**Item 2.02 Results of Operations and Financial Condition.**

The information in this Current Report is being furnished and shall not be deemed filed for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended.

On January 26, 2006, Abaxis, Inc., announced its financial results for the fiscal quarter ended December 31, 2005 and certain other information. A copy of Abaxis press release announcing these financial results and certain other information is attached hereto as Exhibit 99.1.

The earnings release presents Abaxis income from operations and net income attributable to common shareholders. To supplement the financial statements presented in accordance with GAAP, Abaxis uses non-GAAP measures of operating income per share on a pro forma basis, which is not a measurement of performance under accounting principles generally accepted in the United States of America. Management uses these measures in comparing Abaxis historical performance and believes that these measures provide meaningful and comparable information to management and investors to assist in their review of Abaxis performance relative to prior periods and its competitors.

The earnings release includes the schedule that reconciles Abaxis statement of operations prepared in accordance with generally accepted accounting principles to its results on a pro forma basis for the three- and nine-month periods ended December 31, 2005 and 2004.
