### **Gollog Achieves 60% Revenue Growth in 2006**

**São Paulo, January 23, 2007** - GOL Linhas Aéreas Inteligentes (NYSE: GOL and Bovespa: GOLL4), Brazil's low-cost, low-fare airline, announced today that Gollog, the airline's cargo transport service, achieved 51% carried volume growth in 2006 - an increase from 27,300 tons in 2005 to 41,200 tons last year. Gross revenue also increased last year, up 60% from R\$ 78.6 million to R\$ 126.1 million.

Gollog's success is the result of the unique service the Company offers to the market: the Electronic Air Waybill - air waybills that can be completed via the Internet. The Gollog system provides online access to air waybills and allows customers to track their shipment from any computer with Internet access. Gollog will celebrate six years of operations on January 30. GOL was the first to launch this new service and the results have proven there is significant customer demand says Tarcísio Gargioni, Vice President of Marketing and Services at GOL.

GOL's 55 destinations throughout Brazil and South America provide access to countless locations in the region. GOL's over 600 daily flights guarantee quick and reliable delivery. Packages are shipped in the cargo hold of the Company's 65 passenger aircraft. Gollog has two storage facilities - one at Congonhas airport in Sao Paulo, and another at Cumbica airport in Guarulhos - with approximately 95 employees. Additionally, Gollog has 42 franchised branches and a fleet of 100 vehicles to collect and deliver cargo.
