## SUMMARY INFORMATION

We were incorporated in the State of Delaware under the name 51142 Inc. on February 2, 2005 as a blank check company to engage in any lawful corporate undertaking, including, but not limited to, selected mergers and acquisitions. On July 8, 2005, pursuant to the terms of a Stock Purchase Agreement, Signet Entertainment Corporation, a Florida corporation, purchased all of our issued and outstanding common stock for cash consideration of \$36,000. Subsequently, we changed our name to Signet International Holdings, Inc.

On September 8, 2005, pursuant to a Stock Purchase Agreement and Share Exchange by and among us, Signet Entertainment Corporation (“SIG”), and the shareholders of Signet Entertainment Corporation (“Shareholders”), we acquired all of the then issued and outstanding preferred and common shares of Signet Entertainment Corporation for a total of 3,421,000 common shares and 5,000,000 preferred shares of our stock which was issued to the Signet Entertainment Corporation shareholders. Pursuant to the agreement, SIG became our wholly owned subsidiary.

Our wholly owned subsidiary, SIG was incorporated on October 17, 2003 for the purpose of launching a Gaming and Entertainment Television Network. We expect to cover major Poker and Blackjack tournaments as well as other major high stakes casino games, although we - nor any of our partners - have not entered any formal agreements to do so. The network will also cover other major sports events such as horse racing and selected global events which have a sports and entertainment format we believe will appeal to our viewers including: sports awards ceremonies; entertainment awards ceremonies; celebrity sports events; celebrity gaming events; and other interesting and newsworthy events, foreign and domestic,.

SIG’s largest source of revenue will come from advertising, specifically from various resorts and casinos, liquor and tobacco companies and sporting sites in North and South America, Europe, Asia and Africa. We will cover all of our events including poker and other casino tournaments via satellite and cable, once satellite and cable contracts have been executed. SIG will also realize income from infomercials and sports and entertainment programming that offer subject matter that are all-encompassing to the network’s format. SIG intends creating future programming to include “The Television Charity Channel” which will feature regularly scheduled weekly programming.

In order to launch its gaming and entertainment television network, SIG entered into agreements with Triple Play Media Management, Inc. (“Triple Play”) and Big Vision, Inc. (“Big Vision”). Pursuant to the agreements, Triple Play will operate our facilities and provide programming content while Big Vision will provide the equipment and technology to establish the production facility.

Triple Play has developed conceptual content as scripts or treatments. Production of this programming is contingent upon the funding we agreed. As such, Triple Play is not obligated to deliver this programming to us at any time certain. Triple Play has not yet made formal arrangements with any other domestic or foreign production company to uplink or to receive any programming. Further, Triple Play has not entered into any agreement with any casino business or entity, or any agreements to air any tournaments. Our agreement provides that with funding, Triple Play will organize, develop and operate a fully equipped production footprint (home base), and direct, produce and edit, gather and cover live newsworthy events from the Las Vegas area. With the use of modular (TV equipment truck), and satellite delivery systems, Triple Play will uplink the news reels and we will broadcast these to other communities in the USA and abroad. Likewise, other production companies will be able to uplink their news reels to Triple Play.

In addition, to further the launch of our gaming and entertainment television network we purchased the exclusive rights to 20 titled half hour screen plays representing original programming from FreeHawk Productions, Inc. Each title will be delivered with an additional four ready for airing half hour episodes. These screen plays will constitute

100 half hour shows to be aired over our gaming and entertainment network. On August 19, 2006, by mutual agreement, Signet and Freehawk rescinded this agreement because the agreement called for the payment of funds and stock which we can not pay until such time as our shares are trading and we can receive additional financing. Therefore, the parties mutually agreed that the agreement was premature and therefore the agreement was rescinded without the payment of any cash or stock to Freehawk by us. We intend to enter into a restructured agreement, at such time as we are a public company and can raise the necessary capital. At this time, there are no discussions to restructure the agreement.

Furthermore, we intend to acquire Low-Powered Television (LPTV) stations as a means for distributing our programming to viewers. LPTV stations offer national advertisers highly defined audiences. The LPTV service was established by the Federal Communications Commission (FCC) in 1982 and was primarily intended to provide opportunities for locally oriented television service in small communities within larger urban areas. LPTV stations transmit on one of the standard VHF or UHF television channels. The distance at which a station can be viewed depends on a variety of factors such as: antenna height, transmitter power, transmitting antenna and the nature of the terrain. Generally LPTV stations span approximately 20 miles from their tower in all directions. We plan on targeting LPTV stations that are sanctioned by the Federal Communication Commission with current and clear license to operate and feature: Class A rating, high-distribution (high number of TV households), favorable market location, up-to-date equipment, tower delivery systems, and studio properties. We have not entered into any negotiations or agreements, preliminary or otherwise, to purchase such stations.

We are a developmental-stage company and have not yet commenced operations. We will require additional funds to implement our business plan. There is no assurance that the Company will be able to obtain additional funding through the sales of additional equity securities or that such funding, if available, will be obtained on terms favorable to or affordable by the Company.

No revenues have been generated to date. We expect limited revenues with our initial LPTV acquisitions increasing as we raise additional funds and acquired more stations. Therefore we will continue to operate on a reduced budget until such time as further funding becomes available. However, there can be no guarantee that we will ever generate any revenues. Please note that the only business acquisitions will be solely of LPTV stations or other broadcast properties and that we will not enter into any agreement that will result in a change of control.

Because we have no viable operations we are dependent upon significant shareholders to provide sufficient working capital to maintain the integrity of the corporate entity, our independent auditor has expressed substantial doubt about the company's ability to continue as a going concern.

Signet International Holdings, Inc. does not have international operations.

We have agreed to bear the expenses relating to the registration of the shares for the selling security holders.

## **RISK FACTORS**

*An investment in our common stock involves a high degree of risk. You should carefully consider the risks described below and the other information in this prospectus before investing in our common stock. If any of the following risks occur, our business, operating results and financial condition could be seriously harmed. Please note that throughout this prospectus, the words "we", "our" or "us" refer to us and not to the selling stockholders.*

### **Risks Relating to our Business**

**We have a limited operating history that you can use to evaluate us, and the likelihood of our success must be considered in light of the problems, expenses, difficulties, complications and delays frequently encountered by a small developing company.**

We were incorporated in Delaware on February 2, 2005 as a blank check company to engage in any lawful corporate undertaking, including, but not limited to, selected mergers and acquisitions. Our wholly owned subsidiary, SIG was incorporated on October 17, 2003 for the purpose of launching a Gaming and Entertainment Television Network. We have no significant assets or financial resources. The likelihood of our success must be considered in light of the problems, expenses, difficulties, complications and delays frequently encountered by a small developing company starting a new business enterprise and the highly competitive environment in which we will operate. Since we have a limited operating history, we cannot assure you that our business will be profitable or that we will ever generate sufficient revenues to meet our expenses and support our anticipated activities.

**We have a history of operating losses and there can be no assurances we will be profitable in the future.**

We have a history of operating losses, expect to continue to incur losses, and may not be profitable in the near future. We had net losses of \$890,881 since our inception. We intend to continue to fund operations through additional debt and equity financing arrangements that may not be sufficient to fund our capital expenditures, working capital, and other cash requirements for the year ending December 31, 2006.

3

---

The successful outcome of future financing activities cannot be determined at this time and there are no assurances that if achieved, we will have sufficient funds to execute our intended business plan or generate positive operational results.

**Our auditor has expressed substantial doubt as to our ability to continue as a going concern**

Based on our financial history since inception, our auditor has expressed substantial doubt as to our ability to continue as a going concern. We are a development stage company that has not generated any revenue to date. We have incurred net losses of \$ 827,129. If we cannot generate sufficient revenues from our operations, we may not be able to implement our business plan and may be forced to cease our business activities.

**We will require additional funds to achieve our current business strategy and our inability to obtain additional financing will inhibit our ability to expand our business operations.**

We will need to raise additional funds through public or private debt or sale of equity to achieve our current business strategy. The financing we need may not be available when needed. Even if this financing is available, it may be on terms that we deem unacceptable or are materially adverse to your interests with respect to dilution of book value, dividend preferences, liquidation preferences, or other terms. Our inability to obtain financing will inhibit our ability to implement our development strategy, and as a result, could require us to diminish or suspend our development strategy..

**If we are unable to hire and retain key personnel, then we may not be able to implement our business plan.**

We believe that our growth and our future success will depend in large part upon our ability to continue to retain our Chief Executive Officer and to attract and retain other highly skilled senior management, finance and marketing personnel. The competition for qualified personnel is intense. We cannot assure you that we will be able to hire and retain qualified personnel. Failure to hire and retain such personnel could require us to diminish or suspend our development strategy.

**Our industry is subject to regulation by the FCC and therefore we must comply with its rules and regulations in connection with the acquisition and operation of our stations. Failure to comply with these rules could result in the loss of licenses we may acquire in the future and/or disapproval of our proposed acquisitions.**

The broadcasting industry is subject to regulation by the FCC pursuant to the Communications Act of 1934, as amended (the "Communications Act"). Approval by the FCC is required for the issuance, renewal and assignment of station operating licenses and the transfer of control of station licensees. Although the Company does not currently hold an FCC license, in the event that it acquires or is granted an FCC license in the future, the Company's business will be dependent upon its continuing to hold television broadcast licenses from the FCC, which licenses are issued for maximum terms of eight years. While in the vast majority of cases such licenses are renewed by the FCC, there can be no assurance that we will be able to renew the licenses it acquires or is granted at their expiration dates. If such licenses were not renewed or acquisitions approved, we may lose revenue that we otherwise could have earned.

Although we do not currently own any broadcast properties, our business plan contemplates that we may acquire such properties through acquisition of LPTV stations. Based on same, Federal regulation of the broadcasting industry will limit our operating flexibility, which may affect our ability to generate revenue or reduce our costs in the event we acquire such broadcast properties. In addition, Congress and the FCC currently have under consideration, and may in the future adopt, new laws, regulations and policies regarding a wide variety of matters (including technological changes) that could, directly or indirectly, materially and adversely affect our ability to acquire broadcast properties and the operation and ownership of such broadcast properties. New federal legislation may limit our ability to conduct

our business in ways that we believe would be advantageous and may thereby negatively affect our operating results and strategic decisions.

**The entertainment industry, and particularly the television industry, is a highly competitive commerce and if we cannot compete effectively or adapt to changes in our industry, we may be unable to execute our business plan.**

4

---

The entertainment industry, and particularly the television industry, is a highly competitive commerce. Currently this industry is undergoing an aggressive period of mergers and acquisitions. Once our presence is recognized, we will experience potential competitors who have greater financial, marketing, programming and broadcasting resources than we do.

The markets in which we have targeted to acquire are also in a constant state of change arising from, among other things, technological improvements and economic and regulatory developments. Technological innovation and the resulting proliferation of television entertainment, such as cable television, wireless cable, satellite-to-home distribution services, pay-per-view and home video and entertainment systems, have fractionalized television viewing audiences and have subjected free over-the-air television broadcast stations to increased competition. We may not be able to compete effectively or adjust our business plans to meet changing market conditions. We are unable to predict what form of competition will develop in the future, the extent of the competition or its possible effects on our businesses.

**The loss of Ernest W. Letiziano, our sole officer and director, could adversely affect our ability to remain competitive.**

We believe that the success of our business strategy and our ability to operate profitably depends on the continued employment of our Ernest W. Letiziano, our sole officer and director. If Mr. Letiziano becomes unable or unwilling to continue in his present positions, our business and financial results could be materially adversely affected. At the present time, Mr. Letiziano devotes approximately 40 hours per week to the business affairs of the company. The loss of his services may prevent us from implementing our business plan. In the event that we cannot implement our business plan, we may not ever generate revenue and may be forced to cease our operations.

**Our existing large stockholders have significant control over us and may prevent you from causing a change in the course of our operations and may affect the market price of our common stock.**

Ernest W. Letiziano, Hope Hillabrand, Richard Grad, and Tom Donaldson beneficially own approximately 60% of our common stock. Accordingly, for as long as Mr. Letiziano, Ms. Hillabrand, Mr. Grad, and Mr. Donaldson continue to own more than 50% of our common stock, they will be able to elect our entire board of directors, control all matters that require a stockholder vote (such as mergers, acquisitions and other business combinations) and exercise a significant amount of influence over our management and operations. Therefore, regardless of the number of our common shares sold, your ability to cause a change in the course of our operations is eliminated. As such, the value attributable to the right to vote is limited. This concentration of ownership could result in a reduction in value to the common shares you own because of the ineffective voting power, and could have the effect of preventing us from undergoing a change of control in the future.

**It is possible that we may have potential legal liability under the federal securities laws for the public disclosure of exhibits 99.1 and 99.2 to Form SB-2 filed June 2, 2006; and if it is so determined, we may be subject to civil penalties and other sanctions.**

It is possible that we may have potential legal liability under the federal securities laws for the public disclosure of exhibits 99.1 and 99.2 to Form SB-2 filed June 2, 2006, as the information disclosed in such exhibits may not be consistent with the type of projection information allowed under Item 10 of Regulation S-B of the Securities and Exchange Commission. If it is determined that the information in exhibits 99.1 and 99.2 is the type of information generally not permitted to be made publicly available, then we may be subject to a claim of rescission by shareholders relying upon such information under the Securities Exchange Act as well as remedial sanctions. Such sanctions could include the payment of disgorgement, prejudgment interest and civil penalties. We may also be subject to prejudgment interest on such amount as well as civil penalties in amount that would have to be determined by the court.

We are not aware of any pending claims for sanctions against us based upon such possibly impermissible disclosures. Nevertheless, it is possible that it could be determined that such information was impermissibly disclosed and that we are subject to sanctions and possible civil penalties. This claim, if successful, would significantly exceed our cash reserves and require us to borrow funds and would materially and adversely affect our results of operations and financial condition. Therefore, these claims would have a significant impact on us and could force us to consider bankruptcy or a similar alternative.

**Risks Relating to this Offering**

**There is currently no public market for our securities and you may not be able to liquidate your investment since there is no assurance that a public market will develop for our common stock or that our common stock will ever be approved for trading on a recognized exchange.**

There is no established public trading market for our securities. After this document is declared effective by the Securities and Exchange Commission, we intend to seek a market maker to apply for a quotation on the OTC BB in the United States. Our shares are not and have not been listed or quoted on any exchange or quotation system. We cannot assure you that a market maker will agree to file the necessary documents with the OTC BB, nor can there be any assurance that such an application for quotation will be approved or that a regular trading market will develop or that if developed, will be sustained. In the absence of a trading market, an investor may be unable to liquidate its investment, which will result in the loss of your investment.

**Future Sales by Our Stockholders May Negatively Affect Our Stock Price And Our Ability To Raise Funds In New Stock Offerings**

Sales of our common stock in the public market following this offering could lower the market price of our common stock. Sales may also make it more difficult for us to sell equity securities or equity-related securities in the future at a time and price that our management deems acceptable or at all. We have 4,152,000 shares of common stock issued and 4,102,000 shares of common stock are outstanding. Of the 4,102,000 shares of common stock outstanding as of December 13, 2006, 680,000 shares will be, freely tradable without restriction upon the effective date of this registration statement, unless held by our "affiliates". The remaining 3,852,000 outstanding shares of common stock, which will be held by existing stockholders, including our sole officer and director, are "restricted securities" and may be resold in the public market only if registered or pursuant to an exemption from registration. Some of these shares may be resold under Rule 144.

**Our stock price may decrease due to our market cap based on the future issuances of additional shares of common or preferred stock.**

Our Articles of Incorporation authorize the issuance of one hundred million (100,000,000) shares of common stock. As of January 31, 2007, we had 4,152,000 shares of common stock issued and 4,102,000 shares of common stock outstanding. As such, our Board of Directors has the power, without shareholder approval, to issue up to 95,848,000 shares of common stock. The issuance of such shares will dilute the shares held by the current shareholders. In addition, our articles of incorporation also provide that we are authorized to issue up to 50,000,000 shares of blank check preferred stock with a par value of \$.001 per share. "Blank Check" means that the rights and preferences of the preferred shares have not been determined. As of the date of this prospectus, there are 5,000,000 shares of preferred stock issued and outstanding.

Our Board of Directors has the authority, without further action by the shareholders, to issue from time to time the preferred stock and with such relative rights, privileges, preferences and restrictions that the Board may determine. Any issuance of preferred stock will dilute the voting power or other rights of the holders of common stock. If preferred shares are issued it may impact our decision to issue dividends since this may increase the number of dividends that we would be issuing. In addition, it is possible that the Board of Directors may determine that the preferred shares will have rights and preferences, including dividend rights, over the common stockholders.

**USE OF PROCEEDS**

The selling stockholders are selling shares of common stock covered by this prospectus for their own account. We will not receive any of the proceeds from the resale of these shares. We have agreed to bear the expenses relating to the registration of the shares for the selling security holders.

**DETERMINATION OF OFFERING PRICE**

Since our shares are not listed or quoted on any exchange or quotation system, the offering price of the shares of common stock was arbitrarily determined. The offering price was determined by the price shares were sold to our shareholders in a private placement memorandum pursuant to Regulation D Rule 506 of the Securities Act of 1933 which was completed in January 2006.

The offering price of the shares of our common stock has been determined arbitrarily by us and will not necessarily bear any relationship to our book value, assets, past operating results, financial condition or any other established criteria of value. Although our common stock is not listed on the Over The Counter Bulletin Board (OTCBB), we have located a market maker who has filed to obtain a listing on the (OTCBB) concurrently with the filing of this prospectus. In order to be quoted on the Bulletin Board, a market maker must file an application on our behalf in order to make a market for our common stock. Although there are no requirements for listing on the OTCBB, there is no assurances that our common stock will be approved to trade on the OTCBB. A market maker has filed our application

for trading on the OTCBB and we are currently in the review stage with the NASD. However, there is no assurance that our common stock, even if it becomes listed on the OTCBB, will trade at market prices in excess of the initial public offering price as prices for the common stock in any public market which may develop will be determined in the marketplace and may be influenced by many factors, including the depth and liquidity of the market for the common stock, investor perception of us and general economic and market conditions.

## DILUTION

The common stock to be sold by the selling shareholders is common stock that is currently issued and outstanding. Accordingly, there will be no dilution to our existing shareholders.

## PENNY STOCK CONSIDERATIONS

Broker-dealer practices in connection with transactions in “penny stocks” are regulated by certain penny stock rules adopted by the Securities and Exchange Commission. Penny stocks generally are equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges or quoted on the NASDAQ system). Penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document that provides information about penny stocks and the risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction, and monthly account statements showing the market value of each penny stock held in the customer’s account. The broker-dealer must also make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser’s written agreement to the transaction. These requirements may have the effect of reducing the level of trading activity, if any, in the secondary market for a security that becomes subject to the penny stock rules.

## SELLING SECURITY HOLDERS

The shares being offered for resale by the selling stockholders consist of 680,000 shares of our common stock issued to 69 shareholders. Unless noted in the footnotes to the table below, all of the following shareholders received their shares pursuant to the share exchange between us and Signet Entertainment Corp. in which we issued an aggregate of 3,421,000 common shares and 5,000,000 preferred shares. Of the 3,421,000 common shares issued, we are registering 1,059,000 of such shares. Of these 1,059,000 shares being registered, 125,000 shares are held by Ernest W. Letiziano, our sole officer and director.

The following table sets forth the name of the selling stockholders, the number of shares of common stock beneficially owned by each of the selling stockholders as of January 31, 2007 and the number of shares of common stock being offered by the selling stockholders. The shares being offered hereby are being registered to permit public secondary trading, and the selling stockholders may offer all or part of the shares for resale from time to time. However, the selling stockholders are under no obligation to sell all or any portion of such shares nor are the selling stockholders obligated to sell any shares immediately upon effectiveness of this prospectus. All information with respect to share ownership has been furnished by the selling stockholders.

Absent circumstances indicating that a change in the selling security holders is material, the change may be reflected by the filing of a Rule 424(b) prospectus supplement describing such a change and setting forth the information required by Item 507 of Regulation S-B. This assumes the change does not involve increasing the number of shares or dollar amount registered. Such changes may include, but are not limited to, changes to reflect the transfer of shares by a shareholder to another investor or changes in the name of the selling security holder. We will file a post-effective amendment to disclose changes in the security holders which occur after the effectiveness of the registration statement.

### **PLAN OF DISTRIBUTION**

The selling security holders may sell some or all of their shares at a fixed price of \$1.00 per share until our shares are quoted on the OTC Bulletin Board and thereafter at prevailing market prices or privately negotiated prices. Sales by selling security holder must be made at the fixed price of \$1.00 until a market develops for the stock.

The shares may be sold or distributed from time to time by the selling stockholders or by pledgees, donees or transferees of, or successors in interest to, the selling stockholders, directly to one or more purchasers (including pledgees) or through brokers or dealers who act solely as agents, at market prices prevailing at the time of sale, at prices related to such prevailing market prices, at negotiated prices or at fixed prices. The distribution of the shares may be effected in one or more of the following methods:

- o ordinary brokers transactions, which may include long or short sales,
- o transactions involving cross or block trades on any securities or market where our common stock is trading,
- o purchases by brokers or dealers as principal and resale by such purchasers for their own accounts pursuant to this prospectus,
- o in other ways not involving market makers or established trading markets, including direct sales to purchasers or sales effected through agents,
- o any combination of the foregoing.

In addition, the selling stockholders may enter into hedging transactions with broker-dealers who may engage in shares in the course of hedging the positions they assume with the selling stockholders. The selling stockholders may also enter into option or other transactions with broker-dealers that require the delivery by such broker-dealers of the shares, which shares may be resold thereafter pursuant to this prospectus.

Brokers, dealers, or agents participating in the distribution of the shares may receive compensation in the form of discounts, concessions or commissions from the selling stockholders and/or the purchasers of shares for whom such broker-dealers may act as agent (which compensation as to a particular broker-dealer may be in excess of customary commissions). Neither the selling stockholders nor we can presently estimate the amount of such compensation. We know of no existing arrangements between the selling stockholders and any other stockholder, broker, dealer or agent relating to the sale or distribution of the shares. We do not anticipate that either our shareholders or we will engage an underwriter in the selling or distribution of our shares.

We will not receive any proceeds from the sale of the shares of the selling security holders pursuant to this prospectus. We have agreed to bear the expenses of the registration of the shares, including legal and accounting fees, and such expenses are estimated to be approximately \$20,000.

The selling stockholders named in this prospectus must comply with the requirements of the Securities Act and the Exchange Act in the offer and sale of the common stock. The selling stockholders and any broker-dealers who execute sales for the selling stockholders may be deemed to be an “underwriter” within the meaning of the Securities Act in connection with such sales. In particular, during such times as the selling stockholders may be deemed to be engaged in a distribution of the common stock, and therefore be considered to be an underwriter, they must comply with applicable laws and may among other things:

1. Not engage in any stabilization activities in connection with our common stock;
2. Furnish each broker or dealer through which common stock may be offered, such copies of this prospectus from time to time, as may be required by such broker or dealer, and
3. Not bid for or purchase any of our securities or attempt to induce any person to purchase any of our securities permitted under the Exchange Act.

Any commissions received by broker-dealers and any profit on the resale of shares sold by them while acting as principals might be deemed to be underwriting discounts or commissions under the Securities Act.

### **Regulation M**

We have informed the Selling Shareholders that Regulation M promulgated under the Securities Exchange Act of 1934 may be applicable to them with respect to any purchase or sale of our common stock. In general, Rule 102 under Regulation M prohibits any person connected with a distribution of our common stock from directly or indirectly bidding for, or purchasing for any account in which it has a beneficial interest, any of the Shares or any right to purchase the Shares, for a period of one business day before and after completion of its participation in the distribution.

During any distribution period, Regulation M prohibits the Selling Shareholders and any other persons engaged in the distribution from engaging in any stabilizing bid or purchasing our common stock except for the purpose of preventing or retarding a decline in the open market price of the common stock. None of these persons may effect any stabilizing transaction to facilitate any offering at the market. As the Selling Shareholders will be offering and selling our common stock at the market, Regulation M will prohibit them from effecting any stabilizing transaction in contravention of Regulation M with respect to the shares.

We also have advised the Selling Shareholders that they should be aware that the anti-manipulation provisions of Regulation M under the Exchange Act will apply to purchases and sales of shares of common stock by the Selling Shareholders, and that there are restrictions on market-making activities by persons engaged in the distribution of the shares. Under Regulation M, the Selling Shareholders or their agents may not bid for, purchase, or attempt to induce any person to bid for or purchase, shares of our common stock while such Selling Shareholders are distributing shares covered by this prospectus. Regulation M may prohibit the Selling Shareholders from covering short sales by purchasing shares while the distribution is taking place, despite any contractual rights to do so under the Agreement. We have advised the Selling Shareholders that they should consult with their own legal counsel to ensure compliance with Regulation M.

Notwithstanding anything set forth herein, no NASD member will charge commissions that exceed 8% of the total proceeds of the offering.

**LEGAL PROCEEDINGS**

There are no legal proceedings pending or threatened legal actions against us.

Management has determined not to establish an audit committee at present because of our limited resources and limited operating activities do not warrant the formation of an audit committee or the expense of doing so. We do not have a financial expert serving on the Board of Directors or employed as an officer based on management's belief that the cost of obtaining the services of a person who meets the criteria for a financial expert under Item 401(e) of Regulation S-B is beyond its limited financial resources and the financial skills of such an expert are simply not required or necessary for us to maintain effective internal controls and procedures for financial reporting in light of the limited scope and simplicity of accounting issues raised in its financial statements at this stage of its development.

**Changes in Control**

There are no arrangements which may result in a change in control of us.

**DESCRIPTION OF SECURITIES****General**

Our authorized capital stock consists of 100,000,000 shares of common stock at a par value of \$.001 per share and 50,000,000 shares of preferred stock at a par value of \$.001 per share. As of January 31, 2007, 4,152,000 shares of common stock were issued and 4,102,000 shares of common stock were outstanding. On March 31, 2006, the Company repurchased 50,000 shares of common stock from the estate of a deceased shareholder which purchased said shares pursuant to the aforementioned Regulation D Rule 506 offering completed in May 2006 for \$50,000 cash. In addition, 5,000,000 shares of preferred stock were issued and outstanding.

**Common Stock**

Holders of our common stock are entitled to one vote for each share on all matters submitted to a stockholder vote. Holders of common stock do not have cumulative voting rights. Therefore, holders of a majority of the shares of common stock voting for the election of directors can elect all of the directors. Holders of our common stock representing a majority of the voting power of our capital stock issued and outstanding and entitled to vote, represented in person or by proxy, are necessary to constitute a quorum at any meeting of our stockholders.

A vote by the holders of a majority of our outstanding shares is required to effectuate certain fundamental corporate changes such as liquidation, merger or an amendment to our Articles of Incorporation.

Holders of common stock are entitled to share in all dividends that the board of directors, in its discretion, declares from legally available funds. In the event of liquidation, dissolution or winding up, each outstanding share entitles its

holder to participate pro rata in all assets that remain after payment of liabilities and after providing for each class of stock, if any, having preference over the common stock. Holders of our common stock have no pre-emptive rights, no conversion rights and there are no redemption provisions applicable to our common stock.

Preferred Stock

### **Preferred Stock**

Holders of shares of preferred stock are entitled to one vote for each share on all matters to be voted on by the stockholders. Holders of preferred stock do not have cumulative voting rights. Holders of preferred stock are entitled to share ratably in dividends, if any, as may be declared from time to time by the Board of Directors in its discretion from funds legally available therefore. In the event of a liquidation, dissolution or winding up of the Company, the holders of preferred stock are entitled to share pro rata all assets remaining after payment in full of all liabilities. All of the outstanding shares of preferred stock are fully paid and non-assessable. Holders of preferred stock have no preemptive rights to purchase our preferred stock. There are no conversion or redemption rights or sinking fund provisions with respect to the preferred stock.

Our Board of Directors has the authority, without further action by the shareholders, to issue from time to time the preferred stock in one or more series for such consideration and with such relative rights, privileges, preferences and restrictions that the Board may determine. The preferences, powers, rights and restrictions of different series of preferred stock may differ with respect to dividend rates, amounts payable on liquidation, voting rights, conversion rights, redemption provisions, sinking fund provisions and purchase funds and other matters. The issuance of preferred stock could adversely affect the voting power or other rights of the holders of common stock.

### **Warrants**

There are no outstanding warrants to purchase our securities.

### **Options**

There are no options to purchase our securities outstanding. We may in the future establish an incentive stock option plan for our directors, employees and consultants.

### **Anti-Takeover Effect of Delaware Law, Certain Charter and By-Law Provisions**

Our certificate of incorporation and bylaws contain provisions that could have the effect of discouraging potential acquisition proposals or tender offers or delaying or preventing a change of control of our company. These provisions have the following effects:

- they provide that special meetings of stockholders may be called only by a resolution adopted by a majority of our board of directors;
- they provide that only business brought before an annual meeting by our board of directors or by a stockholder who complies with the procedures set forth in the bylaws may be transacted at an annual meeting of stockholders;
- they provide for advance notice of specified stockholder actions, such as the nomination of directors and stockholder proposals;
- they do not include a provision for cumulative voting in the election of directors. Under cumulative voting, a minority stockholder holding a sufficient number of shares may be able to ensure the election of one or more directors. The absence of cumulative voting may have the effect of limiting the ability of minority stockholders to effect changes in our board of directors and, as a result, may have the effect of deterring a hostile takeover or delaying or preventing changes in control or management of our company; and

- they allow us to issue, without stockholder approval, up to 50,000,000 shares of preferred stock that could adversely affect the rights and powers of the holders of our common stock. In some circumstances, this issuance could have the effect of decreasing the market price of our common stock, as well.

We are subject to the provisions of Section 203 of the DGCL, an anti-takeover law. In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a “business combination” with an “interested stockholder” for a period of three years after the date of the transaction in which the person became an interested stockholder, unless the business combination is approved in a prescribed manner. For purposes of Section 203, a “business combination” includes a merger, asset sale or other transaction resulting in a financial benefit to the interested stockholder, and an “interested stockholder” is a person who, together with affiliates and associates, owns, or within three years prior did own, 15% or more of the voting stock of a corporation.

#### **INTEREST OF NAMED EXPERTS AND COUNSEL**

No expert or counsel named in this prospectus as having prepared or certified any part of this prospectus or having given an opinion upon the validity of the securities being registered or upon other legal matters in connection with the registration or offering of the common stock was employed on a contingency basis, or had, or is to receive, in connection with the offering, a substantial interest, direct or indirect, in the registrant or any of its parents or subsidiaries. Nor was any such person connected with the registrant or any of its parents or subsidiaries as a promoter, managing or principal underwriter, voting trustee, director, officer, or employee. Anslow & Jaclin, LLP, our independent legal counsel, has provided an opinion on the validity of our common stock. Anslow & Jaclin, LLP has been our legal counsel since inception.

The financial statements included in this prospectus and the registration statement have been audited S. W. Hatfield, CPA certified public accountants, to the extent and for the periods set forth in their report appearing elsewhere herein and in the registration statement, and are included in reliance upon such report given upon the authority of said firm as experts in auditing and accounting.

#### **DISCLOSURE OF COMMISSION POSITION OF INDEMNIFICATION FOR SECURITIES ACT LIABILITIES**

Our directors and officers are indemnified as provided by the Delaware Statutes and our Bylaws. We have been advised that in the opinion of the Securities and Exchange Commission indemnification for liabilities arising under the Securities Act is against public policy as expressed in the Securities Act, and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities is asserted by one of our directors, officers, or controlling persons in connection with the securities being registered, we will, unless in the opinion of our legal counsel the matter has been settled by controlling precedent, submit the question of whether such indemnification is against public policy to a court of appropriate jurisdiction. We will then be governed by the court’s decision.

Our wholly owned subsidiary, Signet Entertainment Corporation (“SIG”), was incorporated on October 17, 2003 for the purpose of launching a “gaming and entertainment” television network. We will purchase, lease, and employ the apparatus, equipment, and personnel necessary to establish the network. The network will cover major Poker and Blackjack tournaments as well as other major high stakes casino games. The network will also cover via satellite and cable other sports events such as horse racing and selected global events which have a sports and entertainment format. SIG’s largest source of revenue will come from advertising, specifically from various resorts and casinos, and sporting sites in North and South America, Europe, Asia and Africa. SIG will realize income from infomercials and sports and entertainment programming that offer subject matter that are all-encompassing to the network’s format. Signet International Holdings, Inc. does not have international operations.

It is our opinion that we are not a blank check company as defined in Rule 419 under the Securities Act of 1933 (as amended) since we have conducted operating activities and have taken affirmative steps in the operation of our business. Our primary business plan is that of a television broadcasting company. Part of our business plan includes the acquisition of other LPTV stations, however, any such acquisition would be contemplated only so far as such acquisition would further our business plan to launch a television broadcasting company. Please note that the only business acquisitions will be solely of LPTV stations or other broadcast properties and that we will not enter into any agreement that will result in a change of control. We will not enter into any acquisition that requires Mr. Letiziano, our sole officer and director, to give up voting control of our stock or requires his resignation as our officer or director. In the event we acquire other entities in the future, Mr. Letiziano will maintain his ownership interest as well as his positions with us as full-time Chief Executive Officer and majority stockholder.

### **General**

In order to implement its purpose of launching a gaming and entertainment television network, SIG entered into agreements with Triple Play Media Management, Inc. (“Triple Play”) and Big Vision, Inc. (“Big Vision”). Pursuant to the agreements, Triple Play will operate our facilities and provide programming content. Triple Play will produce television shows (programs) in the gaming and entertainment genre. Triple Play will also negotiate with rights-holders of old re-run television shows and provide these shows for additional programming. Big Vision will provide the equipment and technology to establish the facility.

Pursuant to our Management Agreement with Triple Play, Triple Play has agreed to manage and operate our facility in exchange for financial and administrative support of its ready-to-launch, new television network, “The Gaming & Entertainment Network.” In essence, we will provide the facilities, while Triple Play will provide the management of such facilities as well as programming content. We will pay Triple Play a management fee of 12% each year, provided we realize a minimum pre-tax net profit of 25%. In addition, we will provide an allowance for costs related to licensing, permits, and other fees related to broadcasting equal to one-half percent of total gross revenues. In exchange, we will receive 87.5% of Triple Play’s gross revenues less operating expenses.

Our Management Agreement with Big Vision provides for the use by us of Big Vision's equipment and property for the staging of our facility. In exchange for use of the facilities, we will pay a service fee to Big Vision on a "most favored nation" basis for the first year of our operations. "Most favored nation" basis is a term used in the TV Production Industry to indicate that the rates charged by producers (in this case Big Vision) will be below fair-market rates, or at "wholesale" costs. In essence, in our first year, we will pay Big Vision a fee equal to its costs in providing the equipment and facilities. After the initial year, we will pay Big Vision industry standard rates plus an additional 15%.

In addition, to further the launch of our gaming and entertainment television network we purchased the exclusive rights to 20 titled half hour screen plays representing original programming from FreeHawk Productions, Inc. The Company's agreement with FreeHawk dated April 13, 2006 provides for the purchase by Signet of the exclusive rights to 20 half-hour TV screen plays each with an additional 13 episodes. FreeHawk was to receive \$450,000 in cash and 550,000 shares of Signet common stock over a minimum of 36 months payments to be made subject to delivery of the screen plays as scheduled by Signet. On August 19, 2006, by mutual agreement, Signet and FreeHawk rescinded this agreement because the agreement called for the payment of funds and stock which we can not pay until such time as our shares are trading and we can receive additional financing. Therefore, the parties mutually agreed that the agreement was premature and therefore the agreement was rescinded without the payment of any cash or stock to FreeHawk by us. We intend to enter into a restructured agreement, at such time as we are a public company and can raise the necessary capital. At this time, there are no discussions to restructure the agreement.

Furthermore, we intend to acquire Low-Powered Television (LPTV) stations as a means for distributing our programming to viewers. Currently, we do not own any LPTV stations or other broadcast properties, nor do we own or have control over an FCC licenses to operate any LPTV stations. We believe that LPTV affords an opportunity for entry into television broadcasting and has permitted fuller use of the broadcast spectrum. LPTV stations offer national advertisers highly defined audiences;. As advertisers search for ways to reach targeted demographic groups, we believe LPTV stations will become an increasingly important part of their advertising strategy. We plan on targeting LPTV stations that are sanctioned by the Federal Communication Commission with current and clear license to operate and feature: Class A rating, high-distribution (high number of TV households), favorable market location, up-to-date equipment, tower delivery systems, and studio properties.

## **Programming**

### Triple Play Media Management, Inc.

Triple Play's programming niche is "gaming." Presently, there are no channels formatted exclusively for the gaming customer whose interest is focused on the vast variety of gaming activities, domestically as well as internationally, including "sports and entertainment." This type of network is unique to the television industry

The Gaming & Entertainment Network will cover major poker and blackjack tournaments and high stakes major table games, especially those from Hong Kong, South America and the Outback of Australia. The activities in the Las Vegas, Reno and Laughlin, Nevada areas, and various Florida venues alone, host high stakes tournaments on a daily basis. Triple Play will produce domestic and international feeds covering thoroughbred and quarter-horse racing; coverage of fluctuation and trends within sports books from selected locations around the world; scheduled hourly updating of betting lines on sporting events; and a remote coverage of all betting sports, to delivering our personal insight and commentary, live from the sites of origination. Handicapping shows will feature the "how-to" of betting, who's betting, and why.

Along with, and part of, the gaming and sports coverage, Triple Play will offer shows exploring the insights of the hotel and casino business; offer original formatted airing of special events taking place in the hotels and casinos around the world, including profiles of the shows and headliners, their acts and silhouetting behind the scenes action. Triple Play will feature a newly developed format called "Dialing for Dollars, Satellite Pay Per View Bingo."

Our agreement with Triple Play provides that we will pay management fees in the amount of 12% provided that we realize a minimum pre tax net profit of 25%. We also will provide an allowance for costs of licenses and permits for international airwaves and feeds, duties and taxes, satellite transmission links, down links, including earth stations in the amount of ½ % (one-half of one percent) of the total gross revenues. In addition, as further consideration for Richard Grad's agreement for Triple Play's exclusive services, we paid Mr. Grad a signing bonus of \$50,000 upon funding of the our offering. We are also obligated to pay the following compensation each year during the entire term of the agreement, including extensions thereto: guaranteed payment of \$200,000 per year payable to Richard Grad. This amount will be payable at the beginning of each month at the rate of twelve equal installments. We will also provide Mr. Grad with an allowance of \$1,500 for moving and relocating expenses. In addition, we will provide Mr. Grad with personal life, health dental, vision and accident insurance. Mr. Grad owns approximately 401,000 shares (or 10%) of our common stock.

#### Other Programming

In addition to the programs produced by Triple Play, we intend to produce our own original programming and air infomercials during off-peak hours.

On April 13, 2006 we purchased the exclusive rights to 20 titled half hour screen plays representing original programming. This contract was later rescinded on August 19, 2006 by mutual agreement of the parties.

#### Big Vision, Inc.

In addition to the exclusive contract with Triple Play whose primary purpose is creating original programming, distribution and international sales and satellite delivery systems, we executed a long-term contract on July 22, 2005 with Big Vision, Inc. whose primary purpose is television production, transmitting and ground crew pick up.

Big Vision is a Las Vegas, Nevada based video production company with over 22,000 square feet in the heart of Las Vegas which offers all TV production amenities required of any variety of television programming. Big Visions also owns a 12,000 square feet facility in Burbank, CA serving clients nationwide and abroad.

Big Vision is best known for its production mobile facilities which will be used to support Triple Play. Big Visions' services range from original video production to providing the technical management, professional crewing and equipment for major broadcast series and events. It has recently added a sophisticated sound delivery system and a complete line of High Definition delivery techniques with new cameras, recorders, and monitors.

We expect a lot of our live programming will be originating from Las Vegas. Big Vision will assure continuous local programming from Las Vegas, with on site editing facilities and distribution capabilities. Our access to Big Vision's studio and portable television equipment enables us to deliver the news-worthy Las Vegas events soon after their occurrence. The affiliation assures uninterrupted local programming coverage by Big Vision and at the same time gives Triple Play the flexibility to initiate its broadcast and programming schedules in the European, Asian, North and South American markets.

Our agreement with Big Vision provides for the payment of a service fee to Big Vision on a "most favored nation basis" for the first year of our operations. "Most favored nation" basis is a term used in the TV Production Industry to indicate that the rates charged by producers (in this case Big Vision) will be below fair-market rates, or at "wholesale" costs. After the initial year, we will pay Big Vision service fees at the industry standard rates plus an additional 15% in consideration for Big Vision's concession in rates during the first year. We agree to continue paying the industry rates plus 15% for as long as this agreement is in place. It is understood that all fees will be paid as they become due and payable according to Big Vision's requirements.

The combination of contracting with Triple Play and Big Vision will provide us the unique opportunity to at once inaugurate not only the infomercial scheduled segments but also the on-going programming operations.

## **Distribution**

We plan to distribute our programming via in-home satellite services, digital cable companies, and LPTV stations. Although we have not entered into any formal agreements with any such companies, we received a non-binding pricing proposal from a satellite delivery system.

### Low Power Television Stations.

We intend to acquire Low-Powered Television (LPTV) stations as another means for distributing our programming to viewers. We intend acquiring LPTV stations initially on a stock swap basis. With additional funding from a secondary offering we will begin offering cash instead of or in addition to stock, for some of the stations we purchase. We believe that LPTV affords an opportunity for entry into television broadcasting and has permitted fuller use of the broadcast spectrum. LPTV stations transmit on one of the standard VHF or UHF television channels. The distance at which a station can be viewed depends on a variety of factors such as antenna height, transmitter powers, transmitting antenna and the nature of the terrain. Generally LPTV stations span approximately 20 miles from their tower in all directions.

The LPTV services were established by the Federal Communications Commission (FCC) in 1992. It was primarily intended to provide opportunities for locally oriented television service in small communities within larger urban areas.

We have taken preliminary steps in the acquisition process. These steps include: learning more about the LPTV industry, researching the fit of a number of opportunities with the Signet business plan, retaining counsel, developing and getting approvals for a suitable stock swap agreement and ascertaining the value of potential LPTV stations for sale. However, we have not entered into any negotiations with any specific LPTV stations.

### Digital Terrestrial Broadcasting Network

We believe that digital television is becoming an integral television broadcasting distribution channel. Digital television can deliver a large amount of information at low cost to a high number of viewers. Digital television can also deliver more programs than traditional analog television over any transmission mediums.

Through our management agreement with Triple Play, we intend to operate a 36 MHz C-band North American and Eutelsat DTH digital platform information system.

### Hi-Definition Television

We have received a confidential, non-binding proposal from a major satellite provider for a long term lease without change in costs for the next twelve months. The proposal offers features that we could make available as a new delivery system. Although we anticipate that this system will enable us to deliver HDTV (High Definition Television) to our viewers throughout the world, we have not entered into a definitive agreement or commitment to retain these services. Therefore we do not have viewers throughout the world at this stage. Please note that there is no guarantee that we will be able to enter into a definitive agreement and no guarantee that we will be able to offer HDTV.

## **Intellectual Properties**

On April 13, 2006 we purchased the exclusive rights to 20 titled half hour screen plays representing original programming from FreeHawk Productions, Inc. On August 19, 2006, by mutual agreement, Signet and FreeHawk rescinded this agreement as set forth herein.

## **Employees**

We currently have one employee, our sole officer Ernest W. Letiziano. Mr. Letiziano is Chief Executive Officer and in that role Mr. Letiziano will implement the business plan. This will involve all the Duties normally ascribed to a Chief Executive Officer for the day-to-day management of the business, including but not limited to: secure and manage revenues, manage costs and cash, safe-guard assets, ensure proper reporting and compliance with reporting bodies, ensure that the stockholder's interests are protected, manage risk and escalate issues as appropriate to the Board, conduct regular reviews of the business with the Board, and contribute, faithfully and diligently, to the strategic development of the business.

## **Competition**

With the growing availability of on demand, self-programming and search features, along with increased competition from converging industry players in telecommunications and the Internet, the television industry is facing unparalleled complexity that will alter traditional TV business models. The entertainment industry is therefore, extremely competitive.

The competition comes from both companies within the industry and those who are engaged in other forms of entertainment media that create alternative forms of leisure entertainment. The increasing gap between the major networks and the smaller ones allows market space for smaller companies, such as Signet, to develop.

Currently the over the air networks may be identified by size according to the number of TV households they attract. The basic category or groupings of the major networks and several of the lesser but better known networks are as follows:

- 1 Major networks such as ABC, CBS, NBC, FOX
- 2 Major cable networks such as: ESPN, USA, Bravo, Fox Sports Net, UPN, PAX, The Travel Channel, The Tube
- 3 Smaller cable networks: Food Channel, Spike TV, HGTV, Golf Channel
- 4 Smaller Cable/Satellite networks such as: CGTV Network (Canada), Variety Sports Network, Tvg Horse Racing. Such networks reach between one and eight million TV households.

Our key competitive strategy is diversification in business risk and delivery systems. We plan to be providers of television content creation, packaging, programming and distribution; not only to our "owned and operated" LPTV stations, but via other distributions systems such as cable and satellite. Additionally, we plan to have our own "sports and entertainment network" to offer to stations and cable systems.

We will develop and implement strategies that will not only serve this diverse audience but will achieve significant cost savings from the traditional supply chain in order to fund new delivery channels, whether it be cable, broadcast TV, full power or low power, the Internet or satellite.

The entertainment industry, and particularly the television industry, is a highly competitive commerce. Currently this industry is undergoing an aggressive period of mergers and acquisitions. Once our presence is recognized, we will experience potential competitors who have greater financial, marketing, programming and broadcasting resources than we do.

The markets in which we have targeted to acquire are also in a constant state of change arising from, among other things, technological improvements and economic and regulatory developments. Technological innovation and the resulting proliferation of television entertainment, such as cable television, wireless cable, satellite-to-home

distribution services, pay-per-view and home video and entertainment systems, have fractionalized television viewing audiences and have subjected free over-the-air television broadcast stations to increased competition. We may not be able to compete effectively or adjust our business plans to meet changing market conditions. We are unable to predict what form of competition will develop in the future, the extent of the competition or its possible effects on our businesses.

### **Government Regulation**

The broadcasting industry is subject to regulation by the FCC pursuant to the Communications Act of 1934, as amended (the “Communications Act”). Approval by the FCC is required for the issuance, renewal and assignment of station operating licenses and the transfer of control of station licensees. Although the Company does not currently hold an FCC license, in the event that it acquires or is granted an FCC license in the future, the Company’s business will be dependent upon its continuing to hold television broadcast licenses from the FCC, which license are issued for maximum terms of eight years. While in the vast majority of cases such licenses are renewed by the FCC, there can be no assurance that the Company will be able to renew licenses it acquires or is grant at their expiration dates. If such licenses were not renewed or acquisitions approved, we may lose revenue that we otherwise could have earned.

Although we do not currently own any broadcast properties, our business plan contemplates that we may acquire such properties through acquisition of LPTV stations. Based on same, Federal regulation of the broadcasting industry will limit our operating flexibility, which may affect our ability to generate revenue or reduce our costs in the event we acquire such broadcast properties. In addition, Congress and the FCC currently have under consideration, and may in the future adopt, new laws, regulations and policies regarding a wide variety of matters (including technological changes) that could, directly or indirectly, materially and adversely affect our ability to acquire broadcast properties and the operation and ownership of such broadcast properties. New federal legislation may limit our ability to conduct our business in ways that we believe would be advantageous and may thereby negatively affect our operating results and strategic decisions.

We have not applied for any FCC licenses. However, application will be made immediately subsequent to execution of an agreement which results in the acquisition of a license, LPTV station or other broadcast property. Although the waiting period for approval of such licenses can take between 60-90 days such period will have no effect on our business since we intend to assume responsibility only upon license approval.

## **Plan of Operations**

In January 2007, we expect to begin implementation of that part of our business plan relating to the acquisition of LPTV stations by executing by executing Sale & Share Exchange Contracts with the LPTV Stations. Although we have had no revenues generated to date, we expect to realize revenues from operations of the LPTV stations once an agreement is finalized and executed and we take control of an LPTV Station. Ernie Letiziano, our sole officer, director will not relinquish control of the company to any of the acquired LPTV stations resulting from any of the agreement. In addition, since the acquisition of the LPTV stations will be based upon issuing our stock in exchange for the LPTV station's stock, we will incur no cash expenditures other than incidental expenses such as telephone, travel and general and administrative expenses. These expenses that we will incur related to the LPTV acquisition have been anticipated and are part of our monthly budget of expenses in the total amount of \$10,500.00 per month as set forth below. The funds provided for the budgeted monthly expenses, including the expenses for acquisition of the LPTV stations, came from the issuance of shares raised by us in our private placement which commenced in September 2005 and was completed in January 2006. Our current budget requirements of \$10,500.00 per month will be accommodated adequately by our current cash balance of \$170,947. The first nine months of the fiscal year have required \$483,763 in operating expenses, which we believe to be an unusually high number due to costs such as legal, auditing, other fees incurred in the process of going public as well as the issuance of compensation shares which will not be owed in the future. Therefore, we anticipate a significant reduction in operating expense to about \$126,000 per year based on the monthly amounts set forth above. We do not anticipate significant expenses for the negotiating and finalizing of the agreements since we will undertake the due diligence ourselves and do not have to incur travel expenses to visit the stations. In addition, we have already anticipated these expenses as part of monthly budget.

It is the intent of management and significant stockholders, if necessary, to provide sufficient working capital necessary to support and preserve the integrity of the corporate entity. Although we have verbal assurances from Mr. Letiziano that he will provide such interim working capital, there is no legal obligation for either management or significant stockholders to provide additional future funding. We may raise additional funds through public offerings of equity, securities convertible into equity or debt, private offerings of securities.

Concurrent with our acquiring other LPTV stations for stock commencing in the first quarter of 2007 we intend to seek additional equity or debt financing. To date we have been able to raise funds in two funding rounds through both debt and equity offerings. We anticipate that the funds we secure from our next round of financing will enable us to purchase additional LPTV stations, some with a cash consideration, and provide additional working capital to enable us to possibly acquire some stations making losses, purchase programming and initiate Triple Play Media operations. Cash costs for this phase of our plan will include: \$25,000 related to the funding round plus up to \$30 million to support the acquisitions of more LPTV stations, plus up to \$15 million to support Triple Play. This phase of our plan will continue throughout 2007. Currently, we have no specific plans to raise additional financing and we do not have any specific source(s) of such potential financing.

We have decided to wait until our registr registration statement is declared effective, to commence negotiating with at least one LPTVstation. We have already begun to identify the LPTV stations we would like to acquire by visiting the online site, [www.LPTV.com](http://www.LPTV.com), to identify stations that are for sale. To date, we have not identified any specific station that we plan to negotiate with but have visited the website to determine what is available. Once our registration statement is deemed effective we will identify stations available for sale as well as which stations have a spectrum of at least 550,000 TV households, are rated Class A, and are located in a growing market. As stated above, we have not commenced any negotiations or discussions or even identified stations to acquire. Based upon our review of the market we believe that we will be able to take the following steps to effectuate the acquisition of LPTV stations in the time periods set forth below. However, the dates set forth below are only based upon our limited research of the market and may not be effectuated in the timely manner set forth below since our registration statement has not been deemed effective and since we have not commenced negotiations or due diligence on any station

1. We have already commenced the first step in the acquisition process of reviewing those markets of dominant influence (the ratings of TV households in each market.) and will continue to so during the first few months of 2007. We expect the expenses for our review of the markets to be limited to the time spent by Mr. Letiziano, our sole officer and director. We anticipate that any additional expenses will be under \$1,000 can be paid from our current cash in hand.
2. In January 2007, we will identify and contact the selected LPTV stations that are currently operating at a profit and in good standing with the FCC. We expect the expenses for same to be to be limited to the time spent by Mr. Letiziano, our sole officer and director. We anticipate that any additional expenses will be under \$1,000 and will be paid from our current cash in hand.
3. From mid-January through Mid February we will continue to identify those LPTV stations for sale and those which are currently operating at a profit and in good standing with the FCC. We will then initiate contact with the LPTV station owner and legal counsel and negotiate to sign non-circumvention agreements and Letters of Intent. Upon execution of a letter of intent we will perform due diligence which will include the review of financial statements, customer base, survey of equipment and the review of compliance with FCC regulations researched through public records. We will only identify and commence negotiations at such time as our registration statement is declared effective by the SEC. Since our arrangements will be based upon a share exchange contract, we will not incur any cash expenses other than those incidental expenses already budgeted in our monthly expenses. We will not need to travel to undertake our due diligence and intend to have the due diligence completed and reviewed by Mr. Letiziano. Based upon same we do not expect the expenses for the due diligence and negotiations to be more than \$1,000 and will be paid from our current cash in hand.
4. By mid-February we intend to have negotiated and finalized an agreement to purchase at least one LPTV station and file though FCC counsel applications for approval from the FCC to operate the target LPTV stations. The approval period takes from 60-90 days. We expect the expenses, which shall include legal fees and application fees to be less than \$5,000 and will will be paid from our current cash on hand.
5. Once the FCC has granted approval, we will then become owner of the LPTV station and will be responsible for the daily expenses associated with operating the business. The fees and expenses for operating these stations will be paid from the revenues which we anticipate we will generate from the LPTV station. At this time we are unsure of the expenses for operating the stations since we have not commenced our due diligence on any specific station. However, in the event that the stations do not generate the anticipates revenues then we will pay the fees and expenses from our current cash on hand or will rely on shareholder loans to cover such costs until the station generates sufficient revenues or until we can obtain additional debt or equity financing.
6. After our first acquisition, we will continue to identify and negotiate with additional LPTV stations. The funds to operate the LPTV stations will be derived from revenues generated or from cash on hand. In the event that the stations do not generate the anticipates revenues then we will pay the fees and expenses from our current cash on hand or will rely on shareholder loans to cover such costs until the station generates sufficient revenues or until we can obtain additional debt or equity financing. The fees and expenses for the due diligence, negotiations and expenses for the additional stations will be the same as set above and will be paid from current cash on hand, revenues or stockholder loans.

Notwithstanding the above, all of the dates set forth are based upon our registration statement being deemed effective during January 2007. In the event that the registration process is not completed until 2007 then all of our time periods set forth above will also be delayed. We anticipate that the process of locating, identifying, contracting with the LPTV and receiving FCC approval will take 120 days after our registration statement is deemed effective by the SEC.

To date, we have identified stations by searching the Internet. The name and call letters of these stations are posted on various web sites. Our intention is to finance payment of these stations by issuing the sellers common stock as well cash payments to be negotiated. We can not be certain that any of the stations will agree to a purchase and/or share exchange arrangement. Since our research and contacts will be made through our office, we do not expect to incur any additional expenses other than the normal general and administrative expenses presently being paid.

We believe we can satisfy our cash requirements for our operations over the next twelve months with our current cash reserves. We anticipate for the next 12 months, excluding the costs of operating LPTV station acquisitions, our operational as well as general and administrative expenses will total \$126,000 based on the acquisition of one LPTV station. We anticipate that will be able to cover these expenses with our current cash reserves of \$170,947 as of December 13, 2006. The components that went into our determination of required on going expenses include the following monthly projected expenses:

Accounting Fees	\$	2,000
Legal fees		3,500
G&A		2,500
Travel & Surveys		1,500
Other Expenses		1,000
<b>Total</b>	<b>\$</b>	<b>10,500</b>

The first nine months required \$483,763 in operating expenses, which we believe to be an unusually high number due to costs such as legal, auditing, other fees incurred in the process of going public as well as the issuance of compensation shares which will not be owed in the future. Therefore, we anticipate a significant reduction in operating expense to about \$126,000 based on the monthly amounts set forth above. We do not anticipate significant expenses for the negotiating and finalizing of the agreements since we will undertake the due diligence ourselves and do not have to incur travel expenses to visit the stations. In addition, we have already anticipated these expenses as part of monthly budget.

As set forth above, this monthly outlay does not include the costs of operating the LPTV stations we are unsure of the expenses for operating the stations since we have not commenced our due diligence on any specific station. However, in the event that the stations do not generate the anticipates revenues then we will pay the fees and expenses from our current cash on hand or will rely on shareholder loans to cover such costs until the station generates sufficient revenues or until we can obtain additional debt or equity financing. The fees and expenses for the due diligence, negotiations and expenses for the additional stations will be paid from current cash on hand, revenues or stockholder loans.

There will be no costs associated with Big Vision until services have been provided by Big Vision at which time we will be generating revenues to cover these costs. Until such time we are public, receive additional financing and proceed with our business we have no other contractually obligated expenses. We cannot assure investors that we will be able to raise sufficient capital. In the absence of additional funding, we may not be able to purchase some of the stations we have identified. Even without significant new funding later this year or early 2007, we still anticipate being able to acquire some profitable LPTV stations for stock and consolidate both their revenues and earnings.

The foregoing represents our best estimate of our cash needs based on current planning and business conditions. The exact allocation, purposes and timing of any monies raised in subsequent funding rounds may vary significantly depending upon the exact amount of funds raised and status of the implementation of our business plan when these funds are raised.

Apart from building the board of directors, and employees of LPTV stations we acquire as subsidiaries we do not expect any significant changes in the number of employees.

Net loss for the fiscal year ended December 31, 2005 and 2004, respectively, was approximately \$(231,770) and \$(111,490). Earnings per share for the respective fiscal year ended December 31, 2005 and 2004 was approximately \$(0.07) and \$(0.03) on the weighted-average shares issued and outstanding.

The Company does not expect to generate any meaningful revenue or incur operating expenses for purposes other than fulfilling the obligations of a reporting company under The Securities Exchange Act of 1934 unless and until such time that the Company's operating subsidiary begins meaningful operations.

#### Capital Resources and Liquidity

At December 31, 2005 and 2004, respectively, the Company had working capital of approximately \$129,010 and \$(106,170).

It is the intent of management and significant stockholders, if necessary, to provide sufficient working capital necessary to support and preserve the integrity of the corporate entity. However, there is no legal obligation for either management or significant stockholders to provide additional future funding. Should this pledge fail to provide financing, we have not identified any alternative sources.

As set forth in the notes to the financial statements, our independent auditors have expressed substantial doubt about our ability to continue as a going concern because we have no viable operations or significant assets and we are dependent upon significant shareholders to provide sufficient working capital to maintain the integrity of the corporate entity,

Our need for capital may change dramatically as a result of an acquisition(s) of an LPTV station or other broadcast property in connection with the implementation of our business plan. There can be no assurance that we will identify any such LPTV stations or broadcast properties suitable for acquisition in the future. Further, there can be no assurance that we would be successful in consummating any acquisition on favorable terms or that we will be able to profitably manage the LPTV station or broadcast property we acquire. At the current time, we have not had any discussions or negotiations with any potential acquisition candidates and likewise have not entered into any agreements, preliminary or otherwise. We advise you to read the sections entitled "Description of Business" and "Management's Discussion and Plan of Operations" for further information regarding our intent to acquire LPTV stations and other broadcast properties.

The Company is still in the process of developing and implementing its business plan and raising additional capital. As such, the Company is considered to be a development stage company. Management believes that actions presently being taken to obtain additional funding and implement its business plan provide the opportunity for us to continue as a going concern.

It is possible that we may have potential legal liability under the federal securities laws for the public disclosure of exhibits 99.1 and 99.2 to Form SB-2 filed June 2, 2006, as the information disclosed in such exhibits may not be consistent with the type of projection information allowed under Item 10 of Regulation S-B of the Securities and Exchange Commission. If it is determined that the information in exhibits 99.1 and 99.2 is the type of information generally not permitted to be made publicly available, then we may be subject to a claim of rescission by shareholders relying upon such information under the Securities Exchange Act as well as remedial sanctions. Such sanctions could include the payment of disgorgement, prejudgment interest and civil penalties. We may also be subject to prejudgment interest on such amount as well as civil penalties in amount that would have to be determined by the court.

We are not aware of any pending claims for sanctions against us based upon such possibly impermissible disclosures. Nevertheless, it is possible that it could be determined that such information was impermissibly disclosed and that we are subject to sanctions and possible civil penalties. This claim, if successful, would significantly exceed our cash reserves and require us to borrow funds and would materially and adversely affect our results of operations and financial condition. Therefore, these claims would have a significant impact on us and could force us to consider bankruptcy or a similar alternative.

#### **Off-Balance Sheet Arrangements**

#### **DESCRIPTION OF PROPERTY**

We currently operate our business from our corporate headquarters located at 205 Worth Avenue, Suite 316 Palm Beach, FL 33480. We lease such space on a month-to-month basis. #### **CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS**

On February 2, 2005, we issued 100,000 shares to Scott Raleigh for services rendered as our founder. Such shares were issued in reliance on an exemption from registration under Section 4(2) of the Securities Act of 1933. These shares of our common stock qualified for exemption under Section 4(2) of the Securities Act of 1933 since the issuance shares by us did not involve a public offering. On July 8, 2005, Scott Raleigh transferred the 100,000 shares to Signet Entertainment Corporation pursuant to a stock purchase agreement and pursuant to an exemption from registration under Section 4(2) of the Securities Act of 1933. Our current President, Director, and Executive Officer,

Ernie Letiziano is the Director and Chief Executive Officer of Signet Entertainment Corporation. Scott Raleigh was our sole officer and director prior to the change in control and is deemed to be the sole promoter. Mr. Raleigh currently has no involvement with the Company.

Pursuant to a Stock Purchase Agreement and Share Exchange between us and Signet Entertainment Corporation dated September 8, 2005, we obtained all of the shares of Signet Entertainment Corporation in exchange for 3,421,000 restricted shares of our common stock 5,000,000 shares of our preferred stock. Pursuant to the transaction, Ernest Letiziano, our current President, Director, and Executive Officer, received 900,000 restricted shares of our common stock and 2,500,000 shares of our preferred stock. Such shares were issued in reliance on an exemption from registration under Section 4(2) of the Securities Act of 1933.

Pursuant to a Management Contract between our wholly owned subsidiary, Signet Entertainment Corporation, and Triple Play Media, Inc. dated October 23, 2003, Triple Play agreed to manage and operate our facility in exchange for financial and administrative support of its ready-to-launch, new television network, "The Gaming & Entertainment Network." Richard Grad, who holds 401,000 shares of our common stock, which represents more than 10% of our common shares issued and outstanding, is the Chief Executive Officer of Triple Play. Pursuant to the Management Agreement, we will also pay to Mr. Grad a signing bonus of \$50,000. We will also pay the following compensation each year during the entire term of the Management Agreement, including extensions thereto and Mr. Grad shall be entitled to receive: a guaranteed \$200,000 (Two Hundred Thousand), per year payable to Richard Grad. This amount will be payable at the beginning of each month at the rate of twelve equal installments; Allowance of \$1,500 for moving and relocating expenses; and personal life, health dental, vision and accident insurance. In addition, Mr. Grad received 400,000 of his 401,000 shares pursuant to this transaction.

## **MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS**

### **No Public Market for Common Stock**

There is presently no public market for our common stock. We anticipate applying for trading of our common stock on the over the counter bulletin board upon the effectiveness of the registration statement of which this prospectus forms apart. However, we can provide no assurance that our shares will be traded on the bulletin board or, if traded, that a public market will materialize.

### **Rule 144**

After September 8, 2006, the 3,421,000 shares issued by us pursuant to the share exchange with Signet Entertainment Corp. will become available for resale to the public and in accordance with the volume and trading limitations of Rule 144 of the Act. After May 2006, the 331,000 shares held by the shareholders who purchased their shares in the Regulation D, Rule 506 offering by us will become available for resale to the public and in accordance with the volume and trading limitations of Rule 144 of the Act. In general, under Rule 144 as currently in effect, a person who has beneficially owned shares of a company's common stock for at least one year is entitled to sell within any three month period a number of shares that does not exceed 1% of the number of shares of the company's common stock then outstanding which, in our case, would equal 41,020 shares as of the date of this prospectus.

Sales under Rule 144 are also subject to manner of sale provisions and notice requirements and to the availability of current public information about the company. Under Rule 144(k), a person who is not one of the company's affiliates at any time during the three months preceding a sale, and who has beneficially owned the shares proposed to be sold for at least two years, is entitled to sell shares without complying with the manner of sale, public information, volume limitation or notice provisions of Rule 144.

**Report of Independent Registered Certified Public Accounting Firm**

Board of Directors and Stockholders  
Signet International Holdings, Inc.

We have audited the accompanying consolidated balance sheets of Signet International Holdings, Inc. (a Delaware corporation and a development stage company) and Subsidiary (a Florida corporation) as of December 31, 2005 and 2004 and the related consolidated statements of operations and comprehensive loss, consolidated changes in shareholders' deficit and consolidated statements of cash flows for each of the years ended December 31, 2005 and 2004 and for the period from October 17, 2003 (date of inception) through December 31, 2005, respectively. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Signet International Holdings, Inc. and Subsidiary as of December 31, 2005 and 2004 and the results of its consolidated operations and its consolidated cash flows each of the years ended December 31, 2005 and 2004 and for the period from October 17, 2003 (date of inception) through December 31, 2005, respectively, in conformity with generally accepted accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note C to the financial statements, the Company has no viable operations or significant assets and is dependent upon significant shareholders to provide sufficient working capital to maintain the integrity of the corporate entity. These circumstances create substantial doubt about the Company's ability to continue as a going concern and are discussed in Note C. The financial statements do not contain any adjustments that might result from the outcome of these uncertainties.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company's system of internal accounting control is designed to assure, among other items, that 1) recorded transactions are valid; 2) valid transactions are recorded; and 3) transactions are recorded in the proper period in a timely manner to produce financial statements which present fairly the financial condition, results of operations and cash flows of the Company for the

**Note C - Going Concern Uncertainty - Continued**

The Company anticipates that future sales of equity securities to fully implement its business plan or to raise working capital to support and preserve the integrity of the corporate entity may be necessary. There is no assurance that the Company will be able to obtain additional funding through the sales of additional equity securities or, that such funding, if available, will be obtained on terms favorable to or affordable by the Company.

If no additional capital is received to successfully implement the Company's business plan, the Company will be forced to rely on existing cash in the bank and upon additional funds which may or may not be loaned by management and/or significant stockholders to preserve the integrity of the corporate entity at this time. In the event, the Company is unable to acquire sufficient capital, the Company's ongoing operations would be negatively impacted.

It is the intent of management and significant stockholders to provide sufficient working capital necessary to support and preserve the integrity of the corporate entity. However, no formal commitments or arrangements to advance or loan funds to the Company or repay any such advances or loans exist. There is no legal obligation for either management or significant stockholders to provide additional future funding.

While the Company is of the opinion that good faith estimates of the Company's ability to secure additional capital in the future to reach our goals have been made, there is no guarantee that the Company will receive sufficient funding to sustain operations or implement any future business plan steps.

5. Income Taxes - continued

As of December 31, 2005 and 2004, the deferred tax asset related to the Company's net operating loss carryforward is fully reserved. Due to the provisions of Internal Revenue Code Section 338, the Company may have no net operating loss carryforwards available to offset financial statement or tax return taxable income in future periods as a result of a change in control involving 50 percentage points or more of the issued and outstanding securities of the Company.

6. Earnings (loss) per share

Basic earnings (loss) per share is computed by dividing the net income (loss) available to common shareholders by the weighted-average number of common shares outstanding during the respective period presented in our accompanying financial statements.

Fully diluted earnings (loss) per share is computed similar to basic income (loss) per share except that the denominator is increased to include the number of common stock equivalents (primarily outstanding options and warrants).

Common stock equivalents represent the dilutive effect of the assumed exercise of the outstanding stock options and warrants, using the treasury stock method, at either the beginning of the respective period presented or the date of issuance, whichever is later, and only if the common stock equivalents are considered dilutive based upon the Company's net income (loss) position at the calculation date.

At December 31, 2005 and 2004, and subsequent thereto, the Company's issued and outstanding preferred stock is considered anti-dilutive due to the Company's net operating loss position.

**Note E - Fair Value of Financial Instruments**

The Company does not use derivative instruments to moderate its exposure to interest rate risk, if any.

**Note I - Common Stock Transactions - Continued**

On February 2, 2005, in connection with the incorporation and formation of Signet International Holdings, Inc., 100,000 shares were issued to the founding shareholder for \$100 cash.

On June 16, 2004 and December 3, 2004, Signet Entertainment Corporation sold, in three separate transactions to three unrelated individuals, an aggregate 70,000 shares of restricted, unregistered common stock for \$35,000 cash. These shares were sold pursuant to an exemption from registration under Section 4(2) of the Securities Act of 1933, as amended, and no underwriter was used any of the three transactions.

Between July 20, 2005 and August 26, 2005, Signet Entertainment Corporation sold an aggregate 57,000 shares of common stock to existing and new shareholders at a price of \$0.01 per share for gross proceeds of approximately \$570. As this selling price was substantially below the "fair value" of comparable transactions, the Company recognized a charge to operations for consulting expense equivalent to the difference between the established "fair value" of \$1.00 per share (as determined by the pricing in the September 2005 Private Placement Memorandum) and the selling price of \$0.01 per share.

On September 8, 2005, all of the then issued and outstanding shares of Signet Entertainment Corporation were exchanged on a share-for-share basis for shares of Signet International Holdings, Inc. in connection with the aforementioned "reverse merger" transaction.

On September 9, 2005, the Company commenced the sale of common stock pursuant to a Private Placement Memorandum in a self-underwritten offering. This Memorandum is offering for sale to persons who qualify as accredited investors and to a limited number of sophisticated investors, on a best efforts basis, up to 2,000,000 of our common shares at \$1.00 per share, for anticipated gross proceeds of \$2,000,000. The common shares will be offered through the Company's officers and directors on a best-efforts basis. The minimum investment is \$1,000, however, the Company might, at its sole discretion, accept subscriptions for lesser amounts. Funds received from all subscribers will be released to the Company upon acceptance of the subscriptions by the Company's management. Through January 1, 2006, the Company sold an aggregate of 366,000 shares for gross proceeds of approximately \$366,000 under this Memorandum.

**Signet International Holdings, Inc. and Subsidiary**

(a development stage enterprise)

**Notes to Consolidated Financial Statements**

September 30, 2006 and 2005

**Note A - Organization and Description of Business**

Signet International Holdings, Inc. (Company) was incorporated on February 2, 2005 under the Laws of the State of Delaware as 51142, Inc. The Company's initial business plan was to engage in any lawful corporate undertaking, including, but not limited to, selected mergers and acquisitions.

On September 8, 2005, pursuant to a Stock Purchase Agreement and Share Exchange (Agreement) by and among the Company, Signet Entertainment Corporation (SIG) and the shareholders of Signet Entertainment Corporation (a private Florida corporation) (Shareholders) (collectively SIG and the SIG shareholders shall be known as SIG Group); the Company acquired 100.0% of the then issued and outstanding shares of SIG in exchange for the issuance of an aggregate 3,421,000 shares of the Company's common stock to the SIG shareholders. Pursuant to the Agreement, SIG became a wholly owned subsidiary of the Company. At the transaction date, the then-sole shareholder of the Company was also the controlling shareholder, chief executive officer and director of SIG.

Signet Entertainment Corporation (SIG) was incorporated on October 17, 2003 in accordance with the Laws of the State of Florida. SIG was formed to establish a television network "The Gaming and Entertainment Network".

The acquisition of the SIG by the Company effected a change in control of the Company and will be accounted for as a "reverse acquisition" whereby the Company is the accounting acquiror for financial statement purposes. Accordingly, for all periods subsequent to the combination transaction, the financial statements of the Signet International Holdings, Inc. will reflect the historical financial statements of the Company and the operations of Signet International Holdings, Inc. subsequent to the transaction date.

The Company is considered in the development stage and, as such, has generated no significant operating revenues and has incurred cumulative operating losses of approximately \$827,000.

**Note B - Preparation of Financial Statements**

The acquisition of the SIG by the Company effected a change in control of the Company and will be accounted for as a "reverse acquisition" whereby the SIG is the accounting acquiror for financial statement purposes. Accordingly, for all periods subsequent to the combination transaction, the financial statements of the Signet International Holdings, Inc. will reflect the historical financial statements of the SIG and the operations of Signet International Holdings, Inc. subsequent to the transaction date.

The Company follows the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America and has a year-end of December 31.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Management further acknowledges that it is solely responsible for adopting sound accounting practices, establishing and maintaining a system of internal accounting control and preventing and detecting fraud. The Company's system of internal accounting control is designed to assure, among other items, that 1) recorded transactions are valid; 2) valid transactions are recorded; and 3) transactions are recorded in the proper period in a timely manner to produce financial statements which present fairly the financial condition, results of operations and cash flows of the Company for the respective periods being presented.

During interim periods, the Company follows the accounting policies set forth in its annual audited financial statements filed with the U. S. Securities and Exchange Commission on its Annual Report on Form 10-KSB which contains the Company's audited financial statements for the year ended December 31, 2005. The information presented within these interim financial statements may not include all disclosures required by generally accepted accounting principles and the users of financial information provided for interim periods should refer to the annual financial information and footnotes when reviewing the interim financial results presented herein.

**Notes to Consolidated Financial Statements**  
September 30, 2006 and 2005

**Note B - Preparation of Financial Statements - Continued**

In the opinion of management, the accompanying interim financial statements, prepared in accordance with the U. S. Securities and Exchange Commission's instructions for Form 10-QSB, are unaudited and contain all material adjustments, consisting only of normal recurring adjustments necessary to present fairly the financial condition, results of operations and cash flows of the Company for the respective interim periods presented. The current period results of operations are not necessarily indicative of results which ultimately will be reported for the full fiscal year ending December 31, 2006.

**Note C - Going Concern Uncertainty**

The Company is still in the process of developing its business plan and raising capital. As such, the Company is considered to be a development stage company.

The Company's continued existence is dependent upon its ability to generate sufficient cash flows from operations to support its daily operations as well as provide sufficient resources to retire existing liabilities and obligations on a timely basis.

The Company anticipates future sales of equity securities to facilitate either the consummation of a business combination transaction or to raise working capital to support and preserve the integrity of the corporate entity. However, there is no assurance that the Company will be able to obtain additional funding through the sales of additional equity securities or, that such funding, if available, will be obtained on terms favorable to or affordable by the Company.

If no additional operating capital is received during the next twelve months, the Company will be forced to rely on existing cash in the bank and upon additional funds loaned by management and/or significant stockholders to preserve the integrity of the corporate entity at this time. In the event, the Company is unable to acquire advances from management and/or significant stockholders, the Company's ongoing operations would be negatively impacted.

It is the intent of management and significant stockholders to provide sufficient working capital necessary to support and preserve the integrity of the corporate entity. However, no formal commitments or arrangements to advance or loan funds to the Company or repay any such advances or loans exist. There is no legal obligation for either management or significant stockholders to provide additional future funding.

While the Company is of the opinion that good faith estimates of the Company's ability to secure additional capital in the future to reach our goals have been made, there is no guarantee that the Company will receive sufficient funding to sustain operations or implement any future business plan steps.

**Note D - Summary of Significant Accounting Policies**

For Statement of Cash Flows purposes, the Company considers all cash on hand and in banks, certificates of deposit and other highly-liquid investments with maturities of three months or less, when purchased, to be cash and cash equivalents.

4. Advertising expenses

The Company does not utilize direct solicitation advertising. All other advertising and marketing expenses are charged to operations as incurred.

5. Income Taxes

The Company uses the asset and liability method of accounting for income taxes. At September 30, 2006 and 2005, respectively, the deferred tax asset and deferred tax liability accounts, as recorded when material to the financial statements, are entirely the result of temporary differences. Temporary differences represent differences in the recognition of assets and liabilities for tax and financial reporting purposes, primarily accumulated depreciation and amortization, allowance for doubtful accounts and vacation accruals.

As of September 30, 2006 and 2005, the deferred tax asset related to the Company's net operating loss carryforward is fully reserved. Due to the provisions of Internal Revenue Code Section 338, the Company may have no net operating loss carryforwards available to offset financial statement or tax return taxable income in future periods as a result of a change in control involving 50 percentage points or more of the issued and outstanding securities of the Company.

6. Earnings (loss) per share

Basic earnings (loss) per share is computed by dividing the net income (loss) available to common shareholders by the weighted-average number of common shares outstanding during the respective period presented in our accompanying financial statements.

Fully diluted earnings (loss) per share is computed similar to basic income (loss) per share except that the denominator is increased to include the number of common stock equivalents (primarily outstanding options and warrants).

Common stock equivalents represent the dilutive effect of the assumed exercise of the outstanding stock options and warrants, using the treasury stock method, at either the beginning of the respective period presented or the date of issuance, whichever is later, and only if the common stock equivalents are considered dilutive based upon the Company's net income (loss) position at the calculation date.

At September 30, 2006 and 2005, and subsequent thereto, the Company's issued and outstanding preferred stock is considered anti-dilutive due to the Company's net operating loss position.

**Note E - Fair Value of Financial Instruments**

The carrying amount of cash, accounts receivable, accounts payable and notes payable, as applicable, approximates fair value due to the short term nature of these items and/or the current interest rates payable in relation to current market conditions.

Interest rate risk is the risk that the Company's earnings are subject to fluctuations in interest rates on either investments or on debt and is fully dependent upon the volatility of these rates. The Company does not use derivative instruments to moderate its exposure to interest rate risk, if any.

Financial risk is the risk that the Company's earnings are subject to fluctuations in interest rates or foreign exchange rates and are fully dependent upon the volatility of these rates. The company does not use derivative instruments to moderate its exposure to financial risk, if any.

**Notes to Consolidated Financial Statements**

September 30, 2006 and 2005

The Board of Directors has the authority, without further action by the shareholders, to issue from time to time the preferred stock in one or more series for such consideration and with such relative rights, privileges, preferences and restrictions that the Board may determine. The preferences, powers, rights and restrictions of different series of preferred stock may differ with respect to dividend rates, amounts payable on liquidation, voting rights, conversion rights, redemption provisions, sinking fund provisions and purchase funds and other matters. The issuance of preferred stock could adversely affect the voting power or other rights of the holders of common stock.

**Note H - Preferred Stock - Continued**

On October 20, 2003, in conjunction with the formation and incorporation of the Company, the Company issued 4,000,000 shares of preferred stock to the incorporating persons.

On July 19, 2005, the Company issued 1,000,000 shares of preferred stock to an existing shareholder and Company officer for services related to the organization and structuring of the Company and its proposed business plan.

**Note I - Common Stock Transactions**

On October 17, 2003 and November 1, 2003, in connection with the incorporation and formation of the Company, an aggregate of approximately 3,294,000 shares of restricted, unregistered shares of common stock and were issued to various founding individuals. This combined preferred stock and common stock issuances were collectively valued at approximately \$40,810, which approximated the fair value of the time provided by the individuals and the related out-of-pocket expenses.

On June 16, 2004 and December 3, 2004, the Company sold, in three separate transactions to three unrelated individuals, an aggregate 70,000 shares of restricted, unregistered common stock for \$35,000 cash. These shares were sold pursuant to an exemption from registration under Section 4(2) of the Securities Act of 1933, as amended, and no underwriter was used any of the three transactions.

Between July 20, 2005 and August 26, 2005, Signet Entertainment Corporation sold an aggregate 57,000 shares of common stock to existing and new shareholders at a price of \$0.01 per share for gross proceeds of approximately \$570. As this selling price was substantially below the "fair value" of comparable transactions, the Company recognized a charge to operations for consulting expense equivalent to the difference between the established "fair value" of \$1.00 per share (as determined by the pricing in the September 2005 Private Placement Memorandum) and the selling price of \$0.01 per share.

On September 9, 2005, the Company commenced the sale of common stock pursuant to a Private Placement Memorandum in a self-underwritten offering. This Memorandum is offering for sale to persons who qualify as accredited investors and to a limited number of sophisticated investors, on a best efforts basis, up to 2,000,000 of our common shares at \$1.00 per share, for anticipated gross proceeds of \$2,000,000. The common shares will be offered through the Company's officers and directors on a best-efforts basis. The minimum investment is \$1,000, however, the Company might, at its sole discretion, accept subscriptions for lesser amounts. Funds received from all subscribers will be released to the Company upon acceptance of the subscriptions by the Company's management. Through June 30, 2006, the Company has sold 381,000 shares for gross proceeds of \$381,000 under this Memorandum.

On March 31, 2006, the Company repurchased 50,000 shares of common stock from the estate of a deceased shareholder which purchased said shares for \$50,000 cash pursuant to the aforementioned September 2005 Private Placement Memorandum for \$50,000 cash. In June 2006, the Company's Board of Directors cancelled these shares and returned them to unissued status.

On June 22, 2006, the Company issued 250,000 shares of unregistered, restricted common stock, valued at \$0.50 per share or \$125,000, in payment of consulting fees. As the agreed-upon value of the services provided was less than the "fair value" of comparable transactions, the Company has recognized an additional charge to Consulting Fees equivalent to the difference between the established "fair value" of \$1.00 per share (as determined by the pricing in the September 2005 Private Placement Memorandum) and the agreed-upon value of \$0.50 per share in the corresponding line item in the Company's Statement of Operations.

This advance of management fees would be drawn down by Triple Play over approximately the first 12 months

of its operations which would begin once Signet has access to the secondary offering funding. This advance will be recovered by Signet from Triple Play's future cash flows. In return, Signet will receive 87.5 % of Triple Play's monthly gross revenues less Triple Play's monthly operating expenses.

For the services, Triple Play shall render to Signet, Signet shall pay management fees to Triple Play based upon Triple Play's gross revenues, as follows: a) 12% of Triple Play's gross revenues, provided that Triple Play realizes a minimum pre tax net profit of 25%, plus b) ½% (one half percent) of Triple Play's gross revenues for Triple Play's costs of licenses and permits for international air waves and feeds duties and taxes, satellite transmission links, down links, including earth stations.
