### **GOL Reviews Quarterly Dividend Policy for 2008**

**São Paulo, August 7, 2008** – GOL Linhas Aéreas Inteligentes S.A. (NYSE: GOL and Bovespa: GOLL4), announces that the Company’s Board of Directors (“the Board”) voted yesterday to suspend quarterly dividends for the remainder of 2008.

GOL has paid R\$664.7 million in dividends to its shareholders since 2004. Given the current environment for the airline industry, the Board believes suspending dividends is in the Company and shareholders’ best interests, as it will allow GOL to employ cash to fund investments and improve credit ratios. Suspending dividends is one of many strategies the Company is employing to offset higher fuel prices and provide management with the necessary flexibility to continue making investments, including GOL’s fleet renewal program, recent adjustments to the fleet plan, integration of GTA and VRG operations and the implementation of a new ticket sales system. These initiatives are expected to contribute to revenues and optimize costs.

“The Company is taking the necessary steps to set the stage for the next phase of growth, in line with our strategy of profitable expansion through our low-cost structure” said Constantino de Oliveira Junior, GOL’s president and CEO.

The 2008 dividend policy forecasted fixed quarterly dividend payments of R\$0.18 per share for both common and preferred shares. The Company is committed to distributing a minimum dividend of 25 percent of the year’s net profit, and, if necessary, will issue a supplemental dividend payment at year-end to meet the minimum dividend as required by Brazilian Corporate Law.

**FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
