06.01 NOTES TO THE QUARTERLY FINANCIAL INFORMATION

In thousands of reais, except when indicated otherwise.

1. Operations

Companhia Brasileira de Distribuição ("Company" or GPA) operates primarily as a retailer of food, clothing, home appliances and other products through its chain of hypermarkets, supermarkets, specialized and department stores principally under the trade names "Pão de Açúcar", "Comprebem", "Extra", "Extra Eletro", Extra Perto, Extra Fácil, Sendas and Assai.

At June 30, 2009, the Company had 603 stores in operation, as follows:

Company	Number of stores	
	6.30.2009	3.31.2009
Companhia Brasileira de Distribuição	420	418
Novasoc Comercial Ltda. (Novasoc)	6	6
Sé Supermercados Ltda. (Sé)	50	50
Sendas Distribuidora S.A. (Sendas Distribuidora)	95	98
Barcelona Com. Var. e Atacadista S.A. (Barcelona)	26	25
Xantocarpa Participações Ltda. ("Xantocarpa")	6	3
	603	600

a) Sendas Distribuidora

Sendas Distribuidora operations began at February 1, 2004 through the Investment and Partnership Agreement, entered into in December 2003 with Sendas S.A. ("Sendas"). This subsidiary concentrates retailing activities of the Company and of Sendas in the entire state of Rio de Janeiro.

b) Partnership with Itaú

At July 27, 2004, a Memorandum of Understanding was signed between Banco Itaú Holding Financeira S.A. ("Itaú") and the Company with the objective of setting up Financeira Itaú CBD S.A. ("FIC"). FIC structures and trades financial products, services and related items to GPA customers on an exclusive basis (see Note 10 (d)). The Company has 50% shareholding of the FIC capital through its subsidiary Miravalles Empreendimentos e Participações S.A. (Miravalles).

c) Joint Venture with Casino

At May 3, 2005, the Diniz Group and the Casino Group (headquartered in France) established Vieri Participações S.A. (Vieri), which became the parent company of GPA, jointly controlled by these two groups of shareholders.

1. Operations (Continued)

At the General Meeting held at December 20, 2006, the merger of Vieri into the Company was approved, which cancelled the shares issued and owned by Vieri and subsequently issued an equal number of the Company's new common shares, all of them, non-par registered shares on behalf of Wilkes Participações S.A. (Wilkes), sole shareholder of Vieri at the time of the merger. Wilkes was organized to operate as a holding of GPA.

d) Acquisition of Barcelona - (Assai)

At November 1, 2007, GPA, by means of a company controlled by Sé (Sevilha Empreendimentos e Participações Ltda. (Sevilha)), purchased shares representing 60% of the total and voting capital of Barcelona, recipient company of the spun-off assets of Assai Comercial e Importadora Ltda., related to activities previously carried out by Assai in the wholesale market. With this partnership, GPA started to operate in the cash & carry segment (atacarejo), thus, reinforcing its multiformat positioning.

The reverse merger of Sevilha took place on March 31, 2008, with reference date on February 28, 2008. With the merger between Sevilha and Barcelona, Sé Supermercados now holds a direct interest of 60% in the total and voting capital of Barcelona.

On July 10, 2009, the Company entered into an agreement aiming at the acquisition of the remaining 40% of Barcelona's total and voting capital (Note 25c).

e) Incorporation of Xantocarpa

On October 16, 2008, GPA started cash & carry operations in the state of Rio de Janeiro through Xantocarpa (wholly-owned subsidiary of Sendas Distribuidora), which assumed the operation of 3 stores of Sendas Distribuidora converted into Assai brand. This company's purpose is the retail and wholesale trade of manufactured products, semi-manufactured products or *in natura* products, whether domestic or international products of any kind and type, nature or quality, as long as these are not forbidden by laws.

2. Basis of preparation and presentation of quarterly information

a) Quarterly information

This quarterly information was prepared according to the accounting practices adopted in Brazil and rules issued by Brazilian Securities and Exchange Commission (CVM), observing the accounting guidelines enacted by the Brazilian Corporation Law (Law 6,404/76) which include new provisions, amended and revoked by Law 11,638/07, Law 11,941/09 and pronouncements issued by the Brazilian Committee on Accounting Pronouncements (CPC). This quarterly information was approved at the Board of Executive Officers' meeting held at July 30, 2009.

2. Basis of preparation and presentation of quarterly information (Continued)b) Effects of Law 11,638/07 and Law 11,941/09 adjustments

The results of the six-month period ended at June 30, 2008 were adjusted by effects of changes introduced by Law 11,638/07 and Law 11,941/09, with a view to allowing a comparison with the quarterly information related to the six-month period ended at June 30, 2009. A brief description and the amounts corresponding to the impacts on shareholders' equity and income of parent company and consolidated referring to six-month period ended June 30, 2008:

(i) The Technical Pronouncement CPC 10 – Share-Based Payment determines the companies to include the effects of share-based payments transactions on their income and balance sheet, as well as expenses related to transactions where stock options are granted to employees. As mentioned in Note 18 (f), the Company maintains a Stock Option Plan to its management and main executives.

(ii) The Technical Pronouncement CPC 06 – Leasing determines that operations which transfer risks and benefits to the lessee must be classified as property and equipment, reflecting the nature of an installment purchase. These operations are outlined in Notes 11 and 21.

(iii) The Technical Pronouncement CPC 14 – Financial Instruments - sets forth that the marketable securities, including derivatives are recorded: (i) by their market value or corresponding amount, when we refer to investments for trading or available for sale; and (ii) by the acquisition cost or issue value, whichever is shorter. The Company’s instruments are deemed as: (i) fair value hedge destined to offset risks of exposure to variation in fair value of item purpose of hedge and (ii) derivative financial instrument measured at fair value (Notes 13 and 14).

(iv) The Technical Pronouncement CPC 12 – Present Value Adjustment establishes that noncurrent assets and liabilities should be adjusted by their present value and current assets and liabilities when this is relevant. The Company adopted the present value adjustment of its assets and liabilities as assumption, as determined by rule, utilizing the weighted average cost of capital (WACC) and for the term of payment or receipt.

(v) As provided for in the Law 11,941/09, the deferred charges group was removed. The Company’s Management opted for writing-off deferred charges on transition date and then recorded expenditures incurred as of 2007 directly as expense in the net income for the year.

2. Basis of preparation and presentation of quarterly information (Continued)

Due to the removal authorized by Law 11,941/09, from the non-operating income item, the Company reclassified in the statement of income for the six-month period ended June 30, 2008 in the amounts of R\$107 in the parent company and R\$(787) in consolidated financial statements, to the other operating income (expenses) item, basically represented by income on property and equipment write-off.

The following accounting pronouncements were issued in 2009 by the Brazilian Committee on Accounting Pronouncements (CPC) and approved by the Brazilian Securities and Exchange Commission (CVM):

CPC 16 Inventories, approved by CVM Resolution 575 of June 5, 2009;

CPC 17 Construction Contracts, approved by CVM Resolution 576 of June 5, 2009;

CPC 20 Borrowing Costs, approved by CVM Resolution 577 of June 5, 2009;

The aforementioned pronouncements are applicable to the years ended as of December 2010.

3. Summary of main accounting practices

Accounting estimates to measure and recognize certain assets and liabilities are used in the preparation of quarterly financial information of the Company and its subsidiaries. The determination of these estimates took into account experiences of past and current events, presuppositions related to future events and other objective and subjective factors. Significant items subject to estimates include: the selection of useful lives of fixed and intangible assets; the allowance for doubtful accounts; allowance for inventory losses; allowance for investments losses; the recoverability analysis of fixed and intangible assets; deferred income and social contribution taxes; fees and terms used when determining the present value adjustment of certain assets and liabilities and the provision for contingencies; the fair value measurement of share-based compensation and of financial instruments; the reporting estimates for the sensitivity analysis chart of derivative financial instruments pursuant to CVM Ruling 475/08. The settlement of operations involving these estimates may result in amounts significantly different from those recorded in the quarterly information due to inaccuracies inherent to the process of their determination. The Company reviews its estimates and assumptions, at least, quarterly.

Significant accounting practices and consolidation criteria adopted by the Company are shown below:

3. Summary of main accounting practices (Continued)

a) Determination of income

Sales revenues have been stated at their gross amounts. i.e., they include taxes and discounts, stated as reducers of revenues. The result of operations is determined according to the accrual basis of accounting. Revenues from sale of products are recognized in income when their value can be measured reliably, all risks and benefits inherent to the product are transferred to the buyer, the Company no longer has the control or responsibility over the goods sold and probably the economic benefits will be generated to the benefit of the Company. Revenues are not recognized if their realization is considerably uncertain. Freights over sales are included in the cost of goods sold. Interest income and expenses are recognized by the effective interest rate method under financial revenues/expenses.

b) Translation of foreign currency-denominated balances

(i) Functional and presentation currency of the quarterly information

The Company's functional currency is the Brazilian Real, same currency of preparation and presentation of quarterly information of the parent company (individual) and consolidated. The quarterly information of each subsidiary included in the Company's consolidation and those used as basis for investments valuation by the equity accounting method are prepared based on the functional currency of each entity.

(ii) Foreign currency-denominated transactions

Monetary assets and liabilities denominated in foreign currency are translated into the functional currency (Real) using the exchange rate effective on respective balance sheet date. Gains and losses resulting from the restatement of these assets and liabilities verified between the exchange rate effective on the date of operation and closings of periods are recognized as financial revenues or expenses in income.

c) Financial instruments

The financial instruments are only recognized as of the date on which the Company becomes party of the contractual provisions of financial instruments. When recognized, these are firstly recorded at their fair value accrued of transaction costs that are directly attributable to their acquisition or issue. Their subsequent measurement occurs every balance sheet date according to the rules established for each type of classification of financial assets and liabilities.

3. Summary of main accounting practices (Continued)

c) Financial instruments (Continued)

(i) Financial assets

Financial assets are measured by their fair value at every balance sheet date. Interest rates, monetary restatement, exchange variation and variations deriving from the valuation at fair value are recognized in income when incurred under financial revenues or expenses.

These are classified among categories mentioned below, according to the purpose to which they were acquired or issued:

Investments held to maturity: non-derivative financial assets with fixed or determinate payments with scheduled maturities to which the Company has the intention and the capacity to hold them to maturity. After initial recognition, these are measured by amortized cost through effective interest rate method. This method uses a discount rate that when applied over estimated future receivables during the expectation of financial instrument effectiveness, results in a net book value. Interest rates, monetary restatement, exchange variation, less impairment losses, where applicable, are recognized in income when incurred under financial revenues or expenses.

Loans (granted) and receivables: non-derivative financial assets with fixed or determinate payments but not quoted in an active market. After the initial recognition these are measured by amortized cost through effective interest rate method. Interest rates, monetary restatement, exchange variation, less impairment losses, where applicable, are recognized in income when incurred under financial revenues or expenses.

Main financial assets recognized by the Company are: cash and cash equivalents, financial investments, marketable securities, unrealized gains in derivatives operations and trade accounts receivable.

(ii) Financial liabilities

These are classified among the categories mentioned below according to the nature of financial instruments contracted or issued:

3. Summary of main accounting practices (Continued)

c) Financial instruments (Continued)

Financial liabilities measured at fair value through income: these include financial liabilities generally traded before maturity, liabilities designated in the initial recognition at fair value through income and derivatives, except for those designated as hedge instruments. These are measured by their fair value at every balance sheet date. Interest rates, monetary restatement, exchange variation and variations deriving from fair value valuation, where applicable, are recognized in income when incurred.

Financial liabilities not measured by fair value: non-derivative financial liabilities which usually are not traded before maturity. After initial recognition, these are measured by amortized cost through effective interest rate method. Interest rates, monetary restatement and exchange variation, where applicable, are recognized in income when incurred.

Main financial liabilities recognized by the Company are: accounts payable to suppliers, unrealized losses in derivatives operations, loans, financing and debentures.

Market value: the market value of financial instruments actively traded on organized markets is determined based on the market quotes, on the balance sheet closing date, or based on valuation techniques defined by the Company and compatible with usual practices on the market. If there is no active market, then the market value is determined through valuation techniques.

These techniques include the use of recent market arms length transactions, benchmark to the market value of similar financial instruments, analysis of discounted cash flows or other valuation models.

Hedge operations: derivative financial instruments used to hedge risk exposures or to modify the characteristics of financial assets and liabilities, unrecognized firm commitments, highly probable transactions or net investments in operations abroad, and which: (i) are highly correlated concerning changes in their market value in relation to the market value of item that has been hedged, both at the beginning and over the life of agreement (effectiveness between 80% and 125%); (ii) have the operation documented, risk purpose of hedge, risk management process and methodology used in the effectiveness evaluation; and (iii) considered effective to reduce the risk associated with exposure to be hedged, are classified and recorded as hedge operations according to their nature.

3. Summary of main accounting practices (Continued)

c) Financial instruments (Continued)

fair value hedge: the derivative financial instruments destined to offset risks deriving from the exposure to variation in fair value of item purpose of hedge should be classified. The items purpose of hedge and related derivative financial instruments are recorded against proper revenue or expense account in the net income for the period.

d) Cash and cash equivalents

These include cash, positive balances in checking account, marketable securities redeemable within 90 days of balance sheets dates, as per Company's policy and with insignificant change in their market value. Marketable securities included in cash and cash equivalents are classified into the financial assets at fair value through income category. The opening of these marketable securities by counterparty is stated in Note 4.

e) Accounts receivable

Accounts receivable are stated at estimated realizable values. An allowance for doubtful accounts is provided in an amount considered by Management to be sufficient to meet probable future losses related to uncollectible accounts.

The setting up of provision is mainly based on the historic average of losses, in addition to specific accounts receivable deemed as uncollectible. The Company's installment sales occur with the intermediation of FIC and financing receivables not remaining in GPA (Note 10 (d)).

The Company carries out securitization operations of the accounts receivable with a special purpose entity, over which it has shared control, the PAFIDC (*Pão de Açúcar Fundo de Investimento em Direitos Creditórios*) (Note 5 (b) and Note 8).

Accounts receivable from commercial agreements result from bonuses and discounts from suppliers, which are established by agreements and mainly calculated over purchase volume, marketing initiatives, freight cost reimbursement, etc.

f) Inventories

Inventories are basically stated at the average cost or market value, whichever is shorter. Warehousing and handling costs are appropriated according to inventory turnover and the portion not absorbed is stated at the inventories value.

Inventories are also stated by the net value of allowance for losses and breakage, which are periodically reviewed and evaluated as to their sufficiency.

3. Summary of main accounting practices (Continued)

g) Investments

Investments in subsidiaries are accounted for by the equity method, and provision for capital deficiency is recorded, when applicable. Other investments are recorded at acquisition cost.

h) Property and equipment

These assets are shown at acquisition or construction cost, monetarily restated until December 31, 1995, deducted from the related accumulated depreciation, calculated on a straight-line basis at the rates mentioned in Note 11, in case of leasehold improvements, whichever is shorter.

Interest and financial charges on loans and financing obtained from third parties directly or indirectly attributable to the process of purchase, construction and operating expansion, are capitalized during the construction and refurbishment of the Company's and its subsidiaries' stores in conformity with CVM Deliberation 193. The capitalized interest and financial charges are appropriated to income over the depreciation periods of the corresponding assets.

Expenditures for repairs and maintenance that do not significantly extend the useful lives of related assets are charged to expense as incurred. Expenditures that significantly extend the useful lives of existing facilities and equipment are added to the property and equipment value.

Until December 31, 2009, the Company will reevaluate the estimates of economic-useful life of its property and equipment, used when determining their depreciation and amortization rates. Eventual changes in the estimate of economic-useful life of assets, deriving from this revaluation, if relevant, will be treated as change in accounting estimates to be recognized on a prospective basis as of January 1, 2009.

i) Leasing

Financial leasing agreements are recognized in property and equipment and liabilities from loans and financing, by the lower amount between the present value of mandatory minimum installments of the agreement or the fair value of asset, whichever is shorter, accrued, where applicable of initial direct costs incurred on transaction. Implied interest rates on recognized liabilities of loans and financing are appropriated to income according to the duration of the agreement by the effective interest rate method.

3. Summary of main accounting practices (Continued)

Capitalized assets are depreciated by their useful life in the event of express intention of acquiring the asset at the end of the agreement, or, by the lower between the duration of the agreement and useful life of asset in cases where intention is not express. Operating leasing agreements are recognized as expense on a systematic basis which represents the period in which the benefit over leased asset is obtained, even if these payments do not occur on this basis.

j) Intangible assets

Goodwill generated in the acquisition of investments occurred until December 31, 2008, having future profitability as economic fundamental, was amortized on a straight-line basis for a term of 5 to 10 years until that date. As of January 1, 2009 it is no longer being amortized and should only be submitted to an annual test for impairment analysis.

Intangible assets with defined useful life are amortized according to their estimated economic useful life and when impairment signs are identified, these are submitted to impairment test. Intangible assets with indeterminate useful life are not amortized, but are submitted to annual test for impairment analysis.

k) Provision for recovery of assets

The Management yearly reviews the net book value of assets with a view to evaluating events or changes in economic, operating or technological circumstances that may indicate deterioration or impairment. When this evidence is identified and the net book value exceeds the recoverable value, a provision is recorded for deterioration by adjusting the net book value to the recoverable value. These losses are classified as other operating expenses.

l) Other assets and liabilities

A liability is recognized in the balance sheet when a Company has a legal liability or it is established as a result of a past event and it is probable that an economic resource will be required to settle this liability. Provisions are recorded based on the best estimates of risks involved.

An asset is recognized in the balance sheet when it is probable that its future economic benefits will be generated to the benefit of the Company and its cost or value can be safely measured. Assets and liabilities are classified as current when their realization or settlement is probable to occur over the next 12 months. Otherwise, these are stated as noncurrent.

3. Summary of main accounting practices (Continued)

m) Taxation

Revenues from sales and services are subject to taxation by State Value-Added Tax (ICMS), Services Tax (ISS), Social Contribution Tax on Gross Revenue for Social Integration Program (PIS) and Social Contribution Tax on Gross Revenue for Social Security Financing (COFINS) at rates prevailing in each region and are presented as sales deductions in the statement of income.

The credits derived from non-cumulative PIS and COFINS are shown deducted from cost of goods sold in the statement of income. The debits derived from financial revenue and credits derived from financial expenses are shown deducted in these proper items of the statement of income.

The advances or amounts subject to offsetting are shown in the current and noncurrent assets, in accordance with the estimate for their realization.

The taxation on income comprises the Corporate Income Tax (IRPJ) and Social Contribution on Net Income (CSLL), which are calculated based on taxable income (adjusted income), at rates applicable according to the prevailing laws 15%, accrued of 10% over the amount exceeding R\$240 yearly for IRPJ and 9% for CSLL.

Deferred IRPJ and CSLL assets are recorded under the item deferred IRPJ and CSLL from tax losses, negative basis of social contribution and temporary differences, taking into account the prevailing rates of said taxes, pursuant to the provisions of CVM Deliberation 273, as of August 20, 1998, CVM Ruling 371, as of June 27, 2002 and taking into account the history of profitability and the expectation of generating future taxable income based on a technical feasibility study, annually approved by the Board of Directors. The Company does not have governmental subsidies or assistance.

n) Share-based payment

Main executives and managers of the Company receive share-based payment as part of their compensation to be settled with shares. Costs of these transactions are firstly recognized in income during the period over which services were received against a capital reserve and measured by their fair value, when the compensation programs are granted.

o) Present value adjustment of assets and liabilities

Long-term monetary assets and liabilities are adjusted by their present value, and for short term, when the effect is considered relevant in relation to the quarterly information taken as a whole. The present value adjustment is calculated taking into account contractual cash flows and explicit interest rates, and in certain cases, implied interest rates of respective assets and liabilities.

3. Summary of main accounting practices (Continued)

Thus, embedded interest rates on revenues, expenses and costs associated with these assets and liabilities are discounted with a view to recognizing them in conformity with the accrual basis of accounting. Subsequently, these interest rates are reallocated under financial revenues and expenses to income by utilizing the effective interest rate method in relation to the contractual cash flows.

Implied interest rates are determined based on assumptions and considered as accounting estimates.

p) Provision for contingencies

As per CVM Deliberation 489/05, the Company adopts the concepts established in NPC 22 on Provisions, Liabilities, Gains and Losses on Contingencies when setting up provisions and disclosures on matters regarding litigation and contingencies. The balances of provisions are stated net of the respective judicial deposits, when applicable (Note 16).

Provision for contingencies is set up based on legal counsel opinions, in amounts considered sufficient to cover losses and risks considered probable.

q) Statements of cash flows and statements of added value

The statements of cash flows are prepared and are reported pursuant to CVM Deliberation 547 of August 13, 2008 which approved the technical pronouncement CPC 03 – Statements of Cash Flows, issued by the Brazilian Committee on Accounting Pronouncements (CPC). The statements of added value are prepared and reported pursuant to CVM Deliberation 557 of November 12, 2008 which approved the technical pronouncement CPC 09 – Statement of Added Value, issued by CPC.

r) Consolidated quarterly information

The consolidated quarterly information are prepared in conformity with the consolidation principles prescribed by the Brazilian Corporation Law and CVM Ruling 247, and include the quarterly information of the Company and its subsidiaries Novasoc, SÉ, Sendas Distribuidora, PAFIDC, PA Publicidade Ltda. (PA Publicidade), Barcelona, CBD Panamá Trading Corp. (CBD Panamá), CBD Holland B.V. (CBD Holland) and Xantocarpa.

Although the Company's interest in Novasoc represents 10% of its quotas, Novasoc is included in the consolidated quarterly information as the Company effectively has control over a 99.98% beneficial interest in Novasoc, guaranteed by shareholders' agreement who do not have effective veto or other participating or protective rights. Under the Bylaws of Novasoc, the appropriation of its net income does not need to be proportional to the quotas of interest held in the company.

The subsidiary Sendas Distribuidora was fully consolidated, in accordance with the shareholders' agreement, which establishes the operating and administrative management by the Company.

The proportional investment related to the investor company's interest in the income of the investee, the balances payable and receivable, revenues and expenses and the unrealized profit originated in transactions between the consolidated companies are eliminated in the consolidated quarterly information.

Pursuant to CVM Ruling 408 of August 18, 2004, the Company as of the first quarter of 2005, started to consolidate PAFIDC's quarterly information, as it understood this is a special purpose entity, organized with exclusive purpose of conducting the securitization of receivables of the Company and its subsidiaries, and most of risks and benefits related to the fund profitability are linked to subordinated quotas, maintained by the Company.

3. Summary of main accounting practices (Continued)

Since prevailing decisions related to the operational management of FIC are Itaú's responsibility, CVM, through official memorandum CVM/SNC/006/09 authorized FIC to be included in the consolidated quarterly information of Itaú. Thus, the Company valued its investment in Miravalles by the equity accounting method. The quarterly information of Miravalles is reviewed by other independent auditors.

4. Marketable Securities

The marketable securities at June 30, 2009 and March 31, 2009 earn interest mainly at the Interbank Deposit Certificate (CDI) rate, classified as described in Note 3(d), except for Receivables Securitization Fund, which is classified in investment held to maturity.

Credit card sales are receivable in cash from the credit card companies, except for electronic devices, which are received in up to 12 installments.

The balance of subsidiaries accounts receivable refers to the Company's sale of goods, made at cost, for the supply of its stores.

b) Accounts receivable - PAFIDC

The Company carries out securitization operations of its credit rights, represented by credit sales with tickets and credit card company receivables, with PAFIDC. The volume of operations stood at R\$2,227 thousand for the quarter June 30, 2009 (R\$2,189 thousand at March 31, 2009), in which the responsibility for services rendered and subordinated interests was retained. The consolidated securitization costs of such receivables in the quarter amounted to R\$31,343 (R\$31,183 at June 30, 2008), recognized as financial expenses in income for the quarters ended at June 30, 2009 and 2008, respectively. As mentioned in Note 19, accumulated securitization costs up to June 30, 2009 amounted to R\$64,125 (R\$62,892 at June 30, 2008). Services rendered, which are not remunerated, include credit analysis and the assistance by the collection department to the fund's manager.

The outstanding balances of these receivables at June 30, 2009 and March 31, 2009 were R\$1,039,606 and R\$1,016,339, respectively, net of allowance for losses.

5. Trade Accounts Receivablec) Accounts receivable – Paes Mendonça

The accounts receivable balance of Paes Mendonça relates to credits deriving from the payment of liabilities performed by the subsidiaries Novasoc and Sendas. Pursuant to contractual provisions, these accounts receivable are monetarily restated and guaranteed by commercial rights of certain stores currently operated by the Company, Novasoc and Sendas. Maturity of accounts receivable is linked to lease agreements (Note 10 (b) (i)).

d) Accounts receivable under commercial agreements

Accounts receivable under commercial agreements result from current transactions carried out between the Company and its suppliers, having the volume of purchases as benchmark. At June 30, 2009, the Company deducted R\$93,887 from commercial agreements receivables with Banco do Brasil S.A., paying a CDI rate of 115,1% per month.

e) Allowance for doubtful accounts

The allowance for doubtful accounts is based on average actual losses in previous periods complemented by Management's estimates of probable future losses on outstanding receivables:

8. Pão de Açúcar Receivables Securitization fund PAFIDC

PAFIDC is a receivables securitization fund formed in compliance with CVM Rulings 356 and 393 for the purpose of acquiring the Company and its subsidiaries' trade receivables, arising from sales of products and services to their customers, except for receivables from installment system and post-dated checks. This fund is estimated to be effective until May 26, 2010.

The capital structure of the fund, at June 30, 2009, is composed of 10,256 senior quotas, held by third parties in the amount of R\$983,183, which represent 89.77% of the fund's equity (90.15% at March 31, 2009) and 2,864 subordinated quotas, held by the Company and subsidiaries in the amount of R\$112,033, which represent 10.23% of the fund's equity (9.85% at March 31, 2009).

The net assets of PAFIDC are summarized as follows:

	6.30.2009	3.31.2009
Assets		
Cash and cash equivalents	73,773	60,795
Accounts receivable	1,039,606	1,016,339

Shareholders' equity	1,095,216	1,064,054
Total liabilities	1,117,301	1,077,134

The subordinated quotas were attributed to the Company and are recorded in the current assets as participation in the securitization fund, the balance of which at June 30, 2009 was R\$100,298 (R\$93,871 at March 31, 2009).

The retained interest in subordinated quotas represents the maximum exposure to loss under the securitization transactions.

8. Pão de Açúcar Receivables Securitization fund PAFIDC (Continued)

The compensation of senior quotas is shown below:

Quotaholders	6.30.2009			3.31.2009	
	Amount	CDI Rate	Redeemable balance	CDI Rate	Redeemable balance
Senior A	5,826	105%	664,687	105%	648,473
Senior B	4,300	105%	159,328	105%	155,442
Senior C	130	105%	159,168	105%	155,285
			983,183		959,200

Subordinated quotas are non-transferable and registered, and were issued in a single series. The Company will redeem the subordinated quotas only after the redemption of senior quotas or at the end of the fund's term. Once the senior quotas have been yielded, the subordinated quotas will receive the balance of the fund's net assets after absorbing any losses on receivables transferred and any losses attributed to the fund. Their redemption value is subject to credit, prepayment, and interest rate risks on the transferred financial assets.

The holders of senior quotas have no recourse against the other assets of the Company in the event customers default on the amounts due. As defined in the agreement between the Company and PAFIDC, the transfer of receivables is irrevocable, non-retroactive and the transfer is definitive.

(i) Novasoc – Novasoc has, currently, 16 lease agreements with Paes Mendonça with a five-year term, which may be extended twice for similar periods through notification to the leaseholder, with final maturity in 2014. During the term of the contract, the shareholders of Paes Mendonça cannot sell their shares without prior and express consent of Novasoc. The operating lease annual rental payments amounted to R\$3,283 in the period ended June 30, 2009 (R\$2,443 at June 30, 2008), including an additional contingent rental based on 0.5% to 2.5% of the stores revenues.

10. Investments (Continued)

Under Novasoc Bylaws, the distribution of its net income need not be proportional to the holding of each shareholder in the capital of the Company. As per members' decision, the Company holds 99.98% of Novasoc's results as of 2000.

At June 30, 2009, the subsidiary Novasoc recorded capital deficiency. With a view to the future operating continuity and economic feasibility of such subsidiary, assured by the parent company, the Company recorded R\$4,643 (R\$8,585 at March 31, 2009), under Provision for investment losses to recognize its obligations before creditors.

(ii) Sé Sé holds direct interest in Miravalles corresponding to 50% of capital stock, which indirectly represents the investment in FIC.

(iii) Sendas Distribuidora At October 16, 2008, GPA started the cash and carry operations in the state of Rio de Janeiro with Assai brand through Xantocarpa.

(iv) Barcelona At November 1, 2007, GPA, by means of subsidiary company controlled by Sé (Sevilha), acquired shares representing 60% of the total and voting capital of Barcelona, a recipient company of Assai's spun-off assets related to the activities previously carried out by Assai in the wholesale market of the food industry by the amount of R\$208,504, originating a R\$206,068 goodwill recorded in the subsidiary Sevilha.

For non-controlling shareholders holding 40% interest in Barcelona, a shareholders' agreement was entered into that established a put and call option of such interest, under conditions based on sales multiples and EBITDA, or the price paid per share for the 60% restated original amounts.

The Company did not record this option, since it is classified into the exception provided for in paragraph 2 (g) of CPC 14. Management will monitor the development of CPC 15 and the second phase of financial instruments during 2009. At July 8, 2009, the parties signed heads of agreement in which they assumed the purchase and sale commitment of remaining 40% interest of Barcelona by the Company (Note 25).

10. Investments (Continued)

c) Investment agreement – Company and Sendas

At January 5, 2007, Sendas S.A exercised the put option held on its 42.57% interest in Sendas Distribuidora, according to the clause 6.9.1 of the shareholders' agreement of Sendas Distribuidora. Parties have not reached an agreement yet on the terms of effective put option or the condition of payment and related amounts.

d) Investment agreement – the Company and Itaú

Miravalles, set up in July 2004, which owns the exploitation rights of the Company's financial activities, with capital subscribed and paid-up by the Company and Itaú at the ratio of 50% creates Financeira Itaú S.A. (FIC), a company which operates in structuring and commercialization of financial products exclusively to GPA's customers.

The agreement initially executed upon FIC organization was amended on December 22, 2005, modifying the terms related to the compliance with performance targets, firstly established between the Company, Itaú and FIC, without any connection between the fulfillment of targets and the overdraft account; fines were established for the non-compliance with said targets.

This partnership is effective for 20 years and may be extended for an indeterminate term. The operational management of FIC is under the responsibility of Itaú.

In the period ended June 30, 2009, total investments and equity pickup of said investee represent 1.0% and 2.5%, respectively, in relation to the total assets and net income recorded in the Company's consolidated quarterly information (0.9% and 4.8% on March 31, 2009, respectively).

Total	431,523	700,717	10,476	(108)	-	(6,546)	704,539

Upon the acquisition of subsidiaries and for consolidation purposes, the amounts originally recorded under investments as goodwill based mainly on expected future profitability were transferred to intangible assets and were amortized until December 31, 2008 over periods consistent with the earnings projections on which they were originally based, limited for 10 years.

Goodwill balances have been no longer amortized on an accounting basis since January 1, 2009.

The recoverability test of the Company's intangible assets carried out at December 31, 2008 did not require the recognition of losses, since the estimated usage value exceeds its net book value on the valuation date. At June 30, 2009, the Company's Management did not identify material changes in assumptions and data used in the assessment made in the previous quarter-end.

The Company uses swap operations to convert U.S. dollar-denominated, yen-denominated obligations and fixed interest rate to Brazilian *reais* pegged to CDI (floating) interest rate. The Company concurrently executed with the same counterparty currency and interest rates swaps operations.

CDI annual benchmark rate at June 30, 2009 stood at 12.32% (12.72% at March 31, 2009).

b) BNDES credit line

The line of credit agreements, denominated in *reais*, with the Brazilian National Bank for Economic and Social Development (BNDES), are either subject to the indexation based on TJLP rate (long-term rate), plus annual interest rates, or are denominated based on a basket of foreign currencies to reflect the BNDES funding portfolio, plus annual interest rates. Financing is paid in monthly installments after a grace period, as mentioned below.

The Company cannot offer any assets as collateral for loans to other parties without the prior authorization of BNDES and is required to comply with certain debt covenants, calculated on the consolidated balance sheet, in accordance with Brazilian GAAP, including: (i) maintenance of a capitalization ratio (shareholders' equity/total assets) equal to or in excess of 0.40 and (ii) maintenance of a current ratio (current assets/current liabilities) equal to or in excess of 1.05. Management effectively controls and monitors covenants, which were fully performed.

13. Loans and financing (Continued)

The parent company offered pledges as a joint and several liable party for settlement of the agreements.

In the event the TJLP exceeds 6% per annum, the surplus is added to the principal. In the period ended at June 30, 2009 R\$156 were added to the principal (R\$113 at March 31, 2009).

(iii) Additional information

Sixth issue at March 1, 2007, shareholders approved the issue and public placement limited to R\$779,650 of 77,965 non-convertible debentures. The Company received proceeds of R\$551,518, for 54,000 debentures issued from the first series, and R\$245,263 of 23,965 debentures (with negative goodwill of 0.24032%), issued from the second series. Out of proceeds obtained from second series, R\$242,721 were used to amortize 23,965 debentures of the fifth issue and part of interest. The debentures are indexed to the average rate of CDI and accrue annual spread of 0.5% payable every six months, starting at September 1, 2007 and ending at March 1, 2013. The debentures amortization will take place at March 1, 2011, March 1, 2012 and March 1, 2013, amounting to 25,988 debentures for each year. The debentures will not be subject to renegotiation until maturity at March 1, 2013.

13. Loans and financing (Continued)

The Company is in compliance with debt covenants provided for in the 6th issue, calculated over the consolidated balance sheet, in accordance with the accounting practices adopted in Brazil: (i) net debt (debt less cash and cash equivalents and accounts receivable) not higher than the balance of shareholders' equity; (ii) maintenance of a net debt/EBITDA ratio (Note 23), lower or equal to 3.25.

Seventh issue at June 15, 2009, shareholders approved the issue and the restrict offering of 200 non-convertible debentures, in the total amount of R\$200,000. Debentures will be entitled to 119% CDI remuneration, payable on the maturity date at June 5, 2011 and not subject to early redemption.

The Company complies with debt covenants provided for in the seventh issue, calculated over the consolidated balance sheet, in accordance with the accounting practices adopted in Brazil: (i) net debt (debt less cash and cash equivalents and accounts receivables) lower than the balance of shareholders' equity; (ii) maintenance of a net debt/EBITDA ratio (Note 23) lower or equal to 3.25.

In addition, there are debt covenants related to funds raised by means of restricted offer to be exclusively used by the issuer to acquire farming and ranching products with its suppliers who are agricultural producers and/or cooperatives within a term not exceeding 5 months as of the issue date to be sold at the issuer's establishments.

14. Financial instruments

GPA maintains financial instruments operations with a view to contributing with its capacity of investments in order to sustain its growth strategy. Operations with derivatives have exclusive objective of reducing the exposure to the foreign currency fluctuation and interest rate risks to maintain the balanced capital structure.

Parent company's financial instruments and consolidated have been reported pursuant to CVM Deliberation 566 of December 17, 2008, which approved the Technical Pronouncement CPC 14 and CVM Ruling 475 of December 17, 2008.

Main financial instruments and their amounts recorded in the quarterly information by category are as follows:

(*) Loans and derivative financial instruments classified as fair value hedge are recorded by fair value.

The Company adopts risk control policies and procedures, as outlined below:

a) Considerations on risk factors that may affect the business of the Company and its subsidiaries.

(i) *Credit risk*

- *Cash and cash equivalents*: in order to minimize credit risk of these investments, the Company adopts policies restricting the marketable securities that may be allocated to a single financial institution, and which take into consideration monetary limits and financial institution credit ratings, which are frequently restated (Note 4).
- *Receivables*: the Company sells directly to individual customers through post-dated checks, in a very small portion of sales, nearly 0.37% of sales in the quarter ended June 30, 2009 (1% of sales at June 30, 2008).

Credit card and/or tickets sales are mostly assigned to PAFIDC, the risk of which is related and limited to the

amount of subordinated quotas held by the Company (Note 8).

(ii) *Interest rate risk*

The Company and its subsidiaries are subject to market risks increase, due to the liabilities component of derivative operations (currency hedge) and CDI-related debts. The balance of marketable securities indexed to CDI, partially offsets this effect.

14. Financial instruments (Continued)

(iii) *Exchange rate risk*

The Company and its subsidiaries are exposed to exchange rate fluctuations, which increase the liabilities balances of foreign currency-denominated loans, therefore, the Company and its subsidiaries contract derivative financial operations so that to be hedged against exchange variation deriving from foreign currency-denominated loans. Swap agreements were the instruments used.

(iv) *Derivative financial instruments*

The Company designates part of swap agreements as fair value hedge of a portion of foreign currency-denominated debts (U.S. dollar and Japanese yen) to domestic interest rates (CDI). These agreements amounted to a benchmark value of R\$741,703, at June 30, 2009 (R\$ 743,805 at March 31, 2009). The contracting of these instruments is made within same terms of financing agreement and preferably with the same financial institution and within the limits approved by Management.

Other swap agreements are substantially related to debentures and BNDES loans, swapping percentage of variable domestic interest rates plus fixed interest rates with variable interest rates (CDI). These instruments were classified as measured at fair value to income .

According to the Company's treasury policy, swaps with caps are not allowed, as well as regret clauses, double index, flexible options or any other types of options different from traditional swaps, for speculative purposes, rather than the hedge of debts.

The Company's internal control environment was designed so as to ensure that transactions executed are in compliance with this treasury policy.

The Company calculates the effectiveness of this hedge at the beginning and on a continued basis (at least, quarterly) and hedges contracted at June 30, 2009 showed effectiveness in relation to the debts, purpose of this hedge. Provided that these derivative agreements are qualified as hedge accounting, pursuant to CPC 14, the hedged debt is also adjusted at fair value as per fair value hedge rules.

Gains and losses, realized and unrealized, on these agreements are recorded in the net financial income and the balance receivable or payable in the fair value of R\$(72,697) is recorded in loans and financing (R\$ 94,542 at March 31, 2009).

The effects of fair value hedge to the net income for the period stood at R\$(167,195) and R\$(12,203) at June 30, 2009 and June 30, 2008, respectively.

Other instruments marked at fair value showed effects of R\$4,693 and R\$2,123 on net income at June 30, 2009 and June 30, 2008, respectively.

(v) Fair values of derivative financial instruments

Fair values are calculated by projecting the future flows of operations, using the curves of BM&F Bovespa and carrying them at present value, using CDI market rates to swaps published by BM&F Bovespa.

14. Financial instruments (Continued)

The market values of swaps exchange coupon x CDI were obtained by using exchange rates prevailing on the market on the balance sheet date and rates projected by the market obtained from currency coupon curves. In order to determine the coupon of foreign currency indexed- positions the straight line convention of 360 consecutive days was adopted and to determinate the coupon of CDI indexed-position the exponential convention of 252 business days was adopted.

b) Analysis of sensitivity of derivative financial instruments

CVM Ruling sets forth that publicly-held companies, supplementing the provision of item 59 of CPC 14 Financial Instruments: Recognition, Measurement and Supporting Documentation should disclose a sensitivity analysis chart, for each type of market risk deemed as relevant by the Management, originated by financial instruments, to which the entity is exposed on each period closing date, including all derivative financial instruments.

Pursuant to the provision above, according to the Management's evaluation, the most probable scenario is to realize on the maturity dates of each operation what the market has been signaling through market curves (currency and interest rates) of BM&F Bovespa. Therefore, in the probable scenario, there is no impact over the fair value of financial instruments mentioned above. For scenarios II and III, for exclusive effect of sensitivity analysis, a deterioration of 25% and 50%, respectively, was considered on risk variables until the maturity date of financial instruments.

For derivative instruments (destined to hedge its financial debt), variations in scenarios are accompanied by respective purposes of hedge, thus, evidencing that effects are practically null.

For these operations, the Company disclosed the balance of purpose (debt) and hedged derivative financial instrument in separate items of a sensitivity analysis chart, so that to inform about the net exposure of the Company, in each one of the three scenarios mentioned, as shown below:

14. Financial instruments (Continued)(ii) *Fair value hedge (on maturity dates)*

Operations	Risk	Scenario I	Scenario II	Scenario III
Debt - USD	USD increase	(847,218)	(1,059,022)	(1,270,826)
Swap (long position in USD)	USD increase	849,398	1,061,748	1,274,097
	net effect	2,180	2,726	3,271
Debt - YEN	YEN increase	(146,495)	(183,119)	(219,743)

Net effect			(38,268)	(77,415)

The Company's net exposure corresponds to CDI-related debt and the total net effect represents the deterioration of scenario II at R\$38,268 and of scenario III at R\$77,415 in relation to scenario I, which the Company considers as the most probable scenario.

(ii) Measured at fair value through income

Operations	Risk	Scenario I	Scenario II	Scenario III
Swap (long position in USD)	USD decrease	4,575	3,502	2,381
Swap (short position in CDI)	CDI increase	(10,319)	(10,380)	(10,442)
	net effect	(5,744)	(6,878)	(8,061)
Swap (long position in CDI+pre)	CDI increase	1,019,283	1,068,203	1,116,561
Swap (short position in CDI)	CDI increase	(1,018,636)	(1,069,989)	(1,120,779)
	net effect	647	(1,786)	(4,218)
Total net effect		(5,097)	(8,664)	(12,279)

The total net effect of scenarios mentioned above is basically due to the Company's exposure to CDI.

Sensitivity assumptions

The Company used projected future interest and U.S. dollar rates, obtained with BM&F on the maturity date of each agreement, considering an increment of 25% in scenario II and an increment of 50% for scenario III.

In order to calculate the net exposure, all derivatives were considered at fair value on respective maturity dates, as well as its related debts (hedged elements) and other Company's financial instruments.

15. Taxes and social contribution payable

The amounts payable were as follows:

Total	254,428	244,764	280,722	272,856

Tax payment by installments includes the following amounts:

(i) INSS and CPMF – The Company discontinued certain lawsuits and filed application for the Special Tax Payment Installments Program (PAES), pursuant to Law 10,680/2003. These installment payments are subject to the Long-Term Interest Rate – TJLP and may be payable within 120 months.

(ii) Other – The Company also filed application to participate in the State and Municipal Tax Payment Installments Program (PPI). These taxes are adjusted by SELIC, and may be payable within 120 months.

16. Provision for contingencies

Provision for contingencies is estimated by Management, supported by its legal counsel. Such provision was set up in an amount considered sufficient to cover losses considered probable by the Company's legal counsel and is stated net of related judicial deposits, as shown below:

a) Taxes

Tax-related contingencies are indexed to the Central Bank Overnight Rate (SELIC), 12.32% at June 30, 2009 (12.72% at March 31, 2009), and are subject, when applicable, to fines. In all cases, both interest charges and fines, when applicable, have been computed with respect to unpaid amounts and are fully accrued.

COFINS and PIS

The Company and its subsidiaries discuss the constitutionality of the change in the basis of taxation of the Social Integration Tax (PIS) and the increase in the rate and basis of calculation of the Social Security Tax (COFINS) (Law 9,718/99). The provision includes unpaid amounts, monetarily restated, at June 30, 2009, amounting to R\$1,077,338 (R\$1,063,110 at March 31, 2009) resulting from the lawsuits awaiting decision of the Higher Courts, and up to this moment, the Company has not been required to make judicial deposits.

As the calculation system of such contributions started to use the non-cumulative tax principle in the calculation of PIS (Law 10,637/02) and COFINS (Law 10,833/03), the Company and its subsidiaries then started to apply said rules, as well as, to question with the Judiciary Branch, the extension of tax base of such contributions, as well as the appropriation of credits not accepted by laws. The provision recorded in the balance sheet at June 30, 2009 in the

monetarily restated. There are guarantees for these discussions in order to ensure the suspension of liabilities, judicial deposit amounting to R\$133,890.

The contingencies amount related to Cofins and PIS, net of judicial deposit is R\$1,130,432.

Other

The Company and its subsidiaries have other tax contingencies, which after analysis of its legal counsels, were deemed as probable losses or as issues likely to be booked pursuant to CVM regulation. These are: IPI on codfish imports, for which it already has a deposit, notice regarding differences in the indices used (Summer Plan), IRRF and INSS notices, as well as notices related to purchase, manufacturing and sale transactions for export purposes of soybean and its byproducts (PIS, COFINS and IRPJ). The amount recorded at June 30, 2009 in accounting books for such issues is R\$34,913 (R\$34,365 at March 31, 2009), and a judicial deposit of R\$2,030 (R\$2,040 at March 31, 2009 and June 5, 2009). The contingencies amount for OTHER, net of Judicial Deposit is R\$32,833.

b) Labor claims

The Company is party to numerous lawsuits involving disputes with its employees, primarily arising from layoffs in the ordinary course of business. At June 30, 2009, the Company recorded a provision of R\$50,237 (R\$53,830 at March 31, 2009) assessed as probable risk. Lawsuits the loss of which is deemed as possible by our legal counsels at June 30, 2009 are R\$24,271 (R\$15,396 at March 31, 2009). Management, assisted by its legal counsels, evaluates these contingencies and provides for losses where reasonably estimable, bearing in mind previous experiences in relation to the amounts sought. Labor claims are indexed to the Referential Interest Rate (TR) (0.53% accumulated in the year ended June 30, 2009) plus 1% monthly interest. The contingencies amount for *Labor*, net of Judicial Deposit is R\$118 (R\$4 in 2008).

c) Civil and other

The Company is a defendant, at several judicial levels, in lawsuits of civil nature, among others. The Company's Management sets up provisions in amounts considered sufficient to cover unfavorable court decisions when its internal and external legal counsels consider losses to be probable.

16. Provision for contingencies (Continued)

Among these lawsuits, we point out the following:

- The Company brought a writ of mandamus in order to be entitled to not pay the contributions provided for by Complementary Law 110/2001 related to the FGTS (Government Severance Indemnity Fund for Employees) financing. The Company obtained a preliminary injunction recognizing the right of not paying such contributions. Subsequently, this preliminary injunction was reversed, determining the judicial deposit of unpaid amounts during the effectiveness period of the preliminary injunction. The enforceability of tax credit is suspended in view of appeal filed, which awaits decision by the Regional Federal Court. At June 30, 2009, the amount accrued is R\$56,887 (R\$55,767 at March 31, 2009) and the Company made a R\$9,544 (R\$9,522 at March 31, 2009) judicial deposit, protecting the period in which it was not covered by the preliminary injunction.
- The Company filed a declaratory action of absence of legal relationship, in what concerns the contribution to SEBRAE, as enacted by Law 8,029/90, in order to also obtain the acknowledgement of restated credit for offsetting with balances payable to SESC (Social Service for Trade) and SENAC (National Service for Commercial Training), excluding the 30% limit. The Company was granted the right of not paying the falling due contributions, provided that judicial deposits are made, as usual. The proceeding awaits a decision of the Superior Court. At June 30, 2009, the accrued amount is R\$47,583 (R\$45,773 at March 31, 2009), and judicial deposit in the amount of R\$48,813 (R\$46,862 at March 31, 2009).
- The Company by means of a writ of mandamus is challenging the constitutionality of the FUNRURAL (Rural Workers Assistance Fund) for companies located in urban areas. Currently, Superior Courts decision is pending and the amount of the provision at June 30, 2009 is R\$37,179 (R\$36,577 at March 31, 2009). There is no judicial deposit for such proceeding.
- The Company files and answers various lawsuits in which it requests the review of lease amounts paid by the stores. In these lawsuits, the judge determines a provisional lease amount, which then is paid by the stores, until report and decision define the final lease amount. The set up provision of difference between the amount originally paid by the stores and that defined provisionally in these lawsuits. At June 30, 2009, the accrual amount for these lawsuits is R\$17,541 (R\$15,944 at March 31, 2009), for which there are no judicial deposits. The total of contingencies civil and other at June 30, 2009 is R\$126,510, net of judicial deposits.

16. Provision for Contingencies (Continued)

d) Possible losses

The Company has other contingencies which have been analyzed by the legal counsel and deemed as possible but not probable; therefore, have not been accrued, at June 30, 2009, as follows:

- **INSS (Social Security Tax)** The Company was served notice regarding the non-levy of payroll charges on benefits granted to its employees, and the loss, considered possible, amounts to R\$108,858 (R\$108,473 at March 31, 2009). The proceedings are under administrative and court discussion. Out of this amount R\$95,850 are guaranteed by real properties or bank guarantee.
- **IRPJ, IRRF and CSLL** The Company was served several assessment notices regarding offsetting proceedings, rules on the deductibility of provisions and tax payment discrepancies, all of them await final decision in the administrative level, the amount of which corresponds to R\$276,185 (R\$195,240 at March 31, 2009).
- **COFINS, PIS and CPMF** The Company has been challenged through administrative proceedings regarding motion for offsetting, tax payment discrepancies, in addition to the aforementioned collection of taxes on soybean export operations. These proceedings await decision in the administrative level. The amount involved in these assessments is R\$654,540 (R\$500,276 at March 31, 2009) and await administrative decision.
- **ICMS** The Company was served notice by the state tax authorities regarding the appropriation of electricity credits, acquisitions from suppliers considered to be disreputable, return of goods to its stores, refund of tax replacement without due compliance of ancillary obligations brought by CAT Ordinance 17 of the state of São Paulo, among others, not relevant. The total amount of these assessments is R\$1,266,928 (R\$1,198,375 at March 31, 2009), which await a final decision in the administrative and court levels.
- **ISS, Municipal Real Estate Tax (IPTU), Property Transfer Tax (ITBI) and other** These are related to assessments on third parties retention, tax payment discrepancies, fines due to non-compliance of ancillary obligations and sundry taxes, the amount of which is R\$39,602 (R\$34,751 at March 31, 2009) and await administrative and court decisions.

16. Provision for contingencies (Continued)d) Possible losses (continued)

- Other contingencies They are related to administrative lawsuits and lawsuits under the civil court scope, special civil court, Consumer Protection Agency (PROCON) (in many states), Weight and Measure Institute (IPEM), National Institute of Metrology, Standardization and Industrial Quality (INMETRO) and National Health Surveillance Agency (ANVISA), in great majority related to suits for damages, amounting to R\$89,149 (R\$86,651 at March 31, 2009).

Occasional adverse changes in the expectation of risk of the referred lawsuits may require that additional provision for contingencies be set up.

e) Appeal and judicial deposits

The Company is challenging the payment of certain taxes, contributions and labor-related obligations and has made court escrow deposits (restricted deposits) of equivalent amounts pending final legal decisions, in addition to collateral deposits related to provisions for lawsuits.

The Company registered in its assets amounts related to judicial deposits not linked to Company's liability contingencies, since they are classified as remote/possible, not subject to provision.

f) Guarantees

The Company has granted collaterals to some lawsuits of civil, labor and tax nature, as shown below:

(i) Recognition of deferred IRPJ and CSLL assets refer basically to tax loss carryforwards, acquired from Sé, and those generated by the subsidiary Sendas Distribuidora, realization of which, following restructuring measures, was considered probable, except for the provision for realization of deferred IRPJ shown in the previous table.

(ii) At December 20, 2006, at Extraordinary General Meeting, the Company's shareholders approved the merger operation of its parent company Vieri. The special goodwill reserve, set up as a result of this merger, pursuant to paragraph 1 of article 6 of the CVM Ruling 319/99, which, at the end of each fiscal year and to the extent that the tax

benefit to be earned by the Company, as a result of goodwill amortization, represents an effective decrease of taxes paid by the Company, purpose of capitalization at the Company, to the benefit of controlling shareholders, without prejudice to the preemptive right ensured to other shareholders in the subscription of capital increase resulting from said capitalization, all pursuant to Article 7, *caput* and paragraphs 1 and 2 of CVM Ruling 319/99. In order to enable a better presentation of the quarterly information, the goodwill net amount of R\$515,488, less provision, which substantially represents the tax credit balance plus the amount of R\$1,806

were classified as deferred IRPJ. The net tax benefit at June 30, 2009 totaled R\$362,647(R\$388,422 at March 31, 2009).

At March 31, 2008, the Extraordinary General Meeting approved the reverse merger of Sevilha by Barcelona. Also pursuant to CVM Ruling 319/99, the special goodwill reserve was created as a result of this merger. At June 30, 2009, the remaining net goodwill recorded by Barcelona amounted to R\$61,793.

The Company prepares annual studies of scenarios and generation of future taxable income, which are approved by the Management and by the Board of Directors, indicating the capacity of benefiting from the tax credit set up.

Based on these studies, the Company expects to recover these tax credits within a term of up to 10 years, as follows:

b) Share rights

The preferred shares are non-voting and have preference with respect to the distribution of capital in the event of liquidation. Each shareholder has the right pursuant to the Company's Bylaws to receive a proportional amount, based on their respective holdings to total common and preferred shares outstanding, of a total dividend of at least 25% of annual net income determined on the basis of financial statements prepared in accordance with Brazilian GAAP, to the extent profits are distributable, and after transfers to reserves as required by Brazilian Corporation Law, and a proportional amount of any additional dividends declared. The Company's Bylaws set forth that, to the extent funds are available, preferred shares are entitled to a minimum dividend in the amount of R\$0.08 per share. Beginning in 2003, the preferred shares are entitled to receive a dividend 10% greater than that paid to common shares or, if determined by the shareholders, in excess of the mandatory distribution.

Management is required by the Brazilian Corporation Law to propose dividends at year-end, at least, until the amount of mandatory dividend, which may include the interest on shareholders' equity, net of taxes.

c) Capital reserve - Special goodwill reserve

This reserve was set up as a result of the corporate restructuring process outlined in Note 17 b(ii), against the merged net assets and represents the amount of future tax benefit to be earned by means of amortization of goodwill merged. The special reserve portion corresponding to the benefit earned may be capitalized at the end of each fiscal year to the benefit of the controlling shareholder, with the issue of new shares. The capital increase will be subject to the preemptive right of non-controlling shareholders, in the proportion of their respective interest, by type and class, at the time of the issue, and the amounts paid in the year related to such right will be directly delivered to the controlling shareholder, pursuant to provision in CVM Ruling 319/99 and CVM 349/01.

At December 31, 2006, the tax benefit recorded derived from the goodwill merged from Vieri amounted to R\$517,294, which will be used in the capital increase, upon the realization of reserve.

d) Recognized granted options

With the enactment of Law 11,638/07 the account "granted options" was created to recognize payments made to managers as compensation pursuant to CPC 10.

18. Shareholders equity (Continued)

e) Revenue reserve

(i) Legal reserve: is formed based on appropriations from retained earnings of 5% of annual net income, before any appropriations, and limited to 20% of the capital.

(ii) Expansion reserve: was approved by the shareholders to reserve funds to finance additional capital investments and working and current capital through the appropriation of up to 100% of the net income remaining after the legal appropriations and supported by capital budget, approved at meeting.

f) Preferred stock option plan

The Company offers a stock option plan for the purchase of preferred shares to the Management. The exercise of options guarantees the beneficiaries the same rights granted to the Company's other shareholders. The management of this plan was attributed to a committee designated by the Board of Directors.

The granting price for each lot of shares is, at least, 60% of the weighted average price of the preferred shares traded in the week the option is granted.

The number of lot of shares may vary for each beneficiary or series. The vesting right to exercise the option may occur as follows and according to the following terms (i) 50% in the last month of third year subsequent to the granting date (1st tranche) and ii) until 50% in the last month of fifth year subsequent to the granting date (2nd tranche), and the remaining portion of the second tranche subject to restraint on alienation until the beneficiary's retirement, as per formula defined in the regulation.

Shares subject to restraint on alienation (Q), upon the exercise of the options, are calculated by using the following formula outlined in the stock option plan:

where:

Q = Amount of shares to be encumbered by restraint on alienation.

$Q1$ = 50% of the Company total shares on the granting date.

Pm = Company share market price on the exercise date.

Pe = Share original exercise price, determined on the granting date, observing the terms of the Plan.

18. Shareholders equity (Continued)

The option price from the date of concession to the date of its exercise is updated by reference to the General Market Price Index - IGP-M variation, less dividends attributed for the period.

New preferred stock option plan

The Extraordinary General Meeting, held at December 20, 2006, approved the amendment to the Company's Stock Option Plan, approved by the Extraordinary General Meeting held at April 28, 1997.

As from 2007, the granting of preferred stock option plan to the Management and employees will take place as follows:

Shares will be classified into two types: Silver and Gold, and the quantity of Gold-type shares may be decreased and/or increased (reducer or accelerator), at discretion of the Plan Management Committee, in the course of 35 months following the granting date.

The price for each Silver-type share will correspond to the average of closing price of negotiations of the Company's preferred shares occurred over the last 20 trading sessions of BOVESPA, prior to the date on which the Committee resolves on the granting of option, with discount of 20%. The price per each Gold-type share will correspond to R\$0.01 and the granting of these options are additional to the Silver options, and the granting or the exercise of Gold options is not possible separately. In both cases, the prices will not be restated.

The acquisition of rights to the options exercise will occur as follows in the following term: as of the 36th month to 48th month as of the start date defined as the date of the adhesion agreement of respective series and: a) 100% of granting of Silver-type shares; b) the quantity of Gold-type options to be determined by the Committee, after the compliance with granting conditions.

The series of previous plan continue in force until the respective maturity dates.

26. Subsequent Events

a) Acquisition of Globex Utilidades S.A.

The shareholders' general meeting held on July 6, 2009 approved the acquisition, as per the Share Purchase Agreement entered into on June 7, 2009, subject-matter of the Material Fact published on June 8, 2009 (the Agreement), by Mandala Empreendimentos e Participações S.A. (Mandala), Company's subsidiary of 86,962,965 non-par registered common shares, representing 70.2421% of total and voting capital stock of Globex Utilidades S.A. (Globex) held by Globex's controlling shareholders, at the price of R\$9.4813 per share, in the total amount of R\$824,521, R\$373,436 paid in cash and R\$451,085 paid by installments, in the 4th anniversary of the effective date of acquisition of shares referred to in this item and effective transfer to Mandala (the Operation).

Globex's shareholders may subscribe Class B preferred shares, issued in the capital stock increase approved at the extraordinary general meeting held on July 6, 2009. Should the Class B preferred shares be subscribed by Globex's shareholders, as provided for in the Agreement, for the purposes of payment of subscribed shares, the Company will exclusively accept the credits held against Mandala. Likewise, Globex's minority shareholders expressing their intention of adhering to the Agreement may subscribe the Class B preferred shares. In the assumption the Class B preferred shares are subscribed, Globex's shareholders will be granted an additional credit, corresponding to 10% of the installment amount related to the acquisition price, which shall be exclusively used to fully pay Class B preferred shares.

b) Extraordinary General Meeting held on July 6, 2009

The Company's shareholders approved on July 6, 2009 at the extraordinary general meeting the following:

(i) the acquisition of 86,962,965 non-par, registered common shares, representing 70.2421% of the total and voting Globex's capital stock, pursuant to item (a) above;

(ii) the change in the current name of preferred shares issued by the Company to Class A preferred shares, without modifying their rights;

(iii) the Company creates its Class B non-voting preferred shares which will ensure its titleholders the right to (a) a fixed annual dividend, in the amount of R\$0.01 per share and (b) priority in the reimbursement in the event the Company is liquidated. Class B preferred shares cannot be traded, sold, assigned, disposed of or transferred, directly or indirectly, under any form, whether on stock exchange or by means of private operations;

26. Subsequent Events (Continued)

(iv) Company's capital stock increase in the amount of R\$664,361, by means of exclusive issue of Class B preferred shares, in the amount of 16,609,046 Class B preferred shares, at the issue price of R\$40.00 per share. The Company may partially ratify the capital increase, observing the minimum amount of R\$496,193, corresponding to 12,404,849 Class B preferred shares;

(iv.1) Class B preferred shares will be converted into Class A preferred shares according to the following schedule:

- a. 32% of total Class B preferred shares issued will be converted within five (5) consecutive days, as of the date the capital increase resolved and approved at the Shareholders' General Meeting held on July 6, 2009 is ratified at the Company's Extraordinary General Meeting specifically convened for this purpose;
- b. 28% of total Class B preferred shares issued will be converted on January 7, 2010;
- c. 20% of total Class B preferred shares issued will be converted on July 7, 2010; and
- d. 20% of total Class B preferred shares issued will be converted on January 7, 2011.

(v) Mandala carries out a public tender offer of shares issued by Globex held by other shareholders rather than the controlling shareholders.

c) Acquisition of 40% of shares representing the capital stock of Barcelona Comércio Varejista e Atacadista S.A. (Assai)

A material fact was published on July 10, 2009, announcing that the Company entered into an agreement to acquire the shares of Rodolfo Junji Nagai and Luiz Fumikazu Kogachi, representing 40% of the total and voting capital of Barcelona Comércio Varejista e Atacadista S.A. (Barcelona), its subsidiary which operates the brand Assai, thus, consolidating the interest acquired in the wholesale cash and carry food business published in the material fact dated November 2, 2007.

For the acquisition of the interest mentioned above, the Company will pay to the sellers the amount of R\$175 million in three installments: first installment in the amount of R\$25 million, 10 days after executing the share purchase and sale agreement; the second installment in the amount of R\$25 million on December 15, 2009; and the third and last installment, in the amount of R\$125 million on January 15, 2011.

25. Subsequent Events (Continued)

Should few additional conditions agreed upon the parties be materialized, the Company will pay to the sellers on January 15, 2011 an additional amount of R\$25 million.

The aforementioned amounts will be adjusted by CDI variation from the execution date of the share purchase and sale agreement until the date of their effective payment.

Once concluded the operation, Barcelona's shareholders agreement, executed with the sellers of shares acquired by the Company, will no longer be effective.

The conclusion of this operation will be subject to the approval of the Company's Board of Directors and shareholders, pursuant to the Company's Bylaws.

d) Dividends

On July 3, 2009, the Board of Directors approved the adoption of a new dividends policy, which alters the frequency of payment of dividends, which now occurs quarterly and no longer on an annual basis. In addition, the payment of dividends for 2009 was advanced, whose calculation was based on the amount of dividends paid in 2008.

The calculation basis of prepaid dividends for 2009 considered the amount of R\$61.9 million, the same amount paid in 2008, which will be distributed in four (4) installments of R\$15.5 million. In the last prepaid dividends of 2009 (4Q09), i.e., after the end of the fiscal year and the approval of the corresponding financial statements, the Company will pay the minimum mandatory dividend to its shareholders calculated in accordance with the Brazilian Corporation law, less the dividends payment advanced during the fiscal year.

Thus, dividends related to the 1Q09 and 2Q09, in the amount of R\$30.9 million will be exceptionally prepaid jointly in the 2Q09. The amount to be paid will be R\$0.12326 per common share and R\$0.13558 per preferred share. The dividends prepayment will occur within 15 days as of the Board of Directors meeting.

12.01 - COMMENTS ON THE CONSOLIDATED PERFORMANCE DURING THE QUARTER

Operating Performance

The numbers related to the Group's operating performance presented and commented on below refer to the consolidated figures, which include the entire operating results of Sendas Distribuidora (a joint venture with the Sendas chain in Rio de Janeiro) and Assai (a joint venture with Atacadista Assai in São Paulo).

The consolidated figures do not yet include the acquisition of Ponto Frio (Globex), which was approved by the Extraordinary Shareholders Meeting of Grupo Pão de Açúcar on July 6, 2009, when the Group took over the chain's operations.

Thanks to this acquisition, Grupo Pão de Açúcar is now one of the country's leading retailers in the electronics/household appliance segment, with operations in 18 states and the Federal District. Since the day on which the takeover was announced, teams comprising staff from both firms have been working together, evaluating opportunities for existing synergies. A new Ponto Frio executive board was also set up to streamline the integration of the two companies, comprising Jorge Herzog (Ponto Frio's CEO), Orivaldo Padilha (CFO, IRO and IT Officer), Marise Araujo (Chief Commercial Officer) and Antonio Machado Teixeira Filho (Chief Operating Officer).

In addition, on July 10, 2009, Grupo Pão de Açúcar acquired the remaining 40% stake of total and voting capital of Barcelona Comércio Varejista e Atacadista S.A., which operates the Assai format, consolidating the stake it acquired in the self-service wholesale business on November 2, 2007.

The figures below also includ
