April 4, 2014

Dear Shareholder:

I hope you will join us at the 2014 Annual Meeting of Shareholders of Laboratory Corporation of America Holdings. The meeting will be held at The Paramount Theater, 128 East Front Street, Burlington, NC 27215, on Wednesday, May 14, 2014 at 9:00 a.m.

At the Annual Meeting, we will ask you to elect our Board of Directors, approve, on a non-binding advisory basis, executive compensation, and ratify the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the year ending December 31, 2014. We will also review the Company's progress during the past year and discuss any other business matters properly brought before the meeting. The attached Notice of the Annual Meeting and Proxy Statement explains our voting instructions and procedures, describes the business that will be conducted at the Annual Meeting and provides information about the Company that you should consider when you vote your shares.

In reviewing the Proxy Statement you will find detailed information about the qualifications of our director nominees and why we believe they are the right people to represent you beginning on page 18. In addition, as reflected by the Summary of Executive Compensation on page 4 and the Compensation Discussion and Analysis beginning on page 22, you will see that in 2013 we continued our efforts begun in 2012 to improve the design of our executive compensation program.

Management and our Compensation Committee initiated a complete review of our executive compensation program in connection with the shareholder say-on-pay vote at our 2012 Annual Meeting. This review included direct outreach to the Company's major institutional investors (representing the ownership of approximately 79 percent of the Company's outstanding shares) in advance of setting 2013 compensation for the express purpose of better understanding and responding to shareholder concerns related to compensation. Through this engagement with our shareholders, review of emerging best practices, and analysis and review by Cook & Co., the Compensation Committee's independent compensation consultant, the Committee determined to further demonstrate its commitment

to a pay for performance culture, and took the following actions in addition to others:

- changed the mix of 2013 long-term incentive awards to increase the emphasis on performance share awards relative to other forms of long-term incentives, so that performance shares represented 70 percent of the target value of long-term awards versus 40 percent in 2012;

- enhanced the focus on the utilization of relative total shareholder return as a long-term incentive performance measure, so that relative total shareholder return (TSR) reflected 35 percent of the 2013 performance share awards versus 20 percent in 2012 (relative TSR is calculated based upon the S&P Healthcare Index, a broad and objective group of healthcare companies);

- eliminated stock options as a form of long-term incentive for our 2013 long-term incentive awards; and

- froze, at my request, the base salary for the Chief Executive Officer for 2013.

These changes reflect the Compensation Committee's commitment to responding to shareholder feedback, structuring pay for performance, and incentivizing executives to achieve superior financial results and create shareholder value. We hope you recognize the value of our approach to executive compensation and will provide your endorsement when voting.

Your vote is very important to us. Whether or not you plan to attend the meeting in person, it is important that your shares are represented and voted at the meeting. I urge you to promptly vote and submit your proxy via the Internet, by phone, or, if you receive paper copies of the proxy materials by mail, by following the instructions on the proxy card or voting instruction card. If you decide to attend the Annual Meeting, you will be able to vote in person, even if you have previously submitted your proxy.

On behalf of the Board of Directors, I would like to express our appreciation for your continued interest in LabCorp. We look forward to your participation during the 2014 Annual Meeting.

Sincerely,

David P. King

Chairman of the Board, President and

Chief Executive Officer

Executive Compensation (page 22)**Pay for Performance (page 26)**

LabCorp's executive compensation program is designed to attract, motivate and retain executives in a highly competitive environment. Our executive compensation philosophy is to pay for performance by rewarding the achievement of specific short-term and long-term operational and strategic goals.

The Company seeks to achieve outstanding performance for our shareholders through a focus on increased revenue, adjusted earnings per share ("EPS"), earnings before interest and taxes ("EBIT"), revenue diversification, and relative total shareholder return compared to the S&P Healthcare Index group of companies. Our compensation program rewards our executives for achieving goals set for these financial measures, and achieving strategic objectives. A substantial majority of the value of the executives' 2013 compensation opportunity, including performance-based cash compensation and performance shares, is subject to Company and/or individual performance, which provides a strong

incentive to drive Company performance and increase shareholder value.

2013 Executive Total Compensation Mix (page 26)

The Compensation Committee takes several factors into consideration when setting executive compensation levels, including:

- competitive data presented by its independent consultant;
- alignment of compensation with growth drivers of the Company's business; and
- feedback from shareholders.

While the Committee sets total target compensation (base salary plus the target amounts under our annual cash incentive and long-term incentive arrangements) to be competitive in relation to the median peer compensation as reflected in data provided by its independent consultant, the Committee places greater emphasis on the variable or at-risk portion of compensation.

[Back to Contents](#)

For 2013, our continued focus on pay for performance resulted in approximately 67 percent of Mr. King's 2013 total target compensation being at-risk and performance-based. For the other named executive officers, approximately 55 percent of the average of the 2013 total target compensation was at-risk and performance-based. In 2013, an additional approximately 23 percent of our CEO's total target compensation and approximately 28 percent of the average total target compensation for our other named executive officers was variable based on performance of the Company's stock price. The charts below show the mix of pay elements included in total compensation opportunities for 2013 for our Chief Executive Officer and an average for our other named executive officers.

Advisory Vote to Approve Executive Compensation (page 48)

We ask that our shareholders approve the advisory resolution to approve executive compensation. In addition to the pay for performance philosophy discussed above, the redesign of our executive compensation in 2012 and the further steps taken in 2013 in response to shareholder feedback, our executive compensation program contains the following features that further align the interests of our executives with those of our shareholders:

- stock ownership guidelines requiring our executive officers to own a significant amount of our stock;
- prohibition on pledging and hedging with respect to Company stock, including the use of “short sales,” “puts,” “calls” and similar instruments designed to offset the risk of a decline in the value of the Company's stock;
- our annual incentive cash payment plan does not provide payment without achievement of performance goals, regardless of whether the failure to achieve the performance goals was outside of management's control;
- the goals in the plan encompass strategic as well as objective financial goals and are tailored to each executive's scope of responsibility;
- there is a cap on the annual incentive cash payment opportunity even for extraordinary performance so that executives are not provided incentives to take inappropriate risks;
- no employment agreements with the Company's executive officers, meaning there are no “guaranteed” levels of base salary, incentive cash payment or other forms of compensation;
- limited perquisites, which were largely eliminated in 2011 with no tax gross-ups;
- in circumstances involving a change in control, the Master Senior Executive Severance Plan is a “double trigger” plan, requiring termination following a change in control for severance payments to become due;

- the use of a mix of long-term incentive types, including restricted stock units and performance shares, to focus our executives on long-term performance of the Company;
- a significant portion of long-term incentives (70 percent) are earned only if three-year objective performance goals are met; and
- a clawback provision under the 2012 Omnibus Incentive Plan that requires repayment of awards in the event of an accounting restatement involving certain forms of misconduct.

Auditors (page 50)

We ask that our shareholders ratify the selection of PricewaterhouseCoopers, LLP as our independent auditor for the year ending December 31, 2014. Below is summary information about PricewaterhouseCoopers' fees for services provided in fiscal years 2013 and 2012.

Year Ended December 31	2013	2012

Proxy Statement

LabCorp is providing you with these proxy materials in connection with its 2014 Annual Meeting of Shareholders (the “Annual Meeting”). The Notice of Internet Availability of Proxy Materials (the “Notice”), this Proxy Statement and LabCorp’s 2013 annual report on Form 10-K (the “2013 Annual Report”) were first mailed to shareholders of record on or about April 4, 2014. As used in this Proxy Statement, “LabCorp,” the “Company” and “we” may refer to Laboratory Corporation of America Holdings itself, one or more of its subsidiaries, or Laboratory Corporation of America Holdings and its consolidated subsidiaries, as applicable.

GENERAL INFORMATION

2014 Annual Meeting of Shareholders

LabCorp’s 2014 Annual Meeting of Shareholders is scheduled to occur on Wednesday, May 14, 2014 at 9:00 a.m., Eastern Daylight Time. The Annual Meeting will be held at The Paramount Theater, 128 East Front Street, Burlington, North Carolina 27215. All owners of LabCorp’s common stock, par value \$0.10 per share (the “Common Stock”), on March 17, 2014, the record date (the “Record Date”), are eligible to receive notice of, and to vote at, the Annual Meeting. Representatives of PricewaterhouseCoopers LLP, Independent auditor for LabCorp for the years ending December 31, 2012 and December 31, 2013, will be present at the Annual Meeting, will have the opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions.

Important Notice Regarding the Availability of Proxy Materials for the Shareholder Meeting To Be Held on May 14, 2014

Pursuant to the “notice and access” rules adopted by the Securities and Exchange Commission (the “SEC”), LabCorp has elected to provide access to its proxy materials and the 2013 Annual Report over the Internet and sent the Notice to shareholders of record as of the Record Date on or about March 17, 2014. The Notice is not a form for voting and presents only an overview of the more complete proxy materials, which contain important information about the Annual Meeting. All shareholders may access the proxy materials on the website referred to in the Notice (www.proxyvote.com) and we encourage shareholders to do so prior to submitting their votes. Shareholders may request to receive a printed set of the proxy materials by following the instructions provided in the Notice.

Shareholders may also request to receive future proxy materials in printed form by mail or electronically by e-mail on an ongoing basis by following the instructions on your proxy card or at www.proxyvote.com. Choosing to receive proxy materials by e-mail will save LabCorp the cost of printing and mailing documents and will reduce the impact of LabCorp’s annual meetings on the environment. If you choose to receive future proxy materials by e-mail, you will

receive an e-mail next year with instructions containing a link to those materials and a link to the proxy voting site. Your election to receive proxy materials by e-mail will remain in effect until you terminate it.

Matters Subject to a Vote of the Shareholders

Current Proposals

The following matters are subject to a vote of the shareholders at the Annual Meeting:

- Election of directors from among the nominees described in the Proxy Statement (see page 18);
- Approval, on a non-binding advisory basis, of compensation for LabCorp's executives (see page 48); and
- Ratification of the appointment of PricewaterhouseCoopers LLP as the independent registered public accounting firm for the year ending December 31, 2014 (see page 50).

Board Recommendations

The Board of Directors of the Company (the "Board") recommends that shareholders vote as follows:

- "FOR" the election of each of the nominees for director;
- "FOR" approval, on a non-binding basis, of the compensation for LabCorp's executives; and
- "FOR" the ratification of the appointment of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for 2014.

Other Business

The Board does not intend to bring any other business before the Annual Meeting and is not aware of any other matters to be brought before the meeting. See the section "Other Matters" on page 53 for information about presenting proposals for the 2015 Annual Meeting. Please also see the section "Identification and Evaluation of Director Candidates" on page 10 for information about shareholder nominations to the Board.

Voting Procedures and Solicitation of Proxies

Quorum and Voting Requirements

The Board is soliciting your vote at the Annual Meeting or at any later meeting should the scheduled annual meeting be adjourned or postponed for any reason. By using a proxy, which authorizes specific people to vote on your behalf, your shares can be voted whether or not you attend the Annual Meeting. At least a majority of the total number of shares of Common Stock outstanding on the Record Date must be present in person or by proxy at the Annual Meeting for a quorum to be established. At the close of business on the Record Date, there were 85,017,972 shares of Common Stock issued and outstanding.

Each share of Common Stock is entitled to one vote on each of the director nominees and one vote on each other matter that is properly presented at the Annual Meeting. In accordance with LabCorp's Amended and Restated By-Laws (the "By-Laws"), director nominees must receive a majority of the votes cast to be elected, which under the By-Laws means that the number of shares voted "FOR" a director must exceed 50 percent of the votes cast with respect to that director. The Board has adopted a policy that a director who does not receive the required vote for election as provided in the By-Laws will submit his or her resignation for consideration by the Board. The affirmative vote of a majority of shares of Common Stock represented at the Annual Meeting and entitled to vote is required for approval of the other proposals noted above. Abstentions will have no effect on the election of the directors, but will have the same effect as a vote against the other proposals scheduled for the Annual Meeting.

Voting by Record Holders

If your name is registered in LabCorp's shareholder records as the owner of shares, there are four ways that you can vote your shares:

Over the Internet. Vote at www.proxyvote.com. The Internet voting system is available 24 hours a day until 11:59 p.m. Eastern Daylight Time on Tuesday, May 13, 2014. Once you enter the Internet voting system, you can record, confirm and change your voting instructions.

By telephone. Call 1-800-690-6903. The telephone voting system is available 24 hours a day in the United States until 11:59 p.m. Eastern Daylight Time on Tuesday, May 13, 2014. Once you enter the telephone voting system, a series of prompts will tell you how to record, confirm and change your voting instructions.

By mail. Mark your voting instructions on the proxy card (if you requested or received one), sign and date it, and return it in the prepaid envelope provided. For your mailed proxy card to be counted, it must be received before the polls close at the Annual Meeting on Wednesday, May 14, 2014.

In person. Attend the Annual Meeting, or send a personal representative with an appropriate proxy, in order to vote.

You may change your vote or revoke a proxy at any time prior to the Annual Meeting by:

- Entering new instructions on either the telephone or Internet voting system before 11:59 p.m. Eastern Daylight Time on Tuesday, May 13, 2014.

- Sending a new proxy card with a later date than the previously submitted proxy card. The new proxy card must be received before the polls close at the Annual Meeting on Wednesday, May 14, 2014.

Writing to LabCorp at 358 South Main Street, Burlington, North Carolina 27215, Attention: F. Samuel Eberts III, Secretary. Your letter should contain the name in which your shares are registered, the date of the proxy you wish to revoke or change, your new voting instructions, if applicable, and your signature. Your letter must be received before the Annual Meeting begins on Wednesday, May 14, 2014.

- Attending the Annual Meeting and voting in person or sending a personal representative with an appropriate proxy.

All proxies duly executed and received by LabCorp will be voted in accordance with the instructions provided by the person executing the proxy or, in the absence of any instruction, will be voted in accordance with the Board's recommendations on each proposal. Proxies will have the discretion to vote for or against any other matters that come before the Annual Meeting which are not otherwise specified in the Notice.

Voting by Holders in Street Name

If you hold shares through a bank, broker or other custodian (referred to as shares held “in street name”), the custodian will provide you with a copy of the Proxy Statement and a voting instruction form. Brokers and other holders of record have discretionary authority to vote shares without instructions from beneficial owners only on matters considered “routine” by the New York Stock Exchange, such as the advisory vote on the selection of the independent auditors. On non-routine matters, such as the election of directors, these banks, brokers and other holders of record do not have discretion to vote uninstructed shares and thus are not “entitled to vote” on such proposals, resulting in a broker non-vote for those shares. We encourage you to provide voting instructions so that your shares can be counted in the election of directors and the other matters to be considered at the Annual Meeting.

Proxy Expenses

LabCorp will bear the expenses to prepare proxy materials and to solicit proxies for the Annual Meeting. LabCorp expects to reimburse banks, brokers, and other persons for their reasonable, out-of-pocket expenses in handling proxy materials for beneficial owners. LabCorp has also retained Morrow and Co., LLC for solicitation of holders of record as well as non-objecting beneficial owners. LabCorp paid Morrow and Co., LLC a fee of approximately \$9,000 for these services, plus reimbursement of expenses.

Results of the Annual Meeting

The voting results of the Annual Meeting will be published no later than four business days after the Annual Meeting on a Form 8-K filed with the SEC.

CORPORATE GOVERNANCE

Board Structure and Independence

We have a strong governance structure to ensure Board oversight and accountability to our shareholders, including:

- a strong Lead Independent Director role;
- 100 percent committee independence;
- annual elections of all directors;
- majority voting for election of directors;
- Board and committee action by unanimous written consent; and
- no shareholder rights or “poison pill” plans.

Both management and the Board participate in an active engagement program with our shareholders. In addition to our ongoing engagement with shareholders regarding operational results and business strategy, we have specially engaged with over 79 percent of our shareholders on matters related to compensation, long-term incentives, board structure and corporate governance and other matters. The purpose of the Board’s engagement program is to review compensation and corporate governance practices with shareholders, seek shareholder input on our approach to these subjects and incorporate shareholder feedback into the design of our compensation and governance programs. The results of all shareholder engagement are periodically reviewed with the entire Board.

Board Composition

LabCorp’s By-Laws provide for a Board of no fewer than one and no more than fifteen directors. There are currently twelve members of the Board; however, there are only nine nominees standing for election at the Annual Meeting. Arthur H. Rubenstein and M. Keith Weikel have reached the mandatory retirement age pursuant to our corporate governance guidelines and are retiring from the Board upon conclusion of their terms ending on May 14, 2014. After 17 years of distinguished service to the Company, Wendy E. Lane has decided not to stand for re-election to the Board of Directors. She has decided to pursue other professional interests, including other board opportunities. For more details about the nominees for directors and their biographies, please see “Proposal One: Election of Directors.” (page 18)

We have a long-standing commitment to good corporate governance practices. These practices provide an important framework within which our Board of Directors and management pursue the strategic objectives of LabCorp and ensure the Company's long-term vitality for the benefit of our shareholders. The cornerstone of our practices is an independent and qualified board of directors. All directors are elected annually by a majority of votes cast by shareholders. All Board committees are composed entirely of independent directors.

The Board carefully evaluates each incoming director candidate based on selection criteria and overall priorities for the board composition that are periodically reviewed by the Nominating and Corporate Governance Committee with input from the rest of the directors. As our directors' commitments change, the Board revisits their situations to ensure that they can continue to serve the best interests of the Company and our shareholders. We also focus on Board renewal to ensure a mix of longer tenured directors and fresh perspective in the boardroom.

We also demand high standards of ethics from our directors and management as described in our Corporate Governance Guidelines and Code of Business Conduct and Ethics. Our governance principles are available under the Corporate Governance tab of the Investor Relations page of our website at www.labcorp.com. We have included some highlights from these principles and a summary of key policies below.

Board Independence

The Board believes that a substantial majority of its members should be independent, non-employee directors. The Board has established guidelines for determining director independence that are consistent with the current listing standards of the New York Stock Exchange (the "Listing Standards"). In addition, director affiliations and transactions are regularly reviewed to ensure that there are no conflicts or relationships that might impair a director's independence from the Company, senior management and our independent registered accounting firm as defined in the Listing Standards. Other than Mr. King, all of our current Board members and all of the nominees for director qualify as "independent" as defined in the Listing Standards.

[Back to Contents](#)

Board Leadership

The Chairman of the Board leads the Board and oversees board meetings and the delivery of information necessary for the Board's informed decision making. The Chairman also serves as the principal liaison between the Board and our management. The Board determines whether the role of Chairman and the Chief Executive Officer should be separated or combined based on its judgment as to the structure that best serves the interests of the Company. Currently, the Board believes that the positions of Chairman and Chief Executive Officer should be held by the same person as this combination has served and is serving the Company well by providing unified leadership and direction.

The Board has also established the position of Lead Independent Director to be filled at the Board's discretion when the Chief Executive Officer also serves as Chairman or the Chairman otherwise is not an independent director. The Board believes that appointing a Lead Independent Director provides an efficient and effective leadership model for the Company by fostering clear accountability, effective decision-making, alignment on corporate strategy between the Board and management and a cohesive public face for the leadership of the Company. Mr. Mittelstaedt currently serves as our Lead Independent Director. The Lead Independent Director, among other tasks assigned in the Company's Corporate Governance Guidelines, presides at executive sessions of the Board, serves as a liaison between the Chairman and the other directors, and advises the Chairman with respect to the schedule, agenda and information for Board meetings. Mr. Mittelstaedt meets regularly with Mr. King to review operations and strategic issues discussed with the Board and other matters relating to the Board's oversight functions. We are also focused on Board renewal to ensure a mix of longer tenured directors and fresh perspective in the boardroom. The Board holds executive sessions without Company management and non-independent director participation. These sessions are generally held at each regularly scheduled meeting of the Board and at each special meeting upon the request of a majority of the independent directors attending the special meeting. The Company's Corporate Governance Guidelines provide that the independent Directors shall meet on a periodic basis, but no fewer than four times a year on the same day as the regularly scheduled Board meetings. In 2013, Mr. Mittelstaedt in his capacity as the Lead Independent Director chaired ten meetings of the independent and non-employee directors to discuss strategy, compensation, succession planning and other matters.

Annual Board Self-Assessment

The Board conducts a self-assessment of its performance and effectiveness on an annual basis. The purpose of the self-assessment is to provide candid feedback on Board effectiveness and track progress in key areas of Board performance. As part of the assessment, each director completes a questionnaire developed by the Nominating and Corporate Governance Committee. The collective ratings and comments of the directors from the questionnaires are compiled and presented by the Chair of the Nominating and Corporate Governance Committee to the full Board for review and discussion. In addition, each Board Committee conducts a similar self-assessment of its performance focused on the Committee's key responsibilities. Feedback from the Committees' self-assessments is reviewed in the applicable Committee and also presented to the full Board for review and discussion.

Identification and Evaluation of Director Candidates

Identification of Director Candidates

The Nominating and Corporate Governance Committee recommends a slate of directors to the Board for election by the Company's shareholders at each annual meeting of shareholders and recommends candidates to the Board to fill any vacancies. Each member of the Board identifies potential candidates and these candidates are regularly reviewed by the committee, which maintains an active list of potential Board candidates. In addition, the committee is authorized to engage professional search firms at the Company's expense. The Company retained Korn/Ferry International in 2013 to assist with identifying potential nominees to the Board. In 2013 Korn/Ferry International also assisted in the evaluation of Board candidates, including by performing appropriate due diligence on such candidates. The Nominating and Corporate Governance Committee believes it is important to maintain a Board with diverse experiences and expertise, including industry and scientific and medical experience, financial expertise, global business experience and executive leadership.

Shareholders may also nominate individuals to the Board. A shareholder may submit a nomination for consideration at the 2015 Annual Meeting of Shareholders by providing certain information as set forth in the By-Laws, in writing, to the Corporate Secretary of the Company at 358 South Main Street, Burlington, NC 27215. Nominations for the 2015 Annual Meeting must be received no earlier than January 14, 2015 and no later than March 15, 2015. The By-Laws may be obtained free of charge by writing to the Company's Corporate Secretary and were included as Exhibit 3.1 to the Company's Current Report on Form 8-K filed with the SEC on March 31, 2008.

Drs. Rubenstein and Weikel retired from the Board this year, pursuant to the Company's mandatory retirement policy for Board members. Our policy states that when a director reaches the age of 75 he or she shall not be eligible to stand for re-election at the next regularly scheduled annual shareholder meeting. After 17 years of distinguished service to the Company, Ms. Lane decided not to stand for re-election to the Board of Directors to pursue other professional interests, including opportunities to serve on other boards of directors. We are deeply grateful to Ms. Lane and Drs. Rubenstein and Weikel for their contributions to the Company.

As part of the Company's continued process of Board renewal and succession planning, Dr. Kong (page 19) was appointed to the Board on December 1, 2013 and Dr. Gilliland (page 19) was appointed to the Board on April 1, 2014. Dr. Kong was recommended by Mr. King who had collaborated with Dr. Kong with Cancer Guide, the Duke University Medical Center Board of Visitors and Sofinnova HealthQuest Capital. Dr. Gilliland was recommended by Mr. Schechter, Dr. Rubenstein and Dr. Williams. The Committee considered and interviewed several candidates for these Board positions. They selected Drs. Kong and Gilliland because of their experience and background in the health care industry.

Evaluation of Director Candidates

When evaluating prospective candidates for director, including those nominated by shareholders, the Nominating and Corporate Governance Committee conducts individual evaluations of the candidates, taking into account the criteria enumerated in the Company's Corporate Governance Guidelines (see description below). Among other things, the Committee considers whether prospective candidates have:

- personal and professional integrity;
- skills and experience to advise the Company regarding its medical, scientific, operational, strategic and governance goals;
- interest, capacity and willingness to serve the long-term interests of the Company's shareholders;
-

ability and willingness to devote the required amount of time to the Company's affairs, including attendance at Board and Committee meetings;

- exceptional ability and judgment; and

- freedom from personal and professional relationships that would adversely affect the ability to serve the best interests of the Company and its shareholders.

The Corporate Governance Guidelines provide that the Nominating and Corporate Governance Committee review with the Board the appropriate skills and characteristics required of Board members in the context of the Company's business needs and the current composition of the Board, including, among other characteristics, diversity. The Company believes that Board membership should reflect diversity in its broadest sense, including persons diverse in geography, gender and ethnicity. The Board seeks independent directors who represent a mix of backgrounds and experiences that will enhance the quality of the Board's deliberations and decisions, including experience with publicly traded national, international or multinational companies, executive or financial management experience and/or achievement with distinction in their chosen fields. The Board believes that its composition reflects

a balance of skills, experiences, diversity and expertise that provides strong and broad oversight, practical experience and strategic vision to the Company.

Director candidates, other than sitting directors, may be interviewed by the Chairman of the Nominating and Corporate Governance Committee, other directors, the Chief Executive Officer and the Corporate Secretary. The results of these interviews, as well as any other materials received by the Nominating and Corporate Governance Committee that it deems appropriate, are considered by the Nominating and Corporate Governance Committee in making its recommendation to the Board.

Communications with the Board

Shareholders and interested parties may communicate with the Board, individually or as a group, by submitting written communications to the appropriately addressed Board member(s), c/o Corporate Secretary, Laboratory Corporation of America Holdings, 358 South Main Street, Burlington, North Carolina 27215.

All communications with the Board will be reviewed initially by the Corporate Secretary, who will relay all communications to the appropriate director or directors unless the communication is:

- an advertisement or other commercial solicitation or communication;
- obviously frivolous or obscene;
- unduly hostile, threatening, or illegal; or
- related to trivial matters (in which case it will be delivered to the intended recipient for review at the next regularly scheduled Board meeting).

Each director has the discretion to determine whether any of the communications addressed to their attention should be presented to the full Board, to one or more of its committees or to the Company's management. Each director also has the discretion to determine whether a response to the person sending the communication is appropriate. Any response will be made through the Company's Corporate Secretary in accordance with the Company's policies and procedures and applicable law and regulations relating to the disclosure of information.

The Nominating and Corporate Governance Committee, comprised entirely of independent, non-employee directors, has reviewed and approved the foregoing procedures and is responsible for recommending changes to the procedures as necessary.

Corporate Governance Policies and Procedures

Corporate Governance Guidelines

The Board has adopted a set of Corporate Governance Guidelines that address a number of topics, including composition of the Board, director independence, annual self-assessment by the Board and its Committees, retirement of directors and succession planning. The Nominating and Corporate Governance Committee reviews the Corporate Governance Guidelines on a regular basis and any proposed additions or amendments are submitted to the full Board for its consideration. Shareholders may request a printed copy of the Corporate Governance Guidelines from the Corporate Secretary or access a copy on the Investor Relations page under the Corporate Governance tab of LabCorp's website at www.labcorp.com.

Code of Business Conduct and Ethics

The Board has also adopted a Code of Business Conduct and Ethics that is applicable to all directors, officers and employees of the Company and its subsidiaries and affiliates. The Code sets forth Company policies and expectations on a number of topics, including but not limited to, conflicts of interest, confidentiality, compliance with laws (including insider trading laws), preservation and use of Company assets, and business ethics. The Code also sets forth procedures for reporting and handling any potential violation of the Code, conflicts of interest and the appearance of any conflict of interest. The Code is regularly reviewed by management, the Audit Committee and the Quality and Compliance Committee and proposed additions or amendments are considered by the full Board. Shareholders may request a printed copy of the Code of Business Conduct and Ethics from the Corporate Secretary or access a copy under the Corporate Governance tab of the Investor Relations page on LabCorp's website at www.labcorp.com. In addition, any waivers for directors, officers and employees of the Company or amendments to the Code will also be posted on LabCorp's website.

Board's Role in Risk Management

Enterprise Risk Management

The Board believes that effective enterprise risk management is an integral part of Board and Committee deliberations throughout the year. The Audit Committee annually reviews the Company's enterprise risk management process and the comprehensive assessment of key financial, operational and regulatory risks identified by management, as well as mitigating practices. The Audit Committee then discusses the processes and results with the full Board. In addition, the Board discusses risks related to the Company's strategic plan and other topics as appropriate. The Board receives regular reports directly from officers responsible for management of operations, financial reporting, legal and regulatory compliance, information technology and medical and scientific standard of care. Each Committee conducts its own risk assessment and risk management activities throughout the year, some of which are highlighted in the "Board Committees and Their Functions" section below (page 14), and reports its conclusions to the Board. The Board also encourages management to promote a corporate culture that integrates risk management into the Company's corporate strategy and day-to-day business operations in a way that is consistent with the Company's targeted risk profile. Through these processes, the Board oversees a system to identify, assess and address material risks to the Company on a timely basis.

Compensation Risk Assessment

The Compensation Committee regularly reviews the Company's compensation policies and procedures to ensure that those practices are consistent with emerging best practices, are aligned with the shareholders' interests and support the Company's objective to attract and retain skilled and talented employees. Throughout the year, management reviews compensation policies, practices and changes in applicable regulations with the Compensation Committee, including the impact of the Company's pay practices on the Company's risk profile. The Compensation Committee also works directly with its independent compensation consultant, Cook & Co., to evaluate the Company's compensation philosophy and objectives to identify potential risks in the Company's pay practices. After reviewing the Compensation Committee's findings, the Board has concluded that our compensation policies and practices are aligned with the interests of shareholders, appropriately reward pay for performance and do not create risks that are reasonably likely to have a material adverse effect on the Company.

Related Party Transactions

In accordance with the Company's Audit Committee charter, the Audit Committee is responsible for reviewing and approving the terms and conditions of all related party transactions. The Company's Directors and key employees, including all members of senior management, complete annual reports disclosing or certifying the absence of any related party transactions. The Audit Committee reviews all potential material transactions involving related parties (as such transactions are defined by Item 404(a) of Regulation S-K as promulgated by the SEC) before allowing the

Company to enter into any such transaction. The Company has not adopted a static set of criteria to be applied in evaluating a related party transaction and instead tailors the scope of its review to the particular circumstances presented by each transaction to ensure that any such transaction is thoroughly reviewed and evaluated.

DIRECTOR COMPENSATION

The Company's director compensation is designed to attract and retain highly qualified, independent directors to represent shareholders on the Board and act in their best interest. The Compensation Committee, which consists solely of independent directors, has primary responsibility for setting our director compensation program. Cook & Co., the Committee's independent compensation consultant, assists the Compensation Committee in evaluating our director compensation program.

Elements of Non-Employee Director Compensation

Director compensation is designed to align director compensation with emerging best practices and reflect the Board's belief that director compensation should not depend upon the number of meetings held but rather on the ongoing work and role of the directors throughout the year. For 2013, elements of non-employee director compensation included the following:

• **Annual Retainer.** An annual retainer in the amount of \$90,000 (or prorated portion thereof, as applicable) paid to each non-employee director in quarterly installments.

• **Committee Chair Retainer.** The Chair of the Audit Committee received \$15,000, paid on a quarterly basis. The Chair of the Compensation Committee received \$12,500, paid on a quarterly basis. The Chairs of the Nominating and Corporate Governance Committee and the Quality and Compliance Committee each received \$10,000, paid on a quarterly basis.

• **Lead Independent Director Retainer.** The Lead Independent Director received \$20,000, paid on a quarterly basis.

• **Equity Compensation.** Each non-employee director who was then serving on the Board received a grant of restricted stock units having a value of approximately \$150,000 on May 8, 2013, subject to the requirements of the Company's Director Stock Ownership Program (as further described below). The number of restricted stock units granted is determined by using the closing price of the Company's Common Stock on the grant date (\$94.13). The restricted stock units vest fully on the first anniversary of the grant date. Prior to the annual grants to directors in 2013, equity compensation consisted of restricted stock with a three-year vesting schedule. On May 8, 2013, the Board of Directors determined to change this schedule to more closely align with market practice.

In addition, the Company has a policy of granting equity awards to each new director that joins the Board. Accordingly, Mr. Neupert, Mr. Schechter and Dr. Kong each received restricted stock awards when they began their directorships during 2013. Mr. Neupert was granted 575 shares of restricted stock on January 2, 2013 and Mr. Schechter was granted 141 shares of restricted stock on April 1, 2013 which in each case reflected a prorated amount of the value of the annual award granted to directors at the 2012 Annual Meeting. The number of shares of restricted stock granted to Mr. Neupert and Mr. Schechter was determined by using the average share price for the 10 days preceding the grant date (\$86.96 and \$88.73), respectively, prorated to reflect the director's length of service between the grant date and the 2013 Annual Meeting. The restricted stock awards vest in three equal allotments over three

years beginning on the first anniversary of the grant date. Dr. Kong received 624 restricted stock units when he began his directorship on December 2, 2013 which reflects a prorated amount of the value of the annual award granted to directors at the 2013 Annual Meeting. The number of shares of restricted stock units granted to Dr. Kong was determined by using the closing price of the Company's Common Stock on the grant date (\$100.10). The restricted stock units vest fully on the first anniversary of the grant date.

- **Reimbursement of Expenses.** Each director is reimbursed for his or her reasonable out-of-pocket expenses incurred in connection with travel to and from, and attendance at, meetings of the Board or its Committees, as well as for related activities such as director education courses and materials consistent with our policies concerning reimbursement for travel, entertainment and other expenses.

Director Stock Ownership Program

Maintaining a significant personal level of stock ownership ensures that each director is financially aligned with the interests of our shareholders. The Board believes that by holding an equity position in the Company, directors demonstrate their commitment to and belief in the long-term success of the Company. The Company's Director Stock Ownership Program requires that each director must acquire and maintain a level of ownership of Common Stock equivalent to a number of shares having a value of \$300,000 as of the date he or she became subject to the stock ownership program. Until the ownership requirement is met, a director is required to hold 50 percent of any shares of Common Stock acquired upon the lapse of restrictions on any stock grant and upon the exercise of stock options, net of any shares utilized to pay for the exercise price of the option and any tax withholding, if applicable. If a director fails to meet or show progress towards satisfying these requirements, the Compensation Committee may reduce future equity grants or other incentive compensation to that director. Each director is required to maintain this level of stock ownership for his or her entire tenure of service on the Board. Each member of our Board of Directors is currently in compliance with the applicable holding requirement with the exception of Messrs. Neupert and Schechter and Dr. Kong who joined the Board in 2013.

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis describes the Company's executive compensation program and decisions for 2013. This section details the compensation framework applied by the Compensation Committee and, in particular, our compensation philosophy, elements of executive pay, compensation decisions and the link between executive pay and performance. The named executive officers of the Company ("named executive officers") for 2013 are:

- David P. King, Chief Executive Officer
- James T. Boyle, Executive Vice President, Chief Operating Officer
- Mark E. Brecher, Senior Vice President, Chief Medical Officer
- F. Samuel Eberts III, Senior Vice President, Chief Legal Officer
- William B. Hayes, Executive Vice President, Chief Financial Officer

Executive Summary

Company Performance and Industry Highlights

The Compensation Committee considers the Company's financial and business performance in making compensation decisions and believes that realized compensation should be tied to actual performance. The Company delivered solid performance in 2013, made possible by disciplined execution of its five-pillar strategy to grow the business and increase shareholder value. These five strategic pillars are:

- Deploy capital to investments that enhance its business and return capital to shareholders;
- Enhance IT capabilities to improve physician and patient experience;
- Continue to improve efficiency to offer the most compelling value in laboratory services;

- Scientific innovation at appropriate pricing; and
- Develop knowledge services.

Despite persistent economic headwinds and a healthcare landscape undergoing fundamental transformation, the Company achieved strong operational and financial performance across a broad range of measures. The Company generated solid growth in volumes and revenues in 2013, organically and through strategic acquisitions, increasing revenue 2.4 percent to more than \$5.8 billion. The Company also increased Adjusted Earnings Per Share Excluding Amortization in 2013 to \$6.95 (Adjusted Earnings Per Share Excluding Amortization is a non-GAAP measure calculated by excluding the effects of the impact of restructuring and other special charges (\$0.15 per share) and amortization expense (\$0.55 per share) from the GAAP diluted earnings per share of \$6.25). These results are especially noteworthy in the clinical laboratory testing market which, unlike other healthcare companies (including those companies in the peer group), experienced significant government payment reductions and unexpected reimbursement issues related to new molecular pathology codes in 2013, which negatively impacted the Company's incentive plan outcomes. These government payment reductions significantly impacted the Company's financial results and reduced compensation to our executives under both the long-term and short-term incentive compensation plans.

(3) 2008 revenue includes a \$7.5 million adjustment relating to certain historic overpayments made by Medicare for claims submitted by a subsidiary of the Company

In 2013, we also extended our long record of generating strong operating and free cash flow, which we used to make strategic acquisitions, invest in the business, and return value to shareholders through the repurchase of \$1 billion of LabCorp Common Stock.

We are proud of our 2013 performance, which extended a strong growth record that has been sustained through several years of economic uncertainty. We believe that our continued focus on a disciplined execution of our five pillar strategy will lead to sustainable, superior results for the Company and our shareholders. While we continue to focus on and reward our executives for building long-term, sustainable success, we also balance our approach to pay-for-performance to reward consistent superior performance every year. Notwithstanding the strong operational achievements of our Company and our executives, we did not achieve certain of the performance targets that we set for 2013. Therefore, because we are committed to a pay-for-performance culture, the compensation for the Company's named executive officers was reduced pursuant to the annual cash incentive plan ("MIB Plan") and the long-term incentive compensation plan, as discussed below.

Shareholder Engagement and Evolution of Compensation Plan

Because we are committed to designing compensation plans to incentivize our leaders and align with our strategy, the key value drivers of our business and the expectations of our shareholders, we maintain ongoing engagement with our shareholders for their views and feedback on our compensation and corporate governance programs. This ongoing engagement includes members of management, the Chair of our Compensation Committee, the Chair of our Audit Committee and our Lead Independent Director. Our shareholder discussions not only include the exchange and analysis of objective information such as key metric performance and compensation but also cover a broader range of informal topics. For example, our shareholders are given the opportunity to ask members of management for their views on compensation, incentives and alignment. Prior to setting executive compensation for 2013, members of the Board were engaged in a wide ranging discussion on these topics with an opportunity to exchange views on compensation and strategic alignment with our shareholders. The results of these meetings were shared with the entire Board and helped guide the Compensation Committee in developing the structure of and metrics used in the Company's executive compensation program for 2013. The review included direct outreach to the Company's major institutional investors (representing the ownership of approximately 79 percent of the Company's outstanding shares) for the express purpose

Back to Contents

of better understanding and responding to shareholder concerns related to compensation. The feedback from our shareholders was supportive regarding overall compensation philosophy, evolution of the executive compensation program over time and compensation best practices.

Through this engagement with our shareholders, coupled with review of emerging best practices and analysis by Cook & Co., the Committee’s independent compensation consultant, the Committee has continued to develop a pay for performance culture and align long-term incentive compensation with our shareholder’s expectations. As part of the realignment of long-term incentive compensation, the Compensation Committee eliminated the use of stock options in 2013. Long-term incentive compensation opportunities in 2013 consisted of 70 percent performance shares based on the overall target value of long-term awards with performance targets of revenue (50 percent weighting), relative total shareholder return (35 percent weighting) and Earnings Before Interest and Taxes (“EBIT”) (15 percent weighting). We remain committed to our executive compensation program and its emphasis on long-term alignment with our shareholders and in 2014 we continued to use a 70/30 split between performance awards and restricted stock units.

At the Company's 2013 Annual Meeting, over 92 percent of the votes cast at that meeting on the annual advisory vote to approve executive compensation were cast in favor of approval (a "Say-on-Pay proposal").

For 2014, the Committee continued its approach to executive compensation, keeping the base salary for Mr. King flat as compared to 2013 and maintaining a target pay mix for long-term incentives for Mr. King consisting of 70 percent of performance shares, 30 percent of restricted stock units and no stock options. The Committee concluded that this was consistent with its commitment to responding to shareholder feedback, structuring pay for performance, and incenting executives to achieve superior financial results and create shareholder value.

CEO Compensation Overview and Alignment with Performance

LabCorp's executive compensation program is designed to attract, motivate and retain executives in a highly competitive environment. Our executive compensation philosophy is to pay for performance by rewarding the achievement of specific short-term and long-term operational and strategic goals. We believe our executive compensation program avoids unnecessary risk taking and aligns the interests of our shareholders with the performance of our executives. This program reflects our strong commitment to a results-driven compensation program.

In support of the Company's compensation philosophy, our executive compensation program embodies the following principles:

- performance-based variable compensation should comprise a significant part of total compensation, with the percentage of variable or at-risk compensation highest for our CEO;

- the size and the realizable values of incentive awards provided to executive officers should vary significantly with performance achievements; an emphasis on stock-based compensation aligns the long-term interests of executive officers and shareholders;

- compensation opportunities for executive officers must be evaluated against those offered by companies that are in similar industries and are similar in size and scope of operations; and

- differences in executive compensation within the Company should reflect varying levels of responsibility and/or performance.

Taking into account these factors, the Committee has structured our executive compensation program to align compensation with performance using three key elements of compensation: (i) annual salary; (ii) annual cash

incentive pay; and (iii) long-term incentive awards. While the Committee sets total target compensation for these three elements to be competitive in relation to the median peer compensation as reflected in data provided by its independent consultant, the Committee places greater emphasis on the variable or at-risk portion of compensation. Approximately 75 percent of our CEO's target compensation is based on long-term performance and is delivered in equity. We believe the significant portion of total compensation, delivered in equity, tightly aligns Mr. King's performance with the Company's objectives and our shareholder's expectations. Throughout our engagement with shareholders, this approach was consistently endorsed, as was the fact that compensation for our other named executive officers is similarly aligned, with approximately 41 percent of target compensation based on long-term performance and delivered in equity and 69 percent fully variable or at-risk based on stock price and meeting performance goals. In 2013, an additional approximately 23 percent of our CEO's total target compensation and approximately 28 percent of the average total target compensation for our other named executive officers was variable based on performance of the Company's stock price. The charts below show the mix of pay elements included in total compensation opportunities for 2013 for our Chief Executive Officer and an average for our other named executive officers:

**CHIEF EXECUTIVE OFFICER MIX OF PAY
ELEMENTS
BASED ON TARGET AWARD OPPORTUNITIES**

**OTHER NAMED EXECUTIVE OFFICERS MIX OF
PAY
ELEMENTS BASED ON TARGET AWARD
OPPORTUNITIES**

The Company seeks to achieve outstanding performance for our shareholders through a focus on increased revenue, adjusted EPS, EBIT, and relative total shareholder return (relative TSR is calculated based upon the S&P Healthcare Index, a broad and objective group of healthcare companies). Our current compensation program rewards our executives for achieving goals set for these financial measures, as well as provides them a direct incentive to both preserve shareholder value and increase the Company's stock price. A substantial majority of the executives' 2013 compensation opportunity was in the form of variable and performance-based awards, including performance-based cash compensation under our annual incentive cash plan ("MIB Plan"), restricted stock units and performance shares, all of which provide

Back to Contents

our executives a strong incentive to drive Company performance and increase shareholder value. Incentive compensation is guided by the following principles:

- the MIB Plan only provides payments if performance goals are met or exceeded;

payments under the MIB Plan, if any, are based on a mix of Company goals common to all executives and strategic and individual goals for each executive in line with the executive's major responsibilities, so that incentive cash payments relate to both Company performance as well as individual performance, and performance goals are tied to specific financial and operational priorities of the Company each year;

by granting performance shares on overlapping cycles, the Company is able to make adjustments to new cycles of multi-year performance goals each year, as appropriate; and

- a significant portion of long-term incentives are earned only if three-year objective performance goals are met.

The Committee believes this program reflects our strong commitment to a results-driven compensation program. And, the amounts earned in 2013 by our named executive officers reflect this approach. For example, most of the Company's financial goals under the MIB Plan were achieved above threshold but slightly below target, with the exception of revenue diversification, which did not achieve threshold (see page 30). As a result of the level of performance on those goals and after taking into account individual goals, despite our strong performance, each named executive officer received MIB Plan payouts below target, ranging from between 52 percent to 62 percent of the target. Our named executive officers were paid under the MIB Plan up to 25 percent less in 2013 than they received under the MIB Plan in the year prior, and up to 48 percent less than the MIB Plan payouts in 2011. The chart below shows the reduction in the total payout of the annual non-equity incentive compensation for Mr. King year over year from 2011 to 2013.

Strong Compensation Practices

Consistent with the Company's focus on enhancing the alignment of the interests of our executive officers and those of our shareholders, the Company's executive compensation program has the following features:

all executives must meet significant stock ownership requirements that increase with their level of responsibility within the Company; in 2013 the stock ownership requirements for the Chief Executive Officer and Executive Vice Presidents were six times base salary and three times base salary, respectively;

we prohibit pledging and hedging with respect to Company stock, including the use of “short sales,” “puts,” “calls” and similar instruments designed to offset the risk of a decline in the value of the Company’s stock;

- we do not provide any tax gross-ups to executives, including on any severance/change in control payments;

there is a cap on the annual incentive cash payment opportunity even for extraordinary performance so that executives are not provided incentives to take inappropriate risks;

- there are no employment agreements with our executives;

the Master Senior Executive Severance Plan, which provides financial protection for our executives in circumstances involving a change in control, is a “double trigger” plan, requiring termination following a change in control for severance payouts;

a clawback provision under the 2012 Omnibus Incentive Plan that requires repayment of awards in the event of an accounting restatement involving certain forms of misconduct;

- no guaranteed bonuses;
- no personal use of corporate aircraft at LabCorp’s expense;
- no excessive severance or change in control provisions; and
- no payment of dividends on stock options or unvested performance awards.

The Role of the Compensation Committee

The Compensation Committee is responsible for the development, oversight and implementation of the executive compensation plan. The Committee works throughout the year reviewing compensation trends, evaluating emerging best practices and considering changes to the executive compensation program that will provide our senior management with an incentive to achieve superior financial results for the Company and align pay with performance. In determining whether changes to the executive compensation program are needed, the committee considers the goals and strategic objectives of the Company, including changes to the strategy that should be reflected in the incentive structure of

the management team. The Committee also considers the results of prior advisory votes on compensation and direct shareholder feedback in determining changes to the executive compensation program. The Committee approves changes to each component of executive officer compensation, including merit increases in base salary, annual incentive awards and long-term equity incentive awards.

Compensation Decisions for Mr. King

With regard to compensation decisions for Mr. King, our Chief Executive Officer, the Compensation Committee considers results of his performance assessment, including input from all independent non-employee directors, as well as the Company's financial and business performance. In an executive session, the chair of the Compensation Committee leads the independent non-employee directors through a review of Mr. King's annual accomplishments, a review and approval of compensation actions recommended by the Compensation Committee, and a review of performance objectives for the next year. The Board (except for Mr. King) reviews and approves the Committee's decisions with respect to Mr. King's compensation.

The Role of Management

Annually, Mr. King is invited to provide input on the Compensation Committee's executive compensation decisions, as well as propose awards for the other executive officers, based on his assessment of past and expected individual performance and contribution.

The Role of the Independent Consultant

Cook & Co., the Committee's independent compensation consultant, plays an integral role in supporting the Compensation Committee in the compensation-setting process, and one of its representatives attends most of the Compensation Committee meetings to serve as a resource for the Committee. Cook & Co. provides insight and advice related to the Company's compensation plans and policies, and provides recommendations based on compensation trends and regulatory/compliance developments. In order to encourage independent review and discussion of executive compensation matters, the Compensation Committee and the Committee chair may request meetings with the independent compensation consultant in executive session without management present. The Compensation Committee has sole authority to retain or replace the independent compensation consultant. In order to maintain consultant independence, Compensation Committee pre-approval is required for all services performed by the independent compensation consultant. In 2013, the Committee assessed the independence of Cook & Co. considering, among other factors, the independence factors established by the New York Stock Exchange. Specifically, Cook & Co. provides no services to the Company or its management other than the services provided to the Compensation Committee in its capacity as the Committee's independent adviser on executive compensation matters. Cook & Co. affirmed that no member of the consulting team provided advice to the Company's Compensation Committee or has any business or personal relationship with the CEO or any member of the Company's Compensation Committee. It

also affirmed that neither Cook & Co. nor any member of the consulting team serving the Company's Compensation Committee owns any stock or equity derivatives of the Company. In addition, the Committee evaluated the work of Cook & Co. and determined that its work raised no conflict of interest, including under applicable New York Stock Exchange factors.

Use of Peer Group

In evaluating executive compensation, the Compensation Committee considers both absolute performance of the Company and performance relative to an established peer group, as well as the pay practices of that peer group. With input from Cook & Co., the comparative peer group is selected from public companies in the healthcare services industry that are closest to LabCorp in terms of scope of services and are of a similar size in terms of revenue, profitability, cash flow, market capitalization and number of employees. Beginning in 2012, the Committee also considered the peer group used by our most direct competitors in determining our peer group. The companies included in the 2013 comparative peer group were:

- Agilent Technologies, Inc.
- Allergan, Inc.
- Baxter International Inc.
- Becton, Dickinson and Company
- Boston Scientific Corporation
- Covidien plc
- DaVita HealthCare Partners Inc.
- Henry Schein, Inc.
- Life Technologies Corporation
- Omnicare, Inc.
- Owens & Minor, Inc.
- Quest Diagnostics Incorporated
- St. Jude Medical, Inc.
- Stryker Corporation
- Thermo Fisher Scientific Inc.
- Zimmer Holdings, Inc.

[Back to Contents](#)

Each year, with the support of Cook & Co., the Committee reviews the peer group to ensure it remains valid for benchmarking purposes and makes adjustments as needed to reflect changes in business strategy and peer circumstances (e.g., acquisitions). For 2013, Express Scripts was removed from the peer group. The Committee believes that the merger of Express Scripts and Medco materially changed the company's size such that it is no longer an appropriate comparator.

Annually, Cook & Co. prepares a review of competitive total compensation for the Company's executives versus total compensation for similar positions at our peer group companies and utilizes national survey data for executives for whom there is insufficient comparable information in the peer company proxy statements. The competitive review confirmed that, for 2013, the Company continues to meet its compensation objectives, with a mix of lower cash compensation and somewhat higher long-term incentives than its peers. We have historically emphasized higher long-term incentives to more closely align our executives' interests with the long-term performance of the Company.

2013 Actions

Our executive compensation program focuses on three key elements of compensation: (i) annual salary; (ii) annual cash incentive pay; and (iii) long-term incentive awards. The following chart shows how these elements were used by the Committee in 2013.

In addition to the three main elements of our compensation program, we also provide limited perquisites, severance benefits, and post-retirement benefits as part of a standard, competitive compensation package.

Base Salary

While the Compensation Committee generally targets salary levels of the named executive officers at or below the median of the peer group, it retains the flexibility to adjust individual compensation to take into account variations in the individual's job experience and responsibility, as reviewed and recommended to the Committee by Mr. King. Annual changes in base salaries are determined using several factors, including the peer group's practices, our performance, the individual's performance and increases generally provided to our employees.

For 2013, at Mr. King's request, he did not receive an increase in base salary. Each of the other NEOs received a two percent increase in base salary for 2013. The decision to increase the base salaries for these NEOs was made after taking into account the factors above, the fact that the increases were consistent with increases given to all other

employees in the Company, and the fact that there had been no increases to base salary for these officers in 2012. Subsequent to the establishment of the base salaries for 2013, the Compensation Committee determined in June 2013 that it was appropriate to increase the base salary for Mr. Boyle (by an additional \$100,000) and, in October 2013 the Committee determined that it was appropriate to increase the base salary for Mr. Eberts (by an additional \$75,000) to reflect the meaningful contributions each makes to the Company. In addition, after consulting with Cook & Co., the Committee determined that these base salary increases were also appropriate because the base salaries for Mr. Boyle and Mr. Eberts were below the competitive range.

Annual Cash Incentive Pay (MIB Plan)

Our MIB Plan is designed to compensate our executives for achieving in-year goals that further the Company's strategy and create shareholder value. Target MIB Plan award amounts for 2013 for the named executive officers ranged from 50 percent to 150 percent of base salary, depending on the role of the executive.

Company financial goals may be achieved by the named executive officers at a threshold, target or superior level. If actual performance measures fall between either the threshold and target levels or the target and superior levels, the payouts are prorated accordingly. If the threshold level of performance for a particular goal is not achieved, the payout for that goal is zero. Individual and strategic goals are measured based on a yes/no outcome (i.e., the goal was either achieved, triggering a 100 percent target payment, or was not achieved, resulting in no payment).

Company Financial Goals. For 2013 each of our named executive officers shared three Company financial goals based on the following three measures:

- Revenue (20 percent weighting);
- Adjusted EPS⁽¹⁾ (30 percent weighting); and
- Revenue Diversification⁽²⁾ (30 to 40 percent weighting).

The Revenue and Adjusted EPS performance measures were selected as performance measures because they are top-line and bottom-line measures used by the Company and the investment community to evaluate our operating performance. Revenue diversification was included because of the Company's focus in 2013 on evaluating opportunities for diversification of the Company's revenues.

In addition to the shared Company financial goals described above, the performance measures used for the remaining 10 percent to 20 percent of each named executive officer's target amount were directed to specific areas of focus for each named executive officer for 2013, tying individual performance to strategic goals that were intended to contribute to our overall success. The individual and strategic goals applicable to each named executive officer under the MIB Plan for 2013 are discussed below under the heading "Summary of MIB Plan Payments by Executive."

Setting and Evaluating Performance Targets. The threshold, target and superior goals for revenue, adjusted EPS, and achievement of revenue diversification measures were based on various outcomes considered by the Compensation Committee, with the target amounts most closely approximating the Company's operating budget

approved by the Board. The achievement of performance measures that are not financially-based was determined by the Committee in its discretion, after discussion with Mr. King. Performance levels are determined annually by the Compensation Committee based upon its collective experience and reasoned business judgment. The Compensation Committee determines the performance measures, performance targets and allocation for Mr. King. In turn, the Committee has delegated to Mr. King the responsibility of determining the incentive plans for each of the other named executive officers, using substantially the same Company targets established by the Compensation Committee, subject to the approval of the Compensation Committee.

Results for 2013 Company Financial Goals. The 2013 goals that were common for each of the named executive officers and the result for the year for each goal were:

Long-Term Incentive Awards

In 2013, for our long-term incentive awards we continued our practice of using a restricted stock vehicle (30 percent of target value, based on grant date fair value) and performance share awards (70 percent of target value, based on grant date fair value). For 2013, we discontinued the use of stock options as part of our long-term incentive compensation. In 2013, we increased the percentage of restricted stock unit awards by 5 percent to 30 percent and increased the percentage of performance awards by 30 percent to 70 percent. We made this change in response to shareholder feedback and to align our program more closely with market trends.

The Compensation Committee believed that a balanced program using these two award types achieves all of the following:

- rewards stock-price growth;
- delivers performance-based, at-risk compensation through performance shares;
- ensures longer-term business focus through the use of multi-year operational performance goals to determine the number of performance share awards ultimately earned;
- provides attractive retention features through multi-year vesting and the use of restricted stock units (3-year vesting requirement);
- aligns the interests of the executive officers, including the named executive officers, with the interests of all shareholders; and
- aligns with emerging practices of the market and is supported by the peer group data.

Long-term incentive award values for 2013 were structured so that target award opportunities were generally positioned at the median of the peer group. Mr. King’s award values for 2013 were slightly above the median of the peer group and the award values for the balance of the named executive officers for 2013 ranged from slightly above the median to below the median of the peer group. The Compensation Committee retains the flexibility to adjust individual award levels, taking into account variations in the individual’s job experience and responsibility, as reviewed and recommended to the Committee by Mr. King. These values were selected based on the Company’s desire to attract and retain executive talent, the Company’s stated objective of placing a greater emphasis on long-term incentives and the Committee’s assessment of the Company’s performance. Restricted stock units vest in equal one-third increments over a three-year period beginning on the first anniversary of the grant date.

[Back to Contents](#)**2013-2015 Performance Shares Granted**

Performance shares granted to each of the named executive officers for the 2013-2015 performance period will become earned, if at all, based on cumulative revenue, relative total shareholder return (relative TSR is calculated based upon the S&P Healthcare Index, a broad and objective group of healthcare companies) and cumulative EBIT during the three-year performance period that began January 1, 2013 and ends December 31, 2015, as follows:

Goal	Weighting	Threshold	Target	Superior
Revenue (cumulative)	50%	\$17,530.3 billion	\$18,170.5 billion	\$18,777.7 billion
Relative Total Shareholder Return	35%	30 th Percentile	50 th Percentile	70 th Percentile
EBIT (cumulative)	15%	\$3,276.4 billion	\$3,395.2 billion	\$3,511.0 billion

Details related to the grant size for each named executive officer can be found in the Grants of Plan Based Awards table on page 38.

Revenue was selected as a target because it is a top-line measure used by the Company and the investment community to evaluate our operating performance. The revenue goal in the long-term incentive program reflects the multilayer cycle in certain strategic revenue objectives. Relative total shareholder return was selected based on feedback from our shareholders, Cook & Co.'s recommendations and the Compensation Committee's determination to tie a significant portion of long-term incentive compensation directly to share appreciation. EBIT was selected based on the perceived importance of this measure to the market price of our stock and its importance to growing operating income. Amounts earned are prorated for achievement between levels. Failure to achieve threshold would result in the executives receiving no performance shares for the period in question.

2011-2013 Performance Share Awards Earned

We granted performance share awards in 2011 that would be earned only to the extent the stated performance goals over the three-year performance period were realized. The performance shares granted in 2011 had a three-year performance period that ended December 31, 2013. The number of shares earned under these awards was determined based on performance during that period at 45 percent of target. The shares earned based on performance were subject to an additional time-based vesting requirement through March 27, 2014. The following chart summarizes the cumulative performance goals and results for this award:

Threshold	Target	Superior
-----------	--------	----------

Goal	Weighting	(5% annual growth)*	(9% annual growth)*	(11-16% annual growth)*	2011-2013 Result
Diluted EPS (Cumulative Total)	70 %	\$19.82	\$20.45	\$21.16	\$20.00
Sales** (in millions) (Cumulative Total)	30 %	\$16,112.7	\$16,447.5	\$16,778.7	\$16,034.5

* Percentage increases are calculated for Years 2 and 3.

**Excludes revenue from Gamma Dynacare.

The chart below shows the reduction in the total payout of the performance share awards earned for Mr. King year over year from 2011 to 2014.

Equity Grant Practices; Clawback Requirement

Generally, the Compensation Committee approves equity grants at the beginning of the year in connection with a regularly scheduled Compensation Committee meeting. Under the 2012 Omnibus Incentive Plan used for these awards, the grant date of an award is the date the Compensation Committee approves the award and the price is based on the closing market price on the grant date. The Compensation Committee does not time awards with the release of information concerning the Company.

Awards that have been made pursuant to the 2012 Omnibus Incentive Plan are subject to a mandatory repayment policy, pursuant to which gains on such awards may be recovered in the event of an accounting restatement involving certain forms of misconduct. In addition, awards made under the 2012 Omnibus Incentive Plan may be annulled if the grantee is terminated for cause (as defined in the 2012 Omnibus Incentive Plan or in any other agreement with the grantee).

Stock Ownership Guidelines

The Board believes that requiring senior management to maintain a significant personal level of stock ownership ensures that each member of senior management is financially aligned with the interests of our

Back to Contents

shareholders. Pursuant to the executive stock ownership program, each member of senior management must acquire and maintain a level of ownership in the Company’s Common Stock equivalent to a number of shares having a value that is a multiple of that executive’s base salary using the salary and stock price as of the date he or she became subject to the stock ownership program. This level will be adjusted if the executive’s position changes and the new position has a different ownership requirement. An executive is required to maintain this level of stock ownership throughout his or her tenure with the Company until near retirement, as explained below. In 2012, the guidelines were revised to increase the multiple for the Chief Executive Officer to 6x and the multiple for Executive Vice Presidents to 3x. In 2013, the guidelines were revised to cover all senior leadership. The ownership requirements for each position are:

Position	Company Stock Ownership Requirements as a Multiple of Base Salary
Chief Executive Officer	6x
Executive Vice Presidents	3x
All Other Senior Leadership	1x

Until the ownership requirement is met, an executive is required to hold 50 percent of any shares of Company stock acquired upon the lapse of restrictions on any stock grant and upon the exercise of stock options, net of taxes and shares used to pay the exercise price. If an executive fails to meet or show progress towards satisfying these requirements, the Compensation Committee may reduce future equity grants or other incentive compensation for that executive. Once an executive reaches the age of 62, the ownership requirement is reduced by 50 percent, and once an executive reaches the age of 64, the ownership requirement is reduced by 75 percent. As of December 31, 2013, each of the Named Executive Officers had exceeded his required stock ownership levels.

Ban on Pledging and Hedging Transactions

The Company maintains an Insider Trading Policy that prohibits executives and key employees from pledging and hedging with respect to Company stock, including the use of “short sales,” “puts,” “calls” and similar instruments designed to offset the risk of a decline in the value of the Company’s stock.

Perquisites

Beginning in 2011, the Compensation Committee phased out certain perquisites for executives that were not considered consistent with emerging compensation practices, which resulted in discontinuing the annual car allowance, home security system allowance and club membership allowance. The Compensation Committee determined that financial services, long-term disability and personal liability insurance and a wellness exam allowance were appropriate to continue because these benefits help ensure that the Company’s executives maintain appropriate fiscal and physical health, which contributes to stable executive leadership for the Company. The aggregate value of these perquisites for 2013 was approximately \$14,177 for Mr. King and an average of approximately \$10,605 for each of the other named executive officers. While the Compensation Committee believes that the remaining perquisites are

conservative and beneficial to the Company, there are no tax gross-up payments associated with these perquisites. For more information on perquisites in 2013, including the valuation and amounts, see the “Summary Compensation Table” below.

Termination and Change-in-Control Payments

The Company has not entered into any employment agreements or other individual termination arrangements with any executives.

The Company has had a severance plan in place since 1996 that provides participants financial protection in circumstances involving a qualifying termination, with a higher level of payment if the qualifying termination occurs within three years of a change in control (a “double trigger”). The severance plans are comprised of the Amended and Restated Master Senior Executive Severance Plan (the “Amended and Restated Severance Plan”) and a Master Senior Executive Change-in Control Severance Plan (the “Change-in-Control Plan”). The Company originally adopted and continues to maintain the severance plans to provide a competitive benefit necessary to attract and retain executives, and so that in the context of a change in control the executive would consider corporate actions that would benefit shareholders without regard to personal finances.

As a result of amendments over time, we believe that the severance plans are appropriately structured and consistent with current market practice. For example, the severance plans provide for severance payments that reflect the actual performance of the executive over prior periods by basing severance payments on actual, rather than target, annual MIB Plan payments and the plans do not have tax gross-up payments associated with change-in-control payments. For additional information on the termination and change-in-control benefits under the Amended and Restated Severance Plan and the Change-in-Control Plan, see “Potential Payments Upon Termination or Change-in-Control” on page 43.

The 2012 Omnibus Incentive Plan provides that if awards are assumed or substituted in connection with a change in control, a double trigger is required for accelerated vesting. The plan does not provide for any gross-up and we believe these provisions are consistent with emerging compensation trends.

In 2004, the Board approved the Senior Executive Transition Policy (the “Transition Policy”) to reflect the belief that a strong succession planning process ensures the continued success of the Company while failure to ensure a smooth transition of leadership would have an adverse effect on the Company and its shareholders. The Compensation Committee continues to believe that the Transition Policy is important to strong succession planning for the Company’s most senior positions. Eligibility requirements for the Transition Policy include, (a) being a member of the management Executive Committee (“EC”) and designated as a participant by the Chief Executive Officer and the Compensation Committee, (b) having five years of service as an EC member, (c) having 10 years of service with the Company, and (d) approval from the Board of a plan that ensures a smooth and effective transition of the departing executive’s management team and includes a non-solicit and non-compete agreement. Currently, the only individuals designated for participation in the Transition Policy are Messrs. King and Hayes. The Company expects that Mr.

Hayes will meet the eligibility requirements of the Transition Policy upon his retirement in 2014. The eligibility requirements of the Transition Policy are designed to ensure the retention of the executive over a period of time, to provide the Company with the ability to limit participation to the most senior executives and to ensure the goal of strong succession planning. The Transition Policy also provides additional protection to the Company in the form of non-compete and non-solicitation obligations on the part of the departing executive, and the policy sets forth the treatment of long-term incentive awards made under the Company's stock incentive plans in the event of a voluntary termination before age 65.

Deferred Compensation Program

In 2001, the Board approved the Deferred Compensation Plan (“DCP”), under which certain of the Company’s executives, including the named executive officers, may elect to defer up to 100 percent of their annual cash incentive pay and/or up to 50 percent of their annual base salary and/or eligible commissions subject to annual limits established by the federal government. The deferral limits were based on the Compensation Committee’s assessment of best practices at the time the DCP was established. The DCP provides executives a tax efficient strategy for retirement savings and capital accumulation without significant cost to the Company. The Company makes no contributions to the DCP. For additional information on the DCP, see the “Nonqualified Deferred Compensation Table” and accompanying narrative on page 42.

Retirement Plans

The Company previously adopted a supplemental retirement plan, the Pension Equalization Plan (the “PEP”) for executives, including the named executive officers who have met the Plan’s service requirements. The PEP is an unfunded, non-contributory, non-qualified plan that was designed to provide income continuation benefits at retirement and work in conjunction with the Company’s Cash Balance Retirement Plan (the “Cash Balance Plan”), a qualified and funded defined benefit plan available to substantially all employees. The PEP was intended to provide additional retirement benefits to a select group of management employees as an integral part of a total compensation package designed to attract and retain top executive performers. Requirements of participation when the PEP was established included (a) approval of participation by the Chief Executive Officer, (b) being named as a Senior or Executive Vice President or operating in the capacity of one, or (c) being named as the President or Chief Executive Officer. Effective January 1, 2010, both the PEP and the Cash Balance Plan were frozen; after that date no new participants have been admitted and no further service credits will be awarded to current participants.

The Company currently offers a defined contribution retirement savings plan (i.e., 401(k) plan) called the Employees’ Retirement Savings Plan. Participation in this plan is available to all eligible US-based employees, including executives. Company contribution information for executives is reflected in the “Summary Compensation Table” below.

Tax and Accounting Treatments

Section 162(m) of the Internal Revenue Code of 1986, as amended (the “Internal Revenue Code”) limits the corporate federal income tax deduction for certain “non-performance based” compensation paid to the chief executive officer and, pursuant to IRS guidance, each of the three highest-paid employees (other than the chief financial officer) of public companies to \$1 million per year. Compensation that is “performance-based” under Section 162(m) is not subject to this deduction limit. The Compensation Committee has carefully considered the Company’s executive compensation program in light of the applicable tax rules. Our 2012 Omnibus Incentive Plan was structured to permit us to use awards that qualify as “performance-based” under Section 162(m) where appropriate, including for stock options,

performance share awards and the majority of our annual cash incentive program. The Compensation Committee believes that tax deductibility is but one factor to be considered in fashioning an appropriate compensation package for executives. As a result, the Compensation Committee exercises its discretion in this area to design a compensation program that serves the long-term interests of the Company and has regularly decided that it is appropriate for the Company to make some compensation awards that are non-deductible. The non-deductible portion of executive compensation paid in 2013 was \$2,188,108.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Board of the Company has reviewed and discussed with management the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K. Based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement and in the Company's Annual Report on Form 10-K (including through incorporation by reference to this Proxy Statement).

Values reflect the amounts actually paid to the named executive officers in each year. Base salary adjustments, if (1) any, typically occur in February of each year, and are normally effective on March 1. Base salary adjustments are typically not retroactive to the beginning of the year.

Represents the aggregate grant date fair value of stock options, restricted stock, restricted stock units and performance shares for each named executive officer granted during each respective year, computed in accordance with accounting standards for stock-based compensation. The grant date fair value of restricted stock unit is based on the closing price of the Common Stock on the applicable grant date. For performance share awards, 65 percent of the grant date fair value is based on the closing price of the Common Stock on the applicable grant date, and 35 percent of the grant date fair value is based on a Monte-Carlo simulated fair value for the relative (to the peer companies listed in the S&P 500 Health Care Index) total shareholder return component of the performance awards. For this purpose, performance share awards included in the above totals are valued assuming achievement at target, which was the probable outcome determined for accounting purposes at the time of grant. The target and maximum grant date values of performance share awards for 2013 included above are as follows:

Name	Grant Date Value at Target Performance (\$)	Grant Date Value at Maximum Performance (\$)
David P. King	\$5,232,473	\$9,156,785
James T. Boyle	\$1,794,170	\$3,139,756
Mark E. Brecher	\$345,276	\$604,234
F. Samuel Eberts III	\$345,276	\$604,234
William B. Hayes	\$1,781,517	\$3,117,611

Represents the amounts earned by each named executive officer during 2013 pursuant to the Company's MIB Plan. (3) For additional information on these awards for 2013, see the "Grants of Plan-Based Awards" table below and "Compensation Discussion & Analysis – Annual Cash Incentive Pay" above.

Represents solely the aggregate change in the actuarial present value of each named executive officer's accumulated benefit under the Company's pension plans in the year indicated. All of the NEOs had negative total actuarial values in 2013 as follows, except for Dr. Brecher, who is not eligible to be in the plans based on his date (4) of hire: Mr. King – (\$68,338); Mr. Boyle – (\$34,506); Mr. Hayes – (\$80,830); and Mr. Eberts – (\$22,184). Negative values are not reflected in the table above. For the assumptions made in the 2013 valuations, see Note 16 to the Company's audited financial statements included within its Annual Report on Form 10-K for the year ended December 31, 2013. These assumptions change from year to year to reflect current market conditions.

Includes the value of the following perquisites: financial services, executive long-term disability premiums, personal liability insurance premiums, and wellness exam pursuant to the policies in effect for a particular year. Also includes Company 401(k) contributions, which is applicable to all eligible employees. Financial services (5) amounts are based on the actual amounts paid by the Company to its third party vendor for financial services. Use of the corporate jet is provided by the Company to the named executive officers for business trips. Any personal use of the corporate jet is strongly discouraged and subject to review and prior approval by the CEO and designated directors. In 2011, 2012 and 2013, none of the named executive officers had any personal use of the corporate jet.

[Back to Contents](#)**Perquisites**

The table below details the perquisites including those that exceeded 10 percent of the total perquisites offered to the named executive officer during 2013, plus the Company contributions into each executive's 401(k) account during 2013.

Name	Year	Financial Services ^(a)	Long-term Disability ^(a)	Personal Liability Insurance ^(a)	Wellness Exam ^(a)	Company-paid 401-k ^(b)

^(a) Represents the actual cost of the perquisite, the value of which is taxable to the named executive officer, but which taxes are not reimbursed by the Company.

^(b) Includes the Company Non-Elective Safe Harbor Contribution and Company Discretionary Contribution, which is applicable to all eligible employees.

Amounts represent the range of possible payouts denominated in dollars pursuant to the MIB Plan, as established by the Compensation Committee in February 2013. Actual amounts paid out pursuant to the plan are included in (1) the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table above. For a discussion of the performance criteria applicable to these awards, see “Compensation Discussion and Analysis – Annual Cash Incentive Pay” above.

Amounts represent the range of estimated potential shares to be earned under performance share awards. The performance share awards vest at the end of three years provided that certain performance metrics are met. For a discussion of the performance criteria applicable to these awards, see “Compensation Discussion and Analysis – Long-Term Incentive Equity Awards” above.

Amounts represent restricted stock unit awards that vest ratably over three years, beginning on the first anniversary of the grant date, based on continued service.

Amounts represent the full grant date fair value of restricted stock unit and performance share awards as computed in accordance with accounting standards for stock-based compensation, but excluding the effect of estimated forfeitures. The amounts shown in this column will likely vary from the amount actually realized by any named executive officer based on a number of factors, including the number of shares that ultimately vest, the satisfaction or failure to meet any performance criteria, the timing of any exercise or sale of shares, and the price of the Company’s Common Stock. The value of the performance share awards if they are achieved at the maximum payout is as follows: Mr. King—\$9,156,785; Mr. Boyle—\$3,139,756; Mr. Eberts—\$604,234; Dr. Brecher—\$604,234; and Mr. Hayes—\$3,117,611.

(1) Stock option awards vest ratably over three years beginning on the first anniversary of the grant date.

(2) Restricted stock units vests ratably over three years beginning on the first anniversary of the grant date. Amounts shown represent the remaining unvested portion.

(3) Represents the number of shares subject to the February 9, 2011 performance awards that vested on March 27, 2014 following the performance period ending December 31, 2013.

(4) Based on performance to date, represents the number of shares subject to the February 28, 2012 performance awards for the performance period ending December 31, 2014, assuming achievement at target. Information on the threshold, target and maximum awards are provided in the "Grants of Plan-Based Awards" table in the Company's proxy statement for its 2013 Annual Meeting.

(5) Based on performance to date, represents the number of shares subject to the February 12, 2013 performance awards for the performance period ending December 31, 2015, assuming achievement at target. Information on the threshold, target and maximum awards are provided in the "Grants of Plan-Based Awards" table above.

(6) Aggregate market value is calculated based on the Common Stock price on December 31, 2013, which was \$91.37 per share, multiplied by the number of shares or units, respectively, for each unvested performance or stock award.

[Back to Contents](#)**Option Exercises and Stock Vested**

The following chart shows, for 2013, the number and value of stock options exercised and the number and value of vested restricted stock and performance awards for each of the named executive officers:

Name	Option Awards ⁽¹⁾		Stock Awards ⁽²⁾	
	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise (\$)	Number of Shares Acquired on Vesting (#)	Value Realized on Vesting (\$)
David P. King	175,000	\$6,736,835	55,160	\$4,961,971
James T. Boyle	148,234	\$4,562,936	17,708	\$1,592,935
Mark E. Brecher	14,900	\$458,640	4,038	\$363,361
F. Samuel Eberts III	20,000	\$978,526	3,912	\$352,000
William B. Hayes	149,434	\$3,391,679	18,396	\$1,655,036

The value realized on exercise was based on the price at which these shares were sold, which occurred (1) simultaneously with their exercise. Consequently, the value realized was the sale price minus the strike price, multiplied by the number of shares exercised and sold.

Represents one-third of the restricted stock granted on February 9, 2010, which vested on February 9, 2013 at \$90.06 per share, the closing price on February 11, 2013 (the first trading day following February 9, 2013, a Saturday), one-third of the restricted stock granted on February 9, 2011, that vested on February 9, 2013 at (2) \$90.06 per share, the closing price on February 11, 2013, one-third of the restricted stock granted on February 28, 2012, that vested on February 28, 2013 at \$88.60 per share, the closing price on that date, and 93.3 percent of the performance award granted on February 9, 2010 that vested on March 28, 2013 at \$90.20 per share, the closing price on that date.

Retirement Benefits

Prior to January 1, 2010, substantially all employees, including each of the named executive officers except for Dr. Brecher (who was hired after January 2010), were offered the opportunity to participate in the Cash Balance Plan, and the plan was fully funded by the Company both in terms of an annual service credit, which is a percentage of base salary, and an interest credit, currently at 4 percent per year. Eligibility requirements under the Cash Balance Plan included one year of service (participants entered the plan in either January or July after meeting the service requirement) and the employee must have reached 21 years of age. Each named executive officer has met the eligibility requirements. As discussed above, the Company also has a Pension Equalization Plan (“PEP”). See “Compensation Discussion & Analysis – Retirement Plans” above.

In October 2009, the Board froze any additional service-based credits for any years of service after December 31, 2009 with respect to both the Cash Balance Plan and the PEP. Both plans are closed to new entrants. Current participants in the Cash Balance Plan and the PEP have stopped earning service-based credits, but will continue to earn interest credits.

Under both the Cash Balance Plan and the PEP, a participant is eligible for benefits at normal retirement at age 65 or early retirement at age 55, subject to reduced benefits for each year under age 65. For early retirement at or after age 55 with reduced benefits, there is a reduction of 6 percent applied to the full retirement benefit for every year under the age of 65.

Before the Cash Balance Plan was frozen for any additional service-based credits, the Cash Balance Plan, as supplemented by the PEP, was designed to provide an employee having 25 years of credited service with an annuity equal to 52 percent of “final average pay” less 50 percent of estimated individual Social Security benefits. “Final average pay” is defined as the highest five consecutive years of base salary during the ten years of employment preceding termination or retirement. The participant, if single, has one payment option: ten-year certain and life annuity. If married, the participant has two payment options: (a) ten-year certain and life annuity; or (b) 50 percent joint and survivor annuity. The ten-year certain and life annuity offers a guaranteed minimum payment for ten years. The 50 percent joint and survivor annuity offers half the annuity payments to the surviving spouse.

The formula for calculating the amount payable to the named executive officers other than Dr. Brecher under the Cash Balance Plan, in conjunction with the PEP, is illustrated as follows (ten-year certain and life annuity method):

$$(0.52) \times (\text{Final Average Pay}) - (0.50) \times (\text{Social Security Benefit}] \times (\text{Credited Service up to 25 years}) \div (25)$$

The amount payable could be less if the participant elected to receive benefits under the 50 percent joint and survivor annuity option.

The following table shows, as of December 31, 2013, the present value of accumulated benefits under the Company's Cash Balance Plan and PEP for each of the named executive officers:

David P. King	Cash Balance Plan	7.00	\$48,170	\$ -

	Pension Equalization Plan	13.25	\$401,086	\$ -

⁽¹⁾ *The Company's Cash Balance Plan had been offered to substantially all employees after a year of service and after reaching 21 years of age. Plan entry dates were January and July of each year. The PEP was amended January 1, 2004, to waive the one-year service requirement. Because of these differing service crediting provisions, there could be a difference of up to 1.5 years between Cash Balance Plan service and PEP service reflected in the column. Credited years of service equals actual years of service with the Company, subject to the crediting provisions above.*

⁽²⁾ *The calculation of present value of accumulated benefit is based on a normal retirement age of 65, as defined by each plan, and credited service and certain discount rate and mortality inputs. For the assumptions made in the valuations, see Note 16 to the Company's audited financial statements included within the 2013 Annual Report on Form 10-K for the year ended December 31, 2013.*

Deferred Compensation Plan

The DCP offers eligible participants another vehicle to accumulate savings for retirement. See "Compensation Discussion & Analysis – Deferred Compensation Program" above. Amounts deferred by a participant are credited to a bookkeeping account maintained on behalf of each participant, which is used for the measurement and determination of amounts to be paid to a participant, or his or her designated beneficiary, pursuant to the terms of the DCP. Deferred amounts are the Company's general unsecured obligations and are subject to claims by the Company's creditors. The Company's general assets or existing Rabbi trust may be used to fund payment obligations and pay DCP benefits.

According to the terms of the DCP, a participant has the opportunity to allocate deferred amounts to one or more of 16 measurement funds offered. The measurement funds are indexed to externally managed funds inside the Company's insurance-backed account. Amounts in these accounts can earn variable returns, including negative returns. Deemed earnings on the deferrals are based on these measurement funds and have no guaranteed rate of return. The Company makes no contributions to the DCP.

Under the DCP, a participant may make separate distribution elections with respect to each year's deferrals. These distribution elections include the ability to elect a single lump-sum payment or annual installment payments.

The following table summarizes each named executive officer's contributions, earnings and aggregate balance under the DCP as of December 31, 2013:

Name	Executive Contributions in Last FY (\$) ⁽¹⁾	Registrant Contributions in Last FY (\$)	Aggregate Earnings in Last FY (\$) ⁽²⁾	Aggregate Withdrawals/ Distributions (\$)	Aggregate Balance at Last FYE (\$) ⁽³⁾

Amounts in this column are not included in the Change in Pension Value and Nonqualified Deferred Compensation

(2) Earnings column of the Summary Compensation Table as they do not qualify as above market or preferential earnings. For Mr. King, the amount indicated represents a loss.

(3) For Mr. King, \$681,155 of the amount in this column was reported in the Summary Compensation Table for 2013 and in prior years.

Equity Awards: Stock Incentive Plan and Transition Policy

The treatment of equity awards varies depending on the type of termination. In the event an executive's employment terminates (other than by reason of death, disability, normal retirement or change in control with a corresponding qualifying termination), stock options that are exercisable at the time of termination, provided, however, that the option does not terminate at an earlier date in accordance with the terms of the grant may be exercised within three months of termination. All unvested stock options, restricted stock, restricted stock units and performance share awards immediately expire.

Under the Transition Policy, and provided that the executive's termination of employment otherwise meets the requirements of the Transition Policy, stock options, restricted stock, restricted stock units and performance shares continue to vest through the vesting period as if the executive were still employed unless there is an alternative treatment specified under the form of award agreement. Valuation in the event of a voluntary termination or early retirement is based on a Black-Scholes valuation for unvested shares and the December 31, 2013 market price for restricted stock, restricted stock unit and performance share awards. For purposes of the table above, it is assumed that the measures for the performance share awards will be achieved at the target level. Mr. King and Mr. Hayes are the only executives who may qualify for benefits under the Transition Policy.

The form of award agreements for the stock options, restricted stock and restricted stock units shown in the table above provide that in the event that an executive's employment terminates by reason of death, disability, normal retirement or a change in control (with a corresponding qualifying termination, in the case of stock options) then all stock options, restricted stock and restricted stock unit awards accelerate in full. The form of award agreements for the performance share awards shown in the table above provide that in the event that an executive's employment terminates by reason of death or disability or in the event of a change in control, then all performance share awards accelerate in full assuming performance at target and that in the event the executive's employment terminates by reason of normal retirement, all performance share awards granted continue to vest over the normal course of time and remain subject to their original performance conditions with the exception of the service requirement.

The executive may exercise vested stock options at any time within one year after the date of death, disability, retirement or a change in control. For these types of terminations, the value in the tables was determined by multiplying the gain using the December 31, 2013 market price by the number of unvested shares.

For purposes of the equity awards, “normal retirement” means retirement at or after the age of 65 with five years of service, and “early retirement” means retirement at or after the age of 55 with 10 years of service. None of the named executive officers is currently eligible to receive benefits under the “normal retirement” provisions of the equity awards.

Base Compensation and Annual Incentive Cash Payments

No additional base compensation amounts are payable for terminations resulting from the following events: voluntary termination by the officer, early retirement, normal retirement, termination for cause, or termination due to disability or death. A prorated annual incentive cash payment may be made for each of the termination events mentioned in the tables above, except for a voluntary termination or a termination for cause. Provisions for base compensation and annual incentive cash payments in the event of an involuntary not for cause or good reason termination or a termination in connection with a change in control are detailed below.

Amended and Restated Master Senior Executive Severance Plan and Master Senior Executive Change-in-Control Severance Plan

The Amended and Restated Severance Plan and the Change-in-Control Severance Plan provide the Company’s named executive officers (as well as the Company’s other executive vice presidents and senior vice presidents) with severance payments upon, respectively, a “qualifying termination” and a “qualifying termination” that occurs within three years following a change in control. A “qualifying termination” is generally defined as involuntary termination without cause or voluntary termination with “good reason.” “Cause” means that the named executive officer shall have committed prior to termination of employment any of the following acts: an intentional act of fraud, embezzlement, theft, or any other material violation of law in connection with his duties or in the course of his employment with the Company; the conviction of or entering of a plea of nolo contendere to a felony; alcohol intoxication on the job or current illegal drug use; intentional wrongful damage to tangible assets of the Company; intentional wrongful disclosure of material confidential information of the Company and/or materially breaching the noncompetition or confidentiality provisions covering his activities; knowing and intentional breach of any employment policy of the Company; or gross neglect or misconduct, disloyalty, dishonesty, or breach of trust in the performance of his duties that is not corrected to the Board’s satisfaction within 30 days of notice thereof. “Good reason” means a reduction in base salary or targeted incentive cash payment as a percentage of salary, relocation to an office location more than 75 miles from the employee’s current office without consent of the employee, a material reduction in job responsibilities or transfer to another job without the consent of the employee.

For purposes of the Change-in-Control Plan, “change in control” means: (a) any person who is not presently but becomes the “beneficial owner”, directly or indirectly, of securities of the Company representing 40 percent or more of the Company’s outstanding securities except for any securities purchased by any tax-qualified employee benefit plan of the Company; or (b) individuals who constituted the Board on February 10, 2009 (the “Incumbent Board”) cease for any reason to constitute at least a majority thereof, provided that any person subsequently becoming a director whose election was approved by a vote of at least three-quarters of the directors comprising the Incumbent Board (including any such directors whose election was so approved), or whose nomination for election by the Company’s shareholders

was approved by the Incumbent Board (including such directors whose election was so approved), is for purposes of this clause (b), considered as though he or she were a member of the Incumbent Board; or (c) a plan of reorganization, merger, consolidation, sale of all or substantially all the assets of the Company or similar transaction occurs in which the Company is not the resulting entity.

The severance payments under the Change-in-Control Plan are as follows:

	Qualifying Termination^(a)	Change in Control + Qualifying Termination within three years
CEO	2x (annual salary + average MIB payments)	3x (annual salary + average MIB payments)
Executive Vice Presidents	2x (annual salary + average MIB payments)	2x (annual salary + average MIB payments)
Senior Vice Presidents	1x (annual salary + average MIB payments)	1x (annual salary + average MIB payments)

(a) "Average MIB payments" is the average of the executive's actual MIB payments over the prior three years.

The Change-in-Control Plan does not provide a reimbursement to participants for excise taxes on "excess parachute payments" imposed by Section 4999 of the Internal Revenue Code.

Health and Welfare Benefits

In the event of a qualifying termination under the Severance Plan or the Change-in-Control Plan, the executive is also eligible for up to six months of Company-paid COBRA.

In the event a named executive officer dies while an active employee, his or her beneficiary will receive four times his or her base annual earnings up to a maximum of \$1.5 million from the Company's group term life plan. In addition, eligible, enrolled dependents will receive COBRA continuation of coverage for the first six months following the executive's death (not included in the tables above). If the executive was traveling on Company business at the time of death, the beneficiary will also receive \$1 million of business travel accident insurance; this is not reflected in the tables above.

If an executive becomes disabled (i.e., he or she is not able to perform the material duties of his or her occupation solely because of disease or injury), the executive is generally eligible for a monthly benefit payable until the earlier of (a) age 65 if the period of disability starts prior to the age of 60, or (b) the length of the disability. For Mr. King, the monthly net benefit is \$30,000, and for the other named executive officers it is a maximum of \$25,000 per month.

Cash Balance Plan

Under the Cash Balance Plan, upon a termination of employment the named executive officers are entitled to receive the same amounts set forth for each officer in the Present Value of Accumulated Benefit column in the Pension Benefits Table above, regardless of reason, except for death, which pays at 50 percent of such value.

PEP

PEP payments are subject to Section 409A of the Internal Revenue Code and require a six-month waiting period following separation of service before distribution of the first payment. Under the PEP, upon a termination the named executive officers are entitled to receive the same amounts set forth for each officer in the Present Value of Accumulated Benefit column in the Pension Benefits Table above, regardless of reason, except for death, which pays at 50 percent of such value.

DCP

The DCP was amended to grandfather participants prior to December 31, 2004 to remove the six-month waiting period for distributions following separation of service. Distribution elections made after December 31, 2004 require a six-month waiting period following separation of service before distribution of the first payment, as required by Section 409A of the Internal Revenue Code. Otherwise, distribution elections include the ability to elect a single lump-sum payment or annual installment payments. Under the DCP, upon termination the named executive officers are entitled to receive the same amounts set forth for each officer in the Aggregate Balance column of the Non-Qualified Deferred Compensation Table above, regardless of reason for the termination.

Perquisites

All perquisites offered to the named executive officers immediately terminate upon the executive's termination, except for the financial services up to \$5,000, which are extended for one year following termination.

Proposal Two Advisory Vote to Approve Executive Compensation

As required by the Dodd-Frank Wall Street Reform and Consumer Protection Act (Section 14a of the Securities Exchange Act), the Company is seeking shareholder approval on the Company's executive compensation as disclosed in this Proxy Statement. Pursuant to the vote of the shareholders at the 2011 Annual Meeting of Shareholders, the Company seeks shareholder approval of the Company's executive compensation (a "Say-on-Pay" vote) on an annual basis.

The Compensation Committee works throughout the year reviewing compensation trends, evaluating emerging best practices and considering changes to executive compensation that will provide our senior management with an incentive to achieve superior financial results for the Company and align pay with performance.

Compensation Feedback and Redesign

We are mindful of the feedback received from shareholders concerning executive compensation, and as discussed in the "Compensation Discussion and Analysis" section on page 22, in 2013 we redesigned key aspects of our executive compensation program, in part due to shareholder feedback and the results of the 2013 Say-on-Pay vote. These changes included:

- emphasizing direct return to shareholders as measured by the utilization of relative total shareholder return (relative TSR is calculated based upon the S&P Healthcare Index, a broad and objective group of healthcare companies) as a long-term incentive performance measure, so that relative total shareholder return reflected 35 percent of the 2013 performance share awards;
- freezing the base salary for our Chief Executive Officer, at his request, for 2013;
- eliminating stock options as a form of long-term incentive for our 2013 executive compensation program;
- retaining the mix of long-term incentive awards in 2013 to increase the emphasis on performance share awards relative to other forms of long-term incentives, so that performance shares represented 70 percent of long-term awards;
- enhancing the focus on the utilization of relative total shareholder return as a long-term incentive performance measure, so that relative total shareholder return reflected 35 percent of the 2013 performance share awards;
- expanding the number of officers subject to, and increasing required ownership levels under, our stock ownership guidelines; and

These changes reflect the Compensation Committee's commitment to responding to shareholder feedback, linking pay to performance, and incenting executives to achieve superior financial results and create shareholder value.

Pay for Performance

As described in the “Compensation Discussion and Analysis” section beginning on page 22 of this Proxy Statement, our executive compensation program is designed to reward the achievement of specific short-term and long-term operational and strategic goals. By paying for performance, we believe our compensation program aligns the interests of our executive officers with those of our shareholders. The Company believes that through an effective executive compensation program, it can be successful in attracting and retaining talented employees who will sustain the Company’s financial performance and continue creation of shareholder value.

In implementing this philosophy, the Company adheres to the following principles:

- variable compensation should comprise a significant part of an executive’s total compensation, with the percentage at-risk highest for the executive officers;
- the size and the realizable values of incentive awards provided to executive officers should vary significantly based on performance achievements;
- an emphasis on stock-based compensation aligns the long-term interests of executive officers and shareholders;
- the goals in the plan encompass strategic as well as objective financial goals and are tailored to each executive’s scope of responsibility;
- compensation opportunities for executive officers must be evaluated against those offered by companies in similar industries and similar in size and scope of operations; and
- differences in executive compensation within the Company should reflect varying levels of responsibility and/or performance.

In addition, certain features of the Company’s executive compensation program enhance the alignment of the interests of our executive officers and those of our shareholders, such as:

- stock ownership guidelines requiring our executive officers to own a significant amount of our stock;
- prohibition on pledging and hedging with respect to Company stock, including the use of “short sales,” “puts,” “calls” and similar instruments designed to offset the risk of a decline in the value of the Company’s stock;

- our annual incentive cash payment plan does not provide payment without achievement of performance goals, regardless of whether the failure to achieve performance goals was outside of management’s control;
- there is a cap on the annual incentive cash payment opportunity even for extraordinary performance so that executives are not provided incentives to take inappropriate risks;
- absence of employment agreements with the Company’s executive officers, meaning there are no “guaranteed” levels of base salary, incentive cash payment or other forms of compensation;
- limited perquisites, which were largely eliminated in 2011;
- the Master Senior Executive Severance Plan, which provides financial protection for our executives in circumstances involving a change in control, is a “double trigger” plan, requiring termination following a change in control for severance payments to become due;
- the use of a mix of long-term incentive types, including restricted stock units and performance shares, to encourage our executives to focus on long-term performance of the Company;
- a significant portion of long-term incentives (70 percent) are earned only if three-year objective performance goals are met; and
- a clawback provision under the 2012 Omnibus Incentive Plan that requires repayment of awards in the event of an accounting restatement involving certain forms of misconduct.

Advisory Resolution

The Board recommends that shareholders vote in favor of the following resolution:

“RESOLVED, that the compensation paid to the Company’s named executive officers, as disclosed pursuant to the rules of the Securities and Exchange Commission, including in the Compensation Discussion and Analysis, compensation tables and narrative discussion in the Company’s 2014 Proxy Statement, is hereby APPROVED.”

The vote is advisory and is not binding on the Board. However, the Compensation Committee of the Board expects to take into account the outcome of the vote as it continues to consider the Company’s executive compensation program.

The Board recommends that shareholders vote “FOR” the approval of executive compensation.

Proposal Three Ratification of Independent Registered Public Accounting Firm

Engagement of PricewaterhouseCoopers LLP

The Audit Committee has appointed PricewaterhouseCoopers LLP (“PricewaterhouseCoopers”) to audit the accounts of the Company for the year ending December 31, 2014, and the shareholders of the Company are being asked to ratify its appointment. Shareholder ratification of the appointment of PricewaterhouseCoopers as the Company’s independent registered public accounting firm is not required by our By-Laws but the Board has elected to seek such ratification as a matter of good corporate practice. Should the shareholders fail to ratify the appointment of PricewaterhouseCoopers as the Company’s independent registered public accounting firm for the year ending December 31, 2014; the Audit Committee will consider whether to retain that firm for such year. Even if this appointment is ratified, the Audit Committee, in its discretion, may direct the appointment of a different independent registered public accounting firm at any time during the year if the Audit Committee determines that such a change would be in the interests of the Company.

Representatives of PricewaterhouseCoopers will be present at the Annual Meeting, will have the opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions.

For the year ended December 31, 2013, the Company’s accounts were audited by PricewaterhouseCoopers. To the knowledge of management and the Audit Committee, in connection with the audit of our financial statements for the year ended December 31, 2013, there were no disagreements with PricewaterhouseCoopers on any matters of accounting principles or practices, financial statement disclosure, or auditing scope and procedure that, if not resolved to the satisfaction of PricewaterhouseCoopers, would have caused them to make reference to the matter in their reports. PricewaterhouseCoopers’ report on the financial statements of the Company for the year ended December 31, 2013 did not contain an adverse opinion or a disclaimer of opinion and was not qualified or modified as to uncertainty, audit scope, or accounting principles.

Fees to Independent Registered Public Accounting Firm

The Audit Committee must approve, in advance, all of PricewaterhouseCoopers’ services, whether or not related to an audit. Aggregate fees for professional services rendered for the Company by PricewaterhouseCoopers for the years ended December 31, 2013 and 2012 are described in the table below. All of the services for which fees were paid were pre-approved by the Audit Committee. The Audit Committee has considered the non-audit-related services rendered and believes that they are compatible with PricewaterhouseCoopers remaining independent.

	2013	2012
Audit Fees ⁽¹⁾	\$1,430,500	\$1,422,700

Audit Related Fees ⁽²⁾	\$49,750	\$67,500
Tax Fees ⁽³⁾	\$21,954	\$140,000
All Other Fees ⁽⁴⁾	\$1,800	\$1,800
TOTAL	\$1,504,004	\$1,632,000

Audit Fees include fees incurred for the audit of the Company's annual statements, review of financial statements (1) included in the Company's quarterly reports on Form 10-Q and services that are normally provided by PricewaterhouseCoopers in connection with statutory and regulatory filings or engagements.

Audit Related Fees include fees incurred for assurance and related services that are reasonably related to performance of the audit or review of the Company's financial statements but are not otherwise included as Audit (2) Fees. Audit Related Fees for the years ended December 31, 2013 and December 31, 2012 were primarily for certain accounting consultations.

Tax Fees include fees incurred for services related to tax compliance, tax planning and tax advice. Tax Fees for (3) the year ended December 31, 2013 were primarily related to an Abandoned and Unclaimed Property analysis. Tax fees for the year ended December 31, 2012 were primarily for services related to United States tax planning and an Abandoned and Unclaimed Property policies and procedures review.

All Other Fees are fees incurred for any services not included in the other categories of fees. All Other Fees for the (4) year ended December 31, 2013 and December 31, 2012 were related to license fees for an accounting research tool.

The Board recommends that shareholders vote "FOR" the ratification of the appointment of PricewaterhouseCoopers as the Company's independent registered public accounting firm for 2014.

AUDIT COMMITTEE REPORT

The Audit Committee of the Board was established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The Audit Committee, comprised entirely of non-employee directors, held eight meetings with its independent registered public accountants, PricewaterhouseCoopers LLP (PricewaterhouseCoopers) and eight executive sessions with PricewaterhouseCoopers, the Internal Audit Department and the independent directors during 2013. The Board considered the “independence” and “financial literacy” of each of the Audit Committee members, as such terms are defined under the rules of the Listing Standards and the SEC, and has concluded that each member of its Audit Committee is independent and financially literate in satisfaction of the current requirements of the Listing Standards and the SEC. The Board further concluded that Kerrii B. Anderson, Wendy E. Lane and Adam H. Schechter are “audit committee financial experts” as defined by SEC rules and that each has the “accounting or related financial management expertise” required by the Listing Standards.

The Audit Committee meets regularly with PricewaterhouseCoopers, management and the Company’s internal auditors. The Audit Committee reviewed the performance and fees of PricewaterhouseCoopers prior to recommending its appointment and met with representatives of PricewaterhouseCoopers to discuss the scope and results of the firm’s audit work, including the adequacy of internal controls and the quality of financial reporting. The Audit Committee reviewed and discussed with management the Company’s audited financial statements and has reviewed with PricewaterhouseCoopers all matters required to be discussed by Statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol.1, AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T. The Audit Committee has discussed with PricewaterhouseCoopers its independence and has received its written disclosures and certification confirming its independence, as required by applicable requirements of Public Company Accounting Oversight Board regarding its communications with the Audit Committee concerning independence. PricewaterhouseCoopers, the Company’s internal auditors and the Audit Committee have full access to one another, including regular meetings without management present. On the basis of the reviews and discussions referenced above, the Audit Committee recommended to the Board that the audited financial statements be included in the Company’s Form 10-K for the year ended December 31, 2013 for filing with the SEC.

As part of its duties, the Audit Committee also considers whether the provision of services other than audit services by PricewaterhouseCoopers, is compatible with maintaining the accountant’s independence. The Audit Committee considered the compatibility of the non-audit-related services performed by PricewaterhouseCoopers and determined that the registered public accounting firm’s independence has been maintained. See “Proposal Three: Ratification of Independent Registered Public Accounting Firm.”

Management is responsible for the Company’s financial reporting process, including its system of internal controls, and for the preparation of consolidated financial statements in accordance with generally accepted accounting principles. The Company’s internal auditors are responsible to the Audit Committee for testing the integrity of the financial accounting and reporting control systems and such other matters as the Audit Committee and the Board determine. PricewaterhouseCoopers is responsible for auditing the Company’s financial statements. The Audit Committee’s responsibility is to monitor and review these processes. It is not the Audit Committee’s responsibility to conduct auditing or accounting reviews or procedures. Therefore, the Audit Committee has relied, without independent verification, on (a) management’s representation that the financial statements have been prepared with

integrity and objectivity and in conformity with accounting principles generally accepted in the United States; (b) the representations of PricewaterhouseCoopers appearing in its report on the Company's financial statements; and (c) the representations of management that the internal control systems are effective.
