Firstly, over the past 40 days, our priority was to **cut costs**, processes and contracts, and optimize our structure. Specifically, we reduced our workforce by 50%, which will amount to **R\$36 million/year savings**, which includes the Rio de Janeiro branch shutdown. From now on, we will concentrate our efforts solely on the region of São Paulo, Brazil’s largest market.

In addition, we proposed to our shareholders to transfer the Company's headquarters from São Paulo to São Caetano do Sul, at Gafisa’s owned property, which, besides sheltering our operations, will save **R\$4.7 million/year** on office lease costs.

In addition to our focus on cost-cutting initiatives, the new management is pursuing **innovation to Gafisa’s business model**, highlighting as short-term actions: (i) the launch of *Gafisa Serviços* (Gafisa Services), which offers post-warranty services, house-up (customization of unit to be delivered according to customer’s needs) and rental of residential and commercial units, owned and third-party units, and (ii) the setup of an Innovation Committee, headed by Mr. Pedro Carvalho de Melo, one of our independent board members, and comprised of other four executives of the Company, representing the areas of building sites, new business, and sales. Mr. Melo is the academic coordinator of FGV/IDE's international programs and the chairman of Gafisa’s Audit Committee.

For the fourth quarter, we have already directed our efforts toward **selling existing inventory**. As to launches, new management will prioritize more profitable projects with higher market acceptance.

To support the Company's recovery in the upcoming years, we are analyzing **funding** alternatives.

**Replay:**

Over the next few months, we will be working on the Business Plan for the next two years, which will be released to the market in due course. Our objective is to continue adjusting the Company's business model, driving solid performance which **creates value for shareholders and stakeholders.**

The Company launched one project in the quarter, the Vision Pinheiros, in the city of São Paulo, with total PSV of R\$71.1 million. Launch volume in 9M18 reached R\$609.7 million, 31.5% higher than the same period last year.

\*It considers 9M18

## Sales

In 3Q18, gross sales totaled R\$188.1 million. Lower sales volume in the period, versus 2Q18 and 3Q17, is due to: (i) heightened political uncertainty, which resulted in an economic slowdown and drop in consumer confidence and (ii) lower volume of launches in the period. It is also worth mentioning that the Vision Pinheiros project was launched on September 29, last weekend of September, with many in-progress sales negotiations that will be included in fourth quarter results. In 9M18, gross sales totaled R\$887.4 million versus R\$914.5 million in 9M17.

Cancellations came to R\$51.7 million in 3Q18, 13.8% lower than in 2Q18, and a sharp drop of 47.3% compared to 3Q17, despite a significant volume of projects delivered in the quarter. Cancellations performance year to date also reflects this downward trend, reaching R\$169.3 million in 9M18. The average monthly Cancellations decreased from R\$35.1 million in 9M17 to R\$18.8 million in 9M18.

The net pre-sales totaled R\$136.5 million in 3Q18. In 9M18, net pre-sales came to R\$718.2 million, 20% higher than in 9M17.

## Sales Over Subpsly (SoS)

Quarterly SoS was 9.4%. The 10.5 bps reduction vs. 2Q18 and 8.9 bps compared to 3Q17 were due to the lower volume of launches in the period. SoS of launches in general is higher than inventories SoS. In the last 12 months, SoS was 39%, in line with 3Q17.

## Inventory (Property for Sale)

Inventory at market value was R\$1,318.7 million in 3Q18, down 5.5% quarter-over-quarter. Year-over-year the reduction was 16.6%.

<sup>1</sup> Adjustments reflect the updates related to the project scope, launch date and pricing update in the period.

The inventory turnover at the end of 3Q18 was 19 months, in line with 3Q17.

The inventory of finished units fell from R\$499.8 million (35.8% of total inventory) in 2Q18 to R\$434.2 million in 3Q18 (32.9% of total).

From the total finished units, 47.6% are commercial projects. This percentage is due to lower sales speed in this segment, which has lower liquidity.

PSV transferred in 3Q18 climbed 69.8% to R\$238.6 million quarter-over-quarter and 90.0% year-over-year, bolstered by an increase in PSV of projects delivered in the period. In 9M18, PSV transferred came to R\$438.1 million, 19.6% higher than in 9M17, due to a lower PSV volume of deliveries this year.

### **Selling, General and Administrative Expenses (SG&A)**

General and administrative expenses totaled R\$22.3 million in 3Q18, 7.0% higher than in 2Q18. This increase

is mainly due to a provision for severance pay to the former executive board in September 2018. However, in 9M18, we saw a 9.8% decrease, in line with cost-saving measures.

In 3Q18, selling expenses were 26.5% and 9.9% lower than in 2Q18 and 3Q17, respectively, due to lower commission and launch expenses in the period. By contrast, in the 9M18 vs 9M17 comparison, higher volume of launches increased selling expenses by 15.6% to R\$73.0 million.

Therefore, selling, general and administrative expenses came to R\$43.0 million in 3Q18 and R\$134.9 million in 9M18.

**2.1. Basis of presentation and preparation of individual and consolidated quarterly information**

On November 7, 2018, the Company's Board of Directors approved this individual and consolidated quarterly information of the Company and authorized its disclosure.

The Individual Quarterly Information (ITR) was prepared in accordance with Technical Pronouncement (CPC) 21 (R1) – “Interim Financial Reporting”, and the consolidated interim financial information was prepared in accordance with Technical Pronouncement (CPC) 21 (R1) – “Interim Financial Reporting” as well as with International Accounting Standard (IAS) 34 – “Interim Financial Reporting”, considering the guidance provided in Circular Letter/CVM/SNC/SEP 01/2018 related to the application of Technical Guidance - OCPC 04, issued by the CPC and approved by the Brazilian Securities and Exchange Commission (CVM) and the Federal Accounting Council (CFC), regarding the recognition of revenue over time, as well as being presented consistently with the rules issued by the CVM applicable to the preparation of ITR.

Except for the changes described in Note 3, the quarterly information was prepared using the same accounting practices, judgments, estimates and assumptions adopted for the presentation and preparation of the financial statements for the year ended December 31, 2017. Therefore, the corresponding quarterly information should be read together with the financial statements as at December 31, 2017.

The individual quarterly information of the Company is not considered to be in compliance with the International Financial Reporting Standards (IFRS), since it considers the capitalization of interest on the qualifying assets of investees in the individual quarterly information of the Company.

The quarterly information was prepared on a going-concern basis. Management periodically assesses the Company's ability to continue as going concern when preparing the quarterly information.

All amounts reported in the accompanying quarterly information are in thousands of Brazilian Reais, except where otherwise stated.

The other explanations related to this note were not subject to material changes in relation to the disclosures in Note 2.1.1 to the individual and consolidated financial statements as of December 31, 2017.

2.1.2. Statement of Cash Flows

**3. New standards, changes and interpretation of standards issued and not yet adopted**

The following standards are in effect beginning on January 1, 2018:

(i) The IFRS 15 – “Revenue from Contracts with Customers” (CPC 47) introduces new requirements for measurement and timing of revenue recognition. For the specific case of the real estate development sector, maintaining the POC revenue recognition method or adopting the method of keys, for example, depends on the contractual analyses made by Management. In view of Letter CVM/SNC/SEP/ 01/2018, issued by CVM’s technical area, which instructed entities to keep following the provisions of OCPC 04 – Application of the Technical Interpretation 02 to the Brazilian Real Estate Development Entities, currently in effect, the Company continued to recognize revenue using the POC method for the period ended September 30, 2018, until the regulatory bodies formally express an opinion on the issue.

(ii) IFRS 9 – “Financial Instruments” (CPC 48) includes, among other things, new models for classification and measurement of financial instruments, and measurement of prospective expected credit losses for financial and contractual assets.

Based on its evaluation, the Company concluded that the new classification requirements did not have a significant impact on the recognition of financial assets measured at fair value.

Additionally, according to CPC 48, expected losses are measured using one of the following bases: 12-month expected credit losses, and lifetime expected credit losses. Therefore, the Company measured the measurement of the allowance of the expected credit losses on contracts sold, which is recorded

together with the recognition of the respective revenue.

The impact from the first-time adoption on the opening statement of financial position as of January 1, 2018 is as follows:

We have reviewed the accompanying parent company and consolidated interim accounting information of Gafisa S.A. (the “Company”), included in the Quarterly Information Form (ITR) for the quarter ended September 30, 2018, comprising the balance sheet as at that date and the statements of income and comprehensive income for the quarter and nine month period then ended, and the statements of changes in equity and cash flow for the nine-month period then ended, and a summary of significant accounting policies and other explanatory information.

Management is responsible for the preparation of the parent company interim accounting information in accordance with the accounting standard CPC 21 (R1) – Interim Financial Reporting, of the Brazilian Accounting Pronouncements Committee (CPC), and of the consolidated interim accounting information in accordance with CPC 21 (R1) – Interim Financial Reporting and International Accounting Standard (IAS) 34 - Interim Financial Reporting issued by the International Accounting Standards Board (IASB), including the guidance contained in Ofício Circular/CVM/SNC/SEP 01/2018 related to the application of Orientação OCPC 04, on revenue recognition over time (POC – Percentage of completion), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of the Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim accounting information based on our

review.

### **Scope of review**

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion on the parent company interim information prepared in accordance with CPC 21 (R1), including the guidance contained in Ofício Circular/CVM/SNC/SEP 01/2018**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 (R1), including the guidance contained in Ofício Circular/CVM/SNC/SEP 01/2018 related to the application of Orientação OCPC 04, on revenue recognition over time, as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of the Quarterly Information (ITR).
