PART III NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

In June 2004, the Audit Committee of the Board of Directors of BioVeris Corporation (BioVeris) commenced an investigation of Meso Scale Diagnostics, LLC. (MSD). MSD is a company jointly owned by BioVeris and Meso Scale Technologies, LLC. (MST), a company wholly-owned by Jacob Wohlstadter, the son of Samuel Wohlstadter, BioVeris's Chairman and Chief Executive Officer. The investigation was prompted by the discovery of a series of transactions undertaken by MSD involving the actual or proposed purchase by MSD of certain residential real property and luxury automobiles having an aggregate cost of approximately \$7 million. The transactions were entered into by MSD upon Jacob Wohlstadter's sole approval and without BioVeris's knowledge. BioVeris subsequently commenced two separate lawsuits in the Court of Chancery of the State of Delaware against MSD, MST and Jacob Wohlstadter.

On August 12, 2004, BioVeris, MSD, MST and Jacob Wohlstadter settled the two lawsuits pursuant to a settlement agreement that, among other things, also settled other outstanding disputes between the parties. Pursuant to the settlement agreement, on August 13, 2004, MSD provided to BioVeris its financial statements for the year ended December 31, 2003 and the quarters ended March 31 and June 30, 2004.

To complete its Form 10-Q for the quarter ended June 30, 2004 (Form 10-Q), BioVeris's consolidated financial statements, which must include MSD's financial information, must be completed. BioVeris adopted FASB Interpretation No. 46, Consolidation of Variable Interest Entities, as of March 31, 2004, and accordingly, it must consolidate the financial information of MSD beginning as of March 31, 2004. BioVeris could not complete its consolidated financial statements until it received MSD's financial statements. Because MSD's financial statements were not available until August 13, 2004, BioVeris could not complete its consolidated financial statements, and finalize its Form 10-Q on or prior to August 16, 2004, the prescribed due date for the Form 10-Q. BioVeris filed its Form 10-Q on August 17, 2004.

If answer is no, identify report(s). [X] Yes [] No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof? [X] Yes [] No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

As described more fully in BioVeris' s Form 10-Q, in January 2003, the FASB issued Interpretation No. 46, Consolidation of Variable Interest Entities (FIN 46). FIN 46 provides guidance on variable interest entities such as the MSD joint venture and the framework through which an enterprise assesses consolidation of a variable interest entity. BioVeris adopted FIN 46 as of March 31, 2004 and has determined that MSD qualifies as a variable interest entity. Accordingly, beginning as of March 31, 2004, BioVeris has consolidated the financial results of MSD. Under the transition guidance of FIN 46, because MSD was created before February 1, 2003, BioVeris has measured the assets, liabilities and noncontrolling interests of MSD as of March 31, 2004 for purposes of the initial consolidation. The amounts of the assets, liabilities and noncontrolling interests are reflective of their respective carrying amounts had FIN 46 been effective when BioVeris first met the conditions to be the primary beneficiary of MSD upon MSD' s inception in 1995. BioVeris has historically recorded approximately 100% of MSD' s losses. Upon implementation of FIN 46, to reflect this change in accounting principle, BioVeris recorded a one-time, non-cash \$33.7 million adjustment associated with the \$37.5 million payment it made to MSD in connection with the merger and related transactions among BioVeris, IGEN International, Inc. and Roche Holding Ltd, thereby adjusting the book value of BioVeris' s investment in the joint venture to equal the consolidated net assets of MSD.

As a result of consolidation, the statement of operations for the quarter ended June 30, 2004 reclassified amounts formerly recorded on a net basis as equity in loss of joint venture as amounts recorded on a gross basis primarily as revenue, product costs, research and development expenses and selling, general and administrative expenses. Therefore, BioVeris' s revenues and expenses for the quarter ended June 30, 2004 increased significantly from the corresponding period in the prior fiscal year. BioVeris' s total revenue and total operating costs and expenses were approximately \$8.2 million and \$21.5 million, respectively, for the quarter ended June 30, 2004, and \$5.1 million and \$12.4 million, respectively, for the corresponding period in the prior fiscal year.
