or appropriate as an alternative to Committee pre-approval of services to be provided by the independent auditors as required by paragraphs (b) and (c) above, policies and procedures to permit such services to be pre-approved by other means, such as by action of a designated member or members of the Committee, subject to subsequent Committee review or oversight.
 - (e) To consider whether the non-audit services provided by the Fund's independent auditor to the Fund's investment advisor or any advisor affiliate that provides on- going services to the Fund, which services were not pre-approved by the Committee, are compatible with maintaining the auditors' independence.
- (e) (2) Services approved pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X:

Audit-Related Fees:

There were no amounts that were approved by the Audit Committee pursuant to the de minimis exception for the fiscal years ended September 30, 2009 and September 30, 2008 on behalf of the registrant.

There were no amounts that were required to be approved by the Audit Committee pursuant to the de minimis exception for the fiscal years ended September 30, 2009 and September 30, 2008 on behalf of the registrant's service providers that relate directly to the operations and financial reporting of the registrant.

Tax Fees:

There were no amounts that were approved by the audit committee pursuant to the de minimis exception for the fiscal years ended September 30, 2009 and September 30, 2008 on behalf of the registrant.

There were no amounts that were required to be approved by the Audit Committee pursuant to the de minimis exception for the fiscal years ended September 30, 2009 and September 30, 2008 on behalf of the registrant's service providers that relate directly to the operations and financial reporting of the registrant.

All Other Fees:

There were no amounts that were approved by the Audit Committee pursuant to the de minimis exception for the fiscal years ended September 30, 2009 and September 30, 2008 on behalf of the registrant.

There were no amounts that were required to be approved by the Audit Committee pursuant to the de minimis exception for the fiscal years ended September 30, 2009 and September 30, 2008 on behalf of the registrant's service providers that relate directly to the operations and financial reporting of the registrant.

- (f) According to E&Y, for the fiscal year ended September 30, 2009, the percentage of hours spent on the audit of the registrant's financial statements for the most recent fiscal year that were attributed to work performed by persons who are not full-time, permanent employees of E&Y was 0%.
- (g) For the fiscal years ended September 30, 2009 and September 30, 2008, the aggregate fees billed by E&Y of \$138,950 and \$211,849, respectively, for non-audit services rendered on behalf of the registrant (covered), its investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) and any entity controlling, controlled by, or under common control with the adviser (non-covered) that provides ongoing services to the registrant for each of the last two fiscal years of the registrant is shown in the table below:

	2009	2008
Covered Services	\$6,950	\$6,940
Non-Covered Services	132,000	204,909

- (h) The registrant's audit committee was not required to consider whether the provision of non-audit services that were rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.

Item 5. Audit Committee of Listed Registrants.

The registrant has a separately designated standing audit committee (the Audit Committee) established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended. The Audit Committee is comprised of the following board members: Mr. Roob, Mr. Reilly, Mr. Thomas and Ms. Cepeda.

Item 6. Schedule of Investments.

- (a) Included as part of the report to shareholders filed under Item 1 of this form.
- (b) Not applicable.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The registrant's Board of Directors believes that the voting of proxies on securities held by the registrant is an important element of the overall investment process. As such, the Board has delegated the responsibility to vote such proxies to the registrant's advisor. Following is a summary of the proxy voting policy of the advisor.

You may obtain information about the Fund's proxy voting decisions, without charge, online on the Fund's website (www.ubs.com/ubsglobalam-proxy) or the EDGAR database on the SEC's website (www.sec.gov).

The proxy voting policy of UBS Global AM is based on its belief that voting rights have economic value and should be treated accordingly. Generally, UBS Global AM expects the boards of directors of companies issuing securities held by its clients to act in the service of the shareholders, view themselves as stewards of the company, exercise good judgment and practice diligent oversight of the management of the company. While there is no absolute set of rules that determines appropriate corporate governance under all circumstances and no set of rules will guarantee ethical behavior, there are certain principles which provide evidence of good corporate governance. UBS Global AM may delegate to an independent proxy voting and research service the authority to exercise the voting rights associated with certain client holdings. Any such delegation shall be made with the direction that the votes be exercised in accordance with UBS Global AM's proxy voting policy.

When UBS Global AM's view of a company's management is favorable, UBS Global AM generally supports current management initiatives. When UBS Global AM's view is that changes to the management structure would probably increase shareholder value, UBS Global AM may not support existing management proposals. In general, UBS Global AM (Americas) generally exercises voting rights in accordance with the following principles: (1) with respect to board structure, (a) the roles of chairman and chief executive generally should be separated, (b) board members should have appropriate and diverse experience and be capable of providing good judgment and diligent oversight of management of the company, and (c) the board should include executive and non-executive members and the nonexecutive members should provide a challenging, but generally supportive environment; and (2) with respect to board responsibilities, (a) the whole board should be fully involved in endorsing strategy and in all major strategic decisions, and (b) the board should ensure that, among other things, at all times the interests of executives and shareholders are aligned and the financial audit is independent and accurate. In addition, UBS Global AM (Americas) focuses on the following areas of concern when voting its clients' securities: economic value resulting from acquisitions or disposals; operational performance; quality of management; independent board members not holding management accountable; quality of internal controls; lack of transparency; inadequate succession planning; poor approach to social responsibility; inefficient management structure; and corporate activity designed to frustrate the ability of shareholders to hold the board accountable or realize the maximum value of their investment. UBS Global AM (Americas) exercises its voting rights in accordance with overarching rationales outlined by its proxy voting policies and procedures that are based on the principles described above.

UBS Global AM has implemented procedures designed to identify whether it has a conflict of interest in voting a particular proxy proposal, which may arise as a result of its or its affiliates' client relationships, marketing efforts or banking and broker/dealer activities. To address such conflicts, UBS Global AM has imposed information barriers between it and its affiliates who conduct banking, investment banking and broker/dealer activities and has implemented procedures to prevent business, sales and marketing issues from influencing our proxy votes. Whenever UBS Global AM is aware of a conflict with respect to a particular proxy, the UBS Global AM Corporate Governance Committee is required to review and resolve the manner in which such proxy is voted.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a)(2)(i) Portfolio Manager

Michael Dow

(a)(2)(ii)

(A) Registered Management Investment Companies

The portfolio manager is responsible for 7 Registered Management Investment Companies totaling approximately \$1 Billion.

(a)(2)(ii) (B) Other Pooled Investment Vehicles

The Portfolio Manager is responsible for 15 additional Other Pooled Investment Companies totaling approximately \$5 Billion.

(a)(2)(ii) (C) Other accounts

The Portfolio Manager is responsible for 26 additional accounts totaling approximately \$6 Billion.

(a)(2)(iii) Accounts with respect to which an advisory fee is based on the performance of the account.

None

Portfolio Manager Biography

Michael Dow is the Head of US Long Duration at UBS Global Asset Management. Mr. Dow has been an Executive Director of UBS Global Asset Management and portfolio manager of the Fund since 2008.

The portfolio management team's management of a Fund and other accounts could result in potential conflicts of interest if the Fund and other accounts have different objectives, benchmarks and fees because the portfolio management team must allocate its time and investment expertise across multiple accounts, including the Fund. A portfolio manager and his or her team manage a Fund and other accounts utilizing a model portfolio approach that groups similar accounts within a model portfolio. The Registrant manages accounts according to the appropriate model portfolio, including where possible, those accounts that have specific investment restrictions. Accordingly, portfolio holdings, position sizes and industry and sector exposures tend to be similar across accounts, which may minimize the potential for conflicts of interest.

If a portfolio manager identifies a limited investment opportunity that may be suitable for more than one account or model portfolio, the Fund may not be able to take full advantage of that opportunity due to an allocation of filled purchase or sale orders across all eligible model portfolios and accounts. To deal with these situations, the Registrant has adopted procedures for allocating portfolio trades across multiple accounts to provide fair treatment to all accounts.

The management of personal accounts by a portfolio manager may also give rise to potential conflicts of interest. The Registrant has adopted Codes of Ethics that govern such personal trading but there is no assurance that the Codes will adequately address all such conflicts.

UBS Global Asset Management's compensation and benefits programs are designed to provide its investment professionals with incentives to excel, and to promote an entrepreneurial, performance-oriented culture. The total compensation received by the portfolio managers and analysts at UBS Global Asset Management, including the Funds' portfolio managers, has three basic components—a fixed component (base salary and benefits), a variable cash compensation component (which is correlated with performance) and, for more senior employees, a variable equity component (reinforcing the critical importance of creating long-term business value), which are described in more detail below:

The fixed component (base salary and benefits) is set to be competitive in the industry and is monitored and adjusted periodically with reference to the labor market in order to remain so. The fixed component is used to recognize the experience, skills and knowledge that portfolio managers and analysts bring to their role.

Variable cash compensation is determined annually on a discretionary basis. It is correlated with the individual's contribution (financial and non-financial) to UBS Global Asset Management's business results and the performance of the individual's respective function, UBS Global Asset Management and UBS. As its name implies, this can be variable.

Variable equity—Many senior employees are required to take a portion of their annual variable cash compensation in the form of UBS shares or notional shares instead of cash. UBS Global Asset Management believes that, not only does this reinforce the critical importance of creating long-term business value, it also serves as an effective retention tool because the shares typically vest over a number of years.

UBS Global Asset Management strongly believes that tying portfolio managers' variable cash compensation to both the short-term and longer-term performance of their portfolios closely aligns the portfolio managers' interests with those of the firm's clients. The total variable cash compensation available generally will depend on the firm's overall profitability. The allocation of the variable cash compensation pool to each portfolio manager is based on an equal weighting of their investment performance (relative to the Funds' benchmarks) for all the funds they manage. In the case of the Fund, the relevant benchmark is the Investment Grade Bond Index, an unmanaged index compiled by UBS Global Asset Management, constructed as follows: 5% Barclays Capital US Agency Index, 75% Barclays Capital US Credit Index, 10% Barclays Capital US MBS Fixed Rate Index and 10% Barclays Capital US Treasury Index. The portfolio manager's investment performance over one-, two- and three-year periods to the latest year end is taken into account and this has the effect of placing greater emphasis on the performance for the most recent year (as their one-year performance impacts their two- and three-year annualized results) while keeping the longer-term performance in focus. In Global Investment Solutions (GIS), a similar method is applied but over a five-year timescale. Further, the delivery of variable cash compensation is subject to a number of deferral mechanisms including investment in UBS shares.

For analysts, variable cash compensation is, in general, tied to the performance of some combination of model and/or client portfolios, generally evaluated over rolling three-year periods and coupled with a qualitative assessment of their contribution.

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

There were no purchases made by or on behalf of the registrant or any affiliated purchaser, as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934, as amended, of shares of the registrant's equity securities made in the period covered by this report.

Item 10. Submission of Matters to a Vote of Security Holders.

The registrant's Board has established a Nominating, Compensation and Governance Committee. The Nominating, Compensation and Governance Committee will consider nominees recommended by Qualifying Fund Shareholders if a vacancy occurs among those board members who are not interested persons as defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended. A Qualifying Fund Shareholder is a shareholder that: (i) owns of record, or beneficially through a financial

intermediary, $\frac{1}{2}$ of 1% or more of the Fund's outstanding shares and (ii) has been a shareholder of at least $\frac{1}{2}$ of 1% of the Fund's total outstanding shares for 12 months or more prior to submitting the recommendation to the Nominating, Compensation and Governance Committee. In order to recommend a nominee, a Qualifying Fund Shareholder should send a letter to the chairperson of the Nominating, Compensation and Governance Committee, Mr. Frank Reilly, care of the Secretary of the Fund at UBS Global Asset Management Inc., One North Wacker Drive, Chicago, Illinois 60606. The Qualifying Fund Shareholder's letter should include: (i) the name and address of the Qualifying Fund Shareholder making the recommendation; (ii) the number of shares of each class and series of shares of the Fund which are owned of record and beneficially by such Qualifying Fund Shareholder and the length of time that such shares have been so owned by the Qualifying Fund Shareholder; (iii) a description of all arrangements and understandings between such Qualifying Fund Shareholder and any other person or persons (naming such person or persons) pursuant to which the recommendation is being made; (iv) the name and address of the nominee; and (v) the nominee's resume or curriculum vitae. The Qualifying Fund Shareholder's letter must be accompanied by a written consent of the individual to stand for election if nominated for the Board and to serve if elected by shareholders. The Nominating, Compensation and Governance Committee may also seek such additional information about the nominee as it considers appropriate, including information relating to such nominee that is required to be disclosed in solicitations or proxies for the election of board members.

Item 11. Controls and Procedures.

- (a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended) are effective based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this document.
- (b) The registrant's principal executive officer and principal financial officer are aware of no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940, as amended) that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 12. Exhibits.

- (a) (1) Code of Ethics as required pursuant to Section 406 of the Sarbanes-Oxley Act of 2002 (and designated by registrant as a "Code of Conduct") is filed herewith as Exhibit EX 99 CODE ETH.
- (a) (2) Certifications of principal executive officer and principal financial officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 is attached hereto as Exhibit EX-99.CERT.
- (a) (3) Written solicitation to purchase securities under Rule 23c-1 under the Investment Company Act of 1940 sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons. The registrant has not engaged in such a solicitation during the period covered by this report.
- (b) Certifications of principal executive officer and principal financial officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 is attached hereto as Exhibit EX-99.906CERT.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
