Union Planters Corporation 401(k) Retirement Savings Plan

We have audited the accompanying statement of net assets available for benefits of Union Planters Corporation 401(k) Retirement Savings Plan as of December 31, 2004, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such

opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the 2004 financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2004, and the changes in its net assets available for benefits for the year then ended, in conformity with U.S. generally accepted accounting principles.

Our audit was performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2004, and reportable transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audit of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

#### 1. Summary of Significant Accounting Policies

##### Basis of Presentation

The financial statements of Union Planters Corporation 401(k) Retirement Savings Plan (the Plan) have been prepared on the accrual basis of accounting.

##### Investment Valuation and Revenue Recognition

Marketable securities are stated at fair value. Securities, which are traded on a national securities exchange, are valued at the last reported sales price on the last business day of the year. Investments traded in the over-the-counter market are valued at the average of last reported bid and ask prices and listed securities for which no sale was reported on that date are valued at last reported sales price. The participant loans are valued at their outstanding balance, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

##### Distributions Payable

In accordance with GAAP, benefit payments payable to participants totaling \$545,873 and \$4,593,074 at December 31, 2004 and 2003, respectively, have not been included as liabilities in the accompanying statements of net assets available for benefits.

#### Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

#### 2. Description of the Plan

The following description of the Plan provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

##### General

On July 1, 2004, Union Planters Corporation merged with Regions Financial Corporation (Regions or the Company). Both companies merged into a new holding company named Regions Financial Corporation upon completion of the transaction. In the transaction, each share of Union Planters Corporation common stock was converted into one share of the new company \$0.01 par value common stock. The Plan was amended to discontinue all employer and employee contributions after December 31, 2004, based upon the merger with Regions. Participants in the Plan on December 31, 2004, were eligible to participate in the Regions 401(k) Plan beginning on January 1, 2005. The Plan is expected to be merged into the Regions 401(k) Plan during 2005.

The Plan is a defined contribution plan covering certain employees of Regions who have at least three months of service prior to December 31, 2004. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Employees became eligible to participate in the Plan on the first day of the month after completing 90 days of employment with the Company. Part-time employees were eligible to participate in the Plan after completing one year of service.

The Plan is administered by the Regions Finance Committee, as appointed by the Regions Board of Directors. The Finance Committee has delegated limited amendment authority to the Benefits Management Committee. Union Planters Bank, National Association (UPBNA), a subsidiary of Regions, is trustee of the Plan. The Plan sponsor is Regions. BISYS Retirement Services, L.P. (BISYS) is the record keeper and investment manager of the Plan's assets. BISYS is responsible for the administration of participant accounts and the administration of the Plan's assets at the discretion of the participants.

2. Description of the Plan (continued)

Contributions

Each year, participants may elect a Member Basic Contribution ranging from 1% to 25% of their gross salary (up to \$200,000 or Base Pay if Base Pay is greater than \$200,000). The maximum allowable annual contribution was \$13,000 and \$12,000 for 2004 and 2003, respectively. The Company matches 100% of a participant's contributions, up to 6% of the participant's eligible compensation. 50% of all matching contributions credited to a participant's account are initially invested in company common stock and not subject to participant investment direction for the remainder of the Plan Year for which the contribution is allocated. For non-participant directed investment disclosure purposes in Note 3, we considered all Regions common stock to be non-participant directed. Effective the first day of the following Plan year, the participant may transfer such prior year matching contribution into any other available investment option in accordance with the terms of the Plan.

An employee may also elect a rollover contribution, which is not matched by the Company. An employee receiving a lump sum distribution from a qualified retirement plan may choose to invest all or part of that distribution in the Plan.

The Company may also elect to contribute an additional discretionary amount to the Plan. No such additional contributions were made during the years ended December 31, 2004.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. Any amounts forfeited during the Plan year are first made available to reinstate previously forfeited balances of former participants. Remaining forfeitures, if any, are allocated to satisfy expenses associated with the Plan. To the extent that forfeitures exceed expenses, amounts are allocated to participant accounts entitled to such an allocation.

2. Description of the Plan (continued)

The Company did not use any forfeited balances of terminated participants' nonvested accounts to reduce Company match contributions. The remaining balance in the forfeitures account was \$3,187,403 as of year end. Upon retirement, total disability or death, participants or their beneficiaries become eligible for distribution within 30 days of the qualifying event. Upon termination, participants become eligible for distribution within 30 days following the end of the month of such termination.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's 401(k) matching contribution portion of their accounts plus actual earnings thereon is based on three years continuous service. Total vesting also occurs upon total disability, death, retirement or other events as defined by the Plan.

Participant Loans

The Plan Administrator may make loans to Plan participants only for purposes of purchasing a primary residence or for post-secondary education for themselves or an immediate family member. A loan shall be allowed one time in order to prevent foreclosure of a primary residence or personal bankruptcy. In no case may a loan exceed 50% of the vested account balance, nor may any loan exceed \$50,000. Loans typically bear interest at the UPBNA consumer prime rate (floating) and must be repaid in accordance with Plan guidelines. Repayments are typically made by regular payroll deduction. At December 31, 2004, outstanding loans had interest rates ranging from 4.5% to 10.5%, with original maturities of one to seven years.

Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

The employer contribution amounts related to these non-participant directed investments may not be transferred by participants until the earlier of reaching age 55, terminating employment or upon the participant's death. ## 3. Investments (continued)

Information about the significant components of changes in net assets related to the nonparticipant-directed investments is as follows:

	Year Ended December 31, 2004
Change in non-participant directed common stock:

	<u>\$ 25,554,690</u>

## 4. Income Tax Status

The Plan has received a favorable determination letter from the Internal Revenue Service dated September 28, 2002, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is tax exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended and restated, is qualified and the related trust is tax exempt.

## 5. Transactions with Parties-In-Interest

During the years ended December 31, 2004 and 2003, substantially all investment transactions were with investment funds managed by Regions Morgan Keegan Trust and are therefore related party transactions. In addition, common stock of the Company is included in the Plan's net assets.

## 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
