Forward-Looking Statements

This Report on Economic and Financial Analysis contains forward-looking statements relating to our business, which are based on management's current expectations, estimates and projections about future events and financial trends, which could affect our business. Words such as: believes, anticipates, plans, expects, intends, aims, evaluates, predicts, foresees, projects, guidelines, should and similar expressions are intended to identify forward-looking statements. These statements however, are not guarantees of future performance and involve risks and uncertainties, which are difficult to predict and which could be beyond our control. Furthermore, certain forward-looking statements are based on assumptions which, depended on future events, may prove to be inaccurate. Therefore, actual results may differ materially from the plans, objectives, expectations, projections and intentions expressed or implied in such forward-looking statements.

Factors which could modify actual results include, among others, changes in regional, national and international commercial and economic conditions; inflation rates; increase in customer delinquency on the account of borrowers and any other delays in loan operations; increase in the allowance for loan losses; loss of funding capacity; loss of clients or revenues; our capacity to sustain and improve performance; changes in interest rates which could, among others, adversely affect our margins; competition in the banking sector, in financial services, credit card services, insurance, asset management and other related sectors; government regulations and fiscal matters; disputes or adverse legal proceedings or ruling; as well as credit risks and other loan and investment activity risks.

Accordingly, the reader should not place excessive reliance on these forward-looking statements. These statements are valid only as at the date they are made. Except as required under applicable legislation, we assume no obligation whatsoever to update these statements, whether as a result of new information, future events or any other motive.

Risk Factors and Critical Accounting Practices

We transcribe below the annual report filed with the SEC Risk Factors and Critical Accounting Practices sections of Form 20-F, to assure Bradesco's adherence to best international practices for transparency and corporate governance, describing the risk factors and the critical accounting practices which we consider most significant and which could affect our daily business, the results of our operations or our financial position. We stress that Bradesco addresses the management of all risks inherent to its activities in a complete and integrated manner. This integrated approach facilitates the improvement of risk management models and avoids the existence of any gap that could jeopardize the correct identification and assessment of these risks.

Risks Relating to Brazil

1) Brazilian political and economic conditions have direct impact on our business and on the market price of our stocks and ADSs

All of our operations and clients are mainly located in Brazil. Accordingly, our financial condition and results of operations are substantially dependent on Brazil's economy, which in the past has been characterized by frequent intervention by the Brazilian Government and volatile economic cycles. In addition, our financial condition and the market price of our stocks and ADSs may also be adversely affected by changes in policy involving exchange controls, tax and other matters, as well as factors such as: fluctuations in exchange rates, interest rate, inflation rates, and other political, diplomatic, social and economic developments within and outside of Brazil that affect the Country.

In the past, the Brazilian Government has often changed monetary, fiscal and taxation policies to influence the course of Brazil's economy. We cannot predict which measures or policies the Brazilian Government may take in response to the current or future situation of the Brazilian economy or how the Brazilian government intervention and government policies will affect the Brazilian economy and, both directly and indirectly, our operations and revenues.

2) If Brazil undergoes a period of high inflation in the future, our revenues and the market price of our stocks and ADSs may be reduced

In the last 15 years, Brazil has undergone extremely high inflation rates, with annual rates (IGP-DI from Getulio Vargas Foundation) reaching as high as 1,158% in 1992, 2,708% in 1993 and 1,093% in 1994. More recently, Brazil's inflation rates were 7.7% in 2003, 12.1% in 2004 and 1.2% in 2005. Inflation and governmental measures to combat it have had in past years significant negative effects on the Brazilian economy. In addition, public speculation about possible future actions have also contributed to economic uncertainty in Brazil and to heightened volatility in the Brazilian securities markets. If Brazil suffers a period of high inflation in the future, our costs may increase, our operating and net margins may decrease and, if investor's confidence lags, the price of our stocks and ADSs may drop. Inflationary pressures may also curtail our ability to access foreign financial markets and may occasionally lead to further government intervention in the economy, including the introduction of government policies that may adversely affect the overall performance of the Brazilian economy.

3) Access to international capital markets for Brazilian companies is influenced by the perception of risk in emerging economies, which may harm our ability to finance our operations

Since the end of 1997, and in particular during the last five years, as a result of economic problems in various emerging market countries, including the economic crisis in Argentina, investors have had a heightened risk perception for investments in emerging markets. As a result, in some periods, Brazil has experienced a significant outflow of U.S. dollars, while Brazilian companies have borne higher costs to raise funds, both domestically and abroad, and have been impeded from accessing international capital markets. We cannot assure you that international capital markets will remain open to Brazilian companies or that prevailing interest rates in these markets will be advantageous for us.

4) Developments in other emerging markets may adversely affect the market price of our stocks and ADSs

The market price of our stocks and ADSs may be adversely affected by declines in the international financial markets and world economic conditions. Brazilian securities markets are influenced by the local economy and other emerging countries, especially those in Latin America, including Argentina, which is one of Brazil's principal trading partners. Although economic conditions are different in each country, investors' reaction to developments in one country may affect the securities markets and the securities of issuers in other countries, including Brazil.

Occasionally, developments in other countries have adversely affected the market price of our and other Brazilian companies' stocks, as investors' high risk perception due to crisis in other emerging markets may lead to reduced levels of investment in Brazil and, in addition, may hurt our ability to finance our operations through the international capital markets. If the economic situation in Argentina and Latin America deteriorates, or if similar developments occur in the international financial markets in the future, the market price of our stocks and ADSs may be adversely affected.

Risks Relating to Bradesco and the Brazilian Banking and Insurance Industries

1) The Brazilian Government regulates the operations of Brazilian banks and insurance companies, and changes in prevailing laws and regulations or the imposition of new ones may adversely affect our operations and results

Brazilian banks and insurance companies are subject to extensive and continuous regulatory review by the Brazilian Government. We have no control over government regulations, which govern all facets of our operations, including the imposition of minimum capital requirements, compulsory deposits, loan limits and other loan restrictions.

The regulatory structure governing Brazilian banks and insurance companies is continuously evolving. Existing laws and regulations could be amended. Besides, the enforcement or interpretation of laws and regulations could change, and new laws and regulations could be adopted. Such changes could materially affect in a negative manner our operations and our results.

Regulatory changes affecting other businesses in which we are engaged, including our broker dealer, consortium and leasing operations, could also have an adverse effect on our operations and our results.

2) The increasingly competitive environment in the Brazilian bank and insurance industries may adversely affect our business prospects

We face significant competition in all of our principal areas of operation from other large Brazilian banks and public and private insurance companies. Brazilian regulations raise limited barriers only to market entry and do not differentiate between local or foreign commercial and investment banks and insurance companies. As a result, the growing presence of foreign banks and insurance companies in Brazil, some of which have greater resources than we do, has grown the competition both in the banking and insurance sectors. The privatization of publicly-owned banks has also made the Brazilian markets for banking and other financial services more competitive.

The increased competition may negatively affect our business results and prospects by, among other things: limiting our ability to increase our customer base and expand our operations; reducing our profit margins on the banking, insurance, leasing services and other products we offer; and increasing competition for foreign investment opportunities.

Furthermore, additional publicly-owned banks and insurance companies may be privatized in the future. The acquisition of a bank or insurance company in a privatization process by one of our competitors would generally add to the acquirers' market share, and as a result we may face increased competition from the acquirer.

3) The majority of our common stocks are held by two stockholders, whose interests may conflict with other investors interests

On September 30, 2006 Cidade de Deus Companhia Comercial de Participações held 48.44% of our common stocks and Fundação Bradesco directly and indirectly held 46.59% of our common stocks. As a result, these stockholders have the power to prevent a change in control of our company, even if a transaction of that nature would be beneficial to our other stockholders, as well as to approve related-party transactions or corporate reorganizations.

Critical Accounting Practices

Bradesco's results are susceptible to accounting policies, assumptions and estimates. It is incumbent upon the Management to adopt proper accounting policies and provide reasonable and suitable judgments and estimates when preparing the financial statements.

Our relevant accounting policies are outlined in the note 3 to the consolidated financial statements included in chapter 8 of this Report.

The following 5 items outline the accounting policies deemed as critical, in terms of materiality, as well as areas requiring a greater judgment and estimate or involving a higher level of complexity, affecting our financial condition and the results of our operations. The accounting estimates made under such context impel us to make assumptions on highly uncertain issues. In each case, if we had made other estimates, or if changes in estimates had occurred period by period, these could have significantly impacted our financial condition or the results of our operations:

1) Allowance for Loan Losses

We periodically adjust our allowance for loan losses and leasing based on the analysis of our portfolio, including probable losses estimate in these segments at the end of each period.

The determination of allowance for loan losses amount by its nature requires us to make judgments and assumptions related to our loan operations portfolio, not only on an individual basis, but also on a portfolio basis. When we revise our portfolio as a whole, various factors may affect our estimate of probable extension of losses, including the methodology we use to measure historical rates of delinquency and the historical period we take into account in such measurements. When we revise loan operations on an individual basis, we make judgments related to the factors, which most probably should affect the risk levels and which specific credit rating we should attribute. Additional factors, which may affect our determination of allowance for loan losses include:

- general economic conditions in Brazil and conditions of relevant sector;
- previous experience with borrower or relevant sector of economy, including losses recent experience;
- credit quality trends;
- guarantees amounts of a loan operation;
- volume, composition and growth of our loan operations portfolio;
- Brazilian Government's monetary policy; and
- any delays when receiving information necessary to assess loan operations or confirm the deterioration of existing credit.

Our determination of allowance for loan losses is influenced by the risk rating of each loan operation. By assuming a positive fluctuation of 1.0% in delinquency rate expected for our loan operations portfolio in full performance on September 30, 2006, the allowance for loan losses would increase approximately R\$37 million. Such sensitivity analysis is hypothetical and intends to illustrate the risk rating and loss severity impact on our allowance for loan losses. The analysis should not be considered as an observation of our expectations for future determinations of risk rating or future alterations in loss severity. In view of the procedures we observe, in order to determine our risk rating of loan portfolio and our assessment of loss severity, we believe that the current risk rating and the estimate of loss severity for our loan portfolio are appropriate.

For further information about our practices referring to the allowance for loan losses, see content of loan operations included in Chapter 3 of this Report and notes 3e and 10 included in the Chapter 8 hereof.

2) Assessment of Securities and Derivatives

The financial instruments recorded at fair value in our financial statements mainly include securities classified as for trading, available for sale and other trading assets, including derivatives. The fair value is defined as the value in which a position could be closed or sold in a transaction with a party aware of the issue and willing to trade, without any benefit.

We estimate the fair value by using market-quoted prices when available. We observe that the fair value may be affected by the volume of shares traded and also may not reflect the control premiums resulting from shareholders agreements, those holding significant investments. However, the Management believes that market-quoted prices are the fair value best indicators.

When market-quoted prices are not available, we use models to estimate the fair value. The factors used in these models include distributors' quotations, pricing models, prices of instruments with similar characteristics and discounted cash flows. The pricing based on models also uses information about interest rates, exchange rates, options volatility, when these are relevant and available.

In the determination of fair value, when market-quoted prices are not available, we have the Management's judgment, since the models depend on our judgment concerning the weight to be attributed to different factors and the quality of information we receive. For instance, reliable market data, when estimating the impact of maintaining a high position are generally limited. Likewise, we use our judgment in the estimate of prices when there is no external parameter. Should we make incorrect assumptions or the model itself makes correlations or incorrect assumptions, the value of income or loss recorded for a specific asset or liability may be improper. The judgment shall also determine if a decline in fair value below the up-to-date cost of a security held to maturity or security available for sale is not temporary, so that to require we recognize a devaluation of up-to-date cost and we may reflect such reduction as expense. In the assessment, if devaluation is not temporary, the Management decides the historical period to be considered and the level of severity of a loss.

Such assessment methods may lead Bradesco to different results, if models used or assumptions and estimates are inaccurate.

For further information about our practices referring to the assessment of securities and derivative financial instruments, see notes 3c, 3d and 8 included in the Chapter 8 of this Report.

3) Classification of Securities

The classification of securities occurs in three categories: for trading, available for sale and held to maturity. This classification is based on the Management's intent, on the date of acquisition of securities, of maintaining or trading such securities. The accounting treatment of securities held depends on our decision to classify them upon their acquisition. Circumstantial changes may modify our strategy related to a specific security, which will require a transfer among the three categories. The classification of securities can be found in the note 8 included in the Chapter 8 of this Report.

4) Taxes on Income

The determination of the amount of our taxes and contributions is related to the analysis of our deferred tax assets and liabilities, and taxes on income payable. Generally, our assessment requires us to estimate the future values of deferred tax assets and taxes on income payable. Our assessment about the possibility of a deferred tax asset to be realized is subjective and involves evaluations and assumptions originally uncertain. The realization of deferred tax assets is subject to alterations in future tax rates and the development of our tax planning strategies. The support to our assessments and assumptions may change over time, as a result of occurrences or unpredictable circumstances, influencing our determination of value of our tax liabilities.

Constantly we monitor and assess the impact of new tax laws on our liabilities, which could affect the assessments and assumptions of our analysis about the possibility of realizing deferred tax assets. For further information about Bradesco's taxes on income, see notes 3f and 34 to our financial statements included in the Chapter 8 of this Report.

5) Use of Estimates

Our Management estimates and makes assumptions, which include the amount of provisions for deferred taxes, the assumptions for the calculation of allowance for loan losses, the assumptions for calculations of technical provisions for insurance, private pension plans and certificated savings plans, the choice of useful lives of certain assets and the determination if an asset or group of specific assets was deteriorated. The estimates are based on the judgment and

available information. Therefore, actual results may differ from such estimates.

Corporate Strategy

We understand that the expansion of the Brazilian economy will stimulate a solid growth in a portion of the population needing financial services, and accordingly, an expansion of demand for such services. Under such context, our main objective is to maintain the focus on the domestic market and take advantage of our position, as the largest private bank in Brazil, to expand profitability, maximizing value to our stockholders and generating higher returns compared to other Brazilian financial institutions.

We intend to achieve such goals with a strategy not only to continuously expand our customer base, but also to consolidate our role as the priority bank of each of our clients, so that to be the first option of all our clients towards all their financial services needs. Our goal is to be a Banco Completo (all-inclusive Bank) in the Brazilian market. In this regard, we strive to maintain a remarkable presence in every line of financial services.

In the banking segment, we aim at rendering the most varied range of services as retail bank, supported by a staff with more than 78 thousand employees, a wide service network, including our branches, corporate site branches, Banco Postal and correspondent banks, besides the ATMs, always concerned with the expansion of business volume. We are also focused on expanding our businesses as a wholesale bank in all its aspects (investment bank and corporate business) and expand our private banking business.

In the insurance segment, we intend to consolidate Bradesco Seguros e Previdência leadership, and in relation to the supplementary private pension segment, we intend to take advantage of our ongoing expansion of demand for our private pension products.

In every line of our operation, we intend to stand out and be recognized by our clients as leaders in terms of performance and efficiency.

We understand that the essence of business success in the financial sector consists of the combination between winning the client and a team highly qualified and devoted to the rendering of services, permanently trained and with rigid discipline standards at work. Our growth plans are not only translated into seeking the addition of new clients but also are focused on the frequent improvement of products and distribution channels. It is also fundamental to promote the business, the treatment given to our team in terms of qualification, promotion and creation of a solidarity culture at work, with a view to fomenting an environment where our employees may develop a career enduring during their entire professional life. Finally, the main component of our philosophy is to conduct the business according to the highest ethical standards. Therefore, our strategy is always guided by seeking the best Corporate Governance practices and by the understanding that Bradesco, besides being a source of profits to its stockholders, should also be a building element in the Society.

The key elements of our business strategy are:

- expansion by means of organic growth;
- performance based on the business model of a large banking institution, having as subsidiary an important insurance company, which we name as Modelo Banco-Seguros (Insurance Bank Model), with a view to maintaining our profitability and consolidate our leadership in the insurance industry;
- increase of revenues, profitability and value to stockholders, by consolidating our loan operations, our main activity, and the expansion of new products and services;
- maintenance of our commitment to the technological innovation;
- obtain profitability and return to the stockholders by means of improved efficiency ratio;
- maintain acceptable risk levels in our operations; and expansion by means of strategic alliances and selective acquisitions, when these are beneficial.

1) To expand main business areas by means of organic growth

The Brazilian economy has been showing solidity over the past years and has been creating strategic opportunities for financial and insurance segments growth, mainly by means of increased business volume. We intend to take advantage of such opportunities to increase our revenues, obtain profitability and maximize value to the stockholders, as outlined as follows:

benefiting from the opportunity in the Brazilian markets to obtain new clients with loan and financial needs only partially met, incrementing the competition for a small level of clients with higher income levels;

expanding our financial services distribution, by using creativity in developing new products, solidly employing non-traditional means, for instance, to expand our credit cards offer and extension of loan granting to stores, by utilizing alliances with such stores and rendering services via the Banco Postal;

using the distribution channels in benefit of the Bank, including our traditional branch network and technology to access the Internet in order to identify demand for new products;
offering our customer base, broadly, our products and services;
using the systems of our branches, with a view to assessing and monitoring the use of our products by clients, so that to drive them to the appropriate commercialization platforms; and
developing varied products, in compliance with the needs of our current and potential clients.

2) To operate based on the Insurance Bank Model, in order to maintain the profitability and consolidate Bradesco's leadership in the insurance industry

Our goal is to be the priority bank of our clients, thus increasing attendance according to their banking, insurance and private pension needs. We believe to be in a privileged position to capitalize the synergy among banking, insurance, private pension services and other financial activities in order to sell our traditional banking products and insurance and private pension products, by means of our branch network, our brokers and dealerships network, distribution services via the Internet and our creativity in developing new distribution channels.

Concurrently, we aim at increasing profitability levels of insurance and supplementary private pension plans segments, by using the profitability measure rather than the volume of underwritten premium or amounts deposited, as observed as follows:

- maintaining our current policy of carefully assessing the car insurance risks and rejecting them in events where risks are too high;
- intensively trading our products; and
- maintaining acceptable risk levels in our operations by means of a strategy of :

- setting priorities to insurance underwriting opportunities, according to the risk spread between the revenue expected pursuant to the terms of insurance agreement and the amount of projected claims (statistically) to be due under the terms of such agreement;

- carrying out hedge transactions, so that to set out the mismatch between the real inflation index and provisions for adjustments of interest rates and inflation in long-term agreements; and

- entering into reinsurance agreements with renowned reinsurance companies, executed by means of IRB-Brasil Resseguros (IRB), viewing to reducing the exposure to great risks.

3) Increased revenues from banking activities, profitability and value to stockholders, by reinforcing loan operations and expanding new products and services

We are concerned with the increase of revenues and profitability in our banking operations, with the following measures:

- carry out our traditional deposit-taking activities and loan operations, continuously seeking to improve the quality of our loan portfolio, by means of risk mitigation plans and improvement in the assessment of loan granting ratings;

- build our customer base, legal entities and individuals, by offering services meeting the needs of specific clients, including foreign exchange services and import/export financing;

- intensively seek the development of paid services based on fees, such as collection and payment processing for current and potential clients;

- expand our financial services and products distributed out of our conventional means of branches, such as credit card activities, taking advantage of change in the consumers' behavior concerning the financial services consumption;

- increase our revenues from assets management and private pension plans; and

- continuously build our high income customer base, by providing a varied range of tailor-made financial products and services, and offering maximum efficiency in the assets management.

4) To maintain Bradesco's commitment to technological innovation

The development of efficient means to reach clients and to process operations is a key element of our goal to increase our profitability and thus obtain coordinated growth opportunities. Recently, Bradesco resolved to reinforce such strategy with the challenge of changing our technological model, with a view to definitively maintaining Bradesco's market leadership in the industry in terms of technology. Thus, Bradesco set a task force devoted to the advance of our profile and public perception towards technology.

We believe that technology offers unequalled opportunities to reach our clients efficiently in terms of costs. We maintain the commitment of being ahead in the banking automation process, by creating opportunities to the Brazilians to contact us via the Internet. We expect to continue increasing the number of clients and operations carried out through the Internet, by means of techniques, such as:

by continuously installing stations of access to the Internet (Web Points) in public sites, allowing clients to use our banking system via the Internet, whether or not they have access to a personal computer;

by enlarging our mobile banking service (Bradesco Mobile Banking), allowing clients to carry out their banking operations via the Internet, with compatible mobile phones; and

by providing Pocket Internet Banking for palmtops and Personal Digital Assistants (PDAs) allowing our clients to see their checking and savings accounts, credit card transactions, provide for payments, transfer funds and also obtain institutional information.

5) To obtain profitability and return to stockholders by improving the efficiency ratio

We intend to improve our efficiency levels:

by maintaining the austerity as guideline for our cost control policy;

by consolidating the synergies enabled by our recent acquisitions;

by still reducing our operational costs, by means of technology investments, decreasing the costs per transaction, always maintaining our automated distribution channels updated, including our distribution systems by phone, Internet and teller machines; and

by still incorporating institutions to be acquired in our existing system, in order to remove potential overlaps, redundancies and inefficiency.

6) To maintain acceptable risk levels in our operations

Bradesco is constantly identifying and assessing the risks inherent to the activities we developed and we maintain proper controls, ensuring the conformity with processes and capital efficient allocation, with a view to maintaining levels similar to international standards, as well as to obtain competitive advantages.

7) To enter into strategic alliances and selective acquisitions

We understand that the expansion phase of Brazilian financial institutions will occur due to organic growth over the next years. In addition, we believe that acquisition opportunities will be smaller size institutions, mainly available by means of privatizations. Notwithstanding, we deem that certain institutions, susceptible to be acquired, could present niche opportunities, such as consumer financing, credit cards and investment bank. Therefore, we continuously evaluate potential strategic alliances as well as consolidation opportunities, including privatization and acquisitions proposals, and other forms, which offer potential opportunities to Bradesco increase its market share or improve its efficiency. Besides focusing on the value and the quality of assets, Bradesco takes into account potential operating synergies, crossed sales opportunities, know-how acquisitions and other advantages of potential alliance or acquisition. Our analysis of potential opportunities is guided by the impact these would have over our results.

- (1) the partial result of derivatives used for hedge effect of investments Abroad, which in terms of Net Income, simply annuls the fiscal and tax effect (IR/CS and PIS/COFINS) of the hedge strategy;
- (2) the extraordinary provision in the Individual Health portfolio, to equate the level of premiums for insurance holders above 60 years old of plans prior to Law 9,656/98 and for the benefits related to *planos remidos*, which was offset by the positive result reached in the disposal of part of our stake in Belgo-Mineira in the period of 2005;
- (3) the supplementary constitution of provision for labor proceedings, due to CVM Resolution #489, which was fully offset by the activation of fiscal credits of previous periods, in the amount of R\$204 million and by R\$105 million of the fiscal credit of the expense of the provision for labor proceedings; and
- (4) full goodwill amortization in subsidiaries made in 3Q06.

Bradesco's net income reached R\$4,743 million, accounting for a 17.1% increase in relation to net income of the same period of the previous year. Bradesco's Stockholders' Equity amounted to R\$21,773 million as of September 30, 2006, equivalent to a 19.2% increase compared to the balance as of September 30, 2005. Consequently, the annualized return on Stockholders' Equity (ROE) reached 30.1%. Total consolidated assets reached R\$243,192 million as of September 30, 2006, a 20.4% growth in relation to the balance of same date of the previous year. The annualized return on total assets (ROA), in the period of 2006, was 2.6%. Earnings per stock reached R\$4.84.

The main items influencing net income in the nine months of 2006 compared to the same period of the previous year can be seen below:

(a) Net Interest Income R\$2,848 million

Such growth is basically due to interest component, with a share of R\$2,266 million, mainly caused by an increment in the business volume, pointing out a 27.0% increase in the volume of loan operations for individuals in the 12-month period ended on September 30, 2006, mainly concerned with consumer sales and personal loan financing, the spread of which is higher when compared to the corporate portfolio. In the non-interest component, with a share of R\$582 million, the highlight was for the largest gains of TVM and treasury in the nine months of 2006.

(b) Allowance for Doubtful Accounts R\$1,486 million

The variation is mostly due to a 22.3% increase in the volume of loan operations in the 12-month period ended on September 30, 2006, pointing out the individual client operations, with an increase of 27.0%, mainly under the type personal loan, which in view of its specific characteristic requires a higher volume of provision, as well as the increase of the delinquency ratio, as noticed in all Brazilian Financial System.

(c) Income from Insurance, Private Pension Plan and Certificated Savings Plans Operations R\$323 million

The evolution is mostly due to: (i) the recovery in sales of the products VGBL and PGBL; (ii) the increase in the production of products of the corporate plan of the Health segment; (iii) the increase in the production of popular products of the Life segment; mitigated: (iv) by the complementation of the premiums provision in the Individual Health portfolio.

(d) Fee and Commission Income R\$1,135 million

The increase in the period is mainly due to a higher volume of operations, combined with the improvement in the segmentation process and BEC and Amex Brasil consolidation, pointing out the items Checking Accounts , Income from Cards , Loan Operations and Fund Management .

(e) Personnel, Administrative and Tax Expenses R\$(1,287) million

Out of such amount, R\$522 million of personnel expenses is basically due to: (i) the increase in salary levels resulting from the collective bargaining agreement of 2005, which had an impact of 8 months compared to 2005; (ii) the increase in the salary levels resulting from the 2006 collective bargaining agreement; (iii) the higher expenses with provision for labor proceedings (normal) in the period of 2006; and (iv) the consolidation of BEC and Amex Brasil.

The R\$496 million of other administrative expenses basically refer to: (i) the effects on increased volume of business; (ii) the consolidation of BEC and Amex Brasil in 2006; and (iii) contractual adjustments in the period.

The R\$269 million of tax expenses derive basically from the increase of PIS/COFINS expenses, due to the increase in taxable income in the period of 2006 compared to the same period of 2005.

(1) partial result of derivatives used for hedge effect of investments Abroad, which in terms of Net Income, simply annuls the fiscal and tax effect (IR/CS and PIS/COFINS) of this hedge strategy;

(2) supplementary constitution of provisions for labor proceedings, according to CVM Resolution #489 made in the 3rd quarter of 2006, which was offset by activation of fiscal credits of previous periods, in the amount of R\$204 million and by R\$105 million of the fiscal credit of the expense of the provision for labor proceedings; and

(3) full goodwill amortization in subsidiaries made in 3Q06.

In the 3rd quarter of 2006, Bradesco's Adjusted Net Income reached R\$1,611 million, which corresponds to a 0.6% growth when compared to the 2nd quarter of 2006. Bradesco's Stockholders' Equity amounted to R\$21,773 million on September 30, 2006, a 1.5% increase in relation to June 30, 2006. Total consolidated assets reached R\$243,192 million at the end of the 3rd quarter of 2006, growing 4.4% in the quarter. The main items influencing net income in the 3rd quarter of 2006 compared to the same period of the previous quarter can be seen below:

(a) Net Interest Income R\$(84) million

Such variation is basically due to non-interest component, with a reduction of R\$293 million, motivated by lower treasury and TVM gains in the quarter, mostly due to the negative adjustment of mark-to-market of derivative financial instruments used as market risk hedge of loan operations in the country, offset by interest component, with an evolution of R\$209 million resulting, basically, from a business volume expansion, pointing out a 3.4% increase in the volume of loan operations for individuals, mainly concerned with products related to consumer financing.

(b) Allowance for Doubtful Accounts R\$(53) million

The variation is mainly due to the growth of 3.8% in the volume of loan operations in the 3rd quarter of 2006, mainly operations for individuals, specially for the personal loan category, due to its specific characteristics, which requires a higher volume of provision, **mitigated** by the stable increase of the delinquency ratio.

(c) Income from Insurance, Private Pension Plans and Certificated Savings Plans Operations R\$86 million

The evolution is mainly due to: the constitution of additional technical provision in the Individual Health portfolio in the 2nd quarter of 2006 R\$95 million.

(d) Fee and Commission Income R\$252 million

The increase is mostly due to an expansion in the volume of operations in the quarter, jointly with the consolidation of Amex Brasil R\$130 million in the quarter.

(e) Personnel, Administrative and Tax Expenses R\$(246) million

Out of this amount, R\$115 million of personnel expenses is basically due to: (i) the 2006 collective bargaining agreement which affected expenses in R\$87 million; and (ii) higher expenses in view of the consolidation of Amex Brasil R\$36 million.

Out of this amount, R\$132 million of administrative expenses is basically due to the increase in business volumes, jointly with the consolidation of Amex Brasil at the amount of R\$75 million.

Bradesco Stock Performance

The first nine months of 2006 were highlighted by the volatility of the emerging markets, partially due to uncertainties about the performance of the US economy, taking the investor to the realization of accumulated gains to invest them in markets with lower risks.

The end of the tightening cycle of the North American monetary policy during the 3rd quarter jointly with signs that the US economy shall not undergo a strong slowdown in its growth rhythm made flows regain power, in a rhythm slower than the one previously observed, causing an improvement in the Brazilian market performance.

Concerning the banking sector, also during the 3rd quarter, additionally there was an improvement in the perception in relation to the sector's foundations, specially in relation to the default index. Thus, Bradesco's preferred stocks appreciated 7.8% (adjusted by dividends) in the first nine months of the year, against a 8.9% positive performance of Ibovespa.

Analysis of the Statement of Adjusted Income R\$ million

Income from Loan Operations and Leasing Result

| 2005 | September YTD | | 2 nd Qtr. | 2006 | |
|--------|---------------|-------------|----------------------|----------------------|-------------|
| | 2006 | Variation % | | 3 rd Qtr. | Variation % |
| 11,793 | 15,396 | 30.6 | 5,317 | 5,430 | 2.1 |

In the period, income was up basically as a result of: (i) the increase in the volume of the loan portfolio, which totaled R\$92,013 in September/06 against R\$75,244 in September/05, i.e., a 22.3% increase, particularly in the individual client portfolio, up by 27.0%, which shows higher profitability than corporate portfolio, pointing out

Auto and Personal Loan products, while in the corporate portfolio there was an increase of 19.1%, pointing out

BNDES Onlending and Operations Abroad products; (ii) lower exchange loss variation of 7.1% in the period/06, against an exchange loss variation of 16.3% in the period/05, affecting foreign currency indexed and/or denominated operations, which comprise 9.2% of total Loan and Leasing Operations, basically derived from corporate portfolio (excluding Advances on Foreign Exchange Contracts (ACC)); which was partially offset: (iii) by the decrease in average interest rates, observing the 11.5% CDI variation in the period/06, against 14.1% in the period/05.

The variation in income in the quarter was mainly due to: (i) an increase of 3.8% in the loan portfolio volume, which reached the amount of R\$92,013 in September/06, against R\$88,643 in June/06, pointing out the individual client portfolio, with a growth of 3.4%, which shows higher profitability than the corporate portfolio, pointing

out the products connected to the consumer financing, while in the corporate portfolio, there was an increase of

4.1%, pointing out Operations Abroad and BNDES Onlendings products, and (ii) lower exchange gain variation of 0.5% in 3Q06, against exchange loss variation of 0.4% in 2Q06, affecting our foreign currency indexed and/or denominated operations, comprising 9.2% of total Loan and Leasing Operations, basically derived from the corporate portfolio (excluding Advances on Foreign Exchange Contracts (ACC)), which was partially mitigated: (iii) by a drop in the average interest rates, observing the 3.5% CDI variation in 3Q06, against 3.6% in 2Q06.

Income from Operations with Securities (TVM) and Derivative Financial Instruments

| 2005 | September YTD | | 2 nd Qtr. | 2006 | |
|-------|---------------|-------------|----------------------|----------------------|-------------|
| | 2006 | Variation % | | 3 rd Qtr. | Variation % |
| 5,180 | 6,006 | 15.9 | 2,061 | 2,097 | 1.7 |

The increase in income in the period is basically due to: (i) higher non-interest income gains of R\$529; (ii) lower exchange loss variation of 7.1% in the period/06, against an exchange loss variation of 16.3% in the period/05, impacting on the foreign currency indexed and/or denominated operations, comprising 9.1% of the portfolio; which was offset: (iii) by the reduction in the average interest rates, observing the 11.5% CDI variation in the period/06, against 14.1% in the period/05.

The variation in income in the quarter is mainly due to: (i) the lower exchange gain variation of 0.5% in 3Q06, against exchange loss variation of 0.4% in 2Q06, impacting on the foreign currency indexed and/or denominated operations, comprising 9.1% of the portfolio; offset by: (ii) a reduction in the average interest rates, observing the 3.5% CDI variation in 3Q06, against 3.6% in 2Q06; and (iii) lower non-interest income gains, basically due to the negative adjustment of mark-to-market of derivative financial instruments used as market risk hedge of loan operations in the country.

Financial Income on Insurance, Private Pension Plans and Certificated Savings Plans

| | September YTD | | | 2006 | |
|-------|---------------|-------------|----------------------|----------------------|-------------|
| 2005 | 2006 | Variation % | 2 nd Qtr. | 3 rd Qtr. | Variation % |
| 4,422 | 5,047 | 14.1 | 1,623 | 1,591 | (2.0) |

The growth in the period was basically due to: (i) an increase in the volume of the securities portfolio, mainly comprising federal government bonds, which are linked to technical provisions, especially VGBL and PGBL products; (ii) a higher IGP-M variation of 2.3% in the period/06, against 0.2% in the period/05; (iii) higher non-interest income of R\$314 in the period/06, against R\$217 in the period/05, arising from higher gains of securities; partially mitigated by: (iv) the reduction in the average interest rates, observing the 11.5% CDI variation in the period/06, against 14.1% in the period/05.

The decrease in the quarter was substantially due to: (i) a decrease in the average interest rates, observing the 3.5% CDI variation in 3Q06, against 3.6% in 2Q06; (ii) the \$124 drop of non-interest income resulting from lower gains with securities; partially mitigated: (iii) by increase in the volume of securities portfolio, mainly comprising federal government bonds, which are linked to technical provisions, especially VGBL and PGBL products.

Foreign Exchange Transactions

| | September YTD | | | 2006 | |

This item should be analyzed deducted from expenses with foreign funding, used for import/export operation financing, in accordance with Note 11a. After the deductions, the result would be R\$170 in the period/05 and R\$255 in the period/06, mostly influenced by an increase in the average volume of foreign exchange portfolio in the period.

This item should be analyzed deducted from expenses with foreign funding, used for import/export operation financing, in accordance with Note 11a. After such deductions, the result would be R\$86 in 2Q06 and R\$96 in 3Q06, mostly influenced by an increase in the average volume of foreign exchange portfolio in the quarter.

Compulsory Deposits

| | September YTD | | | 2006 | |
|-------|---------------|-------------|----------------------|----------------------|-------------|
| 2005 | 2006 | Variation % | 2 nd Qtr. | 3 rd Qtr. | Variation % |
| 1,131 | 1,012 | (10.5) | 327 | 335 | 2.4 |

The variation in the period is basically due to: (i) a reduction in the SELIC rate of 11.5% in the period/06, against 14.1% in the period/05, used to remunerate the additional compulsory deposit; (ii) a reduction in Reference Rate TR from 1.6% in the period/06 against 2.2% in the period/05, which composes the remuneration of compulsory deposit over savings deposits; which was offset: (iii) by the increase in the average volume of deposits in the period.

The variation in the quarter is basically due to: (i) an increase in the average volume of deposits in the quarter; (ii) an increase in Reference Rate TR from 0.5% in 2006 to 0.6% in 3Q06; offset: (iii) by the reduction in SELIC rate from 3.6% in 2Q06 to 3.5% in 3Q06, used to remunerate the additional compulsory deposit.

Market Funding Operations Expenses

| | September YTD | | | 2006 | |

| 7,572 | 8,984 | 18.6 | 3,017 | 3,431 | 13.7 |

The variation in the period is mostly due to: (i) the increase in the average funding balance; (ii) lower exchange loss variation of 7.1% in the period/06, against exchange loss variation of 16.3% in the period/05, impacting the foreign currency indexed and/or denominated funding; which was offset by: (iii) reduction in the average interest rates, observing the 11.5% CDI variation in the period/06, against 14.1% in the period/05, mainly affecting the time deposits expenses and purchase and sale commitments; and (iv) a reduction in Reference Rate TR from 2.2% in the period/05 to 1.6% in the period/06, impacting on the remuneration of savings deposits.

The growth in the quarter mainly derives from: (i) the increase in the average funding balance in 3Q06; (ii) exchange gain variation of 0.5% in 3Q06, against exchange loss variation of 0.4% in 2Q06, impacting on the foreign currency indexed and/or denominated funding; which was offset: (iii) by reduction in the average interest rates, observing the 3.5% CDI variation in the 3Q06, against 3.6% in 2Q06, mainly affecting the time deposits expenses and purchase and sale commitments.

Price-level Restatement and Interest on Technical Provisions for Insurance, Private Pension Plans and Certificated Savings Plans

| | September YTD | | | 2006 | |
|-------|---------------|-------------|----------------------|----------------------|-------------|
| 2005 | 2006 | Variation % | 2 nd Qtr. | 3 rd Qtr. | Variation % |
| 2,714 | 2,866 | 5.6 | 915 | 908 | (0.8) |

The increase in the period is basically due to: (i) higher average balance of technical provisions, especially PGBL and VGBL products; (ii) higher IGP-M variation of 2.3% in the period/06, against 0.2% in the period/05, one of the indexes which also remunerates the technical provisions; partially mitigated: (iii) by the reduction in the average interest rates, observing the 11.5% CDI variation in the period/06, against 14.1% in the period/05.

The decrease in the quarter is basically due to: (i) the drop in the average interest rates, observing the 3.5% CDI variation in 3Q06, against 3.6% in 2Q06; partially mitigated by: (ii) higher average balance of technical provisions, especially PGBL and VGBL products.

Borrowings and Onlendings Expenses

| | September YTD | | | 2006 | |
|------|---------------|-------------|----------------------|----------------------|-------------|
| 2005 | 2006 | Variation % | 2 nd Qtr. | 3 rd Qtr. | Variation % |
| 616 | 1,450 | 135.4 | 795 | 415 | (47.8) |

The variation in the quarter is mainly due to the lower exchange loss variation of 7.1% in the period/06, against exchange loss variation of 16.3% in the period/05, impacting on foreign currency indexed and/or denominated borrowings and onlendings, which represent 36.3% of the Borrowings and Onlendings portfolio.

The decrease in the quarter is basically due to the lower expense with bankers abroad R\$353, due to the lower volume of these operations.

Net Interest Income

| | September YTD | | | 2006 | |
|--------|---------------|-------------|----------------------|----------------------|-------------|
| 2005 | 2006 | Variation % | 2 nd Qtr. | 3 rd Qtr. | Variation % |
| 11,945 | 14,793 | 23.8 | 4,951 | 4,867 | (1.7) |

The variation of R\$2,848 in net interest income is composed of: (i) increase in interest income operations of R\$2,266, mainly due to a growth in the business volume; and (ii) higher non-interest income of R\$582, basically due to higher securities and treasury gains.

The variation of R\$(84) in net interest income is composed of: (i) the reduction in non-interest income of R\$293, mostly due to lower TVM and treasury gains, basically due to the negative adjustment of mark-to-market of derivative financial instruments used as market risk hedge of loan operations in the country; **offset:** (ii) by the increase in interest income operations of R\$209, mainly due to the growth in business volume.

Allowance for Doubtful Accounts Expenses

| | September YTD | | | 2006 | |
|-------|---------------|-------------|----------------------|----------------------|-------------|
| 2005 | 2006 | Variation % | 2 nd Qtr. | 3 rd Qtr. | Variation % |
| 1,737 | 3,223 | 85.5 | 1,116 | 1,169 | 4.7 |

The increased expense in the period of R\$1,486 is compatible with the performance of our loan portfolio, which evolved 22.3%, that is, R\$16,769, over the past 12 months, pointing out to the strong growth of the individual client portfolio with 27.0% or R\$8,245 in the period, jointly with the deterioration of the payment capacity of our clients-individuals.

We recorded surplus provision of R\$27 in 2Q06 and R\$12 in 3Q06. Excluding such effects, the expense would be R\$1,089 in 2Q06 and R\$1,157 in 3Q06, a R\$68 growth or 6.2%, according to the loan portfolio growth, mitigated by the stable delinquency ratio in 3Q06.

Fee and Commission Income

| | September YTD | | | 2006 | |
|-------|---------------|-------------|----------------------|----------------------|-------------|
| 2005 | 2006 | Variation % | 2 nd Qtr. | 3 rd Qtr. | Variation % |
| 5,339 | 6,474 | 21.3 | 2,091 | 2,343 | 12.1 |

The increase in the period is mainly due to a hike in the volume of operations, combined with a growth in the client base and improvement in the segmentation process, pointing out: (i) card income R\$288, basically by the consolidation of Amex Brasil in 3Q/06 R\$116; (ii) checking account R\$268; (iii) loan operations R\$191; (iv) assets under management R\$163; (v) collection R\$47; (vi) consortium management R\$41; and (vii) collection of taxes R\$36.

The variation in the quarter is mostly due to expansion of businesses, substantially reflecting on: (i) income on cards R\$160, basically by the consolidation of Amex Brasil in 3Q06 R\$116; (ii) checking account R\$22; (iii) assets under management R\$21; and (iv) loan operations R\$14.

Retained Premiums from Insurance, Private Pension Plans and Certificated Savings Plans

a) Retained Premiums from Insurance

| | September YTD | | | 2006 | | |
|-------|---------------|-------------|----------------------|----------------------|-------------|--|
| 2005 | 2006 | Variation % | 2 nd Qtr. | 3 rd Qtr. | Variation % | |
| 5,493 | 5,973 | 8.7 | 1,903 | 2,074 | 9.0 | |

The growth in the period basically resulted from: (i) the increase in Health insurance production, substantially due to the corporate plan R\$229; (ii) the increase in Life insurance production R\$122; (iii) the increase in DPVAT business volume R\$83; (iv) the recording, in the period/06 of premiums of effective and non-issued risks, which had its accounting system changed by means of the Circular SUSEP 314 in the Auto segment R\$91 and in the Basic Lines R\$30; partially **mitigated**: (v) by the reduction of Auto insurance production, due to the fee policy adjustment in search for a better profile of the insured, with the purpose of making the product more competitive and balance the portfolio result R\$68.

The growth in the quarter is mainly due to: (i) the recovery in the production of the Auto segment R\$84, due to the adjustment made in the tariff, which enabled the increase in production, mainly in the segment of passenger vehicles and light pick-ups, in addition to maintain the portfolio balance by the higher attractiveness for clients with a better profile; (ii) the increase in Health insurance sales, basically by the corporate plan, R\$27, due to the annual readjustment of the premiums by the variation of the medical-hospital costs; and (iii) the supplementary recording, in 3Q06, of premiums of effective and non-issued risks, which had its accounting system changed by means of the Circular SUSEP 314 in the Auto segment R\$65.

b) Private Pension Plans Contributions

| | September YTD | | | 2006 | | |

| 2,816 | 3,562 | 26.5 | 1,044 | 1,381 | 32.3 | |

The increase in the period is due to: (i) the recovery in the sales of VGBL R\$1,170; mitigated by: (ii) the increase in the volume of redemption of VGBL R\$398. The period/2005 was influenced by uncertainties generated by changes in the tax legislation, temporarily affecting business in that period.

N.B.: according to SUSEP, the recording of VGBL redemptions reduces the retained contributions.

29

The growth in the quarter is mainly due to the higher sale of VGBL product R\$321.

N.B.: according to SUSEP, the recording of VGBL redemptions reduces the retained contributions.

c) Income on Certificated Savings Plans

| | September YTD | | | 2006 | |
|-------|---------------|-------------|----------------------|----------------------|-------------|

Allowance for Doubtful Accounts (PDD)

| September YTD | | | 2006 | | |
|---------------|---------|-------------|---------|-----------|-------------|
| 2005 | 2006 | Variation % | June | September | Variation % |
| (4,647) | (6,215) | 33.7 | (5,833) | (6,215) | 6.5 |

The variation in the PDD balance for the period was mostly due to: (i) a 22.3% increase in the volume of loan operations, pointing out individual clients operations, with a 27.0% increase, which due to its specific feature, requires a higher volume of provisioning. PDD ratio in relation to the loan portfolio increased from 6.2% in September/05 to 6.8% in September/06, and provision coverage ratio in relation to the loan portfolio under abnormal course, respectively, rated between E and H, decreased from 191.5% in September/05 to 156.0% in September/06, and between D and H, reduced from 159.6% in September/05 to 131.1% in September/06. However, the preventive maintenance of high provision levels made all performance indicators remain in adequate levels. In the period, PDD in the amount of R\$3,993 was recorded, was incorporated R\$102 arising from acquired institutions and R\$2,527 was written off. The exceeding PDD volume in relation to the minimum required increased from R\$952 in September/05 to R\$1,092 in September/06.

The increase in the PDD balance in the quarter basically reflects a 3.8% growth of the loan portfolio in the quarter, particularly, the individual client portfolio with an 3.4% growth, which due to its specific features, demands a higher provisioning volume. Adjusted Profitability

Bradesco's adjusted net income reached R\$4,743 million from January 1 to September 30, 2006, against R\$4,051 million reached in the same period of 2005, which corresponds to a 17.1% increase. Stockholders' Equity amounted to R\$21,773 million on September 30, 2006, with a growth of 19.2% compared to the balance of September 30, 2005. Accordingly, the annualized Return on Stockholders' Equity (ROE) reached 30.1%. Total assets added up to R\$243.192 million until September 30, 2006, growing 20.4% when compared to the balance of September 30, 2005. The annualized Return on Total Assets (ROA) in 2006 was 2.6%. Earnings per stock reached R\$4.84.

In the 3rd quarter of 2006, the adjusted net income was R\$1,611 million, representing an increase of R\$9 million or 0.6% compared to the net income of the 2nd quarter of 2006. The annualized return on the Stockholders' Equity (ROE) reached 33.0% and the return on total assets (ROA) was 2.7%. Earnings per stock reached R\$1.65.

The 3Q06 was affected by a decrease of income composing the Net Interest Income, composed mainly by lower non-interest results, reaching the amount of R\$318 million, a R\$293 million decrease, compared to 2Q06, basically due to the negative adjustment of mark-to-market of derivative financial instruments used as market risk hedge of loan operations in the country. On the other hand, the result with interest reached the amount of R\$4,549 million, a R\$209 million growth in relation to the previous quarter. This increase is basically due to an increment in the business volume. We point out a 3.4% increase in the volume of loan operations for individuals, mainly focused on products connected to consumer financing, with a higher profitability than the corporate portfolio.

The Operating Income from Insurance, Private Pension Plans and Certificated Savings Plans contributed in 3Q06 with an increase of R\$86 million, as a result of the additional constitution of technical provision in personal health insurance in the 2nd quarter of 2006.

In the 3rd quarter of 2006, we can see the stability of the general delinquency ratio in view of the growth of the products vehicles and personal loan consigned and/or connected to payroll, which for their guarantees and characteristics, provided these operations a low credit risk level. As a result, there was recording of Allowance for Doubtful Accounts, in the amount of R\$1,169 million in 3Q06, which results in a R\$53 million increase when compared to the recording of R\$1,116 million in 2Q06. We also established surplus provisions at the amount of R\$27 million in 2Q06 and R\$12 million in 3Q06. Excluded such effects, the provision would be R\$1,157 million in 3Q06 against R\$1,089 million in 2Q06, i.e., an 6.2% growth, reaching a level of Allowance for Doubtful Accounts of R\$6,215 million on September 30, 2006.

In the 3rd quarter of 2006, we recorded a supplementary provision for labor proceedings in the amount of R\$309 million (R\$204 million, net of tax effects), according to CVM Resolution #489, whose effect in the net income was partially mitigated by the activation of fiscal credits of previous periods in the amount of R\$204 million.

As disclosed on 9.18.2006, in the 3rd quarter of 2006, we fully amortized the goodwill in the amount of R\$2.109 million, R\$2.055 million of which corresponds to the balance of June 2006 plus R\$54 million resulting, basically, from the goodwill complement in the acquisition of Amex Brasil.

The Operating Efficiency Ratio, in the 12-month period ended on September 30, 2006 was of 42.4%, an improvement of 0.8 percentage points when compared to the 12-month period ended on June 30, 2006 which was of 43.2, and an improvement of 4.6 percentage points when compared to the period ended on September 30, 2005, principally as a result of the combination of strict expense control with permanent efforts for increase in revenue.

The Coverage Ratio in the last 12 months [(fee and commission income)/(personnel expenses + administrative expenses)] improved 1.6 percentage point, increasing from 72.4% in June 2006 to 74.0% in September 2006, mitigated by the stable delinquency level in the 3rd quarter of 2006.

Analysis of Net Interest Income

a) Net Interest Income Adjustment

We show separately the hedge fiscal effect referring to investments abroad in the compared periods, which in terms of Net Income, simply annuls the fiscal effect (IR/CS and PIS/COFINS) of this hedge strategy.

The fiscal effect is caused for the foreign exchange variation of investments abroad is not deductible when there is loss and not taxable when there is gain, while the derivatives result is taxable when it generates gain and deductible when it generates loss.

Thus, the gross hedge result is reflected in the Net Interest Income, in the Results of Derivative Financial Instruments account, and in the Tax Expenses and Taxes on Income accounts, the respective taxes, as shown below:

b) Comments on the Adjusted Net Interest Income Variation

In the 9 months ended on September 30, 2006, the adjusted net interest income was R\$14,793 million, representing an improvement of R\$2,848 million or 23.8% compared to the same period of the previous year (R\$11,945 million). In 3Q06, the result of the adjusted net interest income reached R\$4,867 million, compared to the result of the adjusted net interest income of R\$4,951 in 2Q06.

The analytical opening of the net interest income result among interest and non-interest results is shown below:

Despite of the 1.7% small reduction in the net interest income between the quarters, the net interest income of interest results of Bradesco Consolidated showed a 4.8% or R\$209 million increase compared to the previous quarter and comparing the first nine months of 2006 with the same period of 2005, an even greater evolution, of 20.8% or R\$2,226 million may be observed, mainly due to the volume increase of loan operations, of only 3.8% in 3Q06 and 22.3% during the last twelve months.

In 3Q06, the credits granted to companies showed a growth superior to the ones granted to individuals, due to the better performance operations portfolios abroad and to onlendings from the National Bank for Economic and Social

Development (BNDES), primarily to the industrial sector, mainly the chemical, automotive and pulp and paper sector.

Although individual credits presented a growth rhythm slowdown during 2006, the balance of Bradesco operations showed a 3.4% increase in 3Q06 and an accumulated growth of 27.0% in the last twelve months, especially consumption financing operations, mainly vehicles financing operations, personal credit, leasing, credit card and assets financing.

Another factor that must be highlighted is the increase of Bradesco's client base, of about 274 thousand new individuals' accounts and 27 thousand companies' accounts in the last twelve months, with positive impact to the operations as a whole, but, mostly to the raise of demand deposits, which showed a 5.7% increase in the last quarter and 19.1% in the accumulated in the last twelve months.

The increase of operations volume has been a fundamental factor for the restructuring of the net interest income due to the global decrease of spreads. Thus, Bradesco constantly searches for strategic positioning by means of the expansion of the client base and consequent growth of operating volumes, focused on the sustainable extension of the net interest income.

Similarly, the Selic interest rate drop directly influenced the remuneration of own working capital, technical provisions of insurance, private pension plans and certificated savings plans, funding and floating among other factors which negatively impacted the result of the interest net interest income.

Comparing the quarterly history since 2005, it can be observed that the interest net interest income result showed a constant growth during the last seven quarters, despite the slight reduction of the annualized net interest income rate of interest results during 2006. This indicator compares the net interest income result (interest results) over the average balance of total assets, as presented in the chart below:

The result of the net interest income coming from non-interest results in 3Q06 had a reduction of R\$293 million compared to 2Q06, due to the negative adjustment of mark-to-market of derivative financial instruments used as market risk hedge of loan operations in the country. However, when analyzing the evolution of the nine-month period of 2006 compared to the same period of the previous year, we can see an increase of R\$ 582 million, resulting basically from higher gains of securities and treasury.

Fee and Commission Income increased 21.3% in the nine-month period of 2006, or a R\$1,135 million growth when compared to the same period of the previous year, amounting to R\$6,474 million.

Major components for growth of Fee and Commission Income were in the periods:

the strategy of clients segmentation (Private, Prime, Corporate, Middle Market and Retail), jointly with the tariff realignment and client base growth boosted the item *Checking Accounts*, up by R\$268 million;

the growth of 31.0% represented by the increase of R\$288 million in the item *Cards* is directly related to the increase of 4.7 of the cards base, from 50,9 million to 53.3 million, influenced by the consolidation of Amex Brasil;

the increase in the volume of Loan Operations, especially individuals, with highlights to the products *Personal Loan* and *Vehicles*, was the major factor for the increase in item *Revenues from Loan Operations*, a R\$191 million improvement; and

the volume growth of 22.3% in managed funds, from R\$114.7 billion on September 30, 2005 to R\$140.2 billion on September 30, 2006, was the main reason for the growth in the item *Assets under Management*, which increased by R\$163 million.

When compared to the previous quarter, Fee and Commission Income showed an expansion of 12.1% with a R\$252 million growth, as a result of the increased volumes of businesses in 3Q06, pointing out increases of 45.2%, 6.9%, 4.3% and 3.7% under the items *Credit Cards* R\$160, R\$116 million of which comes from Amex Brasil; *Assets under Management*, R\$21 million; *Checking Accounts* R\$22million; and *Loan Operations* R\$14 million.

In the nine-month period ended September 30, 2006, the Administrative and Personnel Expenses showed a R\$1,018 million increase when compared to the same period last year, reaching the amount of R\$8,671 million against R\$7,653 million in the same period of 2005. The nominal variation of Administrative Expenses between periods of nine months ended on September 30, 2005 and 2006 shows a R\$496 million increase, reaching the amount of R\$4,199 million mainly justified: (i) by the increase in the client base; (ii) by the consolidation of BEC/Amex Brasil in 2006; and (iii) by contractual adjustment in the period.

Personnel Expenses increased R\$522 million when compared to the same period of 2005, reaching R\$4,472 million, pointing out: (i) the increase in the salary levels, resulting from the Collective Bargaining Agreement of 2006, which

impacted expenses in R\$87 million: R\$63 million of supplementary PLR, R\$14 million of labor liabilities and R\$10 million of payroll increase; (ii) higher expenses with provision for labor proceedings R\$103 million; (iii) the consolidation of BEC, Fidelity, Amex Brasil R\$93 million; (iv) higher PLR expenses R\$59 million; and (v) the increase in salary levels coming from the Collective Bargaining Agreement of 2005(6.0%), benefits and other R\$180 million.

When compared to the previous quarter, Administrative and Personnel Expenses increased R\$247 million, with an increase of 8.7%, from R\$2,844 million in 2Q06 to R\$3,091 million in 3Q06.

Administrative Expenses increased by R\$132 million compared to the previous quarter, basically due to higher expenses with: (i) the consolidation of Amex Brasil R\$75 million; (ii) third-party services R\$39 million; (iii) transportation R\$5 million; and (iv) depreciation and amortization R\$5 million.

Personal Expenses in 3Q06 increased by R\$115 million basically due to: (i) the increase in salary level coming from the collective Bargaining agreement of 2006 (3.5%) which impacted in R\$87 million: R\$63 million of supplementary PLR, R\$14 million of labor liabilities restatement and R\$10 million of payroll increase; and (ii) higher expenses resulting from the consolidation of Amex Brasil R\$36 million.

Operating Efficiency Ratio in percentage

The Operating Efficiency Ratio (accumulated in 12 months) up to September 2006 was practically stable at 42.4%, an improvement of 0.8 percentage point compared to the 12-month period ended in June 2006, mainly as a result of the expenses control, pointing out administrative and personnel expenses coupled with the permanent efforts for increase in revenues. It is also worth mentioning the higher net interest income in the amount of R\$530 million, basically stemming from interest component, generated by an increment in business volume, pointing out a 27.0% increase in the volume of loan operations for individuals, mainly focused on consumer sales and personal loan financing, the profitability of which is higher if compared to the corporate loans, and increased fee and commission income, in the amount of R\$425 million, as a result of increase in the average volume of transactions of fee realignment and the segmentation process.

The Operating Efficiency Ratio (accumulated in the 12 months) up to September 2006 posted a significant improvement of 4.6 percentage points, from 47.0% in September 2005 to 42.4% in September 2006, due to, basically, the effective control of expense accounts, especially, personnel and administrative expenses, which in the last 12-month period evolved 11.2% . Another factor that deserved attention in the improvement of the efficiency ratio was the 25.4% evolution of net interest income in the period compared, pointing out higher revenues from loan operations at 38.5%, boosted by an increase in the loan portfolio volume, particularly, the individual client portfolio.

The Coverage Ratio accumulated in the last 12 months (fee and commission income)/(personnel expenses + administrative expenses) improved 1.6 percentage point, increasing from 72.4% in June 2006 to 74.0% in September 2006.

Classification of Securities by Segment in percentage

Loan Operations

Growth in the loan portfolio of Bradesco Conglomerate continued to be more intense in operations for individual clients in 2006, specially in the vehicle financing and personal loan portfolios. In the corporate businesses, it is worth pointing out long-term financings and operations carried out in Branches and Subsidiaries abroad, in spite of the dollar depreciation of 7.1% in the period.

The consolidated balance of loan operations reached at the end of 3Q06 a total of R\$92.0 billion, representing a 3.8% increase compared to last June and 22.3% growth in the last 12 months.

Loan Operations Total Portfolio

Loan Operations by Currency in percentage

The evolution of loans and onlendings balance of 18.1% in Reais, due mainly to the higher volume of indexed and/or denominated in foreign currency operations carried out in Branches and Subsidiaries (excluding ACC) in 3Q06, showed a significant growth abroad.

Loan Operations by Purpose

The loan expansion for individuals continued showing a reduction in intensity, with evolution of 3.4% in 3Q06, accruing 27.0% in the last twelve months. The main reason for the portfolio growth this quarter was the vehicles financing type.

We highlight in the loan portfolio for individuals the consumer financing (vehicles, personal loan, leasing, credit card and assets financing) which reached the amount of R\$33.7 billion and share in the operations balance for individuals of 86.8% in September 2006. Vehicle financing, which remained with the highest volume of loans, aligned to consigned loans and combined with payroll charges, for its guarantees and characteristics provided the portfolio with a low loan risk level.

Loan Operations Consumer Financing

The growth rhythm of loan granted to companies was higher in 3Q06 than loans granted to individuals (contrary to the accumulated for the year), with an evolution of 4.1%, of which 19.1% in the last twelve months. Such behavior was influenced by the performance of the foreign operations portfolio and onlending operations of BNDES.

Loan Operations per Type of Client

Loan Operations Client Features

It is possible to notice the decrease of large company's partial share in the loan portfolio in the last twelve months, not only in view of the increase of loans to individuals and micro, small and medium-sized companies (SME), as well as in view of the negative effect in the balance of the dollar depreciation in this period, once a great portion of operations with large companies is indexed to foreign currency. In the quarter there was not a significant change in the shares.

The evolution of balance and share in the financing type (includes mainly vehicles, real estate loan and BNDES onlendings) in 3Q06 is deservedly recorded by its performance, which is higher than the total of the portfolio.

In the table below, we can observe the evolution in the representativeness of the Bank's business segments:

Loan Operations per Business Segment in percentage

In 3Q06, it is worth pointing out the Corporate business segment and Banco Finasa (mainly due to vehicle financing for individual clients), which show an evolution higher than the total portfolio, reflecting on the increase of its shares in the total loans of Bradesco Conglomerate.

Loan Portfolio Quality

Compared to the previous quarter, it was possible to notice a slight change in the loan portfolio profile whose participation of credits rated between AA and C compared to the total was of 92.3%, as a consequence of the impact of the change in the breakdown of the portfolio, focused on consumer financing, and the slight growth in delinquency of loans for individual clients this quarter.

Loan Operations by Rating in percentage

The total volume of allowance for doubtful accounts reached R\$6,215 million, representing 6.8% of the total loan portfolio (6.6%, in June 2006), ensuring the maintenance of adequate levels of PDD coverage for the current profile of the loan portfolio.

In this regard, we point out the strength of the provision criteria adopted, which may be evidenced through the analysis of historical data of allowances for doubtful accounts and losses effectively occurred in the subsequent period of twelve months over all the period analyzed.

Loan Operations PDD x Default x Losses Percentage over Loan Operation Balance

In September 2006, it can be verified that the delinquency ratio of the consolidated portfolio remained slightly stable compared to the previous quarter. The change of the portfolio profile and the slight deterioration of their payment capacity for clients in loans granted to individuals were responsible for the maintenance of ratios slightly higher than those of the previous periods. As already said in the previous quarters, increase in the delinquency indicators was expected and it is already duly priced in our products and services.

Loan Operations Distribution of the Loan Portfolio Falling Due by Terms in percentage

The terms of operations to mature have been extending, mainly in view of consumer financing operations, which by their nature have a longer term. The operations with maturity exceeding 180 days represented 50.7% of total portfolio in September 2006, against 47.4% one year ago. It is worth mentioning that the increase in the average term of the portfolio has been occurring in low credit risk products, i.e., vehicle financing and consigned loan.

The movement of the consolidated loan portfolio in the last twelve months shows the adequacy and consistency of the loan evaluation instruments used in the concession process, maintaining its good quality, as shown in the tables below:

In the 3rd quarter, we noticed the continuity of the expansion of the loan portfolio of Bradesco Conglomerate, followed by the stability of the general delinquency ratios. This proceeding was already estimated, due to the seasonality of this period, as observed in the last years. The maintenance of adequate provision levels could absorb such fluctuations with a significant margin, maintaining all performance indicators with comfortable coverage indices.

It is worth pointing out that the Individual Clients portfolio growth results mainly from vehicles financing and consigned loan operations and/or linked to payrolls which provide this operations with low credit risk level due to its guarantees and characteristics.

For the last quarter of 2006, Bradesco remains prepared to take full advantage of all business opportunities, focused on increasing the loan portfolio, while respecting the established loan granting parameters, based on the traditional concepts of security, consistency, selectivity and diversification.

Highlight as Fund Manager in Exame Magazine

Guia Exame 2006, the most traditional award of investment fund managers of the Brazilian market pointed out Bradesco as the best fund manager of stock funds.

Guia Exame is published by Exame magazine with technical support of Fundação Getulio Vargas.

Besides being considered as the best stock fund manager, Bradesco totaled 16 funds in the best rating of 5 stars.

Multimarket Funds

The Multimarket category had in 2006 a net funding of around R\$23 billion until September, reaching a 19.12% share of the total Investment Funds in Brazil. The reduction of interest rates and the higher disposition to risk by investors contributed to this funding. Aware of the growth of this market, BRAM created a specific board of executive officers comprised by a team focused on the management of this Fund category.

Until September 2006, there was an increase of 7.8% in the customer base compared to September, 2005.

When comparing 3Q06 to the same period of the prior year, Bradesco Saúde maintained its noteworthy market position (source: ANS). Brazilian companies are increasingly convinced that Health and Dental Insurance are the best alternatives for meeting their medical, hospital and dental care needs. At present, Bradesco Saúde has more than 2.5 million customers, of which 2.2 million pertain to the corporate segment.

The large share of corporate insurance in the total portfolio of Bradesco Saúde (88.26% in September/2006) confirms the insurance company's high level of expertise and personalization in the corporate insurance services, a distinct advantage in the Supplementary Health Insurance market.

More than 12 thousand companies in Brazil have acquired Bradesco Saúde insurance products. Out of Brazil's 100 largest companies in terms of revenues, 29 are Bradesco's insurance clients and out of the country's 50 largest companies, 30% are Bradesco Saúde's clients. (source: Exame magazine's Maiores e Melhores de julho de 2006 Biggest and Best List, July 2006).

Finally, emphasis should also be given to the user-friendly nature of the Bradesco Saúde Portal (www.bradescosaude.com.br), which, in addition to providing information on available products, also offers access to a number of services for the insured, prospects and brokers.

Until August 2006, Bradesco maintained an outstanding position among the main insurance companies in the Brazilian Basic Line (RE) Insurance market, with an 8.2% share of total market sales in this area.

In the Asset Risks segment, Bradesco Auto/RE insures the assets of a significant number of large companies of the country related to the home-building, steel, petrochemical, pulp and paper, aircraft, automotive and food sectors by means of issuances of insurance policies for Operational Risks, Named, Oil, Port Operator, Civil Liability, Engineering Risks, (Domestic and International) Transport, Hull and Aircraft.

In the area of Domestic and International Transport insurance, from the implementation of several visits to clients of the segments Corporate and Companies, mainly in the south, mid-west and southeast, we got more trading frequency with some important corporate groups.

We also point out that the relation of Bradesco Auto/RE with Bradesco Corporate and Bradesco Empresas (Middle Market), including with own structure, has allowed greater closeness with Bradesco's clients and enabled the achievement and renew of policies of large companies installed in the country.

In the mass market insurance segment, whose products are focused on individuals, small and medium-sized (SME's) companies, we maintained a meaningful number of customers, in particular those of the Residential Insurance line.

Another high profitability segment was the Diverse Risks directed to equipment, mainly the insurance arising from operations of leasing, FINAME and CDC of Banco Bradesco.

The continuous upgrading of products provides the improvement of the services rendered to our clients and contributed significantly for the increase in income of the current period.

In the Auto/RCF line, the market was characterized by intense competition in big metropolitan areas, aggravated by a small growth in insured vehicle market.

During the period, we maintained our technically correct pricing policy, with a view to reaching a balanced portfolio results. We consolidated our pricing policy based on the insured specific characteristics, after one year it was launched. We also maintained differentiated services, which add value to our products, such as discounts given through the nationwide customer service networks and auto glass repair, as well as the increase in the number of electronic relationships with brokers and those insured, which are carried out via the Internet.

Bradesco's market share of the Auto/RCF portfolio, up to August, 2006 was 15.6% .

Operating Risk

Grupo Bradesco de Seguros, integrating Bradesco Organization, in its permanent commitment to obtain conformity with the laws and regulations, has adapted its processes and activities, by means of the utilization of methodologies and resources aligned with the best market practices, mainly those related to risk management.

Within this aspect, for adequacy to the guidance brought by the New Capital Basel Agreement (Basel II), provisions of the monetary authority and alignment to future definitions related to Solvability II we are carrying out the survey and analysis of the events related to operating risk, enabling the improvement in the management and knowledge of losses and their causes. Thus, the plan of accounts of the companies of the Insurance Group was fully reviewed and specific accounting accounts were opened for the registration of events of operating risk loss, resulting from business interruption, failure of systems, errors, omissions, frauds or external events, thus enabling the determination of the regulatory capital calculation for Operating Risk according to the methodology adopted by Bradesco Organization. The disseminations of the operating risk management culture in several levels, the disclosure of corporate policies and establishment of continuous monitoring procedure of exposure levels are inserted in this context.

1) Bradesco Capitalização and Atlântica Capitalização are included.

Bradesco Capitalização's outstanding position in the certificated savings plans market is the result of its transparent operating policy, which is focused on adjusting its products in line with potential consumer demand.

Regionally, the company holds a leadership position in two Brazilian states, according to the latest figures for August 2006 published by SUSEP. The company's market share was of 29.65% in Amazonas and 37.35% in São Paulo.

In pursuit of a bond which is suited to its customers' different profiles and budgets, a number of products were developed, which vary in accordance with the type of payment (single or monthly), contribution terms, regularity of draws and related prize amounts. This phase was important due to the closeness to the public, by means of the consolidation of Pé Quente Bradesco's family products.

We can highlight the performance of products with a social-environmental character such as Pé Quente

Bradesco SOS Mata Atlântica which, in addition to enabling the formation of a financial reserve, contributes for reforestation projects of Fundação SOS Mata Atlântica and Pé Quente Bradesco GP Ayrton Senna, launched in July 2005, whose great differential is the destination of a percentage of the amount collected with securities to social projects of Instituto Ayrton Senna. Thus, in addition to competing for prizes, the product allows the client to help to develop the potential of new generations and participate in the construction of a better Brazil. As the most recent Company's launching, we can highlight the Pé Quente Bradesco o Câncer de Mama no Alvo da Moda (the Breast Cancer in the Fashion Target), launched in March 2006. Upon acquiring this product, the client contributes to the development of projects of prevention, precocious diagnosis and treatment of cancer in Brazil, for a part of the amount collected is given to IBCC - Brazilian Institute of Cancer Control.

Rating

Standard & Poor's increased the rating from brAA to brAA+ of Bradesco Capitalização, the only company of the certificated savings plans segment with this rating. The solid financial and equity protection standard that Bradesco Capitalização ensures to its clients contributed to the result.

Quality Management System

Bradesco Capitalização S.A. was the first private certificated savings plans company in Brazil to receive ISO 9002 Certification. In December 2005, it received again the certification of its quality management system, in the ISO 9001: 2000 version within the scope of Bradesco Certificated Savings Plans Management. Granted by Fundação Vanzolini, it shows the quality of its internal processes and confirms the principle which is the origin of Bradesco Certificated Savings Plans: good products, good services and permanent evolution.

Outstanding Certificated Savings Plans in thousands

The outstanding certificated savings plans portfolio increased from 12.3 million in September 2005 to 13.9 million in September 2006. Out of this total, 67.0% comprise bonds with Transfer of Draw Participation Rights modality, including: Bradesco Cartões, Bradesco Vida e Previdência, Banco Finasa etc.

The purpose of this type of certificated savings plans is to add value to partners products or even to provide incentives for customer due payments, since these are low-priced bonds, they are sold with reduced terms and grace periods and at a lower unit purchase price.

Awards/Recognition

1 Bradesco Capitalização received the Segurador Brasil 2006 Award, as a highlight in the Certificated Savings Plans segment. The award is promoted by Segurador Brasil magazine and has as purpose to acknowledge the leadership, performance and achievements of the companies of the sector in 2005, in addition to showing a scenario involving the importance of companies and entities in the implementation and in the development of concepts, products and services for the Brazilian insurance market.

Profile

Banco Finasa offers financing lines of direct loan to consumer for acquisition of light vehicles, transportation and other goods and services, in addition to leasing and personal loan operations, operating as the financing company of Bradesco.

Thus, Banco Finasa contracts the services of Finasa Promotora de Vendas Ltda., its wholly-owned subsidiary, responsible for the business prospect, through its 330 branches established nationwide, in addition to counting on a structure of business partners, represented in September, 2006 by 17,953 auto dealers and 23,271 stores selling furniture and

home décor, auto parts, IT programs and equipment, home improvement material, tires, tourism and telephony, amongst others. At the end of the quarter, Finasa Promotora de Vendas recorded 4,565 employees, 77% of which were directly performing in new businesses prospect.

As a strategy to add more potential to Bradesco's solid operation in the granting of financing, Banco Finasa continued with the policy to enter into operational agreements with large car makers, auto and truck resale and implements, in addition to important store chains.

We can highlight in the period the acquisition of Capital Promotora de Vendas Ltda., which belonged to Amex Group, by Finasa Promotora, with an structure of 6 branches, 1,046 registered stores and 172 employees, operating in a preponderant manner in the acquisition of financings in the areas of Mobile Telephony, Tourism, Tires and Furniture and Home Décor. On September 30, 2006, Finasa Promotora incorporated Capital Promotora de Vendas Ltda.

In addition, in the 3rd quarter of 2006, goodwill was fully amortized in the acquisition of the companies of Zogbi (in February 2004) and of Morada (April 2005), totaling R\$157.904 million, net of taxes, was anticipated.

In compliance with the concepts in the New Basel Capital Accord, Banco Finasa, Finasa Promotora and Bradesco's Risk Management and Compliance Department (DGRC) started, in June 2005, the identification and collection works of operating losses resulting from events of Operating Risk within the scope of both Banco Finasa and Finasa Promotora. This joint work provides for the treatment of historical data in statistical studies, conducted with the purpose of risk mitigation.

Operating Performance

The differentiated form of trading of products, with a specialized and focused team, enabled Finasa a loan portfolio growth of 32.33% in the last twelve months. The production of new businesses increased, on average, from R\$1.120 billion/month in the first nine months of 2005 to R\$1.299 billion/month in 2006, with a growth of 15.98% .

The balances of Bradesco's loan operations in September 2006 showed the following growth by financing line, when compared to 2005:

The share of balance of Allowance for Doubtful Accounts on Loan and Leasing Operations, in September 2006, was 4.92%, above the 3.26% reached in the same period of 2005, due to the larger share of products of Personal Loan and Other Assets and Services in the portfolio composition, to the market behavior in the first nine months of 2006 and to the provision criterion of the Organization, more conservative and above the minimum required by BACEN which grants a higher coverage level to the investment of Stockholders.

In the 3rd quarter of 2006, a stabilization in the provision curve was observed.

In the accumulated nine months of 2006, the Bank reached an Adjusted Net Income of R\$186.701 million against the R\$206.198 million recorded in the same period of 2005, which considers:

the impact of strong investments made in acquisitions and physical expansion in the last 15 months, which naturally provided a return in the medium and long term; and

the increase in delinquency in a generalized way in the market in the 9 months of 2006, jointly with the criterion already mentioned of the Organization concerning additional provisions.

The corporate result, in this same period, was R\$28.797 million, which considers the full amortization of goodwill in the acquisition of the companies Zogbi and Morada.

Banco Finasa ended September of 2006 with a Stockholders Equity of R\$1.0 billion, which included the capitalization of R\$162 million with the subscription of capital by controlling stockholder, carried out in December 2005 and the anticipation of goodwill amortization in September 2006.

Leasing Companies

On September 30, Bradesco Organization controlled the following leasing companies: Bradesco Leasing S.A. Arrendamento Mercantil, Zogbi Leasing S.A. Arrendamento Mercantil and Bankpar Arrendamento Mercantil S.A., besides the leasing portfolio of Banco Finasa S.A., which is directly shown in its financial statements.

On June 28, 2006, under #CVM/SRE/PRO/2006/003, The Second Program of Public Distribution of Debentures of Bradesco Leasing S.A. Arrendamento Mercantil was filed at the CVM, limited to the amount of R\$10.0 billion with duration term of up to 2 years, from which the following issuance was registered:

Under #CVM/SRE/DEB/2006/024, 65,000,000 simple debentures (4 issuance), with unit value of R\$100.00, with issuance date on February 1, 2005, totaling R\$6.5 billion, with a 20-year term, with payment of compensation interest on the maturity date of the debentures, restated by CDI totaling R\$8.5 billion, counted from the issuance date, 50.0% of which were traded on July 27, 2006.

Leasing Performance Aggregated Bradesco

Leasing operations are carried out by Bradesco Leasing S.A. Arrendamento Mercantil and Banco Finasa S.A.

On September 30, leasing operations brought to present value totaled R\$3.6 billion, with a balance of R\$8.4 million receivable in operating leases.

The Bradesco Organization's leasing companies are positioned amongst sector leaders, according to ABEL (Brazilian Association of Leasing Companies), with an 11.84% share of this market (reference date:

August 2006). This good performance is rooted in its Branch Network integrated operations and the maintenance of its diversified business strategies in various market segments, in particular, the implementation of operating agreements with major industries, mainly in the transportation vehicles and machinery/equipment industries.

Operating Overview

Bradesco Consórcios on December 9, 2002 started to sell consortium purchase plan quotas to its employees, and on January 21, 2003, started to sell to its account holders and non-account holders, both for individuals and corporations.

Bradesco Consórcios sells automobile, trucks, tractors, agricultural implements and real properties plans, according to the rules of Brazilian Central Bank.

Referring to the sale of plans offered, the Company relies on the Banco Bradesco Branches network, liable for higher Bradesco Consórcios share in the consortium purchase plan market. The extensive nature and security associated with the Bradesco Brand name are added advantages for expanding consortium purchase plan sales.

Segmentation

The Banco Bradesco's entry into this market is part of its strategy to offer the most complete range of product and services options to its clients, with a view to providing all social classes with the opportunity to purchase items at accessible prices through the consortium quota system, and filling a market lacuna, especially taking into account that, in relation to real estate product, there is currently high housing deficit in country.

Operating Performance

The different way of negotiation of products (Real State, Automobiles and Trucks), with a specialized and focused team, provided Bradesco Consórcios with a growth of 114.8% in the first 9 months of 2006 when compared to the same period of the previous year.

Operating Risk

Bradesco Consórcios and DGRC (Department of Risk Management and Compliance) started in February 2005 the works related to the identification and collection of operating losses. Accounting accounts specific for accounting of losses resulting from operating risk events were opened.

We understand that these actions meet the concepts introduced by the New Basel Capital Agreement, and this work aims to establish a statistic basis for modeling of the operating risk, with the purpose of lower allocation of capital required, as well as increase the mitigation capacity of risks identified.

Representation

Market Share Real Estate Consortium in percentage

Market Share Automobile Consortium in percentage

Bradesco has been playing an important role in the consortium purchase plan industry, enabling to the population access to loan for the acquisition of personal and real property. The freedom to select an asset is one of the main characteristics of the plans sold by Bradesco Consórcios, since the consortium member is free to select a preferred automobile or real property when he/she wins the draw.

In 3Q06, 58 groups were inaugurated and 31.2 thousand consortium quotas were sold. On September 30, we recorded total accumulated sales exceeding 270.9 thousand consortium quotas, summing up sales exceeding R\$8.3 billion and recording 85.8 thousand draws, 65.5 thousand properties delivered and 1,384 active groups.

Leadership

According to a strategy defined by the Organization, Bradesco Consórcios leads the automobile and real estate segments and has been searching for a highlighting position in the segment of Trucks and Tractors.

In the real estate segment, Bradesco ended September 2006 with 98,627 active quotas. In the Automobile segment, Bradesco ended with 146,226 active quotas, surpassing consortium management companies associated with car makers, consolidated in the market, such as Volkswagen, Fiat and General Motors.

Leadership (Real Estate and Auto) is conquered and consolidated as a result of ongoing and determined efforts, motivated by the enthusiasm and strength of the Bradesco Branch Network.

In operations made through the internet we obtained a volume of R\$1,029 million. Our operations through the internet in relation to the market were positive, and when compared to competitors we can see an evolution in the ranking from the 6th position in the first two months of the quarter to the 3rd position in September, one of the brokers with the highest growth in average volume daily traded. This evolution in the ranking may also be shown by means of operations made in the period, which added up to 152,352 executed orders. In the quarter the client base increased 8.72%, with 4,539 new registrations, and 14,977 e-mails received. The brokerage rate of the operations made through the internet has been the main difference to conquer clients in the Market. Home Broker intermediation of stocks through the internet (Shopinvest) is certified by NBR ISO 9001:2000 and GoodPriv@cy Data Protection Label (2002 edition).

Bradesco Corretora maintained its highlighting position in the market, operating in Public Offerings for Share Purchase, Primary and Secondary Public Distribution and Special Operations and Privatization Auctions. The total volume traded was R\$39 million, assisting a total of 448 clients among individuals and legal entities, in the Public Distributions.

Bradesco Corretora offers to its customers a complete investment analysis service with coverage of the main sectors and companies of the Brazilian market. Our team of analysts is comprised of sector specialists who disclose their opinions to clients in an equitable way by means of follow-up reports and guides of stocks. Moreover, clients also count on analyses of the team of economists of Banco Bradesco, one of the most important ones of the Brazilian market.

In addition, it offers non-resident investors representation service in operations conducted in the financial and capital markets, under the terms of the CMN (Brazilian Monetary Council) Resolution # 2,689, as of January 26, 2000.

It also offers the *Tesouro Direto* (Direct Treasury) Program, which allows the individual client to invest in federal government bonds via the Internet; he/she just have to register himself/herself at Bradesco Corretora via the Website www.bradesco.com.br.

In compliance with the concepts introduced by the New Basel Capital Agreement, Bradesco S.A. Corretora de Títulos e Valores Mobiliários in partnership with the Department of Risk Management and Compliance (DGRC), started in August 2005 a work of identification and registration of events of operating losses taking place in the intermediation of operations carried out in the capital markets as well as other events classified as Operating Risk. The development of this work will provide the treatment of historic data and the performance of statistic studies with the purpose of risk mitigation and constant improvement of internal controls.

The Net Income recorded in the quarter amounted to R\$5,083 thousand.

The Stockholders Equity, at the end of the quarter, amounted R\$109,003 thousand, equivalent to 37% of total assets, which added up to R\$294,566 thousand.

Bradesco Securities, Inc., a wholly-owned subsidiary of Banco Bradesco, operates as a broker dealer in the United States. The company's activities are focused on the intermediation of stock purchases and sales, with emphasis on ADR operations. The company is also authorized to operate with Bonds, Commercial Paper and Certificates of Deposit, among others, and to provide Investment Advisory services. This Bradesco initiative was motivated by the

more than 90 ADR programs of Brazilian companies traded in New York and by the growing interest of foreign investors in the emerging markets, which is designed to offer support for global economy investors who invest part of this flow in countries such as Brazil.

Banco Bradesco obtained the Financial Holding Company status from the Board of Governors of the Federal Reserve System, on January 30, 2004, which will allow the expansion of Bradesco Securities activities.

This status, given based on a rigorous analysis of various aspects determined in US banking legislation, including Banco Bradesco's high level of capitalization and the quality of its Management, will allow the Bank, either directly or through its subsidiaries, to operate in the US market, whenever considered convenient, carrying out financial activities under the same conditions as local banks, in particular the following:

Securities trading (underwriting, private placement and market-making);

Acquisitions, mergers, portfolio management and financial services (merchant banking);

Mutual funds portfolio management; and

Sale of insurance.

Accordingly, Banco Bradesco has strengthened its role in the Investment Banking segment, increasing opportunities for exploiting various financial activities in the US market and contributing to the increase in the volume of transactions carried out with Brazilian companies.

Market Segmentation

Bradesco operates on a segmented service basis, i.e., seeks to match its different products and services to the different profiles and size of its target public. In line with a world market trend, Bradesco's structure allows to grouping together customers with similar profiles, facilitating superior quality customer service and extending business opportunities, with a greater focus on relationship actions.

Bradesco Corporate Banking

Mission and Values

Bradesco Corporate's mission is to meet client's needs, developing long-term ethical and innovative relationship in harmony with stockholders' interest.

The area's principal values and which permeate its day-to-day activities comprise the following:

- teamwork;
- ongoing pursuit of innovation and excellence in customer service;
- transparency in all actions;
- commitment to self-development;
- adherence to strategic guidelines;
- creativity, flexibility and initiative; and
- agile customer delivery.

Background and Achievements

The Corporate Banking segment was introduced in 1999, designed to serve companies from its target market based on a customer, rather than product standpoint, under a centralized relations management, offering as well as traditional products, structured, Tailor-made and Capital Markets solutions, through specific Managers who have a clear vision of risk, market, economic industries and relationship.

Among the various significant achievements obtained, we point out the ISO 9001:2000 quality certification received by all areas of the Corporate Banking structure, including its Corporate Banking exclusive customer service platforms, as well as the partnerships entered into with international banks: UFJ Japan, BBVA Spain and BES Portugal.

Brazilian Desk

Bradesco was the first Brazilian bank to carry out an operating agreement with a Japanese bank allowing the inclusion of approximately 300 thousand Brazilians living and working in Japan.

This partnership between the different professionals from the two Banks, which was carried out during two years, offers checking accounts, products and services destined to meet the needs of this community.

Customers have access to an exclusive UFJ-Bradesco Branch 7-days-a-week with bilingual (Japanese and Portuguese) employees who answer via Automated Consulting and Contract Machines - ACMs, which are fully integrated with the UFJ Branch Network, for local bank services and remittances to Brazil.

These facilities are also available via 6,000 ATMs with screens in Portuguese, offering ease and convenience to customers.

Such operational agreement sets forth a strategic alliance between Bradesco and the UFJ Bank, which after its merger with Banco Tokyo Mitsubishi as from January 1, 2006, became the world's largest bank: Bank of Tokyo Mitsubishi-UFJ (MUFG).

BES

The partnership with Banco Espírito Santo (BES) to provide for funds remittance services from Portugal to Brazil directly benefits more than 100 thousand Brazilians living and working in that Country.

Besides processing the remittance service, the agreement also provides for the opening of checking accounts of Brazilians, allowing their banking inclusion. The opening of checking accounts gives access to various financial products, such as debit card, savings accounts and life insurance.

The funds remittance from Brazilians working in Portugal represents nearly 300 million Euros per year. Brazilians using the remittance service offered by the partnership Bradesco/BES have competitive cost and more processing alternatives, such as the Internet and 10 thousand ATMs, besides the telephone and the Internet Banking. Inflow of funds occurs and these will be distributed to the beneficiaries in Brazil by Bradesco.

Another example of a solution with significant added value for the Institution are the partnerships entered into with major retail networks for consumer sales financing, made feasible as a result of the relationship and familiarity with this industry's production chain and the synergy which exists among the Bank's various segments.

The resources comprising assets (credit, bonds and guarantees) and liabilities (deposits, funds and portfolios) amount to R\$79.9 billion.

Target Market

The 1,267 Economic Groups comprising Bradesco Corporate's target market, which is mostly comprised of large corporations which record sales results in excess of R\$180 million per annum, are located in the states of São Paulo, both the capital and inner state, Rio de Janeiro, Minas Gerais, Paraná, Rio Grande do Sul, Santa Catarina, Goiás, Pernambuco and Bahia.

Specialized Structures

In addition to the teams specialized in the different economic sectors, this service also maintains structures entirely dedicated to the management of specific clients:

Euro Desk this structure is focused on the management of customers of Spanish origin and the development of financial solutions for Bradesco Corporate companies, prospecting business synergies in Europe and Latin America.

Asian Desk this desk serves Asian descendent clients, by developing financial solutions as an economic financial advisor in businesses with Japan and the entire Asia.

Bradesco Empresas (Middle Market)

Bradesco's Middle Market segment (Bradesco Empresas) was implemented with a view to offering services to companies with annual sales results from R\$15 million to R\$180 million, through 66 exclusive branches in the main Brazilian capitals.

Bradesco Empresas aims at offering the best business management, such as: Loans, Investments, Foreign Trade, Derivatives, Cash Management and Structured Operations, targeting customers' satisfaction and results to Bradesco.

The 66 branches are strategically distributed throughout Brazil as follows: Southeast (41), South (16), Mid-West (4), Northeast (3) and North (2).

Bradesco Empresas is formed by a team of 364 Relationship Managers, who are included in the ANBID Certification Program, serving on average 30 economic groups per Manager, on a tailor-made concept, encompassing 22,239 companies from all sectors of the economy.

Bradesco Private Banking

Bradesco Private Banking, through its highly qualified and specialized professionals, offers the Bank's high-income individual customers with minimum funds available for investment of R\$1 million, an exclusive line of products and services aimed at increasing their equity by maximizing returns. Therefore, the most appropriate financial solution is sought, considering each client's profile, under the Tailor-Made concept, providing advisory services for asset allocation and fiscal, tax and successor advisory services. Aiming the proximity to its customer base, Bradesco Private Banking has two offices in the cities of São Paulo and Rio de Janeiro, as well as 9 service units in Porto Alegre, Blumenau, Curitiba, Belo Horizonte, Brasília, Salvador, Recife, Fortaleza and Uberlândia. Bradesco Private Banking is also certified by ISO 9001:2000 with scope on the Relationship Management of High Net Wealth Individuals, as well as with the certification GoodPriv@cy (Data Protection Label 2002 Edition) granted by IQNet (The International Quality Network), in the Management of Privacy of Data Used in the Relationship with High Net Wealth Clients.

Bradesco Prime

Aligned with the commitment to providing all its clients with a Complete Bank, Bradesco Prime operates in the segment of High Income clients, having as target-public individuals with income of R\$4 thousand or higher or with investments of R\$50 thousand or higher.

Bradesco Prime's Mission is to be the first client's bank, focusing on relationship quality and in offering appropriate solutions to their needs, with prepared staff, adding value to stockholders and employees, within high ethical and professional standards.

Attesting its commitment to quality, Bradesco Prime Department was granted the NBR ISO 9001:2000 certification by Fundação Carlos Alberto Vanzolini, under the scope Bradesco Prime Segment Management, enhancing even more Bradesco's commitment to continuously improving processes and pursuing clients' satisfaction.

Bradesco Prime's customers are provided with:

- VIP facilities specifically designed to provide comfort and privacy;

- Customized service by the Relationship Managers who, due to their small client portfolios, are able to dedicate special attention to each client;

- Differentiated products and services, amongst them, the Bradesco Prime Checking Account, a loyalty program which is designed to add value and provide incentives to the client's relationship with Bradesco through the offer of increasing benefits, the chat on-line, real time financial consultant, besides investments funds exclusively created for Bradesco Prime clients.

Bradesco Prime has the largest Branch Network exclusive for the high income public, with 205 Branches throughout Brazil. Furthermore, clients use unique Internet Banking and Call Center facilities, in addition to the extensive Bradesco Customer Service Network, which includes its nationwide Branches and ATM equipment.

Some Prime branches also offer differentiated services, such as:

- Prime Digital Branch: focused on customer service via call center with a team of managers available at extended business hours (from 8:00 am to 8:00 pm, 7 days-a-week, including bank holidays).

Prime Branch at Cidade de Deus, Latin America's first Wireless Branch, where managers use remoteconnected equipment, enabling client to conduct his/her business from his/her own facilities.

The Relationship Managers are continually enhancing their professional qualifications to meet the financial needs of their clients. Moreover, all Bradesco Prime s Managers are included in the ANBID Certification Program.

Bradesco Retail

Bradesco maintains its Retail specialty, serving with high quality service all segments of the Brazilian population regardless of income level. The Bank has more than 16 million individuals and corporate customers account holders, who carry out millions of transactions daily at our Branches, Service Branches, Banco Postal (Post-Office Branches) and Bradesco Expresso, comprising Brazil's largest Customer Service Network, besides thousands of teller machines, providing ease and convenient services over extended hours.

In addition to the extensive service network, clients are offered the comfort of alternative service channels such as Fone Fácil (Easy Phone) service and Internet Banking, which are already used for a significant portion of daily transactions.

Micro, small and medium-sized companies (SME), as well as individuals, are given special attention through oriented management.

The Retail segment has been focusing on the development of financial products, tailor-made to meet the customers' profile in an ongoing effort to offer quality, agile and reliable services to all customers, in particular, bearing in mind the value of customer relations.

The main focus of this segment is directed towards meeting the diverse customer demands, which include the offer of microcredit, onlending, foreign exchange and a complete range of financing products for individuals, which allied with the Bradesco Brand Name and nationwide Branch Network comprise an important source for increasing Bradesco's results.

Significant investments have been made in staff training, aiming at qualifying employees for customized and efficient customer service, seeking to preserve relations and increase the customers' loyalty to the Bank.

Bradesco Retail not only has more than 2,700 Branches and 2,400 Service Branches (PAB/PAE), but also makes available a Digital Branch, operating in a virtual environment and offering courier service. The Digital Branch has a team of managers who serve its clients, regardless of location, from 8:00 am to 10:00 pm, seven days a week.

Banco Postal

Banco Postal is a brand through which the Brazilian Post Office Company ECT renders services as Correspondent Bank in partnership with Bradesco. Banco Postal is present in more than 4,800 cities of Brazil, and aims at serving the low income population, especially in 1,700 cities where there are no other financial institution.

Thanks to Banco Postal, millions of Brazilians, who before were excluded from the banking system, now have the possibility of opening a bank account and obtaining loan with a regulated institution. In addition, Banco Postal enables a greater economic development of the cities, fomenting new entrepreneurs, hence, improving peoples' lives. It also enables the replacement of physical money with debit and credit cards, reducing risks and easing funds management.

Number of Branches

Bradesco Expresso

Bradesco has increased its share in the segment with the expansion of Bradesco Expresso Network, by means of partnerships entered into with supermarkets, drugstores, department stores and other retail chains.

For clients and community in general, Bradesco Expresso offers a convenient banking service, closer to the residence or workplace. For Bradesco, this is the best way to reach low income clients, especially the population deprived of bank services, and promoting the inclusion of millions of Brazilians in the banking system, which would not be possible by means of traditional banking branches, in view of high installation and operational costs. Concerning shopkeepers, Bradesco Expresso foments a higher flow of clients and encourages them to visit the establishment many times, opening possibilities for loyalty and sales increase.

Risk Management and Compliance

Credit Risks, Operational Risks, Market Risks, Internal Controls and Compliance

Activity and Structure

The risk management activity plays a significant role, not only as a result of a growing complexity of services and products offered by the Organization, but also in view of the globalization of its activities. Therefore, Bradesco has improved its risk management-related activities, in pursuit of the best internationally used practices, however duly adjusted to Brazil's reality.

Bradesco deems the risk management a generating factor of competitive advantage employed by the Organization with a view to adding value to Bradesco Brand, to the extent this enables support to the business areas in the planning of their activities, optimizing the utilization of own funds and of third parties, in benefit of stockholders and the company. In this regard, Bradesco foments the technical improvement of its team on a permanent basis and particularly, the professionalization of those connected with the risk management and control.

The organizational structure of the Risk Management and Compliance Department – DGRC reflects the Organization's commitment to the issue, once the integration of three risks into one independent Department brings great advantages to risk management, meeting the concepts enacted by the New Capital Accord (Basel II) and the best Corporate Governance practices.

Organizational Structure of the Risk Management and Compliance Department:

The structure of the Risk Management and Compliance Department also aims at ensuring the necessary focus to such activities and generate a solid added value. Robust investments are made, especially in the qualification of employees, to enhance the quality of risk management of the Conglomerate, not restricted to the banking activities, but on the contrary, extended with the same relevance to the other activities of the Organization.

Additionally, the Risk Management and Compliance Department coordinates all the actions necessary to comply with the regulations issued by the Brazilian Central Bank, as regards the New Capital Accord (Basel II). These works are directed by an Executive Committee designated by the Board of Directors, under the coordination of the Organization's President.

The Department also has as attribution the responsibility for the compliance with the Resolution # 2,554 of the Brazilian Central Bank (Internal Controls) and with the provisions of the Sarbanes-Oxley Act, Section 404.

Risk Management Process

Bradesco adopts a comprehensive and integrated approach for managing all risks inherent to its activities, based on the support from its Internal Controls and Compliance structure. This integrated view allows the improvement of its risk management models, filling possible gaps, which could jeopardize the correct identification and assessment.

Credit Risk Management

Credit Risk is the possibility of a counterparty of a loan or financial operation might neither intend nor suffer any change in its ability to comply with its contractual liabilities, thus may generate any loss for the Organization.

As part of its Credit Risk Management improvement process, Bradesco is working uninterruptedly to improve the procedures for gathering and controlling portfolio information, developing and improving loss estimation models to examine and prepare the rating inventories used in the follow-up of credit analysis, granting and settlement processes, monitoring credit concentration and identifying new components offering credit risks and preparing risk mitigation strategies.

Efforts, which are focused on the utilization of advanced models, used to assess the risks and improve processes, have demanded exhaustive works by all areas comprising the loan chain, and on the other hand, have reflected on the quality and performance of the portfolio seen over the past quarters, both in terms of results and solidity to various past and future scenarios.

We also point out the following actions and events:

- The Executive Committee of Credit Risk Management holds a monthly meeting, enabling the follow-up and the participation of the Top Management in the major facts and decisions referring to credit risk;

- incentives to improve risk rating models of clients within particular characteristics in the business segments Bradesco operates;

- participation in the evaluation of credit risks upon review of formalization of products;

- implementation of expected and unexpected losses calculation system, besides the allocation of corresponding capital;

- a periodical review of projects related to the compliance with best practices and requirements of New Capital Basel Accord, by monitoring actions in progress and identifying new gaps and needs emerged for the improvement of management process, preparing action plans;

- backtesting of the models used for measuring loan portfolio's risks;

- optimization of the manageable information systems in order to meet the current approach of department and customers' segmentation, emphasizing decision-making process and loan portfolio's management;

follow-up of critical risks: periodical monitoring of the main events of default, by means of individual analysis based on the growth of clients balances and recovery estimates; and

continuous review and restructuring of the internal processes, including roles and responsibilities, qualification, organizational structures review and IT demands.

Operational Risk Management

Under the corporate scope, Bradesco Organization defines operational risk as a manifestation of events resulting in the business interruption, systems failure, errors, omissions, frauds, or events in various activities, with impacts over clients and the Institution.

The operational risk management is based on the preparation and implementation of methodologies, using a standardization specific system of collection format and treatment of operating loss historical data and is aligned to best practices of operational risk management. We point out that we are under the conditions to meeting the guidelines enacted by the New Capital Basel Accord and to the schedule set forth by the Brazilian Central Bank, by means of Notice #12,746, issued in December 2004.

The National Monetary Council issued by means of the Central Bank on June 29, 2006 the Resolution 3380 which provides for the implementation of the operational risk management structure. Since 2003, the Bank is fully aligned with this guidance about operational risk management in all Bradesco Organization.

We have been conducting quarterly theoretical calculations of operational risk capital allocation, using the Basic Indicator Approach (BIA), Standardized Approach (STA) and the Alternative Standardized Approach (ASA), as defined by Basel II and Notice 12,746 of the Brazilian Central Bank. Through such studies, we verified a lower utilization of capital with the Alternative Approach (ASA), when compared to the others, according to the table below:

Participation among Approaches in the Calculation of Capital Allocation for Operational Risk

| Approach | 3Q06 (*) |
|--------------------------------|-----------------|
| Basic Indicator (BIA) | 100.0% |
| Standardized (STA) | 94.7% |
| Alternative Standardized (ASA) | 55.1% |

(*) Calculated according to the Brazilian Central Bank criteria, considering the Financial Consolidated.

In 2005, Bradesco concluded an exhaustive process of reviewing the corporate accounts plan, which included the review of the Organization's products and services. As a result of such work, Bradesco opened specific accounting items, improved the records and the analysis of events related to operational risk, by also resulting in the improvement of internal processes, associating them to the lines of business enacted by Basel II, which on their turn, are aligned to the concepts used in the credit risk management.

Aiming at synergy and rationalization of resources, an identical work is also under development in the Insurance Group. These efforts focus on the convergence of implementation of concepts of Basel II and Solvability II, concerning the knowledge and development of the advanced (operating losses) and intermediate (based on gross result) methodology for unification of the criteria within Bradesco Organization, in conformity with Resolution 3380

in terms of financial economic consolidated.

142

In addition, in the 1st half of 2006 we maintained efforts to identify operational losses occurred with loan instruments, by observing the concepts of Basel II, and solid results in the Retail Segment's businesses.

Bradesco Organization's goal is to obtain qualification for the Advanced Measurement Approach (AMA). The data to prepare the calculations required are obtained by means of book accounts opened for registration of Operational Risk loss events. This structure enables a better understanding of the events, as well as a detailed evaluation of their occurrences by means of inferences about the operational data base.

When determining the regulatory capital for Operational Risk, by the Advanced Methodology, we measure the expected losses (EL), not only in compliance with Basel II rules, but also an assistance for the establishment of operational losses provisions necessary with statistical assistance.

Those losses not classified as expected (EL), i.e., the unexpected losses (UL) are calculated by using the LDA (Loss Distribution Approach) methodology, which comprises the estimate of distribution of severity (loss amount), frequency (number of losses events) and the calculation of VaR (Value at Risk), which represents a maximum loss with 99.9% of chance of occurring. Therefore, we consider as unexpected loss (UL), the difference obtained between the expected loss and the VaR measure, which will reflect on future capital allocations.

In addition, a new systemic business platform is under validation process, which will integrate into a single data base, the Operational Risk and Internal Controls information (quantitative and qualitative portion of the risk), and will comprise the requirements set forth by the U.S. Sarbanes-Oxley Act.

Market Risk Management

Market risk is related to the possibility of the loss of income from fluctuating rates caused by mismatched maturities, currencies and indexes of the Institution's asset and liability portfolios. This risk has been accompanied by growing strictness by the market, with significant technical evolvement over the past years, with a view to avoiding, or at least, minimizing, eventual losses to institutions, due to higher complexity in operations carried out domestically and internationally.

At Bradesco, market risks are managed through methodologies and models, which are consistent with local and international market realities, ensuring that the Organization's strategic decisions are implemented with speed and a high level of reliability.

The Organization adopts a conservative policy regarding market risk exposure; VaR (Value at Risk) limits are defined by Senior Management, and compliance therewith is daily monitored by an independent area to the portfolio management. The methodology used to determine VaR has a reliability level of 97.5%. The volatilities and correlations used by the models are calculated on a statistical basis and used in processes based on future prospects in accordance with economic studies. The methodology applied and current statistical models are validated daily using backtesting techniques.

Investments abroad protected by hedge operations are not considered in the VaR calculation, since these are strategically managed differently, with amounts taking into account the tax effects, which minimize the sensitivity to risks and corresponding impacts on results, as well as foreign securities positions, which are funding-matched.

Besides the follow-up and control via VaR, a Sensitivity Analysis is made daily, which measures the effect on domestic interest rate curve portfolio

and exchange coupon curve movement (differential of interest paid above the exchange variation), as well as possible impacts on stress scenarios positions are periodically assessed.

Complementing the market risk monitoring, control and management structure and in accordance with Central Bank regulations, a daily verification is made of the values at risk for the pre-fixed and foreign exchange positions of the Organization's entire portfolio and of remaining capital requirements.

Management of Internal Controls and Compliance

The Organization is continually developing policies, systems and internal controls to mitigate possible potential losses generated by its exposure to risk, destined to optimize processes and procedures, among which we point out the following:

Internal Control System based on 25 Basel Internal Control Principles and in the methodology of Committee of Sponsoring Organizations COSO, in

the businesses areas, referring to control environment components, risk assessment, control activities, information, communication and monitoring and Control Objectives for Information and related Technology COBIT, for the information technology areas. This system reinforces the ongoing improvement in the identification process and assessment of controls used in risks mitigation, also in compliance with the Sarbanes-Oxley Act, Section 404.

144

SPB Management Brazilian Payment System, has the purpose of ensuring the execution of the messages among the Banks of the Organization and all the entities participating in this system. The activity is supported by monitoring tools of the Organization's information systems, aligned with the continuous training and professional qualification, with the purpose of ensuring full operationality and availability of the system. Additionally, the Organization has a PCN Operational Continuity Plan for SPB, documented in a specific tool and with corporate access, comprising predefined scenarios and actions, which enables the reduction of systemic unavailability risk. The areas involved in the process also count on a physical environment located in Alphaville, for operational continuity of the SPB processes, in the occurrence of a possible claim (fire, landslide, strike etc.), in the facilities of the Headquarters or Nova Central, which hinder the performance of activities. PCN SPB is continuously tested and the evidences are published in standard reports disclosed in our corporate intranet.

Measures preventing and combating Money Laundering observe the best market practices and are based on the policy *Conheça seu Cliente* (Know your Client). Training and awareness programs are exhaustively provided to all employees and the use of technological tools to monitor financial transactions are constantly upgraded, with a view to protecting the Institution and Management, Stockholders, Clients and Employees and avoid the use of Organization in transactions or situations, which may be directly or indirectly related to crimes preceding money laundering, characterized in Law 9,613/98.

Information Security Management, consolidated in the Security Policy, is designed to protect client and corporate information. Bradesco Organization has a formal structure, with specific objectives and responsibilities, for defining, maintaining and improving information security in the corporate environment, which is based on the Corporate Information Security Policy and Standards approved by the Executive Information Security Committee. The following policies are adopted in relation to client information:

Information is collected ethically and legally and under the clients' awareness, for specific purposes and are duly informed;

The information received by Bradesco are treated and stored safely and fully, with cryptography methods or digital certification, when applicable;

The information will only be accessed by persons legally authorized and qualified;

The information may be available to companies contracted for services rendering, however it is required that such organizations comply with our guidelines for security and privacy of data;

Clients' information only will be provided to third parties, by means of previous authorization of the client or to comply with a legal or regulatory requirement;

The information for the purposes of evaluation of credit, checking and risk management, may only be exchanged with respectable reference sources and clearing services; and

The information and data included in our records, as well as other requests to ensure legal or contractual rights will only be provided to those interested, by means of formal request, observing the prevailing legal requirements.

Liquidity Risk Management

Liquidity risk management is designed to control the different mismatched settlement terms of the Institution's rights and obligations, as well as the liquidity of the financial instruments used to manage the financial positions.

Knowledge and monitoring of this risk are critical since they enable the Organization to settle transactions on a timely and secure manner.

At Bradesco, liquidity risk management involves a series of controls, mainly with respect to the establishment of technical limits, with constant assessment of the positions assumed and the financial instruments used.

Capital Risk Management

The Organization's capital is managed to optimize the risk to return ratio, in such a way to minimize losses through the implementation of well-defined business strategies and maximizing efficiency in the combination of factors which impact on the Capital Adequacy Ratio (Basel).

Loan Policy

The Organization's Loan Policy complies with resolutions of the Board of Executive Officers and Brazilian Central Bank, besides guiding their actions by goals of security, quality, liquidity and diversification in the assets utilization.

In a continuous search to offer agile and profitable business, we apply appropriate methodology directed to each Bradesco's business segment, as well as guiding the establishment of operating limits and the granting of loan operations.

Within rules and Loan Policy, the Branches maintain their limit values variable, according to the size and guarantees of operations, and the automatic classification is verified against global risk of client/ economic group.

The loan proposals pass through an automated system and under parameters in a continuous improvement process, with a view to supplying indispensable subsidies for analysis, granting and follow-up of loans granted, minimizing the risks inherent to loan operations.

For the granting of mass loan, the specialized Credit Scoring systems enable to attain greater agility and reliability, besides the standardization of procedures in the credit analysis and granting processes.

The Executive Loan Committee located at Bradesco's Headquarters aims at joint decision-making processes within its skills referring to consultations about limits or operations proposed by the Branches (Prime, Private, Varejo (Retail) and Corporate) and by

the Departments (Corporate and Exchange), including External Branches, previously analyzed and with opinion of the Loan Department.

Operations are diversified, non-selective and focused on individuals and corporate customers with sound payment capacity and proven creditworthiness. Care is taken to ensure that the underlying guarantees are sufficient to cover the risks assumed, considering the purpose and terms of the loan granted.

Methodology Used for Loan Portfolio and Client Classification

The credit risk assessment methodology, besides delivering data to establish minimum parameters in the loan granting and risk management, also enables to define differentiated loan policies in view of characteristics and size of client, providing grounds not only for the correct pricing of operations, but also the definition of adequate guarantees according to each situation.

Concerning the internal policy, the risk ratings of Bradesco's clients are given on a corporate basis and periodically followed-up, with a view to preserving the quality of loan portfolio, according to the following levels:

Classification Corporate

| Rating | Bradesco | % Provision | Concept |
|---------------|-----------------|--------------------|--|
| AA | Excellent | 0.0 | Premium clients, with size, tradition and market leadership, with excellent reputation and economic and financial position. |
| A | Very good | 0.5 | Clients with size, sound economic and financial position, operating in markets with good prospects and/or potential for expansion. |
| B | Good | 1.0 | Clients, which, regardless of size, have a good economic and financial position. |
| C | Acceptable | 3.0 | Clients with a satisfactory economic and financial position but with performance sensitive to economic scenario variations. |
| D | Fair | 10.0 | Clients with economic and financial position in decline or unsatisfactory accounting information, under risk management. |
| E | Deficient | 30.0 | Loan operations with any expectation of not being paid or in default, classified under the possibility of loss. |
| F | Bad | 50.0 | |
| G | Critical | 70.0 | |
| H | Uncollectible | 100.0 | |

In the case of individuals, the risk ratings mentioned above are mainly defined based on their registered reference variables which include: income, equity, restrictions and indebtedness, besides standard and past relationship with Bradesco.

Debit Cards

Bradesco showed a base of 38.8 million Debit Cards in the 3rd quarter of 2006, due to the debugging process of the base, started in 4Q05 and which resulted in the exclusion of inactive Eletron cards and is showing a better quality of the base. The average quantity of transactions per card grew 20.4% compared to the same period of the previous year, and the total quantity of transactions made by debit card in 3Q06 was 76.3 million, a 12.0% growth compared to 3Q05.

In terms of sales results, in 3Q06, there was an increase of 16.5% over the same period of 2005. The financial volume reached R\$3,441.6 million versus R\$2,953.1 million in 3Q05.

These two indicators clearly demonstrate that Brazilians are changing their payment habits, replacing checks and cash for the use of cards, especially debit cards.

Import Market

With the purpose of offering a larger support to companies operating in the exchange market and foreign trade or those that try to operate in this market, Bradesco is investing in the expansion of its structure, creating exchange platforms in the main export centers of the country. These platforms are located jointly with the segment Bradesco Empresas and count on professionals specialized in exchange and foreign trade.

It is also worth pointing out that Bradesco already uses a Digital Certification system for foreign exchange contracts. This service allows the customer to electronically sign exchange contracts, which, besides making the clients transaction easier, speeds up the exchange contracting flow, reducing operational risks and costs.

Business Processes

Ombudsman Area

Bradesco Organization always had the philosophy of giving voice to its clients and users of banking products and services, innovatively creating in April 1985, the service Alô Bradesco (Hello Bradesco), which was the first financial market communication channel for suggestions and complaints, five years prior to the launching of Consumer Defense Code. This channel contributed to enhance these relations and has been an important strategic tool for relations transparency.

We implemented the Ombudsman area, dealing with all manifestations, whether these stem from Alô Bradesco service, which answers by phone and e-mail, or those deriving from Brazilian Central Bank, Procon (Consumer Protection Agency) and Press. It is incumbent upon the Ombudsman to manage these manifestations, follow-up term and quality of answers offered, provide the managers of products, services and processes with updated information so that they can learn from these warnings received and anticipate compatible solutions with needs and demands of our clients.

Quality Management NBR ISO 9001:2000 Certifications

To successfully conduct and operate an organization it is necessary to direct it and control it in a transparent and systematic manner. The success may result in the implementation and maintenance of a management system.

The Organization counts on a group of highly qualified professionals, responsible for the methodology definition of Bradesco Quality Management System (SGQB) and implementation process management.

Bradesco Quality Management System has as purpose to continuously improve the performance of processes, taking into consideration, at the same time, the needs of all interested parties. By means of SGQB, the Premises show their capacity to provide products/services that meet the client's requirements and the applicable regulatory requirements, aiming to increase the client's satisfaction.

Bradesco Organization, in the permanent search to provide its clients and users with the easiness and commodity that only a Complete Bank can offer, reached this acknowledgement in 128 processes certified in NBR ISO 9001:2000 related to Products and Services.

The ISO 9001:2000 certifications are formal evidences that all the activities related to the quality of the product or service certified were planned, implemented and controlled according to an international acknowledgment rule.

Accordingly, the certifications are an important competitiveness instrument ensured only to companies that show their commitment to quality.

The ISO 9001:2000 certifications motivated the Organization to advance in the quality management practices, thus adopting the Excellence Criteria Worldwide Class, which, undoubtedly represent a great differential in business management, as well as they highly contribute to issues of sustainability and corporate governance.

Protection Seal and Data Privacy GoodPriv@cy

GoodPriv@cy Data Protection and Privacy Seal is a standard established internationally, comprising requirements for the management of data protection and privacy at the organizations.

Bradesco Data Protection Management System has as purpose to standardize data protection management at Bradesco Organization and minimize risks related to violation in data protection and failures in information security, by means of the compliance with the legal and internal requirements and the continuous improvement of data protection and privacy processes.

As Bradesco Organization is a pioneer in technological innovation, it constantly invests in IT, concerning about information security in all levels, establishing procedures in the ethical treatment of personal data collected for any purpose, including the establishment of Information Security Corporate Rules and Policy. The certifications show this practice and reassure the Organization's permanent concern about data protection of its clients and users.

At present, Bradesco Organization has 8 certifications:

Methodology for Mapping and Documentation Processes

This methodology is designed to codify and standardize processes mapping and documentation works carried out by the Organization's different departments on a stage-by-stage basis which, in conjunction with the information on related products, services and activities, ensures that these processes are effectively analyzed, in the pursuit for ongoing improvement, as well as meeting the demand generated by the needs of the documentation required by the Internal Controls and Compliance System, the Bradesco Quality Management System based on the NBR ISO 9001:2000, the Activity-Based Costing System ABC and Section 404 of the Sarbanes-Oxley Act.

Activity-Based Costing ABC

Designed to support the Bank in its actions to improve processes and optimize production resources, such as practices recommended for decreasing costs, Bradesco adopts the Activity-Based Costing System ABC, which measures the cost and performance of its activities, resources and cost centers.

The knowledge of the Bank's activities, as well as the correct measurement of the resources consumed by these activities, allows a more accurate analysis of the cost/benefit ratio of each of the Organization's productive processes and results centers.

We stress that as a result of the application of Activity-Based Costing, the Bank is now meeting the following targets: improved allocation of costs to products, channels and customers; support to qualification studies and negotiation of bank fees; subsidy to product, unit and client profitability systems; support to studies concerning outsourcing, incorporation and equipment sharing, as well as support to cost rationalization studies.

Activity-Based Management Program

Seeking to explore the potential applications of the information base of the Activity-Based Costing, we are to adopt a Cost Management model by means of the Activity-Based Management ABM, which will rapidly lead to the prevention of costs and a proactive approach regarding the identification of opportunities.

Accordingly, as processes are improved, operating performances can be seamlessly integrated with Bradesco's strategic goals, designed to create and/or sustain Bradesco's competitive advantages and add value both for clients and stockholders.

Thus, the future mission of Activity-Based Management is to provide permanent support to the planning and control of the Bank's business processes, ensuring that tactical and operational issues are continually improved, as well as supporting their strategic gearing.

Expenses Assessment Committee

In the pursuit of assisting the Board of Executive Officers in cost control and the adoption of strategies, policies and measures designed to restrain expenses, in March 2004, Bradesco created the Expenses Assessment Committee, responsible for monitoring administrative and personnel expenses, as well as fixed assets, analyzing the corresponding processes with the related managing areas, seeking to obtain a maximum cost/benefit ratio.

In line with good Corporate Governance practices, the Committee is an important tool, as a result of its permanent activity and capacity to anticipate events, for improving and enhancing processes, capable of carrying out an in-depth analysis of Bradesco's costs, from all standpoints and producing savings which reflect positively on the Organization's results.

Integrated Management System ERP

For purposes of providing permanent and appropriate support for its operations and in the pursuit of improved results, as well as extending its capacity to manage the Organization's resources, Bradesco adopts one of the most modern concepts for integrating organizational processes, using SAP's Integrated Management System, mySAP Business Suite solution.

This system's implementation represents an innovation in the treatment of the value chain supporting Bradesco's financial industry, comprising analyses dimensions focused on Processes, People, Organizational Structure and Technology.

Initially, the system will integrate processes in the Human Resources, Training, Material and Service Purchases, Accounts Payable, Physical and Fiscal Receiving, Fixed Assets and Accounting, in addition to the Availability Control process, for the effective follow-up of the Bank's administrative expenses.

Currently, the processes of Works Management, Maintenance Management, Currency Management, Real Estate Management, Supplies Management (Auction and Electronic Quotation), Banking Accounting and Consolidation of Financial Statements.

The adoption of the Integrated Management system by the areas integrated through this technology enabled them to renew processes and review organizational structures and nearly 78 thousand system users will be qualified via presence and e-learning training.

As a result of the implementation of the Integrated Management System, Bradesco will benefit most from the organization and standardization of the processes carried out in different areas, agile decision-making, secure data processing, as well as decreased operating costs and increased productivity. These factors are crucial for the Organization's growth, especially in view of current financial area competition, prompting us to pursue increasingly effective management methods designed to ensure that all of Bradesco's business potential is properly leveraged.

q) to disclose its achievements by means of the social balance sheet and make available to interested parties relevant information related to possible happenings and social and environmental actions carried out by the Organization.

And, ratifying the premises of its policy, Bradesco structured the Social-environmental Responsibility Executive Committee, which is permanent and has decision-making powers.

This Committee is comprised of nine (9) Directors and representatives of the following Facilities: Fiscal Audit Department; Risk Management and Compliance Department; General Inspectorate Department; Organization and Methods Department; Assets Department; Human Resources Department; Market Relations Department; General Secretariat; and Fundação Bradesco.

The Social-environmental Responsibility Area, which composes the Market Relations Department, was created to assist the Executive Committee and has as main mission to interact and integrate the several Areas of Bradesco Organization in order to sensitize them as to social-environmental issues, in addition to encouraging and following initiatives related to the matter, considering the premises of Bradesco Organization's Social-environmental Responsibility Corporate Policy and the best market practices.

Equator Principles

In September 2004, Bradesco adhered to Equator Principles, a set of social-environmental measures based on criteria defined by the International Finance Corporation (IFC), used in the evaluation and concession of financing of infrastructure projects known as project finance.

Bradesco ratified, in July 2006, its adhesion to the new version of Equator Principles, whose scope comprises all project finance, its assistance, new ones or in expansion, with total capital cost higher or equal to US\$10 million.

It is important to point out that the adoption of these principles is voluntary, with no dependence or support of IFC or the World Bank. Thus, the institutions which will adopt them must take them as basis for the development of practices and internal and individual policies.

By adhering to Equator Principles, Bradesco increases its commitment to the sustainable development and reaffirms its role as one of the largest financing companies of the country's economic activity.

Global Compact

Bradesco, at the beginning of November 2005, aligned with the corporate responsibility guidelines, adhered to Global Compact principles, assuming the commitment to promote actions to contribute for the development of an inclusive and sustainable economy, increasing its performance within the social-environmental scope.

Global Compact is a result of an invitation made by the Secretary-General of the UN, Kofi Annan, at the World Economic Forum in Davos, in January 1999, to companies, NGOs and other governmental and civil entities, to follow and disclose the ten principles that guide it, concerning Human and Labor Rights, Environmental Protection and corruption combat.

ISE Corporate Sustainability Index

Bradesco, as from December 2005, started integrating ISE, Sustainability Index of BOVESPA – São Paulo Stock Exchange.

This index was created with the purpose of providing visibility to the sustainable companies, so that investors may invest their funds.

To evaluate the performance of the companies eligible to ISE, the Sustainability Study Center of FGV-EAESP was contracted and developed a questionnaire with the triple bottom line concept, which comprises the evaluation of economic, social and environmental elements in an integrated way.

The index is comprised by a select group of companies which have the best performances in the economic-financial, social and corporate governance dimensions.

The choice of Bradesco's common and preferred stocks to comprise ISE strengthens the Organization's commitment to the good corporate governance practices in the relationship with stockholders, clients, investors, employees and the general public.

This positioning gives priority to ethics by quality and clarity of information disclosed in order to enable a closer follow-up of the Organization's performance.

The selection of Bradesco in ISE reaffirms its concern with liquidity, transparency, stability and social and environmental responsibility.

DJSI Dow Jones Sustainability World Index

In September 2006, Banco Bradesco started taking part in the selected group which comprises the Dow Jones Sustainability World Index portfolio.

Currently DJSI is comprised of 318 companies that materially have corporate sustainability rooted in their initiatives, practices and business management.

In this context, Bradesco's social-environmental actions are integrated in its business strategies and result in the conviction that a good company is that which works and grows in a society and develops itself with harmony.

Rating in Sustainability (Management & Excellence)

Banco Bradesco is Latin America's first company to receive AAA+ rating in Sustainability, from Management & Excellence (M&E).

The largest Brazilian private Bank, Banco Bradesco obtained the best possible rating, AAA+, as it met the 433 sustainability, corporate governance, social responsibility, ethics and transparency criteria. This evaluation, subject to annual reviews and with a three-year validity, was made by Management & Excellence (M&E), a respected sustainability research and evaluation company, based in Madrid.

M&E's evaluation reflects the conformity with most standards established in Brazil and Abroad, which classified more than 100 companies in the whole world and is a pioneer in the sustainability area.

Launch of the Social-environmental Responsibility website

Bradesco launched its Social-environmental responsibility website, one more important tool in the availability of key information and in the construction of a relationship more and more positive with the market.

A result of months of work and of the effective interaction among several areas, departments and suppliers, the new website brings a detailed outlook of the Organization's operation in all the segments of the social-environmental responsibility, showing a Bradesco beyond leadership, pioneer in technology and innovation in the offer of products, services and financial solutions.

To facilitate the obtainment of information, the website makes available the best in navigation solutions, ideas that bring agility, easiness and creativity. Also to speed up the research of internet users, Bradesco's several initiatives were structured in eight large areas: values, shareholders and investors, clients, employees, community, government, suppliers and environment.

In addition to pictures and links, the new website makes easier the access to documents such as the Quality Policy, the Code of Ethics and the Human Resources Policy. Permanently updated, soon it intends to be one of the main references of the Country in the availability of information about social-environmental responsibility.

Visit the new site at www.bradesco.com.br/rsa.

Social Stock Exchange Program of BOVESPA

Aiming at the social and banking inclusion, Bradesco collaborates with the **Social Stock Exchange Program of BOVESPA**, which was launched in June 2003 by BOVESPA and its brokers as a social initiative to raise funds for non-governmental organizations, acknowledged by UNESCO as the first one in the world. The idea is to gather institutions of the Third Sector that need financial resources and investors (donors) willing to provide them. Thus, the NGOs strengthen investments as social profit, i.e. making society fairer, where thousands of children and youngsters may enjoy better opportunities.

ISO 14001 and OHSAS 18001 Certifications Building

In May Bradesco obtained the ISO 14001 and OHSAS 18001 certificates for the building at Avenida Paulista, in the city of São Paulo. This is a 12-story building with three basements totally refurbished and adapted, aiming at complying with all the specifications and rules required for the referred certificates.

Bradesco's Contribution to Preserve the Environment

Aware of the need of maintaining adequate facilities, without disregarding the social and environmental aspects, Bradesco has adopted practical measures contributing to preserve the environment.

In this regard, we permanently seek to apply new technologies minimizing the impact on ecosystems. In addition, the contracted companies' commitment to our social and environmental goal and a continued awareness of our staff in pursuit of eco-efficiency, reinforces our commitment to foment sustainability. Below, we present some measures already adopted or under implementation.

1) Resources consumption rationalization

With a view to rationing electricity and water consumption, we destined an area to manage the consumption of these strategic resources. Its attributions consist of managing agreements of demand for electricity with the concessionaires

and permanent research of efficient and intelligent new technologies for our equipment, observing the environment preservation policy.

The Branches Network awareness about this issue has been deserved continual attention by indicating consumption targets for our units, based on size, quantity of equipment installed and headcount, as well as release of articles about the rational use of electricity and water.

172

a. Electricity

Timing machines were installed in our premises for the automatic turning-off of lamps and lights, allowing an easy utilization at scheduled hours. The turning-off of illuminations, non-used areas, and the employment of natural light have been encouraged.

Similar care is adopted in the acquisition and installation of air-conditioning systems, such as thermo-accumulation devices, which reduce the energy consumption in peak hours, and water treatment in its towers, without using chemical products.

We recommend the optimization in the use of lifts and air conditioning, as well as in the use of other energy consuming equipment.

The replacement of 50% of 255 mercury lamps by other sodium steam lamps, in 178 posts installed on the streets of Cidade de Deus (headquarters), and the exchange over the past 3 years of approximately 30,000 40 Watts lamps for 32 Watts has substantially reduced the energy consumption, without losing the lighting efficiency.

b. Water

Same concern is expressed as to the rational use of water. Thus, our Premises are periodically guided concerning the monthly follow-up of consumption and maintenance aiming at correcting possible leakage in valves, flushings and faucets. In addition, technical measures contributing to the water consumption reduction have been adopted, for instance, the replacement of mechanical faucets with automatic ones for use at headquarters premises.

The adequate garden watering, observing the best hour and periodicity, has also been deserved attention. There is a feasibility study related to the reuse of water that comes from the partial sewage treatment generated at headquarters, with the purpose of watering and usage in the air conditioning towers.

2) Solid Residues Destination

a. Solid Residues derived from Civil Works

Concerned with the impact on environment caused by residues produced in site office (debris, wood, plastic, metal etc.), all contracted construction companies undertake to comply with Resolution 307, of the Environment National Council concerning the correct destination of residues, upon refurbishments and alterations in layouts of our premises. Referring to the maintenance of buildings at the headquarters and Avenida Paulista, the agreements were added with a specific clause on the correct destination of painting residues (inks, glue, paint brush used etc.)

This responsibility includes the submission of a document recording that residues were deposited in licensed landfills, in the cities served thereby.

b. Paper and Cardboard

Currently, approximately 100 tons of paper and cardboard are collected monthly in some of our administrative centers, which are submitted to a selective process. It has been examined the possibility of its implementation in other regions. Methods to assess the quantity of paper consumed by the Organization is under study, both office paper and forms, with a view to knowing which are the possible measures that may be adopted aiming at reducing such consumption.

c. Metal, Glass and Plastics

At the headquarters and in four other administrative centers the selective collection of metal, glass and plastics is implemented. This practice has been encouraged and improved by means of in-house campaigns and actions, in the expectation of increasing to other centers, as well as to increase the quantity of recycled products. In order to improve our concern in this regard, we have been using at the headquarters and main administrative centers biodegradable plastic bags with colors corresponding to waste collected.

173

The expansion to the other facilities is in the final implementation stage.

A measure adopted nearly 4 years ago is the utilization of remanufactured cartridges as consumption items for our premises, aiming besides cost savings, the benefits of reducing pollution. Out of the 51 types of toner cartridges composing our consumption list, 34 are remanufactured products.

d. Lamps

We have more than 36 thousand lamps at our headquarters buildings and monthly more than 600 lamps are replaced. Concerned with the appropriate destination of this material, the maintenance agreements contain an specific clause about the service company's obligation to conduct the ecologically correct discard.

e. Other residues

At Cidade de Deus, our headquarters, we maintain approximately 115,000 m² of green area, with more than 3 thousand trees cataloged under the replacement and planting program. We have been using equipment for grind of dried leaves, which are used in gardening, totaling nearly 1.5 tonne/month. We have also been reintegrating the parings of grass to the soil as input.

3) Recycled Paper Usage Program

Now we hold a special initiative, whether due to its dimension and comprehensiveness, or due to a positive standing towards the environment preservation: Recycled Paper Usage Program at Bradesco Organization.

This Program, a result of Bradesco's belief that it is able to highly contributing to disseminate theory and practice of environmental responsibility, has been implemented gradually in our Organization. The option to use Recycled Paper was made after long negotiations with suppliers, and even if it does not mean costs optimization, we are aware that the result will be beneficial for the environmental. Recycled paper is used in the production of internal and external communication material, such as posters, magazines, business cards and statements distributed to clients and in check books.

4) Biodegradable Products for Cleaning

At Bradesco's headquarters, the Company started the cleaning and maintenance services by using biodegradable products. Contracted companies are being encouraged to use products of such type, which then will be one of the requirements to be considered in a further agreement renewal. Such measure integrates an improvement program seeking to standardize the biodegradable products, the appropriate dilution, in conformity with the manufacturer's guidance and the obligation to present information about chemical products applied in our premises.

Bradesco's Contributions to Social Issues

Finasa Sports Program

Bradesco Organization demonstrates its support to sports activities through the FINASA ESPORTES (Finasa sports) program, successor of the BCN Sports Program. This initiative, with more than 18 years of activity, gained momentum as from 1997, following its integration with Bradesco's other social projects. Along its history, the program was known by its seriousness and has become a benchmark for assistance in the education of young people, using volleyball and basketball as instruments for social inclusion. At present, 2,800 girls from 9 to 17 years of age, enrolled at school and attending classes on a regular basis are included in the program. Approximately 70% of these girls derive from deprived backgrounds and are considered to be in a social risk situation.

Presently, FINASA ESPORTES, in accordance with its new concept, is structured in 51 training centers, which comprise a total of 138 classes, consisting of 69 classes for sports initiation practice, 20 for basketball and 49 for volleyball, installed on the premises of state and local schools, at Osasco's city hall sports centers, at Fundação Bradesco school, at a SESI unit and at three private schools, all located in

174

the municipality of Osasco, in Greater São Paulo. Acting in partnership with the local government, Bradesco Organization offers a full support structure which includes the supply of sports and learning materials, as well as a team of more than 73 professional instructors, including local and state coordinators and teachers.

The community integration has been the outstanding feature of this work. The PROGRAM is designed to transform sports practice into a powerful tool for strengthening the ties with citizenship values. At the FINASA ESPORTES training centers, 2 classes every week are dedicated to counseling on various topics, such as notions of hygiene, teen pregnancy, stress, drug abuse and adolescence, always emphasizing the importance of team spirit.

The training centers are also used to disseminate values that favor healthy living in society, including respect for others, union, dedication, persistence and excellence. Classes also stress the importance of having a positive and participative attitude, emphasizing the need to foster activities related to the recycling of materials, the rational use of water and electricity and the promotion of campaigns related to social issues, such as collecting donations in food and clothing.

The FINASA ESPORTES program considers the sports practice much more than a way to discover vocations or create athletes, it also lays the basis for the formation of citizens, who are the essence of a better country for everyone.

Social-cultural Events

In the 3rd quarter of 2006, Bradesco decisively collaborated for the cultural enrichment of the Brazilian society supporting several projects throughout Brazil. It sponsored the coming of the Canadian group Cirque du Soleil to the Country, the world's most important and respected circus. For the first time in Brazil, the troupe presented to the Brazilian audience the spectacle Saltimbanco, already seen by more than 9 million people in 19 countries. During the quarter, more than 250 thousand people saw the spectacle only in São Paulo.

For the second consecutive year, by means of Bradesco Prime, it sponsored the 37th Winter Festival of Campos do Jordão, in the countryside of São Paulo. During the event there was a performance of Students from Fundação Bradesco School of Osasco-SP.

It also supported many other events, such as the Book Biennial of Ceará, in Fortaleza-CE; the Quadro de Luz Exposition, of Jô Soares, in Rio de Janeiro-RJ; Expointer International Exposition of Animals, in Esteio-RS; the spectacles for children O Casamento de Dona Baratinha, in Rio de Janeiro-RJ, and O Senhor do Tempo, in São Paulo-SP; the 22nd World Conference of Open and Distance Education, in Rio de Janeiro-RJ; the Open Games of the Countryside, in São Bernardo do Campo-SP; and Salonpas CUP, in São Paulo-SP with the participation of the volleyball team of Finasa Osasco.

Human Resources

Since the inception of Bradesco's activities, the Company acknowledges the value of its team's performance and achievement potential as the foundation to sustain Bradesco Organization's businesses.

The Company offers its employees ongoing professional development opportunities, in a healthy, safe and ethical environment, with transparent commitments and goals.

Bradesco believes in its ability to promote a sustained growth for people and through these people.

The Company seeks to maintain an excellence model in Human Resources Management, guided by respect and transparency in its relations, continuous development investment, sharing of information and human being value, without discrimination.

Bradesco maintains a closed-career policy, whereby the admission occurs at apprentice levels. All the growth opportunities are destined to employees, allowing access to all hierarchical levels.

175

This assurance of opportunity for professional development and growth, where employees see the possibility of holding all the positions, not only the positions of managers, but also the high management, is a motivational factor for all the staff, stimulating creativity, innovation and the ceaseless search for knowledge and updating.

We may say that when a youngster joins our Organization, whose closed carrier system privileges, incentives and strongly invests in the growth and development of its employees, this professional starts a carrier full of opportunities, connected with his/her effort and dedication.

To encourage our professionals to exceed their limits and stimulate their creativity in search for solutions, aiming at self satisfaction, clients' satisfaction and business expansion, have been a priority for the Bank and is one of the assumptions of our Human Resources Management Policy, established in 2005, by the Board of Directors.

Only creative and innovative teams, highly skilled, with ensured carrier opportunities, could surpass the achievement of goals and show excellent results that have highlighted our Organization.

Bradesco's performance is disseminated and is continuously expanded throughout the country, enabling job opportunities in all the operation segments.

Bradesco is a bank which takes into account, by means of its clients and partners, the diversity which is the own expression of the Brazilian social structure, with a fundamental commitment to respecting cultural and ethnical diversity. The respect to the Brazilian diversity is part of the Company's strategic vision towards good performance, since Bradesco is inserted throughout the Brazilian territory.

Certification in International Rules

Searching for what is best done in the worldwide level, we achieved the certification of Rule OHSAS 18001 of Occupational Safety and Health which allows to establish and develop conditions that contribute to a safe and healthy work environment.

Great Place to Work

Bradesco's employees contribute to the achievement of the outstanding position we hold in the financial market, maintaining the excellence in all group's activities.

The Company seeks to promote transparency, so that to ensure a motivating and challenging organizational environment. Evidence is that Bradesco was listed for the seventh time in Guia Exame-Você S/A - As Melhores Empresas para Você Trabalhar (The Best Companies to Work for).

In addition to being ranked among the 150 best companies to work in Brazil, Bradesco was also acknowledged among the 50 best companies for women to work for, for the fourth consecutive year.

Guia Exame is considered the best and most comprehensive study on the work environment in Brazil. Based on employees' opinion, the study assessed the working environment, benefits, remuneration, professional development opportunities, ethics, citizenship values and social responsibility of companies.

Bradesco was also elected one of the 100 Best Companies to Work in Brazil, in a research prepared by Great Place To Work Institute, published in a special edition of Época Magazine.

For the third consecutive year, Bradesco stood out in the survey As Melhores na Gestão de Pessoas (The Best Companies in People Management) of Valor Carreira magazine, edited by Valor Econômico newspaper. The selection was made by means of evaluation of companies' internal environment, as from questionnaires and interviews with

employees who gave their opinion about issues such as training, benefits, safety and work conditions, credibility, motivation, performance and development planning.

These results show the acknowledgment to our commitment not only to clients, but also to our employees. Improving talents with professional training, stimulating education and maintaining a fair and dynamic organizational structure, we try to offer conditions so that each employee can grow and build a solid career, from a relationship policy based on respect and valuation.

Human Resources Management Policy of Bradesco Organization

We reaffirmed the commitment with our employees formalizing guidelines for the management and development of our human resources, by means of the Human Resources Management Policy of Bradesco Organization. Basic assumptions:

1. To comply with all the requirements, regulating rules and legal conventions concerning work relations and environment, applicable to our activities;
2. To assume the public commitment of defense and protection of Human Rights, Children's Rights and Labor Fundamental Rights, in line with national and international Principles, Standards and Treaties;
3. To respect the diversity and dignity of the human being, preserving the individuality and privacy, not admitting the practice of discriminatory acts of any nature in the work environment in all our relations, with the internal and external public;
4. To ensure the good relationship among all professionals of the Organization, maintain a safe and healthy work environment and provide conditions for great performance and productivity levels;
5. To contribute to the improvement in the quality of life of employees, offering conditions for the balance among work, health and family;
6. To encourage our professionals to surpass their limits and stimulate creativity in search for solutions, aiming at the self-achievement, clients' satisfaction and business expansion;
7. To promote the constant development and improvement of technical and behavioral potentialities of our employees and make available favorable mechanisms which allow them to manage their personal and professional plan growth, in order to ensure the continuous improvement of management processes; and
8. To ensure opportunity priority for the professional growth of people, by the permanent investment and development of internal competences, by the valuation and respect to knowledge and professional qualification acquired during the career.

In-house Communication

We strongly invest in our internal communication so that our employees are effective participants of the Organization's expansion strategy of results.

Simultaneously and from any location in the country, Bradesco's employees receive key information via Intranet and e-mail.

The Company makes available, day to day, the newsletter *Sempre em Dia* (Always Updated), with issues about the Bank's strategic direction, launch of products, quality practices and business focus.

Brochures and magazines are periodically published and addressed to each employee.

Produced according to the best quality standards, the editions in video of Bradesco TV comprise, monthly, institutional messages and technical guidance. Created in 1990, Bradesco TV is one of the country's oldest corporate television projects.

The annual goals and strategies are disclosed at meetings with the Presidency, where Directors, Regional Managers, Managers of Branches and Departments of the Organization take part. All the issues are referred to respective teams.

With the purpose of making the communication between the Human Resources Department and the staff closer, more agile and transparent, we have created ALÔ RH, an effective and fast communication channel that guides about benefits, legislation, policies and practices of human resources, in addition to suggestions and complaints.

People Management

Bradesco maps the Organization's human capital through individual interviews and with leaders, aiming at identifying corporate and essential competencies.

The Company also currently records 20,000 employees' profiles in this process.

Based on this knowledge, leaders and employees are given conditions to share actions focused on improving their performance, with professional improvement and short, medium and long-term results.

The maintenance of such work is the management of competencies with the employee's involvement, by means of incentive, guidance and follow-up of leaderships, focusing on constant feedback.

Respect to Diversity – Social Inclusion

Bradesco respects the diversity and self-respect of human being, by preserving the individuality and privacy, not accepting the practice of discriminatory acts of any nature: at the work environment and in all the Company's relations with internal and external public.

In 2005, Bradesco created the Diversity Appreciation Work Group, composed of professionals of different areas, with a view to effectively contributing to an improved relationship of the Company with different people, as well as to maintaining a balanced internal demography, both in the admission and retention of talents.

The issue is broadly supported in the Code of Ethics, Human Resources Management Policy and Social-environmental Policy of the Organization.

Ethical Groups

Bradesco entered into a partnership with Faculdade Cidadania Zumbi dos Palmares – Unipalmares, by means of a professional qualification program which aims to contract interns to work in important business areas of Bradesco.

Unipalmares' mission, by means of NGO Afrobrás, is to promote the inclusion of black people into higher education of the country.

The program is divided into various modules, with 2-year duration and also relies on a partnership with renowned institutions, such as FGV, USP, FIPE, FIPECAFI and FIA.

The program, which started with 30 interns, was increased and currently counts on 60 students.

Inclusion Policy for Disabled People

Aiming at the contracting and retention of disabled people at the Organization, Bradesco set forth partnerships with specialized entities and focused on inclusion of such professionals, qualifying them and creating job opportunities in the Organization. We have in our Call Center a specific part with visually impaired employees.

Bradesco was one of the Banks which sponsored Febraban Professional Qualification Program which qualified professionals with deficiency to exercise activities in the job market.

By means of Bradesco's Website, in the link Career Opportunities, the Company offers an exclusive channel for the collection of disabled people's curriculums.

Bradesco has a staff of 800 disabled people.

Opportunities for Women

Bradesco ended the 3rd quarter of 2006 with a quota of 37,153 women employees, corresponding to 47% of the functional staff.

In the Prime segment, 71% of staff is women.

In leading positions, Bradesco has 15,750 women, including in the Board of Executive Officers and the Board of Directors.

Internship Program

Aiming at providing real professional development opportunities, Bradesco Organization offers internship program to all operation and business areas, allowing the student to relate the academic learning with the practical activity. The program currently benefits 864 students.

Traineeship Programs

Information Technology students of Fundação Bradesco have the opportunity to start their professional career in the systems development area of the Organization by means of a structure program of trainees. In addition, all students approved in the selection process have been contracted.

In 2006, the Organization's First Traineeship Program was established, in a business area, specific for Bradesco Prime business area segment, aiming at the technical and practical qualification of future Relationship Managers of this segment.

The program had an 8-month duration. There are currently 23 new Prime Managers at the Organization.

Youth Apprentice Program

The Youth Apprentice Program was implemented by Bradesco Organization in 2004, executed in partnership with Fundação Bradesco and other qualified entities, encompassing the administrative centers throughout the country.

The program estimates the contracting of youngsters from 14 to 18 years old, having as purpose to provide personal and professional development to adolescents.

We ended September 2006 with 727 Apprentices and we have already provided the program for about 1,241 youngsters.

Young Citizen Program

With a view to reinforcing Bradesco's actions in the Social Responsibility area, as from October 2005, the Company entered into a partnership with São Paulo State Government by means of the Young Citizen Program - My First Job.

The purpose is to provide students with their first professional experience opportunity, those students originated from families with higher social vulnerability, between 18 and 21 years old, regularly enrolled and effectively attending high school classes of the state public school system, preparing them to exercise the citizenship, by means of paid internship.

Currently we count on 191 contracted youngsters.

Occupational Health and Safety Policies

Bradesco is a company that develops actions in health, disease prevention, safety and work conditions.

We offer our employees an appropriate work environment and conditions for a complete physical, mental and emotional well-being.

Bradesco invests in programs and methodologies allowing to map and identify the causes of symptoms and diseases occurred in the work environment and relations, viewing to promoting health and disease prevention, on a broadly basis.

The issues addressed include Repetitive Stress Injury, Stress, Chemical Addiction (Alcoholism/Drugs/ Tobacco), Obesity, Cardiovascular Diseases, Sexually Transmitted Diseases, AIDS and others. Those campaigns are carried out monthly through Interação magazine and in the SIPAT (Internal Week of Occupational Accident Prevention).

Since contracting, Bradesco's employees receive information and guidance on behavior and conduct adequate to the maintenance of health and improvement of life quality.

Bradesco has been an active member of the National Business Council for HIV-AIDS Prevention - CEN, which is destined to promote and strengthen the combat against such epidemic in the work environment and has been providing information to a considerable portion of workers, family members and the community as a whole about the safe ways to prevent the infection by HIV virus.

Another outstanding issue related to life quality is the balance between the employee's personal and professional life. We are permanently concerned with the working hours, so that the contract time is not surpassed, guaranteeing that employees have time for their personal commitments and leisure.

In order to offer an appropriate environment and extra emotional support to employees, the Bank created in its Call Center at the Santa Cecília building, in the city of São Paulo, a room for winding down. It is a reserved room with a different infrastructure from all other Organization environments, offering comfort and material that help to relax and soften the impacts of the caused by the day-to-day activities in and out of the call center. The room is open to all the employees of that section in the event they go through situations related to psychological and emotional aspects.

In June 2006, we conquered the certification of Rule OHSAS 18001, internationally recognized, which establishes an Occupational Safety and Health System Management. Thus, we reassure the commitment to the safety and health of our employees, with the adoption of ergonomic management and awareness programs about the importance of safety and health in the work environment.

Benefits

The concession of benefits is based on the Organization's Human Resources Management Policy.

Transmitting safety and trust to our employees, this management strategy contributes to a healthier, more productive and participative work environment, providing conditions for great performance levels and better results.

Besides the aspects provided for by the law, Bradesco's employees and their dependents enjoy a combination of benefits viewing to ensure the best life quality.

Health and Dental Care Insurance

Our employees and their dependents have access to health and dental care plans paid for in full by the Bank. The healthcare insurance includes non-traditional treatments, such as dialysis, organ transplants, acupuncture, homeopathy, myopia correction, GPR (Global Postural Re-education), heart valve, physiotherapy and also treatment for AIDS (with reimbursement of expenses for medicine prescriptions).

The Dental Care Insurance includes preventive and surgical treatment, oral rehabilitation, child dentistry, endodontics, periodontology and prosthodontics. Implants are offered at costs lower than the market, by means of agreements.

In the 3rd quarter of 2006, there were 961,679 medical/hospital consultations and 169,338 dental consultations.

Supplementary Private Pension Plan

Bradesco makes available for all its employees a Supplementary Private Pension Plan, which Bradesco contributes with 50% of the monthly installments, including in the 13th salary.

The plan guarantees coverage to the retiree, the retiree's widow or widower and their children under the age of 21, or up to the age of 24, if they are undergraduate.

Training

The Staff Training Department is responsible for the training actions of Bradesco Organization, aligned to the corporate and appropriate strategies to the quickness of changes required by the market. The training programs meet Bradesco's commitment to provide development opportunities to all its employees regardless the hierarchical level, essential for Bradesco's generation of results.

The Gestão de Treinamento da Organização Bradesco (Bradesco Organization Training Management) process was granted the NBR ISO 9001:2000 certification in December 2002 and the Company was certified again in December 2005, which ensures an ongoing improvement of processes and the quality of actions of training, reinforcing its commitment to contributing to the development and appreciation of the staff and the employees.

For 2006, a budget of R\$63.7 million was made available, 26% higher than the average of investments in the past 5 years, to continue with the main training programs targeted at several areas of the Organization and at the implementation of new programs aimed at meeting corporate business strategies.

In this different context of knowledge management, Bradesco Organization has strongly invested in training programs that contribute to the strengthening of internal competences and to the development of talents, as a support to the mission described in the internal policy of people management:

Recognizing that people are the sustaining basis of our business, we have as mission to attract, develop, recognize, manage, esteem and stimulate Bradesco Organization's talents, by means of the permanent construction of an integrated value relation among corporate activities.

From January to September 2006, training had 1,002,084 participations in the 1,121 different courses made available. Investments, in presence and long-distance courses, added up to R\$39.0 million.

Presence Courses

This year, with a strong growth mainly in the last three months, we reached more than 81 thousand participations in presence courses, mainly actions for Retail comprising nearly 29 thousand participants in several programs such as Client Management, which comprises themes such as analysis of the profile, potential and needs of the portfolio for the adequate relationship, planning of strategic actions and presentation of financial alternatives that may meet the clients' expectations and that generate loyalty and the increase of assets and results of Branches.

We also point out the Loan in Retail program, in partnership with Sebrae, focused on loan analysis and grant for micro and small-sized companies, with a view to contribute with the financial growth and strengthening of such public in the competitive market, the Real Estate Loan course, which provides conceptual knowledge for the sale of the product, as well as operating aspects of contracting, with the purpose of meeting the current needs and demands of the market, and facilitating the achievement of goals of investment of funds proposed by the Organization, as well as the increase of results of Branches.

Other highlights are the courses Assistance - A New Business View and Pre-Assistance with specific focus on the quality of Assistance and on the preparation and awareness of the teams directly connected to the assistance of new clients, concerning the continuous search for excellence in the provision of our services.

The process of qualifying Managers of the Prime segment continued with the Managerial Development Program which comprises, among other aspects, the improvement of the business and relationship management process, the optimization of funds and the leverage of results for the clients and segments. In August, the first group of Trainees Assistant Managers Program was concluded, which promoted integration of participants at Bradesco Organization, specially at the Prime Segment, facilitating the understanding of culture and several focuses of operation in the market and in the segment and qualify participants for the development of activities related to their attributions, by means of the improvement of skills and technical and behavioral competences and abilities. We also point out the courses of Stocks and Futures Markets Investments, in addition to the Loan Products that rescue technical and commercial aspects essential to trading, so that clients see Bradesco as a Complete Bank.

The continuity of assistance to the Companies Segment was made with the participation of employees in courses of Managerial Development and also in the course of Certification in Investment Products, in addition to other operating programs.

In the Corporate segment we qualified the Assistant Managers with the purpose of promoting the integration with the Organization's departments involved in the operations of the segment and loan management focused on the corporate client.

The course Development of the Administrative Management for the Corporate segments was also carried out with the purpose of qualifying administrative management professionals, of the Branches of the two segments, Companies and Corporate, to exercise in an adequate manner the people, processes, risks and assistance management functions, aiming at the administrative efficiency, increase of results, optimization of resources and quality in assistance.

The training actions to Departments and Affiliated Companies were also shown by means of attendances in external and internal events, made available by specialized companies, which offer vacancies to the general public and also by teams of instructors, employees of the Organization, which provided 49,223 participations in several courses.

The assistance to the needs of Finasa Promotora de Vendas generated 2,179 participations in 50 managerial and operational programs, such as: Professional Management in Sales, targeted at managers and assistants; Corporate Tune, Supervisors and Assistants, with focus on the assistance for results and the Sensibilization program - Project 5S.

For the Support team of Scopus Tecnologia we carried out an event with the purpose of developing and stimulating the behavior of leaders. Several meetings were conducted and at the end we noticed that there was a greater commitment, aligned vision and mission, in addition to a more enterprising posture of each participant, fully achieving the goal.

Intensifying the relationship with Fundação Bradesco, we developed a program with the purpose of improving the management skills in the team of principals of schools distributed throughout Brazil, considering each one of them a business unit, valuing their characteristics and adding value in the community where they are inserted.

Training for Information Technology areas continued, with some highlights such as: IT Improvement Project, with technical, operational and behavioral training, comprising themes about service management, commitment and alignment of professionals, in the implementation of this large project of the Organization, which may assist 1,240 participations and OBB - PLUS training, which aims to qualify professionals in the new architecture tool of Office Banking Bradesco and which comprised 228 employees.

Also in the IT areas, the certification processes were implemented, maintaining the staff qualification and qualifying them among the most modern techniques of the market. In this context, we can highlight the Software Quality Certification, which is new in the country and has several software engineering techniques and concepts about product quality, involving 40 professionals, and the Specialist in Function Points Certification, which qualifies employees for measurement of systems according to the standard technique of the international market, in which 35 employees have already been certified.

In this continuous search for professional improvement and technological updating, 97 professionals participated in the event CIAB Information Technology Congress and Exposition of the Financial Institutions, with a view at knowing and using the best market practices in IT. Moreover, to provide solutions that ensure quality to the technology systems, we qualified 133 professionals in the training about Management of IT Projects and currently 40 professionals are participating in the course. We also qualified 240 employees in the mainframe platform to give support and develop systems in large computers. In order to align and renew the motivation of employees involved in the IT Improvement Project, 900 employees participated in a motivational event promoting the opening of the Technical and Behavioral Qualification Plan to this public. Currently 30 trainees participate in IT Qualification Programs, coming from Fundação Bradesco and 10 interns from renowned universities.

Evolution of Presence Participation in 2006

Partnership with University and Colleges

Since 1996, in partnership with educational institutions, such as FIA, FIPE, FIPECAFI, FGV and IBMEC, 1,385 Bradesco's employees obtained MBAs, Post-Graduate, Specialization courses and Masters Degree certificates, important for the maintenance of quality of information provided and for the qualification of the staff to be aligned with the most modern management practices. Two classes of MBA Negócios Bancários (FGV) and one class of MBA Negócios Bancários on-line (FGV-RJ) were concluded, in groups made exclusively for Bradesco, and a new MBA Controller (FIPECAFI) class is in progress, amounting to 130 professionals of different areas of the Organization.

Insurance Group

Projects for Bradesco Seguros e Previdência are in progress supported by the UniverSeg (Insurance Knowledge Universe) brand, which aims to provide all the action of training for employees, insurance brokers and dealerships, targeted at the insurance segment, as a single, corporate project, contributing to the Insurance Company to be the best place for the broker set his/her production, the best place for the insured insure his/her life, health, assets and the best place to work for.

New projects are under development for UniverSeg with highlights to Universeg on the Stage, using the interactive theater methodology, which works with themes connected to the performance of insurance brokers and dealerships that sell products of Bradesco Seguros within the scope of our Branches. The outcome of the project has been surprising and significant, for it meets all the goals proposed by the Insurance Company and, in view of this experience, this program may be offered to the internal public, focusing actions on quality of assistance and on the improvement of professional performance.

This year, more than 50,000 professionals were qualified in programs developed by means of several training media: TreiNet, Videotraining, Brochures, Presence and Post-university Courses (MBA), in addition to qualification to third parties, where we had more than 19,000 participations of brokers/ dealerships and 500 of other service providers. The emphasis of the projects developed was on the assistance of Branches with the following projects: Auto/RE Seminar Leadership through Distribution in which the commercial area shared knowledge about the team management by means of leadership, planning, control and organization; for Assistance Center for the Insurance Group with the training Performance in Assistance by Telephone and for the training From Broker to Broker, an initiative that aims to provide brokers that sell products of Bradesco Auto/RE with the main sales arguments that differentiate our product from competitors and add value to the insured. In all proposals, we search for specific alternatives to align the development needs of the employees and brokers with the satisfaction of the client/insured, in the continuous search for efficiency of our service provision.

We also continued with the Movere Project, started in October 2005, resulting from a mapping carried out in the team of managers of the Headquarters. The work is being focused on the development of competences: guidance for Learning and Change, Strategic View and Planning, and People Management and Leadership, using as methodology courses, lectures, workshops and meetings. The project is innovative in view that it was exclusively designed for the development of teams and the training and development actions are always focused on the sales team.

Certification in Investment Products

Programs that prepare for the exam of Certification in Investment Products are in progress and are specially prepared for employees who need to obtain a certification, after study of the material previously made available. From January to September of 2006, three certification exams were made in which 3,176 professionals were certified.

The average approval index reached by Bradesco in all exams was 79%, while the market index stood at 70%. This fact consolidates the concern the Organization has to adequately prepare professionals and also the involvement shown by employees during the certification process.

These figures enabled the certification, until September, of more than 10,500 professionals directly involved in the assistance to clients of the Branches Network and to qualified investors in conformity with the compliance with the Resolution 3,158/03, of the Brazilian Monetary Council.

The CFP™ Certified Financial Planner exam was also performed and 15 professionals were approved in the Private Banking area and had their ratification processes concluded, assuring the quality of assistance also in this segment.

TreiNet On-line Training

In June, TreiNet was the winner of e-Learning Brazil 2006 award, in the Corporate Diamond category, reinforcing that the resources offered by the tool make possible the dissemination of a new knowledge in an indistinct way, becoming a difference for our employees, who in addition to meeting the Organization's interests, may plan their learning actions according to their needs, respecting their personal preferences of time, places and time of assimilation of contents.

Bradesco reached more than 1.5 million participations in the 73 courses available, since its implementation in 2000. This year, more than 20 new titles were launched, with 221 thousand participations in financial, operational and information technology issues.

On-line training is also used in the implementation of new business or back-office tools, for example the recent implementation of SAP, which this year recorded nearly 628 thousand participations in the 27 courses made available for the use of the tool. It would not be possible to adequately train 78 thousand presence employees in the same period and the use of other distance training media, such as videotraining or even brochures, and would not allow the same results.

In English learning, on-line training has also been a differential, enabling the participation of around 1,000 employees in courses from basic to advanced level.

In partnership with Fundação Bradesco, TreiNet courses are available for clients who hold a Bradesco University Account. Moreover, by means of the website 100% broker of Bradesco Seguros e Previdência, TreiNet is also available for brokers and dealerships who sell the Organization's insurance products.

Evolution of courses launched in TreiNet

Brochures and Videotraining

Based on the demands of Bradesco areas of standard and operational issues, with a view at the awareness of employees, in this period we made available six Brochures about the following themes: Alert System (SALE), with the purpose of providing employees with a basic view of the Alert System, in order to facilitate the understanding of how the system organizes information coming from the data base and how to use this information for loan analysis and management; Management of Administrative Expenses, pointing out the importance of the effective follow-up and control of administrative expenses in all premises of Bradesco; Pé Quente Certificated Savings Plans Products; Banking Client Defense Code, which was reedited with the purpose of training employees about the main rules and procedures defined in Resolution 2878; Real Estate Financing, also reedited to guide employees about operations which, due to their long term, allow to increase our clients' loyalty, and Social Responsibility SA 8000, which has as purpose to inform employees about the conditions of the work environment and of the Organization's relations with all the parties involved: employees, community, suppliers, clients and other publics, aiming at the commitment to human being valuation.

Other three new videotrainings were also launched: A Matter of Posture, which makes employees aware of the importance of posture in the prevention of occupational diseases; the video Code of Defense of the Bank Client - New Edition, which was reedited with the purpose of training employees about the main rules and procedures defined in the Resolution 2878 - Code of Defense of the Bank Client, and the video ISO 14001, OHSAS 18001 and SA 8000 Management System, which was prepared comprising the main items of the certifications mentioned, searching for a language that makes the employee aware of the importance of the commitment and participation of each one, in their contexts, for issues of environmental management, occupational safety and health management and the social responsibility system.

Social and Corporate Responsibility

We continued with the projects that focus on human valuation such as: Youth Apprentice Program, Young Citizen Program and Internship Programs, among them, the Bradesco Program Unipalmars (Universidade Zumbi dos Palmares). These programs benefit youngsters in the beginning of their careers, with qualification, social inclusion, as well as personal and professional development. Also under this context, Bradesco developed preparatory training in Libras (the sign language for deaf-mute people), for employees providing direct services to disabled clients, in order to guarantee this public accessibility to our Branches.

Fundação Bradesco The Bradesco Organization's Social Action

Background

Fundação Bradesco, a non-profit entity, headquartered at Cidade de Deus, Osasco, SP, was founded in 1956 and declared to be of Federal Public Utility by Decree 86,238, on July 30, 1981.

Aware that education lies on the roots of equal opportunities and personal and collective fulfillment, Fundação Bradesco currently holds 40 schools installed as priority in the country's most underprivileged regions, in all Brazilian states and in the Federal District.

Objectives and Goals

Through the pioneer action of private social investment, the main mission of Fundação Bradesco is to provide formal quality education to children, young people and adults, so that they achieve personal fulfillment through their work and the effective exercise of citizenship.

Accordingly, the reach of Fundação Bradesco has been expanded yearly, increasing the number of enrolled students from 13,080 to more than 107,944 over the last twenty-five years. The schools of Fundação Bradesco run free education for Kindergarten, Primary School and High School, Continued and Preliminary Education of Workers as well as High School Technical Professional Education in IT, electronics, industry, management and agribusiness. Distance learning is also offered as part of the Youth and Adult Basic Education Equivalency programs via Teleeducation and the Virtual Classroom site.

Areas and Methods of Action

Basic Education

Basic Education comprises the Kindergarten, Elementary School (first to eight grades) and High School, comprising more than 43.61% of all students on courses provided on a free basis by Fundação Bradesco each year. In addition, the students receive free school materials, uniforms, meals and health and dental care.

Fundação Bradesco is always evaluating the contemporary learning trends and, therefore, is always bringing new challenges for learning practices so that the conclusions are spread throughout all school units and that propose ongoing interactions among them.

The schools are understood as a privileged environment for citizenship values and for regarding students as original and creative human beings, who learn through experiences in both school and society. Hence, their potential and needs to interact and reflect on the diversity of knowledge are essential.

The multi-disciplinary learning seeks to provide students with access to practical and theoretical cognitive content, based on the principle that the development process is both dialectic and constructive and that their role in learning is faced as a producer of knowledge.

On this intent, Fundação Bradesco offers various continued education opportunities to educators, including long-distance courses.

These resources have resulted in the compilation of diverse learning materials, including text books used up to the fourth grade of Primary School, Philosophy for High School and Cultural Diversity as well as other supporting materials.

Technical Professional Education

Based on the commitment of offering technical professional education capable of guaranteeing to the student the continuous right to develop their skills for a fruitful and social life, Fundação Bradesco is in consonance to a new model of technical education in force in Brazil. Bradesco structured the subjects of the course, prioritizing the demands from the market and the society from a brand new perspective, offering work preparation.

High School Technical Education

Based on the professional areas of Agribusiness, Management, Industry (Electronics) and Information Technology, a number of courses were developed and offered according to the specific needs of the communities in which the school units are located.

The content of these courses aims to ensure a strict relation among work, knowledge and citizenship. The final target is to bring out creative, productive and business-minded citizens, as well as showing students the importance of permanent education.

When offering to students, who arise from underprivileged backgrounds, courses whose content will facilitate their entry and re-entry into the labor market, Fundação Bradesco provides access to the emerging and fast-changing business world.

Preliminary and Continued Qualification of Workers

Fundação Bradesco offers on a free of charge basis this mode of education, designed for the needs of update, qualification and re-qualification of workers with different school levels. There are more than 100 options for free courses, presenting flexible programs, in the same track of the labor market conditions, in the following professional areas: Management, Personal Image, (Fashion and Personal Beauty Care), Industry (Electrical, Electronics and Printing Technology), IT, Leisure and Social Development, Tourism and Hospitality (Tourism, Hospitality and Catering Services). In the Agribusiness Area, Fundação Bradesco offers courses which include Artificial Insemination techniques.

Youth and Adult Education

These students come from different regions but often have similar life histories and comprise in their majority, workers and housewives who were unable to attend or remain at school when they were supposed to. At Fundação Bradesco, they are given adult literacy courses and graduate at both Elementary and High School levels, apply for university entry, in order to improve their employment prospects and most importantly to increase their skills.

Youth and Adult Education courses are given in two segments: Youth and Adult Literacy and Tele-education for Elementary and High School Equivalency.

The Tele-education courses are offered in the own schools of the Fundação or on the premises of the companies that have entered into operating agreements with it, with flexible timetables to suit the different work shifts, once the classrooms are taken up to the companies, respecting the different working hours and avoiding the need for students to travel to the school units. Another reason for the good performance is related to the investments made by Fundação Bradesco in learning technology resources.

Developed for the parents of students who attend the schools of Fundação Bradesco, the Adult Literacy Course is structured around a socio-constructive concept, whereby the student becomes an active subject in the learning process. The topics addressed during classes awake the interests and motivate learners, guaranteeing the success of the course.

The main purpose of the Fundação Bradesco is to prepare students to improve their life conditions, based on the acquisition of organized knowledge, since according to Bradesco's philosophy education alone is capable of forming citizens who are participative and aware of their role in society.

Material Facts

A partnership was entered into between Fundação Bradesco and Bovespa, to offer Educar Bovespa Program, whose goal is to enable students to ponder about financial, school and family education, relating them to the theme Work and Consumption in Basic Education and with Financial Management in High School Technical Professional Education, making possible the development of citizenship in a conscious and critical way and the preparation of personal and economic improvement plans.

A total of 36,500 students from Elementary to High School and High School Technical Professional Education will be assisted.

Fundação Bradesco sponsored Expo T&C (Technology and Science Exposition), an event which took place simultaneously with the 58th SBPC Annual Meeting. Works from schools of Laguna/SC, Maceió/AL, Osasco Unit I and Teresina/PI were shown in Florianópolis/SC.

The School Unit of Conceição do Araguaia-PA placed the Social Forum *The UN and the Indigenous People* during the II Indigenous Traditional Games of Pará. The event was aimed at discussing matters related to Digital Inclusion, Human Rights, Environment, Cultural Identity, and others.

Five nurseries for the production of seedlings from the atlantics forest were inaugurated in the schools of Gravataí-RS, João Pessoa-PB, Laguna-SC, Maceió-AL and Paranaíba-PR, adding up to those already built in Osasco-SP, Registro-SP, Campinas-SP, Marília-SP and Vila Velha-ES. Teachers and students of Fundação Bradesco received technical qualification from Fundação SOS Mata Atlântica for the management of the species and promotion of environmental education and reforestation actions in partnership with local social actors.

The Board of Executive Officers of Fundação Bradesco participated in the official launch of Everybody for Education Commitment at Museu do Ipiranga, in São Paulo, which counted on the presence of political, corporate and third-sector leaderships.

The event also counted on the participation of the Choir from Fundação Bradesco Osasco Unit I/SP.

The purpose of the commitment is to move the population and encourage it to reclaim a improvement in the quality of education in the country, from the fact that nowadays school for everybody still does not mean education for everybody and from the principle that every person must play his/her part - in an integrated and synergic manner - so that until 2022, two hundred years after Brazil's Independence, every child and youngster have a quality education.

The Conference *If life goes through changes, school must also change* with Domenico de Masi, Work Sociology teacher at University of Rome, highlighted the celebration of the 50 years of Fundação Bradesco, gathering officers and employees from Fundação Bradesco, businessmen and managers from social and educational organizations.

8 - Financial Statements, Independent Auditors' Report and Report of the Fiscal Council

Management Report

Dear Stockholders,

We are pleased to present the Consolidated Financial Statements of Banco Bradesco S.A. for the period ended September 30, 2006, pursuant to the Brazilian Corporate Law.

Among the material events in the period at Bradesco Organization, we point out the following:

- **on August 25, Bradesco was rated AAA+ by Management & Excellence**, a renowned sustainability research and evaluation firm, located in the city of Madrid, Spain. It is the first Latin American company to be awarded such rating, meeting the criteria of worldwide standard in sustainability, corporate governance, social responsibility, ethics and transparency;
- **on September 6, partnership with Panvel Farmácias**, the pharmaceutical industry leader in the State of Rio Grande do Sul, Brazil, for the launch of Panvel Private Label and Panvel Clube do Aposentado (Retirees Club) Cards;
- **on September 18, Bradesco joined the Dow Jones Sustainability World Index portfolio**, consisting of a distinct group of 318 companies from all over the world which are attested, materially, to bear corporate sustainability in their initiatives, practices and corporate management. In that context, Bradesco's social-environmental practices interact with its corporate strategies and result from the strong belief that a good company works and grows in a society which develops in harmony;
- **in addition to that, on October 2, the Bank joined the FTSE LATIBEX BRASIL, the new index released by Spanish Stock Exchanges and Markets (BME) and FTSE Group (FTSE)**, the only Euro- denominated index which rates the main Brazilian stocks by market capitalization. Consisting of 13 companies, Bradesco's share represents 20.06%, which is the largest private capital share in the index; and
- **on October 5, Special Stockholders Meeting which approved the proposal of Capital Stock increase by R\$1.200 billion**, upon the issuance of 21,818,182 new registered, book-entry stocks at R\$55.00 per stock, to be subscribed by stockholders between 10.19.2006 and 11.21.2006, at the ratio of 2.226746958% on the stockholder position at the time (10.05.2006), to be paid up in cash on 12.07.2006, and, on the same date, **approval of the payment to stockholders, of the Supplementary Interest on Own Capital and Dividends, to be carried out on 12.7.2006**, which represent together approximately 41.3 times the interest monthly also paid, at the amount of R\$1.391 billion.

From January 1 to September 30 2006, Bradesco recorded a Net Income of R\$3.351 billion, impacted by the advanced amortization of existing goodwill, net of taxes, in the total of R\$1.392 billion, which would be carried out until 2016. Thus, the adjusted Net Income corresponded to R\$4.743 billion, representing R\$4.84 per stock and annualized profitability of 30.05% on the final Stockholders' Equity and of 31.49% on the average Stockholders' Equity. The annualized return on Total Assets was 2.61% compared to 2.68% on the same period of the previous year.

From January 1 to September 30, 2006, Goodwill was amortized which, net of taxes, totaled R\$1.678 billion, and, if we would not consider these effects, we would have Net Income of R\$5.029 billion, representing an annualized profitability of 31.93% on the final Stockholders' Equity and of 33.23% on the average Stockholders' Equity.

The advanced amortization, carried out in the third quarter of 2006 despite not being computed into the Dividends and/or Interest on Own Capital calculation distributed this year, will positively affect future results, as the expense

previously mentioned will not be recorded in these results and, consequently, in the stockholders' capital compensation for those periods.

Taxes and contributions amounted to R\$4.393 billion, equivalent to 92.61% of Net Income, including paid or accrued pension taxes and contributions, resulting from the main activities carried out by Bradesco Organization in the first nine months of the year.

The Operating Efficiency Ratio (IEO), accumulated for 12 months, was 42.39% on September 30 against 43.23% in June 2006. The improvement reflects the strict control of administrative expenses and the permanent effort for the increase in revenues.

At the end of the quarter, the paid-up Capital Stock was R\$13 billion. Added up to Equity Reserves of R\$8.773 billion, it comprised the Stockholders' Equity of R\$21.773 billion, with an evolution of 19.23% compared to the same period of the previous year, corresponding to the equity value of R\$22.24 per stock.

Edgar Filing: BANK BRADESCO - Form 6-K

The Managed Stockholders' Equity represents 8.98% of the consolidated Assets, which added up to R\$243.192 billion, an increase of 20.44% over September/2005. Thus, the capital adequacy ratios reached 18.37% in the financial consolidated and 16.16% in the economic-financial consolidated, therefore higher than the minimum of 11% set forth by Resolution 2,099, as of 8.17.1994, of the National Monetary Council, in conformity with the Basel Committee. At the end of the quarter, the stockholders' equity to fixed assets ratio, compared to the Consolidated Reference Stockholders' Equity, was 46.04% in the financial consolidated and 11.89% in the economic-financial consolidated, placed in the maximum limit of 50%.

In compliance with the provisions in Article 8 of Circular 3,068, as of 11.8.2001, of the Brazilian Central Bank, Bradesco states it has financial capacity and intention to hold to maturity securities rated in the securities held to maturity category.

The global volume of funds raised and managed by Bradesco Organization, on September 30, totaled R\$358.557 billion, 21.34% higher than the same period of the previous years, namely:

- R\$ 115.117 billion in Demand Deposits, Time Deposits, Interbank Deposits, Other Deposits, Open Market and Savings Accounts;
- R\$ 140.222 billion in assets under management, comprising Investment Funds, Managed Portfolios and Quotas of Third-Party Funds, a 22.30% growth compared to September/2005;
- R\$ 51.926 billion recorded in the Exchange Portfolio, Borrowings and Onlendings, Own Working Capital, Tax Payment and Collection of Related Taxes, Funds From Issuance of Securities and Subordinated Debt in the country;
- R\$ 45.719 billion recorded in Technical Provisions for Insurance, Supplementary Private Pension Plans and Certificated Savings Plans, with an increase of 19.57% when compared to the previous year;
- R\$ 5.573 billion in Foreign Funding, by means of public and private issuances, Subordinated Debt and Securitization of Future Financial Flows, representing US\$2.563 billion.

At the end of the period, loan operations recorded a balance of R\$92.013 billion, including in this amount:

- R\$ 5.487 billion in Advances on Foreign Exchange Contracts, for a total Portfolio of US\$5.763 billion of Export Financing;
- US\$ 771.338 million of operations in Import Financing in Foreign Currencies;
- R\$ 3.575 billion in Leasing;
- R\$ 7.221 billion in businesses in the Rural Area;
- R\$ 33.706 billion in Consumer Financing;
- R\$ 9.048 billion referring to onlending operations of external and internal funds, mainly coming from BNDES - Brazilian Development Bank.

In the first nine months of the year, for the activities of Real Estate Loan, the Organization destined funds for house construction and acquisition in the amount of R\$1.561 billion, corresponding to 14,100 properties.

With a highlighted performance in the Capital Markets Area, Bradesco supported the capitalization of companies intermediating operations of public placement of stocks, debentures, promissory notes and Credit Right Investment Funds, which, since the beginning of the year, added up to R\$19.677 billion, 24.83 % of the total volume of issuances registered at the CVM - Brazilian Securities and Exchange Commission. The Bank was also highlighted in assisted special operations, comprising mergers and acquisitions, project finance and corporate and financial restructurings.

Grupo Bradesco de Seguros e Previdência, with a strong operation in the Insurance, Supplementary Pension Plans and Certificated Savings Plans areas, recorded on September 30 a Net Income of R\$1.591 billion and Stockholders' Equity of R\$6.752 billion. Net premiums issued reached R\$13.360 billion, with a 13.79% growth compared to the same period of the previous year.

Bradesco Organization's Network, made available for clients and users, on September 30, was comprised of 13,756 outlets with 23,716 machines of Bradesco Dia&Noite (Day&Night) ATM Network, 22,391 of them working even on the weekends and holidays. In addition, more 2,986 machines of Banco24Horas (24-hour Bank) were made available for Bradesco clients for withdrawal operations, issuance of statements and balance consultation:

In the quarter, it is worth mentioning that Bradesco Organization, in compliance with Instruction 381, issued by the Brazilian Securities and Exchange Commission, neither contracted nor had services rendered by PricewaterhouseCoopers Auditores Independentes unrelated to the independent audit in levels higher than 5% of total costs thereof. The policy adopted complies with the principles preserving the auditor's independence, pursuant to the internationally accepted criteria, such as: the auditor shall neither audit his own work, nor perform management duties with his client or promote his interests.

We point out the improvement of ratings attributed to Bradesco in the period. In accordance with Standard&Poor's Rating Services, Bradesco is a level above the sovereign credit rating and a level under the Investment Grade. Fitch Ratings increased Bradesco's individual rating and Issuer Default Rating (IDR) of foreign currency long-term debt and Moody's Investors Service increased Bradesco's issued bonuses rating, placing them as investment grade.

In the social area, the Organization continues with its wide educational program developed by means of Fundação Bradesco, which completes 50 years of activities with 40 schools set up mainly in regions with social-economic needs, in all Brazilian States and in the Federal District. The program provides more than 108 thousand students with totally free education, including education courses targeted at youngsters and adults and initial and continued education of workers. More than 50 thousand students of the kindergarten, elementary, high schools and technical professional courses receive, also on a free basis, food, uniform, school supply and medical and dental assistance.

It is worth pointing out Bradesco's support to Finasa Esportes Project, with volleyball and basketball training centers at Fundação Bradesco in Osasco, SP, and in local schools and sports centers in the city. It currently assists 2,800 girls from 9 to 17 years of age.

In the Human Resources area, searching for a permanent evolution in the quality of assistance and in the level of the services provided, the Bank maintains its wide training program, aiming at the qualification and professional development of the staff. From January to September, 1,121 courses were carried out, with 1,002,084 participations. The assistance benefits aimed at the improvement of the quality of life, well being and safety of the employees and their dependents comprised 175,070 lives, at the end of the quarter.

The record of all these facts makes evident Bradesco's commitment to always offer superior products and services. For the achievements and advances reached, we thank our stockholders and clients for their support and trust and our employees for their dedicated work.

Notes to the Financial Statements

1) Operations

Banco Bradesco S.A. (Bradesco) is a private-sector publicly-held company which, operating as a Multiple Bank, carries out all types of authorized banking activities through its commercial, foreign exchange, consumer financing, housing loan and credit card portfolios. The Bank also operates in a number of other activities through its direct and indirect subsidiary companies, particularly in Leasing, Investment Bank, Consortium Management, Insurance, Private Pension Plan and Certificated Savings Plans activities. Operations are conducted within the context of the companies comprising the Bradesco Organization, working in an integrated manner in the market.

In this context, Bradesco carried out the following operations in the period of 2006:

- On December 21, 2005 Bradesco acquired the stock control of Banco do Estado do Ceará S.A. BEC and its subsidiary, whose process was concluded on January 3, 2006.
- On March 28, 2006 Bradesco, Fidelity National Information Services, Inc. (Fidelity National) and Banco ABN AMRO Real S.A. (Banco Real) entered into an agreement to make a partnership with the purpose of providing card processing services.
- On March 20, a partnership was entered into with American Express Company, by means of which Bradesco took over its credit card operations and similar activities in Brazil (Amex Brasil), starting to have exclusivity right for the issuance of cards of the Centurion line for a minimum term of 10 years, and the management of the network of accredited establishments of Amex Cards. The operation was ratified by the Brazilian Central Bank (BACEN) on 6.28.2006.
- On May 15, 2006, Bradesco and Bradespar entered into a Purchase and Sale Agreement of Stocks Issued by Bradesplan Participações S.A., by means of which Bradespar sold to Bradesco 100% of the stocks issued by Bradesplan Participações S.A.

2) Presentation of the Financial Statements

The financial statements of Bradesco include the financial statements of Banco Bradesco, its foreign branches and its direct and indirect subsidiaries and jointly controlled investments, in Brazil and abroad, and Special Purpose Entities (SPEs). They were prepared based on accounting policies determined by Brazilian Corporate Law for the recording of operations, as well as the rules and instructions of the National Monetary Council (CMN), BACEN, Brazilian Securities Commission (CVM), Brazilian Council of Private Insurance (CNSP), Superintendence of Private Insurance (SUSEP) and the National Agency for Supplementary Healthcare (ANS), and comprise the financial statements of the leasing companies based on the capital leasing method of accounting, whereby leased assets are reclassified to the leasing operations account.

Accordingly, for preparation purposes, intercompany investments, asset and liability account balances, revenue, expenses and unrealized profit were eliminated from these financial statements, as well as the portions of the net income and the stockholders' equity referring to the interest of minority stockholders were highlighted. In the case of investments which are jointly controlled with other stockholders, asset, liability and income components were included in the consolidated financial statements in proportion to the parent company's percentage capital ownership of each investee. Goodwill on the acquisition of investments in subsidiaries and in the jointly controlled investments was presented in deferred assets until June 30, 2006, and was fully amortized in 3Q06 (Note 15). The exchange variation arising from transactions of foreign branches and subsidiaries was allocated to the statement of income accounts according to the corresponding assets and liabilities from which it was originated.

The financial statements include estimates and assumptions, such as the calculation of the allowance for loan losses, the estimation of the fair value of certain financial instruments, provision for contingencies, other provisions, the quantification of technical provisions for insurance, supplementary pension plans and certificated savings plans and the determination of the useful economic life of specific assets. Actual results could differ from these estimates and assumptions.

Supplementary Information to Financial Statements:

With the purpose of providing supplementary information, we present the cash flow statement by the indirect method and the value added statement, not required by BACEN, which have been prepared in conformity with the structure set forth in the chart of accounts for National Financial System Institutions (COSIF).

3) Significant Accounting Policies

a) Determination of net income

Income and expenses are determined on the accrual basis of accounting. Transactions with prefixed rates are recorded at their redemption amounts and income and expenses for the future period are recorded as a discount to the corresponding asset and liability accounts. Income and expenses of a financial nature are prorated daily and calculated based on the exponential method, except when relating to discounted notes or to cross-border transactions which are calculated based on the straight-line method. Post-fixed or foreign-currency-indexed transactions are adjusted to the balance sheet date.

The insurance and coinsurance premiums and commissions, net of premiums assigned in coinsurance and reinsurance and corresponding commissions, are appropriated to results upon issuance of the corresponding insurance policies and invoices and are deferred for appropriation on a straight-line basis over the terms of the insurance policies, during the risk coverage period, by means of recording and reversal of unearned premiums reserve and deferred selling expenses. The accepted coinsurance and retrocession operations are recorded based on the information received from other companies and the Brazilian Institute of Reinsurers (IRB), respectively.

The supplementary private pension plans contributions and life insurance premiums covering survival are recognized in income when effectively received.

The revenue from certificated savings plans is recognized at the time it is effectively received. The expenses for placement of bonds, classified as Selling Expenses, are recorded as they are incurred. Brokerage expenses are recorded when the saving bonds contributions are effectively received. The payment for draw redemptions is considered as expenses of the month when these occur.

The expenses for technical provisions for private pension plans and certificated savings plans are recorded at the same time as the corresponding revenues there from are recognized.

b) Interbank investments

Purchase and sale commitments subject to unrestricted movement agreements are adjusted to mark-to-market. Other assets are recorded at acquisition cost, including income earned up to the balance sheet date, net of loss accrual, when applicable.

c) Securities

Trading securities securities which are acquired for the purpose of being actively and frequently traded are adjusted to mark-to-market as a counter-entry to income for the period;

Securities available for sale securities which are not specifically intended for trading purposes or as held to maturity are adjusted to mark-to-market as a counter-entry to a specific account in stockholders' equity, at amounts net of tax effects; and

Securities held to maturity securities for which there exists intention and financial capacity for maintenance through to maturity are recorded at acquisition cost, plus income earned, as a counter-entry to income for the period.

d) Derivative financial instruments (assets and liabilities)

These are classified based on management's intended use thereof on the date of the operation and whether it was carried out for hedging purposes or not.

The derivative financial instruments, which do not comply with the hedging criteria established by BACEN, particularly derivatives used to manage general exposure to risk, are recorded at market values, with the corresponding mark-to-market adjustments taken directly to income for the period.

e) Loan and leasing operations, advances on foreign exchange contracts, other receivables with characteristics of loan granting and allowance for doubtful accounts.

Loan and leasing operations, advances on foreign exchange contracts and other receivables with characteristics of loan granting are classified at their corresponding risk levels in compliance with: (i) the parameters established by CMN Resolution 2682, at nine levels from AA (minimum risk) to H (maximum risk); and (ii) management's risk level assessment. This assessment, which is carried out on a periodic basis, considers current economic conditions, and past loan loss experience, as well as specific and general risks relating to operations, borrowers and guarantors. Moreover, the length of the delay in payment defined in CMN Resolution 2682 is also taken into account for customer risk classification purposes as follows:

| Past-due period | Customer classification |
|------------------------|-------------------------|
| ; From 15 to 30 days | B |
| ; From 31 to 60 days | C |
| ; From 61 to 90 days | D |
| ; From 91 to 120 days | E |
| ; From 121 to 150 days | F |
| ; From 151 to 180 days | G |
| ; More than 180 days | H |

The accrual of these operations past due up to 59 days is recorded in revenues and subsequent to the 60th day, in unearned income.

Past-due operations classified at H level remain at this level for six months, subsequent to which time they are written-off against the existing allowance and controlled over a five-year period in memorandum accounts, no longer being recorded in balance sheet accounts.

Renegotiated operations are maintained with a classification equal to their prior rating. Renegotiated operations, already written-off against the provision and which are recorded in memorandum accounts, are classified at H level and the possible revenues derived from their renegotiation are recognized as revenue only when they are effectively received.

In the case of mortgage loans, the contractual capitalization period (monthly or quarterly) for income appropriation purposes complies with applicable legislation and end-borrower financings are adjusted to the present value of the installments receivable.

The allowance for doubtful accounts is recorded at an amount considered sufficient to cover estimated losses and considers BACEN requirements and instructions, as well as Management's appraisal of the related credit risks.

f) Taxes on income (asset and liability)

Tax credits on taxes on income, calculated on tax losses, negative basis of social contribution and temporary additions are recorded in Other receivables Sundry, and the provision for deferred tax liabilities on excess depreciation and mark-to-market adjustments of securities is recorded in Other liabilities Fiscal and pension plan activities.

Tax credits on temporary additions are realized upon use and/or reversal of the corresponding provisions on which they were recorded. Tax credits on tax losses and negative basis of social contribution will be realized as taxable income is generated.

The provision for federal income tax is calculated at the standard rate of 15% of taxable income, plus an additional rate of 10%. The provision for social contribution is recorded at the rate of 9% of pre-income tax. Provisions were recorded for other taxes on income in accordance with specific applicable legislation.

g) Prepaid expenses

This records investments of resources in prepayments, whose benefits or service provision will take place in subsequent years.

h) Investments

The investments in subsidiaries, shared control subsidiaries and affiliated companies, when relevant, are valued by the equity accounting method. The financial statements of the foreign branches and subsidiaries are adjusted to comply with the accounting practices adopted in Brazil, translated into Reais and their related effects recognized in income for the period.

The exchange membership certificates of Stock Exchanges, the Custody and Settlement Chamber (CETIP) and the Mercantile and Futures Exchange (BM&F) are recorded at their unaudited book values, informed by the corresponding exchanges, and fiscal incentives and other investments are recorded at acquisition cost, less the provision for losses, when applicable.

i) Fixed assets

This is shown at acquisition cost, net of respective accumulated depreciations, calculated by the straight-line method according to the estimated useful-economic life of assets of which: real estate in use 4% p.a.; furnishings and fixtures, machinery and equipment 10% p.a.; transport systems 20% p.a.; and data processing systems 20% to 50% p.a.

j) Deferred charges

Deferred charges are recorded at cost of acquisition or formation, net of the corresponding accumulated amortization at 20% per annum, calculated on the straight-line method.

Goodwill in the acquisition of investments in subsidiary companies and shared control subsidiaries, based on future profitability expectation, had an amortization of 10% to 20% per annum and was recorded in deferred assets until June 30, 2006.

Goodwill was reviewed by the Management Bodies and was fully amortized in 3Q06, as mentioned in Note 15.

k) Deposits and federal funds purchased and securities sold under agreements to repurchase

These are recorded at the amount of the liabilities and include, when applicable, related charges up to the balance sheet date, on a daily pro rata basis.

l) Technical provisions relating to insurance, private pension plans and certificated savings plans activities

Technical provisions are calculated according to actuarial technical notes approved by SUSEP and ANS, and criteria set forth by CNSP Resolution 120/2004.

- Insurance of basic lines, life and health

The provision of unearned premiums is comprised of retained premiums which are deferred during the term of effectiveness of the insurance agreements, determining the pro-rata day value of the unearned premium of the period of the risk to accrue (future risk of policies in effect).

The provision of claims incurred but not reported (IBNR) is calculated on an actuarial basis to quantify the amount of claims incurred and not reported by those insured/beneficiaries. The provision is established net of recoveries of co-insurance and re-insurance

The provision of unsettled claims is established based on the estimates of payments of indemnities, net of recoveries of co-insurance and re-insurance, pursuant to notices of claims received from those insured until the balance sheet date.

The provision is monetarily restated and includes all the claims under litigation.

- Supplementary private pension plans and life insurance covering survival

The mathematical provision of benefits to be granted refers to participants whose benefits have not started yet. The mathematical provision of benefits granted refers to participants already using the benefits. Mathematical provisions related to private pension plans known as traditional represent the difference between the current value of the future benefits and the current value of the future contributions, corresponding to the obligations assumed under the form of supplementary pension plans, disability, pension and savings funds. They are calculated according to the methodology and premises set forth in Actuarial Technical Notes. The provisions linked to life insurance covering survival (VGBL) and to the private pension plans of the unrestricted benefits generating (PGBL) category represent the amount of the contributions made by the participants, net of loadings and other contractual charges, plus financial earnings generated by the investment of resources in investment funds specially established (FIEs).

The contribution insufficiency provision is constituted to complement the mathematical provisions of benefits to be granted and granted, should they not be sufficient to guarantee future commitments. The provision is calculated on an

actuarial basis and takes into consideration the actuarial table AT-2000.

The financial fluctuation provision is established until the limit of 15% of the mathematical provision of benefits to be granted related to the private pension plans in the category of variable contribution with guarantee of earnings to meet possible financial fluctuations.

The administrative expenses provision is constituted to cover administrative expenses of the defined benefit and variable contribution plans. It is calculated in conformity with the methodology set forth in the Actuarial Technical Note.

- Certificated savings plans

The mathematical provision for redemptions is calculated on nominal amounts of certificated savings plans and monetarily restated, when applicable, based on Actuarial Technical Notes approved by SUSEP.

The provisions for redemptions are established by the values of the expired certificated savings plans and also by the values of the certificated savings plans which have not expired but whose redemption has been early required by the clients. The provisions are monetarily restated based on the indexes estimated in each plan.

The provisions for unrealized and payable draws are constituted to meet premiums arising from future draws (unrealized) and also to premiums arising from draws in which clients were already selected (payable).

m) Contingent Assets and Liabilities and Legal Liabilities Tax and Social Security

The recognition, measuring and disclosure of contingent assets and liabilities and legal liabilities are made according to the criteria defined in CVM Resolution 489/05.

- **Contingent Assets:** They are not recognized on an accounting basis, except when the Management has total control of the situation or when there are real guarantees or favorable judicial decisions, on which more resources are not provided for, characterizing the gain as practically certain. The contingent assets with probability of probable success are only disclosed in the financial statements.
- **Contingent Liabilities:** They are established taking into consideration the opinion of the legal advisers; the nature of the lawsuits; similarity with previous processes; complexity; and, in the positioning of our Courts, whenever the loss is evaluated as probable, what would cause a probable outflow of resources for the settlement of liabilities and when the amounts involved are measurable with enough safety. The contingent liabilities classified as possible losses are not recognized on an accounting basis, and they must only be disclosed in the notes, and those classified as remote do not require provision and disclosure.
- **Legal Liabilities – Tax and Social Security:** They result from judicial proceedings related to tax liabilities, whose purpose of contestation is their legality or constitutionality, which regardless of the evaluation about the probability of success, have their amounts fully recognized in the financial statements.

n) Other assets and liabilities

The assets are stated at their realizable amounts, including, when applicable, related income and monetary and exchange variations (on a daily pro rata basis), and provision for loss, when deemed appropriate. The liabilities include known or estimated amounts, plus related charges and monetary and exchange variations (on a daily pro rata basis).

- (1) For comparison purposes with the criterion adopted by Central Bank of Brazil's Circular 3068 and due to securities characteristics, we are considering the derivative financial instruments under the category Trading Securities ;
- (2) These refer to assets under management funds applied in purchase and sale commitments with Bradesco, the owners of which are subsidiaries, included in the consolidated financial statements;
- (3) The investment fund quotas were distributed according to instruments composing the portfolio and preserving the classification of funds category;
- (4) On June 30, 2006, R\$11,251,983 thousand of Trading Securities was transferred to Securities Available for Sale , in view of the management's intention as to their realization;
- (5) In compliance with the provisions of Article 8 of BACEN Circular 3068, Bradesco declares that it has both the financial capacity and the intention to hold to maturity the securities classified in the securities held to maturity category. This financial capacity is evidenced in Note 32a, which presents the maturities of asset and liability operations on the reference date of September 30, 2006;
- (6) The number of days to maturity was based on the maturity of the securities, regardless of their accounting classification;
- (7) This column reflects book value subsequent to mark-to-market, except for securities held to maturity, whose market value is higher than the restated cost value in the amount of R\$ 829,243 thousand (June 30, 2006 R\$ 789,106 thousand and September 30, 2005 R\$ 787,115 thousand); and
- (8) The market value of securities is determined based on the market price available on the balance sheet date. In the event no market prices are available, amounts are estimated based on the prices quoted by dealers, on price definition models, quotation models or quotations for instruments with similar characteristics; in case of investment funds, the restated cost reflects the market value of respective quotas.

e) Derivative financial instruments

Bradesco carries out transactions involving derivative financial instruments, which are recorded in balance sheet or memorandum accounts, for its own needs and for customers. The derivative financial instruments, when used by the Bank, aim at hedging its asset and liability positions against the effect of exchange and interest rate variations. The derivatives generally represent future commitments for exchanging currencies or indices, or purchasing and selling other financial instruments according to the terms and dates set forth in the contracts. Under the option contracts, the purchaser is entitled, but not obliged, to purchase or sell a financial instrument at a specific strike price in the future.

Property, plant and equipment in use of Bradesco Organization present an unrecorded increment of R\$1,113,576 thousand (June 30, 2006 R\$1,108,382 thousand and September 30, 2005 R\$909,418 thousand) based on appraisal reports prepared by independent experts in 2006, 2005 and 2004.

The fixed assets to stockholders' equity ratio, in relation to consolidated reference stockholders' equity, reached 11.89% (June 30, 2006 16.40% and September 30, 2005 18.37%), on the consolidated basis and 46.04% (June 30, 2006 48.03% and September 30, 2005 42.76%) on the consolidated financial basis, within the maximum 50% limit.

The difference between the fixed assets to stockholders' equity ratio of the Operating and Economic-Financial Consolidated results from the inclusion of the non-financial subsidiaries which have a high liquidity and a low fixed assets to stockholders' equity level, with the consequent reduction of the fixed assets to stockholders' equity ratio of the Economic-Financial Consolidated and enabling, when necessary, the distribution of funds to financial companies.

(1) This refers to installment of issuances of simple debentures not convertible into stocks of Bradesco Leasing S.A. Arrendamento Mercantil, of which one matures on May 1, 2011 and has a 102% of CDI remuneration; and

(2) These consist of funds obtained from banks abroad, from the issuance of notes in the international market and under National Monetary Council (CMN) Resolution 2770 for:

(i) onlending to local customers, maturing until 2011, under terms which do not exceed those of the funds obtained, with interest payable at LIBOR, plus a spread or prefixed interest; and

(ii) foreign exchange operations for customers, through purchase and sale of foreign currencies, related to discounts of export bills, pre-financing of exports and financing of imports, substantially in the short term.

d) Since 2003, Bradesco Organization has been entering into certain agreements designed to optimize its funding and liquidity management activities through the use of Specific Purposes Entities (SPEs). These SPEs, named Brazilian Merchant Voucher Receivables Limited and International Diversified Payment Rights Company, are financed through long-term liabilities and settled through the future cash flows of the corresponding assets, which basically comprise:

(i) current and future flows of money orders remitted by individuals and corporate entities located abroad to beneficiaries in Brazil for which the Bank acts as paying agent; and

(ii) current and future flows of credit card receivables arising from expenses made in Brazilian territory by holders of credit cards issued outside Brazil.

The long-term securities issued by the SPEs and sold to investors will be settled through funds derived from the money order flows and credit card bills. Bradesco is obliged to redeem these securities in specific cases of default or if the SPEs' operations are discontinued.

The funds derived from the sale of current and future money orders and credit card receivables, received by the SPEs, must be maintained in a specific bank account until such time as a specific minimum limit is attained.

We present below the main features of the notes issued by the SPEs:

18) Contingent Assets and Liabilities and Legal Liabilities Tax and Social Security

a) Contingent Assets

In 2006, contingent assets were not recognized on an accounting basis, however, there are proceedings whose perspective of success is probable. The main ones are:

Tax on Net Income (ILL) R\$347,750 thousand: It pleads the return, by means of compensation or restitution, of the amounts collected as Tax on Net Income established by article 35 of Law 7,713/88, once the referred tax was unconstitutionally judged by the Federal Supreme Court;

Social Integration Program (PIS) R\$98,624 thousand: It pleads the compensation of PIS on the Operating Gross Revenue, collected under the terms of the Decrees Laws 2445 and 2449/88, in what exceeded the amount due under the terms of the Supplementary Law 07/70 (PIS Repique).

b) Contingent Liabilities classified as probable and Legal Liabilities Tax and Social Security

Bradesco Organization is currently a defendant in a number of legal suits in the labor, civil and tax spheres, arising from the normal course of its business activities.

The provisions were recorded based on the opinion of the legal advisors; the types of lawsuit; similarity with previous lawsuits; complexity; and, jurisprudence and prior court sentences, whenever loss is deemed probable.

Bradesco's Management considers that the provision recorded is sufficient to cover losses generated by the corresponding proceedings.

The liability related to the legal liability in judicial discussion is maintained until the definite gain of the lawsuit, represented by favorable judicial decision, on which resources are not provided, or its prescription.

I Labor claims

These are claims brought by former employees seeking indemnity, especially the payment of unpaid overtime. The amount of the labor claims is provisioned based on the average value determined by the total payments made of the claims ended in the last 12 months, considering the similarity of these proceedings.

Following the effective control over working hours implemented in 1992, via electronic time cards, overtime is paid regularly during the employment contract and accordingly, claims on an individual basis subsequent to 1997 substantially reduced its amounts.

II Civil lawsuits

These are claims for pain and suffering and property damages, mainly protests, bounced checks and the inclusion of information about debtors in the restricted credit registry. These lawsuits are individually controlled and provisioned for specific lawsuits based on the opinion of the legal advisors, taking into consideration the nature of the lawsuits; similarity with previous lawsuits; complexity; and in the positioning of our Courts.

The issues discussed in the lawsuits usually are not events that cause a representative impact on the financial results. Approximately 60% of the lawsuits were brought at the small claims court, in which the requests are limited to 40 minimum wages. Moreover, approximately 50% of these lawsuits are judged unfounded and the amount of the condemnation imposed corresponds to the historical average of only 5% of the total amount claimed.

At present, there are no significant administrative lawsuits in course, moved as a result of the lack of compliance with National Financial System regulations or payment of fines, which could cause representative impacts on the Bank's financial results.

III Legal Liabilities Tax and Social Security

Bradesco Organization is judicially disputing the legality and constitutionality of certain taxes and contributions, for which provisions have been recorded in full, despite the likelihood of a successful medium and long-term outcome based on the opinion of the legal advisors

The main matters are:

CSLL R\$1,163,286 thousand: Questioning of CSLL required from financial institutions in the reference years from 1995 to 1998 by rates higher than the ones applied to general legal entities, not complying with the constitutional principle of isonomy;

COFINS R\$712,806 thousand: It pleads to calculate and collect COFINS, as from October 2005, on the effective sales results, whose concept is in the article 2 of Supplementary Law 70/91, removing the unconstitutional increase of the calculation basis intended by paragraph 1 of article 3 of Law 9,718/98;

CSLL R\$434,504 thousand: It pleads the non collection of CSLL of the reference years from 1996 to 1998, years in which some companies of Bradesco Organization did not have employees, once the article 195, I, of the Federal Constitution provides for that this contribution is only due by employers;

Edgar Filing: BANK BRADESCO - Form 6-K

INSS Autonomous Brokers R\$447,961 thousand: It discusses the incidence of the social security contribution on the remunerations paid to the autonomous service providers, established by the Supplementary Law 84/96 and subsequent regulations/changes, to the rate of 20% and additional of 2.5%, under the argument that the services are not provided to the insurance companies, but to the insured, thus being out of the incidence field of the contribution provided for in the item I, Article 22, of Law 8,212/91, with new wording in Law 9,876/99;

IRPJ/Credit Losses R\$294,657 thousand: It pleads to deduct, for purposes of determination of the calculation basis of due IRPJ and CSLL, the amount of the effective and definite losses, total or partial, suffered in the reference years from 1997 to 2005, in the reception of credits, regardless of the compliance with the conditions and terms provided for in the articles 9 to 14 of Law 9,430/96 which only apply to the provisory losses;

PIS R\$236,168 thousand: It pleads the compensation of the amounts unduly paid in the reference years of 1994 and 1995 as contribution to PIS, corresponding to the exceeding amount to what would be due on the calculation basis constitutionally provided for, i.e. operating gross revenue, as defined in the income tax legislation concept in article 44 of Law 4,506/64, not included financial revenues.

 - (2) It comprises, substantially, legal liabilities; and
 - (3) It includes the amounts coming from Banco BEC and Amex Brasil (Note 1).
- c) Contingent Liabilities classified as possible losses

Bradesco Organization maintains a follow-up system for all administrative and judicial proceedings in which the institution is the plaintiff or defendant and based on the opinion of the legal advisors classifies the lawsuits according to the expectation of non-success. In this context the contingent proceedings evaluated as risk of possible loss are not recognized on an accounting basis, and the principal related to leasing companies ISS in the amount of R\$100,461 thousand, in which it is discussed the unconstitutionality of the incidence of such tax, for it comprises financial leasing operations and, if it is deemed as due, it must be collected for the municipality of the company's headquarters.

(1) At the Annual and Special Stockholders Meeting as of March 27, 2006, it was resolved the cancellation of 30,000 preferred stocks, acquired by the Company by means of repurchase programs authorized by the Board of Directors, all non-par registered, book-entry stocks, held in treasury, representing its own capital stock, without its reduction.

At the Special Stockholders Meeting as of October 5, 2006, it was resolved to increase the capital stock, at the amount of R\$1,200,000 thousand, by means of the issuance of 21,818,182 new stocks, all non-par registered, book entry stocks, 10,909,152 of which are common stocks and 10,909,030 are preferred stocks, at the price of R\$55.00 per stock, by means of the private subscription by stockholders from October 19 to November 20, 2006, in the proportion of 2.226746958% on the share position which each one has on the date of the meeting. The payment will be in cash and will occur on December 7, 2006, in 100% of the amount of the subscribed stocks, on the same date of payment of supplementary interest on own capital and declared dividends.

c) Interest on own capital/Dividends

Non-voting preferred stocks are entitled to all rights and benefits attributed to common stocks and, in conformity with Bradesco's Bylaws, have priority to repayment of capital and 10% (ten per cent) additional of interest on own capital and/or dividends, in accordance with the provisions of paragraph 1, item II of Article 17 of Law 6404/1976, as amended by Law 10303/2001.

In conformity with Bradesco's Bylaws, stockholders are entitled to interest on own capital and/or dividends, which total, at least, 30% of net income for the year, adjusted in accordance with Brazilian corporate law.

Interest on own capital is calculated based on the stockholders' equity accounts and limited to the variation in the long-term interest rate (TJLP), subject to the existence of profits, computed prior to the deduction thereof, or of retained earnings and profit reserves in amounts that are equivalent to, or exceed twice the amount of such interest.

Bradesco's capital compensation policy aims at distributing the interest on own capital, at the maximum amount calculated in conformity with the prevailing laws, which is estimated, net of Withholding Income Tax, in the calculation of mandatory dividends of the year provided for in the Company's Bylaws.

At a Special Meeting held on June 30, 2006, the Board of Directors approved the Board of Executive Officers proposal for the payment of interim interest on own capital corresponding to the 1st half of 2006, at the amount of R\$0.327750 (net of Withholding Income Tax R\$0.278588) per common stock and R\$0.360525 (net of Withholding Income Tax R\$0.306446) per preferred stock, whose payment was made on July 20, 2006.

At a Special Meeting of the Board of Directors held on October 5, 2006, it was resolved the approval of the proposal of the Board of Executive Officers for the payment of supplementary interest on own capital related to the year of 2006, at the amount of R\$0.784333536 (net of tax R\$0.666683505) per common stock and R\$0.862766889 (net of tax R\$0.733351856) per preferred stock, whose payment will be made on December 7, 2006. In complement to the interest on own capital for the year, it was proposed the distribution of dividends, at the amount of R\$585,000 thousand, at the ratio of R\$0.568954689 per common stock and R\$0.625850158 per preferred stock to be paid on December 7, 2006, by the declared amount, with no Withholding Income Tax, pursuant to Article 10 of law 9249/95.

The calculation of interest on own capital and dividends related to the period of 2006, considering the resolutions of the Special Meeting of the Board of Directors of October 5, 2006, is shown as follows:

e) Treasury Stocks

Edgar Filing: BANK BRADESCO - Form 6-K

Banco Bradesco's Board of Directors, in meeting held on November 22, 2005, resolved to authorize the Company's Board of Executive Officers to acquire up to 10,000,000 non-par registered, book-entry stocks, of which 5,000,000 are common stocks and 5,000,000 are preferred stocks, with a view to be held in treasury and further sale or cancellation, without reducing the capital stock. The authorization was in force for a 6 (six) month period, between 11.23.2005 and 5.23.2006. At a meeting of the Board of Directors on May 22, 2006, a new authorization was resolved, with the same quantities and terms. The authorization will be in force for 6 (six) months, from 5.24.2006 to 11.24.2006.

Up to September 30, 2006, 618,100 common stocks and 6.400 preferred stocks were acquired and held in treasury, totaling R\$40,555 thousand. The minimum, weighted average and maximum cost per stock is, respectively, R\$58.23638, R\$64.93915 and R\$79.47560 and the market value of those stocks on September 30, 2006 was R\$67.98 per common stock and R\$72.08 per preferred stock.

a) Risk Management Process

Bradesco approaches on a comprehensive and integrated basis the management of all risks inherent to its activities, supported by its Internal Control and Compliance structure.

Credit Risk Management

Credit Risk is the possibility that a counterparty of a loan or financial operation might neither intend nor suffer any change in its ability to comply with its contractual liabilities thus may generate any risk of loss for the Organization.

As part of its Credit Risk Management improvement process, Bradesco has been working uninterruptedly to improve the procedures for gathering and controlling portfolio information, developing and improving loss estimation models to examine and prepare the rating inventories used in the follow-up of credit analysis, granting and settlement processes, monitoring credit concentration and identifying new components offering credit risks and preparing risk mitigation strategies.

Market Risk Management

Market risk is related to the possibility of loss from fluctuating rates caused by mismatched currencies and indices of the Institution's asset and liability portfolios.

Bradesco adopts a conservative policy regarding market risk exposure, being VaR (Value at Risk) limits defined by Senior Management, and compliance monitored on a daily basis by an area which is independent from portfolio management. The methodology used to determine VaR has a reliability level of 97.5%. The fluctuations and correlations used by the models are calculated on statistical bases that are used on forward-looking processes, in accordance with economic studies. The methodology applied and current statistical models are validated daily using backtesting techniques.

In the chart below, we show Global VaR positions (Treasury, position in Brazil and abroad, and Trade Portfolio):

| Risk Factors | R\$ thousand | | |

| VaR (Value at Risk) | 76,752 | 85,765 | 63,875 |

Investments abroad protected by hedge operations are not being considered in the VaR calculation, as these are strategically managed and on a differential basis, in amounts taking into account the tax effects, which minimize the sensitivity to risks and corresponding impacts on results, as well as foreign notes positions, which are matched with funding.

Liquidity risk

Liquidity risk management is designed to control the different unhedged settlement terms of the Organization's rights and obligations, as well as the liquidity of the financial instruments used to manage the financial positions.

(1) Investment fund applications are classified as up to 30 days; and

(2) Demand and savings account deposits and technical provisions for insurance, private pension plans and certificated savings plans comprising VGBL and PGBL products are classified as up to 30 days, without considering average historical turnover.

At Bradesco Organization, liquidity risk management involves a series of controls, mainly, the establishment of technical limits and an ongoing assessment of the positions assumed and financial instruments used.

Capital risk

Bradesco's capital risk is managed to optimize the risk-return ratio, aiming at minimizing losses, through the implementation of well-defined business strategies and maximizing efficiency in the combination of factors which impact the Capital Adequacy Ratio (Basel).

Determination of market value of financial instruments:

- Securities and derivative financial instruments, investments, subordinated debts and treasury stocks are based on the market price practiced on the balance sheet date. In the event no quotation of market prices is not available, amounts are estimated based on the prices quoted by dealers, on price definition models, quotation models or quotations for instruments with similar characteristics;
- Prefixed loan operations were determined by discounting estimated cash flows, using interest rates applied by Bradesco Organization for new contracts with similar features. These rates are compatible with prices practiced in the market on the balance sheet date; and
- Time deposits, funds from issuance of securities and borrowings and onlendings were calculated by discounting the difference between the cash flows under the contract terms and the rates practiced in the market on the balance sheet date.

33) Employee Benefits

Banco Bradesco and its subsidiaries sponsor a supplementary private pension plan for employees and directors, in the modality Unrestricted Benefits Generating Plan (PGBL). The PGBL is a private pension plan of the variable contribution type, which permits the accumulation of financial resources by participants over their professional careers through contributions paid by themselves and the sponsoring company. The related resources are invested in an Exclusive Financial Investment Fund – FIE.

The PGBL is managed by Bradesco Vida e Previdência S.A. and BRAM – Bradesco Asset Management S.A. DTVM is responsible for the financial management of the FIEs funds.

The contributions paid by employees and directors of Bradesco and its subsidiaries are equivalent to 4% of salary, except for participants who in 2001 opted to migrate to the PGBL plan from the variable benefits plan, whose contributions to the PGBL plan were maintained at the levels in force for the defined benefits plan at the time of migration, respecting nevertheless the 4% minimum.

The actuarial liabilities of the variable contribution plan (PGBL) are fully covered by the net assets of the corresponding FIE fund.

In addition to the aforementioned variable contribution plan (PGBL), former participants of the defined benefits plan are guaranteed a proportional deferred benefit, corresponding to their accumulated rights in the latter plan. For participants of the defined benefits plan, transferred or not to the PGBL plan, retired participants and pensioners, the present value of the plan's actuarial liabilities is fully covered by guaranteeing assets.

Banco Alvorada S.A. (merging company of Banco Baneb S.A., which had previously merged Banco BEA) maintains a supplementary pension plan managed by Caixa de Previdência dos Funcionários do BEA – CABEA, which is currently undergoing a sponsorship withdrawal process, with reference date established on November 30, 2002 and whose sponsor's contributions ceased from December 1, 2002. Participants also no longer contribute as from the same date. The plan's actuarial liabilities are fully covered by the plan's net assets.

Banco Alvorada S.A. (merging company of Banco Baneb S.A.) sponsors supplementary pension plans of both variable contribution (PGBL) and defined benefit types, through Fundação Baneb de Seguridade Social – BASES (for former Baneb employees). The actuarial liabilities of the variable contribution and defined benefit plans are fully covered by the net assets of the plans.

Banco BEM S.A. sponsors supplementary pension plans of both variable benefit and defined contribution types, through Caixa de Assistência e Aposentadoria dos Funcionários do Banco do Estado do Maranhão – CAPOF. The

actuarial liabilities of the variable benefit and defined contribution plans are fully covered by the net assets of the plans.

Banco BEC S.A. sponsors a defined benefit plan by means of CABEC – Caixa de Previdência Privada do Banco do Estado do Ceará. The actuarial liabilities of the plan are fully covered by the net assets of the plan.

The funds guaranteeing the private pension plans are invested in compliance with applicable legislation (government bonds and private securities, listed company's stock and real estate properties).

Bradesco and its facilities abroad provide their employees and managers with a private pension plan with variable contribution, which enables to accumulate financial resources during the professional career of the participant, by means of contributions paid by himself/herself and in equal proportion by Bradesco. The contributions of employees and managers and of Bradesco in its facilities overseas are jointly equivalent to at most 5% of the annual salary of the benefit.

Expenses with contributions made during the period amounted to R\$222,854 thousand (September 30, 2005 R\$192,283 thousand), 3Q06 R\$73,053 thousand (2Q06 R\$70,703 thousand).

In addition, Bradesco and its subsidiaries offer their employees and directors a number of other benefits including: healthcare insurance, dental care, group life and personal accident insurance, as well as professional training, the expenses for which, including the aforementioned contributions, amounted to R\$955,674 thousand in 2006 (September 30, 2005 R\$863,430 thousand), 3Q06 R\$332,228 thousand (2Q06 R\$313,141 thousand).

Report of Independent Auditors on Limited Review

(A free translation from the original in Portuguese)

To the Board of Directors and Stockholders
Banco Bradesco S.A.

1. We have carried out a limited review of the accounting information contained in the consolidated Quarterly Information of Banco Bradesco S.A. and its subsidiaries, comprising the balance sheets at September 30 and June 30, 2006 and the related statements of income and of changes in financial position for the quarters ended September 30 and June 30, 2006 and for the nine-month period ended September 30, 2006, as well as the statement of changes in stockholders' equity for the nine-month period ended September 30, 2006. This information is the responsibility of the Bank's management.
2. Our review was carried out in conformity with specific standards established by the Institute of Independent Auditors of Brazil - IBRACON, in conjunction with the Federal Accounting Council - CFC and mainly comprised: (a) inquiries of and discussions with management responsible for the accounting, financial and operating areas of the Bank with regard to the main criteria used for the preparation of the quarterly information and (b) a review of the significant information and the subsequent events which have, or could have significant effects on the financial position and operations of the Bank.
3. Based on our limited review, we are not aware of any material modifications which should be made to the Quarterly Information referred to above in order that such information be stated in accordance with accounting practices adopted in Brazil.
4. Our limited review was conducted for the purpose of issuing our report on the limited review of the Quarterly Information referred to in paragraph one, taken as a whole. The Statement of Consolidated Cash Flows and the Consolidated Statement of Added Value are presented to provide additional information on the Bank and are not specifically required as an integral part of these financial statements by the Brazilian Central Bank. The Statement of Consolidated Cash Flows and the Consolidated Statement of Added Value were subjected to the same audit procedures described in paragraph two and, based on our limited review, we are not aware of any material modifications that should be made thereto, in order that such accounting information be presented in accordance with accounting practices adopted in Brazil.
5. The Quarterly Information also includes accounting information, presented for comparison purposes, for the nine-month period ended September 30, 2005. The limited review of the Quarterly Information for this period was conducted by other independent auditors, whose report on the limited review dated November 4, 2005 was issued without exceptions.
6. As described in Note 15, the goodwill on investments in associated and subsidiary companies was amortized during the third quarter of 2006.

Glossary

Glossary of Technical Terms

Acquirer: company responsible for affiliating, maintaining and paying establishments of a Card flag. For instance, in Brazil, the only VISA acquirer is VisaNet.

Activity Based Costing: is a methodology used to facilitate the analysis of the costs of activities that consume the most significant volume of resources. The volume, relationship between cause and effect and the effectiveness with which the resources are consumed during the activities comprise the objective of the strategic ABC cost analysis, ensuring that indirect costs are directed as a priority to these activities and processes and subsequently to products, services and customers.

Added value: value created by the company as a result of its productive activities, representing the level of the company's contribution to society.

Advisor: economic/financial consultant.

Asset management companies: the main activity of these companies is to manage third-party funds. The companies may be part of a financial group, but must create operating barriers, such as a Chinese Wall to avoid possible conflicts of interest and focus their business on the management of investors' funds.

Back test: this method is used to test the validity of the statistical models used, through the comparison of historical data and data generated by the models.

Basel Capital Accord: agreement signed by the Basel Committee, Switzerland, in 1988, designed to establish new conditions for the system used to regulate and supervise banking activities (compulsory for G-10 countries). The methodology used seeks to ensure that minimum capital requirements are compatible with the degree of risk of transactions. In June 2004, this agreement was revised and related changes must be implemented by January 2007.

Basel Committee: formed by the presidents of the central banks of the world's 10 most developed economies for purposes of introducing regulations for compliance by G-10 countries.

Bonds: government securities or corporate bonds, which are subscribed and traded.

Brazilian Depository Receipts - BDRs: these are certificates comprising securities issued by publicly held companies headquartered abroad, negotiable in the Brazilian market.

Broker dealer: a specialized firm, which trades securities for its own account or as an intermediary for third parties.

Capital adequacy ratio (Basel): index introduced by the Basel Committee and regulated by the Brazilian Central Bank, which shows the ratio between the bank's stockholders' equity and its risk weighted assets.

Capital savings: comprise the capital paid as a lump sum to the beneficiaries indicated in the plan proposal, in the event of death of the pension plan participant.

Cash management: cash administration.

Chinese Wall: set of procedures characterized by the clear separation between the management of the treasury funds of the financial institutions and the management of third-party funds. Regulated by the Central Bank of Brazil, it aims to avoid the conflict of interests between the financial institutions in the administration and management of its funds

and the administration and management of the funds of its clients.

Claims: this is the realization of risk provided for in the insurance contract, which causes material or personal damages to the policyholders or their beneficiaries.

Claims ratio: used by insurance companies to measure the proportion of expenses for claims to earned premium. Accordingly, the lower the ratio, the better the insurance company's risk selection strategy.

Co-insurance: insurance distributed among various insurance companies, with the related risk distributed in proportion to the corresponding quota held.

Combined ratio: ratio used by the insurance companies, according to which the sum of the expenses incurred with claims, administrative expenses and selling expenses are divided by the premium earned. Accordingly, the lower the ratio, the higher the efficiency of the insurance company.

Commercial paper: securities issued by publicly held companies for purposes of raising public funds for financing working capital.

Committee of Sponsoring Organizations COSO: it is a not-for-profit entity, dedicated to improving the presentation of financial reports based on ethics, efficient internal controls and corporate governance. Its members are representatives from the industry, accounting firms, investment companies and the New York Stock Exchange.

Compliance: adherence to a set of laws, rules and instructions introduced by either governmental or internal bodies.

Compulsory deposits: this compulsory reserve is the percentage of demand deposits and the terms under which banks are obliged to deposit at the Brazilian Central Bank (BACEN). The National Monetary Council (CMN) establishes the required percentage for purposes of limiting the expansion of credit operations in the economy. The compulsory deposit is a classic Central Bank instrument used to control the volume of currency available in the banking system.

Contingent liabilities: reflect the uncertainty as to whether, when and for how much an obligation will be paid. In general, the amounts recorded as contingencies are calculated based on the progress of the related lawsuits.

Corporate finance: banks act as intermediaries in complex transactions involving corporate mergers, spin-offs and acquisitions. In this segment, in conjunction with specialized consulting firms, the banks use their experience in financial and investment transactions ensuring that they are made feasible through the use of funds, which are obtained either locally or from abroad.

Corporate governance: system by which companies are managed and monitored, involving relationships between stockholders, the board of directors, the executive board, the independent auditors, audit committee and fiscal council. Good corporate governance practices are designed to increase the company's value, facilitating access to capital and ensuring that it will continue as a going concern on a perennial basis.

Corporate Sustainability Index (ISE): Bovespa index which reflects the return of a portfolio composed of companies' stocks with the best performances regarding all dimensions related to corporate sustainability, i.e., economic-financial, social, environmental and corporate governance.

Correspondent banks: these are commercial companies or service providers contracted by banks to operate in banking services authorized by the Brazilian Central Bank (BACEN). Since they are usually located in different commercial outlets, the correspondent bank can offer extended hours, often on a 24-hour basis.

Courier: messenger service, available for use by customers, to carry out a number of bank services, including check deposits, bill payments, checkbook delivery, among others, with no need for customers to leave the home or office.

Covenants: commitments contained in any formal debt agreement establishing that certain acts must be fulfilled, while others must not be executed. These commitments are designed to protect the lender's interests and involve matters such as working capital, dividend payment and the ratio of indebtedness.

Coverage of technical reserves: is the allocation of assets, by insurance, private pension plans and savings bonds companies, in particular financial assets, in sufficient amount to cover technical reserves. These assets must offer diversity, liquidity, security and profitability. See Guarantees of technical reserves.

Coverage ratio: measures the ratio between the amount of the allowance for loan losses (PDD) and the amount of non-performing loans (D to H rated credits).

Credit scoring: is a method using statistical tools to measure the probability of loss on a credit operation based on historical data.

Consigned loan: this is a line of personal credit for companies' employees whose loan installments are deducted from payroll.

Cross selling: sale of related merchandise and services.

Depository Receipts DRs: are deposit receipts issued by a foreign institution (Depository), guaranteed by shares of a local company.

Derivatives: financial instruments used by companies, substantially for protection purposes and classified in 4 categories: futures market, swap, forward market and options.

Earned premium: the portion of an insurance premium retained which corresponds to the period of risk time passed, i.e., it is the deferral of the retained premium for the period counted from the date of the insurance coverage.

Equator Principles: it is a set of social-environmental measures, based on criteria defined by the International Finance Corporation (IFC), used in the evaluation and concession of financing of infrastructure projects known as project finance.

Eurobonds: securities with notional value expressed in U.S. dollars or other currencies and which the banks issue through institutions abroad, the resources of which will be used to finance credit operations in Brazil. These are medium to long-term securities at fixed or floating rates and with premium or discount, depending on market demand. The eurobond market is an important source of capital for multinational companies and governments, including those located in developing countries.

Euronotes: are long-term notes, issued by governments and major companies and traded in the international financial market.

Exchange coupon rate: is the difference between the internal interest rate and the expected Brazilian exchange rate devaluation and, in general, is compatible with the composition of the remuneration offered by exchange bills in investments pegged to the variation in the U.S. dollar, i.e., the interest rate in U.S. dollar paid to an investor who assumes the risk of investing in another currency.

Exchange exposure: assets and liabilities subject to exchange risks as a result of local currency valuation or devaluation as compared to other currencies.

Financial holding company (FHC): status granted by the U.S. Federal Reserve – FED, which permits the subsidiary company of a foreign financial institution to carry out its activities under the same conditions as local US banks. This status is awarded subsequent to a detailed analysis of key factors determined by US banking legislation. For purposes of obtaining FHC status, the institution must comply with 3 main requirements: a) it must be properly capitalized, b) properly managed and c) submit a proper request for FHC status to the Federal Reserve Board – FRB.

Financial intermediation: is a bank's main activity. The bank obtains funds from customers with resources available for investment, which are lent to borrowers. Other activities such as leasing and exchange transactions also comprise financial intermediation.

Financial margin: this is the difference between interest income and expense generated by investments, funds obtained, credit and leasing operations and foreign exchange transactions. Non-interest income also comprises financial margin, derived from securities, treasury transactions and credit recoveries.

Floating funds: permanence of third-party funds in banks for a specific period without remuneration.

Global Compact: initiative of the United Nations in which encourages participant entities to commit with guiding its actions in the sense of contributing to the development of a more inclusive and sustainable economy, broadening its scale in the social-environmental area. It is based on values aiming at promoting institutional education. The power of transparency and dialog is used to identify and disclose new practices which have as base the universal principles. It is comprised of 10 principles related to human rights, labor, environmental protection and bribery.

GoodPriv@cy: it is an international data privacy and protection seal, which comprises requirements for data protection and privacy management within the corporations.

Greenfield: implementation of new projects, i.e., those that are not characterized as expansion.

Guarantee of technical reserves: see coverage of technical reserves.

Hedge: an instrument used to offset risk investments subject to price and rate fluctuations.

Holding: it is the company holding share control over another company or a group of subsidiary companies.

Home broker: relationship channel between investors and brokerage houses, for stock market trading purposes through the online transmission of buy and sell orders via internet, permitting real time access to price quotations and share portfolio monitoring, among other resources.

IBOVESPA: this is the most important Brazilian stock market performance index, as it portrays the behavior of main stocks traded on BOVESPA. It is established from an imaginary Reais investment in a theoretical number of stocks (portfolio). Each stock composing this portfolio has a certain weight, which varies according to its liquidity. Frequently, both the composition and weights change so that the index may accurately represent the stock market. Its basic purpose is to work as a market behavior average index. Hence, the stocks composing this index account for more than 80% of the number of trades and financial volume traded on the spot market. As the stocks integrating this

portfolio are highly representative, it is possible to affirm that if most of stocks are climbing, the market, measured by Bovespa Index, is bull, and if it is declining, it is a bear market. Interbank accounts: comprise checks which are being cleared between banks and other notes, such as bank docket payments, as well as restricted deposits at the Brazilian Central Bank (deposits in foreign currency, deposits for exchange contracts, payment of funds for rural credit, credits subject to the National Housing System - SFH, etc).

Interbank deposits: securities negotiated in the interbank market between financial institutions.

Interdepartmental accounts: comprise the amounts, which are in transit between the bank's branches and departments or other group member companies (brokerage firms, insurance companies, supplementary private pension entities etc.).

Investment advisory service: these are consulting services for investors and include financial advice, preparation of financial reports and management of customer funds. The services are provided by consultants who are properly registered at the regulatory organs.

Investment grade: in the establishment of investment alternatives to international investors, companies and countries are rated by the international risk rating agencies such as Moody's, Standard & Poor's and Fitch, among others, normally in three risk levels: Investment Grade; Investment Risk; and Default. Investment grade is the safest grade, in which there is maximum trust of markets. It is when a country or a company is better evaluated by investors and manages to raise funds with lower interest rates, for it is considered of low risk.

Leasing: this is an alternative medium, or long-term, financing method, documented through an agreement in which the leasing company purchases the assets, which are then ceded for use by the lessee in exchange for payment in installments.

Libor: it is the preferential interest rate charged on foreign currency loans and prevailing in the international financial market. It is used among first-tier banks.

Market-making: the maintenance of buy and sell offers for a specific securities and preparation to buy or sell standard lots at publicly quoted prices.

Market share: percentage sales or inventories in a specific segment of a certain company. It could also be the share that a specific brand holds in the market in which it operates.

Mark-to-market: method used to adjust a security or portfolio based on present market values.

Merchant banking: activities carried out by a financial institution including investment bank activity, advisory services, and intermediary services in mergers and acquisitions.

Microcredit: is the granting of limited loan amounts to small informal business owners and microcompanies, with difficult access to the traditional financial system, especially since they are unable to offer real guarantees. This credit is used for production purposes (working capital and investment) and its main features are less bureaucracy, access by all customer income brackets and a quick and efficient approvals process.

Mobile banking (WAP): this technology allows banks to offer their customers banking services (balances, statements, institutional information consultation, rates and prices) via mobile communication equipment, such as cell phones. An option in addition to other channels, such as the Internet, magnet strip cards, branches and call centers.

Money laundering: method by which funds derived from illegal activities are incorporated into the economic system. The main purpose is to disguise the illicit origin of the funds using transactions, which cannot be traced.

Operating efficiency ratio: ratio between administrative expenses (personal + administrative) and operating income. Lower the ratio, better the efficiency of the Financial Institution.

Overnight: one-day investments, which are guaranteed by government securities or corporate bonds, comprising a transaction between two institutions involving a sale, with a repurchase commitment.

Over-the-counter market: in which transactions are not carried out in the stock exchanges. Not only shares, but also assets, including derivatives, can be traded in this market. Since they attend certain customer specifications, not provided for in stock exchange trading, over-the-counter trades are also known as tailor-made transactions.

Own position: securities maintained in stock, available for trading, derived from definitive purchases or repurchases, recorded as fixed income securities.

PGBL (Unrestricted Benefits Generating Plan): this is a supplementary private pension product destined to accumulate funds and converting them into future income. PGBL is very flexible, since amongst other facilities, it allows that funds invested in this plan may be redeemed at any time (observing the grace period). It is interesting to participant, submitting income tax return, as it is possible to deduct the contributions amount from the income tax calculation basis up to the limit of 12% of annual gross income. Upon receipt of redemption or yield, income tax will be withheld at source over total received, pursuant to prevailing laws (progressive or regressive tables).

Plano remido: in the health Insurance Line products, this is a plan in which insurance holders do not have the obligation to pay premiums to the insurance company, which, in turn, still has the obligation to pay benefits to the holder.

Privatization currency: government securities generally traded with discount and accepted by the government in payment for the acquisition of state-owned companies.

Project finance: is the combination of contracts which involve a specific business venture, inter-relating all the operating agents and the guarantees related thereto. Project finance is a technical model in which the project is the center of gravity of the interaction between the related agents. Project finance is generally used in major engineering projects.

Purchase and sale commitments: a financial investment through which the bank sells government securities or corporate bonds to the customer, and whereby the bank is committed to repurchase and the customer to resell the related securities within the terms established in the contract.

Qualified custody service: this consists of the physical and financial settlement of assets and their safekeeping, as well as the administration and information on related income. The custody service also comprises the financial settlement of derivatives, swap contracts and forward transactions.

Quality certification (ISO International Organization for Standardization): is the combination of activities carried out by an independent commercial body designed to certify, publicly and in documental form, that a determined product, process or service complies with specific requirements. ISO certification improves the company's image, facilitating purchase decisions by customers and consumers.

Rating: it is a classification mechanism of the credit quality of a company or a country. The rating aims to classify the risk of a company or country verifying if they are able to comply with the financial liabilities. This classification is made by rating agencies which, periodically, review their opinions about the rating of the company or country previously evaluated. See Rating agencies.

Rating agencies: companies experienced in analyzing the risk of public and private, financial or non-financial institutions. Based on detailed analyses, these agencies attribute a score (rating) to the companies or countries under analysis. This score serves as a risk indicator for investors. See Rating.

Reinsurance: is the ceding by the insurance company to the reinsurer of that portion of a liability which exceeds the limit of its capacity to retain risks. Reinsurance is a form of risk distribution and is contracted with IRB-Brasil Resseguros S.A., which has the monopoly on reinsurance in Brazil.

Retained premium: is the portion of an insurance premium which remains with the insurance company in the exact proportion of its retention, i.e., the portions ceded as co-insurance and re-insurance are excluded from the premium issued, as well as refunds and cancellations.

Retrocession: is the transaction used by the reinsurer to cede to the local or international market, the liabilities which exceed the limits of its capacity to retain risks, i.e., retrocession is the reinsurance of reinsurance.

SANA (Automatic System of Stocks Negotiation): structured system aiming at facilitating the participation of small individual investors in the stock market, assuring easy purchasing and selling of stocks in the Stock Market, in small lots, through computer terminals. The system can also be used in public offerings intermediation.

Sarbanes-Oxley Act, Section 404: established to restore confidence in the financial information disclosed by companies listed in the U.S. stock exchanges. The U.S. politicians, Sarbanes (senator) and Oxley (federal congressman) drew up legislation to provide improved orientation on the following: clarity in the presentation of financial information, corporate governance, internal controls process and independence of the independent auditors and increased assurance procedures. Pursuant to Section 404, both companies and their auditors must identify all key controls for each of their processes and test thoroughly the effectiveness and management appraisal capacity of these controls.

Securitization: is the financial transaction whereby a loan and other debts are converted into securities which are negotiable in the market.

SMS: short message service, used in cell phones. The service allows the user to send and receive text messages containing different types of information.

Social responsibility: is the philosophy whereby certain companies conduct their business as a partner, co-responsible for social development. The socially responsible company is capable of assimilating the interests of different stakeholders (stockholders, employees, service providers, suppliers, consumers, community, government and environment), ensuring that these interests are fully integrated into the planning of its activities, in the pursuit to meet

the demands of all segments, not just those of the stockholders or owners.

Sovereign risk: this is an index calculated by the US investment bank J. P. Morgan used to measure the degree of risk to which a foreign investor is exposed when investing in a particular country. Technically, this risk is the surcharge payable in relation to the guaranteed returned on US treasury bonds, since the US is considered to offer less risk to investors. Every 100 points represent 1% of additional interest as compared to US interest.

Spread: this is the difference between the interest rate charged to the borrower by the bank and the rate paid to customers for the use of the funds invested.

Stock guide: this is a report used as a guide for those interested in accompanying the performance of the secondary share market and an important tool for use in capital market area studies. Its content is updated periodically and includes information on all major listed companies. The inclusion of companies in this report is directly related to their share liquidity. The companies are grouped under different sectors, facilitating a comparative analysis of their performance (share behavior and profitability) in their own activity segment and between the different sectors.

Stress testing: a technique used to assess the response of an asset and/or liability portfolio to extreme variations in the prices, interest and exchange rates which affect these portfolios. The purpose of the stress test is to quantify possible loss on the portfolio in the event of an adverse market situation.

Structured transactions: a combination of two or more financial instruments (e.g. a purchase and sale commitment + Swap), designed to take advantage of market opportunities or secure protection against financial risks.

Subordinated debt: this is an instrument customarily used by financial institutions for obtaining funds since it is classified as tier II capital for purposes of calculating the capital adequacy ratio (Basel) and accordingly increases their credit granting capacity. In the event of bankruptcy, this debt is the ultimate obligation payable by the financial institution and is subordinate to the payment of all other creditors.

Subordinated perpetual debt: this is a security without maturity, which pays interest on a periodical basis on dates set out in advance. It includes an exclusive redemption option for the issuer after the term contractually determined has elapsed as from the issuance date.

Supplementary private pension plan: it is an instrument used to accumulate resources over the years in the form of savings to be withdrawn during retirement. This plan is supplementary to the government retirement pension scheme.

Sustainability: assumes that the companies will commit with the economic-social-environmental tripod, i.e., value generation, environmental care and social development.

Swap: financial derivative with a view to promoting the swap (simultaneously) of financial assets between economic agents involved.

Tag Along: right assured by law through which the minority stockholders holding common stocks have the power of selling their stocks for a predetermined percentage, when a publicly-held company's control is sold.

Technical reserves: these are liabilities recorded by the insurance companies to guarantee the payment to policyholders of claims occurred or which will occur in the future as a result of the risks assumed. For the supplementary private pension entities and savings bonds companies, these liabilities comprise the amounts accumulated with funds derived from the cost of the benefits contracted, for payment purposes of such benefits. All technical reserves are calculated established on actuarial bases.

Third-party position: securities with repurchase commitments not subject to resale commitments, i.e., they are the institutions own portfolio securities related to the open market, recorded as fixed income securities subject to repurchase.

Track record: accumulated experience.

Treasury stocks: own company stocks acquired to remain in treasury or for cancellation.

Underwriting: term used internationally to define the launching of stocks or debentures for public subscription, generally carried out by financial institutions authorized by the CVM, via three types of contracts: straight (the financing institution subscribes the total launch and payment is made directly to the issuing company), stand-by (the financing company is bound to subscribe the securities not acquired by the public) and best-efforts (the financing company does not assume the responsibility to subscribe the securities and returns those that were not acquired by the public to the issuing company).

Verified by Visa: electronic means of debit and credit card transactions verification at virtual stores, providing clients with greater protection and security.

VGBL (Long-term life insurance): this is a life insurance guaranteeing insured's coverage in case of his/her survival with a view to accumulating funds and converting them into future income. It works as a private pension plan, as it was developed based on PGBL. VGBL is very flexible, since amongst other facilities, it allows that funds invested in this plan may be redeemed at any time (observing the grace period). The most important difference between PGBL and VGBL is the tax treatment given to each one. While in PGBL income tax is levied over the total redeemed or received as income, in VGBL the taxation occurs only over financial investments yields, according to prevailing laws (progressive or regressive tables). VGBL is more indicated for those participants submitting simplified income tax return. In addition, this is an option for those insured who already exceeded the limit of income tax deduction in a supplementary private pension plan (12%) and who are planning to invest a bit more in his/her future.

V@R (value at risk): is the expected maximum potential loss of an asset and/or liability portfolio with pre-established confidence level and over a specific time horizon.

Web point: this is a self-service terminal providing access to Internet Banking services.

WebTA: is the online transfer of files between the Bank and its corporate customers with security, efficiency and economy, using cryptography and data compaction.

Wireless: this technology permits connection between equipment with no direct physical link. For example, internet access by cell phones is made feasible through the use of wireless technology.
