Item 1.01 Entry into a Material Definitive Agreement.

On July 2, 2013, Ascent Solar Technologies, Inc., a Delaware corporation (“Ascent”) entered into a framework agreement (the “Suqian Agreement”) for the establishment of a joint venture with the Government of the Municipal City of Suqian in Jiangsu Province, China (“Suqian”).

The agreement covers a multi-faceted, three-phase project. Completion of all three phases would involve an anticipated investment of up to \$500 million over six years, primarily funded by Suqian.

Under the framework agreement, in the first phase Ascent and Suqian will form a joint venture entity (“JV”) in which Ascent will have majority interest of up to 80%. The JV will build a factory to manufacture Ascent's proprietary photovoltaic modules. Ascent will contribute proprietary technology and intellectual property, approximately \$1.6 million in cash and certain equipment from its Colorado facility. Suqian will provide cash of approximately \$32.5 million as well as rent-free use of a 270,000 square foot factory that is currently being built in the Suqian Economic & Industrial Development Science Park. This factory is expandable to 1,000,000 square feet for phases two and three of the agreement. The total project size of phase one under the agreement is expected to be approximately \$160 million. Ascent will have the right to purchase this factory within the first 5 years at the initial construction cost, as well as the right to purchase Suqian's ownership interest in the JV for a modest nominal cost above Suqian's cash investment.

The implementation of the framework agreement, including the formation of the JV entity, will be subject to a number of contractual conditions and governmental approvals. Such conditions and approvals must be obtained in the future in order for the Suqian factory to be built and become operational.
