Clarifications on Recent News

Rio de Janeiro, May 21 2009 PETRÓLEO BRASILEIRO S/A - PETROBRAS, [Bovespa: PETR3/PETR4, NYSE: PBR/PBRA, Latibex: XPBR/XPBRA, BCBA: APBR/APBRA], a Brazilian international energy company, informs that the Brazilian Petroleum Agency (ANP) ratified the previous decision of its Exploration Superintendence, that approved the terms for the Appraisal Plans for blocks BM-S-8, BM-S-9, BM-S-10, BM-S-11, and BM-S-21, but rejected an extension term. This decision, however, does not affect the scheduled activities for the region.

As mentioned by a Press Release dated May, 14, the company's Strategic Plan considered the completion of all commitments Petrobras took on with the ANP within terms already defined, ratified now by the ANP decision.

Finally, we reiterate that considering the approvals that have already been granted and the facts known thus far, Petrobras believes there is no risk of having to return the concession areas, that it will fulfill the obligations it took on, and that there will be no impact on its Strategic Plan.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
